ABOUT THE BULLETIN

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules, and policies adopted by the Board of Trustees of the California State University, by the chancellor or designee of the California State University, or by the president or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies, and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, college, or administrative Office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University, or the President of the campus. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies which apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or the California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President, and their duly authorized designees.

This Bulletin is effective August 23, 2017 though August 21, 2018.
HOW TO USE THIS BULLETIN

I hope you find this Bulletin a valuable source of vital information about San Francisco State University. It is designed to provide you with the most up-to-date information about university programs, policies, and procedures. It is divided into the following eleven sections:

Admissions (bulletin.sfsu.edu/undergraduate-admissions) contains vital information about general admission requirements and procedures as well as specific information and guidelines for undergraduate, graduate, and international students.

Student Fees and Financial Aid (bulletin.sfsu.edu/fees-financial-aid/fees-expenses) outlines the cost and types of financial assistance available to different classifications of students. Included in this section are application procedures, eligibility criteria, refund policies, information about grants, loans, and scholarships.

University Policies and Procedures (bulletin.sfsu.edu/policies-procedures) contains information about university policies, registration, grading policy and systems, scholastic distinction, and academic standards.

Undergraduate Education (bulletin.sfsu.edu/undergraduate-education) provides an overview of graduation requirements including a baccalaureate degree checklist, General Education requirements, and other entry and exit level requirements.

Graduate Education (bulletin.sfsu.edu/graduate-education/admissions) contains information about important graduate policies and procedures, English proficiency requirements, Advancement to Candidacy requirements, culminating experience procedures, and graduation procedures.

University Resources and Support Services (bulletin.sfsu.edu/resources) describes specific learning resources, services, and facilities that provide meaningful educational and extra-curricular experiences for students while attending the university. Included in this section are Advising Services, Athletics, Career Services, Health and Psychological Services, Disability Resources, Housing and Food Services, Alternative Learning Opportunities, International Student Services, Learning Assistance, Educational Outreach Programs, Information Services, Arts Experience, Research and Special Learning Facilities, and Retention Services.

Academic Programs (bulletin.sfsu.edu/programs) provides an overview of the university's curriculum in alphabetical order. Use this section to locate a specific academic major, minor, certificate, option, or concentration that interests you. Details about program faculty, course requirements, and program policies can be found in this section. College deans, department chairs, advisors, or faculty members listed in the various program descriptions will be pleased to answer any additional questions you may have about their programs.

Credential Programs (bulletin.sfsu.edu/about-sfsu/degrees-offered/credentials) included within the Graduate College of Education programs section, describes in detail the requirements and policies for completing the various credential programs offered by the university including the teaching credentials, the different school services credentials, and the specialist instruction credentials.

The Certificate Programs (bulletin.sfsu.edu/about-sfsu/degrees-offered/certificates) section outlines the types of certificate programs offered and the procedures for admission and completion of program requirements.

Course Descriptions (bulletin.sfsu.edu/courses) contains information about each permanent course offered by the University. The information includes: number, title, units, prerequisites if any, method of instruction (lecture, activity, laboratory), and whether the course is repeatable. A course may not be repeated for credit unless it is specified in the course description. When a specific option of grading is mandated, the grading method will be identified.

Directory of Instructional Faculty, Academic Administrators, Librarians, and Student Services Professionals (bulletin.sfsu.edu/faculty/faculty).

The University Bulletin is intended to be as helpful as possible to those who use it. If you found any aspect of this publication difficult or confusing, I would appreciate your comments and welcome your suggestions. Please send written comments to the Provost and Vice President for Academic Affairs, ADM 455, or via email at academic@sfsu.edu.

Dr. Jennifer Summit
Interim Provost and Vice President for Academic Affairs
San Francisco State University

ABOUT THE UNIVERSITY

San Francisco State University, located in one of the world’s most vibrant and beautiful cities, is a recognized leader in addressing issues both global and close to home.

In the global arena, SF State ranks fourth in the nation among master’s institutions that host international students and ranks first among U.S. universities for the number of students who study abroad for an academic year. With a diverse range of students from almost every state and nearly 100 countries, the University community is a perfect setting for learning to succeed in a pluralistic society and global economy. In fact, our campus was ranked third among all U.S. universities for diversity by the Wall Street Journal.

SF State’s pioneering commitment to community and civic engagement is prevalent throughout the curriculum. More than 500 courses combine academic study with community involvement, and our location in a center of business, technology, and culture provides a laboratory for community-service projects, work-study opportunities, and internships. The University has been named by Princeton Review a “College with a Conscience,” classified as one of the Carnegie Foundation’s “Community Engagement” institutions; and consistently receives the Presidential Award in the President’s Higher Education Community Service Honor Roll, the highest federal recognition a college or university can receive for its commitment to community service.

Academic Life

Ever since it was established in 1899 as a teacher-training school, SF State has been known for its commitment to excellent teaching. Students work closely with senior professors and other instructors from freshman year through graduation. Trained in some of the finest institutions in the world, faculty members include winners of prestigious teaching awards, cutting-edge researchers, and professionals devoted to solving community problems.

SF State awards bachelor’s degrees in 77 academic areas with an additional 48 areas of concentration, master’s degrees in 63 academic areas with an additional 41 areas of concentration, and a doctorate in educational leadership. Programs offered jointly with University of California campuses include a Ph.D. in education with a concentration in special education with UC Berkeley, and a clinical doctorate, Doctor of Physical Therapy (D.P.T.) with UC San Francisco. In addition, SF State offers 16 credential programs and 41 certificate programs.

SF State’s motto is Experientia Docet – Experience Teaches. Graduates consistently say that hands-on learning was what helped them most when beginning their careers. Students apply their talents and classroom learning to real-world challenges through community-service learning, credit-earning internships, and participation with community-focused centers and institutes that address issues relating to health, education, the environment, business, child care and underserved communities.

Many innovative services contribute to a successful college experience. The Learning Assistance Center and the Community Access and Retention Program provide tutoring in study skills and core subjects. The Disability Programs and Resource Center secures access to all campus programs and activities for students, staff, and faculty with disabilities.

The value of an SF State education is seen in our graduates. Our cinema program has produced Academy Award winners, books by creative writing graduates have climbed best-seller lists, and pre-med graduates enjoy an excellent medical school acceptance rate.

Student Life

Student life is continually growing at SF State with various ways for students to get involved on campus. Nearly 220 student organizations, including fraternities and sororities, help students explore their interests and network with student peers, faculty, staff and alumni. The Associated Students, SF State’s student government, offers leadership opportunities, programs and services to enhance the student experience. Students can get involved in Campus Recreation by forming an intramural team, joining a sports club or participating in open rec.

Intercollegiate sports for women are basketball, cross country, indoor and outdoor track and field, soccer, softball, and volleyball. For men, SF State offers baseball, basketball, cross country, soccer, and wrestling. The University is a member of the California Collegiate Athletic Association, a NCAA Division II conference, for all sports except wrestling which is in the Rocky Mountain Athletic Conference.

Campus Recreation offers a variety of programs for students, faculty, and staff, including Aquatics, Fitness Classes, Informal Recreation, Intramural Sports and Sports Clubs. Intramural leagues include men’s, women’s and coed divisions offered in the fall and spring semesters. Intramural Sports include basketball, volleyball, indoor soccer, indoor soccer and flag football.

SF State is an arts and culture center, with hundreds of workshops, guest lectures and exhibits held throughout the year. Events and exhibits feature the work of students and faculty members as well as professionals from outside the University community.

Campus residence halls and apartments offer proximity to around-the-clock computer labs and study rooms, study and support groups, cultural activities and social events. Two residence halls, Mary Ward and Mary Park, and the Towers at Centennial Square Apartments, and Jr. Suites provide housing for first-year freshmen in the heart of campus.

Apartment-style living is available for second-year, transfer and graduate students at The Village at Centennial Square and University Park townhomes and apartments.

There are a variety of Living Learning Communities within the housing community for students who share a common academic focus such as science and technology, health and business. Programs, events, and support are provided.

Mission of the University

The mission of San Francisco State University is to create and maintain an environment for learning that promotes respect for and appreciation of scholarship, freedom, human diversity, and the cultural mosaic of the City of San Francisco and the Bay Area; to promote excellence in instruction and intellectual accomplishment; and to provide broadly accessible higher education for residents of the region and state, as well as the nation and world. To fulfill its mission, the University is committed to the following goals:

• Attracting, retaining and graduating a highly diverse student body;

• Providing disciplinary and interdisciplinary liberal arts and professional education that is academically rigorous and intellectually challenging;
• Providing curricula that reflect all dimensions of human diversity, and that encourage critical thinking and social and cultural awareness;
• Recruiting, retaining and supporting a diverse faculty whose teaching demonstrates an active engagement with their individual fields of study and whose creative and scholarly work is an extension of the classroom, laboratory or studio;
• Employing a staff and administration reflecting the diversity of the community and the values of the campus;
• Fostering a collegial and cooperative intellectual environment that includes recognition and appreciation of differing viewpoints and promotes academic freedom within the University community; and
• Serving the communities with which its students and faculty are engaged.

Accreditation
The University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges (WASC). WASC is located at

985 Atlantic Avenue
Suite 100
Alameda, CA 94501

and the telephone number is (510) 748–9001. Various specialized programs at the University are accredited by the following agencies.

### Administrative Officers

**Associate Vice President, Academic Affairs Operations**  
Brian Beatty

**Director, Academic Technology**  
Maggie Beers

**Interim Associate Vice President, Academic Resources**  
Alan Jung

**Dean, College of Extended Learning**  
Guido Krickx

**Associate Vice President, Research and Sponsored Programs**  
Michael Scott

**Dean, Faculty Affairs and Professional Development**  
Sacha Bunge

**Interim Dean, Division of Graduate Studies**  
Mi-Sook Kim

**Interim Dean, Division of Undergraduate Education and Academic Planning**  
Lori Beth Way

**Associate Dean, Undergraduate Education**  
Kimberley Altura

**Interim Associate Dean, Academic Planning**  
Jane G. Dewitt

### Academic Deans

**Dean, College of Business**  
Linda Oubré

**Interim Dean, Graduate College of Education**  
Nancy Robinson

**Dean, College of Ethnic Studies**  
Kenneth Monteiro

**Dean, College of Health and Social Sciences**  
Alvin Alvarez

**Dean, College of Liberal & Creative Arts**  
Andrew Harris

**Dean, College of Science and Engineering**  
Keith Bowman

**University Librarian**  
Deborah Masters

### Student Affairs & Enrollment Management

**Vice President, Student Affairs & Enrollment Management, Title IX Coordinator & DHR Administrator**  
Luoluo Hong

**Chief of Staff to the Vice President & Title IX Coordinator**  
Anthony (Tony) Little

**Dean of Equity Initiatives**  
TBA

**Director, Human Relations**  
TBA

**Manager, Equity Programs & Compliance**  
Katon Dalton

**Interim Senior Associate Vice President & Dean of Students**  
Mary Ann Begley

**Assistant Dean of Students & Director, New Student Programs**  
Brian Stuart

**Assistant Dean of Students & Director, Student Conduct**  
Shiminia Harris

**Interim Assistant Dean of Students for AAPI Student Services**  
Arlene Daus-Magbual

**Director, Residential Life**  
David Rourke

**Director, Campus Recreation**  
Pamela Su

**Director, Career Services & Leadership Development**  
Orlando Harris

**Director, Student Activities & Events**  
Vacant

**Associate Vice President for Student Affairs**  
Eugene R. Chelberg

**Director, Counseling and Psychological Services Center**  
Derethia DuVal

**Acting Director, Disability Programs and Resource Center**  
Joan Bisagno

**Interim Medical Director, Student Health Service**  
Teresa Rebeiro

**Interim Director, Health Promotion & Wellness**  
Richard (Rick) Nizzardini

**Director, Children's Campus**  
Anna Tobin-Wallis

**Program Manager, Student Support Services**  
TBA

**Associate Vice President for International Education**  
Yenbo Wu

**Director, Office of International Programs**  
Hildy Heath

**Director, Confucius Institute**  
Jiaxin "Jack" Xie

**Interim Assistant Vice President for Enrollment Management**  
Re'e'shemah Thornton

**Director, Educational Opportunity Program**  
Oscar Gardea

**Director, Enrollment Management Technology**  
Philip Stilson

**Director, Student Financial Aid**  
Barbara Hubler

**Interim Director, Student Outreach Services**  
Maritza Pulido

**Director, Undergraduate Admissions**  
Edward Carrigan

**University Registrar**  
Renee Monte

**Assistant Vice President for Campus Safety & Chief of Police**  
Jason Wu

**Deputy Chief of Police**  
Reginald Parson

**Lieutenant**  
Wailun Shiu

**Lieutenant**  
Troy Liddi

**Associate Director, Operations, Parking & Transportation**  
Arlene "Joy" Manaois

### University Advancement

**Vice President, University Advancement**  
Robert J. Nava

**Executive Assistant to Vice President**  
Shannon Hart

**Chief of Operations**  
Venesia Thompson

**Associate Vice President, Marketing & Strategic Communications**  
Elizabeth Smith

**Associate Vice President, University Development**  
Mark Kelleher

**Executive Director, Government and Community Relations**  
Dominique Cano-Stocco

**Director, Athletics**  
Charles Guthrie

Degrees Offered

Baccalaureate Degrees

Note: The numbers following the degrees are used by the university to identify the program indicated. These numbers must be used on the application for admission, registration forms, application for graduation, etc.

Bachelor of Arts

- Africana Studies (p. 345) 22111
- American Indian Studies (p. 355) 22121
- American Studies (p. 606) 03131
- Anthropology (p. 614) 22021
- Art (p. 624) 10021
  - Concentrations in:
    - Art Education
    - Art History
    - Studio Art
    - Art History and Studio Art
- Asian American Studies (p. 365) 22996
- Biology (p. 1033) 04011
- Broadcast and Electronic Communication Arts (p. 662) 06051
- Chemistry (p. 1106) 19051
- Child and Adolescent Development (p. 406) 08231
  - Concentrations in:
    - Early Childhood
    - School Age Child and Family
    - Youth Work and Out of School Time
    - Policy, Advocacy, and Systems
- Chinese (p. 892) 11071
  - Concentrations in:
    - Chinese Language
    - Chinese Literature and Linguistics
    - Flagship Chinese Language
- Cinema (p. 675) 10101
- Classics (p. 701) 15041
- Communication Studies (p. 707) 06011
- Comparative and World Literature (p. 719) 15031
- Criminal Justice Studies (p. 474) 21051
- Dance (p. 749) 10081
- Drama (p. 1012) 10071
- Earth Sciences (p. 1141) 19171
- Economics (p. 228) 22041
- English (p. 769) 15011
  - Concentrations in:
    - Creative Writing (p. 731) 15071
    - English Education (p. 769) 15011
    - Individual Major (p. 769) 15011
    - Linguistics (p. 769) 15051
- Literature (p. 769) 15021
- Environmental Studies (p. 492) 49101
- Family and Consumer Sciences (p. 438) 13011
- French (p. 910) 11021
- Geography (p. 1198) 22061
- German (p. 917) 11031
- History (p. 818) 22051
  - Concentration in Honors Program (p. 818) 22051
- Humanities (p. 834) 15991
- International Relations (p. 845) 22101
- Italian (p. 923) 11041
- Japanese (p. 929) 11081
- Journalism (p. 862) 06021
  - Concentrations in:
    - Photojournalism
    - Print and Online Journalism
- Labor and Employment Studies (p. 267) 22993
- Latina/Latino Studies (p. 379) 22131
- Liberal Studies (p. 876) 49012
- Mathematics 17011 (p. 1219)
  - Concentrations in:
    - Mathematics for Advanced Studies (p. 1219)
    - Mathematics for Liberal Arts (p. 1219)
    - Mathematics for Teaching (p. 1219)
- Modern Jewish Studies (p. 1219) 15102
- Music (p. 949) 10051
- Philosophy (p. 971) 15091
- Philosophy and Religion (p. 971) 15992
- Physics (p. 1256) 19021
  - Concentration in Astronomy 19111 (p. 1256)
- Political Science (p. 1001) 22071
- Psychology (p. 1295) 20011
- Social Work (p. 580) 21041
- Sociology (p. 590) 22081
- Spanish (p. 938) 11051
- Special Major (p. 1312) 49993
- Technical and Professional Writing (p. 769) 15997
- Urban Studies and Planning (p. 599) 22141
- Women and Gender Studies (p. 1023) 22990

Bachelor of Music (p. 949) 10041

Bachelor of Science

- Apparel Design and Merchandising (p. 438) 13031
- Applied Mathematics (p. 1219) 17031
- Biochemistry (p. 1106) 04141
- Biology 04011
  - Concentrations in:
    - Botany (p. 1033) 04021
    - Cell and Molecular Biology (p. 1033) 04171
• Ecology (p. 1033) 04011
  • Marine Biology and Limnology (p. 1033) 04181
  • Microbiology (p. 1033) 04111
  • Physiology (p. 1033) 04101
  • Zoology (p. 1033) 04071

• Business Administration 05011 (p. 199)
  • Concentrations in:
    • Accounting (p. 200) 05021
    • Decision Sciences (p. 222) 05071
    • Entrepreneurial/Small Business Management (p. 199) 05996 (temporarily suspended)
    • Finance (p. 237) 05041
    • General Business 05011
    • Information Systems (p. 254) 07021
    • International Business (p. 260) 05131
    • Management (p. 273) 05061
    • Marketing (p. 279) 05091

• Chemistry (p. 1106) 19051
  • Communicative Disorders (p. 701) 12201
  • Computer Science (p. 1129) 07011
  • Dietetics (p. 438) 13061
  • Earth Sciences (p. 1141) 19171
  • Engineering, Civil (p. 1166) 09081
  • Engineering, Computer (p. 1166) 09094
  • Engineering, Electrical (p. 1166) 09091
  • Engineering, Mechanical (p. 1166) 09101
  • Environmental Science (p. 1198) 49011
  • Environmental Studies (p. 492) 49101
    • Concentration in:
      • Natural Resource Management and Conservation

• Health Education (p. 509) 12011
• Hospitality and Tourism Management (p. 248) 05081
• Industrial Design (p. 757) 08391
  • Concentration in:
    • Product Design and Development (p. 757)

• Interior Design (p. 438) 02031
• Kinesiology (p. 525) 08351
  • Concentrations in:
    • Exercise and Movement Sciences (p. 525)
    • Physical Education (p. 525)

• Nursing (p. 544) 12031
• Physics 19021
  • Concentrations in:
    • Astrophysics (p. 1256) 19111
    • Physics for Teaching (p. 1256) 19021

• Recreation, Parks, and Tourism Administration (p. 567) 21031
• Statistics (p. 1219) 17021
• Visual Communication Design (p. 757) 06012

Certificate Information

General Information
A student wishing to earn an undergraduate or graduate certificate at San Francisco State University is expected to follow the basic university requirements and procedures outlined herein. In addition, the prescribed program requirements of the desired certificate must be completed. More detailed information regarding a specific certificate may be obtained by contacting the academic unit offering the program.

Purpose of Certificate Programs
A certificate program is a coherent set of academic courses that does not lead to a degree, but is focused on a substantial area of study that may be practically oriented toward skills and/or occupations. Such a program is designed to meet special needs, especially those with a limited time to learn specific subjects, concepts, skills, and competencies. The award of a certificate means the holder has completed the required courses and related work at an acceptable level of academic accomplishment. The certificate indicates to a prospective employer that the university validates the particular program of study. It neither credentials nor licenses the student, nor does it guarantee the ability of the student to put into practice what has been studied.

Acceptance to Certificate Programs
Guidelines for Acceptance to Undergraduate Certificate Programs
To be accepted to an undergraduate certificate program, a student must have completed 56 semester units of undergraduate course work with a 2.0 (C) grade point average. Exceptions may be permitted upon presentation of special justification to the Dean of Undergraduate Studies or appropriate program administrator for Extended Learning programs.

Students interested in pursuing an undergraduate certificate program should contact the offering department regarding specific program requirements and procedures. For certificate programs offered through Extended Learning, students should contact the program area as shown in the program description.

Guidelines for Acceptance to Graduate Certificate Programs
Admission to Post-Baccalaureate Status
• A student who is already enrolled in the university as a post-baccalaureate student (i.e., pursuing a graduate degree, a credential program, or in unclassified status) may apply to a certificate program.
• A student who is interested in pursuing a certificate program may apply to the university as a post-baccalaureate classified student. Note: It is recommended that the student seek admission, if appropriate, to a degree program within the sponsoring department so that graduate units taken may be considered, where permitted, for later application towards a degree. Not more than twelve (12) units taken as an unclassified student may be applied toward the requirements for a graduate degree.

Acceptance to Certificate Program
A student enrolled, or eligible to enroll, in the university as a post-baccalaureate level student must contact the program offering the desired certificate to complete any prescribed requirements for acceptance to that program. Such requirements and procedures may include a supplementary application, a defined set of prerequisite courses, a designated GPA, written recommendations, etc., as may be appropriate for the program in question.

Basic University Certificate Program Requirements
The university requirements listed below are considered to be minimal and the academic department offering the program may impose additional or higher requirements for its specific certificate program(s). See the specific presentation in the Academic Programs section of this Bulletin or contact the department offering the certificate for further information.

Basic University Undergraduate Certificate Program Requirements
• Every student in an undergraduate certificate program must complete a minimum common core of course work (i.e., required of all students) consisting of at least 12 semester units. See specific program requirements.
• At least two-thirds of the units comprising an undergraduate certificate program must be at the upper division level. Graduate level courses may be used in special circumstances to satisfy program requirements at the discretion of the academic area offering the certificate.
• At least one-half of the required minimum number of units must be taken in residence. Credit by examination is permitted in accordance with established university regulations.
• At least two-thirds of the units applied toward meeting the requirements of an undergraduate certificate program must be graded on an A–F basis.
• The course work used to satisfy the requirements of an undergraduate certificate must be completed with a minimum cumulative grade point average of 2.0 (C), and only courses with a grade of CR, C–, or better, may be included to meet undergraduate certificate program requirements.
• Before completing an undergraduate certificate program, all students must demonstrate an appropriate level of writing competency as prescribed by the program area offering the certificate (see program requirements).
• Courses may be used to meet both a baccalaureate degree and an undergraduate certificate objective providing they are appropriate and acceptable toward the specific requirements of each program.
• There is normally no statutory period for units required for an undergraduate certificate at SF State. However, if any course required for the certificate was taken more than seven years prior to graduation, then departments and programs may require students to retake that course or demonstrate currency in that subject. Consult with the department for more information.

Basic University Graduate Certificate Program Requirements
• Every student in a graduate certificate program must complete a minimum common core of course work (i.e., required of all students) consisting of at least 9 semester units. See specific program requirements.
• At least one-half, but not less than six, of the units comprising a graduate certificate program must be in graduate level courses. Any undergraduate level course utilized in the program must be at the upper division level.
• At least two-thirds of the course units for the certificate must be taken in residence. Units earned through extension, including Open University enrollment, are not considered as work in residence.
• Curriculum requirements must be met explicitly without the use of waivers and substitutions.
• At least two-thirds of the required units for a certificate program must be graded on an A–F basis.
• At least two-thirds of the course units used to meet the requirements for the certificate must have been taken while in post-baccalaureate status. Course work taken prior to acceptance in the certificate program may not be used to meet program requirements, except in unusual circumstances. Approval must be granted in advance.
• The course work used to satisfy the requirements for a graduate certificate must be completed with a minimum cumulative grade point average of 3.0 (B), and only courses completed with a grade of C or better may be used to meet program requirements (i.e., C– grades and below are unacceptable).
• Before completing a graduate certificate program, all students must demonstrate an appropriate level of writing competency as prescribed by the program area offering the certificate (see program requirements).
• Courses may be used to meet both a master’s degree and a graduate certificate objective providing they are appropriate and acceptable toward the specific requirements of each program.
• All requirements for a graduate certificate program must be completed within a seven year time period defined as beginning with the date of registration for the first course used to meet the requirements for the certificate, and ending with the date the last requirement is completed. It is expected that the student will have filed an application for the award of the certificate within this same time period.

Observance of Certificate Requirements
A student planning to earn an undergraduate or graduate certificate must meet the requirements, as reflected in the university Bulletin, that are in effect

1. as of the date the student is officially accepted to a certificate program by the offering department (or in special circumstances the date of the first course used to meet the requirements for the certificate, providing continuous enrollment in the university has been maintained) or
2. as of the date the application for the award of the certificate is filed in the Graduate Division (for both undergraduate and graduate certificates).

Advising and Registration
Advising assistance will be provided by the program faculty responsible for offering the program.

Registration for required courses will be accomplished by means of the normal registration process of the university or through Extended Learning registration procedures for Extended Learning certificate programs.

Applying for Award of the Certificate
When all the requirements for either an undergraduate or graduate certificate program have been completed, the following steps must be taken to apply for the certificate, to have the completion of the requirements checked, and to have the certificate awarded to the student.

Note that the Graduate Division is responsible for the final processing requirements for both undergraduate and graduate certificates. Graduation for Extended Learning certificates is processed through the Extended Learning Office.

The student prepares a Certificate Approved Program (CAP) form (available in the department, Undergraduate Studies, Graduate Studies, or sfusu.edu/~gradstdy/cap.htm and forwards it, along with transcript(s) showing the completion of all course requirements, to the department chair of the area offering the certificate program.

The chair is responsible for determining that all the requirements for the certificate have been satisfactorily completed. This is accomplished by signing the CAP form.

After paying the application fee ($7.00) for the award of the certificate at the Cashier’s Office and having the CAP form stamped “Paid,” the student is responsible for filing

1. the signed CAP form,
2. the supporting transcript(s), and
3. the evidence of the fee paid, in the Graduate Division (for both undergraduate and graduate certificates).

The Graduate Division is responsible for reviewing the materials received and authorizing the issuance of the undergraduate or graduate certificate on behalf of the department/program area and in the name of the university. This is accomplished by the Dean of Undergraduate Studies or the Graduate Division, as appropriate, signing the certificate and returning it along with two signed copies of the CAP form to the department/program area. Upon receipt, the department/program chair signs the official certificate and arranges to issue it, along with a copy of the CAP form, to the student. A second copy of the signed CAP form is to be retained by the department/program area for its records.

California State University

Welcome to the California State University (CSU) – the nation’s largest comprehensive higher education system with 23 unique campuses serving more than 474,000 students with 49,000 employees statewide. Each year, the university awards more than 100,000 degrees. CSU graduates now total more than 3 million strong and are serving as leaders in the industries that drive California’s economy, including business, agriculture, entertainment, engineering, teaching, hospitality, and healthcare. Learn more at wcalstate.edu (http://www.calstate.edu).

More Than 50-Year Tradition of Excellence

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to three million graduates around the state of California. While each campus is unique based on its curricular specialties, location, and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading-edge programs, superior teaching, and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

Facts

- CSU faculty attract nearly $570 million annually in research and education grants, and contracts by federal, state and regional agencies.
- Today, one of every 20 Americans with a college degree is a CSU graduate.
- One in every ten employees in California is a CSU alumnus.
- The CSU awards 45 percent of the bachelor’s degrees earned in California.
- More than half of all the nurses in the state earn their degrees from the CSU.
- The CSU awards 95 percent of the hospitality/tourism degrees in the state.
- Nearly half of all of the state’s engineers earn their degrees from the CSU.
- The CSU is the leading provider of teacher preparation programs in the state.
- The CSU offers more than 115 fully online and 96 hybrid degree programs and concentrations.
- The CSU offers 3,250 online courses to provide more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU’s growing online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the CSU system.
- Over the past four years, the CSU has issued nearly 50,000 professional development certificates in education, health services, business and technology, leisure and hospitality, manufacturing, international trade and many other industries.
- Nearly half of the CSU’s 474,000 students are engaged in some type of community service, totaling 32 million hours of service annually.
- More than 13,000 students participate in STEM (science, technology engineering, and mathematics) service-learning courses.
- For every $1 that the state invests in the CSU, the university generates $5.43 for California’s Economy.

Governance

The system is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU Chancellor is the chief executive officer, reporting to the Board. The campus presidents serve as the campus-level chief executive officers. The Trustees, Chancellor and Presidents develop systemwide educational policy. The Presidents, in consultation with the Academic Senate and other campus stakeholder groups, render and implement local policy decisions.

CSU Historical Milestones

The individual California State Colleges were established as a system with a Board of Trustees and a Chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University (CSU). Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus—San José State University—was founded in 1857 and became the first institution of public higher education in California. The newest—CSU Channel Islands—opened in fall 2002, with freshmen arriving in fall 2003.

In 1963, the State Academic Senate was established to act as the official voice of CSU faculty in systemwide matters. Also, the California State College Student Presidents Association—which was later renamed the California State Students Association—was founded to represent each campus student association on issues affecting students.

Through its many decades of existence, the CSU has continued to adapt to address societal changes, student needs, and workforce trends. While the CSU’s core mission has always focused on providing high-quality, affordable bachelor’s and master’s degree programs, over time the university has added a wide range of services and programs to support student success— from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full- or part-time, the educational paradigm expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The university also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

The CSU marked another significant educational milestone when it broadened its degree offerings to include doctoral degrees. The CSU independently offers educational doctorate (Ed.D.), Doctor of Physical Therapy (D.P.T.), and Doctor of Nursing Practice (D.N.P.) degree programs. A limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

In 2010, in an effort to accommodate community college transfer students, the university, in concert with the California Community
Colleges, launched the Associate Degree for Transfer, which guarantees transfer students admission to the CSU with junior status.

Always adapting to changes in technology and societal trends to support student learning and degree completion, the CSU initiated another milestone in 2013, when it launched Cal State Online, a systemwide collection of services that support the delivery of fully online programs from campuses. Now, full-time students also have access to fully online courses offered at other CSU campuses.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni that is so extensive and renowned that it spans across the globe. In 2014–15, the CSU celebrated The Class of Three Million, the year-round campaign celebrating the three million alumni from all of CSU’s campuses, including the Class of 2015.

The CSU strives to continually develop innovative programs, services, and opportunities that will give students the tools they need to meet their full potential. With 23 campuses, 474,000 students and 49,000 faculty and staff, the CSU is committed to providing a quality higher education that prepares students to become leaders in the changing workforce.

All degree programs in the College of Business are accredited by AACSB International (Association for the Advancement of Collegiate Schools of Business). The College of Business offers the following undergraduate degrees:

Bachelor of Arts

- Economics 22041
- Labor and Employment Studies 22993

Bachelor of Science

- Business Administration with the following concentrations:
  - Accounting 05021
  - Decision Sciences 05071
  - Entrepreneurial/Small Business Management 05996 (temporarily suspended)
  - Finance 05041 and Certificate in Commercial Real Estate
  - Information Systems 07021
  - International Business 05131
  - Management 05061
  - Marketing 05091
  - Hospitality and Tourism Management 05081

The College of Business offers the following minor programs:

- Accounting
- Business Administration
- Decision Sciences
- Economics
- Finance
- Hospitality and Tourism Management
- Information Systems
- International Business
- Labor and Employment Studies
- Management
- Marketing

The College of Business offers the following certificate programs:

- Business Certificate in Ethics & Compliance
- Certificate in Commercial Real Estate
- Certificate in Hospitality and Tourism Management
- Certificate in Information Technology Auditing
- Certificate in International Business
- Certificate in the Study of Public Accountancy

The College of Business offers the following graduate degrees:

Master of Arts

Economics 22041

Executive Master of Business Administration 05011
Master of Business Administration 05011
Master of Science in Accountancy 05021
The various graduate programs offered by the College of Business are accredited by the AACSB (Association for the Advancement of Collegiate Schools of Business).

**Department Structure**
The College of Business is made up of ten departments:

- Accounting
- Decision Sciences
- Economics
- Finance
- Hospitality and Tourism Management
- Information Systems
- International Business
- Labor and Employment Studies
- Management
- Marketing

**College Vision**
We aspire to be one of the best public urban business schools by applying sustainability and ethical perspectives to our understanding of business practice, global leadership, innovation, the economy, and society.

**College Mission**
We are San Francisco’s public business school. We embrace the area’s rich diversity and provide access to higher education. Our mission is to prepare students for professional success through high-quality teaching, innovative and relevant courses, discipline-based and pedagogical scholarship, and engagement with the academic and business communities.

The College of Business offers undergraduate, graduate, and executive business education, providing a broad and exciting array of courses of study and concentrations.

The student body is diverse, reflecting not only the San Francisco area, but also the large number of international students who choose San Francisco State University’s College of Business. In 2004, the College awarded more undergraduate business degrees to Asian Americans than any other institution in the United States. As feminist Gloria Steinem once said: “Go to San Francisco State. It’s the only campus that looks like the world.”

The College of Business at San Francisco State is among the less than 25% of business schools in the US and 15% of international schools that are fully accredited by AACSB International, The Association to Advance Collegiate Schools of Business.

The College of Business is constantly evolving. It continues to invest in the quality of faculty, students and the visibility of the College brand. Cultivating strong industry connections and advancing its fundraising efforts keep the College active and relevant in the business community and allow the College to provide exclusive opportunities for our students.

There are five strategic initiatives in the College of Business:

**Invest in Faculty and Academic Excellence**
At the College of Business, we pride ourselves on our world-renowned faculty and invest in their scholarly work. We uphold academic excellence and commend each of our faculty members for their contributions to the college and the impact they have on our students.

**Invest in Our Students Through Scholarships and Careers**
The College of Business guides students as they grow as leaders and contributors in the Bay Area and beyond. We acknowledge students’ academic and personal achievements and encourage continuous progress toward learning and career opportunities.

**Invest and Leverage Our Brand to Sustain Competitive Advantage**
The College of Business consistently invests in its brand to sustain a competitive advantage in the dynamic market. Brand visibility is key to growing new revenue from graduate enrollment, corporate partnerships, and executive education.

**Build Corporate Connections**
The College of Business reaches out to the corporate community to build a cohesive connection between industry and academia. The College of Business Enterprises (COBE) is the platform that allows our partners to connect with the college, faculty and our students.

**Friend-Raising and Fundraising**
The College of Business cultivates relationships with alumni and friends and values their enthusiasm to connect students to industry. These unique partnerships allow the college to make philanthropic investments that drive fundraising initiatives.

The College of Business’s overarching direction is guided by the five core values of San Francisco State University:

- courage,
- life of mind,
- equity,
- community and
- resilience.

At the operational level, the core values guiding the College of Business decision-making and behavior are:

**Facilitating Access**
Building on a tradition of offering broad access to diverse students—both traditional students and working adults—the College of Business will offer classes morning, afternoon and evening, on weekdays and weekends, on campus and off at affordable prices.

**Intellectual Capital**
The College of Business strives to reinforce basic skills and substantive business knowledge that can be adapted and applied throughout our students’ careers. We do so in a setting that promotes inquiry, respects differences, tolerates dissension and encourages lifelong learning.

**Engaged Learning Partnership**
As a learning community involving faculty, staff, students, administrators, and business professionals, the College of Business will work as a team in pursuit of learning, shared discovery, and intellectual inquiry, establishing active external partnerships with local and global communities.

**Knowledge Creation & Dissemination**
The College of Business faculty is committed to the study, understanding, advancement, and diffusion of knowledge through research that improves global business practice. While the California State University focuses on
applied research, the College of Business encourages all forms of quality research.

**Ethical and Professional Management**
The College of Business strives to manage our enterprise in an exemplary manner, respecting the principles of shared governance, effective leadership, and faculty/staff service.

**San Francisco Mindset**
The College of Business celebrates the fact that our school reflects our community and the greater San Francisco community is among the most cosmopolitan, diverse, and tolerant in the world. Such a munificent environment offers opportunities for the College of Business to focus on emerging technologies, global markets, and service industries.

**Culture of Collaboration**
In accordance with San Francisco State University values, the College of Business embraces innovation as it relates to delivering learning opportunities, providing core service and support, and engaging the community through collaborative interactions.

**Commitment to Excellence**
As part of the continuous improvement process, we build in processes to obtain feedback from all constituencies including faculty, staff, students, alumni, employers, other universities, and business professionals.

    - Mathematics Education 08997
    - Secondary Education 08031
    - Special Interest Area (Interdepartmental) 08993
    - Special Education 08081

**Doctor of Education in Educational Leadership 08272**

**Doctor of Philosophy in Education: Concentration in Special Education 08081**

**Graduate Certificate Programs**

- Augmentative and Alternative Communication (Department of Special Education & Communicative Disorders)
- Autism Spectrum Disorders (Department of Special Education & Communicative Disorders)
- Early Childhood Special Education (Department of Special Education & Communicative Disorders)
- E-learning Development (Department of Equity, Leadership Studies, and Instructional Technologies)
- Reading (Department of Elementary Education)
- Reading and Literacy Leadership Specialist Credential (Department of Elementary Education)
- Training Systems Development (Department of Equity, Leadership Studies, and Instructional Technologies)

The Graduate College of Education is organized into four departments:

- Elementary Education
- Equity, Leadership Studies, and Instructional Technologies
- Secondary Education
- Special Education & Communicative Disorders

**GCOE Mission**

The Graduate College of Education prepares reflective, transformative educators, clinicians, leaders and scholars who advance the professions within education. Our graduates deliver education programs across the life span, demonstrating excellence in the art and science of teaching and learning, research on critical issues in education and communicative disorders, integration of new technologies and commitment to equity and social justice. Professional preparation programs are designed to meet global challenges, through authentic learning experiences in academic and clinical environments that are guided by our commitment to inclusiveness, integrity, community, social action and evidence-based practice.

**GCOE Vision**

Our vision is to be the premier institution of higher education to prepare professionals who transform lives in schools and communities through our commitment to access, equity, quality and innovation in teaching, scholarship and service.

**Core Values**

He core values of the GCOE are reflected in the SF State Strategic Plan: Courage, Life of the Mind, Equity, Community, and Resilience®. These values resonate with the GCOE and our commitment to social justice. We embrace these five values and have adapted them to align with the mission of the GCOE.

**Courage**: Courage enables us to develop a sense of agency that engages students, staff, and faculty in speaking their voices and having their voices heard in forums that honor the contributions of all.
Life of the Mind: Our programs are informed by research, our research is informed by evidence-based practice, and our practice is grounded in our professional commitments as educators, activists, practitioners and clinicians. Collaboration with communities is an integral component of our scholarship, with a focus on uncovering funds of knowledge and community cultural wealth.

Equity: Our focus on equity addresses a broad range of persistent, structural social justice issues, including race, class, gender, sexual orientation, disability, and other forms of marginalization in 21st century, globalized California.

Community: Our programs promote a climate of inspiration and inclusivity, and are characterized by strong linkages to local and global communities at all levels, birth through adult, in formal and non-formal educational contexts.

Resilience: Our work in collaboration with diverse school, community and clinical settings implies that resilience takes many forms, ranging from promoting transformative resistance, to fostering global sustainability, to creating an environment that is marked by a generosity of spirit, to supporting a thriving environment of mutually supportive human relations.

GCOE Scholarships

Numerous scholarships are offered by the Graduate College of Education are open to all students in the graduate college. Visit SF State Academic Works (https://sfsu.academicworks.com) to search for all scholarship opportunities and also apply online.

For Graduate Fellowship Opportunities, please visit http://fellowships.sfsu.edu.

Note: Educational leadership doctoral students are eligible to apply for the following four scholarships: Crumpton/Baxter/Bonham, Karl Richard Lane, Chris Larsen, and Hilda Taba.

Doctoral Programs

The Ed.D. in Educational Leadership is an intensive multidisciplinary three-year program implemented at SF State to accommodate the needs of working professionals and maximize the use of multidisciplinary faculty expertise in the San Francisco Metropolitan Bay Area. The aim of the program is to prepare outstanding educational leaders. The Ed.D. in Educational Leadership immerses its students in an exploration of critical challenges that pre – K-12 school district and community college educational leaders must grapple with while providing enriching educational opportunities available only in dynamic urban and transitioning communities.

The Special Education Joint Doctoral program, which offers the Ph.D., is designed to prepare candidates for leadership positions in special education. By combining the complementary resources of San Francisco State University and the University of California, Berkeley, these programs are designed to provide a greater breadth and depth of preparation in the field of special education. Students completing this degree program are prepared to serve in a variety of roles, including administration, research, and college and university teaching.

Master of Science Degree in Communicative Disorders

- Communicative Disorders, to prepare for professional practice, research and leadership as a Speech-Language Pathologist in school, community, clinical and medical settings. Completion of the program prepares candidates for certification by the American Speech-Language and Hearing Association, licensing by the State of California and the Speech Language Pathologist Services Credential by the California Commission on Teacher Credentialing.

Master’s of Arts Degree in Special Education

- Special Education, for competence in research and leadership skills in working with people with disabilities in program five emphasis areas, including early childhood special education, mild/moderate disabilities, moderate/severe disabilities, orientation and mobility, and visual impairments. The degree program prepares individuals to work in schools and other educational settings, in public and private agencies serving people with disabilities, and in other related human services fields.

Master’s of Arts Degree in Education: Concentrations

The Master’s of Arts Degree in Education include the following concentrations:

- Early Childhood Education, for greater competence in teaching nursery school, kindergarten, and primary grades.
- Elementary Education, for greater competence in teaching grades kindergarten through nine.
- Secondary Education, for greater competence in teaching in middle or high school.
- Mathematics Education, for greater competence in teaching mathematics and to promote and support teacher leaders to be knowledgeable both in mathematics content and in the use of pedagogical practices that enable student to learn mathematics.
- Language and Literacy, for greater competence in teaching literacy and to extend academic and professional expertise in the field of language and literacy development.
- Education: Special Interest, an interdepartmental program for developing competence in designated specialized aspects of teaching such as research, evaluation, human relations in education, adult education, the foundations of education, and human development and learning.
- Adult Education, to prepare for working in leadership roles with adults in a wide variety of educational settings.
- Educational Administration, for positions as consultant, curriculum coordinator, supervisor of designated subjects, supervisor of designated services, and school principal or administrator.
- Equity and Social Justice in Education, addresses issues of language, culture, ethnic, and gender diversity in education, enabling graduates to work on related issues in public education, non-profit groups, public service, and private organizations.
- Instructional Technologies, for personnel in schools, instructional materials centers, and industry.

Course Work
The most common class is the lecture-discussion; there also are many seminars, workshops, clinical courses with individual attention, supervised internship and field experiences, and individually planned field studies and theses. For those students in teacher education, courses emphasize the relationship between school practice and findings from educational research and the psychological and social foundations of education. For those students with human service and/or professional development goals, courses emphasize the interrelationship between the concepts and research underlying the discipline or field of endeavor and the acquisition of professional roles through directed practice experiences. Requirements of most programs, except for internships, can be met through late afternoon, evening, and summer courses.

Advising

Interested students should inquire at the Student Resource Center in Burk Hall 311 for a referral to the appropriate program advisor. Candidates seeking teaching credentials may go directly to the Credential and Graduate Services Center, BH 244 for credential application and processing information. The student should confer with the advisor frequently to develop and maintain a working relationship based on direct acquaintance. These conferences, along with formal records, help to provide a basis for planning and assessing student programs.

The College of Ethnic Studies offers undergraduate degrees in the following disciplines:

Bachelor of Arts

- Africana Studies 22111
- American Indian Studies 22121
- Asian American Studies 22996
- Latina/Latino Studies 22131

The college also offers the following minors which may be taken in conjunction with any major:

- Africana Studies
- American Indian Studies
- Arab and Muslim Ethnicities and Diasporas Studies
- Asian American Studies
- Latina/Latino Studies
- Race and Resistance Studies

The College of Ethnic Studies offers the following graduate degrees:

Master of Arts

- Asian American Studies 22996
- Ethnic Studies 22991

Post-Baccalaureate Certificate

- Ethnic Studies

In fall of 1969 dedicated and concerned students, faculty, and community members established the College of Ethnic Studies. Faculty and students representing four major racial groups—African American, American Indian, Asian Pacific Islander, and Latino—laid the conceptual institutional foundations for a unique educational program that redefined their particular cultures from their perspectives for the first time. The four departments of American Indian Studies, Asian American Studies, Black Studies, and Raza Studies comprised the first and still the only College of Ethnic Studies in the nation. Since its founding, the College has expanded to include an additional department focusing on comparative ethnic studies called Race and Resistance Studies and a program in Arab and Muslim Ethnicities and Diasporas. Black Studies and Raza Studies have also changed their departmental names to Africana Studies and Latina/Latino Studies.

San Francisco State University’s reaccreditation report praised the College of Ethnic Studies as a national leader in the development of scholarship on race and ethnicity. It also recognized the important role the College plays in creating a campus that embraces racial difference and diversity.

The programs within the College of Ethnic Studies provide a unique educational experience by presenting a curriculum that places a strong emphasis on the historical and philosophical impact of African American, American Indian, Asian Pacific Islander, and Latina/Latino peoples and their many varied contributions to the history and culture of the United States.

The American Indian Studies program offers course work leading to a major and a minor designed to give students knowledge and understanding of the histories, cultures, and perspectives of traditional and contemporary Native American Indians. The Asian American Studies Department offers a major and minor for students who wish to pursue a comprehensive program of study on the Asian American experience. Requirements in Asian American history, literature and the arts, gender, and family and communities will provide students with a broad range of knowledge of the diverse Asian American population. Africana Studies majors and minors engage in an integrated liberal arts course of study on the history and development of the African American and global community. By offering a balanced and multidisciplinary curriculum, students will develop self-knowledge and critical skills that will assist them to serve as agents of social change in their communities. Latina/Latino Studies majors and minors are exposed to classes that provide cultural, historical, and social knowledge relevant to the Latino experience. They provide students with a better understanding of Latino economic, cultural, and social heritage and prepares students for careers and professions requiring expertise on different aspects of the Latino experience. Race and Resistance Studies (RRS) provides students with a critical and comparative approach to the study of race, examining both how societal institutions—from education and health care to penal systems and popular culture— Oppress diverse racialized communities and how these same communities engage in individual and collective forms of resistance in the pursuit of social justice. RRS produces cohorts of highly motivated, critical thinkers and socially engaged students—able to speak with informed insight to the complexities of interracial tension and possibilities for progressive cross-racial solidarities—and who will ultimately go on to occupy important positions in civic society, committing to a lifetime of learning from and organizing alongside disenfranchised communities of color in the US and abroad.

In addition to the five degree granting departments of Africana Studies, American Indian Studies, Asian American Studies, Latina/Latino Studies, and Race and Resistance Studies, the College has developed an extensive college-wide curriculum designed to meet the needs of students who wish to complete their General Education. The courses also provide crucial content for teachers who will be teaching Ethnic
Studies subjects in elementary, secondary, community, and college level institutions, as well as those who wish to gain a comparative understanding of people of color and their communities in business, social welfare, law, medicine, and the arts.

The Master of Arts in Ethnic Studies established in 1988, increases students’ knowledge and understanding of communities of color through scholarly training in the analysis of historical and contemporary social issues. The program provides students with a sound capacity to plan and evaluate policies aimed at the resolution of racial and economic inequality. The curriculum focuses on African American, American Indian, Asian American, and Latina/Latino people, cultures, and societies. Theoretical and conceptual tools of numerous disciplines are critically utilized to assess the "Third World" experience. The program applies this approach to instruction, research, and community involvement in the surrounding San Francisco Bay Area communities of color and with students throughout the program. The program prepares individuals for advanced graduate work leading to the doctorate, for professional roles in teaching, research, and administration within both the public and private sectors. It is the only terminal master’s degree program in ethnic studies in the nation.

The Master of Arts in Asian American Studies established in 1999, provides students with an advanced, critical knowledge of the diverse Asian American population through disciplinary and interdisciplinary inquiries and analyses of Asian American history, literature and the arts, gender, family studies, as well as community studies.

The Certificate in Ethnic Studies, established in 2016, provides post-baccalaureate training on inequality, activism, and self-determination relevant to communities of color and indigenous peoples to empower professionals in social services, urban planning, public health, education, law enforcement, and related fields to better serve racially marginalized populations.

Programs Directory

Extended Learning is the college of the university that is responsible for all program and course offerings not supported by state appropriations. These include continuing education courses, Winter Session, Open University, short-term study abroad programs, contract courses, professional training series, certificate programs, and off-campus degree programs. In contrast with degree programs, which require matriculation and a degree objective, most Extended Learning programs allow any adult and selected high school students to participate. The primary objective of Extended Learning is to augment the regular university offerings and to provide further educational opportunities for all who wish to gain new knowledge and skills, pursue a new career direction, or expand their existing skills in a particular industry.

Courses are taught by regular San Francisco State University faculty, visiting faculty, and practicing professionals. All are specialists in their fields. Classes are offered at the 19th Avenue and Holloway campus location, at the San Francisco State University Downtown Campus, 835 Market Street (Powell BART/Muni), at the Sierra Nevada Field Campus,
and the Romberg Tiburon Center for Environmental Studies as well as several off-campus locations.

**Continuing Education Programs**

Continuing education is the medium through which the resources, skills, and talents of San Francisco State University are extended into the larger San Francisco area community. The continuing education program is designed for those who wish to pursue university-level study for purposes of resuming an interrupted or uncompleted education, to augment professional or vocational abilities, or to enhance personal growth and fulfillment.

Continuing education offerings include regularly established university courses as well as non-credit seminars and conferences, special weekend programs and travel study programs. Workshops and courses designed to meet the needs of particular groups and agencies may be initiated at various times during the year. Any adult may enroll in a continuing education course provided he/she meets the prerequisites for the course; it is not necessary that he/she also be admitted to the university.

Continuing education is self-supporting. Registration fees make possible the classes and programs offered. Therefore, individual courses or programs may be canceled if enrollment is not sufficient. Courses are offered during the fall, winter, spring, and summer sessions.

**Winter Session**

Winter Session enrollment is open to everyone—continuing and prospective San Francisco State University students, people from the community and visitors. Scheduled during the last two weeks of December and the first three weeks of January, the one-, two-, and three-unit courses are primarily designed to meet the needs of students who wish to accelerate their academic progress. Winter Session courses earn residence credit and range from both lower- and upper-division credit courses to graduate level offerings. The maximum number of units a student may earn in Winter Session is four units.

**Open University**

Many of the courses offered to regularly enrolled San Francisco State University students are also available to continuing education students through Open University on a space available basis. Students enrolling through Open University earn residence credit which can be applied with limitations toward degrees. For baccalaureate degrees, SF State will accept up to 24 semester units of credit earned through Open University registration. For graduate degrees, SF State will generally accept, with advisor’s approval, up to six semester units of credit earned through Open University.

Matriculated (regular) students, including foreign students with F-1 visas, may not enroll through Open University. As soon as a student is admitted to and enrolled in the university, he/she is considered a matriculated student for the current semester and for the next two semesters following the current semester. Even if currently admitted students do not take classes through the regular university, they may not take Open University courses because they are still eligible to register as matriculated students.

Newly admitted students who do not pay fees and do not enroll in regular university courses (that is, they do not matriculate) may take Open University classes, but will lose their status as admitted students.

Matriculated students who register in Open University courses are disenrolled without refund of fees and do not receive any credit on their permanent records. There are no exceptions to this regulation.

Contact the Extended Learning Office for information at (415) 405-7700.

**Contract Credit (Contract Education)**

Extended Learning offers Bay Area employers and organizations the service of reviewing their planned or existing in-house training programs for university or professional credit.

If a course is approved by a university department, participants receive a permanent university record of either extension academic credit or professional Continuing Education Units (CEUs), depending on the nature of the training. If the training program satisfies university requirements for content and quality, contract education can provide a convenient mechanism for organizations to enhance the value of their training.

**Academic Programs**

A limited number of degree, credential, and certificate programs are offered through special sessions. To be considered officially matriculated at SF State, special sessions students must be admitted to a specific degree, credential, or certificate program offered by an academic department via the College of Extended Learning (CEL) and then enroll through CEL in the courses for that specific program. Special sessions degree, credential, and certificate students have matriculated status.

An updated list of current and anticipated special sessions programs, grouped by category (degree, credential, and certificate) is available at www.cel.sfsu.edu/ (http://www.cel.sfsu.edu).

The list currently includes the following:

**Undergraduate Degree Programs**
- Bachelor of Science in Nursing (Off-Campus)

**Graduate Degree Programs**
- Master of Business Administration (E.M.B.A.): Executive
- Master of Science in Nursing: Entry Level Accelerated

**Credential Programs**
- Post-Masters Pupil Personnel Services Credential – Social Work
- Psychology Internship Pupil Personnel Services Credential

**Certificate Programs (Academic)**
- Clinical Laboratory Sciences Certificate
- Digital Animation Certificate
- Family Nurse Practitioner Certificate
- Film and Media Studies Certificate
- Holistic Health Certificate
- Hospitality, Tourism and Management Certificate
- International Business Certificate
- Music/Recording Industry Certificate
- Paralegal Studies Certificate
- Pre-Health Professions Certificate
- Pre-Nursing Certificate
- Screenwriting Certificate
- Spanish/English Interpretation
Certificate Programs
Certificate programs are designed for people who want formal recognition for completing a structured and rigorous course of study in a specific field, but who may not be interested in pursuing a university degree program.

Certificates are awarded when participants complete the required number of units or courses for the program, and other requirements, as stipulated. Students may enroll in up to 9 units before applying to a certificate program.

The certificate programs can be found in the Academic Programs section of this Bulletin (see Summary of Certificate Programs (http://bulletin.sfsu.edu/about-sfsu/degrees-offered/certificates/certificate-information) for links to specific programs).

Writing Skills
The certificate programs’ course content requires good writing skills. Certificate students are asked to demonstrate their writing ability soon after admission to the certificate program to satisfy the university literacy requirement. Those who do not have the necessary writing skills are referred to either ENG 214 Second Year Written Composition: English or ENG 414 Elements of Writing, which is regularly offered through Open University.

Admission to Certificate Programs
To be admitted to some academic certificate programs, students should have completed 56 units of academic credit or have sufficient experience to demonstrate they can perform upper division work. Students who do not have 56 units may be accepted on probation and are encouraged to apply. Please visit the website at www.cel.sfsu.edu (http://www.cel.sfsu.edu) for more information.

The College of Health and Social Sciences was established in 1995 as the College of Health and Human Services. It is organized into the following administrative areas: Child and Adolescent Development; Family Interior Nutrition & Apparel (FINA); Counseling; Health Education; Kinesiology; Nursing; Physical Therapy and Clinical Laboratory Science; Recreation, Parks, and Tourism; Social Work; Sociology and Sexuality Studies; and the School of Public Affairs and Civic Engagement, which houses Criminal Justice Studies; Environmental Studies; Gerontology; Public Administration; and Urban Studies and Planning.

Mission of the College of Health and Social Sciences

The College of Health and Social Sciences prepares students to help solve the most pressing and enduring issues confronting the well-being of individuals, families, communities and society. Students, faculty, and staff participate in a learning process that fosters excellence in their professions and supports them in the pursuit of equity and social justice. To advance this mission, the College is committed to innovative teaching, scholarship, and service that inspires leadership for positive social change.

Vision of Scholarship

Consistent with the social justice mission of the University, the hallmark of the College of Health and Social Sciences is its belief in the potential of scholarship to right a wrong - an act of intellectual advocacy to serve the public good, to wrestle with critical social problems, and to transform how individuals, communities, and institutions function - by disseminating the knowledge from basic, translational, and applied research and by advancing the practice of specific disciplines. This vision is best achieved when scholarship is supported as a faculty-initiated and faculty-driven process that emerges from their intellectual curiosity, expertise, social engagement and professional identity. To affirm the breadth of faculty interests and to honor the spectrum of academic disciplines, the College embraces an inclusive view of scholarship as discovery, integration, application, teaching, and engagement. Among the qualities valued in scholarship, the College supports work that is ethical, innovative, interdisciplinary, collaborative, theoretical and applied.

The College of Health and Social Sciences offers undergraduate degrees in the following disciplines:

Bachelor of Arts

- Child and Adolescent Development 08231
  - Concentrations in:
    - Early Childhood
    - School Age Child and Family
    - Youth Work and Out of School Time

- Criminal Justice Studies 21051
- Environmental Studies 49101
- Family and Consumer Sciences 13011
- Social Work 21041
- Sociology 22081
- Urban Studies and Planning 22141

Bachelor of Science

- Apparel Design and Merchandising 13031
- Dietetics 13061
- Environmental Studies 49101
  - Concentration in:
    - Natural Resource Management and Conservation

- Health Education 12011
- Interior Design 02031
Master of Science

- Kinesiology 08351
  - Concentrations in:
    - Exercise and Movement Sciences
    - Physical Education

- Nursing 12031
- Recreation, Parks, and Tourism Administration 21031

Undergraduate students interested in physical therapy may take a supporting major in one of the concentrations under the B.S. in Kinesiology or a major in biological sciences.

The College of Health and Social Sciences offers the following graduate degrees:

**Master of Arts**

- Family and Consumer Sciences 13011
- Gerontology 21043
- Human Sexuality Studies 49019

**Master of Public Administration 21021**

**Master of Public Health 12141**

**Master of Science**

- Clinical Mental Health Counseling 12221
- Counseling 08261
  - Counseling Concentration in
    - Marriage, Family, and Child Counseling 13051

- Kinesiology 08351
- Nursing 12031
  - Concentration in
    - Family Nurse Practitioner

- Recreation, Parks and Tourism 21031

**Master of Social Work 21041**

**Doctor of Physical Therapy 12121**

**Doctor of Physical Therapy Science 12121**

The Doctor of Physical Therapy (D.P.T.) program is offered jointly with the University of California, San Francisco (UCSF).

In addition to its undergraduate and graduate degree offerings, the college also offers a number of minor, certificate and credential programs.

**Undergraduate Minors**

- Athletic Coaching
- Counseling
- Criminal Justice Studies
- Health Education
- Holistic Health
- Human Sexuality Studies
- Lesbian, Gay, Bisexual, and Transgender Studies
- Recreation

- Sociology
- Urban Studies and Planning
- Women's Health Issues

**Undergraduate Certificates**

- Conflict Resolution (offered jointly by the Colleges of Business, Ethnic Studies, Health and Social Sciences, and Liberal & Creative Arts)
- Holistic Health (offered by Health Education through the College of Extended Learning)
- Youth and Human Services Non-profit Agency Administration (offered by Recreation, Parks, and Tourism)

**Graduate Certificates**

- Clinical Laboratory Science
- Dietetics (offered by Department of Family Interior Nutrition & Apparel (FINA))
- Family Nurse Practitioner
- Rehabilitation Counseling
- Fundamental Nonprofit Management Skills (offered by Public Administration)
- Nonprofit Leadership and Strategic Management (offered by Public Administration)
- Exercise Physiology (offered by Kinesiology)
- Movement Science (offered by Kinesiology)
- Physical Activity (offered by Kinesiology)

**Accreditation and Credentials**

- Pupil Personnel Services (offered by Counseling and Social Work)

Curricula in the college meet high academic standards. All of the programs subject to national accreditation are accredited: Public Administration by the Network of Schools of Public Policy, Affairs, and Administration; Clinical Laboratory Science by the National Accrediting Agency for Clinical Laboratory Sciences; Counseling by the Council for Accreditation of Counseling and Related Educational Programs; Dietetics by The Academy of Nutrition and Dietetics; Apparel Design and Merchandising, Dietetics, Interior Design and Family and Consumer Sciences by the American Association of Family and Consumer Sciences; Nursing by the Commission on Collegiate Nursing Education; Physical Therapy by the Commission on Accreditation in Physical Therapy Education; Public Health by the Council on Education for Public Health; Recreation, Parks and Tourism by the National Recreation and Park Association; Rehabilitation Counseling by the Council on Rehabilitation Education; and Social Work by the Council on Social Work Education. Nursing is also approved by the California Board of Registered Nursing. The Gerontology program meets the guidelines of the Association for Gerontology in Higher Education (AGHE).

• Women and Gender Studies 22990

Master of Fine Arts
• Art 10022
• Cinema 10102
• Creative Writing 15071
• Theatre Arts
  • Concentration in Design/Technical Production 10072

Master of Music 10041
Graduate Certificates
• Immigrant Literacies (English Department)
• Jewish Community Studies (Jewish Studies Department)
• Teaching of Composition (English Department)
• Teaching Post-secondary Reading (English Department)

Mission and Goals
The liberal and creative arts explore the identities, ethics, aspirations, arguments and imaginations of individuals and societies through art, myth, literature, language, philosophy, religion, public and private discourse, cultural artifacts and the symbolic systems by which ideas and feelings are communicated.

Disciplines in the liberal and creative arts address fundamental questions of existence, value, aesthetics and expression. What is an ethical human being? How can we balance individual freedom and civic responsibility? How do different cultures define beauty, morality, truth and other concepts? How do human beings use language and other symbolic forms to communicate and celebrate thoughts, emotions, endeavors?

The liberal and creative arts are dedicated to exploring multiple answers to these questions, to engaging the imagination and creativity, to increasing civic and global responsibility, to cultivating moral action, and to equipping people with the artistic and communication skills needed to express the best of what it means to be human.

Today’s life is complex, constantly challenging. The times need women and men who can think, reason and communicate clearly, who
understand moral and ethical distinctions; and who have a sense of both the continuity and the changing values of the human community.

Programs
The College of Liberal & Creative Arts consists of the departments or schools of Anthropology, Art, Broadcast and Electronic Arts, Cinema, Classics, Communication Studies, Comparative and World Literature, Creative Writing, Design, English, Humanities and Liberal Studies, Jewish Studies, Journalism, Modern Languages and Literatures, Music, Philosophy, Theatre and Dance, and Women and Gender Studies; and programs in African Studies, American Studies, California Studies, Conflict Resolution, Critical Social Thought, Ethical Issues in Science and Technology, European Studies, Global Peace Studies, Latin American Studies, Middle East and Islamic Studies, Museum Studies, Pacific Asian Studies, Persian Studies, Religious Studies, South Asian Studies, Technical and Professional Writing, and World Music and Dance.

Students in the college work closely with a world-class faculty, comprised of working professionals and acclaimed artists and scholars who provide students with access to breaking trends and new opportunities and who frequently share their expertise with the news media on society’s most important issues.

As students examine this Bulletin, they will discover that a number of courses not only relate to one another but also cut across disciplinary and departmental lines.

Arts Programs
The College of Liberal & Creative Arts has one of the largest and most comprehensive academic programs devoted to the creative arts in Northern California. Comprised of disciplines in the literary, media, performing and visual arts, the College provides unique opportunities for specialized focus, collaboration, interdisciplinary learning and multidisciplinary pursuits.

Academic programs encompass creative practice, theoretical and critical studies, fine arts, applied arts and arts education. The college supports programs that stress both original and interpretive forms of the arts, as well as those emphasizing traditional and innovative pursuits. High standards of professional accomplishment are stressed while maintaining a commitment to liberal arts curricula. A major goal is the education of students who will become significant creators, scholars, educators and facilitators in creative arts who are capable of making major contributions in our urban, national and global environment.

The College seeks to continue its long history of relationships with varied audiences, communities, and professionals throughout San Francisco. A substantial portion of the College’s programs highlights the unique roles and expressions of the arts in a multicultural and diverse society. The College strives to maintain a significant contribution to the unique ways in which the creative arts can serve as primary agents in a quality liberal arts education.

For information on productions, exhibits, and symposia, refer to the Performing, Visual, and Media Arts (p. 184) section of this Bulletin.

Research and Special Learning Facilities
The College houses a number of special centers, institutes, facilities, and programs. Collections include: Marvin L. Silverman Jewish Studies Reading Room, Global Museum, American Poetry Archives and Nathan Shapira Design Archive.

Centers and institutes include: the Center for Iranian Diaspora, Center for the Integration and Improvement of Journalism, Center for Modern Greek Studies, Design Gallery, Dilena Takeyama Center for the Study of Japan and Japanese Studies, Documentary Film Institute, Fine Arts Gallery, Global Museum, English Tutoring Center, Morrison Chamber Music Center, Osher Lifelong Learning Institute, Paul K. Longmore Institute on Disability, The Poetry Center, Queer Cinema Institute, and the Veteran Documentary Corps.

Pre-law Program
No specific major is required for admission to a school of law. A usual requirement for admission is that the student must have been granted a bachelor’s degree from an accredited college or university. Some law schools, however, have alternative plans. Students should consult the catalogs of the schools of law to which they plan to apply for admission. Since law schools generally expect their students to have a broad foundation in the humanities and social sciences, selection of a major in these areas is recommended.

The College of Liberal & Creative Arts provides advising and resource materials to pre-law students majoring in one of several majors: please contact Professor Joseph Tuman, Communication Studies Department; Associate Professor Carlos Montermayor, Philosophy Department; Professor M. Shelley Wilcox, Philosophy Department; or Professor Michael Graham, Political Science Department.

Pre-teaching Programs
Many students decide at some point during their undergraduate major that they would like to consider teaching in the public schools. In most cases, the requirements for the major must be adjusted to accommodate an Approved Single Subject Matter Preparation Program, those courses in a single subject that are required for entrance into teaching credential programs at this and other universities. A list of the courses required for teacher preparation in various subjects is available in department offices, as well as in the Credential Bulletin published by the Graduate College of Education.

Students considering teaching as a career are urged to contact the department’s credential adviser early in their planning, to identify the specific courses that satisfy requirements for both the major and the Subject Matter Preparation Program, and to arrange for the assessment of subject-matter competency. The credential adviser will also inform them about other pre-teaching requirements that they may wish to fulfill before graduation.

Galleries, Labs, Theatres and Workshops
Creative Arts facilities throughout the college are custom-designed to meet the needs of the college’s programs. There are five performing arts auditoria, including McKenna Theatre (seats 701, with proscenium stage, orchestra pit, fly system and 35mm projection and video system), Knuth Hall (seats 322), Little Theatre (seats 253), Studio Theatre (seats 78, with thrust stage) and the Brown Bag Theatre (seats 55, black-box design). The Coppola Theatre screening room seats 146.

The Art programs include the 3,200-square-foot Fine Arts Gallery with rear projection screen, curatorial rooms, and the Martin Wong Gallery. The department houses a printmaking archive of 500 works.

Broadcast and Electronic Communication Arts students have access to professional-grade production equipment, studios, and laboratories. Work completed by students in the department is distribution-ready for Federal Communications Commission broadcast guidelines and is in continuous distribution through terrestrial broadcast, cablecast (both
radio and video) and Internet delivery. KSFSmedia.net is the student-run distribution hub for all BECA student productions.

Production facilities include three high-definition, multi-camera television studios, a radio station, two music recording studios, two advanced sound-design-for-video studios and an array of field production equipment ranging from large-scale audio and multi-camera video simulcast equipment to professional-quality audio and video single-camera and electronic news gathering equipment. The BECA Department also maintains more than 75 computer workstations for audio and video production and post-production activity.

The School of Cinema facilities include a 250-foot shooting stage, several editing and post-production labs, sound recording and mixing studios with digital editing workstations, a Foley stage, an animation studio with film and computer workstations, two computer labs, a media library, the Bill Nichols Reading Room and the Cinema Studies Center.

The Poetry Center and American Poetry Archives, housed in the Creative Writing Department, holds the nation’s largest, most comprehensive and heterogeneous collection of poetry on tape that is accessible to the public.

The School of Design facilities include digital laboratories for graphic design, interactive media, computer-aided drafting (CAD), 3D surface and solid-modeling computer graphics and computer-aided manufacturing/rapid-prototyping.

The School of Music has dedicated large and small ensemble rehearsal spaces, three piano laboratories, a large number of practice rooms, an electronic music laboratory.

The School of Theatre Arts and Dance, in addition to four theatres, includes a scene and paint shop, costume shop, properties shop, lighting laboratory and sound design laboratory, and a dance studio.

The college supervises computer laboratories used by classes.

The College of Science and Engineering offers the following graduate degrees:

Master of Arts

- Geography 22061
  - Concentration in Resource Management and Environmental Planning
- Mathematics 17011
- Psychology
  - Concentrations in:
    - Developmental Psychology 20091
    - Mind, Brain, and Behavior 20992
    - Social Psychology 20051

Master of Science

- Biology
  - Concentrations in:
    - Cell and Molecular 04171
    - Ecology, Evolution, and Conservation Biology 04011
    - Marine Biology 04181
    - Microbiology 04111

Bachelor of Science

- Applied Mathematics 17031
- Biochemistry 04141
- Biology
  - Concentrations in:
    - Botany 04021
    - Cell and Molecular Biology 04171
    - Ecology 04201
    - Marine Biology and Limnology 04181
    - Microbiology 04111
    - Physiology 04101
    - Zoology 04071
- Chemistry 19051
- Civil Engineering 09081
- Computer Engineering 09094
- Computer Science 07011
- Earth Sciences 19171
- Electrical Engineering 09091
- Environmental Science 49011
- Mechanical Engineering 09101
- Physics
  - Concentrations in:
    - Astrophysics 19111
    - Physics for Teaching 19021
- Statistics 17021

The College of Science and Engineering offers the following undergraduate degrees in the following disciplines:

Bachelor of Arts

- Biology 04011
- Chemistry 19051
- Earth Sciences 19171
- Geography 22061
- Mathematics
  - Mathematics for Liberal Arts 17011
  - Mathematics for Teaching 17011
- Physics
  - Concentration in Astronomy 19111
- Psychology 20011
• Physiology and Behavioral Biology 04101

• Biomedical Science 04153
  • Concentrations in:
    • Biotechnology
    • Stem Cell Science

• Chemistry 19051
  • Concentration in: Biochemistry 04141

• Computer Science 07011
  • Concentrations in:
    • Computing and Business
    • Computing for the Life Sciences
    • Software Engineering

• Engineering 09011
  • Concentrations in:
    • Structural/Earthquake Engineering
    • Embedded Electrical and Computer Systems
    • Energy Systems 09013

• Geographic Information Science 22063
• Geosciences 19172
• Physics 19021
  • Concentration in Astronomy

• Psychology
  • Concentrations in:
    • Clinical Psychology 20031
    • Industrial-Organizational Psychology 20081
    • School Psychology 20013

Certificate Program
• Certificate in Weather Study (Geoscience Department)

Mission
The mission of the College of Science and Engineering at San Francisco State University is to provide an encouraging environment to develop the intellectual capacity, critical thinking, creativity, and problem-solving ability of its students so that they may become honorable, contributing, and forward-thinking members of the science and engineering community of the San Francisco Bay Area and beyond; to foster a conducive environment for scholarly and creative activities so that new knowledge or solutions to problems are discovered or created; and to provide science education to all students in the university so that they may be equipped to succeed in the modern world.

Programs
The College of Science and Engineering is committed to providing superior scientific, engineering, and mathematical education in the context of a major urban university with a liberal arts tradition. The college offers programs at both the undergraduate and the graduate levels in astronomy, atmospheric sciences, biology, chemistry, geology, biochemistry, computer science, physics, and mathematics through the eight departments of Biology, Chemistry and Biochemistry, Computer Science, Mathematics, Earth & Climate Sciences, Geography & Environment, Psychology, and Physics and Astronomy. Through the School of Engineering, the College offers Bachelor of Science degrees in civil, computer, electrical, and mechanical engineering. At the graduate level, the School offers the Master of Science in Engineering. The College offers a Professional Science Master’s in Biotechnology and Stem Cell Science through the Biology Department. The Professional Science Master’s is an innovative degree designed to allow students to pursue advanced training in science or mathematics, while simultaneously developing workplace skills highly valued by employers. Finally, the College offers a multidisciplinary degree program in statistics drawing from courses in Business, Economics, and Mathematics. The statistics program is listed in the Department of Mathematics.

The college provides all of its students with a current, relevant, hands-on education in science and engineering. Close interaction between student and faculty in the laboratory and field environments fosters the development in the student of the critical skills required in science and engineering: the ability for objective analysis of a problem; the ability to design and carry out critical tests; and the ability to make objective interpretations of data.

Students wishing to follow one of the major and/or minor programs in the college should meet with a faculty advisor in the appropriate department immediately after admission to the university. Science and engineering curricula are inherently sequential, so early advising and satisfaction of course prerequisites are essential to success in timely completion of program requirements.

The college operates three off-campus sites providing excellent field settings for instruction and research:

• Paul F. Romberg Tiburon Center for Environmental Studies (RTC), rtc.sfsu.edu (http://rtc.sfsu.edu).
• Sierra Nevada Field Campus, www.sfsu.edu/~sierra/ (http://www.sfsu.edu/~sierra), and
• Moss Landing Marine Laboratories (MLML), mlml.calstate.edu (https://www.mlml.calstate.edu).

Applications to the M.S. in Biology concentration in Marine Biology should be directed to SF State with the understanding that SF State or RTC (see below) will be the principal place of study. Applicants to the M.S. in Marine Science should submit applications to the graduate programs at San Jose State University or CSU Monterey Bay. All students can take courses at the SF State campus, RTC (see below) and at MLML.

The Romberg Tiburon Center for Environmental Studies
The Romberg Tiburon Center for Environmental Studies (RTC) is the marine research field station of the College of Science and Engineering, located approximately 25 miles north of the main campus in Marin County. The long-range vision for RTC is to be the leading estuarine and coastal academic institution on the West Coast of the United States of America, with a focus on the understanding of the San Francisco Bay and its surrounding environments. The designation of the S.F. Bay National Estuarine Research Reserve, headquartered at RTC, provides additional resources and coordination for Bay Area environmental science and policy.

RTC is an off-campus research and teaching facility operated year-round and is the only academic research facility on S.F. Bay, one of the largest estuaries in the U.S. The center is part of the College of Science and Engineering and has affiliations with the College of Behavioral and Social Sciences. All degree programs and course offerings are administered through the university, with most students enrolled in the Master of
Science in Biology Concentration in Marine Biology. RTC’s educational mission is to provide undergraduate and graduate courses in biology, geography, and geology that promote learning in the fields of marine biology, estuarine ecology, and oceanography. Students from any degree program are welcome to attend classes at the center and to conduct research with faculty sponsorship. RTC is also involved in community outreach, offering teacher workshops biannually and a summer education program for the community that provides general interest environmental courses.

RTC is situated on a 34-acre waterfront parcel in Tiburon, California. The physical facilities are comprised of the main research laboratory, a smaller waterfront research laboratory, the administrative/teaching building, the marine/technical operations facilities, the Ohrenschall Guest Center, the Bay Conference Center, and numerous other storage and staging facilities. RTC also owns several boats used for research including a 38’ aluminum hulled vessel, the R/V Questuary. RTC is administered by a director, with the support of an on-site staff, and RTC’s scientific staff consists of tenured or tenure-track faculty with joint appointments in home departments on the main campus of SF State, senior research scientists, visiting scientists, post-doctoral fellows, and numerous research technicians.
UNDERGRADUATE
ADMISSIONS

General Admission Requirements and Procedures
Requirements for admission to San Francisco State University are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Undergraduate applicants who are unsure of these requirements should consult a high school or community college counselor or San Francisco State University's Admissions Office. Complete information is available at www.csumentor.edu/planning/ (http://www.csumentor.edu/planning).

Electronic CSU undergraduate applications are available at www.csumentor.edu/ (http://www.csumentor.edu) through May 31, 2017. At that time the CSU is transitioning to a new application for all 23 campuses, Cal State Apply. The first semester of implementation will occur with the Spring 2018 admission cycle. More information about the new application process will be provided as it becomes available. Both the CSUMentor and Cal State Apply systems allow students to browse through general information about CSU's 23 campuses, view multimedia campus presentations, send and receive electronic responses to specific questions, and apply for admission and financial aid.

Applying online via www.csumentor.edu (http://www.csumentor.edu) is expected unless electronic submission is impossible. An acknowledgment will be sent when online applications have been submitted. Application in "hard copy" form may be obtained online via www.csumentor.edu (http://www.csumentor.edu) as a portable data format (PDF). Application forms (in PDF) may also be downloaded from www.calstate.edu/sas/publications (http://www.calstate.edu/sas/publications). (Paper applications should be mailed to the campus admission office.)

Students without on-line access should contact any California high school, community college, or Office of Admissions at any of the campuses of the California State University. San Francisco State University accepts applications for admission for the fall and spring semesters only.

Application Filing Periods
Application periods for San Francisco State University may change. For the most current information, see the Future Students (http://www.sfsu.edu/future) page at www.sfsu.edu/future/ (http://www.sfsu.edu/future). Please note that some departments do not accept applications for spring admission.

Fall Semester 2017
- Applications first accepted: October 1, 2016
- Initial filing period: October 1 – November 30, 2016

Spring Semester 2018
- Applications first accepted: August 1, 2017
- Initial filing period: August 1 – 31, 2017

Filing Period Duration
Each campus accepts applications until capacities are reached. Many campuses limit undergraduate admissions in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the CSU Mentor Application Status Report (http://www.csumentor.edu/filing_status) for extended application filing deadlines.

Importance of Filing Complete, Accurate, and Authentic Application Documents
SF State advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire, and financial aid forms. Further, applicants must, when requested, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Cancellation of Admission
Admission will be canceled automatically if a student is accepted by San Francisco State University for a given semester and does not register for that semester. If the student wishes to undertake work at the University at a later date, he/she must file a new application, pay a new application fee, and meet the requirements for admission in effect at the time of admission.

Reservation
The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant's suitability and the best interests of the University.

Undergraduate Application Procedures
SF State accepts applications from prospective students for part-time or full-time undergraduate programs of study in day and evening classes. Undergraduate applicants must file a complete undergraduate application at www.csumentor.edu (http://www.csumentor.edu) and submit a $55 nonrefundable application fee. The application fee may not be transferred or used to apply to another term. The applications of persons denied admission to an impacted campus may be re-routed to another campus, at no cost but only if the applicants are CSU eligible.

Application Acknowledgment
Students applying on-line on CSU Mentor will receive an e-mail acknowledgement as soon as the application is successfully submitted and a confirmation number is issued. Additional email notifications will be sent by the campus requesting submission of academic records necessary for the campus to evaluate the student's qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impaction, campus requirements for admission to an impacted program. An offer of admission is not transferable to another term or another campus.
Notification of Admission
Applicants who have received an application receipt notice and have submitted all required admission materials will begin to receive notification of acceptance or denial of admission to the fall semester on November 1, and for the spring semester on August 15. If the processing schedule permits, some applicants may be notified in advance of these dates.

Appeal of the Notification of Denial of Admission
Applicants may appeal the Notification of Denial of Admission to the Office of Undergraduate Admissions within fifteen days of the date of the denial notification. The appeal should be initiated by the applicant via phone (415) 338–6486 or (415) 338–1634. Many appeals will be resolved in the initial contact. When additional information is required, the applicant will be instructed about how to provide this to Undergraduate Admission. The time frame for conclusively addressing an appeal will vary with the complexity of the appeal.

Hardship Petitions
The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should enclose with their applications a statement of the hardship situation. The application and statement should be sent to the Director of Undergraduate Admissions.

Impacted Programs
The CSU will announce during the fall filing period those programs that are impacted and the supplementary criteria each campus will use. System-wide impaction of admission may be announced, when unexpected circumstances necessitate a curtailment of admission to specific campuses. Detailed information on campus and program impaction is available at www.calstate.edu/impactioninfo.shtml (http://www.calstate.edu/sas/impactioninfo.shtml), http://www.calstate.edu/sas/impaction-campus-info.shtml, and via www.csumentor.edu (http://www.csumentor.edu). That announcement will also be published in official CSU publications distributed to high school and college counselors and made available online at www.calstate.edu (http://www.calstate.edu). Information about the supplementary criteria is also provided to program applicants.

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered in impacted programs at more than one campus should file an application at each campus for which they seek admissions consideration.

Impaction at SF State
The CSU designates major programs as impacted when more applications are received in the initial filing period from CSU eligible applicants than can be accommodated by the campus. Impacted majors are authorized to use supplementary admission criteria and/or higher admission standards than the CSU minimum requirements in considering applicants to the program. These criteria are applied equally to continuing SF State students and new applicants alike. For information regarding specific application criteria and deadlines for majors impacted at SF State click on the program of interest below.

- Accounting Concentration in Business (p. 200)
- Apparel Design & Merchandising (p. 446)
- Biology (p. 1034) (all concentrations)
- Chemistry (BA) and Biochemistry (BS) (p. 1107)
- Chemistry (BS) (p. 1115)
- Child and Adolescent Development (p. 407) (all concentrations)
- Communication Studies (p. 707)
- Criminal Justice (p. 474)
- Dietetics (p. 438)
- Environmental Studies (p. 492) (all concentrations)
- Health Education (p. 510)
- Industrial Design (p. 758)
- Kinesiology (p. 527) (all concentrations)
- Nursing (p. 545)
- Pre-Nursing (p. 545)
- Psychology (p. 1296)
- Social Work (p. 581)
- Sociology (p. 590)
- Visual Communication Design (p. 763)

Supplementary Admission Criteria
Each campus with impacted programs or admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank—ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on the overall transfer grade point average, completion of specified prerequisite courses, and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs are required to submit scores on either the SAT or the ACT. For fall admission, applicants should take tests as early as possible but no later than December of the preceding year.

The supplementary admission criteria used by the individual campuses to screen applicants are made available by the campuses to all applicants seeking admission to an impacted program. Details regarding the supplemental admissions criteria are also provided at http://www.sfsu.edu/future/apply/impacted.html.

Undergraduate Admission Requirements
Test Requirements
Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit must submit scores for either the ACT or the SAT. Please note: SF State is not currently accepting applications from lower division transfer applicants. Persons who apply to an impacted program may be required to submit test scores and should take the test no later than November or December. Test scores are also used for advising and placement purposes. Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office. Students may also write to or call:

For SAT
The College Board
Registration Unit, Box 6200
Princeton, NJ 08541–6200
(609) 771–7588
www.collegeboard.org (http://www.collegeboard.org)

For ACT
ACT Registration Unit
P.O. Box 414
TOEFL Requirement
All undergraduate applicants whose native language is not English and who have not attended schools at the secondary level or above for at least three years full-time where English is the principal language of instruction must present a minimum score of 61 on the internet-based Test of English as a Foreign Language (TOEFL), 500 on the paper-based TOEFL, or 173 on the computer-based TOEFL. Students whose native language is English and attended an educational institution at the secondary level or above where English was the principal language of instruction for at least three years full time will not be held to the TOEFL admission requirement. Some majors may require higher scores. Institutional TOEFL scores are not accepted. Campuses specify the conditions for meeting the requirement of three years full-time English language instruction. Achieving the minimum TOEFL score shall be evidence of the applicant's English competency at a level that will allow the applicant to participate satisfactorily in and benefit from university study. For complete information regarding TOEFL, go to www.toefl.org (http://www.toefl.org).

Systemwide Placement Test Requirements
The California State University requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms. (For more information, see Entry Level Mathematics [ELM] (p. 70) examination and English Placement Test [EPT] (p. 71).)

Students register for the EPT and/or ELM at their local CSU campus. Questions about test dates and registration materials may be addressed to the Testing Center, HSS 206, (415) 338–2271, or at the Testing Center website: www.testing.sfsu.edu (http://testing.sfsu.edu).

First-Time Freshmen Applicants
A first-time freshman is a student who has earned no college credit beyond the summer immediately following high school graduation. Generally, local area first-time freshmen applicants qualify for regular admission if they:

1. have graduated from high school, have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination; and
2. have qualifying minimum eligibility index (see Eligibility Index below), and
3. have completed with grades of C or better each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the "a–g" pattern (see Subject Requirement (p. 55)).

Note: Applicants from outside of SF State's six county service area may be held to different requirements. For more information concerning service area admission please visit online at http://www.sfsu.edu/future/apply/impacted.html.

Eligibility Index
The eligibility index is the combination of the high school grade point average and scores on either the ACT or the SAT. The grade point averages are based on grades earned in courses during the final three years of high school. Included in calculation of GPA are grades earned in all college preparatory "a–g" subject requirements, and bonus points for approved honors courses. (See Honors Courses (p. 55) below).

The CSU Eligibility Index (EI) can be calculated by multiplying the grade point average by 800 and adding the total score on the mathematics and critical reading scores of the SAT. Students who took the ACT, multiply the grade point average by 200 and add ten times the ACT composite score. California high school graduates (or residents of California for tuition purposes) need a minimum index of 2900 old test or 2950 revised test using the SAT or 694 using the ACT. The Eligibility Index Tables illustrate several combinations of required test scores and averages (California High School Graduates or Residents Eligibility Index Table (p. 61) / Nonresidents or Graduates of High Schools Outside of California Eligibility Index Table (p. 63)).

For admission to terms during the 2017–2018 college year, the University has no current plans to include the writing scores from either of the admissions tests in the computation of the CSU Eligibility Index.

Persons who have not graduated from a California high school and are residents of California for tuition purposes need a minimum index of 3502 old (SAT) or 3570 new (SAT) or 842 (ACT). Applicants from outside the local area may be held to a higher standard. Graduates of secondary schools in foreign countries must be found to have academic preparation and abilities equivalent to applicants eligible under this section.

All applicants for admission are required to take the SAT or ACT and provide the scores of those tests to each CSU to which they seek admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs. Impacted CSU campuses require SAT or ACT scores of all applicants for freshman admission.

Honors Courses
Up to eight semesters of honors courses taken in the last three years of high school, including up to two approved courses taken in the tenth grade, can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

Note: A grade point average of 3.00 and above qualifies with any score on the ACT or SAT. Applicants from outside of SF State's six county service area may be held to different requirements. A grade point average of below 2.00 does not qualify for regular admission.

Subject Requirements
The California State University requires that first-time freshman applicants complete, with grades of C or better, a comprehensive pattern of college preparatory study totaling 15 units. A “unit” is one year of study in high school.

Iowa City, IA 52240
(319) 337–1270
www.act.org (http://www.act.org)
Two years of social science, including one year of U.S. history, or U.S. history and government;
Four years of English;
Three years of mathematics (algebra, geometry, and intermediate algebra);
Two years of laboratory science (one year of biological science and one year of physical science, both must include laboratory instruction);
Two years in the same language other than English (subject to waiver for applicants demonstrating equivalent competence);
One year of visual and performing arts (art, dance, drama/theater, or music);
One year of electives selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts, or other courses approved and included on the UC/CSU "a–g" list.

Subject Requirement Substitution for Students with Disabilities
All freshman applicants are encouraged to complete 15 units of college preparatory subjects. If an applicant is otherwise qualified, but unable to complete certain subjects because of a disability, an appeal can be made to the Admissions Office. The appeal committee recommends that the appeal include disability documentation by a qualified professional that illustrates how the disability has affected academic performance.

Subject Substitutions for Students with Disabilities: After admission to and enrollment in the university, students with disabilities who find they need to seek a course substitution should consult with the Disability Programs and Resource Center and be aware that course substitutions may limit later enrollment in certain majors.

Language Other Than English (LOTE) Requirement
The language other than English subject requirement may be satisfied by applicants who demonstrate equivalent competence in another language comparable to two years of high school foreign language study. Consult with a school counselor or the campus admissions office or Student Outreach Services for further information.

Making Up Missing College Preparatory Subject Requirements
Lower division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways.

- Complete appropriate courses with a C or better in adult school or high school summer sessions.
- Complete appropriate college courses with a C or better. One college course of at least three semester or four quarter units is considered equivalent to one year of high school study.
- Earn acceptable scores on specified examinations, e.g., SAT subject tests.

Please consult with any CSU admissions office for further information about alternative ways to satisfy the subject requirements.

Note: Many CSU campuses, including San Francisco State University, are not accepting lower division transfers. Ask the CSU campus if you can apply as a freshman or sophomore transfer before taking college courses to make up high school subject requirements.

Conditional Admission
San Francisco State University may conditionally admit first-time freshmen applicants using self-reported academic preparation through the junior year of high school and planned courses for the senior year. Students are required to submit an official transcript after graduation to certify that all college preparatory course work has been satisfactorily completed as well as proof of high school graduation. Official high school transcripts must be received prior to the deadline set by the university. Documentation of high school graduation may not be received any later than the census date for a student’s first term of enrollment. The University may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel any university registration for students who are found not to be eligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-conditional) admission when the university verifies that they have graduated and received a diploma from high school, meet the minimum eligibility index, have completed the comprehensive pattern of college preparatory "a–g" subjects, and, if applying to an impacted program, have met all supplementary criteria.

High School Students
Students still enrolled in high school are considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a specific program and does not constitute a right to continued enrollment.

California Promise
The California Promise Program enables a specific number of campuses of the California State University (CSU) to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in four years. Many campuses have also established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in two years. The program is limited to students who are residents of California.

Students who commit to enter either the 4-year or 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. To remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or quarter equivalent within each academic year, including summer. Participating campuses may stipulate other important requirements as well. Interested students entering the CSU in the fall 2017 term should contact the campus offices or visit www.calstate.edu/sas/california-promise.shtml (http://www.calstate.edu/sas/california-promise.shtml).

Students with Disabilities
If an applicant is otherwise qualified, but unable to complete certain subjects because of a disability, an appeal can be made to the Admissions Office. The appeal committee recommends that the appeal include disability documentation by a qualified professional that illustrates how the disability has affected academic performance.
Reentry Student Admission
As an alternative to regular admission criteria, an applicant who is twenty-five years of age or older may be considered for admission if he/she meets all of the following conditions:

1. Possesses a high school diploma (or has established equivalence through either the General Educational Development or California High School Proficiency Examinations).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years.
3. If there has been any college attendance in the last five years, has earned a C average or better in all college work attempted.
4. Is exempt from ELM and EPT or has taken course work that demonstrates competence in the entry-level skills that those tests assess.
5. Has applied to and been denied university admission based on regular admission criteria and has received a referral for an interview from Undergraduate Admissions.
6. Has completed an interview to determine
   a. the adequacy of the applicant’s motivation, preparation, and ability for academic success and
   b. that other educational alternatives are not appropriate.
   Upon the recommendation of the interviewer, the student may be admitted to the university under the aegis of CSU Executive Order No. 413.

Evaluation of Academic Records
Advanced Placement
San Francisco State University grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement (AP) Program of the College Board. Students who present scores of three or better may be granted up to six semester units of college credit.

The university also recognizes advanced placement (AP) courses undertaken by high school students in conjunction with a collegiate institution in those instances where the collegiate institution has recommended credit. For additional information, the student may call or write the Admissions Office or visit One Stop in the Student Services Building.

Credit from Colleges Holding Regional Accreditation
Credits earned in colleges holding regional accreditation are evaluated and advanced standing allowed on the basis of the evidence submitted on official transcripts. Credit toward the fulfillment of graduation requirements is allowed if the courses satisfactorily completed meet the standards and requirements of the university.

Credit from Colleges Lacking Regional Accreditation
Credits earned in colleges lacking regional accreditation may be accepted as a basis for advanced standing only when an applicant can demonstrate by examination, after he/she has enrolled in the university, that a satisfactory degree of proficiency has been attained in the courses in question. See Credit by Examination (below) for further information.

Credit for Community College Courses
Credit earned in accredited community colleges will be evaluated by the Admissions Office in accordance with the following provisions:

1. Community college credit is allowed up to a maximum of 70 semester units. Credits and grades earned after the student has the maximum allowable may be used on approval only to satisfy subject and grade point requirements but under no circumstances may they be applied toward the total units required for graduation from the university.
2. No upper division credit may be allowed for community college work.
3. Credit for one course may be transferred from a community college for a course in the introduction to education. No other credit is allowed for professional courses in education.

Credit by Examination
Students may challenge courses by taking examinations developed at San Francisco State University. Credit shall be awarded to those who pass them successfully. See Maximum Credit by Examination or Evaluation (p. 143) for additional information.

Credit for Non-Collegiate Instruction
San Francisco State University grants undergraduate degree credit for successful completion of formal instruction appropriate to the baccalaureate degree in non-college settings, either military or civilian, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs establish the numbers of units allowed.

Transfer Students
Transfer Policies of CSU Campuses
Authority for decisions regarding the transfer of undergraduate credits is delegated to each California State University (CSU) campus. Most commonly, college level credits earned from an institution of higher education accredited by a regional accrediting agency recognized by the United States Department of Education is accepted for transfer to campuses of the CSU.

General education requirements are the same for all CSU campuses, so California community college articulations of general education courses (about one-third of degree requirements) are handled centrally and may be accessed at www.assist.org (http://www.assist.org).

Campuses may enter into articulation agreements on either a course for course or program to program basis. Such articulations are common between CSU campuses and any or all of the California community colleges. Other articulation agreements may exist between CSU campuses and other institutions outside of the California Community College system. Established CSU/CCC articulations may be found on www.assist.org (http://www.assist.org).

No more than 70 semester units may be transferred to a CSU campus from an institution which does not offer bachelor’s degrees or their equivalents, e.g., community colleges. Given the university’s 30-unit residency requirement, no more than 90 total units may be transferred to the University from all sources.

First Time Freshmen with Transfer Units
Students who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet those admission requirements.
Lower Division Transfer Requirements
Due to enrollment pressures, many CSU campuses do not admit or enroll lower division transfer students. Currently, SF State is not accepting lower division transfer students. Students who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) at the time of entrance are considered lower division transfer students.

Upper Division Transfer Requirements
Students who have completed 60 or more transferable semester college units (90 or more quarter units) at the time of entrance are considered upper division transfer students. Generally, applicants qualify for admission as upper division transfer students if they meet all of the following requirements:

1. Have a grade point average of at least 2.0 (C or better) in all transferable units attempted. Applicants from outside of SF State’s six county service area may be held to a different GPA requirement.
2. Are in good standing at the last college or university attended and have completed at least 60 transferable semester units of college course work with a grade-point average of 2.0 or higher.
3. Receive a grade of C– or better in each course used to meet CSU general education requirements commonly referred to as the Golden 4 which includes Written Communication, Oral Communication, Critical Thinking and Quantitative Reasoning.
4. The 60 units must include the Golden 4 requirements listed above.

Associate Degree for Transfer (ADT)
Student Transfer Achievement Reform (STAR) Act (SB 1440)
The Student Transfer Achievement Reform (STAR) Act (SB 1440) establishes an Associate Degree for Transfer (ADT) for transfer for California Community College students and is designed to provide a clear pathway to the CSU degree major.

Students will submit official transcripts documenting conferral of the ADT upon request. Upon final verification of conferral of the ADT, Students earning either a transfer associate (AA-T or AS-T) degree prior to matriculation at SF State are guaranteed admission with junior standing to the CSU and given priority admission over other transfer students when applying to a local campus, or non-implemented program. AA–T or AS–T admission applicants are given priority consideration to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college.

Students who earn an AA-T or AS-T have met all lower division General Education (GE) requirements in transfer. Students should consult their Degree Progress Report (DPR) to see whether they have satisfied American Institutions and lower division Written English Requirements prior to transfer.

Students who earn an AA-T or AS-T degree but change their major to a non-similar major after admission to SF State have satisfied all lower division GE requirements but may not be able to complete all graduation requirements for the new major within 60 semester units. This also applies to students who choose to pursue a second major, or a minor, certificate or credential simultaneously.

Students with verified ADTs admitted during the 2014-2015, 2015-2016, and 2016-2017 academic years and who are pursuing similar majors are waived from the SF State Studies (previously Overlay) requirements. B.A. students must complete the Complementary Studies requirement as defined by the major department; with the approval of a department advisor, units taken in transfer or in residence at SF State may be used to satisfy Complementary Studies.

SF State degree programs formally approved as “similar” to ADT degree programs, with links to sample roadmaps, are available here: http://uap.sfsu.edu/articulation/roadmaps

These sample roadmaps display a possible pathway through the major based on four semesters of full-time attendance. Note that “similar” in this context means that SF State faculty have reviewed the relevant ADT curriculum and determined that a student earning that ADT can complete the SF State degree in no more than 60 units. Although the STAR Act guarantees completion of a similar BA or BS degree in 60 units, a timeframe for degree completion is not specified or guaranteed, particularly if options chosen as part of the AA-T or AS-T were not consistent with the prerequisite structure of the major at SF State.

Conditional Admission of Transfer Applicants
San Francisco State University may conditionally admit transfer applicants based on their self-reported academic preparation and courses planned for completion. All accepted applicants are required to submit official transcripts of all college-level work completed and final review will be conducted prior to the start of the semester to ensure that those admitted completed all required courses satisfactorily. The University may rescind admission for any student who is found not to be eligible after the final transcript has been evaluated. In no case may such documents be received and validated by the University any later than a student’s registration for their second term of CSU enrollment.

California Promise
The California Promise Program enables a specific number of campuses of the California State University (CSU) to establish pledge programs for entering first-time students who are both interested and able to complete baccalaureate degrees in four years. Many campuses have also established programs for students with Associate Degrees for Transfer from any California Community College to complete their baccalaureate degrees in two years. The program is limited to students who are residents of California.

Students who commit to enter either the 4-year or 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. To remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units or quarter equivalent within each academic year, including summer. Participating campuses may stipulate other important requirements as well. Interested students entering the CSU in the fall 2017 term should contact the campus offices or visit www.calstate.edu/sas/california-promise.shtml (http://www.calstate.edu/sas/california-promise.shtml).

International Student Admission Requirements
The CSU must assess the academic preparation of international students. For this purpose, “international students” include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications. The CSU uses separate requirements and application filing dates in the admission of international students. Verification of English proficiency (see the section on TOEFL Requirement
(p. 53)) for undergraduate applicants, financial resources, and academic performance are each important considerations for admission. Academic records from foreign institutions must be on file no later than the established document deadline date. Documents not in English must be accompanied by certified English translations.

San Francisco State University considers applications and accepts qualified applicants for admission to the university according to the International Student Application Calendar. (Earlier application deadlines may be enforced by various academic departments, please check with the department for earlier deadlines).

All F-1/J-1 visa international students must be formally admitted and enrolled in a declared major. They may not be enrolled in the university in non-degree status unless through a College of Extended Learning approved program.

**International Student Application Calendar**

Application periods for San Francisco State University may change. Earlier application deadlines may be enforced by various academic departments, please check with the department for earlier deadlines. For the most current information, see the Future Students (http://www.sfsu.edu/future) page on the SF State Web site.

