SF STATE – Student Pulse Survey

Introduction

The Student Pulse Survey questions are developed each semester by a group of staff and faculty representatives from different parts of campus to reflect current and ongoing student issues. The questions are finalized by Academic Institutional Research (AIR) in Academic Planning and Development and administered to students as part of the online course registration process. The student responses are analyzed by AIR. The following report presents the findings of the survey administered to students during Spring 2010.

Methods

Instrument

The instrument used for the survey was the SF State Student Pulse Survey, designed and modified over many years by personnel in AIR. The survey consists of 25 questions, of which a set of five questions is presented to each student. The SF State Student Pulse Survey questions and response options for Spring 2010 can be found in Appendix B.

Procedures

The administration of the Student Pulse Survey was conducted during Spring 2010 as part of the online course registration process. Students were presented one set of five questions based on the last digit of their student identification number. Students were able to skip any question(s) they did not want to answer.

AIR staff performed the data analysis, generating crosstabulations of survey question responses by demographic categories. Report results are based on the percentages and statistically significant standardized residuals found in the crosstabulations. Interpretations and conclusions drawn from the results of these data are limited to students who dropped or added courses in Spring 2010.

Summary of Findings

College Preparation and Skill Development:

More than three quarters of the survey participants responding to the questions on this topic reported agreement or strong agreement that when they entered SF State they were very well prepared for college, with the oral and written communications, critical thinking, and quantitative reasoning skills required in their classes.

Roughly 40% of the survey participants responding to the questions on this topic rated their major program “good” in helping them develop oral and written communication and critical thinking skills. One quarter rated their major program “fair” and one quarter rated it “excellent” in helping them develop oral communication skills. More than one quarter rated their major program “excellent” and nearly one quarter rated it “fair” in helping them develop written communication skills. More than one third rated their major program “excellent” in helping them develop critical thinking skills.

Community Service:

Eighty percent (80%) of the survey participants responding to the questions on this topic reported engaging in community service or volunteer activities. Nearly 40% reported engaging in community service or volunteer activities once or twice a year, followed closely by 22% who reported doing so at least weekly and 22% who reported performing such activities once or twice a month.

Sixty percent (60%) of respondents indicated that they have worked on a community problem or issue as part of an SF State course or extra-curricular activity “occasionally” or “never,” followed closely by one quarter responding “rarely.” Forty-two percent (42%) of survey participants rated their SF State coursework “good” in preparing them to deal with community problems or issues. One third rated their coursework “fair” in this regard.

Ethnically Diverse Society:

Forty-five percent (45%) of survey participants responding to the questions on this topic reported rarely having experienced or observed insensitive behavior or discrimination on campus. One third reported never having experienced or observed such behavior. Nearly three quarters of survey participants rated their SF State coursework “good” or “excellent” in helping them live in an ethnically diverse society. Forty-five percent (45%) of survey participants rated their out-of-class experience on campus “good” in helping them live in an ethnically diverse society, followed by 27% who rated it “fair” and 23% who rated it “excellent.” Eight-six percent (86%) of survey participants reported always or frequently feeling welcome on campus.

Campus Activities:

Roughly three quarters of the survey participants who responded to questions on this topic indicated that they agree or strongly agree that they would like to see more recreation, intramural sports, cultural, and entertainment activities on campus. More than two thirds of the respondents reported agreement or strong agreement that they would like to see more opportunities to support athletic teams on campus.

Economic Recession:

Forty-three percent (43%) of the survey participants who responded to this question indicated that they are working more hours than before the economic recession. Forty-three percent (43%) indicated that they are taking fewer classes while 42% indicated that they are taking the same number of classes as before the economic recession. Fifty-six percent (56%) of the respondents reported that they are living in the same place as before. Forty-five percent (45%) of the respondents reported that the quality of their classes has declined somewhat while 37% reported that it has declined a great deal. Forty-four percent (44%) of the respondents reported that access to their professors has declined somewhat because of the economic recession, followed by 32% who reported that it has stayed the same and 22% who reported that it has declined a great deal.

Demographic Characteristics of Respondents

All Respondents

Of the 27,465 students enrolled at SF State in Spring 2010, 20,271 students were provided the opportunity to respond to the survey. Of those students, 17,178 (84.7%) responded to the Student Pulse Survey.

Gender

Female students made up 60.2% (n=10335) of all respondents with male students making up 39.8% (n=6843).

Age

Students 24 years of age or younger made up 61.2% (n=10517) of all respondents while 38.8% (n=6661) of the respondents were 25 years of age or older. The range of student ages was from 18 to a maximum of 87 years. The mean was 25.7 years of age, and the standard deviation was 7.7. The mode or most frequent age of respondents was 22 years of age (12.1%, n=2074). The distribution of ages of the survey participants was comparable to that of all the students enrolled at SF State in Spring 2010.

