By the end of graduate studies, our students should embody multicultural competence, have grown deep connections to the local community, and embrace best practices in counseling. Combined, our students provide thousands of hours per year of counseling services to San Francisco Bay Area communities. They are in schools, community mental health and rehabilitation agencies, colleges and universities, careers centers, and hospitals, to name a few. Our students reflect the diversity of California and especially the San Francisco Bay Area.

Graduates of the department will have the necessary preparation to be eligible to sit for the National Board of Certified Counselors examination, known as the National Counselor Examination®. Clinical Rehabilitation and Mental Health counseling graduates to be eligible to sit for the National Certified Rehabilitation Counselor (CRC) exam. Graduates of the program will also be license eligible in the state of California for either a Licensed Professional Clinical Counselor (for all degrees) or a Marriage & Family Therapist (MFCC degree program only).

We prepare School counseling students for the PPS Credential (School Counseling Program).

The Department of Counseling offers three master’s degrees:

- Master of Science in Counseling — There are four different specializations—Career, College, Gerontological, and School. School counseling students are eligible for the State of California Pupil Personnel Services Credential with a specialization in School Counseling (PK–12). Graduates will have achieved most of the education requirements for the Licensed Professional Clinical Counselor license in California.

  - Master of Science in Counseling: Concentration in Marriage, Family, and Child Counseling. Students are eligible to sit for the State of California examination for the Marriage and Family Therapist (MFT) license upon completion of all the Board of Behavioral Sciences requirements. Graduates will also have achieved most of the education requirements for the Licensed Professional Clinical Counselor license in California.

  - Master of Science in Clinical Rehabilitation and Mental Health Counseling. Students are eligible to take the National Certified Rehabilitation Counselor examination. Graduates will have achieved most of the education requirements for the Licensed Professional Clinical Counselor license in California.

Students specialize in one area of counseling. For example, a student whose objective is an MFT license will follow the curriculum for the M.S. in Counseling: Concentration in MFCC. In addition, students may also apply to take an emphasis in another counseling area, such as school, career, college, gerontological, or rehabilitation counseling. If accepted, additional courses and fieldwork will be required.

The department also offers an undergraduate minor in counseling. The minor is designed for students who want training as a paraprofessional or counselor aide; to supplement majors that have some involvement with the helping professions; or for students considering graduate study in human services.

Accreditation
All of the counseling department programs are accredited. The programs in School, College, Career, Gerontological, and Marriage and Family Counseling are accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) through 2018. The Clinical Rehabilitation and Mental Health Counseling program is currently accredited by the Council on Rehabilitation Education (CORE) *NOTE: CORE and the Council for Accreditation of Counseling and Related Educational Programs (CACREP) have signed a Plan of Merger Agreement, and beginning July 1, 2017, CACREP will carry on the mission of both programs. Students who begin the programs fall 2016 and thereafter will graduate from a CACREP accredited program. The Pupil Personnel Services Credential program in School Counseling is accredited by the California Commission on Teacher Credentialing (CTC).

Career Outlook
Students graduating with a master’s degree in counseling are eligible for a variety of career options. The profession of counseling involves counselors assisting clients to learn about themselves and learn to help themselves within their respective environments. The role of the professional counselor calls for skills, attitudes, and knowledge needed to help people make personal life decisions.

Career Counselors work in high school, college and university career centers, student support services and advising offices. Some graduates use this training to establish private career counseling and consultation practices while others enter career development centers in private industry and public agencies. Many students combine this training with another area of counseling. Program Coordinator: Rebecca Toporek, Ph.D.; email: rtoporek@sfsu.edu.
College Counselors may work in two- and four-year colleges and universities providing academic counseling in a range of college student personnel positions in programs such as student retention, EOP or EOPS, financial aid, CalWorks, multicultural student services, residential life, college outreach, transfer services, general counseling and other student services. Program Coordinator: Alison Cerezio, Ph.D.; email: acerezio@sfsu.edu.

School Counselors upon graduation and after passing the California CBEST examination receive their State of California Pupil Personnel Services Credential with a specialization in School Counseling (PK–12) and work in public and private school settings. They do personal and academic counseling and work in an integrated services team approach with other mental health and education professionals. Program Coordinator: Patricia Van Velsor, Ph.D.; email: pvanvels@sfsu.edu.

Gerontological Counselors work with older adults and their families performing case management and counseling in consultation with family members. Settings may include senior centers, residential homes, social service agencies, and hospices. Gerontological counselors benefit from having an emphasis in Clinical Rehabilitation and Mental Health Counseling. Program Coordinator: TBD.

MFT Counselors work with mild, moderate, and severe mental health populations in the context of their work settings. In addition to working in the public sector, MFTs may also open private practices upon receiving their license. Program Coordinator: and Karl Kwan, Ph.D.; email: kwan@sfsu.edu.

Clinical Rehabilitation and Mental Health Counselors provide counseling, advocacy and case management for persons with physical, psychological, neurological, cognitive and sensory related health and behavioral health impairments, focusing on personal and environmental assets and barriers, community participation and access, and prevention and wellness. Clinical Rehabilitation and Mental Health Counselors are trained in biopsychosocial orientation and work with an array of allied health and mental health professionals to assure a continuum of care that promotes optimal functioning and quality of life. Working with clients that span a broad age-range from late adolescence to older adulthood, clinical rehabilitation and mental health counselors work in diverse counseling contexts including public and private non-profit rehabilitation and behavioral health agencies, Veteran’s Administration, K–12 and higher education settings, wellness centers, school-to-work transition programs, substance abuse agencies, county mental health agencies, state departments for those with intellectual disabilities, disability management programs, private, insurance-based rehabilitation, and private practice. Program Coordinator: Julie Chronister Ph.D., CRC; jchronis@sfsu.edu.

Assistant Professors
Cerezio, Fitzgerald, O’Shaughnessy

Minor in Counseling
Undergraduate Minor Advisor: Robert Williams Pd.D. rwill@sfsu.edu.

The Minor in Counseling program and related elective courses emphasizes student services in relation to a college campus. COUN 690 provides a broad overview of the entire field of counseling and COUN 691 exposes students to the department’s core value of multicultural human relations. The peer counseling courses (COUN 605 and COUN 606) offer an opportunity to actively engage the SF State student community on issues such as substance abuse and sexual abuse or assault. In addition, students are trained in basic counseling skills that necessarily include a great deal of self-awareness and self-examination. Furthermore, the department offers several elective courses related to the minor.

The Field of Counseling
Students are introduced to the counseling profession through an overview of the role and functions of counselors in career, college, marriage, family and child, school, mental health, and rehabilitation settings; historical perspective; professional identification; ethical considerations; and self-awareness.

Psychological Understandings
Students receive a general introduction to the field of counseling and psychological dynamics.

Decision Making
Students examine how individuals make choices and how decisions are made through self-assessment and evaluation by others. The study includes ethnic and cultural differences in the decision-making process.

Skills Training
The development of basic skills that include attending, responding, interpretation, and decision making. The training includes practicum experience in interviewing skills.

Multicultural Human Relations
This group of courses equips students with the intrapersonal and interpersonal insights, socio-historical knowledge and communication competencies necessary to develop and enhance their multicultural relationships.

The counseling minor requires that students take six courses (18 units) and six units in electives, with the consent of the undergraduate minor advisor. Courses used to fulfill a major requirement may be also counted to fulfill the minor requirements.

Master of Science in Clinical Mental Health Counseling

The Clinical Mental Health Counseling (CMHC) program prepares counselors to address the wide array of intersecting psychosocial, cultural, vocational and systemic circumstances that are barriers to the health, wellness, and quality of life of those served. Clinical Mental Health Counseling students are trained to work with some of the most vulnerable, marginalized communities who experience disabling health and behavioral health conditions that are often complicated by histories of poverty, trauma, homelessness, substance abuse, oppression and criminal justice involvement. Students entering our program are social-justice oriented, embrace difference and inclusion, exhibit a desire for ongoing self-examination, and are expected to continually work towards cultural and disability competency.

Trained through a biopsychosocial and pluralistic lens, students are oriented towards conceptualizing clients’ multiple, intersecting identities, contexts, vulnerabilities, and assets, using contemporary classification systems relevant to today’s practicing counselor. Students learn and apply a broad spectrum of traditional and post-modern theories and modalities, including the Mental Health Recovery Model, and are expected to integrate health promotion, wellness, and evidence-based practices into their work. Our program strives to graduate students who are not only therapeutically skilled and culturally competent counselors, advocates and clinical case managers, but who also understand and challenge the political, sociocultural, and systemic factors that negatively impact the health and well-being of our clients, their families, and their communities.

Students graduating from the CRMH program work in a diverse range of community-based health and behavioral health organizations, agencies serving particular populations (e.g., LGBTQ, Transition Age Youth, College Students, Older Adults), or persons with specific conditions or circumstances (e.g., substance abuse, homelessness, HIV/AIDS, and other health or behavioral health conditions), county behavioral health agencies, hospital-affiliated programs, educational settings, state and federal institutions, and private practice. Graduates meet all the academic and fieldwork requirements for the California Professional Clinical Counselor License (LPCC) as set forth in Section 4999.33 (http://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=BPC&division=2.3&title=16&part= chapter=16&article=3.html) of the Business and Professional Code for Licensed Professional Clinical Counselors. To become an LPCC, graduates must obtain 3,000 post-graduate hours under a qualified supervisor, and pass the National Clinical Mental Health Counselor Examination (NCMHCE) and the California Law and Ethics Exam. Please refer to the CALPCC (http://calpcc.org) for more information. Clinical Mental Health Counseling graduates are also positioned to become a Nationally Certified Counselor (NCC) (http://nbcc.org) and a Certified Rehabilitation Counselor (CRC) (https://www.crccertification.com).

Graduate Programs in Counseling

General Information
At least 60 units of approved graduate work are required for the Master of Science degrees. All students go through a basic core sequence of academic courses including four semesters of supervised counseling practicum and internship. Students select electives according to their area of specialization. Two different academic year field placements are required. The department works collaboratively with over 150 community agencies that provide service and training opportunities for our students. These agencies are carefully screened to meet our standards. Fieldwork placements are viewed as an integral part of the training of prospective counselors.

Once admitted to the program, students may petition the department’s program coordinator and chair for up to 12 units of appropriate post-baccalaureate degree work taken in other institutions within seven years from the date students plan to graduate. Courses taken for another degree or credential may not be counted toward the master’s degree. Courses taken at other institutions after admission to the graduate program may not be counted toward the master’s degree. Refer to Graduate Admissions and Graduate Studies, Transfer Credit from Other Institutions (p. 118) for more information.

It may be possible to complete the M.S. program either as a full-time student or as a part-time student taking daytime, late afternoon, and evening classes. Students must, however, expect that their personal and
work schedules will need to be sufficiently flexible to accommodate fieldwork requirements and department class schedules.

Admission to Program
Applicants are admitted as conditionally classified graduate students in the fall semester only - there are no spring admits. Admission to the department involves the following procedures:

1. Complete the GRE General Test\(^1\), paying particular attention to the Written Analytical Section of the GRE. See note below.
2. Complete two separate applications:
   a. Department of Counseling program application available on our website (http://counseling.sfsu.edu) and
   b. San Francisco State University Graduate Studies online application available on the Division of Graduate Studies website (http://grad.sfsu.edu).
3. Submit the counseling program application to the Department of Counseling by January 15.
4. Submit the SF State Graduate Studies online application by January 15.

\(^1\) Please note: Your GRE scores will not determine our recommendation to either admit or deny you admission to our program. We will review the Analytical Writing score so that we may determine your writing needs before you enter the program. Those who do not meet the minimum writing expectation, that is a 4.0 on the Analytical Writing Section of the GRE General Test, upon admission will be required to take a writing course, HSS 700. Refer to www.ets.org/gre (http://www.ets.org/gre) for all GRE and GRE test related questions.

Prerequisites
Prior to enrolling for classes, an applicant must successfully complete three undergraduate prerequisites with a grade of C or better: theories of personality/counseling, development through the lifespan, and a psychopathology course. A minimum undergraduate GPA of 3.0 in the last 60 units is required for admission to the program. Paid or volunteer experience working with people is an important factor for admission. Selection of students is based on academic as well as personal background.

COUN 690 is a prerequisite for all students except those specializing exclusively in Clinical Mental Health Counseling. This course should be taken prior to admission to the program or can be taken the first semester in attendance. Students who do not earn a grade of B minus (B−) or better in the repeated course will not be considered for classified status.

Access to Counseling Courses Prior to Admission
Applicants may take, on a space available basis, and by permission of the instructor, any of the following courses through Open University:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>COUN 690</td>
<td>Field of Counseling I</td>
<td>3</td>
</tr>
<tr>

<td>COUN 702</td>
<td>Developmental Foundations for Counselors</td>
<td>3</td>
</tr>
<tr>
<td>COUN 703</td>
<td>Psychological Foundations for Counselors</td>
<td>3</td>
</tr>
</tbody>
</table>

Students shall not take any courses numbered 700 or above and count them toward their SF State bachelor’s degree; however, SF State students may indicate on their graduation application that they wish to have these courses applied to their graduate work if taken in the final semester before graduation. Completion of these courses does not guarantee admission into the program.

Written English Proficiency Requirement
Level One
All applicants must successfully demonstrate writing proficiency with a score of 4.0 or better on the Analytic Writing section of the Graduate Record Examination. This must be taken prior to applying to the program. The score must be submitted in your application package. Those who do not meet the minimum writing expectation upon admission will be required to take a writing course, usually at an additional cost.

Level Two
Satisfied by demonstration of English competency on the culminating experience paper for COUN 892.

Clinical Proficiency Requirement
Students must earn a grade of B or better in the following courses:

Master of Science in Counseling
The M.S. in Counseling incorporates four specializations and/or emphases: career, college, school, and gerontology. The scope of this
degree allows students the flexibility to focus their attention on specific areas of interest. The student combines the core sequence of classes with their specialization or emphasis. Counselors will be able to function in a wide variety of community agencies and work with individuals of all ages. The curriculum meets most of the educational requirements to be eligible for the Licensed Professional Clinical Counselor license.

Graduate Programs in Counseling

General Information

At least 60 units of approved graduate work are required for the Master of Science degrees. All students go through a basic core sequence of academic courses including four semesters of supervised counseling practicum and internship. Master of Science in Counseling: Concentration in Marriage, Family, and Child Counseling

The Master of Science in Counseling: Concentration in Marriage, Family, and Child Counseling provides the student with a degree that can lead to practice as a licensed marriage and family therapist (MFT). The MFT counselor meets with individuals, groups, and families that are in need of assistance in working through personal issues. MFT counselors work in a large variety of public and private community agencies, schools, hospitals, and other settings, including private practice. The MFT curriculum meets all of the educational requirements, except the psychopharmacology course, to be eligible for licensure in California upon graduation. The MFT curriculum meets most of the educational requirements to be eligible for the Licensed Professional Clinical Counselor License.

Students shall not take any courses numbered 700 or above and count them toward their SF State bachelor’s degree; however, SF State students may indicate on their graduation application that they wish to have these courses applied to their graduate work if taken in the final semester before graduation. Completion of these courses does not guarantee admission into the program.

Written English Proficiency Requirement
Level One
All applicants must successfully demonstrate writing proficiency with a score of 4.0 or better on the Analytic Writing section of the Graduate Record Examination. This must be taken prior to applying to the program. The score must be submitted in your application package. Those who do not meet the minimum writing expectation upon admission will be required to take a writing course, usually at an additional cost.

Level Two
Satisfied by demonstration of English competency on the culminating experience paper for COUN 892.

Clinical Proficiency Requirement
Students must earn a grade of B or better in the following courses:

Pupil Personnel Services Credential: School Counseling Designation — Post-Master’s Level

Pupil Personnel Services Credential Only Program
School counselors are professionals who specialize in serving students in public and private schools (grades PK–12) through classroom, group, and individual counseling within a comprehensive school counseling program designed to meet students’ academic, personal-social, and career needs. The Pupil Personnel Services Credential (PPSC) program in school counseling is designed to accommodate those individuals who currently hold a master’s degree in counseling and who wish to acquire a credential enabling them to work as a school counselor in a public school setting.
Employment Prospects
The Department of Education notes that 190,000 teachers will have to be trained and hired to teach a projected increase of 33.1% in the school age population in the coming years. The hiring of school counselors will likely follow.

General Information
Students completing the post-master’s PPSC program in school counseling will meet the standards of quality and effectiveness as recommended by the California Commission on Teacher Credentialing (CCTO).

The program is designed to supplement in a systematic manner an already completed master’s degree. It comprises a minimum of 15 semester units that can be completed in two or three semesters. The three-course school specialization sequence (COUN 716, COUN 717, COUN 718) is offered fall, spring, and fall. Students also complete a post-master’s internship, consisting of a minimum of 600 hours in two of three settings (elementary, middle, or high school) and under the supervision of a credentialed school counselor who has been practicing in the field for at least two years. Additional courses may be required depending on the student’s previous coursework.

Admissions Procedure
Applications are accepted for fall semester only and must be received by the department no later than January 15 of each year. To obtain a post-master’s PPSC only program application, visit our website at counseling.sfsu.edu (http://counseling.sfsu.edu). The department reviews each application and, if accepted, consultation with the coordinator of the school counseling program is required to determine which classes are needed to complete the PPSC program. Upon departmental review of the application and acceptance to the credential program, the student is invited for advising and orientation.

Applicants must also apply to the University to register for courses.

Additional Courses for Post-Master’s Credential-Only Students
In order to meet the standards of the California Commission on Teacher Credentialing (CTC), upon advisement, students may be required to take additional coursework to meet program and credential requirements.

Typical content courses include the following:

- Assessment in Counseling
- Addictions
- Group Counseling Process
- Social and Cultural Foundations in Counseling
- Law and Ethics in Counseling
- Couples and Family Counseling
- Crisis Counseling for Counselors

Required Fieldwork
The state-mandated requirements are as follows:

Field Practice
Each candidate in field practice must demonstrate knowledge and skill in the areas of educational assessment, personal and social counseling, academic and career counseling, program development, program coordination and supervision, consultation, legal issues, multicultural competency, and professional ethics:

1. A minimum of 600 clock hours of field practice are required in a PK-12 school setting in direct contact with pupils.
   a. Fieldwork shall be provided in at least two of three settings (elementary, middle, and/or high school) with a minimum of 200 hours at each setting.
   b. At least 100 clock hours shall be with at least ten pupils (individually and/or in a group) of a racial/ethnic background different from that of the candidate.
   c. A minimum of 25 clock hours will involve group counseling and guidance activities in a school setting.
CRIMINAL JUSTICE STUDIES

College of Health and Social Sciences
Dean: Alvin Alvarez

School of Public Affairs and Civic Engagement
Director: Elizabeth Brown

Criminal Justice Studies Program
HSS 210
Phone: (415) 405-4129
Website: cj.sfsu.edu (http://cj.sfsu.edu)

Program Scope

Drawing upon a rich urban environment, the multidisciplinary program in criminal justice studies explores the connections between law, crime, and justice. The curriculum emphasizes critical thinking about the administration of justice, crime and delinquency, legal studies, and working with diverse communities. As part of the major, students participate in a culminating field experience at the end of their program. The program is intended for a diverse group of students whose interests range from the local to the global, from street crime to terrorism, from municipal policing to international courts.

Students seeking a major or minor begin with a foundation course that provides a cross-disciplinary perspective of criminal justice. Both majors and minors will pursue coursework within and across four areas of emphasis within the field of criminal justice studies.

1. Administration of Justice. Students explore central features of criminal justice systems. Courses include treatment of distinguishing features of the U.S. criminal justice system and comparative perspectives of systems around the globe. Attention is given to recurring problems including abuse of authority, community conflict, and discrimination in case processing. Students have opportunities to learn methods and applications for studying criminal justice systems and processes.

2. Crime and Delinquency. Courses in this area expose students to major explanations of what brings about different forms of juvenile delinquency and adult criminality. Students have opportunities to explore biological, feminist, economic, international, psychological, racial and sociological perspectives of crime and delinquency. In addition to addressing street crime, courses are available for learning about hate crime, organized crime, terrorism, and white collar crime.

3. Legal Studies. Attention is given to legal doctrine relevant to criminal justice, the practice of law by criminal justice agents and the experience of law by defendants, family members, and victims. Courses include distinctive disciplinary perspectives of law as well as issues faced by particular populations. Students have the opportunity to learn and apply legal analysis, including case law and development of legal briefs.

4. Working with Diverse Communities. Working in the criminal justice system in any capacity requires interacting with individuals from diverse family, cultural, social and economic backgrounds. Courses in this area expose students to a deeper understanding and appreciation of individuals and groups from backgrounds other than their own. These courses help students develop communication skills to bridge cultural differences while working toward common goals related to the pursuit of social as well as criminal justice.

Students pursuing the major will complete their coursework with a culminating field experience.

A network of criminal justice agencies and personnel in San Francisco and throughout the Bay Area serves as a powerful asset for students. An active Criminal Justice Student Association plans and implements community service activities, has a guest lecture program featuring criminal justice professionals, and creates a sense of community on campus.

Career Outlook

The major and minor provide training for students who anticipate they will be engaged in their communities regarding issues of law, crime, and justice as well as those seeking related careers in government, law and higher education. Career opportunities include those in law enforcement, diversion, crime analysis, probation, parole, corrections, juvenile justice, victim advocacy, corporate security, community development and justice research. Students who intend to pursue graduate education in criminal justice, justice studies, criminology and related fields, as well as those planning to apply to law school, are encouraged to consider the major and minor in criminal justice.

Associate Professors
Brown, Snipes

Assistant Professors
Barganier, Rodriguez, Yarbrough

Lecturers
Carroll, Chappell, Dudley, Juno, Koehler, Macallair, Santos, Vencill, Viola, Walsh, Woods

Associated Faculty
Clavier, Fischer, A. Smith

Major
• Bachelor of Arts in Criminal Justice Studies (p. 474)

Minor
• Minor in Criminal Justice Studies (p. 491)

Bachelor of Arts in Criminal Justice Studies

Students are encouraged to take introductory courses in at least two of the following six disciplines based on their academic interests prior to entering the degree program: economics, history, international relations, political science, psychology, sociology.

Change of Major Applicants

Undeclared majors and students enrolled in other disciplines at SF State who seek to change their major to criminal justice studies must have junior standing, have completed a minimum of 52 units with a grade of C- or better, have taken ENG 214 (or equivalent), and one GE Area A3 Critical Thinking course (formerly Segment I critical thinking) with a grade of C or better before applying for a change of major.
II. Crime and Delinquency (6–8 Units)

- C J 300  Criminal Justice: A Cross-Disciplinary Perspective  4
- C J 323GW  Ethics in Criminal Justice - GWAR  3
  C J 330GW  Research Methods in Criminal Justice-GWAR

III. Legal Studies (6–8 Units)

- AFRS 375  Law and the Black Community  3
- C J 335  Legal Writing and Research  4
- C J 501  Criminal Law  3
- C J 502  Criminal Procedure  3
- C J 505/I R 332  International Criminal Law  4
- COMM 564  Issues in Free Speech  4
- COUN 630  Legal Center Training I  3
- COUN 631  Legal Center Training II  3
- ECON 516  Law and Economics  3
- GPS/PHIL 375  Peace Law and Human Rights in the U.S.  3
- HIST 470  The U.S. Constitution to 1877  3
- HIST 471  The U.S. Constitution since 1877  3
- LABR 650  Labor Law: An Introduction and Overview  3
- PHIL 335  Law and Society  3
- PHIL 379  Philosophy of Constitutional Interpretation  3
- PHIL 380  Philosophy of Law  3
- PLSI 552  Individual Rights and the Constitution  4
- PSY 472  Introduction to Legal Psychology  3
- SOC 457  Sociology of Law  4

IV. Working with Diverse Communities (6–8 Units)

- AA S 595  Asian American Communities and Public Policy  3
- AIS 460  Power and Politics in American Indian History  3
- COMM 503  Gender and Communication  4
- COMM 525  Sexual Identity and Communication  4
- COMM 531  Conflict Resolution  4
- COMM 541  Critical Approaches to Culture and Communication  4
- COMM 543  Dialogues Across Differences  4
- HIST 462/ RRS 670  Making Whites: Race-making in America  3
- HIST 465  American Ethnic and Racial Relations II: 1890 - Present  3
- LTNS 415  Economic Progress of Latinos in the U.S.  3
- LTNS 470  Latina/o Immigration to the U.S.  3
- PHIL 455/ SXS 569  Sex and the Law  3
- PLSI/AFRS 466  Black Lives Matter: Race and Social Movements  4
- PLSI/USP 512  Urban Politics and Community Power  4
- PSY 547  Social Conflict and Conflict Resolution  3
- RRS/SOC 330  Comparative Race and Ethnicity in the U.S.: Class, Gender, and Nation  3
- RRS 571  Women, Class, and Race  3
- SXS 455  Sex, Power and Politics  3
- WGS 514  Women and the Prison Industrial Complex  3
- WGS 554  Gender and Global Migration  3
- WGS 570  Women, Gender, Policy, and Justice  3

Total units for the degree: 120
1. **Note:** A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

2. **Note:** A total of 30 units in the major must be in upper division courses. Up to a total of six transfer units in the following criminal justice courses completed at a community college may be counted toward meeting distribution requirements for the major.

### Complementary Studies

Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the Criminal Justice major is to meet with an advisor to identify 12 units of courses complementary to the major. With advisor approval, up to twelve of these units may be used to satisfy units in the major. Consult with your major advisor for assistance.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

### Social Sciences:
- US History: LD or UD
- US & CA Government: LD or UD
- Lifelong Learning and Self-Development (LLD): UD or LD
- Physical and/or Life Science: UD
- Arts and/or Humanities: UD
- Social Sciences: UD

### SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

- American Ethnic and Racial Minorities (AERM): LD or UD
- Environmental Sustainability (ES): UD or LD
- Global Perspectives (GP): UD or LD
- Social Justice (SJ): UD or LD

Note: LD = Lower Division; UD = Upper Division.

### First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 479)

### Transfer Student Roadmap (2 Year)

For students with an AA-T in **Administration of Justice**. This roadmap opens in a new tab. (p. 482)

For students with an AA-T in **Social Justice Studies**. This roadmap opens in a new tab. (p. 485)

For students with an AA-T in **Sociology**. This roadmap opens in a new tab. (p. 488)

### This degree program is an approved pathway (“similar” major) for students earning the ADT in **Administration of Justice**

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.
An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www_assist.org](http://www_assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit [http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL](http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL).

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Major Distribution: Working with Diverse Communities (6-8 units) 3-4
GE Area UD--B: Upper Division Physical and/or Life Sciences (Consider SF State Studies Course) 3

Units 15-19

Eighth Semester
C J 680 Field Course in Criminal Justice 4
Complementary Studies or SF State Studies or University Elective – Take Three to Four 10-12

Units 14-16

Total Units 120-133

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy GE Area A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3 Complementary Studies
Bachelor of Arts students must complete at least twelve units of Complementary Studies outside of the primary prefix for the major. Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Students earning Bachelor of Music or Bachelor of Science degrees do not have to complete the Complementary Studies requirement. Details about Complementary Studies can be found in the Bulletin description for each B.A. degree.
4 Consider taking a class with a combined laboratory or a separate lab to fulfill GE Area B3 if not already satisfied.
5 Administration of Justice (6-8 Units)
C J 340 Comparative Criminal Justice (4 units)
C J 400 Police and Public Policy (3 units)
C J 450 Jails and Prisons (3 units)
C J 451 The Architecture of Incarceration (3 units)
C J 460 Community Corrections and Sentencing (3 units)
C J 475 Intervention Policies in Juvenile Justice (3 units)
C J 480 California Corrections System (3 units)
C J 525 Global Restorative Justice and Corrections (3 units)
C J 530 Geographies of Social Control and Urban Diversity (3 units)
I R 360 Intelligence and Intelligence Agencies (4 units)
PLSI 478 Judicial Process (4 units)
PSY 475 Psychology of Policing (3 units)

Bachelor of Arts in Criminal Justice Studies – AJ Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Administration of Justice. 6 units in the major (Distribution Requirements Areas I and II) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

¹ C J 300 also satisfies GE Area UD–D: Upper Division Social Sciences.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 6–15 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper Division GE (6 units): C J 300 satisfies both a major requirement and UD GE (D). See grid above.
- Students entering the major with the AS-T in Administration of Justice are not required to fulfill SF State Studies requirements.
Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Criminal Justice Major: 29–36 Units**
Six units from the ADT to be applied in Distribution Requirement Categories I and III – see a department advisor.

- Foundation Courses (7–8 units)
- Distribution Requirements (18–24 units in four different categories) – one course from (I) Administration of Justice, two courses from (II) Crime and Delinquency, one course from (III) Legal Studies, and two courses from (IV) Working with Diverse Communities
- Culminating Experience (4 units)

**University Electives: 14 or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and in the major. Upper division electives recommended in order to meet the minimum 40-unit requirement.

</table>

¹ C J 300 also satisfies GE Area UD–D: Upper Division Social Sciences.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 6–15 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper Division GE (6 units): C J 300 satisfies both a major requirement and UD GE (D). See grid above.
- Students entering the major with the AA-T in Sociology are not required to fulfill SF State Studies requirements.
Criminal Justice Major: 29–36 units
Six units from the ADT to be applied in Distribution Requirement Categories I and III – see a department advisor.

- Foundation Courses (7–8 units)
- Distribution Requirements (18–24 units in four different categories) – one course from (i) Administration of Justice, two courses from (II) Crime and Delinquency, one course from (III) Legal Studies, and two courses from (IV) Working with Diverse Communities
- Culminating Experience (4 units)

University Electives: 14 or More Units
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. UD GE and the major. Upper division electives recommended in order to meet the minimum 40-unit requirement.

**Note:** A total of 13 units must be upper division courses. Up to a total of 3 transfer units in Introduction to Criminal Justice or Concepts of Criminal Law completed at a California community college may be counted towards meeting requirements for the minor. For applicable courses, go to the ASSIST website: assist.org/web-assist/welcome.html (http://www.assist.org/web-assist/welcome.html).
ENVIRONMENTAL STUDIES

College of Health and Social Sciences
Dean: Alvin Alvarez

School of Public Affairs and Civic Engagement
Director: Elizabeth Brown

Environmental Studies Program
HSS 210
Phone: (415) 338–1149
Website: envs.sfsu.edu (http://envs.sfsu.edu)
Program Coordinator: Glenn Fieldman

Program Scope
The School of Public Affairs Environmental Studies Program offers a Bachelor of Arts in Environmental Studies and a Bachelor of Science in Environmental Studies with a concentration in Natural Resource Management and Conservation. Students in the B.A. program have three emphases from which to choose: Environmental Sustainability and Social Justice, Humanities and the Environment, and The Urban Environment.

The objective of the program is to produce exceptional graduates who are grounded in the study of contemporary environmental problems and solutions. The program provides students with the knowledge and skills required for understanding relationships between humans and the physical world. It examines how the environment is being used, abused, and perceived, and what individuals and organizations are doing and can do to protect it for themselves, future generations, and other living beings and ecosystems. Students participate in an internship and take a senior seminar. Both requirements emphasize community engagement and preparation for future environmental careers.

Career Outlook
Environmental Studies is a diverse field and includes opportunities for employment at many different venues. Private industry opportunities include solid waste management, resource recovery and recycling, hazardous waste management, water treatment and delivery, and air pollution control. Major local corporations have employment opportunities in environmental health and safety and environmental management. Environmental consultants who specialize in creating or reviewing environmental impact reports and statements and environmental regulations are needed at the federal and state agency level as well as in the private sector. Other employment opportunities include government agency level resource scientists, natural resource managers, and planners. In addition, local nonprofit activist groups provide a small number of full-time positions in the environmental field.

Major Requirements
- Environmental Studies majors who successfully complete ENVS 450GW in fall 2009 or thereafter will have satisfied the University Graduation Writing Assessment Requirement (GWAR).
- Environmental Studies majors must complete ENVS 300 and ENVS 450GW with a grade of C or better to continue in the major.

Associate Professor
Fieldman

Assistant Professor
Thoyre

Lecturers
Plater, Magalhaes

Associated Faculty
Barbosa, Boyer, Chattopadhyay, Chitewere, Davis, DeWitt, Gen, Hafernik, Henderson, Hennessy, Holzman, Keith, Kassiola, King, LeBuhn, Manning, McAfee, Nanus, Nelson, Oliphant, Palmer, Parker, Paton, Pinderhughes, Roberts, Silverman, Sklar, Vasey, Wilkinson

Majors
- Bachelor of Arts in Environmental Studies (p. 492)
- Bachelor of Science in Environmental Studies: Concentration in Natural Resource Management and Conservation (p. 500)

Bachelor of Arts in Environmental Studies

General Education Requirements Met in the Environmental Studies Major or Undeclared with Interest in Environmental Studies
The requirements below are deemed “met in the major” upon completion of the courses listed (even though the courses and their prerequisites are not approved for GE). This is true whether or not the student completes the major.

- Area B1 (Physical Science) is satisfied upon completion of both CHEM 115 and CHEM 380.
- Areas B2 (Life Science) and B3 (Laboratory Science) are satisfied upon completion of either BIOL 240 or BIOL 313.

### Environmental Sustainability and Social Justice Emphasis (11–12 units)

The environmental sustainability and social justice emphasis provides students with a theoretical and applied understanding of the issues of sustainability and the connections between social justice and environmental problems and solutions. Students study the roles that values and social, political, and economic structures play in contributing to the environmental crisis. With the help of an advisor, students obtain depth by selecting elective courses from political science, American Indian studies, sociology, philosophy and religion, economics, urban studies and planning, geography, women and gender studies, and other related fields.

Take 11–12 units. Two courses must be from the short list. Courses used to meet other requirements of the major cannot also be used to meet the environmental sustainability and social justice emphasis requirements.

### The Urban Environment Emphasis (11–12 units)

The urban environment emphasis provides students with a strong interdisciplinary theoretical and empirical understanding for dealing with environmental issues in urban settings. With the help of an advisor, students obtain depth by selecting elective courses focusing on sustainable urban development, environmental justice, land-use planning, environmental policy, and the urban environment in a global perspective.

Take 11–12 units. Two courses must be from the short list. Courses used to meet other requirements of the major cannot also be used to meet the urban environment emphasis requirements.

Humanities and the Environment Emphasis (11–12 units)

The humanities and the environment emphasis explores the varied and complex ways that different cultures—past and present—view and communicate about the environment. With an advisor, students choose coursework in disciplines dealing with verbal or visual communication, such as communication studies, creative writing, technical and professional writing, ethnic studies, journalism, photography, design, electronic media, and cinema.

Take 11–12 units. Two courses must be from the short list. Courses used to meet other requirements of the major cannot also be used to meet the humanities and the environment emphasis requirements.

Note: students may take one of either LS 460 (formerly S S 460) or LS 681 (formerly S S 681) but not both.

Complementary Studies

Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways for students in the environmental studies B.A. program to satisfy the requirement is with one or more languages other than English; partial completion of a minor; partial completion of certificate; or a coherent group of courses approved by a major advisor as complementary to the major.

All complementary studies units must be approved by an advisor and all of the units must be separate from the units used to satisfy major requirements. Courses that fulfill complementary studies units may be lower or upper division units, resident or transfer units, or units taken in approved study abroad programs.

The Environmental Studies Program is impacted. Current students who wish to change their major to Environmental Studies should visit the department office for admission requirements and procedures. See the Environmental Studies website for more information: envs.sfsu.edu/prospective (http://envs.sfsu.edu/prospective).

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

</table>

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Complementary Studies
   Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)
   Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways for students in the environmental studies B.A. program to satisfy the requirement is with one or more languages other than English; partial completion of a minor; partial completion of certificate; or a coherent group of courses approved by a major advisor as complementary to the major.
   All complementary studies units must be approved by an advisor and all of the units must be separate from the units used to satisfy major requirements. Courses that fulfill complementary studies units may be lower or upper division units, resident or transfer units, or units taken in approved study abroad programs.
Emphasis Electives

Environmental Sustainability and Social Justice Emphasis (11–12 units)
The environmental sustainability and social justice emphasis provides students with a theoretical and applied understanding of the issues of sustainability and the connections between social justice and environmental problems and solutions. Students study the roles that values and social, political, and economic structures play in contributing to the environmental crisis. With the help of an advisor, students obtain depth by selecting elective courses from political science, American Indian studies, sociology, philosophy and religion, economics, urban studies and planning, geography, women and gender studies, and other related fields.
Take 11-12 units. Courses used to meet other requirements of the major cannot also be used to meet the environmental sustainability and social justice emphasis requirements.
ENVS 470 Climate Politics and Policy (3 units)
ENVS 530 Environmental Leadership and Organizing (3 units)
ENVS 570 Applied Local Sustainability (3 units)
GEOG 421 Future Environments (3 units)
PLSI 354 Politics, the Environment, and Social Change (4 units)
USP 514 Sustainable Development in Cities (4 units)
USP 515 Environmental Justice: Race, Poverty, and the Environment (4 units)

The Urban Environment Emphasis (11–12 units)
The urban environment emphasis provides students with a strong interdisciplinary theoretical and empirical understanding for dealing with environmental issues in urban settings. With the help of an advisor, students obtain depth by selecting elective courses focusing on sustainable urban development, environmental justice, land-use planning, environmental policy, and the urban environment in a global perspective.
Take 11-12 units. Courses used to meet other requirements of the major cannot also be used to meet the the urban environment emphasis requirements.
GEOG 433 Urban Transportation (4 units)
GEOG 652 Environmental Impact Analysis (4 units)
GEOG 658 Land-Use Planning (4 units)
USP 514 Sustainable Development in Cities (4 units)
USP 515 Environmental Justice: Race, Poverty, and the Environment (4 units)

Humanities and the Environment Emphasis (11–12 units)
The humanities and the environment emphasis explores the varied and complex ways that different cultures—past and present—view and communicate about the environment. With an advisor, students choose coursework in disciplines dealing with verbal or visual communication, such as communication studies, creative writing, technical and professional writing, ethnic studies, journalism, photography, design, electronic media, and cinema.
Take 11–12 units. Courses used to meet other requirements of the major cannot also be used to meet the humanities and the environment emphasis requirements.

USP 515 Environmental Justice: Race, Poverty, and the Environment (4 units)
Bachelor of Science in Environmental Studies: Concentration in Natural Resource Management and Conservation

The Bachelor of Science in Environmental Studies Concentration in Natural Resource Management and Conservation provides students with the theoretical and applied knowledge and skills in ecology, conservation biology, and natural resources they need to address natural resource management and conservation issues. Required courses provide knowledge in ecology, conservation biology, statistics, and natural resource management and provide students with a solid background in both quantitative and qualitative problem-solving techniques. Students choose additional coursework in ecology, biodiversity studies, applied methods, and management of specific resources.

Environmental Studies (B.S.): Concentration in Natural Resource Management and Conservation — 65–74 units

www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

Social Sciences

SF State Studies
Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
| Environmental Sustainability (ES) | LD or UD | 3 |
| Global Perspectives (GP) | LD or UD | 3 |
| Social Justice (SJ) | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://
All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

GERONTOLOGY

College of Health and Social Sciences
Dean: Alvin Alvarez

School of Public Affairs and Civic Engagement
Director: Elizabeth Brown

Gerontology Program
HSS 210
Phone: (415) 338–1684
Fax: (415) 405–0771
Email: sfsguro@sfu.edu

Gerontology Program Coordinator: Darlene Yee-Melichar

Program Scope

Purpose
The Gerontology Program is administratively housed in the College of Health and Social Sciences (CHSS), and enjoys close collaborative relationships with other units throughout the college, University, and with the communities it serves. The Master of Arts (M.A.) in Gerontology is an applied, professional program designed for students preparing for a career in the field of aging, or a related human service field, who wish to improve their knowledge and skills. Course work leading to the M.A. in Gerontology is designed to:

- emphasize the broad, interdisciplinary nature of issues which relate to and influence older adults;
- provide students with the academic background, professional experience, and research capabilities necessary to pursue advanced study at the doctoral level; and
- prepare students for professional practice and leadership positions in the public and private sectors where gerontological knowledge is required.

History and Philosophy
The Master of Arts in Gerontology program at SF State was established in 1986 and is the first, and thus the oldest, graduate program in Gerontology in the California State University and the University of California systems. The program is dedicated to the higher education of professionals using an interdisciplinary approach to serve the present and future needs of society in meeting the multiple challenges of an aging population; the conduct of applied research to increase the body of knowledge about issues and processes of aging; and the application of the discipline of gerontology in the community to advocate for improving the quality of care and quality of life for the aged.

The academic program adheres to the standards and guidelines established by the Association for Gerontology in Higher Education (AGHE) for professional master’s level programs. In addition, the program faculty has advised active student organizations such as student chapters of the American College of Health Care Administrators (ACHCA), Gerontological Society of America (GSA), and Sixty Plus (lifelong learning for students age 60 and over). The program provides a gerontology library and shared meeting place for student activities.

Applied, Skill-Based Professional Education
The Gerontology program emphasizes an applied, skill-based approach to professional education. To do this, it draws upon the strengths of the university and community as well as the expertise of the faculty.

The program resides in a richly diverse, multicultural environment which provides a natural laboratory for understanding and developing competencies around the aging experiences of different ethnic groups.

Students obtain knowledge of the discipline and its theoretical foundations. Students are prepared with tools which allow them to use quantitative and qualitative methods in applied research for solving a variety of practical problems in the community.

Gerontology at SF State includes advocacy for the aged in the continuum of care and actively engages in activities through links with other professionals to provide a comprehensive model of consumer-driven health and human services. Students can participate in learning and service where skills of needs assessment, program development, implementation and evaluation directly contribute to the community’s well-being.

Career Outlook
Gerontology is one of the fastest growing disciplines within the field of Health and Human Services. Current demographic projections indicate that California will experience a doubling of the population over the age of 65 by the year 2020; furthermore, of all age groups, the group over age 85, the oldest old, is increasing at the greatest rate. Not only will there be greater numbers of older persons by 2020, they will be increasingly single, female, and ethnically diverse. A Master of Arts (M.A.) in Gerontology prepares the student for effective performance in a career of service to older Americans. It also lays a firm academic foundation in applied gerontology for students who choose to work toward a doctoral degree. Students have the opportunity to choose a number of career paths in the field of aging within the public and private sectors.

For example, Geriatric Care Managers (GCMs) are among the most highly sought gerontological professionals in the United States. GCMs are hired by a variety of community-based agencies, private care management organizations and many GCMs are starting their own businesses. A GCM practice particularly lends itself to the entrepreneur who wishes to begin a small business to serve the community need. GCMs are certified and supported by the National Association of Professional Geriatric Care Managers. This professional association provides an interactive web site that links family members with certified care managers and offers high quality continuing education.

Health, wellness and aging programs and services are examples of the frontiers of applied research and recent federal funding via the Centers for Disease Control and Prevention. Programs of health promotion are currently being created and funded in both the private and public sectors and accumulating research describes a direct link between health and wellness and lifestyle choices. Senior centers, retirement communities, long-term institutions and professional organizations serving older persons now recognize the need for making wellness a priority in planning, programs and services. Health and wellness are also new priorities for school children and adults and students may explore career opportunities for intergenerational practice. Students choosing a Gerontology emphasis in health, wellness and aging are prepared for professional practice in local, state and federal government, the for-profit and not-for-profit sectors and organizations from AARP to the YMCA.
Long-term care administration (LTCA) is a career opportunity in a period of expansion and diversification. Professional requirements vary widely depending on state and federal regulations for the specific area of administration. Long-term care administrators manage and direct the daily operations of long-term care facilities. Employment opportunities for long-term care administrators are available and may be found in assisted living facilities, geriatric care centers, home health care agencies, hospice facilities, hospital systems, rehabilitation facilities, residential care facilities for the elderly, retirement communities, senior centers, skilled nursing facilities, and special population programs (AIDS and mental health).

Professors
de Vries, Takagi, Yee-Melichar

Lecturers
Cabigao, Flores, Harris, McGinnis, Scott

Masters
• Master of Arts in Gerontology (p. 507)

Master of Arts in Gerontology

Graduate Advisors: de Vries, Takagi, Yee-Melichar

The Master of Arts in Gerontology consists of 33 units which include ten required core courses and one elective course. The required internship (6 units), included in the core consists of student placement in an off-campus facility or organization. Numerous facilities and organizations collaborate with the graduate program in offering internships in clinical, community and institutional settings. The required culminating experience (3 units) also included in the core, consists of a culminating project course integrating bodies of knowledge from the required courses. This usually translates into a two-year academic program.

Admission to Program

A prospective student must fulfill the general University requirements as stated in the section of the Graduate and Post-baccalaureate Admissions of this Bulletin. To be considered for unconditional admission to the M.A. in Gerontology, the applicant must have completed an undergraduate major in an appropriate field with a minimum grade point average of 3.0. Applicants whose undergraduate major did not include gerontology courses should consult the graduate coordinator about prerequisite courses in gerontology. If the applicant’s undergraduate record meets the basic requirements and gives promise of a successful pursuit of graduate work, the program will recommend admission to graduate classified status or graduate conditionally classified status specifying the conditions and time limit within which they must be met.

Students will be expected to meet the following criteria:
• Meet the admissions standards of the University.
• Have an earned undergraduate grade point average of 3.0.
• Have completed an introductory course in gerontology or its equivalent.
• Have documented experience or competence in interpersonal/group communication skills as demonstrated in a personal interview with the admissions committee, letters of recommendation, or course work.
• Have completed a course in statistics with a grade of C or better. Competence may be demonstrated by passing a statistics proficiency test.
• Three letters of recommendation from faculty and/or employers.

Written English Proficiency Requirement

Level One Preadmission
Indicate the ability to write in a proficient manner by satisfactorily completing the GRE with a passing score of at least 4.0. Prospective students will also be required to submit a written statement of purpose for pursuing the graduate degree in gerontology. Applicants who do not pass the GRE, or who do not submit a well-written statement of purpose, will be advised to enhance their writing proficiency by taking a prerequisite course and then reapply to the program.

Level Two
Indicate the ability to write in a scholarly manner in the discipline by satisfactorily completing GRN 890 for the culminating experience requirement.

Requirements for Graduation

• Meet all general requirements for submission of the Advancement to Candidacy (ATC).
• Successfully complete core and elective courses.
• Successfully complete GRN 838/GRN 839, and GRN 890. Students are required to complete GRN 890 as their capstone or culminating experience. In this course, students will prepare and present an integrative paper on a topic of professional relevance. Each student paper requires a second reader, thus fulfilling culminating experience Graduate Division requirements and ensuring both breadth and comprehension. If necessary, students must maintain continuous enrollment in GRN 897 until they have completed their culminating experience requirements.
• Demonstrate ability to maintain a 3.0 grade point average in graduate study.
• With the assistance of a Gerontology program advisor, choose a faculty committee that will be responsible for evaluating the oral presentation and written paper in the integrative seminar.

Program Scope

Mission
The mission of the Health Education Department at San Francisco State University is to promote health and health equity at the individual, community, and structural levels through transformative education, research, scholarship, and service, all of which value diversity, engage communities and are grounded in cultural humility.

The Department's Institute for Holistic Health Studies (IHHS) offers a model program in undergraduate education, integrative health care, self-care, and the role of holistic perspectives in health and well-being. IHHS seeks to provide the University and its broader community with knowledge and skills that encourage and support health through natural means focusing on a rich cross-cultural, transhistorical vision of human potential.

Together, the health education faculty have developed a unique learning context designed to prepare students for entry and master's level positions in health and human services careers, including professional public health educator, and the emerging field of integrative medicine. The department enhances the preparation of students for these careers through exposure to applied scholarship, active engagement in participatory learning, and the thoughtful integration of theory, research, and practice.

The ultimate aim of the program is to explore, implement, and disseminate best practices in public health and holistic health, and to prepare leaders capable of advancing the work of disease prevention and health promotion in culturally appropriate and globally conscious ways.

Advising
Undergraduate health education majors and Master of Public Health students have consistent access to advisors to assist with timely completion of required coursework, as well as to address curricular, programmatic and professional development questions or concerns.

Supplemental Credential
Individuals who already possess a single subject credential in another area may add health sciences to their existing teaching credential by completing a specified number of semester hours in health sciences. Individuals seeking a supplemental credential should seek the assistance of an advisor in the health education department.

Metro College Success Program
Metro Academy of Health

The Metro Academy of Health (Metro) supports the first and second-year students in achieving academic excellence while preparing them to become leaders in their communities. Metro students are placed in a small community of peers who take two or three courses together each semester for their first two years of college. Students receive extra tutoring, advising and support in developing strong academic skills. The program prepares students to write effectively, speak powerfully, and think critically. Participants in the Metro Academy of Health are geared toward those interested in a career in public health, community health education, social services, the non-profit sector, clinical health professions or community organizing. Metro courses satisfy general education requirements for all majors at SF State, so you can go on to complete your bachelor's degree in any major. Metro's goal is to help you graduate in a timely manner and gain the skills you need to succeed in college and find a meaningful career. Students begin the program with a first-year experience course orienting them to resources available at the university that will help them succeed and to urban health and human rights. Please see our website at metro.sfsu.edu or email us metro@sfsu.edu for more information about joining.

Career Outlook
A variety of career opportunities are open to individuals graduating from the Bachelor of Science program. Results from a recent survey of program graduates indicate that in addition to positions specifically titled health educator, many also hold positions as program planners, assistant administrators, assistant personnel directors, in-service education coordinators, community outreach workers, health counselors, health writers, environmental workers, and pharmaceutical-medical detail professionals. Employers include hospitals, government and voluntary agencies, school districts, private industries, and some individuals are self-employed.

Graduates of the B.S. in Health Education program also select careers outside the health care field. The professional skills developed in the degree programs have numerous applications in non-health employment settings. Additionally, some health education graduates continue graduate studies in public health, administration, social services, dentistry, medicine, and law.

Holistic Health Studies, as a minor, emphasis area, or certificate program is a practical career choice on many levels. As a result of growing national interest in complementary and alternative health practices, there are expanding opportunities in the areas of medical care, health promotion, and consumer demand for more natural products and services. Healthcare providers, such as nurses, physicians, pharmacists, and psychologists, need to understand the use of alternative health
practices by their patients. There is an increasing need for practitioners in emerging healthcare fields, including naturopathy and acupuncture. Innovative approaches to health promotion and lifestyle that incorporate alternative and complementary health practices are also becoming increasingly important, leading to career opportunities in business, teaching, research and counseling. A Minor or Certificate in Holistic Health Studies provides an understanding of important holistic health concepts and practices relevant to many health and social service related careers.

Graduates of the Master of Public Health program in Community Health Education are prepared for advanced level public health professional positions in diverse settings, such as a variety of community-based organizations, government agencies including public health departments, academic and research institutions, health maintenance organizations, hospitals and medical centers, and private consulting firms. Nationally, the emphasis is on prevention and population-based management of health, making the professional skills of community health educators a market demand.

Professors
Burke, Castelliblanche, Eliason, Love, Mamo, Peper

Associate Professors
Chávez, Harvey, Moore, Sanchez-Vaznaugh, van Olphen

Assistant Professors
Cushing, Daubenmier, Martinson, Rebalan

Lecturers
Allen, Arista, Bhatnagar, Burrows, Chen, Craig, Evans, Kroboth, Lam, Mousel, Ochoa, Quijano, Rath, Schwartz, Turalba, Wolin

 Majors
- Bachelor of Science in Health Education (p. 510)

 Minors
- Minor in Health Education (p. 521)
- Minor in Holistic Health Studies (p. 522)
- Minor in Women’s Health Studies (p. 522)

 Certificates
- Certificate in Holistic Health Studies (p. 521)

 Masters
- Master of Public Health (p. 523)

 Bachelor of Science in Health Education

 Bachelor of Science

The Bachelor of Science in Health Education program is designed to facilitate voluntary changes in individual health behaviors as well as to advocate for social and economic policies which lead to health promotion and disease prevention for all. This program prepares individuals to work as public health professionals at individual, community and structural levels for health equity and social justice. The program provides a participatory learning environment that integrates theory, research and practice, honors diversity through a cultural humility lens, and fosters collaboration, critical thinking and communication skills.

The course work and field experience in health education have three primary objectives:
1. to provide a theoretical and philosophical foundation in principles of community health education;
2. to facilitate the development of professional skills in program planning, implementation, and evaluation; and
3. to offer broad course work in personal, community, and school health. Students are also expected to complete course work in biological, social, and behavioral sciences.

The Bachelor of Science in Health Education has 11 units of prerequisites, 42 core units and 9 - 12 emphasis elective units to be chosen in one of the three areas described below. The program curriculum is designed in four semester tiers, where the content, knowledge, and skills required for students are scaffolded both within the courses offered in that semester and sequential semester.

Emphasis Elective Areas (9–12 units)

Community-based Public Health (9 units)
An approach that unites the community by organizing, empowering, and participating in shared-leadership partnerships for health. This emphasis gives students the freedom to choose electives from their particular health-related area of interest. Students design programs rooted in the values, experiences, knowledge, and interests of the community itself.

Holistic Health Studies (12 units)
Explores diverse cultural, historical, and interdisciplinary concepts and practices from around the world, providing students with a deeper understanding of health, healing, and optimal well-being. A holistic perspective informs course content, recognizing the fundamental interdependence of life on this planet. Experiential learning is an essential component of the curriculum.

School Health (12 units)
Fills the need created by recent increases in demand for credentialed teachers in public schools. The emphasis provides essential course work that satisfies the newly developed California State Standards in Health Science. Upon graduation, students will be ready to enter the teaching credential program with virtually all course work in the single subject program completed.

The following foundation courses or their equivalents must be completed prior to graduation. While it is not mandatory to complete the foundation courses before taking the core courses, individuals are encouraged to work toward completion of foundation courses prior to their junior year. Students entering from the community college system, or other four-year universities, should have their transcripts evaluated by a department advisor to receive credit for equivalent courses taken elsewhere. To determine whether courses taken at another college or university may be accepted as foundation courses, individuals should seek the assistance of an advisor in the Department of Health Education. Some foundation courses may be counted for SF State general education credit; a health education advisor will help determine this. Effective Fall 2008, undergraduates who are first-time college students may satisfy the GWAR (Graduation Writing Assessment Requirement) by earning a C or better in a GWAR-designated course. The Health Education GWAR course is H ED 400GW. For undergraduates who are first-time college students prior to Fall 2008, this requirement can be
met by passing ENG 414, ENG 410 or ENG 411. Students must pass ENG 414/ENG 410/ENG 411 before enrolling in H ED 431.

1 Students who have satisfied GWAR in a discipline other than Health Education are still required to complete H ED 400GW of the major.

### Health Education (B.S.) — 62–65 units

#### Foundation Courses for the Major (11 units)
Courses taken prior or concurrently with major courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) | LD or UD | 3     |
Environmental Sustainability (ES) | LD or UD | 3     |
Global Perspectives (GP) | LD or UD | 3     |
Social Justice (SJ) | LD or UD | 3     |

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 515)

Transfer Student Roadmap (2 Year)
For students with an AS-T in Public Health Science. This roadmap opens in a new tab. (p. 519)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Public Health Science

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California
Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division#A3AEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Units** 15

**Total Units** 120

---

1. Another course may be substituted for MATH 124 on advisement.
2. All LL and SF State Studies requirements (AERM, GP, ES, SJ) is met within the major.
3. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ ENG 105 through DSP you will satisfy GE Area A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
**Community-Based Public Health Emphasis (9 units)**
Units selected from the following on advisement (one course must have an HED prefix):
- AA S 591 Asian American Community Health Issues (3 units)
- AFRS 370 Health, Medicine, and Nutrition in the Black Community (3 units)
- ANTH 630 Medical Anthropology (3 units)
- BIOL 326 Disease! (3 units)
- BIOL 327 AIDS: Biology of the Modern Epidemic (3 units)
- BIOL 332 Health Disparities in Cancer (3 units)
- HED 100 Public Health Biology (3 units)
- HED 200 Global Health (3 units)
- HED 210 Personal and Social Determinants of Health (3 units)
- HED 223 Health and Social Justice - Burning Issues, Taking Action (3 units)
- HED 241 Health and Social Movements in the United States in the 20th Century (3 units)
- HED 280/COUN 280 Empowering Poor Families to Graduate Out of Poverty (3 units)
- HED 290/HH 290 Promoting Positive Health (3 units)
- HED 305 Critical History of Public Health in the United States (3 units)
- HED 315 Drugs and Society (3 units)
- HED 320 Contemporary Sexuality (3 units)
- HED 414 Women's Health - Problems and Issues (3 units)
- HED 415 Health Aspects of Aging (3 units)
- HED 417 AIDS: Contemporary Health Crisis (3 units)
- HED 434/GEOG 434 Geographies of Health and Health Care (3 units)
- HED 450 Policy Issues in Health Education (3 units)
- HED 527/CINE 527 Documentary for Health and Social Justice I (6 units)
- HED 528/CINE 528 Documentary for Health and Social Justice II (6 units)
- HED 630 Elementary School Health (3 units)
- HED 635 Secondary School Health (1 units)
- HED 640 Structural Inequities and Public Health (3 units)
- HED 650 Training and Education Processes in Public Health (3 units)
- HED 670 Principles of Peer Health Education (3 units)
- HED 671 Practice of Peer Health Education (3 units)
- HED 685 Projects in the Teaching of Health Education (1-4 units)
- HED 699 Independent Study (1-3 units)
- HH 205 Relaxation and Stress Reduction (3 units)
- HH 380 Holistic Health: Western Perspectives (3 units)
- HH 381 Holistic Health: Eastern Perspectives (3 units)
- HH 382 Holistic Health: Human Nature and Global Perspectives (3 units)
- HH 430 Foundation of Biofeedback and Self-Regulation (3 units)
- HH 433 Autogenic Training and Embodied Living (3 units)
- HH 540 Meditation and Imagery in Healing (3 units)

**School Health Emphasis (12 units)**
Units selected from the following on advisement:
- DFM 253 Nutrition in Health and Disease (3 units)
- CFS 355 Nutrition for Wellness (3 units)
- CFS 453 Nutrition in the Life Cycle (3 units)
- HED 210 Personal and Social Determinants of Health (3 units)
- HED 315 Drugs and Society (3 units)
- HED 320 Contemporary Sexuality (3 units)
- HED 630 Elementary School Health (3 units)
- HED 635 Secondary School Health (1 units)
- HED 685 Projects in the Teaching of Health Education (1-4 units)
- HED 699 Independent Study (1-3 units)
Holistic Health Studies Emphasis (12 units)
Units selected from the following on advisement:
Select nine units of the following:
HH 380 Holistic Health: Western Perspectives (3 units)
HH 381 Holistic Health: Eastern Perspectives (3 units)
HH 382 Holistic Health: Human Nature and Global Perspectives (3 units)
HH 383 Chinese Perspectives in Holistic Health (3 units)
Select three units of the following on advisement:
HH 200 Holistic Approach to Academic Success (3 units)
HH 205 Relaxation and Stress Reduction (3 units)
HH 210 The Dao of Well-Being in Chinese Tradition (3 units)
HH 290/H ED 290 Promoting Positive Health (3 units)
HH 420 Chinese Body-Mind Energetics (3 units)
HH 430 Foundation of Biofeedback and Self-Regulation (3 units)
HH 433 Autogenic Training and Embodied Living (3 units)
HH 450 Somatic Education and Holistic Health (3 units)
HH 530 Herbal and Nutritional Principles in Chinese Healing (3 units)
HH 535 Western Nutrition and Herbs (3 units)
HH 540 Meditation and Imagery in Healing (3 units)
HH 545 Imagery and Healing in Tibetan Culture (3 units)
HH 560 Naturopathic Medicine and Personal Wellness (3 units)
HH 650 Anthroposophical Health Studies (3 units)
HH 660 Art as Healing (3 units)
HH 670 Alternative Health Practices (3 units)
HH 680 Holistic Health Internship Seminar (3 units)
HH 690 Seminar: Psychophysiology of Healing (3 units)
HH 699 Independent Study (1-3 units)
## Bachelor of Science in Health Education – PHS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Public Health Science. Thirteen units in the major (BIOL 100/BIOL 101, H ED 290, MATH 124) and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

¹ If ENG 214 or equivalent is not completed prior to transfer, then students must take ENG 214 in the first semester and H ED 400GW and H ED 405 in the second semester. Move one Required (Non-Sequenced course) from the second semester to the first semester. Length of time for degree completion will be prolonged if an ENG 214 equivalent is not completed before transfer.

² H ED 455 fulfills GE UD-C.

³ If H ED 221 equivalent ³ not taken before transfer, choose from courses designated for C-B PH emphasis.
Choose H ED or HH course that also satisfies C-B PH Emphasis.
H ED 221 is comparable to C-ID PHS 102.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 3–15 Units**
- ENG 214 or equivalent A4 course (0–3 units) if not completed prior to transfer. Length of time for degree completion will be extended.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not met pre-transfer.
- Upper division GE (9 units): For UD GE B and D, choose H ED or HH courses that satisfy major requirements for the C-B PH emphasis. UD GE C satisfied by Major Required course. See notes.
- Students entering this major with the AS-T in Public Health are not required to fulfill SF State Studies or Complementary Studies requirements.

**Health Education Major: 49 Units**
BIOL 100/BIOL 101, H ED 290, MATH 124 met in transfer.
- Prerequisites: four units - BIOL 210 and BIOL 211
- Required: 36 units
- Community-based Public Health Emphasis: nine units. If C-ID equivalent to H ED 221 not taken before transfer, choose an additional three unit course from the C-B PH list.
- Students interested in either the Holistic Health or School Health Emphasis should consult with a major advisor about course choices; note that degree completion in 60 units may not be possible.

**University Electives: Two or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. UD GE and the major.
Certificate in Holistic Health Studies

Holistic Health Advisors: Burke, Burrows, Daubenmier, Harvey, Peper

The Certificate in Holistic Health Studies is available to degree and non-degree students. The certificate is offered by IHHS as a resource for health care professionals seeking career enrichment and for those pursuing growth and a deeper understanding of holistic health.

Note: Non-degree students apply through the College of Extended Learning, (415) 405–7700. For additional information, visit www.cel.sfsu.edu (http://www.cel.sfsu.edu).

Institute for Holistic Health Studies

The Certificate in Holistic Health Studies is available to anyone admitted through the College of Extended Learning/Open University. It is also available to matriculated students who have completed the minor in holistic health studies. The curriculum includes an additional 8 units beyond the units required for the minor. The certificate is ideally suited for individuals who already have an academic degree, who are already in a health profession, or who may be exploring career options. Also, since a holistic health perspective encourages self-care and self-regulation, the program can be an excellent choice for stress reduction, personal growth, and health promotion. Classes can also be taken without enrolling in the program, an ideal way to explore specific interests. (See description of the program below.)

Holistic Health Studies, Certificate — 30 Units

Completion of Minor (22 Units)

(see minor (p. 522))

Required Course (3 Units)

HH 680 Holistic Health Internship Seminar 3

Electives (5 Units)

Elective units can be selected from remaining Holistic Health Studies courses or from any appropriate course (on advisement) from across the campus. Examples of appropriate courses outside of the HHS curriculum would include:

ANTH 581 Anthropology and Folklore 3
BIOL 318 Our Endangered Planet 3
BUS 450 Greening of Business 3
CHIN 101 First Semester Chinese 3
COUN 425 Advanced Peer Advising 2
H ED 210 Personal and Social Determinants of Health 3
HIST 578 History of Japan 3
RPT 205 Enlightened and Sustainable Travel 3
RRS 276 Race, Activism and Climate Justice 3
PSY 442 Health Psychology 3

Other electives with approval of Holistic Health advisor

Note: Students fulfilling the Holistic Health Studies Minor or Certificate Program may be eligible to apply for a Certification in Stress Management Education given by the Biofeedback Certification Institute of America (BCIA). Also, students who take the Holistic Health Studies biofeedback courses and fulfill some additional requirements may be eligible to apply for BCIA Biofeedback Certification. See a Holistic Health Studies advisor for details.

Minor in Health Education

The Minor in Health Education is an 18 unit program. The minor complements many major programs offered by other University departments and has been designed for maximum flexibility. Individuals must work with a health education advisor to select appropriate courses. Advisor approval is required for courses not listed below.

Health Education Minor — 18 units

Minor in Holistic Health Studies

Holistic Health Advisors: Burke, Burrows, Daubenmier, Harvey, Peper

A Minor in Holistic Health Studies complements many SF State majors, provides unique learning opportunities, and expands career options. Benefits to HH minors include priority waitlisting for HH courses, individual advising with IHHS faculty and collaboration with others interested in complementary healing.

Institute for Holistic Health Studies

The Institute for Holistic Health Studies offers a Minor in Holistic Health Studies. The minor is taken in conjunction with one's bachelor's degree and appears on the diploma along with the major. A minor in holistic health studies is an excellent complement to many SF State majors. It provides unique learning opportunities, a chance to explore or expand career options, and a way to improve personal health and well-being. Course content is interdisciplinary, examines human experience and health from an interdependent or holistic perspective, and focuses on practical, experiential learning in diverse areas such as stress management, autogenic training, East Asian medicine, meditation, yoga, biofeedback, guided imagery and more. Additional benefits to minors include priority waitlisting for holistic health studies courses, individual advising with faculty, and collaboration with others interested in integrative health practices. The minor involves taking 18 units of holistic health studies courses — nine units of core courses (Eastern, Western, Global Perspectives, and Chinese Perspectives), nine units of elective courses — and four units of anatomy or physiology, for a total of 22 units (see the description of the minor below).

Holistic Health Studies Minor — 22 units

Core Courses (9 units)

Select three of the following:

**Human Anatomy/Physiology (4 units)**

Completion of a college-level course in human anatomy/physiology. (Biol 100/Biol 101 or Biol 323 are acceptable.)

**Minor in Women's Health Issues**

The 21 unit Minor in Women's Health Issues is a natural complement to a variety of majors such as nursing, health education, counseling, psychology, urban studies, or other human service careers. The program offers three areas of focus:

1. theory about women's social roles and status implications for women's health;
2. organizing and managing health services, health education, and health delivery systems;
3. politics, policy analysis, and strategies for changing women's health policies.

Students take a core course in each of these areas, then choose three electives which may be concentrated within one area or drawn from several areas, and then complete a culminating research project or internship. The choice of electives and final research project or internship is chosen in consultation with an advisor in order to meet the needs and interests of the individual student. Electives from related fields will be considered on advisement as related to student's needs and interests. Advisor approval is required for courses not listed below.

**Women's Health Issues**

Minor — Minimum 21 units

S W/USP 456 Urban Community Organizing and Citizen Action 3
USP 565 Social Policy and Family Systems 4
WGS 570 Women, Gender, Policy, and Justice 3
WGS 611 Theories of Female Sexuality 3

Final Integrative Project/Internship
One of the following (3–6 units) in consultation with the advisor:
H ED 480 Fieldwork and Reflective Seminar 9
H ED 690 Independent Study 1–3
USP 686 Field Work in Urban Studies 1–4
WGS 698 Work Study in Feminist Projects 1–3

Master of Public Health

Graduate Advisors: Chávez, Cushing, Elaison, Lam, Love, Mamo, Martinson, Moore, Rebalan, Sanchez-Vaznaugh, van Olphen

The Master of Public Health program in Community Health Education at San Francisco State University shares the mission of the Department of Health Education to promote health at the individual, community, and structural levels through transformative education, research, scholarship and service, all of which value diversity, engage communities, and are grounded in cultural humility.

To further this mission, the Master of Public Health program:

1. Provides professional preparation in the core competencies, functions, and responsibilities required of master level community health educators.
2. Embraces an ecological approach, including a curriculum that addresses determinants of health at the individual, interpersonal, organizational, community, and policy levels.
3. Builds the specialized professional competencies required to promote health and prevent disease among culturally diverse populations.
4. Incorporates the principles of adult learning in the application of knowledge and skills to specific public health problems.
5. Engages students in applying theory and research to practice in partnership with communities to address the social determinants of health, reduce inequities, and contribute to building healthy communities.
6. Emphasizes collaborative leadership and team building through a cohorted learning community approach.
7. Serves the campus community and the communities of the Bay Area through developing mutually beneficial partnerships with communities, community-based organizations, public health departments, and other public and private institutions.

Admission Criteria

- A minimum of 4,000 cumulative hours of previous health-related work experience; paid and/or volunteer, part-time or full-time positions. Application strengthened by public health/health equity positions, particularly post-baccalaureate and leadership roles, and by additional public health/health equity work experience beyond the required 4,000 hour minimum.
- Evidence of academic excellence, as reflected in a grade point average of 3.0 or higher in a baccalaureate degree or the last 60 semester (90 quarter) units attempted of higher education coursework or a previously earned post-baccalaureate degree from a regionally accredited university
- Graduate Record Exam (GRE) General Test
- Graduate-level proficiency in written English, as demonstrated by a 4.0 or higher on the Analytical Writing Section of the GRE General Test
- A completed college course in each of four areas: statistics or calculus, social science, composition, and cultural, ethnic, or social diversity (CESD). Strong academic performance in the four prerequisite course areas further strengthens the application. View detailed information about the prerequisite courses on the departmental website (http://healthed.sfsu.edu). The statistics/calculus course must have been completed with a grade of B– or higher within six years of the M.P.H. program application year. If an applicant has not completed the statistics/calculus course within six years of applying to the program or has not met the minimum B– course grade requirement, admission to the program may still be recommended, but with the admission condition that a refresher statistics course is completed with grade of B– or higher before the first fall semester of intended enrollment.
- If applicable, TOEFL test or equivalent: grad.sfsu.edu/ (http://grad.sfsu.edu)
- Linguistic competence in English and a second language strengthens the application.

Admission Procedures

1. Strongly Recommended: Attend a Prospective M.P.H. Student Information Session. Applicants are strongly encouraged to attend one of these sessions. See the Department Events webpage (http://healthed.sfsu.edu/events) for the calendar of information sessions offered each academic year. These faculty-led sessions provide detailed information about the program, curriculum, admission criteria, selection procedures, and the application process. To reserve a space in one of the sessions, email hedMPh@sfsu.edu (hedmphp@sfsu.edu) with your name, your email address, and the date of the session. For directions, parking and a campus map, view the
SF State Parking & Transportation website (http://parking.sfsu.edu). Out-of-area applicants unable to attend an information session can email hedMPH@sfsu.edu (hedmph@sfsu.edu) to receive a set of program informational documents by email.

2. **Application Process:** New M.P.H. students are admitted only during fall semesters, as a cohort learning community. An applicant must submit all required application materials by the March 1st priority application deadline for the application to be considered during the priority admission review period for subsequent fall semester admission. These application materials include both those required by the SF State Division of Graduate Studies and those required by the SF State Department of Health Education. After the March 1st priority application deadline, if spaces remain in the incoming fall cohort, applications will be accepted on a rolling basis until May 31st, or until the subsequent fall cohort is filled, whichever comes first.

3. **Admission Decision Notification.** Applicants who apply by the March 1st priority application deadline will receive an admission decision notification from the Division of Graduate Studies by mid-April. For applicants who submit their applications after the priority deadline during a rolling admission period, admission decision notification will take place within 2–3 weeks of application submission.

4. **M.P.H. Student Move to Classified Status.** Admitted M.P.H. applicants enroll in the SF State M.P.H. program with conditionally classified status. To move to classified status, a student must meet all of the conditions specified by the Division of Graduate Studies and the Department of Health Education. These include any specialized conditions indicated in the Department of Health Education admission recommendation letter and M.P.H. Student Handbook, both the Level One and Level Two written English proficiency requirements for Master of Public Health students, meeting all the course grade thresholds as specified in the M.P.H. Student Handbook, completion of at least two consecutive semesters of coursework of 3.0 or higher grade point average, and the demonstration of professional ethics and effective collaborative learning skills. In addition, in order to continue in the M.P.H. program, a student must make satisfactory progress toward degree completion each semester, including meeting all standards as stipulated by the department. Departmental standards, detailed in the M.P.H. Student Handbook, include meeting the specified departmental grade thresholds for individual courses. M.P.H. students are allowed a maximum of two attempts to complete a required course at or above the threshold grade specified in the M.P.H. Student Handbook. A course withdrawal counts as a course completion attempt. Students who do not meet the grade threshold after two attempts at a course will be declassified.

**Application Period**

New students are admitted as a cohorted learning community for fall semesters only - there are no spring admits. The priority application period is October 1st through March 1st for subsequent fall semester admission. If spaces remain in the cohort after the March 1st priority application deadline, then there will be a rolling admission period from March 2nd to May 31st or until the incoming fall cohort is filled, whichever comes first.

**Written English Proficiency Requirement**

The university has a requirement for written English proficiency that is to be assessed at two different levels.

---

**Level I**

Students must demonstrate graduate-level proficiency in written English *prior to admission* to the M.P.H. program with a score of 4.0 or higher on the Analytical Writing Section of the GRE. An applicant who scores below a 4.0 on the Analytical Writing Section of the GRE is required to submit an academic writing sample with the application, and may be admitted to the M.P.H. program, but with the stipulation that the student engage in additional writing skills development activities before program commencement and/or during program enrollment. The enrolled student must also meet the Level II written English proficiency as specified below.

**Level II**

The student’s ability to write in a scholarly manner in the major field must be demonstrated by successfully meeting the B or higher grade thresholds of the first-semester first-year courses H ED 810, H ED 815, and H ED 884.

**Curriculum**

The M.P.H. curriculum emphasizes critical thinking skills, collaborative learning, problem-solving, practical experience, social justice, and advocacy. The program consists of 44 units, scheduled to accommodate working professionals while maintaining sound pedagogy. The program can be completed in a minimum of five semesters, which translates into two academic years, including a summer semester between the first and second year. More moderately paced degree completion plans are also available.

**Master of Public Health – 44 units**

Elective Course: a faculty advisor-approved upper division or graduate level course
KINESIOLOGY

College of Health and Social Sciences
Dean: Alvin Alvarez

Department of Kinesiology
GYM 101
Phone: (415) 338–2244
Fax: (415) 338–7566
Chair: Marialice Kern
Graduate Program Coordinator: Kate Hamel

Program Scope
The programs in Kinesiology at SF State are carefully designed so that students experience the multidisciplinary foundations of human movement and physical activity. Students gain theoretical and practical knowledge related to the biological, physical, behavioral, sociocultural, philosophical, and psychological factors underlying human movement and physical activity. The field of kinesiology studies underlying factors in the context of skill in a variety of contexts, including those related to activities of daily living, work settings, recreation, sport, and the performing arts. Factors and parameters associated with conditioning, learning, and rehabilitation are studied across the lifespan and within a diversity of populations. In addition, sport is studied as a personal endeavor and social institution. Thematic emphases allow students to select patterns of courses tailored to meet individual interests and career goals.

The department offers a wide array of physical activity classes that provide instruction in movement and sport skills from beginning to advanced levels; an array of general education courses examining aspects of physical activity and mental-physical performance from various perspectives; prerequisites for advanced graduate study and certificates in therapeutic and allied health fields and adapted physical education; and minors leading to certification in coaching and adapted physical education.

Physical Education and Adapted Physical Education Teaching
Students who wish to become credentialed as public school teachers in physical education or as adapted physical education specialists should select the concentration in physical education program. However, to be eligible for admission to the credential program at SF State, students must attain a GPA of 2.75 in the Subject Matter Program curriculum. Students must work closely with an advisor to fulfill the requirements of the Subject Matter Program, and should also. Contact the Credential and Graduate Services Center for teaching credential information. The Center is located in Burk Hall 244, (415) 405–3594; credinfo@sfsu.edu.

Adapted Physical Education (Added Authorization)
The Adapted Physical Education Added Authorization (APE AA) allows an individual to teach special needs students who are precluded from participating in a general education physical education program or a specially designed physical education program as determined by the local level special education assessment. The APE Added Authorization is an add-on authorization for the holder of a valid prerequisite credential.

Candidates for the Add Authorization in Adapted Physical Education must hold a teaching credential in one of the following: Physical Education Single Subject, Multiple Subject or Special Education – with 12 units of prerequisites that include the following coursework or equivalent:

Minor/Certificate in Athletic Coaching
This area of study provides students in academic areas other than kinesiology with the knowledge and skills required for coaching interscholastic or community athletic teams.

Therapeutic and Allied Health Profession Preparation
The B.S. in Kinesiology supports preparation for advanced study in graduate or certificate programs in therapeutic or rehabilitation areas including physical or occupational therapy, chiropractic, and allied health professions. With the addition of specific courses required for admission to various graduate programs, the student will graduate with a strong foundation in the movement sciences as well as with most of the prerequisites necessary for entry into a program of their choice.

Kinesiology programs include a number of courses typically required for the admission to physical or occupational therapy programs, and may provide the graduate with more than one career/graduate path. Students are strongly advised to identify the specific requirements of each program to which they plan to apply. Some additional courses may be substituted for parallel courses in the major, upon approval of the student’s major advisor. Others courses may be taken as free electives or, in some cases, to fulfill General Education requirements. To stay informed and to optimize planning, students must work closely with a departmental advisor, and should become involved in the Kinesiology Student Association.

Advising
Students in all the programs must work closely with an advisor to select the proper degree program, concentration, and configuration of courses to support career and scholarly interest related to the study of human movement and physical activity. Students seeking to major in or change their major to kinesiology must consult with the undergraduate advisor in Gymnasium Room 137 to be officially accepted into the major.

Undergraduate students interested in pursuing a master’s degree in kinesiology should speak to their academic advisor after completing core requirements in the program (KIN 251, KIN 384GW, KIN 457, KIN 480, KIN 486, and KIN 504).

Many of the courses listed in the major patterns have prerequisites or co-requisites and must be taken in a particular sequence. See "Duplicate Use of Credit Between the Major and GE" in the (p. 66) Bulletin page Undergraduate Degree: Overview. Prior approval by the student's major advisor is required for all individually tailored groups of courses and course substitutions.
The course of study in the major requires that the student complete all basic subjects requirements (GE Areas A and B4) and pre-major prerequisites, all with a grade of C or better, prior to enrolling in the major upper division courses. The major upper division courses, projects, internships, and culminating experiences require competence in written and oral communication, quantitative reasoning, logical and critical thinking, computer facility, and a thorough grounding in biological and physical science. The B.S. in Kinesiology is science intensive. Successful and timely progress through this program requires careful planning and organization. Students must show proof of completion of prerequisites to the instructor at the start of all applicable courses.

Transfer students are encouraged to visit the department prior to enrollment at SF State, or as soon as possible thereafter, to learn about the major and the expectations for student performance. Students having academic difficulty for any reason are encouraged to seek assistance immediately by speaking to their major advisor, a peer counselor (kin.sfsu.edu/content/advising), and/or the Student Resources Center (chss.sfsu.edu/src) in the College of Health and Social Sciences.

Master of Science in Kinesiology

Students in the M.S. Kinesiology program apply multiple perspectives to problems related to exercise, fitness, motor skill and development in the contexts of activities of daily living, play, games, sport, and other forms of human physical activity. Graduates exit the program with strong theoretical and problem-solving skills, experience in the evaluation of current research in the field, and knowledge in the field of kinesiology. They are able to apply these skills in a wide variety of careers as well as further graduate study. The curriculum allows for an emphasis in exercise physiology, movement science, or physical activity with social scientific perspectives.

Exercise Physiology

An emphasis in exercise physiology is intended for students who are interested in furthering their understanding of how the physiological systems of the human body respond to exercise. Exercise physiology is a multi-disciplinary field with strong ties to basic research, life sciences, and medicine. This emphasis offers a comprehensive study of the acute and chronic cardiovascular, respiratory, and metabolic responses to exercise; and the application of these concepts to exercise testing, prescription, and supervision in both healthy and diseased populations. Furthermore, an objective of the exercise physiology emphasis is to assist in preparation for certification as Health Fitness SpecialistSM or Clinical Exercise Specialist through the American College of Sports Medicine. Upon completion of the program, students will be prepared to further their education in a doctoral program, or seek employment in a rehabilitation clinic, health club, wellness center or other fitness setting. Kinesiology graduate students may earn a Certificate in Exercise Physiology by completing all requirements including three courses (nine units) in the emphasis that are marked with a number (1). This certificate is only for graduate students in the Kinesiology program.

Movement Science

An emphasis in movement science provides an advanced degree that prepares students to work in a variety of movement and health care settings, teach in community colleges or high schools, or continue postgraduate studies leading to a doctoral degree. Students explore the multitude of factors that influence the control of human movement and the way in which that control changes over time. In addition, students develop skill critiquing and analyzing movement using techniques from the neurosciences and biomechanics. Students ultimately apply their knowledge and skill in areas such as sports, dance, recreation, rehabilitation, teaching, coaching, and ergonomics. Kinesiology graduate students may earn a Certificate in Movement Science by completing all requirements including three courses (nine units) in the emphasis that are marked with a number (1). This certificate is only for graduate students in the Kinesiology program.

Physical Activity: Social Scientific Perspectives

The emphasis in physical activity: social scientific perspectives is intended for students interested in advanced study of physical activity from within the sociocultural, psychological, pedagogical or at-risk youth development areas. Students who have been active in the fields of education and physical education and who are interested in or are currently pursuing a teaching credential will also find the program relevant to their career goals. The curriculum is designed so that students who are currently enrolled in the credential program can apply 12 units towards the master’s program. In addition, students who previously received their teaching credential and are returning to school for the M.S. degree can design, with advisement, a program of studies from the courses listed below and other electives. Lastly, students can plan, with advisement, a program of studies within adapted physical education. Kinesiology graduate students may earn a Certificate in Physical Activity: Social Scientific Perspectives by completing three courses (nine units) in the emphasis that are marked with a number (1). This certificate is only for graduate students in the Kinesiology program.

Successful completion of the master degree requires that students demonstrate knowledge and skill in the following areas:

1. Able to apply multiple perspectives to the study of various forms of physical activity (e.g., exercise, fitness, movement, and skill) across the lifespan and in a variety of contexts
2. Gain an in-depth understanding of the body of knowledge related to one or more of the sub-disciplines in the field of kinesiology
3. Able to identify and search for information associated with problems or topics in Kinesiology
4. Able to use appropriate methodologies and technologies to address specific problems or topics in Kinesiology
5. Exit the program with an understanding of dominant theories, models, and systems in the study of Kinesiology
6. Become critical consumers of the literature in kinesiology and will have the skills and knowledge to make contributions to that literature

Career Outlook

Graduates from our program can gain immediate entry into a number of physical activity, exercise, and human movement related jobs or can seek advanced study leading to careers in: teaching, adapted physical education, coaching, athletic training, physical therapy, occupational therapy, exercise leadership, fitness program management, sports media, consulting, community-based program development, cardiac rehabilitation, biomechanical analysis of movement, ergonomics, sports-related endeavors, research in movement and skill development and learning, research in exercise physiology, research in sociocultural and psychological factors associated with sports, physical activity, and/or urban youth development, or careers in technical writing or computer technology.
Notes for Prospective Applicants for Undergraduate

Interested freshmen desiring a Bachelor of Science in Kinesiology should apply to the program as Undeclared with an Interest in Kinesiology. Upper division applicants will be considered for admission to the major. To be admitted to the major, students must have upper division status (earned at least 60 units by the preceding semester) and are recommended to complete prerequisite courses (Human Biology, Human Anatomy, Human Physiology, Elementary Statistics and Introduction to Kinesiology), all with grades of C or better. The applicants should choose their concentration (either Exercise and Human Movement or Physical Education) at the time of their application. Further instructions to apply the programs can be found at kin.sfsu.edu/impaction (http://kin.sfsu.edu/impaction).

Impaction Information

Effective fall 2014, both concentrations in the B.S. program are impacted. This means that there are more students interested in studying kinesiology than the program can accommodate. Therefore, entrance into the program is a selective and competitive process. Prospective students will need to apply to the program and students will only be accepted for the fall semester of each academic year. Transfer applicants not admitted to the major, but who meet GE and University admissions requirements, will be admitted to their alternate non-impacted majors. Continuing SF State students not admitted to the program will remain in their current majors or will be admitted to their alternate non-impacted majors.

Masters

• Master of Science in Kinesiology (p. 542)

Bachelor of Science in Kinesiology: Concentration in Exercise and Movement Sciences

The department offers a Bachelor of Science in Kinesiology with concentrations in Exercise and Movement Sciences, and in Physical Education. Both concentrations require a set of pre-major prerequisites and core requirements, some of which may be utilized to fulfill general education requirements, and which establish the framework for the study of movement, skills, and physical activity from a variety of perspectives. In addition, a set of concentration-specific courses serves the purpose of preparing the student for specific careers and/or graduate study within the field or related disciplines. Students must select one of the two concentrations.