**Undergraduate Application Periods**

- Fall Semester (which begins in August): October 1 – May 1
- Spring Semester (which begins in January): August 1 – September 30

Any student who is a permanent resident (holds an Alien Registration Card or endorsed I-94, showing U.S. immigration service approval of Permanent Resident application) is not subject to the International Student Application Calendar, subject only to the same program deadlines as United States citizen applicants. **Students in this category must submit with their application a copy of their Alien Registration Card or endorsed Form I-94.**

**Tuition and Costs**

The university does not have federal or state financial aid for international students. Therefore, the student must present satisfactory evidence of adequate funds to meet financial needs at the time of enrollment at the university. International students are required by the U.S. Immigration service to enroll at SF State in full-time status; for undergraduate students, this means at least 12 units per semester. For current tuition and costs, see the SF State Bursar’s Office web site (http://www.sfsu.edu/~bursar) (see the link to Schedule of Tuition and Fees/Registration Process).

**Admission Procedures**

1. Complete and submit the CSU Application for Admission at csumentor.edu (http://www.csumentor.edu).

2. Students will be required to submit official, original or certified/attested copies of all original academic documents in the original language of issue. Copies must be certified by the appropriate government or school officials. Required documents include the complete official academic record showing all courses or subjects, dates of enrollment and grades/marks received; official degree(s), diplomas, or certificate(s) awarded. Official word-for-word English translations must be submitted in addition to the original language documents.

3. Applicants who are presently attending a college or university in the United States must, in addition to their international records, submit official transcripts of all work completed and in progress.

4. Applicants must be qualified to enter a university in their home country and have a good scholastic record from an accredited/recognized school.

5. All applicants for admission to the university must pay a $55.00 application fee. The application fee is not refundable nor can it apply toward a later application for admission.

6. All SF State undergraduate applicants, regardless of citizenship, must demonstrate English Language Proficiency by exam or previous academic instruction in English.

a. **Exam (TOEFL, IELTS):**

   Applicants can demonstrate English Language Proficiency by submitting official TOEFL or IELTS Score Reports.

   **Minimum Scores Required** (Note that some majors may require higher scores):

   - **TOEFL** (Test of English as a Foreign Language)
     - Paper-based Test (PBT): 500
     - Computer-based Test (CBT): 173
     - Internet-based Test (IBT): 61

   Note that Institutional TOEFL scores do not include Speaking nor Writing Sections and so are not accepted. Specific information regarding the exact testing dates, testing centers, fee, and registration is on the Web at www.toefl.org (http://www.toefl.org). Applicants must request that test results be sent to the Admissions Office. The SF State undergraduate institutional code is 4684.

   - **IELTS** (International English Testing System)
     - Minimum Overall Score 6.0
     - Specific information regarding the exact testing dates, testing centers, fee, and registration is online at ielts.org (http://www.ielts.org).

b. **Education in English:**

   Students who have successfully completed three years of full-time courses at the secondary level or above at an institution where English was the principal language of instruction do not need to submit TOEFL/IELTS scores.

   Upper division undergraduate transfer students from a U.S. university/college who have met the CSU admission subject requirements, which include the English courses Oral Communications, Written Communication and Critical Thinking may be exempt from the TOEFL/IELTS requirement.

**SF State’s American Language Institute**

Applicants who do not have the minimum TOEFL/IELTS score may enroll in SF State’s intensive English language program, American Language Institute (ALI). ALI prepares non-native speakers of English for academic study in the university and issues certificates of eligibility for student visas. For more information, call (415) 338-1438 or go to ali.sfsu.edu (http://ali.sfsu.edu).

**Type of Visa**

San Francisco State University is authorized under federal law to enroll non-immigrant alien students. International students who are outside of the United States, upon receipt of admission documents and U.S. Immigration Certificate of Eligibility, should secure a non-immigrant student visa. The College of Extended Learning is also authorized under federal law to enroll non-immigrant alien students. **Subsequent**
to admission, international students must be enrolled continuously every semester and carry a full course of study (twelve units for undergraduates).

Health Insurance
International students (F and J visas) are required to show evidence of health insurance coverage to be permitted to register for courses. Renewals are checked each semester to re-register unless the insurance policy is purchased annually. For additional information, students should go to the Health Service web site at health.sfsu.edu (http://health.sfsu.edu).

Readmission and Special Sessions
Former students of the university must apply for readmission if they have been absent for two consecutive semesters (excluding winter and summer sessions). A student must be enrolled in at least one class through the end of the 20th day of instruction to be considered a continuing student. (See Planned Educational Leave of Absence (p. 146) for more information.) If a student has attended any other educational institution since previous attendance as a matriculated student at this university, transcripts for that academic work must be supplied at the time of readmission.

Undergraduate applications for readmission and all supporting materials must be filed in the Admissions Office in accordance with current requirements and procedures. Students on academic probation, who discontinued their official enrollment at the university for more than one semester, will be considered for readmission only upon presentation of evidence of having earned a C average in all university work attempted at San Francisco State University. Grade point deficiencies incurred at San Francisco State University may be removed only by course work taken through Open University, Winter Session, or Summer Session at San Francisco State University.

Readmission information for graduate students can be found in the Graduate Studies section of this Bulletin.

Special Sessions
A limited number of degree, credential, and certificate programs are offered through special sessions. To be considered officially matriculated at SF State, special sessions students must be admitted to a specific degree, credential, or certificate program offered by an academic department via the College of Extended Learning (CEL) and then enroll through CEL in the courses for that specific program. Special sessions degree, credential, and certificate students have matriculated status.

The list of current and anticipated special sessions programs, grouped by category (degree, credential, and certificate) appears in the College of Extended Learning (p. 42) section of this Bulletin.

The following websites provide additional information: http://ueap.sfsu.edu/, and https://cel.sfsu.edu/.
Eligibility Index Table for California High School Graduates or Residents of California 2018–2019

(A GPA of 3.00 and above qualifies for any score in ACT and SAT)

These NEW SAT Eligibility Index scores will be effective for the upcoming 2018–2019 admissions cycle

GPA Below 2.0 does not qualify for admission

*For admissions purposes, the CSU uses only the new SAT scores for mathematics and evidence based on reading and writing.
Eligibility Index Table for Nonresidents or Graduates of High Schools Outside of California 2018–2019

ACT or SAT score required for regular admission by grade point average (GPA). A grade point average of 3.61 and above qualifies with any score. A grade point average below 2.47 does not qualify for regular admission.

These NEW SAT Eligibility Index scores will be effective for the upcoming 2018–2019 admissions cycle.

AP – IB – CLEP Examinations

Standardized External Examinations

San Francisco State University grants credit toward its undergraduate degrees for successful completion of the three standardized exams below. For credit to be awarded, official score information must be sent directly to SF State from the test administrator - College Board (AP, CLEP) or International Baccalaureate (IB).

Students may not earn duplicate credit if they have previously completed or subsequently complete equivalent exams or college-level course work.

Select an examination below for information about the award of SF State credit.

Advanced Placement (AP) (https://ueap.sfsu.edu/sites/default/files/assets/docs/artic_docs/AP_Credit_curr.pdf)

College-level Examination Program (CLEP) (https://ueap.sfsu.edu/sites/default/files/assets/docs/artic_docs/CLEP_Credit_curr.pdf)

International Baccalaureate (IB) (https://ueap.sfsu.edu/sites/default/files/assets/docs/artic_docs/IB_Credit_curr.pdf)

Previous Years (Archives) (http://ueap.sfsu.edu/articulation/resources)
At SF State, students acquire these skills and this knowledge through General Education (GE), major, minor and/or elective courses. All are important parts of the overall experience of a liberal education to prepare students to be successful in the 21st Century.

SF State awards three baccalaureate degrees:

- Bachelor of Arts (B.A.)
- Bachelor of Science (B.S.)
- Bachelor of Music (B.M.)

Requirements for all three degrees are listed on the following pages. Consult your major department for specific degree requirements.

**Major**

Completion of a major is a graduation requirement. A major is a study in depth a focused area of study that requires the student to take a specific set of courses that lead to a deep understanding of a particular subject matter. At SF State there are over 100 undergraduate majors. Choosing a major involves declaring this choice at the time of admission or consulting with faculty advisors and then submitting a Change of Major Form to the department office of the intended major.

Typically, students declare their major during their sophomore year after completing most of their lower division General Education requirements. Lower division students who are undecided about their major may identify themselves as undeclared. Being undeclared provides the opportunity to explore a variety of courses in different areas of interest. Students who enter SF State as freshmen must declare a major by the time they complete 70 units.

Some majors are identified as impacted. These majors are in high demand and more students than can be accommodated want to declare these areas of study as their majors. An impacted major may include supplemental admission requirements. Requests to declare impacted majors must be received by the end of the initial filing period for the term for which new majors are being accepted. Continuing students who have earned 96 units or more may be prevented from changing into an impacted major.

Some majors require that students meet specific prerequisites before gaining admission.

The change of major period for all non-impacted majors is August 1 – October 1 for the Fall semester and January 1 – March 1 for the Spring semester.

The following rules apply to all undergraduate majors:

- **Double Major**
  
  With careful academic planning, it may be possible for students to complete two majors. When possible, students are encouraged to complete both degrees without exceeding 120 units. Students who are significantly over 120 units may be monitored and required to meet with an academic advisor to track their degree progress. Students who complete two majors may apply for both degrees in a single commencement by submitting one degree application with approval from both major departments. No additional fee is required for the second application.

- **Duplicate Use of Credit Between Majors**
  
  Students who complete two majors may count the same courses for both majors where there is a clearly stated overlap in the Bulletin requirements. While these courses may be used to satisfy
requirements for two majors, the units shall be counted only once in fulfillment of the minimum units required for award of the baccalaureate degree.

- **Duplicate Use of Credit Between the Major and GE**
  If applicable, an unlimited number of courses used to meet General Education requirements may be used to fulfill major requirements. While these units (courses) may be used to satisfy both major requirements and GE requirements, they shall be counted only once in fulfillment of the minimum units required for award of the baccalaureate degree.

- **Change of Major**
  Students who change their major after being admitted, or who declare a major after being admitted with an undeclared major, must fulfill the major requirements in effect at the time they declare or change their major. Students requesting to change their major after 96 units must complete a special change of major form found here (http://www.sfsu.edu/~admisrec/forms/regforms/cmf96units.pdf). Students who have earned 96 units or more may be prevented from changing into an impacted major.

- **Residence Units**
  A minimum of twelve units in the major must be completed in residence.

- **Grade Point Average**
  Students must have a minimum 2.0 grade point average (GPA) in their major. Some majors have additional minimum grade requirements. Consult with the major department.

- **Time Limit to Complete Requirements for Undergraduate Degree**
  There is normally no statutory period for units required for an undergraduate degree at SF State. However, if any course required for the major, minor, or certificate was taken more than seven years prior to graduation, then departments and programs may require students to retake that course or demonstrate currency in that subject. Consult with the department for more information.

**Complementary Studies: Bachelor of Arts Degrees (12 Units Minimum)**

Bachelor of Arts students must complete at least 12 units of Complementary Studies outside of the primary prefix for the major. Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Students earning Bachelor of Music or Bachelor of Science degrees do not have to complete the Complementary Studies requirement. Details about Complementary Studies can be found in the Bulletin description for each B.A. degree. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. These students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

**Minor**

Students may also elect to complete a minor. Students are encouraged to complete the minor and major within 120 units. Like a major, the minor is a focused area of study; however, a minor does not require as many units. Currently, at SF State, only the Journalism major requires a minor to earn a bachelor’s degree.

The following policies apply to completion of an approved minor:

- **Duplicate Use of Credit Between Major and Minor**
  Courses may count for both a major and a minor where there is a clearly stated overlap in the Bulletin requirements. While these courses may be used to satisfy requirements for both a major and a minor, the units shall be counted only once in fulfillment of the minimum units required for award of the baccalaureate degree.

- **Duplicate Use of Credit Between Minor and GE**
  No limitations.

- **Upper Division/Residence Units**
  At least half of the units making up the minor must be taken in residence and at least half must be upper division.

- **Minimum Units**
  A minor must include a minimum of twelve (12) units.

- **No Minor in Major**
  Students may not earn a major and a minor in the same discipline.

- **Grade Point Average**
  A minimum 2.0 grade point average is required in the minor. Some minors have additional minimum grade requirements. Consult with the department.

**Introduction to General Education**

Your major provides in-depth study in one subject matter, often one directly related to a particular career. General Education (GE), on the other hand, involves study in breadth – for acquiring knowledge and skills for a range of future experiences throughout life, for providing the intellectual agility for moving from one career to another, and for making future contributions in a number of possible communities. The University requires students to complete 48 units of General Education requirements (GE).

Areas A through D of GE contain only lower division classes and should be taken in the first two years of college. They provide basic skills as well as breadth in a variety of disciplinary areas. Area A of GE is designed to improve student’s basic skills in communication in English (oral and written) and critical thinking. Area B of GE provides a breadth of knowledge about the physical and life sciences, including laboratory experiences. Area B also provides students an opportunity to expand their mathematics and quantitative reasoning skills. Area C of GE focuses on the Arts and Humanities and gives students a chance to explore the Humanities through literature. Area D of GE covers the social sciences and includes the US History and Government requirements.

Area E, Lifelong Learning and Self-Development (LLD), gives students an opportunity to explore themselves and the ways in which they interact with the world around them. These classes can be upper or lower division.

**Overview of General Education at San Francisco State University**

General Education Breadth requirements have been designed to complement the major program and electives completed by each baccalaureate candidate, to assure that graduates have made noteworthy progress toward becoming truly educated persons. These requirements are designed to provide the knowledge, skills, experiences, and perspectives that will enable SF State students to expand their capacities to take part in a wide range of human interests and activities; to confront personal, cultural, moral, and social problems that are an inevitable part of human life; and to cultivate both the requisite skills and enthusiasm for lifelong learning. Courses approved for GE Breadth are responsive to the need for students to have developed knowledge of, or skills related
to, quantitative reasoning, information literacy, intellectual inquiry, global awareness and understanding, human diversity, civic engagement, communication competence, ethical decision-making, environmental systems, technology, lifelong learning and self-development, and physical and emotional health throughout a lifetime.

</table>

These graduation requirements are for first-time freshmen entering SF State Fall 2014 or later. Other students should consult the Division of Undergraduate Education and Academic Planning (http://ueap.sfsu.edu/bacc-regs/GraduationRequirements) for information about their requirements.

**Notes:** LD = Lower Division; UD = Upper Division

1. The unit requirement can be satisfied by either an independent course or a course that is taken in another area of the curriculum (general education, major, minor, elective, etc.). For example, a 3-unit physical science course that includes a 1-unit laboratory component satisfies both the 3-unit physical science requirement and the 1-unit lab science requirement.

**Area A: English Language Communication and Critical Thinking – 12 units**

Students taking courses in fulfillment of A1, A2, and A4 will develop knowledge and understanding of the form, content, context, and effectiveness of communication. Students will develop proficiency in oral and written communication in English, examining communication from the rhetorical perspective and practicing reasoning and advocacy, organization, and accuracy. Students will practice the discovery, critical evaluation, and reporting of information, as well as reading, writing, and listening effectively.

In critical thinking (A3) courses, students will understand logic and its relation to language; elementary inductive and deductive processes, including an understanding of the formal and informal fallacies of language and thought; and the ability to distinguish matters of fact from issues of judgment or opinion. In A3 courses, students will develop the abilities to analyze, criticize, and advocate ideas; to reason inductively and deductively; and to reach well-supported factual or judgmental conclusions.

**Area B: Scientific Inquiry and Quantitative Reasoning – 9 units**

In B1–B3, students develop knowledge of scientific theories, concepts, and data about both living and non-living systems. Students will achieve an understanding and appreciation of scientific principles and the scientific method, as well as the potential limits of scientific endeavors and the value systems and ethics associated with human inquiry. The nature and extent of laboratory experience is to be determined by each campus through its established curricular procedures.

Courses in subarea B4 shall have an explicit Entry Level Math II prerequisite (Intermediate Algebra), and students shall develop skills and understanding beyond the level of intermediate algebra. Students will not just practice computational skills, but will be able to explain and apply basic mathematical concepts and will be able to solve problems through quantitative reasoning.

**Area C: Arts and Humanities – 9 units**

Across the disciplines in their Area C coursework, students will cultivate intellect, imagination, sensibility and sensitivity. Students will respond subjectively as well as objectively to aesthetic experiences and will develop an understanding of the integrity of both emotional and intellectual responses. Students will cultivate and refine their affective, cognitive, and physical faculties through studying great works of the human imagination. Activities may include participation in individual aesthetic, creative experiences; however, Area C excludes courses that exclusively emphasize skills development.

In their intellectual and subjective considerations, students will develop a better understanding of the interrelationship between the self and the
creative arts and of the humanities in a variety of cultures. In subarea C3, students will explore the humanities with a specific focus on literature.

**Area D: Social Sciences – 9 units**

Students learn from courses in multiple Area D disciplines that human social, political and economic institutions and behavior are inextricably interwoven. Through fulfillment of the Area D requirement, students will develop an understanding of problems and issues from the respective disciplinary perspectives and will examine issues in their contemporary as well as historical settings and in a variety of cultural contexts. Students will explore the principles, methodologies, value systems and ethics employed in social scientific inquiry.

The CSU American Institutions requirement (D2 and D3) may be met either by examination (AP, CLEP, or SF State competency exam) or by taking at least one course in subareas D2 and D3.

In U.S. History courses (D2), students learn about the relationships among regions within the area of study and with external regions and states and the role of major ethnic and social groups in such events and the contexts in which the events have occurred, with attention to the multiple heritages of US culture, including Native American peoples and cultures.

The events covered in D2 courses will be presented within a framework which illustrates the continuity of American experience and its derivation from other cultures including consideration of three or more of the following: politics, economics, social movements, and geography. D2 courses will also cover basic American values and ideals, including freedom, equality of opportunity, equality before the law, equality of moral regard for each other and social fairness.

In U.S. and California Government courses (D3), students learn about the political philosophies of the framers of the Constitution and the nature and operation of United States political institutions and processes. Students learn basic concepts in political theory, political structure and process, the legitimacy and authority of the government, and the application of these concepts to understanding the US political system, particularly the roles of law and the Constitution. Students also learn about the rights and obligations of citizens established under the Constitution, in the context of basic American values and ideals.

Students also learn about California government, particularly the constitution of the State of California within the framework of the evolution of Federal-State relations and the nature and processes of State and local government under that Constitution. D2 courses will explore contemporary relationships of State and local government, the resolution of conflicts and the establishment of cooperative processes under the constitutions of both the State and Nation, and the political processes involved.

**Area E: Lifelong Learning and Self-development (LLD)**

Students taking courses in Area E learn content such as human behavior, sexuality, nutrition, physical and mental health, stress management, financial literacy, social relationships and relationships with the environment, as well as implications of death and dying and avenues for lifelong learning. Area E (LLD) courses can be found in both the lower and upper division GE.

**Upper Division General Education**

Upper Division General Education is designed to provide students with the opportunity to integrate and apply the knowledge, skills, and insights gained from their lower division general education courses. All students must complete a total of nine units with one course in each of the following CSU-mandated groupings of domains of knowledge and inquiry:

1. Upper Division Physical and/or Life Sciences (Area UD–B),
2. Upper Division Arts and/or Humanities (Area UD–C), and
3. Upper Division Social Sciences (Area UD–D).

**SF State Studies Requirement**

SF State Studies courses fulfill graduation requirements, but do not have specific unit requirements. They are meant to ensure that students take a least one course in areas that the campus feels are important to graduates of our university. There are currently four graduation requirements that students must meet:

- American Ethnic and Racial Minorities (AERM),
- Environmental Sustainability (ES),
- Global Perspectives (GP) and
- Social Justice (SJ).

Courses certified as meeting the SF State Studies requirements may be upper or lower division, may be in General Education, a major or minor, or an elective. Because of the large number of SF State Studies courses, most students will take more than one SF State Studies course and will not have to seek out such courses.

A detailed listing of all General Education areas and courses begins on General Education Lower Division. You can find specific areas of our GE program by visiting the General Education Table of Contents (p. 82)

**Other Academic Programs**

Certificate programs provide individuals the opportunity to develop specialized skills in areas that may complement majors or minors. These programs focus on a narrow spectrum of knowledge or skills and require fewer units than a major. SF State's College of Extended Learning also offers certificate programs. Students who are pursuing a baccalaureate degree and certificate at the same time are encouraged to complete both programs within 120 units.

Pre-credential programs are offered for students interested in pursuing teaching credentials after completing the baccalaureate degree. Students may complete preparatory course work as an undergraduate student and are encouraged to seek advising from the College of Education's Credential and Graduate Services Center, the Liberal Studies office and/or the Child and Adolescent Development Program.

Pre-professional programs are available for students who are interested in pursuing professional school studies after the baccalaureate degree. For information and referral, consult the Undergraduate Advising Center (http://advising.sfsu.edu).

**Second Baccalaureate Degree**

Subject to restrictions imposed by the CSU Chancellor's Office, in rare instances a student who already holds a bachelor's degree may apply for admission to work toward a second baccalaureate degree. If approved, the student will be admitted to the undergraduate program, typically at the senior level. Check Admissions for programs open to second baccalaureate applications.

Students who have previously earned a baccalaureate or higher degree from an institution accredited by a regional accrediting association will not have to complete any GE or additional graduation requirements.
These students will only be held to completing courses specifically required for the secondary major.

Whether or not the second baccalaureate degree is ever completed, none of the credits earned may later be considered for post-baccalaureate status at this University. The only possible exception is in the last semester before the award of the degree as provided for under the section Courses in Excess of Bachelor Degree Requirements (p. 154).

Undergraduate Education continues in Undergraduate Advising (p. 111).

Undergraduate Graduation Requirements

The following sections include important graduation requirements for undergraduate studies.

Systemwide Placement Test Requirements

The CSU requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college entry-level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms. Students register for the EPT (www.csuenglishsuccess.org/ept) and/or ELM (www.csumathsuccess.org/elm_exam). The campus may establish deadlines by which new students must register for and/or take placement exams as a requirement for enrollment. Questions about test dates and registration materials may be addressed to the Testing Center. (http://testing.sfsu.edu)

Entry Level Mathematics Examination (ELM)

Students who do not have an ELM exemption are required to take the ELM before their first semester of matriculated attendance at SF State.

The Entry Level Mathematics (ELM) Examination is designed to assess and measure the level of mathematics skills acquired through three years of rigorous college preparatory mathematics coursework (Algebra I and II, and Geometry) of students entering the California State University (CSU). The CSU ELM must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 50 or above on the ELM will be placed in college-level mathematics classes.

Questions about ELM exemptions should be referred to the Developmental Studies Office (http://developmentalstudies.sfsu.edu).

Test Exemptions

Students who present proof of one of the following qualify for an ELM exemption and will not need to take the ELM test.

Students who are considered “conditionally ready” below based on CAASPP ACT, or SAT scores but who do not successfully complete an approved senior year math course, do not need to test on the ELM. These students are placed automatically into one term of developmental math (ESM 70/MATH 70). These students are required to participate in the Early Start Program. Go to developmentalstudies.sfsu.edu/esp (http://developmentalstudies.sfsu.edu/esp) for more information.

Acceptable ELM Exemption Score/Grade

<td>3 or above</td>
</tr>
<tr>
<td>Completion and transfer of a course that satisfies the General Education Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement</td>
<td>Grade of C or better</td>
</tr>
</tbody>
</table>

Exemptions from the ELM are granted only to those who present proof of one of the following:

- A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam.
- A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement. The Conditional requirement may be met by completing an approved math course in the 12th grade and earning a grade of “C” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless an exemption was met through one of the following:
  - New SAT: A score between 520–560 on the mathematics section of the new SAT Test*
  - Old SAT: A score between 490–540 on the mathematics section of the old SAT Reasoning Test
  - A score between 20–22 on the mathematics section of the ACT Test
Undergraduate Graduation Requirements

- New SAT: A score of 570 or above on the mathematics section of the new SAT
- Old SAT: A score of 550 or above on the mathematics section of the old SAT Reasoning Test
- SAT Subject Test: A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)**
- A score of 23 or above on the ACT Mathematics Test
- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC
- A score of 3 or above on the College Board Advanced Placement Statistics examination
- Completion and transfer to CSU of a college course that satisfies the requirement in Quantitative Reasoning, provided such a course was completed with a grade of “C” or better

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.
**Note: there were no changes to the SAT Subject Tests; therefore, the cut score for the Subject Test in Mathematics (levels 1 or 2) remains the same.

Note: Since March 22, 2002, ELM is scored on a scale of 00–80. A score of 50 or above represents demonstrated entry-level mathematics proficiency. Students scoring 50 or above on the ELM examination are eligible to enroll in a GE Quantitative Reasoning course. Students who score below 50 must complete appropriate developmental mathematics courses before enrolling in a GE Quantitative Reasoning course (see remedial courses below).

Since March 22, 2002, ELM scores have had the following implications:

<table>
<thead>
<tr>
<th>ELM Score</th>
<th>Implications</th>
</tr>
</thead>
<tbody>
<tr>
<td>50 or higher</td>
<td>Students may enroll in a GE Quantitative Reasoning course. Consult an advisor for placement in an appropriate level course.</td>
</tr>
<tr>
<td>42–48</td>
<td>Students must take and complete ESM 70 or MATH 70 (3 units), with a grade of C or better. First-time freshmen, starting in fall, must participate in the Early Start Program during the summer prior to their first term of attendance. See <a href="http://developmentalstudies.sfsu.edu/esp">http://developmentalstudies.sfsu.edu/esp</a>.</td>
</tr>
<tr>
<td>40 and below</td>
<td>Students must take and complete ESM 60 or MATH 60 (3 units), with a grade of C or better. First-time freshmen, starting in fall, must participate in the Early Start Program during the summer prior to their first term of attendance. See <a href="http://developmentalstudies.sfsu.edu/esp">http://developmentalstudies.sfsu.edu/esp</a>. After completing ESM 60 or MATH 60 with a C or better, students must complete MATH 70 with a grade of C or better. Grades and units earned in ESM 60/MATH 60 and ESM 70/MATH 70 are not applied toward the student’s GPA or the number of units required for graduation. However, they do count for financial aid purposes. Students who took the ELM examination prior to March 22, 2002, should contact the Testing Center (<a href="http://testing.sfsu.edu">http://testing.sfsu.edu</a>), for equivalent ELM scores and appropriate placement into courses. Students may also consult the Developmental Studies Office (<a href="http://developmentalstudies.sfsu.edu">http://developmentalstudies.sfsu.edu</a>) for additional ELM information. Newly admitted undergraduate students who score below 50 on the ELM examination must begin developmental math by the first semester of matriculated attendance at SF State. Students starting in fall are required to begin preparation in summer through the Early Start Program. All required developmental course work must be completed within one year from the time of admission to SF State. Students who do NOT complete their developmental mathematics coursework within one year from the time of enrollment are subject to disenrollment from the University. They may return after no more than two consecutive semesters with successful completion of an approved equivalent intermediate algebra course elsewhere. For further information, contact the Developmental Studies Office (<a href="http://developmentalstudies.sfsu.edu">http://developmentalstudies.sfsu.edu</a>). Students who register for a GE Quantitative Reasoning course at SF State must: (<a href="mailto:remedial@sfsu.edu">remedial@sfsu.edu</a>) 1. have received a total score of 50 or above on ELM examination; or (<a href="mailto:remedial@sfsu.edu">remedial@sfsu.edu</a>) 2. have obtained one of the approved ELM exemptions listed above; or (<a href="mailto:remedial@sfsu.edu">remedial@sfsu.edu</a>) 3. have passed (<a href="mailto:remedial@sfsu.edu">remedial@sfsu.edu</a>) ESM 70/MATH 70 with a C or better at SF State, or an equivalent course elsewhere with a grade of credit (CR) or C or better; or 4. after receiving a conditional exemption status from the list above, successfully completed an approved senior year math course with a grade of C or better. Note: there are additional prerequisites for entry into MATH 226.</td>
</tr>
</tbody>
</table>

CSU English Placement Test (EPT)
The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the California State University. The CSU EPT must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including developmental courses. Students who score 147 or above on the EPT will be placed in college-level composition classes and asked to complete DSP (p. 71) to choose appropriate English courses. Students who are considered “conditionally ready” based on CAASPP, ACT, or SAT scores
but who do not successfully complete an approved senior year English course, do not need to test on the EPT. These students are required to participate in the Early Start Program. Go to the Developmental Studies Office Early Start (http://developmentalstudies.sfsu.edu/esp) page for more info.

Exemptions from the EPT are granted only to those who present proof of one of the following:

<table>
<thead>
<tr>
<th>Acceptable EPT Exemptions</th>

<tr>
<td>• Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better</td>
</tr>
</tbody>
</table>

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.

Newly admitted undergraduate students who score below 147 on the EPT examination must begin first-year composition by the first semester of matriculated attendance at SF State. Students starting in fall are required to begin preparation in summer through the Early Start Program. All required first-year composition course work must be completed within one year from the time of admission to SF State. Students who do NOT complete designated courses within their first-year composition requirement within one year from the time of enrollment are subject to being disenrolled from the University. They may return after no more than two consecutive semesters with successful completion of an approved equivalent English composition course elsewhere. For further information, contact the Developmental Studies Office (http://developmentalstudies.sfsu.edu) in Administration building room 211.

**Directed Self-Placement**

While all entering undergraduates are required by the CSU to take the English Placement Test (except those with an acceptable exemption), SF State does not use test results to place students into required First-Year Composition classes (these classes are described in the section of the Bulletin “Written English Proficiency Requirements (p. 73)”). San Francisco State University believes that with good guidance from us, the student is the best person to choose which First-Year Composition course is the most appropriate place to begin meeting SF State’s Written English Proficiency Requirement. SF State has designed an online Directed Self-Placement (DSP) (p. 71) application that will guide students through the steps necessary to choose their First-Year Composition Course.

All entering undergraduates are required to complete SF State’s online DSP before they attend new student orientation and before they can enroll in their first-year composition classes. The DSP application can be accessed at dsp.sfsu.edu/ (http://dsp.sfsu.edu/)

Students required to participate in Early Start will complete the online DSP as part of the Early Start English course.

**Early Start Program**

Entering resident freshmen who are not proficient in math or English will need to start the remediation process before their first regular term.

The goals of the Early Start Program (http://developmentalstudies.sfsu.edu/esp) are to

• Better prepare students in math and English, before the fall semester of freshman year
• Add an important and timely assessment tool in preparing students for college
• Improve students’ chances of successful completion of a college degree

California residents admitted to SFSU for a fall semester who meet one or more of the following and have not otherwise demonstrated college readiness are required to participate in the Early Start Program:

• A score of 48 or below on the ELM
• A score of 146 or below on the EPT
• Any student who was categorized as conditionally ready in math and/or English who did not meet conditions (i.e. did not complete an approved senior year, year-long course with a “C” grade or better)

Newly admitted freshman students who are required to complete Early Start will be notified of the requirement and options for completing the program as part of campus communications to newly admitted students. Students enrolled in Early Start English will meet the Directed Self-Placement requirement as part of the Early Start course.

Composition for Multilingual Students Placement Test (CMSPT)
In addition to the CSU English Placement Test (EPT), all non-native speakers of English must take the SF State Composition for Multilingual Students Placement Test (CMSPT) before they can enroll in Composition for Multilingual Students (CMS) courses. Placement in CMS courses is determined by the CMS coordinator solely on the basis of CMSPT scores and not on any course work or tests taken at other institutions.

Written English Proficiency Requirements
All students must demonstrate competency in writing as a requirement for graduation. The following information lists the ways available to meet this graduation requirement.

Summary of Written English Proficiency Requirements
Note: Non-native speakers of English may follow a different course sequence to fulfill their Written English Proficiency Requirements, which are described below in the section titled “Written English Proficiency Requirements for Multilingual Students”.

1. English Placement Test (EPT): All newly-admitted undergraduate students must take the California State University English Placement Test (CSU – EPT) prior to their first semester of matriculated attendance at SF State, except those with an approved EPT exemption listed in the University Bulletin. Non-native speakers of English must also take the Composition for Multilingual Students Placement Test (CMSPT) prior to enrollment. First-time freshmen who were not able to show English proficiency at entry shall attain such proficiency during their initial college year of study at San Francisco State University.

2. First-Year Composition (GE Area A2, Written English Communication I): Two equivalent pathways satisfy the First-Year Composition Requirement:
   a. Stretch ENG 104/ENG 105 or ENG 114.
   b. ENG 114.

3. Second-Year Composition (GE Area A4, Written English Communication II): Prerequisite is a grade of Credit (CR) or C– or better in Stretch ENG 104/ENG 105 or ENG 114 or equivalent course. ENG 214, or an equivalent course, fulfills the Second-Year Composition Requirement.

4. GWAR: Undergraduate students must complete the CSU Graduation Writing Assessment Requirement (GWAR). Prerequisite is a grade of Credit (CR) or C- or better in ENG 214, or equivalent course.

Written English Proficiency Requirements for Native Speakers of English

First Year Composition for Native Speakers (GE Area A2)
All newly-admitted undergraduate students who have not yet met first-year composition, must complete Directed Self-Placement to determine the pathway by which they choose to fulfill the First-Year Composition Requirement.

Two equivalent pathways satisfy the First-Year Composition Requirement for native speakers of English: Stretch ENG 104/ENG 105 or ENG 114. Either pathway satisfies GE Area A2, Written English Communication I. Students enrolling in stretch English take ENG 104 in the fall and ENG 105 in the spring. Students who enter in spring, must take both ENG 104 and ENG 105 concurrently.

Grading in all composition courses will be either ABC/No Credit or Credit/No Credit (CR/NC). A grade of CR or C- or better in ENG 104/ENG 105 or in ENG 114 satisfies the First-Year Composition Requirement. Students who receive credit for these courses will proceed to ENG 214.

Students who receive a grade of NC for ENG 105 must enroll in ENG 114. Students who receive a NC in ENG 104 in the fall term must enroll in both ENG 104 and ENG 105 during the spring term. Students who fail to complete ENG 104 within one year from the time of enrollment are subject to disenrollment from the University. They may return after completing an equivalent to First-Year Composition elsewhere within two consecutive semesters after not meeting this requirement. For more information contact the Developmental Studies Office (http://developmentalstudies.sfsu.edu) in ADM 211. Only those students who can demonstrate one of the following are not required to take First Year Composition at SF State:

1. A score of 3, 4, or 5 on either the English Language and Composition or English Literature and Composition examinations of the College Board Advanced Placement Program.
2. A score of 4 or higher on IB Language A – Language and Literature (HL) – English or IB Language A – Literature (HL) – English.
3. Completion of an equivalent college-level course elsewhere of 3 semester or 4 quarter units with a grade of credit (CR) or C– or better.

Second Year Composition for Native Speakers (GE Area A4)
A GE Area A4 course (e.g. ENG 214) should be taken prior to completion of 60 semester units by all students who have not received credit for an equivalent test or course.

Successful completion of ENG 104 – ENG 105 or ENG 114 is a prerequisite to all Area A4 courses. Area A2 and A4 courses may not be taken concurrently. ABC/NC grading is used in both courses.

Students who have received scores of 3, 4, or 5 on the College Board Advanced Placement Examination in English will receive six units of college credit and satisfy the ENG 114/A2 and ENG 214/A4
requirements. Students who have received scores of 4 or higher on IB Language A – Language and Literature (HL) – English or IB Language A – Literature (HL) – English will also receive six units of college credit and satisfy the ENGL 114/A2 and ENGL 214/A4 requirements.

**Upper Division Written English Proficiency Requirements for Native Speakers**

Undergraduate students must complete the CSU Graduation Writing Assessment Requirement (GWAR). After passing courses in first and second-year composition with a grade of CR or C- or higher, students then are eligible to fulfill GWAR.

Majors require a GWAR-designated course or offer one as an elective in the major. Click GWAR courses ([http://uap.sfsu.edu/wac/approved-courses](http://uap.sfsu.edu/wac/approved-courses)) for an updated list of approved courses by major. Biology majors should consult biology.sfsu.edu/content/gwar([http://biology.sfsu.edu/content/gwar](http://biology.sfsu.edu/content/gwar)). Students should consult with their major department if they are uncertain how their department's GWAR designated course(s) might be used in their major program. All majors have at least one GWAR course, but since the adoption of GWAR courses is ongoing, options for completing GWAR may change. **Note:** students who passed JEPET prior to Fall 2013 have satisfied the GWAR requirement.

**Written English Proficiency Requirements for Multilingual Students**

Non-native speakers of English must take the

- English Placement Test (the CSU EPT) during their first semester of matriculated attendance at SF State.
- Multilingual Students Placement Test (CMSPT) before they can enroll in any Composition for Multilingual Students (CMS) courses.

The CMSPT is an SF State requirement for placement in all CMS English courses. Placement in CMS courses is determined by the CMS coordinator solely on the basis of CMSPT scores, not on the basis of any course work or examinations taken at other colleges or universities. Consult the Testing Center [http://testing.sfsu.edu](http://testing.sfsu.edu) for CMSPT and EPT examination times and dates.

Non-native speakers of English who are eligible to take Composition for Multilingual Students (CMS) courses must complete the sequence of CMS courses listed below as substitutes for the ENG 114 and ENG 214 requirements. In order to enroll in a CMS course, students must first take the SF State Composition for Multilingual Students Placement Test (CMSPT) and receive a qualifying score for that course. A student who satisfactorily completes a CMS course may proceed to the next level CMS course without retaking the CMSPT. Non-native speakers of English may complete the GE Oral Communication requirement by taking ENG 210.

Students on foreign visas and permanent residents may substitute the following courses for the ENG 114 and ENG 214 requirements.

- ENG 209 for ENG 114
- ENG 215 for ENG 214

Majors require a GWAR-designated course or offer one as an elective in the major. Click here ([http://uap.sfsu.edu/wac/approved-courses](http://uap.sfsu.edu/wac/approved-courses)) for an updated list of approved GWAR courses. Biology majors should consult biology.sfsu.edu/content/gwar([http://biology.sfsu.edu/content/gwar](http://biology.sfsu.edu/content/gwar)). Students should consult with their major department if they are uncertain how their department's GWAR designated course(s) might be used in their major program. All majors have at least one GWAR course, but since the adoption of GWAR courses is ongoing, options for completing GWAR may change. **Note:** students who passed JEPET prior to Fall 2013 have satisfied the GWAR requirement.

**U.S. History and Government Requirement**

The California State University (CSU) system requires that all graduates demonstrate an understanding of the historical development of American institutions and ideals, the Constitution of the United States, the operation of representative democratic government under that Constitution, and the processes of California’s state and local governments. Because this is a competency requirement, it may be satisfied by passing examinations, or by taking courses, or by a combination of examinations and courses. In unusual circumstances, students may be able to demonstrate competency in other ways as well.

Transfer students from other California institutions may complete the U.S. History and Government Requirement prior to transfer. Public colleges and universities in California typically cover the entire requirement, often called American Institutions, in two courses in the same way as SF State. However, transfer students from colleges and universities outside of California or from private institutions within California or students who have AP (p. 65) or CLEP (p. 65) credit in U.S. government usually have not studied California government and will therefore need either to pass the California state and local government examination (see below) or to take a course to complete the California State and Local Government component of the U.S. History and Government requirement. Students should consult their Degree Progress Report (DPR) or their Advanced Standing Evaluation (ASE) to verify completion of the entire requirement.

Students who believe that they can demonstrate a proficient understanding of any part of this requirement based on other coursework they have taken or on their experience (e.g., in state and local government) should consult with the Undergraduate Advising Center ([http://advising.sfsu.edu](http://advising.sfsu.edu)). Students starting SF State as first-time college students in Fall 2014 or later, will satisfy this requirement by completion of Areas D2 and D3 of General Education. Transfer students who need to complete the requirement at SF State, should choose from the lists below.

**Satisfying the U.S. History and Government Requirement by Examination**

**Advanced Placement (AP) Examinations**

A score of 3 or higher on the Advanced Placement examination in U.S. history will satisfy the U.S. history requirement. Students who have achieved a score of 3 or higher on the Advanced Placement examination in U.S. Government and Politics will satisfy the U.S. government component of the requirement. For more information, go to the College Board website ([http://www.collegeboard.org](http://www.collegeboard.org)). Satisfactory completion of AP examinations also carries college credit. See Advanced Placement Test Scores (p. 65) page. **No AP examination will satisfy the requirement in California state and local government.**

**College Level Examination Program (CLEP) Examinations**

A passing score (50) on the CLEP exam in either U.S. History I or U.S. History II will satisfy the U.S. history requirement. A passing score (50) on the CLEP exam in American Government will satisfy the U.S. government component of this requirement. For more information, go to the College Board website ([http://www.collegeboard.org](http://www.collegeboard.org)). Satisfactory completion of CLEP examinations will also carry college credit. See College-level
Examination Program Test Scores (p. 65) page. No CLEP examination will satisfy the requirement in California state and local government.

**SF State Equivalency Examination in California State and Local Government**

This requirement may be met by achieving a passing score on an SF State equivalency examination. This examination may be taken only once. For information about this examination and preparation for it, contact the Testing Center (http://testing.sfsu.edu).

Students may submit any combination of examinations and courses to satisfy this requirement.

**Satisfying the U.S. History and Government Requirement by Taking Courses**

Students who begin at SF State as first-time college students will complete the American Institutions requirements by completing Areas D2 and D3 of the General Education program. Transfer students who have completed nine units in Area D but still need to complete the American Institutions requirement, may choose courses in D2 and D3. Please note, there are a few courses that meet all three requirements, and these can be taken by transfer students who have already met all nine units of Area D. Transfer students missing the U.S. History requirement or the U.S. and California Government requirement may also select an upper division course approved as an “Additional US History” or “Additional US and California Government” course (see list below). There are a few courses that can meet all three requirements (see below). Transfer students who need to fulfill ONLY the California Government component of the requirement may take a course from the CSLG list below.

**U.S. History Requirement Courses (USH) Area D2**

**California State and Local Government Requirement (CSLG)**

This course satisfies ONLY the California State and Local Government component of the U.S. History and Government requirement. Students whose ASE or degree progress report indicates that they have not met this component of the requirement should either take a US and California Government course from the list above, the examination in state and local government (see Testing Center (http://testing.sfsu.edu) for more information) or the following course to fulfill the California State and Local Government component of this requirement.

Undergraduate Education continues in General Education Lower Division.
Visit our General Education Table of Contents (p. 82) or review the Overview of General Education from the beginning of Undergraduate Education (p. 66).

Undergraduate Graduation Requirements

The following sections include important graduation requirements for undergraduate studies.

Systemwide Placement Test Requirements

The CSU requires that each entering undergraduate, except those who qualify for an exemption, take the CSU Entry Level Mathematics (ELM) examination and the CSU English Placement Test (EPT) prior to enrollment. These placement tests are not a condition for admission to the CSU, but they are a condition of enrollment. These examinations are designed to identify entering students who may need additional support in acquiring college-entry level English and mathematics skills necessary to succeed in CSU baccalaureate-level courses. Undergraduate students who do not demonstrate college-level skills both in English and in mathematics will be placed in appropriate remedial programs and activities during the first term of their enrollment. Students placed in remedial programs in either English or mathematics must complete all remediation in their first year of enrollment. Failure to complete remediation by the end of the first year may result in denial of enrollment for future terms. Students register for the EPT (www.csenglishsuccess.org/ept) and/or ELM (www.csunmathsuccess.org/elm_exam). The campus may establish deadlines by which new students must register for and/or take placement exams as a requirement for enrollment. Questions about test dates and registration materials may be addressed to the Testing Center. (http://testing.sfsu.edu)

Entry Level Mathematics Examination (ELM)

Students who do not have an ELM exemption are required to take the ELM before their first semester of matriculated attendance at SF State.

The Entry Level Mathematics (ELM) Examination is designed to assess and measure the level of mathematics skills acquired through three years of rigorous college preparatory mathematics coursework (Algebra I and II, and Geometry) of students entering the California State University (CSU). The CSU ELM must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including remedial courses. Students who score 50 or above on the ELM will be placed in college-level mathematics classes.

Questions about ELM exemptions should be referred to the Developmental Studies Office (http://developmentalstudies.sfsu.edu).

Test Exemptions

Students who present proof of one of the following qualify for an ELM exemption and will not need to take the ELM test.

Students who are considered “conditionally ready” below based on CAASPP, ACT, or SAT scores but who do not successfully complete an approved senior year math course, do not need to test on the ELM. These students are placed automatically into one term of developmental math (ESM 70/MATH 70). These students are required to participate in the Early Start Program. Go to developmentalstudies.sfsu.edu/esp (http://developmentalstudies.sfsu.edu/esp) for more information.

<table>
<thead>
<tr>
<th>Acceptable ELM Exemption</th>

<td>3 or above</td>
</tr>
<tr>
<td>Completion and transfer of a course that satisfies the General Education Breadth or Intersegmental General Education Transfer Curriculum (IGETC) quantitative reasoning requirement</td>
<td></td>
</tr>
</tbody>
</table>

Exemptions from the ELM are granted only to those who present proof of one of the following:

- A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam.
- A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in mathematics on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement. The Conditional requirement may be met by completing an approved math course in the 12th grade and earning a grade of “C” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless an exemption was met through one of the following:
  - New SAT: A score between 520–560 on the mathematics section of the new SAT Test*
  - Old SAT: A score between 490–540 on the mathematics section of the old SAT Reasoning Test
  - A score between 20–22 on the mathematics section of the ACT Test

- New SAT: A score of 570 or above on the mathematics section of the new SAT*
- Old SAT: A score of 550 or above on the mathematics section of the old SAT Reasoning Test
- SAT Subject Test: A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)**
- A score of 23 or above on the ACT Mathematics Test
Undergraduate Graduation Requirements

San Francisco State University Bulletin 2017-2018

- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC
- A score of 3 or above on the College Board Advanced Placement Statistics examination
- Completion and transfer to CSU of a college course that satisfies the requirement in Quantitative Reasoning, provided such a course was completed with a grade of "C" or better

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.

**Note: there were no changes to the SAT Subject Tests; therefore, the cut score for the Subject Test in Mathematics (levels 1 or 2) remains the same.

Note: Since March 22, 2002, ELM is scored on a scale of 00–80. A score of 50 or above represents demonstrated entry-level mathematics proficiency. Students scoring 50 or above on the ELM examination are eligible to enroll in a GE Quantitative Reasoning course. Students who score below 50 must complete appropriate developmental mathematics courses before enrolling in a GE Quantitative Reasoning course (see remedial courses below).

Since March 22, 2002, ELM scores have had the following implications:

<table>
<thead>
<tr>
<th>ELM Score</th>
<th>Implications</th>
</tr>
</thead>
<tbody>
<tr>
<td>50 or higher</td>
<td>Students may enroll in a GE Quantitative Reasoning course. Consult an adviser for placement in an appropriate level course.</td>
</tr>
<tr>
<td>42–48</td>
<td>Students must take and complete ESM 70 or MATH 70 (3 units), with a grade of C or better. First-time freshmen, starting in fall, must participate in the Early Start Program during the summer prior to their first term of attendance. See <a href="http://developmentalstudies.sfsu.edu/esp">http://developmentalstudies.sfsu.edu/esp</a>.</td>
</tr>
<tr>
<td>40 and below</td>
<td>Students must take and complete ESM 60 or MATH 60 (3 units), with a grade of C or better. First-time freshmen, starting in fall, must participate in the Early Start Program during the summer prior to their first term of attendance. See <a href="http://developmentalstudies.sfsu.edu/esp">http://developmentalstudies.sfsu.edu/esp</a>. After completing ESM 60 or MATH 60 with a C or better, students must complete MATH 70 with a grade of C or better.</td>
</tr>
</tbody>
</table>

Grades and units earned in ESM 60/MATH 60 and ESM 70/MATH 70 are not applied toward the student’s GPA or the number of units required for graduation. However, they do count for financial aid purposes.

Students who took the ELM examination prior to March 22, 2002, should contact the Testing Center (http://testing.sfsu.edu), for equivalent ELM scores and appropriate placement into courses.

Students may also consult the Developmental Studies Office (http://developmentalstudies.sfsu.edu) for additional ELM information.

Newly admitted undergraduate students who score below 50 on the ELM examination must begin developmental math by the first semester of matriculated attendance at SF State. Students starting in fall are required to begin preparation in summer through the Early Start Program. All required developmental course work must be completed within one year from the time of admission to SF State. Students who do NOT complete their developmental mathematics coursework within one year from the time of enrollment are subject to disenrollment from the University. They may return after no more than two consecutive semesters with successful completion of an approved equivalent intermediate algebra course elsewhere. For further information, contact the Developmental Studies Office (http://developmentalstudies.sfsu.edu).

Students who register for a GE Quantitative Reasoning course at SF State must: (remedial@sfsu.edu)

1. have received a total score of 50 or above on ELM examination; or (remedial@sfsu.edu)
2. have obtained one of the approved ELM exemptions listed above; or (remedial@sfsu.edu)
3. have passed (remedial@sfsu.edu) ESM 70/MATH 70 with a C or better at SF State, or an equivalent course elsewhere with a grade of credit (CR) or C or better; or
4. after receiving a conditional exemption status from the list above, successfully completed an approved senior year math course with a grade of C or better.

Note: there are additional prerequisites for entry into MATH 226.

CSU English Placement Test (EPT)

The English Placement Test (EPT) is designed to assess the level of reading and writing skills of students entering the California State University. The CSU EPT must be completed by all non-exempt entering undergraduates prior to enrollment in any course, including developmental courses. Students who score 147 or above on the EPT will be placed in college-level composition classes and asked to complete DSP (p. 71) to choose appropriate English courses. Students who are considered “conditionally ready” based on CAASPP, ACT, or SAT scores but who do not successfully complete an approved senior year English course, do not need to test on the EPT. These students are required to participate in the Early Start Program. Go to the Developmental Studies Office Early Start (http://developmentalstudies.sfsu.edu/esp) page for more info.

Exemptions from the EPT are granted only to those who present proof of one of the following:

<table>
<thead>
<tr>
<th>Acceptable EPT Exemptions</th>
<th>Score/Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>California Assessment of Student Performance and Progress (CAASPP), i.e., the CSU Early Assessment Program (EAP), taken in grade 11</td>

</tr>
</tbody>
</table>

77
**New SAT (EBRW section)**
- 550 or above: College Ready/Exempt

**New SAT (EBRW section)**
- 510–540: Conditionally Ready

**Old SAT (critical reading)**
- 500: College Ready/Exempt

**Old SAT (critical reading)**
- 460–490: Conditionally Ready

**ACT English Test**
- 22 or above: College Ready/Exempt

**ACT English Test**
- 19–21: Conditionally Ready

**College Board Advanced Placement—English Language and Composition or English Literature and Composition Examination**
- 3 or above

**Completion and transfer of a course that satisfies the CSU General Education Breadth or the CSU Intersegmental General Education Transfer Curriculum (IGETC) written communication requirement**
- Grade of C or better

### Exemptions from the EPT are granted only to those who present proof of one of the following:

- A result of Standard Exceeded: “Ready” for CSU or participating CCC college-level coursework in English on the CAASPP Early Assessment Program (EAP) exam.

- A result of Standard Met: “Conditionally Ready” for CSU or participating CCC college-level coursework in English on the CAASPP Early Assessment Program (EAP) exam and met the conditional requirement. The Conditional requirement may be met by completing an approved English course in the 12th grade and earning a grade of “C” or better. Students who do not meet the conditional requirement will need to participate in the CSU’s Early Start Program, unless an exemption was met through one of the following:
  - **New SAT:** A score between 510–540 on the Evidenced Based Reading and Writing Section
  - **Old SAT:** A score between 460–490 on the Critical Reading section of the old SAT Reasoning Test
  - A score of 19–21 on the English section of the ACT Test

- New SAT: A score of 550 or above on the Evidenced Based Reading and Writing section*

- Old SAT: A score of 500 or above on the Critical Reading section of the old SAT Reasoning Test

- A score of 22 or above on the ACT English Test

- A score of 3 or above on either the Language and Composition or Composition and Literature examination of the College Board Scholastic Advanced Placement Program

- Completion and transfer to CSU of the credits for a college course that satisfies the CSU General Education requirement in English Composition, provided such a course was completed with a grade of C or better

* In March 2016, the College Board began administering a new SAT. The new SAT scores are different than the old SAT scores. The CSU will accept both old and new SAT scores for students graduating in 2020 and prior. Students graduating after 2020 will be required to take the new SAT.

**Newly admitted undergraduate students who score below 147 on the EPT examination must begin first-year composition by the first semester of matriculated attendance at SF State. Students starting in fall are required to begin preparation in summer through the Early Start Program. All required first-year composition course work must be completed within one year from the time of admission to SF State. Students who do NOT complete designated courses within their first-year composition requirement within one year from the time of enrollment are subject to being disenrolled from the University. They may return after no more than two consecutive semesters with successful completion of an approved equivalent English composition course elsewhere.**

For further information, contact the Developmental Studies Office (http://developmentalstudies.sfsu.edu) in Administration building room 211.

### Directed Self-Placement

While all entering undergraduates are required by the CSU to take the English Placement Test (except those with an acceptable exemption), SF State does not use test results to place students into required First-Year Composition classes (these classes are described in the section of the Bulletin “Written English Proficiency Requirements (p. 73)”). San Francisco State University believes that with good guidance from us, the student is the best person to choose which First-Year Composition course is the most appropriate place to begin meeting SF State’s Written English Proficiency Requirement. SF State has designed an online Directed Self-Placement (DSP) (p. 71) application that will guide students through the steps necessary to choose their First-Year Composition Course.

All entering undergraduates are required to complete SF State’s online DSP before they attend new student orientation and before they can enroll in their first-year composition classes. The DSP application can be accessed at dsp.sfsu.edu/ (http://dsp.sfsu.edu)

Students required to participate in Early Start will complete the online DSP as part of the Early Start English course.

### Early Start Program

- Entering resident freshmen who are not proficient in math or English will need to start the remediation process before their first regular term.

The goals of the Early Start Program (http://developmentalstudies.sfsu.edu/esp) are to

- Better prepare students in math and English, before the fall semester of freshman year
- Add an important and timely assessment tool in preparing students for college
- Improve students’ chances of successful completion of a college degree

California residents admitted to SFSU for a fall semester who meet one or more of the following and have not otherwise demonstrated college readiness are required to participate in the Early Start Program:

- A score of 48 or below on the ELM
- A score of 146 or below on the EPT
- Any student who was categorized as conditionally ready in math and/or English who did not meet conditions (i.e. did not complete an approved senior year, year-long course with a “C” grade or better)

Newly admitted freshman students who are required to complete Early Start will be notified of the requirement and options for completing the program as part of campus communications to newly admitted students. Students enrolled in Early Start English will meet the Directed Self-Placement requirement as part of the Early Start course.
Composition for Multilingual Students Placement Test (CMSPT)
In addition to the CSU English Placement Test (EPT), all non-native speakers of English must take the SF State Composition for Multilingual Students Placement Test (CMSPT) before they can enroll in Composition for Multilingual Students (CMS) courses. Placement in CMS courses is determined by the CMS coordinator solely on the basis of CMSPT scores and not on any course work or tests taken at other institutions.

Written English Proficiency Requirements
All students must demonstrate competency in writing as a requirement for graduation. The following information lists the ways available to meet this graduation requirement.

Summary of Written English Proficiency Requirements
Note: Non-native speakers of English may follow a different course sequence to fulfill their Written English Proficiency Requirements, which are described below in the section titled “Written English Proficiency Requirements for Multilingual Students”.

1. English Placement Test (EPT): All newly-admitted undergraduate students must take the California State University English Placement Test (CSU – EPT) prior to their first semester of matriculated attendance at SF State, except those with an approved EPT exemption listed in the University Bulletin. Non-native speakers of English must also take the Composition for Multilingual Students Placement Test (CMSPT) prior to enrollment. First-time freshmen who were not able to show English proficiency at entry shall attain such proficiency during their initial college year of study at San Francisco State University.

2. First-Year Composition (GE Area A2, Written English Communication I): Two equivalent pathways satisfy the First-Year Composition Requirement:
   a. Stretch ENG 104/ENG 105 or
   b. ENG 114.

3. Second-Year Composition (GE Area A4, Written English Communication II): Prerequisite is a grade of Credit (CR) or C– or better in Stretch ENG 104/ENG 105 or ENG 114 or equivalent course. ENG 214, or an equivalent course, fulfills the Second-Year Composition Requirement.

4. GWAR: Undergraduate students must complete the CSU Graduation Writing Assessment Requirement (GWAR). Prerequisite is a grade of Credit (CR) or C– or better in ENG 214, or equivalent course.

Written English Proficiency Requirements for Native Speakers of English
First Year Composition for Native Speakers (GE Area A2)
All newly-admitted undergraduate students who have not yet met first-year composition, must complete Directed Self-Placement to determine the pathway by which they choose to fulfill the First-Year Composition Requirement.

Two equivalent pathways satisfy the First-Year Composition Requirement for native speakers of English: Stretch ENG 104/ENG 105 or ENG 114. Either pathway satisfies GE Area A2, Written English Communication I. Students enrolling in stretch English take ENG 104 in the fall and ENG 105 in the spring. Students who enter in spring, must take both ENG 104 and ENG 105 concurrently.

Grading in all composition courses will be either ABC/No Credit or Credit/No Credit (CR/NC). A grade of CR or C– or better in ENG 104/ENG 105 or in ENG 114 satisfies the First-Year Composition Requirement. Students who receive credit for these courses will proceed to ENG 214.

Students who receive a grade of NC for ENG 105 must enroll in ENG 114. Students who receive a NC in ENG 104 in the fall term must enroll in both ENG 104 and ENG 105 during the spring term. Students who fail to complete ENG 104 within one year from the time of enrollment are subject to disenrollment from the University. They may return after completing an equivalent to First-Year Composition elsewhere within two consecutive semesters after not meeting this requirement. For more information contact the Developmental Studies Office (http://developmentalstudies.sfsu.edu) in ADM 211. Only those students who can demonstrate one of the following are not required to take First Year Composition at SF State:

1. A score of 3, 4, or 5 on either the English Language and Composition or English Literature and Composition examinations of the College Board Advanced Placement Program.
2. A score of 4 or higher on IB Language A – Language and Literature (HL) – English or IB Language A – Literature (HL) – English.
3. Completion of an equivalent college-level course elsewhere of 3 semester or 4 quarter units with a grade of credit (CR) or C– or better.

Second Year Composition for Native Speakers (GE Area A4)
A GE Area A4 course (e.g. ENG 214) should be taken prior to completion of 60 semester units by all students who have not received credit for an equivalent test or course.

Successful completion of ENG 104 – ENG 105 or ENG 114 is a prerequisite to all Area A4 courses. Area A2 and A4 courses may not be taken concurrently. ABC/NC grading is used in both courses.

Students who have received scores of 3, 4, or 5 on the College Board Advanced Placement Examination in English will receive six units of college credit and satisfy the ENG 114/A2 and ENG 214/A4 requirements. Students who have received scores of 4 or higher on IB Language A – Language and Literature (HL) – English or IB Language A – Literature (HL) – English will also receive six units of college credit and satisfy the ENGL 114/A2 and ENGL 214/A4 requirements.

Upper Division Written English Proficiency Requirements for Native Speakers
Undergraduate students must complete the CSU Graduation Writing Assessment Requirement (GWAR). After passing courses in first and second-year composition with a grade of CR or C– or higher, students then are eligible to fulfill GWAR.

Majors require a GWAR-designated course or offer one as an elective in the major. Click GWAR courses (http://ueap.sfsu.edu/wac/approved-courses) for an updated list of approved courses by major. Biology majors should consult biology.sfsu.edu/content/gwar (http://biology.sfsu.edu/content/gwar). Students should consult with their major department if they are uncertain how their department’s GWAR designated course(s) might be used in their major program. All majors have at least one GWAR course, but since the adoption of GWAR...
courses is ongoing, options for completing GWAR may change. **Note:** Students who passed JEPET prior to Fall 2013 have satisfied the GWAR requirement.

**Written English Proficiency Requirements for Multilingual Students**

Non-native speakers of English must take the

- English Placement Test (the CSU EPT) during their first semester of matriculated attendance at SF State.
- Multilingual Students Placement Test (CMSPT) before they can enroll in any Composition for Multilingual Students (CMS) courses.

The CMSPT is an SF State requirement for placement in all CMS English courses. Placement in CMS courses is determined by the CMS coordinator solely on the basis of CMSPT scores, not on the basis of any course work or examinations taken at other colleges or universities. Consult the Testing Center (http://testing.sfsu.edu) for CMSPT and EPT examination times and dates.

Non-native speakers of English who are eligible to take Composition for Multilingual Students (CMS) courses must complete the sequence of CMS courses listed below as substitutes for the ENG 114 and ENG 214 requirements. In order to enroll in a CMS course, students must first take the SF State Composition for Multilingual Students Placement Test (CMSPT) and receive a qualifying score for that course. A student who satisfactorily completes a CMS course may proceed to the next level CMS course without retaking the CMSPT. Non-native speakers of English may complete the GE Oral Communication requirement by taking ENG 210.

Students on foreign visas and permanent residents may substitute the following courses for the ENG 114 and ENG 214 requirements.

- ENG 209 for ENG 114
- ENG 215 for ENG 214

Majors require a GWAR-designated course or offer one as an elective in the major. Click here (http://uap.sfsu.edu/wac/approved-courses) for an updated list of approved GWAR courses. Biology majors should consult biology.sfsu.edu/content/gwar (http://biology.sfsu.edu/content/gwar). Students should consult with their major department if they are uncertain how their department’s GWAR designated course(s) might be used in their major program. All majors have at least one GWAR course, but since the adoption of GWAR courses is ongoing, options for completing GWAR may change. **Note:** students who passed JEPET prior to Fall 2013 have satisfied the GWAR requirement.

**U.S. History and Government Requirement**

The California State University (CSU) system requires that all graduates demonstrate an understanding of the historical development of American institutions and ideals, the Constitution of the United States, the operation of representative democratic government under that Constitution, and the processes of California’s state and local governments. Because this is a competency requirement, it may be satisfied by passing examinations, or by taking courses, or by a combination of examinations and courses. In unusual circumstances, students may be able to demonstrate competency in other ways as well.

Transfer students from other California institutions may complete the U.S. History and Government Requirement prior to transfer. Public colleges and universities in California typically cover the entire requirement, often called American Institutions, in two courses in the same way as SF State. However, transfer students from colleges and universities outside of California or from private institutions within California or students who have AP (p. 65) or CLEP (p. 65) credit in U.S. government usually have not studied California government and will therefore need either to pass the California state and local government examination (see below) or to take a course to complete the California State and Local Government component of the U.S. History and Government requirement. Students should consult their Degree Progress Report (DPR) or their Advanced Standing Evaluation (ASE) to verify completion of the entire requirement.

Students who believe they can demonstrate a proficient understanding of any part of this requirement based on other coursework they have taken or on their experience (e.g., in state and local government) should consult with the Undergraduate Advising Center. (http://advising.sfsu.edu)

Students starting SF State as first-time college students in Fall 2014 or later, will satisfy this requirement by completion of Areas D2 and D3 of General Education. Transfer students who need to complete the requirement at SF State, should choose from the lists below.

**Satisfying the U.S. History and Government Requirement by Examination**

**Advanced Placement (AP) Examinations**

A score of 3 or higher on the Advanced Placement examination in U.S. history will satisfy the U.S. history requirement. Students who have achieved a score of 3 or higher on the Advanced Placement examination in U.S. Government and Politics will satisfy the U.S. government component of the requirement. For more information, go to the College Board website (http://www.collegeboard.org). Satisfactory completion of AP examinations also carries college credit. See Advanced Placement Test Scores (p. 65) page. No AP examination will satisfy the requirement in California state and local government.

**College Level Examination Program (CLEP) Examinations**

A passing score (50) on the CLEP exam in either U.S. History I or U.S. History II will satisfy the U.S. history requirement. A passing score (50) on the CLEP exam in American Government will satisfy the U.S. government component of this requirement. For more information, go to the College Board website (http://www.collegeboard.org). Satisfactory completion of CLEP examinations will also carry college credit. See College-level Examination Program Test Scores (p. 65) page. No CLEP examination will satisfy the requirement in California state and local government.

**SF State Equivalency Examination in California State and Local Government**

This requirement may be met by achieving a passing score on an SF State equivalency examination. This examination may be taken only once. For information about this examination and preparation for it, contact the Testing Center (http://testing.sfsu.edu).

Students may submit any combination of examinations and courses to satisfy this requirement.

**Satisfying the U.S. History and Government Requirement by Taking Courses**

Students who begin at SF State as first-time college students will complete the American Institutions requirements by completing Areas D2 and D3 of the General Education program. Transfer students who have completed nine units in Area D but still need to complete the American Institutions requirement, may choose courses in D2 and D3. Please note, there are a few courses that meet all three requirements, and these can
be taken by transfer students who have already met all nine units of Area D. Transfer students missing the U.S. History requirement or the U.S. and California Government requirement may also select an upper division course approved as an "Additional US History" or "Additional US and California Government" course (see list below). There are a few courses that can meet all three requirements (see below). Transfer students who need to fulfill ONLY the California Government component of the requirement may take a course from the CSLG list below.

**California State and Local Government Requirement (CSLG)**

This course satisfies ONLY the California State and Local Government component of the U.S. History and Government requirement. Students whose ASE or degree progress report indicates that they have not met this component of the requirement should either take a US and California Government course from the list above, the examination in state and local government (see Testing Center (http://testing.sfsu.edu) for more information) or the following course to fulfill the California State and Local Government component of this requirement.

Undergraduate Education continues in General Education Lower Division.

Visit our General Education Table of Contents (p. 82) or review the Overview of General Education from the beginning of Undergraduate Education (p. 66).
General Education

Introduction

- Introduction to General Education (p. 67)

Lower Division General Education

- General Education: Area Requirements
- Continuing Students Entering SF State Prior to Fall 2014
- Freshman Students
- Transfer Students
- SF State Studies Requirements
- Area A: English Language Communication and Critical Thinking
- Area B: Scientific Inquiry and Quantitative Reasoning
- Area C: Arts and Humanities
- Area D: Social Sciences
- Area E: Lifelong Learning and Self-development (LLD)

Upper Division General Education

- General Requirements
- Upper Division Physical and/or Life Sciences
- Upper Division Arts and/or Humanities
- Upper Division Social Sciences

Lower Division General Education

For an overview of the SF State General Education program, visit our Introduction to General Education (p. 66).

Please note that although General Education courses are available to students in any major, registration in some sections of specific courses may be restricted to students in the Metro Academies.

Some students come to SF State with high enough AP, CLEP and IB scores to receive college credit. Go to the following link to see what GE requirements are satisfied by these scores. Consult with your major department to see whether any of the credit can count toward your major.

AP – IB – CLEP Test Credit (p. 65)

Students Entering SF State Prior to Fall 2014

Continuing students who were enrolled at SF State prior to Fall 2014 follow the General Education program that was in effect when they came to SF State, with a few modifications. Please visit the Division of Undergraduate Education and Academic Planning (http://ueap.sfsu.edu/bacc-reqs/GraduationRequirements) for more information about your General Education requirements and approved courses.

Freshman Students

Students who begin at SF State as first-time college students in Fall 2014 or later, must complete General Education as outlined below.

Transfer Students

Transfer students who begin at SF State in Fall 2014 or later may complete the 39 units of lower division General Education (GE) requirements (Area A–E), as well as lower division requirements in a major, minor, or certificate program at another campus if those units have been approved through an articulation agreement or an approved evaluation process. Regardless of the number of units a student took to fulfill General Education requirements at other schools, to graduate they must complete a total of 39 units of lower division General Education plus nine units of upper division GE coursework. Any lower division GE coursework not taken in transfer must be taken at SF State from the list of courses below.

- Transfer students who have not completed the equivalent of Written English Communication II will have to do so at SF State. It is a prerequisite to the Graduation Writing Assessment Requirement (GWAR) requirement.
- Transfer students who have completed Area D but who have not completed the US History and Government requirements must do so at SF State (Refer to US History and Government Requirement (http://bulletin.sfsu.edu/undergraduate-education/graduation-requirements/#USHaGR)).
- Transfer students who complete the US History and Government requirements without completing nine units in Area D must take additional Area D courses to total nine units.
- Transfer students must complete nine units of lower division Area C coursework with at least one Area C1 and one Area C2 course, but are not required to take an Area C3 course.
- Transfer students must complete SF State Studies requirements. Most, if not all, of these requirements will be completed while satisfying the Upper Division GE requirements. Students transferring with a verified ADT (AA-T or AS-T degree) who are pursuing a "similar" major do not have to complete the SF State Studies requirements. Click (p. [here](p. )) for more information about procedures and guidelines regarding the Associate Degree for Transfer (ADT).

Area A: English Language Communication and Critical Thinking — 12 units

Students taking courses in fulfillment of Areas A1, A2, and A4 will develop knowledge and understanding of the form, content, context, and effectiveness of communication. Students will develop proficiency in oral and written communication in English, examining communication from the rhetorical perspective and practicing reasoning and advocacy, organization, and accuracy. Students will practice the discovery, critical evaluation, and reporting of information, as well as reading, writing, and listening effectively.

In critical thinking (Area A3) courses, students will understand logic and its relation to language; elementary inductive and deductive processes, including an understanding of the formal and informal fallacies of language and thought; and the ability to distinguish matters of fact from issues of judgment or opinion. In Area A3 courses, students will develop the abilities to analyze, criticize, and advocate ideas; to reason inductively and deductively; and to reach well-supported factual or judgmental conclusions.

Requirements: Students must complete a minimum of twelve units in Area A, including a minimum of three units in each of the following four areas: Oral Communication, Written English Communication I, Critical Thinking, and Written English Communication II. Specific test and course prerequisites are printed in the Undergraduate Graduation Requirements section of the Bulletin. Beginning in Fall 2014, all Area A courses must be completed with a grade of CR or C− or better to fulfill the General Education requirement.
Note: Students transferring from a California community college often satisfy Written English Communication II while satisfying CSU GE Area A3 at their previous campus. If so, no additional units in Area A are required. However, students still are required to have 39 units total of lower division GE. If units are still lacking, these units may be taken in Areas B, C, D, or E.

**Area A1: Oral Communication (3 units required)**
- COMM 150 Fundamentals of Oral Communication (A1) 3
- ENG 210 Oral Communication - Multilingual (A1) 3

**Area A2: Written English Communication I (3 units minimum required)**
- ENG 104 First Year Composition Stretch I 6
- ENG 105 and First Year Composition Stretch II (A2) 3
- ENG 114 First Year Composition (A2) 3
- ENG 209 First Year Composition-Multilingual (A2) 3

**Area A3: Critical Thinking (3 units required)**
- AA S 110 Critical Thinking and the American Experience (A3, AERM) 3
- COUN 110 Critically Thinking about Career Choice: Self, Community, Society, and World (A3, LLD) 3
- ETHS/RRS 110 Critical Thinking and the Ethnic Studies Experience (A3, AERM) 3
- HIST 101 Critical Thinking in History (A3, SJ) 3
- HSS 110 Critical Thinking/Student Success in Health & Social Sciences Fields (A3) 3
- LTNS 110 Critical Thinking in Latina/o Studies (A3, AERM, SJ) 3
- PHIL 110 Introduction to Critical Thinking I (A3) 3
- PSY 111 The Logic and Psychology of Critical Thinking (A3) 3
- RPT 110 Critical Thinking and the Leisure Experience (A3, LLD) 3
- SCI 101 First Year Experience in Science and Engineering (A3, LLD, ES) 3

**Area A4: Written English Communication II (3 units required)**
- AA S 214 Second Year Written Composition: Asian American Studies (A4, AERM, SJ) 3
- AFRS 214 Second Year Written Composition: Africana Studies (A4, AERM, SJ) 3
- CWL 214 Second Year Written Composition: Comparative and World Literature (A4) 3
- ENG 214 Second Year Written Composition: English (A4) 3
- ENG 215 Second Year Composition: Multilingual (A4) 3

**Abbreviations**
- AERM: American Ethnic and Racial Minorities
- ES: Environmental Sustainability
- GP: Global Perspectives
- LLD: Lifelong Learning and Self-Development (Area E)
- SJ: Social Justice

**Area B: Scientific Inquiry and Quantitative Reasoning – 9 units**
In Areas B1 – B3, students develop knowledge of scientific theories, concepts, and data about both living and non-living systems. Students will achieve an understanding and appreciation of scientific principles and the scientific method, as well as the potential limits of scientific endeavors and the value systems and ethics associated with human inquiry.

In Area B4 courses, students shall develop skills and understanding beyond the level of intermediate algebra. Students will not just practice computational skills, but will be able to explain and apply basic mathematical concepts and will be able to solve problems through quantitative reasoning.

**Requirements:** All students must complete a minimum of nine units in Area B including a minimum of three units in each of the following three areas: Physical Science, Life Science, and Quantitative reasoning. Additionally, a course that satisfies the Laboratory Science requirement must also be taken.

Specific test and course prerequisites are printed in the Undergraduate Graduation Requirements section of the Bulletin.

**Note:** Some majors require advanced coursework in Areas B1, B2, and/or B3. For students pursuing these majors, some Area B requirements will be met in major or pre-major coursework. For more information, students should refer to the Bulletin description for their major.

**Area B1: Physical Science (3 units minimum required)**
- ADM 260 Textiles (B1) 3
- ASTR 115 Introduction to Astronomy (B1) 3
- CHEM 101 Survey of Chemistry (B1) 3
- CHEM 180 Chemistry for the Energy and the Environment (B1, B3, ES) 3

- BIOL 170 Animal Diversity (B2, ES) 3
- BIOL 176 Science and Politics of Stem Cell Biology (B2, AERM, SJ) 3
- ERTH 115 History of Life (B2, ES) 3
- GEOG 160 Introduction to Environmental Science (B2, B3, ES, GP) 4
- RRS 276 Race, Activism and Climate Justice (B2, AERM, ES, GP, SJ) 3
Area B3: Laboratory Science (0–1 units required)

- ASTR 116 Astronomy Laboratory (B3) 1
- BIOL 101 Human Biology Laboratory (B3) 1
- BIOL 150 The World of Plants (B2, B3, ES) 3
- CHEM 102 Survey of Chemistry Laboratory (B3) 1
- CHEM 180 Chemistry for the Energy and the Environment (B1, B3, ES) 3
- ERTH 111 Our Dynamic Earth Lab (B3) 1
- ERTH 112 Our Dynamic Earth Lecture and Lab (B1, B3, ES) 4
- ERTH 162 Our Dynamic Weather Lecture and Lab (B1, B3) 3
- ERTH 171 Our Dynamic Ocean Lab (B3) 1
- ERTH 172 Our Dynamic Ocean Lecture and Lab (B1, B3, ES) 4
- ERTH 210 Physical Geology (B1, B3, ES) 4
- ERTH 230 Environmental Geology (B1, B3, ES) 3
- ERTH 260 Physical Processes in the Atmosphere (B1, B3, ES, GP) 4
- GEOG 160 Introduction to Environmental Science (B2, B3, ES, GP) 4
- PHYS 102 Conceptual Physics Laboratory (B3) 1
- PHYS 112 General Physics I Laboratory (B3) 1
- PHYS 222 General Physics with Calculus I Laboratory (B3) 1

Area B4: Quantitative Reasoning (3 units required)

Details on test and course prerequisites are listed in the Undergraduate Graduation Requirements section of the Bulletin.

Summary of Quantitative Reasoning Requirements

Students who register for a GE quantitative reasoning course at SF State must have:

1. a score of 50 or higher on the ELM examination; or
2. obtained an approved ELM exemption; or
3. after taking the ELM examination, passed Entry Level Math II (ESM 70/MATH 70) at SF State or an equivalent course elsewhere with a grade of C or better. Beginning in Fall 2014, Area B4 courses must be completed with a grade of CR or C– or better to fulfill the General Education requirement.

- DS 110 Calculus with Business Applications (B4) 3
- GEOG 203 Geographical Measurement (B4) 3
- ISED 160 Data Analysis in Education (B4) 3
- MATH 110 Business Calculus (B4) 3
- MATH 124 Elementary Statistics (B4) 3
- MATH 199 Pre-Calculus (B4) 4
- MATH 226 Calculus I (B4) 4
- PSY 171 Quantitative Reasoning in Psychology (B4) 3

Abbreviations

- AERM: American Ethnic and Racial Minorities
- ES: Environmental Sustainability
- GP: Global Perspectives
- LLD: Lifelong Learning and Self-Development (Area E)
- SJ: Social Justice

Area C: Arts and Humanities — 9 units

In their Area C coursework, students will develop a better understanding of the interrelationship between the self and the creative arts and of the humanities in a variety of cultures. In Area C3, students will explore the humanities with a specific focus on literature.

Requirements: Students starting as freshmen at SF State must complete a minimum of nine units in Area C including a minimum of three units in the areas of Arts (C1) and Humanities: Literature (C3). They must select an additional three units in either Arts (C1) or Humanities (C2).

Students starting as transfers at SF State must complete a minimum of nine units in Area C including a minimum of three units in the areas of Arts (C1) and Humanities (C2). They must select an additional three units in Arts (C1), Humanities (C2), or Humanities: Literature (C3).

Area C1: Arts

- AA 212 Asian Americans and Mass Media (C1, AERM) 3
- AFRS 204 Black Creative Arts (C1, AERM, GP, SJ) 3
- AFRS 221 African American Music: A 20th Century Survey (C1, AERM) 3
- AFRS 230 African American Gospel Workshop (C1, AERM) 3
- AFRS 256 Hip Hop Workshop (C1, LLD, AERM, ES, GP, SJ) 3
- AHS 235 American Indians: Image and Issues in the Mass Media (C1, AERM, SJ) 3
- ART 201 Western Art History I (C1) 3
- ART 202 Western Art History II (C1) 3
- ART/HUM 205 Asian Art History (C1, GP) 3
- ART 235 Printmaking I (C1) 3
- ART 240 Introduction to Contemporary Sculpture (C1) 3
- ART 245 Ceramics I (C1) 3
- BECA 235 Digital Media Basics (C1) 3
- C W 101 Introduction to Creative Writing (C1, LL) 3
- CINE 102 Introduction to Contemporary Cinema (C1, GP) 3

### Area D: Social Sciences − 9 units

Through fulfillment of the Area D requirement, students will develop an understanding of problems and issues from a social science perspective and will examine issues in their contemporary as well as historical settings and in a variety of cultural contexts. Students will explore the principles, methodologies, value systems and ethics employed in social scientific inquiry.

The CSU American Institutions/US History and Government requirement (Areas D2 and D3) may be met either by examination (AP, CLEP or SF State competency exam) or by taking at least one course in both Areas D2 and D3.

In U.S. History courses (Area D2), students will learn about the relationships among regions within the area of study and with external regions and states and the role of major ethnic and social groups in such events and the contexts in which the events have occurred.

In U.S. and California Government courses (Area D3), students will learn about the political philosophies of the framers of the Constitution and the nature and operation of United States political institutions and processes. Students will also learn about California government, particularly the Constitution of the State of California within the framework of evolution of Federal-State relations and the nature and processes of State and local government under that Constitution.

**Requirements:** Students starting as freshmen at SF State must complete a minimum of nine units in Area D including a minimum of three units in each of the following areas: Social Sciences (D1), Social Sciences: US History (D2), and Social Sciences: US and California Government (D3).

Transfer students must complete a minimum of nine units in Area D. These students may transfer in with Area D satisfied without completing the US History and US and California Government requirements. Transfer students who have not met their US History and US and California Government requirements must still complete these requirements by taking courses from Area D2 and D3 (see below) or by selecting courses from the US History and Government Requirement (http://bulletin.sfsu.edu/undergraduate-education/graduation-requirements/#USHaGR).

- AERM: American Ethnic and Racial Minorities
- ES: Environmental Sustainability
- GP: Global Perspectives
- LLD: Lifelong Learning and Self-Development (Area E)
- SJ: Social Justice

**Area E: Lifelong Learning and Self-development (LLD)**

Courses in Area E address topics such as human behavior, sexuality, nutrition, physical and mental health, stress management, financial literacy, social relationships and relationships with the environment, as well as implications of death and dying and avenues for lifelong learning.

Courses certified as meeting the Area E requirement are a minimum of three units and may be upper or lower division, in General Education, a major or minor, or an elective. SF State Studies requirements that are met in Area E courses are indicated after the course title.

**Upper Division General Education — 9 Units Minimum**

**General Requirements**

- Students must:
  1. Begin their upper division General Education coursework no earlier than the semester they will achieve upper division standing and have completed a course in Area A4 with a C– or better. (60 units minimum)
  2. Complete at least nine units of upper division General Education course work in residence at SF State
  3. Complete the equivalent of one three-unit course in each of the three domains of knowledge: Physical/Life Sciences (UD-B), Arts/Humanities (UD-C) and Social Sciences (UD-D).

Students studying abroad through the CSU can petition to have courses taken abroad count for upper division GE. These students should consult
with the Study Abroad Office (http://oip.sfsu.edu/sfstateabroad) and with the Undergraduate Advising Center (http://advising.sfsu.edu) to get assistance in choosing appropriate classes to meet the required domains of knowledge and to complete the petition process upon their return.

**Upper Division Physical and/or Life Sciences: UD—B**

AERM: American Ethnic and Racial Minorities  
ES: Environmental Sustainability  
GP: Global Perspectives  
LLD: Lifelong Learning and Self-Development (Area E)  
SJ: Social Justice
SF State Studies

SF State Studies Requirement

SF State Studies courses fulfill graduation requirements but do not have specific unit requirements. They are meant to ensure that students take at least one course in areas that the campus feels are important to graduates of our university. There are currently four graduation requirements that students must meet:

- American Ethnic and Racial Minorities (AERM),
- Environmental Sustainability (ES),
- Global Perspectives (GP), and
- Social Justice (SJ).

Courses certified as meeting the SF State Studies requirements may be upper or lower division, may be in General Education, a major or minor, or may be an elective. Because of the large number of SF State Studies courses, most students will take more than one SF State Studies course, and will not have to seek out such courses.

American Ethnic and Racial Minorities

Courses approved for the SF State Studies American Ethnic and Racial Minorities requirement should: present views of one or more groups of American Ethnic and Racial Minorities both from the perspective of the group and as an integral part of American society; encourage the study of values, attitudes, behaviors and/or creative endeavors that acknowledge and respect the dignity of all groups; and present a thorough analysis of the historical experiences, social stratification processes, political activism, basic cultural patterns, aesthetic experiences and/or ideologies, and include one or more of the oppressed groups of color: African Americans, American Indians, Asian Americans, Pacific Islander Americans, US Latinas/Latinos, South West Asian/North African Americans, and people of mixed racialized heritages.

Courses certified as meeting the SF State Studies requirements may be upper or lower division, may be in General Education (GE), a major or minor, or an elective. Not all of the courses listed below are approved for General Education.

Environmental Sustainability

Courses approved for the SF State Studies Environmental Sustainability requirement must examine some aspect of environmental sustainability. The perspective can be from any area of the university curriculum, such as social sciences, natural sciences, arts, humanities, business, or engineering.

Courses certified as meeting the SF State Studies requirements may be upper or lower division, may be in General Education (GE), a major or minor, or an elective. Not all of the courses listed below are approved for General Education.

A U/GEOG 301 Bay Area Environments (UD-B, ES) 3
A U 302 Bay Area Culture (UD-C, AERM, ES, GP) 3
AA S 510 Asian Americans in California (UD-D, AERM, ES, SJ) 3
AA S 587 Asian Americans and Environmental Justice (UD-D, AERM, ES, SJ) 3
ADM 665 Product Development for Apparel (ES) 3
AFRS 256 Hip Hop Workshop (C1, LLD, AERM, ES, GP, SJ) 3
AFRS 370 Health, Medicine, and Nutrition in the Black Community (UD-D, AERM, ES, SJ) 3
AFRS 515 Black Family Studies (UD-D, AERM, ES, SJ) 3
AIS 160 Survey of Native California (D1, AERM, ES, SJ) 3

**Global Perspectives**

Courses approved for the SF State Studies Global Perspectives requirement must examine topics that are global in scope (i.e., that involve different parts of the world), and must compare and contrast human experiences and perspectives, whether in the present or the past.

Courses certified as meeting the SF State Studies requirements may be upper or lower division, may be in General Education (GE), a major or minor, or an elective. Not all of the courses listed below are approved for General Education.

Students who study abroad can petition through the Undergraduate Advising Center, (http://advising.sfsu.edu) upon their return, to have the Global Perspectives met.

</table>
**Social Justice**

Courses approved for the SF State Studies Social Justice requirement must address social constructions of identity, hierarchy, power, and privilege; community resistance and empowerment; and social justice. The social constructions may be related to variations among humans, including such factors as abilities, ages, cultures, genders, geographic locations, histories, immigration statuses, languages, national and ethnic identities, racializations, religions, sexualities, socio-economic classes.

Courses certified as meeting the SF State Studies requirements may be upper or lower division, may be in General Education (GE), a major or minor, or an elective. Not all of the courses listed below are approved for General Education.

GP: Global Perspectives
LLD: Lifelong Learning and Self-Development (Area E)
SJ: Social Justice
Complementary Studies

Complementary Studies: Bachelor of Arts Degrees (12 Units Minimum)

Bachelor of Arts students must complete at least 12 units of Complementary Studies outside of the primary prefix for the major. Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Students earning Bachelor of Music or Bachelor of Science degrees do not have to complete the Complementary Studies requirement. Details about Complementary Studies can be found in the Bulletin description for each B.A. degree. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. These students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.
Academic Advising for Undergraduate Students

Academic Departments (Advising for Majors and Minors)

Major and minor advising is offered by faculty members in each department. Some departments assign advisors and others provide lists of advisors and permit students to choose their own advisor. Contact the department for referral to an advisor.

Undergraduate Advising Center

The Undergraduate Advising Center (http://advising.sfsu.edu) is staffed by counselors and peer advisors committed to providing guidance and information to help undergraduate students have a successful college experience. Along with general academic advising information, the Undergraduate Advising Center provides the following services:

Academic Advising

Academic advisors help students understand general education and graduation requirements and assist them in selecting appropriate courses that fit with their academic goals.

Undeclared Majors

Academic advisors in the Undergraduate Advising Center (http://advising.sfsu.edu) help students make informed and satisfying decisions about academic goals that are best suited to their interests and needs. Workshops, resource materials, and appointments are available.

Orientation

Orientation is a must for all incoming students. Orientations are scheduled during the summer and winter prior to each semester. Information materials regarding Orientation are sent to all newly admitted students. Advisors in the Undergraduate Advising Center participate in the orientations and assist students with selecting and registering for classes for their first semester.

Readmit Students

Students who attended SF State in the past (readmit students) may make an appointment in the Undergraduate Advising Center to discuss the possibility of readmission.

Advising Services

Faculty and staff throughout the University provide academic advising. The goal of advising is threefold:

- to facilitate intellectual and personal development,
- to enhance academic performance, and
- to ensure progress toward graduation.

Meeting regularly with advisors enables students to stay on track and to be successful. All students are expected to make use of available advising services located in the academic departments, the Undergraduate Advising Center, college-based Student Resource Centers and in special advising and support programs.

Undergraduate Student Advising

Advising for majors and minors is available from faculty members in each department. It is the student’s responsibility to seek out a faculty member to serve as an advisor. Some departments assign advisors and others have students choose from a list. Contact the department for referral to an advisor.

Graduate Student Advising

Advising for graduate students is available from faculty members in each department. In addition, the Division of Graduate Studies (http://grad.sfsu.edu) provides general advising for prospective and continuing students about all graduate program policies and procedures. Contact the department for referral to an advisor.

Additional Advising and Retention Programs

San Francisco State University offers other advising services and support programs to assist students. Click on any of the following programs for more information:

- Campus Academic Resource Program (CARP) (http://carp.sfsu.edu)
- Developmental Studies Office (http://developmentalstudies.sfsu.edu) – Support for students taking developmental/remedial courses
- Disability Programs and Resource Center (DPRC) (http://access.sfsu.edu)
- Educational Opportunity Program (EOP) (http://www.sfsu.edu/~eop)
- Learning Assistance Center (LAC) (http://lac.sfsu.edu) – Tutoring
- Metro College Success Program (METRO) (http://metro.sfsu.edu)
- Office of International Programs (OIP) (http://oip.sfsu.edu)
- Undergraduate Advising Center (UAC) (http://advising.sfsu.edu)

College Based Resource Programs

- Advising Resource Center (ARC) (http://advisinglca.sfsu.edu) – College of Liberal & Creative Arts
- College of Business Student Services Center (COBSSC) (http://cob.sfsu.edu/resources/undergraduate) – College of Business
- COSE Student Resource Center (https://cose.sfsu.edu/content/cose-success-center) – College of Science & Engineering
- Ethnic Studies Student Resource & Empowerment Center (http://ethnicstudies.sfsu.edu/studentcenter) – College of Ethnic Studies
- Student Resource Center (SRC) (http://chss.sfsu.edu/src) – College of Health & Social Sciences
- Student Resource Center (SRC) – College of Education

Planning Your Studies at SF State

The baccalaureate degree includes General Education (GE) requirements, other university graduation requirements, an academic major, perhaps a minor or second major, and elective course work. Students, with the aid of advisors, combine these elements in a creative and thoughtful way. By taking the time to create a meaningful degree program, students will not only graduate in a timely manner, but will benefit from the opportunity to take personal responsibility for their own learning.

Check your level of readiness.

If you begin college at SF State and are not exempt, you must take required entry-level tests (ELM/EPT) before your first semester to ensure
that your skills in mathematics and English are at a college level. Any required remediation must be completed in one year.

Use GE to learn about yourself and your world.

If you are unsure about what you want your major to be, it is a good idea to spend your first semesters exploring different options. GE allows you to learn about different subjects.

It’s OK to be undeclared.

A large percentage of incoming first-time college students have not yet declared their major. Take time to explore the possibilities. Meet with an advisor in the Undergraduate Advising Center (http://advising.sfsu.edu) and use SF State services, such as the Office of Career Services & Leadership Development (http://careerservices.sfsu.edu), to help you find the right major. First-time college students need to declare a major before completing 70 units.

It’s OK to change your major.

Most students change their major at least once while in college. If you find that the major you have chosen is not right for you, explore other options. You will probably find that there are many more choices than you have ever encountered.

General Education and major requirements may sometimes overlap.

Most majors include courses that meet both GE and major requirements. This is referred to as “duplicate use of credit” or simply “double-counting.” By choosing certain courses, you can satisfy both GE and major requirements. For some majors, you can also meet GE requirements through “met in major.” Refer to your major to see if there are any GE requirements that might be “met in major.”

When you have decided on a major, make a tentative plan for your remaining semesters at SF State.

Many departments will provide you with an advising worksheet so you can keep track of your progress. Most majors have sample “roadmaps” that show a possible pathway to graduation. You can also refer to your Degree Progress Report, found in your Student Center, in order to track your progress towards completing your major.

Plan your program in consultation with an advisor.

Review your advising worksheet or roadmap frequently and meet with an advisor on a regular basis. Go to your major department and request an advisor or, if you are undeclared, or thinking about changing your major, meet with an advisor in the Undergraduate Advising Center (http://advising.sfsu.edu).

Bring your advising materials to your advising sessions. (Unofficial transcripts, Degree Progress Report [DPR], Advanced Standing Evaluation Form [ASE], if applicable, etc.).

This SF State Bulletin is the most complete source of information regarding graduation requirements and university policies and procedures. Use this Bulletin to help choose a major and to determine course content and prerequisites.

Use the online Class Schedule to determine which courses are offered each semester. At the Web site, https://webapps.sfsu.edu/public/classservices/classsearch, you will also find an academic calendar and information on tests and deadlines. Some departments provide advance information on future course offerings, either online or in departmental offices.

Degree Progress Report (DPR) is an advising document created to inform students how courses have been accepted toward GE and other graduation requirements. Students should review their DPR after each semester’s grades are recorded in order to monitor progress in completing requirements and to resolve errors and/or complete deficiencies. DPRs can be found by logging onto the SF State Gateway (http://gateway.sfsu.edu) and going to the Student Center.

Advanced Standing Evaluation (ASE): Some students who began their studies at SF State prior to Fall 2014, may have an ASE that records transfer coursework that does not appear on the Degree Progress Report. In addition, students readmitting to SF State Fall 2014 and after, may also have an ASE for previously transferred and evaluated coursework. In this case, students will see that they have “legacy units” recorded in the Transfer Credit Report in the Student Center. These “legacy units” show on the ASE. If the units meet GE or graduation requirements, the ASE will show that was well. The ASE must be used with the DPR to understand the GE and other graduation requirements that have been met. Students can request a copy of their ASE from the Registrar at the One Stop in the Student Services Building.

Transcripts of SF State and Transfer Institutions assist students and advisors in determining that prerequisites have been met, that skills are sufficiently developed, and that courses have been taken appropriately for the degree. Bring copies of transcripts when meeting with advisors to help monitor progress and determine the best path toward the degree.

Major and Minor Requirements Worksheets and Roadmaps provide information to assist students in fulfilling requirements. Many departments publish flowcharts and graphic illustrations of prerequisite structures to help in planning. Often worksheets include details in addition to what is found in the Bulletin and also provide space for advisor verification of course equivalencies in the major/minor.

Pay careful attention to course prerequisites.

Be sure to take courses in the proper sequence. Included in this Bulletin is a description of all courses offered at SF State (bulletin.sfsu.edu/ courses). If you need prior experience or exposure to a subject as background to a course, prerequisite requirements are listed which must be taken before you can take that course.

Discuss effective use of elective credit with your advisor.

You may use these elective units to fulfill prerequisites for graduate school, develop a specific competency (for example, foreign language or computer skills), or to enrich your life and expand your understanding.

Take advantage of as many opportunities as possible while in college.

If you plan your education well, you will find time to participate in internships, student organizations, and many other programs and services available at SF State. In most majors, you can spend a semester or a year studying at a university in another country; the staff in the Office of International Programs (http://oip.sfsu.edu) will help you plan both your academic program and your finances if you would like to study abroad.

Go at your own speed.

Take care of the basic skills first. Most students work while attending SF State and therefore may not graduate in the typical eight semesters.
Each student should take the number of units that is consistent with his/her specific family, work, and social obligations.

Most majors consist of approximately 45 units. If a student is earning a B.A. degree, the following is a sample unit breakdown. This example assumes no duplicate use of credit ("double counting") between the major and GE requirements. The distribution will be slightly different for transfer students. An average of 15 units per semester will be needed to complete the degree in eight semesters.

Most B.S. degrees can also be completed in 120 units, but in some programs, a student will need more than 120 units. An average of 16.5 units per semester will be needed to complete the degree in eight semesters.

How is transfer credit evaluated for GE?

Transfer students from California Community College or California State University campuses will be given credit for general education requirements which their former institutions certify as completed. Transfers from other public or private colleges will be given appropriate GE credit as determined by SF State evaluators.

Can I earn GE credit for college-level learning that I acquired through prior work or life experience?

Yes, that may be possible. The CEEL (Credit by Evaluation for Experiential Learning) Program provides a way of earning General Education, elective, and, in some cases, major credit for those students who have acquired prior college-level learning for which no college credit has been awarded. To obtain further information about CEEL, contact the Undergraduate Advising Center (http://advising.sfsu.edu).

Should I carefully plan my GE program?

Yes. Some courses may not be offered every semester. Exceptions to GE requirements are considered only under unusual and extenuating circumstances.

Academic Checklist

This is a summary of the SF State graduation requirements and restrictions. Detailed explanations of each requirement are included in this section of the (p. 82)Bulletin. Use this list to check your progress.

Bulletin Year 2017 – 2018

Entry Level Requirements

• Entry Level Mathematics (ELM)
• English Placement Test (EPT)
• Composition for Multilingual Students Placement Test (CMSPT)

Unit Requirements

• Minimum units required to graduate
  B.A. = 120 semester units minimum
  B.S. = 120–132 semester units minimum
• Residence Requirement: 30 units minimum at SF State, including 24 units upper division, 12 units in the major (lower or upper division), and 9 units of upper division General Education coursework.
• Upper Division Requirement: 40 units minimum, including 24 units at SF State, and 9 units in General Education.

Maximum Unit Restrictions

• Maximum Units for Community College Work: 70 units
• Maximum Units by Examination or Evaluation: 30 units
• Maximum Units CR/NC: 30% of total units earned at SF State. See major department for further restrictions.
• Maximum Units in One Semester: 19 units (Written approval must be received to exceed the 19 unit limit).
• Maximum Units for Courses Numbered "685" and Titled "Projects in Teaching . . ." That may be Applied to the Baccalaureate Degree: 4 units.

Grade Point Average

• Minimum Grade Point Average: 2.0 in all college work, in SF State work, and in the major.

Major Requirements

• Refer to Academic Programs (p. 194) section of this Bulletin.

Minor (optional except for Journalism majors)/Second Major

• Refer to Academic Programs (p. 194) section of this Bulletin.

General Education Requirements – 48 units minimum

• Special requirements apply to each Area of the GE Program. Transfer students are subject to different GE requirements than are students admitted to SF State as first-time freshmen. See the GE section of this (p. 82)Bulletin for specific policies and course requirements.

Area A: English Language Communication and Critical Thinking – 12 units minimum

• A1: Oral Communication – 3 units
• A2: Written English Communication I – 3 units
• A3: Critical Thinking – 3 units
• A4: Written English Communication II – 3 units

Area B: Scientific Inquiry and Quantitative Reasoning – 9 units minimum

• B1: Physical Science – 3 units
• B2: Life Science – 3 units
• B3: Laboratory Science – 0–1 units
• B4: Quantitative Reasoning – 3 units

Area C: Arts and Humanities – 9 units minimum

• C1: Arts
• C2: Humanities
• C3: Humanities: Literature

Area D: Social Sciences – 9 units minimum

• D1: Social Sciences
• D2: Social Sciences: US History
• D3: Social Sciences: US & CA Government

Area E: Lifelong Learning and Self-Development – 0–3 units

Upper Division General Education – 9 units minimum

• The upper division general education requirement is satisfied by taking one 3 unit course in each of the three domains of knowledge: Physical/Life Sciences (UD-B), Arts/Humanities (UD-C), and Social Sciences (UD-D). The courses must be taken at SF State during or
after the semester in which upper division standing is achieved (60 units).