NOTE: In order to facilitate the analysis and presentation of data, age was grouped into two categories: 24 years of age or younger and 25 years of age or older. The SF State Reentry Admission Program uses 25 years of age and older as one of its criteria. Using this criterion in the analysis of survey data may permit differentiation between the responses of traditional and non-traditional students.

Ethnicity

Of the 17,178 survey respondents, ethnicity was available for 86.7%. Of those students for whom ethnicity was available, most were Asian (37.0%) or White (35.9%), followed by 18.6% Latino, 6.7% African American, 1.1% Native Hawaiian or Other Pacific Islander, and .6% Native American or Alaskan Native. The percentages of respondents by ethnicity category are comparable to those for all the students enrolled at SF State in Spring 2010.

NOTE: To facilitate the analysis and presentation of data, the race/ethnicity categories of the Integrated Postsecondary Education Data System (IPEDS) were used.

IPEDS Ethnicity Category	Frequency	Percent of All Survey Respondents	Percent of Respondents with Ethnicity
Asian	5514	32.1	37.0
White	5344	31.1	35.9
Latino	2775	16.2	18.6
African American	1000	5.8	6.7
Native Hawaiian or Other Pacific Islander	165	1.0	1.1
Native American or Alaskan Native	92	.5	.6
Total (all respondents with ethnicity)	14890	86.7	100.0 ^a
No ethnicity available	2288	13.3	
Total (all survey respondents)	17178	100.0	

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Class Level

Most of the respondents were seniors (44.7%, n=7677), followed by juniors (19.3%, n=3315), graduate students (19.0%, n=3263), and sophomores (14.0%, n=2408). Freshman (3.0%, n=515) were the smallest segment of respondents. Compared to all the students enrolled at SF State in Spring 2010, freshmen made up a smaller portion of survey respondents (3.0%) than of enrollees (15.8%) while seniors made up a larger portion of the survey sample (44.7%) than of all Spring 2010 enrollees (34.6%).

NOTE: For the purposes of this report, the “graduate” category includes degree-seeking graduate students, non-degree seeking post-baccalaureate students, and students seeking a second baccalaureate degree.

College

Of all respondents, 21.7% (n=3721) were identified as students in the College of Business, 16.7% (n=2862) in the College of Behavioral and Social Sciences, 14.2% (n=2444) in the College of Health and Human Services, 12.6% (n=2159) in the College of Humanities, 12.5% (n=2150) in the College of Science and Engineering, 10.4% (n=1786) in the College of Creative Arts, 6.0% (n=1034) as Other (“All University,” undecided, Liberal Studies, special major, exchange, etc.) students, 5.1% (n=873) in the College of Education, and .9% (n=149) in the College of Ethnic Studies. The percentages of respondents by college are comparable to those for all the students enrolled at SF State in Spring 2010.

College	Frequency	Percent
Business	3721	21.7
Behavioral and Social Sciences	2862	16.7
Health and Human Services	2444	14.2
Humanities	2159	12.6
Science and Engineering	2150	12.5
Creative Arts	1786	10.4
Other	1034	6.0
Education	873	5.1
Ethnic Studies	149	.9

Overlap of Demographic Categories

There is overlap between some of the demographic categories that should be kept in mind when considering the results of the survey. Most graduate respondents (89.2%) were 25 years of age or older while most freshman (98.8%), sophomore (99.1%), and junior (82.5%) respondents were 24 years of age or younger. Nearly half (47.2%) of the graduate respondents were White. More than half (58.3%) of the respondents from the College of Business were Asian, and more than half of the respondents from the College of Education (51.0%), the College of Creative Arts (50.7%), and the College of Humanities (52.4%) were White. Most of the respondents from the College of Education (76.4%) were female as were most of the respondents from the College of Health and Human Services (80.0%).

Overall Summary

More than three quarters of respondents reported that when they entered SF State they were very well prepared for college, with the oral and written communications, critical thinking, and quantitative reasoning skills required in their classes. Roughly 40% of the respondents rated their major program “good” in helping them develop oral and written communication and critical thinking skills.

Eighty percent (80%) of the respondents reported engaging in community service or volunteer at least once or twice a year. Sixty percent (60%) indicated that they have worked on a community problem or issue as part of an SF State course or extra-curricular activity “occasionally” or “never.” Forty-two percent (42%) of the respondents rated their SF State coursework “good” in preparing them to deal with community problems or issues.

More than three quarters of the respondents reported rarely or never having experienced or observed insensitive behavior or discrimination on campus. Nearly three quarters rated their SF State coursework “good” or “excellent” in helping them live in an ethnically diverse society. Forty-five percent (45%) rated their out-of-class experience on campus “good” in helping them live in an ethnically diverse society. Eight-six percent (86%) of the respondents reported always or frequently feeling welcome on campus.

Roughly three quarters of the respondents indicated that they would like to see more recreation, intramural sports, cultural, and entertainment activities on campus. More than two thirds reported that they would like to see more opportunities to support athletic teams on campus.