• All courses including physical activity courses used to satisfy completion of major requirements must be taken for a letter grade. No CR/NC grades may be used on the major petition for graduation.
• Students majoring in Physical Education and taking courses in Exercise Science Emphasis areas (i.e., Physiology of Fitness and Health; Fitness Programming in Youth and Elderly Populations) are required to show proof of current First Aid/CPR certification upon application for graduation. This can be obtained via receiving off-campus certification by an agency such as the American Red Cross.
• Students majoring in Physical Education must earn a grade of C or higher in all required Kinesiology theory courses and grade of B or higher in all movement-based courses.
• It is recommended that students graduate with some form of certification to enhance employment opportunities, such as those provided by the American Red Cross, the American College of Sports Medicine, ACE, Senior Fitness Certificate, AFPA, or the National Coaching Association. See an advisor for suggestions and/or additional possibilities.

Bachelor of Science

Each concentration within the B.S. commences with a foundation in science, mathematics, and kinesiology, and a sequence of required core courses designed to progressively develop the students’ knowledge of movement, skill, and physical activity.

The graduating student will have the skills and knowledge to engage in the observation, analysis, and measurement of movement, fitness, learning, skill, and physical activity; will have the tools and knowledge to engage in synthesis and systematic inquiry; and will be capable of using necessary computerized programs and supporting technologies for systematic inquiry and/or professional practice.

The Concentration in Exercise and Movement Sciences serves students interested in biomechanics, exercise physiology, motor control, motor learning and development, sport and exercise psychology, sport history, sport sociology, socio-cultural studies of physical activity, urban youth development, and physical or occupational therapy. Qualified students will be equipped with the skills and knowledge needed for advanced study in any of the above-mentioned domains or employment in fitness settings, physical activity programming, the sports media, sports industries, and as consultants for agencies developing sports policy.

The program examines those factors that influence the form, function, and effectiveness of movement and physical activity across the lifespan and for special populations, such as the disabled and individuals with chronic diseases. The framework for the degree program encompasses three major subject areas:

1. Social Science: the socio-cultural and psychological factors that serve to constrain and define human movement, fitness, and physical activity;
2. Movement Science: the factors that influence the neuromotor control, learning, relearning, and development of motor skills and analysis; and
3. Exercise Science: the variables involved in the physiology of fitness and health, exercise prescription, and fitness programming in youth and elderly populations.

Toward the end of the program, students will select an emphasis area of study that will introduce them to specialized work within the concentration. In the movement science subject area, students become adept in observation and analysis of movement and in use of video and computer technology to study movement related questions. Throughout their studies, students apply the knowledge and skills they gain to the analysis of movement problems which are of personal interest and significance.

In the social science subject area, students will gain an understanding of the psychological, social, and cultural contexts in which physical activity occurs. Students will undertake the study of the origins of modern sport and physical activity, as well as explore such factors as the social, psychological, cultural, economic, and political influences on physical activity participation at all levels.

In the exercise science subject area, students will study the effects of exercise and physical activity on factors influencing work performance, training programs, and adaptations that include the reduction of risk factors for medical conditions such as coronary heart disease, cerebral vascular disease, adult-onset diabetes, obesity, and osteoporosis, as well as special conditions such as pregnancy, and other hypokinetic illnesses, or adaptations that are effective for the aged and disabled populations. The student will also study factors and frameworks for an effective programming for fitness and physical activity behaviors in youth and elderly populations.

Students who complete the Exercise and Movement Sciences concentration should be able to:

1. Define kinesiology and its sub-disciplines.
2. Explain the value of, and advocate for, physical activity in terms of health, wellness, and quality of life.
3. Analyze a variety of physical activities and their components from multiple perspectives.
4. Discuss how and why human performance changes.
5. Design interventions to maintain and improve human performance.
6. Critically evaluate information sources in kinesiology.
7. Effectively communicate information about kinesiology.
8. Apply their knowledge and skills to problems that confront contemporary society.

**General Education Requirements Met in the Kinesiology Major or Undeclared with Interest in Kinesiology**

The requirements below are deemed “met in the major” upon completion of the courses listed (even though the courses and their prerequisites are not approved for GE). This is true whether or not the student completes the major.

First-Time Student Roadmap (4 Year)

This roadmap open in a new tab. (p. 531)

Transfer Student Roadmap (2 Year)

For students with an AA-T in Kinesiology. This roadmap opens in a new tab. (p. 534)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Kinesiology

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units.
if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCcs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State.

Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

### All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy GE Area A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

Bachelor of Science in Kinesiology: Concentration in Exercise and Movement Sciences – KIN Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Kinesiology. At least 12 lower division units in the major (KIN 250, BIOL 220, BIOL 212/BIOL 213, one activity unit) and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</table>

1. If ENG 214 and MATH 124 (or equivalents) are not completed prior to transfer, take KIN 384GW in second semester. Progress in the major and length of time for degree completion will be affected.

2. AFRS 375, AFRS 376, HIST 470, HIST 471 satisfy US History and US/CA Government. HIST 470 and HIST 471 also satisfy Upper Division GE: UD-C.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:
### University-Wide Requirements: 9–18 Units
- ENG 214 or equivalent A4 course (0–3 units): If this requirement is not completed before transfer, it is not possible to finish this major in four semesters. Completion in 60 units is possible, but KIN 384GW cannot be taken until ENG 214 and MATH 124 or equivalents have been completed. Subsequent KIN courses cannot be taken until KIN 384GW is completed.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer. See grid above for advice about courses that fulfill both requirements if needed.
- Upper division GE, areas B, C and D (9 units) – see grid above for advice about courses that double-count in UD GE and American Institutions.
- Students entering the major with the AA-T in Kinesiology are not required to fulfill SF State Studies and Complementary Studies requirements.

### Kinesiology: Concentration in Exercise and Movement Sciences Major: 39–57 units

KIN 250, BIOL 220 or BIOL 328, BIOL 212/BIOL 213, one unit of activity met in transfer.

- Prerequisites (0–8 units): BIOL 100+BIOL 101 or BIOL 230 and/or MATH 124 if not completed before transfer *Grade of ‘C’ or better*
- Core: (18 units): KIN 251, KIN 384GW, KIN 457, KIN 480, KIN 486, KIN 504
- Concentration (10–19 units) CHEM 101/CHEM 102 or CHEM 115 and/or PHYS 101/PHYS 102 or PHYS 111/PHYS 112 if not completed before transfer; KIN 482, KIN 483, KIN 485, KIN 696 or KIN 699
- Emphasis (11–12 units)

### University Electives: Zero or More Units

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.

### Major Prerequisite or Concentration

Bachelor of Science in Kinesiology: Concentration in Physical Education

The Department of Kinesiology offers a Bachelor of Science in Kinesiology with concentrations in Exercise and Movement Sciences, and in Physical Education. Both concentrations require a set of pre-major prerequisites and core requirements, some of which may be utilized to fulfill general education requirements, and which establish the framework for the study of movement, skills, and physical activity from a variety of perspectives. In addition, a set of concentration-specific courses serves the purpose of preparing the student for specific careers and/or graduate study within the field or related disciplines. Students must select one of the two concentrations.

• All courses including physical activity courses used to satisfy completion of major requirements must be taken for a letter grade. No CR/NC grades may be used on the major petition for graduation.

• Students majoring in Physical Education and taking courses in Exercise Science Emphasis areas (i.e., Physiology of Fitness and Health; Fitness Programming in Youth and Elderly Populations) are required to show proof of current First Aid/CPR certification upon application for graduation. This can be obtained via receiving off-campus certification by an agency such as the American Red Cross.

• Students majoring in Physical Education must earn a grade of C or higher in all required Kinesiology theory courses and grade of B or higher in all movement-based courses.

• It is recommended that students graduate with some form of certification to enhance employment opportunities, such as those provided by the American Red Cross, the American College of Sports Medicine, ACE, Senior Fitness Certificate, AFAA, or the National Coaching Association. See an advisor for suggestions and/or additional possibilities.

Bachelor of Science

Each concentration within the B.S. commences with a foundation in science, mathematics, and kinesiology, and a sequence of required core courses designed to progressively develop the students’ knowledge of movement, skill, and physical activity.

The graduating student will have the skills and knowledge to engage in the observation, analysis, and measurement of movement, fitness, learning, skill, and physical activity; will have the tools and knowledge to engage in synthesis and systematic inquiry; and will be capable of using necessary computerized programs and supporting technologies for systematic inquiry and/or professional practice.

The Concentration in Physical Education prepares students for entry to a teacher credentialing program and graduate related studies. The courses of study satisfy California State requirements for the Subject Matter Program in Physical Education and the departmental standards for competence in the subject matter of Physical Education. This degree emphasis will prepare students for advanced studies in physical education for elementary, middle and high schools. In addition, students who wish to pursue graduate studies will be well prepared to do so.

Students who complete the concentration in Physical Education should have:

1. Knowledge of the philosophical, historical, and ethical/legal foundations of Physical Education as professional and educational standards

2. An understanding of human growth and development processes, as well as how these processes interact with and influence motor learning, to teach based on the physical education model Content Standards for California Public Schools

3. A broad and deep knowledge of the sciences related to human movement, analyzing motion and applying this knowledge considering individual differences, including individuals with disabilities

4. A broad and deep understanding of the sociology and psychology of human movement behavior.

5. Expertise in concepts and forms of movements and relate the human motor development curriculum to physical education design

6. Knowledge of assessment principles and procedures to evaluate the effectiveness of physical education strategies and activities

7. Understanding of the integration of themes and concepts in physical education and the interrelationships between physical education and other subject areas

General Education Requirements Met in the Kinesiology Major or Undeclared with Interest in Kinesiology

The requirements below are deemed “met in the major” upon completion of the courses listed (even though the courses and their prerequisites are not approved for GE). This is true whether or not the student completes the major.

• Area B2 (Life Science) is satisfied upon completion of either BIOL 212 and BIOL 220 or BIOL 328.

KIN 580  Instructional Strategies for Middle and High School Physical Education, Grades 6-12  3
KIN 581  Practicum in Middle and High School Physical Education  1

Movement Experiences (5-7 Units)
With prior approval of advisor, select five to seven basic activity courses (one unit each) to satisfy the distribution shown below. Selections should broaden the student’s personal movement and skill vocabulary.

- Aquatics
- Dance (which must include folk dance)
- Martial Arts
- Team Sports
- Fitness
- Instructional Analysis

Instructional Analysis
KIN 305  Instructional Analysis: Track, Field, and Gymnastics Floor Activities  2

Additional Subject Matter Requirements for the Single Subject Matter Preparation in Physical Education and Dance Program
Students seeking the Physical Education and Dance Single Subject Credential or the Physical Education Subject Matter Preparation Program (approved 2009 by the CTC) are also required to complete the following courses:

KIN 306  Instructional Analysis: Racquet Sports  2
KIN 307  Instructional Analysis: Basketball and Volleyball  2
KIN 308  Instructional Analysis: Fitness Activities  2
KIN 309  Instructional Analysis: Soccer and Softball  2

Students in the Physical Education Subject Matter Preparation Program must also complete an activity course in Individual Sports / Activities such as track, tennis, or gymnastics.

Additional Required Experiences
The following experiences are required for satisfactory completion of the Physical Education Subject Matter Preparation Program. Students may complete these experiences in courses available at a college, university, or off-campus. However, these experiences do not bear credit toward completion of the major.

- Life Guard Training and Water Safety Instruction.
- First Aid-CPR Certification.
- Active participation in student CAHPERD, AAHPERD, and/or the Kinesiology Student Association, or other related professional organization.
- Gain experience in coaching, teaching physical education, recreation, or intramurals through working as a volunteer or paid assistant.

Physical Education Teaching Credential Pathway
Each student in the Subject Matter Preparation Program meets the CSU Early Field Experience requirement for the SF State Single Subject Credential Program of 45 hours and develops curriculum and instruction skills. Students enrolling in KIN 402 and KIN 581 are assessed through a version of the Performance Assessment for California Teachers (PACT) required for a credential that has been adapted for the development of beginning teaching skills, planning, assessment analysis, class video recording and co-teaching. For curriculum and instruction, the courses KIN 401 and KIN 580 require that students present a curriculum, a unit plan and a lesson plan for one grade level. The instructional analysis courses (KIN 305, KIN 306, KIN 307, KIN 308 and KIN 309) refine teaching skills using specific pedagogical strategies for physical education content. In KIN 384GW students learn about assessment, data analysis and different methods of providing feedback to K - 12 students. For adapted physical education requirements, the same procedures are followed by KIN 536, KIN 538, KIN 537, KIN 539 and KIN 630.

Expectations for Student Performance
- Earn at least a C in each and all required KIN theory courses, and for credentialing purposes, at least a B in each and all movement experiences courses and all instructional analysis courses
- Demonstrate an understanding of and possess demonstration level skill competence in twelve activity areas. Students must pre-plan their routes to meet this requirement upon consultation with faculty and in conjunction with KIN 340.
- Successful completion of a fitness assessment test in conjunction with KIN 255.
- Demonstrate a high level of personal skill and coaching expertise in at least one sport.

Adapted Physical Education Curriculum
By completing the following courses, along with the Subject Matter Credential in Physical Education, a Specialist Credential in Adapted Physical Education can be achieved.

KIN 536  Movement for Individuals with Mild Disabilities  4
KIN 537  Movement for Individuals with Severe Disabilities  3
KIN 538  Therapeutic Exercise  3
KIN 539  Motor Assessment of Individuals with Disabilities  3
KIN 630  Internship in Adapted Physical Education  3

</table>
www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#A3EL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

---

### Bachelor of Science in Kinesiology: Concentration in Physical Education

**B.S. in Kinesiology: Concentration in Physical Education Roadmap**

This link opens the 2017–2018 roadmap in a new tab (p. 540).

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://
All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Total Units**: 120-121

---

1. To avoid taking additional units, it is recommended that you meet LLD and **SF State Studies** requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy GE Area A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. **Movement Experiences (5–7 Units)**

   With prior approval of advisor, select five to seven basic activity courses (one unit each) to satisfy the distribution shown below. Selections should broaden the student's personal movement and skill vocabulary.
   - Aquatics
   - Dance (which must include folk dance)
   - Martial Arts
   - Team Sports
   - Fitness
   - Instructional Analysis
   - KIN 305 Instructional Analysis: Track, Field, and Gymnastics Floor Activities (2 units)
Minor/Certificate in Athletic Coaching

This sequence of courses is for students who are interested in coaching and/or pursuing a career in coaching. It provides the knowledge and skill base required for coaching club, school, and community athletic teams.

Athletic Coaching, Minor/Certificate — 24–25 units

Core (19–20 units)

<tbody>
<tr>
<td>KIN 570</td>
<td>Directed Coaching Experience</td>
<td>1</td>
</tr>
</tbody>
</table>

A one-season coaching experience in youth athletics, recreation leagues, interscholastic, or intercollegiate athletics in a sport in which a coaching course is selected.

Repeat of Courses

Graduate students who receive a grade lower than B, including AU, IC, RD, RP, W, and WU may repeat the course only once more.

Continuous Enrollment

Students are expected to continuously enroll in the University while working on the degree through the College of Extended Learning (CEL) until the degree is earned using HSS 499.

Assistantships

Opportunities may be available to work in the Kinesiology Department as a graduate student at San Francisco State University. Qualified students may apply, when available, to teach the physical activity courses, lower division lectures, and laboratory sections. Students may also apply for financial aid through the University.

The Master of Science in Kinesiology is 30 units and includes a core, an emphasis, electives, and a culminating experience. Students studying a specific emphasis, in consultation with their advisor, will select electives and a culminating experience that best meets their professional/personal needs. Final approval of the student’s program rests with the graduate faculty. Students are expected to complete this degree in a maximum of five years.

\(^1\) To apply for award of certificate, you must submit the Certificate Approved Program form to your advisor and Graduate Program Coordinator. You will need to pay a processing fee at the Cashier’s Office before submitting the form and your unofficial transcripts to the GradStop Counter. For further information and to access the online forms go to sfsu.edu/~gradstyd/forms/cap.pdf (http://www.sfsu.edu/~gradstyd/forms/cap.pdf)
NURSING

College of Health and Social Sciences
Dean: Alvin Alvarez, PhD

School of Nursing
BH 371
Phone: (415) 338-1802
Website: http://www.nursing.sfsu.edu/
Email: nursing@sfsu.edu

Director: Mary Ann van Dam, Ph.D., RN, PNP
Associate Director: Elaine Musselman, RN, Ph.D., CNE

Academic Nursing Programs Offered
Bachelor of Science in Nursing
- Precalculus: for entry into the nursing profession
- Registered Nurse to BSN: for RNs without a nursing baccalaureate degree

Master of Science in Nursing/Post Master's Certificate
- Precalculus: entry level into the nursing profession for students with a baccalaureate degree in another field; pre-licensure and graduate specialization components in administration, adult acute care, pediatrics, women's health, and community health
- RNs with bachelor's degrees in nursing or other disciplines can specialize in administration, adult acute care, pediatrics, women's health, community health, or family nurse practitioner
- Post-master's certificate: family nurse practitioner for nurses with masters' or doctoral degrees

The School
Mission
The San Francisco State University School of Nursing aims to motivate and educate undergraduate and graduate nursing students to meet the healthcare needs of individuals, families, and communities. The faculty has a passion for teaching using a rich variety of educational methods. We embrace the diversity of our student population and are committed to educating nurses who serve diverse populations with a focus on social and environmental justice, and health equality. Furthermore, we incorporate evidence-based nursing knowledge, ethical decision-making, and sound clinical judgment into our educational paradigm. Using various educational modalities that include state of the art information technologies, students learn how to provide safe, quality patient-centered care. Our students are prepared to adapt to changing healthcare needs and environments and to serve society through civic engagement and lifelong learning.

Nursing Philosophy
We foster student growth and development embracing their richly diverse cultural and ethnic backgrounds, recognizing the individual differences in learning styles and goals, and adapting support systems to help students fulfill their educational goals. Building on a foundation of knowledge from nursing and other disciplines such as psychology, sociology, philosophy, and anthropology, graduates of this program will collaborate with other healthcare disciplines (i.e. medicine, physical therapy, psychology, social work, and others) to provide compassionate and ethical care along the health-illness continuum throughout the lifespan. These educational endeavors affect the healthcare environment and positively influence health outcomes of individuals, families, communities and populations. We are committed to professional development of faculty, staff, and students using our conceptual model, which guides our academic activities. We provide excellent nursing education and academic activities emphasizing patient-center care, patient safety, teamwork and collaboration, evidence-based practice, quality improvement, informatics, leadership and lifelong learning for the students as well as faculty and staff.

The following objectives are based on this philosophy:

- To provide curricula that reflects human diversity and encourages critical thinking, clinical judgments, and social and cultural awareness
- To provide a learning environment conducive for students with diverse learning styles and needs
- To develop clinicians, leaders, advocates and change agents to function in evolving healthcare systems
- To increase the number of nurses from underrepresented groups in nursing
- To prepare nurses who support, use and disseminate research in practice
- To serve the local and global community through faculty and student leadership, consultation research, and clinical practice

Conceptual Framework
The conceptual framework that provides the academic foundation for the nursing curriculum at the SF State School of Nursing is based on the Quality and Safety Education for Nurses (QSEN) competencies. These concepts encompass patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety and informatics. This conceptual framework is based on the acquisition of knowledge, skills, and attitudes (KSAs) required to ensure quality care and the safety of clients and families in local and global communities in a variety of healthcare systems.

Career Outlook
The Bachelor of Science degree prepares students for entry-level positions in professional nursing practice. Graduates are prepared to take a national licensure examination (NCLEX) to become registered nurses and for positions in maternity, pediatrics, medical-surgical nursing, gerontology, psychiatric/mental health, community health, long-term care and home-care. In addition, they are eligible for public health nursing certification in California upon licensure as a registered nurse. For RNs, the Bachelor of Science degree builds upon previous nursing education and experience for professional role development.

Master of Science graduates provide leadership and expertise in a variety of settings as expert clinicians, administrators/managers, teachers and researchers assuring health and healthcare for people of all ages. Clinical Nurse Specialists, as expert clinicians, managers, program planners and case managers, serve specific client/patient populations in acute, chronic, inpatient, outpatient, and community/public health settings. Graduates of the nursing administration emphasis hold positions in nursing management, administration, and as entrepreneurs across a variety of health care settings. Graduates prepared as family nurse practitioners hold positions in a variety of primary care and hospital settings. Graduates of all emphases are eligible for positions in program planning and evaluation and to serve as clinical faculty for schools of
nursing. The master’s curriculum also prepares students for entry into nursing education at the doctoral level.

Notes for Prospective Applicants
In addition to the requirements listed for each educational level in the materials that follow, there are special considerations for all nursing students:

• Informational sessions about the school and application processes will be offered. Please check the website for dates, times and locations.
• The School of Nursing reserves the right to make changes in the admissions process or curriculum to accommodate programmatic needs. Students will be advised and assisted in making adjustments to these changes.
• Students may apply to only one of the programs offered by the school in a given admission cycle.
• Course equivalency information may be found at http://www.assist.org.
• Students must have personal health insurance.
• Prior to the beginning of each semester, students must meet specific health requirements including immunizations, tuberculosis testing, etc.
• Background checks and drug screening are required for all prelicensure students prior to starting clinical.
• Students are required to purchase specified equipment and pay laboratory fees for certain courses.
• Current Basic Cardiac Life Support (BCLS) for health care providers as offered by the American Heart Association is required.
• A National Council Licensure Examination-Registered Nurse (NCLEX-RN) preparation program is incorporated throughout the prelicensure nursing programs for an additional fee.
• Students must have use of an automobile for the community health nursing experience and to travel to clinical sites that may not be served by public transportation.

30 Unit LVN Option
A 30 unit LVN option is available on a space available basis. Students must contact the School of Nursing prior to admission and registration for advising about course placement, the challenge exam process, and space availability. Upon completion of the program, the LVN will not receive a degree, but will be eligible to take the NCLEX-RN.

Certificates
• Family Nurse Practitioner Certificate (p. 551)

Bachelor of Science for RNs
The RN–BSN program is designed for RNs with an associate degree or diploma in nursing who are interested in obtaining a baccalaureate nursing degree. The curriculum allows credit for some previous course work and has flexible scheduling to accommodate the practicing nurse. Students have the option to study part-time or full-time. If a student meets University general education and other degree requirements, it is possible to complete the course of study in one to a half years through full-time study.

Admission/Application Information
• Spring entry only. The application period is during the month of August. Specific dates and application process guidance will be posted on the School of Nursing website.
• Both School of Nursing and University applications must be submitted for those who are not already SF State students.
• RNs may receive credit for previous nursing education.
• The maximum number of transferable units is 70.

Criteria for Admission
• Eligible for undergraduate or post-baccalaureate admission to the University.
• Successful completion of an accredited associate degree or diploma in nursing.
• Licensure as an RN in the State of California prior to enrollment.
• A nursing prerequisite GPA of 3.0 or higher at the time of the School of Nursing supplemental application.
• All nursing prerequisites completed with a minimum grade of C.

Prerequisite Courses – 28 Units
The courses listed below or those which are comparable as listed on www.assist.org (http://www.assist.org) are required for acceptance into the major.

NURS 559  Professional Practice Concepts Practicum  3

Upper Division General Education  3

Units  9

Total Units  30

Students completing the RN–BSN program will achieve the School of Nursing’s BSN Expected Student Learning Outcomes as outlined below:

- Function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.
- Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.
- Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems.
- Minimizes risk of harm to patients and providers through both system effectiveness and individual performance.
- Use information and technology to communicate, manage knowledge, mitigate error, and support decision-making.

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) 3

30
Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.
Bachelor of Science in Nursing (Prelicensure)

The School of Nursing offers prelicensure (RN) bachelor's degree programs at the San Francisco campus and in the Peninsula/SF State Baccalaureate Nursing Program at the College of San Mateo. The Peninsula/SF State Baccalaureate Nursing program is an accelerated four-semester program that includes the summer session. It is offered through the College of Extended Learning at SF State and is supported through San Mateo Community College District, Sequoia Hospital and the CSU. The course of study is the same for both sites. Students are encouraged to explore the specific requirements on the School of Nursing website as they may vary from year to year.

Applicants to the baccalaureate nursing program may be current students at SF State, transfers, or second baccalaureates. As freshmen applicants are not admitted to the university as nursing majors, students can be admitted as Pre-nursing or to an alternate major. The Pre-nursing designation does not guarantee admission to the nursing major; students with the Pre-nursing designation must seek advising from the Student Resource Center in the College of Health and Social Sciences. All students applying to the nursing program must meet the minimum University requirements (see earlier sections of the Bulletin) and satisfy specific prerequisites for the program.

Admission/Application Information

- Application period: early October to mid-January. Specific dates and application process guidance will be posted on the School of Nursing website.
- Both School of Nursing and University applications must be submitted for those who are not already SF State students.
- Optional supplemental criteria: foreign language proficiency, multicultural work, volunteer experiences, and health related work or volunteer experiences.
- Sequoia applicants must verify their residency and completion of prerequisite course work in the San Mateo Community College District.
- Applicants will be notified of the decision regarding acceptance into the program in the spring.

Admission Criteria for the Prelicensure Baccalaureate Nursing Program

Transfer applicants must be admissible to the University in accordance with existing criteria as stated in the undergraduate admission requirements section of the University Bulletin. Second baccalaureate applicants must be admissible as per the CSU Graduate Admission Eligibility section of the Bulletin. In addition, students seeking to major in nursing must meet the following criteria and prerequisites.

Prospective students must:

- Be California residents or eligible for CSU in-state tuition.
- Have a nursing Prerequisite GPA of 3.0 or higher at the time of School of Nursing supplemental application.
- Receive a minimum grade of C in all nursing prerequisites.
- Complete University general education requirements.
- Submit results of the Test of Essential Academic Skills (ATI TEAS) at the time of supplemental application. A score of 78 or higher is required within three attempts.

Students completing the B.S.N. program will achieve the School of Nursing’s B.S.N. Expected Student Learning Outcomes as outlined below:

1. Recognize the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient’s preferences, values, and needs.
2. Function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.
3. Integrate best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.
4. Use data to monitor the outcomes of care processes and use improvement methods to design and test changes to continuously improve the quality and safety of healthcare systems.
5. Minimizes risk of harm to patients and providers through both system effectiveness and individual performance.
6. Use information and technology to communicate, manage knowledge, mitigate error, and support decision-making.

General Education Requirements Met in Pre-nursing Courses

The requirements below are deemed “met in the major” upon completion of the courses listed (even though the courses and their prerequisites are not approved for GE). This is true whether or not the student completes the major.

- Area B2 (Life Science) is satisfied upon completion of either BIOL 210 and BIOL 212, or BIOL 210 and BIOL 220.

Nursing Prerequisites – 27–28 units

The courses listed below or those which are comparable as listed on assist.org (http://www.assist.org) are required for acceptance into the nursing major. Seven of the eight prerequisites must have been completed at the time of School of Nursing supplemental application.

1 Either anatomy course must include a laboratory component if taken elsewhere.
This is an integrated course in which students are introduced to topics in general, organic, and biochemistry. Stand alone general, inorganic, or organic chemistry courses will also fulfill the chemistry requirement.

**Nursing GWAR Course Information**

All undergraduate nursing students must have completed ENG 214 or an equivalent course prior to enrolling in NURS 312GW during semester one of the nursing major.

**Courses Required for RN Licensure in California**

Prior to applying for RN licensure, the Board of Registered Nursing (BRN) requires students to have completed a minimum of 16 semester units comprising natural sciences, behavioral, and social sciences. To complement the anatomy, physiology, and microbiology prerequisites, it is highly recommended that students complete a general or developmental psychology course prior to taking NURS 328 Psychiatric Mental Health Nursing Theory and any additional behavioral or social science course as needed to fulfill the BRN’s requirement; Anthropology or Sociology is strongly suggested.

**Note:** These courses may also satisfy GE requirements.

**General Education Requirements Met in Nursing Courses**

The requirements below are deemed “met in the major” upon completion of the courses listed (even though the courses and their prerequisites are not approved for GE). This is true whether or not the student completes the major.

- UD–D (Social Sciences) and SF Studies American Ethnic and Racial Minorities (AERM) and Social Justice (SJ) are satisfied upon completion of NURS 522 and NURS 530.

**Bachelor of Science in Nursing Curriculum**

(usual course of study)

**Nursing (B.S.) — 56 units**

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  LD or UD  3
Environmental Sustainability (ES)  LD or UD  3
Global Perspectives (GP)  LD or UD  3
Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)
This roadmap open in a new tab. (bulletin.sfsu.edu/colleges/health-social-sciences/nursing-bsn/roadmap.html)

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   • a course in U.S. History
   • a course in U.S. & California Government
   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.
Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Family Nurse Practitioner Certificate**

The Post Master’s Family Nurse Practitioner (FNP) certificate allows master’s and doctoral prepared nurses to attain certification as an FNP in the State of California after completing 31 units of post-graduate work. Completion of the certificate verifies to the California Board of Registered Nursing that the students satisfy all requirements for licensure as family nurse practitioners. The program also provides documentation to professional organizations that all requirements for national certification examinations were completed. The certificate program includes the courses listed below. Sequencing is determined in consultation with an advisor.

**Post Master’s Family Nurse Practitioner Certificate – 31 units**

Students completing the Post-Master’s FNP certificate program will achieve the School of Nursing’s MSN Expected Student Learning Outcomes as outlined below:

- Applies and integrates broad organizational, client-centered, and culturally appropriate concepts in the planning, delivery, management, and evaluation of evidence-based clinical prevention and population care and services.
- Demonstrates nursing and inter-professional collaboration that facilitates open communication, mutual respect, and shared decision-making to achieve quality patient care.
- Creates collaborative programs and educational approaches that address health promotion and disease prevention needs of culturally-ethnically diverse individuals and populations.
- Demonstrates a professional leadership role to promote quality and safe clinical patient care that incorporates ethical and critical decision-making approaches, fiscal accountability, effective working relationships, and systems perspectives.
- Assimilates nursing knowledge and expertise through research utilization, informatics literacy, and generates educational, leadership, or clinical approaches to advance professional nursing practice.
- Utilizes information technology to communicate effectively, manage knowledge, mitigate error, and to support decision-making.
- Designs evaluation strategies for nursing care outcomes to assess, manage, and determine resource allocation for evaluation of nursing care outcomes.
- Evaluate methods, tools, performance measures, and standards related to quality improvement within a healthcare organization.
- Applies research outcomes within the practice setting to resolve identified practice problems.

Organizes interventions at the health care system level utilizing policy development processes, economic principles, and employing advocacy strategies to influence health and health care services for individuals.

**Admission/Application Information for the FNP Certificate Program**

**Admission Requirements**

- Master’s or doctoral degree in nursing.
- Current RN licensure in California.
- One year or 2,000 hours of recent relevant clinical nursing experience.

**Master of Science in Nursing**

The School of Nursing provides master’s level educational opportunities for registered nurses and individuals with a bachelor’s degree in other fields who wish to enter the profession or pursue an advanced practice nursing degree.

**Registered nurses with bachelor’s degrees** in nursing can enter the master’s program by demonstrating they have met nursing content comparable to that in the SF State baccalaureate program.

**Individuals who are not nurses but have a bachelor’s degree** may apply to Entry-Level M.S.N. program. Students in this program complete the pre-licensure curriculum along with graduate level coursework to earn their M.S.N. in six semesters. Upon completion of pre-licensure courses, the students take a national licensing exam (NCLEX-RN) to become a registered nurse. A two-year accelerated is also available. Accelerated students enroll through the SF State College of Extended Learning. All students must have successfully completed all prelicensure courses.
and take the national licensing exam (NCLEX-RN) in California prior to enrolling in NURS 802.

Registered nurses who already hold nursing master’s degrees may apply to the post master’s family nurse practitioner (FNP) certificate program (graduate level coursework).

The master’s level curriculum includes both core courses and specialty courses. The core courses, the portion of the program for all students, include nursing theory, advanced practice nursing roles, pathophysiology, research, leadership, health policy and ethics for advanced practice nurses. Units taken in addition to the core program are selected with graduate nursing faculty advisement. Upon completion, students are eligible to sit for national nurse practitioner certification board exams and FNP certification in California.

Please note that students taking post master’s FNP certificate courses will enroll for courses through the College of Extended Learning.

**Admission/Application Information and Requirements for the Master’s Degree**

For all applicants:

- Visit the School of Nursing website for specific application dates.
- Meet general requirements for admission to graduate study at SF State and submit a separate application to the Division of Graduate Studies.
- Complete the School of Nursing supplemental application process.
- Include a written goal statement.
- Students whose primary language is not English must earn a minimum score of 550 on the paper Test of English as a Foreign Language (TOEFL) or 80 overall on the internet-based (iBT) TOEFL.
- All graduate students are required to establish written English proficiency (see information below) by submitting results of the analytical writing section of the GRE at the time of application. A score of 4.0 or above is required.
- Three references from work colleagues, supervisors, or educators.
- Provide a resume or curriculum vitae.

For RN applicants:

- Courses in inferential statistics and an undergraduate nursing research course are recommended.
- RNs who enter the M.S.N. program without a nursing bachelor’s degree must complete undergraduate nursing research and a community/public health courses prior to enrollment or concurrent with semester one M.S.N. coursework.
- Some of the prerequisite courses may be challenged or waived for students who have extensive professional experience and have participated in mandatory continuing education programs for RN licensure.
- Family Nurse Practitioner applicants must have a minimum of one year or 2,000 clinical hours of RN experience.

For non-RN applicants:

- Entry Level master's applicants must have completed all prerequisites at the time of application to the program.
- One of the three required references must provide evidence of health related work or volunteer experience

**Written English Proficiency Requirement**

The University has a requirement for graduate written English proficiency that is to be assessed at two different points (Levels) in the student’s program.

**Level One (prior to admission)**

A score of 4.0 or above on the analytical writing section of the GRE.

**Level Two**

Demonstration of English proficiency on the final paper for NURS 794.

**Entry–Level Nursing Master of Science Degree**

Qualified applicants are accepted into the Entry Level or Accelerated Entry Level MSN program conditionally.

**Prerequisites — 27–28 units**

The courses listed below or those which are comparable as listed on www.assist.org (http://www.assist.org) are required for acceptance into the program.

1. Either anatomy course must include a laboratory component if taken elsewhere
2. This is an integrated course in which students are introduced to topics in general, organic, and biochemistry. Stand alone general, inorganic, or organic chemistry courses will also fulfill the chemistry requirement.

**Courses Required for RN Licensure in California**

Prior to applying for RN licensure, the Board of Registered Nursing (BRN) requires students to have completed a minimum of 16 units comprising natural sciences, behavioral, and social sciences. To complement the anatomy, physiology, and microbiology prerequisites, it is highly recommended that students complete a general psychology course prior to taking NURS 328 and any additional behavioral or social science course as needed to fulfill the BRN's requirement. Anthropology or Sociology is strongly suggested.

Students completing the Entry-Level Master’s program will achieve the School of Nursing’s MSN Expected Student Learning Outcomes as outlined below:

- Applies and integrates broad organizational, client-centered, and culturally appropriate concepts in the planning, delivery, management, and evaluation of evidence-based clinical prevention and population care and services.
- Demonstrates nursing and inter-professional collaboration that facilitates open communication, mutual respect, and shared decision-making to achieve quality patient care.
- Creates collaborative programs and educational approaches that address health promotion and disease prevention needs of culturally-ethnically diverse individuals and populations.
Demonstrates a professional leadership role to promote quality and safe clinical patient care that incorporates ethical and critical decision-making approaches, fiscal accountability, effective working relationships, and systems perspectives.

- Assimilates nursing knowledge and expertise through research utilization, informatics literacy, and generates educational, leadership, or clinical approaches to advance professional nursing practice.
- Utilizes information technology to communicate effectively, manage knowledge, mitigate error, and to support decision-making.
- Designs evaluation strategies for nursing care outcomes to assess, manage, and determine resource allocation for evaluation of nursing care outcomes.
- Evaluate methods, tools, performance measures, and standards related to quality improvement within a healthcare organization.
- Applies research outcomes within the practice setting to resolve identified practice problems.
- Organizes interventions at the health care system level utilizing policy development processes, economic principles, and employing advocacy strategies to influence health and health care services for individuals, families, aggregates/identified diverse populations and communities.

Emphasis or Electives (8–12 units)

Units on advisement

Emphases

Clinical Nurse Specialist (CNS)

This emphasis offers the graduate student the opportunity to take additional courses for certification by the California Board of Registered Nursing (BRN) and to take a national certification exam through the American Nurse Credentialing Center (ANCC). The CNS is an advanced practice nurse holding a master's degree in a specific area of clinical nursing specialization such as adult and critical care, women's health, and pediatrics. The role of the CNS is defined by the needs of a select client population and clinical expertise of the nurse. Specialized role content is included in NURS 801 and NURS 802.

Community Public Health

Students completing this emphasis are prepared to assume nursing roles in a variety of care settings including public health, home health, and schools and may be eligible for CNS certification by the California Board of Registered Nursing (BRN). Specialized role content is included in NURS 801 and NURS 802.

Nursing Administration

This emphasis enables students to combine the nursing perspective and principles of business to become effective and successful managers and administrators. Courses may also be taken in the College of Business with the advice and approval of the advisor.

Students in this emphasis are not required to take NURS 711, NURS 715, NURS 716 or NURS 717 in the nursing core.

Master of Science in Nursing: Concentration in Family Nurse Practitioner

The School of Nursing provides master’s level educational opportunities for registered nurses and individuals with a bachelor’s degree in other fields who wish to enter the profession or pursue an advanced practice nursing degree.

Registered nurses with bachelor’s degrees in nursing can enter the master’s program by demonstrating they have met nursing content comparable to that in the SF State baccalaureate program.

Individuals who are not nurses but have a bachelor’s degree may apply to Entry Level MSN program. Students in this program complete the pre-licensure curriculum along with graduate level coursework to earn their MSN in six semesters. Upon completion of pre-licensure courses, the students take a national licensing exam (NCLEX-RN) to become a registered nurse.

Registered nurses who already hold nursing master’s degrees may apply to the post master’s family nurse practitioner (FNP) certificate program (graduate level coursework).

The master’s level curriculum includes both core courses and specialty courses. The core courses, the portion of the program for all students, include nursing theory, advanced practice nursing roles, pathophysiology, research, leadership, health policy and ethics for advanced practice nurses. Units taken in addition to the core program are selected with graduate nursing faculty advisement. Upon completion, students are eligible for FNP certification in California and to sit for the national nurse practitioner board certification exam.
Please note that students taking post master’s FNP certificate courses will enroll for courses through the College of Extended Learning.

**Admission/Application Information and Requirements for the Master’s Degree**

For all applicants:

- Visit the School of Nursing website for specific application dates.
- Meet general requirements for admission to graduate study at SF State and submit a separate application to the Division of Graduate Studies.
- Complete the School of Nursing supplemental application process.
- Include a written goal statement.
- Students whose primary language is not English must earn a minimum score of 550 on the paper Test of English as a Foreign Language (TOEFL) or 80 overall on the internet-based (iBT) TOEFL.
- All graduate students are required to establish written English proficiency (see information below) by submitting results of the analytical writing section of the GRE at the time of application. A score of 4.0 or above is required.
- Three references from work colleagues, supervisors, or educators.
- Provide a resume or curriculum vitae.

For RN applicants:

- Courses in inferential statistics and an undergraduate nursing research course are recommended.
- Some of the prerequisite courses may be challenged or waived for students who have extensive professional experience and have participated in mandatory continuing education programs for R.N. licensure.
- Family Nurse Practitioner students must have a minimum of one year or 2,000 clinical hours of RN experience.

For non-RN applicants:

- Entry Level master's applicants must have completed all prerequisites at the time of application to the program.
- Provide evidence of health related work or volunteer experience

**Written English Proficiency Requirement**
The University has a requirement for graduate written English proficiency that is to be assessed at two different points (Levels) in the student’s program.

**Level One (prior to admission)**
A score of 4.0 or above on the analytical writing section of the GRE.

**Level Two**
Demonstration of English proficiency on the final paper for NURS 794.

**Concentration in Family Nurse Practitioner**
Students completing the Master's program will achieve the School of Nursing’s MSN Expected Student Learning Outcomes as outlined below:

- Demonstrates nursing and inter-professional collaboration that facilitates open communication, mutual respect, and shared decision-making to achieve quality patient care.
- Creates collaborative programs and educational approaches that address health promotion and disease prevention needs of culturally-ethnically diverse individuals and populations.
- Demonstrates a professional leadership role to promote quality and safe clinical patient care that incorporates ethical and critical decision-making approaches, fiscal accountability, effective working relationships, and systems perspectives.
- Assimilates nursing knowledge and expertise through research utilization, informatics literacy, and generates educational, leadership, or clinical approaches to advance professional nursing practice.
- Utilizes information technology to communicate effectively, manage knowledge, mitigate error, and to support decision-making.
- Designs evaluation strategies for nursing care outcomes to assess, manage, and determine resource allocation for evaluation of nursing care outcomes.
- Evaluate methods, tools, performance measures, and standards related to quality improvement within a healthcare organization.
- Applies research outcomes within the practice setting to resolve identified practice problems.

Organizes interventions at the health care system level utilizing policy development processes, economic principles, and employing advocacy strategies to influence health and health care services for individuals

**Advancement to Candidacy**
The student must resolve any admission conditions as soon as possible after beginning the graduate program. The Advancement to Candidacy form should be completed and filed in the Division of Graduate Studies after the student has completed 24 units. The Proposal for Culminating Experience form must be completed and filed before he/she enrolls in the culminating experience course, either NURS 895 or NURS 898. See the Graduate Division website for more details http://www.sfsu.edu/~gradstdy/.

**Nursing Master of Science with Concentration in Family Nurse Practitioner**

**Entry-Level Nursing Master of Science Degree**
Qualified applicants are accepted into the Entry Level or Accelerated Entry Level MSN program conditionally.

**Prerequisites – 27–28 units**
The courses listed below or those which are comparable as listed on www.assist.org (http://www.assist.org) are required for acceptance into the program.

The Family Nurse Practitioner Concentration

The Family Nurse Practitioner (FNP) concentration requires 52 units and a total of 600 clinical hours. The FNP concentration is designed to prepare FNPs for primary care practice. The following courses are required in addition to the 44 units of RN-MSN required core courses. Family Nurse Practitioner students take NURS 810, NURS 804, and NURS 811 in lieu of NURS 702, NURS 801, and NURS 802.

Lecturers
Kazarian, Silverman, Coleman, Kouyoumdjian, Nusrat, Low

Doctorate
- Doctor of Physical Therapy (p. 558)

Certificate
- Graduate Certificate in Clinical Laboratory Science (p. 561)

Doctor of Physical Therapy

Doctor of Physical Therapy (DPT) Program
Students planning to become a physical therapist apply to the Entry Level DPT Program. This is a three-year program (36 months) including 34 weeks of full-time clinical experiences. The DPT Program is accredited by the APTA Commission on Accreditation in Physical Therapy Education. It has also been approved by the University of California, California State University, California Post-Secondary Education Committee (CPEC) and the Western Association of Schools and Colleges (WASC).

This program is designed to prepare scholars, clinicians, educators, collaborative clinical researchers, administrative managers and community leaders. The program accepts 50 students and requires 36 months of study (including summers). The curriculum is built on a strong theoretical foundation in basic, medical and applied sciences. Critical thinking and clinical reasoning are woven into all aspects of the program and creative problem-solving skills are developed to work with patients to mitigate disability, optimize function and maintain positive health.

Courses are held at San Francisco State University and the University of California, San Francisco campuses. Clinical experiences occur at affiliated sites throughout California. Graduates are well prepared to pass the State Licensing Examination and are considered top candidates for positions in a variety of physical therapy venues.

Career Outlook
The career outlook for physical therapists is very good with graduates employed in acute and rehabilitation hospitals, private practice, outpatient clinics, schools, community agencies, and academic programs.

Entry Level Doctor of Physical Therapy (DPT)
Admission Requirements to Program
Fifty students are admitted to the DPT program each June. Applicants must hold a bachelor’s degree from a regionally accredited institution and meet all general admissions requirements for graduate study at both San Francisco State University and the University of California, San Francisco. Although any undergraduate major is acceptable, for students in the initial stages of undergraduate preparation, a major in kinesiology or the biological sciences tends to be the most direct route into a physical therapy program. All applicants must have completed the program prerequisites before entry. Students taking combined anatomy/physiology courses must complete two semesters or three quarters of work. Applicants without a strong science background should take additional science courses to demonstrate an ability to succeed in science-based course work.

Structural or Anatomical Kinesiology 3

To be eligible for admission consideration, students must meet the following criteria:

- Hold a bachelor’s degree from a regionally accredited institution.
- Meet the Graduate School requirements of the University of California and the California State University. More specifically, students must have an overall baccalaureate GPA of 3.0 or above.
- A 3.0 GPA or above in college course work in the basic sciences including the prerequisites specified above.
- Submit Graduate Record Examination scores. Scores must be no more than five years old. In order to be competitive, we recommend applicants score at a minimum 50th percentile on both the verbal and quantitative reasoning sections of the GRE exam, and at least a 4.5 on the analytical writing section. Applicants are encouraged to retake the exam if they score below the recommended minimums. If an applicant submits multiple GRE scores, the overall best score from each section is counted. Scores must be submitted to PTCAS program code #7591 U CA San Francisco Phys Therapy no later than the application deadline.
- Be able to demonstrate understanding of the work and profession of physical therapy, gained through paid or volunteer experience (minimum of 150 hours) in a variety of settings under the supervision of a physical therapist.
- Supply three strong letters of recommendation regarding potential to complete the program and personal compatibility with physical therapy as a profession. At least one letter must be from a physical therapist.

Application Process
Students must submit two applications, which are submitted separately, but in parallel. Application materials consist of:

1. The Centralized Physical Therapy Application (PTCAS), and
2. The UCSF Supplemental Physical Therapy Application.

Both applications are accessible at ptrehab.ucsf.edu/application-requirements (http://ptrehab.ucsf.edu/application-requirements). The deadline for both applications is OCTOBER 1 (midnight, PST) of the year prior to desired entry.

Following preliminary evaluation, a selection of applicants will be invited to interview. Following an interview and an assessment of writing skills, 50 students will be accepted for admission to the physical therapy program. Once accepted into the program, students will then complete an online application for admission to SF State.

Written English Proficiency Requirement
Level One
Students must meet the first level of proficiency in written English as a condition of admission to the physical therapy program. Students must complete the GRE analytical writing section prior to enrollment. Evaluation of writing skills is also based upon an essay written at the time of the applicant’s scheduled interview.

Level Two
The second level of written English proficiency is demonstrated through course projects involving written manuscripts during years one and two of the program, and the culminating experience project during the student’s final year in the program.

Advancement to Candidacy
Students are advanced to candidacy based on a Qualifying Assessment that consists of:

1. overall 3.0 GPA in academic coursework;
2. satisfactory performance on all practical exams in clinical coursework;
3. satisfactory performance in all clinical clerkships as judged by meeting all required milestones on the Clinical Performance Index; and,
4. score of 80% or better on each of three clinically based, board style examinations that evaluate critical thinking and problem-solving.

Culminating Experience
Students research and write an in-depth evidence-based review of a clinical problem following the criteria established in PT 209 and PT 910 courses. The manuscripts must be prepared in a publication-ready journal format as well as presented orally to an audience of faculty and peers.

Courses shown with quarter-unit values are taken at the UCSF. Courses shown with semester-unit values are assigned to SF State. At SF State, courses numbering 700 or higher are graduate courses. At the UCSF, courses with numbers between 100 and 199 are at the upper division level; courses with numbers between 200 and 399 are graduate courses.

### Graduate Certificate in Clinical Laboratory Science

Advisors: Coleman, Kazarian, Silverman

### Program Scope

The SF State Clinical Laboratory Science (CLS) Internship Certificate program provides students with the theoretical and practical skills necessary to work in hospitals, clinics, or biomedical research environments. The program prepares students at the post-baccalaureate level to take the national board examination for certification as Clinical Laboratory Scientists. In addition, the program is fully accredited by the National Accrediting Agency for Clinical laboratory Sciences (NAACLS) and meets the educational standards required for licensure as a CLS by the California State Department of Health, Laboratory Field Services (LFS). The program seeks to develop critical thinking skills for clinical and administrative decision making in the complex and ever-changing healthcare environment.

### Career Outlook

Clinical laboratory scientists are employed in healthcare settings such as medical laboratories within large medical centers, community hospitals, public health, clinics and private industry. Excellent employment opportunities exist in research and development, medical informational technology, laboratory administration and education.

### Admission to Program

Requirements are:

- Earned bachelor’s degree from a regionally accredited university in related science major of microbiology, biology or equivalent. Students with international degrees should check the CLS website for more information (http://cls.sfsu.edu).
- Overall GPA of at least 3.0 or GPA of at least 3.0 in last 60 units (90 quarter) (3.0 GPA).
- A score of 4 or better on a proctored writing examination administered prior to admission or for international students, at least 80 on the internet-based TOEFL, or a 550 on the paper-based test with a Test of Written English (TWE) of at least 4.
- Science course preparation to include courses in hematology, immunology, medical microbiology, quantitative chemistry analysis, biochemistry, physics, and college-level mathematics.
- Eligibility for a trainee license from the State of California Department of Health, Laboratory Field Services.
- Completion of the application form, which includes three letters of reference.
• Proof of health insurance
• Background checks may be required.

Curriculum

The CLS program consists of

1. a 16-week semester of didactic and laboratory work and
2. a 40-week off-campus internship at affiliated clinical laboratory sites.

Students enroll for 18 units for the pre-clinical semester. For the 40-week off-campus portion, students enroll in a combination of regular university sessions and special sessions through the College of Extended Learning.

</tbody>
</table>

Total Units Subsequent 40 Weeks: 20

Total Units for Entire Program: 38

English Proficiency Requirement

Level One

Students complete a proctored essay at the time of their application interview. If necessary, remediation will be fulfilled by successful completion of SCI 614 or equivalent course.

Level Two

Successful completion of written professional documents as required for a leadership role in professional environments.
Masters
- Master of Public Administration (p. 563)

Master of Public Administration
Graduate Advisors: Gen, Joaquin, Shea, Stowers, Wang

Admission to Program
The graduate admission application to San Francisco State University is a two-part process. You must submit Part One and Part Two of your graduate admission application simultaneously by the deadline to be considered for admission.

Part one:
Apply online through CSU Mentor for a Graduate Program (http://www.csumentor.edu/AdmissionApp/grad_apply.asp). The Office of Graduate Admissions no longer accepts paper applications to graduate programs.

Send all required documents noted on your online SF Gateway Portal “To Do List” to the Division of Graduate Studies:

Graduate Admissions
SF State University
1600 Holloway Ave, ADM 250
San Francisco, CA 94132

Part two:
Submit the following materials directly to the Public Administration Program:

1. Statement of purpose to the SF State MPA Program. This statement of purpose should describe the following information in a coherent essay (in no more four pages, double spaced):
   - Life experiences that have led you to an interest in public service (public or nonprofit)
   - Background in the public service, including any work or volunteer experience you might have in public or nonprofit agencies
   - Areas of specific interests in the public service, including what has led you to these specific interests
   - Career and professional goals and aspiration
   - How the MPA degree will be helpful and consistent with your career goals and aspirations
   - Why this is the right time in your career to come into a MPA program and seek the degree
   - Why the SF State MPA degree program is a good fit for you and your career / professional goals

2. Your current resume.
3. Two (2) letters of recommendation. These should be from individuals who know the candidate well and can address their potential for succeeding in graduate school. The letters do not have to be from faculty members at an academic institution, they can be from supervisors or others familiar with the candidate’s work.

Send the documents requested in Part TWO directly to the Public Administration Program:

Public Administration Program
835 Market Street, 6th Floor, Suite 679
San Francisco, CA 94103

Applicants must meet all university admission requirements to be accepted into the MPA program. Applicants are judged on a competitive basis.

Potential applicants who are still completing their undergraduate work should strengthen their preparation for the program with courses in public administration, economics, politics, public policy, and research techniques as well as experience working in either the public or nonprofit sectors.

**Written English Proficiency Requirement**

The University has a requirement for written English proficiency that is to be assessed at two different levels.

**Level One**

Satisfactory performance on the Statement of Purpose should be achieved in order to gain admission to the degree program.

**Level Two**

Master’s thesis or strategic assessment memo from P A 890 must be written at a level commensurate with professional standards in the field.

**Advancement to Candidacy**

Approval of a student’s proposed course of study advances a student to candidacy. Completion of the Advancement to Candidacy (ATC) requirements qualifies the student to apply for the award of the master’s degree. Besides meeting University requirements for advancement to candidacy, students are required to:

- Complete prerequisites and any other conditions specified by the program.
- Complete at least 6 units of work in graduate courses.
- Maintain a cumulative 3.0 GPA in all course work and in courses specified in the Advancement to Candidacy.
- Consult regularly with a program advisor.

Upon advisement, upper division and graduate courses in other disciplines may be accepted if they contribute to a coherent program related to the student’s educational objectives.

Courses that are required for the major must be completed with a grade of B- or better. A minimum grade point average of 3.0 must be maintained.

**Culminating Experience Requirement**

Students in the public administration program can choose between two options for their culminating experience:

Students may choose to take a capstone course (P A 890) and complete a written comprehensive examination, the Strategic Assessment Memorandum (SAM). The capstone course focuses on synthesizing the knowledge, skills, and abilities learned in the program through the analysis of case studies from the field. Students complete their portfolio, analyze case studies, and present their strategic assessment of what managers operating in those cases should do to resolve them. The strategic assessment memo is the written presentation of each student’s analysis and plan for that case.

Students may also choose to undertake a traditional social science research project, the Master’s Thesis (P A 898) option. Working with a faculty committee, students write a prospectus, have it approved the semester before undertaking the research, and write the thesis. After initiating this option, students must enroll each additional semester in the 499 CEL course until the thesis is completed.

**Public Administration Program Portfolio**

San Francisco State University Public Administration students graduate with a portfolio of work products and evaluations of that work, which demonstrates the knowledge, skills, and abilities acquired in the public administration program. The required components of the portfolio are core competencies and skills crucial for the success of nonprofit and public administrators. Students publish selected course work along with explanations of their accomplishments in the degree program on the platform and use it to connect with others in the field.

**Eugene I. Pearl Memorial Scholarship**

The Eugene I. Pearl Memorial Scholarship is awarded on a competitive basis to students specializing in urban administration. This scholarship reimburses students for the cost of their textbooks.

**Cho Public Service Scholarships**

Cho Public Service Scholarships are awarded on a competitive basis for incoming and continuing students. Students are selected on the basis of outstanding academic achievement, outstanding community service, and potential for excellence in the public and nonprofit sectors.

**Merritt Community Capital Scholarship**

The Merritt Community Capital Scholarship Fund in Public Administration is awarded on a competitive basis to students interested in the fields of affordable housing, finance, development, and management. Affordable housing is an integral component of public administration and community development strategies, and the career development of committed affordable housing professionals are vital to the continued success of our current housing delivery and management systems.

For more information regarding scholarships, visit AcademicWorks (https://sfsu.academicworks.com).

Graduate Coordinator: Jackson Wilson

Program Scope
The Recreation, Parks, and Tourism (RPT) Department at SF State, in existence since 1946, has established a reputation for excellence. From distinguished faculty with considerable experience in teaching, research, and service, to a dynamic curriculum based on extensive feedback from students, alumni, current trends, and an advisory board of RPT professionals, students acquire the knowledge and skills to:

Engineer Experiences that Engage, Empower, and Educate.

One of the program's most important resources for faculty and the curriculum is the diversity and vitality of the San Francisco Bay Area. The number of agencies, institutions, and leisure enterprises makes the region a hands-on classroom and living laboratory for public, private, and nonprofit recreation; local, state, and national parks; and domestic and international tourism.

Vision
A world where leisure permeates all facets of life.

Mission
To advance and advocate for the field of recreation, parks, and tourism through transformative education, scholarship, and service.

Bachelor of Science
The department offers a Bachelor of Science in Recreation, Parks, and Tourism Administration, which is accredited by the National Council on Accreditation of Parks, Recreation, and Tourism (COAPRT). Accreditation provides many benefits including credibility and broader recognition within the academic and professional community. The RPT program delivers academic content that is current, relevant, and experiential. The curriculum leads to a 400 hour, 15 unit, full-time internship at one of 400+ approved RPT organizations. This culminating experience often leads to permanent positions and a career in RPT – a welcome transition from academia.

Master of Science
The Master of Science in Recreation, Parks, & Tourism develops leaders in the RPT profession and prepares students for an advanced degree (e.g., Ph.D.). The curriculum allows students to focus on their interest area within the field. Courses are taught by RPT faculty from three different California State University campuses who have a wide range of skills, interests, and expertise. Core classes are hybrid (partially in-person and partially online), which allows for geographical freedom and meaningful face-to-face experiences. Students are almost exclusively accepted for the fall in order to build a cohort with strong professional and social ties.

Program Competencies
The curriculum will focus on the following nine competencies, which all have assigned courses and associated program and student learning outcomes:

- Communication (professional, nonverbal, verbal)
- Foundations (philosophy, history, science)
- Information Technology (application, research, reporting)
- Leadership (ethics, interpersonal, interpersonal)
- Management & Administration (finance, human capital, structures)
- Programming (design, implementation, evaluation)
- Profession & Industry (nature/scope, principles/practices, trends/issues)
- Sustainability (economics, environment, equity)
- Wellness (dimensions, application, assessment)

Students wanting to receive a Bachelor of Science in Recreation, Parks, and Tourism Administration, a Minor in Recreation, or a Master of Science in Recreation, Parks, and Tourism should review the Department website: recdept.sfsu.edu (http://recdept.sfsu.edu), then contact the department where they will be directed to a faculty advisor related to their area of interest. Students pursuing a career in the nonprofit sector can also obtain a certificate in Youth and Human Services Nonprofit Administration. All RPT programs follow department and university policy, which include:

- All courses used in the major, minor, or certificate programs must be completed with letter grades (CR/NC option is not allowed) with the exception of RPT 690.
- Courses that are required for the major, minor, or certificate programs must be completed with a minimum grade point average of 2.0 and a letter grade of C or better [a grade of C or better is required in RPT 600GW Professionalism in Recreation, Parks, and Tourism - GWAR – the department's Graduation Writing Assessment Requirement (GWAR) course].
- Students are required to adhere to all department and university requirements stated in this Bulletin and on the department website.

Career Outlook
Every year, millions of people spend an increasing amount of time in pursuit of beneficial recreation, leisure, and touristic experiences. As the world’s leading industry, recreation and leisure/tourism spending accounts for approximately one trillion dollars per year; this equates to one-third of all consumer spending. According to the Occupational Outlook Handbook published by the U.S. Department of Labor, the overall employment in the leisure/tourism and hospitality industry will grow 19% to 44% from 2010 to 2020.

There is a continued demand for full-time, trained recreation, park, and tourism professionals to assess, plan, implement, and evaluate programs and services in the public, for-profit, and nonprofit sectors within the leisure service delivery system. Thus, the recreation profession offers diverse employment opportunities for individuals who are enthusiastic, enjoy working with people, and have acquired the necessary professional skills. Although not exhaustive, the below list provides career categories within the RPT profession.
• Attractions (entertainment venues, museums, theme parks, wineries, resorts – Alcatraz, Robert Mondavi Winery, Walt Disney World)
• Collegiate (campus recreation, intramural sport and wellness programs and facilities – Mashouf Wellness Center, SF State)
• Corporate (employee recreation, social, incentive, and wellness programs – Apple, Genentech, Google, Kaiser Permanente, Red Bull)
• Events (planning and managing weddings, retreats, incentive travel, conferences, sporting events – Moscone Center, AT&T Park)
• Military (armed forces recreation and entertainment, MWR programs and facilities – Travis Air Force Base)
• Nonprofit (after-school programs, volunteer services, social entrepreneurship – YMCA, Boys & Girls Club, Sierra Club, LYRIC)
• Outdoor (parks, summer camps, adventure outfitters, ranger, educator – National Park Service, REI, Backroads, Outward Bound)
• Private Membership (golf, tennis, swim, health, social, yacht, country clubs – Olympic Club, Bohemian Club, The Battery)
• Public (every city has a community, aquatic, wellness, sport, or senior center – San Francisco Recreation & Park Department)
• Therapeutic (improving quality of life using recreation – VA hospital, Giant Steps, Pomeroy Center, Environmental Travel Companions)
• Tourism (adventure, alternative, cultural, eco, health/medical, nature, sport tourism – Backroads, Alcatraz, Extranomical Tours)
• Travel (cruise ships, guest services, destination management & travel companies – Carnival Cruise Line, Peek, SF Travel)

The department offers courses that satisfy General Education (GE) requirements, and also a variety of activity classes, such as sailing and rock climbing, which are open to all students. GE requirements that are satisfied by a specific course appear in that course’s description; or see the General Education section of this Bulletin for a list of all approved GE courses.

Professors
Roberts, Rosegard, Tierney

Associate Professors
Látková, Wilson

Assistant Professor
Yoshino

Lecturers
Brandell, De, Kumli, McAdams, McGinnis, Metcalf-Tobin, Pon, Thapar

Major
• Bachelor of Science in Recreation, Parks, and Tourism Administration (p. 568)

Minor
• Minor in Recreation (p. 573)

Certificate
• Certificate in Youth and Human Services Nonprofit Administration (p. 573)

Masters
• Master of Science in Recreation, Parks, and Tourism (p. 574)

Bachelor of Science in Recreation, Parks, and Tourism Administration

Recreation, Parks, and Tourism Administration majors who successfully complete RPT 600GW [formerly RPT 660 GW] in fall 2010, or thereafter, will have satisfied the University Graduation Writing Assessment Requirement (GWAR).

Recreation, Parks, and Tourism Administration Major (B.S.) – 51 units

Foundation (33 units)
RPT 200 Foundations of Recreation, Parks, and Tourism 3
RPT 300 Leadership in Recreation, Parks, and Tourism 3
RPT 325 Information Technology in Recreation, Parks, and Tourism 3
RPT 350 Facilitating Wellness Through Leisure 3
RPT 390 Leisure Travel and Tourism 3
RPT 400 Programming in Recreation, Parks, and Tourism 3
RPT 410 Therapeutic and Inclusive Recreation 3
RPT 440 Urban Recreation and Parks 3
RPT 500 Organization and Administration of Recreation, Parks, and Tourism 3
RPT 520 Parks and Outdoor Recreation Resources 3
RPT 600GW Professionalism in Recreation, Parks, and Tourism - GWAR 3

Emphasis Area (3 units)
Select a minimum of one of the following based on interest and advisor approval. Suggested Emphasis Areas and related courses:

Commercial Recreation/Tourism and Events
RPT 340 Conference, Event Planning, and Management 3
RPT 460 Recreation Destination Resorts 3
RPT 540 Start-Up and Sustainable Operations of Tourism, Event and Recreation Enterprises 3
RPT 670 Advanced Conference, Event Planning, and Management 3

Community Recreation/Wellness
RPT 210 Arts and Crafts for Leisur 3
RPT 340 Conference, Event Planning, and Management 3
RPT 445 Recreation Therapy and the Expressive Arts 3

Outdoor Recreation/Natural Resources
RPT 430 Ecology of Outdoor Recreation 3
RPT/ENVS 640 Recreational Use of National Parks and Protected Areas 3

Nonprofit Recreation/Human Services
RPT 210 Arts and Crafts for Leisur 3
RPT 340 Conference, Event Planning, and Management 3
RPT 470 Care Break: Alternative Spring Break Service 3
RPT 570 Developing and Managing Resources in Nonprofit Agencies 3
Internship (15 units)
In the final spring semester, students complete a three unit planning and evaluation (RPT 680) seminar and a 12 unit internship (RPT 690) within an appropriate recreation, parks, or tourism setting. A minimum of 800 hours of paid or volunteer work experience (600 hours in recreation settings), completion of all major courses, and fulfillment of all General Education/University requirements are required prior to enrolling in the internship and seminar courses.

SF State Studies
Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

Note: LD = Lower Division; UD = Upper Division.

First Time Student Roadmap (4 year)

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   • a course in U.S. History
   • a course in U.S. & California Government
   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transfered only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken.
Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

1. All LLD and SF State Studies requirements (AERM, GP, ES, SJ) are met within the major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Emphasis Area (3 units)**
   Select a minimum of one of the following based on interest and advisor approval. Suggested Emphasis Areas and related courses:
   **Commercial Recreation/Tourism and Events**
   RPT 340 Conference, Event Planning, and Management (3 units)
   RPT 460 Recreation Destination Resorts (3 units)
   RPT 540 Start-Up and Sustainable Operations of Tourism, Event and Recreation Enterprises (3 units)
   RPT 670 Advanced Conference, Event Planning, and Management (3 units)
   **Community Recreation/Wellness**

   RPT 340 Conference, Event Planning, and Management (3 units)
   RPT 470 Care Break: Alternative Spring Break Service (3 units)
   RPT 570 Developing and Managing Resources in Nonprofit Agencies (3 units)
Certificate in Youth and Human Services Nonprofit Administration

Campus Director: Aiko Yoshino

General Information
The Department of Recreation, Parks & Tourism is proud to offer a Certificate in Youth and Human Services Nonprofit Administration. Nonprofit agencies play an important role in the development and well-being of individuals and communities. To help meet the growing need for qualified leadership in today's nonprofit organizations, the certificate program inspires and prepares undergraduates for entry-level professional positions in the nonprofit sector. Interested students take courses within a broad-based curriculum designed to develop leadership and management skills in nonprofit organizations. Students are required to consult with the certificate campus advisor to determine course work and field experience requirement.

Graduate Advisors: Latkova, Roberts, Rosegard, Tierney, Wilson, Yoshino

General Information

The mission of the Master of Science in Recreation, Parks, and Tourism (RPT) program is to serve as a catalyst for the development of emerging entrepreneurial leaders who will be change agents and advance the recreation, parks, and tourism profession and society.

The M.S. in Recreation, Parks, and Tourism program prepares students to be employed in supervisory and managerial positions in areas of community recreation and nonprofit leisure services, commercial and private enterprises, and in parks and natural resources management agencies. The degree also offers the underpinning for students who wish to pursue a doctorate at other institutions for advanced research, consulting, and teaching positions. The department offers a foundation of quality education, service, and research that bridges the gaps between theory and practice, knowledge and experience, and critical and creative thinking.

The program is offered in a hybrid format providing the advantages of both online and in-person experiences. The online experiences allow students to eliminate commutes, which may be appealing to persons working full time or with families. The intensive classroom experiences and individual faculty advising build strong relationships within the cohort of students and between the students and RPT faculty. We almost exclusively accept students in the fall to build a cohort of students that often develop strong professional and social ties.

SF State’s RPT M.S. program is part of a collaboration with California State University, Chico, and California State University, Sacramento. This collaboration provides opportunities to network with other students with similar professional interests. It also gives students access to three times as many faculty for teaching, research, and professional networking.

SF State students are provided a strong base of resources and experience at their home campus. Each student will be assigned a home campus faculty member to serve as a mentor and academic advisor. The advisor will guide students through their culminating graduate experience; an applied research project or thesis.

Visit the recreation, parks, and tourism student graduate program website at recdept.sfsu.edu/graduate (http://recdept.sfsu.edu/graduate) for more information.

Applying For Admission to the Recreation, Parks, and Tourism Graduate Program

A limited number of highly qualified applicants are accepted for the fall semester of each year. All applicants are required to either have an undergraduate degree in recreation, parks, tourism, or a closely related degree; or at least one year of full-time professional work experience in the profession. Applicants who otherwise qualify but lack a related degree and/or need supplemental background information will be given additional readings and assignments due by the end of their first fall semester.

The graduate admission application to San Francisco State University is a two-part process. You must submit Part One and Part Two of your graduate admission application simultaneously by the deadline to be considered for admission.

Part One:
Apply online through CSU Mentor for a Graduate Program. The Office of Graduate Admissions no longer accepts paper applications to graduate programs.

Send all required documents noted on your online SF Gateway Portal “To Do List” to the Division of Graduate Studies:

Graduate Admissions
San Francisco State University
1600 Holloway Ave., ADM 250
San Francisco, CA 94132

Part Two:
The Department requires the following additional information:

• A Departmental application (recdept.sfsu.edu/graduate/applying (http://recdept.sfsu.edu/graduate/applying))
• A statement of purpose
• GRE score of 4.0 or above on the Analytical Writing portion of the exam
• Three letters of recommendation (at least one from an academic and one from a professional)

To maintain enrollment in the program, a student must:

• Develop an approved graduation plan signed by the student’s RPT advisor and make substantial progress toward meeting plan requirements, including completion of at least two core classes in the first fall semester.
• Maintain a B– or better in all classes and an overall grade point average of 3.0
• Maintain continuous enrollment in at least one program course per semester

Program Curriculum

Courses in the core are taught using an online hybrid format by the RPT Department and partnering recreation departments at CSU Chico (RECPR) and Sacramento State (RPTA). All of the students in the core courses participate in a mandatory in-person seminar on one of the participating campuses at least once near the beginning of that semester. There may be other in-person meetings with faculty or small groups of students as necessary; however, most hybrid classes are online. Students choose nine units (three classes) of electives with advisor consent. Six units may
be upper division undergraduate courses, and at least six units must be from SF State. Students will complete one of two culminating experience options; a thesis or applied research project.

Program Scope
Sexuality Studies provides students with knowledge about the processes and variations in sexual functions and reproduction, intimate relationships, sexual and gender role development and behavior, and the social, cultural, historical and moral contexts of sex and love. This interdisciplinary field relies primarily on faculty from the Colleges of Health and Social Sciences, Liberal & Creative Arts, and Science and Engineering, who serve as advisors to students wishing information or assistance in making curricular choices. Students can use the minor in human sexuality studies to complement their majors. The program provides an opportunity to gain basic knowledge, develop an awareness of attitudes, and to acquire skills for counseling, teaching, and conducting research.

The minor program in lesbian, gay, bisexual, and transgender studies intends to delineate and analyze meanings that have been associated with homosexuality in various artistic, biological, cultural, educational, ethical, historical, and literary contexts, and to examine the related issues of mixed-gender and cross-gender roles and practices. The minor is broadly interdisciplinary. It draws from courses in anthropology, biology, cinema, counseling, English, history, human sexuality studies, psychology, social sciences, communication studies, and women and gender studies.

Professors
Herdt, Hoff, LeBlanc, McCaughan, Sueyoshi

Associate Professors
Carrington, Clay, Fields, Hosfield, Martinez, Melendez, Sears

Assistant Professor
Bost

Associated Faculty
Abdulhadi, Alamilla Boyd, Almague, Belkin, Cohler, Elia, DeVries, Johnson, Jolivette, Martel, Mamo, Mann, Moffatt, Moore, Rueda Esquibel, Savci, Tate, Van Damm, Yep

Lecturers
Chen, O'Neal, Reck, Vallin

Minors
• Minor in Human Sexuality Studies (p. 576)

• Minor in Lesbian, Gay, Bisexual, and Transgender Studies (p. 577)

Masters
• Master of Arts in Human Sexuality Studies (p. 578)

Minor in Human Sexuality Studies

Undergraduate Advisors: C. Carrington, R. Melendez

The Minor in Human Sexuality Studies consists of 18–20 units of undergraduate study. With proper advising, it is possible to use these courses to fulfill some undergraduate major, minor, and General Education requirements. Written declaration of the pursuit of the minor is not necessary prior to enrollment in any of its required or elective courses.

Human Sexuality Studies,
Minor – Minimum 18–20 units

Introductory Courses (3 units)

SXS/SOC 110  Sexuality in Society 3
SXS 300  Introduction to Human Sexuality 3

Core Courses

Students are required to complete requirements in each of the four areas listed below.

Biological and Health Aspects of Human Sexuality (3 units)
Select one of the following:

BIOL 322  Human Sexuality: Integrative Science 3
BIOL 327  AIDS: Biology of the Modern Epidemic 3
BIOL 330  Human Sexuality 3
ED 303  Health Disparities and Sexual and Gender Minority Communities: LGBTQI Health 3
SXS 601  Sexuality, Ethnicity, and Health 3

Social Scientific Aspect of Human Sexuality (3–4 units)
Select one of the following:

PSY/SXS 320  Sex and Relationships 3
PSY/SXS 436  The Development of Femaleness and Maleness 4
PSY/SXS 456  Psychology of Human Sexual Behavior 3
SXS 400/PSY 450/SOC 400  Variations in Human Sexuality 3
SXS 421  Homophobia and Coming Out 3
SXS 455  Sex, Power and Politics 3
SXS 678  Disability and Sexuality 3

Cultural, Ethnic, Racial and Sexual Diversity & Human Sexuality (3–4 units)
Select one of the following:

AA S 584  Asian American Sexualities 3
AIS/SXS/WGS 440  Native Sexualities and Queer Discourse 3
ANTH 415/SXS 438  Culture and Sex in East Asia 3
ANTH 569/ SXS 567  Cross-Cultural Aspects of Sex and Gender  3  
LTNS/WGS 505  Gender, Sexuality, and Latino Communities  3  
RRS 375  Queer Arabs in the U.S.  3  
RRS 380  Coloring Queer: Imagining Communities  3  
SXS 400/ PSY 450/ SOC 400  Variations in Human Sexuality  3  
SXS 458  Introduction to Transgender Studies  3  
SXS 667/ SOC 467  Lesbian, Gay, Bisexual, Transgender, and Queer Cultures and Society  4  
WGS 552  Transgender Identities and Communities  3  

**Arts & Humanistic Aspects of Human Sexuality (3 units)**  
Select one of the following:  
ART 403/ SXS 405  Queer Art History  3  
CINE/SXS 332  Understanding the Representation and Narration of Sexuality in Cinema  3  
CINE 541  Race, Sex, and Identity Online  3  
CLAS/SXS 530  Gender and Sexuality in Ancient Greece and Rome  3  
ENG/SXS 633  Gay Love in Literature  3  
HIST 313  Comparative History of Love and Sexuality  3  
SXS 314  Gay, Lesbian, and Bisexual History  3  
HUM 390  Images of Eroticism  3  
PHIL/SXS 369  Philosophical Issues in Sexuality  3  
PHIL 445/ SXS 469  Sex and Morality  3  
PHIL 455/ SXS 569  Sex and the Law  3  
WGS/SXS 551  Queer Literatures and Media  3  
WGS 611  Theories of Female Sexuality  3  

**Colloquium (3 units)**  
Students cannot enroll in the colloquium course until completing all other minor requirements  
SXS 680  Colloquium in Human Sexuality  3  

**Minor in Lesbian, Gay, Bisexual, and Transgender Studies**  
The Minor in Lesbian, Gay, Bisexual, and Transgender Studies consists of a minimum of 18 units of undergraduate study. It is possible to use these courses to meet requirements in some undergraduate majors, in other minors, and in the General Education program.

**Lesbian, Gay, Bisexual, and Transgender Studies, Minor — 18–19 units**  

**Introductory Courses (3–4 units)**  
Select one of the following:  
SXS/SOC 110  Sexuality in Society  3  
SXS 301  Perspectives in Gay, Lesbian, Bisexual, and Transgender Studies  3  

**Core Area Elective Courses (12 units)**  

**Biological and Health Aspects of LGBT Experience**  
Select one of the following:  
BIOL 322  Human Sexuality: Integrative Science  3  
BIOL 327  AIDS: Biology of the Modern Epidemic  3  
BIOL 330  Human Sexuality  3  
H ED 303  Health Disparities and Sexual and Gender Minority Communities: LGBTIQ Health  3  
SXS 601  Sexuality, Ethnicity, and Health  3  

**Social Scientific Aspect of LGBT Experience**  
Select one of the following:  
SXS 314  Gay, Lesbian, and Bisexual History  3  
SXS 400/ PSY 450/ SOC 400  Variations in Human Sexuality  3  
SXS 421  Homophobia and Coming Out  3  

**Cultural, Ethnic, Racial and Sexual Diversity and LGBT Experience**  
Select one of the following:  
AIS/SXS/WGS 440  Native Sexualities and Queer Discourse  3  
ANTH 569/ SXS 567  Cross-Cultural Aspects of Sex and Gender  3  
LTNS/WGS 505  Gender, Sexuality, and Latino Communities  3  
RRS 375  Queer Arabs in the U.S.  3  
RRS/SXS 380  Coloring Queer: Imagining Communities  3  
RRS 460/ COUN 450/ SXS 460  AIDS and People of Color in the U.S.  3  
SXS 458  Introduction to Transgender Studies  3  
WGS 552  Transgender Identities and Communities  3  

**Arts & Humanistic Aspects of LGBT Experience**  
Select one of the following:  
ART 403/ SXS 405  Queer Art History  3  
CLAS/SXS 530  Gender and Sexuality in Ancient Greece and Rome  3  
ENG/SXS 633  Gay Love in Literature  3  
PHIL 445/ SXS 469  Sex and Morality  3  
SXS 314  Gay, Lesbian, and Bisexual History  3  
SXS 635  Queer Masterpieces  3  
WGS/SXS 551  Queer Literatures and Media  3  
WGS 612  Queer Theory  3  

**Colloquium (3 units)**  
Students cannot enroll in the colloquium course until completing all other minor requirements  
SXS 680  Colloquium in Human Sexuality  3
Master of Arts in Human Sexuality Studies

Graduate Advisor: J. Fields

Career Options for M.A. Graduates

The career outlook for graduates with specialized knowledge of human sexuality has never been better in our society, due to the changing positive attitudes regarding the role of sexuality in the universities and colleges, high schools, local and national government, research and training, clinical and mental health training, and private sector positions that call for expertise of human reproduction, sexuality, sexual identity and diversity, sexual orientation, gender, and human resources.

The Master of Arts in Human Sexuality Studies program is designed to meet the following career needs:

- Preparation for Ph.D. studies and professional schools in the field of psychology, sociology, anthropology, history, medicine, social work, or communication.
- Work in public health settings, such as those related to AIDS education, AIDS/HIV treatment and care centers; e.g., the Center for AIDS Prevention Studies at the University of California at San Francisco, and welfare centers throughout the Bay Area.
- Reproductive health education, research, training, and prevention facilities and organizations; i.e., Planned Parenthood.
- Sexuality education for students at the regional community colleges and at the local school boards that offer or plan to offer courses and curricula on sexuality, including counseling in the secondary schools.
- Preparation for work in policy or research public policy institutes located at Stanford University and the University of California at Berkeley.
- Service provision and training for service providers in hospitals, clinics, nursing homes, and others that require sensitivity training related to sexuality across the life course and sexual orientation issues.
- Human resource departments of businesses and corporations, responsible for the provision of sexuality and sexual orientation anti-discrimination and partner benefits areas for employees.
- Research, policy, and education providers who are needed to fill gay and lesbian agencies and community centers in the Bay Area and elsewhere.

Admission to Program

A prospective student must fulfill the general University requirements as stated in the section on Graduate and Post-baccalaureate Admissions (p. 115) of this Bulletin. To be considered for classified (unconditional) admission to the graduate program in human sexuality studies, an applicant must have completed an undergraduate major in an appropriate field under advisement with a minimum grade point average of 3.0. It is expected that applicants will primarily come from behavioral and social sciences (psychology, anthropology, sociology, history), health education, social services professions (social work), business (human resources, management, marketing), humanities (speech and communications, women studies). Students whose undergraduate major did not include human sexuality studies courses should consult the graduate advisor about making up course deficiencies in human sexuality studies.

Applicants must furnish the department the following materials, no later than March 1st for the following fall semester (no spring admissions): a program application with a statement of purpose outlining experience, career objectives, and rationale for studying human sexuality studies at the graduate level; two letters of recommendation; unofficial transcripts of all college coursework, indicating a GPA of 3.0 or higher; Graduate Record Exam (GRE) with a minimum score of 4.0 for the analytical writing portion of the GRE; TOEFL scores; and an SF State application. Applying to the University is a separate process from applying to the department. For detailed information regarding our admissions process please see our website at sx.sfsu.edu (http://sx.sfsu.edu)

The faculty graduate committee evaluates applications for admission, assesses the overall program, and reviews student progress. If a student is not making reasonable progress towards the degree, the committee may recommend termination of candidacy.

Written English Proficiency Requirement

Level One
GRE writing score of 4.0 and above or satisfactorily meeting the writing requirements in SXS 800.

Level Two
Satisfactory completion of the culminating experience requirements:

SXS 894 Creative Work Project 3
SXS 895 Research Project in Human Sexuality Studies 3
SXS 898 Master’s Thesis 3

Advancement to Candidacy

Besides meeting all general requirements for Advancement to Candidacy (ACT), applicants must maintain a 3.0 grade point average in all human sexuality courses taken for the degree, and may not list any course in which the grade received is below B – on the ATC form.

Human Sexuality Studies (M.A.) – Minimum 30 units

Core Requirements (12 units)

SXS/ANTH 701 or SXS/HIST 702 Sexual Cultures, Sexual Identities 3
Sexuality in Historical Perspective

SXS 800 Sociocultural Foundations in Human Sexuality 3
SXS 801 Biological and Psychological Foundations of Human Sexuality 3
SXS 890 Professional Development 3

Research Methodology (6 units)

SXS 881 Research Methods in Human Sexuality Studies 3
SXS 882 Research Design in Human Sexuality Studies 3
SXS 883 Applied Quantitative Methods in Sexuality Studies
SXS 884 Advanced Methods in Sexuality Studies

Electives (9 units)

Units selected from upper division/graduate courses upon advisement

The Master of Social Work (MSW) curriculum prepares its graduates for advanced practice through mastery of the core competencies supplemented by knowledge and behaviors specific to advanced social work practice and advanced social work competencies. Only a full-time program is offered. The program requires four academic semesters or two years of full-time study to complete.

Competency-based social work education is an outcome performance approach to the curriculum and includes measurable practice behaviors for each competency that are comprised of knowledge, values, and skills. Our program learning outcomes are to teach students to demonstrate the integration and application of social work competencies in practice with individuals, families, groups, organizations and communities. The nine core competencies for the BASW and MSW programs, developed by the accrediting body the Council on Social Work Education (EPAS, 2015), are as follows:

1. Demonstrate ethical and professional behavior.
2. Engage diversity and difference in practice.
3. Advance human rights and social, economic, and environmental justice.
4. Engage in practice-informed research and research-informed practice.
5. Engage in policy practice.
6. Engage with individuals, families, groups, organizations, and communities.
7. Assess with individuals, families, groups, organizations, and communities.
8. Intervene with individuals, families, groups, organizations, and communities.
9. Evaluate with individuals, families, groups, organizations, and communities.

**Career Outlook**

Students who complete the baccalaureate social work major are prepared for graduate study in accredited schools of social work and social welfare; professional or graduate training in related fields such as law, public administration, public health, and psychology; and for early-level professional positions in both public and private social welfare and social service agencies.

Examples of these agencies include local departments of social services; hospitals; youth care facilities; community-based treatment agencies; community mental health facilities; child care programs; services for the aged; drug and alcohol treatment programs; family service agencies; and community, neighborhood, and advocacy organizations. The major provides students with an opportunity to apply social science theories and social work knowledge and skills in a comprehensive fieldwork placement during their senior year.

Graduates of the Master of Social Work program are prepared for advanced level professional positions in both public and private social service agencies and community organizations. Subject to the laws of the State of California, MSW graduates are eligible to take the examination to become a Licensed Clinical Social Worker (LCSW) two years after graduation. They are also eligible to take social work licensing examinations in other states. In addition, to prepare for advanced level professional practice, MSW graduates go on to doctoral programs in social work/social welfare and in related fields such as public policy, public health, gerontology, psychology, education, and law. According to the Bureau of Labor Statistics (2015), employment opportunities for...
the profession of social work is expected to grow by 12 percent between 2014 and 2024.

**Professors**
Jones, Shapiro, Takahashi

**Associate Professors**
Hermoso, Lee, Lenz-Rashid, Levy, Redman

**Lecturers**
Bardacke, Feliciana, Fischer, Melara, Scudder

**Majors**
- Bachelor of Arts in Social Work (p. 581)k (BASW)

**Masters**
- Master of Social Work (p. 587)

**Bachelor of Arts in Social Work**

**Eligibility Requirements**

Admission to the Bachelor of Arts in Social Work major is limited to students at the upper division level (60 units or more). Applicants must be either a current SF State student or eligible for admission to undergraduate studies at San Francisco State University.

The BA in Social Work is a two-year (four semesters) cohort program designed for full-time study. Students are admitted during the fall semester only. As a cohort group, students typically begin and end the program at the same time. Students are expected to complete their B.A.S.W. degree in two years.