**SF State Studies Requirements – 0–12 units**

- All students must complete at least one course (in general education, a major, a minor, a certificate, complementary studies, or an elective) that is designated in each of four areas. The areas are American Ethnic and Racial Minorities (AERM), Environmental Sustainability (ES), Global Perspectives (GP) and Social Justice (SJ). It is expected that most students will not have to take additional courses to meet these requirements, but that they will be met with the courses they take for their degree. Students studying abroad can petition to have the Global Perspectives area of the SF State Studies requirement met with a study aboard course.

**Complementary Studies: Bachelor of Arts Degrees – 12 units minimum**

- Bachelor of Arts students must complete at least 12 units of Complementary Studies outside of the primary prefix for the major. Students who complete two majors or a major and a minor automatically complete the Complementary Studies requirement. Students earning Bachelor of Music or Bachelor of Science degrees do not have to complete the Complementary Studies requirement. Details about Complementary Studies can be found in the Bulletin description for each B.A. degree. Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree (http://ueap.sfsu.edu/articulation/roadmaps) at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. These students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

**AP – IB – CLEP Examinations**

**Standardized External Examinations**

San Francisco State University grants credit toward its undergraduate degrees for successful completion of the three standardized exams below. For credit to be awarded, official score information must be sent directly to SF State from the test administrator - College Board (AP, CLEP) or International Baccalaureate (IB).

Students may not earn duplicate credit if they have previously completed or subsequently complete equivalent exams or college-level course work.

Select an examination below for information about the award of SF State credit.

- Advanced Placement (AP) (https://ueap.sfsu.edu/sites/default/files/assets/docs/artic_docs/AP_Credit_curr.pdf)
- College-level Examination Program (CLEP) (https://ueap.sfsu.edu/sites/default/files/assets/docs/artic_docs/CLEP_Credit_curr.pdf)
- International Baccalaureate (IB) (https://ueap.sfsu.edu/sites/default/files/assets/docs/artic_docs/IB_Credit_curr.pdf)
- Previous Years (Archives) (http://ueap.sfsu.edu/articulation/resources)
GRADUATE EDUCATION

• U.S. News and World Report consistently ranks many of SF State’s graduate programs among the best in the United States. Our programs are nationally recognized and draw top applicants from across the country and internationally.

• Our faculty, in collaboration with our graduate students, are active scholars engaged in vital research and creative endeavors that are changing the way we understand our world. Projects undertaken by our faculty are funded by grants and contracts from the most competitive government and private agencies.

• Graduate students seeking degrees in the fields of science develop their skills in the Conservation Genetics Laboratory, the Romberg Tiburon Center for Environmental Studies, an electron microscope facility, a DNA analysis facility, a Thin Film Laboratory, the Center for Computing and Life Sciences, and the Nuclear Magnetic Resonance Center.

• SF State has abundant resources such as the largest radio and television production facilities in Northern California, the Design Center for Global Needs, the Poetry Center and American Poetry Archives, the Digital Cinema Lab, the Confucius Institute, and the Graduate String Quartet Residency Program.

• All graduate students have the use of our state-of-the-art, newly renovated Library. The new building includes 3000 seats for quiet and group study, over 250 public computers, a Digital Media Studio for students with 9 editing rooms, and extended hours study areas with 18 group study rooms.

Graduate Admissions and Graduate Studies

There are nearly 4,000 students enrolled in post-baccalaureate study in 93 master’s programs, an Ed.D. in Educational Leadership, and two joint doctoral programs with the University of California. The University also offers credential programs in education, specialized graduate certificate programs, and second baccalaureate degree programs. Our students, many of whom are working full- or part-time, are fully engaged in scholarly endeavors, including basic and applied research, creative projects, and community service. General information about graduate study and how to begin and complete a post-baccalaureate program can be found in the following pages of the Bulletin at Graduate Education (p. 115), Graduate Studies website grad.sfsu.edu (http://grad.sfsu.edu), or by contacting the Division of Graduate Studies. A handbook for graduate students, the GradGuide, is available on the Graduate Studies website or in print at the Graduate Student Orientation held before the start of each fall semester.

For information about a specific program, the student should view the academic department website or contact the program graduate coordinator to obtain program-specific admission and/or degree requirements. Graduate coordinator contact information and department information can be accessed from the Graduate Studies website.

Faculty Teaching in Graduate Programs

Faculty members teaching in graduate programs hold doctoral or other terminal degrees in their field. These tenured and tenure-track faculty members serve as advisors on theses, creative works, field projects, and/or graduate comprehensive examinations committees based on the faculty member’s expertise and area of research or scholarly work. In some cases, non-tenure track faculty members with exceptional backgrounds in specific areas of study may be assigned to teach graduate-level courses. You can review faculty backgrounds in our Bulletin faculty directory.

CSU Graduate Admission

General Eligibility Requirements

Minimum requirements for admission to graduate study in the California State University are in accordance with Title 5, Division 5, Chapter 1, Subchapter 3, of the California Code of Regulations. The University has the right to require higher standards than the minimum requirements published in Title 5.

To meet the minimum eligibility standards for graduate study at SF State, an applicant must:

1. hold a baccalaureate degree from a regionally accredited institution, or shall have completed equivalent academic preparation as determined by the appropriate campus authority;
2. be in good academic standing at the last college or university attended;
3. have a 3.0 GPA in their earned undergraduate degree or in the last 60 semester (90 quarter) units completed, or have earned a post-baccalaureate degree; and
4. meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.

Graduate Admission Processes

Application for admission to a graduate degree, credential, or certificate program requires the student to apply to both the University through the California State University (CSU) common application, CAL STATE APPLY (https://www2.calstate.edu/apply), and directly to the academic department/program. Applicants to post-baccalaureate study must file an application and be accepted to each program to be eligible to earn a degree, certificate, or credential. Retroactive admission and/or award of degree or certificate is prohibited for students who complete coursework in a program to which they have not been admitted. Applicants seeking prerequisites for entry to a graduate degree program should contact the Division of Graduate Studies. The CAL STATE APPLY (https://www2.calstate.edu/apply) online application system does not allow applicants to apply to more than one SF State graduate program per application term. Application materials will not be reviewed by any program other than the one the applicant has designated on their formal university application. If you are not selected for admission to your preferred program, contact Graduate Studies for an alternate program.

Applicants to a second baccalaureate degree program must use the graduate admission application through CAL STATE APPLY (https://www2.calstate.edu/apply). Second Baccalaureate admission is restricted to select degree programs by the CSU Chancellor’s office. Applicants seeking admission to other second bachelor’s degree programs must obtain written support for admission from the Academic Department Chair of the intended program of study. Contact the Division of Graduate Studies for procedures and forms to be considered for admission.
University Right to Select Students
The University reserves the right to select its students and deny admission to the University or any of its programs. The University, in its sole discretion, determines admissions based on an applicant’s suitability for graduate study, which is based on the application materials submitted and the applicant’s fit with the department’s mission, goals, resources and areas of faculty scholarship. Admission to graduate programs is selective and more people apply than can be accepted. Meeting minimum University or department requirements for admission does not ensure acceptance into a graduate program. The University graduate admissions process is conducted in compliance with its Nondiscrimination Policy (see the Regulations and Procedures (p. 163) section of this Bulletin for the complete policy).

Importance of Filing Complete, Accurate, and Authentic Application Documents
The University and its programs have the right to verify all information and documents submitted in and with the application. Applicants must supply complete and accurate information on all application materials for admission, residence questionnaire or residency reclassification request, and financial aid forms. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Transcripts
All graduate and post-baccalaureate applicants must provide the Division of Graduate Studies with one official transcript from each college or university attended, including community college and study abroad coursework. Separate transcripts from each college or university are required even though one transcript may show course work taken at another institution. Transcripts for coursework completed at SF State are not required. Applicants must check the academic department/program information to determine if a second set of official transcripts must be sent directly to the department. Official transcripts must be submitted in envelopes sealed by the issuing college or university. Copies of transcripts or opened official transcripts will not be accepted. Official transcripts sent electronically from authorized agencies, such as, Script Safe, eScript, etranscripts must be sent to graddocs@sfsu.edu. Transcripts which have been submitted for admission or evaluation become the property of the University and are not returned or copied for distribution outside of the University.

Entrance Examination/Standardized Test Scores
The University does not require applicants to complete an entrance examination as a condition for graduate admission; however, many departments or programs do require that graduate degree applicants submit results of the general or area tests of the Graduate Record Examination (GRE) or the Graduate Management Admissions Test (GMAT) prior to admission. Check the department website for test requirements. Applicants are responsible for having the required examination results forwarded directly to the university or department. SF State’s GRE institution code is 4684. Our GMAT institution codes are F87HP99 for the M.B.A., and F87HP10 for the M.S.A. programs.

Pre-admission Writing Assessment
The University requires that all applicants meet a pre-admission (Level I) writing standard prior to entering a graduate program. Departments or programs stipulate the pre-admission writing standards appropriate to their discipline. Departments may require a specific score range on the analytical writing section of the GRE or GMAT or faculty will assess graduate-level writing with a department/program administered writing exam or essay. Students who do not meet Level I writing standards, but meet other admissions requirements, may be admitted with specific conditions stipulated by the department. Conditions for meeting Level I writing standards should be met by the end of the first semester after admission and must be met no later than the second consecutive semester after admission.

Program Application Materials
Letters of recommendation, a statement of purpose, writing samples and/or résumé materials required by the department or program must be submitted directly to the department or program. Check department/program website for requirements. For information on credential programs, contact the Graduate College of Education Credential and Graduate Services Center. Applicants for a school counseling, school psychology, or school social work credential should contact the department offering the program.

All application materials submitted to the University, academic department, or graduate program become the property of the University and will not be returned. In selected cases in which an applicant has submitted a portfolio of original work for review by a program admission committee, the original works may be returned if the applicant makes the necessary arrangements with the department and provides a stamped, self-addressed envelope or package for return mailing.

Application Filing Periods
The CAL STATE APPLY (https://www2.calstate.edu/apply) online application filing periods open on the dates listed below. All applications must be submitted by the academic department deadline. Applicants should consult the Graduate Division website (http://grad.sfsu.edu/program-deadline-dom), or contact the department/program directly for additional information.

Domestic and International Applications
Applications for fall are accepted beginning October 1.
Applications for spring are accepted beginning August 1. Not all programs accept spring applications. Consult the Graduate Division website (http://grad.sfsu.edu/program-deadline-dom) for information on spring admissions.

Applicants from Institutions without Regional Accreditation
An applicant who is a graduate of an institution without regional accreditation, or from an institution whose degree is not considered equivalent to a baccalaureate degree from this University in terms of quality and/or content (e.g., specialized, professional, or certain international institutions), may not be admitted directly to graduate or credential status at SF State. Applicants from non-accredited institutions should speak with the Senior Associate Director of Graduate Admissions to determine alternative preparation for graduate study. Additional coursework at the undergraduate level may be required. Information about regionally accredited universities can be found at the Council for Higher Education website (www.chea.org (http://www.chea.org)). International students should review the International Student Admission Requirements section below.
SF State Graduate and Post-Baccalaureate Application Procedures

Application to a graduate degree, credential, or certificate program is a two-part process. Students must apply to the University via the online CAL STATE APPLY (https://www2.calstate.edu/apply) application and apply to the specific department/program offering the degree, credential or certificate. Applicants seeking prerequisites for entry to a graduate degree program should contact the Division of Graduate Studies. SF State accepts applications for admission for the fall and spring semesters only.

Applicants to post-baccalaureate study must file an application and be accepted to each program to be eligible to earn a degree, certificate, or credential. Retroactive admission and/or award of degree or certificate is prohibited for students who complete coursework in a program to which they have not been admitted.

The following processes must be followed to be considered for admission to a graduate degree, credential, second baccalaureate, or certificate program at SF State, including degree programs offered through Special Sessions in the College of Extended Learning.

Part One

Apply to the University online via CAL STATE APPLY at calstateapply.edu (http://www.csumentor.edu/admissionApp), pay the required application fee and submit to the Division of Graduate Studies official transcripts from all colleges and universities attended. Applicants with multiple transcripts should remember that it may take the college or university issuing the transcripts several weeks to send the documents. To ensure more rapid processing, applicants should gather official University-sealed transcripts from each institution previously attended, place them together in the same large envelope and submit them by mail or in person to:

Graduate Admissions
San Francisco State University
1600 Holloway Avenue (ADM 250)
San Francisco, CA 94132–4013

eTranscripts will be accepted from participating universities and should be sent to graddocs@sfsu.edu. Evaluation of a student application will not be initiated until all University application materials have been received.

Applicants to graduate degree, credential, second baccalaureate, or certificate programs should apply early in the application period so that the Division of Graduate Studies can verify minimum university admission requirements and then forward this review to the department/programs by the department deadlines (http://grad.sfsu.edu/program-deadline-dom).

Applicants to either of the two joint doctoral programs should check the Graduate Studies website for links to the department for specific application deadlines and requirements.

Part Two

All graduate degree, credential, and certificate programs have additional application requirements. Department/program specific application materials may include (but are not limited to): copies of transcripts, test scores, a statement of purpose, department specific essay, portfolio or work, letters of recommendation, résumé, etc. These required materials must be submitted directly to the department or program by the department deadline. Please consult directly with the department or program for information about additional required materials or check online at grad.sfsu.edu (http://grad.sfsu.edu) to link to department-specific requirements. Departments will stipulate how you must meet the pre-admission (Level I) writing assessment. Check the department website for expectations. Review the Pre-admission Writing Assessment section of this Bulletin for information.

International Applicant Admission Requirements

SF State has separate application requirements for international F-1 or J-1 visa holders or applicants who have earned degrees outside of the United States. International applicants applying to a graduate program may have earlier application deadlines than those listed for domestic students. Applicants holding or requiring F-1 or J-1 visas must also submit the Financial Affidavit Form and evidence of financial resources for study in the U.S. for the issuance of an SF State I-20 Certificate of Eligibility. International students should access the Graduate Studies website (http://grad.sfsu.edu/content/prospective/international/ international-admissions) for information on admission criteria, English language requirements, and I-20 issuance.

All international applicants requiring an F-1/J-1 visa must be formally admitted and enrolled in conditionally classified or classified status as matriculated students in a degree program offered through the University. International applicants will be given full consideration for admission based on the SF State’s commitment to internationalizing the student body. The California State University (https://www2.calstate.edu/csu-system/media-center/Pages/CSU-Statement-on-President-Trumps-Executive-Order.aspx) is committed to being an inclusive and welcoming institution of higher education that is enhanced by the students, faculty, staff and alumni from our global community.

Academic Eligibility

Applicants educated outside of the United States must have earned a degree or diploma that SF State considers to be the equivalent of a U.S. bachelor’s degree from a regionally accredited institution. An official determination of eligibility will be made during the application process. Applicants graduating from international institutions with three-year degrees preceded by thirteen years of pre-collegiate work and “A-level” passes are admissible to SF State graduate programs if they meet all other University and program requirements. Applicants who hold a Bologna degree comprised of 180 ECTS may be eligible for admission following comprehensive evaluation of documents.

International applicants with twelve years of pre-collegiate education, a three-year bachelor’s degree followed by a post-graduate diploma or an honors bachelor’s may be admissible to graduate programs at SF State.

Required Educational Documents

Applicants educated outside of the United States must submit official or university-attested and sealed copies of all original academic documents in the original language of issue. Copies must be certified by the appropriate university official. Required documents include: the complete official academic record showing all courses or subjects; dates of enrollment and grades/marks received; official degree(s), diploma(s), or certificate(s) awarded. Official word-for-word English translations must be submitted in addition to the original language documents.

English Language Proficiency Requirement (TOEFL/IELTS/PTE)

All graduate, credential, second baccalaureate, and certificate applicants, regardless of citizenship, whose native language is not English and whose preparatory education was principally in a language other than English must demonstrate competence in English. According to Title 5 of the California Code of Regulations (Section 41040), to be admitted to a
Admission Decisions

The University reserves the right to select its students and deny admission to the University or any of its programs. Review the University Right to Select Students section of this Bulletin.

Notice of Admission or Denial

After review of all application materials, department or program admission committees notify the SF State Graduate Admissions office of their admission recommendations. Applicants are then formally notified of their admission status on receipt of the official SF State Graduate Admission Notification Letter issued by the SF State Division of Graduate Studies. Letters of admission from the department or program received prior to the official SF State Admission Notification Letter are not valid. Applicants who are denied by either the University or the academic department or program will receive notification of denial from the Division of Graduate Studies.

Admission Contingent on Award of Degree

If a student is admitted to the University before the final award of the baccalaureate or post-baccalaureate degree, an official transcript with degree award notation must be submitted before the end of the fourth week of the first semester of enrollment. Students who are admitted to a graduate program contingent on award of the undergraduate degree must maintain a 3.0 GPA in all work completed before the degree is earned or admission status may be rescinded. Any student who does not submit documentation of completion of an undergraduate degree by the end of the fourth week is subject to one or more of the following actions: cancellation of admission and registration, automatic reclassification to undergraduate status, loss of all units taken for post-baccalaureate credit, and disciplinary action if appropriate.

Expiration of Admission Offer

Admission will be cancelled if an applicant is accepted by SF State for a given semester and does not enroll in that semester. Applicants who let their admission offer expire must file a new CAL STATE APPLY (https://www2.calstate.edu/apply) application, pay a new application fee, and meet the requirements for admission in effect for the new term to which they are applying. Readmission to a future semester is not guaranteed. An offer of admission may also be withdrawn by the graduate program if the applicant has not indicated their intent to enroll by the program deadline or has failed to meet a condition of admission set by the program.

Admission Categories

Graduate Conditionally Classified

Most students are admitted to the University in conditionally classified standing. Admission conditions are determined by the program and must be met within the specified timeframe set by the program. Programs admit students in this category to evaluate progress toward degree completion. This admission category does not impact Financial Aid eligibility. Students admitted in this category will be moved to classified status after submission and approval of the Advancement to Candidacy Form (ATC).

Graduate Classified

Very few students are admitted directly to this category. Most students advance to this status after submitting an approved Advancement to Candidacy Form (ATC).

Post-baccalaureate Classified

Students admitted to a credential or second baccalaureate program will be admitted as post-baccalaureate classified. Admission in this status does not constitute admission to, or assurance of consideration for admission to, any graduate degree program. Contact the Credential and Graduate Services Center for further information on credential programs. Students seeking admission for administrative or special education credentials should contact the departments directly. Second baccalaureate students should maintain close ties with the Department Advisor to ensure prerequisite or a second bachelor's degree coursework is completed according to submitted plan.

Post-baccalaureate Unclassified

Students who have earned an undergraduate degree and are admitted to a graduate or undergraduate certificate program are admitted to this category. Certificate students should contact the department offering the certificate program for information about the application process. Not all certificate programs are Financial Aid eligible.

Transfer Credit from Other Institutions

Graduate courses taken at another university are not automatically transferable to an SF State program. At the discretion of the department faculty, with support of the dean of Graduate Studies, a maximum of six 6 semester units, including any combination of transfer units or coursework through the College of Extended Learning, may be used to meet the requirements of a 30 unit program, or proportionally more for a program requiring 45 or more units. Students requesting transfer of units should confer with the department chair or graduate coordinator and the Division of Graduate Studies after notification of admission.

Departments/programs have the authority to determine which transfer courses will be accepted for use on the Advancement to Candidacy (ATC) form. (Review the Advancement to Candidacy section of this Bulletin for more information). Courses accepted for transfer credit by the department must meet the following minimum University requirements, but higher requirements may be stipulated by the department:

- The course content clearly meets the program's curricular requirements stipulated in the SF State Bulletin.
- The course was taken at a regionally accredited (or international equivalent) institution of higher education.
Graduate Admissions and Graduate Studies

• The course was not used to meet the requirements for an undergraduate or graduate degree awarded (excess units) at SF State or at another institution.
• The course was completed after earning the baccalaureate degree.
• The course was either an excess upper division or a graduate course at the institution at which it was taken and must be acceptable to that institution's advanced degree program.
• The course(s), if taken through an extension program, must be acceptable as a degree course at that university. Some extension courses are not acceptable. Check with Graduate Studies for transfer assessment.
• The course was not taken any earlier than seven years from the date the student is planning to graduate. Transfer courses become invalid when they no longer meet the seven-year condition.
• The student earned an acceptable grade (C or better) in the course. A grade of C will be calculated into the student's ATC GPA which cannot be lower than a 3.0. Most departments require a grade of B or better for transfer courses.
• Quarter units will be converted to semester units (i.e. a three-unit quarter course is equivalent to two semester units).
• Credits earned at recognized foreign universities may be transferable if course content, credit hours and grades are determined equivalent to SF State coursework. An official academic record and certified translation must be on file in the Division of Graduate Studies.

It is the obligation of the student, the student’s advisor, and the graduate coordinator to determine that the proposed transfer course meets all of the conditions for eligibility for inclusion on the ATC form.

A student requesting to have a course taken at another institution included as part of his/her graduate program should do the following:

• Obtain the approval of his/her graduate advisor and graduate coordinator on the Request for Graduate Program Transfer Unit Evaluation form (http://grad.sfsu.edu/sites/default/files/assets/forms/transfer-unit-evaluation.pdf).
• Submit the official transcript from the transfer institution with the Request for Graduate Program Transfer Unit Evaluation form to the Division of Graduate Studies for signature by the dean or designee.
• If approved, the course may be included on the ATC. Departments may deny transfer courses.
• Transcripts which have been submitted to the Division of Graduate Studies become the property of the University and are not returned or copied for distribution.

Credit by Examination

Credit by examination is seldom granted unless a student shows a high level of prior competence in the content area of the course being challenged and passes all course requirements through formal examination. An example of a student granted credit by examination is a highly skilled nurse who is able to pass the didactic and practical sections of a nursing course final examination.

To earn credit by examination, a student must obtain approval from the department chair and graduate coordinator. Grading options will be the same as that available for the course being challenged. The examination is to be comprehensive and include whatever activity, test, or demonstration is deemed appropriate for evaluating the skills, understanding, or knowledge required by the objectives of the course. Students must be regularly enrolled during the semester they earn credit by examination. Units earned via credit by examination are counted as part of the total units registered for a given semester and appropriate fees must be paid. Grades received as a result of the examination will be recorded on the student’s permanent record and appropriate grade points assigned.

Credits Taken Prior to Admission to a Graduate Program at SF State

• Credit through Open University, College of Extended Learning (CEL): No more than six units or 20 percent for required units for degree (proportionally more for larger unit degree programs) taken in CEL through Open University may be counted toward a graduate degree.
• Credit for Graduate Courses Completed as an Undergraduate: Up to nine units of upper division or up to 12 units of graduate work (not to exceed a total of 12 units) completed as an undergraduate may be counted toward a graduate program ONLY if the work was taken in the final semester before the bachelor’s degree was earned.
• Credit from Certificate Programs during Post-Baccalaureate Classified Status: When a student enrolls in a certificate program prior to admission to a related master’s program, no more than 12 units taken in Certificate status may be applied to a certain master’s degree. Any double counting of units must be approved by the department and the Division of Graduate Studies. Not all programs permit double counting of degree and certificate units.
• Credit Completed during Second Baccalaureate and Unclassified Graduate Status: The Chancellor’s Office has restricted access to these classifications due to budget issues. Admission to either status requires review by the dean of the Division of Graduate Studies. A specific plan of coursework must be approved by the dean. Students not following the plan of coursework will be administratively disqualified.
• Credit Completed before Admission: Applicants to post-baccalaureate study must file an application and be accepted to each program to be eligible to earn a degree, certificate, or credential. Retroactive admission and/or award of degree or certificate is prohibited for students who complete coursework in a program to which they have not been admitted.

Graduate Courses Taken as an Undergraduate Student at SF State

Courses taken prior to the award of the baccalaureate degree at SF State are considered undergraduate courses. However, students who have completed all courses toward the undergraduate degree and who have applied formally for admission to an SF State graduate program, may request on the Application for Award of Baccalaureate degree that up to 12 units of upper division undergraduate or graduate work taken in the final semester before the award of the undergraduate degree be granted provisional post-baccalaureate status. Units to be applied toward a graduate degree may not be counted toward the undergraduate degree. Only units that are B or above and are acceptable to the graduate program may be petitioned for use toward the graduate degree. Inclusion of units on an Advancement to Candidacy (ATC) taken as an undergraduate must have approval of the department/program admission committee or graduate coordinator and the Division of Graduate Studies. The number of upper division undergraduate units must not exceed the total number of undergraduate units permitted on the ATC.

If the baccalaureate degree is not completed at the end of the term expected, the provisional post-baccalaureate status for specified courses may be voided.
If units were not specified for graduate standing when applying for award of the baccalaureate degree at SF State and the units were not used for the baccalaureate degree, students should submit a Petition for Waiver of Graduate Program Regulations to the Division of Graduate Studies.

**Concurrent Study for Two Different Master’s Degrees**

Students seeking admission for concurrent enrollment in a second graduate degree must meet the following criteria:

1. be in good standing in their current master’s degree program,
2. must have completed at least 15 units of their current master’s degree program,
3. must formally apply and be admitted to the new master’s degree program and
4. may not use the same coursework nor complete the same culminating experience for both programs. For concurrent degrees with a common core, faculty of the programs must determine alternative core courses for the second degree.

Students studying for concurrent masters degrees may not use the same coursework, nor complete the same culminating experience, for both programs. For concurrent degrees with a common core, faculty of the programs must determine alternative core courses for the second degree.

**Concurrent Study for Master’s Degree and Credential**

Contact the College of Education, Credential and Graduate Services Center for information on current admission policies for entry into a credential program. Students intending to secure both a master’s degree and a California basic teaching credential may, in some programs, pursue these objectives concurrently, although some departments do not allow the same courses to be used for both objectives. Check with the department and Credential Office (College of Education) for the policy. If allowed by the department, no more than 12 units taken in credential status may be applied to a master’s degree.

**Readmission**

Readmission to a graduate program is not guaranteed. Students reapplying for admission are reviewed with all other applicants during that application period. Advancement to Candidacy (ATC) status is automatically voided after two consecutive regular semesters of absence have occurred and when no formal planned educational or health-related leave of absence has been granted. A leave of absence can only be taken prior to enrolling in the Culminating Experience. The Leave of Absence request form (http://grad.sfsu.edu/sites/sites7.sfsu.edu/grad/files/assets/forms/leave-of-absence-request.pdf.html) is found on the Graduate Studies website. Upon readmission, a new ATC that meets current curricular requirements must be completed and filed. Review the Continuous Enrollment Requirements (p. 129) and Progress Toward Degree (p. 124) sections of this Bulletin for information.

SF State graduate students must reapply for admission to the University and the department/program if:

1. they did not enroll in the first semester of admission;
2. they have been absent for two consecutive regular (spring/fall) semesters as a matriculated student; and/or
3. they have attended another college in any interval of their absence.

In order to be considered “in attendance” for any semester, the student must be enrolled in at least one class through the end of the twentieth day of instruction.

Applications for readmission and all supporting materials must be filed in the Division of Graduate Studies in accordance with current requirements and procedures. In order for previously matriculated SF State graduate students to be eligible for readmission, they must have earned a minimum GPA of 3.0 in all coursework attempted in graduate status and, if applicable, all coursework attempted at other colleges during their absence. If a student has attended any other educational institutions following attendance as a matriculated student at SF State, transcripts must be submitted for all academic work undertaken since the student last attended SF State. Students applying for readmission must have been in “good standing” at SF State and must have been making continuous progress toward degree before leaving their SF State program. Students wishing to re-enter with a GPA lower than 3.0 must improve their GPA by taking courses through CEL Open University before reapplying.

**Courses Taken to Improve GPA**

Courses taken to improve the GPA prior to admission to a graduate program or following academic disqualification should be selected to improve academic preparation for graduate coursework. Students may not enroll in non-degree related courses in Open University or lower division courses to improve a deficient GPA. Coursework taken to improve the GPA may not be applied toward their graduate degree.

**Graduate Academic Policies and Procedures**

**Election of Bulletin Requirements**

A graduate student must meet the department curriculum requirements published in the University Bulletin in the semester the student was admitted and enrolled. Programs that have enacted curriculum changes after publication of the Bulletin must notify students in writing of any changes in degree requirements at the time of enrollment. Updates in requirements may be published in the online Bulletin, the department student handbook, and/or in program advising materials. Continuing students must be notified by the department chair or graduate coordinator in writing with return receipt required indicating the student’s knowledge of the changes. Students readmitted to a graduate program after an absence of two consecutive regular semesters must meet the requirements of the program in place during the semester of their readmission.

**Doctoral Degree Requirements**

Students accepted into one of the two doctoral degrees at SF State offered jointly with the University of California and students in the Ed.D. in Educational Leadership should work closely with their academic advisors to ensure that all policies and procedures are being followed. Procedures for continuing student performance in doctoral programs are different from those required for students in master’s programs. Review the department/program information in this Bulletin or contact the department office directly for specific requirements and program information for all doctoral degrees.

**Master’s Degree Requirements**

To award the master’s degree, SF State requires that all graduate students seeking a master’s degree must:

- Meet the basic admission requirements for the University and the department or degree program;
• Complete two levels of the Written English Proficiency Requirement;
• Complete the specific course requirements leading to the degree
  (refer to program materials in this Bulletin and graduate program
  handbooks for department requirements);
• Complete a Culminating Experience defined by the department/
  program and approved by the University.

Written English Proficiency Requirement
Each graduate student must demonstrate, in an independently written
format, the ability to write English correctly and effectively to explain,
defend or argue discipline-specific issues. The written English proficiency
policy (#S16–014) requires two distinct levels of assessment: Level I
(admission) and Level II (degree requirement). The Level I requirement
must be met prior to admission, or no later than the first semester
of enrollment. Typical Level I written requirements may include a
4.0/6.0 or above on the Analytic Writing Assessment of the GRE or
the GMAT, a score of at least 4.5/6.0 on the essay test of the paper-
based [PBT] TOEFL, a minimum score of 24/30 on the Writing section
iBT TOEFL, a score of at least 6.5/9.0 on the IELTS writing test, a
department placement exam, writing samples, or creative works portfolio
as determined by the department. Level I written proficiency
requirements are set by the academic department. Students who do not
meet the Level I English Proficiency requirement at the time of admission
may be conditionally admitted by the academic department with clear
expectations that the student will meet the Level I English Proficiency
requirement during the first semester of attendance.

Units completed by a student to reach Level I competency may not
be counted on the Advancement to Candidacy (ATC) form. Students
who, within the first semester of attendance, do not meet the writing
competency conditions stated in the admission letter are subject
to declassification from the degree program. The Level II writing
requirement is determined by the department/program and is usually
associated with completion of the Culminating Experience or may
be related to a designated writing intensive course taken prior to the
Culminating Experience.

The Advancement to Candidacy (ATC)
The plan of study that must be completed prior to award of the degree
is documented on the Advancement to Candidacy (ATC) form. The form
must be submitted to the Division of Graduate Studies after completion
of 18 units toward the degree and no later than the semester prior to
starting any preliminary research and before enrolling in the Culminating
Experience course. The Advancement to Candidacy (ATC) form must be
approved by the graduate major advisor and the graduate coordinator/chairstudent’s department or program. The form is submitted to the
dean of the Division of Graduate Studies for evaluation and approval.
Upon approval of the ATC, the student is advanced to candidacy and
classified status. Students who have submitted their ATC forms can
check on their Advancement to Candidacy status by accessing the
Student Center from SF State Gateway at the SF State login page (http://
www.sfsu.edu/login.html).

Forms are available on the Graduate Studies website and are specific to
each degree program. Forms must be completed online and downloaded
for signature and submission. Handwritten forms will not be accepted.

Any change in the ATC requires that the student submit to the Division
of Graduate Studies office a Petition for ATC Course Substitution, including
all required signatures. Required core courses listed in the Bulletin for a
degree must be regularly offered. In the rare cases this is not possible
because of budgetary issues or curricular changes, file the Waiver for
Graduate Program Regulation Form. An 899 Independent Study course
may not be substituted for a core or required course for the degree. An
ATC core course substitution must be approved prior to enrolling in
substituting course.

The following minimum standards apply to all Advancement to Candidacy
(ATC) forms.

Units Included on ATC must include:
• A minimum of 30 semester units or more as required for the degree.
  No degree will be awarded where the minimum number of units
  specified for the degree has not been completed.
• Seventy Percent (70%) of the units must be from graduate-level
  courses:
  • Fifty percent (50%) of the units from exclusively graduate level
    courses (700-899 level). Most programs require more units or all
    units to be taken at this level.
  • Twenty percent (20%) of the units on the ATC may be graduate
    paired courses (graduate students must always register for the
    graduate designated section of the paired course).
• Thirty percent (30%) of the units may be from upper division level
  courses:
  • Thirty percent (30%) of the units on the ATC in some graduate
    programs may be from upper division undergraduate courses.
    Graduate students enrolled in undergraduate courses must
    complete additional coursework as specified by the instructor.
  • No lower division course work (100-299) is allowed on the ATC.
• At least 18 units of coursework taken within the department offering
  the degree program.
• No more than six units from any combination of Open University
  (CEL) work, credit by examination, and/or transfer work for the
  requirement of a 30 unit program and proportionally more for
  programs that exceed 30 units (e.g., a maximum of 12 semester
  units may be used in meeting the requirement of a 60 unit program if
  accepted by the program).
• No more than six units of credit in 899 Independent Study courses
  (699 not permitted) related to the degree objective. The 899
  Independent Study may only be included on the ATC as an elective
  and cannot be used to substitute core required courses.
• No more than 30 percent (e.g., nine units on a 30 unit program) of the
  work with CR grades, including any transfer units.
• No more than six units of credit in experimental courses (874, 877).
  Undergraduate equivalents of these courses are not permitted on the
  ATC.
• No more than four graduate student teaching units applicable to the
discipline (e.g. ENG 804, E ED 746, PT 960, JAPN 780, PLSI 781, etc.)
may be included.
• No more than 12 units earned through an official graduate
  international exchange program (or proportionally more for higher
  unit programs) if approved by the department/program and the
  dean of Graduate Studies. Exchange work must be at the graduate
  level. Students using 12 units of exchange work on their ATC may
  not, in addition, use transfer work, Open University (CEL), credit by
  examination, or more than six units of 899 work on their ATC.
• No prerequisite course work may be used to meet degree
  requirements.
• No units used to obtain a previously awarded degree.
An ATC remains valid only if the student maintains continuous enrollment with the University, as defined in the Bulletin. Prior to enrolling in the Culminating Experience, a student who is not enrolled for two consecutive semesters must reapply for admission to the University and to the major department. If readmitted, the student must complete a new ATC that meets current university and program curricular requirements. Students who do not complete all required coursework, the written English proficiency requirement (Levels I and II), and the Culminating Experience within the seven-year time limit should refer to the Progress Toward Degree (p. 124) section of this Bulletin.

Grading Standards on the ATC

• Both a cumulative GPA of 3.0 in all post-baccalaureate work taken at SF State AND an overall ATC GPA of 3.0 (coursework listed on the ATC) is required.
• An ATC will not be approved if the transcript reflects an incomplete grade (i.e., I or IC). Students should resubmit the ATC after a grade is earned for the incomplete. IC grades are not permitted on the ATC.
• The ATC may include only courses with grades of C or better (grades of C– and lower may not be included). Some programs require grades of B or better on the ATC. Students are responsible for checking requirements with their graduate coordinator or department chair.
• Grades earned by international students in required English proficiency courses may not be used on the ATC and are not computed in the grade point average for the master's degree, but will be computed for evaluation of the SF State overall GPA.
• Graduate students in CR/NC courses must earn a B– or better to be granted a CR grade.
• A grade of RP is given for a Culminating Experience course until completed.

For General information on University grading standards, refer to the Grading Policy and Systems (p. 148) section of this Bulletin.

Units in Residence for ATC

• At least 24 of 30 units must be taken in residence on this campus or proportionally more for programs that exceed 30 units.
• Summer Semester academic units are counted as residence credit.

English Proficiency

The ATC must specify how the student has met the Level I and Level II written English proficiency requirement in accordance with the regulations of the department.

Culminating Experience

The ATC must specify the Culminating Experience and any additional oral or written exam requirements. (review Culminating Experience Requirements).

Culminating Experience Requirements

In accordance with Title 5 of the California Code of Regulations, the Culminating Experience must be met by the satisfactory completion of a thesis, special project, comprehensive examination, or a combination of more than one of these. An oral defense of the work is normally required.

Students must file a Proposal for Culminating Experience (PCE) (http://grad.sfsu.edu/content/current-students/thesis) that has been approved by program faculty. This form must be submitted subsequent to or simultaneous with the ATC. Both the PCE and ATC forms require original faculty signatures. No stamped or scanned signatures are accepted. Students are not permitted to enroll in a Culminating Experience course until both of these forms have been approved by Graduate Studies. A Report of Completion of the Culminating Experience and/or Receipt for Thesis or Written Creative Work must be submitted by the deadline date in order for the student to graduate in the semester of submission. Review the Division of Graduate Studies calendar (http://grad.sfsu.edu/all-dates-listing) for deadlines.

If changes occur in the project content, purpose, or research methods prior to completion of the Culminating Experience, a revised Proposal for Culminating Experience form must be submitted to the Division of Graduate Studies. If the type of Culminating Experience course changes after approval of the ATC and the Proposal for Culminating Experience, both a revised Proposal for Culminating Experience form and an ATC Substitution form must be submitted to the Division of Graduate Studies.

Title changes to the Proposal for Culminating Experience, after initial approval, must be requested through a Title Change Form (http://grad.sfsu.edu/sites/default/files/assets/forms/title-change-for-ce.pdf). Use the revised Proposal for Culminating Experience form if project’s content, purpose, or research methods change.

The types of Culminating Experience options to meet degree requirements are determined by the programs with approval of the Division of Graduate Studies. Typical Culminating Experience options are:

Seminar: Culminating Experience Seminar (890)
The 890 culminating experience course is not available for most programs. Check the department/program Bulletin information or handbook. The seminar may require a culminating paper, presentation, or exam. This requirement must show evidence of the application of knowledge and techniques learned in the field of study. This course requires additional supervision by the CE faculty. See program handbook for information. Most departments or programs provide manuals or information about the major-specific requirements. A Report of Completion form must be filed in Graduate Studies by the deadline date stated in the University calendar.

Supervised Field Internships (892)
A supervised field internship involves the placement of the student in a work experience situation culminating in a written report addressing the significance, objectives, methodology, and a conclusion. An oral defense of the report may be required by the department. A Report of Completion form must be filed in Graduate Studies by the deadline date stated in the University calendar.

Written Creative Work (893)
This Culminating Experience requirement is restricted to graduate students in the Creative Writing program and may consist of a short story, novel, series of poems, and/or play in which students demonstrate a unique style of writing. An annotation page must be completed and filed as a part of the final work. Students completing a written creative work should review and follow the Guidelines for Formatting and Submitting Written Creative Works (available at grad.sfsu.edu/content/current-students/thesis). This written creative work is a published product and will be maintained on file in the library. Students must obtain a Receipt for Thesis or Written Creative Work form in Graduate Studies by the deadline date stated in the University calendar. Formatting of the creative written work must be reviewed by Graduate Studies well in advance so any adjustments in formatting can be made before the deadline.

Creative Work Project (894)
This Culminating Experience may be a musical composition, a group of paintings, a performance, a film, a learning module, a design project,
or other creative endeavor by an individual student, as specified by the program. A Report of Completion form must be filed in Graduate Studies by the deadline date stated in the University calendar. These projects must be described in a written document that summarizes the project’s significance, objectives, creative methodology, and a conclusion. An oral defense of the project may be required. Note: MUS 894 for students with the composition emphasis requires that a bound copy of the music manuscript be filed with the library; consequently both a Report of Completion and a Receipt for Thesis or Written Creative Work are required.

Field Study or Applied Research Project (895)
This Culminating Experience is a field study or research project by an individual student that incorporates the application of knowledge and techniques acquired in the student’s program of study. The field study or research project must be described in a written document which includes the project’s significance, objectives, methodology, and a conclusion. With faculty permission, the finished document may be formatted in the manner of a discipline-specific journal ready for publication.

An oral defense of the project may be required. A Report of Completion form must be filed in Graduate Studies by the deadline date stated in the University calendar.

Comprehensive Examination (896EXM)
The comprehensive examination is a written examination that is prepared and administered by the major department so students can demonstrate their ability to integrate the content knowledge, independent thinking, and critical analysis, and, as may be appropriate, the accuracy of documentation. In most disciplines, students must also enroll in 896EXM (0 units), which is the marker that informs the graduate division that the comprehensive examination has been successfully satisfied. The results of the examination (pass or fail) must be reported to the Division of Graduate Studies on a Report of Completion form by the deadline date indicated in the University calendar.

Thesis (898)/Dissertation (998)
A thesis/dissertation is the written product of an original study by an individual student. It demonstrates clarity of purpose, critical and independent thinking, and accurate and thorough documentation. An oral or written defense of the thesis/dissertation may be required. Students completing a thesis/dissertation should review and follow the Guidelines for Formatting and Submitting a Master’s Thesis found on the Graduate Studies website (http://grad.sfsu.edu/content/current-students/thesis). The thesis and Dissertation formatting must be reviewed by the Division of Graduate Studies in advance of the deadline so any adjustments in formatting can be made by the final date of submission for the graduating term. The thesis/dissertation is a published product and will be maintained on file electronically in the J. Paul Leonard Library. Students must file a thesis/dissertation receipt form in Graduate Studies by the deadline date stated in the University calendar.

Joint/Group Culminating Experience Projects and Theses
The Culminating Experience is usually the expression of a single student’s work - a thesis (898), a dissertation (998), and a written creative work (893) must have a single author; however, the University recognizes that there are some circumstances that warrant joint/group projects. At no time will more than three students be able to submit a joint/group project.

Each student participating in the joint/group project must have separate responsibilities, and these must be reviewed, endorsed, and subsequently evaluated by the students’ Culminating Experience committee members. Each student must complete a separate Culminating Experience Proposal, but they must be submitted jointly for review. Each proposal must have an attachment that includes:

- A list of the separate research areas/responsibilities of each student
- A statement of the identifiable written component of the work to be completed by each student
- The signatures of each student and the committee chair

A Joint Project Statement form is available on the Graduate Studies website (http://www.sfsu.edu/~gradstdy/joint-projects-statement.htm).

If human or animal research is involved, students may submit one set of the research protocol documents but must list all participating students on the Protocol Approval Form.

Composition of Student’s Culminating Experience Committee
Regardless of the type of Culminating Experience being completed, a committee must be established to evaluate whether the student has satisfactorily completed the final requirement for the degree.

- The committee must consist of at least two members, and many programs require three members.
- The chair and the second member of the committee should hold tenured tenure-track faculty appointments in the major department.
- In circumstances where special expertise is available in another department, the graduate dean may authorize a designated tenured tenure-track faculty member from a related department to serve as the first or second reader.
- With special permission from the dean of Graduate Studies, some long-term lecturers, FERPs, selected faculty emeriti, or research collaborators with terminal degrees in their field or with special expertise may be approved as the second reviewer, provided their current curriculum vitae is on file in Graduate Studies. Due to the temporary nature of these special appointments, both the student and the lecturer must understand the risk to the timely completion of the Culminating Experience. An agreement form, establishing when a retired or FERP faculty member is available to work with the student, is available on the Graduate Studies website, found here: FERP Emeritus Thesis Agreement pdf download (http://grad.sfsu.edu/sites/sites7.sfsu.edu/grad/files/assets/forms/ferp-emeritus-agreement.pdf). It must be signed by both the student and committee member and submitted along with the Culminating Experience Proposal form.

- Lecturers or experts in the field from off-campus universities, industry or research facilities may serve as a third member of a student’s committee if they have extensive expertise in the area under study. A current curriculum vitae must be on file in Graduate Studies.
- If a committee member of the Culminating Experience leaves or is unavailable during the agreed upon semesters of completion of the Culminating Experience, the student will need to reconstitute the committee. New faculty members often have different expectations and may require a student to revise and resubmit the Culminating Experience Proposal.

- Students should be aware that few faculty members are available to provide guidance with the Culminating Experience during Winter Break or during the summer months. Students required to complete a defense of their thesis or research should plan for completion during the regular semester period. Agreements for review of drafts or defense hearings held outside of semester weeks should be obtained in writing.
To officially change the composition of a Culminating Experience committee, a student must submit a Petition for Committee Revision form (http://grad.sfsu.edu/sites/default/files/assets/forms/petition-for-committee-revision.pdf) to Graduate Studies.

Human and Animal Protections Requirements
Any research conducted by a student that involves humans, vertebrate animals, or biological specimens (e.g., tissues, stem cells/cell lines, blood) requires approval at SF State, even though that research may have been approved at another institution and/or takes place at another location. There are no exceptions. A student whose work involves humans, vertebrate animals, or biological specimens (e.g., tissues, stem cells/cell lines, blood) is not permitted to begin data collection without the approval of the Division of Graduate Studies. Before beginning any research with humans, vertebrate animals, or biological specimens (e.g., tissues, stem cells/cell lines, blood), students must review the Human and Animal Protections (Office of Research and Sponsored Programs/HAP) website (http://research.sfsu.edu/protocol) for institutional regulations. This is a federal requirement.

Registration and Grading Procedures for Culminating Experience Courses
To register for a Culminating Experience course, a student must have a 3.0 GPA in all post-baccalaureate course work completed, as well as an approved Advancement to Candidacy (ATC) form and Proposal for Culminating Experience (PCE) on file in Graduate Studies. Status of the ATC and Proposal for Culminating Experience approval can be found by accessing SF State Gateway on the web.

A student who does not complete the Culminating Experience after the “grace” semester following enrollment in the Culminating Experience course, is required to maintain continuous enrollment either through the College of Extended Learning (CEL) or enroll in a regular university course on advisement of faculty. The student must enroll in a zero unit Culminating Experience Continuous Enrollment (http://grad.sfsu.edu/content/continuous-enrollment-requirement) courses through CEL, and adhere to the following processes:

- Enroll in the Culminating Experience Continuous Enrollment course under your college name: BUS 499, EDUC 499, ETHS 499, HSS 499, LCA 499 or SCI 499.
- Enroll in CEL 499 before the university’s add/drop deadline (the add/ drop deadline can be found on the Registrar’s Office.
- Committee Chair should submit a grade change to the Registrar’s Office upon completion of Culminating Experience requirements.

Enrollment in the CEL CE course provides students access to SFSU libraries, discipline-associated laboratories and facilities, and Culminating Experience advisors.

Proof of Completion
Completion paperwork will only be accepted with original faculty signatures and must indicate the date the culminating experience requirements were completed. The completion date of the Culminating Experience must meet deadline requirements for the term and application for graduation is filed (last date of final exams). If not, the student will be denied graduation and must reapply and pay the Application for Award of Degree fee again for the subsequent term.

Dates of Completion
The Culminating Experience and all other requirements must be met by the last day of final exams. All dates of completion are posted on the Division of Graduate Studies website (http://grad.sfsu.edu/content/student-deadlines).

Application for Graduation
Candidates for degree must file an application for graduation in accordance with the University calendar. Degree candidates must have both an approved Advancement to Candidacy (ATC) form and Proposal for Culminating Experience (PCE) form on file and a cumulative and an overall ATC GPA of a 3.0 or higher to be eligible to apply for graduation. Students can check ATC and CE approval status through the Student Center by accessing SF State Gateway on the web.

The Application for Award of the Graduate Degree must be completed online by accessing SF State Gateway on the web. It is the student’s responsibility to verify the correct diploma name and address at the point of submitting an application for award of degree. Any errors on the diploma that need correction after issuance will result in additional reissuance fees.

Students graduate at the end of any semester – fall, spring, or summer. The Graduate Commencement (graduation) ceremony occurs once a year at the end of May. Students who wish to participate in the University Commencement ceremony must rent a cap, gown, and hood from the SF State Bookstore. Students can link to the graduate student-specific Commencement website from the main University web page or on the Graduate Studies website for additional information.

If a candidate does not complete the requirements as planned in a particular semester, he/she must submit a new application for graduation and pay the application fee again to be considered in a subsequent semester. The Division of Graduate Studies cannot extend or switch terms for applications for graduation.

Progress Toward Degree
Graduate students must make continuous satisfactory progress toward their degree by completing a minimum of six units each year, not including summer session. Departments or programs have the right to require that students complete more than the six units each year. Cohorted professional programs may require that students complete specified courses in sequence and maintain full-time enrollment. Graduate students who are enrolled, but not taking courses leading to the degree, may be disqualified by the department or the dean of Graduate Studies.

Title 5 of the California Code of Regulations requires that a master's degree shall be completed in no more than seven years. No more than seven years may elapse from the first semester of enrollment after admission and completion of the degree requirements. This is the maximum time allowable. No extensions are granted past seven years. Students working full time should be able to complete a 30 unit program in five years, taking six units each year. Some programs requiring more than 30 units may take proportionally longer to complete, but no extensions will be granted past seven years. Programs may require that students complete all coursework within a shorter time period provided the curriculum, requirements, and timelines are clearly stated in the program materials and the sequence of course offerings is adequate for students to meet the required time to completion. Professional programs may require that students maintain continuous enrollment throughout their programs and complete courses in sequence as required for licensure or certification. See department handbooks for requirements.
If coursework on the student’s Advancement to Candidacy (ATC) becomes outdated while the student is in good standing and making progress toward degree, the student may submit, with department approval, a petition to substitute another course (one already completed or which will be completed in the future) for the one which is outdated. This substitution is allowed only when the student is eligible for graduation.

Extension of Seven-Year Limit

Students, who for documented, serious and compelling reasons, cannot complete their degree within the seven-year limit, may request one extension. Extensions cannot exceed one year. Students requesting an extension must be in good academic standing and have validation for all expired coursework exceeding seven years. Students requesting an extension after enrollment in the culminating experience will be required to enroll in the culminating experience continuous enrollment program, either in regular university or the College of Extended Learning, depending on the program expectations for enrollment.

Graduate students who have left the University for two or more consecutive semesters must reapply to the University. Any courses to be used toward the degree will be determined jointly by the program and the dean of Graduate Studies. Outdated coursework (excluding transfer credits) may be validated by examination, retaking the course, substitution of coursework, demonstration of currency in the field, or other demonstration of competency in the relevant course or subject field as determined by the major department and approved by the dean of Graduate Studies.

Students who left the University after enrolling in the Culminating Experience must 1) submit a Petition for Extension for Seven-Year Limit; 2) reapply to the University; 3) submit documentation of progress on the Culminating Experience; and 4) enroll as a matriculated student or through the Continuous Enrollment program. Any student who has reached the seven-year limit and has not enrolled at the University for more than two semesters may be required to take additional coursework in the field. The Seven-Year Limit petition is filed with the dean of Graduate Studies. Transfer credit that exceeds seven years may not be used to meet degree requirements.

The following chart provides examples of the dates of expiration of the work specified on the ATC for the recommended five-year completion time with the maximum extension to the seven-year limitation:

Planned Educational Leave of Absence

Continuing graduate students who have been officially admitted to, and who are actively pursuing a degree and/or credential program may qualify to absent themselves from enrollment in the institution for periods up to two academic years and still maintain the option of continuing student status. As a consequence of a leave of absence, it is expected that a student will improve his/her ability to complete the graduate degree program. A petition for the leave must clearly demonstrate that during the absence from the University the student will pursue educational activities relevant to his/her program. Requests for leave due to health, financial, or other personal reasons, or matriculation at another institution are not recognized for the purpose of granting a leave of absence. In the latter instances, students would need to reapply for admission when they are ready to resume their studies in the University. Continuing graduate students can be absent one fall or spring semester during a specific academic year and maintain their eligibility. Students do not have to submit an Application for Planned Educational Leave unless they plan to be absent for two consecutive semesters, excluding summer.

To be eligible for an educational leave of absence, a graduate student must:

- be a U.S. citizen or resident alien (foreign students ineligible);
- have been officially admitted to a master’s and/or credential program offered by the University;
- have an Advancement to Candidacy (ATC) on file in the Division of Graduate Studies office or plan to complete Credential Program on file in the Credentials Office in the College of Education;
- be in good academic standing;
- have completed acceptable coursework (at least nine units) toward the identified objective prior to the effective date of the leave; and
- attach a plan of study showing a relationship with degree focus.

Such a planned academic leave does not change the beginning or ending dates of the seven-year completion of degree requirements for master’s degree candidates. For further information, contact the Division of Graduate Studies office.

Change of Graduate Program Concentration, or Credential

Changing from one graduate degree program to another or from one credential program to another is a serious decision that should be given thoughtful consideration. Graduate students who meet the eligibility requirements, must apply to the new Graduate Program and formally be admitted to the new degree program, concentration, or credential. Only
current graduate students who have a cumulative 3.0 grade point average in all coursework taken while in post-baccalaureate standing at SF State are eligible to apply to a new graduate program.

Students who wish to change concentrations within the same academic department must in good academic standing and must fill out the Change of Graduate Program Concentration. Students are only permitted to change graduate program concentrations if the new concentration is in the same degree program. If a change of graduate program concentration is approved, a new ATC form is required.

If students wish to change from a master’s program to a credential-only program or from a credential-only to a master’s program, they must formally apply to the new credential or master’s program or credential, meet the eligibility requirements and follow the procedures as described.

To change a graduate program concentration or add a credential:

- Complete the Request for Change of Concentration (http://grad.sfsu.edu/content/current-students/change-graduate-program-form) form or a Request for Change of Credential Only.
- Attach transcripts from SF State and previous work to include last 60 units of coursework, and provide a transcript documenting an earned bachelor’s degree.
- Attach all supplemental admission materials requested by the new department.
- No more than 12 units of already completed courses can be counted toward the new graduate degree.

The new concentration coordinator/chair completes the department recommendation section of the form and submits it to the Division of Graduate Studies to determine if the student is in good standing (3.0 GPA) and to give final approval or denial. The University and department hold the right to refuse Change of Graduate Program Concentration or Credential requests and admission to a program based on programmatic, resource, faculty scholarship focus, and faculty/student academic needs.

**Academic Standards**

**Satisfactory Scholarship**

Graduate students are expected to develop their full potential as scholars and to maintain a 3.0 GPA (based on a 4.0) that indicates high scholastic ability and achievement. All courses completed by a student after award of the baccalaureate degree count in the overall graduate grade point average and are used in determining a student’s academic standing. The 3.0 GPA standard applies to all students in post-baccalaureate status including credential and second baccalaureate programs.

Only the grades of A, A−, B+, B, B−, C+, C, and CR are acceptable in courses on the Advancement to Candidacy (ATC) form. Graduate programs have the right to require specific grades (B or better) for specific courses that are appropriate to the discipline. Students taking upper-division undergraduate courses may be required by the program to earn a B or higher if counted on the ATC. Requirements for specific grades must be clearly indicated in writing in the Bulletin, on the program website or in student handbooks. Undergraduate level CR courses are not allowed on the ATC because the grade is translated as a C−. The number of ATC courses taken for CR grades is restricted (see ATC Grading Standards (p. 122) above).

**Incompletes**

Students who do not complete required coursework during the scheduled time period must complete a written contract with the instructor to complete the work within the next academic year or earlier as stipulated by the faculty member. For example, a course granted an incomplete in a fall semester must be completed and a grade submitted by the end of the next fall or earlier whether or not the student is enrolled in the University. Only students who are in good academic standing in the course and have completed at least 75 percent of the required coursework are eligible to contract for an incomplete. The incomplete is shown on the transcript as an I. If work is not completed during that period, the incomplete is changed to an IC (incomplete changed) that is calculated as an F (zero grade points). Graduate students planning to pursue a doctoral degree should consider that a pattern of incompletes, even if completed within the time period, may be viewed negatively by an admissions committee.

**Repeat of Courses as a Graduate Student**

A graduate student who has received a grade of B− or higher, or a grade of CR, may not repeat a course unless the course is described in the current SF State Bulletin as repeatable for credit. If a course is repeated, both grades remain on the transcript, and the GPA for both courses is averaged for the overall GPA. The higher grade is used on the Advancement to Candidacy form (ATC). Graduate students who receive a grade lower than B, or grades of IC, W, and U, may repeat that course only once to earn a grade if a course repeat is permitted by the program. Requests by graduate students to repeat a course to improve the GPA are seldom granted by programs because it reflects lack of progress toward degree. Repeated attempts to achieve the required GPA to meet graduate standards are not allowed. Departments may refuse to allow the repeat of a course to improve the GPA.

**Attendance**

The instructor may consider regular attendance when assigning grades, and the requirement must be stated in writing as part of the course requirements. Most professional programs leading to licensure or certification require that students attend all class and laboratory sessions. See program handbooks for policies.

**Withdrawal from Courses**

Students may add or drop courses by Gator Registration without a W appearing on the transcript if they withdraw on or before the "drop" deadline. After the withdrawal deadline, a withdrawal will show as a W on the transcript. Students must check the university academic calendar for deadlines. Graduate students planning to pursue a doctoral degree should consider that a pattern of withdrawals may be viewed negatively by an admissions committee. Students who register for a class, but who do not attend or who drop the class without formally withdrawing, may be given a WU (withdrawal unauthorized), which is calculated as an F.

**Graduate Student Academic Standing**

All students who have earned an undergraduate degree and who are enrolled as graduate (classified or unclassified), credential, second baccalaureate and certificate (graduate and undergraduate) students are held to these academic standards.

**Good Standing**

Students must maintain a semester and cumulative grade point average of 3.0 (B) or better in every semester.

**Probation**

Students will be placed on academic probation if the overall, San Francisco State University, or semester grade point average falls below 3.0 (B). The Registrar will place an academic hold on the student record and the student will not be allowed to enroll in Early Priority Registration.
Students are notified by email of probationary standing and must meet with their academic advisor and complete the Graduate Probation Advising Form (http://grad.sfsu.edu/content/current-students/probation-and-mandatory-advising). After grades are published by the Registrar at the end of the semester during which the student is on probation, one of two actions will occur:

1. the student attains a 3.0 in the overall and semester GPA and is eligible to register for classes in the Final Priority Registration period, or
2. the student does not attain a 3.0 GPA in the overall or semester GPA and the student is subject to disqualification and is not allowed to register in the Final Priority Registration period.

**Disqualification**

Students who are disqualified from the graduate degree, credential, or any certificate program and from further enrollment in the University may file for reinstatement by completing the Petition for Reinstatement Following Disqualification (http://grad.sfsu.edu/sites/default/files/assets/forms/petition-for-reinstatement-following-dq.pdf). Faculty and the program graduate coordinator may approve the student to continue the program for one semester or deny the student the option to continue in the program. Students approved to continue in the program must meet the stipulated requirements or conditions set forth by the program. Denial of a probation petition is the right of the faculty of the graduate program.

Faculty may deem a student unable to continue the program and may not approve reinstatement even if a 3.0 GPA is achieved. Students reinstated after disqualification will not be allowed to enroll in classes for the following semester until grades have been posted. Following the posting of grades, students who attain a 3.0 will be allowed to register for classes in the Final Priority Registration period. Students who do not meet the 3.0 GPA requirement are disqualified and must improve the GPA through CEL. Review the Readmission of Disqualified Students (p. 127) section of this Bulletin for more information.

The student may not take lower division, non-academic or activity courses to improve their GPA. Coursework not related to the field of study, lower division courses or coursework completed at another university or college cannot be used to improve the GPA of an SF State graduate student who is on probation or disqualified.

**Administrative Probation**

A graduate degree, credential or certificate student may be placed on administrative probation by the Board of Appeals and Review or dean of Graduate Studies for any of the following reasons:

- Withdrawal from all or a substantial portion of a program of studies in successive terms. (A student whose withdrawal is directly associated with a documented chronic or recurring disability or its treatment is not to be subject to administrative/academic probation for such withdrawal.)
- Repeated failure to progress toward the stated degree objective, or another program objective.
- Failure to comply, after due notice, with an academic requirement or regulation that is routine for all students or a defined group of students.

**Administrative Disqualification**

A graduate student who has been placed on administrative probation may be disqualified from further attendance if:

- The conditions for removal of administrative probation are not met within the period specified.
- The student becomes subject to academic probation while on administrative probation.
- The student becomes subject to administrative probation for the same or similar reason for which he/she was previously placed on administrative probation.
- In addition, an appropriate campus administrator may disqualified a student who at any time during enrollment has demonstrated behavior so contrary to the standards of the profession for which the student is preparing as to render him/her unfit for the profession. In such cases, disqualification will occur immediately upon notice to the student, which shall include an explanation of the basis for the action, and the campus may require the student to discontinue enrollment as of the date of the notification.

**Readmission of Disqualified Students**

Academically disqualified students may, after at least two semesters have elapsed, apply for readmission to the University providing evidence that they have removed the academic deficiencies, or resolved the problems which may have caused the disqualification. The work taken to eliminate an academic performance deficiency at this institution must be taken through the College of Extended Learning. Courses taken to improve the GPA may not be courses required for the degree, but should be relevant. If disqualification resulted from any other reasons than academic performance, approval must be obtained from the unit of the University which recommended the disqualification action. Students disqualified from another institution, including other CSU campuses, may not be admitted to SF State unless it can be demonstrated that the cause of the disqualification has been eliminated (additional coursework with good grades, etc.) and the student is otherwise eligible to return to the institution of disqualification. Readmission to the graduate program from which the student was disqualified is not guaranteed.

**Declassification from the Degree Program**

A student may be declassified (disenrolled) from a graduate degree program for a range of reasons even if the GPA is above a 3.0. Reasons for declassification may include, but are not restricted to: unprofessional conduct; behavioral issues that interfere with the learning of others; failure to make progress toward the degree as set forth by the University and program policies; failure to meet grade requirements to maintain good standing in the program and/or University; and/or the department/program faculty determine that the student is incapable of completing degree requirements at the level expected of a graduate student in the discipline.

Failure to make progress toward the degree as set forth by the University and program policies (e.g., not taking courses related to the degree, not meeting program requirements to take a required number of courses each year, repeated “I” or “W” requests);

- Failure to meet expectations for discipline-required culminating experience with little improvement after multiple attempts or drafts;
- Failure to meet grade requirements to maintain good standing in the program and/or University;
- Plagiarism or academic dishonesty identified (cases are referred to Student Conduct Office).

The declassification request must be initiated by the major department with support from the department/program chair and college dean or designee. Requests are submitted to the dean of Graduate Studies for
final action and official notification to the student and the Registrar’s Office. Declassified students will not be permitted to enroll through regular University or Open University in any undergraduate or graduate courses in the program or degree from which they were declassified. Unless declassification was related to conduct issues that interfere with campus interactions, declassified students are eligible to apply to a new program through CAL STATE APPLY (https://www2.calstate.edu/apply), pay the application fee, and be accepted as a student by the department/program.

Grievances and Appeals

Grade Appeals
The grade appeal process is managed within the College offering the course under appeal. A student who feels the grade posted on the transcript is not a fair representation of the work completed may request a review by the instructor. The request must be made during the semester of attendance or immediately following the semester in which the grade was assigned. If the instructor and the student can work out an agreement, a petition for a grade change can be submitted. If an agreement is not reached, the student should consult with the department chair or college dean for the formal procedures for filing a grade appeal. Students should contact the department or college in which the class was offered for a copy of the formal grade appeal process that is conducted at the college level. Refer to senate.sfsu.edu/policy/grade-appeal-practices-procedures (http://senate.sfsu.edu/policy/grade-appeal-practices-procedures).

Retroactive Withdrawal and Grade Change
Students may retroactively withdraw from the University or courses for serious and compelling reasons or in verified cases of extenuating circumstances (e.g., accident, illness, etc.) that prevented submission of a regular withdrawal petition by the deadline in the Class Schedule. A student wishing to request a retroactive grade change must initiate the request during the semester in attendance immediately following the semester when the original grade was assigned or the course in question was offered. A retroactive withdrawal or grade change cannot be used as a way to improve poor academic performance in a course(s) or remove “F” grades due to academic dishonesty. For more detailed procedures and appropriate petition forms, refer to dos.sfsu.edu/content/sf-state-student-withdrawal-services (http://dos.sfsu.edu/content/sf-state-student-withdrawal-services).

Grievance Procedures
A graduate student who has problems arising from academic evaluation, degree requirements, or general policies and procedures are strongly encouraged to follow the informal concerns and complaints process as outlined at sfsu.edu/~vpsa/complaints (http://www.sfsu.edu/~vpsa/complaints). Graduate students should discuss grievances first with a graduate major advisor or graduate coordinator Graduate coordinators are listed on the Graduate Studies website (http://grad.sfsu.edu/content/graduate-coordinators). If a student wishes to appeal a decision, he/she should then consult with the department chair, the college dean of Graduate Studies, in that order. Should questions arise beyond this point, the University dean of students or designee may be consulted for advice.

If after following the informal process, the concern or complaint remains unresolved, students may pursue a formal complaint. For questions about the process, contact Eugene R. Chelberg, Associate Vice President for Student Affairs/Enrollment Management, SSB 403, (415) 338–2916 or concerns@sfsu.edu.

Graduate Student Achievement Opportunities

California State University Research Competition
Each spring semester, the CSU Student Research Competition provides an opportunity for both undergraduate and graduate students to present their outstanding research projects and creative works in a refereed or formal academic competition. Students who are currently enrolled, as well as those who graduated in the previous spring, summer, or fall semesters, are eligible. The system-wide competition is held at a different CSU campus in May of each academic year and the application deadlines are in mid-February. SF State will select up to 10 campus winners to compete in the CSU system-wide competition. SF State students have done very well in this competition in the past. Winners receive cash awards.

Graduate Research and Creative Works Showcase
The Graduate Research and Creative Works Showcase is an annual exhibition of the diverse work of SF State’s innovative and talented graduate students. Student presentations are typically in the form of a poster or visual display that depicts the purpose, methods, and results of their research or creative project. Participants and their faculty mentors are also invited to attend a dinner reception following the showcase where registered students are eligible to win prizes. The Graduate Research and Creative Works Showcase is held each spring following the CSU Research Competition.

Graduate Student Award for Distinguished Achievement
This award is conferred on master and doctoral students who have a distinguished record of academic performance and degree-related service in their graduate program. Selection for the award is based on criteria that include academic performance, scholarly work, and service determined meritorious by the faculty in the respective graduate program areas. Criteria utilized vary from discipline to discipline consistent with standards of excellence. The selection of the awardees for the year is made each spring by the faculty of each department. Recipients are recognized at the Graduate Recognition Ceremony in May and are issued a Certificate of Achievement. The award is noted on the student’s official SF State transcript.

Western Association of Graduate Schools Thesis Competition and Technology Innovation Award
Each spring the Division of Graduate Studies invites students to submit their master’s theses and dissertations to compete for the WAGS master’s Thesis Award or WAGS Technology Innovation Award. These prestigious awards represent the best and highest quality of master’s and doctoral student work. One nominee for each award will be submitted by SF State to WAGS to compete with student entries from western universities and colleges in the United States and Canada. The national winner is awarded prize money and a trip to the WAGS annual conference.

Graduate Student Registration

Graduate Student Registration Policies
Graduate Studies does not oversee the registration process, adding or withdrawing from classes, or grade changes. Contact the department graduate coordinator and/or the registrar at One Stop. See Bulletin section General Policies and Procedures: Registration Policies for information on registration for classes and withdrawal.
Graduate Student Registration

Full-Time Unit Load for Graduate Students

Fall and Spring Semesters

Full-time study for graduate students during the fall and spring semesters is defined as follows:

- For payment of fees, 6.1 units and above
- For those receiving financial aid, 8 units and above
- For international students, 8 units and above
- Typical full-time load, 9–12 units per semester

The University reserves the right to limit the number of units for which a student can register in the initial registration period. The maximum unit load with permission of designated faculty advisor is 16 units. Students seeking to take more than 16 units in a semester must have a minimum GPA of 3.25 overall or in any semester. To petition to take more than 16 units, submit the Request to Exceed Regular Academic Unit Load form (http://grad.sfsu.edu/sites/sites7.sfsu.edu/grad/files/assets/forms/exceed-units.pdf) to the major advisor, college graduate coordinator, and dean of Graduate Studies. After appropriate signatures have been obtained, the form is forwarded to the Registrar’s Office. In general, a post-baccalaureate student will not be given permission to exceed 18 units in any semester with the exception of cohorted professional programs. For further information, review the Academic Load (p. 145) section of this Bulletin.

Summer Semester

Graduate students may enroll in a maximum of six units in a five-week summer session, nine units in the eight or ten-week summer session, and 11 units in any combination of summer sessions (R1, R2, R3, and R4).
Some students in 12 month professional programs are excluded from this policy.

Graduate Course Enrollment Priorities

Academic Departments have the authority to assign enrollment priorities to their students wishing to enroll in graduate-level courses. A priority system is used to ensure that majors in the program can access courses needed to complete the degree program in a timely manner. From a pool of individuals, the department would normally be expected to grant admission to the class in the following rank order:

- graduate majors of the department/program;
- classified graduate students from other departments including Interdisciplinary Majors; and
- advanced undergraduate students.

It is the student and faculty member’s responsibility to determine that prerequisites for graduate courses have been met.

Graduate Students Enrolled in Upper Division Courses

Graduate students enrolled in upper division courses are expected to complete additional coursework and to meet academic standards above the requirements delineated for undergraduate students. The faculty member teaching the course is responsible for assigning the additional coursework and/or academic standards required of graduate students. The additional requirements for graduate students should be stated on the syllabus or the graduate student should be informed of the requirements in writing within the first two weeks of the semester.

Graduate Paired Courses

A paired course is a graduate course paired with an undergraduate course covering similar content. The paired course is taught by the same instructor, on the same days and times, and in the same class environment. Graduate students must enroll in the graduate-level of the paired course, numbered (700–889) and complete all graduate level expectations as described in the course syllabus. A paired course taken at the undergraduate level may not be repeated for credit at the graduate level.

Independent Study Courses

Most graduate programs have an 899 Independent Study course. Typically, this is an intensive study of an identified problem or subject which is carefully planned in advance, developed, and completed under the direction of a tenured/tenure-track faculty member (see Graduate Faculty (http://bulletin.sfsu.edu/graduate-education/admission)). The 899 Independent Study may not be used to improve the GPA. Graduate students may not enroll in an Independent Study 699 (undergraduate) course.

While each department may establish its own specific criteria for enrollment in an 899, the following are basic requirements or guidelines:

- The independent study is usually of a research or creative nature.
- The student must have a cumulative post-baccalaureate grade point average of 3.25 or higher.
- An independent study course is available only to students who have done previous work in the department and is restricted to conditionally classified or classified graduate students in the program. In unusual cases, a student in a complementary major may enroll in an 899 in another department provided there is a clear association with the student’s degree plan.
- Prior to enrollment in the course, the student, with support of the faculty member, must develop a written plan of study detailing the focus of the independent study, the assignments required and the manner of assessment of the work completed in the form of a project, examination or performance.
- The course may not be used to replace required program-specified Advancement to Candidacy (ATC) core courses or to satisfy additional coursework requirements required as a consequence of a seven-year time extension to complete requirements for a master’s degree.

A petition for an independent study form may be obtained from the major department office and must be reviewed by the Division of Graduate Studies. Independent study contracts must be filed in the department office and are subject to audit by the CSU.

Continuous Enrollment Requirements

Prior to Enrolling in the Culminating Experience

Students who leave the University for two or more consecutive semesters (not including summer session), or who have attended another college or university during their absence, must reapply for admission to the University through CAL STATE APPLY (https://www2.calstate.edu/apply), pay the application fee, submit any new transcripts other than
the SF State transcripts, and reapply to the program in which they were enrolled. Any student who does not maintain continuous enrollment status in the University must meet curriculum requirements in effect at the time of reentering the graduate program or the semester in which a new Advancement to Candidacy (ATC) form is filed. Readmission to the degree program is not guaranteed.

**Following Enrollment in the Culminating Experience**

Students who have registered for the Culminating Experience Course through the regular university will not be required to enroll in the University during the following semester if they have not completed their Culminating Experience. After this one semester grace period ends, all graduate students are required to maintain continuous enrollment at SF State through the College of Extended Learning (CEL) or regular University until the degree is earned. Students in the CEL course will have access to library and discipline-specific laboratories. The department “time to degree” is in force. Students in the Culminating Experience continuous enrollment program should maintain frequent contact each semester with their faculty member and meet all timelines set forth in the culminating experience proposal document.

**College of Extended Learning**

**Special Sessions**

A limited number of University degree, credential, and certificate programs are offered in Special Sessions through the College of Extended Learning (CEL). Applicants to a Special Sessions graduate program must complete a two-part process:

1. Apply for admission to SF State Graduate Studies online through CAL STATE APPLY (https://www2.calstate.edu/apply) and
2. Apply to the program offered by an academic department via the College of Extended Learning.

Once admitted to the University and the program, students register and enroll through CEL in the courses for that specific program. Special Sessions students have matriculated status and must meet all university academic performance standards, graduation requirements, and observe all university conduct expectations. Graduation eligibility is determined by the Division of Graduate Studies.

The list of current and anticipated Special Sessions programs, grouped by category (degree, credential, and certificate), appears in the College of Extended Learning section (http://bulletin.sfsu.edu/colleges/extended-learning) of this Bulletin. The following website provides additional information: cel.sfsu.edu (http://www.cel.sfsu.edu).

**Open University**

Students may apply no more than six units taken through Open University enrollment toward a 30 unit master’s degree, or proportionally more for a higher unit degree (no more than 12 units), provided they are admitted to the program and the units are accepted by the graduate coordinator of the degree program at the time of admission [review section on Advancement to Candidacy (ATC) (http://bulletin.sfsu.edu/graduate-education/academic-policies-procedures)] for complete information on how many transfer or Extended Learning units can be used on the ATC. Students taking courses through Open University related to a specific degree program should seek advisement from the program and apply for admission before completion of Open University courses. Completing Open University courses with a GPA of 3.0 or greater does not guarantee admission to a graduate degree program. Students taking courses through Open University to improve their GPA may not take courses required for the graduate degree from which they were disqualified.

**Graduate Student Financial Aid**

**Student Fees**

Depending on need, graduate students admitted in conditionally classified, classified or credential status are eligible for loans, grants, scholarships, and federal work-study. Financial assistance specifically for graduate students is limited. Students should carefully review all loan contracts to determine future debt/load and ability to repay the loans within the prescribed time. A limited number of Graduate Teaching Associate or Graduate Assistant positions are available. Contact the department directly for information.

**Graduate Equity Fellowship**

The purpose of San Francisco State University’s Graduate Equity Fellowship program (http://grad.sfsu.edu/content/finance/graduate-equality-fellowship) is to increase diversity by encouraging outstanding students from educationally or economically disadvantaged backgrounds to complete master’s and doctoral degrees at SF State. Second baccalaureate, credential-only and certificate students are not eligible.

**Provost Scholar Award**

The Provost Scholar Award provides selected newly admitted domestic, non-resident students with an out-of-state tuition waiver for one year. Contact the department to which you are admitted to advise them that you are a domestic non-resident applicant and wish to be considered for the Provost Scholar Award. Awards are granted based on academic excellence, standardized test scores (if required for department admission), department-required essay or statement of purpose, and letters of recommendation. Awardees will be notified of the award by the Division of Graduate Studies.

**Financial Aid**

Financial Aid may be available to you. Applying begins with the Free Application for Federal Student Aid (FAFSA). Please visit SF State’s Office of Student Financial Aid (http://www.sfsu.edu/~finaid) for additional information.

**State University Grant (SUGs)**

**State University Grant (SUGs)** is a grant for classified, conditionally classified, and credential, California resident graduate students, paying resident tuition and fees. There is a limited amount of funding each year and all awards are conditional based on the availability of funds from the State. The SUG is designated specifically to pay a portion of students’ basic tuition and fees. Any other fee paying financial aid and/or resource you receive will affect the student’s eligibility for SUG. Learn more on our State University Grant page. (http://grad.sfsu.edu/content/state-university-grant)

**TEACH Grant**

The TEACH Grant Program provides grants of up to $4,000 a year to students who are completing or plan to complete course work needed to begin a career in teaching.

Graduate Student Registration

- CSU TEACH Grant Home Page (http://www.calstate.edu/teachered/scholarships/teach-grant.shtml)

Alumni Scholarship
The Alumni Scholarship Association will grant scholarships of $1,000 each to students who will have SF State graduate status each fall. Applicants are required to have a minimum cumulative grade point average of 3.25, and must be enrolled full-time (8 units or more) for the fall semester. Scholarships are merit and need based. For more information, visit sfusu.edu/~alumni/scholarship.htm (http://www.sfsu.edu/~alumni/scholarship.htm)

Nationally Competitive Graduate Fellowships
The Fellowships Office assists graduate students applying for nationally competitive fellowships, as well as system-wide CSU scholarships and awards. These awards may include funding for graduate studies, as well as research experience and prestigious internships in the U.S. and abroad. Competitive applicants are passionate, engaged students with strong records of academic achievement, leadership, and public service activities. To explore the possibility of pursuing a nationally competitive fellowship, search the Graduate Fellowships website for fellowships in your field or area of professional interest (sfsu.edu/~fellows1/grad_fellowships (http://www.sfsu.edu/~fellows1/grad_fellowships)), then make an appointment with Dr. Joy Viveros jviveros@sfsu.edu.

Students who intend to go on for a Ph.D. should also consult the SF State California Pre-Doctoral Program website (Dr. Viveros is the SF State Coordinator of this program): sfsu.edu/~fellows1/predoc (http://www.sfsu.edu/~fellows1/predoc).

Graduate Assistantships
Graduate assistantships are designed to provide professional experience and financial assistance to qualified graduate students. Positions are posted each semester by departments offering these opportunities. These positions may involve supporting instructors in courses and laboratories, supporting office functions and duties, preparing course or laboratory materials, and tutoring or assisting students. To be eligible, a student must meet the following minimum requirements:

- Be a conditionally classified or classified graduate student in good standing who is actively pursuing a graduate degree and has an overall and semester GPA of 3.0 or above while in post-baccalaureate status.
- Be registered for a minimum of three units at SF State directly applicable to the graduate degree or have registered for a Culminating Experience course in the previous semester and received an "RP" grade. Students enrolled in the CEL 499 continuous graduate enrollment program are eligible to work as a GA for one semester. International students in the grace semester following enrollment in a Culminating Experience course must complete the Request for Approval to Take a Reduced Course Load Due to Thesis/Project/Recital/Oral Defense/Exam form (https://oip.sfsu.edu/sites/default/files/f1/forms/RCLThesis.pdf) two weeks prior to the beginning of this semester and submit it to the Office of International Programs.
- Not be assigned duties in a course in which academic credit is being earned.
- Not be enrolled with an academic unit load which would be incompatible with the demands of the assistantship.
- Not otherwise currently employed at SF State in any lecturer or staff category.

- The appointment combined with any other student employment at SF State may not exceed 20 hours per week.
- Not be appointed for more than a total of four semesters for students in a 30 unit program, or proportionately more for programs that exceed 30 units, up to a maximum of six semesters.

Graduate Teaching Associate Positions
The University, through its major departments, provides graduate students with part-time employment as teaching associates in courses related to their area of advanced study. The appointments usually involve teaching classroom and/or laboratory courses, assessing student performance, and tutoring students. The students assist faculty with field experiences, supervision, and/or research projects. To be eligible, a student must as a minimum:

- Be admitted to classified or conditionally classified status in a graduate degree program at SF State and have a cumulative grade point average of 3.0 (B) or better in all course work taken at SF State while in post-baccalaureate status.
- Be a degree-seeking graduate student in the academic department in which she/he is employed to perform instruction.
- Not be assigned to a course in which academic credit is being earned.
- Have thorough knowledge and understanding of the subject matter of the discipline in which the assignment is made.
- Possess the ability to communicate and relate well to others within the academic environment and the ability to instruct and constructively evaluate student performance.
- Be registered at SF State during the term of appointment in a minimum of three units of course work directly applicable to the graduate degree or have registered for a Culminating Experience course in the previous semester. Students enrolled in the CEL 499 continuous graduate enrollment program are eligible for one semester.
- Not be appointed for more than four semesters.
- Not teaching graduate level courses.

California Pre-Doctoral Program
The California Pre-Doctoral Program is designed to diversify the pool of University faculty by supporting the doctoral aspirations of students who are upper division undergraduates or graduate students on a California State University campus, economically or educationally disadvantaged, with focused research interests, and an interest in a university faculty career. See sfusu.edu/~fellows1/predoc (http://www.sfsu.edu/~fellows1/predoc).

Chancellor’s Doctoral Incentive Program
This program provides student loans to a limited number of individuals pursuing full-time doctoral degrees at accredited universities throughout the United States. After participants receive their doctoral degrees and obtain a qualifying instructional position in the CSU, a portion of their loan from this program will be forgiven every year. calstate.edu/hr/cdip (http://www.calstate.edu/hr/cdip)
FEES AND FINANCIAL AID

Fees and Expenses

Schedule of Tuition and Fees 2017–2018

The following reflects applicable system-wide tuition and fees and nonresident tuition for the semester system. Cash, personal check, and certified check or money order may be used for payment of student tuition and fees. For credit card and electronic check payments, access the Bursar’s Office webpage at bursar.sfsu.edu (http://bursar.sfsu.edu) for more information.

Mandatory system-wide tuition fees are waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

The CSU makes every effort to keep student costs to a minimum. Fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU must reserve the right, even after initial fee payments are made, to increase or modify any listed fee. All listed fees, other than mandatory system wide fees, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU listed fees should be regarded as estimates that are subject to change upon approval by The Board of Trustees, the Chancellor, or the Presidents, as appropriate. Changes in mandatory system wide fees will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028–66028.6 of the Education Code).

Nonresident Tuition Fee (U.S. and International)

In addition to the regular tuition and registration fees listed above, nonresidents of the State of California must pay an additional $396 per unit (or fraction) for nonresident tuition fee. The total nonresident tuition fee paid per term will be determined by the number of units taken.

Open University (Concurrent Enrollment)

Fees for extension courses are subject to change without notice.

- Fee per semester unit $395.00

Fees are subject to change without notice. For the latest information on fees, go to the Bursar’s Office web page at bursar.sfsu.edu/ (http://bursar.sfsu.edu). For current information on Open University fees, call College of Extended Learning, (415) 338-1376.

</tbody>
</table>

Note: Replacement Cost for books is based on a predetermined average cost of an academic book. At present the Processing Charge is $20.00 per item. Laptop Computer or other equipment replacement cost is actual cost for replacement.

Fee Payment Deadlines

Payment for Tuition and Fees must be received by the published Fee Payment Deadline to avoid any administrative late fees.

To remain enrolled in Priority Registration classes for the Fall, Spring, and Summer semesters, students must pay by the published fee payment deadline. Students who do not pay their fees by the published deadline are subject to enrollment cancellation.
Please refer to the Bursar's Office webpage at bursar.sfsu.edu (http://bursar.sfsu.edu) for information regarding current fee payment deadlines.

Financial Aid Fee Payment Deadlines
If the Office of Student Financial Aid notifies you that you have been awarded and you have accepted an offer of Financial Aid, excluding college work-study, your tuition and fee payment will be postponed until the third week of the semester. You may register for classes without paying tuition fees up front. Do not apply for the University's Installment Payment Agreement unless your aid has been cancelled. See Financial Aid Important Dates for more information. Aid must be disbursed by the third week of the semester to avoid the non-refundable administrative fee of $20.

If a student is found ineligible for financial aid after they have enrolled in classes or if the financial aid is not sufficient to pay tuition and fees in full, the student is responsible for paying the fees or unpaid balance before the third week of the semester. Please refer to the Bursar's Office webpage at bursar.sfsu.edu (http://bursar.sfsu.edu) for information regarding the current payment deadlines.

If you register for classes and decide not to attend SF State, you MUST drop all classes by the published refund deadline through the Student Center and/or in-person at the Registrar's Office. (See Refund Guidelines under Title IV – Return of Federal Financial Aid Fund Due to Withdrawal).

Installment Plans
All students who are eligible to enroll may use one of the installment plans offered by the university, with the exceptions of students with financial aid deferments, approved waivers or subsidies, or students who defaulted twice on their installment plan agreement in a previous semester. Students with outstanding financial obligations must pay their obligations before or at the time of their enrolling in the current semester's installment plan. For more information and a copy of the installment plan contract, go to the Bursar's Office webpage at bursar.sfsu.edu (http://bursar.sfsu.edu).

Tuition fees are subject to change without notice. The tuition fee is applicable to all CSU semester-system campuses except CSU Stanislaus. All students must pay regular tuition and fees. For the latest information on fees, please visit the Bursar’s Office web page (bulletin.sfsu.edu/fees-financial-aid/fees-expenses/www.sfsu.edu/~bursar).

Tuition fees are subject to change without notice. The tuition fee is applicable to all CSU semester-system campuses except CSU Stanislaus. All students must pay regular tuition and fees. For the latest information on fees, please visit the Bursar’s Office web page (bulletin.sfsu.edu/fees-financial-aid/fees-expenses/www.sfsu.edu/~bursar).

Graduate

Graduate students in the College of Business will be charged an additional MBA Program Fee at a rate of $700 for students enrolled in 6.0 units or less or $1,200 for students enrolled in 6.1 or more units for the regular sessions and prorated for the Summer session. Graduate students enrolled in an approved graduate professional business master’s program will be charged an additional Professional Program Fee of $254 per unit for classes to fulfill the degree requirements. Note CoB Professional Fee does not apply to students in the M.A. program in Economics.

Graduate Students in the Masters of Public Administration (M.P.A.) will be charged an additional MPA Program Fee at a rate of $430 for students enrolled in 6.0 units or less or $850 for students enrolled in 6.1 or more units for the regular sessions.

Graduate students in the Doctoral Program in Education Leadership (Ed.D.) will be charged $5,559 for the Tuition Fee along with campus fees.

Refund of Mandatory Tuition and Fees, Including Nonresident Tuition Fee

Regular Session Tuition Fees

Regulations governing the refund of mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the California State University. Refunds of fees and tuition charges for self-support, special session, and extended education programs or courses...
at the California State University are governed by a separate policy established by the University (see Extended Learning (p. ) below).

To receive a full refund of mandatory fees, less an administrative charge established by the campus, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available on the web at sfedu.edu/~admisrec/reg/reg.html (http://www.sfsu.edu/%7Eadmisrec/ reg/reg.html).

For state-supported semesters, quarters, and non-standard terms or courses of four (4) weeks or more, a student who withdraws during the term in accordance with the University’s established procedures or drops all courses prior to the campus designated drop period will receive a refund of mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the campus designated drop period and in accordance with the campus procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees less an administrative charge established by the campus.

For state-supported non-standard terms or courses of less than four (4) weeks, no refunds of mandatory fees and nonresident tuition will be made unless a student cancels registration or drops all classes, in accordance with the university’s established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four (4) weeks.

Students will also receive a refund of mandatory fees, including nonresident tuition, under the following circumstances:

- The fees were assessed or collected in error;
- The University canceled the course for which the fees were assessed or collected;
- The University makes a delayed decision that the student was not eligible to enroll in the term for which mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the University for a refund demonstrating exceptional circumstances and the chief financial officer of the University or designee may authorize a refund if he or she determines that the fees and tuition were not earned by the University.

Information concerning any aspect of the refund of fees may be obtained from the Bursar Office or on the web at sfedu.edu/~bursar/ (http:// www.sfsu.edu/%7Ebursar).

Extended Learning

Refund deadlines and fees are based on the type of extension class you are dropping and term/semester in which it runs. Current refund information for extension classes may be obtained from the College of Extended Learning’s website at cel.sfsu.edu (http://www.cel.sfsu.edu).

To obtain current Drop and Refund information from our homepage, search on the word refunds. Students are encouraged to be aware of drop deadlines and refund policies before enrolling and paying for any extension courses.

**Fees and Debts Owed to the Institution**

**Fees and Debts Owed to the Institution**

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may “withhold permission to register; to use facilities for which a fee is authorized to be charged; to receive services, materials, food, or merchandise; or any combination of the above from any person owing a debt” until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the University are obligated for the payment of charges and fees associated with registration for those courses. Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact the campus business office. The business office, or another office on campus to which the business office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Students will be responsible for any legal costs incurred in collecting any unpaid tuition and fees and other miscellaneous university fees. Any amount owed may be reported to the Franchise Tax Board for offset against tax refunds, from any state lottery winnings and/or unclaimed property.

For more information or questions, please contact the SF State Bursar’s Office at (415) 338–1281 or bursar@sfsu.edu.

**Fee Waivers and Exemptions**

**Fee Waivers**

The California Education Code provides for the waiver of mandatory systemwide tuition fees as follows:

- **Section 66025.3**—Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse (who has not remarried) of a member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting
from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state; and undergraduate student who is a recipient of or child of a recipient of a Medal of Honor, under 27 years old, meets the income restriction and California residency requirement.

- **Section 68120**—Qualifying children and surviving spouses/registered domestic partners of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of active law enforcement or fire suppression duties (referred to as Alan Pattee Scholarships); and

- **Section 68121**—Qualifying students enrolled in an undergraduate program who are the surviving dependent of any individual killed in the September 11, 2001 terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001. Students who may qualify for these benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.

### The California Education Code provides for the following nonresident tuition exemptions:

- **Section 68075.7**—Nonresident students are exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if they (1) reside in California, (2) meet the definition of “covered individual” as defined in subsection (c) of Section 3679 of Title 38 of the United States Code, as that provision read on July 1, 2015; and (3) are eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program or the Post-9/11 GI Bill program.

- **Section 68122**—Students who are victims of trafficking, domestic violence, and other serious crimes who have been granted T or U visa status are exempt from paying nonresident tuition if they (1) attended high school in California for three or more years; (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus.

- **Section 68130.5**—Students who are not residents of California are exempt from paying nonresident tuition if they (1) attended high school in California for three or more years; (2) graduated from a California high school or attained the equivalent; and (3) registered as an entering student or are currently enrolled at a CSU campus. In addition, students without lawful immigration status will be required to file an affidavit stating that they have filed an application to legalize their immigration status, or will file an application as soon as they are eligible to do so. This exemption from paying nonresident tuition does not apply to students who are nonimmigrant non-immigrant aliens within the meaning of 8 U.S.C. United States Code 1101(a)(15), except as provided by Section 68122 above.

Students who may qualify for these benefits should contact the Admissions/Registrar’s Office for further information and/or an eligibility determination.

### Determination of Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent of those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay University fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements outlined in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000–68085, 68120–68133, and 89705–89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900–41916. Residency material can be viewed at calstate.edu/sas/residency (http://www.calstate.edu/sas/residency).

Each campus’ Admissions Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form, and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) they reside with or most recently resided with.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver’s license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

Nonresident students seeking reclassification are required to complete a supplemental questionnaire that includes questions concerning their financial independence. Financial independence is required, in addition to physical presence and intent, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made and in any of the three calendar years preceding the reclassification application the student:

- Has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent;
- Has not and will not receive more than seven hundred and fifty dollars ($750) per year in financial assistance from his/her parent; and
- Has not lived and will not live longer than six (6) weeks in the home of his/her parent.

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on
a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residency requirements are contained in California Education Code sections 68070–68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906–41906.6, 41910 and include, but are not limited to, members of the military and their dependents, certain credentialed employees of school districts and most students who have attended three or more years of high school (grades 9–12) in California or attained credits earned in California from a California high school equivalent to three or more years of full-time high school coursework and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of those schools, and graduated from a California high school or attained the equivalent of graduation. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither campus nor Chancellor’s Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Residency determination dates are set each term. They are:

### Residency Determination Dates

Students classified as nonresidents may appeal a final campus decision within 120 days* of notification by the campus. A campus residency classification appeal must be in writing and submitted to:

The California State University*  
Office of General Counsel  
401 Golden Shore, 4th Floor

Long Beach, CA 90802–4210

The Office of General Counsel can either decide the appeal or send the matter back to the campus for further review.

Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office.

Changes may have been made in the rate of non-resident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

*A proposal to change the contact information and notification period at the CSU Office of General Counsel is pending and will be available after March 2017.

### Average Annual Cost of Education and Sources of Funds per Full-Time Equivalent Student

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2016/17 budget amounts were $3,169,425,000 from state General Fund (GF) appropriations and before adding $36.8 million CalPERS retirement adjustment, $1,685,885,000 from tuition fee revenue and after tuition fee discounts (forgone revenue), and $258,555,000 from other fee revenues for a total of $5,383,865,000. The 2016/17 resident FTES target is 361,644 and the non-resident FTES based on past-year actual is 22,552 for a total of 384,196 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and non-resident students. FTES is determined by dividing the total academic student load (e.g. 15 units per semester) (the figure used here to define a full-time student’s academic load).

The 2016/17 average support cost per FTES based on GF appropriation and net tuition fee revenue only is $13,152 and when including all sources as indicated below is $14,528, which includes all fee revenue (e.g. tuition fees, application fees, and other campus mandatory fees) in the CSU Operating Fund. Of this amount, the average net tuition and other fee revenue per FTES is $5,764.

### Average Cost 2016–2017

<table>
<thead>
<tr>
<th></th>
<th>Amount</th>
<th>Average Cost per FTES</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>State Appropriation (GF)</td>
<td>$3,169,425,000</td>
<td>$8,764</td>
<td>60.3%</td>
</tr>
<tr>
<td>Net Tuition Fee Revenue</td>
<td>$1,685,885,000</td>
<td>$4,388</td>
<td>30.2%</td>
</tr>
</tbody>
</table>
Other Fees Revenue $28,555,000 $1,376 9.5%

TOTAL SUPPORT COST $5,383,865,000 $14,528 100%

1 Represents state GF appropriation in the Budget Act of 2016/17; GF is divisible by resident students only (361,644 FTES)
2 Represents CSU Operating Fund, Tuition Fee and other fees revenue amounts (net of tuition fee discounts) submitted in campus August 2016/17 final budgets. Revenues are divisible by resident and non-resident students (384,196 FTES).

The average CSU 2016–17 academic year, resident, undergraduate student basic tuition fee and other mandatory fees required to apply to, enroll in, or attend the university is $6,881 ($5,472 tuition fee plus $1,409 average campus-based fees). However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident, or non-resident.

Student Financial Aid

How It Works
It costs money to be a student. Aside from the tuition and fees that a student must pay to the university, a student must buy books and supplies, pay for transportation to and from school, and cover personal expenses such as meals and housing. Many students and their families are unable to come up with the money needed to cover all of these expenses. To help these students and their families supplement their own resources, financial aid is available.

Financial need is the determining factor and is the crucial criterion for most types of aid. (There are some loan programs for students and parents of students for which need is not a criterion. See the following section on Program Highlights for the various options available. Some scholarships do not include need as a criterion.)

So what is need? Need is the difference between what it costs to go to college and what the student and family can afford to contribute towards those costs.

The basic financial aid formula:

What It Costs to Attend
- What the Student and Family Can Pay
= Financial Need

Students are generally eligible to receive assistance through financial aid in the amount up to their financial need.

Types of Financial Aid

Grants
Grants are awards of money that do not have to be paid back. Grants are usually awarded to students with financial need.

Work-Study
The Work-Study program enables students to earn money from part-time jobs on campus and off campus at approved non-profit organizations.

Loans
Loans are funds that have to be paid back, usually after a student has graduated or left school. Students are asked to complete entrance and exit counseling requirements if they choose to borrow money through the student loan programs.

Scholarships
Scholarships have varying criteria which may or may not include financial need and can often include academic achievement, community service or major.

The Office of Student Financial Aid may award a student a combination of grants, loans, and work in order to meet the student’s need. At SF State, financial aid funds are provided by the federal government and the State of California. Scholarships can be awarded through the University or outside organizations.

Applying for Financial Aid

In order to determine what the student and family can pay towards the student’s educational expenses, the student must apply for financial aid. The federal and state government have established formulas to compute the family’s contribution based on information regarding the family’s income, assets, and number of family members in college. For a student who is considered to be dependent, the student and the parents complete the application. For students considered to be independent, the student and spouse (if married) complete the application.

The first step in applying for financial aid is to determine which application you should complete. Citizens, permanent residents, eligible non-citizens and T Visa holders should complete the Free Application for Federal Student Aid (FAFSA) and submit it to the Federal Student Aid Program to apply for federal and state aid. Undocumented students who meet the AB 540 criteria or U Visa Holders should fill out the California Dream Application and submit it to the California Student Aid Commission. These applications should be completed beginning October 1st through the priority date of March 2nd prior to each upcoming academic year. The FAFSA is available over the Internet at www.fafsa.ed.gov (http://www.fafsa.ed.gov) and the CA Dream Application at www.caldreamact.org (http://www.caldreamact.org) or from high schools and college financial aid offices. In order for SF State to receive an electronic copy of the FAFSA or the DREAM, the student must include “San Francisco State University” and the code number “001154” on the college release section of the FAFSA or DREAM application.

About four weeks after the student submits the FAFSA or the DREAM, the student will receive a document called the Student Aid Report, and SF State will receive the electronic copy of the FAFSA or CA Dream Application. SF State will notify the student to submit verification documents if necessary. Verification documents may include the IRS tax transcripts and documentation of household size.

The FAFSA is the basic application for all types of federal and state aid. The CA Dream application is the basic application for all types of state aid. Cal Grants require students to submit their GPA verification prior to March 2nd to be considered. Other fellowships and scholarships require an additional application and have different deadlines. See the Program Highlights section below for details.