Forty-three percent (43%) of the respondents indicated that they are working more hours than before the economic recession. Eighty-five percent (85%) indicated that they are taking fewer or the same number of classes as before. Fifty-six percent (56%) of the respondents reported that they are living in the same place. Forty-four percent (44%) reported that the quality of their classes and access to their professors have declined somewhat because of the economic recession.

Results by Question

Question 1: “I was very well prepared for oral communication skills required in my classes when I entered SFSU.”

More than half of the survey participants responding to this question reported agreement that they were very well prepared for oral communications skills required in their classes when they entered SF State. More than one third reported strong agreement with the statement.

Response	Frequency	Percent
Strongly agree	1213	35.9
Agree	1775	52.5
Disagree	315	9.3
Strongly disagree	78	2.3
Total	3381	100.0

Although more than half of male and female respondents reported agreement with the statement, a higher percentage of male respondents reported strong agreement while higher percentages of female respondents reported disagreement or strong disagreement. Respondents 25 years of age and older, White respondents, and graduate respondents were more likely than they would be by chance to report strong agreement. More Asian respondents than would be expected by chance expressed disagreement. Respondents from the Colleges of Education and Humanities were more likely and respondents from the College of Business less likely to report strong agreement.

Question 2: “I was very well prepared for written communication skills required in my classes when I entered SFSU.”

More than half of the survey participants responding to this question reported agreement that they were very well prepared for written communications skills required in their classes when they entered SF State. More than one third reported strong agreement with the statement.

Response	Frequency	Percent
Strongly agree	1212	36.1
Agree	1722	51.3
Disagree	367	10.9
Strongly disagree	55	1.6
Total	3356	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Responses did not differ significantly by gender. Respondents 25 years of age or older were more likely than they would be by chance to express strong agreement while respondents 24 years of age or younger were more likely to express agreement. White respondents were more likely to indicate strong agreement while more Asian respondents than would be expected by chance indicated disagreement. More Latino respondents than would be expected by chance reported strong disagreement. More than half of the graduate respondents reported strong agreement while more than half of the respondents in the other class levels reported agreement. By college, the highest percentages of respondents who reported strong agreement were from the Colleges of Education and Humanities.

Question 3: “I was very well prepared for critical thinking skills required in my classes when I entered SFSU.”

More than half of the survey participants responding to this question reported agreement that they were very well prepared for critical thinking skills required in their classes when they entered SF State. More than one third reported strong agreement with the statement.

Response	Frequency	Percent
Strongly agree	1196	35.7
Agree	1748	52.2
Disagree	356	10.6
Strongly disagree	51	1.5
Total	3351	100.0

Male respondents were more likely and female respondents less likely to express strong agreement, and male respondents were less likely than they would be by chance to express disagreement. Respondents 25 years of age or older were more likely to express strong agreement and a higher percentage of respondents from the older age group reported agreement or strong agreement. White respondents were more likely and Asian respondents less likely to report strong agreement. More than half of the graduate respondents reported strong agreement while more than half of the respondents in the other class levels reported agreement. More freshman and sophomore respondents than would be expected by chance reported disagreement. By college, the highest percentages of respondents who reported strong agreement were from the Colleges of Education and Humanities.

Question 4: “I was very well prepared for quantitative reasoning skills required in my classes when I entered SFSU.”

More than half of the survey participants responding to this question reported agreement that they were very well prepared for quantitative reasoning skills required in their classes when they entered SF State. Nearly one third reported strong agreement with the statement.

Response	Frequency	Percent
Strongly agree	986	29.9
Agree	1802	54.7
Disagree	442	13.4
Strongly disagree	67	2.0
Total	3297	100.0

Male respondents were more likely than female respondents than they would be by chance to report strong agreement while female respondents were more likely than male respondents to report disagreement. Respondents 25 years of age or older were more likely and while respondents 24 years of age or younger less likely to report strong agreement while respondents 24 years of age or younger were more likely and respondents 25 years of age or older less likely to report disagreement. More White respondents than would be expected by chance indicated strong agreement while more Latino respondents than would be expected by chance indicated strong disagreement. A higher percentage of graduate respondents than of other class levels reported strong agreement while higher percentages of freshman and sophomore respondents reported disagreement or strong disagreement. Respondents from the College of Science and Engineering were more likely to report strong agreement.

Question 5: “Overall, I was very well prepared for college when I entered SFSU.”

More than half of the survey participants responding to this question reported agreement that they were very well prepared for college when they entered SF State. More than one third reported strong agreement with the statement.