Prior to entering the program, students are expected to have completed all General University requirements pertaining to the admission of undergraduate students. Students must have completed all SF State Lower Division General Education requirements (or equivalent) and have junior standing (60 units or more) at San Francisco State University. Students must have an all-college total GPA of 2.0 or higher at the time of application. Students must also complete and pass the four required prerequisites with a grade of C– or higher prior to admission into the BASW Program:

1. Introductory-level course in Human Biology (BIOL 100 or equivalent; lab not required for Social Work program)
2. Macro Economics (ECON 102 or ECON 305 or equivalent)
3. Introductory Psychology (PSY 200 or equivalent), and
4. Introductory Sociology (SOC 105 or equivalent)

The School of Social Work strongly recommends that students complete ENG 214 (Second Year written composition-English) or equivalent prior to entering the BASW program.

All BASW majors must complete 120 credits to graduate and at least 44 units of major courses.

**Application Procedure**

Students already enrolled at SF State who meet the Eligibility Requirements described above can visit the School of Social Work website at http://socwork.sfsu.edu/admissions/basw to access the application forms/documents.

Prospective transfer students must submit two separate applications. First, they must be admitted into San Francisco State University Undergraduate Studies and second, applicants must complete the supplemental School of Social Work B.A.S.W. application. Again, the application process is as follows:

1. First, they must complete the SF State Application for Admission online using the CSU Mentor portal www.csumentor.edu (http://www.csumentor.edu) and must be accepted by the university.
2. Second, they must complete the School of Social Work application. Access to the School of Social Work application is made available by the Undergraduate Admissions Office after the applicant completes and submits the University application.

To determine if the School of Social Work prerequisites have been met, the articulation agreement between SF State and any California’s public college or university can be accessed at www.assist.org (http://www.assist.org), an online student-transfer information system that shows how course credits earned at one public California College or university can be applied when transferred to another. ASSIST is the official repository of articulation for California’s public colleges and universities and provides the most accurate and up-to-date information about student transfer in California’ (Assist.org (http://www.assist.org) website).

The School’s admissions evaluation is based on prior academic performance, including completion of the four prerequisite courses, human biology, introductory psychology, introductory sociology, and macroeconomics. Other considered factors include the potential for professional social work practice as demonstrated by previous employment/volunteer experiences; and knowledge of and experiences with historically oppressed, under-served, and under-represented individuals, families, groups, and communities. In determining admissions, reviewers also consider the congruence between the applicant’s educational objectives and the School’s mission and objectives.

Students are required to maintain a minimum cumulative GPA of 2.5. Students not maintaining this average may be dismissed from the Social Work program.

Freshmen and sophomore students planning to major in Social Work should consult with an advisor in the College of Health and Social Sciences Student Resource Center before enrolling in courses that fulfill General Education requirements.

**Field Internships:** B.A.S.W. students are required to complete 480 hours in an approved field internship site during their senior year. The field education director works closely with students to find field placements. Before entering field internships, students must have completed 24 units of their junior year courses with a grade of C or better.

**Written English Proficiency Requirement**

The School of Social Work is committed to enhancing all students’ ability to communicate in an effective and professional manner, both orally and in writing. Further, the School promotes efforts to ensure that all forms of communication are culturally sensitive and appropriate.

To prepare practitioners for the challenges and responsibilities of advocacy within professional settings, the School of Social Work pursues
a rigorous writing proficiency standard in the B.A.S.W. and M.S.W. programs. Formal writing assignments are integrated into the structure of classes with the expectation that students progressively expand and refine their mastery of organizing ideas and expressing purposeful thinking. Written communication is a core competency in both the B.A.S.W. and M.S.W. degree programs.

Social Work majors who successfully complete S W 301GW in Spring 2010 or thereafter will have satisfied the University Graduation Writing Assessment Requirement (GWAR). S W 301GW is offered the second semester of the junior year. Per University requirement, second year written composition, ENG 214, is a prerequisite to the upper division Graduation Writing Assessment Requirement (GWAR) course in the major, therefore the School of Social Work strongly recommends that students complete ENG 214 or equivalent prior to entering the B.A.S.W. program.

**Total Units**

44

**Complementary Studies**

Students completing a Bachelor of Arts in Social Work (B.A.S.W.) degree must complete 12 units in Complementary Studies in courses bearing a prefix other than S W, and not cross-listed with S W. The courses required of all students who are admitted to the B.A.S.W. program will also satisfy the CS requirement: Introductory Sociology (SOC 105 or equivalent); Introductory Psychology (PSY 200 or equivalent); Macroeconomics (ECON 102 or equivalent) or Economics Analysis for Non-Majors (ECON 305 or equivalent); and an introductory-level course in Human Biology (BIOL 100 or equivalent, Lab not required).

SF State Studies
Courses certified as meeting the SF State Studies
requirements may be upper or lower division in General
Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  LD or UD  3
Environmental
Sustainability (ES)  LD or UD  3
Global
Perspectives (GP)  LD or UD  3
Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or
   electives for this major as possible.
2. The following courses are not required for admission, but are required
   for graduation. Students are strongly encouraged to complete these
   units before transfer; doing so will provide more flexibility in course
   selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and
(2) above at a California Community College (CCC), please visit http://
www.assist.org. Check any geographically accessible CCCs; sometimes
options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements
  for this major, including 2nd-semester composition;
- Which courses at a CCC satisfy CSU GE, US History, and US & CA
  Government.

Remedial courses are not transferable and do not apply to the minimum
60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the
minimum 60 units required for upper division transfer (for example, if
course was not passed on the first attempt, or was taken to earn a better
grade).

Before leaving the last California community college of attendance,
obtain a summary of completion of lower division General Education
units (IGETC or CSU GE Breadth). This is often referred to as a GE
certification worksheet. SF State does not require delivery of this
certification to Admissions, but students should retain this document for
verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or
College-Level Examination Program courses: AP/IB/CLEP credit
is not automatically transferred from the previous institution. Units are
transferred only when an official score report is delivered to SF State.
Credit is based on the academic year during which exams were taken.
Refer to the University Bulletin in effect during the year of AP/IB/CLEP
examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and
mathematics (STEM) disciplines often defer 6-9 units of lower division
general education in areas C and D until after transfer in order to focus
on preparation courses for the major. (This advice does not apply to
students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements.
Note that, as described below, the four basic skills courses required for
admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses
that fulfill the remaining areas of SF State’s lower division GE pattern are
available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking
(GE A3) may not be widely offered outside the CCC and CSU systems.
Students should attempt to identify and take an appropriate course no
later than the term of application to the CSU. To review more information
about the A3 requirement, please visit http://bulletin.sfsu.edu/
undergraduate-education/general-education/lower-division/AAEL.

Identify and complete a 2nd-semester written English composition
course before transfer. This is usually the next course after the typical
“freshman comp” course, with a focus on writing, reading and critical
analytical skills for academic purposes, and developing skills in
composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets
both US and CA/local government requirements may be an appropriate
option, particularly if transferring from outside of California.

All students must meet the transfer eligibility
requirements outlined below for admission.
For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more
  quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Total Units: 121-122**

---

**Note:** Complementary Studies

Students completing a Bachelor of Arts in Social Work (BASW) degree must complete 12 units in Complementary Studies in courses bearing a prefix other than Social Work (S W), and not cross-listed with Social Work. The courses required of all students who are admitted to the BASW program will also satisfy the CS requirement: Introductory Sociology (SOC 105 or equivalent); Introductory Psychology (PSY 200 or equivalent); Macroeconomics (ECON 102 or equivalent) or Economics Analysis for Non-Majors (ECON 305 or equivalent); and an introductory-level course in Human Biology (BIOL 100 or equivalent, Lab not required).

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   Students completing a Bachelor of Arts in Social Work (BASW) degree must complete 12 units in Complementary Studies in courses bearing a prefix other than Social Work (S W), and not cross-listed with Social Work. The courses required of all students who are admitted to the BASW program will also satisfy the CS requirement: Introductory Sociology (SOC 105 or equivalent); Introductory Psychology (PSY 200 or equivalent); Macroeconomics (ECON 102 or equivalent) or Economics Analysis for Non-Majors (ECON 305 or equivalent); and an introductory-level course in Human Biology (BIOL 100 or equivalent, Lab not required).

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Master of Social Work

Admission to Program

Applicants must first meet the general university requirements pertaining to the admission of graduate students. In addition, applicants must demonstrate academic and professional commitments to Social Work and the values and philosophical foundations of the School’s mission. To be considered for admission into the M.S.W. Program, prospective students must apply and be admitted to both Graduate Studies and the School of Social Work. Admission to the M.S.W. Program is highly competitive. Application forms and materials can be accessed online via the School of Social Work website: http://socwork.sfsu.edu/admissions/msw. Applications for the Title IV–E Child Welfare Training Program are also available on the website and must be submitted in person or mailed to the Title IV–E Coordinator.

School admission decisions are based on several areas, including but not limited to, potential for professional practice as demonstrated by previous employment/volunteer experiences; value congruence to the School’s mission; knowledge, experience, and relationship of the applicant to oppressed, under–served and under–represented individuals, families, groups, organizations, and communities; and academic performance. To qualify for admission to the M.S.W. program, applicants must have attained a GPA of at least 3.0 in an acceptable earned baccalaureate degree or a minimum undergraduate GPA of 3.0 in their last 60 units. The significance of a baccalaureate degree from an accredited undergraduate program in Social Work is recognized, but SF State University School of Social Work does not have an advanced standing program. In the event that a student with a BASW degree from a CSWE accredited institution is admitted into the M.S.W. program, a thorough transcript review will take place and a determination made about if and which course(s) may be waived. In the event that a course is waived, credits must be obtained in elective courses to meet graduation requirements and the adequate number of credits.

Level One Written English Proficiency Requirement

The University has a requirement for written English proficiency that is to be assessed at two different points in a student’s program.

The School of Social Work is committed to enhancing all students’ ability to communicate in an effective and professional manner, both orally and in writing. Further, the School promotes efforts to ensure that all forms of communication are culturally sensitive and appropriate.

To prepare practitioners for the challenges and responsibilities of advocacy within professional settings, the School of Social Work pursues a rigorous writing proficiency standard. Formal writing assignments are integrated into the structure of classes with the expectation that students progressively expand and refine their mastery of organizing ideas and expressing purposeful thinking. Written communication is a core competency in both the BASW and M.S.W. degree programs.

The level one written English proficiency assessment requirement is conducted during the applicant’s completion of the M.S.W. supplemental application. One of the application questions is specifically referenced as such.

Level Two Written English Proficiency

The culmination of student writing is completed when graduate students write their final culminating experience project for the M.S.W. degree. They choose either a professional practice project or a thesis. The final projects typically include, as a minimum, the following sections:

- Identification of the issues or problems that are the focus of the project or thesis;
- Description, foundation, discussion, comprehension, and analysis of the presenting problems or issues;
- Review of the literature relevant to the project subjects;
- Application and syntheses of the literature, principles, theories, and practice areas;
- Assessment;
- Evaluation;
- Implications for social work policies, programs, practices.

Advancement to Candidacy

Besides meeting all general requirements for advancement to candidacy, the school maintains the following additional requirements:

- The following are to be taken in the first year prior to other courses: 4 units of S W 740, and 2 units of S W 741. S W 740 is graded CR/NC only.
  - S W 700 History and Philosophy of Social Welfare 3
  - S W 710 Human Behavior and the Social Environment 3
  - S W 720 Research Methods in Social Work 3
  - S W 730 Social Work Practice Methods 3
  - S W 770 Ethnic and Cultural Concept and Principles I 3
  - S W 780 Global Poverty 3

- Maintenance of a 3.0 grade point average in graduate study.

Field Internship: The field education director meets and works with all students to help them locate an appropriate and rigorous field internship. M.S.W. students complete a total of 1200 hours of field internship (490 hours during year one and 720 hours during year two).

Mental Health Stipend Program

Principal Investigator: Jerry Shapiro

The California Social Work Education Center (CalSWEC) has granted stipends to the School of Social Work to support second–year graduate students committed to working in public mental health. These stipends are the result of the Mental Health Services Act (funded by Proposition 63) and are part of a workforce development initiative to train qualified social workers who can provide public mental health services. For the one–year academic year stipend of $18,500, the student agrees to “payback” by working in public mental health for one calendar year. This can include positions in public programs or contract agencies funded by Behavioral Health grants.

Students must meet all core M.S.W. Program requirements, and participate in various mental health workshops and trainings during their year in the program. Funding for the stipend program is scheduled to end in 2016. Current information can be obtained from the Principal Investigator, Dr. Jerry Shapiro at jshap@sfsu.edu.
Title IV-E Child Welfare Training Stipend Program

Program Emphasis (27 Units)
(One area selected from the emphases listed below)

Each student is admitted into the Individuals, Families, and Groups (IFG) emphasis, and may elect to simultaneously apply to the Title IV-E Child Welfare Training Program.

Individuals, Families, and Groups Program (IFG)
Social work practice with individuals, families, and groups is grounded in a biopsychosocial approach to direct service. The social worker functions as a multi-role practitioner including the following: case worker, case manager, leader, facilitator, broker, advocate, counselor, educator, or resource specialist. The practice methods emphasize the importance of promoting the strengths of individuals, rather than focusing on deficits or pathology. The goal of IFG practice is to ameliorate stressors within a life course context of human development and functioning. The practitioner’s attention is directed toward enhancing the coping abilities of individuals, families, and groups in dealing with aspects of their interpersonal environment through empowering processes. Recognition of issues of diversity is fundamental to culturally competent IFG practice.

Select 7 units of electives on advisement

Title IV-E Child Welfare Training Program
Project Coordinator: Gabriela Fischer
Principal Investigator: Susanna Jones
The School of Social Work is part of a consortium of graduate social work programs in California to administer the Title IV-E Child Welfare Training Program. This program, administered by the California Social Work Education Center (CalSWEC), was created to prepare MSW students for careers in public child welfare service. The full-time program provides a number of student stipends ($18,500 per year) for two years of graduate school. In return for receiving a stipend, students must work in public child welfare for at least two years after they graduate.

The Title IV-E Program is driven by child welfare competencies that were developed by universities and county welfare directors. These competencies are integrated throughout the curriculum and are further enhanced by special workshops on current topics related to the field. Title IV-E students are expected to complete all core components of the MSW Program and are required to complete the first year field placement in a county child welfare department or non-profit program serving Title IV-E eligible children and families. The second year placement must be in a county child welfare department. In addition, Title IV-E students are required to complete two child welfare focused courses: S W 843, in the spring semester of the first year, and S W 701 (Child Welfare-specific section), the fall semester of the second year of the MSW program. Students are also required to participate in child welfare trainings and workshops as directed by the Title IV-E Coordinator.

Students who apply to the MSW program are also provided the opportunity apply for the Title IV-E Child Welfare Training Program simultaneously. Applicants will go through a selection process that includes an in-person interview. Priority is given to applicants who are current employees of county child welfare agencies and applicants who reflect the diversity of clients served by California’s public child welfare agencies. Students who receive the Title IV-E stipend award must attest that they have never been convicted of a felony or misdemeanor crime or any crime involving harm to children that would disqualify them from service in a county public child welfare services agency. All students must submit to Live Scan and criminal background checks via the Child Welfare Services/Case Management System (CWS/CMS) for second-year placement. Continuation of this program is subject to funding availability.

Pupil Personnel Services Credential: School Social Work Designation
PPSC Coordinator Christina Feliciano
The School offers a Pupil Personnel Services Credential (PPSC) program to graduate social work students who are simultaneously pursuing their MSW degree. This additional program is available only if resources permit. If offered, students in the PPSC Program are required to enroll in all courses in the Individual, Families, and Groups (IFG) emphasis and do a field placement in a public school (K–12), supervised by an individual with a PPSC credential. The PPSC field placement and specialized course work are designed to be completed in the second year of MSW preparation and are taken in the following order.

**Post-Masters PPSC Program**

The School of Social Work offers a Post Masters PPSC Program for persons who possess an MSW from an accredited social work institution. Each student’s portfolio of prior classes and experiences are assessed to determine what must be completed to meet the requirements for a Post Masters PPSC.

This program is offered during the summer through the College of Extended Learning, and students are able to complete all requirements in one summer. For details, one may contact the Post Masters PPSC Coordinator, Christina Feliciana, at (415) 405–0942 or cfeli@sfsu.edu.

---

**Mental Health Stipend Program**

Principal Investigator: Jerry Shapiro

The California Social Work Education Center (CalSWEC) has granted stipends to the School of Social Work to support second-year graduate students committed to working in public mental health. These stipends are the result of the Mental Health Services Act (funded by Proposition 63) and are part of a workforce development initiative to train qualified social workers who can provide public mental health services. For the one-year academic year stipend of $18,500, the student agrees to “payback” by working in public mental health for one calendar year. This can include positions in public programs or contract agencies funded by Behavioral Health grants.

Students must meet all core MSW Program requirements, and participate in various mental health workshops and trainings during their year in the program. Funding for the stipend program is scheduled to end in 2016. Current information can be obtained from the program’s coordinator, Sheila Hembury, at (415) 338–7530 or shehe@sfsu.edu.

---

1 S W 741 is taken concurrently with S W 740 and is required each semester that the student is in the field.

2 Post-Masters PPSC students do not take S W 740 and S W 741 concurrently.
Sociology

College of Health and Social Sciences
Dean: Alvin Alvarez

Department of Sociology
Chair: Andreana Clay
HSS 370
Phone (415) 338-1466
Fax: (415) 338-2653
Website: sociology.sfsu.edu (http://sociology.sfsu.edu)

Program Scope
Sociology examines the social aspects and dimensions of most everything human beings do in the realm of politics, economics, culture, technology, relationships, and identity. Studying sociology provides students critical and reflexive perspectives with which to understand the world. It pushes students to develop the analytical, research, and compositional skills necessary to investigate, understand, analyze, explain, and improve the world around them. Courses cover a broad range of topics including: the study of individuals as social actors; the analysis of social processes such as social interaction and deviance and conformity; the study of institutions such as law, family, media, popular culture, medicine, education, and religion; and the investigation of the social organization of entire societies in the global context. The department offers a variety of courses of interest to non-majors as well as to majors.

Career Outlook
Upon completion of a B.A. in Sociology, students can continue their education with graduate work in either sociology or in some related field such as social work, public administration, or law. For students who choose to pursue employment with their bachelor’s degree, sociology provides an excellent liberal arts foundation for a range of career paths that utilize their sociological insights as well as the conceptual and methodological skills they have acquired. Training in sociology can open a variety of doors in human services and in business. Those who enter human services may work with youths at risk, the elderly, or people experiencing problems related to poverty, substance abuse, or the justice system. Some find employment in agencies that work for social change including various organizations concerned with human rights issues or the environment. Sociology majors who enter the business world work in sales, marketing, customer relations, or human resources.

In addition, the sociology major has a competitive advantage in today's information society. The solid base received in research design, data analysis, statistics, and sociological concepts enables them to compete for support positions in research, social planning, policy analysis, program evaluation, and other social science endeavors.

Professors
Barbosa, Dumont, Fields, LeBlanc, McCaughan

Associate Professors
Bettinger, Carrington, Clay, Hossfeld, Martinez, Sears

Major
• Bachelor of Arts in Sociology (p. 590)

Minor
• Minor in Sociology
Due to impact of the Sociology major, the Department is not accepting new Sociology minors until further notice. Students who have already declared the minor may continue their planned course of study.

Bachelor of Arts in Sociology
Students interested in applying to the Sociology major are advised to complete ENG 214 (or equivalent) and any two sociology courses, earning grades of C or higher. Transfer students and first-time freshmen should follow SF State's online application process. Transfer students should indicate Sociology as their first choice of major and first-time freshmen should indicate “undeclared with an interest in sociology.” Students who are already enrolled at SF State should bring a completed Change of Major form and a copy of their academic advising audits to the Sociology Department office in HSS 370. No exceptions will be made for students wanting to submit a change of major form after the November 30 deadline. See departmental website for supplemental program application http://sociology.sfsu.edu/content/sociology-impaction.

All courses numbered 300 and above require upper-division standing and completion of G.E. Areas A and B4 (formerly Segment I) or equivalent. SOC 370, SOC 371 and SOC 392 require passing SOC 300GW. Students are allowed to take one course toward the major as credit/no credit (CR/NC). This course cannot be used as one of the Required Courses or to satisfy Areas 1 and 2. Students are also allowed to count 3–4 upper-division units outside sociology toward the major upon approval of a departmental advisor. A total of 12 lower-division units, including SOC 105, SOC 110, SOC 200, SOC 245 and those courses taken at community colleges, automatically apply toward the 23–24 units of electives required for the degree.

A total of 30 Sociology units must be upper division. University regulation requires 12 units toward the major must be completed in residence.

Please note that the department strongly encourages students to meet with an advisor early during their first semester at SF State regardless of academic rank. All students are required to have met with a sociology advisor at least once by the time they have completed SOC 300GW.

Sociology (B.A.) — 42–43 units

Required Courses (19 units)

\(^1\) The remaining units may include additional courses from these areas, 3-4 upper-division units outside sociology upon approval of a sociology advisor and any other course with a sociology prefix including SOC 105, SOC 110, SOC 200, SOC 245 and courses taken at other institutions. A maximum of 12 units may be transferred from other institutions.

**Note:** A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

The department strongly encourages students interested in pursuing an M.A. or Ph.D. in sociology to take both SOC 370 and SOC 371 and all three methods courses (SOC 392, SOC 393, and SOC 394).

**Complementary Studies**

Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the sociology major:

- Option 1: 12 units of courses in departments or programs in the College of Ethnic Studies that are not cross-listed with SOC.
- Option 2: Partial completion of any minor degree program approved by a sociology advisor
- Option 3: 12 units of a single foreign language

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

First-Time Student Roadmap (4 Year)

Transfer Student Roadmap (2 Year)

For students with an AA-T in Sociology. This roadmap opens in a new tab. (p. 997)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Sociology

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.asiist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)
Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

**Total Units:** 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**
   - Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)
   - Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the sociology major:
     - Option 1: 12 units of courses in departments or programs in the College of Ethnic Studies that are not cross-listed with SOC.
     - Option 2: Partial completion of any minor degree program approved by a sociology advisor.
     - Option 3: 12 units of a single foreign language.

4. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how their transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

5. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. **Major Electives (23-24 units)**

   **Area 1: Inequalities in the United States**
   - SOC 272 Social Inequality: Poverty, Wealth, and Privilege (4 units)
   - SOC 330 Comparative Race and Ethnicity in the U.S.: Class, Gender, and Nation (3 units)
   - SOC 362 The Social Construction of Deviance and Conformity (4 units)
   - SOC 400 Variations in Human Sexuality (3 units)
   - SOC 455 Punishment and Social Control (3 units)
   - SOC 467 Lesbian, Gay, Bisexual, Transgender, and Queer Cultures and Society (4 units)
   - SOC 468 Social Aspects of Human Sexuality (4 units)
   - SOC 469 Gender and Society (4 units)
   - SOC 491 Ancestors or Data? Culture, Conflict, and NAGPRA (3 units)
   - SXS 400 Variations in Human Sexuality (3 units)

   **Area 2: Global Inequalities**
   - SOC 461 Ethnic Relations: International Comparisons (4 units)
   - SOC 471 Societal Change and Development (4 units)
   - SOC 477 Environmental Sociology (3 units)
   - SOC 480 City in a Global Society (4 units)
   - SOC 481 Sociology of Brazil (3 units)
   - SOC 482 Global Immigration and Immigrants (3 units)
   - SOC 483 Global Sociology (4 units)
   - SOC 484 Population and Social Dynamics (4 units)
   - SOC 645 Sociology of Latin America (3 units)
Up to 12 lower-division units are accepted as electives including SOC 105, SOC 110, SOC 200, SOC 245. Remaining units may include additional courses from Area 1 or 2 above, 3-4 upper-division units outside sociology upon approval of a sociology advisor and any other course with a sociology prefix including SOC 105, SOC 110, SOC 200, SOC 245.
Bachelor of Arts in Sociology – SOC Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017-2018 with an AA-T in Sociology. 12 units in the major and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</tbody>
</table>

1. If ENG 214 or equivalent is not completed prior to transfer, take SOC 300GW in second semester. This will extend time to degree.
2. SOC courses in this area also satisfy UD-D.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University–Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
• American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not met pre-transfer.
• Upper division GE, areas B, C and D (9 units): Check the Class Schedule for Area I and II courses that also satisfy UD GE (0).
• Students entering this major with the AA-T in Sociology are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Sociology Major: 30–31 Units**

• Required Courses (16 units): Note that there is a four semester sequence for required courses:

  1) SOC 300GW, 2) SOC 370 or SOC 371, 3) SOC 392, and 4) SOC 393 or SOC 394

• Capstone (3 units): SOC 500 or SOC 501 and SOC 502 or SOC 503 and SOC 504

• Elective Courses: (9–12 units)
  • 12 units from ADT may be applied to electives
  • 6–8 units: Take one course from Area I and one course from Area II
  • 3–4 units: Select in consultation with department advisor

**University Electives: Ten or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major. Upper division electives recommended in order to meet the minimum 40-unit requirement.

Majors
• Bachelor of Arts in Urban Studies and Planning (p. 599)

Minors
• Minor in Urban Studies and Planning (p. 604)

Bachelor of Arts in Urban Studies and Planning

The urban studies and planning major offers an interdisciplinary curriculum in urban planning and policy and reflects a social science education with an applied, problem-solving focus, training in research methods, and practical hands-on experience in a carefully supervised internship and a practicum (senior seminar). Core courses integrate social science, planning and policy perspectives into the study of cities, develop the research and analytic tools necessary for urban planning and policy analysis, and offer hands-on applied research experience. Elective courses are designed to apply the basic core course content to urban planning and policy areas of interest.

The B.A. in Urban Studies and Planning is recognized as a solid basis for graduate study. Recent program graduates have gone on to M.A. and Ph.D. programs in schools of city and regional planning (Cornell, Harvard, UC Berkeley, UCLA, NYU, the New School for Social Research, the University of Texas at Austin), schools of public policy and administration (Kennedy School, Georgetown, UC Berkeley, San Francisco State), and other fields including law, architecture, social work, public health. We also have a large number of students who seek entry-level urban planning and policy jobs with a B.A. in Urban Studies and Planning.

Many of the urban studies and planning courses included below in the list of program requirements are cross-listed with other departments.

• All students who begin their studies as majors or minors in Fall 2009 or later are required to receive at least a grade of C in all courses in the major or minor.
• All courses in the major or minor (including electives) must be taken for a letter grade.
• Students planning to enroll in USP 603 and USP 604 must attend a mandatory informational meeting the semester preceding their enrollment in these courses.

USP majors who successfully complete USP 401GW in fall 2009 or thereafter will have satisfied the University Graduation Writing Assessment Requirement (GWAR).

Urban Studies and Planning (B.A.) — 43–45 units

Core (30–31 units)

Introductory Course
USP 401GW Seminar in Urban Studies and Planning - GWAR 3

Cross-disciplinary Perspectives
Drawing upon the basic social science disciplines to provide a broad-based understanding of urban growth and change.

Select 7–8 units from the following: 7-8

- SOC 480/USP 470 City in a Global Society
- USP/GEOG 432 Urban Geography
- USP/PLSI 512 Urban Politics and Community Power
- USP/ECON 535 Urban Economics

Research Methods and Data Analysis
Providing the basic tools necessary for effective research and analysis.
- USP/PLSI 492 Research Methods 4
- USP/PLSI 493 Data Analysis 4

Foundation Course in Policy or Planning
Developing the conceptual and analytic approaches necessary for effective action intended to address current urban issues
Select one of the following: 4
- USP/PLSI 480 Introduction to Urban Policy and Analysis
- USP/GEOG 658 Land-Use Planning

Fieldwork and Practical Applications
Internship and research project providing carefully supervised hands-on experience in both a real-world work setting (the internship) and a practicum (the senior seminar).
- USP/PLSI 603 Public Service Internships 3
- USP/PLSI 604 Internship Seminar 1
- USP 680 Senior Seminar 4
- or USP 681 Senior Thesis

Electives (13–14 units)
Focus of Interest
Upper division electives chosen by each student with the approval of a faculty advisor. The electives are courses focusing on particular urban planning and policy issue areas in which the theoretical and analytic approaches developed in the core courses are applied to critical contemporary issues. This allows students to develop familiarity and some expertise in a public policy area. Major urban planning and policy areas include housing and community development, land use planning, transportation, sustainable development, and social policy. See the Department of Urban Studies and Planning Advising Handbook for descriptions of possible foci of interest.

Complementary Studies
Students completing a Bachelors of Arts in Urban Studies and Planning must complete twelve units in complementary courses bearing a prefix other than USP and not cross-listed with USP. The units used to satisfy Complementary Studies may be in a minor (or a partial minor if the minor requires more than 12 units), a foreign language, or a coherent group of courses from the following departments/colleges: Political Science, Geography, History, Sociology, Environmental Studies, Economics, and the departments in the College of Ethnic Studies. All complementary studies units must be approved by an advisor in the major.

Any courses with prefixes other than USP or cross-listed with USP that can be counted toward the major can also count toward the Complementary Studies Requirement.

SF State Studies
Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) | LD or UD | 3
Environmental Sustainability (ES)             | LD or UD | 3
Global Perspectives (GP)                      | LD or UD | 3
Social Justice (SJ)                           | LD or UD | 3

Note: LD = Lower Division; UD = Upper Division.
General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

| Total Units | 120-127 |

---

1. To avoid taking additional units, it is recommended that you meet LLD and **SF State Studies** requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. Complementary Studies
   - Students completing a Bachelors of Arts in Urban Studies and Planning must complete 12 units in complementary courses bearing a prefix other than USP and not cross-listed with USP. The units used to satisfy Complementary Studies may be in a minor (or a partial minor if the minor requires more than 12 units), a foreign language, or a coherent group of courses from the following departments/college: Political Science, Geography, History, Sociology, Environmental Studies, Economics, and the departments in the College of Ethnic Studies. All complementary studies units must be approved by an advisor in the major.
   - Any courses with prefixes other than USP or cross-listed with USP that can be counted toward the major can also count toward the Complementary Studies Requirement.
5. **Major Cross-Disciplinary Perspectives Courses**
   - SOC 480/USP 470 City in a Global Society (4 units)
   - USP 432/GEOG 432 Urban Geography (4 units)
   - USP 512/PLSI 512 Urban Politics and Community Power (4 units)
   - USP 535/ECON 535 Urban Economics (3 units)
Minor in Urban Studies and Planning

The minor consists of a two core course and three elective courses in urban planning and policy.

AFRICAN STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

African Studies Program
Humanities Building, Room 461
Phone: (415) 338-2495
Director: Aiguibou Yansané

Program Scope
The African Studies Minor is a multidisciplinary program in African history, politics, economics, and cultures, designed to provide students with a broad understanding of the issues facing African communities, societies, and nation-states in the past as well as the present. Courses from multiple departments and programs are incorporated into the African Studies Minor, offering different disciplinary bases for the examination and analysis of African contributions to world civilizations. It enables students to integrate and apply knowledge in the evolution of African societies from being the cradle of humanity to providing labor for the use of other civilizations and through colonial and post-colonial linkages, technological expansion and economic liberalization. Students will examine African accomplishments, mores, traditions, cultures and civilizations to finish the minor with a greater degree of understanding of, and tolerance for, cultural differences and ethnic pluralism as well as the problems inherent in the process of social change in Africa and the African Diaspora.

Students who select this minor are presented with different disciplinary and interdisciplinary perspectives. Common to all these perspectives is the critical examination of social change/modernization/development/globalization. It is hoped that students will be provided the tools to enable them to build their own frames of reference, syntheses of concepts, data, and theories, to enrich their social attitudes and cultural values concerning Africa and to appreciate its richness and its unity in diversity.

Career Outlook
Students will be encouraged to take advantage of the African Studies Minor to apply their knowledge, understanding, and interest in things African to their career goals (teaching, journalism, business, and international endeavors in the public sector, non-governmental agencies, and multilateral institutions).

Professors
Clavier, Getz, Richards, Yansané

Associate Professors
Akom, McDougal, Steier

African Studies Minor – 24 units
Students interested in this minor should see one of the African Studies faculty to choose the courses most appropriate to them. (Note: No more than six units may be taken on a CR/NC basis; no more than nine units may be transferred from other campuses.) All students completing the minor are required to demonstrate intermediate level competency in a relevant language other than English. For specific information on how to meet the requirement, students should consult with the coordinator of the minor program.

The African Studies Minor consists of a core curriculum of three courses which contain material and perspectives which reach across the normal disciplinary divisions of the University plus 15 units of upper division courses taken from the following list, on advisement.

Core Requirements (9 units)
Select one from each of the following areas: 9

Classical Africa
AFRS 305 Ancient Egypt
CLAR 500 Ancient Egyptian Civilization

Africa: Tradition and Transition
AFRS 302 Black Diaspora
HIST 610 History of Africa

Modern Africa
AFRS 301 Africa in Global Perspective
HIST 611 Modern Africa
HUM 360 Styles of African Cultural Expression

Electives (15 units)
Units selected on advisement with at least one course from each group and no duplication of courses that were taken as part of the core curriculum

Behavioral and Social Sciences
ECON 620 Economic Development 3
HIST 610 History of Africa 3
HIST 611 Modern Africa 3
IR/IPSI 321 Development and Foreign Policy–Africa 4
IR/GEOG 428 International Political Economy of Food and Hunger 4
IR 520 Globalization and Development 4
IR 540 The Rich and the Poor Nations 4
IR 632 Regional Economic Communities 4

Ethnic Studies
AFRS 300 From Africa to Olmec America: Ancient African Prehistory and History 3
AFRS 301 Africa in Global Perspective 3
AFRS 302 Black Diaspora 3
AFRS 305 Ancient Egypt 3
AFRS 411 African and African American Literature 3

Humanities and Arts
CLAR 500 Ancient Egyptian Civilization 3
CLAR 502 Ancient Egyptian Language and Literature 3

Language Requirement
All students completing the African Studies Minor are required to demonstrate intermediate level competency in a language (other than English), relevant to the area. This requirement may be met by completing the university entrance requirement of two years of high school language study, one year of successful college level language study, or by demonstration of equivalent competency.
AMERICAN STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

American Studies Program
Humanities Building, Room 409
Phone: (415) 338-1099
Fax: (415) 338-7030
Website: humanities.sfsu.edu (http://humanities.sfsu.edu)
Coordinator: Cristina Ruotolo
Advisor: Peter Richardson

Program Scope
American Studies is a cross-disciplinary program that offers students an opportunity to create an individualized major. The purpose of the major is to study the unity and diversity, the consensus and conflict, the continuity and change that characterize the many cultures and social structures of past and present United States. Each student takes core courses in History, Arts and Culture, Geography, and California Studies and, with help from the Program Advisor, creates an individualized set of elective courses drawn from across the University to pursue a particular set of questions about U.S. history, culture, and society.

Career Outlook
The American Studies major is appropriate for students who want a strong liberal arts experience that focuses on the United States, for those preparing for teaching careers, or a wide-ranging background as preparation for later study of the law, public administration, city planning, library, and museum work, and specialized graduate study.

Major
• Bachelor of Arts in American Studies (p. 606)

Minor
• Minor in American Studies (p. 613)

Bachelor of Arts in American Studies
The Bachelor of Arts in American Studies is divided into two parts: a set of required core courses designed to introduce the themes of American studies, and a set of elective courses chosen from at least two disciplines related to a particular topic or theme in American studies.

Students entering this major should choose their theme or topic at least by the middle of the junior year in order to take advantage of courses in various departments appropriate to their topic. The program is directed by a coordinator and a council consisting of faculty from participating departments and students currently completing the major. Each student's program is developed in consultation with the coordinator and advisors.

American Studies (B.A.) – 39 Units

or another course that satisfies the Graduation Writing Assessment Requirement (GWAR) on advisement.

Elective Courses (24 Units)

Courses, by choice and advisement, on a topic or theme in American Studies, drawn from at least two disciplines. Up to six units may be in community college or lower division course work. For students with GPA 3.0 or higher, electives can include a senior course on advisement: Independent Study (699) on a specific topic connected to prior course work, to be developed through consultation with the coordinator and faculty from the appropriate department (3–6 units).

Courses especially appropriate as electives for the American Studies major are offered by the following departments (not an exclusive list):

- Africana Studies
- American Indian Studies
- Art
- Asian American Studies
- Cinema
- English
- Geography
- History
- Humanities
- Journalism
- Latina/Latino Studies
- Music
- Political Science
- Race and Resistance Studies
- Social Science
- Urban Studies and Planning
- Women and Gender Studies
Complementary Studies
To fulfill the Complementary Studies requirement, all students completing a B.A. degree must take twelve units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing an American Studies major, so no additional units beyond the major are required to fulfill the complementary studies requirement.

First Time Student Roadmap (4 Year)
This roadmap (p. 609) opens in a new tab.

Transfer Student Roadmap (2 Year)
For students with an AA-T in Social Justice Studies. This roadmap opens in a new tab. (p. 611)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Social Justice Studies

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.
General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</tbody>
</table>

**Complementary Studies or SF State Studies or University Elective – Take Two** 6

**Units** 15

**Total Units** 120-122

---

To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

MATH 60 and/or MATH 70 are required prerequisites to Area B4 unless you score 50 or higher on ELM or have an ELM exemption.

Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

### Complementary Studies

To fulfill the Complementary Studies requirement, all students completing a B.A. degree must take twelve units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing an American Studies major, so no additional units beyond the major are required to fulfill the complementary studies requirement.

### Major Elective Courses

Courses, by choice and advisement, on a topic or theme in American Studies, drawn from at least two disciplines. Up to six units may be in community college or lower division course work. For students with GPA 3.0 or higher, electives can include a senior course on advisement: Independent Study (699) on a specific topic connected to prior course work, to be developed through consultation with the coordinator and faculty from the appropriate department (3-6 units).

Courses especially appropriate as electives for the American Studies major are offered by the following departments (not an exclusive list):

- African Studies
- American Indian Studies
- Art
- Asian American Studies
- Cinema
- English
- Geography
- History
- Humanities
- Journalism
- Latina/Latino Studies
- Music
- Political Science
- Race and Resistance Studies
- Social Science
- Urban Studies and Planning
- Women and Gender Studies
Bachelor of Arts in American Studies – SJS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Social Justice Studies. Six units in the major (electives) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 3–9 Units**

- ENG 214 if not completed prior to transfer (0–3 units)
- American Institutions (0–3 units); US Government/California State and Local Government requirement if not completed prior to transfer. The AMST major includes a required upper division course which also satisfies the US History requirement for graduation – view course descriptions.
• Upper division GE (3 units): Take a course to satisfy UD-B. Courses approved for UD-C and UD-D also satisfy major requirements – view course descriptions.
• Students entering the major with the AA-T in Social Justice Studies are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**American Studies Major: 33 Units**

Apply up to six units from the ADT to the Elective Courses area.

• Required courses (15 units) – includes GWAR-designated course
• Elective courses (18 units) – Courses, by choice and advisement, on a topic or theme in American Studies, drawn from at least two disciplines.

Consult University Bulletin for a list of appropriate departments.

**University Electives: 18 Units or More**

Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., both in UD GE and the major. Upper division electives recommended in order to meet the minimum 40-unit requirement.
Minor in American Studies

American Studies Minor — 21 units

Elective Courses (9 units)

These courses, chosen upon advisement from throughout the appropriate departments and programs of the University, allow the student to explore a particular theme or topic in American Studies.
ANTHROPOLOGY

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Anthropology
Fine Arts Building, Room 525
Phone: (415) 338-2046
Website: anthropology.sfsu.edu (http://anthropology.sfsu.edu)

Chair: Cynthia Wilczak
Undergraduate Coordinator: Jeffrey Schonberg
Graduate Coordinator: Douglass Bailey

Program Scope
Anthropology is the study of humankind over time and place. Undergraduates majoring in anthropology are exposed to a multi-field approach that examines current cultures, the study of remains of past societies, study of human evolution and variation, all with an aim of further understanding what it means to be human.

The Bachelor of Arts in Anthropology is designed to serve the needs of students who do not plan to continue their training beyond the baccalaureate level, as well as those who intend to pursue graduate study leading to the M.A. or Ph.D. in anthropology or in another academic discipline.

The Master of Arts in Anthropology is offered for those who plan to continue their graduate work elsewhere toward the doctorate as well as those who plan to terminate their training at the master’s level and seek employment or obtain a teaching credential.

Career Outlook
Anthropological skills are important for careers in public and private sector social services, health, community organizing and advocacy, cultural resource management, urban planning, international economic development, culturally-focused mass media, environmental assessment, education, social work, investigative journalism, and public policy. The principal goals of the department are:

1. to provide an enriched vision of humanity and culture around the globe as well as an increased sensitivity to our everyday experiences of cultural and ethnic diversity, and
2. to train students who choose to pursue careers in teaching, research, and applied fields at the M.A. level, as well providing a solid basis for those who plan to pursue a doctoral degree.

Professors
Bailey, Biella, Quesada

Associate Professors
Griffin, Wilczak

Assistant Professors
Lincoln, Reifsneider

Adjunct Faculty
Caldararo, Tully, Schonberg

Major
• Bachelor of Arts in Anthropology (p. 614)

Minor
• Minor in Anthropology (p. 622)

Masters
• Master of Arts in Anthropology (p. 622)

Bachelor of Arts in Anthropology

The undergraduate program is built around a core of courses designed to provide a broad base of knowledge in the field. Courses in several areas give concentrated preparation for careers or graduate training in anthropology.

No subfield concentration is required for the baccalaureate degree in anthropology. However, several sequences of courses are recommended for students who want to concentrate in a particular subfield. Majors are required to meet with an advisor every fall semester to discuss the most appropriate course sequence.

Students are also encouraged to meet with an advisor early in their college career to discuss Study Abroad options in consultation with the Office of International Programs.

• Anthropology majors must complete the foundation core before enrolling in the remaining major requirements
• At least one upper division course in Area 1, Area 2, or electives, must be taken in each of the three subfields:
  • biological,
  • cultural/visual, and
  • archaeology.
• The university-wide electives must be pre-approved by an advisor to qualify as credits toward the major.
• No more than six units can be taken in internships (ANTH 695), independent study (ANTH 699), and teaching (ANTH 685) combined.
• Courses taken in fulfillment of major requirements must be taken for a letter grade (no CR/NC).

Anthropology Major (B.A.) — 40 Units

Foundation Core (15 Units)
ANTH 100 Introduction to Biological Anthropology 3
ANTH 110 Introduction to Archaeology 3
ANTH 120 Introductory Social and Cultural Anthropology 3
ANTH 300 Foundations of Anthropology: History 3
ANTH 305GW Writing Anthropology - GWAR 3

Area 1: Theory and Foundations (3 Units)
Select one of the following:
ANTH 301 Foundations of Archaeology 3
ANTH 302 Foundations of Human Variation 3
ANTH/SOC 420 Indigenous Media and Social Change 4
Area 2: Methods and Practicum (4-6 Units)
Students may choose six units from Area 2 and reduce the number of anthropology electives to nine units.

Select one of the following:
- ANTH 333 Primate Behavior 4
- ANTH 530 Human Osteology Practicum 4
- ANTH 531 Fossil Humans Practicum 4
- ANTH 592 Archaeological Methods 4
- ANTH/USP 557 Ethnography of the Inner City 4
- ANTH/CINE 595 Visual Anthropology I 6
- ANTH/CINE 596 Visual Anthropology II 4
- ANTH 651 Ethnographic Field Methods 4
- ANTH 652 Anthropological Statistics 4

Electives in Anthropology (12 Units)
Upper division units selected from any courses with the ANTH prefix including those from the two areas that have not been used to fulfill the area requirements.

University-wide Electives (6 Units)
Upper division courses by advisement in anthropology or related fields. Students must have advisor approval for courses they want to apply to the major.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). Students completing this major may not reach the required number of upper division units required for graduation. Additional upper division courses may be needed to reach the required total.

Complementary Studies
All candidates for the Bachelor of Arts in Anthropology must complete at least 12 units of complementary studies from courses outside the primary prefix for the major, and not cross-listed with the primary prefix for the major. Students who complete a second major, a minor, or a minimum of 12 units in an approved Study Abroad program, automatically complete the Complementary Studies requirement and units may be double-counted toward the major where applicable.

Other options for complementary studies are:
1. Foreign Language: 12 units in a single foreign language; or
2. Related Subjects: 12 units of course work in related disciplines with the approval of an Anthropology Department advisor.

Related disciplines typically included courses in the College of Ethnic Studies, Classics, Geology, Geography, Sexuality Studies, Sociology, History, Language Studies, and Women and Gender Studies. Up to six units may be double-counted toward fulfillment of the University-wide elective units for the major. Units may be upper division, lower division, transfer or resident units.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

First Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 618)

Transfer Student Roadmap (2 Year)
For students with an AA-T in Anthropology. This roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/liberal-creative-arts/anthropology/ba-anthropology/roadmap/aa-t)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Anthropology

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student.

However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government

   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.
Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</tr>
</tbody>
</table>

| Units                          | 15    |

| Total Units                    | 120-124 |

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. MATH 60 and/or MATH 70 are required prerequisites to MATH 110 unless you score 50 or higher on ELM or have an ELM exemption.
4. **Complementary Studies**
   - All candidates for the Bachelor of Arts degree in Anthropology must complete at least 12 units of complementary studies from courses outside the primary prefix for the major, and not cross-listed with the primary prefix for the major. Students who complete a 2nd major, a minor, or a minimum of 12 units in an approved Study Abroad program, automatically complete the Complementary Studies requirement and units may be double-counted toward the major where applicable.
   - Other options for complementary studies are:
     1. Foreign Language: 12 units in a single foreign language; or
     2. Related Subjects: 12 units of course work in related disciplines with the approval of an Anthropology Department advisor.
   - Related disciplines typically included courses in the College of Ethnic Studies, Classics, Geology, Geography, Sexuality Studies, Sociology, History, Language Studies, and Women and Gender Studies. Up to six units may be double-counted towards the fulfillment of the University-Wide elective units for the major. Units may be upper division, lower division, transfer or resident units.
5. Upper division units selected from any courses with the ANTH prefix including those from the two areas that have not been used to fulfill the area requirements. Students may choose six units from Area 2 and reduce the number of anthropology electives to nine units.
6. Upper division courses taken by advisement in anthropology or related fields. Students must have advisor approval for courses they want to apply to the major.
7. **Area 2: Methods and Practicum**
   - Select one of the following:
     - ANTH 333 Primate Behavior (4 units)
     - ANTH 530 Human Osteology Practicum (4 units)
     - ANTH 531 Fossil Humans Practicum (4 units)
     - ANTH 592 Archaeological Methods (4 units)
     - ANTH 557/USP 557 Ethnography of the Inner City (4 units)
     - ANTH 595/CINE 595 Visual Anthropology I (6 units)
     - ANTH 596/CINE 596 Visual Anthropology II (4 units)
     - ANTH 651 Ethnographic Field Methods (4 units)
     - ANTH 652 Anthropological Statistics (4 units)
Bachelor of Arts in Anthropology – ANTH Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Anthropology.

Nine units in the major (ANTH 100, ANTH 110, ANTH 120) and all GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</tbody>
</table>

1. If ENG 214 or equivalent is not completed prior to transfer, then ANTH 305GW must be completed in the second semester. Progress in the major and length of time for degree completion may be affected if this requirement is not completed before transfer.

2. ANTH 302 also fulfills UD GE: B.

3. For Major Elective, select non-ANTH course on advisement (6 total units of advisement electives needed).

4. ANTH 327/ANTH 609 also fulfills UD GE: D.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
• American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not completed prior to transfer
• Upper Division GE areas B, C and D (9 units): See notes for courses that satisfy both major and UD GE requirements.
• Students entering this major with the AA-T in Anthropology are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Anthropology Major: 30 Units**
(ANTH 100, ANTH 110, ANTH 120 met in transfer)

• Foundation Core (includes GWAR): six units
• Area 1 – Theory and Foundations: three units
• Area 2 – Methods and Practicum: four to six units (if six units taken, reduce ANTH electives to nine)
• Electives in ANTH: 11 units
• Additional Major Electives (non-ANTH): six units selected with major advisor’s approval.
• At least one UD course in Area One or Two or electives must be taken in each of three subfields: Biological, Cultural/Visual, and Archaeology.

**University electives: 12 or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State – some courses may meet more than one requirement, e.g. in both UD GE and in the major.

**Area 2: Major Methods and Practicum**

Electives in Anthropology (6 units)

Select additional upper division courses with the ANTH prefix.

Master of Arts in Anthropology

Admission to Program

The Department accepts applications for fall and spring semester enrollments. The deadline for application for admission to enroll for the fall is the first day of the preceding March. The deadline for application to enroll in the spring semester is the first day of the preceding November. In addition to these formal deadlines, the Department accepts, reviews, and makes decisions on applications on a rolling basis through the calendar year.

While we welcome applications from students with a wide range of experiences and a diversity of undergraduate degrees, we recommend that applicants have a B.A. or B.S. in Anthropology or an allied field. Students enrolling without an anthropology degree may be required to take the following prerequisite classes or equivalents.

<table>
<thead>
<tr>

<td>3</td>
</tr>
</tbody>
</table>

Students may satisfy the prerequisite requirement by having taken similar classes at the undergraduate level at their undergraduate or other institution. Prerequisite course work will not count toward the degree and may not be included on the ATC.

Application for admission consists of two-part process, which must be completed simultaneously by the deadline to be considered for admission: the first made to the University; the second made to the Department. The University application is submitted to the Division of Graduate Studies through CSU Mentor secure.csumentor.edu/AdmissionApp/grad_apply.asp (https://secure.csumentor.edu/AdmissionApp/grad_apply.asp). The Anthropology Department application is made via the department’s on-line document submission page anthropology.sfsu.edu/content/apply (http://anthropology.sfsu.edu/content/apply), and consists of the following elements:

- One-page Curriculum Vitae;
- Statement of Purpose (500-word max.);
- Two Letters of Recommendation;
- Writing Sample;
- Official Transcripts;
- Graduate Record Examination (GRE) scores, and
- Test of English as a Foreign Language (TOEFL), if necessary.

Written English Proficiency Requirement

The University has a requirement for written English proficiency that is to be assessed at two different levels.

Level One
A score of 4.0 or above on the analytical writing section of the GRE.

Level Two
Completion of the M.A. thesis (ANTH 898) or completion of the written component of the MA Creative Work Project (ANTH 894).

Classified Graduate Status

All graduate students are admitted to the program with conditionally classified status. To attain classified status, graduate students must meet the following:

- Completion of prerequisite coursework (if any).
- Completion of ANTH 710 with a grade of B or above.

Anthropology (M.A.) — 30 units

All students must complete the following courses and maintain a GPA of 3.0 or above:

Core (15 units)

<table>
<thead>
<tr>

</tbody>
</table>

Electives (8–12 units)

To reach the minimum number of units required for the degree, students must:

- Take graduate elective classes (numbered 700 and above) selected from those offered in the Anthropology Department or, with approval, from other departments at SF State.
- Students are advised to take ANTH 899 Independent Study (1, 2, or 3 units) as part of their area of specialization. Students may take ANTH 899 no more than twice for a maximum total of six units.
• With approval, students may take upper division undergraduate classes.

NOTE: no more than 30% (nine units) of undergraduate course work may be included on the ATC. (Prerequisite course work may not be included on the ATC.)

**Language/Statistics Requirement (0–4 units)**
A grade of B or above required.

ART

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Art
Accredited by the National Association of Schools of Art and Design (NASAD).
Fine Arts Building, Room 293
Phone: (415) 338-2176
Fax: (415) 338-6537
Undergraduate Email: sch_art@sfsu.edu
Graduate Email: artgrad@sfsu.edu
Website: http://art.sfsu.edu

Director: Gail Dawson
Graduate Coordinator: Chris Finley

Mission Statement
The SF State Art program is designed to provide students with intellectually informed instruction in the histories and practices of the visual arts within the context of a liberal arts university. The guiding principal of its curricula and instruction is the belief that art is an important means to interpret human experience, and is a fundamental mechanism by which a society evolves, understands, and reflects upon itself. It supports the university mission to offer instruction that promotes respect for and appreciation of scholarship, freedom, human diversity, and the cultural mosaic of the San Francisco Bay area and beyond, and encourages critical thinking within an inclusive worldview.

The curriculum provides students pathways to engage in personal, philosophical, political and/or conceptual questions through art practice, research, and writing. Using a heuristic approach to learning, fueled by curiosity, students are encouraged to understand and challenge normative paradigms, resulting in new forms and ways of thinking. The conceptual exploration of materials, objects, images, texts, actions, and events develops transferable skill sets that will enrich students’ lives and prepare them for roles as artists, curators, historians, and creative professionals. The program cultivates visual literacy and critical thinking, and engenders professional conduct (discipline), adaptability, social awareness, and social justice, through an understanding of the role of art in the human experience. The program currently offers degrees and undergraduates majors in the areas of art and art history, as well as pathways to teaching art.

Program Scope
The School of Art is committed to offering a fine arts curriculum in a liberal arts context with diverse and vital programs for the study of the visual arts in Northern California. Its programs foster development of specialized skills, encourage personal creative direction, and promote understanding of the history and cultural traditions that shape artistic expression. The School of Art faculty are dedicated to bridging the practice, theory and history of art, and to combining traditional and new technologies in a manner that reflects and affects contemporary culture. The Bachelor of Arts in Art program consists of a core and the choice of a concentration in Art Education, Art History, Studio Art, or Art History and Studio Art. The area of concentration focuses study in one specialty, but with a degree of breadth sufficient for understanding and awareness in other areas. All courses are designed to provide a broad experiential and conceptual orientation to the visual arts and art history. Advanced courses in the concentrations focus on perceptual skills, conceptual practices, creative expression, and critical thinking. Attention is given to traditions and heritage of the discipline, contemporary issues and forms, imaginative problem solving, and written English proficiency within the discipline.

The Master of Arts in Art is the only terminal master's degree in Art History in the San Francisco Bay Area. Coursework emphasizes methodology, history, research, and writing. Students produce a thesis that allows for focused research on a specific topic under the direction of a thesis advisor.

The Master of Fine Arts in Art program emphasizes the development of individual creative direction in the context of contemporary, interdisciplinary art practice. Coursework emphasizes contemporary art, critique, experimentation with forms of expression, and professional presentation of works of art.

The School's website offers additional information: http://art.sfsu.edu/

Facilities
The Fine Arts Building features specialized studio spaces for Sculpture, Fiber, and Material Studies (including a dye laboratory, loom, and surface design studios), Photography (including chemical and digital labs), Painting and Drawing, and Printmaking. Specialized equipment includes large format printers and a laser cutter. The building is also home to the 3,800 square foot Fine Arts Gallery, and the Martin Wong Gallery. Graduate studio spaces are located in the Fine Arts Building. The School maintains an instructional archive/collection of historic and contemporary prints, drawings, and photographs.

Career Outlook
Opportunities for the graduate with a bachelor’s degree in art vary depending on the student’s initiative and inclinations. Students dedicated to creative expression in art practice, or scholarly research in the history of art, may elect to pursue graduate education. Others may find opportunities for technical or on-the-job training in the related fields. A course in exhibition design is offered in the professional environment of the Fine Arts Gallery and provides intense, practical, and theoretical training for gallery and art museum careers. Art and art history students with an interest in working with visual artifacts, and with the diverse professional aspects of presenting art and artists elect courses in this popular area.

Graduate degrees open the door to teaching positions at the college-university level. Students who elect to pursue careers outside the arts may find access to more rewarding cultural life experiences through their visual arts education.

An art minor is offered for students who wish to pursue a secondary interest in art on a structured basis.

Graduate Program in Art
Two graduate programs are offered—Master of Arts with an emphasis in art history and a Master of Fine Arts in Art. The three-year professional M.F.A. curriculum is an integrated course of study across a spectrum of studio arts and their adjunct fields of theory, history, and criticism. The M.A. prepares students for doctoral studies and careers in galleries, museums, and other community institutions.
Art Learning Outcomes
1. Demonstrate competence in employing the fundamentals and principles of art in art practice and art history.
2. Demonstrate understanding of the traditional canons of art history and revisionist scholarship.
3. Evaluate and discern quality, meaning, and significance in works of art using the historical, theoretical, and social methods of art history and contemporary art practice.
4. Distinguish the various contexts in which art is experienced.
5. Show evidence of curiosity, risk-taking, experimentation and problem-solving to generate a personally constructed conceptual direction in art practice and research in visual and written work.
6. Understand the ethical dimensions of artistic practice and art historical scholarship within a global context.

Majors
• Bachelor of Arts in Art: Concentration in Art Education (p. 625)
• Bachelor of Arts in Art: Concentration in Art History (p. 633)
• Bachelor of Arts in Art: Concentration in Studio Art (p. 650)
• Bachelor of Arts in Art: Concentration in Art History and Studio Art (p. 642)

Minors
• Minor in Art (p. 660)

Masters
• Master of Arts in Art
  This program is under review for temporary suspension. Please contact the department for more information.
  • Master of Fine Arts in Art (p. 660)

Bachelor of Arts in Art: Concentration in Art Education

Admission
At the time of admission to the University, no special permission, application or portfolio review is required to declare the art major. Juniors or seniors who have declared in another major, but wish to change their major to art must:

Complete four courses with a grade of C or higher and two courses from each category:

Art History
ART 201 Western Art History I 3
ART 202 Western Art History II 3
ART/HUM 205 Asian Art History 3

Studio
ART 210 Introduction to Digital Media Arts 3
ART 222 Introduction to Textile Art 3
ART 231 Drawing 1 3
ART 235 Printmaking 1 3
ART 240 Introduction to Contemporary Sculpture 3
ART 245 Ceramics 1 3
ART 260 Photography 1 3

• Proof of consultation with an art advisor
• For students transferring from other institutions, a minimum of 12 units in residence is required.

Students are required to decide on a concentration by their junior year and to discuss their choice with an advisor in that area. Since some areas are very crowded, students transferring at an advanced level from other institutions should contact an advisor in their proposed concentration upon application for admission to the University. The concentration programs may be structured to fit individual needs after conferring with an advisor and obtaining the advisor’s approval.

Concentrations:
• The concentration in Art Education explores the place of the visual arts in elementary and secondary education, and in general human development.
• The concentration in Art History examines the history of visual form in relation to the values, beliefs, and institutions of specific cultures.
• The concentration in Studio Art provides students with the framework to develop their body of work through a variety of studio experiences supported by knowledge of past and contemporary art making practices.
• The concentration in Art History and Studio Art is available for students with combined interests in studio and art history. The concentration consists of a planned combination of courses in both areas, approved in advance by advisors in art history and studio.

Students should be aware that art practice is time-consuming and expensive. Instructional Materials Fees are required for most studio courses, and students may find themselves spending additional sums of money on their projects.

Studio practice courses require hands-on practice and experience; this limits the number of students who can enroll in such courses.

Studio Areas: Ceramics, Digital Media & Emerging Technology, Painting and Drawing, Printmaking, Photography, Sculpture, and Fiber and Material Practice

Each studio area is structured to provide a similar sequence of development in the medium. Lower division courses provide technical foundations and introduce students to upper division topics in the area of study; intermediate courses extend and deepen skills while providing opportunities for students to engage with conceptual and critical issues; and advanced courses help students develop a focused body of work.
with awareness of the historical and contemporary concerns of art practice more broadly.

**Advising**

Students are strongly encouraged to consult regularly with a major advisor on a regular basis as they advance through the program. A list of departmental advisors and contact information can be found on the School's website: http://art.sfsu.edu/pages/academic-advising.

Students are also advised to consult with the University’s Advising Center for information about General Education and other University requirements, as well as the Student Achievement and Resource Center in the College of Liberal & Creative Arts: http://cas.sfsu.edu/academics/student-achievement-and-resource-center.

**General Education Requirements Met in the Art Major:**

The requirement below is deemed “met in the major” upon completion of the courses listed (even though the courses are not approved for GE). This is true whether or not the student completes the major.

- Area C1 (Arts) is satisfied upon completion of both ART 201 and ART 205.

**Bachelor of Arts in Art: Concentration in Art Education – 46 Units**

**Lower Division Courses (15 Units)**

**Art History**

Select two of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 201</td>
<td>Western Art History I</td>
<td>3</td>
</tr>
<tr>
<td>ART 202</td>
<td>Western Art History II</td>
<td>3</td>
</tr>
<tr>
<td>ART/HUM 205</td>
<td>Asian Art History</td>
<td>3</td>
</tr>
</tbody>
</table>

**Studio Art**

Select three of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 210</td>
<td>Introduction to Digital Media Arts</td>
<td>3</td>
</tr>
<tr>
<td>ART 222</td>
<td>Introduction to Textile Art</td>
<td>3</td>
</tr>
<tr>
<td>ART 231</td>
<td>Drawing 1</td>
<td>3</td>
</tr>
<tr>
<td>ART 235</td>

<td>Introduction to Contemporary Sculpture</td>
<td>3</td>
</tr>
<tr>
<td>ART 245</td>
<td>Ceramics 1</td>
<td>3</td>
</tr>
<tr>
<td>ART 260</td>
<td>Photography 1</td>
<td>3</td>
</tr>
</tbody>
</table>

Before advancing to the 300-level or higher courses or declaring a concentration, all majors must have completed the University’s lower division requirements and the lower division courses for the major, or equivalent. Change of major students must also have proof of art advisor consultation.

**Art History (6 Units)**

Two upper division courses: one in 20th- or 21st-century art and one in non-European art (unless non-European requirement was met in lower division art history).

**Upper Division Studio Art Courses (21 Units)**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDUC 450</td>
<td>Art and Learning (replaces one upper division studio)</td>
<td>3</td>
</tr>
</tbody>
</table>

Choose one, two, or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year.

**Art Productions (1 Unit)**

**Graduate Writing Assessment Requirement (3 Units)**

**Complementary Studies**

All candidates for the Bachelor of Arts degree in Art must complete 12 units of complementary studies from courses bearing a prefix other than ART, and not cross-listed with ART.

Students may satisfy this requirement in a variety of ways designed to facilitate timely graduation. Under advisement students may complete 12 units of coursework in a single foreign language, an approved study abroad program, partial completion of a second major, minor, or certificate program in a related area of study. Related areas include Museum Studies, Design and Industry, Cinema, Music and Dance, Theatre, and Business. Requirements vary for each of the four Art concentrations (Studio; Art History, Art Education, and Studio/Art History) and students are strongly encouraged to work closely with their major advisor toward completion of this requirement.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

Note: Students who complete two majors, or a major and a minor, automatically complete the complementary studies requirement.

**General Education Requirements**

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 629)

Transfer Student Roadmap (2 Year)
For students with an AA-T in Studio Arts. This roadmap opens in a new tab. (p. 631)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Studio Arts

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State.
Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Upper Division Studio Art Requirement (18 units total): Choose one, two, or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year 3
Complementary Studies or SF State Studies or University Elective – Take Three 4 8

Units 15

Total Units 120-122

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3 Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4 Complementary Studies
All candidates for the Bachelor of Arts degree in Art must complete 12 units of complementary studies from courses bearing a prefix other than ART, and not cross-listed with ART.
Students may satisfy this requirement in a variety of ways designed to facilitate timely graduation. Under advisement students may complete 12 units of coursework in a single foreign language, an approved study abroad program, partial completion of a second major, minor, or certificate program in a related area of study. Related areas include Museum Studies, Design and Industry, Cinema, Music and Dance, Theatre, and Business. Requirements vary for each of the four Art concentrations (Studio, Art History, Art Education, and Studio/Art History) and students are strongly encouraged to work closely with their major advisor toward completion of this requirement.
Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.
5 Major Studio Requirement (Three Total)
ART 210 Introduction to Digital Media Arts (3 units)
ART 222 Introduction to Textile Art (3 units)
ART 231 Drawing 1 (3 units)
ART 235 Printmaking 1 (3 units)
ART 240 Introduction to Contemporary Sculpture (3 units)
ART 245 Ceramics 1 (3 units)
ART 260 Photography 1 (3 units)
Bachelor of Arts in Art: Concentration in Art Education – ARTS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Studio Arts. Fifteen units in the major (three lower division studio courses, two lower division art history courses) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

1 Capstone courses include all 600-level courses and some 500-level courses on advisement. Consult with your department advisor.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): U.S. History, U.S. Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C, and D (9 units)
- Students entering the major with the AA-T in Studio Arts are not required to fulfill SF State Studies requirements
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units
Art (Art Education) Major: 31 Units
Fifteen units met in transfer: three lower division studio courses, two lower division art history courses

• Upper Division Art History (6 units): one course in 20\textsuperscript{th}/21\textsuperscript{st} century and one in non-European art
• Upper Division Studio Art (21 units) includes:
  • EDUC 450 (3 units) – required for students in this concentration.
  • 18 units in one, two, or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year.
  • Capstone: see footnote 1.

• Art Productions (1 unit): ART 509
• Graduation Writing Assessment Requirement (3 units): ART 400GW

University Electives: 11 or More Units
Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., both in UD GE and the major.
Bachelor of Arts in Art: Concentration in Art History

The Bachelor of Arts in Art History gives students the opportunity to learn about the visual cultures of the past and present around the globe. The 36 unit degree offers a series of increasingly focused courses—200 level survey courses, more specialized 300 and 400 level lecture courses, 500 level Advanced Topics and the 600 level senior capstone seminar—in which students learn how to analyze and interpret visual art within diverse historical, social, political, and cultural contexts. The program takes advantage of the Bay Area's rich cultural resources, galleries, and museums. Students are encouraged to gain hands-on experience and practical knowledge of the field through an internship. The art history major prepares students for a wide range of careers, including administrative or curatorial positions in museums, galleries, and auction houses, writing editorial positions, or for graduate school in art history, museum/curatorial studies, or conservation.

Program Learning Outcomes

Upon completion of the B.A. in Art with a Concentration in Art History, students will:

1. Gain breadth and depth of knowledge of art history globally: identify major artists, works, movements; define key terms, concepts, and theories; and understand diverse historical, social, political, cultural, and ideological perspectives.

2. Demonstrate skills in critical thinking, formal analysis, and visual literacy to interpret and evaluate the meaning of art and visual culture.

3. Gain verbal expression and oral presentation skills in both informal discussion and formal contexts.

4. Become proficient in writing and research skills in both informal discussion and formal contexts.

5. Understand and apply art historical methodology and theoretical models.

6. Show evidence of curiosity, risk-taking, experimentation, problem-solving, collaboration, and compassion in class discussion, small group work, and research/writing.

7. Understand the ethical dimension of artistic practice and scholarship within a global context and in relationship to the dynamics of power—including those of class, gender, race, and geopolitics—as expressed through visual, spatial, institutional, and ideological practices.

8. Gain a basic knowledge and understanding of artistic practice and process, and be able to draw on such knowledge in the interpretation of works of art, as well as to enrich their research and scholarly process.

Admission

At the time of admission to the University, no special permission, application or portfolio review is required to declare the art history concentration within the art major. Juniors or seniors who have declared in another major, but wish to change their major to art with a concentration in art history must:

Complete two courses from the list below with grades of C or higher:

<table>
<thead>
<tr>
<th>Art History</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ART 201</td>
<td>Western Art History I</td>
<td>3</td>
</tr>
<tr>
<td>ART 202</td>
<td>Western Art History II</td>
<td>3</td>
</tr>
</tbody>
</table>

| ART/HUM 205 | Asian Art History | 3 |

- Proof of consultation with an art advisor
- For students transferring from other institutions, a minimum of 12 units in residence is required.

Students are required to declare a concentration by their junior year and to discuss their choice with an advisor in that area.

Advising

Students are strongly encouraged to consult with a major advisor on a regular basis as they advance through the program. A list of departmental advisors and contact information can be found on the School’s website: art.sfsu.edu/pages/academic-advising (http://art.sfsu.edu/pages/academic-advising).

Students are also advised to consult with the University’s Advising Center for information about General Education and other University requirements, as well as the Student Achievement and Resource Center in the College of Liberal & Creative Arts: lca.sfsu.edu/academics/student-achievement-and-resource-center (http://lca.sfsu.edu/academics/student-achievement-and-resource-center).

Bachelor of Arts in Art: Concentration in Art History — 36 Units

Lower Division Courses (9 units)

Art History

Select two of the following:

- ART 201 Western Art History I
- ART 202 Western Art History II
- ART/HUM 205 Asian Art History

500 Level Art History (3 units)
ART 516 Advanced Topics in Art History 3

Art History Elective (3 units)
One additional 300–600 level art history course.

Internship (3 units)
Select one of the following:
ART 619 Exhibition Design 3
ART 699 Independent Study 3

Senior Capstone Seminar (3 units)
ART 602 Art History Seminar 3

Complementary Studies
All candidates for the Bachelor of Arts degree in Art must complete 12 units of complementary studies from courses bearing a prefix other than ART, and not cross-listed with ART.

Students may satisfy this requirement in a variety of ways designed to facilitate timely graduation. Under advisement students may complete one of the following:

- 12 units of coursework in a single foreign language,
- Museum Studies Minor
- an approved study abroad program,
- partial completion of a second major, minor, or
- 12 units of coursework in a related area of study.

Students are strongly encouraged to work closely with their major advisor toward completion of this requirement.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and SF State units can best be applied to this requirement to ensure degree completion within 60 units.

Note: Students who complete two majors, or a major and a minor, automatically complete the complementary studies requirement.

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) | LD or UD | 3
Environmental Sustainability (ES) | LD or UD | 3
Global Perspectives (GP) | LD or UD | 3
Social Justice (SJ) | LD or UD | 3

Note: LD = Lower Division; UD = Upper Division.
First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 637)

Transfer Student Roadmap (2 Year)
For students with an AA-T in Art History. This roadmap opens in a new tab. (p. 640)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Art History
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government

- a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AIEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.
Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Major Studio Requirement**
   - ART 210 Introduction to Digital Media Arts (3 units)
   - ART 222 Introduction to Textile Art (3 units)
   - ART 231 Drawing 1 (3 units)
   - ART 235 Printmaking 1 (3 units)
   - ART 240 Introduction to Contemporary Sculpture (3 units)
   - ART 245 Ceramics 1 (3 units)
   - ART 260 Photography 1 (3 units)

4. **Complementary Studies**
   - All candidates for the Bachelor of Arts degree in Art must complete 12 units of complementary studies from courses bearing a prefix other than ART, and not cross-listed with ART.
   - Students may satisfy this requirement in a variety of ways designed to facilitate timely graduation. Under advisement students may complete one of the following:
     - 12 units of coursework in a single foreign language,
     - Museum Studies Minor
     - an approved study abroad program,
     - partial completion of a second major, minor, or
     - 12 units of coursework in a related area of study.
   - Students are strongly encouraged to work closely with their major advisor toward completion of this requirement.
   - Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and SF State units can best be applied to this requirement to ensure degree completion within 60 units.

5. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Upper Division 300–400 Level Art History Lectures (12 units)

Group A
ART 401/CLAR 420 Greek Art and Archaeology (3 units)
ART 402/CLAR 425 Roman Art and Archaeology (3 units)

ART 417 The Art and Architecture of Islam (3 units)
ART 421 Global Perspectives in Art History: Special Areas (3 units)
# Bachelor of Arts in Art: Concentration in Art History – ARTH Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Art History. Nine units in the major (one lower division studio course, two lower division art history courses) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
• American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
• Upper division GE, areas B, C, and D (9 units)
• Students entering the major with the AA-T in Art History are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

Art (Art History) Major: 30 Units
Lower division requirements satisfied in transfer – six units of art history and three units of studio arts.

• Graduation Writing Assessment Requirement (3 units): ART 400GW
• Upper Division Art History (12 units): 300–400 level, including at least one course from Groups A, B, and C.
• Advanced Topics in Art History (3 units)
• Elective (3 units): one additional 300–600 level art history course selected by student
• Internship (3 units)
• Capstone (3 units)

University Electives: Four or More Units
Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State – some courses may meet more than one requirement, e.g. both in UD GE and the major.

Bachelor of Arts in Art: Concentration in Art History and Studio Art

Admission
At the time of admission to the University, no special permission, application or portfolio review is required to declare the art major. Juniors or seniors who have declared in another major, but wish to change their major to art must:

Complete four courses with a grade of C or higher and two courses from each category.

Art History
- ART 201 Western Art History I 3
- ART 202 Western Art History II 3
- ART/HUM 205 Asian Art History 3

Studio
- ART 210 Introduction to Digital Media Arts 3
- ART 222 Introduction to Textile Art 3
- ART 231 Drawing 1 3
- ART 235 Printmaking 1 3
- ART 240 Introduction to Contemporary Sculpture 3
- ART 245 Ceramics 1 3
- ART 260 Photography 1 3

- Proof of consultation with an art advisor
- For students transferring from other institutions, a minimum of 12 units in residence is required.

Students are required to decide on a concentration by their junior year, and to discuss their choice with an advisor in that area. Since some areas are very crowded, students transferring at an advanced level from other institutions should contact an advisor in their proposed concentration upon application for admission to the University. The concentration programs may be structured to fit individual needs after conferring with an advisor and obtaining the advisor’s approval.

Concentrations:
- The concentration in Art Education explores the place of the visual arts in elementary and secondary education, and in general human development.
- The concentration in Art History examines the history of visual form in relation to the values, beliefs, and institutions of specific cultures.
- The concentration in Studio Art provides students with the framework to develop their body of work through a variety of studio experiences supported by knowledge of past and contemporary art making practices.
- The concentration in Art History and Studio Art is available for students with combined interests in studio and art history. The concentration consists of a planned combination of courses in both areas, approved in advance by advisors in art history and studio.

Students should be aware that art practice is time-consuming and expensive. Instructional Materials Fees are required for most studio courses, and students may find themselves spending additional sums of money on their projects.

Studio practice courses require hands-on practice and experience; this limits the number of students who can enroll in such courses.

Studio Areas: Ceramics, Digital Media & Emerging Technology, Painting and Drawing, Printmaking, Photography, Sculpture, and Textiles
Each studio area is structured to provide a similar sequence of development in the medium. Lower division courses provide technical foundations and introduce students to upper division topics in the area of study; intermediate courses extend and deepen skills while providing opportunities for students to engage with conceptual and critical issues; and advanced courses help students develop a focused body of work with awareness of the historical and contemporary concerns of art practice more broadly.

Advising
Students are strongly encouraged to consult with a major advisor on a regular basis as they advance through the program. A list of departmental advisors and contact information can be found on the School’s website: http://art.sfsu.edu/pages/academic-advising.

Students are also advised to consult with the University’s Advising Center for information about General Education and other University requirements, as well as the Student Achievement and Resource Center in the College of Liberal & Creative Arts: http://lca.sfsu.edu/academics/student-achievement-and-resource-center.

General Education Requirements Met in the Art Major:
The requirement below is deemed “met in the major” upon completion of the courses listed (even though the courses are not approved for GE). This is true whether or not the student completes the major.

- Area C1 (Arts) is satisfied upon completion of both ART 201 and ART 205.

Bachelor of Arts in Art: Concentration in Art History and Studio Art — 46 units

Lower Division Courses (12 units)

Art History
Select two of the following:
- ART 201 Western Art History I 3
- ART 202 Western Art History II 3
- ART/HUM 205 Asian Art History 3

Studio Art
Select two from the following:
- ART 210 Introduction to Digital Media Arts 3
- ART 222 Introduction to Textile Art 3
- ART 231 Drawing 1 3
- ART 235 Printmaking 1 3
- ART 240 Introduction to Contemporary Sculpture 3
- ART 245 Ceramics 1 3
- ART 260 Photography 1 3
Before advancing to the 300-level or higher courses or declaring a concentration, all majors must have completed the University's lower division requirements and the lower division courses for the major, or equivalent. Change of major students must also have proof of art advisor consultation.

To declare a concentration in art history and studio art, the student must consult advisors in the appropriate areas and draft a contractual proposed course of study on the Concentration Advising Form. The program must be approved by the advisors and by the School of Art director in advance. Copies of the form are retained by students and their advisors.

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 646)

Transfer Student Roadmap (2 Year)
For students with an A.A-T in Studio Arts or Art History. This roadmap opens in a new tab. (p. 648)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Art History or Studio Arts
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.
Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

### Bachelor of Arts in Art: Concentration in Art History and Studio Art Roadmap

#### San Francisco State University Bulletin 2017-2018

| GE Area UD–C: Upper Division Arts and/or Humanities (Consider SF State Studies Course) | 3 |
| Complementary Studies or SF State Studies or University Elective | 3 |
| **Units** | **15** |

#### Seventh Semester

| ART 602 Art History Seminar | 3 |
| or Capstone Studio Course | |
| Upper Division Art History (12 units total) – Take One | 3 |
| Upper Division Studio Art (15 units total) – Take One | 3 |
| Complementary Studies or SF State Studies or University Elective – Take Two | 6 |
| **Units** | **15** |

#### Eighth Semester

| ART 509 Art Productions: Studio, Art History, Art Education | 1 |
| Upper Division Art History (12 units total) – Take One | 3 |
| GE Area UD–D: Upper Division Social Sciences (Consider SF State Studies Course) | 3 |
| Complementary Studies or SF State Studies or University Elective – Take Three | 4 |
| **Units** | **15** |

**Total Units**: 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy GE Area A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Major Studio Requirements (Two Total)**
   - ART 210 Introduction to Digital Media Arts (3 units)
   - ART 222 Introduction to Textile Art (3 units)
   - ART 231 Drawing 1 (3 units)
   - ART 235 Printmaking 1 (3 units)
   - ART 240 Introduction to Contemporary Sculpture (3 units)
   - ART 245 Ceramics 1 (3 units)
   - ART 260 Photography 1 (3 units)

4. **Complimentary Studies**
   - All candidates for the Bachelor of Arts degree in Art must complete 12 units of complementary studies from courses bearing a prefix other than ART, and not cross-listed with ART.
   - Students may satisfy this requirement in a variety of ways designed to facilitate timely graduation. Under advisement students may complete 12 units of coursework in a single foreign language, an approved study abroad program, partial completion of a second major, minor, or certificate program in a related area of study. Related areas include Museum Studies, Design and Industry, Cinema, Music and Dance, Theatre, and Business. Requirements vary for each of the four Art concentrations (Studio, Art History, Art Education, and Studio/Art History) and students are strongly encouraged to work closely with their major advisor toward completion of this requirement.
   - Students who complete two majors, or a major and a minor, automatically complete the complementary studies requirement.

5. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

6. **Upper Division Art History (12 units total)**
   - Choose at least one 20th/21st century topic:
     - ART 303 The Artist in the 20th-21st Centuries: Cultures in Collision–Cultures in Fusion (3 units)
     - ART 306 Modern and Contemporary Art in a Global Context: 1945-Present (3 units)
     - ART 405/SXS 405 Queer Art History (3 units)
     - ART 501 Western Art: Special Areas (3 units)
     - ART 502 Asian Art: Special Areas (3 units)

7. Select one or two studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year.
Bachelor of Arts in Art: Art History and Studio Art – ARTS or ARTH Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Studio Arts or an AA-T in Art History. Twelve units in the major (two lower division studio courses, two lower division art history courses) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

Potential capstone courses include all 600-level courses and 500-level studio courses on advisement. Students in this concentration have the option of designating ART 602: Art History Seminar as the capstone if preferred.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
• Upper division GE, areas B, C, and D (9 units)
• Students entering the major with the AA-T in Art History or Studio Arts are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

Art major (Art History and Studio Art): 34 Units
Twelve units met in transfer: two lower division studio courses; two lower division art history courses.

• Upper Division Art History (12 units): including 20th/21st century topic
• Upper Division Studio (15 units): choose one or two studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year.
• Capstone Experience (3 units): ART 602 or Upper Division Studio Capstone in 3rd or 4th semester. See Note 1 above.
• Art Productions (1 unit): ART 509
• Graduation Writing Assessment Requirement (3 units): ART 400GW

University Electives: Eight or More Units
Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State – some courses may meet more than one requirement, e.g., both in UD GE and the major.
Bachelor of Arts in Art: Concentration in Studio Art

Admission
At the time of admission to the University, no special permission, application or portfolio review is required to declare the art major. Juniors or seniors who have declared in another major, but wish to change their major to art must:

Complete four courses (two from each category) with a grade of C or higher:

</tbody>
</table>

• Proof of consultation with an art advisor
• For students transferring from other institutions, a minimum of 12 units in residence is required.

Students are required to decide on a concentration by their junior year, and to discuss their choice with an advisor in that area. Since some areas are very crowded, students transferring at an advanced level from other institutions should contact an advisor in their proposed concentration upon application for admission to the University. The concentration programs may be structured to fit individual needs after conferring with an advisor and obtaining the advisor's approval.

Concentrations:
• The concentration in Art Education explores the place of the visual arts in elementary and secondary education, and in general human development.
• The concentration in Art History examines the history of visual form in relation to the values, beliefs, and institutions of specific cultures.
• The concentration in Studio Art provides students with the framework to develop their own body of work through a variety of studio experiences supported by knowledge of past and contemporary art making practices.
• The concentration in Art History and Studio Art is available for students with combined interests in studio and art history. The concentration consists of a planned combination of courses in both areas, approved in advance by advisors in art history and studio.

Students should be aware that art practice is time-consuming and expensive. Instructional Materials Fees are required for most studio courses, and students may find themselves spending additional sums of money on their projects.

Studio practice courses require hands-on practice and experience; this limits the number of students who can enroll in such courses.

Studio Areas: Ceramics, Digital Media & Emerging Technology, Painting and Drawing, Printmaking, Photography, Sculpture, and Textiles
Each studio area is structured to provide a similar sequence of development in the medium. Lower division courses provide technical foundations and introduce students to upper division topics in the area of study; intermediate courses extend and deepen skills while providing opportunities for students to engage with conceptual and critical issues; and advanced courses help students develop a focused body of work with awareness of the historical and contemporary concerns of art practice more broadly.

Advising
Students are strongly encouraged to consult with a major advisor on a regular basis as they advance through the program. A list of departmental advisors and contact information can be found on the School's website: http://art.sfsu.edu/pages/academic-advising.

Students are also advised to consult with the University's Advising Center for information about General Education and other University requirements, as well as the Advising Resource Center in the College of Liberal & Creative Arts: http://ica.sfsu.edu/students#arc.

General Education Requirements Met in the Art Major:
The requirement below is deemed "met in the major" upon completion of the courses listed (even though the courses are not approved for GE). This is true whether or not the student completes the major.
• Area C1 (Arts) is satisfied upon completion of both ART 201 and ART 205.

Before advancing to the 300-level or higher courses or declaring a concentration, all majors must have completed the University’s lower division requirements and the lower division courses for the major, or equivalent. Change of major students must also have proof of art advisor consultation.

**Upper Division Art History (6 Units)**
Choose two upper division courses: one in 20th/21st-century art and one non-European art (unless non-European requirement was met in lower division art history).

**Upper Division Studio Art (21 Units)**
Choose one, two, or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year.

**Art Productions (1 Unit)**
ART 509 Art Productions: Studio, Art History, Art Education 1

**Graduate Writing Assessment Requirement (3 Units)**
ART 400GW Writing About Art - GWAR 3

**Complementary Studies**
All candidates for the Bachelor of Arts degree in Art must complete 12 units of complementary studies from courses bearing a prefix other than ART, and not cross-listed with ART.

Students may satisfy this requirement in a variety of ways designed to facilitate timely graduation. Under advisement students may complete 12 units of coursework in a single foreign language, an approved study abroad program, partial completion of a second major, minor, or certificate program in a related area of study. Related areas include Museum Studies, Design and Industry, Cinema, Music and Dance, Theatre, and Business. Requirements vary for each of the four Art concentrations (Studio; Art History, Art Education, and Studio/Art History) and students are strongly encouraged to work closely with their major advisor toward completion of this requirement.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can be best applied to this requirement in order to ensure degree completion within 60 units.