General Eligibility Requirements

To receive federal student aid, a student must be a citizen, national, or permanent resident of the U.S.; be enrolled in an academic program leading to a degree or certificate; not owe a repayment on any previous federal and/or state grant; must be in good standing on previous student
loans; and have a social security number. To receive state aid, a student must be a resident of California or meet the AB 540 criteria.

**AB 540 Students**

To meet the AB 540 eligibility criteria, students must have: completed three years of High School or primary school in California, graduate from a California high school or the equivalent, not hold a valid visa, and submit a nonresident tuition exemption form to the university prior to the first day of the semester. Students who meet this criteria and file a California dream application by the priority deadline will be considered for all forms of state aid. For more information, visit www.sfsu.edu/~finaid/ab540 (http://www.sfsu.edu/~finaid/ab540).

**Satisfactory Academic Progress**

To maintain eligibility for financial aid at SF State, students must not have attempted more than 150% of the units for their degree. Students must also complete a minimum percentage of units attempted, while maintaining good academic standing with the University. Go to www.sfsu.edu/~finaid/newsapu.html (http://www.sfsu.edu/~finaid/newsapu.html) for more information.

**Estimating Expenses**

Each year the Office of Student Financial Aid establishes standard budgets to reflect the expenses for students attending SF State for the nine-month academic year. The budgets differ for students living with their parents and for students living in campus housing or in off-campus housing. The standard budgets used for 2017 - 2018 are detailed below (undergraduates only). Non-resident students pay per academic unit non-resident tuition plus the State University tuition and fees.

**Student Expenses for Nine Months — 2017 - 2018**

**For Undergraduate Students Enrolled in Seven or More Units**

**Program Highlights**

The Federal Pell Grant Program is a federal aid program for undergraduate students and students in teaching credential programs with exceptional need. Grants range from $318 to $2,960 per semester. Enrollment requirement: full time = 12 units; three-quarter time = 9-11 units; half time = 6-8 units. Award is prorated depending upon enrollment.

The Federal Supplemental Educational Opportunity Grant (FSEOG) is a federal program which provides aid to undergraduate students with exceptional financial need. Students must be eligible for a Federal Pell Grant. Annual awards at SF State range from $100 to $500.

The State University Grant is a grant for students who are California residents or meet the AB 540 criteria, who pay state resident tuition, and who have exceptional financial need. This grant is awarded to undergraduates, teaching credential, and graduates to cover the amount of CSU system wide resident tuition.

The Educational Opportunity Program Grant (EOP) is a grant provided by the State of California for undergraduate students admitted to the university through the Educational Opportunity Program. EOP students must have financial need and must be enrolled full time to receive the grant. Awards range from $100 to $800 for the academic year, depending on the availability of funds and the need of the students.

The California Student Aid Commission awards grants to students who are California residents or meet the AB 540 criteria. For new applicants, the deadline to apply for the different programs is March 2nd prior to the upcoming academic year (for example, for the 2017 - 2018 academic year, the deadline is March 2, 2017). In addition to the FAFSA or DREAM, the student’s Grade Point Average (GPA) must be submitted to the Commission by the student’s current school of attendance by the March 2nd deadline. More information about the grants discussed below can be provided by high school counselors, financial aid offices, and the California Student Aid Commission at www.csac.ca.gov (http://www.csac.ca.gov) or 888-224-7268.

- Cal Grant A is awarded by the State of California for entering and continuing undergraduate students who are California residents or meet AB540 criteria and demonstrate academic achievement and financial need. Awards cover the amount of CSU system wide resident tuition per academic year.
- Cal Grant B is awarded to entering students from disadvantaged, low income families. Awards include a stipend of up to $1,670 and, after the first year, also cover the amount of CSU system wide resident tuition for the academic year.

University Administered Scholarships are awarded to students based on academic achievement and financial need. A separate application is required for scholarships directly administered through the Office of Student Financial Aid. Some academic departments on campus also have university scholarships. Students should check with the college or department office about other scholarship opportunities.

Outside Scholarships. The Office of Student Financial Aid has information on some outside scholarships. Students are encouraged to contact organizations such as Marin Educational Foundation, parent-teacher groups, community service organizations, employers, etc. for scholarship information. Reference desks in university and public libraries also provide scholarship resource materials.

The Federal Work-Study Program provides employment opportunities on campus to both graduate and undergraduate students with financial need. Students may work a maximum of twenty hours per week. The hourly salary range begins at minimum wage and is higher for jobs that require experience or specific skills. A Work-Study award is not a cash award like a loan or a grant. To use a Work-Study award, a student must find a Work-Study job with a certified Work-Study employer; then the student will receive a monthly paycheck. It is recommended that students seek employment as early as possible because jobs are limited and a Work-Study award is not a guarantee of employment.

The Federal Perkins Loan is a federal program providing long-term, low interest loans to students who are enrolled full time. Awards at SF State depend upon the availability of funds and generally range from $300 to $2,000 per academic year. Interest of 5% begins nine months from the date the borrower is no longer enrolled at least half time. Repayment, at a minimum rate of $90 quarterly, begins three months after interest.
starts to accrue. Information regarding deferments, cancellations, and repayment provisions is provided on the loan promissory note. A borrower may have all or part of his or her loan (including interest) canceled for engaging in teaching, public service, service in the Peace Corps or Americorps*VISTA, or service in the military. An entrance interview is required for all first-time borrowers at SF State.

The William D. Ford Federal Direct Student Loan Program (FDSL) has two components—the subsidized loan and the unsubsidized loan. The Subsidized Loan is available to undergraduate students with financial need. The interest is paid by the federal government while the student is in school at least half time and during the grace or in-school deferment periods. The Unsubsidized Loan is available to undergraduate and graduate students who have limited or no financial need. The interest on an unsubsidized loan must be paid by the student while enrolled in school, and during any grace or in-school deferment periods. A student may choose to have the interest deferred, which adds the deferred interest to the principle. This is called capitalization. Having the interest capitalized will mean larger monthly payments when the student begins repayment. All first time borrowers are required to complete entrance counseling and sign a Master Promissory Note (MPN).

The FDSL maximums vary depending on the student's class level and dependency status.

### Annual Limits for FDSL Program

</tbody>
</table>
| Classified Graduate (Unsubsidized Only) | $20,500 |}

Loan repayment begins at the end of a six-month grace period after the student leaves school or ceases to be enrolled on at least a half-time basis. If the student is enrolled less than half time, they are considered to be in the grace period. Various loan repayment options are available. Exit counseling is required at the time of graduation or separation from the University.

Parent Loans (PLUS) provides loans through banks and other participating lending institutions for parents of dependent students. Financial need is not a factor in determining a parent’s eligibility for this loan program. Interest begins to accrue when the loan is disbursed. Repayment begins 60 days after the loan is disbursed. The loan limit for Parent Loans is equal to the student’s budget less financial aid awarded.

Graduate PLUS Loan provides loans through banks and other participating lending institutions for classified master’s degree students. Financial need is not a factor in determining a student’s eligibility for this loan program. The interest begins to accrue when the loan is disbursed. Repayment begins 60 days after the loan is disbursed. The loan limit for the Graduate PLUS is equal to the student’s budget less financial aid awarded.

### Short-Term Loans

Short-Term Loans are available for a maximum of $500 on a 30-day repayment basis. The purpose of the short-term loan is to help students with unanticipated expenses which are school-related. Students may pick up an application from the Bursar’s Office.

### Individual Help

Students should call, write, or visit the Office of Student Financial Aid (415) 338-7000, e-mail: finaid@sfsu.edu (finaid@sfsu.edu)—if they have questions or for individual help. Counselors are available to assist students in person during office hours at the One Stop Center on the first floor of the Student Services building.

Office hours are Monday - Friday, 9:00 a.m. to 5:00 p.m.

Financial Aid Deadlines and Availability by Student Classification (p. 140)

### Nationally Competitive and CSU Fellowships and Awards

San Francisco State’s Fellowships Office is available to assist undergraduate and graduate students in applying for nationally competitive scholarships, fellowships, and grants as well as CSU system-wide scholarships and awards. These awards include generous funding for graduate studies, as well as research experience and prestigious internships in the U.S. and abroad. Competitive applicants are passionate, engaged students with strong records of academic achievement, leadership, and public service activities. Preparing for these wonderful opportunities requires work well in advance of submission deadlines to find fellowships that match your interests and experience, to plan your academic and extracurricular life to develop your qualifications, and to perfect your application essays. To explore the possibility of pursuing a nationally competitive fellowship, search the Fellowships Office website for opportunities in your field or area of professional interest http://fellowships.sfsu.edu/, then make an appointment with Dr. Joy Viveros, fellows1@sfsu.edu.

### Financial Aid Deadlines

The student must file the Free Application for Federal Student Aid (FAFSA) by March 2nd prior to the upcoming academic year (e.g., for the 2017–2018 academic year, the priority deadline is March 2, 2017) to be considered for all types of financial aid. If the student misses the March 2nd priority deadline, he/she may still file the FAFSA but will be considered for remaining available funds only, usually limited to Pell Grant and student loans.

The FAFSA form is the primary application for all types of financial aid including grants, work-study, and loans. However, some types of aid require additional applications; see the chart below for information.

Unclassified graduate students and most Extended Learning students are ineligible for financial aid.

¹ Students enrolled at least half-time in a post-baccalaureate teaching credential program not leading to a graduate degree may be considered for a Pell Grant only for those courses required to complete the teaching credential program.

² GPA verification required.

³ Additional application/form required.
Policies and Procedures

Observance of Bulletin Requirements

- A student, except a classified graduate student, who remains in continuous attendance in regular sessions and continuing in the same curriculum at any campus, in any of the California community colleges or in any combination of California community colleges and campus of the California State University, may, for purposes of meeting graduation requirements, elect to meet the graduation requirements for San Francisco State University in effect (1) at the time they began their study, (2) at the time they entered the CSU campus from which they graduate, or (3) at the time they graduate from the CSU. Substitutions for discontinued courses may be authorized or required by the appropriate campus authority. Students who change their major after being admitted to San Francisco State University, or who declare a major after being admitted with an undeclared major, must meet the major requirements in effect at the time they change or declare their major.

- A student, except a classified graduate student, not in a period of continuous attendance at the time of filing for a degree and/or credential must meet the Bulletin requirements in effect at the time of filing. Continuous attendance for purposes of Bulletin requirements is defined as matriculated attendance in at least one semester or two quarters each calendar year.

- All students may be required to meet new requirements imposed by the Trustees of the California State University or by the California State Legislature.

- A classified graduate student must meet all requirements as stated on the Advancement to Candidacy and the program must reflect the Bulletin requirements in effect at the time the student was officially admitted to classified status in the major department or those requirements in effect at the time the program is filed and approved by the Dean of Graduate Studies.

Registration Policies

- All students who register at San Francisco State University in resident study for either the fall or spring semester must first be admitted to the University by the Admissions Office.

- Registration is complete only when all fees, deposits, and charges are paid. Students are required to make all payments by the regularly announced deadlines. Students must pay for added units on their own initiative at the time they add additional units; the University is not responsible for billing students.

- Students are granted credit only for those courses in which they are formally registered. Students are responsible for completing all courses in which they are enrolled.

- Students receive an e-mail notice about registration procedures and can check their eligibility and priority registration day and time on the website, Registration Time at the SF State Gateway hgateway.sfsu.edu (https://gateway.sfsu.edu).

Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. The Internal Revenue Service requires the University to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes. The SSN is also required by the Franchise Tax Board for collection of returned checks.

SF State University Identification Number

For other records and services, the University uses an assigned identification number (SF State ID/UIN). Students are required to write their SF State ID/UIN on university petitions and forms as well as personal checks submitted for any payment to the University. Payment by personal check is consent by the student for the University to write the student’s SF State ID on the check if it is not referenced. See the SF State ID/UIN Policy at wgsfu.edu/~admisrec/reg/ferpa.html (http://www.sfsu.edu/~admisrec/reg/ferpa.html).

Students who have forgotten or do not know their SF State ID can look on the SF State Gateway at hgateway.sfsu.edu (https://gateway.sfsu.edu).

Classification of Students for Registration

Newly Admitted

Students who have never enrolled at San Francisco State in a fall or spring semester and who have been admitted to the University for a specific semester, or students who have previously attended San Francisco State and are returning to begin a new degree objective (e.g., a new graduate student who received a B.A. from SF State) are considered newly admitted.

Continuing

Students who were previously enrolled at SF State in a regular semester and who have not been absent from the University for more than one complete semester, excluding summer semester, are considered continuing students. Note: Students enrolled at another college or university during their absence through an authorized special program, or have been granted a leave of absence, are considered continuing students.

Per immigration regulations, foreign students are required to be continuously enrolled every semester. Undergraduates must carry a minimum of 12 units and graduate students must carry a minimum of eight units.

To be considered in attendance for any semester, the student must be reported as enrolled in at least one class on the 20th day of instruction in the fall and spring semesters and the 10th day of instruction in each session of Regular session summer semester.

Readmitted

Students who have been absent from San Francisco State for two full semesters (excluding Summer and Winter Sessions), or who have attended another college or university during their absence, must have applied and been readmitted to the University by the undergraduate or graduate Admissions Office.
Class Level of Students
The class level of students is determined according to units completed (earned units) as follows:

<table>
<thead>
<tr>
<th>Class Level of Students</th>
</tr>
</thead>
<tbody>
<tr>
<td>Class</td>
</tr>
<tr>
<td>Lower Division</td>
</tr>
<tr>
<td></td>
</tr>
<tr>
<td>Upper Division</td>
</tr>
<tr>
<td></td>
</tr>
</tbody>
</table>

Graduate: Holding a baccalaureate or master’s degree from an accredited university or college.

Unit Requirements

Units to Graduate
An undergraduate student who has completed all of the requirements for graduation and has a total of 120 semester units is eligible to graduate with a baccalaureate degree. Students who exceed the minimum number of units required to graduate may be monitored and asked to file an approved degree completion plan each year until they graduate.

Residence Units Requirement
For award of the baccalaureate degree, all students are required to complete a minimum of 30 units in residence at SF State. Of the 30-unit residence requirement, 24 units must be upper-division courses and 12 units, upper-division or lower-division, must be in the major. Nine of these residence units must be earned in the Upper Division portion of the General Education program. Units earned for courses awarding extension credit or credit by examination or evaluation do not carry residence credit.

Upper-Division Units Requirement
For award of the baccalaureate degree, all students are required to complete a minimum of 40 upper division units (courses numbered 300–699 at SF State). Twenty-four of these upper division units must be completed at SF State, and nine of these upper division units must be completed in the Upper Division portion of the General Education program.

Maximum Credit for Community College Work
The University accepts a maximum of 70 semester units for work completed at a community college.

Maximum Credit for Extension and Correspondence Work
The University accepts a maximum of 24 semester units of extension credit and correspondence courses towards award of a baccalaureate degree. Courses taken through Open University that earn extension units are included in this limitation, as are courses taken through military programs, such as MCI or Dantes. The University does not offer correspondence courses, but accepts correspondence credits transferred from another accredited institution as part of the 24 unit maximum for extension and correspondence work. Credit earned through SF State Winter Sessions and Special Sessions is not included in the 24 unit limitation.

Maximum Credit by Examination or Evaluation
Matriculated students may obtain credit by examination for specific courses as determined by each department and approved by the course instructor and department chair. Interested students should inquire with each department about its credit by examination policy.

The examination is comprehensive and searching. A grade and appropriate grade points are recorded on the student’s permanent record. Students must be regularly enrolled in at least one course other than the course they are challenging during the semester they earn credit by examination. It is not advised that students enrol in the course they desire to challenge. If a student is enrolled in a course that s/he has successfully challenged, the student is responsible for dropping or withdrawing from the course, or may be administratively dropped by the instructor.

Units earned via credit by examination are counted as part of the total units registered for a given semester and appropriate fees must be paid. Credit by examination may not be counted towards the residence requirement of the University. A student who registers as an auditor may not earn credit by examination in that course.

Credit by Evaluation for Experiential Learning
Matriculated students may also earn academic credit through the Credit by Evaluation for Experiential Learning (CEEL) Program (p. 167). This program is an alternative method for students to earn academic credit for college-level learning experiences for which no academic credit has been awarded. Typical experiences include research projects, significant work or life experiences, volunteer activities, and structured internships. Only undergraduate credit may be earned with a maximum limit of 30 units, six of which can be earned for residence credit. Units are usually applied towards general education or elective areas, but in certain instances, units may be used to fulfill major or minor requirements. An important requirement for earning CEEL credit is to create a learning portfolio that documents and describes the college-level learning that was achieved through these experiences. The portfolio is thoroughly evaluated by a faculty member from an academic area for which the credit is being sought. For further information, contact the Advising Center at (415) 338–2948.

Maximum Units of Credit (CR) Grades
No more than 30% of the units earned at SF State and applied towards completion of the baccalaureate degree may be taken for credit (CR) grades. Students should consult with their major departments for further restrictions on the use of CR grades.

Enrollment Limitations
This university and the State of California are very supportive of individuals completing course work for degrees, credentials, and certificates offered by the University, as well as for professional growth, and for personal enrichment within reasonable limits. With the limitation of physical and personnel resources available, the University reserves the right to limit, or terminate, the enrollment of any individual it feels has been fairly served by educational opportunities at this institution or elsewhere, and where the enrollment needs of other individuals must be given higher priority in the context of the resources available.

Limitation of Total Units
The Associate Vice President (AVP) for Enrollment Management is authorized to review the records of students who have earned sufficient units of credit to graduate, but have not applied for graduation. When the student has met all requirements for graduation, the AVP, after consultation with the student, may take the necessary action to have the student graduated. In those cases where the requirements for graduation can be completed in one additional semester, the associate vice
president, after conference with the student, the appropriate department chair, and either the dean of Undergraduate Education and Academic Planning or the Dean of Graduate Studies, may notify the student that he or she has only one additional semester in which to complete the graduation requirements. If graduation requirements are not completed in the time designated, future registration in the University may not be permitted or may be subject to conditions mutually agreed upon by the student and the AVP.

**Maximum Units in One Semester**

Fifteen units is considered an average semester course load for full-time undergraduate students. During first priority registration, students may register for a maximum of 16 units of enrolled and five units of wait-listed courses. Beginning with the second priority registration, students may register for a maximum of 19 units of enrolled and five units of wait-listed courses. Undergraduate students on academic probation may enroll in a maximum of thirteen units.

During Summer Semester, undergraduate students may enroll in a maximum of seven units in a five-week summer session, nine units in an eight-week session, twelve units in a ten-week summer session, and a maximum of fourteen units in any combination of summer semester sessions. Registration will not permit students to enroll in more than the above unit maximums without prior approval of the relevant dean.

Undergraduate students who want to enroll in more than the maximum units must have a cumulative SF State grade point average of 3.0 or better and obtain a Petition to Exceed the Maximum Unit Policy for Undergraduate Students from the Registrar’s Office website (forms) (http://www.sfsu.edu/%7Eadmisrec/reg/formstoc.html). This petition must be signed by the student’s major advisor, department chair, and college dean. The petition must be turned into the Registrar’s Office at the One Stop Student Service Center before the add deadline for the semester. Undeclared and special majors must receive the approval of the dean of Undergraduate Studies. All other majors must receive the approval of their advisor and the dean of the college in which they are a major.

Students who wish to enroll in 25 or more units in one semester must receive the written approval of their advisor, their college dean, and the Dean of Undergraduate Studies. Courses completed in auditor status, or at another university or through SF State’s College of Extended Learning must be included on the Petition to Exceed the Maximum Unit Policy for Undergraduate Education and Academic Planning.

Nursing majors who participate in the Advanced Placement Option for Registered Nurses are required to file a Petition to Exceed the Maximum Unit Policy for Undergraduate Students if their total unit load for any given semester exceeds 19 units, including all units earned through the advanced placement credit by examination option for that semester.

**Repeat of Courses**

*Unless otherwise stated in the course descriptions in the current SF State Bulletin, courses may not be repeated for additional units of credit.*

An undergraduate student who has received a grade of C or better, or a grade of CR, may not repeat a course unless the course is described in the Bulletin as repeatable for credit. An undergraduate student who has received a grade in a course that is lower than C, including AU, IC, RD, RP, W, and WU, may repeat that course only once more. Graduate students who receive a grade lower than B, including AU, IC, RD, RP, W, and WU, may repeat that course only once more.

Undergraduate students may repeat a maximum of 16 units of coursework taken at San Francisco State University for the purpose of excluding the original grade from grade point determination (i.e. grade forgiveness). When a course is repeated, up to the 16 unit limit, the lower of the two grades is “forgiven” from the GPA calculation. Grade forgiveness shall not be applicable to courses for which the original grade was the result of a finding of academic dishonesty. All units attempted, and all grade points after the repeat limit has been reached, will be included in the student’s cumulative totals. If a student chooses to repeat a course in which the grade was passing (D– or higher) after reaching the repeat limit, all units attempted and all grade points earned will be used in the calculation of the student’s grade point average (GPA), but the units earned will be applied to the calculation of total units earned only once.

An undergraduate student cannot repeat any courses once they have repeated 28 units of SF State units, unless the course is described in the Bulletin as repeatable for credit. Note: courses repeated as a result of a student withdrawing from a full semester of coursework do not count towards the 28 unit limit on course repeats.

A student cannot repeat a course that has a grade of I (Incomplete) unless the I grade has been converted to a grade. (Variable topic courses are excluded only when topics vary.)

Once a bachelor’s degree has been granted, repeating courses for any reason (as a visitor, post-baccalaureate, or Open University student) will not affect the GPA or content of the degree already granted.

Exceptions to this policy require the consent of the department chair in which the course is offered and the college dean of that college.

**Time Limit to Complete Requirements for Undergraduate Degree**

There is normally no statutory period for units required for an undergraduate degree at SF State. However, if any course required for the major, minor, or certificate was taken more than seven years prior to graduation, then departments and programs may require students to retake that course or demonstrate currency in that subject. Consult with the department for more information.

**Registration for Classes**

Communication with students is only via email and all admitted students must sign up for a SF State email account. It is the responsibility of students to regularly check their email for important notices and key dates and deadlines.

Registration for all students is on the SF State Gateway at gateway.sfsu.edu (https://gateway.sfsu.edu). Notices are sent via email to all eligible students to view their assigned priority registration appointment day and time and to check for any holds. Please refer to the Registrar’s Office website (http://www.sfsu.edu/~admisrec/reg/reg.html) for specific dates and details. Registration at San Francisco State is divided into distinct time periods as outlined below.

**Priority Registration (Continuing Students only)**

Early Priority Registration is available in Fall, Spring, and Summer terms. Continuing eligible students are assigned a priority day and time. All holds must be cleared before access is granted. Students may add their name to a Waiting List during this period if all seats in a class are taken. If space becomes available, students on a wait list may be automatically added to a class. After Early Priority Registration
ends, changes are not allowed until the next registration period begins. Students are informed of fee payment deadlines by SF State email and at sfus.edu/~bursar/students_services.html. Students who do not pay their fees by the published deadline and are not covered by a waiver or financial aid are automatically dropped from all classes.

**Orientation (New Students only)**

Newly admitted first-time freshmen and undergraduate transfer students register for their classes on the day they attend Orientation. All holds must be cleared before access is granted. Students are informed of fee payment deadlines by SF State email and at sfus.edu/~bursar/students_services.html. Students who do not pay their fees by the published deadline and are not covered by a waiver or financial aid are automatically dropped from all classes.

**Second Priority Registration and Open Registration (New and Continuing Students)**

During Second Priority Registration students are assigned a priority day and time based on their student level. Students may also add their names to a waitlist if a class is full and space is available on the waitlist. If space becomes available, students on a wait list may be automatically added to a class. After Second Priority Registration ends, changes are not allowed until the next registration period begins. Students are informed of fee payment deadlines by SF State email and at sfus.edu/~bursar/students_services.html. Students who do not pay their fees by the published deadline and are not covered by a waiver or financial aid are automatically dropped from all classes. Open Registration with no priority assignments is available a few days before classes begin.

**Adding Courses after Instruction Begins**

If the student has paid sufficient fees and has instructor approval, he/she may add courses via the SF State Gateway at gateway.sfsu.edu (https://gateway.sfsu.edu) with instructor assigned permission numbers during the first three weeks of the semester.

**Dropping Courses after Instruction Begins**

Students are responsible for dropping classes by the published drop deadline. After that point, students may withdraw from a course or courses only for serious and compelling reasons. Petitions for withdrawal are available on the Registrar’s website http://www.sfsu.edu/~admisrec/forms/regforms/withdrawal.pdf and must be signed by the instructor and department chair. Some colleges also require college dean approval. College dean approval is always required if withdrawal is in the last three weeks of the semester.

**Withdrawal Policy**

Beginning Fall 2009, an undergraduate student or second baccalaureate student may withdraw from a course a maximum of two times and from no more than 18 semester units of individual course work. This does not include total semester withdrawals of all courses or classes taken in CEL (College of Extended Learning).

Satisfactory Academic Progress rules require a 67% completion rate (units completed out of units attempted) to receive financial aid. W and WM grades are considered attempted units in this calculation.

**Auditing Courses**

A student who wishes to audit a course instead of enrolling for credit must apply to and be admitted by the University. Enrollment as an auditor is subject to permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested no later than the last day to add classes. A student who is enrolled for credit may not change to audit after the second week of instruction.

Any student admitted to a class as an auditor will not be permitted to obtain credit by examination for that class. A student registered as an auditor may be required to participate in any or all classroom activities at the discretion of the instructor.

**Academic Load**

Students are expected to include two hours of preparation for each hour of regular class work. During spring and fall, the normal academic load for undergraduates is 12 to 15 units per semester and in summer eight units. For graduates, the normal load during spring and fall is from nine to 12 units per semester and seven units during the summer. For international students in F1 visa status, immigration regulations require a minimum academic load of 12 units for undergraduates and eight units for graduates for spring and fall semesters.

**Enrollment Verification**

A student may verify his/her enrollment via the SF State Gateway at gateway.sfsu.edu (https://gateway.sfsu.edu). A notice to check enrollment is sent via email during the first week of the semester. Official enrollment verifications are certified by the Registrar’s Office after the last day to add and drop classes.

**Verification for enrollment is calculated as follows:**

(including students receiving financial aid)

<table>
<thead>
<tr>
<th>Level</th>
<th>Time</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduates</td>
<td>Full Time</td>
<td>12–19 units</td>
</tr>
<tr>
<td></td>
<td>Three-quarter Time</td>
<td>9–11 units</td>
</tr>
<tr>
<td></td>
<td>Half Time</td>
<td>6–8 units</td>
</tr>
<tr>
<td></td>
<td>Less than Half Time</td>
<td>1–5 units</td>
</tr>
<tr>
<td>Graduates</td>
<td>Full Time</td>
<td>12 units or 8 units of upper division or graduate level courses (300 level or above)</td>
</tr>
<tr>
<td></td>
<td>Three-quarter Time</td>
<td>9 units or 6 units of upper division or graduate level courses (300 level or above)</td>
</tr>
<tr>
<td></td>
<td>Half Time</td>
<td>6 units or 4 units of upper division or graduate level courses (300 level or above)</td>
</tr>
<tr>
<td></td>
<td>Less than Half Time</td>
<td>1–5 units or 1–3 units of upper division or graduate level courses (300 level or above)</td>
</tr>
</tbody>
</table>

**Financial Aid**

All students requesting and accepting financial aid through San Francisco State must register for and complete twelve or more semester
units as an undergraduate and eight or more upper division or graduate-level semester units as a graduate. Some financial aid programs allow a reduced unit requirement. Additional information may be obtained from Financial Aid.

Students who wish to enroll in extension work with this University and/or to enroll in courses at other institutions at the same time as they are registered for courses at this university, should plan the combined program with their major advisor. Under no circumstances is the total unit load for all course registrations in all institutions being attended to exceed the maximum unit load restrictions for this institution without written approval in advance from either the dean of Undergraduate Studies or the dean of Graduate Studies. Failure to obtain such approval in advance will subject the student to possible loss of units taken here and/or a restriction of units for transfer from the other institutions.

Academic Load for Veterans and Dependents of Veterans is calculated as follows:

### Fall and Spring Semesters – Veterans Academic Load

<table>
<thead>
<tr>
<th>Level</th>
<th>Time</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduates</td>
<td>Full Time</td>
<td>12 or more</td>
</tr>
<tr>
<td></td>
<td>Three-quarter Time</td>
<td>9–11 units</td>
</tr>
<tr>
<td></td>
<td>Half Time</td>
<td>6–8 units</td>
</tr>
<tr>
<td></td>
<td>Less than Half Time</td>
<td>1–5 units</td>
</tr>
<tr>
<td></td>
<td>Full Time</td>
<td>9 units or 8 units of all upper division or graduate level courses (300 level or above)</td>
</tr>
<tr>
<td></td>
<td>Three-quarter Time</td>
<td>7 units or 6 units of all upper division or graduate level courses (300 level or above)</td>
</tr>
<tr>
<td>Graduates</td>
<td>Half Time</td>
<td>5 units or 4 units of all upper division or graduate level courses (300 level or above)</td>
</tr>
<tr>
<td></td>
<td>Less than Half Time</td>
<td>1–4 units or 1–3 units of all upper division or graduate level courses (300 level or above)</td>
</tr>
</tbody>
</table>

**Note:** For purposes of Veterans and Dependents of Veterans Educational Benefits for graduate students, each upper division and graduate level course (courses numbered 300 and above) is worth 1.5 units. Each lower division course (courses numbered 100–299) is worth 1 unit.

### Summer Semester – Veterans Academic Load

<table>
<thead>
<tr>
<th>Level</th>
<th>Time</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>R1 AND R3 SESSIONS</td>
<td>Five weeks session</td>
<td>4 units</td>
</tr>

</tr>
<tr>
<td></td>
<td>Three-quarter Time</td>
<td>3 units</td>
</tr>
<tr>
<td></td>
<td>Half Time</td>
<td>2 units</td>
</tr>
<tr>
<td></td>
<td>Less than Half Time</td>
<td>1 unit</td>
</tr>
<tr>
<td>R2 SESSION</td>
<td>Eight week session</td>
<td>6 units</td>
</tr>
<tr>
<td>(Undergraduates and Graduates)</td>
<td>Full Time</td>
<td></td>
</tr>
</tbody>
</table>

#### Three-quarter Time
- 4–5 units
- 3 units

#### Half Time
- Less than Half Time
- 1–2 units

**R4 SESSION** Ten week session
(Undergraduates and Graduates)

<table>
<thead>
<tr>
<th>Level</th>
<th>Time</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Three-quarter Time</td>
<td>5–6 units</td>
</tr>
<tr>
<td></td>
<td>Half Time</td>
<td>3–4 units</td>
</tr>
<tr>
<td></td>
<td>Less than Half Time</td>
<td>1–2 units</td>
</tr>
</tbody>
</table>

**Note:** For purposes of Veterans and Dependents of Veterans Educational Benefits for graduate students, each upper division and graduate level course (courses numbered 300 and above) is worth 1.5 units. Each lower division course (courses numbered 100–299) is worth 1 unit.

### Veterans and Dependents of Veterans

In planning programs, students should observe Veterans Administration regulations concerning minimum academic loads. For certification under the Veterans Readjustment Benefits Act of 1966 (Public Law 89–358), undergraduates must register for and complete twelve or more semester units of credit to receive maximum benefits. Graduate students must register for and complete eight or more upper division or graduate-level semester units of credit each term to receive maximum benefits. If graduate students register for any lower division courses, they must register for and complete nine or more semester units to receive maximum benefits. Additional information may be obtained from the Veterans Services Center.

### Class Attendance

Students are expected to attend classes regularly because classroom work is one of the necessary and important means of learning and of attaining the educational objectives of the institution.

Students should not miss classes except for valid reasons, such as illness, accidents, or participation in officially approved university activities. When a student is absent from classes, it is his/her responsibility to inform his/her instructors of the reason for the absence and to arrange to make up missed assignments and class work insofar as this is possible.

Instructors make reasonable accommodation for students to observe religious holidays when such observances require students to be absent from class activities. The policy is available at senate.sfsu.edu/content/f00-212-policy-observance-religious-holidays (http://senate.sfsu.edu/content/f00-212-policy-observance-religious-holidays). It is the responsibility of the student to inform the instructor, in writing, about such holidays during the first two weeks of the class each semester. If such holidays occur during the first two weeks of the semester, the student must notify the instructor, in writing, at least three days before the date that he/she will be absent.

The instructor may consider regular attendance when assigning grades. In that case, the requirement for regular attendance must be stated in writing as part of the course requirements and distributed to students at the beginning of the semester.

### Planned Educational Leave of Absence

Continuing students who have been officially admitted to, and who are actively pursuing, a degree and/or credential program may qualify to absent themselves from enrollment in the institution for periods
up to two academic years and still maintain the option of continuing student status. As a consequence of a leave of absence, it is expected that a student will improve his/her ability to complete the degree program. A petition for the leave must clearly demonstrate that during the absence from the University the student will be doing something significantly relevant to his/her program. Requests for health, financial, or other personal reasons, or matriculation at another institution are not recognized for the purpose of granting a leave of absence. In the latter instances, students would need to reapply for admission when they are ready to resume their studies in the University. Undergraduate students should contact the Registrar’s Office at the One Stop Student Services Center for more information.

Continuing students can be absent one fall or spring semester during a specific academic year and maintain their eligibility. Students do not have to submit an Application for Planned Educational Leave unless absent for two consecutive semesters, excluding summer.

To be eligible for an educational leave of absence, a graduate student must:
1. be a U.S. citizen or resident alien (foreign students ineligible);
2. have been officially admitted to a master’s and/or credential program offered by the University;
3. have an Advancement to Candidacy (ATC) on file in the Division of Graduate Studies office or Credential Approved Program (CAP) on file in the Credentials Office in the College of Education;
4. be in good academic standing; and
5. have completed acceptable course work (at least nine units) toward the identified objective prior to the effective date of the leave.

Such a planned academic leave does not change the beginning or ending dates of the seven-year completion of degree requirements for master’s degree candidates. For further information contact the Division of Graduate Studies office.

Withdrawal Policy
Cancellation of Registration and Withdrawals
Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term are required to follow the University’s official withdrawal procedures. Failure to follow formal university procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Students who withdraw during the first three weeks of instruction are not considered enrolled for the current semester. Students who do not enroll for two consecutive semesters (excluding summer) must apply for readmission to the University. Information on canceling registration and withdrawal procedures is available from the Registrar’s Office, in person or on the Registrar’s Office website (http://www.sfsu.edu/~admisrec/reg/reg.html).

Students who receive financial aid funds must consult with the Office of Student Financial Aid prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Withdrawal from Course or Courses
During the first three weeks of instruction, dropping a course(s) is permitted without restriction or academic penalty. No symbol is recorded on the student’s permanent record. The procedure for dropping a course during this period is described in detail by the Registrar’s Office. At SF State, dropping a course is the student’s responsibility. However, faculty are authorized and encouraged to instructor-drop students who do not attend the first class meeting, are not attending before the end of the drop period, or do not meet the course criteria.

After the first three weeks but before the 13th week of instruction, withdrawal from a course is permissible, only for serious and compelling reasons, by consulting the instructor and obtaining the approval of the instructor, department chair/program director, and college dean. The student should submit the appropriate petition and supporting documents (including unofficial transcripts) to the instructor. The instructor will review, approve, or deny the petition. If the withdrawal is approved, the student will submit the signed petition to the department or college office for review. If the student has previously withdrawn from the same course two times, the petition will be denied. Undergraduate students may withdraw from no more than 18 semester units of individual courses taken in matriculated status at SF State. This limit does not apply to semester withdrawals, coursework completed via self-support enrollment, withdrawals approved prior to Fall 2009, or withdrawals permitted after the twelfth week of instruction (see below). The petition will be denied if approval would result in an undergraduate student exceeding the withdrawal limit. Should the instructor be unavailable despite the student’s best effort to meet with him/her, the withdrawal request may be reviewed and determined by the department chair/program director in which the course is given.

Withdrawals are not permitted after the twelfth week of instruction except in cases, such as an accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student’s control and the assignment of an Incomplete grade is not practical. Under these circumstances, a student may elect to withdraw from a course or from the university. The procedure to withdraw from a course under these circumstances is as described above, except that such requests must also be approved by the Board of Appeals and Review (BoAR). Requests for permission to withdraw from the university under these circumstances are submitted by the student directly to the Registrar for review by BoAR. Course withdrawals resulting from these requests will not count against the 18 unit withdrawal limit.

The student may receive a grade of ‘W’ which will appear on his/her permanent record. However, a ‘W’ grade shall not be counted toward the student’s GPA. The student may appeal a dean’s denial of a withdrawal request to the Board of Appeals and Review (BoAR).

The symbol ‘W’ indicates that the student was permitted to withdraw from the course after the second week of instruction with the approval of the instructor and appropriate campus officials. It carries no notation of quality of student performance and is not used in calculating grade point average or progress points.

Withdrawal from the University
A student may withdraw completely from the University for serious and compelling reasons or in verified cases of accident or serious illness. All requests for withdrawal or retroactive withdrawal from the University must be submitted and justified in writing to the registrar.
Transcripts

Official transcripts of courses taken at the University are issued only with the written permission of the student concerned. Partial transcripts are not issued. Information on fees and how to order transcripts can be found in the Transcripts section of the Registrar’s website at sfsu.edu/~admisrec/reg/transc.html (http://www.sfsu.edu/~admisrec/reg/transc.html).

Transcripts show all San Francisco State University work completed and transfer units as of the date of application for the transcript. Students who want to include grades for the current or recently ended term should check that these grades are recorded on their unofficial transcripts before ordering their official transcripts. This is also true for students who have recently graduated and want to make sure their degree shows on their official transcripts.

Transcripts from other institutions, which have been presented for admission or evaluation, become a part of the student’s permanent academic file and are not returned or copied for distribution. Students desiring transcripts covering work attempted elsewhere should request them from the appropriate institutions.

Grading Policy and Systems

Grading Policy

Policies concerning the evaluation of student work (grading) are under continuous review and subject to change. Department chairs are responsible for informing department members of basic faculty grading policy and procedures and for ensuring adherence to these policies and procedures.

It is the responsibility of the instructor to describe to each class the methods of evaluation. Students should feel free to ask for an explanation of the grading practices in any course.

Additional definitions which are applicable to special circumstances for graduate programs can be found in the Graduate Studies section, Registration and Grading Procedures for Culminating Experience Courses (p. 120).

Basic Definitions

The following symbols shall be used in evaluating student performance, which will be interpreted to reflect the quality of the student’s accomplishment relative to the standards set for each course:

A: Performance of the student has been at the highest level, showing sustained excellence in meeting course requirements.

B: Performance of the student has been good, though not at the highest level.

C: Performance of the student has been adequate, satisfactorily meeting the course requirements.

D: Performance of the student has been less than adequate.

F: Performance of the student has been such that course requirements have not been met.

CR: (Credit) Performance of the student in an undergraduate level course has been equivalent to grades A through C; performance of the student in a graduate level course has been equivalent to grades A through B.

NC: (No Credit) Performance of the student has been less than that of CR level.

I: (Incomplete Authorized) Indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons, and that there is still a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements which must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. An I must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an I being converted to an IC, unless the faculty member assigns a specific letter grade at the time the Incomplete Authorized is assigned, which would replace the I in the student’s record at the end of the calendar year deadline.

IC: (Incomplete Charged) Indicates that a student who received an authorized incomplete (I) has not completed the required course work within the allowed time limit. The IC replaces the I and is counted as a failing grade for grade point average and progress point computation.

W: (Withdrawal) Indicates that the student was permitted to withdraw from the course after the 3rd week of instruction with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in calculating grade point average or progress points. Undergraduate students may withdraw from no more than 18 semester units of courses taken in matriculated status at SF State. Course withdrawals that result from a student petition to “withdraw from the university” do not count against the maximum number of withdrawal units provided in this section.

WU: (Withdrawal Unauthorized) Indicates that an enrolled student did not withdraw from the course and also failed to complete course requirements. It is used when, in the opinion of the instructor, completed assignments or course activities or both were insufficient to make normal evaluation of academic performance possible. For purposes of grade point average and progress point computation, this symbol is equivalent to an F.

AU: (Audit) Indicates that the student was enrolled on a non-credit basis. Enrollment as an auditor is subject to the permission of the instructor and shall be permitted only after students otherwise eligible to enroll in the course on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Once enrolled as an auditor, a student may not change to credit status unless such a change is requested prior to the last day to add classes. A student who is enrolled for credit may not change to audit after the second week of instruction.

RP: (Report in Progress) Used in connection with courses that extend beyond one academic term. It indicates that work is in progress but that assignment of a final grade must await completion of additional work. Work is to be completed within one year except for graduate culminating experience courses. RP grades are also used in Early
Start courses to indicate that a student participated but did not make sufficient progress for improved math placement.

RD: (Report Delayed) Indicates no grade was turned in by the professor. It is used where a delay in the reporting of a grade is due to circumstances beyond the control of the student. The symbol may be assigned by the registrar only and, if assigned, shall be replaced by a substantive grading symbol as soon as possible.

Grading Systems

The basic grading system to be used at San Francisco State University is the A–F system (see definitions above).

An alternative Credit/No Credit (CR/NC) system may be used under the following conditions:

- A list of courses in which CR/NC grading is mandatory is maintained in each departmental office;
- In courses where the CR/NC option is permitted, but not mandatory, students must take appropriate action to change to CR/NC grading by the eighth week of class;
- No more than 30% of the units earned at this university, and applied toward an undergraduate degree, may be taken for CR grades;
- All students in a given class, whether being evaluated on the A–F or CR/NC basis, are to be treated in the same manner on assignments, methods of evaluation, and standards of performance. The only difference is the symbol entered on the student's official grade record;
- Students who select CR/NC grading should be informed that CR grades may be interpreted as a C and NC grades may be changed to an F when considered by other institutions;
- For students working toward a master's degree, no more than 30% of the units used on the Advancement to Candidacy, including transfer work, may be taken for CR grades.

Use of Incomplete Authorized (I) Grade

The symbol I (Incomplete Authorized) indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons, and that there is still a possibility of earning credit. It is the responsibility of the student period due to unforeseen, but fully justified, reasons, and that there is coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons, and that there is a possibility of earning credit. It is the responsibility of the student to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated.

An incomplete must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work will result in an F being converted to an IC symbol.

A student may not re-enroll in a course for which he or she has received an incomplete until a grade has been assigned.

If a student has extenuating circumstances and an extension of the one year is necessary, the student should contact the instructor involved and obtain a designated extension of time to make up the incomplete. The form to be used for this extension is the Petition for Waiver of College Regulations. The petition must be approved by the instructor and the department chair and forwarded to the Registrar’s Office.

A grade of Incomplete (I) will not be changed after a degree or credential has been awarded even though it is made up within the time period.

Use of Report in Progress (RP) Grade

The RP symbol is used in connection with theses, projects, and similar courses in which assigned work frequently extends beyond a single academic term. When used in this connection, it indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a precise grade must await completion of additional work. Cumulative enrollment in units attempted may not exceed the total number applicable to the student's educational objective. The RP symbol shall be replaced with the appropriate final grade within one year of its assignment except for graduate culminating experience courses.

Use of Withdrawal Unauthorized (WU) Grade

The symbol WU shall be used where a student, who is enrolled on the census date, does not officially withdraw from a course but fails to complete it. Its most common use is in those instances where a student has not completed sufficient course assignments or participated in sufficient course activity to make it possible, in the opinion of the instructor, to report satisfactory or unsatisfactory completion of the class by use of the letter grade (A–F). The instructor shall report the last known date of attendance by the student. The WU symbol shall be identified as a failing grade in the transcript legend, and shall be counted as units attempted but not passed in computing the grade point average. In courses that are graded CR/NC or in cases where the student has elected CR/NC evaluation, use of the WU symbol is inappropriate and NC shall be used instead.

Use of WM Grade

Beginning Fall 2009, an undergraduate student may withdraw from no more than 18 units of course work. This does not include total semester withdrawals of all courses or classes taken in CEL (College of Extended Learning). Courses with a grade of WM are notated on the unofficial transcript to distinguish from individual withdrawals (W) that are subject to the 18 unit maximum allowed.

Grade Point Average

Grade point averages are determined by dividing the total number of grade points earned by the total number of units attempted in courses in which A–F grades are assigned.

Grade Points

The following grade points are assigned per unit of course work:

<table>
<thead>
<tr>
<th>Grade</th>

Grading Systems
No other grading symbol, including W, I, AU, RP, RD, CR, NC, carries grade point credit.

Definition of Semester Unit
One semester unit corresponds to one hour per week for fifteen (15) weeks in a fall or spring semester. (At least two hours of study is expected in preparation for each hour of class.)
or
Three hours of laboratory work per week for fifteen (15) weeks,
or
Two hours of class work in activity-type courses in art, music, and speech per week for fifteen (15) weeks. (At least one hour of outside preparation is expected for each hour of laboratory or activity class work.)

Summer session and extension units are evaluated on the basis of hours to units equal to those above but adapted to the special schedules of these programs.

Credit Hour
As of July 1, 2011, federal law (600.2 and 600.4) requires all accredited institutions to comply with the federal definition of the credit hour. For all CSU degree programs and courses bearing academic credit, the “credit hour” is defined as “the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or
2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.” A credit hour is assumed to be a 50 minute period. In courses, in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

A credit hour is assumed to be a 50 minute period. In courses, in which “seat time” does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

Definition of Continuing Education Unit (CEU)
CEUs are nationally recognized units of measurement for participation in professional development programs for which academic credit is not awarded. CEUs may neither be applied to nor substituted for graduation requirements. One CEU is earned for ten hours of instruction. San Francisco State University policy requires an evaluation of student learning for all courses which award CEUs.

Grade Changes
• Letter grades are not convertible to other letter grades and NC grades are not convertible to CR grades except in cases of instructor or administrative error. All grade changes are by petitions with a recommendation of a grade change by the instructor and the approval of the department chair and/or college dean. A student wishing to request a retroactive grade change must initiate the request during the semester in attendance immediately following the semester when the original grade was assigned or the course in question was offered.
• Except in cases of instructor or administrative error, CR/NC grades are not convertible to letter grades or vice versa. All grade change requests involving the CR/NC option are by petition, with a recommendation by the instructor and the approval of the department chair and/or college dean. Requests for reasons other than clerical error are subject to review by the Board of Appeals and Review.
• Retroactive withdrawals from individual courses require instructor, department, and dean approval. Retroactive semester withdrawals are subject to review by the Board of Appeals and Review.
• Grade changes are not permitted after the award of a degree or credential, unless the change is for a course not used for the degree (in the case of a graduate student continuing after the award of a degree or readmitted second baccalaureate student) or in the case of a formal school grade appeal process when the request has been initiated by the student in the semester immediately following the award of the grade.

Scholastic Distinction
Undergraduate Students
Satisfactory Scholarship
An undergraduate student working for a baccalaureate degree is expected to maintain a grade point average (GPA) of 2.0 (C) or better in all work at San Francisco State University. To be eligible for a baccalaureate degree, a student must have a GPA of at least 2.0 (C) in:
1. all courses completed at San Francisco State University.
2. all courses completed at the college or university level, and
3. all courses in their major.

**Semester Dean’s List**

Each semester the university recognizes undergraduate students who have attained high scholastic achievement. The following criteria are used:

- The student registered for and completed a minimum of twelve (12) semester units for the semester. Only those courses where A–F grades were assigned are counted.
- The student attained a grade point average of 3.25 or higher for the semester.
- Only resident courses are used in computing the grade point average.
- Only grades for the semester under consideration are used in computing the grade point average.

**Graduation with Honors**

Honors are granted with the Bachelor of Arts, Bachelor of Music, and Bachelor of Science. For students who entered the university beginning Fall 1996, honors are based on the cumulative grade point average at the time of graduation (across all units attempted, whether in residence or transferred from other institutions). The level of honors granted is determined by the grade point average earned in all university and college work attempted according to the following scale:

- A student whose GPA is 3.50 – 3.69 shall graduate cum laude.
- A student whose GPA is 3.70 – 3.84 shall graduate magna cum laude.
- A student whose GPA is 3.85 or greater shall graduate summa cum laude.

**Note:** in the calculation of honors, GPA is not rounded up and is based on the actual student GPA.

A preliminary honors list is compiled based on all work completed excluding the last semester. Those meeting honors requirements on this basis are designated on the commencement program as “candidates for honors.” The final honors list is compiled at the time of final clearance for graduation and is based on all course work completed.

**Phi Beta Kappa**

Phi Beta Kappa, the oldest honor society in the United States, maintains a chapter at San Francisco State University. Known as Omicron of California, the chapter grants membership, by invitation only, to students in their senior year. Requirements for membership as established by the Phi Beta Kappa Society in Washington, D.C. and by the campus chapter are:

- A student must have completed at least 100 semester units towards graduation.
- At least 45 of those 100 semester units must have been earned at San Francisco State University.
- A student’s grade point average must place him/her among the top 10% of their graduating class. Most initiates have earned a grade point average above 3.7.
- A student must be majoring in one of the liberal subjects. That means the major normally would be in some subject taught in the College of Ethnic Studies, College of Health and Social Sciences, College of Liberal & Creative Arts, or College of Science & Engineering, although not all majors in those colleges are considered liberal subjects.

- A student must have earned at least 90 semester units of credit in liberal subjects as listed above.
- Applied, professional, or vocational courses cannot be considered as qualifying for Phi Beta Kappa membership. Work in business, broadcasting, studio arts, education, engineering, and journalism courses are considered “professional.”
- The student’s coursework must include a broad spectrum of studies in the sciences, humanities, and behavioral and social sciences. Evaluators are looking for depth as well as breadth and will, consequently, expect to find that a student has taken some courses beyond a mere introduction to a given subject.
- A student must have completed at least three units of university-level mathematics. Remedial courses will not be counted. Math courses accepted for GE are not necessarily acceptable for Phi Beta Kappa. A partial list of acceptable mathematics courses includes:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tbody>
</table>

  or any course for which these are a prerequisite

- A student must have studied a foreign language and be able to demonstrate an ability to read and write in that language. Evaluators will look for evidence that a student has progressed at least through three semesters of a foreign language or equivalent at the college level. Some students may have entered San Francisco State University with six units of Advanced Placement credit in a language and could, therefore, go directly into a third-semester language course. Students who can demonstrate that their native language was not English may count English competence as fulfilling the foreign language requirement.

An interested student who meets these minimum qualifications should contact his/her adviser for possible nomination for membership in the society.

The selection process starts at the beginning of the fall semester of each year. Transcripts are reviewed and a final vote on all candidates is made by the entire Chapter no later than spring. Once this vote is taken, it is impossible to elect any more new members until the following spring. New members who accept the invitation to membership are initiated at a formal ceremony, and attendance at the ceremony is required. Persons graduated at the end of fall semester may be considered for election during the spring semester immediately following graduation. Persons graduated earlier than one semester preceding the spring election process will generally not be considered for membership.

**Academic Standards**

For graduate academic standards see Graduate Academic Policies and Procedures (p. 120).
Undergraduate Students

Good Standing
To remain in good standing a student working toward a baccalaureate degree must maintain a cumulative GPA of 2.0 (C) or better.

Academic probation and disqualification actions are taken only at the close of each regular semester. Both quality of performance and progress toward the chosen objective are considered in determining a student’s eligibility to remain in the University.

Probation
Undergraduate and second baccalaureate students will be placed on probation when the cumulative GPA in all college work attempted or in all work at San Francisco State University falls below 2.0 (C).

Disqualification
Undergraduate and second baccalaureate students on probation are subject to disqualification when:

- As freshmen (fewer than 30 units completed), they fall below a grade point average of 1.50 in all college units attempted or in all SF State units attempted.
- As sophomores (30 through 59 units completed), they fall below a grade point average of 1.70 in all college units attempted or in all SF State units attempted.
- As a junior (60 through 89 units completed), they fall below a grade point average of 1.85 in all college units attempted or in all SF State units attempted.
- As senior or second BA students (90 or more units completed), they fall below a grade point average of 1.95 in all college units attempted or in all SF State units attempted.

Academic standards for graduate students can be found in the Graduate Studies (p. 120) section of this Bulletin.

Probation and Disqualification

Minimum Grade-Point Average
For award of the baccalaureate degree, all undergraduate students must maintain at least a 2.0 grade-point average (GPA) in all college course work, in all SF State course work, and in all major course work. The grade-point average is calculated by dividing the total grade points earned by the total units attempted. CR and NC grades are not included in the calculation of the grade point average. Students who do not meet the minimum 2.0 GPA requirement for SF State course work will be subject to mandatory probationary advising.

Mandatory Advising Program (MAP)
In the beginning of each semester, all undergraduate and second baccalaureate students whose grade point average at SF State has fallen below 2.0 will receive an email from the Registrar’s Office notifying them that they are on academic probation.

Students must schedule advising appointments with their major advisors before the deadline stated in the registrar’s email in order to avoid an administrative hold on their registration for the next semester. The steps outlined in the letter must also be followed.

Maximum Number of Units for Undergraduate Students on Academic Probation
The Policy Limiting the Number of Units Enrolled in by Undergraduate Students on Academic Probation (Academic Senate Policy FO2-223), effective Fall 2003, applies to all undergraduate students. Undergraduate students on academic probation may enroll in a maximum of 13 units per semester for spring and fall semesters during which they are on academic probation. Individual exceptions to this limit may be granted with approval from the student’s department chair and college dean.

Exceptions for students who have not declared a major must be approved by the Dean of Undergraduate Education and Academic Planning or designees.

Administrative/Academic Probation
An undergraduate, second baccalaureate, or graduate student may be placed on administrative/academic probation by the University for any of the following reasons:

- Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms. (A student whose withdrawal is directly associated with a chronic or recurring disability or its treatment is not to be subject to administrative/academic probation for such withdrawal.)
- Repeated failure to progress toward the stated degree objective, or other program objective, including that resulting from assignment of 15 units of No Credit, when such failure appears to be due to circumstances within the control of the student.
- Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students. Examples: failure to complete a required CSU or campus examination, failure to complete a required practicum, failure to comply with professional standards appropriate to the field of study, to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program.

When such action is taken, the student shall be notified in writing and shall be provided with the conditions for removal from probation and the circumstances that would lead to disqualification, should probation not be removed.

Administrative/Academic Disqualification
An undergraduate, second baccalaureate, or graduate student who has been placed on administrative/academic probation may be disqualified from further attendance if:

- The conditions for removal of administrative/academic probation are not met within the period specified.
- The student becomes subject to academic probation while on administrative/academic probation.
- The student becomes subject to administrative/academic probation for the same or similar reason for which he/she has been placed on administrative/academic probation previously, although not currently in such status.

When such action is taken, the student shall receive written notification including an explanation of the basis for the action.

Students who have been on continuous probation and/or subject to disqualification for three continuous semesters may be administratively
disqualified at the end of their third semester. This excludes summer enrollment.

In addition, an appropriate campus administrator may disqualify a student who at any time during enrollment has demonstrated behavior so contrary to the standards of the profession for which the student is preparing as to render him/her unfit for the profession. In such cases, disqualification will occur immediately upon notice to the student, which shall include an explanation of the basis for the action, and the campus may require the student to discontinue enrollment as of the date of the notification.

**Academic Renewal**

Academic Renewal may be used for the purpose of disregarding some undergraduate course work from graduation requirements. According to Title 5 (Section 40402), “When, in the opinion of the appropriate campus authority, work completed during a previous enrollment at the campus or at another institution of higher education is substandard and not reflective of the student’s present scholastic ability and level of performance, all work completed during one or two semesters, as the appropriate campus authority shall decide, may be disregarded in the computation of grade point averages and other requirements for graduation.” The conditions for approval noted below must be met for academic renewal to be invoked. These conditions are:

- The student has formally requested such action and presented evidence that substantiates that the work in question is substandard and not representative of her/his current scholastic ability and/or performance level, and
- The previous level of performance was due to extenuating circumstances, and
- All degree requirements except the earning of at least a “C” (2.0) grade point average have or will soon have been met.
- University policy regarding academic renewal is not intended to permit the improvement of a student’s grade point average beyond what is required for graduation.
- Final determination, that one or more terms shall be disregarded, shall be based on careful review of evidence by a committee appointed by the president, which shall include the designee of the chief academic officer and consist of at least three members.
- Such final determination shall be made only when:
  - Five years have elapsed since the most recent work to be disregarded was completed, and
  - The student has earned in residence at the campus since the most recent work being considered was completed:
    - 15 semester units with at least a 3.0 GPA or
    - 30 semester units with at least a 2.5 GPA or
    - 45 semester units with at least a 2.0 GPA

When such action is taken, the student’s record shall be annotated so that it is readily evident to users of the record, that NO work taken during the disregarded term(s), even if satisfactory, has been applied towards the meeting of degree requirements. However, all work must remain legible on the record. The student’s academic transcript shall have the notation, “Acad Renewal” by each course approved for Academic Renewal with an explanation in the transcript’s legend.

If another institution has acted to remove coursework from consideration, such action shall be honored in terms of that institution’s policy. But, elimination of any coursework’s consideration shall reduce by one term the two-semester maximum on the application of academic renewal to a student’s record.

Another special provision of Academic Renewal allows the student to repeat a course and to have the previous attempt excluded in the calculation of the grade point average. Requests should be directed to the Student Services Center. The following conditions apply:

- This provision is applicable only if it enables the student to meet the minimum grade point average required for graduation.
- Repeat of a course under this policy is permitted only if a grade of D, F, IC, or WU was received on the previous attempt of that course. Grades for both the previous and repeated attempts are recorded on the transcript.
- A maximum of sixteen units may be repeated according to this provision.
- A student wishing to attempt a course for a third time at SF State and have the previous grades disregarded for graduation purposes, under the terms of this policy, must receive permission of the department chair and college dean before repeating the course.
- Students transferring from other colleges where courses were taken and repeated are held to the policy of the college where the course was repeated.
- Students transferring from other colleges where courses were taken and subsequently repeated at SF State may be eligible for consideration under this policy.
- Unless otherwise stated, courses may not be repeated for additional units of credit.

**Readmission of Disqualified Students**

Disqualified students may, after at least two semesters have elapsed, apply for readmission to the University, provided they have removed all academic deficiencies, or resolved the problems which may have caused the disqualification. The work taken to eliminate an academic deficiency at this institution must be taken through the College of Extended Learning in order to impact the grade point average at this institution. If disqualification resulted from any other reasons than academic performance, approval must be obtained from the unit of the University which recommended the disqualification action. Students disqualified from another institution, including other CSU campuses, may not be admitted to San Francisco State unless it can be demonstrated that the cause of the disqualification has been eliminated (additional course work with good grades, etc.) and the student is otherwise eligible to return to the institution of disqualification. For additional information, see Readmission Procedures (p. 60).

**Grievances and Appeals**

An undergraduate student who has questions or concerns about degree requirements or general university regulations should discuss them first with a major advisor. If students wish to review an issue or to appeal a decision, they should consult with the department or program chair and, if needed, the college dean. Should questions arise beyond this point with respect to where or to whom a specific appeal should be directed, the dean of Undergraduate Education and Academic Planning may be consulted for advice. After all of the informal procedures for grievances and appeals have been exhausted, the dean of Undergraduate Education and Academic Planning or designee may initiate formal grievance procedures.

A graduate student who has problems arising from evaluation, advancement to candidacy, degree requirements, or general regulations
should discuss them first with a graduate major advisor. If a student wishes to review a problem or to appeal a decision, he/she should then consult with the department chair, college graduate coordinator, and the college dean, in that order. Should questions arise beyond this point with respect to where or to whom a specific appeal should be directed, the dean of Graduate Studies may be consulted for advice. After all of the informal procedures for grievances and appeals have been exhausted, the dean of the Graduate Division or designee may initiate formal grievance procedures.

See Supplemental Regulations and Procedures section for Student Grievance Procedures (p. 160). Disabled students should consult the Disability Programs and Resource Center for disability-related grievance procedures.

Graduation and Commencement

Graduation Information and Application Process for the Bachelor’s Degree
A well-planned course of study, as well as a clear understanding of requirements, will help the student avoid graduation problems and delays. While each student is responsible for meeting all degree requirements and graduation deadlines, assistance is available from faculty advisors assigned through the major department, from staff in the Advising Center, and from a graduation evaluator in the Registrar’s Office.

Degree Dates
Three official graduation dates are scheduled each year one in the fall, one in the spring, and one in the summer. To qualify for graduation, the student must complete all requirements for the bachelor’s degree by the official graduation date.

The graduation application and filing fee entitle students to an official graduation date, they may participate in the annual commencement ceremony.

One Degree with Multiple Majors and/or Minors
Double majors leading to the same baccalaureate degree (B.A. or B.S.) do not constitute separate baccalaureate degrees and only one degree and one diploma will be awarded. Only one application fee of $100 is required for one degree, regardless of the number of majors and minors.

Graduating with Multiple Degrees
A student may be awarded more than one baccalaureate degree (B.A., B.S., B.M.) at the same time provided that requirements of both degree programs have been completed. Students who complete two different baccalaureate degrees must apply for both degrees in a single degree period by submitting separate applications simultaneously. Only one $100 fee is required for the two applications submitted simultaneously. Students who complete concurrently the requirements for two or more baccalaureate degrees will be acknowledged on separate diplomas for each degree earned.

Note: Students may not pursue a baccalaureate and master’s degree concurrently.

Students are not eligible to enroll in courses offered through regular university in the term following award of a degree without first applying for admission to the University. Students will be administratively dropped by the Registrar’s Office from courses taken in a post-degree term and must apply for a refund with the Bursar’s Office.

Commencement Ceremony and Graduation Approval

Graduation Ceremony
The formal commencement ceremony occurs once a year, usually at the end of May. Only those students who graduated the previous summer (August graduation date), those who graduated the previous fall (January graduation date), those who have applied for graduation in current spring (May graduation date), or who have applied by the spring application deadline for graduation in current summer (August graduation date) are eligible to participate in the ceremony. Baccalaureate degrees require a minimum of 120 units. Cap and gown rental is available in the Bookstore at an additional cost.

Participation in commencement does not mean that the student has officially graduated and is qualified for the bachelor’s degree. If in the final semester, students do not complete a course or earn a satisfactory grade, they still need to complete all courses and requirements required for the degree. Students will need to reapply for graduation, pay the $100 application for graduation fee and obtain faculty advisor and department chair signatures in the semester of actual completion of the outstanding requirement(s).

Courses in Excess of Bachelor’s Degree Requirements
It is the general policy of this University to consider courses taken prior to the award of the baccalaureate degree as undergraduate courses. However, a student may request on the Application for Award of Baccalaureate Degree that up to twelve semester units of upper-division and/or graduate level work, taken in the final semester before the award of the baccalaureate degree be granted provisional post-baccalaureate status, providing these units are in excess of those required for the baccalaureate degree.

Even if granted provisional post-baccalaureate status, the decision to accept courses for a graduate degree taken while in graduate status, rests with the post-baccalaureate program’s department chair, dean and administrative approval.

It is preferred that such courses taken at this time be upper division courses, leaving graduate course work to be taken after the baccalaureate degree has been officially completed. Seniors may enroll in graduate courses only with special permission of the instructor.

If such a request is filed, the total unit load taken, in all institutions and for all purposes, by the student during that final semester must not exceed the maximum unit load in effect for graduate level students as outlined in the section Maximum Unit Load. Any exceptions must have the approval of the dean of the Division of Graduate Studies in advance of registration for the final term. If the baccalaureate degree is not completed at the end of the term in question, all the work taken is subject to being counted as undergraduate work and the provisional post-baccalaureate status for specified courses voided.

Graduate Student Application for Graduation
Candidates for degrees must file an application for graduation in accordance with the University calendar. The Application for Graduate Degree, which is available online through your Student Center, is only
accessible to students with an approved Advancement to Candidacy (ATC) form and an approved Culminating Experience Proposal on file with the Division of Graduate Studies. The student must pay the graduation fee and complete the application for award of degree the semester of graduation.

Applications will not be approved for a specified term unless all requirements have been met as of the final day of the semester. If a candidate does not complete the requirements as planned in a particular semester, he/she must reapply for graduation to be considered in a subsequent semester and pay the $100 application for graduation fee.

If the student is required to be enrolled the semester of graduation, this requirement must be noted on the ATC. Students should consult with their department to determine whether or not enrollment in an additional course is required once the student has enrolled in the Culminating Experience course. Students who have not registered for the class at the time they apply for graduation will be required to enroll in the following semester and graduation will be delayed or, students can request of the department chair and dean for retroactive registration. Payment of all registration fees will be required.

**Graduating with Multiple Graduate Degrees**

A student may be awarded more than one masters or doctoral degree (MA, MS, MBA, E ED) at the same time provided that requirements of both degree programs have been completed. Students who complete two different graduate degrees may apply for both degrees in a single degree period by submitting separate applications simultaneously. A fee of $100 is required for each application submitted. Students who complete concurrently the requirements for two or more graduate degrees will be acknowledged on separated diplomas for each degree earned.

**Note:** Students may not pursue a baccalaureate and master’s degree concurrently.

Students are not eligible to enroll in courses offered through regular university in the term following award of a degree without first applying for admission to the University. Students will be administratively dropped by the Registrar’s Office from courses taken in a post-degree term and must apply for a refund with the Bursar’s Office.
Appeals Process

Undergraduate Student Requests for Exceptions to Academic Policies (p. 156)
Graduate Student Requests for Exceptions to Academic Policies (p. 157)

Undergraduate Student Requests for Exceptions to Academic Policies

Exceptions to Undergraduate Academic Policies

Several of the more frequently requested exceptions to undergraduate academic policies are outlined below. The exemptions chart summarizes the nature of the appeal and each of the levels in the appeal process. Students should direct questions about any of the appeals listed in the chart to the office listed under the first level in the appeal process. Many appeals will be resolved at the first level. Questions about appeals not listed in the chart should be directed to the Dean of Undergraduate Education and Academic Planning, ADM 447.

• What You Need To Know About Drugs And Alcohol At San Francisco State University (p. 165)
• Federal Military Selective Service (p. 166)

Faculty Statement Of Course Requirements

Because students and their instructors share a common goal of a semester of learning in the best possible environment, students shall receive in writing, in the first or second meeting of a class:

• a statement of scope, content, and expected learning outcomes of the course;
• a list of texts and materials to be used throughout the course, including any additional fees or costs;
• a description of grading policy and practices;
• a description of teaching style (for example, fixed outline, lecture, discussion, class-directed, or evolutionary);
• a description of any substantive departure from the content published in the University Bulletin or Class Schedule.

Should budgetary demands require it, one posted document will suffice. During the semester, students shall be notified in writing of any substantive changes in the faculty statement of course requirements.

Student Concerns or Complaints about Actions Taken on Behalf of San Francisco State University

Students who have concerns or complaints about their relationships with the university; its policies, practices, and procedures; or its faculty and staff are strongly encouraged to follow the informal concerns and complaints process as outlined at www.sfsu.edu/~vpsa/complaints/(http://www.sfsu.edu/~vpsa/complaints).

If after following the informal process, the concern or complaint remains unresolved, students may pursue a formal complaint. For questions about the process, please contact the Office of the Senior Associate Vice President & Dean of Students in the Student Services building room 403.

Off-Campus Grievance Procedure for Students

The California State University takes very seriously complaints and concerns regarding the institution. If you have a complaint regarding the CSU, you may present your complaint as follows:

1. If your complaint concerns CSU’s compliance with academic program quality and accrediting standards, you may present your complaint to the Western Association of Schools and Colleges (WASC) at www.wascenior.org/comments (http://www.wascenior.org/comments). WASC is the agency that accredits the CSU’s academic program.

2. If your complaint concerns an alleged violation by CSU of a state law, including laws prohibiting fraud and false advertising, you may present your claim to the office of the Vice President & Title IX Coordinator. This office will provide guidance on the appropriate campus process for addressing your particular issue. If you believe that your complaint warrants further attention after you have exhausted all the steps outlined for you, you may file an appeal with the Associate Vice Chancellor, Academic Affairs at the CSU Chancellor’s Office. This procedure should not be construed to limit any right that you may have to take civil or criminal legal action to resolve your complaint.

Opportunities for Prospective Teachers

Information concerning teacher preparation programs at San Francisco State University, including the pass rate on teacher certification examinations, may be obtained from the Credential and Graduate Services Center in the College of Education, Burk Hall 244.

Opportunities for Athletes

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that SF State dedicates to its men’s and women’s teams may be obtained from Charles Guthrie, Director of Athletics (415) 338-7567.
Student Success and Graduation Rates

Information regarding student retention and graduation rates at SF State and, if available, the number and percentages of students completing the program in which the student is enrolled or has expressed interest may be obtained from the Office of the Assistant Vice President for Enrollment Management located in the Student Services building room 108, (415) 338-2163.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus, and the release of such records. The law provides that the campus must give students access to most records directly related to the student, and must also provide opportunity for a hearing to challenge the records, if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies and procedures may be obtained on the web at www.sfsu.edu/~admisrec/reg/ferpa.html (http://www.sfsu.edu/~admisrec/reg/ferpa.html) or in the Registrar's Office. Among the types of information included in the campus statement of policies and procedures are:

1. the types of student records maintained and the information they contain;
2. the official responsible for maintaining each type of record;
3. the location of access lists indicating persons requesting or receiving information from the record;
4. policies for reviewing and expunging records;
5. student access rights to their records;
6. the procedures for challenging the content of student records;
7. the cost to be charged for reproducing copies of records; and
8. the right of the student to file a complaint with the Department of Education.

The Department of Education has established an office and review board to investigate complaints and adjudicate violations.

The designated office is:
Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue SW
Washington, D.C. 20202–5920

The campus is authorized under the Act to release "directory information" concerning students. San Francisco State University policy is more restrictive than the Federal and State Act and limits directory information to the student’s name, current enrollment status (e.g., undergraduate or graduate, full-time or part-time), class level, major, degrees earned, semesters of enrollment, and extra-curricular achievements. The above designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to the registrar.

A student can request that non-directory information (including address) be released to agencies of the State of California when requested for employment recruitment purposes under the provisions of Assembly Bill 771 (Chacon). Written requests to release non-directory information should be directed to the registrar. Forms are available for this purpose at the One Stop Student Services Center.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus’ academic, administrative, or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records may also be disclosed to the Chancellor’s Office of the California State University in order to conduct research, to analyze trends, or to provide other administrative services on behalf of the CSU. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

In addition to those safeguards provided by the Family Education Rights and Privacy Act of 1974, the university’s policy allows the release of personally identifiable information to others (except to verify student status) only with the student’s prior consent or in the case of extreme emergency or where there is clear and imminent danger to the student, to others, or to society.

Requirement and Use of Social Security Number

Applicants are required to include their correct social security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The university uses the social security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the university to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes. The SSN is also required by the Franchise Tax Board for collection of returned checks.

University Identification Number

For student records and services, the University uses an assigned University Identification Number (UIN). Students are required to write their UIN on university petitions and forms as well as personal checks submitted for any payment to the University. Payment by personal check is consent by the student for the University to write the student’s UIN on the check if it is not referenced.
Procedure for the Establishment or Abolishment of Campus-Based Mandatory Fees

The law governing the California State University provides that fees defined as mandatory, such as a student body association fee and a student body center fee, may be established. A student body association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The campus President may adjust the student body association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the regularly enrolled students at the University. Student body association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs. A student body center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student body center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum as established by Executive Order 1102, Section III. The campus president may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus president. The President may adjust campus-based mandatory fees, but must request the Chancellor establish a new mandatory fee. The President shall provide to the fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the Chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the Budget Office in the CSU Chancellor’s Office at (562) 951–4560.

Immigration Requirements for Licensure

The Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104–193), also known as the Welfare Reform Act, includes provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure. Information concerning the regulation is available from the Office of International Programs, The Village at Centennial Square, Building C, Room 138, (415) 338–1293.
Nondiscrimination Policy

Race, Color, Ethnicity, National Origin, Age, and Religion
The California State University does not discriminate on the basis of race, color, ethnicity, national origin, age, or religion in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination.

Disability
The California State University does not discriminate on the basis of disability in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination.

Sex/Gender/Gender Identity/Sexual Orientation
The California State University does not discriminate on the basis of sex, gender, gender identity or sexual orientation in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination.

The California State University is committed to providing equal opportunities to male and female CSU students in all campus programs, including intercollegiate athletics.

For more information on San Francisco State University’s efforts in creating a sexual harassment free campus, visit titleix.sfsu.edu (http://titleix.sfsu.edu).

Inquiries Concerning Compliance
Inquiries concerning compliance or the application of these laws to programs and activities of San Francisco State University may be referred to The Associate Vice President for Student Affairs/Enrollment Management at (415) 338–2016 or concerns@sfsu.edu or to the Regional Director of the Office for Civil Rights
United States Department of Education
50 Beale Street, Suite 7200
San Francisco, California 94105.

HIV/AIDS Policy
HIV/AIDS Policy: Students and employees with HIV/AIDS shall be afforded unrestricted classroom attendance, working conditions, use of university facilities, and participation in co-curricular and extra-curricular activities as long as they are physically and psychologically able to do so.

For more information, individuals are encouraged to contact Student Health Services, members of the AIDS Coordinating Committee (415) 338–7339, Human Resources Department, Office of Faculty Affairs, or the Dean of Students office.

Campus Safety and Security

Campus Security Report
San Francisco State University’s annual security report includes statistics for the previous three years concerning reported crimes that occurred on-campu, in certain off-campus buildings or property owned or controlled by San Francisco State University, and on public property within or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security, such as policies concerning alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other matters. You can obtain a copy of this report and annual fire safety report by contacting the Department of Campus Safety at the following website: upd.sfsu.edu (http://upd.sfsu.edu)

Information concerning San Francisco State University’s policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may also be obtained from the Department of Campus Safety.

Computer Security
Legitimate computing for educational uses is encouraged. However, some may be tempted to abuse this privilege, but not be aware of the legal aspects of computer crime. If San Francisco State University computers are illegally used, California Penal Code 502 states that the offender may be found guilty of a felony, which is punishable by a fine not exceeding $10,000, imprisonment for 16, 24, or 36 months, or by both fine and imprisonment. Any student who illegally uses the SF State computer system may be subject to suspension or expulsion from the university.

Computer security is the responsibility of everyone. All users should read the SF State Information Security Program Guide, which covers policies, procedures, proper uses, and misuse of computing systems: http://policiesandpracticedirectives.sfsu.edu/content/reporting-it-security-incident-or-vulnerability-policy

Sexual Violence
San Francisco State University does not tolerate acts of sexual violence. All reported instances of sexual violence are investigated and appropriate disciplinary, criminal, and/or legal action is taken, with the consent of the victim. Appropriate support services are made available to students, faculty, or staff who are victims of sexual violence. For more information, please visit: titleix.sfsu.edu (http://titleix.sfsu.edu)

Student Conduct

Title 5, California Code of Regulations § 41301. Standards for Student Conduct

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community must choose behaviors that contribute toward this end. Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences.

1. Student Responsibilities: Students are expected to be good citizens and engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

2. Unacceptable Student Behaviors: The following behavior is subject to disciplinary sanctions:
   a. Dishonesty, including:
      i. Cheating, plagiarism, or other forms of academic dishonesty
         that are intended to gain unfair academic advantage.
ii Furnishing false information to a university official, faculty member, or campus office.
iii Forgery, alteration, or misuse of a university document, key, or identification instrument.
iv Misrepresenting oneself to be an authorized agent of the university or one of its auxiliaries.

b. Unauthorized entry into, presence in, use of, or misuse of university property.
c. Willful, material and substantial disruption or obstruction of a university-related activity, or any on-campus activity.
d. Participating in an activity that substantially and materially disrupts the normal operations of the university, or infringes on the rights of members of the university community.
e. Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus university related activity.
f. Disorderly, lewd, indecent, or obscene behavior at a university-related activity, or directed toward a member of the University community.
g. Conduct that threatens or endangers the health or safety of any person within or related to the university community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
h. Hazing, or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term “hazing” does not include customary athletic events or school sanctioned events. Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
i. Use, possession, manufacture, or distribution of illegal drugs or drug-related paraphernalia, (except as expressly permitted by law and university regulations) or the misuse of legal pharmaceutical drugs.
j. Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and university regulations), or public intoxication while on campus or at a university related activity.
k. Theft of property or services from the university community, or misappropriation of university resources.
l. Unauthorized destruction, or damage to University property or other property in the university community.
m. Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a university related activity.
n. Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
o. Misuse of computer facilities or resources, including:
   i Unauthorized entry into a file, for any purpose.
   ii Unauthorized transfer of a file.
   iii Use of another's identification or password.
   iv Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University Community.
   v Use of computing facilities and resources to send obscene or intimidating and abusive messages.
   vi Use of computing facilities and resources to interfere with normal University operations.
   vii Use of computing facilities and resources in violation of copyright laws.
   viii Violation of a campus computer use policy.
p. Violation of any published university policy, rule, regulation or presidential order.
q. Failure to comply with directions of, or interference with, any university official or any public safety officer while acting in the performance of his/her duties.
r. Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the university community, to property within the university community or poses a significant threat of disruption or interference with university operations.
s. Violation of the Student Conduct Procedures, including:
   i Falsification, distortion, or misrepresentation of information related to a student discipline matter.
   ii Disruption or interference with the orderly progress of a student discipline proceeding.
   iii Initiation of a student discipline proceeding in bad faith.
   iv Attempting to discourage another from participating in the student discipline matter.
   v Attempting to influence the impartiality of any participant in a student discipline matter.
   vi Verbal or physical harassment or intimidation of any participant in a student discipline matter.
   vii Failure to comply with the sanction(s) imposed under a student discipline proceeding.

1. Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

3. Application of this Code Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

4. Procedures for Enforcing this Code The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an
opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

5. Summary of Civil and Criminal Penalties for Violation of Federal Copyright Laws
As referenced earlier in Section XXI, Student Conduct (15) (G) the penalties for copyright infringement include civil and criminal penalties. In general, anyone found liable for civil copyright infringement may be ordered to pay either actual damages or “statutory” damages affixed at not less than $750 and not more than $30,000 per work infringed. For “willful” infringement, a court may award up to $150,000 per work infringed. A court can, in its discretion, also assess costs and attorneys’ fees. For details, see Title 17, United States Code, Sections 504, 505. Willful copyright infringement can also result in criminal penalties, including imprisonment of up to five years and fines of up to $250,000 per offense.

Title 5, California Code of Regulations § 41302. Disposition of Fees: Campus Emergency, Interim Suspension.

The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 working days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

What You Need To Know About Drugs And Alcohol At San Francisco State University

San Francisco State University is committed to providing a safe and healthy environment for the campus community. The use of alcohol and other drugs should not interfere with the university’s educational mission.

The University expects every student, faculty member, staff member, and administrator to be aware of and comply with all local, state, and federal laws regarding the unlawful possession, distribution, or use of illegal drugs and alcohol.

It is the policy of San Francisco State University that the unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs on the University campus, or at any University-sponsored event off campus, is prohibited. No one may use illegal substances, or abuse legal substances, including alcohol, in a manner which impairs performance of assigned tasks. A more complete description of these regulations is contained in University Directive #89-12 (The Alcohol and Drug Policy) and University Directive #90-15 (Policy on Substance Abuse in the Workplace) which are available at Human Resources Office, the Office of Faculty Affairs, the Office of the Senior Associate Vice President & Dean of Students.

State Laws regarding driving while under the influence of alcohol:

- A police officer can confiscate the license of any driver suspected to be driving under the influence who refuses to take a blood alcohol concentration (BAC) test.
- Anyone under 21 found in possession of alcohol can have their driver’s license taken away, even if the underage person was not drinking, drunk, or driving.

Disciplinary Action

STUDENTS: The manufacture, distribution, possession, or use of illegal drugs or illegal use of alcohol may result in either probation, suspension, or expulsion from the University and/or the CSU system.

EMPLOYEES: Those found to be in violation of University policy may be subject to corrective action, up to and including dismissal, or may be required, at the discretion of the University, to participate satisfactorily in an approved counseling or rehabilitation program. All members of the campus community may be subject to criminal prosecution for violation of applicable local, state, or federal laws.

Consider the Following:

After drinking, have you ever engaged in unplanned sexual activity? All alcohol (beer, wine, and hard liquor) decreases one’s ability to use good judgment and act according to their own desires if consumed beyond capacity. People practice less safe sex when under the influence, more unintended pregnancies occur, more regretted sex and sexual assaults occur, and more sexually transmitted infections occur.

Have you ever taken speed or stimulants (methamphetamine or prescription drugs such as Ritalin) to help you stay awake to meet a deadline? The initial effect of speed is increased alertness, increased sense of well-being, and the ability to stay awake. Most stimulant drugs are short acting (6-12 hours). As the drug wears off, withdrawal sets in. The user may become irritable, disinterested in the tasks at hand, need sleep, and can be agitated—just around the time you need to be at your best. In addition, methamphetamine is particularly hard on the body. It contains toxic substances and is extremely stressful on the heart.

How much can I drink and legally operate a vehicle? Many factors influence your blood alcohol level—such as body weight, gender, amount consumed, amount of food eaten, mood, body temperature, and previous drinking experience. As little as one drink may produce blood alcohol levels greater than the legal limit. The safest and smartest approach is to ask a non-drinking friend to drive if you drink, or designate a driver who will not drink.

Do you use cocaine to give you an “edge” in your studies or at work? Most people start using cocaine because it makes them feel “more” something—more confident, more alert, more attractive, more intelligent, more energetic. But these effects of the drug last only a few minutes and leave the user feeling worse than they felt before. This sets up a cycle.
of craving the drug to feel good again, and repeated use to avoid feeling bad. Eventually, not only do you lose your “edge,” but you can’t even stay in the game. Cocaine can cause dramatic changes in blood pressure, as well as heart and breathing rates. One-time, occasional use or using small amounts have all been known to cause breathing to stop, stroke, or death.

Do you smoke marijuana to forget problems with your studies or work responsibilities? If your answer is yes, the drug may be working better than you think. Marijuana can disturb both the process of formation and storage of memory. Even occasional use can result in memory impairment. It can also adversely affect your ability to concentrate on school and work assignments. With continued use, long-term learning problems can occur as well as a reduction in motivation. This can lead to a further decline in performance of academic and job-related responsibilities. In addition, short-term effects include slower than normal reaction time and increased heart rate. There are over 400 chemicals contained in marijuana. One joint contains 50% more tar than a cigarette.

Where To Go for Help
On-Campus (Confidentiality assured)
For students:

- Counseling & Psychological Services (http://psyervs.sfsu.edu/content/AODcounseling): SSB 208, (415) 338-2208

Federal Military Selective Service

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at www.sss.gov (http://www.sss.gov).

Alternative Learning Opportunities

Cooperative Education Program

The Cooperative Education Program offers students an opportunity to receive credit for academically relevant field assignments in which theoretical course work can be applied to real-world problems. Students may receive credit from one unit for part-time work to 12 units for full-time work. Units are not intended to replace general education or major curricular course work. Student free elective units may be substituted upon approval of advising faculty or the cooperative education faculty coordinator within the student’s major field of study. This program is open to all university majors. For further information, email coop@sfu.edu or call (415) 338-1050.

Credit by Evaluation for Experiential Learning

Credit by Evaluation for Experiential Learning (CEEL) is designed to meet the needs of students whose university-level prior learning experiences can be evaluated for credit towards certain general education, major, or elective requirements of the University. Credit is offered only after a comprehensive and searching evaluation by a faculty member in the area for which credit is sought and approved by a team of assigned faculty members. Two types of credit can be earned through CEEL: Residence and Non-Residence Units.
Residence Units
Students who work closely with an SF State faculty member and develop an extensive portfolio regarding prior learning can earn a maximum of six residence units under CEEL 300.

Non-Residence Units
Through the portfolio process, a student can earn a maximum of 30 units beyond the six CEEL course credits above. These 30 units will be recorded on the SF State transcript as “Advanced Standing” and are considered transfer credits. These units will not meet SF State residence requirements toward the baccalaureate degree.

Enrolled students should contact the CEEL Coordinator in the Advising Center for further information.

Amount of Credit
Credit for prior “Advanced Standing” will not exceed 30 units including any units for experiential learning which may be accepted as a result of California State University policy from other institutions. The faculty in any academic program may set additional limits on the number of experiential learning units accepted, or required, for majors or minors in that program.

Departmental Internship Programs
There are internship programs offered in the academic curricula of San Francisco State University. Internships have become the major factor in gaining employment after graduation. The Office of Career Services & Leadership Development can assist students in their search for appropriate internships. Please visit: careerservices.sfsu.edu/ (http://careerservices.sfsu.edu)

Athletics and Sports

Intercollegiate Athletics
The Department of Athletics is a member of the California Collegiate Athletic Association (CCAA), the nation’s premier National Collegiate Athletic Association (NCAA), Division II conference. SF State is an associate member of the Rocky Mountain Athletic Conference (RMAC) in the sport of wrestling. The University is permitted to offer athletically based financial aid to qualified student-athletes. Approximately 240 student-athletes participate in the athletic program annually at San Francisco State. The CCAA is comprised of Cal. Poly, Pomona, Cal. State Dominguez Hills, Cal State East Bay, Cal. State Monterey Bay, Cal. State Los Angeles, Cal. State San Bernardino, Cal. State Stanislaus, Chico State, Humboldt State, Sonoma State, U.C. San Diego, and San Francisco State.

Mission
Intercollegiate athletics is an integral component of the academic experience at San Francisco State University. The specific mission is to provide a broad-based athletics program that fosters the physical, intellectual, social, and emotional development of diverse and highly skilled student-athletes. Intercollegiate athletics are an important part of the heritage and vitality of the University and provide an opportunity for students to share experiences and by doing so, enhance the cohesiveness of campus life. The department’s efforts to accomplish this mission reflect the University’s quest for excellence.

The SF State athletics program is an important aspect of the total educational program—professional, personal, and intellectual enrichment. Coaches and staff are concerned with the academic work of each student-athlete. Their goal is to see that SF State student-athletes graduate from the University with their chosen degree and to become a contributing factor in the community.

The athletic program consists of twelve (12) NCAA Division II teams, five (5) for men and seven (7) for women. The NCAA sanctioned sports include:

<table>
<thead>
<tr>
<th>Women</th>
<th>Men</th>
</tr>
</thead>
<tbody>
<tr>
<td>Basketball</td>
<td>Baseball</td>
</tr>
<tr>
<td>Cross Country</td>
<td>Basketball</td>
</tr>
<tr>
<td>Soccer</td>
<td>Cross Country</td>
</tr>
<tr>
<td>Softball</td>
<td>Soccer</td>
</tr>
<tr>
<td>Track &amp; Field (indoor/outdoor)</td>
<td>Wrestling</td>
</tr>
<tr>
<td>Volleyball</td>
<td></td>
</tr>
</tbody>
</table>

Athletic facilities used by intercollegiate athletic teams include: Cox Stadium (men’s and women’s soccer, women’s track and field), Main Gymnasium (men’s and women’s basketball, women’s volleyball, wrestling), Maloney Field (baseball), SF State Softball Field, Golden Gate Park’s Speedway Meadows (men’s and women’s cross country). Also, the Gator Conditioning Center is a fitness-related facility utilized by all student-athletes.

Features of the athletics program include:
• The Gators Club—the official booster club of Gator Athletics
• Annual golf tournament, auction, and other special events
• Membership in the NCAA LifeSkills Program
• Official SF State Athletics website: sfstatagators.com (http://sfstatagators.com)
• Gator Sports Hotline: (415) 338–6096

For more information about SF State Athletics, please call (415) 338–2218.

Campus Recreation/Mashouf Wellness Center
The Mashouf Wellness Center (opening Fall 2017) will offer recreation and wellness programs and activities for the SF State campus community. Serving as a new social center for the campus, the Center supports campus wellness and healthy living. The Mashouf Wellness Center is a student-driven wellness center whose mission is to guide personal development through transformative activities, foster a sense of belonging within our community, and to help promote a culture of health and wellness across the University. Currently enrolled students may gain entry by showing their SF State ID card. Memberships are available for purchase by SF State faculty, staff, and alumni.

Features of the Mashouf Wellness Center include: a climbing wall, massage therapy studio, three exercise studios, two gymnasium spaces, outdoor resource center, indoor pool facility with spa and sauna, spacious cardio and strength equipment areas, a jogging track, two racquetball/squash courts, locker room facilities, a juice bar, and a recreation field.

The Mashouf Wellness Center is located at the corner of Font and Lake
Merced Boulevards and hopes to obtain LEED Platinum certification from the US Green Building Council.

Campus Recreation offers programs providing opportunities for all students to participate in activities in either a structured or drop-in basis. The goal of the staff is to encourage fun, fair play, and participation for all in a safe environment.

Intramural sports leagues are offered in the Fall and Spring semesters with options for men's, women's, and coed recreation. Current sports include: indoor and outdoor soccer, flag football, volleyball, and basketball. Students may register as a team or join as a free agent. Most leagues play weekly and have no team fee. Campus-wide special events include Costume Dodgeball and the SF State 5K Walk, Run, Roll.

Sport clubs are student-led organizations that meet regularly to pursue an interest in a competitive collegiate activity at the state, regional, and national levels. Sport clubs provide opportunities for students to enhance their collegiate experience. Sport clubs serve as an excellent setting for the development of athletic skills and leadership while providing important social outlets.

The informal recreation and aquatics programs are offered on a drop-in basis. Activities include: basketball, volleyball, indoor soccer, badminton, weight training, and swimming. Group X classes are led by certified instructors in Zumba, Yoga, Piyo, etc. These activities have no fee, but participants must show their SF State ID.

Prior to the Mashouf Wellness Center opening, the Campus Recreation office can be found in the Student Services Building (SSB) room 206. For more information about Campus Recreation or the Mashouf Wellness Center visit us, call (415) 405-4328, or visit www.sfsu.edu/~recsport (http://www.sfsu.edu/~recsport) and dos.sfsu.edu/mwc (http://dos.sfsu.edu/mwc).
Belonging to SF State Alumni Association

The Alumni Association exists to advance the reputation and interests of the University, its administration, faculty, students, and graduates; to engage in educational programs and special activities for its members; and to provide an ongoing link between the University and its graduates for their mutual benefit. It is also a source of financial assistance in the form of scholarships.

Membership is open to those who

1. have been awarded a degree or credential by the University;
2. are members of the faculty or administrative staff;
3. have attended the University as a graduate student for at least two semesters; or
4. have attended the University as an undergraduate for at least two semesters.

In addition, "Friends of the University" may join the Alumni Association through Affiliate membership. This membership is open to any person demonstrating an interest in San Francisco State University.

Among the current benefits of membership are privileges for use of the University library, and all other CSU libraries, access to the career center and MonsterTRAK.com, eligibility for an Association-sponsored health plan, a subscription to SF State Magazine, and a variety of other discounts. Benefits are added regularly.

Additional information is available at the:

Alumni Association Office
San Francisco State University
1600 Holloway Avenue
Room 153
San Francisco, CA 94132
or call (415) 338–2217
The Alumni Association can be reached by email at alumni@sfsu.edu.

San Francisco State University Bookstore

Located in the Student Center, the SF State Bookstore offers a variety of products and services. New and used textbooks, computer hardware and software, supply and electronic items, general reading books, gifts, and SF State souvenirs can be purchased in the main store. The Bookstore also includes the Lobby Shop and Snackademic for quick, convenient snacks and beverages.

Mission Statement

The Bookstore provides outstanding services, products, and customer satisfaction to the University community.

Semester Hours

Monday-Thursday: 7:45 a.m.–7:00 p.m.
Friday: 7:45 a.m.–5:00 p.m.
Saturday: 11:00 a.m.–3:00 p.m.
ucorp.sfsu.edu/bookstore (http://ucorp.sfsu.edu/bookstore)

The SF State Bookstore has extended hours at the beginning of each semester. Reduced operating hours are in effect for the Winter, Spring, and Summer breaks. For more information, call (415) 338–2665.

Associated Students

ASSOCIATED STUDENTS (AS), the student government at San Francisco State University, serves as the official voice of the students. AS promotes an enriched curricular student life experience and is dedicated to the empowerment of SF State’s diverse student body through a commitment to social justice and shared governance. AS provides and supports services and programs, maintains fiduciary responsibility, and engages in campus-wide collaborations and external advocacy efforts.

The Associated Students (AS), established in 1944, is the official student body government. It functions as a non-profit, student-run corporation, and is funded by the student activity fee all students pay each semester. A portion of each student’s tuition fee goes to the Associated Students, making enrolled students automatic members and eligible to vote in the annual elections for AS leadership.

This means that SF State students can enjoy many of the events and programs provided by fellow students that might have cost them even more without this one-time semester fee. Explore our website asi.sfsu.edu (http://asi.sfsu.edu) to find out about all of our services and what AS can do for you! For more information about getting involved in Student Government, please contact the AS Business Office at (415) 338–1044 or (415) 338–2321 or stop and visit a Board Member in Cesar Chavez Student Center, M–1138.

We provide programming in three areas:

Culture and Social Justice

Art Gallery

Exhibitions feature student, faculty and professional work and advocates works of merit by all artists at any stage in their career. The gallery programs eight to ten exhibits and pop-up shows per year and hosts weekly events and monthly receptions during the Fall and Spring semesters. Three to four exhibits usually rotate per semester, and two to three occur during the summer. The Gallery operates in alignment with the Richard Oakes Multicultural Center to provide students with opportunities, resources, arts-related events, and a range of insightful and visually captivating artworks that reflect and actively engage with the community. The Art Gallery further strives to foster cross-cultural exchange with artists and audiences and produces some of San Francisco’s most socially relevant and visually compelling exhibits. Each show is dedicated to providing insight and information about aesthetic movements, contemporary issues, and/or social justice through interactive, multi-media and other visual modes.

Education and Referral Organization for Sexuality

Inclusive of all identities, backgrounds, and types of sexuality, EROS provides contemporary sexuality education through events, workshops, social media, performances, books and DVDs, and a referral database. EROS connects the campus community by providing presentations and information to students, classes, and organizations. EROS connects the greater San Francisco community by referring students to off-campus resources and collaborating with off-campus organizations for events. EROS introduces new students to their program with an annual open house and inspires all students to pursue sexuality in their professional lives with the annual Career Fair. EROS acclimates students to the diverse and open culture that is present in San Francisco, as well as
SF State, improving retention rates and campus pride. EROS promotes consent, tolerance, diversity, and health with the goal of students feeling empowered about themselves and their sexuality.

**Queer and Trans Resource Center**
Rooted in the ancestral legacy of queer activists and visionaries and San Francisco State University’s commitment to social justice and community engagement, the QTREC endeavors to offer LGBTQIA-related events, services, and resources to students. The Queer & Trans Resource Center will also serve as an umbrella organization linking various student organizations such as Queer Alliance, Pride Committee, and CEASE/Safe Place that work to create events and resources for the LGBTQIA community on campus. With the awareness that all forms of oppression are inherently interconnected, the Queer & Trans Resource Center will additionally focus on building alliances with ethnic, political, religious, and arts communities at San Francisco State University and beyond. The center is open to all students who wish to join in our efforts to promote awareness and understanding of LGBTQIA-related identities, issues, and culture.

**Richard Oakes Multicultural Center**
The Richard Oakes Multicultural Center is a space for cultural events and discussions that focus on everything from inspirational leaders to commemorative months. The Center also provides a collaborative and supportive environment that promotes a multi-ethnic, culturally conscious university that affirms the human and intellectual heritage of all people. The Center encourages and welcomes all members of the University and greater community to initiate or participate in its student-focused and directed programs and activities.

**Women's Center**
The Women's Center functions as a resource, referral, and educational program for the campus community and deals specifically with issues concerning the lives of women. WC is dedicated to providing an open, encouraging and nurturing environment for the students of San Francisco State University. The basis of the foundation is to provide a safe place for women of any and all backgrounds. The WC is open to everyone (man or woman) who would like to come together and participate in promoting the understanding of various perspectives and issues pertaining to women.

**Education and Equity**

**Early Childhood Education Center**
Our mission is to assist student parents with their goal of obtaining a college degree by providing them with high-quality, convenient and affordable childcare for their young children. Our educational philosophy draws upon a variety of educational approaches to support each child’s optimum growth and development as well as make children’s learning visible. To meet the needs of student parents, we are open year-round from 7:30 a.m. to 5:30 p.m. Monday through Friday, and offer full and part-time childcare schedules. We operate four programs throughout the year to match the University’s four enrollment periods for fall and spring semesters and winter and summer sessions. We are closed for University holidays, Spring Break, Fall Recess and all other non-instructional days. As a campus-based childcare program, we also provide opportunities for student employment and early childhood teacher training.

**Legal Resource Center**
Our mission is to educate the SF State community on their legal rights, helping empower them when confronted with stressful legal issues. Our on-site attorney is well versed in California law and meets with students and staff for low-fee consultations. The expected outcomes for students who seek counseling from the Legal Resource Center: Straightforward answers to basic legal questions, no advice just information, referrals to pro-bono/low fee Bay Area legal aid, an opportunity to meet with an expert attorney for $10.00, a full legal library and informative legal brochures and pamphlets, and a kind, supportive staff of students who research client’s issues.

SF State offers two courses that work with our office. These classes educate students on important areas of law and allow them to gain experience in a Legal Office. Each course is worth three units. COUN 630 and COUN 631 will count as credit towards the completion of a CJ major/minor as well as a COUN minor. Students who join the Legal Resource Center can expect to learn the following: how to conduct intakes when interviewing clients, conduct legal research, legal resources available in the Bay Area, how to get into law school, basic knowledge on various areas of California Law, and how to research civil codes/laws in California. The counseling classes can also serve as a stepping-stone into potential employment with the LRC.