Response	Frequency	Percent
Strongly agree	1241	36.7
Agree	1806	53.5
Disagree	285	8.4
Strongly disagree	46	1.4
Total	3378	100.0

Responses did not differ significantly by gender. Respondents 25 years of age or older and White respondents were more likely than they would be by chance to express strong agreement. More Asian and African American respondents than would be expected by chance reported disagreement, and more Latino respondents than would be expected by chance reported strong disagreement. More than half of the graduate respondents reported strong agreement while more than half of the respondents in the other class levels reported agreement. Respondents from the Colleges of Education and Humanities were more likely to report strong agreement.

Question 6: “How would you rate your major program in helping you to develop oral communication skills?”

Most (40.8%) of the survey participants responding to this question rated their major program “good” in helping them develop oral communication skills. One quarter rated their major program “fair,” and one quarter rated it “excellent.”

Response	Frequency	Percent
Excellent	821	25.2
Good	1328	40.8
Fair	840	25.8
Poor	178	5.5
No major declared	86	2.6
Total	3253	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Higher percentages of respondents 25 years of age or older rated their major program “excellent” or “good” while a higher percentage of respondents 24 years of age or younger reported that they have not declared a major. African American respondents were more likely than they would be by chance to rate their major “excellent” while Asian respondents were more likely to rate theirs “good” in terms of helping them develop their oral communication skills. Higher percentages of senior and graduate respondents rated their major program “excellent.” Freshman and sophomore respondents were more likely to indicate that they have not declared a major. Respondents from the College of Humanities were more likely to rate their major program “excellent” while those from the College of Business were more likely to rate theirs “fair.” Respondents from the College of Science and Engineering were more likely to rate theirs “fair” or “poor.” Although respondents from the College of Ethnic Studies made up only 1.1% of all respondents to this question, 55.6% rated their major program “excellent” and the remaining 44.4% rated it “good” in terms of helping them develop oral communication skills.

Question 7: “How would you rate your major program in helping you to develop written communication skills?”

Most (41.9%) of the survey participants responding to this question rated their major program “good” in helping them develop written communication skills. More than one quarter rated their major program “excellent,” and nearly one quarter rated it “fair.”

Response	Frequency	Percent
Excellent	871	26.8
Good	1362	41.9
Fair	778	23.9
Poor	154	4.7
No major declared	86	2.6
Total	3251	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Respondents 25 years of age or older were more likely than they would be by chance to rate their major program “excellent” and less likely to rate it “fair.” Respondents 24 years of age or younger were more likely to report that they have not declared a major. African American and White respondents were more likely to rate their major program “excellent” while Asian respondents were more likely to rate theirs “fair” in terms of helping them develop written communication skills. Higher percentages of senior and graduate respondents rated their major program “excellent.” A higher percentage of sophomore respondents rated theirs “fair.” Freshman and sophomore respondents were more likely to indicate that they have not declared a major. Respondents from the Colleges of Behavioral and Social Sciences, Ethnic Studies, and Humanities were more likely to rate their major programs “excellent” in terms of helping them develop written communication skills. Respondents from the Colleges of Business and Science and Engineering were more likely to rate theirs “fair” or “poor.”

Question 8: “How would you rate your major program in helping you to develop critical thinking skills?”

Most (40.5%) of the survey participants responding to this question rated their major program “good” in helping them develop critical thinking skills. More than one third rated their major program “excellent.”

Response	Frequency	Percent
Excellent	1160	35.4
Good	1326	40.5
Fair	587	17.9
Poor	112	3.4
No major declared	90	2.7
Total	3275	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Higher percentages of respondents 25 years of age or older rated their major program “excellent” or “good” and were less likely than they would be by chance to rate it “poor.” Respondents 24 years of age or younger were more likely to report that they have not declared a major. More White respondents and fewer Asian respondents than would be expected by chance rated their major program “excellent” in terms of helping them develop critical thinking skills. More Latino respondents than would be expected by chance rated theirs “poor.” Although more respondents in each class level rated their major program “good,” senior and graduate respondents were more likely to rate their major program “excellent” while sophomore respondents were more likely to rate theirs “fair.” Freshman and sophomore respondents were more likely to indicate that they have not declared a major. Respondents from the Colleges of Behavioral and Social Sciences and Ethnic Studies were more likely to rate their major program “excellent” while those from the College of Business were more likely to rate theirs “fair” or “poor.”

Question 9: “How often do you engage in any kind of community service or volunteer activities?”

Most (37.2%) of the survey participants responding to this question reported engaging in community service or volunteer activities once or twice a year. This group was followed closely by respondents who reported doing so weekly or more often and respondents who reported performing such activities once or twice a month.

Response	Frequency	Percent
Weekly or more	644	21.8
Once or twice a month	640	21.7
Once or twice a year	1098	37.2
Never	566	19.2
Total	2948	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Male respondents were more likely to report never engaging in community service or volunteer activities. Respondents 25 years of age or older, graduate respondents, and African American respondents were more likely than would be expected by chance to report performing these activities weekly or more often. Respondents from the Colleges of Health and Human Services, Ethnic Studies, and Education were more likely to report engaging in community service or volunteer activities weekly or more often while those from the College of Business were more likely to report never doing so.