Note: Students who complete two majors, or a major and a minor, automatically complete the complementary studies requirement.

| Social Justice (SJ)                         | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

---

### First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 654)

### Transfer Student Roadmap (2 Year)
For students with an AA-T in **Art History**, this roadmap opens in a new tab. (p. 656)
For students with an AA-T in **Studio Arts**, this roadmap opens in a new tab. (p. 658)

**This degree program is an approved pathway ("similar" major) for students earning the ADT in Art History or Studio Arts**

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California
Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. **Lower Division Studio Art**
   - ART 210 Introduction to Digital Media Arts (3 units)
   - ART 222 Introduction to Textile Art (3 units)
   - ART 231 Drawing 1 (3 units)
   - ART 235 Printmaking 1 (3 units)
   - ART 240 Introduction to Contemporary Sculpture (3 units)
   - ART 245 Ceramics 1 (3 units)
   - ART 260 Photography 1 (3 units)
4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
5. Select two upper division courses – one in 20th/21st century art and one non-European art (unless non-European requirement was met in lower division art history).
6. Choose one, two, or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year.
Bachelor of Arts in Art: Concentration in Studio Art – ARTH Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Art History. Twelve to 15 units in the major (two to three lower division studio courses, two lower division art history courses) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</table>

1 Students who completed only six units of studio courses for the Art History ADT may substitute three units of upper division studio for a total of 24 units.

2 Capstone courses include all 600-level studio courses and some 500-level studio courses on advisement. Consult with a department advisor.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**
- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0-6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C, and D (9 units)
• Students entering the major with the AA-T in Studio Arts are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

Art (Studio Art) Major: 31 Units
Twelve to 15 units met in transfer: two to three lower division studio courses, two lower division art history courses. Students who completed only six units of studio courses may substitute three units of upper division studio.

• Upper Division Art History (6 units): one course in 20th/21st century and one in non-European art
• Upper Division Studio Art (21–24 units): 24 units required if only six units of studio completed before transfer. Choose one, two or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year. See Note 2 above.
• Art Productions (1 unit): ART 509
• Graduation Writing Assessment Requirement (3 units): ART 400GW

University Electives: Eight or More Units
Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., both in UD GE and the major.
Bachelor of Arts in Art: Concentration in Studio Art – ARTS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Studio Arts. Fifteen units in the major (three lower division studio courses, two lower division art history courses) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

\(^1\) Capstone courses include all 600-level studio courses and some 500-level studio courses on advisement. Consult with a department advisor.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): U.S. History, U.S. Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C and D (9 units)
- Students entering the major with the AA-T in Studio Arts are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.
Art (Studio Art) Major: 31 Units
Fifteen units met in transfer: three lower division studio courses, two lower division art history courses.

- Upper Division Art History (6 units): one course in 20th/21st century and one in non-European art
- Upper Division Studio Art (21 units): choose one, two or three studio areas to develop skills that will lead to developing a guided, personally directed body of work in a capstone course in the senior year. See Note.
- Art Productions (1 unit): ART 509
- Graduation Writing Assessment Requirement (3 units): ART 400GW

University Electives: 11 or More Units
Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., both in UD GE and the major.
Minor in Art
For students transferring from other institutions, a minimum of 12 units in residence is required.

Art Minor – 24 units
Art History (6 units)
3 units must be upper division

200-level Studio Courses (3 units)
Upper Division Electives (15 units)

Master of Fine Arts in Art
The three-year Master of Fine Arts in Art program is designed to provide professional competency for the student pursuing a career as an artist including working in a range of public roles. Students are accepted into the program in the following areas of emphasis: ceramics, conceptual and information arts, new practices, painting and drawing, photography, printmaking, sculpture, or textiles. While affiliation with a single emphasis is the norm, a broad approach to art-making and the development of a coherent, informed understanding of issues relevant to many forms of expression is encouraged throughout the program. The emphasis of new practices is available to students who work across media.

Studio related seminars and individually supervised tutorials form the core of the program. Special seminars in adjacent academic fields complement the studio focus of the program. Approximately two-thirds of the program is dedicated to studio and one-third to academically related courses. While all students can expect to experience a similar range of studio, seminar and tutorial classes, individual paths through the program are worked out through consultation with a graduate advisor/mentor.

Admission to Program
Applications for the M.F.A. program are accepted November 1 through January 15 for admission the following fall.

Applicants are required to file two separate applications, one to the University, and one to the Art Department. Applicants who do not complete both requirements cannot be considered for admission. Both the University’s Graduate Studies Division and the Art Department must accept applicants. Admission to the program is highly competitive and it is not possible to admit all fully qualified individuals.

1. An undergraduate art degree or equivalent preparatory degree, with three units of contemporary art history taken within the last five years. If the applicant does not complete this upon admission to the program, enrollment in a contemporary art history class during the first semester is required.
2. A 3.0 grade point average in the last 60 units completed in the undergraduate degree.

The M.F.A. admission application requirements are listed below. All application materials are submitted to the department electronically through an online application site. Application procedures and the M.F.A. admissions application can be found on the department’s website.

1. A completed Department of Art M.F.A. Admissions Application.
2. One copy of either official or unofficial transcripts from all institutions of higher learning attended. These must be included in your application package. (The department’s transcript requirements are in addition to the official transcripts required in the application to the University.) Note that transcripts will not be forwarded to the Art Department from the Graduate Admissions Office and vice versa.
3. One copy of your current resume/CV.
4. A two-page double-spaced Statement of Purpose describing your interests and background in art, reasons for pursuing the M.F.A. degree, and reasons for selecting San Francisco State University.
5. Three letters of recommendation should come from individuals qualified to testify to your capabilities and readiness to enter graduate study in art. Applicants provide email addresses for their references in the application. Referees receive an email with a link to upload a reference letter which is merged with the applicant’s file.
6. Creative work portfolio.

Up to 12 classified graduate units taken while completing a master’s degree in art at any accredited institution may be transferred towards credit for the M.F.A. degree. No more than 12 units (a maximum of 6 units in studio courses) of work taken in unclassified post-baccalaureate status may be transferred towards credit for the M.F.A. degree. All transfer of credit must be approved on a course-by-course basis by a departmental graduate advisor, graduate coordinator, and the Division of Graduate Studies.

A department review of each student’s progress is required at the end of each year in the program.

Written English Proficiency Requirement
All students in graduate programs at SF State must demonstrate Level One (entry) and Level Two (exit) writing proficiency in accordance with university, departmental, and or programmatic guidelines.

Level One
Level One is satisfied by the successful completion of ART 700.

Level Two
Level Two is satisfied by the successful completion of ART 705.

Completion of the Degree
In order to complete the M.F.A., students must satisfy all University and Department requirements. Department requirements are described in detail in the M.F.A. General Information brochure. In addition to satisfactory completion of the course of study, other requirements include satisfactory performance on yearly departmental reviews, a creative work exhibition and review, and creative work documentation. The department accepts transfer units on a course-by-course basis, only upon advisement, and in accordance with the limits established in the section entitled Transfer of Credit for Previous Graduate Work of the M.F.A. General Information brochure. If the creative work project is not complete in the final semester of the program, students must enroll in ART 899 in the semester they intend to graduate. Students are required to be enrolled during the semester in which they graduate.

Graduate Coordinator: Nancy “Sami” Reist

Mission
The Department of Broadcast and Electronic Communication Arts prepares students to create and critically evaluate content in the media arts. Our curriculum provides a balance of theory and practice while guiding students in the use of media to effectively communicate ideas that serve the evolving needs of society. Students go on to become innovative and ethical industry leaders who advance equity, social justice, and global citizenship.

Program Scope
The Department of Broadcast and Electronic Communication Arts (Beca) offers coursework leading to the Bachelor of Arts in Broadcast and Electronic Communication Arts, and the Master of Arts in Broadcast and Electronic Communication Arts. The curriculum is designed to provide extensive educational experience for those who intend to use the modern media of electronic communication to serve the artistic, cultural, educational, and informational needs of society. The program involves both theory and practice, and students are expected to work successfully in both types of courses and activities. Graduates of the program are prepared for work in the broadcasting and entertainment industries, in cable and on-line media, in video and audio production, and other areas related to electronic communication. Many graduates go on for graduate-level study in the field of electronic media.

The B.A. program includes a core drawn from classes in the history and structure of electronic media, media aesthetics, media research, audio and video production, media ethics and regulation, communication theory and criticism, and writing and performance for the electronic media. In addition, students may elect to pursue one of the nine areas of emphasis within the department: audio production and music recording, broadcast journalism, business aspects of the electronic media, educational and instructional media, communication theory and criticism, interactive media, radio production and programming, television/video production, and writing for the electronic media, or they can design an individualized area of emphasis in consultation with a department advisor.

The M.A. program reflects a comprehensive view of the communication discipline with an integration of theory and practice. Emphasis areas include media aesthetics, audio and video production, news and documentary, interactive media, writing, management, and communication theory and criticism.

Two important co-curricular activities are open to students of the department. KSFS, the campus radio station, is distributed on-line and in San Francisco on stereo cable. KSFS Media produces newscasts, dramas, interviews, musical performances, and other productions for distribution to the San Francisco community through cable television and via the Internet. Collegiate chapters of the Audio Engineering Society and College Students in Broadcasting (an affiliate of American Women in Radio and Television) provide opportunities for service and fellowship in the department and the professional community. The San Francisco Bay Area provides a wealth of media organizations that cooperate with the BECA department in a large, active internship program.

Centers and Institutes
The Institute of International Media Communication, housed in the Department, offers training and educational opportunities for television professionals from around the world through production workshops and seminars.

Facilities
The department’s instructional laboratories include professional grade production equipment, studios, and laboratories. Work completed by students in the BECA department is distribution ready for FCC broadcast guidelines and is in continuous distribution via terrestrial broadcast, cablecast (both radio and video), and Internet delivery. The student-run distribution hub for all BECA student productions is KSFSmedia.net (http://KSFSmedia.net)

Production facilities include three high-definition, multi-camera television studios, a radio station, two music recording studios, two advanced sound design for video studios and an array of field production equipment ranging from large-scale audio and multi-camera video simulcast equipment to professional quality audio and video single-camera and electronic news gathering equipment. The department also maintains over 75 computer workstations for audio and video production and post-production activity.

Career Outlook
Graduates of the department are to be found working in media organizations around the world and include some of the top names in broadcast journalism, entertainment television, radio, and audio and video production. The long term career outlook for graduates is excellent. Most seek work with radio and television stations, audio and video production companies, networks, cable television companies, and in corporate and institutional media departments.

Many graduates continue their education and pursue advanced degrees in communication or related fields. Students with the appropriate credential or graduate degrees in broadcast and electronic communication arts may teach in elementary and secondary schools, community colleges, or universities. A significant number of the department’s M.A. graduates have competed successfully for admission to the leading doctoral programs in the field of communication.

Mission Statement
The Department of Broadcast and Electronic Communication Arts prepares students to create and critically evaluate content in the media arts. Our curriculum provides a balance of theory and practice while guiding students in the use of media to effectively communicate ideas that serve the evolving needs of society. Students go on to become innovative and ethical industry leaders who advance equity, social justice, and global citizenship.
Program Learning Outcomes
1. Apply aesthetic theory to the practice of media production.
2. Use effective communication strategies, including media terminology as appropriate, in the creation and analysis of electronic and digital media content.
3. Integrate research related media theory into the conception and distribution of media content.
4. Conceptualize, design, and write stories for electronic and digital media.
5. Demonstrate proficiency in fundamental and advanced media production concepts and techniques.
6. Analyze and write about electronic and digital media’s role in and impact on culture and society.
8. Promote ethical standards and social justice in the creation and distribution of electronic and digital media.

Masters
• Master of Arts in Broadcast and Electronic Communication Arts (p. 672)

Bachelor of Arts in Broadcast and Electronic Communication Arts

Application Filing Periods
Applications for admission to the Broadcast and Electronic Communication Arts (BECA) major are accepted by the University’s Office of Enrollment Services only during the application filing periods of October 1 to November 30 (for admission the following fall) and August 1 to September 30 (for admission the following spring). Applications received outside of these two filing periods will not be considered.

Change of Major Applicants
Undeclared majors and students enrolled in other disciplines at SF State who seek to change their major to Broadcast and Electronic Communication Arts must complete the nine units of prerequisite core classes with grades of C or better in each (BECA 200, BECA 300GW, BECA 340) before applying for a change of major. Note: Because of high demand, enrollment priority is given to BECA major students in the prerequisite core courses, as well as in many other departmental classes.

Prerequisite Core and Departmental Permission
All majors must complete the prerequisite core courses (BECA 200, BECA 390GW, BECA 340) with grades of C or better in each (C- is not acceptable). Completion of the core fulfills the departmental permission requirement, which is a condition for enrollment in the production sequence and many other advanced classes. If “department permission” is listed as a pre-requisite for a course in the course description, students must have completed BECA 200, BECA 300GW, and BECA 340 prior to enrollment in the course. The prerequisite core courses are normally taken during the sophomore year. Transfer students admitted to SF State as BECA majors should plan to complete the prerequisite core during the first semester of their junior year. A minimum of six of the nine units must be completed at SF State.

Writing Competence
Second year written composition (ENG 214 or equivalent) with a grade of C– or better is a prerequisite for BECA 300GW. BECA majors who successfully complete BECA 300GW will have satisfied the University Graduation Writing Assessment Requirement (GWAR). Students may improve their skills by taking composition courses or by completing writing tutorials.

Supervised and Independent Work Experience
The department encourages students to participate in independent production, internship, and supervised teaching experiences as a part of their program of study. Students may count a total of six units combined from the courses BECA 576, BECA 685, BECA 695, and BECA 699 toward satisfying major requirements. No more than four units of BECA 685 may count toward the degreemajor, and no more than six units from any other individual course may be counted toward the major.

Transfer Students
Students transferring to the BECA program from a California community college or other institution should strive to complete the SF State Lower Division Transfer Pattern. Transfer students are encouraged to complete the equivalent of ENG 214, BECA 200, BECA 230/BECA 231, and BECA 240/BECA 241 before matriculation to SF State. Many of the transfer equivalents to these courses are offered at California community colleges and can be verified via the Assist website (http://www.assist.org) (www.assist.org (http://www.assist.org)). Please contact a faculty advisor if your course is not listed. Up to nine units of courses from California community colleges may be directly applied to fulfilling BECA major requirements.

Mandatory Advising
Students in the major are encouraged to meet with a major advisor every semester, but are required to meet with a faculty advisor at the following points in their study:

1. Upon completion of the prerequisite core (BECA 200, BECA 300GW, and BECA 340). Students must have an advisor’s signature on the department’s proof of completion form to enroll in the production sequence or other advanced classes.
2. When the student has two full semesters remaining before graduation (typically 18 to 25 units left to complete in the major) the student must obtain the department’s graduation checklist/course equivalency form from beca.sfsu.edu (http://beca.sfsu.edu) or the BECA office. Faculty advisors will assist students in completing the checklist and will approve transfer course equivalencies. In addition,
the student will be asked to list on the form a proposed "itinerary" of required and elective courses to be taken in the last two semesters. This advising is meant to help the student graduate in a timely manner. The form must be signed by the advisor.

3. For approval of the application for graduation: The application must be signed by the advisor and the department chair.

The major includes a core requirement of 25 units and an additional requirement of 20 units of electives in an area of emphasis drawn from the broadcast and electronic communication arts curriculum. Enrollment in some departmental courses is restricted to BECA majors. Enrollment in courses requiring "departmental permission" is contingent upon satisfactory completion of nine units of prerequisite core courses.

Students in the major are encouraged to take additional course work in other disciplines related to the major.

Broadcast and Electronic Communication Arts (B.A.) — 45 Units

Electives in an Area of Emphasis (20 units)

Twenty units chosen from courses in BECA or other departments with approval of a BECA faculty advisor. Units from core courses not used to fulfill core requirements in any of the areas listed above may be counted as electives in an area of emphasis with the approval of a BECA faculty advisor.

Areas of Emphasis

Twenty units of elective courses in BECA or related areas are required for the major. These courses should be upper division and should be taken within one of the areas of emphasis listed below or in an individualized area of emphasis designed by a student in consultation with a department advisor.

The areas of emphasis are advisory and are meant to provide guidance for students so they develop extensive knowledge or expertise in one subject area. Students should meet regularly with a department advisor to decide which specific courses to take and how many to choose from the ones listed for a given emphasis.

Upon approval of a departmental advisor, units used in the 20 unit block of electives may include transfer units from another college or university, as well as units taken in other departments in this University. BECA department courses identified as core classes, but not used to fulfill core unit requirements, may be included in the 20 units of electives. Variable topic and experimental courses and senior seminars may also be included in the 20 units of electives.

or other courses by advisement

Complementary Studies

Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in BECA. These units must come from courses bearing a prefix other than BECA, and not cross-listed with BECA. BECA majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner:

1. 12 units in a single foreign language;
2. 12 units taken in an approved study abroad program (e.g., CSU Study Abroad);
3. 12 units taken as partial completion of a second major, minor or a certificate; or
4. 12 units in a related discipline.

With approval from a BECA advisor, up to six units of Complementary Studies may be used to count toward the major.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

Transfer Student Roadmap

For students with an AS-T in Film, Television and Electronic Media. This roadmap opens in a new tab. (p. 670)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Film, Television and Electronic Media

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://
www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</table>

1. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3.

4. Bachelor of Arts students must complete at least twelve units of Complementary Studies outside of the primary prefix for the major. Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Students earning Bachelor of Music or Bachelor of Science degrees do not have to complete the Complementary Studies requirement. Details about Complementary Studies can be found in the Bulletin description for each B.A. degree. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. These students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

5. Units selected from the following areas. At least one course or course sequence must be taken in each of the four areas, plus one additional course from any of the four areas.

   Audio and Video Production:
   - BECA 230 & BECA 231 or BECA 240 & BECA 241
   - Regulatory, Economic, and Ethical Perspectives
   - BECA 324 or BECA 423 or BECA 460
   - Mass Communication Theory and Criticism
   - BECA 321 or BECA 390 or BECA 422
   - Writing and Performance for Electronic Media
   - BECA 350 or BECA 370
   - Include a culminating experience course from the following options: BECA 415, BECA 425, BECA 428, BECA 470, BECA 530, BECA 535, BECA 593, BECA 647, BECA 660

6. Chosen from courses in BECA or other departments with approval of a BECA faculty advisor – See Bulletin.
Bachelor of Arts in Broadcast and Electronic Communication Arts – FTVE Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Film, Television and Electronic Media. Six units in the major (BECA 200, BECA 230, BECA 231) and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

ENG 214 or equivalent is a prerequisite to BECA 300GW. Completion of BECA 200, BECA 300GW and BECA 340 with a grade of C or better is required for enrollment in the production sequence and many advanced BECA classes. Progress in the major and length of time for degree completion will be impacted if an ENG 214-equivalent course is not completed before transfer. Students who need to take ENG 214 will not be able to enroll in BECA 300GW, BECA 340, or other upper division BECA courses in the first semester, and are advised to focus on completion of upper division GE instead.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 6–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer.
  - Upper division GE, areas B, C and D (9 units): Check for UD GE courses that satisfy both Major and American Institutions requirements.

- Students entering this major with the AS-T in Film, Television, Video and Electronic Media are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

**BECA Major: 35–39 Units**

BECA 200 and BECA 230–BECA 231 met in transfer; BECA 240–BECA 241 may have been completed.

- Prerequisites Core/GWAR (6 units)
- Core Foundation (9–13 units): Audio and Video Production may be complete if TV Studio Production course taken in AS-T. If so, select one course from each of the remaining three areas. If not, take four courses for the Core Foundation.
- Electives in an Area of Emphasis (20 units): Must be upper division courses; approval of BECA faculty advisor required.

**University Electives: Two or More Units**

Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., in both UD GE and the major.
Master of Arts in Broadcast and Electronic Communication Arts

Admission to Program
Graduate students are accepted twice a year, for fall and spring semesters. The graduate admission application to San Francisco State University is a two-part process. Part One is the university application submitted to the Division of Graduate Studies. Part Two is the academic department application submitted to the Graduate Coordinator for your intended degree program. You must submit Part One and Part Two of your graduate admission application simultaneously by the deadline to be considered for admission. Both applications must be received between November 1 and February 1 for the fall semester, and between September 1 and October 15 for the spring semester. Both University and departmental files must be complete by the last day of the application period (February 1 or October 15). Applicants for fall admission are notified of departmental recommendation regarding admissions in March. Applicants for spring admission are notified of departmental recommendation regarding admissions in mid-November. The official notice of admission status is forwarded to the applicant by the University’s Division of Graduate Studies.

Applicants must meet all University requirements for admission, which includes a bachelor's degree from a regionally accredited college or university with a GPA of 3.0 or better.

Part One:
1. Apply online through CSU Mentor for a Graduate Program (http://www.csumentor.edu/AdmissionApp/grad_apply.asp). The Office of Graduate Admissions no longer accepts paper applications to graduate programs.
2. Pay the $55.00 USD application fee. We recommend that you pay online by credit card at the moment you submit your application. If you selected the option to pay the application fee by check or money order, make the check payable to “San Francisco State University.”
3. Send all required documents noted on your online SF Gateway Portal “To Do List” to the Division of Graduate Studies:

Graduate Admissions
San Francisco State University
1600 Holloway Avenue, ADM 250
San Francisco, CA 94132

Part Two:
Applications to the department must include:
1. BECA department graduate application available through the department website (http://beca.sfsu.edu/content/graduate-forms)
2. Applicant’s statement of purpose in pursuing the M.A. degree
3. Three letters of recommendation, at least one of which should be from a former teacher
4. Transcripts of all previous college work
5. Current Graduate Record Examination (GRE) scores are encouraged, but not required. Scores must be submitted to both the University and the department. A minimum GRE Analytical Writing score of 4.5 is one method students may meet the department’s Level One writing requirement

Before applying to either the University or the department, send for descriptive materials about the program and details on how to apply. Write to:

Graduate Coordinator, BECA Department
San Francisco State University
1600 Holloway Avenue, CA 133
San Francisco, CA 94132

This information may also be obtained online at http://beca.sfsu.edu

Although undergraduate preparation in media or communication is desirable, students from other academic disciplines who have demonstrated an interest in the electronic media are encouraged to apply. Students may be required to take up to 14 units of undergraduate courses as prerequisites. All students must take BECA 200, BECA 340, and one introductory production sequence (either BECA 230 and BECA 231 or BECA 240 and BECA 241), or equivalents. Students who choose a creative project involving production as their culminating experience may be required to take both audio and video production (Beca 230 and BECA 231 plus BECA 240 and BECA 241). These prerequisites may not be used as part of the Advancement to Candidacy.

Students are admitted to the program in conditionally classified status. Students must advance to classified status by:
1. Completing or demonstrating knowledge of the content of the prerequisite courses;
2. Completing BECA 700 with a grade of B or better;
3. Demonstrating Level One Written English Proficiency (see below); and
4. Submitting the Advancement to Candidacy (ATC) form to the SF State Division of Graduate Studies.

Written English Proficiency Requirement
Each graduate student must demonstrate the ability to write standard American English correctly and effectively. To assure that each graduate student has the desired proficiency in written English, two distinct assessments are made:

Level One (Preadmission)
Level One writing is demonstrated with an Analytical Writing score on the GRE of 4.5 or higher. Students who fail to demonstrate Level One writing preadmission may be admitted conditionally but will be required to take a department-administered writing test during the first week of their first semester. If they fail to pass this writing test, they will be required to take remedial writing courses before enrolling in 700-level or 800-level courses other than BECA 700 and BECA 702. The remedial writing classes cannot be used on the ATC. This requirement may delay the student’s progress through the program.

Level Two
Advanced level of writing proficiency is demonstrated by successfully completing the master’s written comprehensive examination, the master’s thesis, or the creative project.

International Students
The department welcomes applications from international students. Many distinguished alumni of the program are working in media industries around the world. International students should note the special requirements that pertain to them presented on these pages.
Questions should be directed to the BECA graduate coordinator, the Office of International Programs or the Division of Graduate Studies.

Advancement to Candidacy
In order to advance to candidacy, applicants must be in classified graduate standing and have an approved ATC form on file.

1 Requires BECA 897 as a prerequisite. BECA 897 may be used for up to 3 units of elective credit in the ATC.

The minimum requirement for graduation is 30 units. Because of individual student background, needs, interests, and advisor recommendations, the graduate student may be required to complete more than 30 units.

Students must consult with an advisor before determining which one of three culminating experience options they will pursue.

Master’s Thesis

Students who pursue the master’s thesis option must complete a written master’s thesis, a scholarly document that reports on some kind of original research. The research builds upon theory, and addresses one or more research questions or tests one or more hypotheses. Research questions or hypotheses reflect a scope appropriate for M.A. level work. Research methods are selected for their appropriateness to the question or problem at hand.

Master’s Written Comprehensive Examination

Students who pursue the examination option must complete a written comprehensive examination while they are enrolled in BECA 896 and BECA 896EXM. The examination will be created by a committee that is appointed by the instructor of BECA 896. A candidate who fails the written comprehensive examination may re-take it once.

Master’s Creative Project

Students who pursue the creative project option must execute a project, the scope of which is defined by the student in collaboration with a committee of three faculty members, and prepare a written document to accompany the project. The project may take the form of a production created for the broadcast or electronic media, a script for such a production, or another type of product that employs the broadcast or electronic media. The accompanying document provides an introduction; a statement of the project’s significance, value, and objectives; a literature review; a description of the creative methodology employed; a discussion of the completed project; a conclusion; and a production appendix. The faculty may require additional coursework to demonstrate evidence of ability to complete a creative project.
CALIFORNIA STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

California Studies Program
Humanities Building, Room 410
Phone: (415) 338–1830
Coordinator: Peter Richardson

Program Scope
California Studies is a multi-disciplinary program whose purpose is to study the consensus and conflict, unity and diversity, and continuity and change that characterize the many cultures, social structures, and artistic and creative expressions, as well as the earth and geosciences, of past and present California.

Students pursuing this minor may draw upon the strengths of many departments offering courses on the various dimensions of California; in particular, Africana Studies, American Indian Studies, American Studies, Anthropology, Asian American Studies, Biology, Earth and Climate Sciences, Economics, English, Environmental Studies, Geography, History, Hospitality and Tourism Management, Humanities, Political Science, Latina/Latino Studies, and Recreation, Parks, and Tourism. Certain core courses are required to obtain the minor, with additional elective courses to be chosen by the student.

Each student should emerge from the minor with a grasp of California history and political processes, knowledge and appreciation of the rich diversity of California cultures, creative arts, and literatures, an informed view of California’s environmental richness and ecological relationships, and a continuing interest in the dynamic California landscape.

Affiliated Programs at SF State
Liberal Studies
The Liberal Studies major offers a pattern of courses that emphasize California studies. For details, see the Liberal Studies (p. 876) section of this Bulletin.

American Studies
The American Studies major offers the possibility of pursuing a California-focused elective program. For details, see the Bachelor of Arts in American Studies (p. 606) section of this Bulletin.

Career Outlook
The Minor in California Studies prepares students for regional and local application of their major fields of study to the immediate world in which they live, the state of California. A foundation in California studies is beneficial to those pursuing teaching credentials and careers in business, public policy, public administration, state government, and public history. The minor is also excellent preparation for those pursuing advanced degrees in the social sciences, humanities, earth sciences, or arts.

California Studies Minor – 21–23 units
California History (3 units)
HIST 450 History of California 3

California Artistic and Cultural Landscapes (3 units)

Electives (9 units)
Select from at least two of the above categories.
CINEMA

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Cinema
Fine Arts Building, Room 245
Phone: (415) 338–1629
Fax: (415) 338–0906
Email: cinedep@sfusu.edu
Website: cinema.sfsu.edu (http://cinema.sfsu.edu)
Director: Britta Sjogren

Program Scope

The Cinema Department was founded during the political activism and artistic experimentation of the 1960s. In 2014, the department became the School of Cinema. Today, in an era of new technologies and new opportunities, the School continues to encourage and celebrate cinematic expressions that challenge social and artistic norms. Cinema faculty are committed to providing students with a liberal arts education focused on three intertwined values: creative expression, critical thinking, and social engagement.

Students in the Bachelor of Arts in Cinema program complete introductory courses in cinema history, theory, and production. They proceed to advanced classes across the field of cinema, including media and culture, animation, experimental film, documentary filmmaking, fiction filmmaking, and screenwriting.

The Master of Arts in Cinema Studies offers students the opportunity to pursue graduate research in cinema and media scholarship. We consider "cinema" to refer to all moving image media, from early films to emerging digital media forms. The M.A. program emphasizes not only the study of cinema history, theory, and criticism, but of all “cinematic” media and the theories related to them. The M.A. curriculum allows students considerable freedom to choose from a wide variety of course offerings, building toward the writing of a thesis that emphasizes focused research on a specific topic related to their interests, under the direction of a thesis advisor.

The Master of Fine Arts in Cinema emphasizes knowledge of cinematic traditions along with the development of individual creative vision grounded in professional proficiency in technical crafts. The program integrates new processes, aesthetics, and technologies and encourages the development of original modes of cinematic expression. Course work emphasizes documentary, experimental and fiction filmmaking. Students are encouraged to take courses in animation. Parallel course work in film and media theory, history and criticism are required in years one and two of the M.F.A. program.

The School website offers additional information: cinema.sfsu.edu (http://cinema.sfsu.edu).

Facilities

School of Cinema facilities include a 150-seat screening theatre, a 2500 square foot shooting stage, editing and post-production areas for both sprocket and digital media, sound recording and mixing studios with digital editing workstations, including a Foley stage. The School also houses an animation studio with film and computer workstations, three high-end computer labs, a media library, and the Bill Nichols Reading Room.

Career Outlook

Graduates of the Cinema programs go on to careers as independent filmmakers or as professionals working at the highest levels within the film and media industries — producers, directors, creative executives, cinematographers, editors, sound recordists and mixers, animators, and multimedia artists — including Oscar and Emmy winners. Many B.A. graduates continue to advanced studies in animation, filmmaking, media and culture, or screenwriting.

The M.A. prepares graduates to pursue doctoral study in cinema, media, and related areas, as well as work in various areas of film and media arts exhibition, management, and research.

The M.F.A. prepares graduates to work as independent filmmakers, to assume creative professional roles within the film industry, or to teach at the college or university level.

Professors
Bernardi, Jackson, Kerner, Kovacs, Lau, McBride, Shimizu, Sjogren, Snider

Associate Professors
Choe, Gorzycki, Hammett, Hoxter, Ridgway, Rutsky, Zhang

Assistant Professors
Boswell, Dunye, Symons

Full-time Lecturers
Jakattis, Moss

Major

Minors

• Minor in Animation (p. 697)
• Minor in Cinema (p. 697)

Masters

• Master of Arts in Cinema Studies (p. 697)
• Master of Fine Arts in Cinema (p. 698)

Bachelor of Arts in Cinema

Admission

At the time of admission to the University, all students may elect to be Cinema majors. No special permission, application or portfolio is required. Before advancing to courses at the 300 level or higher, however, all majors must:

• Complete the core courses with a grade of C or higher (CINE 200, CINE 202, CINE 204, CINE 211, and CINE 212, or equivalent courses).
• Complete the lower division General Education requirements at SF State or the equivalent at another institution.
Description of the Program
The School of Cinema is committed to a program of cinema studies and production as a common enterprise. For this reason, the 200-level core courses and the 300-level foundation courses are necessary prerequisites to advanced work in the major. Graduation Writing Assessment Requirement (GWAR) courses in cinema are an exception; if the necessary prerequisites have been completed, GWAR courses may be taken concurrently with core or foundation courses, provided the student is an upper-division Cinema major. The School of Cinema enforces the completion of the core courses before enrollment in all other courses. Additional required courses may be taken once 200-level core courses are completed, provided the student is an upper-division cinema major.

Students should be aware that filmmaking is time-consuming and expensive. Although course requirements seldom demand it, students often spend considerable sums of money on their film projects. Production courses require hands-on practice and experience; this necessarily limits the number of students enrolled in such courses.

Advising Process
Consultation with an advisor is required upon completion of the core courses, at which time the student should obtain a Cinema Undergraduate Advising Form (Blue Sheet) for future use. Students are strongly encouraged to consult with an advisor on a regular basis as they advance through the program.

A list of School of Cinema advisors and a schedule of their availability can be found on the School website.

Students are also advised to consult with the University’s Advising Center or the ARC (Advising Resource Center for the College of Liberal & Creative Arts in Humanities Building, Room 112) for information about General Education and other University requirements.

Cinema B.A. – 45 units
Core Courses (13 units)
Students must complete core courses with a grade of C or better.

- CINE 200 Introduction to Cinema Studies (3)
- CINE 202 Introduction to Filmmaking (3)
- CINE 204 Introduction to Filmmaking Laboratory (1)
- CINE 211 Film History I (3)
- CINE 212 Film History II (3)

Foundation and GWAR Courses (7 units)
Upon satisfactory completion of core courses, Cinema majors should enroll in the foundation and GWAR courses. Other 300-level courses may be taken concurrently unless specific course prerequisites apply.

- CINE 340 Critical Studies (3)
- CINE 341 Critical Studies Discussion Group (1)

Select one GWAR course from the following:
- CINE 303GW Writing About Cinema - GWAR
- CINE 342GW Documentary Film - GWAR
- CINE 346GW The Art of Short Film - GWAR
- CINE 402GW Arab Cinema - GWAR
- CINE 410GW Art and Film - GWAR

Required Upper Division Courses (9 units)
Select nine units from the following:

- CINE 304 Gender and Film (3)
- CINE 305 Film and the Holocaust (3)
- CINE 306 Chinese Documentary Film (3)
- CINE 308 Third Cinema (3)
- CINE 331 Hollywood Representation of Race and Ethnicity (3)
- CINE 332 Understanding the Representation and Narration of Sexuality in Cinema (3)
- CINE 342 Documentary Film (3)
- CINE 344 Film Genre (3)
- CINE 346 The Art of Short Film (3)
- CINE 365 History of Animation (3)
- CINE 372 Film Theory (3)
- CINE 373 Film and Society (3)
- CINE 375 U.S. Culture and Cinema of the 1950s (3)
- CINE 401 National/Regional Cinemas (3)
- CINE 402 Arab Cinema (3)
- CINE 407 History and Film (3)
- CINE 409 Latina/o Cinema (3)
- CINE 410 Art and Film (3)
- CINE 441 Signs of Aliens: Semiotics of Film and Popular Culture (3)
- CINE 502 Experiments in Cinematic Form (3)
- CINE 508 Film Authorship (3)
- CINE 540 Issues in Film Theory (3)
- CINE 541 Race, Sex, and Identity Online (3)
- CINE 610 Senior Critical Studies Seminar (3)

Electives (16 units)
Elect additional cinema courses to complete the total of 45 units required for the major.

- With prior approval of advisor, up to 12 units of Cinema-related upper division courses outside the School may count toward the major.
- No more than seven units of advanced production units from the following courses may be taken in any one term unless special permission is granted by the instructor. Such permission cannot be given prior to the first day of class. CINE 430, CINE 442, CINE 454, CINE 456, CINE 466 CINE 468, CINE 510, CINE 512, CINE 515, CINE 520, CINE 522, CINE 523, CINE 524, CINE 525, CINE 526, CINE 529, CINE 530, CINE 542, CINE 551, CINE 556, CINE 568, CINE 620, CINE 622, CINE 623, CINE 630, CINE 640, CINE 654, CINE 656, CINE 651.
- If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
- With a faculty advisor’s approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to six of those units may be in screenwriting and/or filmmaking/video production.
- A maximum of 18 units of online course work may be counted toward the major.
- A maximum of 12 units of independent study/internship courses may be counted toward the major.
A maximum of 9 CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

**Complementary Studies**

Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. *(Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)*

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement.

Cinema majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Majors may, with the approval of a Cinema advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, a minor or a certificate, and courses in related disciplines. Related disciplines typically include: anthropology, art, business, creative writing, design, journalism, literature, music, philosophy, television, and theater. The School of Cinema allows up to 12 upper-division units from cinema-related disciplines to count toward the major. Where upper-division complementary studies courses are related to cinema, they may, with the approval of a School advisor, also be counted as cinema electives in fulfillment of major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

This Cinema - Fiction Filmmaking roadmap opens in a new tab. (p. 687)

This Cinema - Media and Culture roadmap opens in a new tab. (p. 690)

This Cinema - Screenwriting roadmap opens in a new tab. (p. 693)

**Transfer Student Roadmap (2 Year)**

For students with an AS-T in Film, Television and Electronic Media. This roadmap opens in a new tab. (p. 695)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Film, Television and Electronic Media

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major.
Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

</tr>
</tbody>
</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. May substitute CINE 365, History of Animation, for either CINE 211 Film History I, or CINE 212 Film History II.

3. **Complementary Studies**

   Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. *(Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)*

   Students who complete two majors or a major and a minor automatically complete the complementary studies requirement.

   Cinema majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Majors may, with the approval of a Cinema advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, a minor or a certificate, and courses in related disciplines. Related disciplines typically include: anthropology, art, business, creative writing, design, journalism, literature, music, philosophy, television, and theater. The School of Cinema allows up to 12 upper-division units from cinema-related disciplines to count toward the major. Where upper-division complementary studies courses are related to cinema, they may, with the approval of a School advisor, also be counted as cinema electives in fulfillment of major requirements.

   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. **GWAR Course – Select One**

   CINE 303GW Writing About Cinema - GWAR (3 units)
   CINE 342GW Documentary Film - GWAR (3 units)
   CINE 346GW The Art of Short Film - GWAR (3 units)
   CINE 402GW Arab Cinema - GWAR (3 units)
   CINE 410GW Art and Film - GWAR (3 units)

6. **Major Electives**

   Elect additional cinema courses to complete the total of 45 units required for the major:
   - With prior approval of advisor, up to 12 units of Cinema-related upper division courses outside the School may count toward the major.
   - No more than seven units of advanced production units from the following courses may be taken in any one term unless special permission is granted by the instructor. Such permission cannot be given prior to the first day of class: CINE 430, CINE 442, CINE 454, CINE 455, CINE 466 CINE 468, CINE 510, CINE 512, CINE 515, CINE 520, CINE 522, CINE 523, CINE 524, CINE 525, CINE 526, CINE 529, CINE 530, CINE 542, CINE 551, CINE 556, CINE 568, CINE 620, CINE 622, CINE 623, CINE 630, CINE 640, CINE 654, CINE 655, CINE 651.
   - If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
   - With a faculty advisor’s approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to six of those units may be in screenwriting and/or filmmaking/video production.
   - A maximum of 18 units of online course work may be counted toward the major.
   - A maximum of 12 units of independent study/internship courses may be counted toward the major.
   - A maximum of 9 CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

**Total Units**: 15

### Eighth Semester

| Major Electives (10 Units Total) – Take Two | 6     |
| Complementary Studies or SF State Studies or University Elective – Take Three | 9     |

**Total Units**: 15

**Total Units**: 120-122

---

1. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.

3. May substitute CINE 365, History of Animation, for either CINE 211 Film History I, or CINE 212 Film History II.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3, if not already satisfied.

5. Select One:
   - CINE 303GW Writing About Cinema - GWAR (3 units)
   - CINE 342GW Documentary Film - GWAR (3 units)
   - CINE 346GW The Art of Short Film - GWAR (3 units)
   - CINE 402GW Arab Cinema - GWAR (3 units)
   - CINE 410GW Art and Film - GWAR (3 units)

6. Elect additional cinema courses to complete the total of 45 units required for the major:
   - With prior approval of advisor, up to 12 units of Cinema-related upper division courses outside the School may count toward the major.
   - No more than seven units of advanced production units from the following courses may be taken in any one term unless special permission is granted by the instructor. Such permission cannot be given prior to the first day of class. CINE 430, CINE 442, CINE 454, CINE 456, CINE 466 CINE 468, CINE 510, CINE 512, CINE 515, CINE 520, CINE 522, CINE 523, CINE 524, CINE 525, CINE 526, CINE 529, CINE 530, CINE 542, CINE 551, CINE 556, CINE 568, CINE 620, CINE 622, CINE 623, CINE 630, CINE 640, CINE 654, CINE 656, CINE 651.
   - If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
   - With a faculty advisor’s approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to six of those units may be in screenwriting and/or filmmaking/video production.
   - A maximum of 18 units of online course work may be counted toward the major.
   - A maximum of 12 units of independent study/internship courses may be counted toward the major.
   - A maximum of nine CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

7. CINE 468 Satisfies the Major Culminating Experience Requirement.

**Total Units:** 120-125

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.) Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Cinema majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Majors may, with the approval of a Cinema advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, a minor or a certificate, and courses in related disciplines. Related disciplines typically include: anthropology, art, business, creative writing, design, journalism, literature, music, philosophy, television and theater. The School of Cinema allows up to 12 upper-division units from cinema-related disciplines to count toward the major. Where upper-division complementary studies courses are related to cinema, they may, with the approval of a School advisor, also be counted as cinema electives in fulfillment of major requirements. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. Electives

   - To take upper division cinema production courses, students must have completed CINE 310 and CINE 316 and have upper division standing.
   - With prior approval of advisor, up to 12 units of Cinema-related upper division courses outside the School may count toward the major.
   - No more than seven units of advanced production units from the following courses may be taken in any one term, unless special permission is granted by the instructor. Such permission cannot be given prior to the first day of class: CINE 430, CINE 442, CINE 454, CINE 456, CINE 466, CINE 468, CINE 510, CINE 512, CINE 515, CINE 520, CINE 522, CINE 523, CINE 524, CINE 525, CINE 526, CINE 529, CINE 530, CINE 542, CINE 544, CINE 551, CINE 556, CINE 568, CINE 620, CINE 622, CINE 623, CINE 630, CINE 640, CINE 654, CINE 656, CINE 658.
   - If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
   - With a faculty advisor’s approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to six of those units may be in screenwriting and/or filmmaking/video production.
   - A maximum of 18 units of online course work may be counted toward the major.
   - A maximum of 12 units of independent study/internship courses may be counted toward the major.
   - A maximum of nine CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

5. CINE 630 Satisfies the Major Culminating Experience Requirement.

#### Total Units: 15-16

---

1. To avoid taking additional units, it is recommended that you meet LL! and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major.

   (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

   Students who complete two majors or a major and a minor automatically complete the complementary studies requirement.

   Cinema majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Majors may, with the approval of a Cinema advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, or a minor or a certificate, and courses in related disciplines. Related disciplines typically include: anthropology, art, business, creative writing, design, journalism, literature, music, philosophy, television and theater. The School of Cinema allows up to 12 upper-division units from cinema-related disciplines to count toward the major. Where upper-division complementary studies courses are related to cinema, they may, with the approval of a School advisor, also be counted as cinema electives in fulfillment of major requirements.

   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. CINE 303GW Writing About Cinema - GWAR (3 units)
   CINE 342GW Documentary Film - GWAR (3 units)
   CINE 346GW The Art of Short Film - GWAR (3 units)
   CINE 402GW Arab Cinema - GWAR (3 units)
   CINE 410GW Art and Film - GWAR (3 units)

6. **Major Emphasis Electives**

   CINE 423 Introduction to Digital Filmmaking (3 units)
   CINE 442 Producing and Finishing Films I (3 units)
   CINE 510 Directing Visual Style (3 units)
   CINE 512 Sound Production for Cinema (3 units)
   CINE 515 Directing Actors (3 units)
   CINE 519 Soundstage Workshop (1 unit)
   CINE 520 Sound Post-Production for Cinema (3 units)
   CINE 522 Projects in Film Editing (3 units)
   CINE 523 Exploration in Interactive Cinema (3 units)
   CINE 524 Exploring Sound Design for Cinema (3 units)
   CINE 525 Cinematography and Lighting (3 units)
   CINE 530 Digital Cinematography (3 units)
   CINE 542 Producing and Finishing Films II (3 units)
   CINE 620 Advanced Fiction Filmmaking I (3 units)
   CINE 622 Advanced Fiction Filmmaking II (3 units)
   CINE 623 Exploration in Cinema as an On-Line Medium (3 units)
   CINE 624 Advanced Production Crafts (1 unit)
   CINE 654 Writing and Performing in Film and Theatre (3 units)
Electives

- With prior approval of advisor, up to 12 units of Cinema-related upper division courses outside the School may count toward the major.
- No more than seven units of advanced production units from the following courses may be taken in any one term, unless special permission is granted by the instructor. Such permission cannot be given prior to the first day of class. CINE 430, CINE 442, CINE 454, CINE 456, CINE 466, CINE 468, CINE 510, CINE 512, CINE 515, CINE 520, CINE 522, CINE 523, CINE 524, CINE 525, CINE 526, CINE 529, CINE 530, CINE 542, CINE 551, CINE 556, CINE 568, CINE 620, CINE 622, CINE 623, CINE 630, CINE 640, CINE 654, CINE 656, CINE 651.
- If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
- With a faculty advisor's approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to six of those units may be in screenwriting and/or filmmaking/video production.
- A maximum of 18 units of online course work may be counted toward the major.
- A maximum of 12 units of independent study/internship courses may be counted toward the major.
- A maximum of nine CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

CINE 620 satisfies the Major Culminating Experience Requirement.

</tbody>
</table>

To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE.

ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3 **Complimentary Studies**

Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major.

(Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement.

Cinema majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Majors may, with the approval of a Cinema advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, a minor or a certificate, and courses in related disciplines. Related disciplines typically include: anthropology, art, business, creative writing, design, journalism, literature, music, philosophy, television and theater. The School of Cinema allows up to 12 upper-division units from cinema-related disciplines to count toward the major. Where upper-division complementary studies courses are related to cinema, they may, with the approval of a School advisor, also be counted as cinema electives in fulfillment of major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4 **Course Descriptions:**

- **CINE 303GW Writing About Cinema - GWAR (3 units)**
- **CINE 342GW Documentary Film - GWAR (3 units)**
- **CINE 346GW The Art of Short Film - GWAR (3 units)**
- **CINE 402GY Arab Cinema - GWAR (3 units)**
- **CINE 410GY Art and Film - GWAR (3 units)**

5 **Major Emphasis Electives (at least one of which must be taken at the 400/500 level, prior to taking CINE 610):**

- **CINE 304 Gender and Film (3 units)**
- **CINE 305 Film and the Holocaust (3 units)**
- **CINE 306 Chinese Documentary Film (3 units)**
- **CINE 308 Third Cinema (3 units)**
- **CINE 351 Hollywood Representation of Race and Ethnicity (3 units)**
- **CINE 352 Understanding the Representation and Narration of Sexuality in Cinema (3 units)**
- **CINE 342 Documentary Film (3 units)**
- **CINE 344 Film Genre (3 units)**
- **CINE 346 The Art of Short Film (3 units)**
- **CINE 365 History of Animation (3 units)**
- **CINE 372 Film Theory (3 units)**
- **CINE 373 Film and Society (3 units)**
- **CINE 375 U.S. Culture and Cinema of the 1950s (3 units)**
- **CINE 401 National/Regional Cinemas (3 units)**
- **CINE 402 Arab Cinema (3 units)**
- **CINE 407 History and Film (3 units)**
- **CINE 409 Latina/o Cinema (3 units)**
- **CINE 410 Art and Film (3 units)**
- **CINE 441 Signs of Aliens: Semiotics of Film and Popular Culture (3 units)**
- **CINE 502 Experiments in Cinematic Form (3 units)**
- **CINE 508 Film Authorship (3 units)**
- **CINE 540 Issues in Film Theory (3 units)**
- **CINE 541 Race, Sex, and Identity Online (3 units)**
Major Electives

• With prior approval of advisor, up to 12 units of Cinema-related upper division courses outside the School may count toward the major.
• No more than seven units of advanced production units from the following courses may be taken in any one term, unless special permission is granted by the instructor. Such permission cannot be given prior to the first day of class. CINE 430, CINE 442, CINE 454, CINE 456, CINE 466, CINE 468, CINE 510, CINE 512, CINE 515, CINE 520, CINE 522, CINE 523, CINE 524, CINE 525, CINE 526, CINE 529, CINE 530, CINE 542, CINE 551, CINE 556, CINE 568, CINE 620, CINE 622, CINE 623, CINE 630, CINE 640, CINE 654, CINE 656, CINE 651.
• If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
• With a faculty advisor's approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to 6 of those units may be in screenwriting and/or filmmaking/video production.
• A maximum of 18 units of online course work may be counted toward the major.
• A maximum of 12 units of independent study/internship courses may be counted toward the major.
• A maximum of nine CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

CINE 375 and CINE 409 satisfy major elective and UD-C requirements.

CINE 610 satisfies the Major Culminating Experience Requirement.

   - If the minimum residence requirement of 12 units in the major is satisfied, credit for upper-division courses in the major from another four-year university is possible if syllabi are comparable.
   - With a faculty advisor’s approval no more than 13 units from a community college may be applied to the core courses in the Cinema major. Up to six of those units may be in screenwriting and/or filmmaking/video production.
   - A maximum of 18 units of online course work may be counted toward the major.
   - A maximum of 12 units of independent study/internship courses may be counted toward the major.
   - A maximum of nine CR/NC units may be counted toward the major, which may include up to a maximum of four units of different CINE 325, CINE 326, or CINE 650 courses.

7. CINE 656 satisfies the Major Culminating Experience Requirement.
Bachelor of Arts in Cinema – FTVE Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Film, Television and Electronic Media. Up to 13 lower division units in the major and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. If equivalent courses completed for ADT, CINE 200, CINE 202/CINE 204, CINE 211, and/or CINE 212 are satisfied. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

1   CINE 204 is waived for students who have completed [CID] FTVE 150.
2   If ENG 214 or equivalent is not completed before transfer, take CINE GWAR course in the second semester and take CINE 212 in first semester, if needed. Progress in the major and length of time for degree completion may be affected if second year composition is not completed before transfer.
3   CINE 310 is a prerequisite for all film production courses. CINE 200-CINE 202-CINE 204-CINE 211-CINE 212 must be completed in order to be eligible to enroll in CINE 310.
4   CINE 375 satisfies GE Area UD–C: Upper Division Arts and/or Humanities.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:
University-Wide Requirements: 9–18 Units
- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper Division GE, areas B, C and D (9 units): Some Major Electives also satisfy UD-C. See notes.
- Students entering the major with the AS-T in FTVE are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

Cinema Major: 32–45 Units
- Core/Foundation/GWAR (7–20 units): Depends upon course choices made at the community college. Minimum grade of C required for all Core courses.
- Required Upper Division Courses (9 units): Select three courses from this category; consult Bulletin.
- Electives (16 units)

University Electives: Zero Units or More
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.
Minor in Animation

Animation is a rigorous, cross-disciplinary production program encouraging creative storytelling, social issue documentary and artistic experimentation. Using techniques like drawing, stop-motion, 2D/3D digital, mixed media and effects animation, students apply research from their respective majors to short animated projects. Students gain a strong foundation in animation principles and methods applicable to creative, industrial and scientific fields. Admission to the minor is open to all students with upper division standing. Enrollment is limited and requires a portfolio review. Positive portfolio review admits students to CINE 360, which is offered in the Fall semester only. Enrollment in subsequent classes for the Minor requires a grade of C- or better in the required animation courses.

Animation Portfolio Review

Students must meet with an animation advisor to be admitted into the Minor. In addition to their portfolio, students must bring an unofficial transcript and Degree Progress Report (DPR) to confirm upper division standing. Current portfolio guidelines and Animation advisor office hours are listed on the School of Cinema website: http://www.cinema.sfsu.edu/people/faculty

Portfolio Guidelines

It is highly recommended that students take a beginning drawing and a life drawing class before the review. Portfolios should include students’ strongest work and be limited to 20 pages assembled in one book.

- Four to six pages of life drawings done from live subjects (not from photographic references).
- Four to six pages of rough and gesture style sketches of animals and humans in motion (not from photographic or cartoon references).
- Two to four pages of color and design work that may include drawing, painting, photography, 2D and or 3D design.
- Two pages of recent personal work in any media.
- Optional: up to two animation or film samples on a DVD or portable drive (MAC compatible).

Minor in Cinema

This program does not lead to a credential or degree, but is intended to give students an opportunity to further their interests in cinema in an organized manner. Note: Cinema majors are given enrollment priority in Cinema production classes, hence Cinema minors are not likely to be able to take Cinema production classes.

Cinema Minor — minimum 20 units

Required Courses (9 units)

CINE 212  Film History II  3

Electives

All elective units must be upper division. Only Cinema majors are permitted to enroll in CINE 310 and advanced production courses.

Master of Arts in Cinema Studies

Admission to the Program

The School of Cinema accepts new M.A. students for the fall semester only.

The graduate admission application to San Francisco State University is a two-part process. Part One is the university application, which should be submitted through CSU Mentor and which is administered by the Division of Graduate Studies. Part Two is the academic department application, details of which can be found on the Master of Arts page (https://cinema.sfsu.edu/content/master-arts) of the School of Cinema website. You must submit Part One and Part Two of your graduate admission application simultaneously by the deadline to be considered for admission. Applicants may only apply to a single graduate program per application term.

Part One:

1. Apply online through CSU Mentor for a Graduate Program (http://www.csumentor.edu/AdmissionApp/grad_apply.asp). The Office of Graduate Admissions no longer accepts paper applications to graduate programs.
2. Pay the 55.00 USD application fee. We recommend that you pay online by credit card at the moment you submit your application. If you selected the option to pay the application fee by check or money order, make the check payable to “San Francisco State University.”
3. Send all required documents noted on your online SF Gateway Portal “To Do List” to the Division of Graduate Studies:

   Graduate Admissions
   San Francisco State University
   1600 Holloway Ave., ADM 250
   San Francisco, CA 94132

Part Two:

Apply to the School of Cinema’s M.A. in Cinema Studies Program. The application link/form can be found on the Master of Arts page (http://www.cinema.sfsu.edu/content/master-arts) of the School of Cinema website.

Applicants must have a GPA of 3.0 or better in the last two years of undergraduate study. Applicants with degrees in areas other than film or media who show exceptional potential will be considered for admission to the program if they have completed at least three courses in cinema or media history and theory.

The admission materials specifically requested by the School of Cinema include:

- A one to two-page Résumé or Curriculum Vitae summarizing the applicant’s education, awards or recognition, work experience, languages, and special skills.
- A Background and Research Interests Statement (two single-spaced pages maximum). Applicants should describe how their past academic work has prepared them for graduate work. Non-film/
media majors should describe an aspect of work done in their major area, and discuss how they plan to develop these (or other) research interests as a graduate student in the MA in Cinema Studies program.

- An example of academic writing (6–12 pages) that illustrates the applicant’s ability to make and support a thesis as well as familiarity with scholarly form and expository style. Papers from the film and media disciplines are preferred, but other academic work is acceptable.
- At least two letters of recommendation from individuals who can attest to the applicant’s scholarship and potential for success in a graduate program. (Note: the School does not provide an official recommendation form.)
- Unofficial transcripts.
- The GRE is NOT required.

All prospective M.A. students may contact the School’s graduate office about specific questions. Write:

Graduate Committee
School of Cinema
San Francisco State University
1600 Holloway Avenue
San Francisco, CA 94132
Email: cinegrad@sfsu.edu.

Additional information and application forms are available on the Graduate Program pages (http://www.cinema.sfsu.edu/content/graduate-program) of the School of Cinema website.

Written English Proficiency Requirement
Level One
First level proficiency is assessed by means of written work completed in CINE 700 for an overall grade of B or better.

Level Two
Second level proficiency is assessed by means of the thesis proposal.

Advancement to Candidacy
Prior to admission, M.A. candidates should have successfully completed three undergraduate film studies courses beyond the introductory level. Deficiencies will be identified on admission to the program and should be completed as soon as possible. All deficiencies must be satisfied prior to advancement to candidacy.

Required Courses for M.A. in Cinema Studies
All students must complete at least 30 units. Upper division courses not used to satisfy graduate admission deficiencies are acceptable as electives on approval by a graduate advisor.

Cinema Studies (M.A.) – 30 units

Not all courses will be offered each semester; please check the Cinema website cinema.sfsu.edu (http://cinema.sfsu.edu) for schedule information for the relevant semester.

Master of Fine Arts in Cinema

The 60 unit M.F.A. program is divided into three distinct parts and is designed to be completed in three years. During the first year, students build a foundation through the study of technical crafts, aesthetics, and theory, develop their creative process, and begin to integrate conceptual frameworks into their creative work. This work culminates with the completion of an individual film project.

In the second year, this foundation is broadened through advanced courses that lead to the production of short film projects demonstrating original thinking, conceptual clarity, technical skill, and the refinement of a personal aesthetic. Second-year work also is geared to prepare each student to successfully complete the thesis proposal.

In the third part of the program, students complete a thesis that is a culmination of previous work and a reflection of the development of the student’s creative voice. M.F.A. students are also required to gain teaching experience as graduate assistants and may subsequently apply for appointments as teaching associates in the School of Cinema.

Admission to the Program

The School of Cinema accepts new M.F.A. students for the fall term only.

Application for admission requires two distinct processes:

The graduate admission application to San Francisco State is a two-part process. Part One is the university application, which should be submitted through CSU Mentor and which is administered by the Division of Graduate Studies. Part Two is the academic department application, details of which can be found on the Masters of Fine Arts page on the School of Cinema website. You must submit Part One and Part Two of your graduate admission application simultaneously by the deadline to be considered for admission. Applicants may only apply to a single graduate program per application term.

Part One:
1. Apply online through CSU Mentor for a Graduate Program (http://www.csumentor.edu/AdmissionApp/grad_apply.asp). The Office of Graduate Admissions no longer accepts paper applications to graduate programs.
2. Pay the $55.00 USD application fee. We recommend that you pay online by credit card at the moment you submit your application. If you selected the option to pay the application fee by check or money order, make the check payable to “San Francisco State University.”

3. Send all required documents noted on your online SF Gateway Portal “To Do List” to the Division of Graduate Studies:

   Graduate Admissions  
   San Francisco State University  
   1600 Holloway Ave., ADM 250  
   San Francisco, CA 94132

Part Two:
Apply to the School of Cinema’s M.F.A. Program. The application link/form can be found on the Masters of Fine Arts page of the School of Cinema website.

Applicants must have a GPA of 3.0 or better in the last two years of undergraduate study. Applicants with degrees in areas other than film who show exceptional potential will be considered for admission to the program.

Prior to admission, all candidates must have completed two courses in cinema studies beyond the introductory level. One of these courses must be in critical theory, stressing critical approach or methodology; the other must be in cinema history. One introductory course in film production and a basic course in non-linear digital editing, or equivalent experience, are also required. Students will be expected to be familiar with Adobe’s Premiere Pro for initial course work.

The application materials specifically requested by the School of Cinema include:

- A one to two-page Résumé or Curriculum Vitae summarizing the applicant’s education, awards or recognition, work experience, travel, languages, and special skills.

- A Personal Statement (three pages maximum) discussing aesthetic influences, creative interests, and professional objectives as a filmmaker, including comments on: the areas of film on which the applicant would like to concentrate, how theory informs his/her work as a filmmaker, and the goals he/she intends to pursue upon completion of the M.F.A.

- An example of academic writing (7 to 12 pages) that illustrates the applicant’s ability to make and support a thesis as well as demonstrating familiarity with scholarly form and expository style. Papers from the film and media disciplines are preferred, but other academic work is acceptable. No journalistic “review” essays or scripts are accepted as supplementary materials.

- An example of moving image work is required. In addition to film/video work, examples of other creative work, such as photographs, paintings, or creative writing are also accepted.

- At least two letters of recommendation from individuals who can attest to the applicant’s creativity and aptitude for graduate work as well as to the quality of past work and potential for future achievement. At least one letter from a former professor is recommended. (Note: the School does not provide an official recommendation form.)

- Unofficial transcripts.

- The GRE is NOT required.

For further information about the M.F.A., School of Cinema procedures and activities, production costs, and other advising matters, write:

Graduate Assistant  
School of Cinema  
San Francisco State University  
1600 Holloway Avenue  
San Francisco CA 94132  
Email: cinegrad@sfsu.edu

Additional information about submitting application materials is available on the Cinema Department website: www.cinema.sfsu.edu. (http://www.cinema.sfsu.edu)

Completion of the Degree
In addition to successful completion of the course of study, each student must meet School requirements that include a formal script review at the end of the first semester, a formal progress review at the end of the first year, a formal presentation and faculty evaluation of the creative work project proposal at the end of the second year (upon which advancement to candidacy is contingent) and a documented public screening of the student’s creative thesis project.

Under certain circumstances, up to 24 units of graduate credit from an M.A. program in film production may be applied toward the M.F.A. Before any such request is considered, all admission requirements must be met and all previous course work must be reviewed and approved by the Cinema graduate committee and the Dean of Graduate Studies.

Enrollment in an upper division or graduate-level cinema course must be continuous until graduation. Registration may be in a regular university course, summer session course, or College of Extended Learning’s LCA 499, which satisfies the University’s continuous enrollment requirement for graduate students.

Written English Proficiency Requirement
Level One
First level proficiency is assessed by means of written work completed in the critical theory course taken in the first semester in the M.F.A. program. This course must be completed with an overall grade of B or better.

Level Two
Second level proficiency is assessed by means of the creative work proposal normally prepared in CINE 770.

Advancement to Candidacy
Students must meet all general University requirements for advancement to candidacy, and receive a B or better in all required courses for the M.F.A. degree, as well as successfully pass all formal reviews (first-year script review, first-year progress review, thesis proposal review, and thesis committee review).

Required Courses
All M.F.A. students must complete 42 units of required classes and 18 units of electives. First and second-year required courses must be taken in sequence. Advancement to the second and third year of the program is contingent on faculty review and approval by the M.F.A. Coordinator.

**Elective Units (18 units)**
Elective units chosen upon consultation with the graduate advisor from upper division production courses (up to 6 units), animation courses, graduate film studies seminars, and approved courses from related disciplines. May be taken in any year.

**M.F.A. Critical Theory Requirements**
M.F.A. students must take a total of four critical theory graduate-level courses, according to the following guidelines:

- Students must complete three critical theory courses in the first two years.
- Students must take CINE 726 during the spring semester of their second year.

Not all courses will be offered each semester; please check the class schedule information for the relevant semester for availability.
CLASSICS

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Classics
Humanities Building, Room 377
Phone: (415) 338–2068
Email: clas@sfsu.edu

Chair: David D. Leitão
Undergraduate Advisors: M. Anderson, D. Leitão, G. McIntosh, A. Pappas, D.G. Smith
Graduate Coordinator: Gillian McIntosh

Mission Statement
Classics at SF State is an interdisciplinary program that combines intensive training in Greek and Latin language and literature and the material culture of the ancient Mediterranean.

Program Scope
Undergraduate Program
The Bachelor of Arts in Classics is an interdisciplinary program that provides students with the means to explore the ancient cultures of the Mediterranean and Near East, including Egypt. The study of ancient languages, literature (in the original languages and in translation), and art and archaeology enables students to reconstruct ancient cultures and to examine critically the importance, which they continue to have in the world of today. Students also learn the methods of archaeological, art historical, and philological approaches to the past.

Graduate Program
The Master of Arts in Classics introduces students to advanced methodologies used in the study of the ancient languages, the interpretation of ancient texts, and the analysis of material culture. All graduate students must fulfill the same basic program requirements (http://bulletin.sfsu.edu/colleges/liberal-creative-arts/classics/ma-classics/#degreerequirementstext), but will, with the help of an advisor, tailor their coursework and schedule of exams in accordance with their career plans.

Latin Teaching Credential
The department offers a Certification of Single Subject Matter Preparation in Latin, recognized by the State of California, for students interested in teaching Latin in California public middle and high schools.

Career Outlook
The undergraduate degree in classics is designed for students who wish to gain an interdisciplinary and broad liberal arts education. Students will find training in classics valuable in professional programs (in law or medicine, for example) that increasingly emphasize the importance of the humanities. The undergraduate degree also provides a sound foundation for students who wish to continue work in classics at the graduate level.

The graduate degree is of particular value for students who intend to pursue a doctoral degree in classics or who plan to teach at the high school or community college levels. Students with goals in other academic areas, including museum studies, history, philosophy, theology, modern languages, or comparative literature, can also benefit from a master’s degree in classics.

Professors
Leitão, Smith

Associate Professors
Anderson, McIntosh, Pappas

Major
• Bachelor of Arts in Classics (p. 701)

Minor
• Minor in Classics (p. 706)

Masters
• Master of Arts in Classics (p. 706)

Bachelor of Arts in Classics
All classics majors are expected to take 18 units of core courses and 18 units of electives, as specified in the Degree Requirements (http://bulletin.sfsu.edu/colleges/liberal-creative-arts/classics/ba-classics/
#degreerequirementstext).

Advising
To ensure adequate planning of a student’s program, all majors must consult an advisor regularly throughout their undergraduate years.

Bachelor of Arts in Classics — 36 Units

Discovery (6 Units)
Select two lower division courses from CLAR, CLAS, GRE, and LATN prefixes.

Survey (9 Units)
Select three courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLAS 410/</td>
<td>Ancient Greek Literature</td>
<td>3</td>
</tr>
<tr>
<td>HUM 401</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CLAS 415/</td>
<td>Ancient Roman Literature</td>
<td>3</td>
</tr>
<tr>
<td>HUM 402</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CLAR 420/</td>
<td>Greek Art and Archaeology</td>
<td>3</td>
</tr>
<tr>
<td>ART 401</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CLAR 425/</td>
<td>Roman Art and Archaeology</td>
<td>3</td>
</tr>
<tr>
<td>ART 402</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Synthesis (3 Units)
Select three courses from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLAS 400GW</td>
<td>Approaches to the Classics - GWAR</td>
<td>3</td>
</tr>
<tr>
<td>or a GWAR course in another department upon advisement.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Electives (18 Units)
Select six elective courses, upon advisement, from CLAS, CLAR, GRE, and LATN prefixes, at least two of which must be upper division. With the permission of an advisor, three electives can be taken in another department.
**Culminating Experience**

All undergraduate students will complete a culminating experience project with one of the following components:

- A demonstration of oral and written skills in Latin and/or Greek. This demonstration has three parts: oral declamation of a prose passage; written transcription of a prose passage dictated by a test administrator; and oral declamation of passage of poetry (scansion) in dactylic hexameter.
- A comprehensive reflective statement focused on the role that receiving a Classical education at SF State has and will play in the student’s life.
- A display of the student’s best projects from their Classics coursework (e.g. term papers, translations, archaeological reconstructions).

These components may be fulfilled through in-person meetings with a Classics undergraduate advisor, but students wishing to develop and display information competency are encouraged to complete these components in electronic form (website, etc.).

**Complementary Studies**

Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete the CS requirements for students in the classics major is to complete 12 units in Greek (GRE) or Latin (LATN) or some combination.

**General Education Requirements**

Note: LD = Lower Division; UD = Upper Division.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).
Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AIEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

GE Area UD-C: Upper Division Arts and/or Humanities (Consider SF State Studies Course) 3
Complementary Studies or SF State Studies or University Elective – Take Two 3

Units 15

Eighth Semester
Electives (18 units) – Take Two 4 6
Complementary Studies or SF State Studies or University Elective – Take Three 3

Units 15
Total Units 120-121

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3 Complementary Studies
Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)
Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete the CS requirements for students in the classics major is to complete 12 units in Greek (GRE (p. 1578)) or Latin (LATN (p. 1651)) or some combination.
4 Electives (18 Units)
Select six elective courses, upon advisement, from CLAS (p. 1452), CLAR (p. 1450), GRE (p. 1578), and LATN (p. 1651) prefixes, at least two of which must be upper division. With the permission of an advisor, three electives can be taken in another department.
Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Or a GWAR course in another department upon advisement.
5 Survey (9 units)
CLAS 410 Ancient Greek Literature (3 units)
CLAS 415 Ancient Roman Literature (3 units)
CLAR 420 Greek Art and Archaeology (3 units)
CLAR 425 Roman Art and Archaeology (3 units)
6 Culminating Experience
All undergraduate students will complete a culminating experience project with one of the following components:
• A demonstration of oral and written skills in Latin and/or Greek. This demonstration has three parts: oral declamation of a prose passage; written transcription of a prose passage dictated by a text administrator; and oral declamation of passage of poetry (scansion) in dactylic hexameter.
• A comprehensive reflective statement focused on the role that receiving a Classical education at SF State has and will play in the student’s life.
• A display of the student’s best projects from their Classics coursework (e.g. term papers, translations, archaeological reconstructions).

These components may be fulfilled through in-person meetings with a Classics undergraduate advisor, but students wishing to develop and display information competency are encouraged to complete these components in electronic form (website, etc.).

Master of Arts in Classics

Admission to the Program
The ideal applicant to the Master of Arts in Classics program is someone with

1. an undergraduate major in classics (or equivalent learning experience); and
2. sufficient proficiency in both Latin and Greek to take graduate seminars in those languages.

The Graduate Division also requires that applicants have a minimum 3.0 undergraduate GPA. The department does admit students who have less than the ideal preparation described above; in those cases, the applicant is admitted conditionally (subject to meeting certain conditions for progress through the program).

Applicants must take the GRE, complete the online application to the graduate program, and submit directly to the department a two to three-page statement of purpose, an eight to ten-page writing sample, and one letter of recommendation (sent directly by the recommender).

Written English Proficiency Requirement
Level One
Satisfied by the writing sample submitted as part of the application process.

Level Two
Satisfied by the culminating experience project (either the literature survey that accompanies the oral exam [CLAS 896/CLAS 896EXM] or the thesis [CLAS 898]).

Classics (M.A.) — Minimum 30 Units

Core Requirements (18 Units)

<td>Seminar in Classical Languages and Literature (variable topic)</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one course in the range of CLAR 800 - CLAR 890 Seminars in Classical Archaeology—Cultures and Civilizations

Choose one additional course from either CLAR 720 or CLAR 800 – CLAR 890

Select two graduate courses in ancient literature (courses with GRE and/or LATN prefixes)

Electives (9 Units)
Three electives, one of which may be from outside the department. All electives taken within the department (CLAS, CLAR, GRE, LATN) must be graduate level. Any course taken outside of the department must be approved by an advisor; such a course may be upper division.

Culminating Experience (3 Units)
Select one of the following:

<table>
<thead>
<tr>

<tr>
<td>CLAS 898</td>
<td>Master's Thesis (and Prospectus)</td>
<td></td>
</tr>
</tbody>
</table>

Comprehensive Oral Examination
Upon completion of course work, the student not writing a thesis must pass a comprehensive oral examination administered by a committee of at least two faculty members on a specified group of works in the student's area of emphasis.

Master’s Thesis and Prospectus
A written and oral presentation of the thesis prospectus is required before the writing of the thesis. The student’s committee of at least two faculty members must approve the prospectus before the student files the Proposal for Culminating Experience Requirement form with the Graduate Division.

Written M.A. Examinations
Upon completion of course work, students must pass two of the following exams:

- Greek Translation
- Latin Translation
- Classical Archaeology

Modern Language Requirement
Students must demonstrate proficiency in at least one modern language (French, German, or Italian) by passing a two-hour translation examination (with dictionary), set by the department, or by obtaining a minimum grade of B in one upper division foreign language course or course for reading knowledge taken at SF State or elsewhere. This requirement must be satisfied by the end of the student’s third semester in the program.
COMMUNICATION STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

Communication Studies Department
Humanities Building, Room 289
Phone: (415) 338-1597
Email: comm@sfsu.edu
Chair: Christina M. Sabee

Program Scope
Mission of the Department
We are committed to the study of human communication in various contexts from multiple and interconnected perspectives that contribute to a more humane world. Through communication, humans form identities, connect with one another, examine values, enact cultures, and work collectively.

The department examines how people express themselves verbally and nonverbally; how identities are created, performed, and changed; how people listen to others; and how symbols relate to human behavior. It acknowledges, appreciates, and integrates human diversity in its various forms. It studies human communication in culturally and socially diverse contexts. It does so by using a variety of methods and technologies to discover and share knowledge about communication and to analyze, interpret, and perform discourse. Areas of study include language and social interaction, group processes, organizational communication, interpersonal and intercultural communication, rhetoric and political communication, public speaking, performance studies, and research methodologies.

Communication Studies students develop skills essential for leadership and career development, and for understanding and interpreting events. They learn to advocate and critically debate ideas in social and political settings, appreciate diverse communication styles, work productively in task-oriented groups, and engage in rewarding interpersonal relationships.

The department works to express what it perceives, feels, and believes, encouraging students to do the same so that all may engage openly in genuine dialogue. It also encourages the practice of hearing and honoring a variety of voices and celebrating creative and humane approaches to solving complex human problems in our local and global communities.

Application Filing Periods
Applications for admission are accepted during the application filing period for the fall and spring semesters.

Transfer applicants from other colleges must submit an application via CSU Mentor at http://www.csumentor.edu.

Continuing SF State students must submit their change of major form directly to the Department of Communication Studies. Change of major forms, accompanied with unofficial transcripts, will be accepted between August 1 and October 1 for spring, and between January 1 and March 1 for fall.

Advising
Students work with advisors to create their academic program, and the department hosts open advising hours for students throughout the semester. Students must consult with an advisor at the start of the program. Every undergraduate student’s application for graduation must be signed by an advisor who has worked with that student and has approved the major program.

Special Programs
See advisors before selecting these programs.

Forensics
A competitive intercollegiate program in policy debate and individual speaking events such as performance of literature, extemporaneous, and persuasive speaking. Director: Teddy Albinak

English Language Arts
Students who wish to teach at the secondary level (grades 7–12) may prepare for the Secondary Credential Program with a subject matter program in English Language Arts. A program that combines communication studies and English courses is available. Advisors: Morris, English Department.

Career Outlook
Graduates in communication studies have an excellent track record entering their chosen career fields and attending graduate and professional schools. Our graduates have secured positions as public relations managers, human resources trainers, employment recruiting specialists, marketing representatives, civil rights activists, campaign managers, and sales representatives, among others. Advisors can assist students in planning programs of study that are attractive to graduate schools and prospective employers.

The department’s internship program has helped many students begin their careers. The program offers over 200 internship and service learning opportunities. Students are encouraged to seek advising from the department’s internship director: Paloma Mathern.

Major
• Bachelor of Arts in Communication Studies (p. 708)

Minor
• Minor in Communication Studies (p. 717)

Masters
• Master of Arts in Communication Studies (p. 717)
Bachelor of Arts in Communication Studies

Requirements for the Major

Students pursuing a Bachelor of Arts in Communication Studies must complete a 40-unit program consisting of 6-units of lower division courses at the 100 or 200-level or equivalent courses from a transfer institution, one 4-unit GWAR course, 8 upper division units in Rhetorical and Performative Communication, 8 upper division units in Social Context and Interaction in Communication, 8 elective units in Communication Studies with a COMM prefix, 4-units in Communication Inquiry, and a 2-unit Senior Seminar in Communication Studies, taken in the last semester.

Students must successfully complete a GWAR (Graduation Writing Assessment Requirement) class in order to enroll in upper-division Communication Studies courses.

With advisor approval, up to 8 units of lower division transfer courses may be counted toward the major. A maximum of 8 units may be counted toward electives within the major, from any combination of Projects Teaching Communication (COMM 685), Internship (COMM 695), and/or Independent Study (COMM 699). None of these three courses, COMM 685, COMM 695, COMM 699 can be repeated for credit in the major. Any course that is used to fulfill the GE Areas A and B4 requirements (formerly GE Segment I) cannot be counted within the major; however, COMM 150 and ENG 214, or equivalent courses, must be completed as prerequisites to enrollment in any upper-division course in the Communication Studies major.

Electives (8 units)

Students may select any 8 units of upper-division COMM courses if their corresponding. Students may only apply up to 4 units for each course in the major though some courses are repeatable for credit toward
University electives. Note: All upper-division COMM courses may be used as electives if their corresponding area above is met with other courses.

COMM 368 Forensics 2
COMM 685 Projects in the Teaching of Communication 1-4
COMM 695 Internship/Service Learning in Communication Studies 4
COMM 699 Independent Study 1-4

**Senior Seminar (2 units)**
COMM 670 Seminar in Communication Studies 2

**Complementary Studies**
Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the communication studies major is completion of 12 units from one of the following:

- Partial completion of a second major, minor, or certificate in courses other than COMM, and not cross-listed with COMM.
- A single language other than English.
- A CSU or SF State supported study abroad program. (With advisor approval, some or all of the units taken as part of study abroad may be counted toward units in the major.)
- In one subject (prefix) other than COMM and not cross-listed with COMM.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

**General Education Requirements**

Note: LD = Lower Division; UD = Upper Division.

**First Time Student Roadmap (4 Year)**
This roadmap opens in a new tab. (p. 712)

**Transfer Student Roadmap (2 Year)**
For students with an AA-T in Communication Studies. This roadmap opens in a new tab. (p. 715)

**This degree program is an approved pathway ("similar" major) for students earning the ADT in Communication Studies**

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if
minimum eligibility requirements are met, though not necessarily to the
CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation
at SF State, students are guaranteed B.A. or B.S. completion in 60 units
if pursuing a "similar" major after transfer. Determinations about "similar"
majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student
simultaneously pursues an additional major, a minor, certificate, or
credential.

A sample advising roadmap for students who have earned an ADT and
continue in a "similar" major at SF State is available on the Roadmaps tab
and displays:

- How many lower-division units required for the major have been
  completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon
  entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four
  semesters.

Students who have earned an ADT should seek advising in the major
department during the first semester of attendance.

General Advising Information for Transfer
Students

1. Before transfer, complete as many lower division requirements or
electives for this major as possible.
2. The following courses are not required for admission, but are required
   for graduation. Students are strongly encouraged to complete these
   units before transfer; doing so will provide more flexibility in course
   selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and
(2) above at a California Community College (CCC), please visit http://
www.assist.org. Check any geographically accessible CCCs; sometimes
options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements
  for this major, including 2nd-semester composition;
- Which courses at a CCC satisfy CSU GE, US History, and US & CA
  Government.

Remedial courses are not transferable and do not apply to the minimum
60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the
minimum 60 units required for upper division transfer (for example, if
course was not passed on the first attempt, or was taken to earn a better
grade).

Before leaving the last California community college of attendance,
obtain a summary of completion of lower division General Education
units (IGETC or CSU GE Breadth). This is often referred to as a GE
certification worksheet. SF State does not require delivery of this
certification to Admissions, but students should retain this document for
verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or
College-Level Examination Program courses: AP/IB/CLEP credit is
not automatically transferred from the previous institution. Units are
transferred only when an official score report is delivered to SF State.
Credit is based on the academic year during which exams were taken.
Refer to the University Bulletin in effect during the year of AP/IB/CLEP
examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and
mathematics (STEM) disciplines often defer 6-9 units of lower division
general education in areas C and D until after transfer in order to focus
on preparation courses for the major. (This advice does not apply to
students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs
or CSUs

Review SF State's lower division General Education requirements.
Note that, as described below, the four basic skills courses required for
admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses
that fulfill the remaining areas of SF State's lower division GE pattern are
available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking
(GE A3) may not be widely offered outside the CCC and CSU systems.
Students should attempt to identify and take an appropriate course no
later than the term of application to the CSU. To review more information
about the A3 requirement, please visit http://bulletin.sfsu.edu/
undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition
course before transfer. This is usually the next course after the typical
“freshman comp” course, with a focus on writing, reading and critical
analytical skills for academic purposes, and developing skills in
composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets
both US and CA/local government requirements may be an appropriate
option, particularly if transferring from outside of California.

All students must meet the transfer eligibility
requirements outlined below for admission.
For more information, visit the Undergraduate
Admissions section.

- Complete 60 or more transferable semester units or 90 or more
  quarter units
- Earn a college grade point average of 2.00 or better in all transferable
courses. Non-local area residents may be held to a higher GPA
  standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education,
  including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

Total Units 16-18

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3 Complementary Studies
Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)
Students who complete two majors or a minor and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the communication studies major is completion of 12 units from one of the following:
   • Partial completion of a second major, minor, or certificate in courses other than COMM, and not cross-listed with COMM.
   • A single language other than English.
   • A CSU or SF State supported study abroad program. (With advisor approval, some or all of the units taken as part of study abroad may be counted toward units in the major.)
   • In one subject (prefix) other than COMM and not cross-listed with COMM.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

4 Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5 Introductory Course (6 units)
COMM 120 Language, Culture, and Power (3 units)
COMM 220 Introduction to the Performance of Literature (3 units)
COMM 230 Introduction to Argumentation and Debate (3 units)
COMM 240 Introduction to Nonverbal Communication (3 units)
COMM 250 Introduction to Group Discussion and Teamwork (3 units)

6 Electives (8 units)
COMM 368 Forensics (2 units)
COMM 685 Projects in the Teaching of Communication (1-4 units)
COMM 695 Internship/Service Learning in Communication Studies (4 units)
COMM 699 Independent Study (1-4 units)

7 Graduate Writing Assessment Requirement
COMM 304GW Writing About Communication and Masculinities - GWAR (4 units)
COMM 312GW Writing about Interpersonal Communication - GWAR (4 units)
COMM 321GW Writing About Communication Theory - GWAR (4 units)
COMM 322GW Writing About Organizational Communication - GWAR (4 units)
COMM 334GW Writing About Mediation - GWAR (4 units)
COMM 344GW Writing About Popular Media - GWAR (4 units)
COMM 348GW Writing About Environmental Rhetoric - GWAR (4 units)
COMM 361GW Writing About Social Semiotics - GWAR (4 units)
COMM 362GW Writing About Discourse in Interaction - GWAR (4 units)
8 Social Contexts and Interaction in Communication (8 units)
   COMM 502 Interpersonal Communication (4 units)
   COMM 503 Gender and Communication (4 units)
   COMM 504 Communication and Masculinities (4 units)
   COMM 515 Family Communication (4 units)
   COMM 522 Organizational Communication (4 units)
   COMM 525 Sexual Identity and Communication (4 units)
   COMM 527 Health Communication (4 units)
   COMM 531 Conflict Resolution (4 units)
   COMM 533 Communication and Empowerment in Organizations (4 units)
   COMM 534 Mediation Theory and Practice (4 units)
   COMM 537 Leadership Communication (4 units)
   COMM 538 Discourse in Interaction (4 units)
   COMM 541 Critical Approaches to Culture and Communication (4 units)
   COMM 543 Dialogues Across Differences (4 units)
   COMM 544 Communication and Aging (4 units)

9 Rhetoric and Performance in Communication (8 units)
   COMM 551 Persuasion (4 units)
   COMM 552 Women and Words (4 units)
   COMM 553 Oral Interpretation of the First Person Voice (4 units)
   COMM 554 Oral Interpretation of Children's Literature (4 units)
   COMM 555 Ensemble Performance Workshop (4 units)
   COMM 556 Performance Art: Aesthetic Communication Criticism (4 units)
   COMM 559 Theory and Practice in Advanced Public Speaking (4 units)
   COMM 560 Political Communication (4 units)
   COMM 561 Social Semiotics (4 units)
   COMM 564 Issues in Free Speech (4 units)
   COMM 565 Rhetorical Theory (4 units)
   COMM 566 Communication and Social Process (4 units)
   COMM 570 Human Communication and New Technologies (4 units)
   COMM 571 The Rhetoric of Terrorism (4 units)
   COMM 572 Rhetoric of the Environment (4 units)
   COMM 573 The Rhetoric of Criminality and Punishment (4 units)
   COMM 590 Advanced Performance Study (4 units)

10 Communication Inquiry
   COMM 661 Quantitative Methods in Communication (4 units)
   COMM 662 Critical and Rhetorical Methods in Communication (4 units)
   COMM 663 Performative Methods in Communication (4 units)
   COMM 664 LSI Methods in Communication (4 units)
Bachelor of Arts in Communication Studies – COMM Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Communication Studies. Six units (all lower division major requirements) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

¹ Courses in this Major Area that satisfy UD GE: COMM 527 and COMM 531 (UD-D) and COMM 541 (UD-C). If selected, take University electives to replace units.

² If ENG 214 equivalent not completed before transfer, GWAR course must be taken in the second semester.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C and D (9 units): See note 1 above. Some courses satisfy both UD GE and major requirements.
- Students entering this major with the AA-T in Communication Studies are not required to fulfill SF State Studies requirements.
Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Communication Studies Major: 34 Units**

Introductory Courses requirement satisfied in transfer.

- Graduation Writing Assessment Requirement/GWAR (4 units)
- Area Requirements (20 units) consisting of:
  - Social Contexts and Interaction in Communication (8 units)
  - Rhetoric and Performance in Communication (8 units)
  - Communication Inquiry (4 units)

- Electives (8 units): all upper division COMM courses may be used as electives if their corresponding area above is met with other courses.
- Capstone (2 units)

**University Electives: Seven or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.
Minor in Communication Studies

Select three courses (12 units), each of which is from a different area; select 8 additional units with approval of a minor advisor. With the consent of an advisor, up to 8 units of lower division coursework in communication may be counted toward the minor. However, any course that is used to fulfill GE Areas A and B4 requirements (formerly GE Segment I) cannot be used to fulfill minor requirements.