**Project Connect**
AS! Project Connect (http://asi.sfsu.edu/programs/project-connect) exists to empower and involve the student body to promote higher education and facilitate graduation for low-income and historically underrepresented communities. The following programs make up Project Connect:

**Internship**
The AS! Project Connect Internship program offers SF State students the opportunity to earn university credit for their community service hours provided on/off campus as mentors and service referral providers. SF State students must sign up for the ETHS 697 class offered for Project Connect. Student may also be registered through Community Service Learning (CSL) program in the College of Ethnic Studies or the Community Involvement Center (CIC) on campus. AS! Project Connect will serve as an agency for these students to volunteer their time.

**Recruitment**
Interns in the recruitment department will learn outreach skills and how to navigate the bureaucracy within the public school system. Interns will serve as mentors, role models and tour guides to students visiting our campus.

**Retention**
Interns in the Retention department will become familiar with retention services and resources available on campus such as financial aid, advising and tutoring services, university graduation requirements and general information about SF State.

**Book Loan**
Students are limited to borrow up to two books per semester. Students can only borrow books that are on-hand in the AS Project Connect Book Loan Inventory.

**Project Rebound**
Supporting the formerly incarcerated on their journey through successful reintegration in a college setting, Professor John Irwin created Project Rebound in 1967 as a way to matriculate people into San Francisco State University directly from the criminal justice system. The focus of Project Rebound quickly became “Education as an Alternative to Incarceration” and “Turning Former Prisoners into Scholars” after being embraced by Associated Students Incorporated. Since the program's inception, there
have been hundreds of formerly incarcerated folks who have obtained four–year degrees and beyond.

**Environmental Resource Center**

ERC focuses on increasing sustainability throughout the campus. Our team works towards promoting zero waste, educating students on various social justice and environmental issues, hosting informative environmental events/workshops, and providing sustainability resources for students on campus. Our mission is to make sustainability easy, accessible, and fun!

**Events and Entertainment**

**Programs & Services**

It is managed by a professional staff, with key positions held by SF State students. Programs & Services’ mission is to provide a wide and culturally diverse variety of events, both entertaining and culturally enriching, for the SF State student body and Bay Area public. We strive to keep admission costs as low as possible for students and seniors. In booking music, we strive to present a variety of styles, as suits the diversity of our student body. We have somewhat of a leaning towards local and independent artists, and roots and indigenous styles. For updates or further information, call us!

**Rack-N-Cue**

Take a break between classes! We’ve got over 20 awesome arcade games to give you a break from your busy life or play anytime on our professional Brunswick pool tables. You can also battle it out during our bi-monthly video game tournaments or compete in our weekly individual 9-ball tournaments. Rack-N-Cue has Air Hockey, DDR Extreme, Max Tune 3, Initial D 5, Drummania 10th Mix, Silent Scope, Point Blank 2, Super Puzzle Fighter 2, Strikers 1945, Super Street Fighter 4 Arcade Edition, Ultimate Marvel vs. Capcom 3, Street Fighter 3rd Strike, Capcom vs. SNK 2, Marvel vs. Capcom, Street Fighter vs. X-Men.

**The Depot**

Our mission is to provide a public space that encourage’s collaboration between students, local/touring artists, and the greater San Francisco community in a creative environment. The Depot ultimately hopes to foster relationships among professional performers and SF State students. The Depot hosts music shows, open mics, poetry events, art socials, dance nights, comedy and improv events, film screenings, and much more. All shows are for all ages and they are free and open to the public unless otherwise noted. All music shows usually start around 6:00 p.m. and end when curfew hits at 9:30 p.m. All booking inquiries are done over email, so please no calls. If you have any questions or are interested in performing at The Depot, please contact us at thedepot@asi.sfsu.edu (thedeport@asi.sfsu.edu).

**Transportation and Parking**

San Francisco State University is readily accessible by public transportation from all parts of the Bay Area. Six San Francisco Municipal Railway (MUNI) bus and light rail lines serve the campus at frequent intervals. East Bay commuters have a choice of BART and connecting bus service, or BART and light rail from downtown San Francisco. BART and SamTrans link the Peninsula and the San Francisco Airport with the campus. SF State University operates a shuttle service to supplement the BART connection between campus and the Daly City BART station.

The Bike Barn provides secure bicycle parking. Hours of operation are Monday – Thursday from 7:30 a.m. to 10:00 p.m. and 7:30 a.m. to 5:00 p.m. on Fridays during the fall and spring semesters. The Bike Barn is located under the gym in Lot 6. You can reach the Bike Barn at (415) 338-3170.

The campus is a typical urban setting and parking on surrounding streets is very limited. Approximately 3,000 spaces are available on a first-come basis in the general parking garage, located on the east side of Lake Merced Boulevard between Font and Winston Drive and Lot 25, which is located on Winston Drive between Lake Merced and Buckingham Way. Parking fees are $4.00 for two hours or $7 for the day. Daily permits expire at midnight. Two-day permits are available for $14. Parking permit pay stations accept bills, debit, and credit cards. A valid SF State permit is required 24 hours a day, 7 days a week in all lots.

For general information, please visit http://parking.sfsu.edu. You can contact Parking and Transportation at (415) 338-2744 or by email at parking@sfsu.edu with your inquiries.

**AB 540 & Undocumented Students**

The AB 540 and Undocumented Students program supports the undocumented student population including those who may or may not qualify for AB 540. We are located in a resource center in Mary Park Hall that offers resources and support to current and incoming undocumented students or students with mixed status families. On our website (http://undocugators.sfsu.edu), you will find information about our resources that support the academic and personal success of our undocumented students. All students have the right to attend any public college or university in California regardless of their immigration status. As a university, we encourage personal growth through participation in interactive programming and workshops that support the intersectionalities, multicultural/multiethnic identities, and holistic wellness of our students. SF State has a strong network of campus and community members that are committed to helping AB540 and undocumented students achieve academic excellence. Throughout the year, we will provide a series of leadership and professional opportunities, financial aid resources, connections to legal support, and informational workshops to give you the information you need to continue succeeding on campus.

Contact Us

Dream Resource Center

Phone: (415) 405-3503
Fax: (415) 338-6150
Email: dreamers@sfsu.edu

Website: http://undocugators.sfsu.edu

**AB 540 and Residency Status**

Assembly Bill 540 (https://undocugators.sfsu.edu/AB540) is a law that was passed in 2001 by the California legislature and was recently amended with Assembly Bill 2000 in 2015. The laws were written for students who are either undocumented or U.S. Citizens/Permanent Residents but are considered non-residents for tuition purposes. If these students meet specific requirements, such as attending a California public institution of higher learning, they are able to pay resident fees instead of non-resident fees.
AB 540/AB 2000 Eligibility Criteria

To qualify for paying “resident fees,” students must meet the following requirements:

- Attend a California high school for a minimum of three or more years; OR
- Have attained credits earned in California from a California high school equivalent to three or more years of full time high school course work and attending a combination of elementary, middle and/or high schools in California for a total of three or more years; AND
- Graduate from a California high school and pass the California High School Proficiency Exam OR get a GED (General Equivalency Diploma or Graduate from a California high school or the equivalent (for example: pass the California High School Proficiency exam or GED); AND
- Enroll in an accredited California institution of higher education (CCC, CSU, or UC)
- File a Non-Resident Tuition Exemption Affidavit with the school. In the case of students without legal immigration status, they must state that they have filed or will file an application to legalize their immigration status as soon as they are eligible to do so.

Steps for Submitting your AB 540 Affidavit for Undergraduates and Graduates

- Submit your completed Non-Resident Tuition Exemption Affidavit (http://www.sfsu.edu/~finaid/AB540/AB540AB2000Affidavit.pdf) and official high school transcripts by the first day of classes.
- If you are a SF State undergraduate student now applying to a graduate program at SF State you must ONLY re-submit your affidavit to the Division of Graduate Studies. No need to submit your Official Transcripts. All other graduate students must submit their official HS Transcripts AND Affidavit to the Division of Graduate Studies Admissions.
- AB 540 student status will not be official until final high school transcripts & affidavit are submitted and processed. Non-resident fees (http://www.sfsu.edu/future/costs/fees.html#regfees) will be charged until AB 540 status is approved.
- You will receive a letter or an email from the Admissions Office verifying your status as an AB 540 student (usually just prior to the beginning of classes).
- If you plan to pay out of pocket on the installment plan, bring a copy of the completed affidavit to your orientation and present it to the Bursar’s Office to ensure you will only be required to pay resident fees.

California Dream Act

- Complete the CA Dream Act Application (https://dream.csac.ca.gov) or the FAFSA (https://fafsa.ed.gov) application by the March 2 priority deadline. Please confirm your eligibility so that you can submit the correct application for federal and/or state financial aid.
- Begin looking for scholarships right away at www.sfsu.edu/~finaid/scholarships (http://www.sfsu.edu/~finaid/scholarships) and http://www.e4fc.org/scholarships.html. (http://www.e4fc.org/scholarships.html) Apply for as many scholarships as you can, with Spring being the most opportune time to search for the next academic year.
  - For more information check out our AB 540 Financial Aid page (http://www.sfsu.edu/~finaid/ab540).

Career Services & Leadership Development

Mission

Our mission is to help SF State students and alumni have fulfilling careers. To this end, we partner with businesses, philanthropists, NGOs, non-profit organizations, alums, SF State faculty, staff, and student organizations to assist SF State students and alumni in defining career goals that are consistent with their interests, skills, values, and personalities; in mastering the job search skills that will enable them to pursue those goals effectively; and in connecting with employers whose industry specific expertise will help them translate their academic achievements into professional success.

Career Events

Looking for a job? Trying to find an internship? Interested in graduate school? The Office of Career Services & Leadership Development hosts the Part-Time Job, Graduate School, Fall Career, Spring Career Fairs and other career educational events that are open to all students.

Career Resources

The Office of Career Services & Leadership Development is dedicated to assisting SF State students with all aspects of their career development. Our goal is to prepare you to be a sought after candidate ready with the skills sets needed for securing a lucrative and fulfilling career.

How to begin your relationship with our office? First, sign up for our social media links to stay up-to-date with all of our office’s career development opportunities. Secondly, check out our calendar of events to find out when and where the next exciting workshop or event is taking place. Lastly, don’t wait until your senior year to come to our office. Stop by as a First-Year or Transfer student to begin working with our talented staff in developing your skill sets. Whether you need help with picking a career trajectory or need help developing your resume or finding a job, our staff is here to help. We know that you are embarking on an amazing adventure here at SF State filled with knowledge-learning, social networking, and experiencing everything that college has to offer. Let us be a part of that experience by helping you develop important job attaining skills you need to join the workforce.

Workshops

Career Services & Leadership Development offers a wide variety of workshops available to all current SF State students and alumni. To register for a workshop, please check http://careerservices.sfsu.edu/calendar and follow the link and login to your Orgsync account. Please
click on the “workshops” bar on the left to view the types of professional development workshops our office has to offer.

GatorJOBS
https://www.myinterface.com/sfsu/Account/LogOn?ReturnUrl=%2fsfsu%2fstudent

GatorJOBS provides employment and internship opportunities targeted to SF State students and alumni by employers. Students can search for on-campus work-study or student assistant positions as well as opportunities for both employment and internships with off-campus employers.

Leadership Development
President’s Leadership Fellows Program
President’s Leadership Fellows pursue mutual knowledge, practices, and goals focused on leadership skills and career readiness. The Fellows Program prepares students to become job-ready by providing essential tools, skills, and resources, and by introducing fellows to a network of connections and support.

Throughout the semester, fellows attend professional development workshops addressing topics encompassing communication skills, problem-solving, presentation skills, unconscious bias, leadership, personal branding, networking, interview techniques, cover letter and resume writing, and business etiquette.

Background
The Fellows Program began in Fall 2014 with the generous support of the Eustace-Kwan Family Foundation. The pilot program started in the College of Business with 25 students. The number of College of Business fellows increased to 50 in Spring 2015 and 100 students each in Fall 2015, Spring 2016, and Fall 2016. The success of the program resulted in additional support from the Eustace-Kwan Family Foundation in December 2016. With the full support of President Wong and campus leadership, the program has now expanded to accept applications from students in the College of Business, College of Ethnic Studies, College of Health and Social Sciences, College of Liberal and Creative Arts, and College of Science and Engineering.

Eligibility Requirements
Applicants must be currently enrolled juniors or seniors during the semester of participation. Announcements are made at the beginning of each semester requesting that students submit their applications to the program.

Class Schedule
The regular educational program of the university is offered continuously from 8:00 a.m. until 10:00 p.m., Monday through Friday. Classes are also offered on-line as well as on Saturdays only and various Saturdays and Sundays. The Class Schedule is available on-line every semester. It lists all classes offered for a particular semester. Links to other important information such as registration procedures, fee payment instructions, add/drop deadlines, finals schedule, etc. are available there as well. The on-line version of the schedule of classes on the web is found under Quick Links on the web at www.sfsu.edu (http://www.sfsu.edu).

Community Service Learning
Community Service Learning (CSL) is the combination of academic study with community service so that each is enhanced by the other.

Through a process of structured reflection, the service experience is integrated with the lessons of the classroom to enrich learning outcomes. Students enrolled in a course offering a community service learning opportunity balance their time between classroom instruction, service in the community, and reflection upon their service experience. Community service learning enhances academic learning by allowing students to make connections between their in-classroom education and its application to the field. CSL experiences help students to clarify their career goals and acquire work-related skills, develop a heightened sense of civic responsibility and awareness of moral and ethical issues, and provide them with a wide variety of work options with a goal of being value-added for the community they serve.

Opportunities to participate in CSL exist throughout the university curriculum. To assist students in identifying courses that may provide such unique experiences, certain courses in this Bulletin will be designated with “CSL may be available.” To determine if the community service learning experience is associated with the course in any given semester, interested students must contact the instructor or the Institute for Civic and Community Engagement (HSS 206). Additionally, the Class Schedule for each semester will indicate, by footnote, which section includes the CSL component.

The Community Service Learning program, a flagship of the Institute for Civic and Community Engagement (ICCE), is the campus unit responsible for coordinating community service learning activities. For more information, call (415) 338–6419 or visit us at icce.sfsu.edu (http://icce.sfsu.edu)

Counseling and Psychological Services
Counseling and Psychological Services
The Counseling and Psychological Services (http://psyservs.sfsu.edu) (psyservs.sfsu.edu (http://psyservs.sfsu.edu)) provides psychological counseling to students and consultation services to the university community. The center provides an opportunity to explore freely any personal problems or concerns. Concerns are as varied as the people themselves; they include problems involving relations with parents or peers, feelings of depression or anxiety, relationship conflict, concerns about academic progress or direction, and other issues. The professional counselor faculty of the Counseling and Psychological Services is comprised of licensed counselors, psychologists, and clinical social workers, representing a variety of cultures and ethnicities and trained to work with the university’s multicultural student body. Counseling services are available to undergraduate and graduate students and include personal and group counseling and psychotherapy, marital and couples counseling, consultation and outreach services, and referral services for students. Consultation services are also available to staff, faculty, and the university community on a variety of topics related to the emotional wellness of students. In keeping with accepted professional practice, counseling is strictly confidential, and no information is released without the student’s explicit written authorization. Counseling services are free of charge to all currently enrolled students. The Center is located in Student Services Building, Room 208. Appointments may be made by phone (415) 338–2208 or in person.

Health Promotion & Wellness
The mission of SF State University’s Health Promotion & Wellness (HP&W) unit is to achieve health equity and enhance academic, personal,
and professional success for all members of the SF State community. Using a socio-ecological perspective and practicing with cultural humility, we aim to positively shift culture and social norms around health and wellness and to increase students’ self-efficacy to make informed health decisions. Our team is made up of health educators who focus on areas including sexual health, mental health, alcohol and other drugs, sexual violence prevention, men’s health issues, nutrition, and overall health and wellness. We coordinate the campus peer health educator programs which support the development of health leaders who partner with us in addressing campus health needs. HP&W is located in the Cesar Chavez Student Center, M-113C. Online information and resources related to health and wellness can be found at wellness.sfsu.edu (http://wellness.sfsu.edu).

**Counseling Clinic**

The Counseling Clinic, a graduate training program, offers counseling services to students, including individual, couples, and group therapy. The interns are experienced, advanced second-year graduate students in the Counseling Department. The interns work under the close supervision of the counselor faculty at Counseling and Psychological Services. There are no fees. Interested parties may call the clinic at (415) 338-1024 or go to Burk Hall 117.

**Psychology Clinic**

The Psychology Clinic offers services to both students and the community-at-large. Many treatment modalities are provided, including individual, couple, child, and family therapy. The psychotherapy trainees are experienced, advanced graduate students working under the close supervision of the Clinical Psychology faculty. Clinic services are provided on a sliding fee scale; however, no one is turned away for lack of funds. Interested parties may call the clinic at (415) 338-2856 or go to the Ethnic Studies and Psychology building, room 240.

**SAFE Place**

The SAFE Place (Sexual Abuse Free Environment) is the campus resource center on sexual violence. It offers information, peer education, confidential crisis counseling, on-campus advocacy and referrals for survivors of sexual assault, sexual harassment, stalking and relationship violence. We also offer men’s programming to engage men in addressing sexual violence. These services are available for students seeking such resources for themselves or friends. The SAFE Place also assists staff, faculty, and administrators who are working with students in crisis or who themselves need such assistance. The University policy on sexual assault is published at titleix.sfsu.edu (http://titleix.sfsu.edu).

The SAFE Place is located in the Student Services Building, SSB 205; telephone: (415) 338-2819. For more information go to sfsu.edu/~safe_plc (http://www.sfsu.edu/~safe_plc).

**Disability Programs and Resource Center**

The Disability Programs and Resource Center (http://access.sfsu.edu) (DPRC) collaborates with SF State’s diverse community to ensure that all aspects of campus life—learning, working, and living—are universally accessible. The DPRC provides the University with resources, education, and direct services in order that people with disabilities may have a greater opportunity to achieve social justice and equity. Students with mobility, hearing, visual, communication, psychological, systemic (HIV/AIDS, environmental illness, etc.), and learning disabilities are encouraged to attend SF State. The DPRC is available to facilitate equal access to the classroom and to campus-related programs and activities. Eligible students with a verified temporary or permanent disability who are regularly enrolled or enrolled through the College of Extended Learning are provided with a full range of support services in order that they may define and achieve personal autonomy at SF State. The DPRC also provides assistance to eligible students in managing DPRC services, campus-wide access, attitudinal barriers, other campus resources, and disability civil rights.

**Support Services**

Prospective students are encouraged to contact the DPRC early in the admission process in order to receive assistance and information about services. Students with disabilities need to apply for admission to the University using the standard admissions process. If the student’s disability has prevented them from meeting any admission requirements and they believe they are an “otherwise qualified applicant,” they may be eligible to request alternative admissions assistance directly from the admissions office. On a case-by-case basis, the DPRC examines an applicant’s documentation and academic record to determine whether or not to support a recommendation for alternative admissions. The DPRC cannot offer alternative admissions assistance to prospective students who have not completed their admissions application and submitted all final transcripts. Students may also be eligible for one or more services, depending on the specific nature of their disabilities. Disability verification must be provided when registering with the DPRC. Specific services include the following:

- Academic Assistance
- Assistive Technology
- Alternate Media
- Deaf & Hard-of-Hearing Services
- Disability Management
- On-campus Shuttle Service
- Parking
- Priority Registration
- Test Accommodations

**Complaint/Grievance Procedures**

Every effort is put forth to ensure that students, faculty, and staff with disabilities at San Francisco State University receive the services and accommodations to which they are entitled under federal law. Generally, the campus community is sensitive to the need for accommodation. However, if an oversight to physical or programmatic access occurs at SF State, students and employees with disabilities have protection under Section 504 and the ADA. Students may file a complaint about University faculty, staff, administrators, or disability-related issues by following these procedures, which can also be found at: http://access.sfsu.edu/content/accessibility-oversights. (http://www.sfsu.edu/~dprc/grievance.html)

1. Discuss the problem with a DPRC Specialist. With permission of the student, the DPRC Specialist will contact the faculty and/or staff on campus in an attempt to work out a solution to the problem.
2. If the complaint is not satisfactorily resolved, or if the issue is with the DPRC Specialist, the student may meet with the DPRC Associate Director.
3. A grievance that is not resolved to the student’s satisfaction by the DPRC Associate Director may then be addressed to the DPRC Director.

4. When a grievance cannot be resolved informally as described above, students can pursue their claims under Section 504 of the Rehabilitation Act of 1973. To file a Section 504/ADA grievance, http://access.sfsu.edu/content/accessibility-oversights.

5. At any time students may file a complaint with the Office for Civil Rights (OCR). It is the DPRC’s hope, however, that students will give the campus the chance to address their problems in a timely manner.

Office for Civil Rights
U.S. Department of Education
50 United Nations Plaza
San Francisco, CA 94102
Phone: (415) 486–5555
Fax: (415) 486–5570
TTY: (877) 521–2172
Email: ocr.sanfrancisco@ed.gov

Complaints may be made in person, by telephone, or in writing. The DPRC prefers to meet with students to discuss concerns and issues. DPRC Specialists, the Associate Director, and the Director are available for appointments.

Further Information
For more information, contact Disability Programs and Resource Center:
Phone: (415) 338–2472
Video Phone: (415) 335–7210
Email: dprc@sfsu.edu

Persons interested in visiting the office should come to the Student Services Building, Room 110.
Educational Outreach Programs and Services

Educational Opportunity Program

The Educational Opportunity Program (EOP) at SF State University has improved access and retention of historically underserved (low income, first generation college) students by facilitating their matriculation into SF State and by providing a support system for their success. EOP is a comprehensive program designed to provide students with outreach, admissions, academic, and financial support. Students receive on-going advising, tutoring, mentoring, and workshops designed to increase retention and graduation rates.

California residents and eligible AB540 students who meet the income eligibility index and are first-generation college students can apply for EOP during the Fall admissions cycle.

EOP Summer Bridge

The Summer Bridge Program is an eight-week non-residential academic program that facilitates the transition from high school to the university. Participants are provided with an opportunity to adjust to the university environment and are introduced to an extensive educational support service network. The program allows participants to formulate a strong sense of belonging and connectedness to EOP and the university.

Summer Bridge participants will have the opportunity to complete the Early Start Program requirements during the eight-week Summer Bridge Program.

After completing the Summer Bridge Program, participants will have developed practical study skills to enhance academic success and a working knowledge of the resources, services, and structure of the university community.

Contact Information:
Phone: (415) 338-1085
Email: eop@sfsu.edu
Website: www.sfsu.edu/~eop (http://www.sfsu.edu/%7Eeop)

Guardian Scholars Program

The Guardian Scholars Program (GSP) is a comprehensive program of the Educational Opportunity Program (EOP), in collaboration with the School of Social Work, which serves former foster care youth who are pursuing their undergraduate degrees.

Through advocacy, support and empowerment, the Guardian Scholars Program creates a vibrant community to engage current and former foster youth in attaining college degrees, stable housing, and career path employment. The program is committed to graduating and empowering these young people to become self-supporting community leaders and to become competent professionals in their fields of interest.

GSP Contact Information:
Phone: (415) 405–0546
Email: gsp@sfsu.edu
Website: www.sfsu.edu/~eop/gsp (http://www.sfsu.edu/%7Eeop/gsp)

Student Support Services (SSS)

Student Support Services (SSS) TRiO is a comprehensive program of the Educational Opportunity Program (EOP), and funded in part by the U.S. Department of Education. SSS was created to increase the retention and graduation rates of 160 low-income, first-generation college students and students with disabilities by attending mandatory weekly group tutoring, bi-weekly academic and career advising, monthly study skills workshops, and career and graduate school fairs.

SSS Contact Information:
Phone: (415) 338-2312
Email: sss_trio@sfsu.edu
Website: www.sfsu.edu/~eop/sss_trio (http://www.sfsu.edu/%7Eeop/sss_trio)

Mesa Engineering Program (MEP)

Students can find a strong base of support while pursuing their degrees in SF State's School of Engineering. This support came about to assist historically under-represented but motivated students who chose to major in engineering. The School of Engineering introduced the MESA Engineering Program (http://www.engineering.sfsu.edu/mepr) (MEP) in 1985.

MEP recruits and retains students in SF State's engineering program and provides career planning and assistance services. Throughout their studies, the women and men in the program receive academic support, and personal and academic counseling to keep them on track toward their degrees. Success in engineering requires strong foundations in algebra, geometry, trigonometry, pre-calculus, chemistry, and physics. The MEP is here to assist.

MEP helps participating students graduate and enter the job market with the skills and confidence they need to succeed as engineers. Often alumni professionals augment the program by serving as primary role models and mentors for students who are beginning to plan their futures.

Students are encouraged to apply for admission to the MEP program. Space, resources, and certain types of assistance may be limited; however, all students are encouraged to contact the MEP for information. All applicants must satisfy the general requirements for admission to SF State.

Metro College Success Program

About the Metro College Success Program

The Metro College Success Program (Metro) (https://metro.sfsu.edu) uses targeted outreach to support first-generation, low-income, and historically underrepresented students in their success at San Francisco State University. Each Metro is a learning community with personalized in-class academic support, advising and tutoring.

Why Metro?

Adjusting to college can be challenging. Learning in a small, supportive community of students and faculty can help you thrive throughout your first two years. Metro's goal is to help you graduate in a timely manner and gain the skills you need to succeed in college and find a meaningful career.

177
A Learning Community for the First Two Years of College

The Metro College Success Program (Metro) was developed to support the next generation of leaders in urban communities. Each Metro academy is a ‘school within a school’ to give you an educational home in your first two years of college. Metro gives you personalized support for college success through in-class academic support and tutoring. At the core of Metro is a learning cohort made up of two linked courses each semester, pairing a general education course and a Metro course. In Metro, you will build a solid foundation for college success and meaningful work in a variety of careers.

Who Can Apply to Metro

First- and second-semester freshman who are able to attend full-time are eligible to submit a Metro application. High school seniors accepted to SF State are also eligible to apply. AB 540/undocumented students are encouraged to apply.

Find out more about Metro and how to apply here (http://metro.sfsu.edu). Students can also inquire about the program in HSS 301 or call (415) 338–3034.

Metro themes provide exposure to a variety of majors

Metro students are grouped in communities to prepare for a variety of majors and fields of interest. Metro has academies with the following fields of interest, with an academy in each college at SF State. Metro also welcomes students who have not yet declared a major or with any field of interest outside of those listed below.

- Business
- Child and Adolescent Development (CAD)
- Education
- Engineering
- Ethnic Studies
- Health
- Liberal and Creative Arts
- Science

Step to College

The Step to College (STC) Program is a collaborative effort among high schools and the Colleges of Education and Ethnic Studies. STC students are high school seniors who take courses in critical thinking skills, computer skills, and other college preparatory courses for which they receive up to 12 units of transferable credit. The courses are taught by SF State faculty who familiarize students with the format and structure of university courses. Students who participate in the program also receive help filling out university applications for admissions and financial aid, and when possible, scholarship support.

Step to College increases the high school graduation rates of disadvantaged minority students, helps them make a successful transition to higher education, and increases the college/university retention rates.

Student Outreach Services

Student Outreach Services serves as university liaison with other educational institutions and agencies, teachers, counselors, parents, and prospective students. It disseminates information concerning admissions, majors, programs, policies, and procedures. It conducts pre-admissions sessions during high school and community college visitations.

Among other responsibilities, the office participates in educational equity projects, facilitates the EOP application process, and coordinates the operation of the overall university outreach program.

Contact Us
Phone: (415) 338–2355
Email: outreach@sfsu.edu

Veterans Benefits

Veterans, dependents of veterans, reservists, and active duty military personnel planning to use their veterans educational benefits, or any student with questions concerning veterans benefits, should contact the Veterans Certification Desk – Phone: (415) 338-2336.

Fitness and Wellness Opportunities

Campus Recreation

All San Francisco State University Faculty and Staff are eligible to purchase a membership with the Campus Recreation Department. We provide a variety of fitness, health, and wellness opportunities throughout the year, enabling members to live more healthy, balanced and active lives. We strive to create positive and supportive exercise environments that empower positive lifestyle changes. The General Membership grants you access to all specified Campus Recreation fitness, wellness, and aquatics activities as well as regular use of all Campus Recreation Facilities. The Senior membership is available to any member sixty years of age or older and has the same privileges as the General Membership at a discounted rate. The Aquatic Membership grants you access to all activities and classes in the pool area only. If you have questions about the program, please contact the Campus Recreation Main Office by email at recsfsu@sfsu.edu or phone (415) 405–4328. Please also visit our website for more information sfsu.edu/~recsport (http://www.sfsu.edu/%7Erecsport).

For Fitness and Wellness Opportunities for Students, please visit Campus Recreation/Mashouf Wellness Center. (p. 168)

Village Fitness Center

The Village Fitness Center is an on-campus fitness center, professionally serving the faculty, staff, students and alumni of San Francisco State University. The Fitness Center offers convenient, high-quality facility with top-of-the-line equipment, knowledgeable fitness professionals and exclusive specialty classes in a spacious and stress-free environment.

Services include the health start program, personal/group training, group fitness classes and an online wellness portal. Hours include days, evenings and weekends. The Village Fitness Center is located at the Village at Centennial Square. For additional details and membership information call (415) 452–1010 or consult www.myvfc.com (http://www.myvfc.com)
Housing

The SF State University Housing program offers on-campus residential living to more than 5000 students, faculty and staff of San Francisco State University. Living within the campus community is the best way to experience our united passion for academic excellence, intellectual discovery, creative and critical inquiry, and educational equity.

First-Year Freshman Students

The Residence Halls, Mary Ward Hall and Mary Park Hall, are an ideal introduction to university life for first-year freshman students. Theme floors are available based on areas of interest. All of these double-occupancy rooms are furnished, with two community bathrooms per floor. Each bedroom is equipped with cable TV hookup and wired and wireless internet connections. On-site laundry is available in both buildings. A choice of both continuous and block meal plans is included in the fees.

The Towers at Centennial Square (TCS) offers double-occupancy Jr. Suites and one & two-bedroom apartments in double and triple occupancy. to first-year freshmen students who wish to live in designated Living Learning Communities. The Living Learning Communities bring together first-year freshman students who have similar academic interests. All units are fully furnished and include private bathrooms, cable TV hookup, and wired and wireless internet connections. All apartments include kitchenettes, living and dining room areas. The TCS has access to a 24-hour computer lab and on-site laundry. A choice of both continuous and block meal plans is included in the fees.

The Village at Centennial Square (VCS) offers two- and three-bedroom apartments in three buildings: A, B, and C. Double- and single-occupancy bedrooms are available. Each apartment is fully furnished and includes a kitchen, two bathrooms, cable TV hookup, landline telephone with voice mail, and both wired and wireless internet connections. A choice of both continuous and block meal plans is included in the fees.

Continuing Students, Transfer Students, and Graduate Students

University Park South (UPS), located across Holloway Avenue and Font Boulevard, is comprised of one, two, and three-bedroom townhomes. Single- and double-occupancy bedrooms are available in each shared apartment. Each apartment is fully furnished and includes a kitchen, bathroom, cable TV hookup, and both wired and wireless internet connections. Meal plans are not included in the cost but can be purchased through Residential Dining Services.

University Park North (UPN), located just north of campus and adjacent to the Stonestown Galleria, provides one, two and three-bedroom garden and tower apartments. Single- and double-occupancy bedrooms are available in each shared apartment. Furnished and unfurnished apartments include a kitchen, bathroom, cable TV hookup. Wired and wireless internet connections are only available in the furnished apartments. Meal plans are not included in the cost but can be purchased through Residential Dining Services.

Eligibility and Application Process

All SF State students enrolled in an academic program at the university and carrying a minimum of 12 units for undergraduates, nine units for graduate students, are eligible to live in the SF State University Housing Community.

The housing application process is separate from the university’s academic admission process. Housing applications are accepted on a first come, first-served basis. San Francisco State does not guarantee housing to newly admitted students. Due to high demand for housing spaces in San Francisco, the residence community fills quickly. We strongly advise students to complete a housing application before being admitted to the university.

Applications are available online at housing.sfsu.edu (http://housing.sfsu.edu).

Faculty and Staff Housing at University Park Apartments

Situated on 24 beautiful acres adjacent to the Stonestown Galleria shopping mall, University Park Apartments provides unfurnished apartments to SF State faculty and staff. The property boasts spectacular views of Lake Merced and the Pacific Ocean, and is only steps away from San Francisco State University’s main campus.

Applications for University Park Apartments are available by contacting the University Park Office.

Mailing address: 800 Font Blvd. / Physical address: 796 State Drive
San Francisco, CA 94132
Telephone (415) 405-4000
Email: univpark@sfsu.edu
Website: univpark.sfsu.edu (http://univpark.sfsu.edu)

Residential Dining Services

The SF State dining program is one of the best reasons to live on campus. Three dining facilities are available to students who have a residential meal plan. The main dining room, City Eats, offers eight formats of various menu selections. From grill station to toss made-to-order salad station to Asian stir-fried station to hot vegetarian and vegan entrees, residential dining services offer a wide depth of selections for all tastes and preferences. Café in the Park (in Mary Park Hall) offers smoothies, coffee drinks, and breakfast-style sandwiches and salads. The Bricks (in Mary Ward Hall) serves pizza, pasta, and other Italian cuisine. Voluntary meal plans are available for students, faculty, and staff who do not have a meal plan included in their housing fees. For more detailed information, please visit sfstate.sodexo/myway.com (http://sfstate.sodexo/myway.com).

Off-Campus Housing Resources

The University Housing website offers extensive links to rental and roommate listings, descriptions of neighborhoods, contact information for apartment complexes, home-stay opportunities, and housing information for people with disabilities. Students, staff, and faculty members can post and retrieve information at housing.sfsu.edu/content/campus-resources (http://housing.sfsu.edu/content/campus-resources).

Information Resources: Library, Academic Technology and Information Technology
Academic Technology

Academic Technology (http://at.sfsu.edu) (AT) supports and advances effective learning, teaching, scholarship, and community service with technology.

Academic Technology Services (http://at.sfsu.edu)

Learning Technologies

Academic Technology develops, supports, and optimizes the campus suite of online and classroom learning technologies, which include the iLearn (http://ilearn.sfsu.edu) learning management system, CourseStream (http://at.sfsu.edu/blog/coursestream) lecture capture, Zoom (https://sfsu.zoom.us) video conferencing, Labspace (http://at.sfsu.edu/blog/labspace) virtual software lab, iClickers (http://at.sfsu.edu/blog/iClickers), ePortfolio (http://eportfolio.sfsu.edu), Student Evaluations of Teaching Effectiveness (https://at.sfsu.edu/blog/student-evaluations-teaching-effectiveness-sete), the DIVA (https://diva.sfu.edu) media repository, and others.

Teaching & Learning

Faculty are invited to explore new teaching strategies and engage with colleagues by participating in a range of instructional design (https://at.sfsu.edu/blog/post/1399) consults and faculty development events (https://at.sfsu.edu/blog/events) in support of all course modalities, including face-to-face, technology-enhanced, hybrid, HyFlex and fully online. SF State’s ePortfolios initiative (http://eportfolios.sfsu.edu) and CSU sponsored Course Redesign with Technology (https://at.sfsu.edu/blog/post/1280), Quality Online Learning & Teaching (http://qolt.sfsu.edu), and Affordable Learning initiatives (http://affordablelearning.sfsu.edu) that promote student success are coordinated within Academic Technology.

Learning Space Design & Installation

Academic Technology designs, installs, and maintains the audiovisual classroom technologies (https://at.sfsu.edu/blog/post/1277) for more than 300 learning spaces (https://at.sfsu.edu/classroom/databases_tutorials) across campus, and manages the campus cablecast system that delivers media to all instructional classrooms. To keep up with an ever-changing technological landscape, Academic Technology is working its way across campus to install and upgrade reliable and user-friendly classroom interfaces and technologies to improve the faculty and student experience.

Media & Classroom Support

A full-service media & equipment checkout service, this area provides classroom equipment trainings and in-room troubleshooting for faculty teaching across the span of early morning to late evening class schedules. Loaner equipment includes laptops, projectors, speakers, cable connections, document cameras, and lots more. Our classroom database (http://at.sfsu.edu/classroom/databases_tutorials) lists the technology in each enhanced classroom and offers tutorials, too.

Videography

Academic Technology’s video production team helps faculty create polished and professional videos and photos for instructional and research purposes. In the studio, faculty can record audio, stage video shoots, or create innovative class presentations using our Learning Glass technology. Academic Technology supports institutional events such as Commencement (http://commencement.sfsu.edu) and Welcome Days (http://www.sfsu.edu/~welcome) and manages SF State’s official YouTube channel (https://www.youtube.com/user/sanfranciscostate), which showcases the high quality media produced by this team.

Desktop and IT Support

Faculty and staff in Academic Affairs administrative units, the College of Business, the College of Ethnic Studies, the College of Liberal and Creative Arts, and other select units, receive endpoint management, general IT support, and consultation.

User Support:

- iLearn Services: Faculty and students have 5 ways to get help: visit Lib 220, call (415) 405-5555, email ilearn@sfsu.edu, chat within every iLearn class, or SMS (510) 5-ILEARN for support with any of our online systems and technologies.
- Media & Classroom Support: Faculty can come to Lib 85, call (415) 338-1494, or email avhelp@sfsu.edu for classroom and equipment support. Students can also check out media at this location.
- Teaching & Learning (http://at.sfsu.edu/blog/teaching): Faculty can come to Lib 240, call (415) 405-5550, or email iTeach@sfsu.edu for group or one-on-one consultations on course design and teaching strategies. Can’t come to campus? Schedule a virtual consult via our easy-to-use Zoom video conferencing system.

Please visit our website (http://at.sfsu.edu) to learn how Academic Technology makes support happen!

Information Technology Services

Website: its.sfsu.edu (http://its.sfsu.edu)
Office: Administration 110
Phone: (415) 338–1420

Information Technology Services (ITS) advances the mission of SF State by providing reliable and secure enterprise-wide applications and infrastructure to support SF State’s long-standing commitments to teaching, learning, and social justice.

There are seven core areas of service within ITS:

Service Desk

A single point of contact for all issues, problems, or questions related to technology services and computing at SF State. One can seek assistance by submitting a Service Request Ticket, via email, or walk-in. The Service Desk is located in the Administration Building (ADM) 110 and is open between the hours of 8:00 a.m. to 5:00 p.m., Monday thru Friday.

Enterprise Applications

Implement and maintain enterprise business applications including Campus Solutions, Common Financial Systems (CFS), and Human Resources Management System (HRMS).

IT Physical Planning and Development

Provide Internet, video, voice, and technology support to the students, faculty, and staff who live in campus housing.

Web and Mobile

Design and develop campus websites and applications, support and maintain a robust Drupal-based content management platform, and develop the SF State Mobile App.
Network and Telecommunications
Manage the university’s network and telecommunications infrastructure, including wireless and wired services and the university’s phone system.

Systems
Provide the technology infrastructure that is key to running campus technology services, maintain the campus servers and data center, and support identity and access management.

Information Security
Oversees SF State’s efforts to protect its computing and information assets and to comply with information-related laws, regulations, and policies. The University Information Security Officer (ISO) provides information security training, evaluations, and best practice recommendations for the campus network and community. In addition to these services, the ISO also coordinates the university’s information security incident response. To learn more, please visit the Reporting an IT Security Incident or Vulnerability webpage.

The J. Paul Leonard Library
Website: library.sfsu.edu (http://www.library.sfsu.edu)

The mission of the J. Paul Leonard Library (JPLL) is to empower its university constituency with lifelong learning skills to identify, find, evaluate, use, and communicate information in promotion of excellence in scholarship, knowledge, and understanding. To fulfill its mission within the context of the missions of San Francisco State University (SF State) and the California State University (CSU) system, the library is committed to the following goals:

- Collaborating with departmental faculty in incorporating information competence into the curriculum to ensure that all SF State graduates are competent in locating, retrieving, organizing, critically evaluating, analyzing, synthesizing, and communicating information in a cohesive, logical, and ethical manner;
- Creating a learning environment that promotes study, research, and scholarly interaction in the context of a diverse campus community;
- Supporting excellent teaching and learning by providing equally for all university constituents on-site and remote access to relevant materials in support of the curriculum in any format, whether owned by or at JPLL or elsewhere;
- Encouraging through collections and access exploration of the broadest spectrum of viewpoints, constructs, cultures, beliefs, and methodologies;
- Evaluating, selecting, and teaching information sources and search strategies relevant to the SF State curriculum;
- Providing leadership to the University community in exploring and incorporating changing information technologies and formats;
- Supporting an understanding and appreciation of diversity through collections, programs, and instruction; and through recruitment and retention of diverse faculty and staff;
- Preserving cultural heritage through unique primary source materials;
- Promoting, supporting, and encouraging the transfer and sharing of information and knowledge within the broader community, and the sharing of intellectual and creative resources locally, regionally, and internationally.

The J. Paul Leonard Library collections number over four million items, including books, magazines and journals, electronic resources, government publications, microforms, media, computer software, and maps. Electronic resources include electronic full-text journals, e-books, streaming media, and databases used to locate journal articles and reference information. Information about these materials is accessible via the library’s online catalog and the Library’s website.

Computer stations on campus offer access to the Library’s online catalog, electronic resources and other information available on the Internet. Computers and quiet and group study areas are available to students during extended hours. Off-campus access to the library’s electronic resources is available to the campus community at any time using your SF State ID and password.

Americans with Disabilities Act (ADA) Compliance
The J. Paul Leonard Library building follows universal design principles.

Borrowing
Students may borrow from the library’s main collection and many of its specialized collections by presenting their OneCard (university identification card). Neither the card nor books borrowed on it may be transferred to another person. Loss of a student ID or change of address should be reported immediately to the library Book Checkout & Pickup desk and to the Registrar’s Office. Students from other CSU campuses may borrow books directly from the J. Paul Leonard Library if they present a current CSU identification card and register with JPLL to obtain a special borrower’s card.

Borrowing from Other Libraries
You may request items such as books, dissertations, and copies of journal articles not available at this library. Register for a Library PIN to use the LINK+ service; register for ILLiad for all other requests.

Collections
- Books: print and electronic books are accessible by using the Library catalog. Printed books are located in open shelving on the 3rd and 4th floors by call number, and in the Library Retrieval System (LRS). Request LRS titles online via the library catalog and pick up at the Book Checkout & Pickup desk on the 1st floor. Electronic books (eBooks) are linked from the book’s record in the Library catalog.
- Government Publications: the Library is a selective government depository housing federal, state, international, and local government publications. Most government publications are included in the Library catalog. For electronic sources, check the Library website under Find Government Information.
- Magazines & Journals: most of the Library’s collection of magazines and journals are available electronically using the Library website. Printed magazines and journals published within the past two years are located on open shelves on the 3rd floor. Bound journals are available from the Library Retrieval System. Ask at Research Assistance for help in identifying how to locate a magazine or journal article.

Computers & Printing
- Study Commons: Large study area on the ground floor with Mac and Windows PCs, color and black & white printing, group study rooms, and quiet study room. Open extended hours during fall and spring
semesters. Available for use by SF State faculty, students and staff only.

- Research Commons: Large study area on the first floor with Mac and Windows PCs, color and black & white printing, laptop checkout, group study rooms, and quiet study room. Open extended hours during fall and spring semesters, and winter and summer sessions.
- Digital Media Studio and Maker Space: high-end computer lab on the second floor supporting digital media creation with specialized hardware and software, 3D printers, a 3D scanner, electronics tinkering kits from LittleBits and Arduino, scanners for large documents and images and a large-format poster printer.

**Friends of the J. Paul Leonard Library**
Established in 1980 to promote the love of books, strengthen relationships between the University and the community, and to raise funds beyond those available in the regular budget for library services. Membership is open to SF State students, faculty, staff, and community adults. Privileges include borrowing books and use of many library services. The Friends maintain a Booksale Room and accept used books and other donations.

**Research Assistance**
The Library provides research assistance in person, by phone, email, and via instant/text message. At the Information and Research Assistance service points, library faculty and staff offer advice on library research and assistance using library resources. Appointments may be made with subject specialists for research advice on term papers and similar projects. The Library also offers research workshops for classes at the request of instructors, and online research guides and short video tutorials for those who prefer to explore research help on their own.

**Media & Classroom Support**
Provides access to the University's media collection such as videotapes, compact discs, audiotapes, and computer software.

**Media Viewing & Listening**
View or listen to your own media or items from our collections. Listen to LPs, CDs, and tapes on the 1st Floor near the Book Checkout & Pickup Desk. Watch DVDs, BluRay, and VHS tapes on the 2nd Floor in the group study area.

**Reserve Materials**
The Reserve collection provides materials in high demand for assigned readings in courses. Articles and other short readings are available through links on course pages in Ilearn. Print, media, and other materials on reserve are available at the Library’s Book Checkout & Pickup desk.

**Special Collections & Archives**

**University Archives & Historic Collections**
University Archives & Historic Collections houses archival material about the history of San Francisco State University, the Archer Collection of Historic Children’s Books, the Willie L. Brown, Jr. Archive, the Paul K. Longmore Papers, and other rare or unusual materials.

**San Francisco Bay Area Television Archive**
The Bay Area Television Archive’s local news film and documentary collections dramatize San Francisco’s social revolutions throughout the 1960s and 70s and much of the material can be viewed online from the Library’s website.

**The Frank V. de Bellis Collection**
The Frank V. de Bellis Collection of the California State University is a library-museum representing the civilization of ancient and modern Italy, particularly in the areas of history, literature, fine arts, and music. Holdings include rare books, music scores, archival sound recordings, manuscripts, periodicals, microfilms, art prints, artifacts, and coins.

**The Labor Archives and Research Center**
The Labor Archives and Research Center collects, organizes, preserves, and makes accessible the records documenting the lives of working men and women and their labor organizations in the Bay Area.

**The Sutro Library**
The Sutro Library, a branch of the California State Library, is open to all citizens of California and includes over 140,000 volumes and 40,000 historical pamphlets. Among its collection strengths are natural history, Mexicana, Shakespeareana, records of the Pacific voyages of discovery, the history of printing, genealogy, and local history.

More information about the library, including descriptions of services and policies, is available via the library website: library.sfsu.edu (http://library.sfsu.edu).

**Military Studies**
San Francisco State students may enroll in military studies (ROTC) classes. SF State students who are approved to attend ROTC courses held at University of San Francisco (USF) and University of California, Berkeley (UCB) do so via Consortium Enrollment (http://bulletin.sfsu.edu/resources/special-enrollment-programs) and UCB Cross Registration Programs (http://bulletin.sfsu.edu/resources/special-enrollment-programs). For specific information contact:

Office of International Programs

The Office of International Programs (OIP) is the principal office on campus designated to respond to the diverse needs of the campus community with respect to international education. Prospective and matriculated international students, SF State students wishing to study abroad, visiting scholars and students, and international alumni are all served by this office.

OIP has a professional, multi-lingual staff that provide a range of services and programs to assist students, faculty, and staff in realizing their respective goals in international education. The staff is well informed about community programs, resources, cross-cultural issues, student/scholar regulations, and are dedicated to assisting international students and scholars in making their stay at SF State as rewarding as possible. OIP is open year-round and welcomes members of the campus community to visit our office or our home page on the web (oip.sfsu.edu). The office maintains an extensive Study Abroad Resource Center with information on work and study opportunities overseas. Appointments may be made to speak with any of our advising staff.

For more information, contact OIP
Phone: (415) 338-1293
Fax: (415) 338-6234
Email (general information): oip@sfsu.edu
Email (study abroad information): studyabroad@oip.sfsu.edu

International Student Outreach

OIP oversees the university's international student recruitment, outreach services, and activities. The office is responsible for responding to the thousands of inquiries received from prospective international students each year. Pre-admission, transfer advising, and admission follow-ups are provided by OIP's international student advisers. The advisers work closely with international student counselors and transfer centers at California's community colleges/high schools and provide on-site advising and workshops to transferring international students. OIP serves as a liaison with U.S. advising centers overseas, Fulbright Commission offices, foreign universities, and educational organizations concerned with providing academic advising and placement services to prospective international students worldwide.

International Student Services

OIP also assists the university's many F-1 and J-1 visa international students and scholars in adjusting to life at SFSU, the San Francisco Bay Area, and the United States. At the beginning of each semester, OIP conducts extensive orientation programs for new international students and scholars. In addition, the office provides advice concerning immigration and visa matters, cultural adjustment, academic matters, personal and financial counseling, and employment regulations. Furthermore, OIP conducts various workshops during the academic year on topics of special interest to international students and scholars and organizes a variety of social, cultural, educational, and recreational activities designed to help familiarize international students and scholars with life in the U.S.

Study Abroad and International Exchange Programs

OIP provides information and advisement on the two officially sanctioned study abroad programs: The California State University International Programs (IP) and the bilateral exchange programs between SF State and selected foreign universities. The CSU-IP program is affiliated with more than 70 recognized universities and institutions of higher education in nineteen countries: Australia, Canada, Chile, China, Denmark, France, Germany, Ghana, Israel, Italy, Japan, Korea, Mexico, New Zealand, South Africa, Spain, Sweden, Taiwan, and the United Kingdom (see California State University International Programs (p. 189) section of this Bulletin). SF State has established bilateral exchange agreements with universities in Argentina, Australia, Brazil, Canada, China, Czech Republic, Denmark, France, Germany, Hong Kong, Hungary, Ireland, Japan, Korea, the Netherlands, the Philippines, Spain, Sweden, Taiwan, and the United Kingdom (including Wales) (see San Francisco State University Bilateral Programs (p. 189) section of this Bulletin). These programs allow students from any academic major to make progress towards their SF State degree, earning CSU/SF State resident credits, while enhancing their academic program with an overseas experience. Financial aid applies, and, since participating students in either program are still enrolled at SF State, they pay only their regular SF State tuition and fees. Information workshops are offered throughout each semester. In addition, OIP maintains a Study Abroad Resource Center which contains information on other independent, non-CSU administered study abroad programs, and materials covering a variety of study, travel, and work abroad related topics such as financial resources, teaching and internships, gay and lesbian resources, resources for students with disabilities, women's concerns, students of color issues, volunteer programs, safety and health issues, transportation, and home-stays and housing information, to name a few. OIP also sponsors an annual Study/Work/Travel Abroad Fair every fall semester, and serves as the advisory office for a variety of scholarships which relate directly to the certified CSU and SF State study abroad programs.

Note: For SF State students wishing to participate in non-certified, "outside," or vendor, study abroad programs, standard evaluation procedure for transfer credit applies. Nonresident credit can be awarded, and pre-approval of transfer credits cannot be guaranteed prior to actual transcript evaluation. Students are recommended to consult OIP for more information, and advisement of applicable conditions, before participation in non-certified study abroad programs.

Dedicated to supporting international exchange, OIP jointly facilitates the international scholarly movement of faculty to and from SF State. OIP assists in bringing visiting scholars to the campus through a variety of services, including orientation and advising on immigration and personal matters after their arrival. OIP is the only office authorized to issue immigration documentation to enable these scholars to come to SF State on J-1 visas. OIP also assists SF State faculty members who seek to engage in scholarly activities overseas, such as the Fulbright Scholar program, and advises departments who wish to establish bilateral exchange programs designed for the needs of students in a certain academic discipline.

International Track

Students may enhance their course of study by participating in the Study Abroad programs through the International Track option in many departments. International Track students follow a particular course of study in which the participating department integrates overseas courses
from the host university with the course requirements in the major at SF State. All official SF State Study Abroad students earn resident credit, and may use SF State financial aid while participating in the program. For more information and a list of participating International Track Departments please visit www.sfsu.edu/~studyabr (http://www.sfsu.edu/~studyabr)

**Immigration Requirements for Licensure**

For immigration requirements for licensure see Regulations and Procedures - Additional (p. 162).

**Literary, Performing, Visual, and Media Arts**

San Francisco State University offers unparalleled opportunities for students to experience and participate in the literary, performing, visual and media arts as part of the curriculum. Through curricular involvement, students gain practical experience in all avenues of the arts by producing and starring in events open to the general public.

Each semester the College of Liberal & Creative Arts features an innovative program of events and exhibitions showcasing the immense talent among students and faculty in the literary, visual, media and performing arts. Presentations include recitals, concerts, plays and operas, poetry readings, dance productions, exhibitions, film and video screenings, symposia, lectures, workshops, master classes and many collaborations with professionals.

Student-produced radio and television programs are broadcast on Bay Area cable and online from the college’s studios. Student work in Art, Film, and Design is on exhibit throughout the year. The Fine Arts Gallery showcases two professional and two student exhibitions each year, the former often featuring rarely seen work by a diverse range of well-known artists. Students in the Exhibition Design class are responsible for installing and promoting all Fine Arts Gallery shows. Theatre Arts produces two mainstage plays each semester, in addition to smaller productions on a thrust stage and weekly lunchtime productions of the Brown Bag Theatre Company, performed in a black-box space.

Regularly scheduled music recitals and concerts feature students and world-class guest artists, some made possible, in part, through a gift provided by the May Treat Morrison Chamber Music Foundation. The Poetry Center, housed in the Creative Writing Department, hosts readings and workshops with renowned writers and translators throughout the year.

The College of Liberal & Creative Arts serves as the most diverse and vital catalyst for artistic creativity and career success in Northern California. The majority of the public events come from eight academic programs: Art, Broadcast and Electronic Communication Arts, Cinema, Creative Writing, Design, Music, and Theatre Arts and Dance. Special facilities include five theatres and concert halls, two art galleries, radio and television studios, dance studios, computer laboratories, an electronic music laboratory, a film shooting stage, an automatic dialog replacement studio, Foley and other post-production areas.

Most events are admission-free. For ticketed events, discounts for students, senior citizens, faculty, and staff are available. For more information, visit the Creative State website (http://creativestate.sfsu.edu) or call the Box Office at (415) 338-2467.
Research and Special Learning Facilities

The Global Museum

Website: http://museum.sfsu.edu/content/global-museum

Established in 2014, the Global Museum is a research unit of the School of Art in the College of Liberal and Creative Arts and serves as an academic resource and exhibition hub for the University and surrounding community. Our new facility opens in the Fine Arts Building in 2017. Our permanent collection includes cultural and ethnographic artifacts from Africa, the Americas, Asia, Egypt, and Oceania, spanning a time period covering the ancient world to the 20th century.

The mission of the Global Museum is to serve as a responsible steward of cultural heritage and to be a place of scholarship, community, and engagement. We want to create experiences that foster lifelong learning and collaboration with and among diverse communities, and that encourage reflection about global society and our common humanity. Museum activities are closely integrated with the major and minor programs in Museum Studies, providing hands-on, real-world experiences with authentic objects, and opportunities in community-service based learning in the following courses:

- M S 201 Introduction to the History and Development of Museums
- M S 202 Introduction to Museum Exhibits
- M S 310 Introduction to Museum Education Methods and Community Engagement
- M S 681 Museum Studies Lab
- M S 710 Museum Education and School Outreach
- M S 720 Museum Curatorship and Collecting
- M S 730 Museum Exhibition Planning and Design
- M S 740 Museum Conservation and Restoration
- M S 760 Preservation of Natural History and Cultural Collections
- M S 810 Museums in the Digital Age
- M S 850 Museum Volunteer Management and Membership
- M S 888 Project Management for Museums

Visiting scholars, Bay Area students, and faculty may also use our collection for study and research. For more information, visit the Global Museum’s webpage: http://museum.sfsu.edu/content/global-museum.

American Language Institute

The American Language Institute (ALI) is SF State’s intensive English program for non-matriculated students. The majority of ALI students are international students preparing to enter San Francisco State or another American college or university. ALI provides a full-time, academically focused curriculum in English as a Second Language that gives students both the language and strategies necessary for academic success in the United States. There are five levels of instruction ranging from low intermediate to advanced. Students must enroll for a full session (12 weeks in the fall and spring, 10 weeks in the summer), which involves 22 hours per week of classroom instruction. Students are expected to regularly attend classes and maintain good academic standing to continue in the program. Part-time study is not permitted. All applicants must be graduates of a recognized high school or secondary school.

Located on the main campus, the ALI is a program in SF State’s College of Extended Learning.

In addition to language instruction, the ALI offers a variety of student services, including assistance with cultural adjustment, immigration advice, and a regular program of social and cultural activities. The ALI also provides special benefits to its students who wish to attend undergraduate programs at SF State: ALI students may meet the university’s English proficiency requirement through successful completion of particular levels of the ALI program and may also take advantage of special application deadlines.

Furthermore, the ALI serves as a training institute for selected students in the SF State English Department’s Master of Arts in English: Concentration in Teaching English to Speakers of Other Languages (TESOL). Following an intense semester of training, those graduate students become instructors in the ALI under the supervision of the full-time, permanent ALI staff.

For further information about ALI programs and future session dates, please contact the American Language Institute.

The office is located in HUM 101
Phone (415) 338-1438
Email: ali@sfsu.edu
Website: ali.sfsu.edu (http://ali.sfsu.edu)

The Geography & Environment Map Library

The Geography Map Library offers the University and the San Francisco community a unique and varied collection of maps. The Map Library aids faculty and students in the selection of maps that best fit their needs in the classroom and research.

The collection maintained by the Map Library includes the University’s Wall Map Collection, a regional flat map collection with world coverage, the AMS Series for Southeast Asia and a diverse collection of maps of California and the San Francisco Bay Region.

The Map Library also functions as an Official USGS Map Depository for the Western States Region. The Map Library houses a collection of nearly three thousand of the latest USGS Topographic Quadrangles for California, Oregon, Washington, Idaho, Nevada, Utah, Arizona, New Mexico, Hawaii, and Alaska. These collections are open to the public during the regular business hours of the Map Library, located in HSS 289.
Centers and Institutes in the College of Business

Center for Ethical & Sustainable Business
The Center for Ethical and Sustainable Business (CESB) was launched in the College of Business in 2011, with founding faculty members seeking to integrate ethics, corporate social responsibility, and environmental sustainability beyond the classroom for undergraduate and graduate business students, faculty, and the Bay Area business community.

Vision
The vision for the Center for Ethical and Sustainable Business is to be the Bay Area epicenter for integrating ethical, environmental and social sustainability business practices through engagement between San Francisco State University’s College of Business students and Bay Area businesses.

The University’s longstanding commitment to educate students about equity and social justice aligns CESB’s vision towards its mission to hone best practices in business integrity, social impact, and environmental sustainability through business leader presence on campus, business funding support for students’ CESB vision-related projects, and developing CESB learning and research communities for students and faculty.

Educational Programs
- MBA Emphasis in Ethics and Compliance (https://cob.sfsu.edu/graduate-programs/ethics-compliance-emphasis)
- MBA Concentration in Sustainable Business (https://cob.sfsu.edu/graduate-programs/sustainable-business-emphasis)
- Business Certificate in Ethics & Compliance (https://cob.sfsu.edu/graduate-programs/ethics-compliance-certificate)

The Marian Wright Edelman Institute for the Study of Children, Youth and Families
The Marian Wright Edelman Institute for the Study of Children, Youth, and Families at San Francisco State University brings together faculty, community members, and students to address the ever-changing needs of children, youth, and families. The institute serves as a powerful tool for outreach, advocacy, and research. The mission of the institute is:

- To promote collaboration among faculty, and to create public outreach, advocacy, and other partnerships between SF State and the community.
- To promote and facilitate community outreach and partnerships with individuals, agencies, and institutions to improve the quality of life for children, youth, and families through education, social services, and health delivery projects.
- To foster research and scholarly work.
- The University’s long, productive history of attracting grants and contracts for the study of children, youth, and families has included funding from government agencies and private foundations. Through innovative partnerships between the community and the University, and by bringing together SF State colleges and departments, the institute enhances San Francisco State’s prospects for continuing creative research and civic engagement.

For further information about the Institute, contact the Institute office at (415) 405–3925. Location: HSS 258

Center for Integration and Improvement of Journalism
Founded at San Francisco State University in 1990 by former Department of Journalism Chair Betty Medsger, the Center for Integration and Improvement of Journalism believes that accurate and responsible journalism reflects the changing demographics of the society it serves. The center develops programs and conducts research aimed at recruiting, retaining, and revitalizing journalists and journalism education. It seeks to make journalism more inclusive from the classroom to the newsroom.

CIJ does this by connecting youth, University students, and professional journalists in efforts to reach common goals. CIJ works with local community colleges to increase transfer rates and collaborates with the Journalism Association of Community Colleges to increase interest in journalism careers. In addition to annual summer journalism workshops for Bay Area high school students, school visits, and high school fairs, CIJ also coordinates a Coaching Program, in which a broad network of professional journalists work with the department’s students on a weekly basis. CIJ coordinates a job fair and a number of other career services for SF State’s and other college and University journalism students.

CIJ’s major goals include:
- Increase ethnic diversity in the nation’s newsroom and in journalism education programs by developing innovative recruiting, training, and retention programs in the department.
- Improve students’ journalism skills and multicultural sensitivity so that they will excel in the multicultural newsroom.
- Conduct research about diversity and the news to benefit journalism students, educators, professionals, and the community.
- Create innovative programs that will reinforce existing high school journalism programs or replace those that have been lost; address declining writing skills, meet the special needs of bilingual/bicultural students and other under-served or under-represented groups.

CIJ is the nation’s most recognized University-level institute that addresses the complex issues confronting the news media in serving, covering, and reflecting an increasingly diverse American society. Expanded research on media coverage of ethnic communities, new efforts to track students’ progress and retention, plans to strengthen the Bay Area’s community and ethnic press, and new training for high school journalism advisers rounds out its sweeping approach to achieving diversity in news media.

CIJ is funded entirely by SF State and private grants, primarily from the Ethics and Excellence in Journalism Foundation, the Ford Foundation, the McCormick Foundation, the Miranda Lux Foundation and the New York Times Company Foundation. CIJ plays a critical role at this point in U.S. history. The twenty-first century compels news organizations to understand issues of immigration; demographic and lifestyle trends; and social, political, and economic pressures. These issues have combined to make diversity an overriding concern for the news media in everything from the integration of the staffs of newsrooms to the integration of the content of news pages and broadcasts. CIJ hopes to help the news
media fulfill its important responsibilities as gatekeepers for information, ideas, and voices that help shape public opinion and policy.

**Center for Modern Greek Studies**

The purpose of the Center for Modern Greek Studies is to promote the study of Modern Greek language, literature, and history in relation to the ancient Greek and Byzantine civilizations. The Center coordinates courses offered in Modern Greek Studies as well as cross-listings with the Departments of Anthropology, Classics, Comparative and World Literature, Creative Writing, English, and History, and offers an interdisciplinary minor in Modern Greek Studies.

Courses presently available include:

- **MGS 150 Modern Greek I**
- **MGS 151 Modern Greek II**
- **MGS/ANTH 316 Contemporary Culture of Greece**
- **MGS 365 Modern Greek III**
- **MGS 397/Greek American Literature**
- **ENG 398**
- **MGS 470 Modern Greek IV**
- **MGS/C W 497 Modern Greek Literature**
- **MGS 555 Introduction to Modern Greek Literary Texts**

The Center also presents an array of lectures, concerts, film festivals, and other events focusing on contemporary Greece and the Greek American experience. In connection with the Center, an endowed chair in Modern Greek Studies has been established, the Nikos Kazantzakis Chair, to provide support for curricular development and cultural programming. The Kazantzakis Chair is the only endowed professorship of Modern Greek literature in the California State University system and one of only several such academic chairs in the United States.

For information about the Center for Modern Greek Studies, please contact David Leitao, Interim Director

**HUM 377**

(415) 338–2068
Email: modgreek@sfsu.edu
Website: moderngreekstudies.sfsu.edu (http://moderngreekstudies.sfsu.edu).

**Moss Landing Marine Laboratories**

Moss Landing Marine Laboratories (MLML) hosts and administers an interdisciplinary Master of Science Degree in Marine Science for seven California State University (CSU) campuses: Fresno, East Bay, Sacramento, San Francisco, San Jose, Monterey Bay and Stanislaus. Although primarily a graduate program, MLML offers a range of courses for undergraduates as well. MLML courses are intended for students majoring in either the biological or physical sciences whose objectives include further graduate study, teaching the sciences, or conducting research in the marine sciences.

Juniors, seniors, and graduate students may take courses at MLML and receive credit toward their degrees at San Francisco State University. Please note that students must reserve space at MLML prior to registering at San Francisco State University; registration and course confirmation at the University alone does not assure the student of space at the laboratories. San Francisco State University students at Moss Landing Marine Laboratories must continue to follow University enrollment regulations and use San Francisco State University Marine Science course numbers.

MLML offers full-time course work in biological, chemical, physical, and geological oceanography, marine invertebrate zoology, marine birds and mammals, reptiles, ichthyology, physiology, and benthic ecology.

MLML maintains a full research library, a scientific diving program, a fleet of research vessels, and nearly 100,000 square feet of lab, office and classroom space. Internationally recognized affiliated researchers complement the interests of MLML faculty. More information can be found at www.mlml.calstate.edu (https://www.mlml.calstate.edu).

For additional information, please contact either the chair of the Biology Department or the chair of the Department of Earth & Climate Sciences at San Francisco State University or the Graduate Program Assistant at Moss Landing Marine Laboratories.

**The Poetry Center and American Poetry Archives**

The Poetry Center was founded in 1954 by a small donation from W. H. Auden (he surrendered the honorarium paid to him when he read his poetry to celebrate the opening of the new—and current—San Francisco State University campus). Today, The Poetry Center at SF State is one of the most long-lived and nationally renowned literary arts institutions in the United States. Having celebrated its 50th anniversary in 2004, the Poetry Center initiated its pioneering reading series under the direction of Ruth Witt-Diamant, with advice and encouragement from local poets Kenneth Rexroth, Robert Duncan, and Madeline Gleason among others. Since then, The Poetry Center has presented over one hundred continuous seasons of outstanding contemporary poets and writers, reading from their works. With its companion project, The American Poetry Archives, the Center has amassed nearly 3,000 original audio and video recordings of poets and writers reading from their works, representing an irreplaceable collective record of the past half-century of American literary accomplishment. The Poetry Center presents an extensive reading series, on and off campus, during Spring and Fall semesters. It houses a reading library (HUM 512), which doubles as performance space and Creative Writing student lounge. The Poetry Center is open to visitors, Monday through Thursday, and its recordings are available for sale, and for loan to SF State students, faculty, and staff. Offices located in HUM 511, phone (415) 338–2227. For archives recordings, please leave a message at (415) 338–1056. Website at poetry.sfsu.edu (http://poetry.sfsu.edu).

**Romberg Tiburon Center**

The Romberg Tiburon Center for Environmental Studies (RTC) is located on San Francisco Bay a few miles outside of the town of Tiburon in Marin County, approximately 25 miles north of the main campus. The 34-acre site is also the location of the Bay Conference Center which is operated by RTC.

The Romberg Tiburon Center was founded in 1978 to serve as a multidisciplinary instructional and research facility for the study of the natural environment of the San Francisco Bay and the central California coast. RTC provides a unique opportunity for faculty, students, and researchers of diverse disciplines to work together on regional and global environmental issues in areas of marine and estuarine science.
The Bay Conference Center (BCC) opened in 1987. Overlooking San Francisco Bay and the surrounding hills, it contains four meeting rooms, including a main room with seating for 140 people. University groups, government agencies, non-profit organizations, and private industry utilize the Bay Conference Center for meetings, educational programs, and conferences. The Ohrensall Guest Center opened in 2001 and provides short-term overnight lodging in a beautiful renovated Victorian-era home. Seven bedrooms are available for use by University guests, affiliates, and Bay Conference centerees.

Several University departments offer courses at the RTC each semester, including the summer term. Courses offered at RTC encompass the areas of benthic ecology, biological oceanography, limnology, marine conservation biology, marine microbial ecology, molecular tools in marine biology, fisheries biology, food web structures, physical oceanography, remote sensing and GIS, and restoration and wetlands ecology, in addition to others. Courses are offered at both the graduate and undergraduate levels, and opportunities exist for graduate research projects. Students should check the Class Schedule or call the center for information on course offerings.

San Francisco Bay National Estuarine Research Reserve (NERR) is a partnership among National Oceanic and Atmospheric Administration (NOAA), San Francisco State University, California State Parks, Solano Land Trust and the Bay Conservation and Development Commission. Its headquarter is also located in RTC. The San Francisco Bay NERR serves as a living laboratory for on-site staff, visiting scientists and graduate students. Since the inception of the nationwide NERR system, a main goal of the program has been to ensure a stable environment for research through long-term protection of reserve system resources. The reserves serve as platforms for long-term research and monitoring, as well as reference sites for comparative studies.

For information on RTC or BCC, see http://rtc.sfsu.edu or contact:

Administrative Assistant
Romberg Tiburon Center
3152 Paradise Drive
Tiburon, CA 94920
(415) 338-606
For information on SF Bay NERR, see http://www.sfbaynerr.org/ or contact the Administrative Coordinator (415) 338-3759.

**Sierra Nevada Field Campus**

The Sierra Nevada Field Campus provides a mountain forest setting for instruction and research in the environmental sciences and other creative disciplines. The field station is located adjacent to State Highway 49 on the North Fork of the Yuba River at an elevation of 1,675 meters. Facilities include two cabins and a dining hall on nine mostly forested acres within the Tahoe National Forest. Presently the facility supports a summer and weekend course and research program which utilizes a variety of vegetation types, landforms and aquatic habitats near the field station. Other unique sites occur within two hours drive, including Sierra Buttes, Sierra Valley, Gold Lakes Country, Mt. Lassen, Lake Tahoe, Pyramid Lake, Eagle Lake, and Mono Lake.

For information about courses, scheduling programs, and accommodations, please see www.sfsu.edu/~sierra/ (http://www.sfsu.edu/~7esierra) or write to:

Director

College of Science and Engineering
San Francisco State University
San Francisco, CA 94132
or
Sierra Nevada Field Campus
Star Route, Slateley, CA 96124.

**Special Enrollment Programs**

**The San Francisco Consortium**

The University is a member of the San Francisco Consortium; other member institutions are California College of Podiatric Medicine, City College of San Francisco, Cogswell College of Engineering, Golden Gate University, Hastings College of the Law, The University of San Francisco, and the University of California, San Francisco.

The Consortium program is only available during the regular sessions of the academic year and specifically excludes summer session, winter session, and extension. In addition, any regularly enrolled, full-time, matriculated student of a San Francisco Consortium member institution, in good standing, may register for credit in courses offered by other member institutions with the consent of both the home and host institution’s faculty advisor and registrar, on a space available basis.

Through the functions of the Consortium, a variety of increased and enhanced educational opportunities may be made available to full-time students, in good standing, of the member institutions. In addition, numerous cooperative projects directed toward various aspects of urban development and special programs in higher education may involve faculty of two or more member institutions. San Francisco State University students who have special needs or interests, which may be served through connections with one of the other Consortium institutions, should contact the

Registrar’s Office – One Stop Student Services Center
San Francisco State University
1600 Holloway Avenue
San Francisco, CA 94132

International students must verify full-time status with the Office of International Programs.

**Cross Registration Program: University of California, Berkeley**

The Cross Registration Program is only available during the regular sessions of the academic year and specifically excludes summer sessions, winter session, and extension. In addition,

- Cross registration is limited to one course per quarter/semester at UC, Berkeley only.
- Cross registration students must do late registration at the host institution.
- If the student drops the course prior to completion, it is the student’s responsibility to notify both the host and home registrars and to fill out appropriate forms to avoid the recording of a “failure.”
- Grades are reported by the host institution directly to the Registrar’s Office of the home institution. It is the student’s responsibility to make sure the credits have been incorporated into the official records of the home institution.
• In some cases, the host institution may charge tuition.

Cross Registration Conditions
The following conditions must be met before a student may register for credit at another member institution and have the credit accepted toward fulfilling graduation requirements.

• The student is matriculated, in good standing, and currently enrolled in a full-time degree program.
• The desired course is not offered at the home institution.
• The student has the agreement of the faculty advisor or department chair, has satisfied any prerequisites, and is acceptable to the host institution, presuming space is available.

Cross Registration Procedures
• Cross Registration Application Forms are available at each Registrar’s Office.
• Obtain the signature of the faculty advisor or department chair and the Registrar on the completed form.
• According to the time schedule for registration at the host institution, hand carry the Cross Registration Application form to the host campus’ Registrar’s Office for signature. The Registrar keeps a host copy.
• Pay any tuition, laboratory, or special fees charged by the host institution.
• Return the original to the Registrar’s Office at the home campus and retain a student copy for your files.
• International students need to verify full-time status with the Office of International Programs.

CSU Intrasystem and Intersystem Enrollment Programs

Students enrolled at any CSU campus have access to courses at other CSU campuses on a space available basis unless those campuses or programs are impacted or admission to the desired program or admission categories are closed. This access is offered without students being required to be formally admitted to the host campus and sometimes without paying additional fees. Although courses taken on any CSU campus will transfer to the student’s home CSU campus as elective credit, students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California community colleges. Applications and additional information about these programs are available from the Registrar’s Office.

CSU Concurrent Enrollment Program
• Matriculated students, in good standing, may enroll on a space available basis at both their home CSU campus and a host CSU campus during the same term.
• Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript, as resident credit, at the home campus.
• It is the student’s responsibility to make sure the credits have been incorporated into the official records of the home institution.

• This program is only available during the regular sessions of the academic year and specifically excludes summer session, winter session, and extension.
• International students need to verify full-time status with the Office of International Programs.

CSU Visitor Enrollment Program
• Matriculated students, in good standing, enrolled at one CSU campus may enroll on a space available basis at another CSU campus for one term.
• Credit earned at the host campus is reported at the student’s request to the home campus to be included on the student’s transcript, as resident credit, at the home campus.
• It is the student’s responsibility to make sure the credits have been incorporated into the official records of the home institution.
• This program is available during the regular sessions of the academic year and summer sessions, as available at the particular CSU campus, and may specifically exclude winter session and extension.
• The Visitor Enrollment Program is not available to international students (an F or J visa).

Intersystem Cross Enrollment Program

This program is for enrollment for undergraduate students between CSU and the University of California or California community colleges. Applications and additional information about these programs are available from the Registrar’s Office. The Cross Enrollment Program is only available during the regular sessions of the academic year and specifically excludes summer session, winter session, and extension. In addition,

• Matriculated CSU, UC, or community college students, in good standing, may enroll on a “space available” basis for one baccalaureate course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.
• It is the student’s responsibility to make sure the credits have been incorporated into the official records of the home institution.
• International students need to verify full-time status with the Office of International Programs.

The California State University International Programs

In addition to the opportunity to participate in the CSU International Programs, there is also the opportunity to study abroad through the 53 universities located in twenty-two countries with whom SF State has signed special agreements. These agreements call for an equal exchange of students going both ways with students wishing to study at San Francisco State University from a participating university overseas and students from San Francisco State who wish to study abroad in the host university at which the other student is enrolled. Some of these programs are also college or department specific.

Some of the SF State Bilateral Exchange Partner Institutions include:

Argentina – Belgrano University (BECA, Business, Economics, Engineering, Hospitality and Tourism Management, Journalism, Psychology, and others).
Australia – Deakin University (Health and Nutrition Sciences, Psychology, and others), International College of Management, Sydney (Hospitality and Tourism Management), Swinburne University (BECA, Cinema, and Design and Industry), University of Technology, Sydney (Apparel Design and Merchandising, BECA, Cinema, Journalism, Holistic Health, Interior Design, and others).

Austria – MODUL University (Hospitality and Tourism Management).

Canada – Concordia University (most academic areas).

China – City University of Hong Kong (Business, Social Sciences, and Humanities), Hong Kong Polytechnic University (Hospitality and Tourism Management), and Shanghai Normal University (Cinema).

Czech Republic – University of Economics, Prague (MBA, Business, Economics and International Relations).

Denmark – Aarhus School of Business (MBA, Business and Communication Studies), Danish School of Media and Journalism (BECA and Journalism), and the University of Aarhus (Humanities and Social Sciences).

Finland – Lappeenranta University of Technology (MBA and Business).

France – SKEMA Business School (MBA), ESCEM School of Business and Management (Business), American Business School, Paris (Business), and MBA Institute Paris (Undergraduate Business).

Germany – the European Business School (Business), Fachhochschule Aachen (Business), Fachhochschule Furtwangen (BECA), Fachhochschule Fulda (Computer Science and Social Work), and Fachhochschule Würzburg (Business).

Ireland – Dublin Institute of Technology (Design and Industry).

Italy – University of Pavia (most academic areas) and Nuova Accademia di Belle Arti (Apparel Design and Merchandising, Industrial Design, Graphic Design, Interior Design).

Japan – Akita International University (Business, Humanities, and Social Sciences), Aoyama Gakuin (Business and Japanese), Kyoto University of Foreign Studies (Japanese), Oita University (Japanese), Meijo University (Japanese), and Oberlin University (International Relations and Japanese).

Korea – Chung Ang University (Business, Child and Adolescent Development, Economics, Engineering, English Education, Liberal Studies, and other areas) and the University of Seoul (International Relations, Pacific Asian Studies, Political Science, Urban Studies, and other areas).

The Netherlands – Atheneum Business School (Business), Rotterdam Business School (Business), University of Amsterdam (most Humanities and Social Sciences including Anthropology, History, Humanities, Human Sexuality Studies, International Relations, Political Science, Urban Studies, and Women and Gender Studies), and Utrecht School of Journalism (Journalism).

Spain – University of Zaragoza, Huesca Campus (Dietetics and Kinesiology).

Sweden – Linnaeus University, Kalmar and Vaxjo Campuses (Business, Education, Health Sciences, Humanities, Social Sciences, and Mathematics).

Taiwan – Chung Yuan Christian University (Chinese Teacher Training and Design and Industry), National Chengchi University (MBA and Business), National Taiwan Normal University (Chinese Translation and Interpretation).

Thailand – Chulalongkorn University (MBA and Business), Mahidol University International College (Asian–American Studies, Environmental Studies, Hospitality and Tourism Management, Pacific Asian Studies).

Turkey – Koç University (Business, Humanities, Science and Engineering and Social Sciences).

United Kingdom – Brunel University (Design and Industry and Kinesiology), Cardiff University (Criminal Justice, English Literature, International Relations, and Political Science), London Metropolitan University (Apparel Design and Merchandising, and Psychology), Regent’s College/European Business School, London (MBA, Hospitality and Tourism Management, Psychology, and other areas), University of East Anglia (BECA, Cinema, Creative Writing, Environmental Studies, English Literature, Laboratory Sciences, Theatre Arts, and more), and University of Wales, Swansea (Business and Economics).

As with the CSU International Programs, the student pays tuition and fees at San Francisco State but takes classes at the host university and earns regular SF State resident credit. Financial aid, with the exception of Federal Work–Study, is available to qualified students.

Additional information and application materials may be obtained from:

Student Health Service

San Francisco State University Student Health Services provides accessible and low–cost quality health care to all SF State Students. Our goal is to help students develop the skills and knowledge to manage their own health.

The Student Health Service is next to the Ethnic Studies and Psychology Building, directly across the pathway from Burk Hall and east of the Student Services Building.

Staff includes board certified physicians and nurse practitioners, psychiatrists, pharmacists, registered nurses, a nutritionist, an athletic trainer, an X–ray technologist, and laboratory and clinical support staff.

SHS adheres to the CSU Policy of the Board of Trustees on Student Health Services and is accredited by the Accreditation Association for Ambulatory Health Care (AAAHCC).

Year Round Operating Hours

Monday–Tuesday–Thursday–Friday: 8:10 a.m. – 4:45 p.m.
Wednesday: 10:00 a.m. – 4:45 p.m.
Closed except for extremely urgent medical services on Wednesdays: 8:10 to 10:00 a.m. & daily 4:45 to 5:00 p.m.
Student Health Services is closed on official University holidays.

**Website:** http://health.sfsu.edu

**Confidentiality of Medical Information**
Student Health Services medical records are confidential. Information will not be released without written consent except as required by law.

**Eligibility**
All SF State students who pay the mandated Student Health Fee can receive health services at SHS. A current student ID must be shown before receiving services.

Student Health Services appreciates the diversity of human beings and welcomes students of any race, color, national origin, age, religion, ability, marital status, sex, sexual orientation, and gender identity or expression.

**Medical Services**
Medical services at Student Health Services are funded by the Student Health Fee.

Lab tests, immunizations/shots, and pharmacy services are charged for the cost of the service plus a handling fee.

**Medical services** include basic care for new and short-term health conditions, illnesses, and injuries and appointments with medical providers.

Lab & X-ray services supporting basic care at Student Health Services.

**Gynecological services**, including evaluation and treatment of gynecological problems, wellness exams, birth control education, birth control prescriptions, emergency contraception, and evaluation and treatment of sexually transmitted infections (STIs) for female-bodied students.

**Family Planning, Access, Care, & Treatment (PACT)** enrollment for eligible SF State students seeking family planning services including birth control and emergency contraception. If SF State students qualify for Family PACT under the State of California program guidelines they can enroll at their first appointment at SHS.

**Immunization services** include immunizations/shots/vaccines for the prevention and control of common communicable diseases.

**Pharmacy:** Most SHS and outside physician prescribed medications can be filled at the SHS Pharmacy. The Pharmacy accepts many health insurance plans and medications are low cost.

**Nutrition services** including individual appointments and group/classroom presentations on sports nutrition, weight management, eating disorders, vegetarian diet, and nutrition assessment.

**Mental health services** including psychiatric care and medication management, links to campus and community resources.

**Specialty Services**
Fees are charged for specialty services.

**Podiatry:** evaluation of lower extremity alignment, fitting for custom orthotics and treatment of other foot problems

**Immunizations/shots or lab tests** (not related to basic service) and those performed off the premises.

**Rehabilitation services** with Student Health Services Athletic Trainer

**Urgent Medical Care**
SHS Nurses evaluate and refer students as appropriate to Urgent Care appointments with providers during clinic hours.

**Graduated Students**
Students nearing graduation should seek alternate health care providers to ensure continuity of care. Limited care may be provided at the SHS for a brief period after graduation with a fee charged for these services. Family PACT services should be sought at Family PACT clinics in the community.

**Care to Non–Students**
First aid services are available to all SF State staff, faculty, and visitors.

**No Show Fee**
Due to high patient demand and the limited availability of appointments, students must give advance notice to cancel an appointment or they will be charged a $20 no-show fee. Students can cancel their appointment online at: health.sfsu.edu (http://health.sfsu.edu) or by calling (415) 338–1251 during clinic hours.

Students will have to pay the full Podiatry Clinic fee if they do not cancel your appointment.

**SHAC**
The Student Health Advisory Committee at San Francisco State is a student–run organization that makes recommendations in regards to student health services, programs, and fees. SHAC meets weekly for lunch and discussions at SHS. See SHAC website for more details. http://health.sfsu.edu/content/student-health-advisory-committee.
Health Insurance
Student Health Service strongly encourages students to obtain health insurance coverage. Students may need to use community services such as specialty services and testing (e.g. MRI), emergency care or care for acute illnesses or injuries when SHS is not open.

Students can purchase a health insurance plan including Medi-Cal through Covered CA at their website CoveredCA.com (http://www.CoveredCA.com)

Alternately, students can purchase a student-focused health insurance plan through the California State University system. Students can visit www.csuhealthlink.com (http://www.csuhealthlink.com) for more information.

Student Health Services CANNOT assume responsibility for payment of outside medical care including ambulance services.

Recommended Immunizations
Please visit the "Vaccinate before you graduate" Website for the CDC recommendations: www.cdc.gov/vaccines/who/teens/index.html (http://www.cdc.gov/vaccines/who/teens).

Meningococcal Disease Information: Each incoming freshman who will be residing in on-campus housing will be required to return a form to the University Housing Business Office indicating that they have received information about meningococcal disease, the availability of the vaccine to prevent contracting the disease, and indicating whether or not the student has chosen to receive the vaccination.

Campus Information for Required Immunizations
Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first term of enrollment.

Measles and Rubella
All new and readmitted students must provide proof of full immunization against measles and rubella prior to enrollment.

Hepatitis B
All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period.

Prospective SF State students should send their completed “proof of immunization form” of the REQUIRED immunizations to the University Registrar’s office BEFORE enrolling in classes. The form can be downloaded at http://health.sfsu.edu/content/vaccinations--and--immunizations#Required-Immunizations

If you have any questions about required immunizations, please contact the University Registrar’s Office at (415) 338–2350.

University Registrar’s Office, One Stop Student Services Center
San Francisco State University
1600 Holloway Avenue
San Francisco, CA 94132
Phone: (415) 338–2350

Fax: (415) 338–0588
Email: records@sfsu.edu

1 Immunization records are not saved by the Registrar. Remember to keep copies!

Testing Center
The Testing Center serves the university by coordinating and administering educationally required testing programs to include scoring, recording, and reporting results of tests required of students for admission (undergraduate and graduate); diagnostic and course placement purposes; credit, certification, and graduation requirements.

The center provides information about all types of tests and supplies registration materials for many educationally required examinations.

The center administers tests to students referred by academic and career counselors. The results are used to assist them in determining educational and career goals.

The center provides support to faculty by offering computer scoring and statistical analysis of classroom tests, processing of faculty evaluations, and consultation in test design and measurement.

The Testing Center can be reached at (415) 338-2271 or via e-mail: testing@sfsu.edu. For test information, go to testing.sfsu.edu (http://testing.sfsu.edu)

Tutoring Services and Academic Support
SF State offers students support in their course work through tutoring, academic support programs, and individual conferences with instructors. There is no fee for SF State students for most options.

Faculty Office Hours
All faculty maintain regular office hours and they encourage students to meet with them. Meeting with instructors can help students answer questions, solve problems, prepare for tests, figure out how to do assignments, find additional help if needed, and even plan academic and career goals.

Students can find out about faculty office hours from the instructor, course syllabus, department offices, or websites. If students would like to meet with instructors individually, it is best to arrange an appointment in advance.

Tutoring Support
Learning Assistance Center (LAC)
The Learning Assistance Center (LAC) offers tutoring for undergraduate SF State students in the following areas: reading, writing, math, sciences and study skills for courses across disciplines. Tutors meet individually and in groups with students in both lower and upper division courses, including GWAR courses. As part of their ongoing education at the Center, LAC tutors complete a course and attend workshops on developing tutoring/teaching skills and strategies. The LAC is located in HSS 348 and is open Monday through Thursday, 9:00 a.m. – 4:00 p.m., and Friday, 9:00 a.m. – 12:00 p.m. Contact the LAC at (415) 338–1993 or visit the website at (http://www.sfsu.edu/~lac).sfsu.edu (http://lac.sfsu.edu) to find out how to register and make appointments.
Campus Academic Resource Program (CARP)
The Campus Academic Resource Program (CARP) provides critical academic support services and evening tutorial opportunities for all undergraduate students at San Francisco State (SF State), placing special emphasis on first-generation and underrepresented students. CARP offers both one-on-one and group tutorial sessions to accommodate students’ individual learning needs and styles. Additionally, CARP Student Staff develop and facilitate in-class, study skills, content-based, and peer response workshops and collaborate with a variety of SF State programs and departments to provide tailored services for a wide range of students.

CARP is located in HSS 344 and is open Monday – Thursday from 4:00 p.m. – 8:00 p.m. and Friday from 11:00 a.m. – 2:00 p.m. Summer tutoring hours are 10:00 a.m. – 3:00 p.m. Monday through Thursday and 10:00 a.m. – 2:00 p.m. Friday.

For further information about CARP and the services we offer, please visit our website at carp.sfsu.edu (http://carp.sfsu.edu) or call (415) 405–0316.

Department-Based Tutoring
Academic departments are possible sources of tutoring. For example, the following departments have offered academic support in the past: Accounting, Decision Sciences, Economics, English Composition (arrangements made through English instructors for the English Tutoring Center), Finance, Mathematics, and Philosophy (Critical Thinking). Check with particular departments to find out if they offer tutoring. Consult the SF State home page directory for department office locations and websites.

Course-Based Tutoring
For many courses, instructors have student assistants who can work with students on their course work. Students should take the opportunity to get to know these assistants—ask questions about course material or assignments and, if appropriate, set up tutoring time.
ACADEMIC PROGRAMS

A
Accountancy (p. 200): Bachelor’s Degree
Accounting (p. 200): Bachelor's Concentration, Minor, Certificate
Adapted Physical Education Curriculum (p. 525)
Adult Education (p. 298): Master's Concentration
African Studies (p. 605): Minor
Africana Studies (p. 345): Bachelor's Degree, Minor
American Indian Studies (p. 355): Bachelor's Degree, Minor
American Studies (p. 606): Bachelor's Degree, Minor
Animation (p. 675): Minor
Anthropology (p. 614): Bachelor’s Degree, Minor, Master’s Degree
Apparel Design and Merchandising (p. 438): Bachelor's Degree
Applied Mathematics (p. 1219): Bachelor's Degree
Arab and Muslim Ethnicities and Diasporas Studies (p. 364): Minor
Art (p. 624): Bachelor's Degree, Minor, Master's Degree
Art Education (p. 624): Bachelor's Concentration
Art History (p. 624): Bachelor's Concentration

BUSINESS ADMINISTRATION

Program Scope
The College of Business is made up of ten departments supervised by chairpersons. The departments are:

- Accounting
- Decision Sciences
- Economics
- Finance
- Hospitality and Tourism Management
- Information Systems
- International Business
- Labor and Employment Studies
- Management
- Marketing

The primary objectives of the College of Business at San Francisco State University are to:

- Provide students majoring in business administration with a foundation in the basic concepts and practices of the business community, and with a particular expertise in one or more of the specialties of practice, to prepare them to think creatively and to exercise critical judgment in the making of business decisions;
- Provide other students with a general understanding of the foundations and philosophies of the business community;
- Encourage a continuous liaison with the business community to respond to the educational needs of that community;
- Encourage faculty professional development activities designed to provide service to all segments of business and education for business through academic research and publication, applied research and publication, community education and services (seminars and consulting involving non-publishable, proprietary research, for example), and self-education or study designed to improve business knowledge and expertise.

The College of Business Student Services Center, located in the Business Building, Room 112, provides on-site academic program counseling for students enrolled or interested in business.

Major
B.S. in Business Administration (p. 209)

Concentrations in:

- Accounting (p. 200)
- Decision Sciences (p. 222)
- Entrepreneurial/Small Business Management (Temporarily Suspended)
- Finance (p. 237)
- Finance with Certificate in Commercial Real Estate (p. 242)
- General Business (p. 209)
- Information Systems (p. 254)
- International Business (p. 260)
- Management (p. 273)
- Marketing (p. 279)
Accounting

College of Business
Dean: Linda Oubre

Undergraduate Advisors: Chang, Chen, Choo, Chou, Hammond, Hetherington, Hsieh, Jerris, Kang, Luo, Ruan

Faculty

Professors

SU-JANE HSIEH (1992), Professor of Accounting; B.S. (1978), National Chengchi University; M.A. (1980), The University of Nebraska; Ph.D. (1985), Purdue University.

JIUNN C. HUANG (1986), Professor of Accounting; B.C. (1971), National Chengchi University; M.B.A. (1976), West Texas State University; Ph.D. (1980), North Texas State University; C.M.A. (1983).

SCOTT JERRIS (1997), Professor of Accounting; B.S. (1982), State University of New York, Albany; Ph.D. (1987), Purdue University.

JAI SEONG KANG (1983), Professor of Accounting; B.A. (1968), Yonsei University; M.B.A. (1973), Central Missouri State University; Ph.D. (1977), Texas A & M University; C.P.A. (1982).

Associate Professor
CHUN CHIA CHANG (2007), Associate Professor of Accounting; B.S. (1998), National Taipei University; M.P.A. (2000), St. Louis University; Ph.D. (2006), University of Houston.

Assistant Professors
MIN CHEN (2015), Assistant Professor of Accounting; B.A. (2008), North China University of Technology; M.A. (2011), East Tennessee State University; Ph.D. (2015), Kent State University.

SHIH-CHU CHOU (2016), Assistant Professor of Accounting; B.B.A. (2008), National Taiwan University; M.P.A. (2010), The University of Texas at Austin; Ph.D. (2016), The University of Texas at Dallas.

KATHERINE M. HETHERINGTON (2014), Assistant Professor of Accounting; B.A. (1999), Pomona College; J.D. (2005), University of Washington School of Law; L.L.M. (2008), University of Florida Levin College of Law.

BING LUO (2015), Assistant Professor of Accounting; B.S. (2007), South China Normal University; M.B.A. (2009), Emporia State University; Ph.D. (2015) University of North Texas.

Bachelor of Science in Business Administration: Concentration in Accounting

Concentration in Accounting
The accounting concentration is designed to provide a solid foundation of accounting and business knowledge that prepares students for careers in accounting. Courses are structured to allow flexibility in preparing for a career path in public accounting, private industry, and government or nonprofit organizations. The program offers a wide variety of courses which can be used to qualify and prepare for examinations in professional certifications such as CPA, CIA, and CMA. Students should consult with an accounting advisor to determine minimum course requirements for these certifications. The accounting curriculum also provides the foundation for graduate study.
Impaction

The undergraduate accounting program is impacted at the upper division level. This means that there are more students interested in studying accounting than the program can accommodate. Therefore, entrance into the program is a selective and competitive process. Eligible first-time freshman applicants can be admitted to the university as pre-Accounting. These students and other continuing SF State students who want to major in accounting should apply directly to the accounting department.

Application Information

Application for admissions to the accounting program are accepted during the application filing periods.

- Upper division transfer students: October 1 to November 30 for admissions for the following fall
- Continuing SF State students: During October for the Spring admissions and during March for the Fall admission.

For more application information, please refer to the Accounting Department Website.

All concentration courses must be taken on a letter-grade basis. Students must have a minimum grade point average of 2.0 in the accounting concentration. A minimum of 12 units in the accounting concentration must be completed at San Francisco State University. For a course transferred from another university to count toward the accounting concentration it must, minimally:

1. be from an AACSB-accredited institution,
2. cover applicable United States Generally Accepted Accounting Principles (US GAAP), laws, and regulations,
3. been completed within the last five years with a grade of at least C- (−), and
4. be approved by the appropriate SF State Department of Accounting course coordinator.

If rejected, the student may be granted a one-time challenge of the course coordinator’s decision by passing, in the first attempt, a comprehensive test of the appropriate material.

Bachelor of Science in Business Administration: Concentration in Accounting — 60 units

Prerequisites to Core Courses

In addition to the core course program required of all business majors,

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>DS 110</td>
<td>Calculus with Business Applications (or equivalent to MATH 110)</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 110</td>
<td>Business Calculus</td>
<td>3</td>
</tr>
<tr>
<td>ECON 101</td>
<td>Introduction to Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ISYS 263</td>
<td>Introduction to Information Systems (or a passing score on the ISYS 263 CLEP Exam)</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions.

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

<tr>
<td>Social Justice (SJ)</td>
<td></td>
<td>3</td>
</tr>
</tbody>
</table>

Note: LD = Lower Division; UD = Upper Division.

### First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 204)

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses
that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

**Total Units**

120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Prepare: MATH 60 and/or MATH 70 are required prerequisites to MATH 110/DS 110 unless you score 50 or higher on ELM or have an ELM exemption.

4. Consider taking a class combined with a laboratory or a separate lab to fulfil B3 if not already satisfied.

5. **Major Electives**

Minor in Accounting

Minor in Accounting
(This program is currently under review for discontinuance.)

The Minor in Accounting is designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, it can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for business majors wishing expertise in a second field.

Accounting Minor — 24 units

Note: All courses with an ACCT prefix must be taken for a letter grade, except for ACCT 300.

1 ACCT 100 and ACCT 101 may be substituted for ACCT 300, on advisement.
2 ECON 101 and ECON 102 (formerly ECON 100) may be substituted for ECON 305, on advisement.

Master of Science in Accountancy

Faculty Coordinator: Theresa Hammond, Ph.D.
Phone: (415) 817-4300
E-mail: mba@sfsu.edu

Graduate Advisors: Hammond, Hetherington, Hsieh

General Information

The Master of Science in Accountancy (MSA) program provides an emphasis in accounting, with specialization in financial accounting tax, auditing, managerial accounting, and accounting information systems. In addition to ACCT 890 (3 units), at least 9 units of 800-level graduate accounting courses must be completed. The remaining 18 units may be selected from appropriate graduate and undergraduate courses. The course selection must be approved by an advisor. ACCT 800 and ACCT 801 may not be taken for credit if ACCT 301 and ACCT 302, or the equivalents, have been completed in which case two additional 800-level classes must be substituted. For students without prior accounting or business course work, additional classes may be needed to qualify for the 150 hour CPA licensure requirements. Contact the California State Board of Accountancy for details.

Admission into programs leading to licensure and credentialing does not guarantee that students will obtain a license or credential. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with the CSU and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., social security number or taxpayer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. The CSU will not refund tuition, fees, or any associated costs, to students who determine subsequent to admission that they cannot meet licensure or credentialing requirements. Information concerning licensure and credentialing requirements are available from any of the MSA Graduate Advisors.

Accreditation

The MSA program is accredited by the most respected business accrediting association in the world, the Association to Advance Collegiate Schools of Business (AACSB). San Francisco State University is also accredited by the Western Association of Schools and Colleges (WASC). This ensures continuous improvement of faculty in teaching, research, and professional service.

Admission

U.S. citizens, permanent residents, and international students are accepted for both fall and spring admission according to the following schedule.

- Fall semester filing period: October 1 through May 15 (international applicants). October 1 through May 30 (domestic applicants). There are three rounds of application deadlines during this period.
- Spring semester filing period: August 1 through October 15 (international applicants). August 1 through November 1 (domestic applicants).

The above dates are subject to change. Check the Graduate Business Programs website for the latest dates.

Application Process

Each applicant to the MSA program must submit the following documents:

- California State University Application for Graduate or International Admission plus an application fee of $55
- One official transcript from every college or university attended
- The score on the GMAT (Graduate Management Admissions Test) or GRE (Graduate Record Examination). The deadline to take the GMAT or GRE is May 15 (international applicants) or May 30 (domestic applicants) for Fall admission and October 15 (international applicants) or November 1 (domestic applicants) of the prior year for Spring admission.
The California State University Application for Admission may be submitted before other documents are submitted, but the admission decision is not made until all required materials are received.