Question 10: “As part of an SFSU course or extra-curricular activity, have you worked on a community problem or issue?”

The survey participants’ responses about the frequency with which they have worked on a community problem or issue as part of an SF State course or extra-curricular activity were divided evenly between “occasionally” and “never,” followed closely by “rarely” and farther behind by “frequently.”

Response	Frequency	Percent
Never	867	29.9
Rarely	748	25.8
Occasionally	869	30.0
Frequently	412	14.2
Total	2896	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

While similar percentages of male and female respondents reported working rarely or occasionally on a community problem or issue, a higher percentage of male respondents reported never having worked on one, and a higher percentage of female respondents reported having worked frequently on one. Similar percentages of the two age groups reported working on a community problem or issue occasionally or never, while a higher percentage of respondents 25 years of age or older reported doing so frequently and a lower percentage reported doing so rarely. Latino and African American respondents were more likely than by chance to indicate that they frequently did, Asian respondents were more likely to indicate that they rarely did, and White respondents were more likely to indicate that they never worked on a community problem or issue. Relative to the percentages in other class levels, a higher percentage of graduate respondents reported frequently working on community problems or issues. Respondents from the Colleges of Education, Ethnic Studies, and Health and Human Services were more likely to report frequently working on community problems or issues. Most respondents from the Colleges of Business, Humanities, and Science and Engineering reported never having done so.

Question 11: “How would you rate your SFSU coursework in preparing you to deal with community problems or issues?”

Most (42.6%) survey participants who answered this question rated their SF State coursework “good” in preparing them to deal with community problems or issues. One third rated their coursework “fair” in this regard.

Response	Frequency	Percent
Excellent	501	15.0
Good	1419	42.6
Fair	1106	33.2
Poor	303	9.1
Total	3329	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Responses did not differ significantly by gender. Higher percentages of respondents 25 years of age or older and graduate respondents rated their coursework “excellent” or “good” in preparing them to deal with community problems or issues while higher percentages of respondents 24 years of age or younger and undergraduate respondents rated them “fair” or “poor.” Respondents from the College of Behavioral and Social Sciences were more likely than by chance to rate their coursework “excellent” in this regard while those from the College of Creative Arts were more likely to rate them “poor.”

Question 12: “On campus, how often have you experienced or observed insensitive behavior or discrimination?”

More than three quarters of the survey participants who answered this question reported never or rarely having experienced or observed insensitive behavior or discrimination on campus.

Response	Frequency	Percent
Never	1100	32.6
Rarely	1517	45.0
Occasionally	636	18.9
Frequently	119	3.5
Total	3372	100.0

Responses did not differ significantly by gender or age group. Responses did not differ significantly by class level or college when “never” and “rarely” responses were combined and compared to “occasionally” and “frequently” responses combined. Of the few respondents who reported occasionally or frequently experiencing or observing insensitive behavior or discrimination on campus, there was a slightly higher percentage of African American respondents than respondents of other ethnicity categories.

Question 13: “How would you rate your SFSU coursework in helping you live in an ethnically diverse society?”

Nearly three quarters of the survey participants who responded to this question rated their SF State coursework “good” or “excellent” in helping them live in an ethnically diverse society.

Response	Frequency	Percent
Excellent	871	26.2
Good	1527	45.9
Fair	769	23.1
Poor	163	4.9
Total	3330	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

More male respondents than would be expected by chance rated their coursework “poor” in this regard. Respondents 25 years of age or older were more likely to rate their coursework “excellent” or “good” and less likely to rate it “fair” or “poor” than were respondents 24 years of age or younger. More African American respondents than would be expected by chance rated their coursework “poor” in helping them live in an ethnically diverse society. Percentages of respondents rating their coursework “excellent” increased as class level ascended while percentages of respondents rating their coursework “poor” in this regard increased as class level descended. Respondents from the College of Behavioral and Social Sciences were more likely to rate their coursework “excellent” while those from the College of Science and Engineering were more likely to rate theirs “fair” or “poor.”

Question 14: “How would you rate your out-of-class experience on campus in helping you live in an ethnically diverse society?”

Nearly half of the survey participants who responded to this question rated their out-of-class experience on campus “good” in helping them live in an ethnically diverse society. Slightly more and slightly less than one quarter rated it, respectively, “fair” and “excellent.”

Response	Frequency	Percent
Excellent	732	22.6
Good	1441	44.5
Fair	878	27.1
Poor	190	5.9
Total	3241	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Male respondents were more likely than female respondents to rate it “poor.” Slightly higher percentages of respondents 25 years of age or older rated their out-of-class experience on campus “excellent” or “good” in this regard while higher percentages of respondents 24 years of age or younger rated it “fair” or “poor.” Although the highest percentage of responses in each ethnicity category were “good,” a slightly higher percentage of Asian respondents than would be expected by chance rated their experience “fair” in this regard, and slightly more African American respondents than would be expected by chance rated their out-of-class experience on campus “poor” in helping them live in an ethnically diverse society. Responses did not differ significantly by class level. More respondents from the College of Business than would be expected by chance rated their experience “fair” while more respondents from the College of Humanities than would be expected by chance rated their experience “poor.”