Communication Studies Minor – 20 units

Breath Areas (12 units)
Select one course each from three of the following breadth areas:

• Communication Inquiry
• Social Contexts and Interaction
• Rhetoric and Performance

Additional Courses (8 units)
Courses in communication on advisement

Master of Arts in Communication Studies

Admission to Program
The requirements for admission are an undergraduate major in communication, a 3.0 or better upper division grade point average, scores on the General Graduate Record Examination, and two letters of reference. Applicants not meeting these criteria may be eligible for conditional admission. Conditions may vary from completing 4 to 16 units of approved undergraduate courses in communication studies to earning a B or better in the initial three graduate courses, including COMM 700. None of the undergraduate units used in fulfilling prerequisites for advancement to classified status may be counted toward the satisfaction of course requirements in the graduate program. GRE scores and letters of recommendation should be sent directly to the graduate coordinator in the department: Dr. Javon Johnson.

Written English Proficiency Requirement

Level One
Students must take the Graduate Record Exam (GRE) analytical writing test prior to applying for admission to the program. Students who achieve a score of 4.0 or higher will have passed the first level graduate writing requirement. Students who achieve a score below 4.0 on the GRE writing test may still be considered for admission to the program, based on the rest of their application materials, but will be required to retake the GRE or complete a department approved writing skills course (conditional admission) before meeting the first level writing requirement.

Level Two
Satisfactory completion of master’s thesis or written comprehensive examination or creative project.

Upper-division courses the department offers may be considered, upon approval of the graduate advisor, except public performance courses.

Communication Studies – Graduate Studies

Mission Statement
We invite students into a life of scholarly inquiry and engaged citizenship with a focus on social justice. We use multiple approaches for advanced study of communication processes to understand complex human problems and discern ethical choices in local and global communities. Our program prepares students for diverse careers that benefit from advanced training in communication including teaching and careers in the public, private, and not-for-profit sectors.

Communication Studies

(M.A.) — Minimum 35 units

Core Requirements (8 units)

COMM 700 Introduction to Graduate Study 4
Select one of the following: 4
COMM 871 Communication Research Strategies
COMM 872 Field Research Strategies
COMM 873 Research Strategies in Language and Social Interaction

Graduate Seminars (16 units)
Courses selected on advisement, must be from COMM 701 - COMM 798

Electives (8 units)
Courses selected on advisement

Culminating Experience (3 units)

Select one of the following:

COMM 894 Creative Work Project 3
COMM 896EXM Culminating Experience Examination 3
COMM 897 Master’s Thesis 3

Note: No more than 8 units may be from upper-division courses regardless of department; no more than 8 units, graduate or undergraduate, may be from an allied department; and no more than 8 units may be in any combination of:

COMM 850 Teaching Communication 4
COMM 851 Internship in Teaching Communication 2
COMM 852 Supervision of Teaching Communication 1
COMM 855 Coaching Forensics 4
COMM 885 Graduate Projects in the Teaching of Communication 4
COMM 899 Independent Study for Investigation in Communication Studies 1-4

No more than 4 units may be listed on the ATC for any combination of COMM 851, COMM 852, or COMM 885.

Master’s Thesis or Creative Work Project

Each candidate who selects the option of a Master’s Thesis or Creative Work Project must submit a written proposal for approval and complete the department’s Description of Proposed Culminating Experience form. After the proposal is approved and a supervising committee of two or more faculty members is established, the Proposal for Culminating Experience Requirement form is signed and filed in the Division of Graduate Studies office. Following the candidate’s successful oral defense of the completed thesis or creative work project, a Final Report of Completion for the Culminating Experience is signed and filed in the Division of Graduate Studies.
**Master's Written Comprehensive Examination**

Each candidate who selects the option of Master's Written Comprehensive Examination must establish a three-member faculty committee and complete the department’s Description of Proposed Culminating Experience form. Next, the Proposal for Culminating Experience Requirement form must be signed and filed in the Division of Graduate Studies. The candidate then enrolls in COMM 896 and COMM 896EXM, and completes the examinations; COMM 896 is offered in the spring semester of each academic year.
COMPARATIVE AND WORLD LITERATURE

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Comparative and World Literature
Humanities Building, Room 377
Phone: (415) 338–2068
Email: wcit@sfsu.edu

Interim Chair: Dane Johnson
Undergraduate Advisors: D. Johnson, S. Khanmohamadi, E. Peel, C. Weinberger
Undergraduate Coordinator: Dane Johnson
Graduate Coordinator: Shirin Khanmohamadi

Program Scope
Comparative Literature is a way of studying world literature. It is a literary discipline designed to go beyond the chronological, geographic, and linguistic boundaries of individual national literatures.

Undergraduate Program
The Bachelor of Arts and Minor in Comparative and World Literature are interdisciplinary programs that provide students with a global perspective through the reading and analysis of literatures from multiple traditions. Students develop a university-level understanding of what different cultures have in common as well as what makes each culture unique. The study of comparative literature also seeks to establish relationships between literature and other fields, from the arts and sciences to folklore and religion. In addition to taking courses in comparative literature and various national literatures (in the original languages and translation), students also learn methods and techniques of literary analysis and comparison.

Graduate Program
The Master of Arts in Comparative Literature combines the objectives of graduate study in foreign languages and literature with an emphasis on the intercultural and international aspects of literature. The goal of the program is to provide graduate training in subjects common to more than one national literature. Research work in the program is directed toward the problems of literary theory and analysis, genre studies, and literary history.

Career Outlook
The B.A. and Minor in Comparative and World Literature are designed for students who wish to gain an interdisciplinary and broad liberal arts education. The undergraduate degree also provides a sound foundation for students who wish to continue work in literature at the graduate level or to pursue graduate study in other areas. Students find that the program provides a rich background for teaching in English, foreign languages and literature, the humanities, and liberal arts, as well as for other varied careers.

The graduate degree in Comparative Literature is of particular value for students who intend to pursue a doctoral degree in comparative literature, English, foreign language and literature, interdisciplinary humanities, or who plan to teach at the middle school, high school, or community college levels.

Professors
Johnson, Peel

Associate Professors
Khanmohamadi, Weinberger

Major
• Bachelor of Arts in Comparative Literature (p. 719)

Minor
• Minor in Comparative Literature (p. 727)

Masters
• Master of Arts in Comparative Literature (p. 727)

Bachelor of Arts in Comparative and World Literature

Advising
To ensure adequate planning of a student’s program, all majors must consult an advisor regularly throughout their undergraduate years. Students who are interested in pursuing a teaching credential in English with a comparative literature emphasis in addition to the B.A. in Comparative Literature should consult the credential requirements section (p. 343) in this Bulletin and meet with an advisor in the Department of Comparative and World Literature.

Student Portfolio
Following departmental guidelines, all students will complete a portfolio prior to graduation.

Students are advised to take CWL 400GW as early as possible in the major.

Comparative and World Literature
(B.A.) — Minimum 39 Units

Core Courses (18 Units)
CWL 400GW Approaches to Comparative and World Literature - 3

GWAR

Select five CWL courses. One course may be a lower division. 15
CWL 214 does not count toward the major.

Program Electives (21 Units)
In consultation with departmental advisors, students select upper-division literature courses that reflect their chosen advising pathway. These courses may be from departments other than CWL (maximum five courses from a single literature).

Note: Up to four courses (12 units) in lower division literature courses may be used toward the total courses/units in the major; two courses (6 units) of these may be in non-CWL literature courses.
Advising Pathways
Comparative Literature:
Students following the Comparative Literature pathway are advised to take courses that meet the following distribution requirements:

- Two courses in a single non-English literary tradition
- One upper-division literature course taught in and focused on a non-English language/literature
- A student-defined area of focus developed in consultation with an advisor

Note: Students following the “Comparative Literature” pathway may count up to three units of a non-literature foreign language course toward their degree.

World Literature:
Students following the World Literature pathway are advised to take CWL 230 and upper division courses that meet the following:

- Courses that combine breadth with a student-defined area of focus developed in consultation with an advisor.
- One course may focus on history or culture from an interdisciplinary perspective, or analysis of alternative media (e.g., painting, music, video games, etc.).

Notes:
1. All students in the Comparative and World Literature major are urged to acquire reading competence in at least one language in addition to English.
2. A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Complementary Studies
Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the comparative literature major is completion of 12 units in a language other than English or in some other group of courses outside the CWL-prefix (and not cross-listed with CWL) that is approved by a major advisor (which may include, but is not limited to, languages other than English, units toward a minor or certificate, study abroad, and literature courses taught in other departments).

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

Transfer Student Roadmap (2 Year)

For students with an AA-T in English or Spanish. This roadmap opens in a new tab. (p. 725)

This degree program is an approved pathway (“similar” major) for students earning the ADT in English or Spanish

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer, doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements.

Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.
All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

   Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the comparative literature major is completion of 12 units in a language other than English or in some other group of courses outside the CWL-prefix (and not cross-listed with CWL) that is approved by a major advisor (which may include, but is not limited to, languages other than English, units toward a minor or certificate, study abroad, and literature courses taught in other departments).

   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. **Program Electives (21 Units)**

   In consultation with departmental advisors, students select upper-division literature courses that reflect their chosen advising pathway 5.

   These courses may be from departments other than CWL (maximum five courses from a single literature).

   **Note:** Up to four courses (12 units) in lower division literature courses may be used toward the total courses/units in the major; two courses (6 units) of these may be in non-CWL literature courses.

6. **Advising Pathways**

   **Comparative Literature:**

   Students following the Comparative Literature pathway are advised to take courses that meet the following distribution requirements:

   • Two courses in a single non-English literary tradition
   • One upper-division literature course taught in and focused on a non-English language/literature
   • A student-defined area of focus developed in consultation with an advisor

   **Note:** Students following the "Comparative Literature" pathway may count up to three units of a non-literature foreign language course toward their degree.

   **World Literature:**

   Students following the World Literature pathway are advised to take CWL 230 and upper division courses that meet the following:

   • Courses that combine breadth with a student-defined area of focus developed in consultation with an advisor.
   • One course may focus on history or culture from an interdisciplinary perspective, or analysis of alternative media (e.g., painting, music, video games, etc.).
Bachelor of Arts in Comparative and World Literature – ENGL or SPAN
Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with the AA-T in English OR the AA-T in Spanish. Up to 12 lower division units in the major and all lower division GE requirements have been satisfied. *Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information* (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

\(^1\) CWL 214 or equivalent AA/2nd year comp course is a prerequisite for CWL 400GW. Completion of 2nd-year comp is assumed for English AA-T students. Spanish AA-T students who have not taken a 2nd-year comp course should do so in the 1st semester after transfer and delay taking CWL 400GW until the following semester.

\(^2\) Also satisfies Major Elective if CWL prefix

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- CWL 214 or equivalent A4 course (0–3 units) – satisfied via completion of English AA-T. *Students with Spanish AA-T: see note 1 above.*
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE (9 units): CWL course approved for UD-C double-counts as a Major Elective.
- Students entering the major with the AA-T in English or in Spanish are not required to fulfill SF State Studies requirements.
Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Comparative and World Literature Major: 27–36 Units**

See department advisor regarding how to apply ADT units to the degree. Up to 12 literature and up to three Spanish language units may be applied.

- Core Courses/GWAR (15–18 units): Up to three units from the ADT (literature) may be applied, if approved.
- Program Electives (12–18 units): Select in consultation with department advisor. Up to nine units from the ADT may be applied, if approved.

**Note:** Students may follow one of two advising pathways: Comparative Literature or World Literature. Consult with a department advisor.

**University Electives: Nine or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.
Minor in Comparative Literature

Advising. To ensure adequate planning of a student’s program, all minors must consult an advisor at least once per year.

Comparative and World Literature Minor — 18 units
Core Courses (12 units)
CWL 400GW Approaches to Comparative and World Literature - GWAR 3
Select three CWL courses. One course may be a lower division CWL course. (Note: CWL 214 does not count toward the minor.) 9

Electives (6 units)
In consultation with departmental advisors, students select two upper-division literature courses that reflect the breadth of literary studies. These courses may be from departments other than CWL.

Note: Up to two courses (6 units) of lower-division literature courses may be used toward the total units; one course (3 units) of these may come from a non-CWL literature course.

All students in the Comparative and World Literature minor are urged to acquire reading competence in at least one language in addition to English.

Master of Arts in Comparative Literature

Admission to Program
Application requirements:

- An undergraduate major in literature (comparative and/or world literature, English, or any foreign language and literature).
- Grade point average of 3.0 in the undergraduate major or consent of the graduate coordinator.
- Sufficient proficiency in a foreign language/literature taught at the graduate level at SF State (or the University of California, Berkeley) so that the student can take graduate seminars in that language. (Normally, the minimal requisite proficiency is the equivalent of an undergraduate minor in the foreign language.)
- Submit a two to three-page statement of purpose, including information on proficiency in foreign language(s) and literature(s), and an 8–10-page formal writing sample of literary analysis to the Department of Comparative and World Literature.
- Meet the University requirements for Graduate admissions. See Graduate Division website for details on policies, procedures, and required forms www.sfsu.edu/~gradstdy (http://www.sfsu.edu/~gradstdy).

Students with grade or subject matter deficiency may be admitted conditionally and achieve classified status as follows: after appropriate consultation with a graduate advisor, the student will be directed toward courses, totaling 6–12 units, some of which may apply to the M.A., and in which the student must achieve a grade of B (3.0) or better. All conditions must be satisfied before students submit the Advancement to Candidacy (ATC).

Written English Proficiency Requirement
Level One
is satisfied by the writing sample submitted as part of the application process.

Level Two
is satisfied by the final paper in CWL 825.

Advancement to Candidacy
Besides meeting all general requirements for advancement to candidacy, applicants must complete successfully, with a grade of B or higher, the course CWL 800, in which ability to do critical writing will be demonstrated.

Student Portfolio
Following departmental guidelines, all students will complete a portfolio prior to graduation.

Upper division courses offered by the department may be used upon approval of a faculty advisor.

Comparative Literature (M.A.) — Minimum 30 units
Core Requirements (12 units)
CWL 800 Introduction to Graduate Study in Comparative Literature 3
CWL 815 Seminar: Topics in Critical Theory 3
CWL 820 Topics in Comparative Literature 3
CWL 825 Advanced Study in Comparative Literature 3

Foreign Literature Requirement (9 units)
Graduate seminars in a single foreign literature

Note: “Foreign Literature” means a literature and language other than the student’s native language; e.g., a native speaker of Japanese must complete seminars in a literature other than Japanese.

Program Electives (6 units)
Upper-division or graduate courses other than that of the Foreign Literature Requirement. Electives can include courses in English literature, Comparative Literature, Humanities, a second foreign literature read in the original language or in translation, or courses in pedagogy (e.g., courses for the Certificate in the Teaching of Composition).

Culminating Experience (3 units)
Select one of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>CWL 896</td>
<td>Directed Reading in Comparative Literature (and Comprehensive Oral Examination)</td>
<td>3</td>
</tr>
<tr>
<td>CWL 898</td>
<td>Master’s Thesis (and Prospectus)</td>
<td>3</td>
</tr>
</tbody>
</table>

Comprehensive Oral Examination
Upon completion of course work, the student not writing a thesis must pass a comprehensive oral examination administered by a committee of a minimum of two faculty members and based on the departmental reading list and additional authors selected by the student, in consultation with the examination committee.
Master's Thesis and Prospectus

A written and oral presentation of the thesis prospectus is required before the writing of the thesis. The student's committee of a minimum of two faculty members must approve the prospectus.
CONFLICT RESOLUTION

College of Liberal & Creative Arts
Dean: Andrew Harris

College of Business
Dean: Linda Oubre

College of Ethnic Studies
Dean: Kenneth Monteiro

College of Health and Social Sciences
Dean: Alvin Alvarez

Conflict Resolution Program
Humanities Building, Room 289
Coordinator: Christopher Koenig

Program Scope
The purpose of this certificate is to learn to manage conflicting positions in various contexts and to develop constructive ways to engage in dispute management or conflict negotiation. Students may use this certificate to enhance their understanding of the critical role that conflict and its resolution plays in the world today. This certificate would complement degree programs in communication, criminal justice, labor and employment studies, ethnic studies, business, international relations, psychology, political science, and women and gender studies.

Career Outlook
Completion of the certificate contributes to a student's preparation for employment in such fields as counseling, criminal justice, diplomacy, education, government, human resources, international relations, labor, law, management, mediation, public relations, and social work.

Certificate in Conflict Resolution
It is recommended that General Education Areas A and B4 (formerly Segment I) be completed prior to students beginning this program. Students must pass a GWAR course before receiving the certificate.

Note: Courses in the certificate may be substituted on advisement. At least three courses in the certificate must have a prefix that is different from the student's major prefix.

Conflict Resolution, Certificate – 21–37 units

Core Courses (12–18 units)
Introduction to Conflict Resolution
Select 3–4 units from the following:

- COMM 531 Conflict Resolution 4
- PSY 547 Social Conflict and Conflict Resolution 3

Alternative Models of Conflict Resolution
Select 3–4 units from the following:

- AFRS 660 Civil Rights Movement and Education 3
- COMM 534 Mediation Theory and Practice 4
- COMM 543 Dialogues Across Differences 4
- ECON/LABR 511 Collective Bargaining 3

- GPS/I R/PHIL 315 Introduction to Global Peace Studies 3
- GPS/PHIL 375 Peace Law and Human Rights in the U.S. 3
- HUM 366 India's Gandhi 3
- IBUS/ MGMT 659 Introduction to International Business Negotiation 3
- I R 432 Model United Nations 4

Communication Skills
Select 3–4 units from the following:

- COMM 502 Interpersonal Communication 4
- COMM 250 Introduction to Group Discussion and Teamwork 3
- PSY 645 Group Processes 3

Conflict Resolution Internship
Specific course (3–4 units) to be taken for internship with a focus on conflict resolution with placement by advisor.

Area of Emphasis (9–19 units)
One of the emphases listed below.

Emphasis in Family/Culture/Community Issues
Select 9–12 units from the following or the other emphasis on advisement

- AA S 681 Asian American Community Changes and Development 3
- COMM 503 Gender and Communication 4
- COMM 515 Family Communication 4
- COMM 525 Sexual Identity and Communication 4
- COMM 543 Dialogues Across Differences (If not selected in the core) 4
- RRS 571 Women, Class, and Race 3
- PSY 440 Social Psychology 3
- PSY 441 The Psychology of the Family 3
- PSY 455 Cross-Cultural Perspectives in Psychology 3
- PSY 525 Community Psychology 3
- LTNS 680 Latina/o Community Organizing 3
- SOC 464 Families and Society 4
- USP 515/ GEOG 667 Environmental Justice: Race, Poverty, and the Environment 4
- WGS 301 Women, Gender, and Community 3

Emphasis in Legal/Political Issues in the United States
Select 9–19 units chosen from the list below or other emphases on advisement

- AA S 595 Asian American Communities and Public Policy 3
- AFRS 376 Government, the Constitution, and Black Citizens 3
- AFRS 660 Civil Rights Movement and Education (If not selected in the core) 3
- AIS 460 Power and Politics in American Indian History 3
- COMM 564 Issues in Free Speech 4
- C J 300 Criminal Justice: A Cross-Disciplinary Perspective 4
- GPS/PHIL 375 Peace Law and Human Rights in the U.S. (If not selected in the core) 3
- HIST 465 American Ethnic and Racial Relations II: 1890 - Present 3

CREATIVE WRITING

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Creative Writing
Humanities Building, Room 573
Phone: (415) 338–1891
Email: cwriting@sfsu.edu
Website: http://creativewriting.sfsu.edu

Chair: Nona Caspers
Undergraduate and Graduate Advisors: Carter, Caspers, Chernoff, Conboy, De Robertis, Hoover, Joron, Mirosevich, Ormer, Tigay

Program Scope
The Department of Creative Writing offers undergraduate and graduate programs. The three degree programs emphasize the primary importance of the study and practice of imaginative writing in the genres of creative nonfiction, fiction, literary translation, playwriting, and poetry. All three degree programs combine an intense workshop requirement and a variety of special topic creative process classes with requirements in the English Department. The core literature classes assure that students will continue to absorb and be trained in a study of the best literature of the past. In Creative Writing classes, students work with an active, publishing faculty. They learn by vigorous practice; by focused studies of craft; and by extensive reading, analysis, and discussion of their work, as well as that of published authors.

The undergraduate major combines the academic specifications of the traditional English major with the experiential needs of the writing student. Students who enter this program should do so only under the strongly held assumption that they have abilities as writers that may be fostered and trained by such a discipline as is described here. It is hoped that this combined program of writing and literature will lead students to a cohesive study and discipline that combines breadth with intensity.

Accordingly, some greater latitude of choice in literature courses is allowed in the creative writing major. Studies will lead them to a degree in English with a creative writing emphasis. Ample guidance of the creative writing advisors helps insure that students will not be deprived of a sense of the history of literature. In this regard they will continue to be fully qualified as potential graduate students in English as well as prepared should they wish to continue as M.A. or M.F.A. candidates in a creative writing program.

The two graduate programs differ in scope. Both programs are distinguished by innovative classes. Both include seminars, opportunities for community projects, and a thesis. Students may apply for admission to either the Master of Arts in English with Concentration in Creative Writing (30 units) or the Master of Fine Arts in Creative Writing (54 units). In no case will a student be admitted to both programs simultaneously.

The Master of Arts in English with Concentration in Creative Writing serves a double purpose: to extend and broaden the student’s familiarity with literature and to provide the help of a faculty of professional writers and critics in developing the student’s own potential as a professional writer. The Creative Writing Department has a strong core faculty and invites several visiting faculty each semester.

The Master of Fine Arts in Creative Writing is regarded as the terminal degree in the field. The M.F.A. in Creative Writing offers extended experience in small seminars and in individual instruction with faculty. It also develops the student’s understanding of the history and theory of literature and incorporates correlative patterns of study in elective areas such as other cultures, other arts, technical studies, and/or the teaching of writing.

Career Outlook
The career goal is to train and encourage writers of creative nonfiction, fiction, literary translation, plays, and poetry. Many celebrated and distinguished writers are graduates of the department. In the job market, good writers are hard to find. The skills developed in creative writing translate well into corporate editing, publishing, teaching, and working for arts organizations.

Professors
Carter, Caspers, Chernoff, Conboy, Hoover, Mirosevich, Ormer

Assistant Professors
De Robertis, Joron, Tigay

Lecturers
Bellamy, Davison, de la Perrière, Dickson, Galjour, Kim, Phillips, Tomash, Tran

Major
• Bachelor of Arts in English: Concentration in Creative Writing (p. 731)

Masters
• Master of Arts in English: Concentration in Creative Writing (p. 744)
• Master of Fine Arts in Creative Writing (p. 744)

Bachelor of Arts in English: Concentration in Creative Writing

GWAR (Graduation Writing Assessment Requirement) is satisfied for the English major, Concentration in Creative Writing by completion of one of the following courses:
C W 511GW, C W 512GW, or C W 513GW. Completion of C W 301 and second year written composition (ENG 214 or equivalent) with a grade of C− or better is a prerequisite for C W 511GW or C W 512GW or C W 513GW.

English (B.A.): Concentration in Creative Writing — 42 units

A. (6 units)
Fundamentals of Creative Writing and Fundamentals of Creative Reading; both are prerequisites to all other Creative Writing courses; C W 302 is prerequisite to ENG 460, ENG 461, ENG 462, and all other upper division English literature courses. C W 302 must be taken at SF State; upon completion of C W 302, courses from sections E. and F. may be taken at any time. C W 301 and C W 302 may be taken concurrently:
C W 301 Fundamentals of Creative Writing 3
C W 302  Fundamentals of Creative Reading  3

**B. (3 units)**
Course in the Craft Area selected from the following (must be taken after C W 301 and C W 302 and BEFORE workshop course).

<table>

**First Time Student Roadmap (4 Year)**

This roadmap (p. 736) opens in a new tab.

**Transfer Student Roadmap (2 Year)**

For students with an AA-T in English. This roadmap opens in a new tab. (p. 742)

This degree program is an approved pathway (“similar” major) for students earning the ADT in English

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.
General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

| Total Units | 15 |

| Total Units | 120-122 |

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies requirements** (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**
   - Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)
   - Creative Writing majors will satisfy this requirement from within the major by taking 15 units of literature classes required in the major, which are recognized in the major list of any or all of the following prefixes: ENG (p. 1543), AFRS (p. 1369), CWL (p. 1465), LTNS (p. 1653), WGS (p. 1793), HUM (p. 1605), AAS (p. 1397), MGS (p. 1677), or AIS (p. 1375).
   - Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Literature
Courses in the Literature Area, one course to be selected from three of the following four groups.

American Literature
AFRS 645 Literature of the Harlem Renaissance (3 units)
ENG 525 Studies in American Literature (3 units)
ENG 526 Age of the American Renaissance: 1830-1860 (3 units)
ENG 527 American Literature: 1860-1914 (3 units)
ENG 528 American Literature: 1914-1960 (3 units)

Literature in English Surveys or Age (of)
ART 405 Art, Literature, and Power in the Renaissance (3 units)
ENG 460 Literature in English I: Beginnings through the 17th Century (3 units)
ENG 461 Literature in English II: 18th and 19th Centuries (3 units)
ENG 462 Literature in English III: The Twentieth Century (3 units)
ENG 501 Age of Chaucer (3 units)
ENG 503 Studies in Medieval Literature (3 units)
ENG 510 The Age of Wit (3 units)
ENG 512 18th Century British Women Writers (3 units)
ENG 514 Age of the Romantics (3 units)
ENG 516 Age of the Victorians (3 units)
ENG 521 Studies in 20th Century English Literature (3 units)
ENG 522 Irish Literature (3 units)
ENG 614 Women in Literature: Authors and Characters (3 units)
ENG 630 Selected Studies (3 units)

The Genre
ENG 465 Post-Apocalyptic Science Fiction (3 units)
ENG 524 Contemporary American Short Story (3 units)
ENG 550 The Rise of the Novel (3 units)
ENG 552 Modern British Novel (3 units)
ENG 553 Classic American Novel (3 units)
ENG 554 Modern American Novel (3 units)
ENG 555 The Short Story (3 units)
ENG 558 Early Twentieth Century Poetry in the United States (3 units)
ENG 559 Middle and Late Twentieth Century Poetry in the United States (3 units)
ENG 570 Medieval and Renaissance Drama (3 units)
ENG 571 Shakespeare's Rivals (3 units)
ENG 573 American Drama (3 units)
ENG 574 Modern British Drama (3 units)
ENG 612 Serial Narrative (3 units)
ENG 630 Selected Studies (3 units)
HUM 550 The Art of Autobiography (3 units)
LTNS 490 Latina/o Teatro Workshop (3 units)
MGS 465 Modern Greek Poetry in Comparative Perspective (3 units)

Individual Authors
ENG 580 Individual Authors (3 units)
ENG 581 Jane Austen (3 units)
ENG 583 Shakespeare: Representative Plays (3 units)
ENG 584 Shakespeare: Selected Plays (3 units)
ENG 589 Milton (3 units)
Theory and Language Studies
AFRS 646 Frantz Fanon’s Psychology of Violence, Negation, and Liberation (3 units)
ENG 401 Introduction to Writing Studies (3 units)
ENG 418 Grammar for Writers (3 units)
ENG 420 Introduction to the Study of Language (3 units)
ENG 422 History of the English Language (3 units)
ENG 429 Stylistics (3 units)
ENG 475 Fundamentals of Literary Analysis (3 units)
ENG 495 Digital Humanities and Literacies (3 units)
ENG 535 Literature and Ecology (3 units)
ENG 600 Theory of Literature (3 units)
ENG 601 Literature and Psychology (3 units)
ENG 602 Literature and Society (3 units)
ENG 606 History of Criticism from the Eighteenth Century to the Present (3 units)
ENG 611 Modern Criticism (3 units)
ENG 614 Women in Literature: Authors and Characters (3 units)
ENG 615 Imagery, Metaphor, and Symbol (3 units)
ENG 630 Selected Studies (3 units)
HUM 390 Images of Eroticism (3 units)
HUM 410 The Modern Revolution (3 units)
HUM 415 Contemporary Culture (3 units)
HUM 425 Thought and Image: Humanities (3 units)
HUM 432 Nietzsche and Postmodernism (3 units)
Writing the American Experience or Global Literatures in English
Three units selected from Writing from the American Experience or Global Literatures in English (substitution may be made with advisor’s approval).

Global Literatures in English
CHIN 600 Topics in Chinese Language, Literature, and Culture in English (3 units)
CHIN 601GW The Poetic Tradition - GWAR (3 units)
CHIN 602 The Narrative Tradition in English (3 units)
CHIN 611GW The Revolutionary Tradition in Modern Chinese Literature - GWAR (3 units)
CLAS 410 Ancient Greek Literature (3 units)
CLAS 415 Ancient Roman Literature (3 units)
CWL 420 Studies in Comparative Literature (3 units)
CWL 423 Going Medieval: Comparative Medieval European Literature (3 units)
CWL 424 Multicultural Middle Ages (3 units)
CWL 432 From Ghost Stories to Short Stories: Japanese Fiction in Comparative Contexts (3 units)
CWL 440 "Typical American": Narratives of Multiculturalism in the Americas from 1492 to the Present (3 units)
CWL 450 Literary Crossings (3 units)
CWL 520 Modern Prose of the Americas (3 units)
ENG 565 The Short Story: Global Literature in English (3 units)
ENG 630 Selected Studies (3 units)
ENG 631 Post-Colonial Literature in English (3 units)
ENG 632 The Literature of Exile and Migration (3 units)
ENG 633 Gay Love in Literature (3 units)
ENG 636 Greek and Roman Myth and Modern Literature (3 units)
ENG 637 Experimental Novel: 1950-1980 (3 units)
ENG 658 South African Literature (3 units)
ETHS 400 Islam and Fiction in English (3 units)
GER 613 Weimar Literature in English (3 units)
GER 616 Postwar German Literature in English: The Past as Present (3 units)
JS 437 Holocaust and Literature (3 units)
JS 451 Jewish Literature of the Americas (3 units)
JS 460 European Jewish Writers (3 units)
LTNS 560 Contemporary Latina/o Literature (3 units)
LTNS 679 Central American Literature: Roots to the Present (3 units)
MGS 380 British and American Travellers to Greece (3 units)
MGS 452 Forster, Durrell, and Cavafragi (3 units)
MGS 465 Modern Greek Poetry in Comparative Perspective (3 units)
MGS 497 Modern Greek Literature (3 units)
RRS 360 Cultural Dialogues and Ethnic Literature (3 units)
SPAN 492 Early Transatlantic Literature and Culture (3 units)

Writing from the American Experience
AA S 322 Chinese American Language and Literature (3 units)
AA S 332 Japanese American Art and Literature (3 units)
AA S 352 Filipina/o American Literature, Art, and Culture (3 units)
AA S 372 Vietnamese American Literature (3 units)
AA S 512 Asian American Children’s/Adolescent Literature (3 units)
AA S 582 Asian American Women’s Literature and the Arts (3 units)
AFRS 400 Black Arts and Humanities (3 units)
AFRS 411 African and African American Literature (3 units)
AIS 360 Modern American Indian Authors (3 units)
CWL 540 Faulkner, García Márquez, and Morrison (3 units)
ENG 525 Studies in American Literature (3 units)
ENG 630 Selected Studies (3 units)
ENG 614 Women in Literature: Authors and Characters (3 units)
HUM 470 American Autobiography (3 units)
JS 546 20th Century American Jewish Women Writers (3 units)
LTNS 305 Latina/o Studies Creative Writing Workshop (3 units)
LTNS 455 Resistance Literature of the Americas (3 units)
LTNS 560 Contemporary Latina/o Literature (3 units)
MGS 397 Greek American Literature (3 units)
RRS 312 Arab and Arab American Literary Expressions (3 units)
WGS 541 Women Writers and Social Change (3 units)
WGS 548 Literature by U.S. Women of Color (3 units)
Creative Process Area and/or Workshop Area
C W 506 The Business of Creative Writing (3 units)
C W 507 Writing on the Body (3 units)
C W 508 Introduction to Environmental Literature (3 units)
C W 514 Contemporary World Poetry (3 units)

C W 605 Writing and Performing Monologues (3 units)
C W 609 Directed Writing for B.A. Students (3 units)
C W 640 Transfer Literary Magazine (3 units)
C W 675 Community Projects in Literature (3 units)
C W 685 Projects in the Teaching of Creative Writing (3 units)
C W 699 Independent Study (1-3 units)
LTNS 305 Latina/o Studies Creative Writing Workshop (3 units)
Bachelor of Arts in English: Concentration in Creative Writing – ENGL Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in English. Up to three units in the major and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

1 Capstone course may be taken in either semester of final year.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

University-Wide Requirements: 9–15 Units
- ENG 214 or equivalent A4 course (0 units): satisfied via completion of English AA-T
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C and D (9 units): Check for courses in major that also satisfy UD GE.
- Students entering this major with the AA-T in English are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Creative Writing Major: 39–42 Units**
Check with a department advisor to see if three lower division units from ADT can be applied to the major.

• Fundamentals (3–6 units): C W 301 and C W 302
• Craft (3 units): C W 511GW or C W 512GW or C W 513GW, taken after fundamentals and before workshop
• Creative Process Area and/or Workshop Areas (15 units): Must include C W 510 or C W 600
• Courses in Literature – upper division (9 units): to be taken after C W 302
• Writing from the American Experience or Global Literatures (3 units)
• Theory and Language Studies (3 units)
• Capstone Course (3 units): C W 601 – must be taken in last year

**University Electives: Three or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.
Master of Arts in English: Concentration in Creative Writing

Admission to the Program
Students interested in this program must submit a meaningful sample of their writing (15 to 20 pages of creative nonfiction or fiction, or 15–20 pages of literary translation, or a full-length stage play or two short plays, or 15 to 20 poems), two letters of recommendation, and transcripts, along with the Creative Writing Department application form. Submissions should be sent to the Creative Writing Office by January 15 for the fall semester. Applicants from graduate creative writing programs at other colleges or universities may transfer six units to the M.A. program, on review and recommendation of the Creative Writing Admissions Committee and approval of the Division of Graduate Studies. For further clarification, contact the Creative Writing Department. Students accepted into the program with an undergraduate major that is not English are accepted conditionally. Admission to the M.A. does not imply admission to the M.F.A. Students who wish to earn both degrees must finish the M.A. before beginning the M.F.A. degree.

Written English Proficiency Requirement
Level One (Pre-admission)
Statement of purpose (500–1500 words) and writing sample (15 to 20 pages of creative nonfiction or fiction, or 15–20 pages of literary translation, or a full-length stage play or two short plays, or 15 to 20 poems) scored 8.0 or higher on a scale of one to ten based on the following criteria:

1. fluency and precision of expression;
2. ability to embody and illustrate ideas creatively; and
3. appropriateness of the applicant’s interests, life experiences and goals to the program.

Level Two
Satisfactory completion of C W 893MA on the following criteria: thesis deemed by two faculty readers to be publishable in part or whole (book, chapbook and/or literary journals).

Selected upper division courses offered by the department may be used for the master’s degree upon approval of a departmental advisor. Enrollment is not required in the semester of graduation.

English (M.A.): Concentration in Creative Writing – Minimum 30 units
Program (9 units)
Writing courses selected from the following:

- C W 803 Advanced Short Story Writing
- C W 804 Advanced Poetry Writing
- C W 807 Developing the Novel
- C W 808 Novel Writing
- C W 809 Directed Writing for Graduate Students
- C W 899 Independent Study

Creative Process (9 units)
Creative process courses selected from the following:

- C W 785 Graduate Projects in the Teaching of Creative Writing
- C W 806 The Business of Creative Writing
- C W 810 Seminar in the Creative Process
- C W 814 Contemporary World Poetry
- C W 820 Writers on Writing
- C W 825 Playwright’s Theatre Workshop
- C W 840 Fourteen Hills Theatre Workshop
- C W 850 Poetry Center Workshop
- C W 859 Practicum in Teaching
- C W 860 Teaching Creative Writing
- C W 866 Craft of Translation
- C W 875 Community Projects in Literature
- C W 899 Independent Study

Upper Division/Graduate Literature Courses (9 units)
Courses in the English, Comparative and World Literature, or Theatre Arts Departments, to be taken on advisement.

Culminating Experience (3 units)
- C W 893MA Written M.A. Creative Project

Master of Fine Arts in Creative Writing

Admission to the Program
Students interested in this program must submit a meaningful sample of their writing (15 to 20 pages of fiction or creative nonfiction, or 15 to 20 pages of literary translation, or a full-length stage play or two short plays, or 15 to 20 poems), two letters of recommendation, and transcripts, along with the Creative Writing Department application form. Submissions should be sent to the Creative Writing Office by January 15 for the fall semester.

Applicants from creative writing programs at other colleges or universities may transfer nine units to the M.F.A. program, on review and recommendation of the Creative Writing Admissions Committee and approval of the Division of Graduate Studies. For further clarification, contact the Creative Writing Department.

Students in the Master of Arts in English with Concentration in Creative Writing at SF State who wish to enter the M.F.A. program are required to apply for admission and are subject to the same admission standards as are all other applicants. For students entering with an earned M.A. in English: Creative Writing from SF State, the M.F.A. is a 30 unit degree as described below.

Enrollment priority in M.F.A. classes is given to classified M.F.A. students accepted in the genre of the course.
Written English Proficiency Requirement
Level One
Statement of purpose (500–1500 words) and writing sample (15 to 20 pages of fiction or creative nonfiction, or 15 to 20 pages of literary translation, or a full-length stage play or two short plays, or 15 to 20 poems) scored 8.0 or higher on a scale of one to 10 based on the following criteria:

1. fluency and precision of expression;
2. ability to embody and illustrate ideas creatively; and
3. appropriateness of the applicant's interests, life experiences and goals to the program.

Level Two
Satisfactory completion of C W 893MFA on the following criteria: work deemed by two faculty readers to be publishable as a book and evaluated along the following criteria:

1. ability to use the craft of the art form to illustrate ideas, vision, and imagination creatively, using fresh, precise language;
2. ability to suggest, via the craft to the art form, a subtext and themes that display the writers' complex relationship with her/his ideas, vision, imagination, and form (story, poem, dramatic monologue and/or play); and
3. mastery of at least one genre form per the above.

Selected upper division courses offered by the department may be used for the degree upon approval of a department advisor. Enrollment is not required in the semester of graduation.

Master of Fine Arts in Creative Writing – Minimum 54 Units
Writing Workshops at the M.F.A. Level (6 Units)
Select a minimum of 6 units in the genre of admission selected from the following:

C W 852  MFA Workshop in Creative Nonfiction  3
C W 853  M.F.A. Workshop in Fiction  3
C W 854  M.F.A. Workshop in Poetry  3
C W 855  M.F.A. Workshop in Playwriting  3
C W 856  M.F.A. Workshop in Short Plays  3

M.A./M.F.A. Level Creative Process Directed Writing/Special Study/Writing Workshops (12 Units)
Select 12 units from the following:

C W 785  Graduate Projects in the Teaching of Creative Writing  3
C W 803  Advanced Short Story Writing  3
C W 804  Advanced Poetry Writing  3
C W 806  The Business of Creative Writing  3
C W 807  Developing the Novel  3
C W 808  Novel Writing  3
C W 809  Directed Writing for Graduate Students  3
C W 810  Seminar in the Creative Process  3
C W 814  Contemporary World Poetry  3
C W 820  Writers on Writing  3
C W 825  Playwright’s Theatre Workshop  3
C W 840  Fourteen Hills Literary Magazine  3

C W 850  Poetry Center Workshop  3
C W 852  MFA Workshop in Creative Nonfiction  3
C W 853  M.F.A. Workshop in Fiction  3
C W 854  M.F.A. Workshop in Poetry  3
C W 855  M.F.A. Workshop in Playwriting  3
C W 856  M.F.A. Workshop in Short Plays  3
C W 859  Practicum in Teaching  3
C W 860  Teaching Creative Writing  3
C W 866  Craft of Translation  3
C W 867  Theory of Translation  3
C W 875  Community Projects in Literature  3
C W 899  Independent Study  3

Creative Process Courses at the M.F.A. Level. (6 Units)
Select 6 units in the genre of admission from the following:

C W 880  M.F.A. Craft and Process Tutorial in Fiction  3
C W 881  M.F.A. Craft and Process Tutorial in Poetry  3
C W 882  M.F.A. Craft and Process Tutorial in Playwriting  3

Literature or Theatre Arts Courses or Graduate Creative Process Courses (12 Units)
Upper division/graduate (300 level and above) literature courses in the English or Comparative and World Literature or Theater Arts Departments, to be taken on advisement, with the consent of an M.F.A. advisor.

Theater Arts courses include:

TH A 401  Theatre Backgrounds: 500 B.C. - 1642  3
TH A 660  Advanced Play Development Workshop  3
TH A 705  Playcrafting and Dramaturgy  3

Graduate Creative Writing process courses include:

C W 785  Graduate Projects in the Teaching of Creative Writing  3
C W 806  The Business of Creative Writing  3
C W 810  Seminar in the Creative Process  3
C W 814  Contemporary World Poetry  3
C W 820  Writers on Writing  3
C W 825  Playwright’s Theatre Workshop  3
C W 840  Fourteen Hills Literary Magazine  3
C W 850  Poetry Center Workshop  3
C W 859  Practicum in Teaching  3
C W 860  Teaching Creative Writing  3
C W 866  Craft of Translation  3
C W 867  Theory of Translation  3
C W 875  Community Projects in Literature  3
C W 880  M.F.A. Craft and Process Tutorial in Fiction  3
C W 881  M.F.A. Craft and Process Tutorial in Poetry  3
C W 882  M.F.A. Craft and Process Tutorial in Playwriting  3
C W 899  Independent Study  3

Correlative courses related to the candidate's interests (12 Units)
To be taken upon advisement from an M.F.A. advisor. Sequences and patterns are especially appropriate. The English Department's certificate
in the teaching of reading and composition is an option in this sequence. For students planning a culminating project in playwriting, the following courses in Theatre Arts are acceptable:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>TH A 401</td>
<td>Theatre Backgrounds: 500 B.C. - 1642</td>

</tbody>
</table>

Select 12 units from the Correlative Area listed above

1 May be repeated for credit when topics vary.

2 May be taken for two semesters of credit.

3 May be taken for three semesters of credit.

4 May be taken for six semesters of credit.
CRITICAL SOCIAL THOUGHT

College of Liberal & Creative Arts
Dean: Andrew Harris

Critical Social Thought Program
Humanities Building, Room 304
Phone: (415) 338–2247
Coordinator: James Martel

Program Scope
Critical social theory challenges contemporary forms of political-economic power. In classes and internships, the Minor in Critical Social Thought program draws from Marxism, socialism, anarchism, the Frankfurt School, radical environmentalism and anti-consumerism, postmodernism and post-structuralism, globalization studies, feminism, queer theory, postcolonial and subaltern studies, disability studies, critical race theory, theories of art and visual representation and other systems of thought that pay attention to the questions of power and exploitation in world politics, culture, economics and the formation of identities.

The minor seeks to address the way that so much of contemporary social thought is uncritical. It is guided by the belief that a better world is possible and that social thought has an important role in outlining the form such a world might take and identifying the agents who might be capable of bringing it about.

Applications
Critical social thought serves as a foundation in critical theory that can be applied to a variety of disciplines in the social sciences, humanities and the arts. Critical social thought can be pursued in conjunction with any number of majors enriching and diversifying these fields of study including but not limited to sociology, human sexuality studies, psychology, history, philosophy, women and gender studies, Latina/Latino studies, ethnic studies, political science, international relations, criminal justice, etc. In addition, critical social thought can help establish skills that will be useful in post-graduate careers ranging from careers in social activism and social work to politics, law, health care, policy and many others.

Professors
Biella, Carrillo, D'Agostino, M. Ferreira, Kassiola, Luft, Martel, Nichols, Oñate, Pinderhugues, Quesada, Rivera, Schechter, Steier

Associate Professor
Gordy

Each student shall, in consultation with a faculty advisor, develop an individual program of 15–19 units. Students may also take an internship program in political activism or other related areas in conjunction with these classes to count towards the minor. If the introductory course is not available, other courses can be substituted on advisement.

Critical Social Thought, Minor – 15–19 units
Introduction (3 units)
Overview of the tradition of critical social thought

CST 300/
PLSI 386
Introduction to Critical Social Thought 3

Core – Theory and Pedagogy (6–8 units)
Select at least two courses of the following:
HUM 410 The Modern Revolution 3
PHIL 330 Political Philosophy 3
PLSI 351GW Political Theory: The Classical Tradition - GWAR 4
PLSI 353 Political Theory: The Twentieth Century 4
PLSI/PHIL 355 Politics and Ethics of the Consumer Society 3
PLSI 360 Development of American Political Thought 4
SOC 394 Sociological Field Methods 4
SOC 272 Social Inequality: Poverty, Wealth, and Privilege 4

Electives (6–8 units)
Choose at least two courses from at least two of the following fields:
• Identity and Resistance
• Globalism, Empire, and Social Movements
• Culture as Critical Social Thought

An approved internship may be substituted for 3–4 units of electives.

Identity and Resistance (3–4 units)
ANTH/CAST 320 Racism: Cross-Cultural Analysis 3
ANTH 569/
SXS 567 Cross-Cultural Aspects of Sex and Gender 3
ANTH/CAST 590/

DANCE

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Theatre and Dance
Creative Arts Building, Room 103
Phone: (415) 338–1341
Website: theatredance.sfsu.edu (http://theatredance.sfsu.edu)

Director: Todd Roehrman
Undergraduate Advisors: Performance/Choreography: Ray Tadio, Yutian Wong

Program Scope
The focus of the dance program in the School of Theatre and Dance is to study dance as an art form. The Bachelor of Arts in Dance provides professional preparation in dance and an opportunity to study dance performance, choreography, teaching, and dance theory. The goal of the program is to help students develop strong foundational skills and knowledge necessary for a variety of professional careers. SF State dancers have established their own companies, performed with professional companies, developed careers in K-12 education or supplemented their education with work in private dance or Pilates studios. Graduates have also successfully completed graduate dance studies at major institutions. Students with a major other than dance should investigate both the Minor in Dance and the Minor in World Music and Dance that is offered in the School of Music.

The B.A. is organized into three components: Core, Dance Technique, and Emphasis Electives. Majors must complete a 17-unit core covering basic studies, the body as instrument, and aesthetics and history. Choices are available in the core to gear the student toward their chosen emphasis.

Technique electives offer the student a variety of styles and can be repeated for credit to optimize conditioning and development of expression. A minimum of 12 units of technique classes must be chosen, with 9 units selected from numbers above 200. The faculty recognize that most major students surpass the minimum technique credit level. Students must audition for placement into technique level and can progress to the next level with the consent of the instructor. Students in choreography and performance commonly study two technique areas each semester or study dance conditioning or Pilates in conjunction with technique.

Individualized emphasis electives should be chosen according to career goals in consultation with an advisor. These courses have been chosen and optimally organized for students who wish to pursue dance performance and choreography. Upper division technique courses may be repeated in the emphasis of performance/choreography or musical theatre up to a maximum of 6 units. Three units may be elected from another area of the university with consent of the major advisor. Students should consider the following as culminating experiences in the major: DANC 461 or DANC 399.

Dance Program Concerts
The dance program produces two concerts annually. The New Moves Student Choreography Showcase, and the University Dance Theatre.

• The New Moves Choreography Showcase debuts the work of advanced choreography students. The performance emphasizes the creative process of students experimenting with contemporary choreography and movement exploration. Many lower division majors and minors audition the first week of the fall term to perform in this show.

• The University Dance Theatre is a year-long repertory course for the advanced and versatile dancers. UDT is considered to be the pre-professional performance training company. Acceptance in the company is by audition-only. UDT work with faculty and guest choreographers to learn repertory during the fall semester. The company performs on tour throughout the academic year culminating in the mainstage production in McKenna Theatre and at the American College Dance Festival.

Facilities
Dance facilities are located in three different buildings on campus. The two primary dance-teaching spaces are GYM 146 and Creative Arts 102. Adjacent to the large gym studio is a rehearsal room GYM 123. Locker rooms are available in the Creative Arts Building, near the studio, or in the gymnasium. Dance concerts are primarily held in McKenna Theatre, a 700-seat house in the Creative Arts Building. Informal performances are presented in Knuth Hall and in the Studio, Creative Arts Building, Room 102.

Career Outlook
Career options for dance majors are very diverse. Majors graduating from this program move into a variety of dance-related areas including: performance; choreography; musical theatre work; and teaching in public schools, private studios, and community centers. Other dance-related careers include the completion of certification programs in Pilates/dance conditioning and other somatic practices. SF State's graduates have also been accepted into graduate schools for MFA and doctoral work. Individuals also apply their knowledge and skills gained from the study of dance to careers in arts administration and other related work in non-profit organizations.

The San Francisco Bay Area has a very active and vibrant dance, music, and theatre community with many performance ensembles, training centers, concerts, and arts service organizations. There are many ways for graduates to become involved in this larger dance and arts community.

Teaching opportunities are available throughout the region in private and public schools, private studios, and recreation centers. The State of California requires a teaching credential for employment in the public schools and views dance as a subject area in the field of physical education. To earn a credential, students must follow the subject matter program in physical education with a concentration in dance, a program developed from the B.A. in Dance and from courses in kinesiology. Consult a dance advisor and the credentials page of this Bulletin (p. 28) for credential information.

Associate Professors
Tadio, Wong

Assistant Professor
Davis

Lecturers
Crowley, Diamond, McCarthy
Majors
- Bachelor of Arts in Dance (p. 750)
- Subject Matter Program in Physical Education-Concentration in Dance (p. 536)
(coordinated with Department of Kinesiology)

Minor
- Minor in Dance (p. 756)

Bachelor of Arts in Dance
The Bachelor of Arts in Dance is designed to provide training in dance with an opportunity to emphasize dance performance, choreography, or teaching. The major is organized around a 20 unit core, a minimum of 12 technique units, and 13 units of emphasis electives. Emphasis area courses in dance, music, and related fields should be chosen according to career goals in consultation with an advisor. New majors and minors must take the placement audition on the advising day at the beginning of each semester and/or designated days each semester. It is mandatory that students consult with their advisor on a semester basis and maintain a grade point average of 2.0.

Complementary Studies
Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the Dance major can, with the approval of a Dance Program advisor, satisfy Complementary Studies in the major with 12 units in a single foreign language of their choosing, 12 units from courses taken in a study abroad program, 12 units of courses taken as partial completion of a second major, minor or certificate, or 12 units of courses in related disciplines.
Related disciplines typically include theater, music, cinema, broadcast and electronic communications, creative writing, journalism, kinesiology, physical education, health education, holistic health, biology, elementary education, English, history, anthropology, business, and journalism. The dance program allows up to 12 units of dance-related disciplines to count toward the dance major.

1 Students may take MUS 601 in lieu of MUS 120.

2 Students in the Performance/Choreography Emphasis will typically select from DANC 304, DANC 350, and DANC 430. Students in the Musical Theatre Emphasis will typically select from MUS 612 and TH A 403. Students in World Cultures will typically select DANC 350 and MUS 612.

**SF State Studies**

Courses certified as meeting the SF State Studies may be upper or lower division in General Education (GE), in a major or minor, or an elective.

**Environmental Sustainability (ES)**  LD or UD  3
**Global Perspectives (GP)**  LD or UD  3
**Social Justice (SJ)**  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

### First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 753)

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division
general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AIEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Complementary Studies or SF State Studies or University Elective – Take Two 4

Units 15

**Eighth Semester**

Emphasis Electives (13 Units Total) – Take as Many as Needed to Reach 13 Units 6
GE Area UD–D: Upper Division Social Sciences (Consider SF State Studies Course) 3
Complementary Studies or SF State Studies or University Elective – Take One to Three 4

Units 16

Total Units 120-121

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your major or GE courses.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Students may take MUS 601 in lieu of MUS 120.
4. **Complementary Studies: Bachelor of Arts Degrees**
   Bachelor of Arts students must complete at least twelve units of Complementary Studies outside of the primary prefix for the major. Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Students earning Bachelor of Music or Bachelor of Science degrees do not have to complete the Complementary Studies requirement. Details about Complementary Studies can be found in the Bulletin description for each B.A. degree.
5. **Dance Technique**
   DANC 163
   DANC 173
   DANC 176
   DANC 207 Dance in Cultural Context (1 units)
   DANC 263 Ballet II (2 units)
   DANC 275 Modern Dance II (2 units)
   DANC 276 Modern Jazz Dance II (2 units)
   DANC 311 Alignment/Pilates Mat (1 units)
   DANC 312 Alignment Study/Pilates Mat 2-3 (1 units)
   DANC 363 Ballet III (2 units)
   DANC 374 Modern Dance III (2 units)
   DANC 376 Modern Jazz Dance III (2 units)
   DANC 400 Workshop in Contemporary Dance (1 units)
   DANC 402 Workshop in Jazz/Musical Theatre Dance (1 units)
   DANC 474 Modern Dance IV (2 units)
   DANC 699 Independent Study (1-3 units)
These courses are optimally organized for Performance/Choreography or teaching. Courses selected may be from either emphasis area and aligned with career goals. Six units of technique courses numbered 300 or above may be repeated in this section for credit. Other DANC (p. 1492), TH A (p. 1782), and MUS (p. 1684) prefix courses may be used with advisor’s approval. Three units may be selected from other areas of the university with consent of major advisor.

**Dance Performance and Choreography Emphasis**

- DANC 310 Dance Conditioning/Pilates (3 units)
- DANC 312 Alignment Study/Pilates Mat 2-3 (1 unit)
- DANC 340 Creative Process in Dance for Children (3 units)
- DANC 399 University Dance Theatre (2 units)
- DANC 416 Advanced Contemporary Dance Repertory and Skills (1 units)
- DANC 434 Dance Composition: Choreography II (3 units)
- DANC 461 Advanced Choreography and Production (3 units)
- DANC 463 Performance in Dance Production (1 units)
- DANC 560 Supervised Experience in Dance Education (1-3 units)
- ANTH 657 Ethnology of Dance (3 units)
- DANC 699 Independent Study (1-3 units)

**World Cultures Emphasis**

Select a minimum of four units in MUS

- DANC 207 Dance in Cultural Context (1 units)
- DANC 236 Folklore of Dance: African-Haitian (2 units)
- MUS 545 Traditional Kulintang Music and Dance of the Southern Philippines (3 units)
- ANTH 657 Ethnology of Dance (3 units)
- MUS 386 World Music Ensembles (1 units)
- MUS 388 Jazz Combos (1 units)
- MUS 505 Music of the World’s Peoples (3 units)
- MUS 530 Musics of the Middle East and India (3 units)
- MUS 531 Musics of North and Southeast Asia (3 units)
- MUS 542GW Ethnomusicology - GWAR (3 units)
Minor in Dance

The Minor in Dance consists of a core curriculum of four courses (8 units) plus 10 units taken from a list of electives on advisement. A total of 9 units in the minor must be upper division. Students seeking the minor in Dance must take the placement audition for the study of technique and pass into the next higher level of technique with permission of the instructor. Other dance courses not on this list may be used as electives. Students should take special care to follow prerequisites for upper division courses:

DANC 304 Issues in Dance Medicine I 3
DANC 340 Creative Process in Dance for Children 3
DANC 434 Dance Composition: Choreography II 3
DANC 461 Advanced Choreography and Production 3

For specific dates and times of the placement audition, please contact the School of Theatre and Dance at 415-338-1431 or http://theatredance.sfsu.edu/

DESIGN AND INDUSTRY

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Design
Fine Arts Building, Room 121
Phone: (415) 338-2211
Website: http://design.sfsu.edu
Email: design@sfsu.edu

Interim Director: Christina Sabee
Visual Communication Design Program Coordinator: Josh Singer
Industrial Design Program Coordinator: Silvan Linn
Graduate Program Coordinator: Hsiao-Yun Chu
Study Abroad Coordinators: Hsiao-Yun Chu, Ricardo Gomes

Program Scope
The School of Design offers a Bachelor of Science in Visual Communication Design, a Bachelor of Science in Industrial Design with a concentration in Product Design and Development, a Minor in Industrial Arts, and a Master of Arts in Design.

The Bachelor of Science in Visual Communication Design (BSVCD) is a program for students who intend to focus their studies on visual communication design applications relative to graphic design and digital media. The major addresses a changing technological landscape and the resulting new opportunities for education and the profession in the realm of visual communication design. The design major prepares students for design study, research and practice, as well as flexible collaboration with other disciplines involving technology, user experience, and creative problem-solving.

The Bachelor of Science in Industrial Design with Concentration in Product Design and Development (BSID/PDD) is a program for students who intend to focus their studies on product-oriented design applications. The major addresses the creation of industrial goods and services and concentrates on three principle aspects of design: process, people, and product. The BSID/PDD incorporates the study of user-centered needs, relative to the responsible and resourceful implementation of technology innovation, materials, marketing principles, and aesthetic values.

The Master of Arts in Design program is designed for students who want to pursue professional work in design firms, teaching, project management, strategic planning for design firms, or management roles in technology. We emphasize problem-solving competencies, both conceptual and practical. Students in the program study visual communication design and product design with an interdisciplinary perspective. Students with a wide range of backgrounds work with a graduate advisor to design an M.A. program that meets their career goals. Based upon focused research into a chosen design problem, students develop a specialized area of study in graphic design/visual communication design, product design/manufacturing, industrial technology, project management, or digital media. Many students prepare for doctoral work at other institutions.

The Minor in Industrial Arts is designed to provide students with majors other than Design a broad exposure to applications and benefits of design. Students in the minor will obtain a general knowledge of and a foundation in professional design.

Faculty
Our highly qualified faculty come from a variety of design and technology backgrounds, and play a central role in student advising and the formation of relevant design curricula. Faculty members participate in conferences, consult, attend workshops, and publish and exhibit internationally and are attuned to current trends in design and design education.

Facilities
The school is housed in the Fine Arts Building near the western edge of campus. A wide range of technologies, such as digital media, digital printing, letterpress printing, bookbinding, vinyl cutting, computer-integrated manufacturing, rapid prototyping including 3D printing, digital electronics, metals and wood shops, wireless networking, and large format classroom displays are incorporated into the instructional/learning environment.

Career Outlook

Business and Industry
- Middle Management
- Project Management
- Product Development
- Purchasing
- Field Service
- Technical Services
- Job Development Training
- Marketing/Communications
- Production Coordinator
- Quality Control
- Research Technician

Design
- Product Design
- Visual Communication Design (graphic design and interactive digital media)
- Interdisciplinary

Education
- Teaching
- Curriculum
- Creative Technical Support

Advising
During the first semester in the major all students are required to enroll in the three core prerequisites;

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>DES 323</td>
<td>Visual Design Literacy</td>
<td>3</td>
</tr>
<tr>
<td>DES 356</td>
<td>A History of Design and Technology</td>
<td>3</td>
</tr>
<tr>
<td>DES 370</td>
<td>Introduction to Design and Industry</td>
<td>1</td>
</tr>
</tbody>
</table>

During the DES 370 course, students will meet with an advisor and complete a “Major/Minor contract”.

Students must periodically check with their advisor to update their major advising contract and program goals, students must also meet with their advisor prior to the semester of graduation.
International Track
School of Design majors may enhance their course of study by participating in the official School of Design Study Abroad programs in several locations. Eligible International Track students follow a particular course of study, upon consultation with advising DESIGN faculty, that integrates overseas courses with the approved course requirements in Design. All official SF State Study Abroad students earn SF State resident credit and may use SF State financial aid while participating in the program. For more information, please visit http://oip.sfsu.edu/studyabroad.

Impact
The School of Design undergraduate majors are impacted. This means that there are more students interested in the program than can be accommodated. Therefore, entrance into the majors is a selective and competitive process. Applications must be received during the application filing period and no later than the November 30 deadline. Admissions decisions will be made in March or April of the following calendar year. Transfer applicants not admitted to the program, but who meet GE and University admissions requirements, will be admitted to their alternate majors. Continuing SF State students not admitted to the program will remain in their current majors.

Application Filing Periods
Applications for admission to the majors are accepted by the University during the application filing periods for the fall semester (October 1 to November 30 for admission for the following fall). Applications are not accepted for spring semesters. Applications received outside of the fall semester open filing period will not be considered.

Transfer applicants from other colleges must submit an application via CSU Mentor at http://www.csumentor.edu.

Continuing SF State students must submit a Supplemental Program Application and Change of Major form directly to the School of Design.

Bachelor of Science in Industrial Design: Concentration in Product Design and Development

The Bachelor of Science in Industrial Design with Concentration in Product Design and Development (BSID/PDD) is a program for students who intend to focus their studies on product-oriented design applications. The major addresses the creation of industrial goods and services and concentrates on three principle aspects of design: process, people, and product. The BSID/PDD incorporates the study of user-centered needs, relative to the responsible and resourceful implementation of technology innovation, materials, marketing principles, and aesthetic values.

Industrial Design (B.S.): Concentration in Product Design and Development — 59 Units

Core Prerequisites and Foundation (19 units)
Nineteen units of core prerequisite and foundation courses are required of all DES majors.

Core Prerequisites (7 units)
All three must be taken during the first semester.

### First Time Student Roadmap (4 Year)

This 2017–2018 roadmap (p. 761) opens in a new tab.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer, doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is
not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit [http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL](http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL).

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.
## Bachelor of Science in Industrial Design: Concentration in Product Design and Development Roadmap

| Units | 15 |

| Total Units | 120-121 |

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. Electives

- ACCT 100 Introduction to Financial Accounting (3 units)
- or ACCT 300 Accounting and Finance Reporting (3 units)
- DES 210 Industrial Science (3 units)
- DES 332 Electricity and Electronics (3 units)
- DES 340 Design and Materials (3 units)
- DES 342 Metals Manufacturing (3 units)
- DES 360 Model Development Laboratory (3 units)
- DES 475 Topics in Design and Industry (3 units)
- DES 524 Information Design 2: Exhibit Design (3 units)
- DES 575 Workshop (3 units)
- or DES 576 Practical Experience: Internship (3 units)
Bachelor of Science in Visual Communication Design

The Bachelor of Science in Visual Communication Design (BSVCD) is a program for students who intend to focus their studies on visual communication design applications relative to graphic design and digital media. The major addresses a changing technological landscape and the resulting new opportunities for education and the profession in the realm of visual communication design. The design major prepares students for design study, research, and practice, as well as flexible collaboration with other disciplines involving technology, user experience, and creative problem-solving.

Visual Communication Design (B.S.) — 58 units

Core Prerequisites and Foundation (19 units)

Nineteen units of core prerequisite and foundation courses are required of all DES majors.

Core Prerequisites (7 units)

All three must be taken during the first semester.

Note: LD = Lower Division; UD = Upper Division.

763
First Time Student Roadmap (4 year)

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   • a course in U.S. History
   • a course in U.S. & California Government
   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

   • Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</table>

Total Units: 120-122

---

1. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

3. **Major Requirements (Three Total)**
   - DES 425 Graphic Design 2: Typography (3 units)
   - DES 427 Digital Media 2 (3 units)
   - DES 525 Graphic Design 3: Advanced (3 units)
   - DES 527 Digital Media 3 (3 units)
   - DES 627 Advanced Projects in Visual Communication Design (3 units)
Minor in Industrial Arts

A minor in Industrial Arts consists of 22 units that are largely chosen with an advisor to tailor the minor to the student’s goals. One-half of the course work for the minor must be taken at the upper division level.

Select courses with approval of DES advisor 12

Master of Arts in Design

Graduate Advisors: Chu, Chen, Gomes, Linder, Linn, Singer, Trogu

The Master of Arts in Design curriculum provides students with the opportunity to:

• Develop a specialized advanced study area in design and design technology, design, and industrial studies.
• Prepare for doctoral study in other institutions which emphasize research and professional development in relation to the various aspects of technology.

This program is designed for students who want to:

• Pursue professional development related to teaching, training, or administration in program areas related to industrial and technology education.
• Study visual communication design/graphic communications and/or product design development from both an interdisciplinary as well as cross-disciplinary perspective.
• Develop further expertise in a specific area of design studies through an individual, interdisciplinary-based program of study that focuses on specific goals.

Students pursuing this program come from a variety of occupational areas including: education, service occupations, manufacturing, product design, visual communication design, management, electronics, construction, power and energy, and small business entrepreneurship. Employment opportunities include preparation for career advancement/enhancement through advanced study in design and related disciplines, acquisition of additional technical skills, and continued research and development activity.

Admission to Program

The application process to the graduate program is a dual process. One application for the University and a second application for the School of Design. The School of Design graduate application requires a statement of purpose, a résumé, three letters of recommendation, and a portfolio, evidence of creative, technical, or written work. The program admits in the fall only. Deadline for admission materials is May 1[1]. Additionally, the University requires a bachelor's degree or a recognized equivalent from a regionally accredited institution and a satisfactory scholastic average; a minimum grade-point average (GPA) of 3.0.

Students entering this program normally present an undergraduate major in design, engineering, fine arts, industrial arts, or industrial technology subject major. Priority will be given to applicants who have at least one year between completion of undergraduate degree and professional work experience. The school does accept students with other undergraduate majors in cases where students desire to make career changes or do advanced study in design or technology related subject matter for enhancing career development and professional growth. For non-majors, a minimum of 12 additional conditional status units are required by advisement encompassing such areas as design, product design, visual communications design, graphic design, and basic tools, materials, processes knowledge and skills. Conditional status students are required to have a portfolio review with the school graduate committee upon completion of their 12 unit upper division undergraduate DES courses. The review will commence prior to transitioning to classified status. Students may be required to enroll in additional upper division undergraduate DES classes prior to transitioning to classified status. Classified status is required for enrollment in the following classes:

<table>

<td>3</td>
</tr>
</tbody>
</table>

Advancement to Candidacy

A student is advanced to candidacy for a degree when the Advancement to Candidacy (ATC) is accepted and approved by the Dean of Graduate Studies. All conditions placed on conditionally classified status must be satisfied before a student develops an ATC. For conditionally classified students (42 units), there is a conditional status review before a student is eligible to enroll in 800 level coursework. The Advancement to Candidacy and culminating experience Creative Work Project (CWP) should be filed in the semester immediately preceding registration for the final six units of graduate work. It is the student’s responsibility to monitor his/her progress and to work with appropriate school advisors filling out university forms as necessary and meeting published deadlines.

Students enrolled in the culminating experience CWP, must complete their culminating experience within two (consecutive) semesters. Students who fail to complete the CWP within two semesters are required to pay a re-enrollment fee for each additional semester until the CWP has been completed. NOTE: Creative Work Oral Defense Presentation (a requirement for degree) is conducted spring semester only.

Students are required to complete their Creative Work Project within five years.

Students who do not complete the culminating experience requirement (DES 894 or DES 898) in the semester they are enrolled or immediate subsequent semester, are required to maintain continuous enrollment through the College of Extended Learning (CEL) until the degree is earned. Students in the CEL course will have access to library and discipline-specific laboratories. The five-year “time to degree” is in effect. Students in the culminating experience continuous enrollment program should maintain frequent contact each semester with their advisor and meet all timelines outlined in the culminating experience proposal document (see policy on Graduate Studies website grad.sfsu.edu [http://grad.sfsu.edu]).

Students who have left the University for more than one semester while completing coursework are not guaranteed readmission to their program.
Written English Proficiency Requirement
As stated in the graduate studies section of the University Bulletin, each graduate student must demonstrate the ability to write American English correctly and effectively.

Level One
It is recommended but not required that applicants submit a GRE Analytical Writing Exam with a score of 4 or higher. Applicants who need additional work writing American English as determined by faculty/advisors will be referred to appropriate courses and/or resources on campus.

Level Two
Students will meet this requirement by the successful completion of the written phase of the culminating experience work that is part of either the Creative Work Project (DES 894) or Master’s Thesis (DES 898).

Note: It is school policy that a student must have a comprehensive written proposal approved by the school within one semester prior to enrolling in either DES 894 or DES 898.

Upper division courses may be selected with prior approval of the graduate advisor.

Literature: Julie Paulson
TESOL: David Olsher

English

Program Scope
The Bachelor of Arts in English typically includes introductory course work in the study of language, the principles of critical investigation and critical writing, and the various methods of literary and/or language study. The requirements for each concentration are intended to make each student familiar with one of the principal areas of English studies, and to show how other areas of English studies can illuminate his or her area of concentration.

The Master of Arts in English with Concentration in Literature develops professional skills, ensures breadth of knowledge, and provides opportunities for specialization. Broader relationships are studied in the survey, period, and genre courses; narrower, deeper investigations are undertaken in other seminars. The thesis explores critical possibilities well beyond the range of the seminar paper. It measures the candidate's ability to isolate and thoroughly examine a particular literary problem, theme, or idea.

The Master of Arts in English with Concentration in Linguistics provides students with a solid grounding in the tools of language analysis. The course offerings in contemporary linguistic theory cover a broad spectrum of the levels of linguistic structure: phonetics, phonology, morphology, syntax, semantics, discourse analysis, psycholinguistics, and sociolinguistics. Since the program allows considerable choice in course work beyond a basic set of core requirements, the student in consultation with an advisor can plan a program to suit individual interests and career requirements.

The Master of Arts in English with Concentration in Teaching English to Speakers of Other Languages (TESOL) is offered as a result of a local, national, and international demand for persons prepared to perform various services in English as a foreign or second language. This concentration includes work in literature and foreign languages, with electives in education and the social sciences, as well as specialized work at an advanced level in linguistics and language teaching. The concentration provides training for teachers and a suitable background for supervisors and others responsible for the preparation of materials and courses of study in English as a foreign or second language. Completion of the M.A. in English TESOL program may not fulfill the requirements for teacher credentialing in the State of California; some California credentials may require additional course work and/or examinations.

The Masters in English with a Concentration in Composition provides students with a broad background in the theory, research, policy, and practice of teaching composition and postsecondary reading to diverse student populations.

The Certificate in the Teaching of Composition prepares students to teach composition at the secondary and post-secondary levels. It also provides experienced teachers with an opportunity to deepen their understanding of theory and practice in the field.

The Certificate in the Teaching of Post-Secondary Reading enables prospective and already practicing post-secondary teachers to attain proficiency in the teaching of reading at community college, college, and adult levels. Requirements for teaching reading in the community colleges (Assembly Bill 1725) specify that new instructors must possess a master's degree in education with a specialization in reading, or a master's in English or TESOL with additional certification in the teaching of reading.

The Certificate in Immigrant Literacies represents an innovative graduate-level program for pre-service and in-service professionals who wish to combine cross-disciplinary study of language, literacies, and the immigrant experience with community service learning. The Certificate program primarily targets matriculated graduate students preparing for careers in adult ESOL (English to Speakers of Other Languages), health, community development, and other careers that serve the needs of immigrant groups, as well as professionals who are already working in these careers. Certificate students learn about the influence of language and literacies in a specific social context (e.g., health) and hone community partnership skills for meaningful advocacy and collaboration within the local community. The program's broader goals aim to foster the commitment, knowledge, and skills that are fundamental to proactive civic engagement.

Career Outlook
The English major can lead to a rewarding career in teaching as well as in professional fields such as law, publishing, information science, and business.

Students completing the Master of Arts with Concentration in Composition typically either teach at community colleges or go on to doctoral work with a view to teaching at a college or university. At the university level, specialists in composition and rhetoric are in increasing demand as researchers and directors of undergraduate writing programs. Two-year colleges are increasingly recognizing the need for professional training in the teaching of composition and are hiring accordingly.

While the Master of Arts with Concentration in Literature is specifically designed to help prepare a student for a career in teaching literature in community colleges or high schools in the United States or other countries, or for going on to a doctoral program, it has a far broader application. Any career requiring communication, research or analytic skills, literacy, a careful scholarly approach and a broad understanding of human values may use this program as a base. Those include publishing,
The Master of Arts with Concentration in Linguistics prepares students for a variety of teaching and research positions in which the emphasis is on the structure of language. Graduates of the program may teach English language or writing, work in the fields of speech production or speech recognition, or go on to further study in linguistics or related disciplines.

The Master of Arts with Concentration in Teaching English to Speakers of Other Languages (TESOL) prepares students specifically to teach English to non-native speakers of the language. Most graduates of the program become TESOL classroom teachers in adult education classes, public schools, intensive language programs, and colleges either in the United States or foreign countries. Others choose jobs in related areas such as program administration, curriculum design, materials writing, and teacher training.

The Certificate in the Teaching of Composition prepares students for teaching composition at the advanced secondary, community college, and college levels. Many students in M.A. programs other than Composition take the certificate as a means of preparing themselves for teaching composition in two-year colleges. In addition, a number of two-year college and high school English teachers take the courses to develop their expertise in composition.

The Certificate in Teaching Post-Secondary Reading enables prospective and already practicing post-secondary teachers to develop their ability to meet specific individual professional needs in the area of basic literacy and reading instruction. This certificate prepares students for teaching positions in the community colleges and community agencies where specialized background and techniques are necessary.

The Certificate in Immigrant Literacies program prepares students to work in community-based adult CMS/literacy settings as adult CMS teachers and/or community partners with adult CMS programs. Students who graduate with a Certificate also find jobs in related areas, including CMS curriculum development, materials writing, community-based participatory research, community organizing, grant-writing, and partnership building.

Technical and Professional Writing Program

Program Scope

Technical and professional writers are in demand to link ideas, technologies, products, and services with people who need to understand those developments or to use them. The Technical and Professional Writing Program can prepare students for that critical communications role through major, minor, and certificate programs.

Technical and professional writers work in almost every field of industry and public life, including high-technology industries, business, government, and research and non-profit organizations. These career writers not only write and edit many types of documents in different media, but also sometimes design publications, manage and evaluate documentation and communication projects, and oversee development, production, and distribution processes.

To be best prepared for success in such work, students will need to start with strong writing skills then learn how to adapt them for the workplace and for changing technology and employment needs. Students also will need an intellectual framework for continuing professional growth and responsibility throughout their careers, including a solid grounding in humanistic studies, with an emphasis on analytical and ethical practices relevant for the workplace.

TPW students can combine TPW courses—which expose them to current workplace forms, methods, standards, and issues—with interdisciplinary electives that further develop related communications skills and attitudes. Students also can target a potential employment interest: Majors choose a specialized concentration (the subject matter focus); minors and certificate students can use TPW studies to complement their education and experience in other fields.

After completing the TPW program, students can begin their writing careers with important accomplishments and advantages: an academic degree or certificate in the field, improved and focused skills, an understanding of professional expectations and best practices for writers, and a portfolio of relevant writing samples.

Career Outlook

Depending on students’ choices of subject matter focus and/or skills electives, students would be prepared for entry-level jobs as writers, editors, desktop or multimedia publishers, information developers and designers, and/or communications managers producing and overseeing technical documentation, content management systems, training or support materials, reports or proposals, and promotions or publicity.

Graduate Programs in English

Advising is central to the program. Students must see their advisors to shape their programs initially, to gain approval for course choices, and to prepare for the oral examination. For more detailed information on obtaining advising, please contact the English department graduate secretary.

All M.A. candidates who wish to receive the Single Subject Teaching Credential concurrently with the M.A. should confer with an appropriate advisor in the College of Education.

Professors

Carleton, Christmas, Goen-Salter, Green, Hanley, Klironomos, Krasny, Lyles, Peel, Rehling, Roberge, Schoerke, Soliday, Stec, Trainor, Voloshin

Associate Professors

Abeywickrama, Cannon, Hackenberg, Jones, Kwok, Lindeman, Lockhart, Mylander, Olisher, Paulson, Santos, Shahani

Assistant Professors

DeGuzman, Gilligan, Kohls, Lederer, Morris, Smirnova, Star, Wardley

 Majors

Certificates

- Certificate of Immigrant Literacies (p. 804)
- Certificate in the Teaching of Composition (p. 805)
- Certificate in Teaching Post-Secondary Reading (p. 804)

Bachelor of Arts in English: Concentration in English Education

General Information

Students considering teaching in the secondary schools should see a departmental credential advisor before planning their program. Specific courses and an assessment of competencies are required for admission to the Secondary Education Credential program. Students should also contact the Credential and Graduate Services Center, Burk Hall 244, (415) 405–3594, regarding teaching credential information.

English majors with concentrations in Literature, Linguistics, or Individual Major are required to complete a 45 unit program consisting of six units of lower-division prerequisites, 15 units of core requirements, 21 units in an area of concentration, and three units of culminating experience. English majors with a concentration in English Education must complete six units of lower-division prerequisites, 12 units of core requirements, between 23 and 26 units in the concentration (including three units of culminating experience), plus 12 to 22 units in an area of emphasis.

A maximum of nine units of work in lower-division literature courses may be accepted for credit in the major upon consent of an advisor.

Advanced Placement (A.P.) credit in composition cannot be used to fulfill the lower division literature requirement in the major or minor.

Completion of ENG 480GW with a grade of C or higher fulfills the Graduation Writing Assessment Requirement (GWAR) for all English majors.

Culminating Experience must be completed during either the final semester, or one of the semesters of the student’s final (senior) year, depending on the English major concentration. For more information, please refer to the relevant major concentration section in this Bulletin.

English (B.A.): Concentration in English Education — 53 units

Lower Division (6 units)

Two lower division courses in literature (to be taken as prerequisite or corequisite with ENG 480GW. One of these courses may also satisfy the "Mythology and Oral Traditions" requirement in the English Education Concentration.

Core Requirements (12 units)

Emphasis
In addition, candidates must complete one of the following four emphasis areas.

Emphasis: Literature (12 units)
ENG 460 Literature in English I: Beginnings through the 17th Century 3
ENG 690 Senior Seminar (variable topics; see current Class Schedule) 3
Select one course in theory or criticism 3
Select one additional upper-division elective 3
Total for Major: 53–56

Emphasis: Linguistics (12–15 units)
ENG 421 SYNTAX 3
ENG 422 History of the English Language 3
ENG 424 Phonology and Morphology 3
ENG 425 Language in Context (if not used to satisfy Applied Linguistics above) 3
Select an additional linguistics elective with approval of advisor 3
Total for Major: 53–59

Emphasis: Creative Writing (15 units)
C W 301 Fundamentals of Creative Writing 3
C W 302 Fundamentals of Creative Reading 3
Craft of Writing
Select one of the following: 3
C W 511GW Craft of Poetry - GWAR
C W 512GW Craft of Fiction - GWAR
C W 513GW Craft of Playwriting - GWAR
Upper-Division Creative Writing Electives
Select two upper-division Creative Writing electives (workshop or creative process classes in Creative Writing) 6
Total for Major: 56–59

Emphasis: Drama 5 (19–22 units)
Lower-Division Acting
TH A 130 Acting Workshop I 3
TH A 230 Acting Workshop II 3
Stage Production, General and Technical Theatre
TH A 205 Introduction to Technical Theatre and Design 2
Select one of the following: 2
TH A 310 Scenery and Properties Laboratory and Crew
TH A 312 Costuming and Makeup Laboratory and Crew
TH A 313 Lighting and Sound Laboratory and Crew
Theatre Backgrounds
Select one of the following: 3
TH A 401 Theatre Backgrounds: 500 B.C. - 1642
TH A 402 Theatre Backgrounds: 1642 - 1900
TH A 403 Theatre Backgrounds: 1900 - Present
Acting and Directing
Upper division courses — one may be used for Speech Performance 6-9 above, which would reduce the English Education requirements by 1 unit
Total for Major: 59–66

Important Notes
1. Students must have a GPA of 2.0 or higher in the major, and no grade in the major lower than C– (except for ENG 480GW, which requires a grade of C or higher).
2. Only courses in which students earn a B– or better will count towards subject matter competency for admission into a California credential program. Students who earn lower grades in any of the courses required for their major will need to take the California Subject Examination for Teachers (CSET) to establish subject matter competency.
3. Admission to the credential program at SF State requires a GPA of 2.75 (B–) or better.
4. Check with an English Education advisor for specific courses that meet the requirements in the English Education concentration and with an advisor in your emphasis area to ensure that your electives are approved.
5. Candidates pursuing an emphasis in drama should see a minor advisor in Theatre Arts to learn how to supplement the English Education major with a minor. The drama emphasis area allows substitutions in the English Education Concentration. See an advisor if you are considering this area.

Candidates with a particular interest in communication studies or comparative and world literature can pursue special strands within those majors for subject matter competency in English.

Electronic Portfolio
Candidates in English Education must register for ENG 688 during their final semester, when they will compile an electronic portfolio to demonstrate that they have met all of the core outcomes of the Single Subject Program. They should include artifacts—examples of their work, and faculty and peer comments on their work—and reflections that explicitly tie elements of the artifacts to the outcome statements.

Complementary Studies Requirement for English Majors
Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.

1. Foreign Language: 12 units in a single foreign language;
2. 2nd Major, Minor, or Certificate: 12 units of course work taken as part of a second major, a minor or a certificate;
3. Study Abroad: 12 units of course work taken in an approved study abroad program (such as CSU Study Abroad);
4. Related Subjects: 12 units of course work in related disciplines with the approval of an English Department advisor.

Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign
Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field.

Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
| Environmental Sustainability (ES)           | LD or UD | 3 |
| Global Perspectives (GP)                    | LD or UD | 3 |
| Social Justice (SJ)                          | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

### First Time Student Roadmap (4 Year)

This 2017–2018 roadmap opens in a new tab.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken.
Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP; ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.

   - Foreign Language: 12 units in a single foreign language;
   - Second Major / Minor / Certificate: 12 units of course work taken as part of a second major, a minor or a certificate;
   - Study Abroad: 12 units of course work taken in an approved study abroad program (such as CSU Study Abroad);

5. Related Subjects: 12 units of course work in related disciplines with the approval of a English Department advisor. Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, 6 units must be from classes in a non-literary related field. Depending on concentration within the major, CS pathway, and with approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.
Emphasis: Literature (12 units)
ENG 460 Literature in English I: Beginnings through the 17th Century
ENG 690 Senior Seminar (variable topics; see current Class Schedule)
Select one course in theory or criticism
Select one additional upper-division elective

Emphasis: Linguistics (12 – 15 units)
ENG 421 SYNTAX
ENG 422 History of the English Language
ENG 424 Phonology and Morphology
ENG 425 Language in Context (if not used to satisfy Applied Linguistics above)
Select an additional linguistics elective with approval of advisor

Emphasis: Creative Writing (15 units)
C W 301 Fundamentals of Creative Writing
C W 302 Fundamentals of Creative Reading
Craft of Writing – Select one of the following:
C W 511GW Craft of Poetry - GWAR
C W 512GW Craft of Fiction - GWAR
C W 513GW Craft of Playwriting - GWAR
Upper-Division Creative Writing Electives
Select two upper-division Creative Writing electives (workshop or creative process classes in Creative Writing)

Emphasis: Drama 5 (19 – 22 units)
Lower-Division Acting
TH A 130 Acting Workshop I
TH A 230 Acting Workshop II
Stage Production, General and Technical Theatre
TH A 205 Introduction to Technical Theatre and Design
Select one of the following:
TH A 310 Scenery and Properties Laboratory and Crew
TH A 312 Costuming and Makeup Laboratory and Crew
TH A 313 Lighting and Sound Laboratory and Crew
Theatre Backgrounds
Select one of the following:
TH A 401 Theatre Backgrounds: 500 B.C.-1642
TH A 402 Theatre Backgrounds: 1642-1900
TH A 403 Theatre Backgrounds: 1900-Present
Acting and Directing
Upper division courses — one may be used for Speech Performance above, which would reduce the English Education requirements by 1 unit

Mythology and Oral Traditions
AIS 162 American Indian Oral Literature
CLAS 230 Ancient Epic Tales
CWL 250 Fables and Tales
CWL 260 Myths of the World
CWL 421 Celtic Literature
ENG 636 Greek and Roman Myth and Modern Literature
LTNS 435 Oral History Methods: Theory and Practice
Bachelor of Arts in English: Concentration in Individual Major

General Information

Students considering teaching in the secondary schools should see a departmental credential advisor before planning their program. Specific courses and an assessment of competencies are required for admission to the Secondary Education Credential program. Students should also contact the Credential and Graduate Services Center, Burk Hall 244, (415) 405-3594, regarding teaching credential information.

English majors with concentrations in Literature, Linguistics, or Individual Major are required to complete a 45 unit program consisting of six units of lower-division prerequisites, 15 units of core requirements, 21 units in an area of concentration, and three units of culminating experience. English majors with a concentration in English Education must complete six units of lower-division prerequisites, 12 units of core requirements, between 23 and 26 units in the concentration (including three units of culminating experience), plus 12 to 22 units in an area of emphasis.

A maximum of nine units of work in lower division literature courses may be accepted for credit in the major upon consent of an advisor.

Advanced Placement (A.P.) credit in composition cannot be used to fulfill the lower-division literature requirement in the major or minor.

Completion of ENG 480GW with a grade of C or higher fulfills the Graduation Writing Assessment Requirement (GWAR) for all English majors.