**Admission Criteria**

The College of Business admissions committee reviews an applicant’s overall qualifications and takes the following requirements into consideration:

- Completion of a degree equivalent to a four-year U.S. bachelor’s degree from a recognized university.
- A minimum 3.0 Grade Point Average overall, or in the last 60 semester units or 90 quarter units of university coursework completed (average incoming class GPA is 3.3).
- GMAT exam including total score, verbal, quantitative, writing scores, and integrated reasoning scores (average incoming class total GMAT score is 570) or the GRE test verbal, quantitative, and writing scores. A GMAT AWA score of 5.0 or a GRE AWA score of 4.5 or higher is required for classified admission. A GMAT AWA score of 4.5 or GRE AWA score of 4.0 is acceptable. However, a student will be conditionally admitted and must complete an approved College of Business writing course.
- Quality of statement of purpose using guidelines stated on College of Business website
- Two supportive letters of recommendation from workplace supervisors or faculty members
- Qualifications on résumé
- TOEFL score of at least 590/243/96 or IELTS score of at least 7.0 or PTE score of at least 65. The TOEFL, IELTS or PTE must have been taken within the past two years and is a requirement of all applicants who have earned their undergraduate degree from a country where the official language is not English.

Meeting minimum qualifications does not guarantee admission to the program.

**Program Requirements**

**Orientation and Professional Development Workshops**

The College of Business Graduate Programs orientation helps students prepare for the academic program and provides professional development opportunities. The workshops included during orientation are designed to enhance career prospects, professional communication style, leadership skills and teamwork. Students are expected to attend the required full-day orientation.

**Prerequisite Courses**

Depending upon a student’s previous academic background, the number of required prerequisite courses may range from 0 to 18 units. The prerequisite requirements are met by taking the six business foundation courses or by waivers of individual courses based on previous equivalent course work.

Students who have earned a bachelor’s degree in business administration within the past seven years from an Association to Advance Collegiate Schools of Business (AACSB)-accredited university, with a minimum 3.0 GPA in the last 60 semester units of coursework, automatically meet the program prerequisites. An up-to-date listing of AACSB schools around the world can be found on the AACSB International website. Students who have taken and completed course work equivalent to any of the prerequisite courses at other institutions within the last five to seven years may be able to waive individual prerequisite courses. Each equivalency is determined by course content, grade received, and the amount of time elapsed since the course was completed.

For students who completed their undergraduate degree in business over seven years ago, the program prerequisite courses offer an opportunity to refresh their knowledge and catch up on advances that have taken place in the different disciplines.

**Accountancy, M.S. – 30 - 51 units**

Courses offered by the accounting department by advisement of graduate major advisor (courses with ACCT prefix). Limitations: Up to 6 units may be upper-division undergraduate accounting courses (500-level) with prior approval of the major advisor.

Courses offered by the College of Business by advisement of graduate major advisor (800 level classes). Up to 6 units may be graduate level courses within the University, with prior advisor approval.

**Advancement to Candidacy (ATC) total: 30 units**

**Advancement to Candidacy**

Before being considered for advancement to candidacy, the applicant must meet all general University requirements, attend all professional development workshops at orientation, satisfy all prerequisite courses, earn an overall SF State Grade Point Average (GPA) of at least 3.0, and complete at least 6 units of College of Business advanced requirement courses.

When requirements have been satisfied, the graduate advisor may recommend to the Dean of the Division of Graduate Studies that the applicant be advanced to candidacy for the degree by filing the Advancement to Candidacy (ATC) form.
Bachelor of Science in Business Administration: Concentration in General Business

Concentration in General Business

The concentration in General Business is designed to provide a solid foundation in the functional areas of business and offers students flexibility in selecting from a broad range of business courses. The concentration is intended to prepare students for careers in small, medium, or family businesses.

All concentration courses must be taken on a letter-grade basis. Students must have a minimum grade point average of 2.0 in all concentration courses.

Bachelor of Science in Business Administration: Concentration in General Business – 60 units

Prerequisites to Core Courses

In addition to the core course program required of all business majors,

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>DS 110</td>
<td>Calculus with Business Applications (or equivalent to MATH 110)</td>

<td>Business Calculus</td>
<td></td>
</tr>
<tr>
<td>ECON 101</td>
<td>Introduction to Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ISYS 263</td>
<td>Introduction to Information Systems (or a passing score on the ISYS 263 CLEP Exam)</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions.

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

Core Courses for Business Majors (39 units)

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)
Environmental Sustainability (ES)
Global Perspectives (GP)
Social Justice (SJ)

Note: LD = Lower Division; UD = Upper Division.

**First-Time Student Roadmap (4 Year)**

This roadmap opens in a new tab. (p. 213)

**Transfer Student Roadmap (2 Year)**

For students with an AS-T in Business Administration with 12 units in the major satisfied. This roadmap opens in a new tab. (p. 217)

For students with an AS-T in Business Administration with 21 units in the major satisfied. This roadmap opens in a new tab. (p. 219)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Business Administration

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if
minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarter units required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Prepare: MATH 60 and/or MATH 70 are required prerequisites to MATH 110/DS 110 unless you score 50 or higher on ELM or have an ELM exemption.

4. Consider taking a class combined with a laboratory or a separate lab to fulfill GE Area B3 if not already satisfied.
### List 1 (6 units)
Select two of the following with different prefixes:
- DS 312 Data Analysis with Computer Applications (3 units)
- DS 408 Computer Simulation (3 units)
- DS 411 Decision Modeling for Business (3 units)
- DS 601 Applied Management Science (3 units)
- DS 604 Applied Business Forecasting (3 units)
- DS 624 Quality Management (3 units)
- DS 655 Sustainable Supply Chain Management (3 units)
- ECON 400 Economic and Social History of the United States (3 units)
- ECON 450 Health Economics (3 units)
- ECON 474/HIST 474/LABR 474 History of Labor in the United States (3 units)
- ECON 510/LABR 510 Labor Economics (3 units)
- ECON 511/LABR 511 Collective Bargaining (3 units)
- ECON 535/USP 535 Urban Economics (3 units)
- ECON 620 Economic Development (3 units)
- ECON 635/IR 635 Economics of Globalization (3 units)
- ISYS 350 Building Business Applications (3 units)
- ISYS 463 Information Systems Analysis and Design (3 units)
- ISYS 471 E-Commerce Systems (3 units)
- ISYS 565 Managing Enterprise Networks (3 units)
- ISYS 568 Multimedia Business Applications Development (3 units)
- ISYS 569 Information Systems for Business Process Management (3 units)
- ISYS 575 Information Security Management (3 units)
- ISYS 650 Business Intelligence (3 units)

### List 2 (6 units)
Select two of the following with different prefixes:
- BUS 440 Ethics at Work: Business Impacts (3 units)
- BUS 450 Greening of Business (3 units)
- HTM 421 Food, Wine, and Culture in California (3 units)
- HTM 425 The Business of International Tourism (3 units)
- HTM 560 Hospitality Human Resource Management (3 units)
- HTM 595 Selected Topics in Hotel Administration (3 units)
- IBUS 331 Cross-cultural Creativity in Business (3 units)
- IBUS 430 Import-Export Management and Small Business Operations (3 units)
- IBUS 517 Legal Environment of World Business (3 units)
- IBUS 590 International Environmental Analysis (3 units)
- IBUS 591 Doing Business in Latin America (3 units)
- IBUS 592 Doing Business in Greater China (3 units)
- IBUS 593 Doing Business in Europe (3 units)
- IBUS 594 Doing Business in Asia-Pacific Countries (3 units)
- IBUS 596 Doing Business in Japan (3 units)
- IBUS 598 Doing Business in Emerging Markets (3 units)
- IBUS 620 Research in International Business and the Global Market (3 units)
- IBUS 659/MGMT 659 Introduction to International Business Negotiation (3 units)
- IBUS 676 Social Entrepreneurship in a Global Context (3 units)
- IBUS 681 Seminar in Comparative Management (3 units)
- IBUS 690 Global Strategic Management (3 units)
- MGMT 354 Starting a Small Business (3 units)
- MGMT 407 Economics for Managers (3 units)
- MGMT 535 Selected Topics in Entrepreneurship (3 units)
- MKTG 432 Public Relations (3 units)
- MKTG 433 Personal Selling (3 units)
- MKTG 436 Retail Management (3 units)
- MKTG 441 Business to Business Marketing (3 units)
- MKTG 469 Digital Marketing (3 units)
- MKTG 644 Services Marketing (3 units)
- MKTG 675 Brand Management (3 units)
- MKTG 680 International Marketing Management (3 units)
- MKTG 688 New Product Management Seminar (3 units)
Electives must include three upper division courses with different prefixes and advisor approval.
Bachelor of Science in Business Administration: Concentration in General Business – Business Administration Associate Degree for Transfer with 12 Lower Division Units Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Business Administration.

Twelve units in the major (ACCT 100/ACCT 101, ECON 101/ECON 102) and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

¹ Completion of second year composition is a prerequisite for several Core courses. If not completed prior to transfer, progress in the major will be affected.

² HIST 470 and HIST 471 satisfies Upper Division GE: UD-C and both US History and US/CA Government if not met in transfer.

³ IBUS 330 satisfies Upper Division GE: UD-D.
To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

University-Wide Requirements: 6–9 Units

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- Upper Division GE, areas B and C (9 units): Recommended courses for UD-C also satisfy the US History, US Government, and California State and Local Government requirements if not taken before transfer. UD-D met by Major Core course. See notes.
- Students entering the General Business concentration of the major with the AS-T in Business Administration are not required to fulfill SF State Studies and Complementary Studies requirements. (This waiver does not apply to any other concentrations in Business.)

BS in Business Administration: Concentration in General Business major: 45–51 Units

ECON 101/ECON 102, ACCT 100/ACCT 101 met in transfer.

- Prerequisites (0–6 units): DS 110 or MATH 110 and ISYS 263 if not met in transfer
- Core courses for Business majors (30 units)
- Concentration (15 units):
  - List 1 (quantitative) and List 2 (qualitative) (12 units): select two courses from each list, four different prefixes overall
  - Upper division electives (3 units) Note: if lower division requirements in first or second semesters are completed before transfer, consult with a Business Student Services advisor.

University Electives: Zero or More Units

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and in the major.
Bachelor of Science in Business Administration: Concentration in General Business – Business Administration Associate Degree for Transfer with 21 Lower Division Units Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Business Administration.

Twenty-one units in the major (ACCT 100/ACCT 101, DS 110 or MATH 110, DS 212, ECON 101/ECON 102, ISYS 263) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

¹ IBUS 330 satisfies Upper Division GE: UD-D.
² Completion of second year composition is a prerequisite for several Core courses. If not completed prior to transfer, progress in the major will be affected.
³ HIST 470 and HIST 471 satisfy Upper Division GE: UD-C and both US History and US/CA Government if not met in transfer.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:
University-Wide Requirements: 9-12 Units

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- Upper Division GE, areas B and C (9 units). Recommended courses for UD-C also satisfy the US History, US Government, and California State and Local Government requirements if not taken before transfer. UD-D met by Major Core course. See notes.
- Students entering the General Business concentration of the major with the AS-T in Business Administration are not required to fulfill SF State Studies and Complementary Studies requirements. (This waiver does not apply to any other concentrations in Business.)

BS in Business Administration: Concentration in General Business Major: 48 units

ACCT 100/ACCT 101, DS 110 or MATH 110, DS 212, ECON 101/ECON 102, and ISYS 263 met in transfer.

- Core courses for Business majors (27 units)
  - Concentration (21 units) – Upon advisement, complete the following:
    - List 1 (quantitative) and List 2 (qualitative) (12 units): select two courses from each list, four different prefixes overall
    - Upper division electives (9 units): select three courses, each with a different prefix.

University Electives: Three or More Units

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and in the major.
Minor in Business Administration

The Minor in Business Administration draws on business core courses to give a broad, non-specialized exposure to business. It is designed to provide entry-level employment skills for a wide range of jobs and help provide a bridge to the business world for non-business majors.

Business Administration Minor – 24 units

<table>

¹ Students who earn a minor in business administration and decide to pursue an MBA or MSBA at SF State may use these courses to meet graduate-level foundation courses, provided they earn a B- or better in the class and have completed the undergraduate course within five years of entering the graduate business program.

² MATH 324 is an equivalent to DS 212 for the purpose of fulfilling this requirement. Prerequisite mathematics capability for MATH 324 may be satisfied by MATH 227. Prerequisite mathematics capability for DS 212 may be satisfied by DS 110, MATH 110, or MATH 226.

Note: The ISYS 263 course requirement may be met by passing the CLEP Exam. Students who pass the waiver exam do not need to take ISYS 263 but must take an additional course (upon advisement) to make up the 3 units.
Decision Sciences

College of Business
Dean: Linda Oubre

Department of Decision Sciences
BUS 310
Phone: (415) 338−2138
Email: ds@sfsu.edu
Chair: Susan Cholette
Undergraduate Advisors: Bollapragada, Cholette, Eng, Hasheminia, Miyaoka, Ozsen, Roeder, Saltzman, Soorapanth, Udayabhanu, Zhao

Major
- Bachelor of Sciences in Business Administration: Concentration in Decision Sciences (p. 222)

Minor
- Minor in Decision Sciences (p. 227)

Bachelor of Science in Business Administration: Concentration in Decision Sciences

Concentration in Decision Sciences
The Decision Sciences concentration provides students with the skills necessary to analyze and solve practical business problems. Concentration courses allow students to acquire competence in decision making through the use of professional business software, such as spreadsheet, forecasting, and simulation packages. By selecting appropriate electives, students can prepare for a career using decision sciences in computer information systems, finance, operations, marketing, design and industry, accounting, international business, general management, or other areas within industry or government.

All concentration courses must be taken on a letter-grade basis. A student must have a minimum grade point average of 2.0 across all concentration courses.

Bachelor of Science in Business Administration: Concentration in Decision Sciences — 60 units

Prerequisites to Core Courses
In addition to the core course program required of all business majors,

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>DS 110</td>
<td>Calculus with Business Applications (or equivalent to MATH 110)</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 110</td>
<td>Business Calculus</td>
<td></td>
</tr>
<tr>
<td>ECON 101</td>
<td>Introduction to Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ISYS 263</td>
<td>Introduction to Information Systems (or a passing score on the ISYS 263 CLEP Exam)</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions.

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

Core Courses for Business Majors (39 units)

<td>LD or UD</td>
<td>3</td>
</tr>
<tr>
<td>Social Justice (SJ)</td>
<td>LD or UD</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: LD = Lower Division; UD = Upper Division.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www.assist.org](http://www.assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

### Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.
Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

**Total Units**: 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Concentration Courses**
   - DS 312 Data Analysis with Computer Applications (3 units)
   - DS 408 Computer Simulation (3 units)
   - DS 601 Applied Management Science (3 units)
   - DS 604 Applied Business Forecasting (3 units)
   - DS 612 Data Mining with Business Applications (3 units)
   - DS 624 Quality Management (3 units)
   - DS 655 Sustainable Supply Chain Management (3 units)
5. **Approved Electives**
   - Decision sciences students are advised to take DS 660GW Communications for Business Analytics - GWAR as one of the approved electives; it can substitute for BUS 300GW Business Communication for Professionals - GWAR for the Decision Sciences concentration as it satisfies the University GWAR requirement.
Minor in Decision Sciences

Specialized Business Minors

These programs are designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, they can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for Business majors wishing expertise in a second field.

Minor in Decision Sciences

Decision Sciences Minor — 18 units

Required Courses (9 units)

Additional Course (3 units)

Select one additional courses in consultation with a Decision Sciences advisor.

Note: No elective may be a lower division course. All electives must be taken for a letter grade.
College of Business
Dean: Linda Oubre

Department of Economics
Health and Social Sciences Building, Room 142
Phone: (415) 338-1839
Website: http://cob.sfsu.edu/economics/

Chair: Don Mar
Graduate Coordinator: Lisa Takeyama

Program Scope
The Bachelor of Arts in Economics provides students with a foundation in economic theory while allowing them to apply what they have learned in real-world settings. The program fully exposes students to the primary methods of economic inquiry and analysis. Courses in the program call on students to use both quantitative and qualitative reasoning to analyze and explain economic events and problems. Students also develop practical skills in collecting and statistically analyzing economic data to reach conclusions about economic issues. The undergraduate program in economics provides an excellent preparation for students planning to enter careers in business, government, and in non-profit organizations. It can also serve to fully prepare students for advanced graduate and professional studies in economics, business, public policy, urban and regional planning, law, and other related fields.

The Master of Arts in Economics allows students to pursue advanced study in economics and focuses on theoretical foundations and real-world applications. The program requires students to develop skills in the mathematical modeling of economic theory and statistical analysis of economic data, as well as in the writing and communicating of economic ideas. The M.A. program provides excellent advanced training for students wishing to obtain professional positions as researchers or administrators in private businesses, governmental agencies, or non-profit organizations. The program also offers a solid foundation for students interested in continuing their graduate studies in Ph.D. programs elsewhere.

Career Outlook
Both the undergraduate and graduate programs prepare students for a wide variety of careers in business, government, and non-profit organizations. Practical orientation and a strong emphasis on quantitative reasoning allow graduates of these programs to move into interesting and promising careers in a number of fields. Undergraduate students majoring in economics, particularly those who have supplemented their program with additional coursework in accounting, finance, and computer programming, are very attractive job candidates. Graduate students in the master’s program develop advanced theoretical, statistical, and data analytic skills, which allow them to compete successfully for more advanced positions. Economics majors from SF State have recently been placed in entry-level positions in business management, marketing, financial services, research consulting firms, public policy analysis, teaching, and many other fields. The undergraduate major also provides excellent preparation for advanced graduate and professional studies in economics and related disciplines. SF State graduates of the M.A. program have recently been placed in advanced positions with public utilities, economics consulting firms, the research divisions of large companies, and local and state governmental agencies, while other SF State M.A. graduates have been admitted to top Ph.D. granting institutions.

Masters
• Master of Arts in Economics (p. 235)

Bachelor of Arts in Economics
Declaring the Major and Undergraduate Advising
Students can declare economics as a major at the economics department office in HSS 142. The department requires that all majors meet with an advisor each spring. Advisors counsel students on the selection of economics courses, as well as GE requirements and other courses in the University. Students who do not see an advisor will not be able to register for the fall semester.

• Majors must take the core courses for a letter grade and earn a minimum grade of C in each. (CR/NC grading is not allowed for core courses.)
• ECON 690GW is the capstone course and must be taken in the senior year.

Upper Division Electives (18 Units)
Economics majors are required to take six upper division elective courses in economics. There are over 20 elective courses, including some cross-listed courses with other programs, offered each year on such subjects as money and banking, international economics, labor economics, industrial organization, experimental economics and game theory, health
economics, public finance, law and economics, economic history, urban economics, environmental economics, and economic development.

Upon prior advisement, a maximum of two courses may be taken from another department in a related discipline.

Complementary Studies
Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Alternatively, students in the Economics major can meet with a major advisor to determine which courses will satisfy the complementary studies requirement. Consult with your major advisor for assistance.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

Social Sciences  UD  3  UD-D

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  LD or UD  3

Environmental Sustainability (ES)  LD or UD  3

Global Perspectives (GP)  LD or UD  3

Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

### First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 231)

### Transfer Student Roadmap (2 Year)

For Students with an AA-T in Economics. This roadmap opens in a new tab. (p. 233)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Economics

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:
· How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
· Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
· How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   · a course in U.S. History
   · a course in U.S. & California Government
   · a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

   · Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

   · Complete 60 or more transferable semester units or 90 or more quarter units
   · Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
   · Be in good standing at the last college or university attended
   · Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
     a. One course in oral communication (same as CSU GE area A1)
     b. One course in written composition (same as CSU GE area A2)
     c. One course in critical thinking (same as CSU GE area A3)
     d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
   
   · The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. **Complementary Studies**
   Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)
   Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Alternatively, students in the Economics major can meet with a major advisor to determine which courses will satisfy the complementary studies requirement. Consult with your major advisor for assistance.
   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

5. **Upper Division Electives (18 Units)**
   Economics majors are required to take six upper division elective courses in economics. There are over 20 elective courses, including some cross-listed courses with other programs, offered each year on such subjects as money and banking, international economics, labor economics, industrial organization, experimental economics and game theory, health economics, public finance, law and economics, economic history, urban economics, environmental economics, and economic development.
   Upon prior advisement, a maximum of two courses may be taken from another department in a related discipline.
Bachelor of Arts in Economics – ECON Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Economics. At least six units in the major (ECON 101, ECON 102) and all lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

University-Wide Requirements: 9–18 Units
- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
- Upper Division GE, areas B, C and D (9 units)
- Students entering this major with the AA-T in Economics are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

Economics Major: 33–37 Units

ECON 101, ECON 102 met in transfer; MATH 226 may have been met in transfer.
• Major Core (15–19 units) - includes Culminating Experience/GWAR course
• Major Electives (18 units)

**University Electives: Six or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. UD GE and the major.
Minor in Economics

Economics is highly complementary with a number of other disciplines and some students may choose to minor in economics while pursuing a major in another field. Students often decide to minor in economics after having already taken several economics courses and realizing that a few more courses will satisfy the minor requirements.

- Minors must earn a minimum grade of C in each core course (CR/NC grading is permitted for core courses).

Economics Minor – 22 units

Required Courses (13 units)

Electives (9 units)

Three courses selected from upper division elective economics courses. ECON 301 or ECON 302 may be used as an elective if not used as a required course. ECON 312 and ECON courses 400 and above are considered to be upper division electives.

Master of Arts in Economics

http://grad.sfsu.edu/program-deadline-dom

Graduate Coordinator: Takeyama

Admission to Program

For admission to the graduate program in economics, a student must meet, at a minimum, the general University requirements as stated in this Bulletin. To qualify for classified status, a student must satisfy the following criteria:

- Earn a 3.0 grade point average in an undergraduate major in economics (or equivalent);
- Complete courses in intermediate macro and micro theory (ECON 301 and ECON 302 or equivalents) with grades of B or better;
- Complete a semester of calculus (MATH 226 or equivalent) with a grade of B or better;
- Complete a semester-length course in Statistics (ECON 311 or equivalent) and in Econometrics (ECON 312 or equivalent) with a grade of B or better in each.

Students who do not have B grades in all of the above four courses, or who did not major in economics but earned an overall grade point average of 3.0 or better, may be admitted conditionally. Students admitted conditionally cannot apply courses taken to satisfy the program prerequisites toward their graduate program.

Students applying to the graduate program must submit the following materials to the department's graduate coordinator and to the Division of Graduate Studies, as indicated below.

- Transcripts from all colleges and universities attended (submit official records to Graduate Studies and an additional copy (may be unofficial) to the economics department graduate coordinator).

- Graduate Record Examination (GRE) scores for the general test or GMAT scores (submit only to Graduate Studies).
- Two or more letters of recommendation, preferably from professors the applicant has taken courses with or worked with in some capacity (submit only to the economics department graduate coordinator).

The deadlines for submission of the above materials to the Division of Graduate Studies and the department's graduate coordinator are determined by the University. These deadlines are available at grad.sfsu.edu/program-deadline-dom.

Written English Proficiency Requirements

The University requires that graduate students must demonstrate both initial English proficiency (level one) upon entrance to graduate study and an advanced English proficiency (level two) prior to graduating.

Level One

Prior to admission, students must satisfy at least one of the following an undergraduate degree from an institution located in a country in which the native language is English; a score of at least 4.0/6.0 on the GRE or GMAT Analytic Writing Assessment; a minimum score of 24/30 on the Writing section of the Internet-based test (IBT) TOEFL; or a score of at least 6.5/9.0 on the IELTS writing test, or a concordant score on the Pearson Test of English.

Students not meeting this requirement may be admitted conditionally upon completion of an appropriate English writing class during their first semester

Level Two

Demonstration of advanced level proficiency is an integral part of the Written Comprehensive Exam.

Advancement to Candidacy

Besides meeting all general requirements for advancement to candidacy, students must earn a minimum of a B in the following courses and earn an overall minimum of 3.0 grade point average in all courses combined. No course taken toward degree completion may be taken on a CR/NC basis.

Electives (6-12 units)

A maximum of two courses may be taken outside the economics department in an applied field or interdisciplinary study upon advisement. No more than two electives may be pure undergraduate courses, and at least one elective must be a pure graduate course. All electives require prior approval from an advisor.

Culminating Experience (0-6 units)

Students may choose either the Written Comprehensive Examination or the Master's Thesis and Oral Defense.
Written Comprehensive Examination
A three-hour comprehensive written examination is required of all candidates not opting for the Master’s Thesis. Examinations are conducted during the spring semester. No student is permitted to take the examination until they have completed, by the end of the spring semester during which the exam is taken, 24 units of the Advancement to Candidacy (ATC) with a B (3.0) average. ECON 701, ECON 702, ECON 715, and ECON 731 must be included in these 24 units. Students who choose the Written Comprehensive Exam for their culminating experience must also enroll in ECON 896EXM Culminating Experience Examination (0 units).

ECON 896EXM Culminating Experience Examination 0.3

Students Opting for Master’s Thesis and Oral Defense
Six units of graduate economics electives in addition to Thesis and Oral Defense.

Minor
- Minor in Finance (p. 247)

Certificate
- Certificate in Commercial Real Estate for Finance Majors (p. 293)

Bachelor of Science in Business Administration: Concentration in Finance

Concentration in Finance
The Finance concentration teaches students to recognize, understand, and attain the skills necessary to be successful in the world of finance. It focuses on the financial decisions made in every organization, which include investment, decisions in purchasing and selling real and financial assets, raising cash to fund these investments, and managing the risk of its assets and investments. Other operational decisions include implementing routine day-to-day procedures to manage all financial aspects of the organization and decisions regarding changes in the mix of its services and products. Although a financial manager specializes in these decisions, managers from across the organization also contribute.

Four sets of skills are essential to financial decision-making: First, an understanding of the environment within which decisions are made, including both the internal structure of the organization and the nature of external capital and financial markets; second, familiarity with the organization's information system, including accounting, financial, and human resources; third, analysis of available financial data to understand the likely impact of alternative decisions and their level of uncertainty; finally, understanding the interrelationships between financial decisions and decisions made in other parts of the organization, such as marketing, production, and IT.

All concentration courses must be taken on a letter-grade basis. Students must maintain an overall minimum grade point average of 2.0 across the seven concentration courses.

Bachelor of Science in Business Administration:
Concentration in Finance — 60 units
Prerequisites to Core Courses
In addition to the core course program required of all business majors,

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tr>
<tr>
<td>ISYS 263</td>
<td>Introduction to Information Systems (or a passing score on the ISYS 263 CLEP Exam)</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions.

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exemption to this rule for any such courses.

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3     |
| Environmental Sustainability (ES)          | LD or UD  | 3     |
| Global Perspectives (GP)                   | LD or UD  | 3     |
| Social Justice (SJ)                        | LD or UD  | 3     |

**Notes:**

- LD = Lower Division; UD = Upper Division.

**First Time Student Roadmap (4 Year)**

This 2017–2018 roadmap (p. 240) opens in a new tab.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine.
• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

**Total Units**: **120-122**

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of 105 in the second semester; multilingual students may be advised into alternative English courses.
3. MATH 60 and/or MATH 70 are required prerequisites to MATH 110/DS 110 unless you score 50 or higher on ELM or have an ELM exemption.
4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
5. **Major Electives**
   - DS 408 Computer Simulation (3 units)
   - DS 411 Decision Modeling for Business (3 units)
   - DS 601 Applied Management Science (3 units)
   - DS 604 Applied Business Forecasting (3 units)
   - FIN 365 Real Estate Principles (3 units)
   - FIN 370 Fundamentals of Real Estate (3 units)
   - FIN 371 Commercial Real Estate Financial Management (3 units)
   - FIN 372 Commercial Leasing and Development (3 units)
   - IR 435 Politics of Global Finance and Crisis (4 units)
   - FIN 653 Seminar in Bank Management (3 units)
   - FIN 655 Alternative Investment (3 units)
   - FIN 656 Student Managed Investment Fund (3 units)
   - FIN 658 Financial Risk Management (3 units)
   - FIN 659 Special Topics in Finance (3 units)
   - ISYS 464 Managing Enterprise Data (3 units)
   - ISYS 569 Information Systems for Business Process Management (3 units)
   - ISYS 650 Business Intelligence (3 units)
   - MGMT 430 Introduction to Entrepreneurship I (3 units)
Bachelor of Science in Business Administration: Concentration in Finance with Certificate in Commercial Real Estate

Concentration in Finance
The Finance concentration teaches students to recognize, understand, and attain the skills necessary to be successful in the world of finance. It focuses on the financial decisions made in every organization, which include investment, decisions in purchasing and selling real and financial assets, raising cash to fund these investments, and managing the risk of its assets and investments. Other operational decisions include implementing routine day-to-day procedures to manage all financial aspects of the organization and decisions regarding changes in the mix of its services and products. Although a financial manager specializes in these decisions, managers from across the organization also contribute.

Four sets of skills are essential to financial decision-making: First, an understanding of the environment within which decisions are made, including both the internal structure of the organization and the nature of external capital and financial markets; second, familiarity with the organization's information system, including accounting, financial, and human resources; third, analysis of available financial data to understand the likely impact of alternative decisions and their level of uncertainty; finally, understanding the interrelationships between financial decisions and decisions made in other parts of the organization, such as marketing, production, and IT.

All concentration courses must be taken on a letter-grade basis. Students must maintain an overall minimum grade point average of 2.0 across the seven concentration courses.

Commercial Real Estate Certificate
The Building Owners and Managers Association, San Francisco Foundation (BOMA SF Foundation) has partnered with SF State, providing support for several courses in commercial real estate. Students earn a Bachelor of Science degree in Business Administration with a Concentration in Finance and a Certificate in Commercial Real Estate.

Career Opportunities
According to BOMA SF Foundation, "One of the most demanding issues facing the commercial real estate industry today is how to replace a large aging workforce soon to retire." Jobs with great compensation and opportunities for career advancement are available in the commercial real estate industry, including property management, facilities management, asset and portfolio managers, real estate leasing and brokerage, and building engineering.

Bachelor of Science in Business Administration: Concentration in Finance with Certificate in Commercial Real Estate – 60 units

Prerequisites to Core Courses
In addition to the core course program required of all business majors,

Electives (6 units)
Satisfied by the completion of the Commercial Real Estate Certificate.

Commercial Real Estate Certificate — 12 Units
To earn a certificate in Commercial Real Estate (CRE), students must satisfy the following three requirements:

1. Complete the following four courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 365</td>
<td>Real Estate Principles</td>
<td>3</td>
</tr>
<tr>

</tr>
<tr>
<td>FIN 371</td>
<td>Commercial Real Estate Financial Management</td>
<td>3</td>
</tr>
<tr>
<td>FIN 372</td>
<td>Commercial Leasing and Development</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Earn an overall GPA of 2.0 across these four courses.
3. Successfully complete the finance major.

Commercial Real Estate Certificate Specifics
Finance majors must complete the requirements of their B.S. degree in Business Administration with a Concentration in Finance, plus a minimum of two additional courses.

- Five required finance concentration courses: FIN 303, FIN 351, FIN 353, FIN 355, and FIN 536.
- Two required finance elective courses from: FIN 365, FIN 370, FIN 371, or FIN 372.
- Two required real estate emphasis courses from: FIN 365, FIN 370, FIN 371, or FIN 372.

FIN 370, FIN 371, and FIN 372 are 100% funded by the Building Owners & Managers Association San Francisco Foundation (BOMA SF Foundation). The certificate will be branded with BOMA SF Foundation’s sponsorship.

Note: LD = Lower Division; UD = Upper Division.

First Time Student Roadmap (4 Year)
This 2017–2018 roadmap (p. 245) opens in a new tab.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://wwwassist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;
Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.
For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. MATH 60 and/or MATH 70 are required prerequisites to MATH 110/DS 110 unless you score 50 or higher on ELM or have an ELM exemption.
4. Take a class with a combined laboratory or a separate lab to fulfill B3 if not already satisfied.
Minor in Finance

Specialized Business Minors

These programs are designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, they can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for business majors wishing expertise in a second field.

Minor in Finance

The Minor in Finance has been temporarily suspended for 2015–2016. Students who have already declared the minor may continue their planned course of study, but no new minors will be accepted at this time.

\(^1\) ACCT 100 and ACCT 101 may be substituted for ACCT 300, on advisement.

\(^2\) ECON 101 and ECON 102 (formerly ECON 100) may be substituted for ECON 305, on advisement.

Note: All electives must be taken for a letter grade.
Hospitality and Tourism Management

College of Business
Dean: Linda Oubre

Department of Hospitality and Tourism Management
Business Building, Room 336
(415) 338–1023
Email: hmp@sfedu.edu
Chair: Andrew Walls
Undergraduate Advisors: Aday, Ergul, Frens, Johnson, Roe, Sim, Walls, Yang

Program Scope
The mission of the Hospitality and Tourism Management department is to be a student-centered academic and professional environment dedicated to educating exceptional hospitality and tourism industry business leaders through experiential and personalized learning.

The program is designed to provide students with a core of business education and professional hospitality and tourism management knowledge. Students can choose to focus on an elective emphasis, including: hotel operations management; food and beverage management; conventions, meetings and event management, or tourism management. The department is committed to maximizing student exposure to industry leaders, career opportunities and student experiences involving notable hospitality companies. The Hospitality and Tourism Management department features the on-campus Vista Room, a student-run restaurant which serves as an experiential learning laboratory.

Career Outlook
The curriculum combines strengths in management with hands-on hospitality experience and internship opportunities in the hospitality industry. Completion of the core and elective courses provides students with a theoretical business background and professional knowledge to attain a top-level management positions in the hospitality/tourism industry.

Certificate in Hospitality and Tourism Management
For more information contact the program director in the College of Extended Learning.

Award of the Certificate
Upon completion of the program, the College of Extended Learning is responsible for authorizing the issuance of the certificate on behalf of the Department of Hospitality and Tourism Management and in the name of San Francisco State University.

Hospitality and Tourism Management (2017-2018)
MKTG 431 Principles of Marketing 3

**Guided Electives (12 units)**

Choose four of the guided elective courses from the list of courses below. Students wishing to minor in business administration are encouraged to take IBUS 330 to fulfill their minor requirement.

HTM 324 Historical and Contemporary Aspects of Food, Beverage, and Culture in America 3
HTM/CFS 351 Asian Food, Culture, and Hospitality 3
HTM 364 Hospitality and Tourism Management Information Systems 3
HTM 400 Wine Appreciation 3
HTM 421 Food, Wine, and Culture in California 3
HTM 425 The Business of International Tourism 3
HTM 557 Restaurant and Catering Management 3
HTM 562 Advanced Studies in Global Hotel Operations Management 3
HTM 576 Meeting Planning and Convention/Event Management I 3
HTM 577 Meeting Planning and Convention/Event Management II 3
HTM 578 Hospitality and Tourism Management Sales and Marketing 3
IBUS 330 International Business and Multicultural Relations 3

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  | LD or UD | 3 |
Environmental Sustainability (ES)          | LD or UD | 3 |
Global Perspectives (GP)                   | LD or UD | 3 |
Social Justice (S-J)                       | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

**First Time Student Roadmap (4 Year)**

This (p. 251) 2017~2018 roadmap opens in a new tab.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education
units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit [http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL](http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL).

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - a. One course in oral communication (same as CSU GE area A1)
  - b. One course in written composition (same as CSU GE area A2)
  - c. One course in critical thinking (same as CSU GE area A3)
  - d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

</tbody>
</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Guided Electives**
   Select four courses from below. See Department for advisement based on your area of interest.
   - HTM 324 Historical and Contemporary Aspects of Food, Beverage, and Culture in America (3 units)
   - HTM 351/CFS 351 Asian Food, Culture, and Hospitality (3 units)
   - HTM 364 Hospitality and Tourism Management Information Systems (3 units)
   - HTM 400 Wine Appreciation (3 units)
   - HTM 421 Food, Wine, and Culture in California (3 units)
   - HTM 425 The Business of International Tourism (3 units)
   - HTM 557 Restaurant and Catering Management (3 units)
   - HTM 562 Advanced Studies in Global Hotel Operations Management (3 units)
   - HTM 576 Meeting Planning and Convention/Event Management I (3 units)
   - HTM 577 Meeting Planning and Convention/Event Management II (3 units)
   - HTM 578 Hospitality and Tourism Management Sales and Marketing (3 units)
   - IBUS 330 International Business and Multicultural Relations (3 units)
Minor in Hospitality and Tourism Management

The Hospitality and Tourism Management minor is designed to provide undergraduates with a focused exposure to hospitality management. The program can provide non-hospitality management majors with the professional and technical skills in hospitality management needed for entry into employment or serve as an alternative to a double major for business majors wishing expertise in a second field.

Bachelor of Science in Business Administration: Concentration in Information Systems

Concentration in Information Systems
The Information Systems concentration prepares students for multiple careers that require an aptitude for analytical thinking and a strong working competency in information systems. It is designed to produce a person with technical and managerial skills in business application development, project management, application analysis and design, data management, and network and security management. Graduates qualify for and are productive in careers that include technology/business analyst, programmer/analyst, database designer/analyst/administrator, network administrator, and help desk/technical support specialist. The concentration emphasizes technical knowledge of information system components and infrastructure; application and development skills; high-level competencies in applying information systems analysis and systems design strategies and techniques; understanding the information needs and delivery systems within business organizations; understanding the business/organizational context of information systems; communications and human relations skills for working with and managing people and projects in virtual teams; and education and desire for lifelong learning and professional and personal development.

All concentration courses must be taken on a letter grade basis with the exception of courses offered only on a CR/NC basis. A student must have a minimum grade point average of 2.0 in all concentration courses to graduate.

A maximum of two courses (6 units) in the information systems concentration may be courses not listed in the bulletin for the concentration including courses from other disciplines at SF State and courses from other AACSB accredited schools of business or institutions of equal caliber. All such courses must be approved in advance by an Information Systems advisor.

Bachelor of Science in Business Administration: Concentration in Information Systems – 60 units

Prerequisites to Core Courses
In addition to the core course program required of all business majors,

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>DS 110</td>
<td>Calculus with Business Applications (or equivalent to MATH 110)</td>

</tr>
<tr>
<td>ECON 101</td>
<td>Introduction to Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ISYS 263</td>
<td>Introduction to Information Systems (or a passing score on the ISYS 263 CLEP Exam)</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 257)

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this
certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

#### Total Units

| Units | 15 |

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Major Concentration Electives**
   - ISYS 471 E-Commerce Systems (3 units)
   - ISYS 475 Building Web Applications with Open Source Software (3 units)
   - ISYS 512 Business Application Design and Development with .NET (3 units)
   - ISYS 556 Building Mobile Business Applications (3 units)
   - ISYS 557 Managing Open Source (3 units)
   - ISYS 567 Information Systems Internship (3 units)
   - ISYS 568 Multimedia Business Applications Development (3 units)
   - ISYS 569 Information Systems for Business Process Management (3 units)
   - ISYS 575 Information Security Management (3 units)
   - ISYS 650 Business Intelligence (3 units)
Minor in Information Systems

Specialized Business Minors

These programs are designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, they can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for business majors wishing expertise in a second field.

Minor in Information Systems

Information Systems Minor — 24 units

Required Courses (12 units)

</tbody>
</table>

Other courses related to the fields of business information systems and decision sciences may be substituted for one or more elective courses with prior written approval of an IS advisor.

1 ACCT 100 and ACCT 101 may be substituted for ACCT 300, on advisement.

2 ECON 101 and ECON 102 (formerly ECON 100) may be substituted for ECON 305, on advisement.

Note: No elective may be a lower division course. All electives must be taken on a letter grade basis with the exception of courses offered only on a CR/NC basis.
**International Business**

**College of Business**
Dean: Linda Oubre

**Department of International Business**
Science Building, Room 300
Phone: (415) 338—1107
Email: ib@sfsu.edu
Chair: Nini Yang
Undergraduate Advisors: Heiman, Lebedev, Y. Lee, Nicholson, Simeon, Ungson, Wang, Yang

**Major**
- Bachelor of Sciences in Business Administration: Concentration in International Business (p. 260)

**Minor**
- Minor in International Business (p. 266)

**Certificate**
- Certificate in International Business (p. 293)

**Bachelor of Science in Business Administration: Concentration in International Business**

**Concentration in International Business**
By specializing in international business, a student gains an understanding of the international aspects of business while concentrating in a functional business area—marketing, finance, management, export/import management, or logistics. Courses analyze the rapidly changing international environment and the new management problems and tasks that result. A student can begin a career in a functional department of a company, with the opportunity to move into international operations if a need develops. Alternatively, a student may begin working directly in international operations, including the import-export field.

Students studying abroad in California State University International Programs or an SF State Exchange Program may develop special international business concentrations with advisor approval before going abroad. Students with specific educational or career objectives may develop special international business concentrations in consultation with an advisor.

All concentration courses must be taken on a letter-grade basis. Students must have a minimum grade point average of 2.0 in all concentration courses, and International Business majors must earn a grade of C— or higher in IBUS 330.

**Bachelor of Science in Business Administration: Concentration in International Business — 60 units**

**Prerequisites to Core Courses**
In addition to the core course program required of all business majors,

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>DS 110</td>
<td>Calculus with Business Applications (or equivalent to MATH 110)</td>
<td>3</td>

<tr>
<td>or MATH 110</td>
<td>Business Calculus</td>
<td></td>
</tr>
<tr>
<td>ECON 101</td>
<td>Introduction to Microeconomic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>ISYS 263</td>
<td>Introduction to Information Systems (or a passing score on the ISYS 263 CLEP Exam)</td>
<td>3</td>
</tr>
</tbody>
</table>

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions.

**Note:** DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C— or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

**Core Courses for Business Majors (39 units)**

SF State Studies
Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.
American Ethnic and Racial Minorities (AERM)  LD or UD  3
Environmental Sustainability (ES)  LD or UD  3
Global Perspectives (GP)  LD or UD  3
Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area A4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Geographic Area (3 units)**
   - Select one of the following:
     - IBUS 591 Doing Business in Latin America (3 units)
     - IBUS 592 Doing Business in Greater China (3 units)
     - IBUS 593 Doing Business in Europe (3 units)
     - IBUS 594 Doing Business in Asia-Pacific Countries (3 units)
     - IBUS 596 Doing Business in Japan (3 units)
     - IBUS 598 Doing Business in Emerging Markets (3 units)
Electives (9 units)
Selected from one of the following emphases (course may be substituted with advisor approval):

Country Analysis and Emerging Market Environments

Minor in International Business

Specialized Business Minors

These programs are designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, they can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for business majors wishing expertise in a second field.

Note: All electives must be taken for a letter grade.
Labor and Employment Studies

College of Business
Dean: Linda Oubre

Labor and Employment Studies Program
Business Building, Room 310
Phone: (415) 338–2138
Director: John Logan

Program Scope
The Labor and Employment Studies program provides students with an introduction to and understanding of the study of labor and employment relations, broadly defined. Over the past few decades, the study of labor and employment relations has expanded significantly to include new topics that did not previously exist as areas of academic inquiry: globalization and employment relations, international labor standards, human rights and labor standards, corporate social responsibility and corporate codes of conduct, monitoring and accountability frameworks, global supply and value chains, corporate governance and employment relations, “decent work,” equality and diversity at work, labor and “global cities;” employment relations in emerging economies, high performance work systems, global corporations and global unions. These topics form the basis of the courses that make up the requirements for the major and minor.

Career Outlook
The major and minor in labor and employment studies provides training for students interested in careers in labor relations or personnel management with unionized private-sector firms or local and state government organizations. Graduates may also be prepared to work for unions, labor or social justice-related NGOs, or other non-profit organizations. Students may gain employment in these areas with local, state, national or international organizations. In the non-union private sector, graduates may work in areas related to corporate social responsibility, codes of conduct, and corporate governance. Finally, students may pursue professional degrees (for example, in public policy, labor and employment law, or MBAs) or graduate degrees in the social sciences.

Professor
Logan

Major
- Bachelor of Arts in Labor and Employment Studies (p. 267)

Minor
- Minor in Labor and Employment Studies (p. 272)

Bachelor of Arts in Labor and Employment Studies

Labor and Employment Studies (B.A.) – 39–40

Units
Required Courses (18 Units)

LABR 250 Introduction to the Study of Labor 3

Graduation Writing Assessment Requirement (3 Units)
HIST 300GW Seminar in Historical Analysis - GWAR 3

Related Electives (15 Units)
Chosen in consultation with the program director.

Final Experience (3–4 Units)
Internship or Final Research Project

Complementary Studies (12 Units)
Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.) Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the Labor and Employment Studies major can count the twelve complementary studies units toward elective units in the major. Consult with your major advisor for assistance.

SF State Studies
Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) LD or UD 3

Environmental Sustainability (ES) LD or UD 3

Global Perspectives (GP) LD or UD 3

Social Justice (SJ) LD or UD 3

Note: LD = Lower Division; UD = Upper Division.

First Time Student Roadmap (4 Year)
This 2017–2018 roadmap (p. 270) opens in a new tab.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCs; sometimes options include more than one college. Use ASSIST to determine:

   • Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.
For more information, visit the Undergraduate Admissions section.

   • Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</tr>
</tbody>
</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. **Complementary Studies (12 Units)**
   - Bachelor of Arts students must complete at least 12 units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.) Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Additional ways to complete complementary studies for students in the Labor and Employment Studies major can count the twelve complementary studies units toward elective units in the major. Consult with your major advisor for assistance.

5. **Major Core (12 units)**
   - LABR 474 History of Labor in the United States (3 units)
   - LABR 552 Comparative Employment Relations (3 units)
   - LABR 553 Labor Standards and Corporate Social Responsibility (3 units)
   - LABR 555 Labor Rights in the Global Economy (3 units)
   - LABR 650 Labor Law: An Introduction and Overview (3 units)

Bachelor of Science in Business Administration: Concentration in Management

Concentration in Management
The Management concentration prepares students to succeed in a wide array of positions in virtually any career. Students learn to see the big picture of any organization, how key pieces fit together, and how the organization fits into an industry, field, and the overall economy. They learn to recognize business problems and opportunities, to develop innovative responses to them, to take a leadership role, to set goals, and to use people skills in achieving them. In essence, students learn to take a managerial perspective and to perform such managerial and leadership activities as planning, team building, motivating, organizing, communicating, problem-solving, decision-making. As a result, they gain the knowledge and skills to achieve success—regardless of the industry, field or job position.

All concentration courses must be taken on a letter-grade basis. Students must have a minimum grade point average of 2.0 in all concentration courses.

Bachelor of Science in Business Administration: Concentration in Management — 60 units

Prerequisites to Core Courses
In addition to the core course program required of all business majors,

These courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

### SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

- American Ethnic and Racial Minorities (AERM)  LD or UD  3
- Environmental Sustainability (ES)  LD or UD  3

Global Perspectives  LD or UD  3
Social Justice  LD or UD  3

**Note:** LD = Lower Division; UD = Upper Division.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer:
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit [http://www.assist.org](http://www.assist.org). Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)
Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Minor in Management

Specialized Business Minors

These programs are designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, they can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for business majors wishing expertise in a second field.

Bachelor of Science in Business Administration: Concentration in Marketing

Concentration in Marketing
A concentration in Marketing prepares students for career opportunities in business firms, non-profit organizations, or government agencies. The program provides a basic foundation of business concepts and practices, as well as specialized courses in advertising, public relations, retailing, sales, digital marketing, data analytics, branding, new product development and marketing research. Career opportunities can be found within social media marketing, data analytics, sales and sales management, marketing research, product/brand management, retail management, advertising, merchandising, public relations, and non-profit agencies.

All concentration courses must be taken on a letter-grade basis. Students must have a minimum grade point average of 2.0 in all concentration courses.

Bachelor of Science in Business Administration: Concentration in Marketing — 60 units

Prerequisites to Core Courses
In addition to the core course program required of all business majors, these courses must be completed before enrollment in certain core courses. Most core courses have specific prerequisites that are listed within the course descriptions

Note: DS 110, ECON 101, and ECON 102 (formerly ECON 100) are acceptable for General Education.

Except in cases of credit by examination, no more than 6 units of the core may be offered toward graduation on a CR/NC basis.

Students must earn a grade of C- or higher in core business courses being used as prerequisites for other core business courses. Students who received grades of D-, D, or D+ before spring 2005 will be given an exception to this rule for any such courses.

#### SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

- American Ethnic and Racial Minorities (AERM) | LD or UD | 3
- Environmental Sustainability (ES) | LD or UD | 3

### Bachelor of Science in Business Administration: Concentration in Marketing

</tr>
</tbody>
</table>

**Note:** LD = Lower Division; UD = Upper Division.

### General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer:
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)
Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements.
Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Units 15

Total Units 120-122

---

1. To avoid taking additional units, it is recommended that you meet LLD and SFSU Studies requirements (AERM, GR ES, SJ) within your GE
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP
3. you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses
4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied

Minor in Marketing

Specialized Business Minors

These programs are designed to provide undergraduates with a focused exposure to a particular area of business practice rather than the broad exposure of the General Business Minor. As such, they can provide professional and technical skills needed for entry into specialized business employment for non-business majors or serve as an alternative to a double major for business majors wishing expertise in a second field.

World Development Studies

World Development Studies Program

Health and Social Science Building, Room 149
(415) 338-1116
Coordinator: Phil King

Program Scope

The field of world development studies looks at the comprehensive transformations that have been brought to human societies across the globe by the spread of the industrial revolution. Approximately one-third of the world’s population enjoys a higher material standard of living due to industrialization, whereas two-thirds are in relative poverty. The likelihood, means, and consequences of closing this gap provide the central foci of world development studies. Since this social transformation affects all aspects of human existence, all of the social science disciplines devote important efforts to understanding it.

Issues Central to World Development Studies

• How did the world distribution of income and wealth become so unequal, and will or must it stay that way?
• Can economic development occur in a non-Western way?
• What is the role of grassroots organizations and movements in social change?
• In development strategy, how much market and how much planning?
• How does the development process impact women differently from men?
• Are industrialization and environmental health compatible?
• Is economic development necessarily associated with democracy?
• What does global change do to existing cultures and psyches?

Career Outlook

Though the minor is not intended as a complete career preparation, it certainly serves as an introduction to a growing career field. There are tens of thousands of development professionals working for governments, the United Nations and its affiliated agencies, a multitude of non-governmental organizations, development banks, universities, and private companies around the world. The minor enables the student to discover a major field of employment as well as scholarly activity.

Professors

Banerjee, Barbosa, Moss, Øiate, Shastri, Yansane

Associate Professors

Keith, King, Quesada

World Development Studies Minor – 22 – 28 units

All courses must be approved by a faculty advisor, who should be contacted as soon as a student decides to declare the minor. All student’s program must include courses with at least three different departmental prefixes. Substitutions are possible with an advisor’s approval.

Historical Background (3 units)

Select one of the following:

(ANTH 699, ECON 699, etc.)
BUSINESS GRADUATE PROGRAMS

General Information
The College of Business Graduate Programs are located at the San Francisco State University Downtown Campus.

835 Market Street, Suite 600
San Francisco, CA 94103
(415) 817-4300
Email: mba@sfsu.edu

The College of Business offers three programs at the graduate level:

M.B.A. This is the most flexible graduate business degree program. The program is designed to accommodate needs of both full-time and part-time students. The program allows for specialization in several areas of emphasis or a concentration in Sustainable Business.

M.S.A. The M.S. in Accountancy program allows for advanced specialization in accounting for both full-time and part-time students. Courses for this program are primarily offered at the Downtown Campus. More details on this program are available on the M.S.A. webpage (http://bulletin.sfsu.edu/colleges/business/accounting/ms-accountancy).

Executive M.B.A. This is a fixed curriculum, cohort-based, weekend program for working professionals offered at the Downtown Campus. For more details, see the E.M.B.A. program description at the bottom of this page.

General Guidelines for Graduate Programs
All students planning to complete a master’s degree in business must complete all requirements including professional development workshops, the program prerequisite classes, and the advanced requirement courses.

Registration in graduate courses in business (700–899) is limited to graduate business students or students in a graduate business certificate program. Graduate students in other majors may enroll on a space-available basis with the consent of the Faculty Director of Graduate Business Programs.

Registration in ACCT 890 and BUS 890 (Culminating Experience courses) is limited to classified graduate business students.

Grading Policy
Program prerequisite and advanced requirement courses must be taken on a basis of letter A, B, C, D, F grading. At the instructor’s discretion, pluses and minuses may be used. CR/NC grading is not allowed. The minimum grade for advanced requirement courses is a C.

ACCT 890 and BUS 890 (Culminating Experience courses) must be completed with a B- or better grade.

Grade Deficiency
A graduate business student whose coursework drops below a 3.0 grade point average during a semester, will be notified that s/he has been placed on academic probation. If the grade point deficiency is not made up, the student may be disqualified effective the beginning of the semester following the first probationary semester. In such situations, the student will not be allowed to enroll in graduate level business courses at the program prerequisite and advanced requirement level.

Any student who becomes disqualified under the above provisions and wishes to appeal such disqualification must file a formal appeal within 10 days of the date of notice of disqualification. Such appeal must be filed with the Faculty Director of Graduate Business Programs.

The specified course requirements and stipulated conditions for the graduate business programs may not be changed, substituted for, or altered in any way. Exceptions to this rule must be requested, in writing, before the course work is attempted and must be approved by the Faculty Director of Graduate Business Programs.

Master of Business Administration
The M.B.A. program is designed as a balanced preparation for managerial careers in business. Its purpose is to prepare students for responsible positions in a rapidly changing world; to develop an attitude of intellectual curiosity; to foster a program of continuous learning throughout life; and to apply business skills to all types of endeavors. Students may choose an area of emphasis or a concentration in Sustainable Business (note that an emphasis does not appear on the student’s degree).

Accreditation
The M.B.A. program is accredited by the most respected business accrediting association in the world, the Association to Advance Collegiate Schools of Business (AACS). San Francisco State University is also accredited by the Western Association of Schools and Colleges (WASC). This ensures continuous improvement of faculty in teaching, research, and professional service.

Admission
U.S. citizens, permanent residents, and international students are accepted for both fall and spring admission according to the following schedule.

- Fall semester filing period: October 1 through May 15 (international applicants). October 1 through May 30 (domestic applicants). There are three rounds of application deadlines during this period.
• Spring semester filing period: August 1 through October 15 (international applicants). August 1 through November 1 (domestic applicants).

The above dates are subject to change. Check the Graduate Business Program’s website for the latest dates.

**Application Process**
Each applicant to the M.B.A. program must submit the following documents:

• California State University Application for Graduate or International Admission plus an application fee of $55
• One official transcript from every college or university attended
• The score on the GMAT (Graduate Management Admissions Test) or GRE (Graduate Record Examination). The deadline to take the GMAT or GRE is May 15 (international applicants) or May 30 (domestic applicants) for Fall admission and October 15 (international applicants) or November 1 (domestic applicants) of the prior year for Spring admission.
• A statement of purpose showing how the desired graduate business program is related to the applicant’s career and future goals. Please refer to the College of Business website for a list of questions that should be addressed in the statement of purpose.
• TOEFL, IELTS, or Pearson Test of English is required for admission from all applicants who have completed their undergraduate degree in a non-English speaking country.
• Résumé or curriculum vitae
• Two letters of recommendation
• International applicants will need to file the Financial Affidavit form to obtain an I-20 Certificate of Eligibility

The California State University Application for Admission may be submitted before other documents are submitted, but the admission decision is not made until all required materials are received.

**Admission Criteria**
The College of Business admissions committee reviews an applicant’s overall qualifications and takes the following requirements into consideration:

• Completion of a degree equivalent to a four-year U.S. bachelor’s degree from a recognized university.
• A minimum 3.0 Grade Point Average overall, or in the last 60 semester units or 90 quarter units of university coursework completed (average incoming class GPA is 3.3)
• GMAT exam including total score, verbal, quantitative, writing scores, and integrated reasoning scores (average incoming class total GMAT score is 570) or the GRE test verbal, quantitative, and writing scores. A GMAT AWA score of 5.0 or a GRE AWA score of 4.5 or higher is required for classified admission. A GMAT AWA score of 4.5 or GRE AWA score of 4.0 is acceptable, however, a student will be conditionally admitted and must complete an approved College of Business writing course.
• Quality of statement of purpose using guidelines stated on College of Business website
• Two supportive letters of recommendation from workplace supervisors or faculty members
• Qualifications on résumé

• TOEFL score of at least 590/243/96 or IELTS score of at least 7.0 or PTE score of at least 65. The TOEFL, IELTS or PTE must have been taken within the past two years and is a requirement of all applicants who have earned their undergraduate degree from a country where the official language is not English.

Meeting minimum qualifications does not guarantee admission to the program.

**Executive Master of Business Administration (E.M.B.A.) program**

**General Information**
The Executive M.B.A. (E.M.B.A.) is a fixed curriculum, 23-month, part-time cohort program designed to accelerate careers of mid-level managers into executive management. Students in the EMBA program attend courses on Fridays and Saturdays, every other week. There is a total of 12 courses required for the entire program.

**Accreditation**
The E.M.B.A. program is accredited by the most respected business accrediting association in the world, the Association to Advance Collegiate Schools of Business (AACSB). San Francisco State University is also accredited by the Western Association of Schools and Colleges (WASC). This ensures continuous improvement of faculty in teaching, research, and professional service.

For information on the E.M.B.A. program Application process, admission criteria and program requirements, see the College of Business website: Executive MBA Program (E.M.B.A.) (http://cob.sfsu.edu/graduate-programs/EMBA)

**Program Requirements**

**Orientation and Professional Development Workshops**
Admitted students are expected to attend the required orientation prior to the start of their first semester. The Graduate Business Programs orientation helps students prepare for the academic program and also includes professional development workshops.

**Prerequisite Courses**
Prerequisite courses offer students without a business undergraduate degree the opportunity to learn the basic elements of business. Depending upon a student’s previous academic background, the prerequisite courses may range from zero to 24 units. The program requirements are met by taking the eight business prerequisite courses below or by waivers of individual courses based on previous equivalent course work.

Students who have earned a bachelor’s degree in business administration within the past seven years from an Association to Advance Collegiate Schools of Business (AACSB)-accredited university, with a minimum 3.0 GPA in the last 60 semester units of coursework, automatically meet the program prerequisites. An up-to-date listing of AACSB schools around the world can be found on the AACSB International website (http://www.aacsb.edu). Students who have taken and completed course work equivalent to any of the prerequisite courses at other institutions within the last five to seven years may be able to waive individual prerequisite courses. Each equivalency is determined by course content, grade received, and the amount of time elapsed since the course was completed.
For students who completed their undergraduate degree in business over seven years ago, the program prerequisite courses offer an opportunity to refresh their knowledge and catch up on advances that have taken place in the different disciplines.

**Advanced Requirements for M.B.A. Program (6 Units)**

**Quantitative Requirement**  
Select one of the following:  

- ACCT 831  
  Financial Statement Analysis  
- DS 852  
  Managerial Decision Making  
- FIN 819  
  Financial Analysis and Management  
- ISYS 814  
  Information Systems for Strategic Advantage  

**Qualitative Requirement**  
Select one of the following:  

- IBUS 815  
  Seminar in International Business  
- MGMT 842  
  Seminar in Organization Design and Change  
- MKTG 860  
  Strategic Marketing  
- BUS 884  
  Business Ethics, Society, and Sustainability  

**Electives (21 Units)**

Advisor approved electives (at least five must be 800-level courses offered by the College of Business, up to two may be graduate level courses within the University with prior advisor approval.) A maximum of two prerequisite courses taken at SF State (BUS 776, BUS 780, BUS 782, BUS 783, BUS 785, BUS 786, BUS 787, BUS 788) may count as electives.

**Culminating Experience (3 Units)**

BUS 890  
Culminating Experience in Strategic Management  

**Advancement to Candidacy**

Before being considered for advancement to candidacy, the applicant must meet all general University requirements, attend all professional development workshops at orientation, satisfy all prerequisite courses, earn an overall SF State Grade Point Average (GPA) of at least 3.0, and complete at least 12 units of College of Business advanced requirement courses.

When requirements have been satisfied, the graduate advisor may recommend to the Dean of the Division of Graduate Studies that the applicant be advanced to candidacy for the degree by filing the Advancement to Candidacy (ATC) form.

**Areas of Emphasis and Concentration**

**Accounting Emphasis**

Graduate Advisors: Hammond, Hetherington, Hsieh

The primary objective of the accounting emphasis is to provide broad-based knowledge in accounting especially directed to managerial positions in the accounting profession and business organizations. The emphasis and elective graduate courses, all at the 800 level, should be selected upon advisement.

**Decision Sciences/Operations Research Emphasis**

Graduate Advisors: Bollapragada, Cholette, Miyaoa, Saltzman, Soorapanth

The decision sciences/operations research emphasis focuses on the connection between real-world business applications and quantitative modeling and analysis techniques. This emphasis includes courses in forecasting, simulation, data analysis, project management, optimization, supply chain management, process improvement and quality management. In these courses, students apply analytical methods and computer-based tools to problems in a wide variety of industries.

**Finance Emphasis**

Graduate Advisors: Hsiao, L. Li, Liu

The primary objective of the finance emphasis is to provide a broad management perspective as well as in-depth analytical skills and conceptual background in the various aspects of domestic and international financial management and decision-making. The courses offered are aimed at understanding, analyzing, and improving managerial decision-making processes in the size of corporate finance, financial markets and institutions, investment and portfolio analysis, and international finance.

The program is designed to prepare the students for employment positions in the field of finance, which require analytical skills and decision-making abilities. Students should carefully check prerequisites for all 800-series courses.

**Global Business and Innovation Emphasis**

Graduate Advisor: Heiman

The MBA emphasis in Global Business and Innovation prepares students to operate effectively in a technological, global, and interconnected world. The emphasis will provide a variety of options for cultural immersion experiences through virtual projects and travel-study experiences.

**Health Care Administration Emphasis**

Graduate Advisors: Chaudhuri, Sengupta

This emphasis will provide students with knowledge and skills necessary to understand the health care industry and health policy in the United States. The curriculum is designed to prepare students to apply business skills and succeed in supervisory or managerial positions in both for-profit and not-for-profit health care organizations.
Hospitality and Tourism Management Emphasis
Graduate Advisors: Johnson, Roe, Walls, Yang

The hospitality and tourism management emphasis provide advanced, specific knowledge in important hospitality areas, especially directed to managerial positions in the hospitality profession and related service organizations.

Information Systems Emphasis
Graduate Advisor: Sayeed

The Information Systems program aims to prepare professionals who specialize in technologies that facilitate information system development, information consolidation and analytics in an environment that is integrated through mobile and cloud-based devices to support business strategy.

Leadership Emphasis
Graduate Advisors: Baack, Marks

The emphasis in leadership focuses on the skills necessary to lead organizations in a complex and rapidly changing world.

Management Emphasis
Graduate Advisors: Baack, Flatt, Marks

The management emphasis provides students with practical knowledge and skills in organizational development and change, organizational behavior, and organization design. This emphasis is designed for students who wish to pursue general management careers or who wish to specialize in facilitating organizational development and change as consultants or change agents.

Marketing Emphasis
Graduate Advisors: Bhat, Sengupta

The marketing emphasis prepares a student for career opportunities in business firms, non-profit organizations, or governmental agencies. The combination of graduate work and specific job experience can lead to staff or line positions in general marketing, sales, digital and social media marketing, advertising, new product development, retail management, marketing research, and marketing analytics, among others.

Strategic Leadership in Emerging and Developing Markets Emphasis
Graduate Advisors: Simeon, Ungson, Yang

This emphasis provides students knowledge of global trends and a substantive understanding of emerging opportunities and issues in a rapidly globalizing world. The courses will focus on, though not be confined, to study of emerging and developing markets.

Sustainable Business Concentration
Graduate Advisors: Thomas, Desa

The Concentration focuses on four aspects of sustainable business that create stakeholder value and improve a firm's long-term market impact: Providing effective values-based leadership of green teams and responsible organizations; Identifying and pursuing strategic market opportunities created by environmental and social challenges; Using innovative solutions-based analytical frameworks and tools to address stakeholder needs; Managing risk (regulatory, reputation, climate, market) and tracking/reporting sustainability metrics. Students in the program learn how to articulate the business case for sustainability; conceptualize innovative products and services; lead internal and external coalitions; drive organizational change; and implement metrics to measure sustainability progress and incorporate accountability for responsible decision-making.

Students in the sustainable business concentration must complete MGMT 856 (Managing the Sustainable Business), BUS 857 (Business Management and Environmental Leadership), MGMT 858 (Sustainability and Business Opportunity) and two 800-level business electives on advisement.
BUSINESS CERTIFICATES

Undergraduate
- Certificate in Commercial Real Estate for Finance Majors (p. 293)
- Certificate in Information Technology Auditing (p. 293)
- Certificate in International Business (p. 293)
- Certificate in the Study of Public Accountancy (p. 294)

Graduate
- Business Certificate in Ethics & Compliance (p. 291)
- Certificate in Accounting (p. 292)

Business Certificate in Ethics & Compliance

The Business Certificate in Ethics & Compliance is a unique program that fulfills management and business needs for Ethics and Compliance professionals in growth industries such as healthcare, biotech, pharmaceutical, information technology services and products, finance and accounting, manufacturing and hospitality.

The Business Certificate in Ethics & Compliance provides access to post-undergraduate level students and professionals seeking very specific academic training. These individuals may already have either a graduate degree or are seeking graduate-level certificate course preparation for their further professional development.

Ethics and Compliance (E&C) specialists work to prevent their organizations from committing errors that violate ethical standards of best practice or regulatory compliance. E&C specialists assess a company’s potential adverse or ethical impacts on their stakeholders. These specialists may also use analytical tools, such as Enterprise Risk Management (ERM), to proactively measure the effectiveness of ethical practices and assess compliance with U.S. and global regulations by identifying specific situations of risk to an organization’s stakeholders (i.e., employees, customers, suppliers, regulators, and communities).

Two key areas of need for E&C specialists are leadership in instilling internal control and strategic planning in various functional areas of a company. Their role is to reduce the risk of unethical or illegal activities by individuals working in organizations through the development of policies and procedures to prevent these ethical failures. E&C specialists must be able to navigate within an organization to instigate best practices using ethical negotiation skills. Examples of tools developed by E&C specialists include developing and supporting corporate codes of conduct, employee training, regulatory compliance processes, analytical assessment and forecasting, negotiation strategies, as well as advisement to top management and senior organizational leaders towards ethical corporate cultures.

A student in the Business Certificate in Ethics & Compliance program may apply the academic credit for the three courses to the SF State College of Business M.B.A. program after applying for and being accepted to the M.B.A. program (matriculate), but the student must complete the M.B.A. program within seven years from the completion of each Business Certificate in Ethics & Compliance class for each class to receive credit towards the M.B.A. M.B.A. students who satisfy the Emphasis in Ethics and Compliance will be eligible for the Business Certificate in Ethics & Compliance. (Please see the following guidelines on the certificate program application and enrollment into the M.B.A. program.)

Certificate learning outcomes include developing key skills for students in:
- ethical issues identification and solutions-based mindsets, (MGMT 850)
- ethical analysis and data-analytics decision-making models for strategic planning, (MGMT 850)
- understanding the demands of transparency and Sunshine Laws, (MGMT 850)
- effectively understanding, negotiating and managing business risks and safety for stakeholders, (BUS 859/IBUS 859, MGMT 857)
- understanding the compliance and regulatory challenges of global business practices,
  - examples include: FCPA, Sunshine Laws, HIPAA, Affordable Care Act, ADA,
  - EEOC, Sarbanes-Oxley, Dodd-Frank, EPA, etc. (MGMT 850)
- compliance aptitude as a strategic partner for organizational integrity, (MGMT 850)
- measuring and auditing the effectiveness of compliance programs, (MGMT 850)
- integrating ethics and aligning compliance management and risk management with analytics, (MGMT 850)
- understanding the complexities of technology and protections for stakeholder privacy, (MGMT 850)
- developing organizational operations, training and structures under Chief Ethics and Compliance Officers, (BUS 859/IBUS 859)
- operating as change agents in the negotiation to effect organizational change, (BUS 859/IBUS 859)
- developing best practices in leadership of organizational processes and managing stakeholder impacts. (MGMT 857)

Business Certificate in Ethics & Compliance – 9 Units

Required Courses
Students must complete each of the following courses with a letter grade of at least a B. The three courses selected are critical skill-building courses in foundational ethics and compliance, operational organizational leadership with integrity, and applied negotiation skills in working inter- and intra-organizationally.

Admissions Requirements

Baccalaureate degree with a minimum of a 3.0 GPA demonstrated on submitted sealed or electronic university or college transcripts and an English writing sample will be required to be admitted as a post-baccalaureate unclassified student to the Business Certificate in Ethics & Compliance program. San Francisco State University accepts applications for admission for the Fall and Spring semesters only, but some courses in the certificate program may be offered during the summer months. Admissions decisions for student acceptance/decline for the program will be 4–6 weeks after all transcripts are received.
Application – Two Steps
Apply to the College of Business and the University online at: http://cob.sfsu.edu/graduate-programs/graduate-checklist. You will be able to apply directly to the Business Certificate in Ethics & Compliance program and San Francisco State University on this page. Please note that there will be two online applications, one for the university application and one for the certificate program application. At the CSU Mentor website at http://www.csumentor.edu, pay the required application fee and submit your official transcripts from all colleges and universities attended to the Division of Graduate Studies. Applicants with multiple transcripts should remember that it may take the college or university issuing the transcripts several weeks to send the documents to SF State. To ensure more rapid processing, applicants should gather official University-sealed transcripts from each institution previously attended, place them together in the same large envelope and submit them by mail or in person to

Graduate Admissions
San Francisco State University
1600 Holloway Avenue (ADM 250)
San Francisco, CA 94132-4013

eTranscripts will be accepted from participating universities and should be sent to gradstdy@sfsu.edu.

Transfer Credit from Other Institutions, including graduate courses taken at another university, are not transferable to the College of Business Certificate in Ethics & Compliance program.

Be mindful of the University and College of Business certificate program deadlines. University deadlines are found at: http://grad.sfsu.edu/program-deadline-dom and the Business Certificate in Ethics & Compliance application deadlines are July 15 for Fall admission and November 1 for Spring admission. Evaluation of a student application will not be initiated until all University application materials have been received. Admissions decisions for student acceptance/decline for the program will be 4–6 weeks after all transcripts are received.

Notice of Admission or Denial
After review of all application materials, the College of Business Certificate in Ethics & Compliance admission committee will notify the SF State Graduate Admissions office of their admission recommendations. Applicants will be formally notified of their admission status 4–6 weeks after all transcripts and records are received with receipt of the official SF State Graduate Admission Notification Letter, issued by the SF State Division of Graduate Studies. Letters of admission from the Business Certificate program received prior to the official SF State Admission Notification Letter are not binding. Applicants who are denied by either the University or the College of Business Certificate program will receive notification of denial from the Division of Graduate Studies. Applicants can monitor their admission status online on the SF State Gateway, which can be accessed 24/7 from the Graduate Studies or University main web pages.

Admission status as Post-baccalaureate Unclassified: Students admitted to the Graduate Business Certificate in Ethics & Compliance program will register for classes as Post-baccalaureate Unclassified students and should contact the College of Business Graduate Studies office for scheduling an advisor meeting prior to registering for the certificate courses.

Certificate in Accounting
General Information
A graduate-level academic certificate in accounting is offered to those wishing to reach the eligibility requirement of 150 credits of coursework to practice as a Certified Public Accountant (CPA) in California.

This may also appeal to individuals working in accounting who wish to update their knowledge and skills. Students in this program will be able to test the waters before committing to a longer program of study such as the Master of Science in Accountancy (M.S.A.) degree. This program is also appropriate for individuals with accounting degrees from other countries who wish to prepare for the CPA exam by taking courses specific to American accounting regulations.

Who can apply
Individuals with a bachelor’s degree, at least a 3.0 undergraduate GPA, and a basic knowledge of financial accounting provided by the Foundation BUS 780 course (or equivalent, e.g., ACCT 100) are eligible to apply for the certificate in accounting.

Program features
The certificate offers students flexibility in choosing from a variety of courses in different areas of accounting. The program is held at the San Francisco State University Downtown Campus, close to the financial district with plenty of opportunities for part-time and full-time work.

Learning outcomes
Develop key skills to prepare you for the certified public accounting examination and a professional career in accounting, including:

- Financial Reporting
- Auditing
- Ethics
- Business Law
- Taxation
- Cost Accounting

Professor Su-Jane Hsieh sjhsieh@sfsu.edu

Certificate in Commercial Real Estate for Finance Majors

The Certificate in Commercial Real Estate is open only to B.S. Finance majors.
The Building Owners and Managers Association, San Francisco Foundation (BOMA SF Foundation) has partnered with SF State to provide support for several courses in commercial real estate. Students earn a Bachelor of Science degree in Business Administration with a Concentration in Finance and a Certificate in Commercial Real Estate.

Career Opportunities

According to BOMA SF Foundation, "one of the most demanding issues facing the commercial real estate industry today is how to replace a large aging workforce soon to retire". Jobs with great compensation and opportunities for career advancement are available in the commercial real estate industry, including property management, facilities management, asset and portfolio managers, real estate leasing and brokerage, and building engineering.

Commercial Real Estate Certificate – 12 units

To earn a certificate in Commercial Real Estate (CRE), students must satisfy the following three requirements:
1. Completion of the following four courses:
   - FIN 365 Real Estate Principles 3
   - FIN 370 Fundamentals of Real Estate 3
   - FIN 371 Commercial Real Estate Financial Management 3
   - FIN 372 Commercial Leasing and Development 3

2. Earn an overall GPA of 2.0 across these four courses.

3. Successful completion of the finance major.

Commercial Real Estate Certificate Specifics

Finance majors must complete the requirements of their B.S. degree in business administration with a concentration in finance, plus a minimum of two additional courses.
- Five required finance concentration courses: FIN 303 or FIN 357, FIN 351, FIN 353, FIN 355, and FIN 536.
- Four required CRE finance courses: FIN 365, FIN 370, FIN 371 and FIN 372.

FIN 370, FIN 371, and FIN 372 are 100% funded by the Building Owners & Managers Association San Francisco Foundation (BOMA SF Foundation). The certificate will be branded with BOMA SF Foundation’s sponsorship.

Certificate in Information Technology Auditing

General Information

The Certificate in Information Technology Auditing, offered by the Department of Information Systems, is designed to meet the needs of professionals with academic preparation and work experience in related fields by teaching concepts and applications in the area of information technology auditing. The certificate is focused on networking security issues from both the theoretical and practical perspectives. It is a coherent set of academic courses that does not lead to a degree in information technology auditing. The award of a completion certificate means the holder has completed the required courses that will help prepare them to sit for professional examinations.

The program serves the needs of non-matriculated students who have an appropriate academic background as well as full-time work experience in related fields and who wish to gain knowledge in the area of information technology auditing. It is designed to service the business community by helping fulfill the growing demand for specialists in this area.

Admission to the program is limited and is based on the appropriateness of the students' academic background and work experience. In order to be admitted to the certificate program, a candidate must have completed at least 60 units of undergraduate courses with a GPA of at least 2.7 in all courses.

The courses are graded on an A-F basis. A minimum grade of C- must be maintained in all course work as well as an overall B average. Before completing the program, all candidates must demonstrate the appropriate level of writing competency as prescribed by the program.

Information Technology Auditing

Certificate – 36 units

Required Courses (9 units)
- ISYS 463 Information Systems Analysis and Design 3
- ISYS 464 Managing Enterprise Data 3
- ISYS 565 Managing Enterprise Networks 3

Upper Division Electives (27 units)
Selected on advisement.

Depending on the candidate’s formal education and business experience, additional courses could be required as prerequisites to the above curriculum. Because of the possible prerequisite requirements, a determination of the total curriculum by the certificate advisor must be made before a candidate is accepted into the program.

Certificate in International Business

Purpose

The Certificate in International Business is designed to offer international students and non-matriculated U.S. residents the opportunity to acquire competencies in international business in two semesters. The program consists of eight specified courses that focus on conceptual, theoretical, and practical skills as well as overall knowledge of international business. Although the program does not lead to a degree in international business, it prepares students to seek a career or advancement in international
business. The award of a certificate means the holder has completed the required courses at an acceptable level of academic accomplishment. The certificate indicates to a prospective employer that the University validates the certificate program in international business.

**Admission Requirements**
Selection for admission to the program will be based on student objectives, academic background, and recommendations as appropriate. In order to be admitted to the program, a candidate should have completed the equivalent of 56 units or more of undergraduate courses through course work and/or appropriate professional or other preparation. Grades in coursework completed should be of an average level equivalent to a GPA of 2.3 or higher on a 4.0 U.S. scale, or an equivalent combination of educational and professional preparation, in her/his home country. English language ability must be demonstrated by adequate scores on the TOEFL examination (Test of English as a Foreign Language), TOEIC examination (Test of English for International Communication), or certification by appropriate academic personnel.

**Admission Procedures**
All candidates must complete the application forms for the Certificate in International Business, which are available from the Department of International Business and the College of Extended Learning. Students will be notified of their admittance status by the program coordinator. The coordinator will arrange for student registration through Open University on a space-available basis.

**Written English Proficiency Requirement**
English proficiency at the conclusion of the program will be determined through evaluation of written papers in IBUS 590. Satisfactory performance in writing is required for both passing the IBUS 590 course and for completing the program.

**Curriculum**
Students must complete two semesters of course work from international business core and specialized courses. Students who have specific educational or career needs may be allowed to vary selection of courses in the program after consulting with and obtaining written approval from the program coordinator.

**International Business Certificate – 24 units**

**First Semester (12 units)**
- IBUS 330 International Business and Multicultural Relations 3
- IBUS 430 Import-Export Management and Small Business Operations 3
- IBUS 681 Seminar in Comparative Management 3

**Electives**
Select one of the following area study courses: 3
- IBUS 591 Doing Business in Latin America
- IBUS 592 Doing Business in Greater China
- IBUS 593 Doing Business in Europe
- IBUS 594 Doing Business in Asia-Pacific Countries
- IBUS 596 Doing Business in Japan
- IBUS 598 Doing Business in Emerging Markets

**Second Semester (12 units)**
- IBUS 590 International Environmental Analysis 3
- IBUS 690 Global Strategic Management 3

**Electives**
Select two of the following: 6
- IBUS 440 Advanced Import-Export Management
- IBUS 517 Legal Environment of World Business
- IBUS 531 Cross-Cultural Innovation and Creativity in Business and Management
- IBUS 566 Careers in International Business
- IBUS 567 Internship in International Business
- IBUS 618 International Human Resource Management
- IBUS 620 Research in International Business and the Global Market
- IBUS 638 Global Leadership and Cultural Competencies

- IBUS 676 Social Entrepreneurship in a Global Context
- IBUS 699 Independent Study

**Award of the Certificate**
The certificate will be awarded by the dean of the College of Extended Learning, and will also be signed by the coordinator of the certificate program. Notice of issuance of the certificate will be entered on the student’s official academic record.

**Certificate in the Study of Public Accountancy**

**General Information**
This program is currently under review for discontinuance.

The Certificate in the Study of Public Accountancy program targets SF State matriculated business students as well as students pursuing or possessing an undergraduate degree in business related disciplines from other accredited institutions who are interested in the field of public accounting. Students in this program will find that it will assist them in preparation to become a Certified Public Accountant (CPA). Completion of this certificate itself does not represent CPA certification. The certificate program is offered through Open University in conjunction with the Department of Accounting and reflects what the American Institute of Certified Public Accountants regards as the common body of knowledge for CPAs. The content of the program also enhances accounting students’ formal business education.

SF State matriculated undergraduate business students must pass the ACCT 301 pretest and have completed 56 units of college credits with a minimum 2.0 grade point average to be eligible for the program. Non-SF State matriculated business students, if not already holding an undergraduate business degree, must have completed 56 units of college credits with a minimum 2.0 grade point average to be considered for admission.

A maximum of five equivalent courses taken from other accredited institutions can be used to waive the required courses above. Depending on the candidate’s formal education, additional courses could be required as prerequisites to, or used as a substitution for, the above curriculum. A determination of the total curriculum by the certificate director must be made before a candidate is accepted into the program. Students must maintain a 3.0 GPA in the certificate course work to earn the certificate.

English Proficiency Requirement
Before completing the certificate program, all candidates before spring 2014 must pass ENG 414 and candidates after spring 2014 must pass a GWAR courses with a grade of C or better. Candidates who have taken and passed an upper division expository writing course at another institution may apply for a waiver of the English proficiency requirement.
EDUCATION DEGREES, CERTIFICATES, AND TEACHING AND EDUCATIONAL SPECIALIST CREDENTIALS

Graduate College of Education
Interim Dean: Nancy B. Robinson

Departments
Elementary Education
Equity, Leadership Studies, and Instructional Technologies
Secondary Education
Special Education & Communicative Disorders

The primary mission of the Graduate College of Education is to prepare reflective, transformative educators, clinicians, leaders, and scholars who advance the broad profession of education across the life span through excellence in the art and science of teaching and learning, research on critical issues in education and communicative disorders, integration of new technologies, and commitment to equity and social justice. Our programs are designed to meet global challenges through authentic learning experiences in academic and clinical environments that are grounded in our commitment to inclusiveness, integrity, community, social action, and evidence-based practice.

Core values of the GCOE are adapted from the SF State Strategic Plan, including: Courage, Life of the Mind, Equity, Community, and Resilience. These values resonate with the GCOE and our commitment to social justice. We embrace these five values and have adapted them to align with the mission of the GCOE.

- **Courage**: Courage enables us to develop a sense of agency that engages students, staff, and faculty in speaking their voices and having their voices heard in forums that honor the contributions of all.
- **Life of the Mind**: Our programs are informed by research, our research is informed by evidence-based practice, and our practice is grounded in our professional commitments as educators, activists, practitioners and clinicians. Collaboration with communities is an integral component of our scholarship, with a focus on uncovering funds of knowledge and community cultural wealth.
- **Equity**: Our focus on equity addresses a broad range of persistent, structural social justice issues, including race, class, gender, sexual orientation, disability, and other forms of marginalization in the 21st century, globalized California.
- **Community**: Our programs promote a climate of inspiration and inclusivity, and are characterized by strong linkages to local and global communities at all levels, birth through adult, in formal and non-formal educational contexts.
- **Resilience**: Our work in collaboration with diverse school, community and clinical settings implies that resilience takes many forms, ranging from promoting transformative resistance to fostering global sustainability, creating an environment that is marked by the generosity of spirit, supporting a thriving environment of mutually supportive human relations.

In order to carry out the mission and vision of the college as reflected in these core values, the Graduate College of Education offers certificates, credentials, masters’ degrees in education (in specific disciplines), doctorates in education and philosophy degrees (jointly with UC Berkeley). The chart below lists the programs and degree offerings in the Graduate College of Education.

For an overview of the paths one might pursue in order to become a teacher or professor, or to get started on another career in education, please visit Teaching and Educational Services Credential Programs. (p. 343)
Equity, Leadership Studies, and Instructional Technologies (ELSIT)

Graduate College of Education

Dean: Interim Dean, Nancy Robinson

Department of Equity, Leadership Studies, and Instructional Technologies (ELSIT)

Burk Hall, Room 239
Phone: (415) 338–1653
Fax: (415) 338–0568

Chair: Doris Flowers

Vision and Mission

The Department of Equity, Leadership Studies, and Instructional Technologies (ELSIT) is a dynamic leader in integrating the following areas:

- Educational leadership and administration
- Teaching, learning, and research
- Lifelong learning and scholarship
- Emerging technologies and pedagogies
- Collaboration and networking.

Social Justice Leadership

The department prepares professionals to critically examine inequities and work to eradicate them through practices that reduce gaps in achievement. It provides opportunities to learn and enables all individuals to reach their full educational potential.

Culture of Community

The department builds a community of practice across faculty and students to prepare education professionals to be innovative thinkers and problem solvers. Students acquire the interpersonal fluency and digital expertise required to engage in leadership as socially responsible practitioners and global citizens.

Program Scope and Career Outlook

The Department of Equity, Leadership Studies, and Instructional Technologies responds actively to the changing needs of schools, communities, and other institutions and provides creative, professional leadership.

The department attracts students from a variety of backgrounds with diverse career goals. Through faculty advisement, a program is planned for each student to match prior training and experience, current interests, and career aspirations. The programs lead to professional roles in public and private schools, government agencies, social agencies, and industry. Possible career opportunities include leadership positions in elementary and secondary schools and community colleges; staff training positions; adult education leadership or practitioner roles; and positions in research, measurement, and evaluation.

The department offers the Preliminary Administrative Services credential. See Credential Programs (p. 28) for more information. Students must submit a CSU Mentor graduate application and a department application.

  - Master of Arts in Education: Concentration in Equity and Social Justice in Education (p. 302)
  - Master of Arts in Education: Concentration in Instructional Technologies (p. 302)
  - Master of Arts in Education: Concentration in Special Interest Area (p. 304)

Certificates

- Certificate in Training Systems Development (p. 298)

Certificate in Training Systems Development

The Certificate in Training Systems Development program is designed for students who do not wish to earn a masters degree or for those who have already earned a master’s degree in a related field. The purpose of the certificate is to develop and update skills and knowledge in the training design and development area in order for students to advance to new positions in corporate or public agency training departments. It offers professional training program developers an opportunity to strengthen and augment their skills. This program is especially useful to students who already hold a masters degree in a related field, such as industrial psychology, broadcast and communication arts, or human resource development or for those who need documentation in training competencies to meet governmental requirements.

Admission to the Program

Applicants to the program must meet the university requirements for all graduate majors. In addition, the department requires that applicants schedule an interview with the department chair to review the applicant’s interest and preparation in the field. For students to advance to this status, they must indicate that they have academic preparation or practical experience. Applicants must also submit a two-page (500–1,000 word) statement of purpose. The statement of purpose should clearly explain the applicant’s career goals and how the certificate will help achieve those goals. The statement of purpose should represent the quality of an applicant’s English-language writing ability.

Students should have foundational competency in computer skills.

Written English Proficiency Requirement

Students must meet Level One written English proficiency by submitting a two-page (500–1,000 word) statement of purpose that will be evaluated
by the department admissions committee. Students who receive an unsatisfactory evaluation of their written application materials must pass an English skills development course with a grade of B or better. The course will be selected in consultation with an advisor.

Program Requirements
Students are required to take nine units of core requirements and nine units of electives. Students select electives based on their interests in consultation with an advisor.

Core Requirements
During the first year of study, all students must take ITEC 800, ITEC 801 and ITEC 850. Students must receive a grade of B or higher in each of the required core courses to receive the certificate.

Electives
Students choose nine units of electives. Since the certificate is focused on training design and development, it is strongly suggested that students choose from that group. However, the choice of electives will depend on the students’ interests, needs, and backgrounds.

Training Systems Development, Certificate – Minimum of 18 units
Core Requirements (9 units)
ITEC 800 Theoretical Foundations of Instructional Technologies 3
ITEC 801 Instructional Systems Design 3
ITEC 850 Design and Management of Training Projects 3

Electives (9 units)
Select three of the following: 9
ITEC 805 Contemporary Developments in Instructional Technologies (topic)
ITEC 825 Formative Evaluation and Usability Testing
ITEC 830 Design of Learning Environments with Emerging Technologies
ITEC 852 Instructional Technologies in Organizations
ITEC 860 Distance Education
ITEC 865 E-Learning Design and Development

Award of Certificate
When all requirements have been met, the student must complete the certificate approved program form. The form, along with transcripts indicating satisfactory completion of all certificate requirements, must be submitted to the chair of the Department of Equity, Leadership Studies, and Instructional Technologies. The chair will then initiate issuance of a certificate to be signed by the department and the dean of graduate studies. Award of the certificate will be entered on the student’s transcript.

Supplementary Authorization to the Teaching Credential
Teachers who have earned a single or multiple-subject teaching credential can earn a supplementary authorization in instructional computing by completing 12 graduate units in appropriate courses in the department. Courses must be selected from any of the following focus areas:

Software Evaluation and Selection
ITEC 715 Foundations of Instructional Multimedia 3
ITEC 815 Integration of Instructional Computing 3
ITEC 830 Design of Learning Environments with Emerging Technologies 3
ITEC 860 Distance Education 3
ITEC 865 E-Learning Design and Development 3

Hardware Operation and Functions
ITEC 715 Foundations of Instructional Multimedia 3
ITEC 815 Integration of Instructional Computing 3
ITEC 816 Computer Resource Specialist 3

Classroom Uses of Computers
ITEC 815 Integration of Instructional Computing 3
ITEC 816 Computer Resource Specialist 3
ITEC 830 Design of Learning Environments with Emerging Technologies 3
ITEC 860 Distance Education 3

The supplementary authorization can be used to verify competencies as a computer laboratory manager or for computer-based teaching. For further information, contact the department.

Master of Arts in Education: Concentration in Adult Education

Graduate Advisors: Flowers, Lee

The program is designed for graduate students who wish to pursue advanced studies in adult learning and educational processes. Program graduates work as leaders in a wide variety of contexts addressing the increasing need for adult education activities in literacy programs, community colleges, the workplace, community-based organizations, and many other settings.

Admission to Program
Entry into the program is open to applicants with a bachelor’s degree from an accredited institution and a 3.0 grade point average in the last 60 units of college course work. Prospective students must submit a CSU graduate application and a department application. In addition to the department application form, applicants must also submit to the department two letters of recommendation, a statement of purpose and transcripts. A faculty committee reviews department applications for admission. Students are admitted in both fall and spring semesters.

Written English Proficiency Requirement
Level One
During the first semester in a program and before filing Advancement to Candidacy (ATC) form, each student must demonstrate graduate-level English writing ability. If remedial work is necessary, the student shall be expected to complete prescribed courses in English, or other corrective work, at a level acceptable to the department.

Level Two
The second assessment occurs within the Culminating Experience course (i.e., either ISED 895 or ISED 898) and by the time an ATC is approved and filed.
**Enrollment Requirement**

Students who were admitted to the MA program before fall 2008 must enroll in the University during the semester of anticipated graduation. To meet this requirement, students may choose to enroll in a zero-unit designated College of Extended Learning course established for this purpose.

Students admitted fall 2008 and beyond have the semester they enroll in the culminating experience course and the following semester to complete their degree requirements. Those who need time beyond the two semesters to complete the culminating experience requirement must enroll in a zero-unit designated College of Extended Learning course every subsequent semester until the requirement is completed.

Students admitted fall 2013 and beyond have only the semester they enroll in the culminating experience course to complete their degree requirements. Those who need additional time beyond that semester must enroll in a three units course, for each additional semester until the culminating experience requirement is completed. Contact the college for further information.

For more information, please contact the department at (415) 338–1653 or come to Burk Hall 239.

**Master of Arts in Education: Concentration in Educational Administration**

or ISED 898  Master’s Thesis

**Faculty**—Celoria

Lecturers: La Torre-Derby, Konopka, Sheppard, Sims

**Faculty Adviser**—Davide Celoria

An excellent faculty, all of whom have held leadership positions in school systems, higher education, and/or private and governmental organizations, staffs the program in educational administration. Each faculty member has developed an individualized area of specialization designed to implement the program and support other activities of the department.

The program in educational administration has been revised to reflect the knowledge base and skill requirements of emerging leadership roles. The curriculum generally includes the following activities: theory and practice under simulated conditions in the classroom; application and analysis of theory in real-life situations, mostly the candidate’s school and/or district; and application and participate in field practicums supervised by a school or district administrator.

The Master of Arts is regarded as the professional degree for educational administrators. It is possible for candidates who meet the California Commission on Teacher Credentialing prerequisites required for the five-year preliminary administrative services credential to concurrently earn both the preliminary five-year administrative services credential and the master’s degree. Students who do not meet the prerequisites required for the preliminary administrative services credential are eligible to earn a master’s degree only.

**Admission to Program**

Entry into the master’s program is open to applicants with a bachelor’s degree from an accredited institution and a 3.0 grade point average in the last 60 units of college course work. Prospective students must submit a CSU graduate application and a department application. In addition to the department application form, applicants must also submit to the department two letters of recommendation, a statement of purpose and transcripts. A faculty committee regularly reviews applications for admission. Students are admitted in both fall and spring semesters.

**Written English Proficiency Requirement**

**Level One**

During the first semester in a program, each student must demonstrate graduate-level English writing ability. If remedial work is necessary, the student shall be expected to complete prescribed courses in English, or other corrective work at a level acceptable to the department.

**Level Two**

The second assessment occurs within EDAD 892.

Prerequisites required for the five-year preliminary administrative services credential are the following:

- Baccalaureate degree, except in professional education, from a regionally-accredited college or university. (Required for admission)
The following:

- California Basic Educational Skills Test (CBEST)
- CSET Multiple Subjects Test plus Writing Skills Test
- A Commission-approved out-of-state basic skills exam
- CSU Early Assessment Program (EAP) or the CSU Placement Examinations
- English Placement Test (EPT) & Entry Level Math (ELM)

- A minimum of five years of successful full-time teaching or pupil personnel or health services, or library services experience (or combination) in public schools or private schools of equal status. Community college experience is not acceptable.

Upon completion of the program, the candidate will receive a preliminary administrative services credential or a certificate of eligibility credential if an administrator position is not yet secured. The certificate of eligibility authorizes one to seek initial employment as an administrator but does not authorize actual administrative service.

**Internship Program**

The internship program is available to students who are offered administrative positions and need the administrative internship credential. Entry into this program requires a request from the district office to the chair of the Department of Equity, Leadership Studies, and Instructional Technologies. Intern candidates must meet the criteria for the preliminary administrative services program as stated above prior to assuming internship administrative responsibilities.

Internship program students enroll in the same courses as preliminary administrative services program candidates with the exception of the following courses that are only for students admitted into the internship program with prior approval by the internship faculty advisor.

EDAD 822 may be substituted for EDAD 733; EDAD 823 may be substituted for EDAD 743; EDAD 824 may be substituted for EDAD 753 (all three unit courses)

For additional information, please contact the ELSIT department office at (415) 338-1653 or Burk Hall 239.

**EDAD 892 Internship - Educational Administration II**

**Note:** Entry-level assessment of administrative competence is conducted at EDAD 713 and EDAD 892 for the exit-level assessment.

**Clear Administrative Services Credential**

Prerequisites for admission are the following:

- A preliminary administrative services credential.
- A Clear California teaching credential or pupil personnel services credential, health services credential, library services credential, designated subjects credential with a baccalaureate degree, or clinical or rehabilitative services credential.
- Two years of successful, full-time employment in an administrative position requiring a preliminary administrative services credential.

The coursework designed to prepare candidates for the clear administrative services credential is listed below. All candidates interested in admission to the program must first enroll and be assessed in EDAD 850. The student’s advisory committee performs an exit assessment on the student’s professional administrative practicum/competence.

**Continuous Enrollment Requirement**

Students who were admitted to the master’s program before fall 2008 must be enrolled in the University during the semester of anticipated graduation. To meet this requirement, many students choose to enroll in a zero-unit designated College of Extended Learning course established for this purpose.

Students admitted fall 2008 and beyond have the semester they enroll in the culminating experience course and the following semester to complete their degree requirements. Those who need additional time beyond the two semesters to complete the requirement must enroll in a zero-unit designated College of Extended Learning course every subsequent semester until the requirement is completed.

Students admitted fall 2013 and beyond have the semester they enroll in the culminating experience course to complete their degree requirements. Those who need additional time beyond that semester must enroll in EDAD 899 (3 units), for each additional semester, until the culminating experience is completed.

For more information, please contact the department or the Credential and Graduate Services Center (BH 244).

ISED 797 Seminar in Educational Research

Master of Arts in Education: Concentration in Equity and Social Justice in Education

Graduate Advisors: Flowers, Hemphill, Lee

The program addresses current issues in culture, language, ethnic, and gender diversity in education. The program focuses on the theoretical, historical, and political perspectives of race, class, gender, language, and sexual orientation as they apply to the theory and practice of education. In so doing, equity and social justice become key end goals for the educational process. Graduates of this program are able to work on related issues in public education, non-profit groups, public service, and private organizations.

Admission to the Program

Entry into the Master’s program is open to applicants with a Bachelor’s degree from an accredited institution and a 3.0 grade point average in the last 60 units of college course work. Prospective students must submit a CSU Graduate Application and a Department Application. In addition to the Department Application form, applicants must also submit to the Department two letters of recommendation, a statement of purpose and transcripts. A faculty committee reviews applications for admission on a regular basis. Students are admitted in both fall and spring semesters.

Written English Proficiency Requirement

Level One

During the first semester in a program and before filing an Advancement to Candidacy (ATC) form, each student must demonstrate graduate-level English writing ability. If remedial work is necessary, the student must complete prescribed courses in English or other corrective work, at a level acceptable to the department.

Level Two

The second assessment occurs within the Culminating Experience course (i.e. either ISED 895 or ISED 898) and by the time an ATC is approved and filed.

Continuous Enrollment Requirement

Students admitted to the master’s program before fall 2008 must be enrolled in the University during the semester of anticipated graduation. To meet this requirement, many students choose to enroll in a zero-unit designated College of Extended Learning course established for this purpose.

Students admitted fall 2008 and beyond have the semester they enroll in the culminating experience course and the following semester to complete their degree requirements. Those students who need additional time beyond the two semesters to complete the requirement must enroll in a zero unit designated College of Extended Learning course every subsequent semester until the culminating experience is completed.

Students admitted fall 2013 and beyond have the semester they enroll in the culminating experience course to complete their degree requirements. Those who need additional time beyond that semester must enroll in EDUC 499 for each additional semester, until the culminating experience is completed.

For more information, please contact the department at (415) 338–1653 or Burk Hall 239.

Students must complete at least 24 units in courses designated by the prefix ISED. These courses include all core and required classes. In addition, pursuant to Graduate Division requirements, a minimum of one-half the total number of units taken for the degree must be at the 700–899 level.