Question 15: “Do you feel welcome on campus?”

The majority (85.8%) of the survey participants who responded to this question reported always or frequently feeling welcome on campus.

Response	Frequency	Percent
Always	1451	43.8
Frequently	1392	42.0
Rarely	386	11.7
Never	84	2.5
Total	3313	100.0

Respondents 25 years of age or older and graduate respondents were more likely than respondents 24 years of age or younger and undergraduate respondents to report always feeling welcome on campus. White respondents were more likely and Asian respondents less likely to report always feeling welcome. More Asian respondents than would be expected by chance reported rarely feeling welcome. A higher percentage of freshman respondents than those at other class levels reported never feeling welcome on campus.

Question 16: “I would like to see more recreation activities on campus.”

More than three quarters of the respondents to this question indicated that they agree or strongly agree that they would like to see more recreation activities on campus.

Response	Frequency	Percent
Strongly agree	936	31.8
Agree	1426	48.4
Disagree	402	13.7
Strongly disagree	181	6.1
Total	2945	100.0

Male respondents were more likely than female respondents to report strong agreement, but the percentages of respondents of each gender who reported agreement or strong agreement were nearly equal. Responses did not differ significantly by age group. More Latino respondents than would be expected by chance indicated that they strongly agree that they would like to see more recreation activities on campus. More White respondents than would be expected by chance indicated that they disagree or strongly disagree. Relative to responses in other class levels, a higher percentage of sophomore respondents reported disagreement or strong disagreement. A higher percentage of respondents from the College of Health and Human Services reported strong agreement.

Question 17: “I would like to see more intramural sports activities on campus.”

Nearly three quarters of the respondents to this question reported agreement or strong agreement that they would like to see more intramural sports activities on campus.

Response	Frequency	Percent
Strongly agree	842	29.8
Agree	1247	44.1
Disagree	509	18.0
Strongly disagree	228	8.1
Total	2826	100.0

Male respondents were more likely than female respondents to report strong agreement. Responses by age group were similar with less strong agreement reported by respondents 25 years of age or older. More Asian respondents than would be expected by chance indicated that they agree that they would like to see more intramural sports activities on campus. More White respondents than would be expected by chance indicated that they disagree or strongly disagree. More junior respondents than would be expected by chance indicated that they agree while a higher percentage of graduate respondents than respondents in other class levels indicated that they disagree or strongly disagree. Higher percentages of respondents from the Colleges of Business and Health and Human Services reported agreement or strong agreement while higher percentages of respondents from the Colleges of Creative Arts and Humanities reported disagreement or strong disagreement.

Question 18: “I would like to see more cultural activities on campus.”

More than three quarters of the respondents to this question reported agreement or strong agreement that they would like to see more cultural activities on campus.

Response	Frequency	Percent
Strongly agree	1005	33.4
Agree	1440	47.9
Disagree	417	13.9
Strongly disagree	144	4.8
Total	3006	100.0

Male respondents were less likely than female respondents to report agreement, but the percentages of respondents of each gender who reported agreement or strong agreement were similar. Male respondents were more likely than female respondents to report strong disagreement. Responses did not differ significantly by age group. More Latino and African American respondents than would be expected by chance indicated that they strongly agree that they would like to see more cultural activities on campus. More White respondents and fewer Asian respondents than would be expected by chance indicated that they disagree or strongly disagree. Responses did not differ significantly by class level, although a higher percentage of sophomore respondents reported disagreement or strong disagreement. Respondents from the Colleges of Health and Human Services and Ethnic Studies were more likely to report strong agreement while respondents from the College of Science and Engineering were more likely to report strong disagreement.

Question 19: “I would like to see more entertainment activities on campus.”

More than three quarters of the respondents to this question reported agreement or strong agreement that they would like to see more entertainment activities on campus.

Response	Frequency	Percent
Strongly agree	1169	38.3
Agree	1359	44.6
Disagree	374	12.3
Strongly disagree	147	4.8
Total	3049	100.0

Male respondents were more likely than female respondents to report strong agreement, but the percentages of respondents of each gender who reported agreement or strong agreement were similar. A higher percentage of respondents 24 years of age or younger expressed strong agreement and a lower percentage of these respondents expressed disagreement or strong disagreement. Latino and African American respondents were more likely to indicate that they strongly agree that they would like to see more entertainment activities on campus. More White respondents and fewer Asian respondents than would be expected by chance indicated that they disagree or strongly disagree. A lower percentage of graduate respondents than undergraduate reported agreement or strong agreement. A higher percentage of respondents from the College of Science and Engineering expressed disagreement or strong disagreement.