Culminating Experience must be completed during either the final semester or one of the semesters of the student’s final (senior) year, depending on the English major concentration. For more information, please refer to the relevant major concentration section in this Bulletin.

English (B.A.): Concentration in Individual Major — 45 units

Lower-division (6 units)

Lower-division coursework in literature in English (prerequisite for or corequisite with ENG 480GW).

Core Requirements (15 units)

Concentration: Individual Major (21 units)

The Individual Major program serves those students who have defined an interdisciplinary course of study they wish to follow. This course of study typically requires one or more courses in non-literary subject areas or disciplines; it also may require more units outside of the ENG course prefix than are allowed for Literature concentrators (9 units). A student wishing to enroll in the Individual Major must present a compelling interdisciplinary idea to a faculty member who might serve as the student’s advisor. If accepted, a coherent plan for the student’s Individual Major concentration units is then worked out in close consultation with the faculty advisor.

Culminating Experience (3 units)

<table>
<thead>
<tr>

<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 690</td>
<td>Senior Seminar</td>
<td>3</td>
</tr>
</tbody>
</table>

This course must be completed during one of the semesters of the final (senior) year.

A list of undergraduate advisors is available in the department office (HUM 484) or on english.sfsu.edu (http://english.sfsu.edu).

Students must have a GPA of 2.0 or higher in the major, and no grade in the major lower than C– (except for ENG 480GW, which requires a grade of C or higher).

Complementary Studies Requirement for English Majors

Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.

1. Foreign Language: 12 units in a single foreign language;
2. 2nd Major, Minor, or Certificate: 12 units of course work taken as part of a second major, a minor or a certificate;
3. Study Abroad: 12 units of course work taken in an approved study abroad program (such as CSU Study Abroad);
4. Related Subjects: 12 units of course work in related disciplines with the approval of an English Department advisor.

Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field.

Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.
Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Major Core: Survey Course – Take One ⁵ | 3
Complementary Studies or SF State Studies or University Elective – Take Two ⁴ | 3
---|---|---
**Units** | **Total Units** | **120-122**

1. To avoid taking additional units, it is recommended that you meet LL&D and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. Complementary Studies
Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.
1. Foreign Language: 12 units in a single foreign language;
2. 2nd Major, Minor, or Certificate: 12 units of course work taken as part of a second major, a minor or a certificate;
3. Study Abroad: 12 units of course work taken in an approved study abroad program (such as CSU Study Abroad);
4. Related Subjects: 12 units of course work in related disciplines with the approval of an English Department advisor.

Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field. Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

5. Major Survey Course
ENG 460 Literature in English I: Beginnings through the 17th Century (3 units)
ENG 461 Literature in English II: 18th and 19th Centuries (3 units)
ENG 462 Literature in English III: The Twentieth Century (3 units)
# Bachelor of Arts in English: Individual Major Concentration – ENGL

## Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in English. Six lower division units in the major and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information ([http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students](http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students)).

NOTE: The Individual Concentration is recommended only for students who have matriculated in another English concentration (Literature, Linguistics, English Education), and then decide to pursue a more interdisciplinary course of study in consultation with a faculty advisor. In all cases, students who wish to change majors within English should do so during their first semester at SF State, in consultation with a faculty advisor.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–15 Units**
- ENG 214 or equivalent A4 course (0 units): satisfied via completion of English AA-T
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C and D (9 units): Check for literature courses approved for UD GE (C) that also satisfy major requirements.
- Students entering this major with the AA-T in English are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**English (Individual) Major: 39 Units**
Six lower division units met in transfer; see major advisor regarding how to apply these and additional units, if any.
- Major Core/GWAR (15 units)
- Major Concentration (21 units): Select in consultation with an advisor.
- Culminating Experience (3 units): ENG 690

**University Electives: Six or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.
Bachelor of Arts in English: Concentration in Linguistics

General Information

Students considering teaching in the secondary schools should see a departmental credential advisor before planning their program. Specific courses and an assessment of competencies are required for admission to the Secondary Education Credential program. Students should also contact the Credential and Graduate Services Center, Burk Hall 244, (415) 405–3594, regarding teaching credential information.

English majors with concentrations in Literature, Linguistics, or Individual Major are required to complete a 45 unit program consisting of six units of lower-division prerequisites, 15 units of core requirements, 21 units in an area of concentration, and three units of culminating experience. English majors with a concentration in English Education must complete six units of lower-division prerequisites, 12 units of core requirements, between 23 and 26 units in the concentration (including three units of culminating experience), plus 12 to 22 units in an area of emphasis.

A maximum of nine units of work in lower division literature courses may be accepted for credit in the major upon consent of an advisor.

Advanced Placement (A.P.) credit in composition cannot be used to fulfill the lower-division literature requirement in the major or minor.

Completion of ENG 480GW with a grade of C or higher fulfills the Graduating Writing Assessment Requirement (GWAR) for all English majors.

Culminating Experience must be completed during either the final semester or one of the semesters of the student’s final (senior) year, depending on the English major concentration. For more information, please refer to the relevant major concentration section in this Bulletin.

English (B.A.): Concentration in Linguistics — 45 Units

Lower-division (6 Units)

Two lower-division courses in literature (to be taken as prerequisite or corequisite with ENG 480GW).

Core Requirements (15 Units)

Students must have a GPA of 2.0 or higher in the major, and no grade in the major lower than C- (except for ENG 480GW, which requires a grade of C or higher).

Complementary Studies Requirement for English Majors

Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.

1. Foreign Language: 12 units in a single foreign language;
2. 2nd Major, minor, or certificate: 12 units of coursework taken as part of a second major, a minor or a certificate;
3. Study Abroad: 12 units of coursework taken in an approved study abroad program (such as CSU Study Abroad);
4. Related Subjects: 12 units of coursework in related disciplines with the permission of an English Department advisor.

Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field.

Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 788)

Transfer Student Roadmap (2 Year)
For students with an AA-T in English. This roadmap opens in a new tab. (p. 790)

This degree program is an approved pathway (“similar” major) for students earning the ADT in English
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferrable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if
course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</tbody>
</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Complementary Studies Requirement for English Majors**
   Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.
   1. Foreign Language: 12 units in a single foreign language;
   2. 2nd Major, minor, or certificate: 12 units of coursework taken as part of a second major, a minor or a certificate;
   3. Study Abroad: 12 units of coursework taken in an approved study abroad program (such as CSU Study Abroad);
   4. Related Subjects: 12 units of coursework in related disciplines with the approval of an English Department advisor.

   Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field. Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.
5. **Upper-Division Survey Courses**
   ENG 460 Literature in English I: Beginnings through the 17th Century (3 units)
   ENG 461 Literature in English II: 18th and 19th Centuries (3 units)
   ENG 462 Literature in English III: The Twentieth Century (3 units)
Bachelor of Arts in English: Concentration in Linguistics – ENGL Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in English. Six lower division units in the major and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

San Francisco State University Bulletin 2017-2018 Bachelor of Art s in English: Concentration in Linguistics – ENGL Associate Degree for Transfer Roadmap
To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–15 Units**
- ENG 214 or equivalent A4 course (0 units) – satisfied via completion of English AA-T.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C and D (9 units)
- Students entering this major with the AA-T in English are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**English (Linguistics) Major: 36–39 Units**
Six lower division units met in transfer; see dept. advisor regarding how to apply additional units, if any.
- Major Core/GWAR (15 units)
- Major Concentration/Linguistics (9 units)
- Major Concentration/Electives (9–12 units): Select in consultation with an advisor.
- Culminating Experience (3 units): ENG 422. Must be taken in final semester of the final year.

**University Electives: Six or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.
Bachelor of Arts in English: Concentration in Literature

General Information
Students considering teaching in the secondary schools should see a departmental credential advisor before planning their program. Specific courses and an assessment of competencies are required for admission to the Secondary Education Credential program. Students should also contact the Credential and Graduate Services Center, Burk Hall 244, (415) 405-3594, regarding teaching credential information.

English majors with concentrations in Literature, Linguistics, or Individual Major are required to complete a 45 unit program consisting of six units of lower division prerequisites, 15 units of core requirements, 21 units in an area of concentration, and three units of culminating experience. English majors with a concentration in English Education must complete six units of lower division prerequisites, 12 units of core requirements, between 23 and 26 units in the concentration (including three units of culminating experience), plus 12 to 22 units in an area of emphasis.

A maximum of nine units of work in lower-division literature courses may be accepted for credit in the major upon consent of an advisor.

Advanced Placement (A.P.) credit in composition cannot be used to fulfill the lower-division literature requirement in the major or minor.

Completion of ENG 480GW with a grade of C or higher fulfills the Graduation Writing Assessment Requirement (GWAR) for all English majors.

Culminating Experience must be completed during either the final semester or one of the semesters of the student’s final (senior) year, depending on the English major concentration. For more information, please refer to the relevant major concentration section in this Bulletin.

A maximum of nine units of literature classes from other departments (such as Comparative and World Literature) may be accepted for credit in the major upon consent of an advisor.

English (B.A.): Concentration in Literature — 45 Units

Lower-division Prerequisites/Corequisites (6 Units)
Two lower-division courses in literature (to be taken as prerequisite or corequisite with ENG 480GW.

Core Requirements (15 Units)

</tbody>
</table>

Concentration: Literature (24 Units)
- One course in linguistics with the approval of advisor.
- One course in theory or criticism with the approval of advisor.

- One course in Global Literatures in English with the approval of advisor.

Electives
Students must fulfill a 12 unit pre-1800 distribution requirement. This can be done with either one of these elective courses or ENG 690 if it is in a pre-1800 literary subject.

Culminating Experience
This course must be completed during one of the semesters of the final (senior) year; if the course is in a pre-1800 literary subject, it may also fulfill the pre-1800 distribution requirement.

<table>

Students must have a GPA of 2.0 or higher in the major, and no grade in the major lower than C− (except for ENG 480GW, which requires a grade of C or higher).

Complementary Studies Requirement for English Majors
Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.

1. Foreign Language: 12 units in a single foreign language;
2. 2nd Major, Minor, or Certificate: 12 units of course work taken as part of a second major, a minor or a certificate;
3. Study Abroad: 12 units of course work taken in an approved study abroad program (such as CSU Study Abroad);
4. Related Subjects: 12 units of course work in related disciplines with the approval of an English Department advisor.

Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field.

Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

This degree program is an approved pathway ("similar" major) for students earning the ADT in English

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www.assist.org](http://www.assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:
• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3 Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4 Complementary Studies Requirement for English Majors

Twelve units of complementary studies are required of all candidates in any of the four concentrations (Literature, Linguistics, English Education and Individual Major) in the Bachelor of Arts degree in English. These units must come from courses bearing a prefix other than ENG, and must not be cross-listed with ENG. English majors will be offered four pathways for satisfying this requirement; each pathway is designed to facilitate graduation in a timely manner.

1. Foreign Language: 12 units in a single foreign language;
2. 2nd Major, Minor, or Certificate: 12 units of course work taken as part of a second major, a minor or a certificate;
3. Study Abroad: 12 units of course work taken in an approved study abroad program (such as CSU Study Abroad);
4. Related Subjects: 12 units of course work in related disciplines with the approval of an English Department advisor.

Related subjects typically include (but are not limited to) Comparative and World Literature, Classics, Creative Writing, Ethnic Studies, Foreign Languages, History, Journalism, and Women and Gender Studies. For this option, six units must be from classes in a non-literary related field. Depending on the concentration within the major, CS pathway, and with the approval of a departmental advisor, up to 12 units from courses with non-ENG prefixes that count towards the Complementary Studies requirement may also count as English electives in fulfillment of Major requirements.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

5 Students must fulfill a 12 units pre-1800 distribution requirement. This can be done with either one of these elective courses, or ENG 690, if it is in a pre-1800 literary subject.
Bachelor of Arts in English: Concentration in Literature – ENGL Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in English. Six lower division units in the major and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

<th>Total Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>15</td>
<td>60</td>
</tr>
</tbody>
</table>

1 Within the 12 units of electives, take one three unit course to satisfy the pre-1800 distribution requirement. However, if the ENG 690 topic addresses a pre-1800 literary subject, this can fulfill the pre-1800 distribution requirement instead.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–15 Units**

- ENG 214 or equivalent A4 course (0 units) – satisfied via completion of English AA-T.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer.
- Upper division GE, areas B, C and D (9 units): Check for literature courses approved for UD GE (C) that also satisfy major requirements.
- Students entering this major with the AA-T in English are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**English (Literature) Major: 39 Units**

Six lower division units met in transfer; see major advisor regarding how to apply these and additional units, if any.

- Major Core/GWAR (15 units)
- Major Concentration (9 units): one course each in linguistics, theory or criticism, and global literatures. Select in consultation with a major advisor.
- Major Concentration/Electives (12 units): One elective course must be in literature before 1800. See Note 1 above.
- Culminating Experience (3 units): ENG 690. Must be taken in one of the final two semesters. See Note 1 above.

**University Electives: Six or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.
Bachelor of Arts in Technical and Professional Writing

Technical and Professional Writing (B.A.) — 45 units

Culminating Experience must be completed during one of the semesters of the student’s final (senior) year.

Core Courses (12 units)

</tbody>
</table>

Optional interdisciplinary course work typically would cover applied writing or editing; linguistics; organizational communication; graphic design and production; multimedia or computer tools; foreign language for business; or special topics related to workplace writing.

Subject Matter Focus (15 units)

Select a single one of the tracks below and complete 15 units according to the instructions. Note: All focus courses must be 200 level or above, with at least nine units at 300-level or above.

Communications Track Options

Courses selected from any single one of these departments:

- Communication Studies
- Foreign Languages
- Journalism
- Broadcast and Electronic Communication Arts
- Design and Industry
- Instructional Technologies

Technical Track Options

Courses selected from any single department in the College of Science and Engineering, any single department in the College of Business, or any single TPW advisor-approved department in the College of Health and Social Sciences.

Interdisciplinary Track Options

Courses selected to fit a customized concentration (based on an independently developed theme or an existing interdisciplinary program) that is approved by the TPW advisor as relevant for technical or professional writing. (Examples: Arts Administration, Multimedia, Environmental Studies).

Culminating Experience (3 units)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>TPW 695</td>
<td>Internship in Technical and Professional Writing</td>
<td>3</td>
</tr>
</tbody>
</table>

This course must be completed during one of the semesters of the final (senior) year.

Note: All units applied to the TPW B.A. must be earned with a grade of C or better.

Complementary Studies (12 units)

Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in Technical and Professional Writing. These units must come from courses bearing a prefix other than TPW, and not cross-listed with TPW. TPW majors can complete the requirement from within the major by taking 12 of the 15 units of classes required for their Subject Matter Focus. The Subject Matter Focus requires students to take 15 units of courses from a pre-approved list of non-TPW departments (e.g., Communication Studies, Journalism, Instructional Technology, Marketing), or to create a customized concentration based on courses from a mix of non-TPW departments, as approved by their major advisor. Although CS is already satisfied in the major itself, if students wish they may also meet their CS requirement by Study Abroad, courses taken in a secondary major or minor or certificate, or by choosing to take 12 units of a foreign language, any of which would also enhance the degree.

Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

First Time Student Roadmap (4 Year)
This 2017–2018 roadmap (p. 802) opens in a new tab.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   • a course in U.S. History
   • a course in U.S. & California Government
   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:
   • Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.
   • Complete 60 or more transferable semester units or 90 or more quarter units
   • Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
   • Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Total Units: 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Complementary Studies (12 units)**
   Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in Technical and Professional Writing. These units must come from courses bearing a prefix other than TPW, and not cross-listed with TPW. TPW majors can complete the requirement from within the major by taking 12 of the 15 units of classes required for their Subject Matter Focus. The Subject Matter Focus requires students to take 15 units of courses from a pre-approved list of non-TPW departments (e.g., Communication Studies, Journalism, Instructional Technology, Marketing), or to create a customized concentration based on courses from a mix of non-TPW departments, as approved by their major advisor. Although CS is already satisfied in the major itself, if students wish they may also meet their CS requirement by Study Abroad, courses taken in a secondary major or minor or certificate, or by choosing to take 12 units of a foreign language, any of which would also enhance the degree.

5. **Skills Electives**
   Select a minimum of six units from the list and nine additional units either from the list below or from interdisciplinary courses approved by your TPW advisor. Note: Skills electives cannot be from the department chosen for the subject matter focus.
   - TPW 200 Writing Practices in Professional Contexts (3 units)
   - TPW 470 Writing Professional Promotions (3 units)
   - TPW 480 Writing Technical Documentation (3 units)
   - TPW 490 Grantwriting (3 units)
   - TPW 585 Technical Writing Online (3 units)
   - TPW 685 Projects in the Teaching of Technical and Professional Writing (1-4 units)

6. Select a single one of the tracks below and complete 15 units according to the instructions. Note: All focus courses must be 200-level or above, with at least nine units at 300-level or above.

**Communications Track Options**
Courses selected from any single one of these departments:
- Communication Studies
- Foreign Languages
- Journalism
- Broadcast and Electronic Communication Arts
- Design and Industry
- Instructional Technologies

**Technical Track Options**
Courses selected from any single department in the College of Science and Engineering, any single department in the College of Business, or any single TPW advisor-approved department in the College of Health and Social Sciences.

**Interdisciplinary Track Options**
Courses selected to fit a customized concentration (based on an independently developed theme or on an existing interdisciplinary program) that is approved by the TPW advisor as relevant for technical or professional writing. (Examples: Arts Administration, Multimedia, Environmental Studies).
Certificate in Immigrant Literacies

The Certificate in Immigrant Literacies is designed to provide academic training in the study of language, literacies, and the immigrant experience. The program integrates community service learning to enable certificate students to integrate their professional expertise and cross-disciplinary thinking with meaningful civic action.

Admissions Requirements and Application Process

All applicants must submit the following to the English Department:

- a short personal statement which outlines the applicants’ interests in immigrant language and literacy issues;
- transcript, (official transcripts from all previous colleges attended; unofficial transcript from current program);
- current vita or résumé;
- names and contact information for TWO references. (provide name, job title or relationship, address, phone number); and
- evidence of completion of the University’s Level I written English proficiency requirement 1.

For matriculated graduate students in TESOL: Evidence of completion of the written English proficiency requirement is determined based on a satisfactory evaluation of the student’s Statement of Purpose, submitted to the department as part of the student’s original application to the MA TESOL program.

For matriculated graduate students in other departments: Students should check the requirements as stipulated by their program area.

Applicants who are matriculated graduate students may enter the certificate program at any point after acceptance into a SF State graduate degree program. Graduate students who wish to apply must consult with their advisor immediately to find out how best to sequence their coursework to satisfy both home Department requirements and certificate requirements.

Applicants who are not currently matriculated in any SF State graduate degree program (e.g., in-service ESOL teachers, health professionals) must apply (via graduate admissions) and be admitted to the University and to the graduate certificate program. Acceptance into the program is with the approval of the certificate program director and consent of program faculty following review of the application materials (listed above).

Students interested in admission to the certificate programs need not have completed undergraduate degree programs in English literature or language studies, nor do they need to be enrolled in master’s programs offered in the Department of English. Graduate students from master’s programs offered in this department should contact their advisors to find out how many of the certificate courses may be used towards meeting degree requirements in their M.A. program. Unclassified graduate students and candidates for degrees in other departments may be accepted into the program with the approval of the certificate faculty.

Out-of-state and international students are welcome to apply to the program. For applicants whose native language is not English: a recent internet-based TOEFL (IBT) score of 95, with an essay rating of 24. Applicants who do not meet the minimum TOEFL requirement will NOT be admitted; there is NO conditional admission. A TOEFL score of 95 is considered to be very minimal; applicants who demonstrate stronger English proficiency with a higher TOEFL score (and higher essay rating) will have a better chance of being admitted.

Certificate in Teaching Post-Secondary Reading

Admission to Program

For matriculated students, admission to the Certificate in Teaching Post–Secondary Reading program requires completion of the internal English Department application, which should be submitted to the department. The application is available in the main department office, or at english.sfsu.edu, (http://english.sfsu.edu) and must be submitted prior to the first semester of certificate coursework.

Anyone who wishes a certificate but is not currently a matriculated graduate student will need to apply to the university, using the published admissions process, before being considered for admission to the composition or reading certificate programs. For information about how to complete this application, students should consult the appropriate graduate coordinator of the Division of Graduate Studies.

Students interested in admission to the need not have completed undergraduate degree programs in English literature or language studies, nor need they be enrolled in master’s programs offered in the Department of English. Graduate students from master’s programs offered in this department should contact their advisors to find out how many of the courses taken for the composition or reading certificates may be used to meet degree requirements in their M.A. program. Graduate students from masters programs offered in other departments should contact their advisor to find out how many of the courses taken for composition or reading certificates they may use to meet degree requirements in their M.A. program.
Upon completion of all the certificate courses, for the final award of the degree, students must fill out a CAP form (Certificate Approved Program) available on the Graduate Studies website, pay the $7.00 application fee at the Cashier’s Office, and submit the form to the Composition Office in the Humanities Building, Room 480.

All certificate candidates should familiarize themselves with the general guidelines for earning a certificate on this campus. A student planning to earn an undergraduate or graduate certificate must meet the requirements listed in the Certificate Programs (p. 26) section of this Bulletin. Any student who decides he/she wishes to apply for the Master of Arts in English with Concentration in Composition must consult his/her advisor immediately to find out how best to proceed.

Certificate in Teaching Post–Secondary Reading

Written English Proficiency Requirement

Level One

Students will meet Level One requirements in their home department.

Level Two

Students must earn a grade of B or better in all of the required courses.

</tbody>
</table>

Applicants admitted for the fall semester should take the following courses in order to complete the certificate in one academic year:

- Fall semester: ENG 715 and ENG 709.
- Spring semester: ENG 701 and ENG 710.

Applicants admitted for the spring semester will receive advising based on the availability of spring courses. Because of the rotation of course offerings, spring admission entails a minimum of three semesters to complete the Certificate in Teaching Post–Secondary Reading.

Certificate in Technical and Professional Writing

In order to be accepted to an undergraduate certificate program, a student must have completed 56 semester units of undergraduate course work with a 2.0 (C) grade point average. A maximum of 6 TPW advisor-approved transfer units is allowed toward the certificate.

Before completing the certificate, students must demonstrate appropriate writing competency by successful completion of the required 18 units of upper-division, writing-intensive TPW course work.

Technical and Professional Writing

Skills Electives (12 units)

Chosen from skills electives courses described under the B.A. program (p. 799), including a minimum of 6 TPW units.

Note: All units applied to the TPW certificate must be earned with a grade of C or better.

Certificate in the Teaching of Composition

The Certificate in the Teaching of Composition and the Certificate in Teaching Post-Secondary Reading are designed to provide theoretical and pedagogical preparation for students who plan to teach writing and/or reading in post-secondary classrooms.

Admission to Program

For matriculated students, admission to either or both of the certificate programs requires completion of the internal English Department application, which should be submitted to the department.

This internal application is available in the main department office, or at english.sfsu.edu (http://english.sfsu.edu). Those seeking the Certificates in Teaching Composition or Post-secondary Reading must submit the application prior to their first semester of certificate coursework.

Anyone who wishes to earn a certificate but is not currently a matriculated graduate student will need to apply to the university, using the published admissions process, before being considered for admission to the composition or reading certificate programs. For information about how to complete this application, students should consult the appropriate graduate coordinator of the Division of Graduate Studies.

Students interested in admission to the certificate programs need not have completed undergraduate degree programs in English literature or language studies, nor need they be enrolled in master’s programs offered in the Department of English. Graduate students from master’s programs offered in this department should contact their advisors to find out how many of the courses taken for the composition or reading certificates may be used to meet degree requirements in their M.A. program. Graduate students from masters programs offered in other departments should contact their advisor to find out how many of the courses taken for composition or reading certificates they may use to meet degree requirements in their M.A. program.

Upon completion of all the certificate courses, for the final award of the degree, students must fill out a CAP form (Certificate Approved Program) available on the Graduate Studies website, pay the $7.00 application fee at the Cashier’s Office, and submit the form to the Composition Office in HUM 480 for the Certificates in the Teaching of Composition and Post-Secondary Reading, and to the English Department in HUM 484 for the
Certificate in Immigrant Literacies. Contact the English department in HUM 484 with any questions.

All certificate candidates should familiarize themselves with the general guidelines for earning a certificate on this campus. A student planning to earn an undergraduate or graduate certificate must meet the requirements listed in the Certificate Programs (p. 26) section of this Bulletin. Any student who decides he/she wishes to apply for the Master of Arts in English with Concentration in Composition must consult his/her advisor immediately to find out how best to proceed.

Certificate in the Teaching of Composition
Written English Proficiency Requirement

Level One
Matriculated Students in a graduate program on campus will have satisfied Level One via their home department’s criteria. Students who are matriculated in the certificate program only must submit a writing sample with their application.

Level Two
Students must earn a grade of B or better in ENG 700.

Master of Arts in English: Concentration in Composition

Admission to Program
In addition to the materials sent to the graduate admissions office, the applicant must submit the following items to the English Department:

- a one to two page typed statement of purpose in which the applicants are to explain their interest in pursuing the M.A. degree, including describing any previous teaching, tutoring, training, writing or editing experience that may contribute to their success in the program; discuss their readiness to meet the rigors of graduate-level coursework; and explain how this degree will further their career plans. The statement of purpose must demonstrate the applicants’ ability to produce clear, cogent, and polished prose;
- a recent writing sample of seven to 10 pages. This writing should be analytic in nature. It may be from a previous course or it may be writing that the applicants have undertaken in a professional pursuit beyond the classroom;
- a statement with the applicants’ signature certifying that the writing sample is their own work;
- one set of official transcripts from all colleges attended;
- two letters of recommendation that speak to the applicants’ academic potential and/or their potential as future educators.

Applicants without an undergraduate major in English or a related field may be required to complete additional preparatory coursework in literature, linguistics, education or related field before being advanced to classified standing and filing the Advancement to Candidacy (ATC).

Students must take ENG 700 as early as possible in the program (preferably during the first semester) and complete the course with a grade of B in order to continue with other courses in the program.

The master’s program permits students to include on their ATC only courses in which they have received grades of B or better.

Students completing this program are expected to be able to write prose publishable in academic journals.

Written English Proficiency Requirement

Level One
Evaluation of the writing sample submitted as part of the application packet.

Level Two
Satisfactory completion of ENG 895.

English (M.A.): Concentration in Composition – 30 units

Core Courses (15 units)

<table>
<thead>
<tr>

</tr>
<tr>
<td>ENG 895</td>
<td>Field Study or Applied Research Project</td>
<td>3</td>
</tr>
</tbody>
</table>

Applicants admitted for the fall semester should take the following four core courses during their first academic year in the program:
- Fall semester: ENG 700 and ENG 709.
- Spring semester: ENG 704 and ENG 710.

Applicants admitted for the spring semester will receive advising based on the availability of spring courses. Because of the rotation of course offerings, spring admission entails a minimum of five semesters to complete the program.

Electives (15 units)

to be taken with the approval of an advisor.

Culminating Experience

A field study or research project must be successfully completed by all candidates for the degree. The field study or research project, which investigates and/or applies knowledge acquired in the student’s program of study, must have the recommendation and approval of two faculty field study or research project advisors. All SF State specifications for completion of a field study or research project must be met. Students who fail ENG 895 will receive an incomplete (I) grade and may resubmit their project once for a passing grade. If their project fails a second time, they will be recommended for declasification.

Master of Arts in English: Concentration in Linguistics

Admission to Program
In addition to the materials sent to the graduate admissions office, the applicant must submit the following items to the English Department in order to be considered for admission:

- a one-to-two page typed statement of purpose detailing why the applicant is interested in the linguistics concentration;
- one set of official transcripts from all colleges attended;
- one or two letters of recommendation;
- one writing sample.

Prerequisites: In order to be fully classified, students must have already taken the equivalents, or take at SF State the following:

- Linguistics: ENG 421, ENG 422, ENG 424, and ENG 425 (12 units).
- 10 units of a modern European language.
- One semester of a non-Indo-European language.

All linguistics courses must be taken for a letter grade, and students must have a 3.0 cumulative GPA in these courses with no grade lower than a B- to continue in the program.

Students whose native language is not English and whose B.A. was completed outside the United States must present evidence of a computer–based TOEFL score of at least 240 (Internet-based TOEFL: 95, paper-based TOEFL 590) with a writing subscore of at least 4.5. (Internet-based writing score of at least 24). Applicants who do not meet this minimum TOEFL requirement will not be admitted; there is no conditional admission. A TOEFL score of 240 is considered to be very minimal; applicants who demonstrate stronger English proficiency with a higher TOEFL score (and higher writing subscore) will have a better chance of
being recommended for admission to the program for the Master of Arts in English with Concentration in Linguistics.

In addition, non-native speakers of English must take the CMS Placement Test (CMSPT) for assessment of their English writing proficiency upon entry to the university. They may be required to take ENG 670 and/or other writing course(s).

Written English Proficiency Requirement

Level One
Students will be evaluated for Level One proficiency in writing based on the 500–700 word personal statement as well as the writing sample that are submitted as part of their application to the M.A. program. Students whose writing ability is not satisfactory will be required to take a graduate-level composition course such as ENG 670. This course may not be used to fulfill other requirements for the degree.

Level Two
Satisfactory performance in ENG 895 or ENG 896.

English (M.A.): Concentration in Linguistics — Minimum 30 Units

Group I: Required Core Courses (18 Units)
ENG 719 Seminar: Contemporary Semantic Theory 3
ENG 723 Seminar in the Structure of English 3
ENG 725 Seminar in Discourse Analysis 3
ENG 727 Linguistic Field Methods 3
ENG 728 Topics in Sociolinguistics 3
ENG 889 Integrated Studies in Linguistics 3

Group II: Related Core Courses (3 Units)

Theoretical and Applied Linguistics
ENG 728 Topics in Sociolinguistics 3
ENG 729 Seminar in Psycholinguistics 3
ENG 737 Introduction to Corpus Linguistics 3
ENG 799 Advanced Field Methods 3
PHIL 630 Philosophy of Language 3
or PHIL 830 Seminar in Philosophy of Language 3

Quantitative Reasoning and Research Methodology
ANTH 652 Anthropological Statistics 4
MATH 324 Probability and Statistics with Computing 3
MATH 338 Introduction to SAS 3
PSY 371 Psychological Statistics 3
PSY 571 Intermediate Psychological Statistics 3
PSY 771 Analysis of Variance and Experimental Design 4
PSY 772 Applications of Multiple Regression to Psychological Research 4

Any courses in Group II that are not selected for the Group II requirement may be used as Related Elective Courses with the approval of an advisor.

Related Elective Courses (6 Units)
Units to be taken from one or more of the following courses or other courses approved of by an advisor.

Linguistics
ENG 804 Teaching Practicum: Linguistics 3

Teaching English to Speakers of Other Languages
ENG 653 TESOL: Pedagogical Grammar 3
ENG 724 Special Topics in Teaching English to Speakers of Other Languages 3
ENG 726 Practicum in Teaching English to Speakers of Other Languages 3

ENG 732 Seminar: TESOL Reading and Writing Skills 3
ENG 738 Pragmatics and Oral Skills 3

Communication Studies
COMM 664 LSI Methods in Communication 4
COMM 871 Communication Research Strategies 4

Reading and Writing
ENG 704 Pedagogical Grammar for Composition 3
ENG 706 Seminar in Sociolinguistics of Composition 3

Literature
ENG 782 Seminar: Chaucer 3
Select one of the following:
3 and Master’s Comprehensive Oral Examination
Foreign Language Requirement (see below)

Culminating Experience
Select one from the following:
ENG 898 Master’s Thesis 3
ENG 895 Field Study or Applied Research Project (and Master’s Comprehensive Oral Examination) 3
and Foreign Language Requirement (see below)

During the second-to-last semester in the program, students are required to complete a formal called the Advancement to Candidacy (ATC), which lists those courses they are using to fulfill the requirements for the Master of Arts in English with Concentration in Linguistics. Students must earn an overall GPA of 3.0 or better in all courses listed in that document.

Master’s Examinations
Failure in these examinations does not disqualify the candidate unless the examining committee so directs. The candidate may take the examinations twice, and, if failure occurs both times, will be disqualified from the graduate program.

Foreign Language Requirement
10 semester units, or the equivalent, of a modern European language, plus a minimum of one semester or the equivalent of a non-Indo-European language is required of all candidates for the Master of Arts in English with Concentration in Linguistics. The student has the alternative of satisfying the foreign language requirement by examination. Units earned in foreign language study are not to be included in the student’s Advancement to Candidacy (ATC).
Master of Arts in English: Concentration in Literature

Admission to Program
Applicants must meet general university requirements as stated in this Bulletin. Admission to the literature concentration is competitive.

In addition to the materials sent to the graduate admissions office, the applicants must submit the following items to the English Department. Contact the graduate secretary in English for the department application and deadlines:

- the departmental application;
- at least two academic letters of recommendation, preferably from a current or former literature professor;
- one official set of transcripts; a one to two-page statement of purpose detailing why the applicant is interested in the study of literature;
- and a writing sample (a critical or scholarly essay of five to ten pages, preferably one written as part of a literature course).

If the applicant’s undergraduate record, writing samples, and letters of recommendation meet the basic requirements and give promise of a successful pursuit of graduate work, the department will recommend that the applicant be admitted either to classified graduate standing (which means that the student may immediately proceed to take graduate courses and seminars) or conditional standing, specifying the conditions and time limit within which they must be met.

To be considered for classified admission to the graduate program in Literature, an applicant must have

1. completed an undergraduate degree in English comparable to the undergraduate major program at SF State, and
2. have achieved a grade point average of at least 3.3 in the major.

A classified graduate student is ready to take ENG 741, the seminar which functions as a "portal course" to further seminar work. Applicants whose undergraduate major was not English or whose GPA in the major falls below 3.3 may be given conditional admission. Applicants given conditional admission may not take seminars in the range 741–790 until they have achieved classified status.

There are three categories of conditional admission:

- With subject matter deficiency: Usually given to applicants with a 3.3 or higher GPA in an undergraduate major other than English with either some courses in literature (with a 3.3 or higher GPA) or a background showing substantial personal interest in literature. The applicant will be directed by a graduate advisor to complete course work in this university's undergraduate major, but such courses may not be credited toward the M.A. program.

- With a grade point average deficiency: Usually given to applicants with a GPA of 3.0 to 3.3 in an undergraduate English major. The applicant is required to take nine to 12 units of upper division literature courses, with a GPA of at least 3.3 attained in them, before being admitted to graduate work. These courses may be credited toward the Master of Arts in English with Concentration in Literature program. If the required GPA is not attained, the student will be disqualified from the M.A. program in literature.

- With both subject matter and GPA deficiency. The applicant is in conditional status as described in "grade point average deficiency" while earning undergraduate major units as described in "subject matter deficiency."

Written English Proficiency Requirement
Level One
The Graduate Literature Curriculum Committee will evaluate the writing sample submitted as part of the application packet for

1. mechanics and usage of English,
2. coherence and argumentation, and
3. understanding of the conventions of writing literary critical arguments.

Level Two
This requirement will be satisfied in one of two ways:

1. The CE thesis will be evaluated using a rubric addressing
   a. mechanics and usage of English,
   b. coherence and argumentation, and
   c. understanding of the conventions of literary criticism. Students must score at least satisfactory on all three criteria to pass Level Two writing. Students who do not achieve these standards may revise and resubmit their thesis.

2. Students pursuing the CE exam will submit a seminar paper to be evaluated according to the criteria outlined above.

Program
The program consists of 10 courses (minimum 30 units) of which eight courses (minimum 24 units) must be graduate level courses. Of these graduate courses, six (18 units) must be English Department courses, of which six (18 units) must be seminars from the 742–790 range, or ENG 820. Students may choose either an emphasis in General Studies or Special Studies. See guidelines for each emphasis after the Program Requirements.

<tr>
<td>ENG 820 The Constructed Body in Literature</td>
<td>6</td>
</tr>
<tr>
<td>Select two elective courses to be taken with the approval of an advisor</td>
<td></td>
</tr>
<tr>
<td>ENG 898 or ENG 896 Master's Thesis Directed Readings in Preparation for the CE Examination</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: The only pedagogy courses that may be included among the electives are ENG 717 and ENG 803. ENG 704 and ENG 715 may not be included. Related courses from other departments (up to 6 units with approval of advisor) may be included.

Students must earn a grade of B or better in all courses listed on the ATC.
All students follow the General Studies Emphasis unless the Special Studies Emphasis is chosen before completing four of the required ten courses (see below).

**General Studies Emphasis**
Students are required to take one course from those listed below under the category Literary History, and one course from those listed under the category Literary Theories and Methods. The department recommends that students take at least two courses from each category.

**Literary History**
*Graduate Seminars*
ENG 750–ENG 789

**Literary Theories and Methods**
*Graduate Seminars*
ENG 742  Seminar: Studies in Criticism  3  
ENG 744  Seminar: Literature and Psychology  3  
ENG 746  Seminar: Opera and Literature  3  
ENG 747  Feminist Criticisms  3  
ENG 748  Rhetoric, Politics, and Ethics of Deconstruction  3  
ENG 790  Seminar: Selected Studies  3  
or classes approved by an advisor

**Early Period Requirement**
Three of the 30 units in the General Studies Emphasis must be chosen from graduate courses in literature before 1800. The early period requirement may be met by courses that also fulfill the program requirements listed above (for example, the early period course might also count as the Literary History or Literary Theories and Methods required course, or it might count as an elective). Thus, the early period requirement is a distribution requirement, not a core requirement.

**Special Studies Emphasis**
The special studies emphasis is available to students whose proposed fields of study (for example, cultural criticism or reader response approaches to literature) do not fall readily within the Literary History and Literary Theories and Methods rubrics of the general studies emphasis. Students who wish to focus on special studies must define their course of study in a written proposal submitted early in their graduate career and before completing four of the required 10 courses. The proposal must be approved and signed by a graduate advisor and by the English Department’s graduate literature program coordinator.

The number of courses and seminars, graduate level courses, and electives selected individually by the student and proposed for the special studies emphasis must conform to the program requirements (see above).

**Culminating Experience**
All students, whether they are pursuing General or Special Studies Emphasis, must choose one of the following options:

1. **Master’s Thesis** Before beginning writing the thesis, a student prepares a prospectus conducted by the two thesis readers. The prospectus is a written statement that typically indicates the controlling purpose of the thesis; the selection of literary materials; the relevant scholarship and criticism; and the value and interest of the study.

A candidate who has failed the oral examination may not take it again before the next regular semester. A candidate who failed the examination twice will not be permitted to continue in the program for the M.A. in Literature. Consult The Prospectus and the Thesis handout available in the English Department for more information.

2. **Written and Oral Examination**. Students pursuing this option will be examined on texts in three fields of the discipline based on departmental reading lists and student’s special area of interest. One of the three fields must be pre-1800. A list of the required readings for each historical field is kept on file in the English Department. For each field, students will typically select 20 texts from a list of 30 primary texts, and five texts from a list of 10 works of criticism. The students’ CE exam, then, will typically be based on a total of 60 primary texts and 15 works of criticism.

For each of their three fields, students will submit a five to six-page written assignment. The CE culminates in a 90-minute oral examination. The exam will be conducted by three faculty members who will each examine the student in one of their three chosen fields. To receive Credit for ENG 896, students must pass all three sections of the CE Examination. It is up to each field examiner to determine a passing or failing grade of his or her field. A student who fails one of the three fields of the CE Examination may retake that one exam within the two weeks following the oral examination (if the oral examination is given by the 14th week of instruction; if the exam takes place after the 14th week of instruction, the exam will be conducted the following semester). A student who fails two or more fields of the CE Exam may retake the entire CE Exam for Credit the following semester.

Consult the handout Procedures & Timeline For CE Exam (ENG 896) available in the English Department for more information.

Candidates who have selected the thesis option (ENG 898) as their CE project may NOT switch to the exam option (ENG 896), or vice versa, except upon advisement.

---

**Master of Arts in English: Concentration in Teaching English to Speakers of Other Languages**

**Admission to Program**
Applicants must meet all of the SF State Graduate Division’s general admission requirements. Admission to the M.A. TESOL program is based on the evaluation of the following:

- The quality of the applicant’s previous academic record, which must show completion of a B.A./B.S. degree from an accredited four-year college with a GPA (grade point average) of no lower than 3.0 (B) in the last 60 units of undergraduate (and post-baccalaureate) study.
- A statement of purpose which indicates why graduate work in SF State’s M.A. TESOL program is appropriate for the applicant’s current academic interests and future academic and professional goals.

The GRE is not required. Letters of recommendation are also not required but are strongly recommended if the applicant’s academic record is not strong.

Contact the graduate secretary in English for the department application and deadlines, or refer to matesol.sfsu.edu (http://matesol.sfsu.edu) for more details about the application process.

**Prerequisites:** In order to be fully classified, students must meet the conditions below:
Linguistics/Language Studies—If not waived based on previous coursework, students must take the following at SF State: ENG 423, ENG 425 and ENG 426. Students may optionally substitute ENG 421 and ENG 424 for the ENG 423 requirement.

Foreign Language Prerequisite Requirement—One semester’s work (3–5 units) of one foreign language is required, to be taken concurrently with ENG 426. Both native and non-native speakers of English must fulfill this requirement. For non-native speakers of English, the foreign language can be English or another language.

ENG 423, or ENG 421 and ENG 424 may be taken concurrently with ENG 730. ENG 425 and ENG 426 must be completed prior to ENG 730. All linguistics/language studies courses must be taken for a letter grade, and students must have a 3.0 cumulative GPA in these courses and no grade lower than a B– to continue in the program. Literature courses may be taken for a letter grade or credit if the courses selected permit the grading option desired.

Students whose native language is not English and whose B.A. was completed outside the United States must present evidence of a computer-based TOEFL score of at least 240 (Internet-based TOEFL: 95, paper-based TOEFL: 590) with a writing subscore of at least 4.5 (Internet-based writing score of at least 24). As an alternative to TOEFL, scores from the IELTS test are accepted as follows. Students must present evidence of an IELTS (Academic) overall score of 7.0 with at least 6.5 for each component. (The IELTS test is available in two test formats: Academic or General Training. All candidates take the same Listening and Speaking modules. It is the Reading and Writing components that differ. The Academic version of IELTS measures English language proficiency needed for an academic, higher learning environment. This is the format that is required.) Applicants who do not meet this minimum TOEFL requirement will not be admitted; there is no conditional admission. A TOEFL score of 24, or an IELTS score of 7.0, is considered to be very minimal; applicants who demonstrate stronger English proficiency with a higher TOEFL score (and higher writing subscore), or IELTS, will have a better chance of being recommended for admission to the Master of Arts in English with Concentration in TESOL.

In addition, non-native speakers of English and who are required to take the TOEFL, who are admitted, and who enroll, must take the CMS Placement Test (CMSPT) for assessment of their English writing proficiency upon entry to the university. They may be required to take ENG 670 and/or other writing course(s).

Written English Proficiency Requirement

Level One
The Statement of Purpose submitted as part of the application process will be evaluated for proficiency in written English. Students whose writing ability is not satisfactory will be required to take a graduate-level composition course, such as ENG 670. This course may not be used to fulfill other requirements for the M.A.

Level Two
Satisfactory performance in ENG 891.

Teaching Experience
Students who have fewer than two years of ESL/EFL classroom teaching experience are required to get teaching experience before enrolling in ENG 733. This requirement may be fulfilled by

1. enrolling in ENG 726,

2. an internship at the American Language Institute (p. 178), or

3. approval by an advisor of sufficient prior teaching experience.

English (M.A.): Concentration in Teaching English to Speakers of Other Languages — Minimum 30 Units

Foreign Language Requirement
For native speakers of English, one semester’s work (3–5 units), or its equivalent, in a non-Indo-European language is required to complete the Master of Arts in English with Concentration in Teaching English to Speakers of Other Languages. With the approval of an advisor, an Indo-European language which differs considerably from English (e.g., Farsi, Hindi) may be substituted. American Sign Language (ASL) may also be used to fulfill this requirement. For non-native speakers of English, the foreign language requirement is waived. (However, note that the Foreign Language Prerequisite Requirement applies to all.)

Core Courses (18 Units)
The core courses listed below are required of all students graduating from this program.

ENG 721 Advanced Pedagogical Grammar for TESOL 3
ENG 730 Introduction to Graduate Study of TESOL 3
ENG 731 Seminar: TESOL Listening and Speaking Skills 3
ENG 732 Seminar: TESOL Reading and Writing Skills 3
ENG 733 Seminar: Student Teaching for TESOL 3
ENG 734 TESOL Curriculum and Assessment 3

Group Courses (6 Units)
Select one course from Group I: Core and one course from Group II: Linguistics.

Group I: Core
Select one from the following:

ENG 724 Special Topics in Teaching English to Speakers of Other Languages 3
ENG 736 Seminar in Teaching ESL in the Community
ENG 737 Introduction to Corpus Linguistics
ENG 738 Pragmatics and Oral Skills
ENG 832 Seminar in Immigrant Literacies and Community-Based Projects

Group II: Linguistics
Select one from the following:

ENG 719 Seminar: Contemporary Semantic Theory
ENG 723 Seminar in the Structure of English
ENG 725 Seminar in Discourse Analysis
ENG 727 Linguistic Field Methods
ENG 728 Topics in Sociolinguistics
ENG 729 Seminar in Psycholinguistics
ENG 737 Introduction to Corpus Linguistics
ENG 738 Pragmatics and Oral Skills
Elective (3 Units)
Must be upper division (numbered 300 or above) or graduate-level courses relevant to TESOL, language, or teaching, selected with the approval of an advisor.

Culminating Experience (3 Units)
A field study or research project, or a Master's Thesis, must be successfully completed by all candidates for the degree. The field study or research project, which investigates and/or applies knowledge acquired in the student's program of study, must have the recommendation and approval of two faculty field study or research project advisors. All SF State specifications for completion of a field study or research project must be met. Students may take ENG 895 once. Students who fail ENG 895 will receive an Incomplete (I) grade; they may resubmit their project once for a passing grade. If their project fails a second time, they will be recommended for declassification.

During the second-to-last semester in the program, students are required to complete a form called the Advancement to Candidacy (ATC), which lists those courses they are using to fulfill the requirements for the Master of Arts in English with Concentration in TESOL. Students must earn an overall GPA of 3.0 and a B– or better in all courses listed in that document.

ENG 895  Field Study or Applied Research Project  3
or ENG 898  Master's Thesis

**EUROPEAN STUDIES**

**College of Liberal & Creative Arts**
Dean: Andrew Harris

**European Studies Program**
Science Building, Room 267
Phone: (415) 338–2250
Co-Coordinator: Sarah Curtis

Humanities Building, Room 331
Co-Coordinator: Scott Siegel

**Program Scope**
The European Studies minor is a multidisciplinary program in European history, politics, and culture designed to provide undergraduate students with a broad understanding of European ideas and institutions over time. Europe is intrinsically connected to important concepts and historical developments such as revolution, religion, imperialism, capitalism, industrialization, individualism, democracy, communism, human rights, and welfare states. These concepts, formative for Western society, have had global significance as well. Though no longer dominant, Europe today remains a complex, fascinating, and vital region of the world, and one grappling with an array of fundamental political, socioeconomic, and cultural challenges, from enlarging the European Union to determining the future of the welfare state to integrating former colonial subjects into European societies as full citizens.

This minor allows students to engage critically in the examination of Europe past and present through courses in the arts, humanities, and social sciences. It is designed to accommodate a wide range of student interests in particular time periods and specific countries. It is especially recommended for students who wish to study abroad in one of SF State’s exchange programs in Europe and for students considering careers in teaching, the arts, international politics, international business, and the foreign service. In an era of global interdependence, a minor in European Studies demonstrates interest in and knowledge of a region outside of the United States from a multidisciplinary perspective.

**Professors**
Calderón, Christmas, Clavier, Curtis, D’Agostino, Klironomos, Kovacs, Langbehn, Luft, Mann, Millet, Nelsen, Peel, Rodriguez, Tsygankov, Vandergriff, Watts

**Associate Professors**
Concolino, Hackenberg, Hammer, Hood, Khanmohamadi, Le Marchand, Lisy-Wagner, Sowaal, Steier

**Assistant Professors**
Albiero, Linton, Missé, Siegel

**European Studies, Minor — 21–24 Units**
The European Studies Minor consists of a core curriculum of nine to ten units which contain material and perspectives which reach across the normal disciplinary divisions of the university, plus 12 to 14 units of upper division courses taken from the following categories on advisement. A full list of approved electives is available from the European Studies director. The minor must include courses from at least three different disciplines (prefixes) and two colleges.

**Core Courses (9–10 Units)**

<table>

**Electives (12–14 Units)**
Under advisement, students are to select one course from Humanities and Literature, one course from Social Sciences, one course from Art History and the Performing Arts, and one course from any of the above areas. These selections may focus on Europe as a civilization (e.g., the formation of Europe, Europe in transition, and contemporary Europe), a section of Europe (e.g., Russia and Eastern Europe, Western Europe, the European community, etc.), or on European artistic and intellectual traditions. Elective courses are listed below.

**Humanities and Literature (3 Units)**
Students may choose from appropriate electives in the following departments:
- Comparative and World Literature
- English
- French
- German
- Humanities
- Italian
- Jewish Studies
- Modern Greek Studies
- Philosophy
- Russian
- Spanish

**Social Sciences (3–4 Units)**
Students may choose from appropriate electives in the following departments:
- History
- International Business
- International Relations
- Jewish Studies
- Political Science

**Art History and the Performing Arts (3 Units)**
Students may choose from appropriate electives in the following departments:
- Art History
- Cinema
- Music
- Theater Arts
Additional Elective (3–4 Units)
Students may choose a fourth elective from any of the three areas (Humanities and Literature, Social Sciences, Art History and the Performing Arts) above.

Foreign Language Requirement
All students completing the European Studies Minor are required to demonstrate intermediate level competency in a language other than English, relevant to the area. This requirement may be met by completing the university entrance requirement of two years of high school language study, one year of successful college level language study, or demonstration of equivalent competency.

Study Abroad
Students completing the European Studies minor are strongly encouraged to participate in study-abroad programs. At the discretion of the European Studies director, courses taken in certified SF State Study-Abroad programs may be substituted for the minor requirements.

Elective Courses

Humans and Literature (3 Units)
- CWL 420: Studies in Comparative Literature (European variants) 3
- CWL 421: Celtic Literature 3
- ENG 501: Age of Chaucer 3
- ENG 510: The Age of Wit 3
- ENG 512: 18th Century British Women Writers 3
- ENG 514: Age of the Romantics 3
- ENG 550: The Rise of the Novel 3
- ENG 552: Modern British Novel 3
- FR 400GW: French Culture - GWAR 3
- FR 410: Contemporary French Civilization 3
- FR 450: Translating Themes: English/French (metropolitan French variants) 3
- FR 500: Introduction to Literary Texts (in French) 3
- FR 525: 17th and 18th Century French Theater (in French) 3
- GER 401: German Culture and Civilization I (in German) 3
- GER 502: Contemporary Germany (in German) 3
- GER 613: Weimar Literature in English (in English) 3
- GER 617: The Holocaust and Postwar Germany Taught in English 3
- HIST 330/ HUM 403: The Early Middle Ages 3
- HUM 404/ HIST 331: The High Middle Ages 3
- HUM 407: Romanticism and Impressionism 3
- HUM 410: The Modern Revolution 3
- HUM 415: Contemporary Culture 3
- HUM/PHIL 432: Nietzsche and Postmodernism 3
- ITAL 401: Italian Culture and Civilization 3
- ITAL 510: Italian Literature: Early Period (in Italian) 3
- ITAL 511: Italian Literature: Late Period (in Italian) 3
- ITAL 525: Literature of the Risorgimento (in Italian) 3
- ITAL 550: The Italian Theater (in Italian) 3
- ITAL 560: The Italian Novel (in Italian) 3
- ITAL 570: Italian Women Writers - 13th to 20th Centuries (in Italian) 3
- ITAL 580: Great Figures in Italian Literature (in Italian) 3
- ITAL 581: Divina Commedia (in Italian) 3
- ITAL 600GW: Italian Literature on Film in English - GWAR 3
- JS/CWL 437: Holocaust and Literature 3
- JS/CWL 480: European Jewish Writers 3
- MGS/CWL/C W 465: Modern Greek Poetry in Comparative Perspective 3
- MGS/C W 497: Modern Greek Literature 3
- MGS 555: Introduction to Modern Greek Literary Texts 3
- PHIL 302: Medieval Philosophy 3
- PHIL 303: Modern Philosophy 3
- PHIL 365: Science and Civilization 3
- RUSS 260: Russian Culture and Civilization in English 3
- RUSS 511: Russian Literature II in English 3
- RUSS 610: Dostoevsky in English Translation 3
- RUSS 613: The Russian Novel: Pushkin, Lermontov, Gogol in English 3
- RUSS 615: The Russian Avant-Garde (in English) 3
- SPAN 401GW: Culture and Civilization of Spain-GWAR 3
- SPAN 562: Cervantes: The Quijote 3
- SPAN 595: Senior Survey in Spanish or Spanish American Literature 3

Social Sciences (3–4 Units)
- HIST/JS 317: The Holocaust and Genocide 3
- HIST 330/ HUM 403: The Early Middle Ages 3
- HIST 334: The Renaissance 3
- HIST 336: The Reformation 3
- HIST 338: Europe and the Wider World, 1348-1768 3
- HIST 342: French Revolution and Napoleon 3
- HIST 344: Nineteenth Century Europe 3
- HIST 347: Women in Modern Europe 3
- HIST 385: The Russian Revolution 3
- HIST 386: Soviet Russia, the West, and the Cold War 3
- HIST 389: European International History: 1848-1918 3
- HIST 390: Era of the World Wars 1918 to 1945 3
- HIST 400: History of Modern European Imperialism 3
- HUM 404/ HIST 331: The High Middle Ages 3
- IBUS 593: Doing Business in Europe 3
- I R 327: Europe: Forming a More Perfect Union 4
- I R/PLSI 328: Domestic and Foreign Policy: Post-Communist Regions 4
- JS/HIST 632: Jewish History I: Beginnings to 1650 3
- JS/HIST 633: Jewish History II: 1650 to Present 3
- MGS/ANTH 316: Contemporary Culture of Greece 3
- MGS/HIST 350: Greece and the Balkans 3
- MGS/CLAS 510/ HIST 326: The Byzantine Empire 3
- PLSI 353: Political Theory: The Twentieth Century 4

GLOBAL PEACE, HUMAN RIGHTS, AND JUSTICE STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

Global Peace, Human Rights, and Justice Studies Program
Co-Coordinator: Karen Lovas, Communication Studies
Humanities Building, Room 352
Phone: (415) 338–1713

Co-Coordinator: Mahmood Monshipouri, International Relations
Humanities Building, Room 280
Phone: (415) 338–2239

Program Scope
As its title demonstrates, the Global Peace, Human Rights, and Justice Studies Minor is closely aligned with the mission and core values of SF State. We live in a world fraught with warring and ecological devastation and threatened by the frequent failure of governmental and financial powers to fashion just and effective solutions. Yet there are historical and contemporary examples of individuals, groups, and countries working productively and creatively within and across national boundaries to stop violent conflicts, form affirmative alliances, and ensure that basic rights and freedoms are available to all.

Global Peace, Human Rights, and Justice Studies is an all-university, interdisciplinary minor in which students and faculty cooperatively study and explore the problems, issues, challenges, and opportunities to prevent war and to make this a more just, peaceable and sustainable world.

Career Outlook
The Minor in Global Peace, Human Rights, and Justice Studies provides critical thinking collaborative and problem-solving skills relevant to students whatever their major course of study. These are the skills for analyzing and redressing the underlying roots of violence and injustice, including poverty, racism, sexism, heterosexism, cissexism, neoliberalism, imperialism, and environmental degradation. These are the skills that empower people to work more effectively to protect human rights and create systems of social justice.

Centers
The Global Peace, Human Rights, and Justice Studies Program works cooperatively with others in developing internships, sponsoring programs and conferences, and engaging in other educational projects in pursuit of peace and justice.

The Institute for Civic and Community Engagement (ICCE)
ICCE provides opportunities for civic engagement and leadership development at San Francisco State University for students, faculty, and community members. Through innovative courses, experiential learning, political engagement, participatory action research, and direct services, we partner the resources and expertise of the urban university with the knowledge and assets of diverse communities. Working locally, statewide, nationally, and internationally, we cultivate strong leaders who will effectively advocate for social, economic and educational inclusion, and fully participate in the civic life and political processes of their communities.

Public Research Institute
PRI draws upon the expertise of scholars on the SF State campus and in other academic institutions to conduct research in public health, public services and policies, and on strategies for disseminating data and social science methods to neighborhoods and communities.

Meiklejohn Civil Liberties Institute, Berkeley, California
Since 1965 the institute has been providing information on law and history to scholars, activists, and the media; and working for jobs, justice, and peace.

Events
Every year this program organizes an Annual Human Rights Summit. Students are encouraged to participate in this event and may enroll in ANTH 699 or COMM 699, or another internship of their choice, to earn credit for their work, with the consent of the instructor.

HISTORY

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of History
Science Building, Room 276
Phone: (415) 338–1604
E-mail: history@sfsu.edu

Chair: Trevor Getz
Graduate Coordinators: Sarah Curtis and Jessica Elkind

Program Scope
History is the study of change in human societies over time. Undergraduates majoring in history may select advanced courses focusing upon the entire range of life within a nation or region during a given time period, or courses dealing with some specialized aspect of life (social history, economic history, etc.), or courses which explore the concepts and methodology of historical research and analysis.

The Master of Arts in History is offered with specialties in the United States, World History, Europe and the Mediterranean before C.E. 1500, Europe after C.E. 1500, Early Modern Europe, and Gender in History. The M.A. is designed to accommodate students’ interests and needs as they pursue a course of study under the direction of a committee of faculty members. Together with their committee, students plan a program to give both depth and breadth to their understanding of the past. The faculty is familiar with and sensitive to the needs of students who must work, part-time or full-time, while pursuing their graduate program. San Francisco and the Bay Area contain many libraries, archival repositories, and historical agencies where students can do research or obtain on-site experience through an internship.

Career Outlook
The history program provides training for those interested in a teaching credential, for those preparing to do graduate work in several fields. The critical thinking and writing skills developed through the study of History at SF State are applicable to any area of employment. Our majors also find work outside of the classroom in marketing, politics, law, archival work, and project management.

Single Subject Teaching Credential: History/Social Science
Students who are considering teaching in the secondary schools should see a departmental credential program advisor before planning their program.

Professors
Curtis, D’Agostino, Getz, Hsu, Kudlick, Ofate, Rodriguez, Stein, Wolf

Associate Professors
Behrooz, Chekuri, Dreyfus, Elkind, Lisy-Wagner, Mabalon, Postel, Williams

Assistant Professors
Campbell, Crabtree, Viator

Lecturers

Fields of Study (24 units)

Option I:
Students should complete 12 upper division units in one field of study and six upper division units in each of two other fields of study. U.S. History must be one of the three fields.

• U.S. History

• Choose two fields from among the following: Africa, Asia (may include the Middle East), Europe (either Europe before 1500 or Europe since 1500), or Latin America.

Option II:
Students may complete six units in each of the three fields of study, distributed geographically as above, and six elective units, so long as a minimum of 12 units fall under a theme approved on departmental advisement such as Empire and Imperialism; Gender, Sexuality and the Body; Religion and Society; or the Pre-modern World (applicable courses are listed in the department’s Undergraduate Advising Booklet).

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

All history majors must include at least one proseminar (HIST 640, HIST 642, or HIST 644). This seminar should be taken after HIST 300GW and should preferably be in the primary field, although it may be in any field of emphasis. Twenty-seven of the 39 units required for the major
must be upper division. History majors cannot choose CR/NC grading in more than two history courses for their major, nor elect CR/NC grading in HIST 300GW or their seminar. With the consent of their advisor, students may offer up to six units from other departments to count toward their history major.

**Complementary Studies**

All candidates for the Bachelor of Arts in History are required to complete 12 units of complementary studies. The History department will accept complementary studies in any of four distinct paths outlined below from courses with a prefix other than HIST, and not cross-listed with HIST. These units can be earned in residence at San Francisco State, in a Study Abroad Program, or transferred.

1. Within an established minor students will satisfy complementary studies by completing 12 units from a single minor. Of these 12 units, a maximum of 6 units may be lower division.
2. Foreign Language Students must complete 12 units in a single foreign language.
3. Study Abroad Students must successfully pass 12 units with any prefix on a CSU or SF State supported study abroad program.
4. Flexibility Option Students, in consultation with an advisor, may choose 12 upper division units in courses with a prefix other than HIST, and not cross-listed with HIST.

Students who have earned AA–T or AS–T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

Lifelong Learning LD or UD and Self-Development (LLD)

| Physical and/or Life Science | UD | 3 | UD-B |
| Arts and/or Humanities       | UD | 3 | UD-C |
| Social Sciences              | UD | 3 | UD-D |

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
| Environmental Sustainability (ES)           | LD or UD | 3 |
| Global Perspectives (GP)                    | LD or UD | 3 |
| Social Justice (SJ)                         | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

**First Time Student Roadmap (4 Year)**

This roadmap opens in a new tab. (p. 821)

**Transfer Student Roadmap (2 Year)**

For students with an AA-T in History. This roadmap opens in a new tab. (p. 823)

**This degree program is an approved pathway (“similar” major) for students earning the ADT in History**

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.
Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www.assist.org](http://www.assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken.

Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit [http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL](http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL).

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
  e. The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Total Units 120-122

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114 if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class with a combined laboratory or a separate lab to fulfill B3 if not already satisfied.

4. Complementary Studies

   All candidates for the Bachelor of Arts in History are required to complete 12 units of complementary studies. The History department will accept complementary studies in any of four distinct paths outlined below from courses with a prefix other than HIST, and not cross-listed with HIST. These units can be earned in residence at San Francisco State, in a Study Abroad Program, or transferred.

   1. Within an established minor students will satisfy complementary studies by completing 12 units from a single minor. Of these 12 units, a maximum of 6 units may be lower division.

   2. Foreign Language Students must complete 12 units in a single foreign language.

   3. Study Abroad Students must successfully pass 12 units with any prefix on a CSU or SF State supported study abroad program.

   4. Flexibility Option Students, in consultation with an advisor, may choose 12 upper division units in courses with a prefix other than HIST, and not cross-listed with HIST.

5. Fields of Study (24 units)

   Option I:

   Students should complete 12 upper division units in one field of study and 6 upper division units in each of two other fields of study. U.S. History must be one of the three fields.

   - U.S. History
   - Choose two fields from among the following: Africa, Asia (may include the Middle East), Europe (either Europe before 1500 or Europe since 1500), or Latin America.

   Option II:

   Students may complete 6 units in each of the three fields of study, distributed geographically as above, and 6 elective units, so long as a minimum of 12 units fall under a theme approved on departmental advisement such as Empire and Imperialism; Gender, Sexuality and the Body; Religion and Society; or the Pre-modern World (applicable courses are listed in the department’s Undergraduate Advising Booklet).

   HIST 640, HIST 642, HIST 644 serve as the culminating experience course for the major.
# Bachelor of Arts in History – HIST Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in History. Twelve units in the major (HIST 110/HIST 111 or HIST 114/HIST 115, HIST 120, HIST 121) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

---

1. ENG 214 or equivalent is a prerequisite to all upper division major courses. If not completed in transfer, in the first semester students must take ENG 214, as well as US Government, upper division GE, or University Electives. All major courses will be taken in a later semester.

---

### To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–15 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–3 units): US Government, California State and Local Government requirements if not taken before transfer. US History met in ADT.
- Upper division GE, areas B, C and D (9 units): HIST courses approved for UD GE areas C and D might double-count for Major requirements.
- Students entering this major with the AA-T in History are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.
History Major: 27 Units
HIST 110-HIST 111 or HIST 114-HIST 115, HIST 120, HIST 121 met in transfer.

- Major Required Courses (3 units): HIST 300GW
- Fields of Study (24 units): Students have two options to complete this requirement.
  - Option I – Take 12 upper division units in one world region and six units in each of two other world regions. One of the three regions must be the U.S. The other two can be chosen from Africa, Asia (may include Middle East), Europe (either pre-1500 or post-1500) or Latin America.
  - Option II – Take six units in each of three world regions, as above, in consultation with a department advisor to create a thematic focus.

Note: all history majors must include at least one proseminar (HIST 640, HIST 642, or HIST 644). This seminar cannot be taken before HIST 300GW; may be in any one of the three selected world regions, and is included in the unit-count for that field.

University Electives: 18 or More Units
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.
Bachelor of Arts in History: Honors Concentration

History (BA): Honors Concentration

Language Proficiency
To graduate from the history honors program, a student must demonstrate proficiency in a foreign language at a level comparable to that of students who have successfully completed one year of college courses. This level of proficiency is to be demonstrated as follows:

- Two semester-length courses in college-level language with a grade of B or better, or
- Equivalent proficiency in a foreign language based on successful completion of an examination to be administered by the Foreign Languages Department.

Grade Performance Requirement
Students are expected to maintain a minimum grade of B in each course to meet the honors major requirements, and a grade point average of 3.25 in all courses taken to complete the honors program. Additionally, students will be required to have an overall grade point average of 3.25 in all university-level courses taken to fulfill the university requirements for the honors degree. Students failing to do so, but who meet the requirements for the B.A. in History, will graduate with the B.A. in History, but not with the Honor's Concentration.

Prerequisites
For a student to be eligible for admission to the Honors Program, the following requirements must be met:

- An overall GPA of 3.25 in courses at the college level. An overall GPA of 3.25 in history courses taken.
- Students must successfully complete the following courses with a grade of B or better prior to being admitted. The courses listed below are SF State courses. Equivalent courses at other institutions are also acceptable.

History (B.A.): Honors Concentration – 45 units

Required Courses (15 units)

<table>
<thead>
<tr>
<th>Course</th>

</tr>
</tbody>
</table>

Fields of Study (24 units)

Option I:
Students should complete 12 upper division units in one field of study and six upper division units in each of two other fields of study. U.S. History must be one of the three fields.

- U.S. History
- Choose two fields from among the following: Africa, Asia (may include the Middle East), Europe (either Europe before 1500 or Europe since 1500), or Latin America.

Option II:
Students may complete six units in each of the three fields of study, distributed geographically as above, and six elective units, so long as a minimum of 12 units fall under a theme approved on departmental advisement such as Empire and Imperialism; Gender, Sexuality and the Body; Religion and Society; or the Pre-modern World (applicable courses are listed in the department’s Undergraduate Advising Booklet).

Proseminar and Honor's Thesis (6 units)

<table>
<thead>
<tr>
<th>Course</th>

</tr>
<tr>
<td>HIST 697</td>
<td>Honors Thesis</td>
<td>3</td>
</tr>
</tbody>
</table>

The proseminar will be taken after HIST 300GW, normally in the major field. The honors thesis will be taken after the proseminar and will normally represent an extension of the work in that proseminar, to be supervised by the proseminar instructor. For exceptions, consult the honors advisor.

Of the 45 required units, 33 must be upper division. History majors cannot choose CR/NC grading in more than two history courses for their major, and cannot elect CR/NC grading in HIST 300GW or their proseminar. With the consent of the honors advisor, students may offer up to 6 units from other departments to count toward honors concentration requirements.

Complementary Studies
All candidates for the Bachelor of Arts in History are required to complete 12 units of complementary studies. The History department will accept complementary studies in any of four distinct paths outlined below from courses with a prefix other than HIST, and not cross-listed with HIST. These units can be earned in residence at San Francisco State, in a Study Abroad Program, or transferred.

1. Within an established minor students will satisfy complementary studies by completing 12 units from a single minor. Of these 12 units, a maximum of 6 units may be lower division.
2. Foreign Language Students must complete 12 units in a single foreign language.
3. Study Abroad Students must successfully pass 12 units with any prefix on a CSU or SF State supported study abroad program.
4. Flexibility Option Students, in consultation with an advisor, may choose 12 upper division units in courses with a prefix other than HIST, and not cross-listed with HIST.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

</tr>
</tbody>
</table>
This degree program is an approved pathway ("similar" major) for students earning the ADT in History

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential. A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower-division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

### First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 828)

### Transfer Student Roadmap (2 Year)

For students with an AA-T in History. This roadmap opens in a new tab. (p. 830)
• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**All students must meet the transfer eligibility requirements outlined below for admission.**
**For more information, visit the Undergraduate Admissions section.**

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

</tbody>
</table>

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Complementary Studies**
   All candidates for the Bachelor of Arts in History are required to complete 12 units of complementary studies. The History department will accept complementary studies in any of four distinct paths outlined below from courses with a prefix other than HIST, and not cross-listed with HIST. These units can be earned in residence at San Francisco State, in a Study Abroad Program, or transferred.
   1. Within an established minor students will satisfy complementary studies by completing 12 units from a single minor. Of these 12 units, a maximum of 6 units may be lower division.
   2. Foreign Language Students must complete 12 units in a single foreign language.
   3. Study Abroad Students must successfully pass 12 units with any prefix on a CSU or SF State supported study abroad program.
   4. Flexibility Option Students, in consultation with an advisor, may choose 12 upper division units in courses with a prefix other than HIST, and not cross-listed with HIST.

   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

5. **Fields of Study (24 units)**
   **Option I:**
   Students should complete 12 upper division units in one field of study and 6 upper division units in each of two other fields of study. U.S. History must be one of the three fields.
   - U.S. History
   - Choose two fields from among the following: Africa, Asia (may include the Middle East), Europe (either Europe before 1500 or Europe since 1500), or Latin America.

   **Option II:**
   Students may complete 6 units in each of the three fields of study, distributed geographically as above, and 6 elective units, so long as a minimum of 12 units fall under a theme approved on departmental advisement such as Empire and Imperialism; Gender, Sexuality and the Body; Religion and Society; or the Pre-modern World (applicable courses are listed in the department’s Undergraduate Advising Booklet).

   HIST 640, HIST 642, HIST 644, HIST 697 serve as the culminating experience course for the major.
Bachelor of Arts in History: Honors Concentration – HIST Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in History. Twelve units in the major (HIST 110/HIST 111 or HIST 114/HIST 115, HIST 120, HIST 121) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

1 ENG 214 or equivalent is a prerequisite to all upper division major courses. If not completed in transfer, in the first semester students must take ENG 214, as well as US Government, upper division GE, or University Electives. All major courses will be taken in a later semester.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–15 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–3 units): US Government, California State and Local Government requirements if not taken before transfer. US History met in ADT.
- Upper division GE, areas B, C and D (9 units): HIST courses approved for UD GE areas C and D might double-count for Major requirements.
- Students entering this major with the AA-T in History are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**History Major: 33 Units**

HIST 110-HIST 111 or HIST 114-HIST 115, HIST 120, HIST 121 met in transfer.

• Major Required courses (3 units): HIST 300GW
• Fields of Study (24 units): Students have two options to complete this requirement.

  - Option I – Take 12 upper division units in one world region and six units in each of two other world regions. One of the three regions must be the U.S. The other two can be chosen from Africa, Asia (may include Middle East), Europe (either pre-1500 or post-1500) or Latin America.
  - Option II – Take six units in each of three world regions, as above, in consultation with a department advisor to create a thematic focus.

  - Proseminar (3 units): Take after HIST 300GW.
  - Honors thesis (3 units): Take after the proseminar; normally represents an extension of the work in the proseminar.
  - Language Proficiency: two semester-length courses in college-level language or equivalent proficiency based on exam administered in Modern Languages and Literatures Department. Advanced Placement may be used depending on score – check Bulletin.
  - Students in this major must earn a minimum grade of B in each course, and attain an overall GPA of 3.25.

**University Electives: Six or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.
Minor in History

History minors cannot choose CR/NC grading in more than one course in their minor, nor elect CR/NC grading in HIST 300GW.

History Minor – 24 units

Electives (9 units)

Upper division electives in history on advisement.

Master of Arts in History

Graduate Advisors: Curtis, Elkind

Admission to Program

A prospective student must fulfill the general University requirements as stated in the section on Graduate and Post-Baccalaureate Admissions (p. 115) of this Bulletin. To be considered for classified admission to the Master of Arts in History program, a student must have completed an undergraduate major in history with a minimum grade point average of 3.5. Applicants whose GPA in history falls between 3.35 and 3.5 can be considered for admission on a conditional basis. Students whose undergraduate major was not history should consult the graduate coordinator about making up course deficiencies in history. The usual pattern is for the student to complete the equivalent of a B.A. in history before being accepted as a classified student in the graduate program of the department.

If the student’s undergraduate record, writing sample, letters of recommendation, and GRE scores meet the basic requirements and give promise of a successful pursuit of graduate work, the department will recommend that the student be admitted either to classified graduate standing (which means that the student may immediately proceed to take graduate courses and seminars) or conditional standing, specifying the conditions and time limit within which they must be met.

Written English Proficiency Requirement

Level One (Preadmission)

Assessment of the writing sample based on graduate-level rubrics; completion of writing component of GRE with a score of 4.0 or better.

Level Two

Satisfactorily completing the writing requirements in HIST 700.

Advancement to Candidacy

Besides meeting all general requirements for advancement to candidacy, applicants must maintain a 3.0 grade-point average in all history courses taken for the master of arts, and may not list on the Advancement to Candidacy any course in which the grade received is below B–.

History (M.A.) – Minimum 30 Units

All students are required to take HIST 700 and HIST 705, preferably within the first year, for a total of six units.

<table>

</tbody>
</table>

Electives (21 units)

Students are required to take four additional graduate seminars (12 units) distributed as follows:

- At least one reading seminar
- At least one research seminar
- At least one seminar covering topics before 1800
- At least one seminar covering topics after 1800
- Seminars must cover at least two geographical fields selected among Latin America, Asia, Africa, the Middle East, Europe, and the US

The additional nine units (three courses) may be drawn from upper division courses, proseminars, or graduate seminars. Under advisement, students are encouraged to design a program that best meets their academic and career goals.

Seminars (HIST 701–HIST 850) may be offered as reading or research variants Students should regularly consult with their advisor to determine which seminars are being offered.

Students may count a single course for both chronological and geographical distribution.

Students may substitute HIST 899 Independent Study for one of these requirements.

Students may substitute HIST 785 College Teaching of History for one graduate seminar.

Courses may be repeated for credit provided the topic is not repeated.

</tr>
</tbody>
</table>

Auxiliary Skills

Candidates for the master’s degree are expected to present an auxiliary skill to aid them in their historical study. In almost all cases, this would
be a reading knowledge of one foreign language; but, upon advisement, a candidate may design a two-semester course of study in another skill that is relevant to his or her research. Information about specific requirements may be obtained from the graduate coordinator.

**Thesis Option**
While the usual culminating requirement consists of HIST 896 and the written comprehensive examination (HIST 896EXM, under certain conditions a student may be given permission to do a thesis (HIST 898, Master’s Thesis) and an oral defense of the thesis in his/her major field. Students considering the thesis option should contact the department chair or graduate coordinator for further details.
HUMANITIES

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Humanities & Liberal Studies
Humanities Building, Room 410
Phone: (415) 338–1830

Chair: Cristina Ruotolo
Graduate Coordinator: Mary Scott

Program Scope
The program offers students understanding of cultural experience through interdisciplinary study of the humanities. Undergraduate and graduate students study creative practices, cultural values, and insights of diverse human communities, past and present. Humanities majors explore methods of bringing the various humanities, such as literature, music, visual forms, and architecture, into an integrative view of the world's cultural diversity.

With this integrative approach to American and world cultures, the humanities major provides an excellent foundation for jobs in government, business, law, education, and the arts. Practical training in a specific professional field (TESOL, journalism, museum work, etc.) may well be taken in conjunction with the major or the minor in humanities. The Bachelor of Arts in Humanities program is also good preparation for entering a K–12 single subject or multiple subject teaching credential programs. Those earning the M.A. are qualified to search for a position at a community college.

For the B.A. in Humanities, students must complete a core of five courses (including a senior seminar) in basic methods of understanding culture through the humanities, and then choose combinations of courses in European, American, Asian and Middle Eastern/African, and Cross-Cultural Studies. Up to three appropriate courses in related departments such as ethnics studies, English, comparative and world literature, philosophy, art, and music may be included in the major with an advisor's approval.

Students minoring in humanities must complete three core courses and four additional courses in one or more of the culture-study areas, depending upon the emphasis desired.

The M.A. in Humanities is an interdisciplinary program that emphasizes the integrative study of culture, ideas, and the arts, with special concern for the questions of value—moral, intellectual, cultural, and aesthetic—that are inherent in major human expressions. It serves a variety of personal and career objectives, including preparation for and enrichment of K–12 and community college level teaching and preparation for advanced study in a range of disciplinary and interdisciplinary degree programs in the humanities.

Associate Professors
Augsburg, Bertram, Garcia-Moreno, Steier

Assistant Professor
Sousanis

Majors
• Bachelor of Arts in Humanities (p. 834)

Minors
• Minor in Humanities (p. 843)

Masters
• Master of Arts in Humanities (p. 843)

Bachelor of Arts in Humanities
The department's lower division General Education courses (HUM 130, HUM 220, HUM 225) or other lower division courses concerned with ideas, social conditions, and art forms are recommended for students planning to major or minor in humanities. HUM 130 or HUM 220 may be counted toward the major as an elective in Cross-Cultural studies. Study or practical experience toward mastery of a foreign language is strongly recommended along with the major or minor.

Humanities majors who successfully complete HUM 300GW in spring 2010 or thereafter will have satisfied the University Graduation Writing Assessment Requirement (GWAR).

**European Culture Studies (6 units)**
Units selected from the following or other appropriate courses on advisement:

- **HUM 302** Theories and Methods in the Humanities 3
- **HUM 375** Biography of a City (Berlin, Florence, London, Moscow, Paris, Rome, St. Petersburg, Vienna, Naples) 3
- **HUM/MGS 378** Athens 3
- **HUM 401/CLAS 410** Ancient Greek Literature 3
- **HUM 402/CLAS 415** Ancient Roman Literature 3
- **HUM 403/HIST 330** The Early Middle Ages 3
- **HUM 404/HIST 331** The High Middle Ages 3
- **HUM/ART 405** Art, Literature, and Power in the Renaissance 3
- **HUM 407** Romanticism and Impressionism 3
- **HUM 410** The Modern Revolution 3
- **HUM/PHIL 432** Nietzsche and Postmodernism 3
- **HUM 434/JS 414/PHIL 434** Arendt and Heidegger 3
- **HUM 550** The Art of Autobiography 3

**American Culture Studies (6 Units)**
Units selected from the following or other appropriate courses on advisement:

- **HUM 321/MUS 507/TH A 507** Jazz and Blues in Film 3
- **HUM 375** Biography of a City (Los Angeles, Mexico City, New Orleans, New York, Rio de Janeiro, Havana, Chicago, Boston, Buenos Aires) 3
- **HUM 376** San Francisco 3
- **HUM 450/AMST 410** California Culture 3
- **HUM 455** Humanities of the Americas (San Francisco) 3
- **HUM 470** American Autobiography 3
- **HUM/HIST 480** Thought and Culture in America to 1880 3
- **HUM/HIST 481** Thought and Culture in America: 1880 to the Present 3
- **HUM 485/AMST 310** The Arts and American Culture 3
- **HUM 490** American Images: Photography and Literature 3
- **HUM/LTNS 520** North and South American Cultural Expression 3

**Asian Culture Studies (6 Units)**
Units selected from the following or other appropriate courses on advisement:

- **HUM 366** India's Gandhi 3
- **HUM 375** Biography of a City (Beijing, Tokyo, Delhi, Shanghai) 3
- **HUM/ART 507** Art of China 3
- **HUM 526** Culture of Japan before 1850 3
- **HUM 527** Japan and Modernity 3
- **HUM 530** Chinese Civilization 3
- **HUM 531** Images of Modern China 3
- **HUM 522/CWL 432** From Ghost Stories to Short Stories: Japanese Fiction in Comparative Contexts 3
- **HUM 535** Classical South Asian Cultural Forms 3
- **HUM 536** Modern South Asian Cultural Forms 3

**Additional Courses (3 Units)**
Units selected from one of the above culture study areas, or other appropriate courses on advisement

**Note:** Up to three appropriate courses (9 units) in related departments or programs may be substituted for departmental course work in the culture-study areas. Core courses must be taken for a letter grade. No more than one elective course (3 units) may be taken CR/NC. Up to three units lower division coursework can be counted as an elective in the major.

**Complementary Studies**
Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in Humanities. These units must come from courses bearing a prefix other than HUM and not cross-listed with HUM. Humanities majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Humanities majors may, with the approval of a Humanities department advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as partial completion of a second major, a minor or a certificate, or courses in a related discipline. Related disciplines typically include: African American Studies, American Indian Studies, American Studies, Anthropology, Art, Asian American Studies, Broadcast and Electronic Communication, Cinema, Classics, Comparative World Literature, Creative Writing, English, Foreign Languages, History, International Relations, Jewish Studies, Journalism, Liberal Studies, Middle East and Islamic Studies, Modern Greek Studies, Music, Philosophy, Political Science, Race and Resistance Studies, Theatre Arts, and Women and Gender Studies.

These courses should either have a direct bearing on the study of the humanities, or they should be shown to deepen and enrich the study of humanities in particular and articulate ways. Up to nine units of Complementary Studies can count toward the major, leaving three other units to be met by another course in consultation with an advisor in the department. Advisors may use a slightly higher standard for complementary for the nine units that count for the Major than for the three units that do not.

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  LD or UD  3
Environmental Sustainability (ES)  LD or UD  3
Global Perspectives (GP)  LD or UD  3
Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

Transfer Student Roadmap (2 Year)
For students with an AA-T in Art History. This roadmap opens in a new tab. (p. 841)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Art History
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

• How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
• Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
• How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   • a course in U.S. History
   • a course in U.S. & California Government
   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).
Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Additional Course from One of the Above Culture Study Areas or Other Appropriate Courses on Advisement  
Complementary Studies or SF State Studies or University Elective |               | 6     |

Total Units: 15

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3 Complementary Studies  
Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in Humanities. These units must come from courses bearing a prefix other than HUM and not cross-listed with HUM. Humanities majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Humanities majors may, with the approval of a Humanities department advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as partial completion of a second major, a minor or a certificate, or courses in a related discipline. Related disciplines typically include: African American Studies, American Indian Studies, American Studies, Anthropology, Art, Asian American Studies, Broadcast and Electronic Communication, Cinema, Classics, Comparative World Literature, Creative Writing, English, Foreign Languages, History, International Relations, Jewish Studies, Journalism, Liberal Studies, Middle East and Islamic Studies, Modern Greek Studies, Music, Philosophy, Political Science, Race and Resistance Studies, Theatre Arts, and Women and Gender Studies. These courses should either have a direct bearing on the study of the humanities, or they should be shown to deepen and enrich the study of humanities in particular and articulable ways. Up to nine units of Complementary Studies can count toward the major, leaving three other units to be met by another course in consultation with an advisor in the department. Advisors may use a slightly higher standard for complementary for the nine units that count for the Major than for the three units that do not.
4 Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

Bachelor of Arts in Humanities – ARTH Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Art History. Three units in the major (Additional Course) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

1 Check for courses that also satisfy Upper Division GE: UD-C.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 6–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper division GE, areas B, C and D (6–9 units): Many courses satisfying the Culture Studies areas also satisfy UD-C.
Students entering the major with the AA-T in Art History are not required to fulfill SF State Studies requirements.
Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

**Humanities Major: 39 Units**
Three units from the Art History AA-T may be applied to the Additional Courses area.
• Core (15 units) – includes GWAR-designated course
• Cross-Cultural Studies (6 units)
• European Culture Studies (6 units)
• American Culture Studies (6 units)
• Asian Culture Studies (6 units)
• Additional Courses (0 units – consult with major advisor about applying units from the AA-T)

**University Electives: Three or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.
Minor in Humanities

Electives (12 units)

Units selected on advisement in one or more of the culture study areas of the major and up to 3 units may be taken outside the department.

Master of Arts in Humanities

Admission to the Program

Applications for admission should include a statement of the applicant’s purpose in applying to the program, a writing sample, and two letters of recommendation. Applicants whose native language is not English and whose B.A. is from a university in which English is not the medium of instruction must have a minimum TOEFL score of 570 (computer-based TOEFL 230). The GRE is not required.

Admission to classified standing in the program is given on evaluation of several factors in an applicant’s education and experience. Of considerable importance are the subjects and range of undergraduate study; emphasis is given to courses in literature, history, languages, philosophy, the arts, cross-cultural and interdisciplinary humanities, but studies in the sciences or social sciences may also be valuable.