Master of Arts in Education: Concentration in Instructional Technologies

Graduate Advisors: Donohue, Merchant

The Department of Equity, Leadership Studies, and Instructional Technologies offers the Master of Arts in Education with a concentration in Instructional Technologies, and an 18-unit Certificate in Training Systems Development. The program prepares professionals in: online and e-learning instructional design, design of technology-based instruction for K–20 educators or trainers in a variety of business and industry environments, and design for problem-based learning solutions. The program also offers a California supplementary authorization in computer science for K–12 teachers who complete 12 units of coursework in the four required areas.

The ITEC program offers all courses online and many in blended learning environments with simultaneous in-class and online attendance using a
web conference system. The program accommodates distance learners and can be completed in an average of 3–5 semesters. Additional courses are offered in special Winter or Summer Sessions.

The program prepares participants for careers in the prestigious, fast-moving Instructional Design field. Students gain skills with traditional and emerging learning technologies, choosing courses in mobile applications, Web design, gamification, augmented/virtual reality, social networking and assistive/adaptive technologies. Students are introduced to a variety of pedagogies for learning from established to current learning strategies. Students create instruction for various learners, designing learning for mobile, e-learning, and face-to-face instruction using a number of software, hardware, and physical technologies. Graduates become instructional designers for corporations, industry, public service organizations, and classrooms. Alumni can be found around Bay Area companies and school districts as well as across the state. The program prepares students in traditional Instructional Systems Design methods as well as rapid prototyping, agile and design-based methodologies.

ITEC caters to the working adult with all courses offered in late afternoons or evening. Students develop a career pathway and a portfolio during their studies. For further information, contact either of the ITEC program coordinators: Dr. Patricia Donohue (pdonohue@sfsu.edu), or Dr. Zahira Merchant (zahiram@sfsu.edu).

Admission to the Program

Admission to the program in is a two-step process that should be completed simultaneously.

1. Apply to the University. Complete the on-line CSU Mentor application. Follow all other requirements for admission to the University by accessing http://grad.sfsu.edu/.

2. Meet Department requirements as noted:

Applicants should schedule an interview with the program coordinator to go over the applicant’s interest and preparation in the field. In addition, two letters of recommendation and a two-page (500–1,000 word) Statement of Purpose are required. Letters of recommendation should come from professionals who can attest to the applicant’s promise as a graduate student and professional educator. The statement of purpose should clearly explain the applicant’s educational and career goals and how the M.A. degree will help achieve those goals. The statement of purpose should represent the quality of an applicant’s English-language writing ability. Applicants must have basic computer literacies.

Written English Proficiency Requirement

Level One

Applicants must submit a writing sample in the form of a two-page (500–1,000 word) statement of purpose that will be evaluated by the department admissions committee. Students who receive an unsatisfactory evaluation of their written application materials may be admitted conditionally and required to earn a B or better in an English skills development course within the first two semesters. The course will be selected in consultation with an advisor.

Level Two

Level Two is satisfied by the successful completion of the culminating experience (ITEC 894 or ITEC 895).

Continuing Enrollment Requirement

Students admitted fall 2013 and beyond must meet the University’s continuous enrollment requirement that stipulates students be enrolled in their continuing experience course during the semester of anticipated graduation. Students must maintain enrollment every semester after they have registered in the ITEC 894 or ITEC 895 culminating experience courses. Students may miss one semester of enrollment in the middle of the program (before registering in the culminating experience course). Two consecutive semesters of absence will automatically drop the student from the program and university.

For more information, please contact the ELSIT Department: (415) 338–1653 or BH 239.

Core Requirements

Core requirements consist of 15 units of study. During the first year of study, students are advised to take ITEC 800 and ITEC 801. Students are also encouraged, though not required, to enroll in ITEC 700 for an overview of the instructional design field and career options. Based on their interests, students must also take one of the following courses before completing the program:

- ITEC 830 for their third core requirement, or
- ITEC 850 for their third core requirement, or
- ITEC 816 for their third core requirement.

- Students must receive a grade of B or higher in each of the required core courses to advance to candidacy.
- Completion of core requirements includes taking ISED 797 and ITEC 894 or ITEC 895.

Electives

Students choose 15 units of electives within the department or in related disciplines. Electives cross several lines of specialization that include the following:

1. E-Learning.
2. Multimedia Design and Development,
3. Training Design and Development,
4. Technology Integration for Teachers, and
5. Instructional Product Design.

Students should select electives in consultation with an advisor.

Electives (15 Units)
See below

Culminating Experience Requirement (3 Units)
(See below for portfolio submission)

ITEC 894 Creative Work 3
ITEC 895 Field Study 3

The minimal requirement for graduation is 30 units. Based on individual student needs, background, and interests, the department may require some students to complete more than 30 units to attain the degree.

Electives
Elective Group One: E-Learning and Multimedia Design and Development

ITEC 715 Foundations of Instructional Multimedia 3
ITEC 740 Computer Design of Instructional Graphics I 3
ITEC 745 Instructional Web Authoring I 3
ITEC 770 Instructional Videography I (may be repeated twice for credit) 3
ITEC 823 Instructional Multimedia Tools: Flash I 3
ITEC 830 Design of Learning Environments with Emerging Technologies 3
ITEC 835 Instructional Multimedia Tools: FLASH II 3
ITEC 840 Computer Design of Instructional Graphics II 3
ITEC 845 Instructional Internet Authoring II 3
ITEC 860 Distance Education 3
ITEC 865 E-Learning Design and Development 3

Elective Group Two: Training Design and Development

ITEC 700 Strategic Approaches for Instructional Technologies (may be required for some students) 3
ITEC 720 Fieldwork in Educational Technology 3-5
ITEC 805 Contemporary Developments in Instructional Technologies (topic) 3
ITEC 825 Formative Evaluation and Usability Testing 3
ITEC 850 Design and Management of Training Projects 3
ITEC 852 Instructional Technologies in Organizations 3

Elective Group Three: Technology Integration for Teachers

ITEC 815 Integration of Instructional Computing 3
ITEC 816 Computer Resource Specialist 3
ITEC 842 Cognition, Mind, and Learning for Educators 3

Culminating Experience
Portfolio Submission
Before undertaking a culminating experience, students must submit, for departmental review and approval, a portfolio of three instructional projects that demonstrate their technical skill and instructional design competencies.

The culminating experience may be completed by one of two options: ITEC 894 or ITEC 895.

Creative Work Project Requirements
To complete a creative work, students must design, develop, and produce an instructional product. The instructional unit may be in any medium—print, video, multimedia, or web-based. The instructional design process must be documented in writing and include a review of the instructional significance of the product, description of the design and production process, and product usability review. Students must provide a CD-ROM that contains the instructional product and the design documents.

Field-Study Requirements
To complete the field study, students must design, develop, and produce an instructional design project, using the instructional systems process, from needs analysis to formative evaluation. The instructional unit may be in any medium—print, video, multimedia, or web-based. The instructional design process must be described in writing and include a review of the instructional need and significance of the project, research review, description of the design process, formative evaluation, and conclusions. Students must provide a CD-ROM that contains the instructional unit and the design documents.

Master of Arts in Education: Concentration in Special Interest Area

Graduate Advisors: Curtis, Hemphill, Hyun, Perea

The Master of Arts in Education, concentration in Special Interest Area allows graduate students to design and complete, under advisement, a program of specialized study that emphasizes a particular issue or problem in education. It is expected that students’ programs will be interdisciplinary in nature and that students will display considerable independence in identifying appropriate courses that will comprise their area of specialization. Applicants to the program must specify their area of interest and confer with a program advisor about objectives, study plans, and procedures prior to admission.

Admission to Program
Applicants to the program must specify an area of interest and confer with a program advisor about objectives, study plans, and procedures prior to admission. Entry into the master’s program is open to applicants with a bachelor’s degree from an accredited institution and a 3.0 grade point average in the last 60 units of college course work. Prospective students must submit a CSU Graduate Application and a department application. In addition to the department application form, applicants must also submit two letters of recommendation, a statement of purpose and transcripts. A faculty committee reviews applications for admission. Students are admitted in both fall and spring semesters.

Written English Proficiency Requirement
Level One
During the first semester in a program and before filing an Advancement to Candidacy (ATC) form, each student must demonstrate graduate-level English writing ability. If remedial work is necessary, the student shall be expected to complete prescribed courses in English, or other corrective work, at a level acceptable to the department.

Level Two
The second assessment occurs within the Culminating Experience course (i.e., either ISED 895 or ISED 898) and by the time an ATC is approved and filed.

Students are required to take a minimum of 15 units of course work in the Department of Equity, Leadership Studies, and Instructional Technologies. Nine of these units correspond to required course work (ISED 747, ISED 797, and either ISED 895, or ISED 898). The remaining six
units are elective course work selected in conjunction with the advisor. Students who have completed a teaching credential at SF State can apply up to 12 units of credential coursework towards their MA degree.

**Continuous Enrollment Requirement**

Students who were admitted to the master's program before fall 2008 must enroll in the University during the semester of anticipated graduation. To meet this requirement, many students choose to enroll in a zero unit designated College of Extended Learning course established for this purpose.

Students admitted fall 2008 and beyond have the semester they enroll in the culminating experience course and the following semester to complete their degree requirements. Those who need additional time beyond the two semesters to complete this requirement must enroll in a zero-unit designated College of Extended Learning course every subsequent semester until the requirement is completed.

Students admitted fall 2013 and beyond have the semester they enroll in the culminating experience course to complete their degree requirements. Those who need additional time beyond that semester must enroll in EDUC 499 each additional semester until the culminating experience requirement is completed. Contact the department for further information.

For more information, please contact the department at (415) 338–1653 or come to the department office in Burk Hall 239.

EDUCATION DOCTORAL PROGRAM

Graduate College of Education
Interim Dean: Nancy Robinson

Educational Leadership
BH 521
Phone: (415) 405–4103

Director: Barbara Henderson, Ph.D.
Associate Director: Jamal Cooks, Ph.D.

Doctor of Education (Ed.D.) in Educational Leadership

The Ed.D. in Educational Leadership is an intensive, multidisciplinary three-year program that culminates in a doctoral degree in Educational Leadership (Ed.D.) with a specialization in P–12 or community college leadership. The program focuses on transformative leadership, social justice, and equity. The program's purpose is to prepare outstanding educational leaders who will create transformative change in our educational institutions, which promote equity and scholastic achievement in the P–12 school districts and community colleges.

The curriculum addresses three major categories: (1) leadership and administration, (2) social justice and equity, and (3) inquiry. Other notable aspects of the program include:

- Face-to-face classes and a cohort model provide ongoing support and build professional networking opportunities among peers.
- Culminating research projects focus on addressing current and urgent issues of practice in diverse educational settings and take action to improve programs and systems for increased equity and to meet social justice goals.
- Course scheduling accommodates the needs of working professionals. Courses are offered on weekends during fall, spring, and summer semesters.
- Courses are taught by multidisciplinary faculty and educational practitioners to ensure students gain an understanding of the complexities of providing effective leadership for educational institutions, given current and historical social, political, and economic contexts.

 Admission Requirements

The program encourages individuals to apply who have a background, experience, and potential in P–12 or community college educational leadership, who are committed to social justice, and who seek to build their expertise and capacity as agents of change through a Doctorate of Education (Ed.D.)

The program requires the following for admission:

- A baccalaureate degree and master's degree from accredited institutions of higher education with a cumulative grade point average in graduate study of 3.0 or above.
- Demonstrated competence in writing as determined by the Ed.D. Program and Graduate Studies at SF State. Applicants must score a 4.0 or above on the analytical writing portion of the Graduate Record Exam (GRE); conditional admission may be offered to applicants with lower GRE writing scores.
- Demonstrated English language proficiency for non-native speakers of English by scoring 590 on the written test, 243 on the computer-based or internet-based test, 96 on the computer-based TOEFL, or 7.0 on the IELTS.
- Submission of Graduate Record Examination (GRE) scores on the three sections of the General Test. GRE scores from the previous five (5) years are valid for this purpose. In some circumstances, scores from other tests (e.g., GMAT) may be accepted in lieu of the GRE.
- Demonstrated educational leadership potential, including successful experience in school, postsecondary, community, and policy leadership.
- Demonstrated academic excellence, problem-solving ability, and interest in critically assessing and bringing about improvements in current educational policies and practices.
- Professional résumé or Curriculum Vitae.
- Three letters of recommendation attesting to the leadership and scholarship potential of the candidate.
- A written personal statement reflecting an understanding of the challenges facing the public schools or community colleges/ institutions of higher education in California and how the Ed.D. would support the applicant's goals.
- A statement of support for the candidate's doctoral studies from their employer or, in cases where this is not provided, an indication of the candidate's plan for meeting the demands of the program and their professional responsibilities.
- A personal interview with the admissions committee.

Meeting the minimum requirements qualifies an individual for consideration, but does not guarantee admission to the program. Admission will be granted on a competitive basis. The Ed.D. in Educational Leadership does not include a second-language requirement.

Program Requirements

Criteria for Continuing in the Program

- Students are expected to maintain satisfactory progress toward approved academic objectives.
- Students must advance to candidacy and complete all courses and milestones satisfactorily.
- Students are expected to make progress in accordance with the Ed.D. cohort structure and program of study.
- Students must maintain at least a 3.0 cumulative grade point average.
- Students may not have a grade point average below 3.0 in two successive semesters.
- Students must pass all program milestones within two attempts.

Unit Requirements

The program expects the following of students in completing unit requirements:

- The program of study is composed of at least 60 semester units earned in graduate status at the doctoral level.
- At least 48 semester units must be completed in residence at SF State. The program leadership may authorize the substitution of credit earned by alternate means for no more than 12 units of these 60 required units.
- A grade point average of 3.0 (grade of B) or better must be maintained in all courses taken to satisfy the requirements for the
degree, and courses in which no letter grade is assigned will not be used in computing the grade point average.

- No more than 12 semester units will be allowed for the culminating experience or dissertation.

Program Milestones

Although students continuously self-reflect and receive feedback from faculty on their learning, there are three milestones that provide formal assessment during the program:

- The initial milestone occurs after the first year of coursework when the student must pass the qualifying examination to advance to the second year. The qualifying examination consists of a 15 page paper that is read and scored by a faculty panel.
- The second milestone is the dissertation proposal defense, which should be completed during the second year of coursework. It requires an oral defense of the student’s research proposal to their dissertation committee. The culminating study should be related to a significant problem or issue affecting P–12 or community college/postsecondary education.
- The third and final milestone is the presentation of the student’s culminating research project, in which the student presents an oral defense of their work to the dissertation committee, and then completes all required revisions, as stipulated by their committee.

The culminating research project must focus on a significant problem or issue and have the potential to contribute to the improvement of public P–12 or community college/postsecondary education. Work in support of this final research project is embedded throughout the curriculum. All research undertaken for the culminating research project must meet the requirements and gain the approval of the University Institutional Review Board and the Office for the Protection of Human and Animal Subjects. The culminating research project may take a variety of forms and must demonstrate a strong scholarly and professional foundation of knowledge on the part of the student, as well as the ability to apply this knowledge to the rigorous study of P–12 or community college/postsecondary education.

Educational Leadership (Ed.D.) — Minimum 60 units

To be eligible for the Ed.D. degree, the students must progress through and complete a specified pattern of study that includes 60 units of doctoral level coursework (outlined below).

In addition, students must pass the three program milestones:

1. Qualifying exam (written at the end of the second semester);
2. Defense of their dissertation or culminating research project proposal before the Dissertation Committee;
3. Defense of their dissertation or culminating research project before the Dissertation Committee.

Sixty units of doctoral level coursework are comprised of 20 courses offered through the Educational Leadership Doctoral Program under three main themes: Leadership, Equity, and Inquiry. The courses are listed below:

**EDUCATION MINOR PROGRAM**

**Graduate College of Education**
Interim Dean: Nancy B. Robinson
Program Office: Burk Hall, Room 501
Phone: (415) 338-2687

**Minor in Education**
The Minor in Education prepares undergraduate students to explore and to prepare for careers as professional educators at the post-baccalaureate level. Courses are designed to include foundations of education roles in a variety of settings that include working with young children; students in elementary school and high school; and adults. Hands-on experience is a component of each course in the minor and enables students to complete some or all of fieldwork requirements to enter credential programs following completion of a Bachelor’s Degree. Students may satisfy both a minor and complementary students requirements through the 12-credit EDUC Minor. Mandatory advising is required each semester. Advising will provide students with an individualized Road Map to assure that each student meets all requirements for the minor. Further, assistance and advising to complete requirements for application and admission to credential programs is provided to all EDUC Minor students.

**Program Learning Objectives:**
1. Develop a social justice educational philosophy that articulates the role of educators as agents of change.
2. Develop advocacy skills to build inclusive and supportive classroom communities for all students.
3. Prepare future educators to apply culturally responsive pedagogy to classroom environments.
4. Develop content appropriate instructional strategies that maximize learning for all students.
5. Develop interpersonal skills to interact professionally in educational environments.
6. Develop and participate in scholarly research in teaching and learning.
7. Explore and apply the arts as integral to a comprehensive educational experience.
8. Integrate multiple literacies into learning environments.

**Minor in Education – 12 Units**

**Education in American Society (3 Units)**
Select one of the following:
- S ED/EDUC 200 Introduction to Teaching and Education
- S ED/EDUC 300 Education and Society

**Equity and Social Justice in Education (3 Units)**
Select one of the following:
- EDUC 514 Teaching Diversity in the Classroom
- ISED 585 Cross-cultural Education

**Teaching in Action (3 Units)**
Select one course from the following:
- EDUC/E ED 250 Teaching and Learning Beyond the Classroom
- EDUC/E ED 333 Dynamic Educators for the 21st Century

Or select an alternative course from the following or another course upon advisement:
- E ED 645 Directed Experiences with Children
- KIN 340 Orientation to Teaching Physical Education
- LTNS 690 Community Fieldwork in Latina/o Studies

**Professional Educators and Communities (3 Units)**
Select one course from the following:
- E ED 645 Directed Experiences with Children
- E ED 655 Hands on Undergraduate Science Education Experience
- EDUC/E ED 450 Art and Learning
- EDUC/E ED 639 Bilingual Education in the U.S.: A History of Struggle, Resistance, and Achievement
- EDUC/E ED 681 Teaching Language and Literature with Elementary and Middle School Students

SPED 330 Introduction to Disability

Or select an alternative course from the following or another course upon advisement.
- AA S 211 Contemporary Asian Americans
- AA S 320 Chinese in the United States
- AA S 512 Asian American Children's/Adolescent Literature
- AA S 595 Asian American Communities and Public Policy
- AIS 470 American Indian Ethnicity: Problems in Identity
- AFRS 260 Power, Racism and Africana Liberation
- AMST 300 Perspectives on American Culture
- AMST 410 California Culture
- ART 303 The Artist in the 20th-21st Centuries: Cultures in Collision–Cultures in Fusion
- GEOG 455 Geography of Ethnic Communities
- HIST 450 History of California
- HUM 225 Values in American Life
- HUM 450/AMST 410 California Culture
- LTNS 211 Latina/o Families Narrative
- LTNS 222 Latina/o Art History
- LTNS 280 Transculturization and Latina/o Communities
- SOC 461 Ethnic Relations: International Comparisons
- SOC 468 Social Aspects of Human Sexuality
- SOC 469 Gender and Society
- SXS 301 Perspectives in Gay, Lesbian, Bisexual, and Transgender Studies
- WGS/SXS 551 Queer Literatures and Media
- WGS 554 Gender and Global Migration
- WGS 561 Women, Ethnicity, and Social Movements
Alternative course from subject areas that include a focus on teaching methods approved upon advisement.
ELEME N TaY EDUCATION

Graduate College of Education
Interim Dean: Nancy Robinson

Department of Elementary Education
Burk Hall, Room 179
Phone: (415) 338-1562
Chair: Dr. Josephine Arce

Graduate Coordinators:
Elementary Education: Dr. Sisk-Hilton
Early Childhood Education: Dr. Henderson, Dr. Kim, Dr. Meier
Language and Literacy: Dr. Borjian and Dr. Conrad
Mathematics Education: Dr. Zavala

Program Scope
The programs are designed to deepen theoretical knowledge, to promote professional growth, and to enhance the competencies of elementary, middle and secondary school, and early childhood educators.

Program Aims
The Master of Arts in Education: Concentration in Early Childhood Education provides early childhood educators with advanced knowledge and training in research, theory, and practice for working with children and families in multicultural and multilingual early childhood settings. This degree provides infant, toddler, preschool, primary grade, community college educators, and early childhood administrators with the skills and knowledge for teaching and leadership positions in the field of early childhood education. Courses taken for the program can qualify for Teacher and Administrator levels of the California Child Development Matrix.

The Master of Arts in Education: Concentration in Elementary Education provides elementary school teachers with advanced knowledge of research, theory, and practice in the field of elementary education in general as well as in particular subject matter disciplines. This concentration is a continuation of the SF State Multiple Subjects Credential Program and is only open to students who have completed their credential within two years of applying to the M.A.

The Master of Arts in Education: Concentration in Language and Literacy is designed to extend candidates' academic and professional knowledge in the field of language and literacy when teaching linguistically and culturally diverse student populations. The program provides elementary, middle, and secondary school teachers with advanced knowledge of research, theory, and practices in reading and language arts with a particular emphasis on the needs of English and second language learners. There is a strong emphasis on teaching literacy to students who are in urban school settings.

The Master of Arts in Education: Concentration in Mathematics Education provides elementary, middle school, high school teachers with advanced knowledge of research, theory, and practice in the teaching and learning of school mathematics and expands their knowledge of mathematics content. This program is run jointly with the secondary education department. Those holding a single subject mathematics credential should apply through the secondary department. Teachers holding Multiple Subject credentials will be eligible to apply for a supplementary authorization in mathematics for middle school teaching.

This degree also prepares teachers to assume leadership roles in their schools and districts.

General Requirements for Admissions

Written English Proficiency Requirement

Level One
Applicants to all concentration in elementary education will have their statement of purpose essays (submitted during the admission process) evaluated for writing proficiency. Details about this evaluation appear in each concentration description below.

Level Two
Level Two is satisfied by demonstration of English competency with satisfactory completion of E ED 895 or E ED 898.

Continuous Enrollment Requirement
Students who were admitted to a M.A. program before fall 2008 are required to be enrolled in the University during the semester of anticipated graduation. To meet this requirement, many students choose to enroll in enroll in a zero-unit designated College of Extended Learning course established for this purpose.

Students admitted fall 2008 and beyond have the semester they enroll in the culminating experience and the following semester to complete their degree requirements. Those who need additional time must enroll in a zero-unit designated CEL course every subsequent semester until the culminating experience is completed.

For more information, please contact your department or the Graduate College of Education Graduate Office (Burk Hall 244).

- Master of Arts in Education: Concentration in Language and Literacy Education (p. 313)
- Master of Arts in Education: Concentration in Mathematics Education (p. 314)

Master of Arts in Education: Concentration in Early Childhood Education

This 30-unit program consists of a core of required courses and electives. The required courses provide students with advanced preparation in child growth and development, cultural and linguistic diversity, early childhood curricula, and research methodologies. The program places a special
emphasis on teacher research as a primary methodology of inquiry for all early childhood practitioners. Coursework also focuses on understanding child development within varied social and cultural contexts, culturally responsive teaching and curriculum development for diverse populations, and providing family and community support. The culminating experience requirement for the concentration in early childhood education is the completion of a thesis or field study.

Admission to Program
Application for admission to the program is a two-step process that should be completed simultaneously:

1. Apply to the university. Complete the on-line CSU Mentor application. Follow all other requirements for admission to the university by accessing http://grad.sfsu.edu/.
2. Apply to the department by completing a department application. Applicants must also meet the following requirements:
3. Possession of an elementary teaching credential or the completion of a minimum of 12 units in professional course work relevant to early childhood education, including courses in child development and early childhood curriculum.
4. A minimum of one full year successful experience working with young children.
5. Submission of a written statement of purpose (2-page minimum) to the program co-coordinators. The statement of purpose should describe the applicant's goals for seeking the MA, concentration early childhood education, and describe the applicant's level of academic and professional preparation for the degree. The content and writing skill demonstrated will be evaluated as part of the admissions decision and to determine if the candidate has met Level One Written Language Proficiency at admission (see below).
6. Two letters of recommendation: one letter from an instructor addressing the applicant's ability to pursue graduate level work, and one letter providing evidence of recent work experience with young children.

Written English Proficiency Requirement
Level One
Applicants are assessed on the application essay based upon the early childhood education program's criteria. The evaluation rubric considers:

1. mechanics and style,
2. coherence and argumentation,
3. and content, that is, the relevancy of applicants experience and goals to that of the program.

Depending on their essay scores, applicants are either admitted, admitted conditionally, or denied admission. Applicants admitted conditionally are required to earn a minimum grade of B in the program approved writing intensive courses, E ED 721 or E ED 707 with instructor approval.

Level Two
Students are assessed on the quality of their culminating experience, E ED 895 or E ED 898.

Master of Arts in Education: Concentration in Early Childhood Education – 30 units
Foundation - Required (9 units)

E ED 709 Early Childhood Education Curriculum in Pluralistic Society 3

Select two:
E ED 700 Social, Emotional, and Physical Development in Early Childhood Education Sociocultural Contexts 6
E ED 707 Cognitive Development in Early Childhood Education Sociocultural Contexts
E ED 708 First and Second Language Development in Early Childhood Education

Research Courses – Required (6 units)

E ED 717 Narrative Inquiry and Memoir in Early Childhood Education 3
E ED 801 Practitioner Inquiry for Administration of Early Childhood Curricula

Electives (12 units)

Select from the following:

E ED 704 Children's Play Development in School and Community 3
E ED 715 Families in Early Childhood Settings and Communities 3
E ED 721 International Education in Early Childhood and Elementary Education 3
E ED 806 Leadership, Adult Supervision, and Family Advocacy 3
E ED 820 Seminar in Infant-Toddler Group Care Education Programs 3
E ED 850 Seminar in Early Childhood Mathematics and Science Curriculum 3
E ED 878 Multicultural Educational Theory and Practice for the Young Child 3
E ED 899 Independent Study 1-3

Other GCOE and University courses under advisement (two course limit)

E ED 600-level courses (two course limit)
One course in a department outside the Graduate College of Education (3 units) with consent of advisor
Coursework from recent SF State Multiple Subject Credential (up to 12 units)

Culminating Experience – Required (3 units)

E ED 895 Field Study 3
or E ED 898 Master's Thesis

Note: 12 units from the SF State Multiple Subject Teaching Credential program may be counted toward elective units within this degree. Only certain courses from the credential may be applied; consult with your advisor for details.

Upon advisement, six units earned at another institution may be counted toward the degree. Courses can be counted from a Multiple Subject Teaching Credential, upper division undergraduate courses, or graduate
level coursework, only if these units were not used toward another degree. In keeping with University requirements, courses can count on the Advancement to Candidacy only within a seven-year window.

Master of Arts in Education: Concentration in Elementary Education

Admission to Program
The Concentration in Elementary Education is only open to graduates of the SFSU Multiple Subjects Credential Program. Applicants must possess an elementary teaching credential or the equivalent or be in the student teaching phase of the Multiple Subjects Credential Program. All requirements for the MA degree must be completed within 7 years of the START of credential coursework.

Application to the program is a two-part process that should be completed simultaneously:

1. Apply to the University (students currently enrolled in the Multiple Subjects Credential Program do not need to pay an application fee; please see Elementary Education office for the procedure): Complete the on-line CSU Mentor application. Follow all other requirements for admission by accessing http://grad.sfsu.edu/.

2. Apply to the department by completing a department application. Applicants must also meet the following requirements:
   a. Possession of a Multiple Subject or elementary teaching credential.
   b. Currently enrolled in the SF State Multiple Subjects Credential Program or completed the program within the previous 2 years.
   c. Submission of a written statement of purpose (two-page minimum) to the program coordinator. The statement of purpose should describe the applicant’s goals for seeking the degree and describe the applicant’s level of academic and professional preparation. Both content and writing skill will be evaluated as part of the admissions decision and will determine whether the candidate has met Level One Written Language Proficiency at admission (see below). Current MSC students may submit an academic writing sample from their credential coursework in lieu of a statement of purpose to demonstrate Level One Written Language Proficiency.
   d. Two letters of recommendation from the following:
      • A college/university instructor addressing the applicant’s ability to pursue graduate level work.
      • A supervisor at a school or district addressing the applicant’s successful experience in classroom teaching or related work.

Written English Proficiency Requirement

Level One
Applicants to the program are assessed on the application essay based upon the elementary education program’s criteria. The evaluation rubric considers:

1. mechanics and style,
2. coherence and argumentation, and
3. content, that is, the relevancy of applicants’ experience and goals for the program.

Depending on their essay scores, applicants are either not admitted, admitted, or admitted conditionally. Applicants admitted conditionally are required to earn a minimum grade of B in the program-approved writing intensive course: E ED 760.

Level Two
Students are assessed on the quality of their culminating experience E ED 895.

Education (M.A.): Concentration in Elementary Education — 30 units

Credential Courses to Be Counted Toward the MA Degree (12 units)

</tbody>
</table>

**Master of Arts in Education: Concentration in Mathematics Education**

### Admission to Program

The application is a two-part process that should be completed simultaneously:

1. Apply to the University: Complete the on-line CSU Mentor application. Follow all other requirements for admission by visiting http://grad.sfsu.edu/.
2. Apply to the department by completing a department application. Applicants must also meet the following requirements:
   a. Possession of a Multiple Subject or elementary teaching credential.
   b. A minimum of two years of experience teaching mathematics at the elementary or middle school level.
   c. In the event the candidate has not met the requirements in (a) or (b) above, he/she may meet with a mathematics education advisor to discuss alternative options.

---

**Written English Proficiency Requirements**

**Level One**

Applicants to the program are assessed on the application essay based upon the language and literacy education program’s criteria. The evaluation rubric considers:

1. mechanics and style,
2. coherence and argumentation, and
3. content, that is, the relevancy of applicants’ experience and goals for the program.

Depending on their essay scores, applicants are either admitted, admitted conditionally, or not admitted. Applicants admitted conditionally are required to earn a minimum grade of B in one of the program approved writing intensive course: E ED 720, E ED 723 or E ED 869.

**Level Two**

Students are assessed on the quality of their culminating experience, E ED 895 or E ED 898.

The Master of Arts in Education: concentration in Language and Literacy Education provides elementary to high school teachers with in-depth knowledge of research, theory, and practice in teaching and observing the learning development of students who are native English speakers, bilingual speakers, and/or students who speak variations of English. This degree provides advanced preparation and professional development for teaching in schools as well as for assuming such leadership roles as mentor teachers, literacy curriculum leaders, and staff developers. In addition, graduate students may combine this Concentration with a
advisor to evaluate his or her academic and professional background.

d. Submission of a written statement of purpose (2-page minimum) to the program coordinator. The statement of purpose should describe the applicant’s goals for seeking the M.A. concentration elementary education, and describe the applicant’s level of academic and professional preparation for the degree. The content and writing skill demonstrated will be evaluated as part of the admissions decision and to determine if the candidate has met Level One Written Language Proficiency at admission (see below).

e. Two letters of recommendation that address
   i the applicant’s ability to pursue graduate level work and
   ii successful experience in classroom teaching of mathematics.

Written English Proficiency Requirement

Level One
Applicants are assessed on the application essay based upon the program’s criteria. The evaluation rubric considers:

1. mechanics and style,
2. coherence and argumentation, and
3. content, that is, the relevancy of applicants’ experience and goals for the mathematics education program.

Depending on their essay scores, applicants are either admitted, admitted conditionally, or not admitted. Applicants admitted conditionally must earn a grade of at least B on the literature review assignment, as well as an overall grade of at least B in E ED 760, and must clearly demonstrate graduate level writing appropriate to our discipline.

Level Two
Students are assessed on the quality of their culminating experience, E ED 895 or E ED 898.

- Master of Arts in Education: Concentration in Mathematics Education (p. 316)

Master of Arts in Education: Concentration in Mathematics Education

Admission to Program
Admission to the Master of Arts in Education: Concentration in Mathematics Education is based upon:

1. GPA of 3.0 in the undergraduate degree or last 60 semester (90 quarter) units attempted to include credential courses.
2. Possession of a single subject teaching credential.
3. At least two years’ experience teaching mathematics in a secondary classroom.
4. Evidence of written English proficiency.
5. An interview with the graduate coordinator and/or other graduate advisors.

An applicant that has not met the requirements above may meet with a mathematics education advisor to evaluate the applicant’s academic and professional background.

Admission to the graduate program is a two-part process that should be completed simultaneously:

1. Apply to the University through CSU Mentor for Graduate Programs http://www.csumentor.edu/AdmissionApp/grad_apply.asp. Follow all other requirements for admission to the University by accessing http://www.sfsu.edu/~gradstdy/main-domestic.htm.
2. Apply to the Department by submitting two letters of recommendation that address your ability to pursue graduate-level work and your successful experience teaching adolescents, along with a written Statement of Purpose of about 750 words, which explains your goals for pursuing the degree, and readiness based on academic and professional preparation and disposition as a student.
3. Submit official transcripts to the Graduate Studies Division.
4. Send the materials in number (2) above and informal transcripts to the Department of Secondary Education.

Written English Proficiency Requirement

Level One
Written English Proficiency will be assessed based on the Personal Statement, submitted to the department as part of the application.

Applicants admitted conditionally or not meeting stated written English proficiency standards must meet Level One written English proficiency by completing the literature review assignment and S ED 761 with a grade of B or better by the end of the second semester of enrollment and prior to advancing to level two.

Level Two
Writing proficiency will be assessed based on the quality of the Field Study Report or Thesis submitted as the Culminating Experience, E ED 895/S ED 895 or E ED 898/S ED 898. All students in the program must complete an 895 or 898 project.

Master of Arts in Education: Concentration in Secondary Education

The purpose of the Master of Arts in Education: Concentration in Secondary Education, is to support beginning teachers in developing and reflecting on their practice in relation to recent and continuing research on teaching and learning in their subject areas.

Admission to Program

Applicants must hold a bachelor’s degree from an accredited university. Additional entrance requirements include:

- A 3.0 GPA in the undergraduate degree or last 60 semester (90 quarter) units attempted, including credential courses.
- A valid preliminary or clear single subject teaching credential.
- Evidence of employment as a full or part-time teacher or evidence of permission to work on a regular basis within a school setting through a volunteer program or other agreement.
- Evidence of written English proficiency.
- An interview with the graduate coordinator and/or other graduate advisors.

Admissions requirements for currently enrolled, SF State single-subject credential candidates or graduates of our single-subject credential program

Application for admission is a two-part process that should be completed simultaneously:

1. Apply to the University through CSU Mentor for Graduate Programs: http://www.csumentor.edu/AdmissionApp/grad_apply.asp. Follow all other requirements for admission to the University by accessing: http://www.sfsu.edu/~gradstdy/main-domestic.htm. Submit all transcripts to the Graduate Studies Division.
2. Apply to the Department of Secondary Education by submitting the following documents to Burk Hall 43: a) Unofficial transcript to verify 3.0 cumulative GPA from credential program; b) Two recommendation letters that speak to your readiness to begin a MA degree— one from your Curriculum and Instruction professor, and one from any Department of Secondary Education faculty member, who was not your Curriculum and Instruction professor; c) written statement of about 750 words describing your goals in pursuing the degree, your research interest, and readiness for the program based on your academic and professional experience as well as your disposition as a teacher.

Written English Proficiency Requirement

Level One

Written English proficiency will be assessed on the Personal Statement, submitted to the department as part of the application. Students admitted conditionally or not meeting the written English proficiency standards must demonstrate that they have met the Level One Written English proficiency requirement by completing the literature review assignment and S ED 850 with a grade of B or better prior to enrolling in S ED 895 or S ED 898.

Level Two

Writing proficiency will be assessed based on the Field Study Report or Thesis submitted as the culminating experience for S ED 895 or S ED 898. All students in the program must complete an 895 or 898 project.

Education (M.A.): Concentration in Secondary Education — Minimum 30 units

Required Courses (15 units)

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

Course in related or distributed field selected in consultation with a graduate advisor.

Courses in Related or Distributed Field (3 – 12 units)

[12 units may be taken as part of the Single Subject Credential Program]

Selected with approval of graduate major advisor

Culminating Experience (3 units)

Early in the semester prior to enrollment in either S ED 895 or S ED 898, the student must submit the Advancement to Candidacy (ATC), the...
Proposal for Culminating Experience, and the Human Subjects Protocol forms. Enrollment in these courses is contingent upon approval.

**Courses Taken in the Single Subject Credential Program**

Up to 12 units of course work in secondary education completed to satisfy the requirements of the Single Subject Credential program may be used to fulfill the requirements for the M.A., as long as they were taken within the seven-year time limit for the degree. Credential courses that may be counted as electives or as "related or distributed field" courses include:

<table>
<thead>
<tr>
<th>Course Code</th>

</tr>
</tbody>
</table>

**Student Teaching**

S ED 640, S ED 660 may not be counted

**Associated Seminars**

S ED 751, S ED 752 may not be counted

Curriculum and instruction courses taken in other departments may be counted.
SPECIAL EDUCATION

Graduate College of Education
Interim Dean: Nancy Robinson
Department of Special Education & Communicative Disorders
Burk Hall, Room 156
Phone: (415) 338–1161
Email: spedcd@sfsu.edu
Website: spedcd.sfsu.edu (http://spedcd.sfsu.edu)

Chair: Yvonne Bui
Advisors: Program faculty in Department of Special Education and Communicative Disorders

Program Scope and Career Outlook
The programs in the Department of Special Education & Communicative Disorders include professional preparation in special education and communicative disorders. The programs include preparation for specialists who may work in schools, clinical settings, or community agencies with individuals with disabilities. Resources of education, psychology, counseling, and other human service related fields are utilized.

Communicative Disorders
Bachelor of Science in Communicative Disorders
Program courses constitute the specific requirements for a science major in communicative disorders leading to the baccalaureate degree at this University. The undergraduate sequence or a program equivalence is a prerequisite to the Master of Science in Communicative Disorders. A master’s degree in the area of speech-language pathology (SLP) is required for the professional license to practice in the field. A doctoral degree in Audiology (AUD) is required for professional licensing in audiology. All undergraduates, regardless of their intention to become an audiologist or speech-language pathologist, take the same coursework. Thirteen core courses are required for the major. The B.S. degree is not a terminal degree. While the B.S. degree in CD does not qualify the student to practice speech-language pathology or audiology, there are related fields open to the B.S. graduate that include employment as teacher’s assistant, classroom aide, child development worker, and speech-language pathologist assistant with additional intern experience beyond the undergraduate degree. In addition, the B.S. degree in CD is strong preparation for a number of graduate programs in special education, education, rehabilitation counseling, and related fields.

Master of Science in Communicative Disorders
The speech-language pathology curriculum is designed to train competent, culturally sensitive speech-language pathologists who can appreciate and understand the importance of research in clinical practice. In order to accomplish this goal, a multitude of academic and clinical experiences are provided to the students, under the direction of skilled instructors, clinical researchers and supervisors both on and off campus. The development of clinical skills requires academic knowledge, the ability to understand and engage in research, and a sensitivity to clients’ needs, values and cultures.

The CD Program curriculum includes all academic and clinical experiences necessary for American Speech and Hearing Association (ASHA) certification in speech-language pathology, State of California Speech-Language Pathology Services Credential, and the State of California license to practice speech-language pathology. Students are required to complete all academic courses. The practice of speech-language pathology in the state of California requires a license issued by the Speech-Language Pathology and Audiology Examining Committee Medical Board of California. Exempted settings are public schools and federal facilities. The academic and clinical requirements for the state license are similar to those of ASHA requirements in speech-language pathology.

Special Education
Minor in Special Education
The Minor in Special Education provides undergraduate students with an overview of the field of special education. An interdisciplinary program of required and elective courses ensures that students are exposed to a variety of courses pertaining to disability in our society. Competencies attained by students completing this minor have both a theoretical and practical nature and stimulate student interest in careers serving individuals with disabilities.

Master of Arts in Special Education
The Master of Arts in Special Education is an individually designed program in an area of emphasis. This degree emphasizes research and leadership skills within a select program of study. The degree prepares individuals for employment in education in public and private agencies serving people with disabilities and in other related human service fields. Programs within the department provide students with an opportunity to learn from, and participate in, on-going research, demonstration, training, and clinical projects conducted by faculty. Areas of emphasis include autism, early childhood special education, mild/moderate disabilities, moderate/severe disabilities, orientation and mobility, and visual impairments.

Special Education Graduate Certificates
Certificate in the Autism Spectrum
This graduate level certificate is designed to prepare highly qualified professionals to meet the unique needs of learners on the autism spectrum in diverse settings. Through participation in coursework that includes embedded field experiences, candidates will acquire applied knowledge of current theory, research, and practice to guide them in working with individuals on the autism spectrum from early childhood to adulthood. Candidates may include educators, therapists, advocates, family members, adults who identify on the autism spectrum, and others from a variety of fields and backgrounds.

Certificate in Inclusive Early Childhood Practices
The Certificate in Inclusive Early Childhood Practices offers an opportunity for students enrolled in professional programs or practicing professionals in education to pursue additional training in working with young children with special needs (from birth to five years) and their families. Further, the trans-disciplinary approach to this training makes the program equally valuable for related professionals, such as physical and occupational therapists, speech therapists, nurses, psychologists, and social workers. Graduates of the program may hold jobs in a variety of public and private early childhood education settings that include schools, hospitals, and government agencies.

Certificate in Augmentative and Alternative Communication
This graduate level certificate is designed to prepare highly qualified professionals to provide Augmentative and Alternative Communication (AAC) services for children, youth and adults with Complex Communication Needs (CCN) in school and community settings.
within the context of an interdisciplinary team. Through participation in coursework that includes concurrent field experiences, candidates will acquire a working knowledge of best practice in assessment and intervention to support communication through the application of AAC systems for children, youth, and adults to access learning, socialization, and vocational opportunities in society. Graduate students who are enrolled in master’s degrees in Communicative Disorders, Special Education, and related fields, in addition to practicing professionals in health, human services, and educational fields at the post-baccalaureate level, may complete the certificate program.

**Doctor of Philosophy in Education: Concentration in Special Education**
Graduate study leading to the Doctor of Philosophy degree with a concentration in Special Education is offered jointly with the University of California, Berkeley (http://www.berkeley.edu).

The program provides preparation for people interested in a leadership role in research, policy, advocacy, curriculum development, administration and supervision, and teacher education. Check with the department for specific application procedures for each campus: email: specdd@sfedu website: specdd.sfsu.edu (http://specdd.sfsu.edu).

**Admission to Graduate Programs and Certificates**
The following two sections provide a general introduction to admission requirements and Written English Proficiency requirements for graduate programs in the Department of Special Education & Communicative Disorders. Details regarding the joint doctoral program appear in the section titled “Education Doctoral Studies.”

A minimum 3.0 GPA is required for admission to certificates and master’s degrees, including the fields of Special Education and Communicative Disorders. Applications are available from the Department of Special Education & Communicative Disorders, (415) 338–1161, specdd.sfsu.edu (http://specdd.sfsu.edu)

Certificate applicants must first be eligible in accordance with all university requirements as outlined in the Certificate Programs section of this Bulletin. This same section includes university program guidelines and procedures to be followed in filing for the award of the certificate when it is completed.

The following University requirements apply to graduates in the Master of Arts in Special Education and the Master of Science in Communicative Disorders.

**Written English Proficiency Requirement**
Each graduate student must demonstrate the ability to write English correctly and effectively at the graduate level. To assure that each graduate student has the required proficiency in written English, two distinct assessments are made by the major department: Level One and Level Two.

**Level One**
Applicants will be required to submit evidence of one of the following as part of their application for admission to the M.S. in Communicative Disorders or M.A. in Special Education:

- Score of at least 3.5/6.0 on the GRE Analytical Writing Test or GMAT Analytic Writing Assessment.
- Score of at least 4.5/6.0 on the essay test of the paper-based [PBT] TOEFL (a minimum score of 24/30 on the Writing section of the Internet-based test [IBT] TOEFL).

- Score of at least 6.5/9.0 on the IELTS writing test, or a concordant score on the Pearson Test of English.
- Passing status score of at least 220 on the CSET Writing Skills Test. (CBEST Writing does not fulfill this requirement.)

Applicants who do not meet this requirement may be denied admission. If all other areas of the application are strong, a faculty member may choose to file a petition with Graduate Admissions to request conditional admission. If conditional admission is granted, the student will need to pass one of the tests listed above in the first semester of admission.

**Level Two**
**Master of Science in Communicative Disorders**
Students will be required to complete one of the following plans of the approved culminating experience, following advancement to candidacy:

**Plan A**
- C D 884 Advanced Diagnosis in Communicative Disorders 3
- Master’s Comprehensive Written Examination

**Plan B**
- C D 898 Master’s Thesis in Communicative Disorders (with Oral Defense of Thesis) 3
- C D 884 Advanced Diagnosis in Communicative Disorders 3

**Plan C**
- SPED 895 Field Study: Special Education 3
- C D 884 Advanced Diagnosis in Communicative Disorders 3

**Master of Arts in Special Education**
Students will be required to complete one of the following options of the approved culminating experience, following advancement to candidacy:

**Option I**
- SPED 896EXM Culminating Experience Examination 6
- Two elective graduate seminars (6 units), which will reflect critical analysis of literature and application of research. 1

**Option II**
- SPED 894 Creative Work Project in Special Education 6
- An elective graduate seminar (3 units), which will reflect critical analysis of literature and application of research. 1

**Option III**
- SPED 891 Advanced Research Seminar in Special Education 6
- SPED 898 Master’s Thesis or SPED 895 Field Study: Special Education

1 One elective seminar must be outside of the student’s emphasis area; can include SPED 881 Advanced Research Seminar in Special Education

**Continuing Enrollment Requirement M.S. in Communication Disorders & M.A. in Special Education**
Students admitted to a master’s degree program during or after Fall 2008:
If a student enrolls in one of the Culminating Experience courses, such as SPED 898 or C D 898, SPED 895 or SPED 894 to complete their masters degree, and does not finish his or her study by the end of the semester, or by the following semester (grade semester), he or she will be required to enroll in at least one course during each successive semester until completion of the culminating experience and a grade is entered by the committee chair.
Following a grace semester, if there is a break in enrollment before the culminating experience is completed, the student upon return will be required to retroactively enroll for semesters in between and must continuously enroll every semester thereafter until completed.

If a student is completing the master’s comprehensive written examination during the semester of graduation and has completed all degree requirements, they also need to enroll in at least one course.

Students in one of the above situations can enroll in the following low cost course available to meet this Continuous Enrollment Requirement:

- EDUC 499 College of Extended Learning
- Registration is online by visiting webapps.sfsu.edu/public/classservices/classsearch (https://webapps.sfsu.edu/public/classservices/classsearch) and accessing the Extended Learning Class schedule, locate EDUC 499 and proceed with enrollment.
- Academic Senate Policy on the Continuous Enrollment (https://senate.sfsu.edu/content/culminating-experience-continuous-enrollment-policy)

Students admitted to a master’s program during or before spring 2008: If a student enrolls in one of the culminating experience courses, such as SPED 898, SPED 895 or SPED 894 to complete their master’s degree, and does not finish their study by the end of the semester, he or she will be required to enroll in at least one course during the semester in which he or she intends to graduate and a grade is entered by the committee chair.

If a student is completing the master’s comprehensive written examination during the semester of graduation and has completed all degree requirements, he or she also will be required to enroll in at least one course.

Students can meet this requirement by enrolling in EDUC 499 through the College of Extended Learning (https://cel.sfsu.edu/register/forms)

Certificates
- Certificate in Augmentative and Alternative Communication (p. 326)
- Certificate in Autism Spectrum (p. 327)
- Certificate in Inclusive Early Childhood Practices (p. 326)

Bachelor of Science in Communicative Disorders

Advisors: Epstein, Gray, Raggio, Solomon-Rice, Soto, Yu

Program courses constitute the specific requirements for a Bachelor of Science degree in Communicative Disorders (CD) leading to the baccalaureate degree at this University. The undergraduate sequence or a program equivalence is a prerequisite to the Master of Science in Communicative Disorders. A master’s degree in the area of Speech-Language Pathology (SLP) is required for a professional license to practice in the field. A doctoral degree in Audiology (AUD) is required for professional licensing in Audiology. All undergraduates, regardless of their intention to become an Audiologist or Speech-Language Pathologist, take the same coursework. Thirteen core courses are required for the major. The B.S. degree is not a terminal degree. While the B.S. degree in CD does not qualify the student to practice Speech-Language Pathology or Audiology, there are related fields open to the B.S. graduate that include employment as a teacher’s assistant, classroom aide, child development worker, and Speech-Language Pathology Assistant with additional intern experience beyond the undergraduate degree. In addition, the B.S. degree in CD is a strong preparation for a number of graduate programs in special education, education, rehabilitation counseling, and related fields.

The undergraduate degree requires 120 units minimum. Students entering the program must hold the status of junior, and declare Communicative Disorders as the major. Students are required to meet the following criteria prior to enrollment in the major coursework:

- Demonstrate a minimum GPA of 2.0
- Meet with an advisor to review requirements of the professions in Communicative Sciences and Disorders.
- All undergraduates, regardless of their intention to become an Audiologist (AuD) or Speech-Language Pathologist (SLP), take the same coursework.

Many of the courses listed in the major have prerequisites and must be taken in a particular sequence. (Consult the roadmap and online course descriptions for the course sequence.)

To advance in the undergraduate program, students must:

- Maintain an overall grade point average of C or better (2.0 GPA)
- Receive a grade of C— or better in all courses in each consecutive semester in the program.
- Successfully complete all courses in each semester sequence.

Students who do not meet these criteria cannot take any additional courses in the sequence. Courses with less than a C— grade must be retaken before enrollment in the complete sequence may continue.
Communicative Disorders (B.S.) — 40 units

**Major Prerequisites**

1. A course in human or animal biology, human anatomy, and physiology, neuroanatomy and neurophysiology, human genetics, or veterinary science.
2. A course in Area D1 Social Sciences in psychology, sociology, anthropology, or public health.
3. A course in Area B1 Physical Science. Physics or chemistry is recommended.
4. A course in statistics. MATH 124, ISED 160, or PSY 171 are recommended.

**Required Courses**

Note: LD = Lower Division; UD = Upper Division.

**First-Time Student Roadmap (4 Year)**

This roadmap opens in a new tab. (p. 324)

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State.

Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

| Total Units | 120-122 |

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP; ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Certificate in Augmentative and Alternative Communication

This graduate level certificate is designed to prepare highly qualified professionals to provide Augmentative and Alternative Communication (AAC) services for children, youth and adults with complex communication needs (CCN) in school and community settings within the context of an interdisciplinary team. Through participation in coursework that includes concurrent field experiences, candidates will acquire a working knowledge of best practice in assessment and intervention to support communication through the application of AAC systems for children, youth and adults to access learning, socialization and vocational opportunities in society. Graduate students who are enrolled in master’s degrees in Communicative Disorders, Special Education, and related fields, in addition to practicing professionals in health, human services, and educational fields at the post-baccalaureate level may complete the certificate program.

Admission to the Program

To be considered for admission to the Graduate Certificate in AAC, applicants must meet the following requirements:

• Bachelor’s Degree: must be posted by the time student enters program
• GPA: 3.0 overall in baccalaureate coursework
• Written English Proficiency Requirement (WEP)

The application process includes the following steps:

• Complete a University application (CSU Mentor)
• Submit original transcripts from all universities attended
• Complete a department application
• Select the Graduate Certificate in AAC

A student who is interested in pursuing a certificate program may apply to the University as a post-baccalaureate classified student. Applicants who wish to pursue degrees in the department are encouraged to apply for both the certificate and degree programs simultaneously, as coursework may be applied toward the degree when taken as a classified graduate student.

Students who enter the certificate program and later gain admission to the M.S. Degree program in Communicative Disorders or M.A. Degree program in Special Education will be able to count SPED 743 and SPED 746 (6 units) toward the master’s degree program if taken within the timelines specified by the university graduate studies policies.

Certificate in Inclusive Early Childhood Practices

The Graduate Certificate in Inclusive Early Childhood Practices is intended for individuals seeking expertise in supporting the learning and development of all young children, including those at-risk or identified with disabilities. Required coursework is focused on culturally responsive practices and interventions that promote access, learning, and participation for all young children and their families. The program is intended for individuals in education or human service fields, such as general early childhood education, nursing, psychology, physical and occupational therapy, social work, speech and language therapy, who do not possess a California Education Specialist Credential.

Admission to the Program

To be admitted, students must meet the same standards as candidates for a master's degree program in Special Education. To apply students must hold a 3.0 minimum grade point average, submit two letters of recommendation, transcripts of all college or university level training, résumé, and a position statement documenting interest in this certificate.

Completion of the Program

• The student must maintain a minimum of 3.0 GPA in order to continue in and complete the program.

Written English Proficiency Requirement

Students must meet the Written English proficiency requirement by demonstrating competency on a written paper or examination.

Certificate in the Autism Spectrum

This graduate level certificate is designed to prepare highly qualified professionals to meet the unique needs of learners on the autism spectrum disorders in diverse settings. Through participation in coursework that includes embedded field experiences, candidates will acquire applied knowledge of current theory, research, and practice to guide them in working with individuals on the autism spectrum from early childhood to adulthood. Candidates may include educators, therapists, advocates, family members, adults who identify on the autism spectrum, and others from a variety of fields and backgrounds. Graduate students enrolled in the Master of Arts and/or Education Specialist Credential in Special Education may have the option of pursuing the degree, credential, and certificate concurrently without adding additional requirements. Students possessing a master’s degree in special education or a related field may complete the certificate program, including prerequisites, as a post-master’s degree program.

Admission to the Program

The specific requirements and procedures for acceptance to the autism spectrum graduate certificate program are as follows:

- Students must meet the standards required for candidates for a master’s degree program in special education or provide evidence of advanced graduate training (master’s degree) in special education or a related field.
- Students who wish to concurrently pursue the certificate, the Master of Arts in special education and the Education Specialist credential must complete at least one semester of preliminary credential coursework.
- Complete a Department of Special Education & Communicative Disorders application, for the program in Special Education, including a statement of purpose, two letters of reference, official transcripts, and a résumé.
- Interview with program faculty

Completion of the Program

The student must maintain a minimum of 3.0 GPA in order to continue in and complete the program.

Written English Proficiency Requirement

Students must meet the Written English proficiency requirement by demonstrating competence through a written examination during the first semester of enrollment and the completion of a written paper.

Doctor of Philosophy in Education: Concentration in Special Education

The Ph.D. in Special Education is a joint doctoral program within the Graduate College of Education, SF State and the Graduate School of Education, University of California, Berkeley. The doctoral committee is co-directed by a faculty member from each campus who functions in consultation with the Executive Committee composed of faculty members from both campuses. Student performance and competencies are required to meet the scholarly requirements of the Graduate Studies Divisions of both institutions.

Members of the SF State faculty are from the Department of Special Education, which represents multiple areas of study relating to people with disabilities. Faculty from departments such as communicative disorders, psychology, sociology, social work, ethnic studies, and English are also available to work with doctoral students. The majority of the University of California, Berkeley faculty come from the Graduate School of Education and includes faculty from each of the major divisions: education, language, literacy, and culture; cognition and development; policy, organization, measurement, and evaluation; and social and cultural studies. In addition, faculty from several associated fields such as psychology, linguistics, public health, optometry, anthropology, public policy, social welfare, and social and behavioral sciences also participate in the program. Students are assigned a primary advisor from each campus.

Admission Requirements

The program encourages individuals to apply who have a background and experience in special education, as well as those from related disciplines in the social, behavioral, and health sciences who seek leadership and research training. In addition to the academic criteria for admission, consideration is given to successful experience working with individuals with disabilities or in programs serving this population. Students without sufficient preparation and experience in special education will be considered for admission and required to enroll in prerequisite foundation course work.

Selection Criteria

The major factors used in the selection of candidates are:

1. undergraduate grade point average;
2. graduate grade point average;
3. verbal and quantitative scores on the Graduate Record Examination, taken within the last five years (the GRE must be taken no later than the October test date preceding the admission deadline for fellowship applicants and no later than the December test date for applicants not applying for fellowships);
4. letters of recommendation;
5. statement of purpose which describes interests and research questions motivating the candidate to apply to the program;
6. writing sample (e.g., research paper, publication, etc.);
7. academic training and related professional experience in special education; and
8. personal interview.

**Application Procedures**

Applications must be submitted to the University of California, Berkeley (UCB). For SF State, applicants must submit a single page application to the Department of Special Education: spedcd.sfsu.edu. Faculty members from both campuses will review online applications submitted to UCB. Applicants do not apply to SF State Graduate Admissions until admission decisions are completed at the department level. For UCB, follow instructions outlined in the Graduate School of Education application and the Graduate Application for Admission and Fellowships. Contact SF State campus for the annual December application deadline and application: http://spedcd.sfsu.edu/content/joint-phd, (415) 338–1161; https://gse.berkeley.edu/cognition-development/joint-special-education

**Applications and contact information for each campus:**

Department of Special Education  
Joint Doctoral Program  
San Francisco State University  
1600 Holloway Avenue  
San Francisco, CA 94132  
Phone: (415) 338–1161  
email: spedcd@sfsu.edu  
http://spedcd.sfsu.edu/content/joint-phd  

Graduate School of Education  
Student Academic Services Office  
4307 Tolman Hall, #1670  
University of California  
Berkeley, CA 94720-1670  
Phone: (510) 643–6871  
Website: gse.berkeley.edu (http://gse.berkeley.edu)

UCB applications are available after August 1.

**Areas of Specialization**

In conjunction with the primary advisors, students will select a course of study which is congruent with their professional development goals and previous course work and experience. Students select three areas of specialization in consultation with the primary advisors. These three areas are to represent distinct areas of study and represent substantial and different bodies of relevant literature. A minimum of three courses or nine units is required in each area of specialization, not including directed or independent study.

Students select an area of academic specialization in both special and general education. Faculty and program resources on the two campuses are used to develop advanced knowledge of theory and research in an area of exceptionality. Specializations include: human development; language and literacy; bilingualism; technology; educational policy and administration; early childhood special education; mild to moderate disabilities; moderate to severe disabilities; autism; visual impairments; and other areas selected by students in consultation with faculty advisors. Students develop three areas of emphasis or specialization within their program.

Students who are accepted into the program and who have minimal or no academic course work in special education will be required to enroll in prerequisite foundation courses. These courses are taken primarily at the SF State campus.

**Normative Time for Program**

The normative time for completion of the doctoral degree is five years. Two years of full-time residence is required.

**Enrollment**

Enrollment is required on a year-to-year basis on both campuses and fees are paid to one campus during alternate years. Payment of fees on one campus permits the student to take coursework and utilize the facilities of the other campus at no additional charge. Students may elect courses from any department or college on either campus each semester. Core courses are completed within the first two years in the program.

**Pre-qualifying Review**

The prequalifying review for the doctoral degree consists of the approval of three position papers, one of which is an empirical paper, and a dissertation prospectus. The position papers cover the three areas of specialization and need to demonstrate theoretical competence in the field of academic preparation as applied to problems of educational significance and competence in research methods. Students are encouraged to pursue a one-time university-level teaching experience for course credit with a faculty mentor.

**Qualifying Examination**

The qualifying examination is an oral examination of three hours duration. The examination committee is comprised of at least four members representing each campus. From UC Berkeley, one member is from the Graduate School of Education and one member from outside the school. From SF State, at least one member is from the Department of Special Education. The student, in consultation with the primary advisor, selects members of the oral examination committee. The chairperson of the committee may be a member from either campus. The passing of the oral examination is a prerequisite to advancement to candidacy.

**Advancement to Candidacy**

Following successful completion of the qualifying examination, the student advances to candidacy and submits a dissertation proposal. Advancement to candidacy occurs by the end of the semester following the completion of the qualifying examination. A dissertation committee, comprised of faculty members representing both campuses, is formed. One member must be outside the UCB School of Graduate Education. The student selects the committee and requests a faculty member from each campus to serve as co-chair. The approved dissertation prospectus form allows enrollment in dissertation coursework in the subsequent semester. Completion of the dissertation results in the award of a doctoral degree.

**Education (Ph.D.) Concentration in Special Education — 45–53 Units**

- EDUC 293L Educational Data Analysis Laboratory

Additional Course Work at SF State (Minimum 3 Units Each Semester)
During participation in the doctoral program, students need to enroll in a minimum of 3 units at SF State and 12 units at UCB each semester. Additional course work at SF State includes the following doctoral level courses, as well as additional graduate level courses in special education under advisement.

<table>

Note: At San Francisco State University, doctoral candidates repeat enrollment in SPED 908 each semester with their primary advisor for up to, but not exceeding, eight semesters. Following advancement to candidacy, the doctoral candidate enrolls in SPED 998 each semester with the chair, or co-chair, of their dissertation committee, for up to, and not exceeding three semesters.

Master of Arts in Special Education
Graduate Advisors: All tenured/tenure-track faculty serve as graduate advisors. See Department website for program emphasis and associated faculty. spedcd.sfsu.edu (http://spedcd.sfsu.edu)

General Information
Candidates may specialize in an area of emphasis that includes one of the following:

Early Childhood Special Education
This program emphasis is designed to provide special education personnel with the skills to successfully facilitate the development of young children with disabilities (birth to 5 years). Emphasis is placed on providing culturally competent family-centered services through an interdisciplinary approach.

Mild/Moderate Disabilities
This program emphasis includes preparation in educating diverse learners identified with learning disabilities, emotional/behavioral disorders, mild intellectual disabilities, speech and language delays, and neurodevelopmental differences, including autism. Through participation in courses and field experiences, candidates gain knowledge of current theory, research and practices focused on legal issues, psychoeducational evaluation, data-based assessment, curriculum design and instruction, positive behavior supports, social inclusion, and transition to college and vocations. The program emphasis also focuses on interdisciplinary collaboration and co-teaching among general and special educators while building relationships with students and their families in a variety of educational settings.

Moderate/Severe Disabilities
Candidates in this program emphasis must demonstrate their competence in providing quality educational services to students with moderate/severe disabilities including access to standards-based academic curricula and the use of systematic, data-based approaches to instruction and models of curricular adaptation and social belonging. Competencies in supporting students in inclusive settings, interacting effectively with families and in developing educational goals using a transdisciplinary team approach are also essential components of the program emphasis. In addition, a two-semester sequence of supervised practica ensures that candidates are able to apply the knowledge and skills acquired through course content and assignments to the instruction of students with moderate/severe disabilities in urban school settings.

Orientation and Mobility
Courses and field experiences in this program emphasis prepare professionals to teach skills of independent travel to people of all ages (birth through the senior years) who have visual impairments, including those who have multiple disabilities. Curriculum includes independent travel in indoor and outdoor environments; orientation skills; sensory and motor development; concept development; daily living skills; use of specialized technology in travel; and neurovision rehabilitation in the context of orientation and mobility.

Visual Impairments
The program emphasis is on the inclusion and differentiation of instruction for learners who are blind or visually impaired. Strategies include collaboration with school teams and families, information accessibility, and empowerment of individuals with visual impairments. Curriculum covers assessment, braille, technology, and areas related to the expanded core curriculum.

Admission to Program
Admission to the graduate program in special education is a two-step process with the same application deadline and needs to be completed simultaneously:

1. Apply to San Francisco State University: Complete the online CSU Mentor application. Follow all other requirements for admission to the University by accessing grad.sfsu.edu (http://grad.sfsu.edu). (http://grad.sfsu.edu)
2. Apply to the Department of Special Education & Communicative Disorders, M.A. in Special Education.

The program application requires background information, transcripts, a statement of purpose, two letters of reference, evidence of successful completion of the Level I Writing English Proficiency requirement, and a résumé. A minimum 3.0 GPA is required for admission to the M.A. in Special Education program. The program application and application deadlines are posted at spedcd.sfsu.edu (http://spedcd.sfsu.edu) or call (415) 338–1161 or email spedcd@sfsu.edu

Upon acceptance into the program, students are assigned a faculty advisor within their selected emphasis area. All students need to consult with their advisors before registration.

Upper Division/Graduate Courses (12 units)

Courses in Special Education, as required by each program emphasis.

Related Studies (6 units)

Selected upon approval of major faculty advisor in program emphasis.

Culminating Experience (6 units)

Students will be required to complete one of the following options for the approved culminating experience, following advancement to candidacy:

**Option 1**

Two elective graduate seminars that reflect critical analysis of 6

literature and application of research skills, by advisement and approval of graduate advisor. One elective seminar must be outside of the program emphasis (can include SPED 881: Advanced Research Seminar in Special Education).

SPED 896EXM Culminating Experience Examination

**Option 2**

In consultation with an advisor, select one graduate seminar outside 3

the emphasis area (can include SPED 881: Advanced Research Seminar in Special Education).

SPED 894 Creative Work Project in Special Education 3

**Option 3**

SPED 881 Advanced Research Seminar in Special Education 3

Select one of the following: 3

SPED 895 Field Study: Special Education

SPED 898 Master’s Thesis

Master of Science in Communicative Disorders

Advisors: Epstein, Gray, Raggio, Solomon-Rice, Soto, Yu

Applicants must have completed a bachelor’s degree or equivalent coursework in Communicative Disorders. In addition, coursework in biological/physical sciences, statistics, and social sciences is required prior to admission to the graduate program. These courses may have been completed for an undergraduate degree to fulfill general education requirements and would be acceptable, in addition to an undergraduate major in Communicative Disorders, or an equivalent at the post-baccalaureate level. See department and program websites for academic and faculty information at comdis.sfsu.edu (http://comdis.sfsu.edu)

Admission to Program

Admission to the graduate program in Communicative Disorders is a two-step process that should be completed simultaneously. Annual admissions are for fall semesters only.

1. Apply to San Francisco State University: Complete the on-line CSU Mentor application. Follow all other requirements for admission to the University by accessing grad.sfsu.edu.
2. Apply to the Department of Special Education & Communicative Disorders, application for Communicative Disorders. Application deadlines are posted at spedcd.sfsu.edu (http://spedcd.sfsu.edu)

Selection is based on the following:

- Completion of the SF State Level I Written English Proficiency (WEP) requirement must be met prior to admission.
- A completed program application form, official transcripts, and two letters of recommendation from former professors or individuals conversant with work with speech, language, and/or hearing impaired individuals must be submitted.
- Evidence of satisfactory completion of prerequisites, and an undergraduate degree in Communicative Disorders, or completion of equivalent courses, which are prerequisites to the graduate courses in the program. Applicants who do not have an undergraduate degree in Communicative Disorders will be required to complete equivalent coursework prior to admission as a graduate student.

When accepted into the program, attend the program orientation to receive advising.

TEACHING AND EDUCATIONAL SERVICES CREDENTIAL PROGRAMS

Teaching and Educational Services credentials are governed by the Commission on Teacher Credentialing (CTC) under authority granted to it by the California State Legislature. Institutions of higher education are granted the right to recommend candidates for licensing by the CTC after this agency has approved all programs related to teacher education and educational services credentials (Administrative Services, Clinical or Rehabilitative Services, Pupil Personnel Services, and Speech–Language Pathology Services). All programs at SF State that lead to public school teaching and school services credentials have received CTC approval.

The professional teacher preparation programs leading to a teaching credential or services credential, along with the formal authorization to recommend the awarding of credentials, are the responsibility of the Graduate College of Education. Some required course work for credentials is offered in various colleges and departments across the University. Academic departments offering majors in approved subject matter programs are responsible for certifying the subject matter competency of candidates. If a candidate has obtained a subject matter competency waiver from another institution of higher education, the student must provide verification in their admissions application.

Credential and Graduate Services Center
The Credential and Graduate Services Center (CGSC) in the Graduate College of Education provides a one-stop shop for all inquiries about credential program application requirements and procedures and information about applying for or renewing teaching and services credentials. The CGSC also assists candidates in the Graduate College of Education in submitting documents for the award of master’s degrees and applying for scholarships. The Credential and Graduate Services Center is located in Burk Hall 244.

**Admissions Tests**

- Consult SF State English Department.
- Complete a Master of Arts in English with a Concentration in TESOL.
- Major in the subject you want to teach.
- Consult Department.
- Complete a Master’s degree.
- Complete a doctorate degree (Ph.D. or Ed.D.).

**Glossary of Important Terms**

**Administrative Services Credential**: The California basic credential that allows you to work as the principal of an elementary, middle, or high school.

**Basic Skills Exam**: A test of basic math, reading, and writing skills that all credential candidates must pass. Can be taken as soon as you have completed basic college requirements in English and math. The California Basic Educational Skills Test (CBEST) is one of several ways to meet the Basic Skills Requirement.

**Bilingual Authorization**: SF State offers a bilingual emphasis (Cantonese, Mandarin, and Spanish) that allows elementary school candidates to teach in bilingual programs. Course work and a language proficiency exam in the target language (Cantonese, Mandarin, or Spanish) are required. Candidates must declare their intention at the time of application.

**CTC**: Commission on Teacher Credentialing. A state agency that establishes, reviews, and maintains standards for California educators and awards credentials on the recommendation of a university.

**Clinical or Rehabilitative Services Credential**: The California basic credential that allows you to work in the area of orientation and mobility.

**CSET**: California Subject Examination for Teachers. A test of subject matter competency.

**Early Field Experience**: Required for admission to most teaching credential programs. Usually, consists of a minimum of 45 hours of volunteer or work experience in the type of classroom environment in which you plan to teach. Classrooms should be culturally and linguistically diverse.

**Education Specialist Credential**: The California basic credential that allows you to teach students with disabilities in specific areas of specialization (e.g., mild/moderate, moderate/severe, visual impairments).
Multiple Subject Credential: The California basic credential that allows you to teach in a self-contained classroom (usually grades K–5).

RICA: Reading Instruction Competence Assessment. A test taken after completion of courses in teaching reading.

School District Leadership: A doctoral–level program offered by SF State.

Single Subject Credential: The California basic teaching credential that allows you to teach a specific subject to different groups of students (usually grades 6–12).

Teaching and Services Credentials
Teaching credential programs offered at SF State comply with the Senate Bill 2042 standards. The following credential programs are available at SF State:

Multiple Subject Credential Programs (p. 334)
- Multiple Subject
- Multiple Subject with Bilingual Authorization in Cantonese, Mandarin or Spanish

Single Subject Credential Program (p. 333)
- Single Subject

Education Specialist Credential Programs (p. 337)
- Early Childhood Special Education
- Mild to Moderate Disabilities
- Moderate to Severe Disabilities
- Visual Impairments

Education Specialist Added Authorizations (p. 340)
- Autism Spectrum Disorders
- Early Childhood Special Education
- Orthopedically Impaired

Specialist Credential Programs (p. 340)
- Reading and Language Arts Specialist
- Reading Certificate

School Services Credential Programs (p. 342)
- Administrative Services Preliminary Credential
- Pupil Personnel Services: School Counseling, School Psychology, and School Social Work

Other Services Credential Programs (p. 343)
- Clinical or Rehabilitative Services: Orientation and Mobility
- Speech-Language Pathology Services: Language, Speech, and Hearing

Multiple Subject Credential Programs

Multiple Subject Credential (MSC)
Multiple Subject Credential Program prepares candidates to teach in elementary school from Transitional Kindergarten to 5th grade. Our credential program provides teacher candidates with the pedagogical skills and content knowledge to support the social and academic development of all children. The MSC is grounded in culturally responsive pedagogically aligned with a social justice perspective. Teacher candidates develop or advanced their dispositions that support educational equity for all children. We offer several program pathways to obtain the Multiple Subject Preliminary Credential.

Twelve units of the MSC can be applied to the following: Master of Arts: Concentration in Elementary Education or to the Master of Arts in Early Childhood Education. You must enroll in one of these two MAs immediately after completing the MSC or within two years.

Multiple Subject Credential (MSC), Bilingual Authorization
The MSC, Bilingual Authorization allows bilingual-biliterate candidates to obtain an additional authorization to teach in a bilingual classroom setting in Transitional Kindergarten to fifth grade. Candidates must demonstrate listening, speaking, reading, and writing proficiency in the focus language (Cantonese, Mandarin, or Spanish).

MSC Program Options
1. Three-semester program offers either a daytime or evening option. Candidates are placed in learning communities that allow a cohort to enroll in sequenced coursework. Candidates are placed for student teaching in socially, economically, culturally and linguistically diverse elementary classroom settings.

2. One-year-academic program is geared for full-time students who can immerse themselves in an intensive credential program. Grounded in strong research-based practices and learning theories where candidates have opportunities to apply theories and instructional approaches in their student teaching practicum within weeks in first the semester. A few courses are organized in a module format allowing candidates to complete the program within one academic year. You must pass CSET & CBEST before the first semester begins.

3. Interns: The California Commission on Teacher Credentialing provisional permit allows non-credential individuals to work as the teacher of record only if enrolled in a credential program and meets other criteria. There are critical steps to follow:
   a. A candidate must show evidence of passing CSET;
   b. A school district must offer the candidate a teaching position at an elementary school site;
   c. A candidate applies and is admitted to an accredited credential program;
   d. Once enrolled after the completion of 120 credit hours, generally, three courses in one semester, the candidate with approval from advisor applies for the Intern teaching permit.

   *Note: Interns work at a slower coursework pace while in the credential program.

4. Bilingual Educators for Social Transformation (BEST) Spanish/English (3 semesters)
BEST embraces concepts of social justice and equity with a focused philosophical stance representing critical pedagogy and rooted in bilingual education. BEST integrates culturally relevant pedagogy throughout coursework. The goals are to develop critical educators who are equipped with tools to analyze and develop agency about challenges Latinos have faced, while also recognizing and highlighting the successes of the Latino communities.
5. Chinese Bilingual Authorization (Three semesters)

This option provides bilingual-bicultural courses in Chinese literacy. Chinese heritage language and pedagogy and student teaching placement in Chinese bilingual classrooms.

*Note: International students must first apply to a Master of Arts Program in Education. Once admitted, candidates can enroll in credential courses after completing a minimum of two to three graduate courses with approval of the Chair, Department of Elementary Education.

6. Early Childhood Education Focus, Transitional Kindergarten to 3rd grade. (1 academic year) Fall admissions.

This option provides an ECE focus, TK-3rd grade, however, your MS Credential qualifies you to teach TK to 5th grade. It is grounded in culturally responsive pedagogy. You will enroll primarily in sequenced courses addressing children’s language, academic and social development in primary classroom settings. Several courses will have modules focusing on instructional approaches for grades 4–5.

EdTeaching Performance Assessment (edTPA)

All Multiple Subject candidates are required to pass the EdTeaching Performance Assessment during the final student teaching phase in order to earn the California Multiple Subject Credential. The edTPA provides teacher preparation programs with a systemic approach to evaluate candidate's competencies with the Teaching Performance Expectations. EED 758, final student teaching practice seminar prepares candidates for the edTPA.

GPA Requirement throughout the Multiple Subject Preliminary Credential Program.

A GPA of 3.0 or better with no grade lower than a C+ is required in all courses comprising the professional education sequence. A grade of CR is acceptable only if required by selected EED courses.

Requirements for admission to the Multiple Subjects Credential Program

- Baccalaurate degree, except in professional education, from an accredited college or university. (Required for admission)
- Satisfy the Basic Skills Requirement (Required for admission).
  Successful passage of one of the following:
  - California Basic Educational Skills Test (CBEST)
  - CSET Multiple Subset Tests I, II, and III; Subtest IV Writing Skills Test can be taken in lieu of CBEST.
  - A Commission-approved out-of-state basic skills exam
  - CSU Early Assessment Program (EAP) Placement Test
  - Entry Level Math & English Placement Test (ELM & EPT)
  - College Board SAT, ACT, and College Board Advanced Placement Examinations (AP)
- Subject Matter Competency. Candidates must demonstrate competency in multiple subject areas by passing the Commission-approved California Subject Matter Examination for Teachers—CSET Multiple Subjects. (Required for admission)
- Complete Certificate of Clearance (fingerprinting) process. (Required for admission)
- Demonstrate knowledge of the principles of the Constitution of the United States. Applicants may satisfy the U.S. Constitution requirement either by course work or examination. Applicants who have earned a baccalaureate degree from a CSU campus have met this requirement.
- Level I Educational Technology requirement. May be met by taking ITEC 601 or the CSET Exams in Preliminary Educational Technology.
- Pass the Reading Instruction Competence Assessment (RICA) examination. RICA should be taken after taking E ED 782 and E ED 737.
- Complete a comprehensive, hands-on CPR (cardiopulmonary resuscitation) training course for infants, children, and adults. CPR card must be valid at the time of application for the Preliminary credential. Online CPR courses are not acceptable.
- GPA for admissions 2.67 overall or 2.75 last 60 units or 90 quarter units.

Single Subject Credential Program

This credential authorizes the holder to teach specified subject matter courses in departmentalized classrooms, in preschool through grade twelve or in classes organized primarily for adults. Departmentalized classes exist most commonly in California middle and high schools.

Requirements for the Preliminary Credential

- Baccalaurate degree, except in professional education, from a regionally-accredited college/university. (Required for admission)
- Satisfy the Basic Skills Requirement (Required for admission).
  Successful passage of one of the following:
  - California Basic Educational Skills Test (CBEST)
  - A Commission-approved out-of-state basic skills exam
  - CSU Early Assessment Program (EAP) Placement Test
  - CSU Entry Level Math & English Placement Test (ELM & EPT)
Limited World Languages Openings in Single Subject Program

The Single Subject Program can only place a limited number of World Languages candidates in student teaching. The number varies depending on the language.

GPA Requirement for the Preliminary Credential

A GPA of 3.0 or better with no grade lower than a C is required in all courses comprising the professional education sequence. A grade of CR is acceptable only if mandated by the department.

Candidates who are currently teaching as pre-interns or interns may be eligible for the internship program; the courses must be distributed over a minimum of three semesters. Four semesters are recommended.
Three Semester Program for Part-Time Students

First Semester, Spring:
- S ED 701  Teaching for Equity in Secondary Schools  3
- S ED 790  Second Language Development  3

Second Semester, Fall:
- S ED 640  Supervised Observation/Participation in Public Schools  3
- S ED 720  Literacy Across Content Areas  3
- S ED 751  Classroom Environment and Management  3
- S ED 800  Adolescent Development  3

Curriculum and Instruction I, discipline-based (select one):  3
- EDUC 750  Curriculum and Instruction in Art (Art)
- ENG 713  Seminar in Curriculum and Instruction in English I (English)
- CFS 699  Independent Study (Home Economics)
- S ED 759  Curriculum and Instruction I (Mathematics)
- MUS 760  Curriculum and Instruction I: Music (Music)
- KIN 750  Curriculum and Instruction I: Physical Education (Physical Education)
- S ED 759  Curriculum and Instruction I (Science)
- MLL 750  Curriculum and Instruction I: Foreign Languages (World Languages)

Third Semester, Spring:
- S ED 660  Student Teaching: Single Subject  9
- S ED 752  Professional Perspectives and Practices  3

Curriculum and Instruction II - discipline-based - select one:  3
- EDUC 755  Curriculum and Instruction II (Art)
- ENG 714  Curriculum and Instruction II: English (English)
- S ED 769  Curriculum and Instruction II (Mathematics)
- MUS 761  Curriculum and Instruction II: Music (Music)
- KIN 751  Curriculum and Instruction II: Physical Education (Physical Education)
- S ED 769  Curriculum and Instruction II (Social Science)
- MLL 751  Curriculum and Instruction II: Foreign Languages (World Languages)

S ED 751/S ED 640 and S ED 752/S ED 660 must be taken concurrently with the student teaching courses. These are cohort courses designated for students with a high school emphasis, middle school emphasis, or intern teacher emphasis.

The first student teaching course (S ED 640) includes experiences in middle level or high schools, hard-to-staff schools, and classrooms with English language learners. It is comprised of approximately 8–10 hours per week. The subsequent student teaching course (S ED 660) may also take place in similar schools. Candidates spend approximately 20–25 hours per week in the classroom (schedule may vary throughout the semester).

Student teaching hours are completed in accordance with the school site academic calendar, not the SF State academic calendar. Some teaching hours may be during the third week in August or the first three weeks of January, when SF State classes are not in session.

Students in the two-semester program will complete 90 hours of observation in the first semester (fall) for S ED 640.

If admitted to the program, credential candidates will have an opportunity to express their geographic preferences for a school site. Candidates are given their school site assignments and more specific information about the schedule at the mandatory New Student Orientation.

Education Specialist Credential Programs

Special Education

The curriculum meets the licensing requirements of the Commission on Teacher Credentialing. Programs are organized in a two-tiered system: the Preliminary and the Clear Education Specialist.

Preliminary Education Specialist programs include requirements in a general education component, core requirements including health education and CPR, plus specialization courses including student teaching. The education specialist credentials meet standards for special education Birth to Grade 12 teachers. The Preliminary credential allows graduates to teach in the area of specialization for five years.

The Clear Education Specialist program includes core requirements and advanced curricular content for each specialization area. The Clear Credential program must be completed within five years of the award of the Preliminary education specialist credential.

Admission Procedures

Admission to post-baccalaureate programs is based on the evaluation of applications to both the department and to the University. A minimum 3.0 GPA is required for admission to credential programs and must be maintained for continuation in the program. All applicants for the Education Specialist Credentials are also required to apply at the same time to the Master of Arts Degree in Special Education. If a prospective applicant already has a master’s degree, they may petition the department chair to be exempt from this requirement. Applications are available from:

Graduate College of Education Credential and Graduate Services Center
Burk Hall 244
(415) 405–3594
Email: credinfo@sfsu.edu
or
Department of Special Education
(415) 338–1161
Email: spedcd@sfsu.edu
Website: spedcd.sfsu.edu (http://spedcd.sfsu.edu).
Check for application deadlines and requirements.

Preliminary education specialist credential programs are approved for the following areas:

- Early Childhood Special Education (Birth to pre-K only) – mild to moderate and moderate to severe disabilities and traumatic brain injury.
- Mild/Moderate Disabilities (K–12, adults up to 22 years) – specific learning disabilities, autism spectrum disorder, mild to moderate intellectual disabilities, other health impairment, and emotional disturbance.
• Moderate/Severe Disabilities (K–12, adults up to 22 years) – autism spectrum disorder, mild to moderate intellectual disabilities, deaf-blindness, emotional disturbance, and multiple disabilities.
• Visual Impairments (Birth–22 years) – blind, visually impaired, deaf-blind, and autism spectrum disorder.
• Early Childhood Special Education Certificate – supplemental to Education Specialist Credentials and approved by the California Commission on Teacher Credentialing (if not earning separate Early Childhood Special Education Credential, any specialist credential can add on this certificate to expand authorization for Mild/Moderate Disabilities, Moderate/Severe Disabilities, Visual Impairments, or for professional growth).

For Orientation and Mobility specialization and Speech–Language Pathology services see Other Services Credentials (p. 343).

Substitution of Requirements
Substitutions of course and field placement requirements may be granted when candidates have prior transcript credit and when the required skill, knowledge, and performance competencies have been mastered and verified. The department chair and faculty in the area of specialization review and approve requests for course substitutions.

Preliminary Education Specialist Credential
Program requirements include the following:
• A baccalaureate degree from a regionally accredited college or university.
• Satisfy Subject Matter Competency Requirement: Successful passage of the CSET Multiple Subjects Test or by completing a subject matter program prior to admission. May be satisfied by completing the subject matter requirements outlined for the Multiple Subject or Single Subject Credentials. Required for all education specialist areas except Early Childhood Special Education.
• Demonstrate knowledge of the principles of the United States Constitution. Applicants may satisfy the U.S. Constitution requirement either by course work or examination.
• Satisfy Basic Skills Requirement: successful passage of the California Basic Educational Skills Test (CBEST), CSET Multiple Subjects Test plus Writing Skills Test, OR an approved out-of-state basic skills exam (required for admission). Refer to the Department application for additional ways of satisfying the Basic Skills Requirement using the ELM/ EPT, SAT, and/ or ACT scores.
• Complete Certificate of Clearance: Fingerprint Clearance via LiveScan and Commission on Teacher Credentialing online application (required for admission).
• Complete a Certificate of Clearance (fingerprinting) prior to fieldwork (required for admission).
• Pass the Reading Instruction Competence Assessment (R.I.C.A.) examination. RICA is required for all education specialist areas, except Early Childhood Special Education, prior to award of Credential.
• Apply for student teaching, with annual deadlines of February 28 for fall enrollment and September 28 for spring enrollment.
• Submit a Credential Approved Program (CAP) prior to student teaching reflecting all course work completed or to be completed and non-curricular requirements (submitted with the application for student teaching).
• Cardiopulmonary Resuscitation (CPR): must cover infant, child and adult CPR; online course not acceptable.

Early Childhood Special Education Certificate (38–50 Units)
The certificate program is supplemental to authorization programs for Education Specialist Teaching Credentials and for individuals not earning a separate Early Childhood Special Education Credential. This supplemental certificate expands authorization for individuals who wish to work with young children from birth through five years with the
following preliminary education specialist credentials: Mild/Moderate Disabilities, Moderate/Severe Disabilities, and Visual Impairments.

Prerequisite: Preliminary Education Specialist Credential

Clear Education Specialist Teaching Credential — 6 units
The Clear Education Specialist Teaching Credential at San Francisco State University is a field-based program. Starting in Fall 2010, all students admitted to the Clear Education Specialist Credential enroll in SPED 740 over two consecutive semesters.

Clear Credential Requirements

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPED 740</td>
<td>Education Specialist Credential Induction Plan (6 units total)</td>
<td>3</td>

</tbody>
</table>

In addition to SPED 740, students who completed the former Preliminary Level I Education Specialist Credential prior to September 1, 2010, may be advised to take a few additional classes if not previously completed (e.g., SPED 763; SPED 791; SPED 825; and Health Education requirement).

The Clear Education Specialist Credential enables teachers to apply their Preliminary preparation to the demands of professional positions while also gaining advanced skills and knowledge. Requirements include the following:

- Recommendation for the Preliminary Education Specialist program.
• Preparation and completion of a Credential Approved Program reflecting a summary of course work completed and non-curricular requirements associated with the Clear program, including enrollment in SPED 740 over two consecutive semesters.
• Equivalent work experience approved in consultation with employer and university advisor.

Guidelines and forms are available at spedcd.sfsu.edu (http://spedcd.sfsu.edu). The website provides all forms and guidelines.

Education Specialist Added Authorizations

Authorization in Autism Spectrum Disorders (ASD)
Students who currently have a Preliminary or Clear Education Specialist Credential in Deaf/Hard of Hearing, Mild-Moderate Disabilities, Physical and Health Impairments or Visual Impairments, issued prior to July 1, 2010, and would like to be authorized to work with students with Autism Spectrum Disorders, may complete the courses listed below and apply to the Commission on Teacher Credentialing (CTC) for an ASD Authorization to be added to your existing Education Specialist Credential.

Students who currently have a Preliminary or Professional Clear Education Specialist Credential issued prior to September 1, 2010, in Moderate-Severe Disabilities or Early Childhood Special Education (or the added CTC Certificate in Early Childhood Special Education), are already authorized to work with students with ASD and are not eligible to apply for the ASD Added Authorization.

Students in all program areas who are working towards a Preliminary Credential under the new standards implemented after July 1, 2010, will be authorized to work with students with ASD upon completion of the authorization program and receipt of their Preliminary Credential. Each course requires 25 hours of field experience with students with ASD.

Authorization for Orthopedically Impaired (OI) – 9 Units

Students who currently have a Preliminary or Clear Education Specialist Credential in the following areas, Deaf/Hard of Hearing, Early Childhood Special Education, Mild-Moderate Disabilities, Moderate-Severe Disabilities, or Visual Impairments, and would like to be authorized to work with students who are Orthopedically Impaired (OI), may complete the courses listed below and apply to the Commission on Teacher Credentialing (CTC) for the OI Authorization to be added to your existing Education Specialist Credential.

Students who currently have a Preliminary or Clear Education Specialist Credential in Physical & Health Impairments, are already authorized and not eligible to apply for the OI Added Authorization.

Specialist Credential Programs

Specialist Instruction Credentials
A specialist instruction credential authorizes the holder to work as a specialist in the area designated. Specialty preparation requires advanced course work and development of special competencies.

Reading and Language Arts Specialist Credential – 30 units
The curriculum meets the licensing requirement of the Commission on Teacher Credentialing. The Reading and Language Arts Specialist Credential may be combined with the Master of Arts: Concentration Language and Literacy. Admission to the program requires a 3.0 GPA. The student must maintain a B average or better while in the program.

Prerequisites
• A valid basic teaching credential.
• Verification of successful classroom teaching experience.
Passing score on the commission’s examination for the teaching of reading or successful completion of one of the following commission-approved reading methods courses:

**Teaching Experience**

Successful completion of three years of teaching in a classroom situation must be verified in writing by the administrator(s) involved in the settings where the experience took place by completion of the Reading Specialist Program.

**Note:** Candidates may complete the course work for the Specialist Credential without the completed three years of teaching experience. However, they will not be issued the credential until the three years of experience are verified.

Objectives for reading specialists are as follows:

- Collaborate and consult at school sites/districts.
- Develop a firm understanding of the professional responsibilities as an educational agent for change at the school site and district level.
- Understand the current California State standards and curriculum changes as these apply to policy, curriculum, and practice.
- Become the reading/language arts liaison between the state, the district, and the school site.
- Envision their role to coordinate and provide leadership for the school-wide literacy program.
- Develop a vision of how they will provide home-school connections that support literacy development.
- Research ways to serve as a resource for community literacy development in English, English as a second language, or in the native language of the community.
- Provide professional development for school site teachers, paraprofessional, and parents on research-based instructional strategies.
- Serve as a resource for guiding assessment.
- Provide individual assessment for students who are struggling in literacy.
- Provide direct assessment to English language learners and guide the classroom teachers on effective instructional strategies that support literacy development.
- Promote the use of multiple assessment tools, both formal and informal, to the staff.
- Contribute to the design and implementation of a school-wide assessment that is aligned with the state standards in reading/language arts.
- Use assessment as a form to inform instructional decision making for the school site.
- Interpret assessment results for the school staff, parents, and community.
- Apply expertise to distinguish reading and writing difficulties from second language acquisition development as these areas pertain to English language learners.
- Assist school staff and parents to locate community resources to meet individual needs of a student that are within and beyond the school.
- Articulate and deliver instruction by gaining knowledge in the following areas: literacy theories, assessment, and classroom applications.
- Examine research-based theories and methods of balanced early literacy instruction in reading, writing, listening, and speaking for use in linguistically and culturally diverse classroom settings.
- Examine, demonstrate, and practice classroom techniques and daily professional development sessions and classroom practice that provide for and build upon diversity in students’ abilities, personal interests, linguistics, cultural and socioeconomic background characteristics.
- Describe and demonstrate a variety of approaches to the organization of literacy instruction; e.g., individual, whole-class, homogenous and heterogeneous small groups, cooperative and collaborative groups.
- Examine and evaluate instructional materials for reading and writing in English and English as a second language, with a focus on skills and comprehensive literacy development and aligned with the California English Language Arts and the California Language Development Frameworks and California English Development and English Language Arts: Standards for English Learners.
- Implement instructional methods and materials in reading and writing that build motivation and self-esteem by addressing individual pupil need, interests, social, emotional, linguistic, and cultural background factors.
- Describe, demonstrate, and practice techniques for diagnostic evaluation, formal and informal assessment in reading and writing development for native speakers and English language learners in the culminating portfolio, class discussions, and presentation.
- Research, discuss, and compare a variety of genre materials for literacy development (including technology and other media), functional, recreational, and expository purposes that reflect cultural and linguistic diversity for kindergarten to twelfth grades (selecting an appropriate range for the reading specialist’s grade span).
- Apply knowledge for teaching reading/language arts and second language acquisition strategies to scaffold English language learners who will need additional support in the English language structure, vocabulary development, and understanding of orthographic patterns.

**Reading Certificate**
San Francisco State University offers a fifteen-unit Reading Certificate consisting of five courses, all of which apply to the Reading and Language Arts Specialist Credential, should the Reading Certificate candidate wish to complete the more advanced credential.

The Reading Certificate authorizes the holder to assess student reading and provide reading instruction in response to the assessments. The holder is also authorized to develop, implement, and adapt the reading and content curriculum, and assist classroom teachers in these areas. The certificate holder may perform these services at one or more school sites at the grade levels authorized by their prerequisite credential.

**Application Process**
In addition to the university graduate application, please submit the following to the:

Reading/Language Arts Coordinator
San Francisco State University
Department of Elementary Education
College of Education
San Francisco State University
1600 Holloway Avenue
San Francisco, CA 94132

Submit a statement of purpose, unofficial transcript, and two letters of recommendation addressing professional and academic abilities.

**School Services Credential Programs**
School services credentials authorize the holders to perform services for a school district other than classroom teaching. Preparation for the services credentials requires advanced study and administrative competence. A GPA of 3.0 or better is required for course work completed and listed on the Credential Approved Program (CAP) and a grade of C or better must be earned in every course attempted.

The approved programs at San Francisco State University include Administrative Services, Clinical or Rehabilitative Services (Orientation and Mobility), Pupil Personnel Services, Speech-Language Pathology Services (Language, Speech, and Hearing).

**Administrative Services**
This credential authorizes the holder to serve as a superintendent, deputy superintendent, principal, assistant principal, supervisor, consultant, coordinator or other equivalent intermediate-level positions.

Requirements may be met by successful completion of an accredited credential program offered by the Department of Equity, Leadership Studies, and Instructional Technologies, San Francisco State University.

Prerequisites required for the five-year preliminary administrative services credential are the following:

- A valid California teaching credential or pupil personnel services credential, health services credential, or library services credential or designated subjects credential with a baccalaureate degree, or a Clinical or Rehabilitative Services Credential.
- Satisfy the Basic Skills Requirement. Successful passage of one of the following:
  - California Basic Educational Skills Test (CBEST)
  - CSET Multiple Subjects Test plus Writing Skills Test
  - A Commission-approved out-of-state basic skills exam
  - CSU Early Assessment Program (EAP) Placement Test
  - Entry Level Math & English Placement Test (ELM & EPT)
- A minimum of five years of successful full-time teaching or pupil personnel or health services, or library services experience (or combination) in public schools or private schools of equal status. Community college experience is not acceptable.

Upon completion of the program, the candidate will receive a Preliminary Administrative Services credential or a Certificate of Eligibility credential if an administrator position is not yet secured. The Certificate of
Eligibility authorizes seeking initial employment as an administrator but does not authorize actual administrative service.

**Internship Program**
Available to students who are offered administrative positions and need the Administrative Internship Credential. Entry into this program requires a request from the district office to the chair of the Department of Equity, Leadership Studies, and Instructional Technologies.

The following courses are for students admitted into the internship program only; students must have prior approval by the internship faculty advisor.

EDAD 822 for EDAD 733; EDAD 823 for EDAD 743; EDAD 824 for EDAD 753 (3 unit courses)

**Note:** Entry-level assessment of administrative competence is conducted at EDAD 713 and EDAD 892 for the exit-level assessment.

**Pupil Personnel Services Credential**
This credential authorizes the holder to perform, at all grade levels, the service designated on the credential that may include the following:

- School Counseling
- School Psychology
- School Social Work

Requirements for the Pupil Personnel Services credential are the following:

- A master's degree or higher from a regionally accredited college or university in the authorization area.
- Completion of a Commission-approved professional preparation program in the authorization area, including a practicum with school-aged children.
- Satisfy the Basic Skills Requirement (Required for admission).
  Success passage of one of the following:
  - California Basic Educational Skills Test (CBEST)
  - CSET Multiple Subjects Test plus Writing Skills Test
  - A Commission-approved out-of-state basic skills exam
  - CSU Early Assessment Program (EAP) Placement Test
  - Entry Level Math & English Placement Test (ELM & EPT)
  - Complete the Certificate of Clearance (fingerprinting) process.

All of the programs at this university are at least two-year programs and usually include a master’s degree. Each department may have additional credential requirements in addition to those listed above. Students should inquire at the appropriate departments for up-to-date information.

**Other Services Credential Programs**

**Clinical or Rehabilitative Services: Orientation and Mobility**
The Clinical or Rehabilitative Services Credential qualifies graduates to work as Orientation and Mobility specialists. This credential authorizes the holder to teach orientation and mobility techniques to individuals who are visually impaired or blind from infancy through adulthood. Specialists for the visually impaired teach orientation skills, such as using landmarks and sensory cues, familiarizing oneself with the environment, and guiding oneself towards a destination. Orientation and Mobility specialists teach mobility skills for route travel, street crossings, and use of public transportation. Instruction may take place outdoors and indoors in homes and public buildings. When appropriate, lessons in cane technique and maximum use of residual vision may also be taught to ensure safe and efficient travel.

Program requirements for the Clinical or Rehabilitative Services: Orientation and Mobility Credential include the following:

- Completion of a baccalaureate degree
- Formal application to both the department and University
- Official transcripts
- A minimum 3.0 GPA is required for admission to credential programs and must be maintained for continuation in the program
- All applicants are also required to apply to the Master of Arts Degree in Special Education. If a prospective applicant already has a master’s degree, they may petition the department chair to be exempt from this requirement.
- Satisfy Basic Skills Requirement: successful passage of the California Basic Educational Skills Test (CBEST), CSET Multiple Subjects Test plus Writing Skills Test, OR an approved out-of-state basic skills exam (required for admission). Refer to the Department application for additional ways of satisfying the Basic Skills Requirement using the ELM/ EPT, SAT, and/or ACT scores.
- Complete Certificate of Clearance: Fingerprint Clearance via LiveScan and Commission on Teacher Credentialing online application (required for admission).
- Completion of the Certificate of Clearance (fingerprinting) process (required for admission).
- Application for student teaching with annual deadlines of February 28 for fall enrollment and September 28 for spring enrollment
- Credential Approved Program (CAP) prior to student teaching reflecting all course work taken or to be completed, as well as non-curricular requirements (submitted with application for student teaching).