Question 20: “I would like to see more opportunities to support athletic teams on campus.”

More than two thirds of the respondents to this question reported agreement or strong agreement that they would like to see more opportunities to support athletic teams on campus.

Response	Frequency	Percent
Strongly agree	811	28.5
Agree	1163	40.9
Disagree	563	19.8
Strongly disagree	304	10.7
Total	2841	100.0 ^a

^a Percents do not sum to 100.0% due to rounding to one decimal place.

Male respondents were more likely to express strong agreement, although similar percentages of respondents of each gender reported agreement or strong agreement. Respondents 24 years of age or younger were more likely than by chance to report strong agreement. More Latino respondents than would be expected by chance reported strong agreement and more Asian respondents than would be expected by chance reported agreement that they would like to see more opportunities to support athletic teams on campus. Relative to respondents in other ethnicity categories and class levels, higher percentages of White respondents and graduate respondents reported disagreement or strong disagreement. Respondents from the College of Health and Human Services were more likely than by chance to express strong agreement, and respondents from the College of Business were more likely to express agreement. A higher percentage of respondents from the College of Education than from other colleges expressed disagreement, and higher percentages of respondents from the Colleges of Creative Arts and Humanities expressed strong disagreement.

Question 21: “Because of the economic recession, I am working:”

Most (42.8%) respondents indicated that they are working more hours than before the economic recession.

Response	Frequency	Percent
More hours than before	1433	42.8
Same hours	670	20.0
Fewer hours than before	529	15.8
Not Applicable	715	21.4
Total	3347	100.0

Responses did not differ significantly by gender. Respondents 25 years of age or older were more likely and respondents 24 years of age or younger less likely to report working the same hours as before the economic recession. Most respondents 24 years of age or younger reported working more hours than before. Latino respondents were more likely to report working more hours than before. White respondents, graduate respondents, and respondents from the College of Education were more likely than by chance to report working the same hours as before. A higher percentage of Asian respondents, sophomore respondents, and respondents from the College of Business reported that the question is not applicable to them.

Question 22: “Because of the economic recession, I am taking:”

Most (85.3%) respondents indicated that they are taking fewer or the same number of classes as before the economic recession.

Response	Frequency	Percent
More classes than before	503	14.7
Same number of classes	1438	42.0
Fewer classes	1480	43.3
Total	3421	100.0

Responses did not differ significantly by gender. Respondents 24 years of age or younger were more likely to report taking fewer classes while respondents 25 years of age or older were more likely to report taking the same number of classes or more than before the economic recession. More Latino respondents than would be expected by chance reported taking more classes while more White respondents than would be expected by chance reported taking the same number of classes as before. Higher percentages of freshman, sophomore, and junior respondents indicated that they are taking fewer classes than before the recession. More senior respondents than would be expected by chance reported taking more classes. Graduate respondents and respondents from the College of Education were more likely to report taking the same number of classes. Other (“All University,” undecided, Liberal Studies, special major, exchange, etc.) respondents were more likely to report taking fewer classes than before.

Question 23: “Because of the economic recession, I am living:”

More than half of the respondents indicated that they are living in the same place as before the economic recession.

Response	Frequency	Percent
In the same place	1894	55.8
Moved to less expensive housing	816	24.0
Moved home or in with relatives	372	11.0
Other	312	9.2
Total	3394	100.0

Responses did not differ significantly by gender. Respondents 25 years of age or older, graduate respondents, and respondents from the College of Education were more likely to indicate that they are living in the same place. More respondents 24 years of age or younger than would be expected by chance indicated that they moved to less expensive housing because of the economic recession. Asian respondents were more likely to report living in the same place while more Latino respondents than would be expected by chance reported moving to less expensive housing or moving home or in with relatives. More sophomore respondents and respondents from the Colleges of Creative Arts and Humanities than would be expected by chance reported moving to less expensive housing while more junior respondents and respondents from the College of Science and Engineering than would be expected by chance reported moving home or in with relatives.

Question 24: “Because of the economic recession, the quality of my classes has:”

Nearly half of the respondents to this question reported that the quality of their classes has declined somewhat because of the economic recession. More than one third reported that it has declined a great deal.

Response	Frequency	Percent
Improved	49	1.4
Stayed the same	554	16.1
Declined somewhat	1555	45.3
Declined a great deal	1274	37.1
Total	3432	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Higher percentages of respondents 25 years of age or older, graduate respondents, and respondents from the College of Education reported that the quality of their classes has stayed the same. Higher percentages of respondents 24 years of age or younger and undergraduate respondents reported that the quality has declined a great deal. Respondents from the College of Creative Arts were more likely to report that the quality of their classes has declined a great deal because of the economic recession. More respondents than would be expected by chance from the College of Business reported that the quality of their classes has improved. Responses did not differ significantly by ethnicity.