Written English Proficiency Requirement

Level One (entry)

The department admissions committee will evaluate Level One written English proficiency based on the applicant’s 500-word statement of purpose, and an eight to ten page writing sample on a humanities-related topic. Taken together these should show that the applicant understands the nature of the program, has thought carefully about her/his reasons for applying and can articulate them effectively, and can express clearly and thoughtfully in writing on ideas and materials appropriate to the program.

The admissions committee will evaluate the quality of these materials as either insufficient for admission, satisfactory for conditionally classified admission, or satisfactory for admission to classified status. This classification is based on:

1. fluency and precision of expression,
2. clear organization and persuasive argument, and
3. appropriateness of the applicant’s interests and academic experience to the program.

Those who are admitted conditionally must receive a B or better in HUM 700 or HUM 721 in their first semester to be advanced to classified status.

Level Two

Level Two written English proficiency is demonstrated by the quality of the student’s work in HUM 898, or HUM 896 and HUM 896EXM. The criteria are the same for both:

- Ability to articulate a critical framework that encompasses several kinds of primary texts.
- Ability to express one’s perspective about the most significant secondary scholarship on those primary texts.
- Ability to articulate and support an argument of substantial length and complexity.

Advancement to Candidacy

Besides meeting general requirements of the program, students must maintain a 3.0 grade point average to qualify for advancement to candidacy for the master’s degree. Official advancement to candidacy comes about with acceptance of an Advancement to Candidacy form by the Graduate Division.

With the graduate advisor’s approval, most upper division Humanities Department courses may be used to satisfy a portion of the Master of Arts requirements.

Humanities (M.A.) – Minimum 30 units

Core Requirements (6 units)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

</thead>
<tbody>
<tr>
<td>HUM 700</td>
<td>Introduction to Integrative Study</td>
<td>3</td>
</tr>
<tr>
<td>or CWL 800</td>
<td>Introduction to Graduate Study in Comparative Literature</td>
<td></td>
</tr>
<tr>
<td>HUM 721</td>
<td>Culture and Style</td>
<td>3</td>
</tr>
</tbody>
</table>

Integrative Study of Cultural Expression (6 units)

Units selected under advisement from the following (one course must be non-Western):

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>HUM 710</td>
<td>Seminar in European Forms and Culture</td>
<td>3</td>
</tr>
<tr>
<td>HUM 711</td>
<td>Seminar in American Forms and Culture</td>
<td>3</td>
</tr>
<tr>
<td>HUM 712</td>
<td>Seminar in African Forms and Culture</td>
<td>3</td>
</tr>
<tr>
<td>HUM 713</td>
<td>Seminar in Asian Forms and Culture</td>
<td>3</td>
</tr>
</tbody>
</table>

Disciplines of the Humanities (6 units)

Units selected under advisement from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>HUM 701</td>
<td>Fine Arts in the Humanities</td>
<td>3</td>
</tr>
<tr>
<td>HUM 702</td>
<td>Literature in the Humanities</td>

</tr>
<tr>
<td></td>
<td>or</td>
<td></td>
</tr>
<tr>
<td>HUM 898</td>
<td>Master’s Thesis (and Oral Defense of Thesis)</td>
<td>3</td>
</tr>
</tbody>
</table>

Culminating Experience

The candidate must present a proposal and bibliography for his/her culminating project in writing to a Humanities faculty member by one week before the Graduate Division’s deadline for Culminating Experience and ATC forms in the semester prior to enrolling in HUM 896EXM or HUM 898. The chosen culminating experience
(HUM 896 or HUM 898) should be integral to the candidate’s larger M.A. plan and with his/her longer career objective. It will be carried out in the final semester of work for the degree, with the aid of a graduate faculty member acting as chair and first reader; at least one other faculty member will serve as the first reader on the student’s M.A. committee and will join as second reader in evaluation of the culminating experience. Both HUM 896EXM and HUM 898 require an oral defense of the thesis.

Second Language

Reading proficiency in a second language is required. Under exceptional circumstances, a candidate may petition to substitute demonstrable proficiency in an auxiliary skill that has a clear relationship to his/her M.A. program.
INTERNATIONAL RELATIONS

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of International Relations
Humanities Building, Room 282
E-mail: ir@sfsu.edu
Phone: (415) 405–3917

Chair: Mahmood Monshipouri
Graduate Coordinator: Burcu Ellis

Program Scope and Student Learning Objectives
The courses of study for the Bachelor of Arts in International Relations have three objectives: to impart knowledge of basic concepts, theories and methods in international relations; to develop in each student at least one area of special individual competence in international relations; and to train students in research, analytical, and presentation/communication skills. Liberal arts educational goals are emphasized but the program seeks also to develop marketable skills appropriate to the field. These include report writing, statistical and computer applications, public policy analysis, oral briefing techniques, and audio-visual production.

Utilizing the extensive course offerings in the program and other departments, students are able, on advisement, to develop individual areas of specialization within geographical, functional (e.g., international political economy), problem-oriented (e.g., arms control), theoretical/methodological, and other categories. Field work may also be part of an area of specialization.

The emphasis upon elective courses of study requires that a student consult with an advisor every semester.

Career Outlook
Employment possibilities for graduates in international relations exist in business, government, electronic and print journalism, teaching and private international service (e.g., U.N. Association, Red Cross, etc.). Students completing a degree find it excellent preparation for entry into highly competitive programs of advanced study or work abroad in areas of special interest or knowledge.

Professors
Banerjee, Hanami, McAfee, Monshipouri, Tsygankov, Volk, Yansané

Associate Professors
Darling, Ellis, Skonieczny

Assistant Professor
Siegel

Lecturers
Crosbie, Fiene, Levi-Sanchez, Whooley

<td>Proseminar in Foreign Policy Analysis</td>
<td>6</td>
</tr>
</tbody>
</table>

Complementary Studies
Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in International Relations. These units must come from courses bearing a prefix other than I R, and not cross-listed with I R.

International Relations majors are offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. International Relations majors may, with the approval of an International Relations advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, a minor or a certificate, and courses in a related discipline. Related disciplines typically include: political science, sociology, anthropology, environmental studies, geography, global health, or journalism.

Up to six units of a single language or six upper division units of complementary studies may, with the approval of a departmental advisor, also be counted as International Relations electives in fulfillment of major requirements.

Note: Courses fulfilling the IR major core requirement may not be taken on a CR/NC basis.

Note: LD = Lower Division; UD = Upper Division.

---

### This degree program is an approved pathway (“similar” major) for students earning the ADT in Global Studies

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer. 
   - a course in U.S. History 
   - a course in U.S. & California Government 
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

---

### Transfer Student Roadmap (2 Year)

For students with an AA-T in Global Studies. This roadmap opens in a new tab. (p. 850)
• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.
For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

| Total Units | 120-121 |

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in International Relations. These units must come from courses bearing a prefix other than I R, and not cross-listed with I R.

   International Relations majors are offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. International Relations majors may, with the approval of an International Relations advisor, elect to apply 12 units in a single foreign language of their choosing, courses taken in an approved study abroad program (e.g., CSU Study Abroad), courses taken as part of a second major, a minor or a certificate, and courses in a related discipline. Related disciplines typically include: political science, sociology, anthropology, environmental studies, geography, global health, or journalism.

   Up to six units of a single language or six upper division units of complementary studies may, with the approval of a departmental advisor, also be counted as International Relations electives in fulfillment of major requirements.

   Note: Courses fulfilling the IR major core requirement may not be taken on a CR/NC basis.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. Students are encouraged to select an emphasis by choosing course work in Area Studies, International Institutions, or Global Problems in consultation with an advisor. Twelve units of course work must be in I R.
# Bachelor of Arts in International Relations – GLST Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Global Studies. Three units in the major (I R 104) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).**

1 Certain IR electives also satisfy Upper Division GE UD-D

## To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

### University-Wide Requirements: 9–18 Units

- ENG 214 or equivalent A4 course (0–3 units) if not completed prior to transfer.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not met pre-transfer.
- Upper division GE areas B, C and D (9 units): Look for IR major elective courses that satisfy Upper Division GE: UD-D
- Students entering the major with the AA-T in Global Studies are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.
International Relations Major: 40 Units
I R 104 met in transfer.

- Core Requirements (16 units)
- Emphasis/Electives (18 units): In consultation with a department advisor, students select one of the following emphases: Area Studies; International Institutions; Global Problems. 12 of the required 18 units must be courses with the I R prefix.
- Culminating Experience Requirement (6 units): I R 550

University Electives: Three or More Units
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.
Minor in International Relations

Requirements under the major program relating to upper division work, limitations on CR/NC grading, and order in which courses are taken also apply to the minor.

International Relations Minor – 20 units

Required Courses (12 units)
- I R 308 Fundamentals of International Relations Theories, Issues, and Perspectives (4 units)
- I R 310 U.S. Foreign Policy (4 units)
- I R 312 Introduction to International Political Economy (4 units)

Electives (8 units)
Electives with an international relations prefix including International Relations cross-listed courses that appear under an alternative prefix.

Master of Arts in International Relations

Admission to Program
To receive serious consideration, applicants will have a bachelor’s degree (or equivalent) with relevant course work and a grade point average of at least 3.3 (out of 4.0) in the last 60 units of undergraduate study. Students below the 3.3 GPA threshold may still receive consideration if the other elements of their application portfolio are strong. Applicants who have taken appropriate undergraduate courses in International Relations could be admitted without conditions. Applicants without an appropriate background in International Relations may be admitted conditionally and must meet conditions before taking graduate level courses. Detailed, current application requirements and procedures are available on our Prospective Applicants (http://internationalrelations.sfsu.edu/content/prospective-graduate-students) webpage.

Written English Proficiency Requirement
The University has a requirement for written English proficiency that is to be assessed at two different points in a student’s program.

Level One
Completion of I R 720 with a grade of B or better.

Level Two
Completion of I R 898 or I R 892 with a grade of CR (credit).

Advancement to Candidacy
Students are encouraged to meet with their advisor on a regular basis. During the second semester or after having completed nine units, students should prepare in consultation with the graduate coordinator an Advancement to Candidacy (http://grad.sfsu.edu/content/current-students/atc) (ATC). At this time, all general requirements for advancement to candidacy and all conditions imposed at the time of admission to the program must have been met.

Grades
Students in the graduate program must maintain a 3.0 grade point average. A grade lower than B in I R 720 is sufficient to disqualify a student from the program.

International Relations (M.A.) – Minimum 33 units

Core (18 units)
- I R 720 Theory and Approaches in International Relations (3 units)
- I R 725 The Analysis of Foreign Policy (3 units)
- I R 728 International Political Economy (3 units)
- The International System and its Problems: a course in the range I R 730 to I R 739 (3 units)
- Comparative Foreign Policies: a course in the range I R 740 to I R 749 (3 units)
- Select one additional class from either of the above series (I R 730 to I R 739, or I R 740 to I R 749) (3 units)

Academic Emphasis (16 units)
- I R 750 Methods and Thesis Selection in International Relations (3 units)
- I R 751 Alternative Research Methods in International Relations (or equivalent- any course covering multiple regression such as PSY 772 or SOC 393) (4 units)
- Select 6 units of Electives in international relations or related disciplines (6 units)

Culminating Experience
- I R 898 Master’s Thesis (3 units)

Professional Emphasis (15 units)
- I R 750 Methods and Thesis Selection in International Relations (3 units)

Thematic Courses
Thematic combination of courses (total nine units) in fields of inquiry and training such as: public administration; international business, management, or finance; international development; international environmental studies, or other fields related to international careers. Approval of graduate advisor required.

Culminating Experience
- I R 892 Sponsored Graduate Internship in International Relations (3 units)
JEWSIH STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Jewish Studies
Humanities Building, Room 416
Phone: (415) 338-6075

Department Chair: Fred Astren
Undergraduate Advisors: Astren, Dollinger, Gross, Kaplan, Millet

Program Scope
The Bachelor of Arts in Modern Jewish Studies program is designed to provide an understanding of Jews and Judaism in terms of the interactions of culture, history, and religion. The challenge of modernity faced by Jews and Judaism over the last two hundred years has transformed traditional Jewish societies and generated a great measure of difference and diversity. After a history of more than two millennia, Jews have redefined religion, notions of identity, and social organization in contexts of a dominant culture (in Israel) and a minority culture (elsewhere in the world). The broader dynamics of how ethnic, religious, or racial minorities interact with the majority societies are examined in both these contexts. Courses explore the constants and variety of the Jewish experience in different historical periods and geographical settings and include language study.

Minor in Jewish Studies
The interdisciplinary minor consists of four three-unit core courses and two three-unit elective courses selected on advisement from offerings by a variety of colleges of the University. The purpose of the interdisciplinary Jewish Studies Minor is to acquaint the student with the history, culture, contributions, and religion of the Jewish people as seen through the eyes of modern academic disciplines and with particular reference to contemporary issues and patterns. Students can use the Minor in Jewish Studies to complement their majors and, with advising, to fulfill General Education requirements.

Career Outlook
The Bachelor of Arts in Modern Jewish Studies and the Jewish Studies Minor offer an excellent background for students interested in Judaism as the basis for scholarly or professional pursuits, increasing the depth of understanding of the history, culture, contributions, and religion of the Jewish people within the context of a major discipline of study and prepare students for careers as educators and community professionals.

Jewish Studies Learning Outcomes
1. Students develop interpretive and analytical skills in reading Jewish religious texts.
2. Students develop interpretive and analytical skills in reading Jewish literary texts.
3. Students gain knowledge of the history and cultures of Jews and Judaism in the ancient, medieval, and modern periods in the Americas, Europe, the Middle East, and North Africa.
4. Students gain knowledge of the relationships of Jews and Judaism to other peoples, religions, and cultures in the Americas, Europe, the Middle East, and North Africa.
5. Students gain knowledge of the ways that Jews and Judaism illuminate the histories, literatures, religions, and cultures of non-Jews in the world.
6. Students gain knowledge of the ways that non-Jewish histories, literatures, religions, and cultures are necessary to understand Jews and Judaism in the world.
7. Students find, read, understand, and assimilate primary and secondary research materials.

Major
• Bachelor of Arts in Modern Jewish Studies (p. 853)

Minor
• Minor in Jewish Studies (p. 861)

Bachelor of Arts in Modern Jewish Studies
The Bachelor’s Degree in Modern Jewish Studies is designed for students coming from any and all religious and ethnic backgrounds, and for those with no religious background at all. The teaching philosophy in the Department of Jewish Studies is to use academic approaches of disciplines from across the university to study religion, literature, history, culture, language, and all other aspects of Jewish life and experience.

To ensure a useful and meaningful university experience, all majors must consult an advisor regularly as they progress through the degree program. Students are also advised to consult with the University’s Advising Center for information about General Education and other University requirements, as well as the Student Achievement and Resource Center in the College of Liberal & Creative Arts: lca.sfsu.edu/academics/student-achievement-and-resource-center.

Modern Jewish Studies (B.A.) – 30 units
The Bachelor’s Degree in Modern Jewish Studies requires a total of 30 units. All Jewish Studies majors are expected to take 12 units from the Core Courses, three units of a Culminating Experience, 12 units of Electives, and three units in a GWAR course.

Twelve units of complementary studies are required of all candidates for the Bachelor’s Degree in Modern Jewish Studies. These units are courses that have a prefix other than JS and that are not cross-listed with Jewish Studies. One of the recommended ways to fulfill this requirement is to take four Hebrew language courses.

• Courses that fulfill the Core and Culminating Experience requirements must be taken for a letter grade. CR/NC grading is not accepted for Core and Culminating Experience courses.

853
• Students must earn a grade of C or better in their selected GWAR designated course, and a C− or better in all other required degree courses.

**Major Core (12 units)**
Select four courses from the following:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>JS 280</td>
<td>Introduction to Jewish Studies</td>
<td>3</td>
</tr>
<tr>
<td>or JS 301</td>
<td>Judaism, An Introduction</td>
<td></td>
</tr>
<tr>
<td>JS/I R/PLSI 430</td>
<td>Israeli Democracy: Politics, Institutions, and Society</td>
<td>3</td>
</tr>
<tr>
<td>JS/CWL 437/ENG 533</td>
<td>Holocaust and Literature</td>
<td>3</td>
</tr>
<tr>
<td>JS/HIST 449</td>
<td>American Jewish History</td>
<td>3</td>
</tr>
<tr>
<td>JS/CWL 480</td>
<td>European Jewish Writers</td>
<td>3</td>
</tr>
<tr>
<td>JS 540</td>
<td>Anti-Semitism</td>
<td>3</td>
</tr>
<tr>
<td>JS/HIST 632</td>
<td>Jewish History I: Beginnings to 1650</td>
<td>3</td>
</tr>
<tr>
<td>HEBR 101</td>
<td>First Semester Modern Hebrew</td>
<td>3</td>
</tr>
<tr>
<td>or HEBR 102</td>
<td>Second Semester Modern Hebrew</td>
<td></td>
</tr>
<tr>
<td>or HEBR 201</td>
<td>Third Semester Modern Hebrew</td>
<td></td>
</tr>
<tr>
<td>or HEBR 202</td>
<td>Fourth Semester Modern Hebrew</td>
<td></td>
</tr>
</tbody>
</table>

**Electives (12 units)**
Select four JS upper division courses. These can include courses from the major core list. Courses from the major core cannot be double counted to fulfill both the core and elective requirements. A maximum of six units outside Jewish Studies may be counted toward the major with approval of a major advisor.

**GWAR Course (3 units)**
Select any GWAR course from any discipline or department with approval of a major advisor.

**Culminating Experience (3 units)**
Select one of the following:

<table>
<thead>
<tr>
<th>Course Number</th>
<th>Course Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>JS 600</td>
<td>Internship</td>
<td>3</td>
</tr>
<tr>
<td>or JS 699</td>
<td>Independent Study</td>
<td></td>
</tr>
</tbody>
</table>

**Complementary Studies**
Twelve units of complementary studies are required of all candidates for the B.A. in Modern Jewish Studies. These units are courses that have a prefix other than JS and that are not cross-listed with Jewish Studies. Students can satisfy this requirement by completing a related minor, a second major, studying a pertinent foreign language, or through an approved study abroad program. Complementary studies courses should relate to the Jewish Studies major, as well as deepen and enrich student focus in the major, whether that focus is religion, literature, philosophy, history, social responsibility, or the study of Israel. Such courses are typically found through the College of Liberal & Creative Arts.

Note: Students that complete two majors, a major and a minor, automatically complete the complementary studies requirement.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

**General Education Requirements**

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Course Level</th>
<th>Units</th>

<td>LD or UD</td>
<td>3</td>
</tr>
<tr>
<td>Social Justice (SJ)</td>
<td>LD or UD</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: LD = Lower Division; UD = Upper Division.
Transfer Student Roadmap (2 Year)

For students with an AA-T in History or Political Science. This roadmap opens in a new tab. (p. 859)

This degree program is an approved pathway ("similar" major) for students earning the ADT in History or Political Science

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#A3EL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.
All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Total Units: 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. **Complementary Studies**
   Twelve units of complementary studies are required of all candidates for the B.A. in Modern Jewish Studies. These units are courses that have a prefix other than JS and that are not cross-listed with Jewish Studies. Students can satisfy this requirement by completing a related minor, a second major, studying a pertinent foreign language, or through an approved study abroad program. Complementary studies courses should relate to the Jewish Studies major, as well as deepen and enrich student focus in the major, whether that focus is religion, literature, philosophy, history, social responsibility, or the study of Israel. Such courses are typically found through the College of Liberal & Creative Arts. Note: Students that complete two majors, a major and a minor, automatically complete the complementary studies requirement. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.
4. **New Footnote**
   Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
5. **Electives (12 units)**
   Select four JS upper division courses. These can include courses from the major core list. Courses from the major core cannot be double counted to fulfill both the core and elective requirements. A maximum of six units outside Jewish Studies may be counted toward the major with approval of a major advisor.
6. **Major Core (12 units)**
   Select four courses from the following:
   - JS 280 Introduction to Jewish Studies (3 units)
   - or JS 301 Judaism, An Introduction (3 units)
   - JS 430 Israeli Democracy: Politics, Institutions, and Society (3 units)
   - JS 437 Holocaust and Literature (3 units)
   - JS 449 American Jewish History (3 units)
   - JS 480 European Jewish Writers (3 units)
   - JS 540 Anti-Semitism (3 units)
   - JS 632 Jewish History I: Beginnings to 1650 (3 units)
   - HEBR 101 First Semester Modern Hebrew (3 units)
     - or HEBR 102 Second Semester Modern Hebrew (3 units)
     - or HEBR 201 Third Semester Modern Hebrew (3 units)
     - or HEBR 202 Fourth Semester Modern Hebrew (3 units)
7. **GWAR Course (3 units)**
   Select any GWAR course from any discipline or department with approval of a major advisor.
# Bachelor of Arts in Modern Jewish Studies – HIST or POLS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with either an AA-T in History or an AA-T in Political Science. All lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</tbody>
</table>

1. Must be upper division. May be selected from the Core list, but courses cannot double-count for both Core and Elective requirements. Up to six units outside Jewish Studies may be applied to the major with approval of a department advisor.

2. ENG 214 or equivalent is a prerequisite for many upper division JS courses and for upper division GE courses. If ENG 214 equivalent is not completed prior to transfer, the GWAR course must be taken in the second semester; progress in the major and length of time for degree completion will be affected.

3. JS 301, JS 437, JS 449, JS 480, JS 540 and JS 632 satisfy Upper Division GE: UD-C.

4. JS 430 satisfies Upper Division GE: UD-D.

5. JS 449 also satisfies US History, if needed.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:
University-Wide Requirements: 9–18 Units
- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer.
- American Institutions (0–6 units): US History, US Government & CA State and Local Government requirements if not taken before transfer.
- Upper division GE (9 units): Many courses in the major also satisfy UD-C or UD-D. Students should attempt to enroll in a UD-B course in the first or second semester in order to complete the upper division GE requirement.
- Students entering this major with the AA-T in History or the AA-T in Political Science are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

Modern Jewish Studies Major: 30 Units
- Core (12 units)
- GWAR course (3 units) – Select from any discipline or department with approval of a Modern Jewish Studies department advisor
- Electives (12 units) – Must be upper division. May be selected from the Core list, but courses cannot double-count for both Core and Elective requirements. Up to 6 units outside Jewish Studies may be applied to the major with approval of a department advisor.
- Culminating Experience (3 units)

University Electives: Nine or More Units
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major. Upper division electives recommended in order to meet the minimum 40-unit requirement.

Email: ciij@sfsu.edu (CIIJ@sfsu.edu)

Mission Statement
To educate students and provide leadership in an evolving media landscape by promoting integrity, creativity, innovation and social responsibility in accurately telling the stories of a multicultural world.

Program Scope
The Bachelor of Arts in Journalism prepares students for careers in journalism. This is accomplished by providing instruction that requires students to demonstrate a working knowledge of the skills, laws, ethics, power, and responsibilities of the news media. A strong liberal arts education also is required.

The main goals of the program's skills courses are to help students become accurate and thorough researchers; incisive thinkers who can gauge the quality of information; precise, clear and graceful writers; technically, aesthetically fine photojournalists; and competent digital technologists. Many students choose the major because these skills provide excellent preparation for numerous occupations, not only for journalism.

Students in the Print/Online concentration are required to take introductory courses in research, reporting, writing, digital skills, and editing. Photojournalism concentration students are required to take introductory courses in writing, digital skills, and reporting as well as courses in basic photography and news photography. All students are required to take courses in multimedia journalism. Specialized courses for Print/Online students reflect different areas of expertise—feature writing, public journalism, opinion writing, investigative reporting, magazine writing, design courses and visual journalism for writers and editors. Photojournalism students gain expertise in lighting and telling stories through photographs. In order to understand the role of journalism in society, students also are required to take courses in mass media, journalism ethics and law, and cultural diversity. Students are strongly urged to develop speaking, writing, and listening competency in a second language.

Minor in Non-Journalism Discipline
Because the practice of journalism requires an understanding of larger social, political and cultural issues in society, the program requires students to complete a minor in a liberal arts or science discipline. The list of approved minors can be found on the Journalism department website at http://journalism.sfsu.edu/pages/list-approved-minors.

Students should consult with an academic advisor in journalism to determine the best minor for their interests and professional goals.

Capstone
To give students pre-professional experience, the program requires students to work on a laboratory publication with a worldwide online and broad print circulation. These publications are produced by classes and are taken for credit. Consistent with the department's commitment to protect students' First Amendment rights, students have editorial control of the publications. Students must complete one semester of publication. In their second semester they can choose between working on the student publication, completing an approved internship, completing a senior seminar project or working in the department's News Bureau for professional publications. Students should consult with an advisor to choose the option that works best for them.

Internships
Students may earn up to three units for approved journalism internships and if the internship is rigorous, they may receive credit toward capstone requirements. Students should consult the department office about how to arrange credit for internships. Participating in internships is strongly encouraged. Students who succeed in finding journalism jobs upon graduation are generally those who have two or more internship experiences before they graduate. (http://journalism.sfsu.edu/pages/internship-information)

Advising
To help students stay on top of the challenges they face, the department strongly encourages all majors and minors to receive academic advising with a journalism faculty advisor every semester. The department office makes appointments via email. Students are asked to provide advisors with ongoing records of their complete academic record for the department advising folders. Upper division students will have mandatory advising every year and will have a hold placed on their registration until it's completed. The department will send an email notifying upper division students about mandatory advising.

CIIJ
Services are available to all journalism students at the department's Center for Integration and Improvement of Journalism. CIIJ was established in 1990 to create programs that increase retention rates and job/internship placement of journalism students and to increase ethnic minority enrollment and graduation rates. It conducts special programs for high school and community college students and high school journalism advisors. Department faculty and students have engaged in research about the coverage on ethnic minority people and issues that has had a national and international impact.

The Department and Faculty
The Journalism Department is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). It is a member of the California Newspaper Publishers Association and sponsors a student chapter of the National Press Photographers Association.

The faculty includes nine full-time members and a fluctuating number of part-time instructors, most of them active journalists. Faculty encourage and assist students in finding jobs and internships.
Career Outlook
The writing, editing, photography, and online news courses combined with and emphasis on critical thinking, ethics, and clear expression, prepare students for entry-level jobs in a wide variety of print, online and broadcast news organizations and magazines, and in many fields outside journalism. The department’s national reputation for excellence and diversity has drawn the attention of news organizations around the country, making it a key place for job and internship recruitment.

Journalism Learning Outcomes
1. **News Judgment:** Work demonstrates news judgment that identifies and develops story ideas through observation, reading and paying attention to their environment.
2. **Critical and Independent Thinking:** Work demonstrates an ability to synthesize information and think independently and work through problems using inference and logic.
3. **Cultural Competence:** Work demonstrates an understanding of a variety of cultures and how those cultures influence perspectives, attitudes and personal interaction with the world.
4. **Writing:** Work demonstrates concise, clear, and accurate writing that engages the audience with compelling storytelling.
5. **Analytical Competence:** Work demonstrates an ability to discern and weigh the quality of information they gather, as well as know how to analyze and interpret it.
6. **Research and Reporting:** Work demonstrates an ability to methodically find information through personal interviews, public documents, and the Internet.
7. **Media Literacy:** Work demonstrates an ability to competently navigate through a rapidly changing media world, understanding media’s influence on society, community and the democratic process, and that students also understand the power of visual storytelling in shaping society’s understanding of the world.
8. **Ethics, Integrity and the Law:** Work demonstrates knowledge and practice of ethical standards and constitutional laws that guide journalism excellence.
9. **Critical Evaluation:** Work demonstrates critical evaluation of their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness.
10. **Data and Numbers:** Work demonstrates an ability to apply basic numerical and statistical concepts.
11. **Technology:** Work demonstrates an ability to know when and how to apply technology in their professional work.
12. **Visual Competence:** Work demonstrates a technically competent ability to research, find, and capture a concise and compelling story that reflects the gamut of human experience in a variety of formats.

Majors
- Bachelor of Arts in Journalism: Concentration in Print and Online Journalism (p. 866)
- Bachelor of Arts in Journalism: Concentration in Photojournalism (p. 863)

Minors
- Minor in Journalism (p. 873)

Bachelor of Arts in Journalism: Concentration in Photojournalism
To earn the Bachelor of Arts in Journalism, students must complete 43 journalism units. Only ten journalism units may be in the lower division for print/online majors—JOUR 205 and JOUR 221, JOUR 222 and JOUR 226. Only 13 units may be lower division for photojournalism majors—JOUR 205 and JOUR 221, JOUR 222, JOUR 226 and JOUR 235, or their equivalents completed elsewhere. Courses numbered 300 and above are not open to freshmen. Upon enrolling in journalism classes, students will be required to use their SF State email accounts. These email addresses will be used as the primary source of communication between students and the department.

In order to ensure that every journalism student’s education is as rich and varied as possible, the department has established these requirements:

- A journalism major must complete a minor in one of the areas of study approved by faculty advisors. A list of approved disciplines for this requirement is posted at http://journalism.sfsu.edu/pages/list-approved-minors. Students should consult with an academic advisor in journalism to determine the minor that best meets their interests and professional goals.
- A journalism major must have a minimum of 72 non-journalism units in the 120 minimum overall units required for graduation. Included in these 72 units must be the minor in a single subject area chosen in consultation with the advisor. The 72 unit requirement is consistent with the department’s philosophy that a well-rounded education is crucial preparation for journalism and is consistent with the standards of the national accrediting agency (ACEJMC) that evaluates journalism education programs. These standards exclude classes in broadcasting (BECA), public relations (MKTG), and advertising (MKTG) from qualifying as non-journalism units. Photography and film production classes in Art and Cinema are also excluded.

Journalism (B.A.): Concentration in Photojournalism – 43 units

</tr>
</tbody>
</table>
Journalism majors and minors must earn a minimum grade of C in all JOUR 235, JOUR 335, JOUR 435, and JOUR 535.

**Capstone (6 units)**

JOUR 609  Publication Laboratory  3

For the Second Semester Capstone select one of the following:

JOUR 608  News Bureau Publication Lab  3
JOUR 609  Publication Laboratory  3
JOUR 617  Journalism Internship  3
JOUR 695  Senior Seminar  3

**Non-journalism units (includes required minor): 72 units**

These 72 units must include a single subject minor chosen in consultation with an advisor. Classes in broadcasting (BECA), public relations and advertising (MKTG), and classes in film (CINE) and photography (ART) do not qualify as non-journalism units.

Total units for Degree: 120

**Note:** A minimum of 43 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

**Skills Courses**

Skills courses offered by the Department of Journalism impart the various skills and crafts necessary to the practice of journalism. There are three levels of skills courses: foundational, advanced, and capstone. The capstone skills courses provide students a culminating opportunity to integrate skills acquired in foundational and advanced courses, working and learning collaboratively. Journalism majors and minors must earn grades of C or better in all foundational, advanced, and capstone skills courses.

**Other Requirements**

Students may enroll in only one laboratory course section per semester.

Journalism majors and minors must earn a minimum grade of C in all skills, concentration, advanced and capstone courses, and must attain at least an overall C average in the major and the minor.

Journalism majors and minors must take all journalism courses for letter grade only with the exception of JOUR 617 which may be taken C/NC.

**Complementary Studies**

Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in Journalism. Students completing the Bachelor of Arts in Journalism must complete a minor that has been approved by the department. The minor fulfills the Complementary Studies Requirement.

How GWAR is satisfied for the Journalism major: JOUR 300GW, required for all majors.

Note: LD = Lower Division; UD = Upper Division.
General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   • a course in U.S. History
   • a course in U.S. & California Government
   • a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**
   All students completing a B.A. degree must satisfy the 12 unit Complementary Studies requirement. Students who complete the Liberal Studies major will automatically satisfy complementary studies with 12 units of courses outside of the Liberal Studies prefix (LS) and not cross-listed with LS. Students must consult with an advisor to identify the courses that will be used to satisfy the requirement. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. **Non-journalism units (includes required minor): 72 Units**
   These 72 units must include a single subject minor chosen in consultation with an advisor. Classes in broadcasting (BECA (p. 1418)), public relations (MKTG (p. 1666)), advertising (MKTG (p. 1666)), and production classes in film (CINE (p. 1440)) and photography (ART (p. 1390)) do not qualify as non-journalism units.

6. **Capstone Elective**
   JOUR 608 News Bureau Publication Lab (3 units)
   JOUR 609 Publication Laboratory (3 units)
   JOUR 617 Journalism Internship (3 units)
   JOUR 695 Senior Seminar (3 units)
Bachelor of Arts in Journalism: Concentration in Print and Online Journalism

To earn the Bachelor of Arts in Journalism, students must complete 43 journalism units. Only ten journalism units may be lower division for print/online majors – JOUR 205 and JOUR 221, JOUR 222 and JOUR 226. Only 13 units may be lower division for photojournalism majors – JOUR 205 JOUR 221, JOUR 222, JOUR 226, and JOUR 235, or their equivalents completed elsewhere. Courses numbered 300 and above are not open to freshmen. Upon enrolling in journalism classes, students will be required to use their SF State email accounts. These email addresses will be used as the primary source of communication between students and the department.

To ensure that every journalism student’s education is as rich and varied as possible, the department has established these requirements:

- A journalism major must complete a minor in one of the areas of study approved by faculty advisors. A list of approved disciplines for this requirement is posted at http://journalism.sfsu.edu/pages/list-approved-minors. Students should consult with an academic advisor in journalism to determine the minor that best meets their interests and professional goals.

- A journalism major must have a minimum of 72 non-journalism units in the 120 minimum overall units required for graduation. Included in these 72 units must be the minor in a single subject area chosen in consultation with the advisor. The 72 unit requirement is consistent with the department’s philosophy that a well-rounded education is crucial preparation for journalism and is consistent with the standards of the national accrediting agency (ACEJMC) that evaluates journalism education programs. These standards exclude classes in broadcasting (BECA), public relations (MKTG), and advertising (MKTG) from qualifying as non-journalism units. Photography and film production classes in Art and Cinema are also excluded.

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  LD or UD  3
Environmental Sustainability (ES)  LD or UD  3
Global Perspectives (GP)  LD or UD  3
Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering, and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.
Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

LATIN AMERICAN STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

Latin American Studies Program
Humanities Building, Room 427
Phone: (415) 405–3492
Coordinator: Juanita Darling

Program Scope
The minor in Latin American Studies is a multidisciplinary program designed to provide undergraduate students with an understanding of Latin American societies, including their history and literature, as well as economic and political developments. The minor emphasizes the hybrid nature of Latin American societies, their shared cultures and history, their influence on other parts of the world, and the region's multi-layered relations with other countries. With a selection of courses drawn from disciplines or fields such as ethnic studies, the arts, the humanities, and the social sciences, students have flexibility to explore a wide range of subjects including ancient and modern civilizations, ethnic relations, the literary "boom" of the 1960s, doing business in present-day Latin America, and more. The minor will be useful to students planning careers in education, humanities, and the arts, the Foreign Service, international organizations, overseas corporations, and banking, as well as for those who simply desire a better understanding of Latin America. The multidisciplinary nature of the program also prepares students for further work in a number of academic fields at the graduate level.

The minor consists of a core curriculum of three courses (nine to ten units) which deal with the region as a whole from a variety of disciplinary perspectives, plus 12 to 14 units of elective upper division coursework. Not more than six units can be taken on a CR/NC basis. Students planning to take courses other than those listed below must get prior approval from the program director. Students completing the Latin American Studies minor are encouraged to participate in the study-abroad programs at SF State. Courses taken in certified SF State study-abroad programs may be substituted for the minor's requirements.

Professors
Almaguer, Barbosa, Calderon, Carillo, Cordova, Cuellar, Ferreira, Johnson, Millet, Murguia, Quesada, Rivera

Associate Professors
Darling, Garcia-Moreno, Gordy, Hennessy, Martinez

Assistant Professors
Morrison, Ramirez, Rodriguez

Lecturers
Baron, Davila, Gomez, Kury, Pereira

Foreign Language Requirement
All students completing this area studies minor are required to demonstrate intermediate level competency in a language other than English, relevant to the area. This requirement may be met by completing the university entrance requirement of two years of high school language study, one year of successful college level language study, or by demonstration of equivalent competency.
LIBERAL STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Humanities & Liberal Studies

Liberal Studies Program
Humanities Building, Room 409
Phone: (415) 338–6927
Website: humanitiesliberalstudies.sfsu.edu (http://humanitiesliberalstudies.sfsu.edu)
Program Director: Cristina Ruotolo

Advising is by appointment. Contact the Liberal Studies Office to arrange an appointment.

Program Scope
The Bachelor of Arts in Liberal Studies requires 120 units for graduation. The 46 unit major has a multidisciplinary and interdisciplinary curriculum encompassing all areas of knowledge in the arts and sciences. Many employers and professional schools prefer graduates with the richly diversified education that this major provides. A liberal studies program is also recommended as preparation for students who aspire to become elementary school teachers.

Before meeting with an individual advisor, students are expected to review the information in this Bulletin and on the web by going to humanitiesliberalstudies.sfsu.edu/student-advising (http://humanitiesliberalstudies.sfsu.edu/student-advising).

Career Outlook
The Liberal Studies major prepares students for future employment in a variety of fields, including education, government or public service, the arts, management, communications, humanities and social sciences, and work involving multicultural communities. The teacher preparation emphasis provides the broad academic background necessary for teaching in an elementary classroom and as part of a student’s preparation for the CSET Multiple Subjects (California Subject Examinations for Teachers). The major is also appropriate preparation for various professional and graduate programs such as business, counseling, law, librarianship, medicine, and for disciplinary or interdisciplinary graduate programs.

Students interested in becoming elementary school teachers are strongly encouraged to choose the Liberal Studies major and to choose the recommended Teacher Preparation courses in the core, and the Teacher Preparation emphasis for their 15 units beyond the core.

• Before beginning the core courses, students should have completed ENG 214 or equivalent (e.g., AFRS 214, CWL 214, or ENG 1B at a community college).
• A course may be used for only one purpose within the major. For example, if a course is used in the core, it may not be used in the Emphasis Pattern.

Transfer Courses Included in the Liberal Studies Major
With advisor approval, courses transferred from other institutions may be used to fulfill the Core requirements of the major if they are upper division and equivalent in content to the courses required in the major. Lower and/or upper division courses transferred from other institutions may be used in the Emphasis Pattern so long as at least six units are upper division and the content of the courses is equivalent. All residence requirements stipulated in the Bulletin must be met.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and SF State units can best be applied to this requirement to ensure degree completion within 60 units.

Grading
A maximum of two courses in the major may be taken for a CR grade.

Coopman, Erickson, Frachella, Taylor

Major
• Bachelor of Arts in Liberal Studies (p. 876)

Bachelor of Arts in Liberal Studies
Liberal Studies (B.A.) – Minimum 42 Units
Note: the courses that appear below are approved for the major. In the event that approved courses are not offered, substitutions may be made on advisement. All units must be upper division.

Required Core Courses
Before beginning the core courses, students should have completed ENG 214 or equivalent (e.g. AFRS 214, CWL 214, or ENG 1B at a community college). LS 300GW introduces important concepts of interdisciplinary study and should be taken either before or concurrently with the Area Core Courses, usually no later than the junior year. Students are strongly encouraged to complete all Area Core Courses before taking LS 690, the culminating experience for the major, in the senior year.
Please note: the courses that appear below are approved for the major. In the event that approved courses are not offered, substitutions may be made on advisement.

**Emphasis Pattern Beyond the Core (12 Units)**

Fifteen semester units beyond the core must be taken with liberal studies advisor approval, with at least six units completed at the upper division level. Students may choose to complete an approved minor in lieu of an area of emphasis. Refer to the Liberal Studies website (humanitiesliberalstudies.sfsu.edu) and consult with a major advisor regarding possible emphases.

*Students interested in becoming elementary school teachers are strongly encouraged to choose the Teacher Preparation Emphasis which can be found at the end of the list of other emphasis patterns.*

**Area I: Communication, Language, and Literature**

- English Language: Literature, Language, and Communication
- Literature and Oral Performance
- Languages and Literatures Other Than English
  - Chinese
• Classical Languages
  • French
  • German
  • Italian
  • Japanese
  • Russian
  • Spanish

**Area II: Life Science, Physical Science, and Mathematics**
• Earth and Space Science
• Environmental Science
• Life Science
• Mathematics
• Physics and Astronomy

**Area III: Behavioral and Social Sciences**
• Anthropology
• Economics
• Ethnic Studies
• Geography
• Health, Kinesiology, and Recreation
• History
• International Relations
• Political Science
• Urban Studies

**Area IV: Creative Arts and Humanities**
• Creative Arts
• Humanities
• Philosophy
• Philosophy and Religion

**Integrated Studies**
• Ancient Mediterranean Civilizations
• California Studies
• Early Childhood Education
• Gender, Culture, and Representation
• Jewish Studies
• Multidisciplinary Ethnic Studies

**Teacher Preparation Emphasis**
Future elementary school teachers are expected to be familiar with all of the subject matter taught in schools. Students seeking the Multiple Subject Credential must pass the CSET: Multiple Subjects examination. To support your preparation for the CSET, students are advised choose the Teacher Preparation emphasis for your courses beyond the core.

Students interested in becoming elementary or special education teachers should also attend an information meeting given by the Credential and Graduate Services Center. At the meeting, students learn all of the credential program admission requirements. Call (415) 405-3594 for more information. General information about teaching careers may be found at the Credential and Graduate Services Center in BH 244.

**Elementary Teaching Preparation Emphasis (15 units)**
MATH 165 Concepts of the Number System 6
& MATH 565 and Concepts of Geometry, Measurement, and Probability (or approved alternative)
Select three of the following or approved alternative: 9
E ED 603 Promoting Young Children’s Social and Emotional Development
EDUC 450 Art and Learning
HIST 114 World History to 1500
KIN 401 Elementary School Physical Education, K-5
MUS 601 Music for Children
TH A 451 Storytelling and Folk Literature

**Complementary Studies**
All students completing a B.A. degree must satisfy the 12 unit Complementary Studies requirement. Students who complete the Liberal Studies major will automatically satisfy complementary studies with 12 units of courses outside of the Liberal Studies prefix (LS) and not cross-listed with LS. Students must consult with an advisor to identify the courses that will be used to satisfy the requirement.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

This degree program is an approved pathway ("similar" major) for students earning the ADT in Elementary Teacher Education

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer:
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)
Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Transfer Student Roadmap (2 Year)

| Units | 15 |

| Total Units | 120-123 |

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   All students completing a B.A. degree must satisfy the 12 unit Complementary Studies requirement. Students who complete the Liberal Studies major will automatically satisfy complementary studies with 12 units of courses outside of the Liberal Studies prefix (LS) and not cross-listed with LS. Students must consult with an advisor to identify the courses that will be used to satisfy the requirement.

   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. **Literature**

   - AA S 322 Chinese American Language and Literature (3 units)
   - AA S 332 Japanese American Art and Literature (3 units)
   - AA S 352 Filipina/o American Literature, Art, and Culture (3 units)
   - AA S 372 Vietnamese American Literature (3 units)
   - AA S 512 Asian American Children’s/Adolescent Literature (3 units)
   - AFRE 411 African and African American Literature (3 units)
   - CWL 440 "Typical American": Narratives of Multiculturalism in the Americas from 1492 to the Present (3 units)
   - ENG 398 Greek American Literature (3 units)
   - ENG 528 American Literature: 1914-1960 (3 units)
   - ENG 535 Literature and Ecology (3 units)
   - ENG 554 Modern American Novel (3 units)
   - ENG 555 The Short Story (3 units)
   - ENG 583 Shakespeare: Representative Plays (3 units)
   - ENG 584 Shakespeare: Selected Plays (3 units)
   - ENG 614 Women in Literature: Authors and Characters (3 units)
   - ENG 631 Post-Colonial Literature in English (3 units)
   - ENG 636 Greek and Roman Myth and Modern Literature (3 units)
   - ENG 655 Literature and the Adolescent Reader (3 units)
   - LTNS 560 Contemporary Latina/o Literature (3 units)
   - RRS 450 Contemporary Arabic and Arab American Literature (3 units)
   - WGS 541 Women Writers and Social Change (3 units)
   - WGS 548 Literature by U.S. Women of Color (3 units)
   - WGS 551 Queer Literatures and Media (3 units)

6. **Communication Studies**

   - COMM 220 Introduction to the Performance of Literature (3 units)
   - COMM 230 Introduction to Argumentation and Debate (3 units)
   - COMM 250 Introduction to Group Discussion and Teamwork (3 units)
   - COMM 551 Persuasion (4 units)
   - COMM 552 Women and Words (4 units)
   - COMM 553 Oral Interpretation of the First Person Voice (4 units)
   - COMM 554 Oral Interpretation of Children’s Literature (4 units)
   - COMM 559 Theory and Practice in Advanced Public Speaking (4 units)
Emphasis Pattern Beyond the Core (15 Units)
Fifteen semester units beyond the core must be taken with liberal studies advisor approval, with at least six units completed at the upper division level. Students may choose to complete an approved minor in lieu of an area of emphasis. Refer to the Liberal Studies website (humanitiesliberalstudies.sfsu.edu) and consult with a major advisor regarding possible emphases.

Students interested in becoming elementary school teachers are strongly encouraged to choose the Teacher Preparation Emphasis which can be found at the end of the list of other emphasis patterns.

Area I: Communication, Language, and Literature
- English Language: Literature, Language, and Communication
- Literature and Oral Performance
- Languages and Literatures Other Than English
  - Chinese
  - Classical Languages
  - French
  - German
  - Italian
  - Japanese
  - Russian
  - Spanish

Area II: Life Science, Physical Science, and Mathematics
- Earth and Space Science
- Environmental Science
- Life Science
- Mathematics
- Physics and Astronomy

Area III: Behavioral and Social Sciences
- Anthropology
- Economics
- Ethnic Studies
- Geography
- Health, Kinesiology, and Recreation
- History
- International Relations
- Political Science
- Urban Studies

Area IV: Creative Arts and Humanities
- Creative Arts
- Humanities
- Philosophy
- Philosophy and Religion

Integrated Studies
- Ancient Mediterranean Civilizations
- California Studies
- Early Childhood Education
- Gender, Culture, and Representation
- Jewish Studies
- Multidisciplinary Ethnic Studies

Teacher Preparation Emphasis
Future elementary school teachers are expected to be familiar with all of the subject matter taught in schools. Students seeking the Multiple Subject Credential must pass the CSET: Multiple Subjects examination. To support your preparation for the CSET, students are advised choose the Teacher Preparation emphasis for your courses beyond the core.

Students interested in becoming elementary or special education teachers should also attend an information meeting given by the Credential and Graduate Services Center. At the meeting, students learn all of the credential program admission requirements. Call (415) 405-3594 for more information. General information about teaching careers may be found at the Credential and Graduate Services Center in BH 244.

Elementary Teaching Preparation Emphasis (15 units)
MATH 165 Concepts of the Number System (3 units)
and MATH 565 Concepts of Geometry, Measurement, and Probability (3 units)
Select three of the following or approved alternative:
ED 603 Promoting Young Children’s Social and Emotional Development (3 units)
EDUC 450 Art and Learning (3 units)
8  **Life Science**  
- BIOL 300 Nature Study (3 units)  
- BIOL 310 Biology for Today's World (3 units)  
- BIOL 313 Principles of Ecology (3 units)  
- BIOL 318 Our Endangered Planet (3 units)  
- BIOL 326 Disease! (3 units)  
- BIOL 327 AIDS: Biology of the Modern Epidemic (3 units)  
- BIOL 330 Human Sexuality (3 units)  
- LS 430 Future of the Forests (3 units)

9  **Physical Science**  
- CHEM 380 Chemistry Behind Environmental Pollution (3 units)  
- ERTH 310 The Violent Earth (3 units)  
- ERTH 325 Geology of the National Parks (3 units)  
- ERTH 330 California Water (3 units)  
- ERTH 335 Global Warming (3 units)  
- ERTH 360 California Weather Events (3 units)  
- ERTH 365 Extreme Weather in a Warming World (3 units)  
- LS 309 Physical Sciences for Elementary School Teachers (3 units)
Bachelor of Art in Liberal Studies: Elementary Teaching Preparation Emphasis – ETE Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Elementary Teacher Education. Six units in the major (HIST 114, MATH 165) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</tbody>
</table>

1. ENG 214 or equivalent course must be taken before LS 300GW. Students who need to take ENG 214/A4 must take LS 300GW in the second semester in place of University elective.
2. BIOL 310 and PSY 330 also satisfy Upper Division GE: UD-B.
3. AA S 323, AA S 333, AA S 353, AA S 510, CFS 320, E ED 603, ENVS 600, HIST 450, LS 401, RRS 625, WGS 515 also satisfy Upper Division GE: UD-D.
4. EDUC 450 and TH A 451 also satisfy UD-C.
To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–12 Units**

US History: US/CA/Local Government satisfied before transfer.

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer. See note 1 above.
- Upper division GE, areas B, C and D (9 units): See grid above for courses that satisfy both UD GE and major requirements.
- Students entering this major with the AA-T in Elementary Education are not required to fulfill SF State Studies requirements; also, because of the interdisciplinary nature of the major, students automatically fulfill the Complementary Studies requirement.

**Liberal Studies Major: 40 Units**

HIST 114, MATH 165 met in transfer – applied to Emphasis.

- Core (31 upper division units)
- Emphasis (9 upper division units)

**University Electives: 17 or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major. Upper division electives recommended in order to meet the minimum 40-unit requirement.

**Major Core (Area III Behavioral and Social Sciences: Psy/Family Stud/Hum Dev)**

MIDDLE EAST AND ISLAMIC STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris
Coordinator: Lucia Volk
Humanities Building, Room 576
Phone: (415) 338-2468
Email: lvolk@sfsu.edu

Program Scope
The Middle East and Islamic Studies minor is a multidisciplinary minor designed to provide undergraduate students with a broad understanding of the history, politics, and culture of the Middle East and Islamic world. The students are required to fulfill both core and elective requirements, designed to give a background of the complexity and diversity of the region as well as offer more specific, in-depth studies of select issues of the region. This program covers regions and peoples from or in the Middle East from the founding of Islam in the seventh century to the present. In concert with the “Islamic Studies” aspect of this program, this minor also extends beyond the Middle East to those cultures, societies, and areas that are associated with the historical and current spread of Islam. Students can select from a variety of courses across multiple disciplines, including history, religion, politics, culture, art, music, language, and literature.

The minor is useful to students planning careers in politics and government, business, education, international organizations, journalism, and art, as well as for those who simply desire a better understanding of the Middle East and Islam. The multidisciplinary nature of the program also prepares students for further study in a number of academic fields at the graduate level.

The Middle East and Islamic Studies Minor consists of a core curriculum of three courses that deal with the region as a whole from a variety of disciplinary perspectives, plus three upper division courses taken upon advisement.

Professors
Astren, Azadpur, Banerjee, Kaplan, Modirzadeh, Monshipouri, Volk, Watts

Associate Professors
Behrooz, Bertram, Chekuri, Ellis, Ibrahim, Kavuri-Bauer, Khanmohamadi, Salama

Assistant Professors
Ara, Savci

Middle East and Islamic Studies Minor — 18–22 units
Core (9–11 units)
Complete at least nine units in the core by taking one course from Section A, one course from Section B, and a third course from either section. MEIS 300 and MEIS 301 may satisfy either Core Section A or B.

Any core class taken beyond the required units can be counted towards the required elective units.

Section A: History and Politics

<table>
<thead>

</tr>
</tbody>
</table>

Electives (9–11 units)
In addition to the three core courses above, take a minimum of three additional courses as electives. Courses that are used to satisfy core requirements may not also be used as electives.

Select at least one course from Part I and at least one course from Part II. The third elective may be taken from either part I or II:

Part I: History and Politics

**Foreign Language Requirement**

Students are strongly encouraged to develop proficiency in a Middle Eastern language or a language pertaining to the Islamic world and to commit to more than one semester of language studies. Therefore, second-semester language courses and higher will count towards elective units. Each student will discuss how to incorporate language into their minor during advising sessions.

**Study-Abroad Courses**

Students completing the Middle East and Islamic Studies minor are strongly encouraged to participate in study-abroad programs, whether through the CSU system or another approved study abroad program. SF State's bilateral exchange with Koç University in Istanbul is particularly suited for MEIS minors. Please attend OIP's informational sessions and then see a MEIS advisor.
# MODERN GREEK STUDIES

## College of Liberal & Creative Arts
Dean: Andrew Harris

## Modern Greek Studies Program
HUM 577
Phone: (415) 338–1892
Acting Director: David Leitao
Associate Director: Alexandra Pappas

## Program Scope
The Minor in Modern Greek Studies is an interdisciplinary program for students seeking greater knowledge of contemporary Greek language, literature, history, and culture. The program is designed to provide the student with an understanding of Modern Greek language, culture, and society in relation to its earlier antecedents, the ancient Greek and Byzantine civilizations.

The minor complements academic majors for students planning careers in literary and ethnic studies; primary, secondary, and tertiary education; anthropology; history; linguistics; classics; journalism; museum studies, political science; sociology; translation; the arts; the foreign service; international relations; and business, as well as those who desire a better understanding of contemporary Greece, the Greek American experience, and the Hellenic diaspora. The interdisciplinary scope of the program also introduces the student for further study in any number of academic fields at the graduate level. Courses in Modern Greek Studies can also fulfill the B.A. requirements in Complementary Studies.

The interdisciplinary Minor in Modern Greek Studies consists of 17–19 units. A core of two four-unit courses is required, and an elective group of three additional courses completes the minor.

## Professor
Klironomos

Some courses are offered on a rotating basis. Students should consult with an advisor regarding their availability. Additional courses may also be taken as approved by the advisor for the minor.
MODERN LANGUAGES AND LITERATURES

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Modern Languages and Literatures
Humanities Building, Room 475
Phone: (415) 338–1421
Website: mll.sfsu.edu (http://mll.sfsu.edu)
Chair: Mohammad Salama

Program Scope

Bachelor of Arts
The Department of Modern Languages and Literatures offers courses leading to the Bachelor of Arts in Chinese, French, German, Italian, Japanese, and Spanish. The department also offers minors in these languages and a minor in Russian. Programs are designed for students who are planning to use foreign languages in professional careers, as well as for students who wish to acquire an appreciation of the cultures of other peoples. On offer are courses in language, conversation, composition, reading, linguistics, culture, and literature. Some of the programs offer courses in business and translation-interpretation, and literature and culture courses in English.

Students who have had foreign language experience before enrolling at San Francisco State University should consult with an adviser in the specific language program for placement in the proper course in which they can receive credit.

A multimedia foreign language laboratory is open to all students enrolled in any class in the department. Basic level courses usually require preparation using audio and video resources and web applications located in the multimedia language laboratory.

Major
The Bachelor of Arts requirements for each modern language is different. For specifics, please check each language program’s bulletin description. It is suggested also that students intending to major in a modern language consult with an adviser in the Department of Modern Languages and Literatures early enough to assure proper scheduling of essential courses.

Minor
Students wishing to take a minor in a modern language must complete between 18 and 24 units of lower and/or upper division courses – the requirements for which vary with each language program. For specifics, please check the language program’s bulletin description or consult with an individual language program adviser.

Upper division courses in the foreign language programs are, in general, conducted in the language under study.

Master of Arts
The department offers the Master of Arts in Chinese, French, German, Italian, Japanese, and Spanish. The various master’s programs provide advanced instruction in culture, language, and literature. A limited number of graduate teaching associate positions are available for students engaged in graduate study in the programs. The M.A. programs are designed to prepare students for a variety of careers. M.A. graduates often become teachers in private or public secondary schools, in community colleges, or after completing doctoral studies, in universities.

Admission to Programs
Students seeking admission to a master of arts program must have completed an undergraduate major comparable to the major in the appropriate language and literature at San Francisco State University.

Applicants without such a major may be admitted conditionally after developing, through consultation with advisors, a program of studies to establish the equivalent of that major. Courses prescribed for equivalency may not be credited toward the master of arts program.

Students in all Master of Arts programs are required to have a GPA of at least 3.0 in their undergraduate major.

Advancement to Candidacy
In addition to meeting all the general university requirements, students prior to advancement to candidacy must:

- Meet all conditions required by the language of concentration.
- Where required, complete with a grade of A or B the course MLL 701 Seminar in Academic Writing and Research Methodology.
- Demonstrate written English proficiency as required by each language program. Both native and non-native speakers of English must meet this requirement.
- Demonstrate oral and written proficiency in the language of concentration.

If students are unable to meet the above requirements for advancement to candidacy, they may be advised to enroll in additional courses prior to being considered for candidacy. In such cases, the courses will not be credited toward the master’s degree.

Demonstration of Exit-Level Language Proficiency
Exit-level proficiency in the language studied is demonstrated by satisfactory completion of written and oral comprehensive examinations, or in some language programs, by completion of a research project or masters thesis. See language program bulletin description for specifics.

International Programs
For undergraduate majors or minors, the department recommends an overseas experience of academic and cultural studies. Students who participate in the International Programs (p. 183) of the California State University may undertake an academic year at certain designated major institutions of higher learning located outside the United States. All students in the overseas language programs should consult with an adviser in the specific language to ensure that courses taken abroad can be applied to the major, the minor, or the degree at San Francisco State University. For the Chinese, French, German, Italian, Japanese, and Spanish B.A. programs, at least half of the units required for the major must be taken at the home campus. Similarly, for the minor, at least half of the units required must be taken at the home campus. There may also be limits in the other language programs. For graduate students in the German and Italian M.A. programs, a maximum of 9 units from recognized study abroad programs will be accepted for the degree. For graduate students in the Chinese, French, Japanese, and Spanish M.A. programs, a maximum of 12 units will be accepted for the degree.
Special Courses
In addition to the languages listed above, courses in Russian, Arabic, and Persian language, literature, and culture, as well as a Minor in Persian Studies, is also available to students. Students may also use their language coursework towards area studies minors such as the Minor in Pacific Asian Studies, the Minor in Middle East and Islamic Studies, and the minor in European Studies.

Career Outlook
Some careers require a foreign language as a primary skill. For those employed in teaching foreign languages, culture, and literature, and for those who work as interpreters and translators, a high degree of fluency or near-native competency is required. On the other hand, there are a great number of career alternatives open to people who possess good competency in one or more foreign languages. Local and state agencies as well as the federal government (such as the State Department, the Department of Defense, the Immigration and Naturalization Service, the Peace Corps) often have openings for people with language skills. Further employment possibilities are in multinational companies with significant global operations (international marketing and accounting firms, international banking, and other international business), advertising, journalism, publishing, communications, and information services, media and entertainment, travel and tourism, the hotel and restaurant industry, health care, as well as in the arts. Competency in one or more foreign languages will open the door to many exciting careers.

Undergraduate Advisor: Chris Wen-Chao Li, Charles Egan, Frederik Green, Yang Xiao-Desai
Graduate Advisor: Chris Wen-Chao Li
Flagship Program Director: Charles Egan
Flagship Program Assistant Director: Frederik Green

Program Scope
Founded in 1959, the Chinese Program at San Francisco State University provides comprehensive degree programs at both the undergraduate and graduate levels. For all major and minor options, the Chinese Program offers electives taught in both English and Chinese which provide insight into one of the world’s oldest civilizations and inspire the student to view the modern world from alternative perspectives. Courses on modern literature and film, taught in Chinese, reflect the dynamic transformations of contemporary Chinese society and culture. Training in the fundamentals of linguistics complements program goals by revealing the underlying structures of language. To prepare students as fully as possible for future challenges, the Chinese Program balances traditional academic offerings with practical courses such as Business Chinese, Media Chinese, and Web Chinese, which equip students with career-related language skills.

The Bachelor of Arts in Chinese is divided into three separate concentrations: Chinese Language, designed for students with little or no background in Chinese language; Chinese Literature and Linguistics, aimed at native and near-native speakers of Chinese language; and Flagship Chinese Language, a federally funded honors program.

The Minor in Chinese Language is designed for beginning language learners and is focused on the buildup of proficiency in the Modern Standard Language.

The Minor in Chinese Literature and Linguistics is designed for native and near-native speakers and requires coursework in advanced language, classical language, linguistics, literature, culture, and oratory.

The Master of Arts in Chinese provides advanced training in the areas of literature, linguistics, and pedagogy, building a solid foundation for further study and language-related careers. Many of our M.A. graduates advance to study and research at the doctoral level, and others develop skills for China-related careers, including teaching Chinese as a second language, international business and law, and translation and interpretation.

Professors
Egan, Li

Assistant Professors
Green, Xiao-Desai

Lecturers
Tsao, Liou, Phung

Majors
• Bachelor of Arts in Chinese: Concentration in Chinese Language (p. 892)
• Bachelor of Arts in Chinese: Concentration in Chinese Literature & Linguistics (p. 898)
• Bachelor of Arts in Chinese: Concentration in Flagship Chinese Language (p. 903)

Minors
• Minor in Chinese Language (p. 908)
• Minor in Chinese Literature and Linguistics (p. 908)

Masters
• Master of Arts in Chinese (p. 908)

Bachelor of Arts in Chinese: Concentration in Chinese Language

• Students will satisfy the University Graduation Writing Assessment Requirement (GWAR) by taking one GWAR offering from the Chinese Program or Department of Modern Languages and Literatures. Current GWAR offerings include CHIN 601GW, CHIN 611GW, CHIN 612GW and MLL 400GW.
• Prior to submitting an application for graduation, candidates for the Bachelor of Arts degree in Chinese must present evidence of having completed a Culminating Experience Project. The Culminating Experience Project can be completed through one of three options:
  a. Standardized Test:
     The student shall submit evidence of having passed the Hanyu Shuiping Kaoshi (HSK), the Test of Chinese as a Foreign Language (TOCFL), or the ACTFL Oral Proficiency Interview (OPI) for Mandarin Chinese at the appropriate level. The following grade levels are treated as passing:
     • Hanyu Shuiping Kaoshi (HSK): Level 4 or higher
     • Test of Chinese as a Foreign Language (TOCFL): Level 3 or higher
     • Oral Proficiency Interview (OPI): Advanced low or higher
  b. Writing Portfolio:
     The student shall submit a writing portfolio with evidence of advanced level academic and/or professional writing in both Chinese and English. The portfolio must contain at least one work of Chinese language academic or professional writing developed out of a writing assignment submitted for credit in an upper division course taught in Chinese, and one work of English language academic or professional writing developed out of a writing assignment accepted for credit in a GWAR course.
  c. Flagship Capstone:
     The Flagship Capstone option is available only to students accepted into the Chinese Flagship Program. Students in the Chinese Flagship Program must choose the Flagship...
Capstone Option, which consists of a "Capstone Year" abroad, to be implemented once the student has reached proficiency benchmarks set by the Language Flagship and has been recommended by the Council of Chinese Flagship Directors.

**Bachelor of Arts in Chinese: Concentration In Chinese Language**

The Concentration in Chinese Language is designed for beginning language learners with little or no background in Chinese Language. The program places emphasis on the building of proficiency in Mandarin Chinese (putonghua/gyuoy) and an appreciation and understanding of literature and culture.

*Note:* Native speakers of Chinese and international students who have completed secondary and/or tertiary education in Chinese language in a Chinese-speaking country are discouraged from choosing this concentration.

**GWAR Course (3 units)**

if not chosen from the 600 level courses above or upper division elective in Chinese or related area (upon advising)

**Complementary Studies**

Required of all candidates for the Bachelor of Arts degree in Chinese are 12 units of Complementary Studies, which must come from courses bearing a prefix other than CHIN, and not cross-listed with CHIN.

Complementary Studies for the Chinese major can be satisfied via four possible routes:

1. 12 units in any foreign language other than Chinese (may include up to 3 units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad, SF State Bilateral, Chinese Flagship, and SLI Translation-Interpretation programs);
3. 12 units of course work taken as part of a second major, a minor or a certificate;
4. 12 units of course work in related disciplines with the approval of a Chinese Program advisor.

Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of greater China, East Asia, or Asian Americans.

Where a course with a non-CHIN prefix is taken as a core requirement or elective for the Chinese major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the 2nd Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of 3 units of overlap of FL-prefix courses between Chinese major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

**NOTE: REGARDING STUDY ABROAD**

(appplies to all Chinese degrees, concentrations, and minors): Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language Concentration students, however, may apply all of their Study Abroad units towards the major.

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)

Lifelong Learning LD or UD 3 E

and Self- Development

Physical and/or UD 3 UD-B

Life Science

Arts and/or UD 3 UD-C

Humanities

Social Sciences UD 3 UD-D

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic LD or UD 3

and Racial Minorities (AERM)

Environmental LD or UD 3

Sustainability (ES)

Global Perspectives UD 3

(GP)

Social Justice UD 3

(SJ)

Note: LD = Lower Division; UD = Upper Division.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).
b. One course in written composition (same as CSU GE area A2)

c. One course in critical thinking (same as CSU GE area A3)

d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Units 10

Total Units 16

To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

Complementary Studies

Required of all candidates for the Bachelor of Arts degree in Chinese are 12 units of Complementary Studies, which must come from courses bearing a prefix other than CHIN, and not cross-listed with CHIN. Complementary Studies for the Chinese major can be satisfied via four possible routes:

1. 12 units in any foreign language other than Chinese (may include up to 3 units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad, SF State Bilateral, Chinese Flagship, and SLI Translation-Interpretation programs);
3. 12 units of course work taken as part of a second major, a minor or a certificate;
4. 12 units of course work in related disciplines with the approval of a Chinese Program advisor.

Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of greater China, East Asia, or Asian Americans.

Regarding Study Abroad

(appplies to all Chinese degrees, concentrations, and minors): Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language Concentration students, however, may apply all of their Study Abroad units towards the major.

Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

CHIN 600 Topics in Chinese Language, Literature, and Culture in English (3 units)
CHIN 601GW The Poetic Tradition - GWAR (3 units)
CHIN 602 The Narrative Tradition in English (3 units)
CHIN 611GW The Revolutionary Tradition in Modern Chinese Literature - GWAR (3 units)
CHIN 612GW Negotiating Chineseness in the Late 20th and 21st Centuries - GWAR (3 units)
HUM 530 Chinese Civilization (3 units)

GWAR Course if not chosen from the 600 level courses above or upper division elective in Chinese or related area (upon advising).
Bachelor of Arts in Chinese: Concentration in Chinese Literature & Linguistics

• Students will satisfy the University Graduation Writing Assessment Requirement (GWAR) by taking one GWAR offering from the Chinese Program or Department of Modern Languages and Literatures. Current GWAR offerings include CHIN 601GW, CHIN 611GW, CHIN 612GW and MLL 400GW.

• Prior to submitting an application for graduation, candidates for the Bachelor of Arts degree in Chinese must present evidence of having completed a Culminating Experience Project. The Culminating Experience Project can be completed through one of three options:
  a. Standardized Test:
The student shall submit evidence of having passed the Hanyu Shuiping Kaoshi (HSK), the Test of Chinese as a Foreign Language (TOCFL), or the ACTFL Oral Proficiency Interview (OPI) for Mandarin Chinese at the appropriate level. The following grade levels are treated as passing:
  • Hanyu Shuiping Kaoshi (HSK): Level 4 or higher
  • Test of Chinese as a Foreign Language (TOCFL): Level 3 or higher
  • Oral Proficiency Interview (OPI): Advanced low or higher

  b. Writing Portfolio:
The student shall submit a writing portfolio with evidence of advanced level academic and/or professional writing in both Chinese and English. The portfolio must contain at least one work of Chinese language academic or professional writing developed out of a writing assignment submitted for credit in an upper division course taught in Chinese, and one work of English language academic or professional writing developed out of a writing assignment accepted for credit in a GWAR course.

  c. Flagship Capstone:
The Flagship Capstone option is available only to students accepted into the Chinese Flagship Program. Students in the Chinese Flagship Program must choose the Flagship Capstone Option, which consists of a “Capstone Year” abroad, to be implemented once the student has reached proficiency benchmarks set by the Language Flagship and has been recommended by the Council of Chinese Flagship Directors.

Bachelor of Arts in Chinese: Concentration in Chinese Literature and Linguistics

The Concentration in Chinese Literature and Linguistics is aimed at native and near-native speakers of Chinese language and consists of 18 units of required coursework in advanced language, linguistics, oratory, literature, and culture, plus an additional 12 units of lower and upper division electives in Chinese or a related subject. GWAR is built into the course design.

HUM 530  Chinese Civilization

Lower Division Elective in Chinese (3 Units) or related area upon advising

Upper Division Electives in Chinese (9 Units) or related area upon advising

GWAR course (3 Units) if not taken from GWAR courses listed above.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Complementary Studies

Required of all candidates for the Bachelor of Arts degree in Chinese are 12 units of Complementary Studies, which must come from courses bearing a prefix other than CHIN, and not cross-listed with CHIN. Complementary Studies for the Chinese major can be satisfied via four possible routes:

1. 12 units in any foreign language other than Chinese (may include up to 3 units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad, SF State Bilateral, Chinese Flagship, and SLI Translation-Interpretation programs);
3. 12 units of course work taken as part of a second major, a minor, or a certificate;
4. 12 units of course work in related disciplines with the approval of a Chinese Program advisor.

Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of Greater China, East Asia, or Asian Americans.

Where a course with a non-CHIN prefix is taken as a core requirement or elective for the Chinese major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the 2nd Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL prefix courses between Chinese major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.
NOTE: Regarding Study Abroad (applies to all Chinese degrees, concentrations, and minors): Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language Concentration students, however, may apply all of their Study Abroad units towards the major.

Note: LD = Lower Division; UD = Upper Division.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://wwwassist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)
Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Total Units 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   Required of all candidates for the Bachelor of Arts degree in Chinese are 12 units of Complementary Studies, which must come from courses bearing a prefix other than CHIN, and not cross-listed with CHIN. Complementary Studies for the Chinese major can be satisfied via four possible routes:
   - 12 units in any foreign language other than Chinese (may include up to 3 units of MLL prefix courses);
   - 12 units of course work taken in an approved study abroad program (including CSU Study Abroad, SF State Bilateral, Chinese Flagship, and SLI Translation-Interpretation programs);
   - 12 units of course work taken as part of a second major, a minor or a certificate;
   - 12 units of course work in related disciplines with the approval of a Chinese Program advisor.

   Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of Greater China, East Asia, or Asian Americans.

   Where a course with a non-CHIN prefix is taken as a core requirement or elective for the Chinese major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the 2nd Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL prefix courses between Chinese major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

   Regarding Study Abroad (applies to all Chinese degrees, concentrations, and minors): Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language Concentration students, however, may apply all of their Study Abroad units towards the major.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. CHIN 600 Topics in Chinese Language, Literature, and Culture in English (3 units)
   CHIN 601GW The Poetic Tradition - GWAR (3 units)
   CHIN 602 The Narrative Tradition in English (3 units)
   CHIN 611GW The Revolutionary Tradition in Modern Chinese Literature - GWAR (3 units)
   CHIN 612GW Negotiating Chineseness in the Late 20th and 21st Centuries - GWAR (3 units)
   HUM 530 Chinese Civilization (3 units)

6. GWAR Course (3 units) if not chosen from the 600 level courses above or upper division elective in Chinese or related area (upon advising).
Bachelor of Arts in Chinese: Concentration in Flagship Chinese Language

- Students will satisfy the University Graduation Writing Assessment Requirement (GWAR) by taking one GWAR offering from the Chinese Program or Department of Modern Languages and Literatures. Current GWAR offerings include CHIN 601GW, CHIN 611GW, CHIN 612GW and MLL 400GW.
- Prior to submitting an application for graduation, candidates for the Bachelor of Arts degree in Chinese must present evidence of having completed a Culminating Experience Project. The Culminating Experience Project can be completed through one of three options:
  a. Standardized Test:
     The student shall submit evidence of having passed the Hanyu Shuiping Kaoshi (HSK), the Test of Chinese as a Foreign Language (TOCFL), or the ACTFL Oral Proficiency Interview (OPI) for Mandarin Chinese at the appropriate level. The following grade levels are treated as passing:
     - Hanyu Shuiping Kaoshi (HSK): Level 4 or higher
     - Test of Chinese as a Foreign Language (TOCFL): Level 3 or higher
     - Oral Proficiency Interview (OPI): Advanced low or higher
  b. Writing Portfolio:
     The student shall submit a writing portfolio with evidence of advanced level academic and/or professional writing in both Chinese and English. The portfolio must contain at least one work of Chinese language academic or professional writing developed out of a writing assignment submitted for credit in an upper division course taught in Chinese, and one work of English language academic or professional writing developed out of a writing assignment accepted for credit in a GWAR course.
  c. Flagship Capstone:
     The Flagship Capstone option is available only to students accepted into the Chinese Flagship Program. Students in the Chinese Flagship Program must choose the Flagship Capstone Option, which consists of a "Capstone Year" abroad, to be implemented once the student has reached proficiency benchmarks set by the Language Flagship and has been recommended by the Council of Chinese Flagship Directors.

Bachelor of Arts in Chinese: Concentration in Flagship Chinese Language

The Concentration in Flagship Chinese Language, in line with federally funded Chinese Flagship guidelines nationwide, consists of 35 units of lower and upper division language training, many of which are specifically tailored to students in the Flagship programs, plus nine units of coursework in linguistics, culture, classical language, and GWAR. Unique to the Flagship Concentration is a three unit content course taught in Chinese by a Chinese-proficient specialist in another subject area. Flagship students must also complete 12 units of Flagship-specific Study Abroad arranged through the Flagship Office, which will include coursework and internship components.

Note: The Concentration in Flagship Chinese Language is open only to students who have been admitted into the Chinese Flagship Program at SF State. Contact the Flagship Office (http://flagship.sfsu.edu) for information.

Concentration students, however, may apply all of their Study Abroad units towards the major.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses

---

| Written English Communication I | LD | 3 | A2 |
| Critical Thinking | LD | 3 | A3 |
| Written English Communication II | LD | 3 | A4 |
| Physical Science | LD | 3 | B1 |
| Life Science | LD | 3 | B2 |
| Lab Science | LD | 1 | B3 |
| Mathematics/Quantitative Reasoning | LD | 3 | B4 |
| Arts | LD | 3 | C1 |
| Arts or Humanities | LD | 3 | C1 or C2 |
| Humanities: Literature | LD | 3 | C3 |
| Social Sciences | LD | 3 | D1 |
| Social Sciences: US History | LD | 3 | D2 |
| Social Sciences: US & CA Government | LD | 3 | D3 |
| Lifelong Learning and Self-Development (LLD) | LD or UD | 3 | E |
| Physical and/or Life Science | UD | 3 | UD-B |
| Arts and/or Humanities | UD | 3 | UD-C |
| Social Sciences | UD | 3 | UD-D |

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
| Environmental Sustainability (ES) | LD or UD | 3 |
| Global Perspectives (GP) | LD or UD | 3 |
| Social Justice (SJ) | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

**NOTE:** REGARDING STUDY ABROAD

(applies to all Chinese degrees, concentrations and minors): Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language
that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.
For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. **Complementary Studies**

   Required of all candidates for the Bachelor of Arts degree in Chinese are 12 units of Complementary Studies, which must come from courses bearing a prefix other than CHIN, and not cross-listed with CHIN. Complementary Studies for the Chinese major can be satisfied via four possible routes:
   - 12 units in any foreign language other than Chinese (may include up to three units of MLL prefix courses);
   - 12 units of course work taken in an approved study abroad program (including CSU Study Abroad, SF State Bilateral, Chinese Flagship, and SLI Translation-Interpretation programs);
   - 12 units of course work taken as part of a second major, a minor or a certificate;
   - 12 units of course work in related disciplines with the approval of a Chinese Program advisor.

   Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of Greater China, East Asia, or Asian Americans.

   Where a course with a non-CHIN prefix is taken as a core requirement or elective for the Chinese major, the said course may also (doubly) count towards Complementary Studies only via the Study Abroad option or the 2nd Major, Minor, or Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL prefix courses between Chinese major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. CHIN 600 Topics in Chinese Language, Literature, and Culture in English (3 units)
   CHIN 601GW The Poetic Tradition - GWAR (3 units)
   CHIN 602 The Narrative Tradition in English (3 units)
   CHIN 611GW The Revolutionary Tradition in Modern Chinese Literature - GWAR (3 units)
   CHIN 612GW Negotiating Chineseness in the Late 20th and 21st Centuries - GWAR (3 units)
   HUM 530 Chinese Civilization (3 units)

6. GWAR Course (3 units) if not chosen from the 600 level courses above or upper division elective in Chinese or related area (upon advising).

7. Pre-existing university course taught in Chinese by Chinese-proficient faculty in any department.
Minor in Chinese Language

The Minor in Chinese is aimed at beginning level learners with little or no background in the Chinese Language.

Note: Native speakers of Chinese and international students who have completed secondary and/or tertiary education in the Chinese language in a Chinese-speaking country are discouraged from choosing this minor.

Chinese Language Minor – 23 units

Note: Regarding study abroad (applies to all Chinese degrees, concentrations, and minors): Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language Concentration students, however, may apply all of their Study Abroad units towards the major.

Minor in Chinese Literature and Linguistics

This minor is aimed at native and near-native speakers of Chinese language and consists of 18 units of required coursework in advanced language, linguistics, oratory, literature, and culture, plus an additional six units of upper division electives in Chinese or a related subject.

Chinese Literature and Linguistics Minor – 24 units

Upper Division Electives in Chinese (6 units)

or related area (upon advising)

Note regarding study abroad: (applies to all Chinese degrees, concentrations, and minors)
Students are encouraged to study abroad through the International Programs of the California State University and the Bilateral Programs of San Francisco State University. For students opting to study abroad, all study abroad units will count as units in residence and can be used for graduation credit, but no more than half of the units required for the major or minor may be taken outside of the home campus. Flagship Language Concentration students, however, may apply all of their Study Abroad units towards the major.

Master of Arts in Chinese

Admission to the Program

A prerequisite for admission to the M.A. program is a B.A. in Chinese (or equivalent), with a Grade Point Average of at least 3.0. Applicants are thus expected to demonstrate advanced proficiency in spoken Mandarin Chinese and Standard Written Chinese, familiarity with major literary/cultural figures and texts, training in the fundamentals of linguistics, and a basic reading proficiency in classical/literary Chinese. San Francisco State University also requires that all students admitted to graduate standing demonstrate proficiency in written English. Applicants who are lacking in one or more of these areas may be admitted conditionally after developing, through consultation with advisors, a program of studies to establish equivalency. Courses prescribed for equivalency may not be credited toward the M.A. degree. In order to assess whether applicants meet acceptable standards and have fulfilled prerequisites, both the Division of Graduate Studies and the Chinese Program are involved in the application review process. Application materials required by the Division of Graduate Studies are described elsewhere in this Bulletin (for details, see Graduate Studies). In addition, the Chinese Program also requires the following supplementary documents:

1. a 500-word analytical statement of purpose in English;
2. a statement in Chinese covering the same or similar content; and
3. two letters of recommendation from individuals familiar with the applicant’s academic and/or professional qualifications.

These supplementary materials should be sent directly to the Graduate Advisor of the Chinese Program (http://www.sfsu.edu/chinese-programs/faqs).

Elective Courses (18 units)

- One exclusively graduate (not paired) elective course (3 units) in Chinese.
- One exclusively graduate (not paired) elective course (3 units) in Chinese, or paired upper division/graduate course in Chinese (students must enroll using the graduate course number)
• Three upper division/graduate electives (9 units) in Chinese or related subjects with approval of graduate advisor.
• Graduate course (3 units) in research or teaching methods on advisement.

and

CHIN 896EXM Master’s Comprehensive Written and Oral Examinations in two subfields

The student is admitted to the oral examination upon passing the written examination. Both examinations may be attempted not more than two times.
Modern Languages and Literatures—French

Program Coordinator: Bérénice Le Marchand
Undergraduate Advisors: Anne Linton, Blanca Missé
Graduate Advisor: Bérénice Le Marchand

Program Scope
The French program offers a challenging and enriching experience for those who are interested not only in the French language but also in French and Francophone culture and society. French is one of the very few languages spoken all over the world, ranked the sixth most widely spoken language after Mandarin Chinese, English, Hindi, Spanish and Arabic. Today, more than 220 million people speak French throughout the world: roughly 51% live in Africa and the Middle East, 40% live in Europe, 8% in the Americas, and 1% in Asia/Oceania. As a result of population growth, there will be more than 700 million French Speakers by 2050, 80% of whom will be living in Africa. The French Program is excited to offer an avenue to engage with this expanding and diverse Francophone cultural and linguistic world.

We offer full-fledged Bachelor of Arts program and focus on developing proficiency in the language in a sociocultural context by offering a variety of courses and by conducting courses in culture and literature in French. Great importance is placed on participatory classes, which are small and practice-oriented, to help students adapt themselves to a changing world. Our B.A. program emphasizes training in the four language skills—listening, speaking, reading, and writing as the basic groundwork for more advanced study of the language, literature, and culture. The aim is to broaden students’ cultural perspectives by introducing them to various aspects of French and Francophone cultures as they are manifested throughout the world. Students who complete a French major should have both the linguistic and cultural preparation to be able to function at a fairly advanced level in a French-speaking society or with French speakers, and have developed a tolerance for forms of expression and ways of life different from their own. It is hoped that this will prepare them both to pursue careers and to participate fully in today’s and tomorrow’s global cultures. If you are an undergraduate student and wonder which class to take, you can take a placement test and see an adviser. Please contact an adviser for further details.

We also have a full-fledged Master of Arts programs with graduate seminars in literature, culture, and linguistics, which allows students to teach at the community college level or to continue graduate study for a doctorate. While many of our B.A. and M.A. graduates pursue teaching careers or further study, a good number go on to careers in other fields such as international law or business.

B.A. and M.A. students are also given a number of opportunities to study in France. Through the California State University’s international programs, selected students may study at Aix-en-Provence and in Paris.

Such opportunities give students practical experience in everyday French life and culture, helping to build and reinforce these skills.

Associate Professors:
Bérénice Le Marchand

Assistant Professors:
Anne Linton, Blanca Missé

 Majors
• Bachelor of Arts in French (p. 910)

 Minors
• Minor in French (p. 915)

 Masters
• Master of Arts in French (p. 915)

Bachelor of Arts in French

The French major consists of 30 units of upper division coursework. Up to 16 units of prerequisite coursework or demonstrated language proficiency is required to begin the major.

All upper division courses are conducted in French (except MLL 325, and students are expected to use French in their speaking, reading, and writing (except for writing, in FR 400GW). Writing in the Major: Students must complete the University's GWAR requirement by taking FR 400GW, MLL 400GW or CWL 400GW

French (B.A.) — 30 units

Electives in the Major (18 units)

Choose any six courses in French numbered 300 to 699, not taken as a required course. At least three of these courses must be at the 400 level or above.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Complementary Studies

Required of all candidates for the Bachelor of Arts degree in French are 12 units of Complementary Studies, which must come from courses bearing a prefix other than FR, and not cross-listed with FR.
Complementary Studies for the French major can be satisfied via four possible routes:

1. 12 units in any foreign language other than French (may include up to three units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program;
3. 12 units of course work taken as partial completion of a single second major, a minor or a certificate;
4. 12 units of course work in related disciplines with the approval of a French Program advisor.

Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of greater French and Francophone Study.

Where a course with a non-FR prefix is taken as a core requirement or elective for the French major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the 2nd Major, Minor, or Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL-prefix courses between French major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

### Social Sciences

- **UD**: 3
- **UD-D**: 3

### SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

- **American Ethnic and Racial Minorities (AERM)**: LD or UD - 3
- **Environmental Sustainability (ES)**: LD or UD - 3
- **Global Perspectives (GP)**: LD or UD - 3
- **Social Justice (SJ)**: LD or UD - 3

Note: LD = Lower Division; UD = Upper Division.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are
transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

1. **Prerequisites**

   Prerequisites depend on score on the Placement Test in French. If prerequisite not needed, take Complementary Studies or SF State Studies or University Elective.

   The Placement Test in French can be taken via iLearn -- please consult your advisor for further details. There are 45 questions in the online test:
   - A grade above 40 = Student should enroll in courses beyond the prerequisites.
   - A grade above 30 = Student should enroll in FR 216
   - A grade above 20 = Student should enroll in FR 215
   - A grade above 10 = Student should enroll in FR 102
   - A grade less than 10 = Student should enroll in FR 101

2. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

3. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

5. **Complementary Studies**

   Required of all candidates for the Bachelor of Arts degree in French are 12 units of Complementary Studies, which must come from courses bearing a prefix other than FR, and not cross-listed with FR. Complementary Studies for the French major can be satisfied via four possible routes:
   - 12 units in any foreign language other than French (may include up to three units of MLL prefix courses);
   - 12 units of course work taken in an approved study abroad program;
   - 12 units of course work taken as partial completion of a single second major, a minor or a certificate;
   - 12 units of course work in related disciplines with the approval of a French Program advisor.

   Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of greater French and Francophone Study.

   Where a course with a non-FR prefix is taken as a core requirement or elective for the French major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the 2nd Major, Minor, or Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL-prefix courses between French major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

6. **Electives met in the Major (18 units)**

   Choose any six courses in French numbered 300 to 699, not taken as a required course. At least three of these courses must be at the 400 level or above.
Minor in French

The French minor consists of 21 units of upper division coursework. Up to 16 units of prerequisite coursework or demonstrated language proficiency is required before taking upper division courses. All upper division courses are conducted in French (except MLL 325), and students are expected to use French in their speaking, reading, and writing (except, for writing, in FR 400GW).

French, Minor – 21 units

Required Courses (12 units)

Select one of the following:

- MLL 325 Linguistics for Foreign Languages 3
- FR 450 Translating Themes: English/French
- FR 301 French Phonetics
- FR 305 French Composition 3
- FR 400GW French Culture - GWAR or FR 410 Contemporary French Civilization 3
- FR 500 Introduction to Literary Texts 3

Electives for the Minor (9 units)

Three French upper division courses, 300 level or above.

Master of Arts in French

Program Scope

The M.A. Program in French is primarily focused on the study of literature and culture from the Middle Ages to the 20th century. Our main objective is to offer interesting and challenging courses, based on original research and the field of specialization of the French faculty, to inspire and teach students to do graduate work while developing their knowledge of French and Francophone literature and culture. All graduate courses in the French Program are conducted in French and students are expected to use French in all their work, including in their Master's thesis. We offer a variety of courses on periods, genres and themes. Courses are rotated and renewed over a period of two to three years to cover most areas and periods of French and Francophone literature. Students are required to take courses covering five different centuries from the Middle Ages to the 20th century among the seven periods/areas offered. Courses available are listed in alphabetical order in the Bulletin (consult Index for page reference). Short descriptions of the specific courses offered for the academic year can be found on the French website.

Admission to Program

Applicants must have a minimum 3.0 GPA. They must demonstrate a proficiency level in French and the knowledge of language, culture, and literature expected at the conclusion of a baccalaureate major in French. Consideration will also be given to students with advanced French competency who have obtained a B.A. in another field. They may be admitted as conditionally classified graduate students and are required to remediate or complete all deficiencies before attaining classified status. In order to be accepted by the Program, applicants need to send directly to the French Graduate Advisor (see Faculty page) an analytical statement of purpose of approximately 500 words written in English, and another in French covering the same content, a sample of written work in French (such as a literary dissertation), two letters of recommendation, and make an appointment for an oral interview in French (in person or by phone).

Please note that the only upper division courses accepted for the graduate program are the elective courses (for which graduate students are the courses (for which graduate students are also expected to complete additional work) recommended and accepted by the graduate advisor. The following courses are not accepted: FR 304, FR 305, and FR 306.

Written English Proficiency Requirements

All graduate students at SF State must complete Level One and Level Two English writing requirements.

Level One

Submission of a Statement of Purpose in the application for admission to the French M.A. The statement is to be written in English (500 words) and include the same or similar statement written in French.

Level Two

Level Two may be met in one for two ways:

- Option I: Submit either a 15 to 20 page essay written in English for a graduate class (program other than the French Program) or an English translation of a 15 to 20 page essay written in French for a graduate class in the French Program, unless the French instructor of that class accepts an essay written in English.
- Option II: Submission of a 15 page summary of the M.A. thesis written in English. This summary will be submitted for evaluation to the French faculty.

Students are advised to consult with their graduate advisor early in the program on how best to prepare for the Level Two writing requirement.

French (M.A.) – Minimum 30 Units

Graduate Courses (15 Units)

In French

Upper Division/Graduate Courses (6 Units)

in French language, literature, or Civilization.

One of the Following Options (9 Units)

Option I

Upper division/graduate courses (9 units) in French or related subjects, with approval of graduate advisor

and Master's Comprehensive Written and Oral Examinations

Option II

Upper division/graduate courses (6 units) in French or related subjects, with the approval of a graduate advisor.

- FR 898 Master’s Thesis
- and Master’s Comprehensive Oral Examination

Written and Oral Examinations Option

Students are admitted to oral examination upon passing the written examination. Both examinations may be attempted not more than two times.
Master’s Thesis Option
Students must pass an oral examination at the end of the semester preceding the semester when they write their thesis.
Modern Languages and Literatures—German

Chair: Mohammad Salama
Undergraduate Advisors: Volker Langbehn (A–L), Ilona Vandergriff (M–Z)
Program Coordinator: Volker Langbehn
Graduate Advisor: Ilona Vandergriff

Program Scope
The German Program offers a comprehensive and carefully designed program for undergraduate and graduate study in the area of language, literature, culture, and linguistics.

The program addresses the needs of students at all levels, from those without prior knowledge of German to those with advanced, near-native or native competency in German. The curriculum is designed to enable students to develop language proficiency in accordance with the nationally recognized ACTFL standards. Learning German will open up new cultural perspectives and allow students to communicate with 120 million people in the German-speaking countries.

The program serves students from the entire University. Many of the students enrolled are double majors, who concurrently pursue a degree in disciplines such as International Relations, Humanities, History, Psychology, Creative Writing, Communication Studies, and Music. Students can also opt for a European Studies Minor.

In cooperation with the Office of International Programs, we encourage students to study abroad. Through the California State University (CSU) International Program, students may study, for example, at the Universität of Tübingen, Universität of Heidelberg or other institutions of higher learning. Such opportunities give students an immersion experience, helping to build and reinforce language skills while earning units towards graduation. The program also facilitates paid summer internships in German-speaking Europe.

Majors
• Bachelor of Arts in German (p. 917)

Minors
• Minor in German (p. 922)

Masters
• Masters of Arts in German (p. 922)

Bachelor of Arts in German
The academic program leading to a B.A. in German offers a wide range of courses to meet the diverse needs of today’s student population. The undergraduate curriculum includes coursework in language, literature, linguistics and culture. In addition, students can select courses in translation and German for business. To ensure that all students develop advanced language competency, the German Program places great importance on small-sized participatory classes, which maximize opportunities to communicate in German.

Innovative teaching methods, films, multimedia and online materials enhance classroom interaction and enrich the academic experience. In addition, excellent computer facilities and a Foreign Language Multimedia Lab provide support for our academic program.

The German major consists of a total of 44 units, including 30 units of upper division coursework. Up to 14 units of prerequisite coursework or demonstrated language proficiency is required to begin the major.

Upper Division Electives (12 units)
on advisement

Up to 12 units may be taken through the CSU International Program in Germany. These units must be upper division and must be approved by a German advisor.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case additional upper division courses will be needed to reach the required total.

Complementary Studies
Required of all candidates for the Bachelor of Arts degree in German are 12 units of Complementary Studies, which must come from courses bearing a prefix other than GER, and not cross-listed with GER. Complementary Studies for the German major can be satisfied via four possible routes:

1. 12 units in any foreign language other than German (may include up to 3 units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
3. 12 units of course work taken as partial completion of a second major, a minor or a certificate;
4. 12 units of course work in related disciplines with the approval of a German Program advisor.
Related disciplines typically include linguistics, literature, communication, Jewish studies, philosophy, history, humanities, education, and any aspect of Europe.

Where a course with a non-GER prefix, (and not cross-listed with GER), is taken as a core requirement or elective for the German major, the said course may also (doubly) count towards Complementary Studies only via the Study Abroad option or the 2nd Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of 3 units of overlap of MLL-prefix courses between German major and Complementary Studies units.

Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
| Environmental Sustainability (ES)          | LD or UD | 3 |
| Global Perspectives (GP)                   | LD or UD | 3 |
| Social Justice (SJ)                        | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.
Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

<td>8</td>
</tr>
</tbody>
</table>

**Units** 14

**Total Units** 120-122

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. **Complementary Studies**
   - Required of all candidates for the Bachelor of Arts degree in German are 12 units of Complementary Studies, which must come from courses bearing a prefix other than GER, and not cross-listed with GER. Complementary Studies for the German major can be satisfied via four possible routes:
     1. 12 units in any foreign language other than German (may include up to 3 units of MLL prefix courses);
     2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
     3. 12 units of course work taken as partial completion of a second major, a minor or a certificate;
     4. 12 units of course work in related disciplines with the approval of a German Program advisor.
   - Related disciplines typically include linguistics, literature, communication, Jewish studies, philosophy, history, humanities, education, and any aspect of Europe.
   - Where a course with a non-GER prefix, (and not cross-listed with GER), is taken as a core requirement or elective for the German major, the said course may also (doubly) count towards Complementary Studies only via the Study Abroad option or the 2nd Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of 3 units of overlap of MLL-prefix courses between German major and Complementary Studies units.
   - Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

5. **Upper Division Electives (12 units)**
   - On advisement: Up to 12 units may be taken through the CSU International Program in Germany. These units must be upper division and must be approved by a German advisor.
Minor in German

The minor consists of a total of 35 units, including 21 units of upper division coursework. Up to 14 units of prerequisite coursework or demonstrated language proficiency is required to begin the minor.

German, Minor — (35 units)

Upper Division Electives (3 units)
on advisement

Up to 12 units may be taken through the CSU International Program in Germany. These units must be upper division and must be approved by a German advisor.

Master of Arts in German

The graduate program in German offers students a challenging and enriching course of study that encompasses linguistics as well as literary and cultural history from the Middle Ages to the present. Over the course of their graduate studies in German, students acquire a rich interdisciplinary perspective and in-depth knowledge of the literatures of the German-speaking countries along with the critical skills for literary analysis. The program offers many graduate courses in German. As a result, many of our M.A. candidates develop superior language competency.

Admission to the Program

It is generally expected that students entering the program will have a B.A. degree or equivalent in German; however, consideration will be given to applicants with advanced German language competencies who have a B.A. in another field. These applicants may be admitted as conditionally classified graduate students and will be required to remediate or complete all deficiencies before attaining classified status.

To apply to the program:

- Applicants must also have a minimum 3.0 GPA
- Demonstrate advanced proficiency level in German

- Submit an analytical statement of purpose written in English of approximately 500 words, stating the reasons for applying to the graduate program
- Submit a sample of analytical writing of 500 words or more written in German
- Provide one set of transcripts
- Submit at least two letters of recommendation.

If you have any questions, please contact the program’s graduate advisor to discuss academic preparation for the M.A.

Upper Division/Graduate Courses (9 Units)
in German language, literature, or civilization, or in related subjects with approval of graduate advisor.

and Master’s Comprehensive Written and Oral Examinations

The student is admitted to the oral examination upon passing the written examination. Both examinations may be attempted not more than two times.

Written English Proficiency

Students have to submit an analytical or argumentative writing of 3,500 words or more written in English, such as a graduate seminar paper. The writing will be evaluated by the German Academic Review Committee using ten criteria in four categories:

1. structure/organization,
2. conclusions grounded in theory and research,
3. knowledge and understanding, and
4. academic discourse which is comprehensive, logical, and consistent.
Modern Languages and Literatures—Italian

Chair: Mohammad Salama
Program Coordinator: Christopher Concolino
Undergraduate Advisor: Christopher Concolino
Graduate Advisor: Christopher Concolino

Program Scope
The Italian program offers courses in the basic skills of reading, writing, speaking, and understanding; a broad and comprehensive background in literature, culture, civilization, and Italian studies as well as preparation for a specialized career. Many students study Italian to become language teachers. Others, studying music, art, film, archaeology, international relations, history, business, and comparative literature, as well as students planning to become translators and interpreters have discovered the usefulness of Italian. Some take Italian purely for the cultural enrichment they derive from it. The study of Italian is particularly rewarding for those of Italian heritage. It also opens the doors to the CSU International Program Center in Florence, to various Italian art and professional academies, and to Italian universities where students can pursue studies in any field.

Minor
• Minor in Italian (p. 928)

Masters
• Masters of Arts in Italian (p. 928)

Bachelor of Arts in Italian

Preparation for the Major
The Italian major consists of 30 units of upper division coursework. Up to 16 units of lower division coursework or demonstrated language proficiency is required for the major.

Proficiency can be demonstrated by completing the necessary lower-division courses or testing out of them.

All upper-division courses are conducted in Italian, and students are expected to use Italian in their speaking, reading, and writing.

Writing in the Major
Students must complete the University’s GWAR requirement by taking MLL 400GW, CWL 400GW or ITAL 600GW.

Italian (B.A.) — 44 Units

Upper Division Electives (15 Units)
on advisement

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Complementary Studies
Required of all candidates for the Bachelor of Arts degree in Italian are 12 units of Complementary Studies, which must come from courses bearing a prefix other than ITAL, and not cross-listed with ITAL. Complementary Studies for the Italian major can be satisfied via four possible routes:

1. 12 units in any foreign language other than Italian (may include up to three units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
3. 12 units of course work taken as partial completion of a second major, a minor or a certificate;
4. 12 units of course work in related disciplines with the approval of an Italian Program advisor.

Related disciplines typically include classics, linguistics, literature, humanities, philosophy, history, music, art history, education, Jewish studies, apparel design and merchandising, industrial design, and any aspect of greater Italy, Mediterranean, Italian-American or European studies.

Where a course with a non-ITAL prefix, (and not cross-listed with ITAL), is taken as a core requirement or elective for the Italian major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the second Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL-prefix courses between Italian major and Complementary Studies units. Students satisfying Complementary Studies through
the Related Subjects option are not allowed to double-count major and Complementary Studies units.

<td>LD or UD</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: LD = Lower Division; UD = Upper Division.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.
Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Complementary Studies**
   Required of all candidates for the Bachelor of Arts degree in Italian are 12 units of Complementary Studies, which must come from courses bearing a prefix other than ITAL, and not cross-listed with ITAL. Complementary Studies for the Italian major can be satisfied via four possible routes:
   - 12 units in any foreign language other than Italian (may include up to three units of MLL prefix courses);
   - 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
   - 12 units of course work taken as partial completion of a second major, a minor or a certificate;
   - 12 units of course work in related disciplines with the approval of an Italian Program advisor.
   Related disciplines typically include classics, linguistics, literature, humanities, philosophy, history, music, art history, education, Jewish studies, apparel design and merchandising, industrial design, and any aspect of greater Italy, Mediterranean, Italian-American or European studies.
   Where a course with a non-ITAL prefix, (and not cross-listed with ITAL), is taken as a core requirement or elective for the Italian major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the second Major/Minor/Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL-prefix courses between Italian major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

Most of our lower-division courses are offered during the morning. Upper-division courses during the morning or early afternoon. First- and second-semester Italian courses are four units each.

All others are three unit courses, with the exception of our individual study courses, which range from one to three units. All courses are conducted in Italian to offer students maximum exposure to the language.

Master of Arts in Italian

The Master of Arts in Italian program stresses the study of literature and culture. We emphasize Italianistica (Italian Studies), and individual authors from the Middle Ages to the present. The history of Italian literature is taught through linguistic and thematic development in relation to larger European and extra-European contexts. Close textual analysis that includes the study of stylistics, rhetoric, semantics, and syntax are a part of graduate seminars, but courses naturally provide useful background knowledge related to topics in art, history, music and philosophy. The M.A. program requires students to deepen their knowledge of genres and literary periods, which they undertake in courses taught in Italian. This fact enables them to reach superior language competency in spoken and written Italian. Many of our graduates teach in secondary schools and community colleges or continue their studies for the Ph.D.

Admission to the Program

Applicants must have a minimum GPA of 3.0 and a B.A. in Italian or its equivalent. Those without this degree may be admitted conditionally and asked to complete additional units in consultation with the graduate advisor.

The following documents must be sent to the graduate advisor:

1. two letters of recommendation;
2. an analytical Statement of Purpose in English of approximately 500 words, which should be accompanied by
3. a second version written in Italian; (the two Statements of Purpose are required for admission in order to show proficiency in writing at the graduate level); official proof of the applicant’s score on the GRE (Graduate Record Examination).

Upper Division Undergraduate Courses (9 units)

Paired courses or graduate courses in Italian or related disciplines with approval of graduate major advisor.

and Master’s Comprehensive Written and Oral Examinations¹

A maximum of six units may be taken in English.

A maximum of nine units transferred from CSU approved study-abroad programs may count toward the M.A. if taken as upper division undergraduate units or graduate-level units.

¹ Students are admitted to the oral examination upon passing the written examination. Both examinations may be attempted not more than twice.

To meet the University’s exit requirement for written English, M.A. students will be asked to enroll in MLL 701 before taking their Master’s Comprehensive Written and Oral Examinations.
Modern Languages and Literatures—Japanese

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Modern Languages and Literatures
Humanities Building, Room 475
Phone: (415) 338-1421
Website: mll.sfsu.edu/japanese-program/ (http://mll.sfsu.edu/japanese-program)

Chair: Mohammad Salama
Program Coordinator: Makiko Asano
Undergraduate Advisors: Midori McKeon (Minor), Masahiko Minami (Major)
Graduate Advisor: Midori McKeon

Program Scope
The undergraduate Japanese program focuses on developing proficiency in the language in a socio-cultural context by offering a variety of language training courses and by conducting courses in culture and literature in Japanese. In addition to the required course work, students choose electives from a broad range of subjects, which include various courses in literature and culture as well as in translation, interpretation, and business Japanese. The Master of Arts in Japanese offers two emphases: Teaching Japanese as a Foreign Language and Professional Applications of the Language. The curriculum for the teaching emphasis prepares students for a career teaching Japanese at the college level. The Professional Applications emphasis helps students acquire competency in their specific occupational goals in areas such as business, government, arts, interpretation, translation and other professional fields.

Minors
• Minor in Japanese (p. 934)

Masters
• Master of Arts in Japanese (p. 934)

Bachelor of Arts in Japanese
The Japanese major consists of 45 units of lower and upper division coursework. Up to 10 units of prerequisite coursework or demonstrated language proficiency is required to begin the major.

Upper division courses in Japanese are generally conducted in Japanese, and students are expected to use Japanese in their speaking, reading, and writing.

Writing in the Major
Students must complete the University’s GWAR requirement by taking MLL 400GW, CWL 400GW, HUM 300GW, or COMM 362GW on advisement.

Upper Division Electives (6 Units)
on advisement

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Note: In general, it takes two semesters of JAPN 250 to reach the mastery of 1,000 Educational Kanji, which is a prerequisite to JAPN 510.

Complementary Studies

Required of all candidates for the Bachelor of Arts degree in Japanese are 12 units of complementary studies, which must come from courses bearing a prefix other than JAPN, and not cross-listed with JAPN. Complementary Studies for the Japanese major can be satisfied via four possible routes:

1. 12 units in any foreign language other than Japanese (may include MLL-prefix courses);
2. 12 units of course work taken as partial completion of a second major or minor;
3. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
4. 12 units of course work in related disciplines with the prior approval of a Japanese Program advisor.

Related disciplines typically include (but are not limited to) linguistics, literature, humanities, philosophy, history, art, theatre arts, anthropology.
education, international relations, international business, and any aspect of East Asia or Asian Americans. Where a course with a non-JAPN prefix (and not cross-listed with JAPN) is taken as a core requirement or elective for the Japanese major, the said course may also count towards complementary studies (i.e., double-counting allowed).

</table>

### Social Justice (SJ)

LD or UD 3

Note: LD = Lower Division; UD = Upper Division.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferrable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for
admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

*For more information, visit the Undergraduate Admissions section.*

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Total Units**: 120-122

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Complementary Studies**
   - Required of all candidates for the Bachelor of Arts degree in Japanese are 12 units of complementary studies, which must come from courses bearing a prefix other than JAPN, and not cross-listed with JAPN. Complementary Studies for the Japanese major can be satisfied via four possible routes:
     1. 12 units in any foreign language other than Japanese (may include MLL-prefixed courses);
     2. 12 units of course work taken as partial completion of a second major or minor;
     3. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
     4. 12 units of course work in related disciplines with the prior approval of a Japanese Program advisor.
   - Related disciplines typically include (but are not limited to) linguistics, literature, humanities, philosophy, history, art, theatre arts, anthropology, education, international relations, international business, and any aspect of East Asia or Asian Americans. Where a course with a non-JAPN prefix (and not cross-listed with JAPN) is taken as a core requirement or elective for the Japanese major, the said course may also count towards complementary studies (i.e., double-counting allowed).
5. In general, it takes two semesters of JAPN 250 to reach the mastery of 1,000 Educational Kanji, which is a prerequisite to JAPN 510.
Minor in Japanese

The Japanese minor consists of 22 units of lower and upper division coursework. Up to 10 units of prerequisite coursework or demonstrated language proficiency is required to begin the minor.

Upper division courses in Japanese are generally conducted in Japanese, and students are expected to use Japanese in their speaking, reading, and writing.

Master of Arts in Japanese

Admission to the Program

For admission to the master’s program in Japanese, non-native speakers of Japanese must have a bachelor’s degree either in Japanese or in a field related to the area of intended emphasis, or by demonstrating equivalent knowledge and proficiency in Japanese. Native speakers of Japanese must have a bachelor’s degree (no restrictions on the field).

Applicants must also have:

- a minimum 3.0 GPA;
- demonstrate the proficiency level in Japanese expected at the conclusion of a baccalaureate major in Japanese;
- submit two analytical essays (Statements of Purpose) – one in English (500 words), and the other in Japanese covering the same content stating the relevant past experiences and the reasons for applying to the graduate program at SF State;
- provide one set of transcripts; submit at least two letters of recommendation written in English or Japanese, both of which must be from an individual familiar with the applicant’s academic performance; and
- provide TOEFL scores (for non-native speakers of English only. Photocopies acceptable as long as the admissions office receives sealed scores).

Written English Proficiency Requirements

Level One

Written English proficiency will be evaluated based on the analytical essay (written in English) that is to be submitted as part of the application package.

Level Two

Proficiency is demonstrated by satisfactory completion of a research project, master’s thesis and oral defense, or written and oral comprehensive examinations.

Japanese (M.A.) — Minimum 30 Units

Core Courses for Both Emphases (9 Units)

Select three of the following courses. If all four courses are taken, the fourth one will count as an elective.

Selected courses with approval of graduate advisor

Electives
6 units selected upon advisement (Japanese courses or courses from other departments)

Culminating Experience Requirement (3 Units)
Select one of the following options:
- JAPN 895  Applied Research Project (and Oral Defense)  3
- JAPN 898  Master's Thesis (and Oral Defense)

Master's Comprehensive Oral and Written Examinations (which will cover 4 fields: Japanese Culture, Linguistics, Literature, and the student's field of interest, such as Japanese business and education).

Applied Research Project or Thesis
If the master's degree is not earned within two semesters of enrolling in a culminating experience course (JAPN 895 or JAPN 898), students must maintain continuous enrollment by taking a "zero unit" course in the College of Extended Learning (LCA 499) until the project or thesis is completed.

Comprehensive Examinations
Student are admitted to the oral examination upon passing the written examination. Both examinations may not be attempted more than two times.
Modern Languages and Literatures—Persian

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Modern Languages and Literatures
Humanities Building, Room 413
Phone: (415) 338–3121
Chair: Mohammad Salama

Coordinator: Mitra Ara
Email: persian@sfsu.edu
Website: mll.sfsu.edu/persian-program/ (http://mll.sfsu.edu/persian-program)

Program Scope
The Minor in Persian Studies is a multidisciplinary program for students seeking greater knowledge and understanding of Persian/Iranian language, culture, history, society, and politics from ancient to contemporary times.

Especially when coupled with competence in the Persian language, the minor will be useful to students planning careers in such fields as university teaching, businesses of various sorts, international organizations, government agencies, and diplomatic service.

The minor consists of 18–22 units. A core of one five-unit course and three three-unit courses, or four three-unit courses, and an elective group of two three- or four-unit courses will complete the minor, with at least one course focusing on Pre-Islamic periods and at least one course focusing on the Post-Islamic periods.

Minor
• Minor in Persian Studies (p. 936)

Minor in Persian Studies

Program of Study
Requirements
PRSN 101 and PRSN 260 are required, though PRSN 101 will be waived for students who can demonstrate proficiency in the fundamental skills of listening, reading, speaking and writing Persian.

Students who take PRSN 101 will select two additional courses from a list of three core courses and students who test out of PRSN 101 will take all three of those courses. Students also complete two courses chosen from the list of elective courses or other courses approved by a minor advisor. At least one course must focus on pre-Islamic periods (indicated by 1) and at least one course must cover post-Islamic periods.

Persian Studies, Minor — 18 – 22 units

Core Courses (12 – 14 units)

Modern Languages and Literatures—Russian

College of Liberal & Creative Arts

Dean: Andrew Harris

Department of Modern Languages and Literatures

Humanities Building, Room 475
Phone: (415) 338-1421
Email: russian@sfsu.edu
Website: mll.sfsu.edu/russian-program/ (http://mll.sfsu.edu/russian-program)

Chair: Mohammad Salama
Undergraduate Advisor: Natalia Tkachov

Program Scope

The Russian program offers lower division language courses (RUSS 101 – RUSS 103) and courses in advanced language, conversation, composition, culture, and civilization as well as a considerable range of literature—both in Russian and in English translation—comprising a minor that will enhance a wide range of majors in various disciplines. In this post-Soviet era the study of Russian language and culture, and the knowledge of the country as a whole, becomes even more imperative. Students are either frequently visiting Russia or working there for an extended period of time. In addition, there is now a greater availability of Russian archival material to Western students, researchers, and scholars.

The minor in Russian consists of 23 units of lower and upper division coursework. Up to 13 units of prerequisite coursework or demonstrated language proficiency is required to begin the minor.

Department of Modern Languages and Literatures
Humanities Building, Room 475
Phone: (415) 338-1421
Website: mll.sfsu.edu/spanish-program (http://mll.sfsu.edu/spanish-program)
Chair: Mohammad Salama
Program Coordinator: Michael Hammer
Undergraduate Advisors: Gustavo Calderón (A–H), Michael Hammer (I–P), Fermin Rodriguez (Q–Z)
Graduate Advisor: Fermin Rodriguez

Program Scope
The Spanish program offers a Bachelor of Arts, a minor, and a Master of Arts in Spanish. At the undergraduate level, the classes in linguistics, culture, and civilization are aimed at improving one’s understanding of the language and the people who speak it.

An ever increasing Spanish-speaking population has made Spanish the second most spoken language in the state of California and other states of the Union. The study and knowledge of this language, therefore, offers career alternatives in practically all fields of work and is an asset when seeking employment.

Professor
Calderón

• Bachelors of Arts in Spanish (p. 938)

Minor
• Minor in Spanish (p. 945)

Masters
• Master of Arts in Spanish (p. 945)

Bachelor of Arts in Spanish

Preparation for the Major
The Spanish major consists of 30 units of upper division coursework. Up to 16 units of prerequisite coursework or demonstrated language proficiency is required to begin the major.

Proficiency can be demonstrated by completing the necessary lower-division courses, testing out of them, or by taking the placement test.

All upper division courses are conducted in Spanish, and students are expected to use Spanish in their speaking, reading, and writing.

It is also recommended that students complete SPAN 301 (Advanced Grammar and Composition) prior to taking upper division courses in language and literature.

Writing in the Major: Students must complete the University’s GWAR requirement by taking SPAN 401GW, MLL 400, or CWL 400GW.

Spanish (B.A.) — 30 units

Required Courses (12 units)

<table>
<thead>
<tr>

<td>3</td>
</tr>
</tbody>
</table>

Electives (18 units)
Choose any six courses in Spanish numbered 300 to 699. At least three of these courses must be at the 400 level or above.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Complementary Studies
Required of all candidates for the Bachelor of Arts degree in Spanish are 12 units of Complementary Studies, which must come from courses bearing a prefix other than SPAN, and not cross-listed with SPAN. Complementary Studies for the Spanish major can be satisfied via four possible routes:

1. 12 units in any foreign language other than Spanish (may include up to 3 units of MLL prefix courses);
2. 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
3. 12 units of course work taken as partial completion of a second major, a minor, or a certificate;
4. 12 units of course work in related disciplines with the approval of a Spanish Program advisor.

Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of Spain, Latin America, or Latino/Latina Studies.

Where a course with a non-SPAN prefix, and not cross-listed with SPAN, is taken as a core requirement or elective for the Spanish major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the second Major, Minor, or Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL-prefix courses between Spanish major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.
Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

### SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

- American Ethnic and Racial Minorities (AERM) | LD or UD | 3
- Environmental Sustainability (ES) | LD or UD | 3
- Global Perspectives (GP) | LD or UD | 3
- Social Justice (SJ) | LD or UD | 3

Note: LD = Lower Division; UD = Upper Division.

### Transfer Student Roadmap (2 Year)

For students with an AA-T in Spanish. This roadmap opens in a new tab. (p. 943)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Spanish

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
- a course in U.S. & California Government
- a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CALEP examination(s) for details regarding the award of credit for AP/IB/CALEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

1. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

2. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

**Complementary Studies**

Required of all candidates for the Bachelor of Arts degree in Spanish are 12 units of Complementary Studies, which must come from courses bearing a prefix other than SPAN, and not cross-listed with SPAN. Complementary Studies for the Spanish major can be satisfied via four possible routes:

- 12 units in any foreign language other than Spanish (may include up to 3 units of MLL prefix courses);
- 12 units of course work taken in an approved study abroad program (including CSU Study Abroad and SF State Bilateral);
- 12 units of course work taken as partial completion of a second major, a minor or a certificate;
- 12 units of course work in related disciplines with the approval of a Spanish Program advisor.

Related disciplines typically include linguistics, literature, philosophy, history, education, and any aspect of Spain, Latin America, or Latino/Latina Studies.

Where a course with a non-SPAN prefix, and not cross-listed with SPAN, is taken as a core requirement or elective for the Spanish major, the said course may also (double) count towards Complementary Studies only via the Study Abroad option or the second Major, Minor, or Certificate option listed above. Students satisfying Complementary Studies through the Foreign Language option are allowed a maximum of three units of overlap of MLL-prefix courses between Spanish major and Complementary Studies units. Students satisfying Complementary Studies through the Related Subjects option are not allowed to double-count major and Complementary Studies units.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement to ensure degree completion within 60 units.

**Electives (18 units)**

Choose any six courses in Spanish numbered 300 to 699. At least three of these courses must be at the 400 level or above.
Bachelor of Arts in Spanish – SPAN Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Spanish with 60 units in transfer. All prerequisites for the major and lower division GE requirements have been satisfied. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</table>

¹ SPAN 301 is recommended for all students in the major prior to taking upper division courses, and is a prerequisite for composition/linguistics courses.

² MLL 400GW and CWL 400GW are additional options to fulfill the GWAR requirement. Students who opt to take one of these courses instead of SPAN 401GW must be sure to complete SPAN 405.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer.
- Upper division GE, areas B, C and D (9 units)
- Students entering this major with the AA-T in Spanish are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Spanish Major: 30 Units**
- Major requirements (12 units)
- Electives (18 units): select from SPAN courses 300-699; a minimum of three courses must be 400 level or higher.

**University Electives: 12 or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.

Electives (12 units)

Choose four Spanish courses, three of which must be at the upper division level (300 or above).

Master of Arts in Spanish

The M.A. program in Spanish is mostly focused on Spanish and Latin American literature and culture from the Middle Ages to the present. Over the course of their graduate studies in Spanish, students acquire a solid grounding in major works of poetry, prose, and theater, as well as the tools necessary to approach these works critically. All courses in the Spanish program are taught in Spanish. For more information, please see the graduate program website at http://spanish.sfsu.edu/graduate-program.

Admission to the Program

In addition to the requirements established by the University and the Department of Modern Languages and Literatures, a student must also meet the following admission requirements established by the Spanish M.A. Program.

1. All applicants are expected to have the equivalent of a B.A. in Spanish, that is, 30 units of upper division work in Spanish, with a GPA of 3.0 or better. If the student has not met this requirement, he or she may, at the discretion of the Program, be admitted as a "conditionally classified" graduate student. Students thus admitted must satisfactorily complete a number of specified courses before they become fully classified. These courses are not included in the 30 units required for the Masters.
2. Applicants must arrange for two letters of recommendation to be sent to the program.
3. Applicants must demonstrate to the Spanish faculty a record of prior scholastic achievement indicative of potential success as a graduate student. This means that applicants must submit a brief writing sample (essay) in Spanish or English which shows the scope of the applicant’s critical preparation and analytical ability. Ideally, this will be a 1,000 to 1,200 word paper written in an undergraduate class.
4. Applicants must also submit two copies of a brief statement of purpose (500 words), one written in English, the other in Spanish.
5. Applicants are responsible for meeting the appropriate deadlines. Materials sent directly to the Spanish Program must be postmarked by April 1 to be considered for fall admission, or by October 1 to be considered for spring admission.

Spanish (M.A.) – Minimum 30 Units

Graduate Courses (15 Units)

Graduate courses in Spanish (700–800 level)

Upper Division/Graduate Courses (6 Units) (500–899)

Elective Courses (9 Units)

At least eight courses (24 units) must be taken within the program, and up to six units from a related field may be counted for the degree. Any courses taken outside the Spanish Program must have prior approval of the Graduate Advisor.

Written English Proficiency

Since the Master’s Comprehensive Written and Oral Examinations are in Spanish, students must fulfill the Level-Two English requirement by passing MLL 701 with a B or higher. Students who do not receive at least a B must retake the course.

Examinations

The semester before a candidate plans to take the Spanish comprehensive written and oral examinations, he or she should contact the graduate advisor in order to arrange for a screening interview. By the time of the screening interview, the student should have read all of the books on the reading list. The screening committee assesses the candidate’s preparation and advise him or her on any areas of study that need more attention before the examinations. Candidates will NOT be screened until they have satisfied the English proficiency requirement.

The student is admitted to the oral examination upon passing the written examination. The exam consists of five questions on Spanish and Latin American literary topics. The grading scale ranges from 0–5 points. Students must receive a minimum of two points on each question and must receive at least 15 total points to pass the exam. Both examinations may be attempted a maximum of two times. For more information, please see the program website at http://spanish.sfsu.edu/exam-policy.
MUSEUM STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

School of Art
Director: Gail Dawson

Museum Studies Program
Fine Arts Building, Room 293
Phone: (415) 338–2176
Fax: (415) 338–6537
Email: museumst@sfedu.edu
Website: museumst.sfedu.edu (http://museumst.sfedu.edu)

Director and Graduate Coordinator: Edward M. Luby

Mission
The mission of the Museum Studies Program is to develop future museum professionals through highly structured coursework in a setting where museums’ educational efforts, collections, and interactions with the community are of central concern. Students are engaged in a 21st-century landscape, where responsiveness to the significant changes taking place in the museum profession are integrated into curriculum, activities and professional development.

Program Scope
The Museum Studies Program offers an undergraduate minor and a terminal Master of Arts (M.A.) degree. The Museum Studies Minor is rigorous, interdisciplinary, and pre-professional in nature. Coursework emphasizes acquiring knowledge in museum practice and theory to understand the public service role of museums and to apply this knowledge to support the work of museums in creating exhibits, educating the public, and caring for collections, through collaborative efforts.

The M.A. in Museum Studies is unique to SF State, and the only one of its kind in a public university in the state of California, either in the California State University or the University of California systems. The M.A. degree is designed to provide professional training in major areas of museum work—Museum Management & Fundraising, Curatorship, Registration/Collections Management, Exhibition Design, Cultural Property Law and Protection, and Museum Education & Public Programming.

Facilities
The program supports a museum with permanent collections of cultural and ethnographic artifacts. The Global Museum, located in the Fine Arts building, is volunteer-operated and admission is free. Museum Studies students staff the museum and produce all exhibitions and related educational and public programming. Other facilities include a specialized lab, teaching space, and collections storage.

Career Outlook
Alumni of the Museum Studies Program have found employment at all career levels in museums of all sizes and types throughout the U.S. The Museum Studies Program partners with the School of Art, Special Collections at the Leonard Library, and other units on campus on projects and courses that prepare students for employment in all types of museums, cultural arts centers, arts commissions, historical sites and houses, science centers, environmental education centers, libraries with exhibition programs, exhibit design firms, auction houses, planetaria, aquariums, zoos, and botanical gardens.

Learning Outcomes

Minor Program
1. Acquire and combine general education skills with relevant knowledge and information on museum practice and theory to understand and discuss the public service role of museums in a multicultural world
2. Apply knowledge of museum practice and theory as a pre-professional to support the work of museums in creating exhibits, educating the public, caring for collections, and serving the public, through collaborative work
3. Use written, oral, and critical thinking skills to apply knowledge of museum practice and theory to evaluate the work of museums
4. Acquire knowledge of museum practice and theory to serve as an advocate for the role of museums as centers of education, community, and preservation

M.A. Program
1. Identify the core features of museum professionalism (ethical codes, professional societies, interpersonal skills, team work, career development resources).
2. Outline the broad history of museums, their core organizational features, and basic museum theory.
3. Acquire knowledge of key areas in museum research and practice, specifically in: collections care and registration; museum management and fundraising; and exhibition design.
4. Depending upon their emphasis, students will acquire knowledge of at least one of the areas in museum research and practice: curatorship; cultural property law and protection; museum education.
5. Depending upon their emphasis, students will acquire or have the option of acquiring in museum research and practice in the areas of audience development, digital asset management, global operations, or conservation.
6. Conduct independent research that leads to either a written thesis or an exhibit component.

Professor

Lecturers
Alexander, Alper, DeMouthe, Fogarty, Franklin, Jiménez, Kienzle

Minor in Museum Studies
The Museum Studies Minor is rigorous, interdisciplinary, and pre-professional in nature. Coursework emphasizes acquiring knowledge in museum practice and theory to understand the public service role of museums and to apply this knowledge to support the work of museums in creating exhibits, educating the public, and caring for collections, through collaborative efforts. Students gain a useful set of pre-professional skills in museum practice, relevant information about museum theory and history, and learn about future careers in museums and informal educational settings. Written, oral and, critical thinking skills are developed to evaluate the work of museums.

The Museum Studies Minor will prepare students for the terminal M.A. degree in Museum Studies, or for additional on-the-job training for work in museums. Graduates will appreciate the role and power of museums in
the world as centers of learning, enjoyment, and community engagement, and as stewards of cultural and natural heritage.

Admission to the Minor is open to all students with upper division standing and who have completed M S 201 and M S 202 with a minimum grade of C.

**Museum Studies M.A. – Minimum 33 units**

The Museum Studies M.A. is designed to provide professional training in major areas of museum work—Museum Management & Fundraising, Curatorship, Registration/Collections Management, Exhibition Design, Cultural Property Law and Protection, and Museum Education & Public Programming.

The program builds upon students’ previous academic studies in museum-related disciplines by emphasizing practical experience, professionalism, and important developments in the field of Museum Studies. Museum Studies students include mid-career museum professionals, people from other professional career fields, and recent B.A. graduates.

</tbody>
</table>

If the thesis or creative work project is not completed during the semester the student is enrolled in M S 894 or M S 898, the student is required to enroll in M S 897, a continuation course, in the third semester following their initial enrollment in M S 894 or M S 898. If the thesis or creative work project is not completed at the end of the third semester, students are required to enroll in the College of Extended Learning’s course, LCA 499 “Culminating Experience Continuous Enrollment,” and must maintain continuous enrollment in LCA 499 each fall and spring semester thereafter until graduation or until the department’s five-year deadline for completing the degree.

**Admission to the M.A. Program**

Students are admitted to the program for fall terms only. To be admitted to classified status, a student must meet all general University requirements. No more than 6 units of work taken in post-baccalaureate status are transferable to M.A. degree credit in the museum studies program.

To be eligible for consideration, applicants must:

- Have an undergraduate degree from an accredited college or university in one of the following or related fields: anthropology, archaeology, art history, classics, design, education, history, biological or physical sciences, or public/art administration. Additional museum experience beyond the minimum required is expected when a student has a degree in a field not listed.
- Have at least a minimum grade point average of 3.20 in the last 60 semester units of upper-division courses completed.
- Be able to demonstrate understanding of the work and profession of museum studies, gained through paid or volunteer experience (minimum of six months) in a museum or related setting. Experience can be completed prior to or concurrent with application to the program.
- Submit to the Museum Studies program two letters of recommendation from faculty or supervisors knowledgeable of the applicant’s academic or professional ability. At least one of these letters should be from a museum supervisor.
- Submit to the Museum Studies program a current résumé and written statement of purpose, outlining background, intentions, and goals as specified in the program’s admissions procedures. Each applicant is encouraged to specify as closely as possible the emphasis s/he wishes to pursue.
• Send one set of transcripts of all prior academic work directly to the Museum Studies program. Another set is required by the university graduate admissions office.
• Submit GRE scores with a minimum of 4.5 or better on the analytical writing section, and 156 or better on the verbal reasoning section. Past scores will be accepted if taken within five years of the semester the applicant wishes to attend.
• Submit a paper TOEFL score of at least 550 or a computer-based score of 80 to the graduate admissions office, if an international applicant is from a non-English speaking country.

Applications for admission are due February 1. Domestic applicants may be contacted by the Museum Studies program for interviews only if needed, and, if application files are complete and received by February 1.

**Written English Proficiency Requirement**
The University has a requirement for written English proficiency that is to be assessed at two different points in a student’s program.

**Level One (must be met prior to admission)**
GRE scores with a minimum of 4.5 or better on the analytical writing section, and a 156 or better on the qualitative section.

**Level Two (toward the end of the program)**
Grade of B+ or above on final research papers for M S 700 or M S 860.

**Advancement to Candidacy**
Besides meeting all general requirements for advancement to candidacy, applicants must, in addition, have completed with a grade of B or better each of the following courses: M S 700 and M S 880.
College of Liberal & Creative Arts
Dean: Andrew Harris

School of Music
Creative Arts Building, Room 141
Phone: (415) 338–1431
Website: music.sfsu.edu (http://music.sfsu.edu)

Program Coordinator: Cyrus Ginwala
Director: Cyrus Ginwala (Interim)
Undergraduate Advisors: Brandes, Ginwala, Hanna, Hogarth, Modirzadeh, Neve, Speight, Suzuki, Todorov, Woodward
Graduate Coordinator: Cyrus Ginwala

Program Scope
The School of Music offers both professional and liberal arts degree programs in music as well as courses that enrich the general education and cultural life of the University. The Bachelor of Arts in Music provides a humanistic approach to the study of music as a significant part of human tradition and culture. The Bachelor of Music is an intensive curriculum for qualified advanced undergraduate students seeking to attain professional levels of expertise in a specialized music discipline.

The Master of Arts in Music and Master of Music degree programs provide an advanced education for students with an undergraduate degree in music wishing to gain additional expertise in specific areas of music. The Master of Arts in Music program is for students who have highly developed interest and achievement in specific areas of music study; an interest in teaching as music faculty in two- and four-year colleges; are K–12 teachers seeking additional expertise in specific areas of music that will enhance their skills and knowledge as music educators; or, are seeking preparation for professional careers in composition, including for film and video games. The Master of Music provides graduate study for the superior performer with the goal of maximum development of specialized skills. Either the Master of Arts in Music or Master of Music degree programs can be appropriate for students who have the goal of advanced graduate study at the doctoral level.

The School also offers two minors in music: a liberal arts minor, that provides a planned sequence of musical development from which future enjoyment and learning can proceed, and a minor in World Music and Dance, which is interdisciplinary in character.

A variety of individual and ensemble music performance opportunities are available to all SF State students, including Wind Ensemble, Jazz Band, University Symphony, Chamber Singers, Afro-Cuban Ensemble, and Women’s Chorus. A number of small and specialized vocal and instrumental ensembles that are part of the Chamber Music, Jazz and Creative Music programs are also available. The School also participates in opera and musical-theatre productions in cooperation with the School of Theatre and Dance.

Scholarships in music are available and awarded based on musical and scholastic achievement and musical promise. Many of these scholarships are designated for specific fields of study while others are open to music majors in any field of study. Auditions for scholarships are held two to four times each year. Students must schedule an appointment to audition for a scholarship. For further information and an application, contact the School of Music.

San Francisco State University has been an accredited institutional member of the National Association of Schools of Music since 1963.

Faculty and Facilities
Faculty in the School of Music includes internationally recognized performers, composers, music educators, authors and research scholars. Each faculty member has a strong commitment to students and brings their knowledge and expertise into the process of teaching and learning music. The world-renowned Alexander String Quartet is quartet-in-residence at SF State. The members of the quartet are faculty in the School and coordinate, along with other faculty, our unique Chamber Music program. To meet our faculty, please visit the School of Music website at: http://music.sfsu.edu.

The Music Program is housed in the Creative Arts Building. Facilities include McKenna and Knuth Theatres, seating 701 and 322 respectively; three piano laboratories; choral and instrumental ensemble rehearsal space; classroom and practice facilities; a music materials resource center containing instruments and scores; an electronic music laboratory; and a music computer lab with more than 20 workstations.

The J. Paul Leonard Library provides music listening facilities; computer access; and an extensive collection of scores, recordings, and books on music. The Frank V. de Bellis Collection of Italian culture, located on the fourth floor of the library, contains historic musical instruments, rare books, musical manuscripts, and scores and archival sound recordings.

Career Outlook
Career options for music majors are very diverse. The analytical, concentration and listening skills, collaborative experiences, and broad historical and cultural knowledge gained through the study of music prepare students to achieve in many professional arenas. Their individual achievements may lead them into specific professional fields of music, including performance, composition, scholarship, teaching, or into another profession that can benefit from the knowledge and skills gained in music study.

Graduates of SF State University music programs currently perform as soloists or as members of symphony orchestras, opera, chamber ensembles, choruses, rock groups, jazz combos, and a variety of intercultural ensembles. They conduct Broadway musicals, church choirs, community choruses, commercial music, operas, and symphony orchestras. Some work as composers, arrangers and producers in a wide-variety of musical environments, write recording and program notes, serve as music librarians, design and work with music technology, and work as critics and lecturers. Others teach music at every educational level from pre-school through university in independent studios and in public and private schools and colleges. They occupy key positions as music administrators and provide leadership for professional music organizations. School of Music graduates have also gone on to careers outside of music in fields as diverse as medicine, business and law. Whatever their chosen career path, the education our graduates received has provided the educational foundation they needed to provide a life filled with meaning and professional accomplishment. Wherever their careers have taken them, they continue to create, perform, analyze, write about, lobby for, and listen to music both for profit and for pleasure.

Undergraduate Programs in Music
All students wishing to pursue a major in music must pass both a performance audition on an instrument or voice, and demonstrate competency in music theory, aural and piano skills sufficient for
successful music study at a four-year university. The performance auditions must establish that the individual possesses music achievement adequate to effectively engage in musical performance in the School of Music. Students who pass the performance audition may demonstrate competency in music theory, aural skills and piano either through passing placement examinations or completing specific coursework at San Francisco State University. Auditions and placement examinations are given at least twice each year. Students may only audit or take placement examinations twice.

Students who pass the performance audition but fail the placement examinations in aural skills and music theory must take MUS 130 during their first semester as music students in School of Music. A grade of C or better in MUS 130 is required to satisfy the aural skills and music theory standards required to proceed in either the Bachelor of Arts in Music or the Bachelor of Music degree programs. Students who fail the placement exam in piano may complete MUS 201. A grade of C or better in MUS 201 is required to satisfy the piano standards for admission to either the Bachelor of Arts in Music or the Bachelor of Music degree programs. While satisfying aural skills, music theory and piano degree program admissions standards, students who pass their performance audition are expected to enroll in other music courses that will apply toward university degree requirements. These courses include performance ensembles and MUS 150. Please consult with your assigned music advisor about appropriate choices.

Many music courses are available to students admitted to the Bachelor of Arts or Bachelor of Music degree programs. Certain music courses, taken to satisfy deficiencies identified by placement examinations in aural skills, music theory, and piano, may not count as part of a Bachelor of Arts in Music or Bachelor of Music degree program.

All music majors are assigned a faculty advisor with whom they confer each semester to develop an appropriate program of study.

Individual instrumental and vocal applied lessons are restricted to music majors who have passed the performance audition and the aural skills and music theory placement examinations. Participation in an ensemble is required of all students enrolled in applied lessons. Students enrolled in individual voice or instrumental instruction are required to enroll in 1 unit of appropriate ensemble for each half-hour of private instruction received. Ensemble enrollments must be approved by the faculty advisor in order for them to satisfy this requirement. (See individual program requirements for the maximum number of ensemble units, MUS 371 – MUS 390, applicable to degree requirements.) Students must also maintain full-time enrollment in order to qualify for individual instruction. There are a limit to the total number of individual lessons each student may receive, depending on the degree program in which the student is enrolled. Students who fail or withdraw from required pre-requisite or co-requisite musicianship, theory or ensemble courses, will lose eligibility for individual applied lessons until academic requirements in those pre-requisite or co-requisite courses have been satisfied.

Graduate Programs in Music

The School of Music offers a Master of Arts in Music with emphases in composition, music education, or music history; and a Master of Music in Performance with emphases in vocal or instrumental performance, chamber music, or conducting (choral or instrumental).

Professors

Festinger, Hanna, Modirzadeh, Neve, Todorov, Woodward, Xiques

Associate Professors

Giwala, Suzuki

Assistant Professors

Brandes, Hogarth, Sabey

Lecturers

Speight, Alexander String Quartet (Grafilo, Lifitsz, Walsh-Wilson, Yarbrough)

Majors

- Bachelor of Art in Music (p. 950)
- Bachelor of Music (p. 957)

Minors

- Minor in Music (p. 966)
- Minor in World Music and Dance (p. 1032)

Masters

- Master of Arts in Music (p. 966)
- Master of Music (p. 967)

Bachelor of Arts in Music

The Bachelor of Arts in Music provides a humanistic approach to the study of music as a significant part of human tradition and culture. This degree program provides broad liberal arts preparation with significant study in music. The structure of the degree program offers students several avenues to pursue individual interests in music as preparation for careers in music or music-related fields. Students may choose the recommended emphases in Classical, Jazz, Electronic Music, or Creative Music Studies. Students with other music-related career interests may also design and complete an elective emphasis more appropriately focused, with the approval of the School of Music.

Preparation for the major involves competency and/or course work requirements in theory, ear training, and piano.

Performance achievement in one applied area (voice, piano, or instrumental major) is an expected component of the Bachelor of Arts degree program. Students must develop, with their faculty advisor, a school approved program that will provide for clear demonstration of musicality and musicianship appropriate to a liberal arts degree in music in their area of emphasis. Students whose major performance medium is voice are strongly recommended to take Class Voice to achieve performance competence.

Upper Division Core Courses (11 Units)
Students may not enroll in upper upper division courses in music until
all lower-division courses have been completed with a grade of C or
better. These courses must be completed no later than the end of the first
semester of the junior year.

MUS 420 20th Century Techniques 3
or MUS 440 Jazz Harmony

MUS 433 Introduction to Music Technology 2
MUS 542GW Ethnomusicology - GWAR 3
MUS 598 Senior Thesis 3

Area of Upper Division Emphasis Electives (19 units)
To fulfill the requirements of the major in the Bachelor of Arts in Music, students must complete an additional 19 units of coursework. Based on
their interests, along with mandatory faculty advising every semester, students select courses to build an emphasis area, of which several are
most common: Classical, Jazz, Popular, Creative/World, Electronic Music,
and Historical Keyboard. Advising sheets are available from the Music
Office and Faculty Advisors.

Theory/Practice
Six to seven units selected from MUS 405–477 (p. ) (with the
exception of core courses).

History/Literature
Six to seven units selected from MUS 501–599 (p. ) (with the
exception of MUS 542GW).

Instruction/Ensembles
Six to seven units selected from MUS 303, MUS 313, MUS 353, and MUS
371–399 (p. ). Note: Private study and performance ensembles
require an audition.

Note: A minimum of 40 upper division units must be completed for the
degree (including upper division units required for the major, general
education, electives, etc.). A student can complete this major yet
not attain the necessary number of upper division units required for
graduation. In this case, additional upper division courses will be needed
to reach the required total.

Complementary Studies
Twelve units of complementary studies are required of all candidates
for the Bachelor of Arts degree in Music. These units must come from
courses bearing a prefix other than MUS, and not cross-listed with MUS.
Music majors will be offered several pathways toward completing this
requirement, each of which is designed to facilitate graduation in a
timely manner. Music majors may, with the approval of a MUS Program
advisor, satisfy the Complementary Studies requirement by completing
12 units in a single foreign language of their choosing; 12 units from
courses taken in a study abroad program; 12 units from courses taken
as partial completion of a second major, minor or certificate; or 12 units
from courses in related disciplines. Related disciplines typically include:
theater, dance, cinema, broadcast and electronic communications,
creative writing, journalism, kinesiology, physical education, health
education, holistic health, biology, elementary education, English, history,
anthropology, business, and journalism. Up to 12 units of Complementary
Studies may count toward the major for courses that are related to music,
as determined by a major advisor.

The Bachelor of Arts in Music degree requires completion of the
University General Education requirements, 45 units of requirements
in music appropriate to the degree emphasis, which includes concert
attendance (MUS 150), and additional elective units for a total of 120
units. Additional elective units may be taken in music, but a maximum of 60
units in music may be counted towards the 120 units required for graduation.

Note:

• Lower division preparation for the Bachelor of Arts in Music should be
done during the first two years of study at SF State.
• Lower division preparation in music must be completed prior to
enrollment in upper division music coursework.
• Students must enroll in MUS 150 (3 units) each semester in residence
up to and including eight semesters.
• A grade of C or better is required for all music courses in the Bachelor
of Arts in Music major.

First Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 954)

Transfer Student Roadmap (2 Year)
For students with an AA-T in Music. This roadmap opens in a new tab. (bulletin.sfsu.edu/colleges/liberal-creative-arts/music/ba-music/adt-roadmap.html)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Music
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division
general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total Units</td>
<td>120-122</td>
</tr>
</tbody>
</table>

1. Required each semester of music majors.
2. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.
3. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
5. Piano majors may substitute private lessons for MUS 202.
6. **Complementary Studies**

Twelve units of complementary studies are required of all candidates for the Bachelor of Arts degree in Music. These units must come from courses bearing a prefix other than MUS, and not cross-listed with MUS. Music majors will be offered several pathways toward completing this requirement, each of which is designed to facilitate graduation in a timely manner. Music majors may, with the approval of a MUS Program advisor, satisfy the Complementary Studies requirement by completing 12 units in a single foreign language of their choosing; 12 units from courses taken in a study abroad program; 12 units from courses taken as partial completion of a second major, minor or certificate; or 12 units from courses in related disciplines. Related disciplines typically include: theater, dance, cinema, broadcast and electronic communications, creative writing, journalism, kinesiology, physical education, health education, holistic health, biology, elementary education, English, history, anthropology, business, and journalism. Up to 12 units of Complementary Studies may count toward the major for courses that are related to music, as determined by a major advisor.

The Bachelor of Arts in Music degree requires completion of the University General Education requirements, 45 units of requirements in music appropriate to the degree emphasis, which includes concert attendance MUS 150 and additional elective units for a total of 120 units. **Additional elective units may be taken in music, but a maximum of 60 units in music may be counted towards the 120 units required for graduation. Note:**

- Lower division preparation for the Bachelor of Arts in Music should be completed during the first two years of study at SF State.
- Lower division preparation in music must be completed prior to enrollment in upper division music coursework.
- Students must enroll in MUS 150 (6 units) each semester in residence up to and including eight semesters.
- A grade of C or better is required for all music courses in the Bachelor of Arts in Music major.
Area of Upper Division Emphasis Electives (19 units)
To fulfill the requirements of the major in the Bachelor of Arts in Music, students must complete an additional 19 units of coursework. Based on their interests, along with mandatory faculty advising every semester, students select courses to build an emphasis area, of which several are most common: Classical, Jazz, Popular, Creative/World, Electronic Music, and Historical Keyboard. Advising sheets are available from the Music Office and Faculty Advisors.

Theory/Practice
Six to seven units from MUS 405-MUS 477 (with the exception of core courses).

History/Literature
Six to seven units from MUS 501-MUS 599 (with the exception of MUS 542GW).

Instruction/Ensembles
Six to seven units from MUS 303, MUS 313, MUS 353 and MUS 371-MUS 399. Note: Private study and performance ensembles require an audition.
Bachelor of Music

The Bachelor of Music is an intensive curriculum for students wishing to study music for specific professional purposes or seeking professional levels of attainment in music. Bachelor of Music emphases within the program provide specialized study in piano, vocal, and instrumental performance; composition; jazz; history and literature; and music education (credential preparation). These specializations prepare students for graduate study or various professional opportunities. In addition to possessing musical ability and motivation, every candidate for the professional degree program must demonstrate, in an audition before a faculty panel, a significant technical and artistic level of accomplishment in at least one area of performance before being admitted to this major. Candidates for the Bachelor of Music major may apply either before or after enrolling at San Francisco State University.

A maximum of 73 units in music may be counted toward this degree.

Students in a performance emphasis may receive up to eight semesters of individual lessons with the distinguished artist faculty in the School of Music, many of whom are members of the San Francisco Symphony, Opera, and Ballet Orchestras, and maintain active professional careers. The degree program culminates in a formal senior recital.

Students in the composition emphasis have early and continued opportunities through private lessons, Composers' Workshop, and other specialized classes to study with nationally recognized faculty composers and to have their works publicly performed. Students are expected to qualify for this emphasis at the end of the second year of study at San Francisco State University.

Students in the history/literature emphasis complete core courses in music history as well as courses in such topics as keyboard literature, jazz, ethnic music, and the works of individual composers. The culminating project for the history/literature emphasis, a senior thesis of an analytical or historical nature, gives each student an opportunity to work closely with a member of the music history faculty in developing research and analytical skills.

The Bachelor of Music with an emphasis in music education prepares students to teach in the elementary and secondary schools. Completion of this curriculum satisfies the pre-professional academic requirements for the Single Subject Teaching Credential in Music, leaving only the professional education sequence to be completed in the College of Education.

Bachelor of Music students must complete 27 units of core courses which includes concert attendance and one of the following emphases: Piano, Instrumental, or Vocal Performance; Composition; Jazz; History and Literature; or Music Education. Students who select the Music Education Emphasis must complete one of the three options listed under Music Education.

- Students must enroll in MUS 150 (0 units) each semester in residence up to and including eight semesters.
- A grade of C or better is required for all music courses in the Bachelor of Music major.

**Bachelor of Music — 72–73 units**

**Core Courses (30 units)**

Students wishing to qualify for the composition emphasis file an "Intent to Apply" form at the completion of MUS 232, and make their actual application to the program at the completion of MUS 425 (normally at the end of the sophomore year). The application consists of an application form, a transcript, and a portfolio of compositions. A portfolio of scores and recordings of works written for a variety of ensembles must also be submitted and approved before graduation from the program.

Major Instruction must have concurrent enrollment in a large classical ensemble (Wind Ensemble, Orchestra, Chorus).

Music electives on advisement

Senior Recital is required

### Jazz Emphasis (44–48 units)

Select two of the following:

- MUS 201 Class Piano I
- MUS 202 Class Piano II
- MUS 203 Class Piano III
- MUS 206 Beginning Jazz/Pop Piano

Upon advisement, for MUS 201-MUS 203 and MUS 206, jazz piano majors may substitute from the following three courses:

- MUS 382 Keyboard Harmony
- MUS 383 Piano Accompaniment
- MUS 391 Piano Sightreading

Piano, Voice, or Instrumental Major

2 semesters of applied classical lessons are required before admission to the major

- MUS 303 Keyboard Major
- MUS 313 Voice Major
- MUS 353 Instrumental Major
- MUS 360 Major Repertoire (1 unit course taken six to eight times)

Major Instruction must have concurrent enrollment in MUS 371 - MUS 390 Ensemble Series

- MUS 371 - MUS 390 (2 units must be in large classical ensembles)

Major instruction in one instrument or voice: minimum 2 units large classical ensemble (Wind Ensemble, Orchestra, Chorus) for students studying orchestral instruments or voice: minimum 2 units in Jazz and/or Creative Music performance classes for those students studying Jazz and Creative 2 units required (1 unit per semester). 2 units maximum (1 unit per semester)

- MUS 270 Improvisation
- MUS 431 Jazz Improvisation I
- MUS 432 Jazz Improvisation II
- MUS 440 Jazz Harmony
- MUS 441 Jazz Composition and Arranging
- MUS 558 Music of John Coltrane

Music elective on advisement

Required performance and passing of a Senior Recital

### History and Literature Emphasis (44 units)

Piano, Voice, or Instrumental Major

- MUS 303 Keyboard Major (on advisement)
- MUS 313 Voice Major (on advisement)
- MUS 353 Instrumental Major (on advisement)
**Bachelor of Music**

Select two of the following on advisement:

<table>
<thead>
<tr>

In addition, candidates must pass the junior qualifying examination in one instrument or voice and demonstrate basic reading knowledge of French, German, or another appropriate language.
1 MUS 371, MUS 372, MUS 373, and MUS 379 fulfill General Education requirements; therefore, an additional 3 units may be taken for GE and are not counted in the emphasis total.

2 At least 1 unit must include MUS 270.

3 At least 2 units must include MUS 388 or MUS 390.

4 For the Diversified Concentration a minimum of 6 units must be in choral ensembles.

**SF State Studies**

Courses certified as meeting the SF State Studies requirement may be upper or lower division in General Education (GE), in a major or minor, or an elective.

- American Ethnic and Racial Minorities (AERM) LD or UD 3
- Environmental Sustainability (ES) LD or UD 3
- Global Perspectives (GP) LD or UD 3

Social Justice LD or UD 3 (SJ)

Note: LD = Lower Division; UD = Upper Division.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer:
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www.assist.org](http://www.assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferrable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for
admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

<td></td>
</tr>
</tbody>
</table>

**Total Units** 128-130

1. Required each semester of music majors.

2. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

3. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Area of Emphasis (41–43 units)
To fulfill the requirements of the major in the Bachelor of Music, students must complete an additional 41–43 units of course work upon advisement. With a faculty advisor, students select an area of emphasis based on interests and areas in which to build expertise. Several areas of emphasis from which students may choose are listed below.

**Piano Performance Emphasis (41 units)**
MUS 382 Keyboard Harmony (1 unit)
MUS 303 Keyboard Major (1 unit)
MUS 360 Major Repertoire (1 unit)
Ensemble Series: Two semesters of enrollment in a large, conducted ensemble is required. A minimum of 2 units large classical ensemble (Wind Ensemble, Orchestra, Opera Workshop, Chorus).
MUS 371 Orchestra (1 unit)
MUS 372 Wind Ensemble (1 unit)
MUS 373 Chamber Singers (1 unit)
MUS 375 Women's Chorus (1 unit)
MUS 379 University Chorus (1 unit)
MUS 381 Men's Chorus (1 unit) - MUS 385 Applied Accompanying (1 unit)
MUS 378 Chamber Music (1 unit)
MUS 383 Piano Accompaniment (1 unit)
MUS 384 Piano Ensemble (1 unit)
MUS 391 Piano Sightreading (1 unit)
MUS 392 Piano Performance Practicum (1 unit)
MUS 405 Tonal Counterpoint (3 units)
MUS 510 Keyboard Literature (3 units)
MUS 614 Piano Pedagogy (2 units)
MUS 640 Ensemble Conducting (2 units)
Senior Recital is required

**Vocal Performance Emphasis (42 units)**
MUS 201 Class Piano I (1 unit)
MUS 202 Class Piano II (1 unit)
MUS 203 Class Piano III (1 unit)
MUS 224 Ear Training and Musicianship IV (1 unit)
MUS 301 Class Piano IV (1 unit)
MUS 302 Class Piano V (1 unit)
MUS 313 Voice Major (1 unit)
MUS 360 Major Repertoire (1 unit)
MUS 371 Orchestra (1 unit)-MUS 390 Jazz Band (1 unit)
Major Instruction must have concurrent enrollment in a large classical ensemble (Wind Ensemble, Orchestra, Chorus)
MUS 560 Lyric Diction I (2 units)
MUS 561 Lyric Diction II (2 units)
MUS 565 Vocal Literature (3 units)
MUS 612 The Voice (3 units)
MUS 640 Ensemble Conducting (2 units)
2 units of Music Electives on Advisement
Senior Recital is required

**Instrumental Performance Emphasis (42 units)**
MUS 201 Class Piano I (1 unit)
MUS 202 Class Piano II (1 unit)
MUS 203 Class Piano III (1 unit)
MUS 353 Instrumental Major (1 unit)
MUS 360 Major Repertoire (1 unit)
MUS 371 Orchestra (1 unit)-MUS 390 Jazz Band (1 unit)
Major Instruction must have concurrent enrollment in a large classical ensemble (Wind Ensemble, Orchestra, Chorus)
MUS 405 Tonal Counterpoint (3 units)
MUS 416 Theory Seminar (3 units)
MUS 640 Ensemble Conducting (2 units)
3 units of Music Electives on Advisement
Senior Recital is required

**Composition Emphasis (45 units)**
Students wishing to qualify for the composition emphasis file an "Intent to Apply" form at the completion of MUS 232, and make their actual application to the program at the completion of MUS 425 (normally at the end of the sophomore year). The application consists of an application form, a transcript, and a portfolio of compositions. A portfolio of scores and recordings of works written for a variety of ensembles must also be submitted and approved before graduation from the program.
Minor in Music

The program is designed to provide students with a planned sequence of musical experiences that will provide opportunities for life-long learning and future enjoyment. The minor may be designed, in consultation with a music faculty advisor, to include other courses that more appropriately meet the particular goals and educational attainment in music of the individual student.

12 of the total units must be in upper division work and taken in residence at San Francisco State.

1 Students with more developed piano skills may substitute other piano classes, with the approval of the music minor advisor. These classes may include: MUS 206, MUS 301, MUS 302, or MUS 303.
2 Students with extensive background in music may substitute more advanced courses.

Master of Arts in Music

Master of Arts in Music

This program provides advanced study for students with highly developed interest and attainment in specific areas of music; prepares teachers for certain types of college music positions; provides prospective doctoral aspirants with a sound foundation for advanced graduate study; provides advanced academic qualifications for public school teachers; and prepares students for professional careers in composition. All emphases require either a culminating creative project or a master’s thesis.

All students must complete a 9 unit core requirement and complete an emphasis as designated below. Enrollment is required during the semester of graduation.

Admission to Program

Students should apply by April 1 for the following fall or October 1 for the following spring. Applicants are required to file two applications, one with the University and one with the School of Music. Admission to conditionally classified status requires acceptance by both the University and the School of Music. A departmental application form may be obtained by writing to the School of Music, or by calling (415) 338–1431. University applications may be requested from the graduate admissions office or online at http://grad.sfsu.edu/.

Requirements for admission to conditionally classified status in music are as follows.

1. A baccalaureate degree, with a major in music or equivalent musical experience.
2. A minimum 3.0 grade point average in the last 60 units of undergraduate study.
4. A 200–500 word narrative statement of purpose. This statement should include a description of the applicant’s previous accomplishments.
5. An official copy of the applicant’s undergraduate transcripts, and graduate transcripts if the student has been previously enrolled in a program of graduate study.
6. Two letters of recommendation from current or former teachers or professionals who are familiar with the applicant’s qualifications.
7. Completion of Graduate Classification Examinations in Music History, Theory, Aural Skills and, for music education candidates, the Music Education Master’s Advisory Exam. These examinations must be taken prior to entry into the program. Students who demonstrate deficiencies in one or more areas may be accepted into the program contingent upon remediation of all deficiencies within one academic year of entry into the program. Undergraduate course work taken to remove deficiencies may not be used as part of the 30 units required for the master’s degree in music.
8. Additional requirements for specific programs are:
   a. For applicants to the Master of Arts in Music with an emphasis in Music Education: a written description of the nature and extent of teaching experience. Applicants must also provide evidence of a valid teaching credential.
   b. For applicants to the Master of Arts program with an emphasis in Music History: representative examples of student analytical papers.
   c. For applicants to the Master of Arts program with an emphasis in Composition: representative scores and, if possible, tapes of recent musical compositions.

Written English Proficiency Requirement

Level One

Applicants to the M.A. program are required to submit writing samples, demonstrating graduate level, discipline-specific proficiency in music research. Samples may include writing assignments submitted to satisfy requirements in undergraduate history courses. Applicants with substandard writing may be considered not admissible. Students who have recently earned an undergraduate degree from SF State may be exempted from this requirement.

Level Two

Level Two is satisfied with satisfactory completion of the Music History seminar from the 750 series.

Advancement to Candidacy

Advancement to candidacy occurs when an Advancement to Candidacy (ATC) form has been completed by the student and approved by the major advisor, college graduate coordinator, and the dean of the Graduate Division. Prior to completion of the ATC form, the student must have been granted fully classified status (see #7 above); have satisfactorily completed both Written English Proficiency Requirements; have completed at least 12 semester units applicable to the degree with
a B average or above; and have successfully completed review of the student’s program with the faculty advisor.

**Master’s Examination**
All candidates for Master of Arts in Music degree must pass a comprehensive examination that demonstrates their ability to communicate, both orally and in writing, their command of music theory, history, research and analytical skills, and musical repertoire. (This examination must be taken during the semester in which the student completes all course work.)

**Music (M.A.) – Minimum 30 units**

**Core Requirements (9 units)**
- MUS 700 Introduction to Graduate Study 3
- MUS 710 Advanced Analysis 3
- Select one graduate seminar in Music History (MUS 750–MUS 755) 3

**Music Education Emphasis (21 units)**
This program is open to students who are either enrolled in the music teaching credential program or are credentialed music teachers seeking advanced qualifications. All candidates must hold a baccalaureate degree from an accredited university and have satisfied the requirements for the San Francisco State University approved subject matter program in music education or equivalent in the candidate’s home state or country.

**Music Education Courses**
- MUS 761/852 Curriculum and Instruction II: Music (on advisement) 3
- Non-music electives on advisement 9
- Students enrolled in the music teaching credential program may fulfill these units with:
  - S ED 751 Classroom Environment and Management and Professional Perspectives and Practices 6
  - Select one of the following on advisement:
    - MUS 894 Creative Work Project 3
    - MUS 898 Master’s Thesis 3
- Students preparing for advanced study at the doctoral level should complete a master’s thesis as a culminating project.

**Music History Emphasis (21 units)**
Music History Seminars (selected from MUS750–MUS 755) 6
- MUS 899 Independent Study 4
- Non-music electives on advisement 6
- Electives in music on advisement 2
- MUS 898 Master’s Thesis 3
- Foreign Language Competency Examination (French, German, Italian, or other approved language) 2

**Composition Emphasis (21 units)**
- MUS 716 Graduate Theory Seminar 3
- MUS 720 Directed Projects in Theory or Composition 2 1
- MUS 725 Practicum in Composition 7 1
- MUS 894 Creative Work Project 3
- Non-music electives on advisement 6
- Approved elective in music 1
- Foreign Language Competency Examination (French, German, Italian, or other approved language) 2

1. Unit totals indicate the minimum requirement. Additional instruction may be required before the thesis/composition is undertaken.
2. To be successfully completed prior to advancement to fully classified status in the program.

**Master of Music**

**Master of Music**
The Master of Music program provides graduate study for the superior performer and allows for maximum development of specialized skills in the candidate’s particular area of documented achievement. Students may emphasize classical solo performance, chamber music, or conducting. This degree is particularly appropriate for students intending to perform or conduct music professionally, to teach applied performance in college/university settings or private studio, or to pursue doctoral studies in performance. The program culminates in a formal graduate recital.

All students must complete a nine unit core requirement and complete an emphasis as designated below. Participation in a large conducted classical ensemble in the area of study is required of all graduate students (orchestral instruments and voice) enrolled in applied lessons. Enrollment is required during the semester of graduation.

**Admission to Program**
Students should apply by April 1 for the following fall or October 1 for the following spring. Applicants are required to file two applications, one with the University and one with the School of Music. Admission to conditionally classified status requires acceptance by both the University and the School of Music. A departmental application form may be obtained by writing to the School of Music or by calling 415-338-1431. University applications may be requested from the graduate admissions office or online at web.arts.sfsu.edu/~gradstdy/ (http://web.arts.sfsu.edu/~gradstdy).

Requirements for admission to conditionally classified status in music are as follows.

1. A baccalaureate degree with a major in music or equivalent musical experience.
2. A minimum 3.0 grade point average in the last 60 units of undergraduate study.
4. A 200–500 word narrative statement of purpose. This statement should include a description of the applicant’s previous accomplishments.
5. An official copy of the applicant’s undergraduate transcripts, and graduate transcripts if the student has been previously enrolled in a program of graduate study.
6. Two letters of recommendation from current or former teachers or professionals who are familiar with the applicant’s qualifications.
7. Completion of Graduate Classification Examinations in Music History, Theory, Aural Skills and, for music education candidates, the Music Education Master’s Advisory Exam. These examinations must be taken prior to entry into the program. Students who demonstrate
deficiencies in one or more areas may be accepted into the program contingent upon remediation of all deficiencies within one academic year of entry into the program. Undergraduate course work taken to remove deficiencies may not be used as part of the 30 units required for the master’s degree in music.

8. Additional requirements:
   a. For applicants to the Master of Music program: a live audition before members of the Music faculty or, for applicants unable to travel to San Francisco, a CD, videotape or DVD 30–45 minutes in duration demonstrating the student’s current level of accomplishment. A repertoire list is also required, including an indication of those works on the list which have been performed in recital. (Please contact the School of Music to schedule an audition.)

Written English Proficiency Requirement
Level One
Applicants to the M.M. program are required to submit writing samples, demonstrating graduate level, discipline-specific proficiency in music research. Samples may include writing assignments submitted to satisfy requirements in undergraduate history courses. Applicants with substandard writing may be considered not admissible. Students who have recently earned an undergraduate degree from SF State may be exempted from this requirement.

Level Two
Level Two is satisfied with satisfactory completion of the Music History seminar from the 750 series.

Advancement to Candidacy
Advancement to candidacy occurs when an Advancement to Candidacy (ATC) form has been completed by the student and approved by the major advisor, college graduate coordinator, and the dean of the Graduate Division. Prior to completion of the ATC form, the student must have been granted fully classified status (see #7 above); have satisfactorily completed both Written English Proficiency Requirements; have completed at least 12 semester units applicable to the degree with a B average or above; and have successfully completed review of the student’s program with the faculty advisor.

Master’s Examination
All candidates for Master of Arts in Music degree must pass a comprehensive examination that demonstrates their ability to communicate, both orally and in writing, their command of music theory, history, research and analytical skills, and musical repertoire. (This examination must be taken during the semester in which the student completes all course work.)

Master of Music – 30 Units
Core Requirements (9 Units)
MUS 700 Introduction to Graduate Study 3
MUS 710 Advanced Analysis 3
Select one graduate seminar in Music History (selected from MUS 750–755) 3

Solo Classical Performance Emphasis (21 Units)
MUS 776 Directed Projects in Performance (Piano, Voice, or Instrumental Major – Maximum of 6 units allowed) 4

Chamber Music Emphasis (21 Units)
MUS 701 Graduate Seminar in Music 3
MUS 776 Directed Projects in Performance (Piano, Voice, or Instrumental Major – Maximum of 6 units allowed) 4
MUS 780 Graduate Major Repertoire (Maximum of 6 units allowed) 4

Music electives on advisement 7
Must include 1 unit each of MUS 778, Chamber Music Performance; advanced score reading and transposition (MUS 852); and keyboard instruction. Performance ability in another instrument or voice is strongly encouraged.

Conducting Emphasis (21 Units)
MUS 701 Graduate Seminar in Music 3
MUS 781 Choral Conducting 8
or MUS 782 Instrumental Conducting 3
MUS 894 Creative Work Project 3
Concurrent enrollment in major ensembles is required each semester. Students will normally elect four semesters of their particular emphasis (instrumental or choral).

Music electives on advisement. (Must include graduate/undergraduate major instruction as appropriate) 7
PACIFIC ASIAN STUDIES

College of Liberal & Creative Arts
Dean: Andrew Harris

Pacific Asian Studies Program
Humanities Building, Room 475
Phone: (415) 338–7536
Coordinator: Wen-Chao C Li

Program Scope
Pacific Asia refers to the regions of Asia bordering the Pacific Ocean, including East and Southeast Asia. Historically, East Asia has been under strong influences of Confucianism and Mahayana Buddhism, and Southeast Asia has been under strong influences of Islam and Theravada Buddhism. Diversity seems to be more characteristic than commonality in describing the cultures and societies of East and Southeast Asia. But East and Southeast Asia can be regarded as a meaningful unit of global studies when we consider the two regions’ commercial, cultural, and diplomatic interactions, as well as their common experiences with Western and Japanese imperialism. In the twenty-first century, an economic community that connects East and Southeast Asia has been taking shape with marked Chinese initiatives, making these two regions more closely integrated than ever. The Pacific Asian Studies Minor is designed to give students an introduction into the exuberantly rich and diverse cultures of East and Southeast Asia, their inter-regional relations, and their relations with the rest of the world. In what some are now calling the Asian century, the rising tide of immigration of people from Pacific Asia into the United States, the rapidly increasing trade and financial transfers with nations of the Pacific Rim, and the growing attention to Asian arts, literature, philosophy, medicine, environment, and human rights signal the need to study Pacific Asia in earnest. At a time when this part of the world has become increasingly important to Americans, the minor serves the need to gain a better understanding of the complex Asian scene by offering an inviting opportunity for students to develop career and life enhancing academic experiences at the university.

The Pacific Asian Studies Minor is an interdisciplinary program designed for students seeking a more intensive and extensive knowledge and understanding of East and Southeast Asia than their major discipline would offer. The Pacific Asian Studies Minor will be useful to students interested in pursuing further study at the graduate level as well as those planning careers in education, foreign services, international organizations, overseas corporations, and banking. Participants in the Study Abroad program at SF State are welcomed to join Pacific Asian Studies and bring their Asian experiences to SF State classrooms.

Pacific Asian Studies Minor
The curriculum of Pacific Asian Studies Minor emphasizes versatility in terms of both the regions and the subject and the major discipline. China is the oldest continuous civilization in the world. Japan, Korea, and Southeast Asia also have their distinctive civilizations. The curriculum is designed to give students exposure to all three distinctive civilization systems. The curriculum consists of a core of 12–15 units, plus nine units of electives, totaling 21–24 units. Not more than nine units may be transferred from other campuses; no more than six units may be taken on a CR/NC basis.

Students considering the minor are advised to consult with Pacific Asian Studies faculty to create an individualized plan to take into account specific interests as well as to develop a strategy for taking courses to ensure timely completion of the minor. Students planning to take courses other than those listed in the curriculum are required to get prior approval of the program director.

Professors
Banerjee, Burke, Goto, S. Guo, Hanami, Hsu, G. Lee, McKeon, Minami, Modirzadeh, Scott, Simeon, Soh, Wong

**Foreign Language Requirement**  
Students with no prior knowledge of a language other than English are required to take one semester of a language course, on advisement, that is relevant to their course of study and post-graduate goals. Students who wish to be exempted from this requirement must submit a written request to the director of Pacific Asian Studies.
PHILOSOPHY

College of Liberal & Creative Arts
Dean: Andrew Harris

Department of Philosophy
Humanities Building, Room 388
Phone: (415) 338–1586
Chair: Anita Silvers

Program Scope
The Department of Philosophy offers students a broad education in the history of thought, development of powerful reasoning skills, and opportunities to apply their insights and skills to areas of personal and professional interest.

An education in philosophy is beneficial in almost all parts of life. Generally speaking, philosophical education is eminently valuable for careers that call for analysis and evaluation of problems, smart solutions, critical and creative thinking and writing, and powerful advocacy of one’s beliefs and values. Our degree programs develop students’ potential for independent thought and intellectual creativity. Philosophy students score extremely well on the admission tests required by various post-baccalaureate professional schools. A double major in philosophy complements and enhances other degrees, whether in the sciences, social sciences, arts, humanities, or professional studies.

Students can choose a degree program that includes both general theories in the different philosophical fields and philosophy as applied in different areas of understanding (the B.A. in Philosophy), or a degree that intersects philosophy and religion with a focus on the diverse forms experiences of spirituality can take (the B.A. in Philosophy and Religion), or a program that emphasizes foundations of law, public policy and rights (the B.A. in Philosophy with an Emphasis in Philosophy and Law). The department’s programs also recognize students’ diversity of interests by allowing a great deal of flexibility in choosing program content.

Students may double-major, combining the skills, perspectives, and knowledge acquired in the philosophy major with a pre-professional, social science, liberal arts, healthcare, human services, liberal studies, education, business, biological, pre-medicine, physical or computer science degree. A double major in philosophy complements and enhances other degrees, whether in the sciences, social sciences, arts, humanities, or professional studies.

Graduate Program
The Master of Arts in Philosophy is designed for students wishing to extend their knowledge of, and competence in, philosophy; for students seeking a teaching career where the master’s degree is required; and for students who are planning to do further study elsewhere. The program is wide ranging and flexible, enabling students to concentrate on a number of different areas within philosophy.

Career Outlook
A principal reason for the study of philosophy and/or religion is the enrichment of one’s own life and understanding. Fortunately, the study of philosophy also is an excellent preparation for a variety of post-baccalaureate professional studies and careers in law, medicine, public policy and strategic planning, the helping professions, computer-assisted enterprises, and innovative business and non-profit organizations.

The broader outlook and the ability to think critically about larger issues that are fostered by the systematic study of philosophy and religion are often highly valued by commercial firms in their management level personnel. Some students continue on to graduate work in philosophy or religious studies. SF State graduates now are teaching in colleges across the country. And opportunities to teach philosophy in K – 12 have increased as educators realize the importance of enhancing children’s critical thinking skills. The philosophy and religion program is a strong foundation for the helping professions, the ministry, and advanced studies in theology. The skills that are achieved by minoring in philosophy or philosophy and religion are an excellent complement to most university major programs.

- Bachelor of Arts in Philosophy and Religion (p. 980)

Minors
- Minor in Philosophy (p. 999)
- Minor in Philosophy and Religion (p. 999)

Masters
- Master of Arts in Philosophy (p. 999)

Bachelor of Arts in Philosophy
Philosophy is traditionally identified with the love of wisdom and the ability to think well about the foundations of human action, the nature of reality, and the purposes and priorities of life. Our department offers the opportunity for a systematic study of the philosophies of past and present and also of East and West, a study that deepens and broadens one’s outlook on the world and human affairs.

The enterprise of philosophy requires sharpening the skills necessary for clarifying premises, uncovering presuppositions (one’s own and those of others), weighing the pros and cons of conflicting values, and analyzing concepts and issues. Courses in philosophy serve to develop and enhance these skills. Some courses concentrate on specific philosophical issues. Others provide an overview of an entire area of human inquiry or endeavor (such as the sciences, the arts, political theory and law, medicine, social justice, and how our minds, senses, and
emotions work) or of the philosophical foundations that characterize a historical period.

The department welcomes students from other majors or programs who wish to examine their personal philosophy, investigate the philosophies of others, or sharpen their skills as independent thinkers.

Many of the courses offered are not only appropriate as part of a philosophy major but are of special interest to students in other fields. These courses are designed to help students understand the theoretical frameworks, methodological presuppositions, and more abstract dimensions of the paramount areas of knowledge. Students interested in either the philosophical understanding of a field of knowledge or in philosophy for self-understanding should feel free to consult the department chairperson or an advisor on appropriate courses.

Undergraduate advisors are authorized by the department to designate units obtained in other departments as satisfying unit requirements in philosophy for application to the philosophy program. Neither students nor advisors should view this as an escape clause which enables a student who has not quite satisfied the major requirements in philosophy to do so. Units outside the department are to be designated for use in the major on the basis of their contribution to the student’s major program. To avoid confusion on this point, students should obtain written approval from an advisor before obtaining non-department units to be utilized in the major.

Students who have not taken PHIL 110 may begin the program but should complete this course or its equivalent at the earliest opportunity. Equivalencies must be approved by a departmental advisor.

The Bachelor of Arts in Philosophy requires a minimum of 40 units, with at least 31 of these units being upper division. The program culminates in a one-unit personalized learning outcomes course in which students reflect philosophically on their development of skills and knowledge. This learning outcomes course, PHIL 696, can be taken in either the first or second semester of the student’s senior year.

The program includes nine units of elective courses in philosophy, permitting individualized emphases in specific areas. Students majoring in philosophy are urged to lay out a tentative program of courses with their advisors early in their tenure at the university. Depending upon the student’s area of specialization, up to six units of courses outside the philosophy department may be approved by a department advisor as elective units for the B.A.

**Philosophy (B.A.) – 40 units**