Question 25: “Because of the economic recession, access to my professors has:”

Nearly half of the respondents to this question reported that access to their professors has declined somewhat because of the economic recession. Nearly one third reported that it has stayed the same, followed by nearly one quarter who reported that it has declined a great deal.

Response	Frequency	Percent
Improved	68	2.0
Stayed the same	1083	31.8
Declined somewhat	1495	43.9
Declined a great deal	763	22.4
Total	3409	100.0 ^a

^aPercents do not sum to 100.0% due to rounding to one decimal place.

Responses did not differ significantly by gender. Higher percentages of respondents 25 years of age or older, graduate respondents, and respondents from the College of Education reported that access to their professors has stayed the same. Higher percentages of respondents 24 years of age or younger and undergraduate respondents reported that access has declined a great deal. More respondents than would be expected by chance from the College of Business reported that access to their professors has improved because of the economic recession.

Appendix A – Frequency and percent of responses by demographic category for all survey questions

Appendix B – SF State Student Pulse Survey, Spring 2010

1. I was very well prepared for oral communication skills required in my classes when I entered SFSU.
 - a) Strongly agree
 - b) Agree
 - c) Disagree
 - d) Strongly disagree

2. I was very well prepared for written communication skills required in my classes when I entered SFSU.
 - a) Strongly agree
 - b) Agree
 - c) Disagree
 - d) Strongly disagree

3. I was very well prepared for critical thinking skills required in my classes when I entered SFSU.
 - a) Strongly agree
 - b) Agree
 - c) Disagree
 - d) Strongly disagree

4. I was very well prepared for quantitative reasoning skills required in my classes when I entered SFSU.
 - a) Strongly agree
 - b) Agree
 - c) Disagree
 - d) Strongly disagree

5. Overall, I was very well prepared for college when I entered SFSU.
 - a) Strongly agree
 - b) Agree
 - c) Disagree
 - d) Strongly disagree

6. How would you rate your major program in helping you to develop oral communication skills?
 - a) Excellent
 - b) Good
 - c) Fair
 - d) Poor

7. How would you rate your major program in helping you to develop written communication skills?
 - a) Excellent
 - b) Good
 - c) Fair
 - d) Poor
 - e) No major declared

8. How would you rate your major program in helping you to develop critical thinking skills?
 - a) Excellent
 - b) Good
 - c) Fair
 - d) Poor
 - e) No major declared

9. How often do you engage in any kind of community service or volunteer activities?
 - a) Weekly or more
 - b) Once or twice a month
 - c) Once or twice a year
 - d) Never

10. As part of an SFSU course or extra-curricular activity, have you worked on a community problem or issue?
 - a) Never
 - b) Rarely
 - c) Occasionally
 - d) Frequently

11. How would you rate your SFSU coursework in preparing you to deal with community problems or issues?

- a) Excellent
- b) Good
- c) Fair
- d) Poor

12. On campus, how often have you experienced or observed insensitive behavior or discrimination?

- a) Never
- b) Rarely
- c) Occasionally
- d) Frequently

13. How would you rate your SFSU coursework in helping you live in an ethnically diverse society?

- a) Excellent
- b) Good
- c) Fair
- d) Poor

14. How would you rate your out-of-class experience on campus in helping you live in an ethnically diverse society?

- a) Excellent
- b) Good
- c) Fair
- d) Poor

15. Do you feel welcome on campus?

- a) Always
- b) Frequently
- c) Rarely
- d) Never

16. I would like to see more recreation activities on campus.

- a) Strongly agree
- b) Agree
- c) Disagree
- d) Strongly disagree

17. I would like to see more intramural sports activities on campus.

- a) Strongly agree
- b) Agree
- c) Disagree
- d) Strongly disagree

18. I would like to see more cultural activities on campus.

- a) Strongly agree
- b) Agree
- c) Disagree
- d) Strongly disagree

19. I would like to see more entertainment activities on campus.

- a) Strongly agree
- b) Agree
- c) Disagree
- d) Strongly disagree

20. I would like to see more opportunities to support athletic teams on campus.

- a) Strongly agree
- b) Agree
- c) Disagree
- d) Strongly disagree

21. Because of the economic recession, I am working:

- a) More hours than before
- b) Same hours
- c) Fewer hours than before
- d) Not applicable

22. Because of the economic recession, I am taking:

- a) More classes than before
- b) Same number of classes
- c) Fewer classes

23. Because of the economic recession, I am living:

- a) In the same place
- b) Moved to less expensive housing
- c) Moved home or in with relatives
- d) Other

24. Because of the economic recession, the quality of my classes has:

- a) Improved
- b) Stayed the same
- c) Declined somewhat
- d) Declined a great deal

25. Because of the economic recession, access to my professors has:

- a) Improved
- b) Stayed the same
- c) Declined somewhat
- d) Declined a great deal