Speech-Language Pathology Services Credential: Language, Speech & Hearing

The Speech-Language Pathology Services Credential qualifies graduates to work as language, speech, and hearing specialists. To work in public schools, completion of the Master of Science in Communicative Disorders is required in addition to the credential.

To continue professional training in communicative disorders and become a practitioner, a student must complete a master’s degree. Upon completion of baccalaureate degree requirements, applicants must apply to and complete a graduate program. New graduate level and transfer students may enter the program following formal admission procedures at both the department and University levels.

Program requirements for the Speech-Language Pathology Services Credential include the following:

- Completion of a baccalaureate degree in Communicative Disorders. If the B.A. is in another area, the applicant must complete the 12 undergraduate courses in Communicative Disorders as listed on the SFSU CD website,
- Applicants must possess a bachelor’s degree in Communicative Disorders or the equivalent, which is 12 undergraduate courses in Communicative Disorders as listed on the SFSU CD website, http://comdis.sfsu.edu/bachelors
- Formal application to both the department program and University.
- Official transcripts with minimum 3.0 GPA are required for admission to a credential program.
- Satisfy Basic Skills Requirement: successful passage of the California Basic Educational Skills Test (CBEST), CSET Multiple Subjects Test plus Writing Skills Test, OR an approved out-of-state basic skills exam (required for admission). Refer to the Department application for additional ways of satisfying the Basic Skills Requirement using the ELM/ EPT, SAT, and/or ACT scores.
- Complete Certificate of Clearance: Fingerprint Clearance via LiveScan and Commission on Teacher Credentialing online application (required for admission)
- Application for student teaching with annual deadlines of February 28 for fall enrollment and September 28 for spring enrollment.
- Credential Approved Program prior to student teaching reflecting all course work taken or to be completed, as well as non-curricular requirements (submitted with application for student teaching).
- Cardiopulmonary Resuscitation (CPR): Must cover infant, child, and adult CPR; online course not acceptable.

AFRICANA STUDIES

College of Ethnic Studies
Dean: Kenneth P. Monteiro

Department of Africana Studies
EP 103
Phone: (415) 338–2352
Chair: Serie McDougal III

Program Scope
The Department of Africana Studies at San Francisco State University was the first Black Studies Department established on a four-year college campus in the United States. The birth of Black Studies at SF State in 1968 was, in fact, inspired by student-led opposition to the then Western intellectual hegemony and racist scholarship that characterized the limitations found in traditional approaches to college education. In 2005, the Black Studies Department at SF State changed its name to the Africana Studies Department.

Every student should know about the unparalleled and unmatched contributions African and African American people have made to human civilization. These contributions include the formulation of the first system of government for a territorial state; creation of the foundations of science, mathematics, and advanced technology; the first written script, the foundations of philosophy and psychology; the building of the great pyramids and such modern inventions as the first electric light filament, the cotton gin, the first gas mask, the double effect evaporator, and the first design of a three-stage rocket capable of interstellar flight. In the Africana Studies program, students are able to learn about, critique, and be inspired by the accomplishments of African men and women who shaped and are shaping the moral conscience, artistic genius, scientific and technical achievements, and political activism of their time.

The Department of Africana Studies has continued to be in the vanguard of the intellectual discourse pertaining to domestic and global freedom, and the development of African people throughout the world. The maturation of the discipline has resulted in new and innovative alternatives to the traditional paradigms of oppression and exclusion. In addition to learning aspects of human history that have been hidden and/or stolen, students learn how to recognize and challenge intellectual hegemony and racist science. The discipline of Africana Studies not only provides students with the experience of challenging traditional Western orthodoxy, but also gives them an opportunity to explore new and alternative paradigms and theories. In Africana Studies, students acquire and develop an appreciation for the origins of knowledge, the philosophy of science, and the politics of knowing. Students develop a social character and personal outlook that gives them the ability to contribute to the well-being of themselves and humanity. The Africana Studies curriculum is designed to address the needs of the African and African American community as a classroom where lessons can be learned and taught. The discipline of Africana Studies prepares students to not only understand the world they live in but to see where the world is wanting and to have the ability and the desire to make it better.

Major
• Bachelor of Arts in Africana Studies (p. 345)

Minor
• Minor Program in Africana Studies (p. 354)

Bachelor of Arts in Africana Studies
Students majoring in Africana Studies are required to complete a program consisting of core courses and electives with emphases in the areas of the humanities and behavioral and social sciences. The core courses (30 units) provide the students with an appreciation of the historical development and intellectual foundation of the discipline as well as the critical knowledge base, intellectual skills, and methodological techniques essential to the field of Africana Studies. The courses offered in the emphases (nine units each) allow the student to gain a deeper intellectual grasp of the field within one of two important emphases.

The Bachelor of Arts in Africana Studies includes core courses (30 units) and an area of emphasis (9 units).

How GWAR is satisfied in the Africana Studies major: ETHS 300GW Writing in Ethnic Studies - GWAR or other approved GWAR course. The writing requirement units are not included in total units for the major.

Africana Studies (B.A.) – 39 units
Core Requirements (30 units)
AFRS 101 Introduction to Africana Studies 3
AFRS 200 Introduction to Black Psychology 3
AFRS 210 Introduction to Africana Literature 3
AFRS 266 Black On-line: Cyberspace, Culture, and Community 3
AFRS 300 From Africa to Olmec America: Ancient African Prehistory and History 3
AFRS 303 African American History 3
AFRS 345 Blacks in Urban America 3
AFRS 375 Law and the Black Community 3
AFRS 515 Black Family Studies 3
AFRS 516 Research Methods 3

Areas of Emphasis (9 units)
Select 9 units on advisement from one area below.
Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for
graduation. In this case, additional upper division courses will be needed to reach the required total.

**Complementary Studies**

Students completing a Bachelor of Arts in Africana Studies must complete twelve units in complementary studies in courses bearing a prefix other than AFRS or courses cross-listed with AFRS. These units may be in

1. a language other than English;
2. one course from each AA S, AFRS, LTNS, and RRS;
3. four courses from one prefix: AA S or AFRS or LTNS or RRS;
4. a minor or certificate;
5. units earned in a study abroad program; or
6. a coherent group of courses complementary to the major.

With the approval of an advisor in the major, courses which fulfill the complementary studies requirement may be lower or upper division units, resident or transfer units.

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.
American Ethnic and Racial Minorities (AERM)  LD or UD  3
Environmental Sustainability (ES)  LD or UD  3
Global Perspectives (GP)  LD or UD  3
Social Justice (SJ)  LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 349)

Transfer Student Roadmap (2 Year)
For students with an AA-T in Social Justice Studies. This roadmap opens in a new tab. (p. 351)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Social Justice Studies
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:
• How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
• Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
• How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
• a course in U.S. History
• a course in U.S. & California Government
• a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:
• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses
that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</table>

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Serves as the culminating experience for the major.
4. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Bachelor of Arts in Africana Studies – SJS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Social Justice Studies. All lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (p. 57).

1 AFRS 208 and AFRS 326 also count towards AFRS Humanities emphasis.
2 AFRS 376 counts towards AFRS Behavioral and Social Sciences Emphasis.
3 Three or more units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., UD GE and the major.

To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-wide Requirements: 6–15 Units**

- AFRS 214 or equivalent A4 course if not completed prior to transfer (0–3 units)
• American Institutions (0–6 units): US History, US Government, CA State and Local Government requirements. If not completed before transfer, recommended courses also satisfy specific major requirements. See notes.
• University Graduation Writing Assessment Requirement/GWAR (3 units): ETHS 300GW
• Upper division GE: Take three units to satisfy UD-B. Courses approved for UD-C and UD-D satisfy major requirements.
• Students entering the major with the AA-T in Social Justice Studies are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Africana Studies major: 39 Units**

• Core Requirements (30 units) - see list below
• Areas of Emphasis (9 units) – in consultation with a department advisor, choose three courses from either the Africana Humanities Emphasis or the Africana Behavioral and Social Sciences Emphasis. See list below.

**University Electives: 3 or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., in both UD GE and the major.

Minor Program in Africana Studies

Africana Studies Minor — 18 units

Core Requirements (9 units)
Select one course from each category A, B, and C. Additional courses completed in categories B and C count as electives.

A – Foundation
AFRS 101  Introduction to Africana Studies

B – Africana Behavioral and Social Sciences
AFRS 200  Introduction to Black Psychology
AFRS 345  Blacks in Urban America
AFRS 515  Black Family Studies
AFRS 516  Research Methods

C – Africana Humanities
AFRS 210  Introduction to Africana Literature
AFRS 266  Black On-line: Cyberspace, Culture, and Community
AFRS 303  African American History
AFRS 375  Law and the Black Community

Electives (9 units)
Upon advisement.
AMERICAN INDIAN STUDIES

College of Ethnic Studies
Dean: Kenneth P. Monteiro

Department of American Indian Studies
Ethnic Studies and Psychology Building, Room 103
Phone: (415) 405-3928
Chair: Robert Keith Collins, Ph.D.

Program Scope of American Indian Studies
The Department of American Indian Studies educational mission and objectives has a special responsibility to Native peoples of California and the United States. California is the land on which the University and department rest; CSU is a public institution in the United States education system. Therefore, significant aspects of the program and curriculum focus on Natives of California, US-Native politics, and North American Indian cultures with the aim of preparing students to work with Native groups and urban communities in California and the United States. The program also includes an international, comparative perspective and coalitional politics with Native peoples of U.S. occupied territories and more broadly within the Americas and the Pacific. It balances classroom education with an active community participatory learning component. Therefore, it best prepares students for going on to do graduate work or a number of different careers with Native peoples in not only California but internationally.

Learning Objectives
In completing the major and minor program:

1. Students will understand the complex histories, politics, and social issues confronting Native peoples in the context of U.S. colonization, imperialism, and globalization. This understanding will include awareness of the diverse political strategies used by Native peoples to confront the historical legacies of dispossession, genocide, and social inequity and discrimination, including legal action for land restoration and cultural conservation/revitalization efforts.

2. Students will compare and contrast the uniqueness of Native epistemologies and their articulation in contemporary forms of cultural media, such as through literature and the creative arts.

3. Students will gain invaluable experiential knowledge through community service learning, as a way of connecting classroom education to career preparation and advisement.

4. Students will develop the necessary analytical, oral communication, information literacy, and writing skills to prepare them for careers or graduate school in areas related to American Indian Studies.

Community Service Learning
Many courses within the major provide a Community Service Learning (CSL) option, including AIS 205 and AIS 460. This option allows students to integrate classroom education with community participatory learning. Students are enrolled in an AIS core or elective course plus AIS 694 and work with an organization approved by the department for 15 – 45 hours over the course of the semester (depending on the units). AIS 694 is entirely online, with requirements that include short written assignments and a book review. Organizations with which students have served in the past include the American Indian Child Resource Center, California Indian Legal Services, The Cultural Conservancy, International Indian Treaty Council, and the Native American Health Center.

Career Outlook
An American Indian Studies major provides a diverse foundation of knowledge and skills that can be applied to a number of careers. American Indian Studies alumni have and can anticipate securing employment in: agricultural and pastoral enterprises; environmental and cultural rights organizations; ethnography and cultural programs; health care and social work; media and communications industries; museums and cultural centers; teaching; tribal businesses and government; the traditional arts; and, federal and state agencies like the Bureau of Indian Affairs, Environmental Protection Agency, Indian Health Services, National and State Park Services, Title IX Indian Education Program, the U.S. Department of Justice Civil Rights Division, and the U.S. Department of Labor.

Majors
- Bachelor of Arts in American Indian Studies (p. 355)

Minors
- Minor in American Indian Studies (p. 363)

Bachelor of Arts in American Indian Studies

The Bachelor of Arts in American Indian Studies (AIS) is designed to challenge students to think critically about the differences and similarities between American Indians’ lives of the past and present and their own. The emphasis placed on duality in the curriculum, links the concerns of tribal communities with academic rigor, enable our faculty to harness their expertise and passion for teaching in ways that lead to greater student cultural competence and prepare them to meet high expectations. The curriculum is focused on four areas of emphasis: 1) California Indian Studies; 2) American Indian Creative Arts and Humanities; 3) Law, Politics and Society; and 4) Science, Health, and Environmental Studies. The knowledge base within these areas prepare students to work academically — and in advocacy — with both tribal and urban Native communities within California and the United States. The courses comprising the B.A. challenge students to actively question the most ingrained myths about American Indians, the roles they have played in the United States and internationally, over time, and the goals of historical and contemporary cultural maintenance and revitalization movements. The program also includes an international, comparative perspective and coalitional politics with Native peoples of U.S. occupied territories and more broadly within the Americas and the Pacific. AIS courses are taught by faculty wedded to the belief that community relationships and pedagogical rigor are the cornerstones upon which student success within the curriculum rests. AIS faculty represent
a small cadre of scholars who have distinguished themselves both nationally and internationally by pushing accepted boundaries within and outside of the field in the areas of cultural ecology, ethnohistory, ethnolinguistics, history of consciousness, mixed-race studies, and music. The interdisciplinary pedagogical excellence of the AIS faculty enables preparation of the next generation of inquisitive American Indian Studies scholars that have a responsibility to Native peoples of California and the United States. AIS Majors experience a balanced classroom education with an active community participatory learning component and are required to regularly seek advising from an AIS faculty member. Completing the Bachelor of Arts in American Indian Studies (AIS) empowers students to do the following:

1. Students will understand the complex histories, politics, and social issues confronting Native peoples in the context of U.S. colonization, imperialism, and globalization. This understanding will include awareness of the diverse political strategies used by Native peoples to confront the historical legacies of dispossession, genocide, and social inequity and discrimination, including legal action for land restoration and cultural conservation/revitalization efforts.

2. Students will compare and contrast the uniqueness of Native epistemologies and their articulation in contemporary forms of cultural media, such as through literature and the creative arts.

3. Students will gain invaluable experiential knowledge through community service learning, as a way of connecting classroom education to career preparation and advisement.

4. Students will develop the necessary analytical, oral communication, information literacy, and writing skills to prepare them for careers or graduate school in areas related to American Indian Studies.

**Community Service Learning**

Many courses within the major provide a Community Service Learning (CSL) option, including AIS 205 and AIS 460. This option allows students to integrate classroom education with community participatory learning. Students are enrolled in an AIS core or elective course plus AIS 694 and work with an organization approved by the department for 15–45 hours over the course of the semester (depending on the units). AIS 694 is entirely on-line, with requirements that include short written assignments and a book review. Organizations with which students have served in the past include the American Indian Child Resource Center, California Indian Legal Services, The Cultural Conservancy, International Indian Treaty Council, and the Native American Health Center.

**Career Outlook**

An American Indian Studies major provides a diverse foundation of knowledge and skills that can be applied to a number of careers. American Indian Studies alumni have and can anticipate securing employment in: agricultural and pastoral enterprises; environmental and cultural rights organizations; ethnography and cultural programs; health care and social work; media and communications industries; museums and cultural centers; teaching; tribal businesses and government; the traditional arts; and, federal and state agencies like the Bureau of Indian Affairs, Environmental Protection Agency, Indian Health Services, National and State Park Services, Title IX Indian Education Program, the U.S. Department of Justice Civil Rights Division, and the U.S. Department of Labor.

---

**American Indian Studies (B.A.) – 39 Units**

**Core Requirements (21 Units)**

Students in the major must earn a grade of C or better for each course in the core.

Complementary Studies

Students completing a Bachelor of Arts in American Indian Studies must complete twelve units in complementary studies in courses bearing a prefix other than AIS or courses cross-listed with AIS. These units may be in

1. a language other than English;
2. one course from AAS, AFRS, LTNS, and RRS;
3. or four courses from one prefix: AAS or AFRS or LTNS or RRS,
4. partial completion of a minor or certificate;
5. units earned in a study abroad program; or
6. a coherent group of courses complementary to the major.

With the approval of an advisor in the major, courses which fulfill the complementary studies requirement may be lower or upper division units, resident or transfer units.

<td></td>
</tr>
</tbody>
</table>

Note: LD = Lower Division; UD = Upper Division.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Transfer Student Roadmap (2 Year)

For students with an AA-T in Social Justice Studies. This roadmap opens in a new tab. (p. 361)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Social Justice Studies

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.
A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Total Units**: 15

**Total Units**: 120-122

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. **Complementary Studies**

    Students completing a Bachelor of Arts in American Indian Studies must complete twelve units in complementary studies in courses bearing a prefix other than AIS or courses cross-listed with AIS. These units may be in

    1. a language other than English;
    2. one course from AAS (p. 1397), AFRS (p. 1369), LTNS (p. 1653), and RRS (p. 1736);
    3. or four courses from one prefix: AAS (p. 1397) or AFRS (p. 1369) or LTNS (p. 1653) or RRS (p. 1736);
    4. partial completion of a minor or certificate;
    5. units earned in a study abroad program; or
    6. a coherent group of courses complementary to the major.

    With the approval of an advisor in the major, courses which fulfill the complementary studies requirement may be lower or upper division units, resident or transfer units.

5. **Law, Politics, and Society**

    AIS 230 Urban Indians (3 units)
    AIS 330 American Indian Law (3 units)
    AIS 350 Black-Indians in the Americas (3 units)
    AIS 400 American Indian Education (3 units)
    AIS 420 Native Genders and Feminism (3 units)
    AIS 460 Power and Politics in American Indian History (3 units)
    AIS 470 American Indian Ethnicity: Problems in Identity (3 units)
    AIS 490 Ancestors or Data? Culture, Conflict, and NAGPRA (3 units)

6. **Creative Arts and Humanities**

    AIS 162 American Indian Oral Literature (3 units)
    AIS 235 American Indians: Image and Issues in the Mass Media (3 units)
    AIS 310 American Indian Religion and Philosophy (3 units)
    AIS 320 American Indian Music (3 units)
    AIS 325 American Indian Art (3 units)
    AIS 360 Modern American Indian Authors (3 units)
    AIS 400 American Indian Education (3 units)
    AIS 420 Native Genders and Feminism (3 units)
    AIS 460 Power and Politics in American Indian History (3 units)
    AIS 470 American Indian Ethnicity: Problems in Identity (3 units)
    AIS 490 Ancestors or Data? Culture, Conflict, and NAGPRA (3 units)
Bachelor of Arts in American Indian Studies – SJS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Social Justice Studies. All lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

Total Units 60

1. AIS 150 satisfies US History.
2. AIS 300 satisfies Upper Division GE: UD-D.
3. AIS 205 satisfies US/CA Government.
4. See Bulletin for current list of AIS Electives.

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:
University-wide Requirements: 6–9 units
- ENG 214 or equivalent A4 course if not taken before transfer (0–3 units)
- American Institutions: Satisfied by courses required for the AIS core. See notes.
- University Graduation Writing Assessment Requirement/GWAR (3 units): ETHS 300GW
- Upper division GE: Take 3 units to satisfy UD-B. Courses approved for UD-C and UD-D satisfy major requirements.
- Students entering the major with the AA-T in Social Justice Studies are not required to fulfill SF State Studies requirements.
- Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

American Indian Studies Major: 39 units
- Core (21 units)
  - Electives (18 units): Electives are organized into four areas of emphasis: California Indian Studies; Creative Arts and the Humanities; Law, Politics, and Society; Science, Health and Environmental Studies. Students may select Electives from a single emphasis, or from all four emphases. Consult with a department advisor.

University Electives: 12 or More Units
Units depending on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., in both UD GE and the major.
Minor in American Indian Studies

The Minor in American Indian Studies (AIS) is designed to enable students to understand the differences and similarities between American Indians’ lives of the past and present and their own. Like the AIS major, the duality emphasized within the curriculum, encourages students to explore linkages between the concerns of tribal communities and academic rigor, that lend to greater student cultural competence and understanding of the most ingrained myths about American Indians, the roles they have played in the United States and internationally, over time, and the goals of historical and contemporary cultural maintenance and revitalization movements. AIS Minors develop a basic understanding of the complex histories, politics, and social issues confronting Native peoples in the contexts of U.S. colonization, imperialism, and globalization and experience a balanced classroom education with an active community participatory learning component.

Students in the minor must earn a grade of C or better for each course in the core and regularly seek advising from an AIS faculty member.

American Indian Studies Minor – 24 units

Core Requirements (18 units)

</tr>
</tbody>
</table>

Electives (6 units)

Units selected from among the upper division course offerings in American Indian studies on advisement.

Community Service Learning

Many courses within the major provide a Community Service Learning (CSL) option, including AIS 205 and AIS 460. This option allows students to integrate classroom education with community participatory learning. Students are enrolled in an AIS core or elective course plus AIS 694 and work with an organization approved by the department for 15–45 hours over the course of the semester (depending on the units). AIS 694 is entirely on-line, with requirements that include short written assignments and a book review. Organizations with which students have served in the past include the American Indian Child Resource Center, California Indian Legal Services, The Cultural Conservancy, International Indian Treaty Council, and the Native American Health Center.

Career Outlook

An American Indian Studies minor provides a basic foundation of knowledge and skills that can be useful resources for students seeking careers that require working with diverse populations (i.e., museums, health care, social work, teaching, technology, etc.).
ARAB AND MUSLIM ETHNICITIES AND DIASPORAS STUDIES

College of Ethnic Studies
Dean: Kenneth P. Monteiro

Arab and Muslim Ethnicities and Diasporas Studies Program
Ethnic Studies and Psychology Building, Room 427
Phone: (415) 405-2668
Director: Rabab Abdulhadi

Program Scope
The Minor in Arab and Muslim Ethnicities and Diasporas Studies (AMED) is a multidisciplinary program that provides undergraduate students with a justice-centered analysis in which gender, race, ethnicity, sexuality, citizenship, age, ability, and other structural inequalities are integral to the study of Arab and Muslim communities, and addresses the context in which these groups have existed and continue to develop in the current socio-political climate. The program is designed to bring together a wide range of areas including Arab/Middle East/Global Studies, Race/Ethnic Studies, and Critical Cultural Studies. Curricular focus areas include History, Identity, Politics; Pop, Culture, Literature, Art, Creativity, Activism; Gender, Sexuality, Race; Immigration and Citizenship; Comparative Studies with other Communities. AMED provides students with a non-traditional perspective on national and transnational positioning and resistances of Arab and Muslim communities.

Associate Professors
Abdulhadi, Salama

Assistant Professor
Savci

Minor in Arab and Muslim Ethnicities and Diasporas Studies — 15 units
The minor consists of 15 units. Only one-third of the units, or no more than two courses, can be taken on the basis of credit/no credit. Students must maintain at least a 2.0 grade point average in minor courses. Written declaration of the pursuit of the minor is not necessary prior to enrollment in any of its required or elective courses.

**ASIAN AMERICAN STUDIES**

**College of Ethnic Studies**  
Dean: Kenneth Monteiro

**Department of Asian American Studies**  
EP 103  
Phone: (415) 338–2698  
Chair: Grace J. Yoo

**Program Scope**

The goals of the Asian American Studies Department are to:

- Provide a comprehensive offering of courses which offer all students the opportunity to study and develop greater understanding and awareness of the histories, cultures, communities, and experiences of Asian Americans.
- Integrate knowledge and skills from a variety of other disciplines into a coherent body of information and methodologies that reflect Asian American perspectives, approaches, and needs.
- Increase the general body of information within the field of Asian American Studies.
- Encourage and promote the application of skills and knowledge from Asian American Studies to the improvement of conditions within Asian American communities and the larger society.

These goals are approached through a combination of course offerings, guided research, supervised fieldwork and participation, and student/faculty involvement in Asian American community activities and issues. The department is committed to a constant evolution of its programs and perspectives so as to reflect the dynamic character of Asian American life and circumstances. Towards these ends, courses offered by the department can be used in a number of programs and to meet a variety of graduation requirements. Solid course work in the discipline will be of value to any student intending a career that involves significant contact with Asian Americans.

**Undergraduate Program**

The department offers a B.A. in Asian American Studies for students who wish to pursue a comprehensive program of study on Asian American experiences. The major is designed to provide students with a broad range of knowledge of the diverse Asian American population through disciplinary and interdisciplinary inquiries and analyses of Asian American history, literature the arts, gender and family, and communities. Under advisement, students may use two specific courses to fulfill the history and government requirements and may use an unlimited number of units in Asian American Studies courses to count towards General Education. Students majoring in Asian American Studies are encouraged to study a modern Asian language or related courses.

**Minor Program**

The department offers a minor in Asian American Studies for those who wish to pursue a coherent course of study of the Asian American experience while completing a major in other fields. The minor program is designed to provide a wide range of course selections while ensuring knowledge of a broad range of different Asian American groups. The minor is of particular value for those students whose careers may bring them into regular professional contact with Asian American groups and communities.

**General Education and SF State Studies**

The Asian American Studies Department has designed its course offerings so that students may take a broad range of Asian American Studies courses while also meeting some General Education and other baccalaureate requirements. These offerings explore all aspects of Asian America, providing students with the opportunity to obtain a solid understanding of Asian American life and communities. In addition, by using AA S courses to partially complete General Education requirements, students can earn a major or minor in Asian American Studies in conjunction with another major, all within 120 units.

**Liberal Studies**

Asian American Studies courses can be used to meet many of the requirements for a B.A. in Liberal Studies (p. 876), most especially as the basis for an emphasis in Ethnic Studies in Area III, Behavioral and Social Sciences. Students planning to seek a multiple subjects credential to teach in the elementary school grades can use additional Asian American Studies courses to meet some of the subject matter and general unit requirements. Students are encouraged to see a Liberal Studies advisor early in their enrollment.

**Teacher Preparation**

Courses in Asian American Studies provide important knowledge on Asians in America that can assist them in teaching in California. Course work in Asian American Studies also will help prepare students to meet credential subject matter requirements as described above as part of the Liberal Studies major.

**Graduate Program**

The Master of Arts in Asian American Studies is designed, through disciplinary and interdisciplinary inquiries and analyses of Asian American history, literature and art, gender and family studies, as well as community studies, to provide students with a critical knowledge of the diverse Asian American communities. Students in Asian American Studies are encouraged to study a modern Asian language other than English.

**Career Outlook**

Both baccalaureate and master’s degrees can be used to enhance work in Asian American communities; enhance career opportunities in the Pacific Rim areas; prepare for a teaching and other professional career; and prepare for doctoral studies or other professional degrees.

**Professors**

Dong, Gonzales, Hom, Jeung, Le, Pelaud, Tintiangco-Cubales, Yoo

**Associate Professors**

Dariotis, Lee, Soe, Ueunten

**Assistant Professors**

Pido, Sasaki, Sudhakar

**Major**

- Bachelor of Arts in Asian American Studies (p. 366)

**Minor**

- Minor in Asian American Studies (p. 374)
Masters
• Master of Arts in Asian American Studies (p. 374)

Bachelor of Arts in Asian American Studies

Asian American Studies (B.A.) — 39 Units
No more than nine units can be taken for CR/NC.

Introduction to Asian American Studies (6 Units)
Select one course in Category A and one in Category B 6

Category A: History/Social Sciences
AA S 210 History of Asians in the United States
AA S 211 Contemporary Asian Americans
AA S 213 Asian Americans and American Ideals and Institutions

Category B: Humanities
AA S 212 Asian Americans and Mass Media
AA S 216 Introduction to Asian American Literature
AA S 218 Asian American Culture

Ethnic Courses (15 Units)
Select five courses representing at least four different ethnic groups.

Note: Other AA S 300 level courses are acceptable upon advisement. AA S 685, AA S 688, or AA S 699 may count if the course content is ethnic-specific (a maximum of three units from AA S 685, AA S 688, or AA S 699 can count towards the Asian American Studies major’s total unit requirement of 39).

Asian American of Mixed Heritages
AA S 301 Asian Americans of Mixed Heritages 3

Cambodian American
AA S 377 Cambodians in the United States 3

Chinese American
AA S 320 Chinese in the United States 3
AA S 322 Chinese American Language and Literature 3
AA S 323 Chinese American Identities 3

Filipina/o American
AA S 350 Filipina/os in the United States 3
AA S 352 Filipina/o American Literature, Art, and Culture 3
AA S 353 Filipina/o American Identities 3

Japanese American
AA S 330 Nikkei in the United States 3
AA S 332 Japanese American Art and Literature 3
AA S 333 Japanese American Identities 3
AA S 337 Okinawan American Heritage and Culture 3

Korean American
AA S 360 Koreans in the United States 3

Vietnamese American
AA S 370 Vietnamese in the United States 3

AA S 372 Vietnamese American Literature 3
AA S 373 Vietnamese American Identities 3

Panethnic Courses (9 Units)
Select 3 courses from the following.

Note: Other AA S 500–600 level courses are acceptable upon advisement. AA S 685, AA S 688, or AA S 699 may count for this area if the course content is panethnic (a maximum of 3 units from AA S 685, AA S 688, or AA S 699 can count towards the Asian American Studies major’s total unit requirement of 39). A lower division course may also substitute for three units with approval from an advisor.

AA S 510 Asian Americans in California 3
AA S 512 Asian American Children’s/Adolescent Literature 3
AA S 514 Asian American Community Arts Workshop 3
AA S 516 Asian American Photographic Explorations 3
AA S 540 South Asians in the United States 3
AA S 541/RRS 657 South Asian Diaspora 3
AA S 570 Southeast Asians in the United States 3
AA S 581 Asian American Women 3
AA S 582 Asian American Women’s Literature and the Arts 3
AA S 584 Asian American Sexualities 3
AA S 585 Asian American Religiosities 3
AA S 587 Asian Americans and Environmental Justice 3
AA S 588 Asian American Media Workshop 3
AA S 591 Asian American Community Health Issues 3
AA S 595 Asian American Communities and Public Policy 3

Required Major Courses (9 Units)
AA S 681 Asian American Community Changes and Development 3
AA S 696 Critical Approaches to Asian American Studies 3
AA S 697 Proseminar in Asian American Studies (prerequisite: 24 upper division AA S units) 3

Complementary Studies
Bachelor of Arts students must complete 12 units of complementary studies outside of the primary prefix for the major and not cross-listed with the primary prefix for the major.

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement.

Students in the Asian American Studies major may also satisfy the complementary studies requirement by completing one of the following options:

• 12 units from an Asian Language Complementary Studies cluster.
• 3 units from each of these prefixes: AFRS, AIS, LTNS, and RRS (may not be from courses that are cross-listed with AA S).
• 12 units from one of these prefixes: AFRS, AIS, LTNS, or RRS (may not be from courses that are cross-listed with AA S).
• 12 units as partial completion of a minor.
• 12 units as partial completion of a certificate.
• 12 units from an Asia-related study abroad program.
• Upon advisement, a coherent group of courses complementary to the major.

With the approval of an advisor in the major, courses that fulfill the Complementary Studies requirement may be lower or upper division units, resident or transfer units.

**First-Time Student Roadmap (4 Year)**

This roadmap opens in a new tab. (p. 369)

**Transfer Student Roadmap (2 Year)**

For students with an AA-T in Social Justice. This roadmap opens in a new tab. (p. 372)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Social Justice Studies

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

1. How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
2. Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
3. How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these
units before transfer; doing so will provide more flexibility in course selection after transfer.

- a course in U.S. History
- a course in U.S. & California Government
- a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

1 To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2 ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3 \textbf{Complementary Studies}

Bachelor of Arts students must complete 12 units of complementary studies outside of the primary prefix for the major and not cross-listed with the primary prefix for the major.

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement.

Students in the Asian American Studies major may also satisfy the complementary studies requirement by completing one of the following options:

- 12 units from an Asian Language Complementary Studies cluster
- 3 units from each of these prefixes: AFRS, AIS, LTNS, and RRS (may not be from courses that are cross-listed with AA S).
- 12 units from one of these prefixes: AFRS, AIS, LTNS, or RRS (may not be from courses that are cross-listed with AA S).
- 12 units as partial completion of a minor.
- 12 units as partial completion of a certificate.
- 12 units from an Asia-related study abroad program.
- Upon advisement, a coherent group of courses complementary to the major.

With the approval of an advisor in the major, courses that fulfill the Complementary Studies requirement may be lower or upper division units, resident or transfer units.

4 Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
Ethnic Courses (15 Units)
Select five courses representing at least four different ethnic groups.

Asian American of Mixed Heritages
AA S 301 Asian Americans of Mixed Heritages (3 units)

Cambodian American
AA S 377 Cambodians in the United States (3 units)

Chinese American
AA S 322 Chinese American Language and Literature (3 units)
AA S 323 Chinese American Identities (3 units)

Filipino American
AA S 350 Filipina/os in the United States (3 units)

Vietnamese American
AA S 392 Vietnamese American Identities (3 units)
AA S 373 Vietnamese American Identities (3 units)

Panethnic Courses (9 Units)

AA S 510 Asian Americans in California (3 units)
AA S 512 Asian American Children’s/Adolescent Literature (3 units)
AA S 514 Asian American Community Arts Workshop (3 units)
AA S 516 Asian American Photographic Explorations (3 units)
AA S 540 South Asians in the United States (3 units)

Other AA S 500-600 level courses are acceptable upon advisement. AA S 685, AA S 688, or AA S 699 may count for this area if the course content is panethnic (a maximum of three units from AA S 685, AA S 688, or AA S 699 can count towards the Asian American Studies major’s total unit requirement of 39). A lower division course may also substitute for three units with approval from an advisor.
Bachelor of Arts in Asian American Studies – SJS Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Social Justice Studies. All lower division GE requirements have been satisfied. Additional units in the major may have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

Minor in Asian American Studies

A total of 24 units are required for the Asian American Studies Minor, 18 of which must be from core courses and six from electives on advisement.

Asian American Studies Minor — 24 units
Introduction to Asian American Studies (6 units)
Select one course in Category A and one in Category B

Category A: History/Social Sciences
- AA S 210 History of Asians in the United States
- AA S 211 Contemporary Asian Americans
- AA S 213 Asian Americans and American Ideals and Institutions

Category B: Humanities
- AA S 212 Asian Americans and Mass Media
- AA S 216 Introduction to Asian American Literature
- AA S 218 Asian American Culture

Ethnic Courses (9 units)
Select 3 courses representing 3 different ethnic groups.
Note: Other AA S 300 level courses are acceptable upon advisement. AA S 685, AA S 688, or AA S 699 may count for this area if the course content is ethnic-specific (a maximum of three units from AA S 685, AA S 688, or AA S 699 can count towards the Asian American Studies minor's total unit requirement of 24).

Asian American of Mixed Heritages
- AA S 301 Asian Americans of Mixed Heritages

Cambodian American
- AA S 377 Cambodians in the United States

Chinese American
- AA S 320 Chinese in the United States
- AA S 322 Chinese American Language and Literature
- AA S 323 Chinese American Identities

Filipina/o American
- AA S 350 Filipina/os in the United States
- AA S 352 Filipina/o American Literature, Art, and Culture
- AA S 353 Filipina/o American Identities

Japanese American
- AA S 330 Nikkei in the United States
- AA S 332 Japanese American Art and Literature
- AA S 333 Japanese American Identities
- AA S 337 Okinawan American Heritage and Culture

Korean American
- AA S 360 Koreans in the United States

Vietnamese American
- AA S 370 Vietnamese in the United States
- AA S 372 Vietnamese American Literature
- AA S 373 Vietnamese American Identities

Panethnic Courses (6 units)
Select two courses from the following
Note: Other AA S 500–600 level courses are acceptable upon advisement. AA S 685, AA S 688, or AA S 699 may count for this area if the course content is panethnic (a maximum of three units from AA S 685, AA S 688, or AA S 699 can count towards the Asian American Studies minor's total unit requirement of 24). A lower division course may also substitute for three units with approval from an advisor.

- AA S 510 Asian Americans in California
- AA S 512 Asian American Children's/Adolescent Literature
- AA S 514 Asian American Community Arts Workshop
- AA S 516 Asian American Photographic Explorations
- AA S 540 South Asians in the United States
- AA S 541/ RRS 657 South Asian Diaspora
- AA S 570 Southeast Asians in the United States
- AA S 581 Asian American Women
- AA S 582 Asian American Women’s Literature and the Arts
- AA S 584 Asian American Sexualities
- AA S 585 Asian American Religiousities
- AA S 587 Asian Americans and Environmental Justice
- AA S 588 Asian American Media Workshop
- AA S 591 Asian American Community Health Issues
- AA S 595 Asian American Communities and Public Policy

Required Minor Courses (3 units)
Select one of the following:

- AA S 681 Asian American Community Changes and Development
- AA S 696 Critical Approaches to Asian American Studies
- AA S 697 Proseminar in Asian American Studies
  (prerequisite: 24 upper division AA S units)

Master of Arts in Asian American Studies

Admission to Program
Applicants must meet the general requirements for graduate admission at San Francisco State.

If judged deficient in undergraduate preparation in Asian American Studies, the student is required to take additional courses to meet the minimum requirements and should consult with a program advisor.

General Information
The program consists of 30 units in five modules. No more than six units are allowed in Directed Reading or Special Study or a combination of both. A student must perform satisfactorily in the first year of graduate study by maintaining a minimum grade of B in all courses taken toward the degree or be subject to dismissal. CR/NC units are not acceptable towards the degree. A graduate student in good standing must maintain a B (3.0) GPA throughout the course of study.
Written English Proficiency Requirement

Level One
Students must demonstrate proficiency in written English adequate for graduate study prior to admission by submitting a writing sample and Personal Statement with their application. Students deemed not meeting the Level One requirement may be admitted conditionally, but will be required to improve their writing skills by completing AA S 697 and/or ETHS 300GW. All entering graduate students will be further required to confirm their Level One written English proficiency by passing core seminars taken in the first year with a grade of B− or better.

Level Two
Ability to do scholarly writing in AAS shall be demonstrated by means of Level Two assessment of the Master’s Thesis or written portions of other types of Culminating Experience project at the time of submission and as a condition of approval of the Culminating Experience project.

Program

Theory and Research Methods in Asian American Studies
Intensive training in research methodologies as well as data analysis—in both the humanities and social sciences—to develop critical and analytical skills in Asian American Studies as a discipline of inquiry.

Seminars in Asian American Studies
Thematic seminars to prepare students in disciplinary and interdisciplinary inquiries.

Asian American Community Studies
In-depth studies of pertinent issues facing the Asian American community, particularly issues of public policy and health concerns through an interdisciplinary approach.

Electives or Emphasis
Courses taken on advisement with prior approval from the graduate advisor that aim to provide flexibility for graduate students to enroll in courses (upper division and/or graduate courses offered within or outside the AA S Department) to pursue an emphasis within Asian American Studies; e.g., Asian area studies, counseling, creative writing, education, English studies, cinema, electronic or print journalism, health services, history, international business, international relations, social work, etc.

Culminating Course—Master’s Thesis or Field Study
An independent and final project, which can be either scholarly or creative/artistic under graduate faculty supervision, as evidence of abilities in both research methodologies and critical analysis or artistic creativity.

ETHNIC STUDIES

College of Ethnic Studies
Dean: Kenneth P. Monteiro
Ethnic Studies and Psychology Building, Room 121
Phone: (415) 338–1694

Associate Dean: Amy Sueyoshi
Graduate Coordinator: Katynka Martinez

Program Scope
The Master of Arts in Ethnic Studies increases students’ knowledge and understanding of the experiences of people of color. The program provides training in techniques for the analysis of historical and contemporary social issues related to these experiences, and the curriculum develops students’ capacity to structurally assess, plan, and evaluate social policies aimed at the resolution of these issues. Although the focus remains primarily on the condition of Asian Americans, African Americans, Latinos, and American Indians, the program is increasingly concerned with mixed race studies, sexuality studies, diaspora studies, postcolonialism, theories of racial formation, the experiences of other communities of color, and theory/practice of resistance and social movements. The Master of Arts in Ethnic Studies is collectively administered by the Chairs’ Council of the College of Ethnic Studies.

The Master of Arts in Ethnic Studies is designed to prepare individuals for advanced graduate work leading to the doctorate or professional roles in teaching, research, and administration within both the public and private sectors. The theoretical and conceptual tools of several disciplines are critically utilized and analyzed. The program applies cutting-edge analyses, such as cultural studies, postcolonial, feminist, and queer perspectives, to instruction, research, and community involvement. Both scholarly and activist engagements with the surrounding San Francisco Bay Area communities of color are encouraged and expected.

Career Outlook
The Master of Arts in Ethnic Studies is designed to be a versatile degree—one that is inclusive rather than exclusive of employment opportunities. These possibilities range from ethnic-oriented teaching, community research, multicultural resource development, to practical application in the business and technical fields. Program graduates are also eligible to apply for teaching positions at the California community colleges in ethnic studies and related fields.

Graduates with this increasingly sought after expertise have begun establishing an impressive employment history. Approximately 25 percent of graduates go directly into teaching at community colleges or four-year institutions. An additional 25 percent enter various professional fields, including K-12 teaching, youth-related social programs, and community advocacy research.

Approximately 50 percent of the graduates proceed on to doctoral studies in a wide range of subject areas, including ethnic studies, anthropology, sociology, American studies, health education, multicultural education, communication studies, and African American studies. Although the graduate program only has been in existence since 1988, alumni of the M.A. in Ethnic Studies have gone on to Ph.D. programs at a broad array of prestigious institutions. These include various University of California campuses, Temple University, Stanford, Yale, Purdue, the University of Michigan, the University of Massachusetts, the University of Hawaii, and Harvard University.

Professors
Almaguer, Barker, Carrillo, Chew, Cordova, Dong, Esquibel, Gonzales, Hom, Jeung, Jolivette, Murguia, Pelaud, Richards, Sueyoshi, Tintiangco-Cubales, Tsuruta, Yoo

Associate Professors
Abdulhadi, Akom, Bakrania, Collins, Dariotis, Duncan-Andrade, Ferreira, Fischer, Ginwright, Le, Lee, Martinez, McDougal, Nelson, Reyes, Soe, Ueunten

Assistant Professors
Flannery, Guzman-Garcia, Perea, Pido, SASaki, Sudhakar, Wright

Masters
• Master of Arts in Ethnic Studies (p. 377)

Certificates
• Certificate in Ethnic Studies (p. 376)

Certificate in Ethnic Studies
The Certificate in Ethnic Studies provides post-baccalaureate training on inequality, activism, and self-determination relevant to communities of color and indigenous peoples to empower professionals in social services, urban planning, public health, education, law enforcement, and related fields to better serve racially marginalized populations.

Admission Requirements and Application Process
All applicants must submit the following to the College of Ethnic Studies at http://ethnicstudies.sfsu.edu/
• One letter of recommendation
• Two-page personal statement which outlines the applicants’ interests in ethnic studies
• Transcript (official transcripts from all previous colleges attended; unofficial transcript from current program)
• Resume or curriculum vitae

Matriculated graduate students may apply to the certificate program by sending the above application materials directly to the College of Ethnic Studies at http://ethnicstudies.sfsu.edu/. Students accepted to the certificate program should consult with their advisor immediately to find out how best to sequence their coursework to satisfy both home department requirements and certificate requirements.

Applicants who are not currently matriculated in any SF State graduate degree must apply (via graduate admissions) and be admitted to the University and to the graduate certificate program. Acceptance into the program is with approval of the certificate program coordinator and consent of the admissions committee following review of the application materials listed above. Individuals interested in admission to the certificate program need not have completed undergraduate degree programs in ethnic studies or a related field.
Admission to the certificate program does not mean automatic admission to any other M.A. program at SF State. Certificate program students must still apply to their desired M.A. program if they seek to earn an additional M.A. while they are in the certificate program. Some units from the certificate may be transferable to SF State M.A. programs at the discretion of the graduate coordinator of the M.A. program.

Out-of-state and international students are welcome to apply to the program. For applicants whose native language is not English: a recent internet-based TOEFL (IBT) score of 95, with an essay rating of 24. Applicants who do not meet the minimum TOEFL requirement will NOT be admitted; there is NO conditional admission. A TOEFL score of 95 is considered to be very minimal; applicants who demonstrate stronger English proficiency with a higher TOEFL score (and higher essay rating) will have a better chance of being admitted.

All course work used to satisfy the requirements for the certificate must be completed with a minimum grade point average of 3.0, and only courses completed with a grade of B- or better may be included to meet graduate certificate requirements. While taking courses for the graduate certificate, students will have demonstrated appropriate writing proficiency through written assignments in designated courses by the achieving the minimum GPA to complete the certificate.

Master of Arts in Ethnic Studies

Admission to the Program

Applicants must meet the general University requirements, along with the College of Ethnic Studies requirements:

- Possess a bachelor’s degree from an accredited institution in a field related to the program as determined by the Graduate Admissions Committee.
- Possess a grade point average of at least 3.0 (on a 4.0 scale) in the last 60 semester (90 quarter) units attempted.
- Must have completed a minimum of 12 semester (16 quarter) units in ethnic-related course work or have comparable experience.
- Must have completed a basic course in statistics.

The graduate admission application to SF State is a two-part process. You must submit Part One and Part Two of your graduate admission application simultaneously by the deadline to be considered for admission.

1. Submit the application to the Division of Graduate Studies via http://www.csumentor.edu/AdmissionApp/grad_apply.asp

2. Submit the following information to the graduate coordinator of the College of Ethnic Studies (on behalf of the College of Ethnic Studies Graduate Admissions Committee):

- College transcripts
- The Master of Arts in Ethnic Studies application (online form at http://ethnicstudies.sfsu.edu/) that includes a statement of purpose outlining background experiences and possible community involvement, career objectives, rationale for studying ethnic studies, how your undergraduate degree relates to the M.A. in Ethnic Studies, and a biographical statement
- Two letters of recommendation from individuals having direct knowledge of the applicant's scholastic ability and commitment to the field of Ethnic Studies
- An 8-15 page writing sample (such as a research paper) that best reflects the applicant's ability to do research in proposed areas of graduate study
- A current vita

Applications are accepted for fall semester admissions only. The application deadline is February 1st.

Written English Proficiency Requirement

Level One

Level One written English proficiency must be met through satisfactorily meeting the writing requirements in ETHS 710.

Level Two

Students must indicate a method of demonstrating their further competency in English at the time of filing the Advancement to Candidacy. The latter assessment of competence is evidenced by the writing of a field study or a master’s thesis.

Advancement to Candidacy

To file for the Advancement to Candidacy, students must have completed at least 18 units toward the degree, but no later than the semester prior to beginning the Culminating Experience. The ATC requires a grade point average of 3.0 or better. Before filing the ATC, students must demonstrate proficiency in written English and complete any other program pre-candidacy requirements. The proposed course of study when approved by the dean of Graduate Studies means the student has been advanced to candidacy.

Select one on advisement:
ETHS 895  Field Study  3
or ETHS 898  Master's Thesis

1 Area Emphasis: Students are required to focus on an area of
emphasis in Africana Studies, American Indian Studies, Asian
American Studies, or Latina/Latino Studies. In addition, the program
offers students the opportunity to study Arab Muslim ethnicities and
diaspora, and race and resistance studies employing comparative
methodology. Courses selected to fulfill the emphasis will provide
a student with the subject matter foundation to complete the
culminating research project field study or thesis. Upon advisement,
upper division/graduate course work in the College of Ethnic Studies
and other departments on campus may be used.
LATINA/LATINO STUDIES

College of Ethnic Studies
Dean: Kenneth P. Monteiro

Department of Latina/Latino Studies
Ethnic Studies and Psychology Building, Room 103
Phone: (415) 338–6160
E-mail: latinos@sfsu.edu
Chair: G. Alejandro Murguía

Program Scope
Latina/Latino Studies is a unique liberal arts B.A. degree program with an emphasis on equity, social justice, and community empowerment. The program offers an opportunity to study within a multidisciplinary framework of knowledge to develop critical thinking skills, analytical and writing skills, and an area of expertise centered on Latinos in California and the United States. The program is designed to develop knowledge, skills, and consciousness that empower students to function as effective leaders in an increasingly complex, diverse, and global society. The major prepares students for graduate and professional schools for a wide range of public and private sector employment, and for a lifetime of community commitment and involvement.

The Latina/Latino Studies curriculum is critical, analytical, holistic, and cutting-edge. Students choose an integrated series of Major or Minor required and elective courses, as well as General Education classes focused on Latinos in the United States. Theoretical frameworks address race, class, sexuality, and gender inequities historically and in the present time in an analysis of multiple marginalities, community resistance, and empowerment.

Latina/Latino Studies curriculum favors a pan-Latino and comparative approach grounded in the U.S. but sometimes following a trajectory back to Latin American countries of origin and the indigenous cultures and histories connected to Latino diasporic communities. The institutional experiences, social and national identities, cultural expressions and resistance movements of Chicano/a, Mexican, Central and South American, and Caribbean-American communities in the U.S. are centrally addressed. The program emphasis is on gender, transnational identities, global economies, social movements, and literatures of resistance across the curriculum.

The Latina/Latino Studies curriculum is grounded in our local communities. Our programs stress commitment to community service, to civic engagement, social justice, and equity. We stress the importance of critical, socially responsible scholarship and link our classrooms to local communities and their empowerment through our own Community Service Learning Program. We also have short-term international study tours to Mexico and Cuba (Cuba travel suspended until the Cuba travel ban is lifted).

Community Service Learning Internships and International Study Tour
Supervised local community service learning internships and international study tours offer unique learning opportunities for students that enrich and expand their academic experience. Students may earn up to six units in each of these programs toward the Latina/Latino Studies Major or Minor. Students participate in organized group fundraising activities to support their travel. Permission of the supervising faculty is required to travel. Students report back to the campus community the results of the study tours.

The department requires that students complete at least one 3 unit, thirty-five-hour local community service learning internship for the Latina/Latino Studies major and the minor. Internships are available every semester. Students choose internships from a wide variety of community-based organizations and government agencies, research and policy organizations, and schools. Students must concurrently enroll in a 3 unit online reflection component, LTNS 694. The community service learning internships are designed to enrich the academic experience and to prepare students for future careers as well as to establish empowering mutually beneficial contacts within the Latino communities of the greater Bay Area. It is a goal of the CSL Program to instill in our students a life-long commitment to community service and civic engagement.

Students interested in joining the International Study Tour to Cuba must first successfully complete LTNS 692. The Cuba study tour is designed to provide students with opportunities to interact with local people and public officials and to learn about culture, social institutions and community organizations in Cuba.

The Mexico Study-Tour
The Mexico Study-Tour travels in late May and early June, leaving the Monday following graduation. The intensive twelve-day trip to Mexico DF and Morelos is faculty supervised. Students meet with activists from community-based organizations and schools to learn about grassroots political and social change. Students planning to travel to Mexico must first successfully complete LTNS 670, covering Mexican history and politics and Mexico’s unique relationship to the United States. This course is offered every spring semester.

Clínica Martin Baró
Clínica Martin Baró is a community clinic providing health and medical services in San Francisco’s Mission District. The Clínica was established by faculty, students, and licensed medical personnel from Latina/Latino Studies at San Francisco State University and from the Medical School at the University of California, San Francisco. Clínica Martin Baró offers service learning internships to students considering careers in the health and medical fields. Students must first successfully complete or concurrently enroll in LTNS 210.

Extra Curricular Activities
Latina/Latino Studies fosters mentoring relationships with students. A range of support services is offered, including educational planning, advising, academic skills development, professional and graduate school and scholarship application assistance and career development. Cipactli, a journal of creative works by students is published annually. Students are encouraged to become members of the academic Association of Latina/Latino Studies Major and Minor Students (ARMMES).

General Education/American Institutions
General Education Lower Division Social Sciences U.S. and California Government (Area D3), U.S. History (Area D2), and American Institutions courses offered by the department (must earn a grade of C- or better to satisfy the requirement):

Electives (15 Units)
Selected on advisement.

Note: A minimum of 40 upper division units must be completed for the degree (including upper division units required for the major, general education, electives, etc.). A student can complete this major yet not attain the necessary number of upper division units required for graduation. In this case, additional upper division courses will be needed to reach the required total.

Note: Students must complete at least one community service learning module consisting of three units of LTNS 694 and three units selected from Latina/Latino Studies courses designated (CSL). The two courses must be taken concurrently. Courses marked (CSL) offer internship opportunities.

Complementary Studies
Students completing a Bachelor of Arts in Latina/Latino Studies must complete at least twelve units in Complementary Studies with a prefix other than LTNS, and not cross-listed with LTNS. These units may be in

1. a Spanish or other Latin American Language;
2. one course from each of these prefixes: AAS, AFRS, AIS, and RRS;
3. 12 units in one of the prefixes AAS, AFRS, AIS or RRS;
4. partial completion of a minor, or partial completion of a certificate;
5. a study abroad program in Latin America; or
6. upon advisement, a coherent group of courses complementary to the major.

With the approval of an advisor in the major, courses which fulfill the Complementary Studies requirement may be lower or upper division units, resident or transfer units.

Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.

First-Time Student Roadmap (4 Year)  
This roadmap opens in a new tab. (p. 384)

Transfer Student Roadmap (2 Year)  
For students with an AA-T in Social Justice Studies. This roadmap opens in a new tab. (p. 387)

For students with an AA-T in Spanish. This roadmap opens in a new tab. (p. 389)

This degree program is an approved pathway ("similar" major) for students earning the ADT in Social Justice Studies or Spanish  
California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a "similar" major after transfer. Determinations about "similar" majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a "similar" major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students  
1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission. Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLERP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs  
Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

382
Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - a. One course in oral communication (same as CSU GE area A1)
  - b. One course in written composition (same as CSU GE area A2)
  - c. One course in critical thinking (same as CSU GE area A3)
  - d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

**Total Units** 120-122

---

1. To avoid taking additional units, it is recommended that you meet **LLD and SF State Studies** requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. **Complementary Studies**
   Students completing a Bachelor of Arts in Latin/Latino Studies must complete at least twelve units in Complementary Studies with a prefix other than LTNS, and not cross-listed with LTNS. These units may be in
   - a Spanish or other Latin American Language;
   - one course from each of these prefixes: AAS, AFRS, AIS, and RRS;
   - 12 units in one of the prefixes AAS, AFRS, AIS or RRS;
   - partial completion of a minor, or partial completion of a certificate;
   - a study abroad program in Latin America; or
   - upon advisement, a coherent group of courses complementary to the major.
   With the approval of an advisor in the major, courses which fulfill the Complementary Studies requirement may be lower or upper division units, resident or transfer units.
   Students who have earned AA-T or AS-T degrees and are pursuing a similar B.A. degree at SF State are required to fulfill the Complementary Studies requirement as defined by the major department. Students should consult with a major advisor about how transfer units and/or SF State units can best be applied to this requirement in order to ensure degree completion within 60 units.
5. **Major Arts and Humanities**
   - LTNS 225 Latina/o Art History (3 units)
   - LTNS 225 Survey of Latina/o Visual Images (3 units)
   - LTNS 230 Introduction to Latina/o Literature (3 units)
   - LTNS 270 Latina/o Arts and Humanities (3 units)
   - LTNS 286 Policy Making and Latinos (3 units)
   - LTNS 305 Latina/o Studies Creative Writing Workshop (3 units)
   - LTNS 409 Latina/o Cinema (3 units)
   - LTNS 425 Popular and Traditional Music of the Latina(o) Diaspora (3 units)
   - LTNS 440 Caribbean Cultures and Spirituality (3 units)
   - LTNS 455 Resistance Literature of the Americas (3 units)
   - LTNS 475 Aztec Philosophy (3 units)
   - LTNS 490 Latina/o Teatro Workshop (3 units)
   - LTNS 520 North and South American Cultural Expression (3 units)
   - LTNS 530 Latina/os and the Media (3 units)
   - LTNS 536 Latina/o Journalism (3 units)
   - LTNS 560 Contemporary Latina/o Literature (3 units)
   - LTNS 679 Central American Literature: Roots to the Present (3 units)
6. **Major History**
   - LTNS 265 Topics in Latina/o History (3 units)
   - LTNS 278 History of Latinos in the U.S. (3 units)
   - LTNS 315 Latina/os in California (3 units)
   - LTNS 435 Oral History Methods: Theory and Practice (3 units)
   - LTNS 450 Indigenismo: Indigenous Cultures of the Americas (3 units)
   - LTNS 460 Central Americans of the U.S.: History and Heritage (3 units)
   - LTNS 465 Mexican-Americans: History and Heritage (3 units)
   - LTNS 467 Caribbeanans in the U.S.: History and Heritage (3 units)
   - LTNS 501 Latin America: The National Period (3 units)
   - LTNS 533 History of Women in Latin America (3 units)
LTNS 680 serves as the culminating experience for the major.

Major Behavioral and Social Science (6 units)
LTNS 205 Cyber Raza: Culture and Community On-line (3 units)
LTNS 210 Latina/Latino Health Care Perspectives (3 units)
LTNS 211 Latina/o Families Narrative (3 units)
LTNS 276 Latina/o, U.S. Government, and Constitutional Ideals (3 units)
LTNS 280 Transculturation and Latina/o Communities (3 units)
LTNS 286 Policy Making and Latinos (3 units)
LTNS 355 Black-Indians in the Americas (3 units)
LTNS 380 Afro/Latina/o Diasporas (3 units)
LTNS 410 Seminar on Gender and Latinas/os (3 units)
LTNS 415 Economic Progress of Latinos in the U.S. (3 units)
LTNS 430 Race, Crime, and Justice (3 units)
LTNS 455 Resistance Literature of the Americas (3 units)
LTNS 470 Latina/o Immigration to the U.S. (3 units)
LTNS 485 Latina/o Youth, Crime, and Justice (3 units)
LTNS 500 Latina/o Community Mental Health (3 units)
LTNS 580 Educational Equity (3 units)
LTNS 640 Sociology of the Latino Experience (3 units)
LTNS 660 Latina/o Politics (3 units)
LTNS 670 Mexican Politics and Society (3 units)
LTNS 680 Latina/o Community Organizing (3 units)
LTNS 685 Projects in the Teaching of Latina/o Studies (1-4 units)
LTNS 690 Community Fieldwork in Latina/o Studies (3 units)
LTNS 692 Cuba: Health, Education, and Culture (3 units)
LTNS 693 Cuba: Community Service Learning (3 units)
LTNS 694 Community Service Learning (1-3 units)
LTNS 707 Seminar in Latina/o Studies (3 units)
**Bachelor of Arts in Latina/Latino Studies – SJS Associate Degree for Transfer Roadmap**

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Social Justice Studies. All lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence for you. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

¹ See Bulletin for current list of all LTNS courses.
² LTNS 450 satisfies UD-C
³ LTNS 460 satisfies UD-D

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 6–9 Units**

- ENG 214 or equivalent A4 course if not completed prior to transfer (0–3 units)
- American Institutions: US History, US Government, CA State and Local Government requirements. If not completed before transfer, recommended courses also satisfy specific major requirements. See grid above.
- University Graduation Writing Assessment Requirement/GWAR (3 units): ETHS 300GW
- Upper division GE: Take 3 units to satisfy UD-B. Courses approved for UD (C) and UD (D) also satisfy major requirements. See lists below.
Students entering the major with the AA-T in Social Justice Studies are not required to fulfill SF State Studies requirements. Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Latina/Latino Studies Major: 39 Units**

- Core (12 units)
- Arts and Humanities (3 units): Select courses in consultation with department advisor. See list below.
- History (3 units): Select courses in consultation with department advisor. See list below.
- Behavioral and Social Sciences (6 units): Select courses in consultation with department advisor. See list below.
- Electives (15 units)

**University Electives: Six or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and in the major.

**Major Behavior and Social Science Emphasis (all courses satisfy UD-D)**

¹ Take Major History Emphasis if LTNS 278 not completed in first semester.
² LTNS 450 satisfies UD-C
³ LTNS 460 satisfies UD-D

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 Units**

- ENG 214 or equivalent A4 course (0–3 units) if not taken before transfer
- American Institutions (0–6 units): US History, US Government, CA State and Local Government requirements. If not completed before transfer, recommended courses also satisfy specific major requirements. See notes.
• University Graduation Writing Assessment Requirement/GWAR (3 units): ETHS 300GW
• Upper division GE: Take three units to satisfy UD-B. Recommended major courses also satisfy UD-C and UD-D. See notes.
• Students entering this major with the AA-T in Spanish are not required to fulfill SF State Studies requirements.
• Complementary Studies: consult with a department advisor on how transfer units and/or SF State units can be applied to ensure degree completion within 60 units.

**Latina/Latino Studies Major: 36–39 Units**
Consult with a department advisor about applying up to three transfer units to the major.

• Core (12 units)
• Arts and Humanities (3 units): Select courses in consultation with department advisor. See list below.
• History (3 units): Select courses in consultation with department advisor. See list below.
• Behavioral and Social Sciences (6 units): Select courses in consultation with department advisor. See list below.
• Electives (12–15 units): as stated above, consult with a department advisor about applying up to three transfer units to the major.

**University Electives: Six or More Units**
Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. in both UD GE and the major.

**Major Behavior and Social Science Emphasis (all courses satisfy UD-D)**

Minor in Latina/Latino Studies

A minor is available to students who have selected a different major but also want to pursue a coherent course of study in the field of Latina/Latino Studies. The minor enables students to supplement a major in a different field with course work in Latina/Latino Studies. The minor requires a set of core courses supplemented with a selection of electives chosen on advisement that complement the major they have chosen. The minor consists of 24 units of which nine are required core units, nine are distributed among three areas of emphasis, and six are elective units chosen on advisement.

RACE AND RESISTANCE STUDIES

College of Ethnic Studies
Dean: Kenneth P. Monteiro

Race and Resistance Studies Department
Ethnic Studies and Psychology Building 210
(415) 338-1645
Chair: Jason Ferreira

Program Scope
The Race and Resistance Studies minor is an interdisciplinary program that provides undergraduate students with an approach to social justice to study race as a politically produced and contested process that begins with institutions, movements, and social problems, to examine racialized communities. The curriculum examines how race, gender, and class are co-constitutive factors of identity, how different groups are racialized in relation to one another; how social justice movements cohere and fall apart; and how groups have formed their own identities. The Race and Resistance Studies minor provides students with non-traditional, multi-ethnic, and comparative perspectives on national and transnational experiences of people of color within the U.S.

Professor
Sueyoshi, Esquibel

Associate Professors
Abdulhadi, Bakrania, Ferreira

Race and Resistance Studies,
Minor — 19 - 21 units
The minor consists of 19 to 21 credits of undergraduate study.

- Only one third of the credits or no more than approximately two courses can be taken credit/no credit for the minor.
- Students must have maintained at least a 2.0 grade point average in minor courses.
- At least half of all courses towards the minor degree must be upper division at the 300 level or above.

Consistent with current University policy, courses for meeting the requirements of this minor may, as appropriate, be used simultaneously for meeting general education or credential requirements. Written declaration of the pursuit of the minor is not necessary prior to enrollment in any of its required or elective courses. Students should try to complete ETHS 100 or ETHS 110 before taking any further courses in the minor. These courses, however, may be taken concurrently. Additional courses may count towards the minor upon consultation with the Race and Resistance Studies undergraduate minor advisor.

Introductory Courses (3 units)
ETHS/RRS 100 Introduction to Ethnic Studies
or ETHS/RRS 110 Critical Thinking and the Ethnic Studies Experience

Core Courses (9 units)
Select one course from three different sections A through D below: 9

Section A: History and Politics
- RRS 240 All Power to the People: Comparative Freedom Movements of the “Sixties”
- RRS 250 Race, Ethnicity and Power in America
- RRS 350 Race, Labor, and Class
- RRS/SOC 410 Grassroots Organizing for Change in Communities of Color
- RRS 435 National Security and the Racialization of Arabs and Muslims in North America
- RRS 520 Race, Radicalism and Revolution
- RRS 600/HIST 466 History of People of Color in the U.S.

Section B: Popular Culture, Literature, and the Arts
- RRS 280 Race, Gender, and Science Fiction
- RRS 285 Race, Sports, and Society
- RRS 360 Cultural Dialogues and Ethnic Literature
- RRS 430 Arab Media Images in America: Impact on Arab Americans
- RRS/ARAB 450 Contemporary Arabic and Arab American Literature
- RRS 480 Youth Culture, Race and Resistance

Section C: Gender and Sexuality
- RRS/SXS 380 Coloring Queer: Imagining Communities
- RRS 571 Women, Class, and Race

Section D: Diasporas and Transnationalism
- RRS 370 Islamophobia: Roots, Development, and Contestation of Hatred
- RRS 420 Arab American Identity: Memory and Resistance
- RRS 630 Palestine: Ethnic Studies Perspective
- RRS 657 South Asian Diaspora
- WGS/RRS 566 Gender and Modernity in the Muslim and Arab Worlds

Community Service Learning (1 - 3 units)
Select one from below or as 1 - 3 CSL units attached to any course listed in the minor.
- AA S 591 Asian American Community Health Issues
- AFRS 694 Community Service Learning
- AIS 694 Community Service Learning
- LTNS 694 Community Service Learning

Ethnic Specific Course from AA S, AFRS, AIS, or LTNS (3 units)
Choose one course on advisement, from a different department than the one used to fulfill the CSL requirement.

Elective Courses (3 units)
Choose one from below or any course from above, including from the ethnic-specific departments or programs, not used to satisfy basic requirements.
- AFRS/PLSI 466 Black Lives Matter: Race and Social Movements

DIGITAL ANIMATION

College of Extended Learning
SF State Downtown Campus
835 Market Street, 6th Floor
San Francisco, CA 94103
Phone: (415) 817-4230
Fax: (415) 817-4299
Website: https://cel.sfsu.edu/animation
Program Director: Robert Collins
Program Coordinator: Afitap Boz

Program Scope and Objectives

Computer animation is a highly collaborative field, and animators should be able to interact, both verbally and visually, with lighters, modelers, riggers, etc. in a constructive way. It is also crucial to have an understanding of both the artistic and technical aspects of 3D computer animation, to develop a spirit of inquiry, as well as develop a good work ethic and communications skills. The Digital Animation Certificate will offer students hands-on courses taught by industry experts, allowing students to work on a variety of assignments and develop projects for their portfolio, thus giving them a jump start into the field of animation.

Although the curriculum revolves around animation, we also offer classes in modeling, rigging, lighting, texturing, story, and improvisation. The focus of these classes is to help students understand the animation field as a whole while building a vocabulary that is common to all of these areas. This certificate is geared towards people who have some background in filmmaking, illustration, fine arts or animation (e.g., 2D or stop motion), and are interested in further developing their skill set or anyone who would like to become a professional 3D animator.

In the final semester, students will be enrolled in the Studio Class. This is a project-based class and most of the class time will be spent reviewing and critiquing individual work in progress. In this class, students will put to use everything they have learned in previous classes and work towards the completion of a short animated sequence. This course will guide students in creating a demonstration reel (DVD) of their course work to be used for the purposes of applying for employment in the animation industry.

Faculty

All courses in this program are taught by professionals working for animation industry and experts in the fields of filmmaking, computer graphics, and 3D animation.

Career Outlook

The Digital Animation Certificate Program offers students hands-on courses taught by industry experts, allowing students to work on a variety of assignments and develop projects for their portfolio, thus giving them a jump start into the field of animation.

Admissions to program

To be admitted to an academic certificate program, students should have completed 60 units of academic credit with a minimum GPA of 2.0 or sufficient experience to demonstrate they can perform upper division work. Students who do not have 60 units are encouraged to apply and may be admitted to a program on a conditional basis.

Writing Skills

The certificate program’s course content requires good writing skills. Certificate students who do not have a bachelor’s degree must pass a University approved Graduation Writing Assessment Requirement course (GWAR). ENG 414 is an approved GWAR course and also counts as elective units that can be applied toward the certificate.

Completion of Certificate

Graduation applications must be submitted at least four weeks before the end of the semester. Upon graduation, students receive a certificate signifying program completion. To be graduated, these requirements must be met:

1. The 27 unit coursework used to satisfy the requirements of the academic certificate must be completed with a minimum cumulative grade point average of 2.0 (C) or better.
2. At least two-thirds of the units applied toward meeting the requirements of an academic certificate program must be graded on a letter-grade basis.
3. All requirements for academic certificate programs must be completed within a seven-year time period beginning with the date of registration for the first certificate course and ending with the date the last course requirement is completed.
4. All financial obligations to the University must be cleared.
DIGITAL MEDIA PRODUCTION

College of Extended Learning
SF State Downtown Campus
835 Market Street, 6th Floor
San Francisco, CA 94103
Phone: (415) 817–4230
Fax: (415) 817–4299
Program Director: Robert Collins

Note: The Digital Media Production Certificate is under review for discontinuance. Please contact the College of Extended Learning for further information.

Program Scope and Objectives
Digital Media Production is an academic certificate of the SF State College of Extended Learning. Emphasis is on tools training in film audio and video post production. Students are not required to apply for the entire certificate in order to take Digital Media courses.

Digital Media Production Certificate
Admission Requirements
The certificate program requires completion of 24 semester units. Fifteen of these units are to be taken from a core of courses and the remaining nine may be chosen from the list of elective courses. To be admitted to the Digital Media Production Certificate program, students should have at least 60 units of academic credit with a minimum GPA of 2.0 or sufficient experience to demonstrate that they can perform upper division work. However, students who do not have 60 units are encouraged to apply and may be admitted to the program on a conditional basis.

Check with Digital Media Production staff for additional requirements.

Digital Media Production Certificate — 24 units
Core Courses (15 units)
Electives (7 units)
Final Requirement (2 units)
FILM AND MEDIA STUDIES

College of Extended Learning
SF State Downtown Center
835 Market Street, 6th Floor
San Francisco, CA 94103
Phone: (415) 817–4223
Fax: (415) 817–4299

Program Scope
The Certificate in Film and Media Studies (Online) is an online program of courses designed to provide academic training for those who are interested in advancing their educational and/or career goals in the popular and growing field of film and media studies. Courses will be taught by faculty in the Cinema Department at San Francisco State University, and on occasion by adjunct faculty (lecturers, visiting faculty, etc.) in cinema studies.

Admissions Requirements and Application Process
To be admitted to this program, students should have a high school diploma or equivalency. High School students that qualify for CLEP will be admitted conditionally. Normally, applying to the Program is not required in order to take the individual courses that make up the certificate. Hence, a student can take all the courses one by one and, should they complete them all, are then eligible to apply for the certificate. Matriculated SF State Cinema majors and minors are not eligible to apply for the Certificate.

Written English Proficiency Requirement
Academic certificate program courses require good writing skills. Students enrolled in certificate programs who do not have baccalaureate degrees from an English-speaking country are asked to demonstrate their writing ability soon after admission by doing one of the following:

1. Provide evidence of completion of SF State's ENG 214 or equivalent.
2. Internet-based TOEFL (iBT) score of 95 with an essay rating of 24.

To apply, complete the College of Extended Learning's Certificate Application Form, available at http://www.cel.sfsu.edu/register/forms.cfm

A $50 fee is charged for processing the application. An additional fee of $60 per course will be added to CEL's usual registration fees for technology-related costs.

For information about the program, upcoming schedule of classes, and registration deadlines, please visit www.cel.sfsu.edu (http://www.cel.sfsu.edu)

**MUSIC/RECORDING INDUSTRY**

**College of Extended Learning**
SF State Downtown Campus
835 Market Street, 6th Floor
San Francisco, CA 94103
Phone: 415-817-4230
Fax: 415-817-4299
Web Site: https://cel.sfsu.edu/music
Program Director: Robert Collins
Program Coordinator: Joy Thompson

**Program Scope and Objectives**
The Music/Recording Industry program is designed for students who want to learn more about the music business and audio recording industry through a structured program of study. Musicians, producers, engineers, lawyers, agents, promoters, managers, and entertainment writers can all benefit from MRI courses. The program integrates technical skills in recording, business, and legal aspects, along with production and distribution elements, to provide foundations in the music business and audio engineering fields.

**Faculty**
Program faculty are selected for their expertise in the technical or business aspects of the music/recording industry and for their outstanding teaching ability.

**Career Outlook**
The Music/Recording Industry Certificate is designed both for the student who wants an overall basic education in the business of music/audio recording and for the professional who is seeking to broaden an area of expertise. Course work in the program may be applied toward the certificate or individual classes may be taken to learn or update skills. Students may choose to pursue an audio engineering or a business emphasis or apply the academic credit earned in this program towards a degree in related subject areas. Job categories include artist management, professional songwriter, record producer, audio engineer, sound designer, music publicist, music marketing, music journalist, talent producer, agent, record promotion, record distribution, studio manager, music publishing, concert production and booking, legal affairs, and tour management.

**Certificate in Music/Recording Industry (MRI)**

**Admission to Program**
To be admitted to the certificate program, students should have completed 60 units of prior academic college credit or have sufficient experience to demonstrate they can perform upper-division work. Students who do not have 60 units may be accepted on a conditional basis and are encouraged to apply. Students may enroll in up to nine units before applying to a certificate program.

**Writing Skills**
The certificate program’s course content requires good writing skills. Certificate students are asked to demonstrate their writing ability soon after admission to the certificate program to satisfy the university literacy requirement. Those who do not have the necessary writing skills are referred to a course offered regularly through the continuing education program: ENG 414.

**Music/Recording Industry, Certificate — 24 units**
The certificate program requires completion of 24 units. Nine units must be taken from a core of courses shown below, then a minimum of eleven units chosen from your chosen emphasis (Audio Engineering or Music Business), and the remaining three may be chosen from the following list of elective courses.

For complete course descriptions, contact the program director.

**Core Requirements (9 units)**
- MRI 310 Beginning Music Recording 3
- MRI 350 History of Music Industry 3
- MRI 360 Legal Aspects Music Recording Industry 3

**Emphasis (12 units)**
Choose Audio Engineering or Music Business

**Audio Engineering Emphasis**
- MRI 315 Intermediate Music Recording 3
- MRI 316 Pro Tools 101 1
- MRI 320 Music Mixing Workshop 3
- MRI 380 Field Study Music/Recording Industry (internship course) 2-3
- MRI 430 Adv Audio Prod 1 (Fantasy Studios) 3

**Music Business Emphasis**
- MRI 331 Applied Strategies: Breaking into the Music Business 3
- MRI 355 Music Industry Career Options 3
- MRI 362 Music Publishing 3
- MRI 380 Field Study Music/Recording Industry (internship course) 1-3

**Elective Courses (3 units)**
- MRI 312 Ableton Live 1
- MRI 313 EDM Production 2
- MRI 317 Reason: Digital Music Composition 2
- MRI 318 Logic Audio 101 2
- MRI 327 Role of Record Producer 2
- MRI 329 Live Concert Production 2
- MRI 330 Music Business Publicity 3
- MRI 334 Popular Music Marketing and the Media 3
- MRI 336 The Art and Business of Songwriting 2
- MRI 338 Studio Sessions Vocal Workshop 2
- MRI 340 Music Artist Management 3
- MRI 341 Music Mastering 1
- MRI 342 Hst/Aes Music Record Prod 3
- MRI 348 Independent Record Label 3
- MRI 352 Artist & Repertoire 3
- MRI 370 Producing Music Videos (Topics vary and are offered on a rotating basis.) 2
- MRI 530 Adv Audio Prod 2 (Fantasy Studio) 3
- MRI 625 Live Concert Sound 1
PARALEGAL STUDIES

College of Extended Learning
SF State Downtown Campus
835 Market Street, 6th Floor
San Francisco, CA 94103
Phone: 415-817-4223
Fax: 415-817-4299
Web Site: www.cel.sfsu.edu/paralegal/ (http://www.cel.sfsu.edu/paralegal)

Program Director: Pat Medina
Program Coordinators: Baseemah Rahman and Eduardo Cerpa

Program Scope and Objectives
Paralegal Studies is a 30 unit certificate program, providing instruction in practical legal skills and substantive law. All coursework is taught at the upper-division level by attorneys and working paralegals.

The primary goal of the program is to educate students for positions as paralegals as a means of improving the quality, accessibility, and affordability of legal services. The program started in 1975 and has graduated well over a thousand paralegals. Further information on the program's key objectives and the mission statement submitted to the American Bar Association (ABA) can be found on the paralegal program's web site (http://www.cel.sfsu.edu/paralegal).

ABA-Approved
The Paralegal Studies program is approved by the American Bar Association. This is the only ABA-approved paralegal studies program in San Francisco. The Paralegal Program began in 1975 and has continued a tradition of excellence up to the present.

California legislation defines who may call himself or herself a paralegal and sets forth education criteria for paralegals. One of the criteria is graduation from a program approved by the American Bar Association. Please refer to the section on California Legislation on Paralegals cited below.

California Legislation on Paralegals
The state of California has adopted legislation that defines the titles "paralegal" and "legal assistant" and sets educational criteria and continuing education requirements for paralegals. The San Francisco State University Paralegal Studies certificate program meets the educational requirements of the law by virtue of being offered by an accredited institution with an ABA-approved program, and consisting of more than 24 units of paralegal coursework. We also offer a series of paralegal continuing education courses to meet the continuing education standards established by the Business and Professions Code Section 6450 et. seq.

Faculty
All courses in this program are taught by attorneys and/or paralegals with practical experience in their respective fields. We currently have four program graduates on our faculty.

Career Outlook
Paralegals are employed in private and public interest law firms, corporations, banks, securities firms, government agencies, and regulatory bodies. The Bureau of Labor Statistics ranks the paralegal occupation as one of the fastest growing in the country. Recent state legislation requires that persons working as paralegals meet specified educational and continuing education requirements.

Certificate in Paralegal Studies
Admission to Program
Applicants who hold a baccalaureate degree, either from the US or another country, are automatically eligible for admission to the program. Applicants who do not have a baccalaureate degree are required to have a minimum of 60 semester or 90 quarter units of prior academic college credit with at least 30 semester (45 quarter) units of academic general education courses in four basic skills courses:

- oral communication,
- written composition,
- critical thinking, and
- mathematics or quantitative reasoning.

Additionally, applicants must have an overall GPA of 2.5 or better and all coursework must have been completed within 10 years of applying to the program.

Applicants with at least three years of legal employment and 45 semester (68 quarter) units may petition for conditional admission. Transcripts verifying these units must be accompanied by an attorney declaration attesting to their legal work experience, which must have been within five years of their application to the program.

Writing Skills
Paralegal courses require strong writing skills. Certificate students who do not have a bachelor's degree must pass a University approved Graduation Writing Assessment Requirement course (GWAR). PLS 414GW is an approved GWAR course and also counts as elective units that can be applied toward the certificate.

A certificate is awarded upon successful completion of 30 units. The 30 units required to earn the certificate consist of five required courses and five elective courses.

Each course carries three units of credit. For complete course descriptions, contact a program coordinator.

Required Courses
- Introduction to Law/Civil Procedure
- Legal Research and Writing
- Communications Skills and Legal Ethics
- Pleadings and Motions
- Investigation, Discovery, and Trial Preparation

Elective Courses: Advanced and Specialized Practical Courses
- Administrative Law
- Advanced Legal Research and Writing
- Bankruptcy
- Computer Applications
- Computer Applications II
- Contemporary Legal Issues
- Contracts
- Corporations Law
• Criminal Law
• Elder Law
• Employment Law
• Environmental Litigation
• Evidence
• Family Law
• Law Office Management
• Paralegal Experience Internship
• Patents
• Immigration Law
• Introduction to Professional Legal Writing
• Probate Procedures
• Real Estate Practice
• Trademarks & Copyrights
• Torts
• Wills, Trusts, and Estate Planning

Required courses are offered every semester.
Each elective is taught once a year or every other year.

**Intended Audience**
College graduates who are interested in a career in the legal field, international students who worked in the legal field as lawyers or paralegals in their home countries, career changers, students who are thinking about law school, and early retirees from other professions who have a general interest in the law.

**Non-certificate Students**
If students wish to explore the legal field and want to take selected individual courses in the program, they may register for those courses, with the consent of the faculty member and program director.

Also, those who already have experience in the legal field and who wish to take selected courses without applying to the program may register for courses with the permission of the individual instructor and program director.
# Pre-Health Professions

**College of Extended Learning**
Dean: Guido Krickx

**College of Science and Engineering**
Dean: Keith Bowman

**Pre-Health Professions Certificate**

**Pre-Nursing Certificate**

HH 219  
(415) 338-2410  
Website: [http://prehealth.sfsu.edu/](http://prehealth.sfsu.edu/)  
Email: hpac@sfsu.edu  
Committee Chair: Robert Ramirez  
Certificate Program Director: Rachel Small

## Program Scope

The goal of the Pre-Health Professions Certificate Program (PHPCP) and Pre-Nursing Post-Bac Certificate Program (PNPBCP) is to guide participants through the entire preparation and application process so that they will be competitive applicants to graduate health profession schools. The program is intended for students who have already earned a B.A./B.S. degree and wish to apply to allopathic medicine, osteopathic medicine, nursing, dentistry, pharmacy, physical therapy, physician assistant, or optometry schools. Students wishing to apply to other health professions schools may also be considered. The program is suited for students who need to take introductory science coursework, upper division science coursework or a combination of both in order to be competitive in the admission process for health profession schools. The Director and Co-Directors jointly write a comprehensive committee letter that may be submitted with the student’s health profession school application. Federal and/or private loans may be available to program participants.

## Admission Requirements and Application Process

Applicants must have graduated from an accredited institution of higher learning with a baccalaureate or higher degree and a GPA of 2.5 or above for their most recent 60 semester units (90 quarter units) of coursework. However, because of the limited number of students that can be accommodated by the program, applicants with higher GPAs will have an advantage in being admitted.

Applicants must apply through CSU Mentor and complete the supplementary application at [http://prehealth.sfsu.edu/content/how-to-apply](http://prehealth.sfsu.edu/content/how-to-apply). Official transcripts from all colleges and two letters of recommendation are also required. Admissions decisions are made by the PHPCP and PNPBCP and admission offers are issued by the SF State Division of Graduate Studies.

Students whose primary language is not English must earn a minimum score of 550 on the paper version of the Test of English as a Foreign Language (TOEFL) or a minimum score of 213 on the computer-based version.

## Pre-Health Professions Certificate – 40 Units

Students will earn the certificate after completing the required Health Professions Colloquium (SCI 695) and at least 38 units taken from the courses shown in the table below. Note: A maximum of 20 units may be transferred in from courses taken at accredited undergraduate institutions prior to entering the PHPCP. Students may also take courses in the Pre-Nursing Certificate program and these units will also count toward the PHPCP certificate.

Health Professions Advising Committee
HH 219
(415) 338-2410
Website: pre-health.sfsu.edu/nursing-post-bac/ (http://prehealth.sfsu.edu/content/nursing-post-bac)
Email: hpac@sfsu.edu
Committee Chair: Robert Ramirez
Certificate Program Director: Rachel Small

Program Scope

The goal of the Pre-Nursing Certificate Program is to guide participants through the entire preparation and application process as competitive applicants to graduate nursing schools. The Program is suited for students who need to take nursing school prerequisites for the first time or retake such courses in order to be competitive in the admission process for nursing school. Yearly cohorts of approximately 30 students will take nursing school prerequisite courses in biology, chemistry, mathematics, communication, as well as auxiliary course work in the form of discussion sections, and a Health Professions Colloquium. Optional preliminary and/or more advanced course work in biology, chemistry, mathematics, public health, nutrition and/or psychology will be available as needed. The program begins in the early summer and runs continuously for three semesters, and is supervised by a Leadership Team that includes the Program’s Director and Co-Director. The Leadership Team writes a comprehensive Committee Letter that may be submitted with the student’s nursing school application. Federal and/or private loans may be available to students with documented financial need.

Admissions Requirements and Application Process

- Applicants must have graduated from a regionally accredited institution of higher learning with a baccalaureate or higher degree and a GPA of 2.5 or above for their most recent 60 semester units (90 quarter units) of coursework. However, because of the limited number of students that can be accommodated by the Program, applicants with higher GPAs will have an advantage in being admitted.
- Applicants must apply through CSU Mentor and complete the supplementary application at http://prehealth.sfsu.edu/content/how-to-apply. Official transcripts from all colleges and two letters of recommendation are also required. Admissions decisions are made by the PHPCCP and PNPCBCP and admission offers are issued by the SF State Division of Graduate Studies.
- Students whose primary language is not English must earn a minimum score of 550 on the paper version of the Test of English as a Foreign Language (TOEFL) or a minimum score of 213 on the computer-based version.

SCREENWRITING

College of Extended Learning
SF State Downtown Center
835 Market Street, 6th Floor
San Francisco, CA 94103
Phone: (415) 817-4223
Fax: (415) 817-4299

Program Scope
The Certificate in Screenwriting is an online program of courses designed to provide academic training for those who are interested in advancing their educational and/or career goals in the popular and growing field of screenwriting. Courses will be taught by faculty in the Cinema Department at San Francisco State University, and on occasion by adjunct faculty (lecturers, visiting faculty, etc.) in screenwriting.

Admissions Requirements and Application Process
To be admitted to this program, students should have a high school diploma or equivalency. High School students that qualify for CLEP will be admitted conditionally. Normally, applying to the Program is not required in order to take the individual courses that make up the certificate. Hence, a student can take all the courses one by one and, should they complete them all, are then eligible to apply for the certificate. Matriculated SF State Cinema majors and minors are not eligible to apply for the Certificate.

Written English Proficiency Requirement
Academic certificate program courses require good writing skills. Students enrolled in certificate programs who do not have baccalaureate degrees from an English-speaking country are asked to demonstrate their writing ability soon after admission by doing one of the following:

1. Provide evidence of completion of SF State’s ENG 214 or equivalent.
2. Internet-based TOEFL (IBT) score of 95, with an essay rating of 24.

To apply, complete the College of Extended Learning’s Certificate Application Form, available at http://www.cel.sfsu.edu/register/forms.cfm

A $50 fee is charged for processing the application. An additional fee of $50 per course will be added to CEL’s usual registration fees for technology-related costs.

For information about the program, upcoming schedule of classes, and registration deadlines, visit www.cel.sfsu.edu (http://www.cel.sfsu.edu)

**SPANISH/ENGLISH INTERPRETATION**

**College of Extended Learning**

**Spanish/English Interpretation (Legal/Court)**

SF State Downtown Campus  
835 Market Street, 6th Floor  
San Francisco, CA 94103  
Phone: 415-817-4223  
Fax: 415-817-4299

Web Site: https://cel.sfsu.edu/interpretation  
Program Director: Eric Bishop  
Program Coordinator: Baseemah Rahman

**Program Scope**

This program is designed to develop the interpreting skills necessary for service in the courts, state agencies, and medical evaluation system of workers’ compensation. It is specifically designed to prepare participants to pass the California Court Interpreter Exam. Program faculty are state-certified interpreters.

**Faculty**

Faculty members are all adjunct instructors who are state-certified court interpreters.

**Career Outlook**

Certified Spanish/English interpreters are in heavy demand in California. Interpreter examinations are mandated for employment in courts and state agencies. Once an interpreter passes the California Court Interpreter Exam, s/he will be able to work in the state courts and freelance for state agencies, health organizations, private companies, law firms, and interpreting agencies. Many attorneys in private practice now use only certified court interpreters for depositions, personal injury, and workers’ compensation cases.

**Certificate in Spanish/English Interpretation (Legal/Court)**

**Admission to the Program**

Admission requirements are 60 semester units of prior academic college credit (B.A. preferred) and a passing score on the SF State Bilingual Entrance Exam. To register for the Bilingual Entrance exam, please visit: https://cel.sfsu.edu/interpretation/admission.

There are six core courses and one elective course. For complete course descriptions, contact the program coordinator or visit: https://cel.sfsu.edu/interpretation.

Program Scope

The Bachelor of Arts degree in Child and Adolescent Development (CAD) is for students who are interested in studying about and working with children, adolescents, and their families. The major provides students with knowledge and theories about children and adolescents from a developmental perspective. Students then learn to apply this knowledge to programs, services, and policies for children, youth, and families that are offered in community settings and classrooms. The core courses address theories of child and adolescent development, diverse families in a globalized context, action research methods, and policy and advocacy. In addition to taking core courses, CAD majors select one out of three specialized concentrations that reflects their specific interest.

Those concentrations are:

1. Early Childhood;
2. School Age Child and Family; and
3. Youth Work and Out of School Time

The CAD department offers two special programs:

1. CAD Metro Academy (Metro)
   CAD Metro Academy was developed to support the next generation of leaders for early care and education in urban communities. Metro accepts freshmen who are designated as “Pre-CAD” and works with them for two years. Metro students receive personalized support for college success through in-class academic support and tutoring. At the core of Metro Academy is a learning community made up of two linked courses each semester, pairing a general education course and a Metro child and youth development course. After completing the Metro program, students are prepared to complete requirements of their chosen major with the necessary skills for college success. CAD Metro is part of the larger Metro Academies initiative on campus.

2. CAD Promoting Achievement through Higher Education (PATH)
PATH is part of the CAD major in the Early Childhood concentration. It facilitates completion of the BA degree in CAD for practitioners who work in the field of early care and education. Courses are offered on evenings and weekends so working professionals can take four courses each semester and graduate in two years with a baccalaureate.

The CAD department works with the Marian Wright Edelman Institute for the Study of Children, Youth, and Families. The Edelman Institute’s mission is to further educational excellence through its association with the child and adolescent development curriculum; promote collaboration among faculty; create public outreach, social advocacy, and other partnerships between SF State and the community; and to foster research and scholarly work in the areas of children, youth, and families.

The CAD major is designed to meet the educational and career needs of students with a variety of interests. Students who wish to complete a bachelor’s degree as well as a Child Development Permit to work as a licensed child care provider in a preschool or child care center will choose the Early Childhood concentration. Students who wish to teach in elementary schools will choose the School Age Child and Family concentration, which provides a subject matter preparation waiver program but a child development foundation as well. This concentration is excellent preparation for a post–baccalaureate Multiple Subject Teaching Credential program. Others who wish to work in out-of-school time programs such as after-school programs, probation, recreation, residential treatment facilities for school–age children and youth, or other community–based programs for children and youth will choose specialized study in the Youth Work and Out of School Time concentration. All concentrations prepare students for advanced study in disciplines such as law, medicine, psychology, social work, recreation, counseling, or physical therapy.

Career Outlook

The outlook for careers working with children and adolescents is positive. Surveys of employers and community agencies that offer positions working with children, adolescents, and families indicate that there is a need for professionals in those areas who have a strong foundation of knowledge and skills about child and adolescent development. Graduates who want to work with young children and their families as infant–toddler specialists, pre–school teachers, or child care providers are in high demand. There are 6,000 children in San Francisco alone on waiting lists for childcare programs. There is a need for well-educated, experienced professionals to staff and administer quality child care and education programs, particularly as the existing center–based workforce with B.A. degrees or higher starts to retire. There is also need to expand the ethnic and linguistic diversity of early care providers. B.A. degree providers/teachers are particularly needed in centers serving both infants and preschoolers, working with dual language learners, and working with children with special needs.

Even with state fiscal challenges and changes in requirements for teacher preparation, the increase in school age children in California and the significant numbers of teachers who will retire within the next few years, means there will be a need for qualified, fully prepared professionals.
to teach kindergarten through 5th grade. Students who plan to enter a post-baccalaureate multiple subject teaching credential program for elementary school teaching can complete a multiple subject matter waiver program in lieu of taking a Commission-approved subject matter examination (currently CSET). The CAD degree strengthens pre-service preparation in subject matter as well as in developmental knowledge about child and adolescents.

Bachelor of Arts in Child and Adolescent Development: Concentration in Early Childhood

Application Filing Period
Because of high student demand, Child and Adolescent Development (CAD) was declared an impacted major in Fall 2011. Therefore, CAD admits only upper division students (minimum 60 units completed) to the major in fall and spring semesters. We encourage students who are interested in the CAD major to apply even though it is impacted. Transfer students who apply to the major must be accepted first by the University and second, by the CAD Department. The university’s application form and due dates may be found here: https://www.sfsu.edu/~admisrec/reg/reg.html

Current SF State students who wish to change their major to CAD for the fall semester should submit an application to the CAD department during the October 1 through November 30 application filing period. Students who wish to be considered for spring admission should apply between August 1–31. The department does not accept late applications for either fall or spring admissions. Again, if you are interested in the CAD major, we encourage you to apply even though it is impacted.

Please note: The following lower division courses are prerequisites for the upper division CAD courses in the Core Curriculum that are required for all CAD majors. They must be completed before students can take upper division CAD courses in the Core Curriculum. Failure to take these lower division prerequisite courses will delay progress in the major.
• CAD 210 with a grade of C or better

• CAD 260 with a grade of C or better
• ENG 214 with a grade of C- or better
• Minimum of 60 units completed (junior standing)

Community college course equivalents are accepted if grade requirements are met and the courses were formally articulated at the time the courses were taken.

Course policies for the major
• Courses in the major must be completed with a letter grade of C or better. CR/NC grading is not accepted except for the internship courses: CAD 601 and CAD 611.
• Courses taken in the core may not be counted in a concentration or vice versa.

Concentration in Early Childhood
The concentration in Early Childhood is designed for students who wish to work primarily in teaching and child care with young children (infants, toddlers, and preschoolers), and their families, in schools and public or private institutions and other agencies that serve this population. The degree fulfills the requirements for the Child Development Permit issued by the California Commission on Teacher Credentialing.

Students must complete two courses in SPED; one course at the 300 level and one course at the 600 level, as listed in the Early Childhood concentration.

Child and Adolescent Development Major (B.A.): Concentration in Early Childhood — Minimum 45 units

Core Requirements — 18 units

Culminating Experience
CAD 610 Early Childhood Internship Seminar 1
CAD 611 Early Childhood Internship 2

Courses must be taken concurrently.
Additional 150 hours required prior to the start of the internship in a licensed center/program with children birth to five years. Hours must be documented and on file in the CAD office prior to the start of the internship. See CAD website for deadline dates (http://cad.sfsu.edu/internships).

Complementary Studies
To fulfill the Complementary Studies requirement, all students completing a B.A. Degree must take 12 units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing a Child and Adolescent Development major. Students may need to take additional units, however, to reach the 120 minimum units required for graduation.

SF State Studies
Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

1 Elementary Education Course Policy: 30 hours observation/participation outside the classroom are required for Elementary Education courses (E ED). If a student takes more than one Elementary Education course per semester, 30 hours are the maximum total required and will cover all Elementary Education courses taken in that specific semester. Please note: The E ED course hours do not count toward the 150 pre-internship hours requirement.

First-Time Student Roadmap (4 Year)

This roadmap opens in a new tab. (p. 411)

Transfer Student Roadmap (2 Year)

For students with an AA-T in Early Childhood Education. This roadmap opens in a new tab. (p. 414)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Early Childhood Education

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses
that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AIEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Total Units: 120-122

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.

2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

4. **Complementary Studies**
   To fulfill the Complementary Studies requirement, all students completing a B.A. Degree must take 12 units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing a Child and Adolescent Development major. Students may need to take additional units, however, to reach the 120 minimum units required for graduation.
   
   Elementary Education Course Policy: 30 hours observation/participation outside the classroom are required for Elementary Education courses (E ED). If a student takes more than one Elementary Education course per semester, 30 hours are the maximum total required and will cover all Elementary Education courses taken in that specific semester.

5. Additional 150 hours required prior to start of internship in a licensed center/program with children birth to 5 yrs. Hours must be documented and on file in the CAD office prior to start of internship. See CAD website for deadline dates (http://cad.sfsu.edu/internships).

6. Supporting Children’s Learning Courses
   - E ED 600 Advanced Issues in Child Development and Learning (3 units)
   - E ED 603 Promoting Young Children’s Social and Emotional Development (3 units)
   - E ED 619 Children’s Play, Theory and Practice (3 units)
   - E ED 668 Multicultural Education and Social Justice for Young Children (3 units)
   - SPED 671 Positive Behavior Support for Young Children (3 units)
   - SPED 672 Inclusive Learning Environments for Young Children (3 units)

7. Administration/ Leadership & Working with Families Courses
   - CAD 510 Adult Supervision and Leadership in Early Childhood Programs (3 units)
   - CFS 324 Administration of Infant/Toddler Programs (3 units)
   - CFS 423 Administration of Programs for Young Children (3 units)
   - E ED 604 Advanced Issues in Collaboration with Families and Communities in ECE (3 units)
   - E ED 607 Leadership and Administration in ECE (3 units)
   - SPED 675 Working with Families of Young Children with Disabilities (3 units)
Curriculum Specialties Courses
- CAD 326 Jumpstart: Developing Literacy Skills in Young Children (3 units)
- ED 613 Integrated Arts Curriculum in ECE (3 units)
- ED 614 Science, Math, and Technology Curricular in ECE (3 units)
- ED 615 Environmental Education in ECE (3 units)
- ED 616 Language and Literacy in Multilingual ECE Settings (3 units)
- MUS 601 Music for Children (3 units)
Bachelor of Arts in Child and Adolescent Development: Concentration in Early Childhood – Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AS-T in Early Childhood Education. Nine units in the major (CAD 210, CAD 215, CAD 260) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

</table>

¹ Also satisfy UD-D: E ED 603, E ED 602, E ED 604; SPED 330, SPED 370
CAD major (Concentration in Early Childhood): 36 units

- CAD 210, CAD 260, CAD 410 and ENG 214 (or equivalents) are prerequisites for CAD 500GW.
- An additional 150 hours of paid work or volunteer experience in a licensed center/program with children birth to five years is required prior to internship. Up to 90 hours of a community college practicum course (grade of C or better) can count toward the 150 pre-internship hours. Transcripts are sufficient proof.
- CAD 326 - Jumpstart only.
- Also satisfy UD-C: E ED 613, E ED 616

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 units**

- ENG 214 or equivalent A4 course (0– units): This course is a requirement to enter the major. Students are not admitted to the major unless this requirement has been completed. Completion in 60 units is possible, but not in four semesters if ENG 214 requirement is not satisfied before transfer.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer
  - Upper division GE, areas B, C and D (9 units): Look for courses required in the major that also satisfy UD GE. See notes.
- Students entering this major with the AS-T in Early Childhood Education are not required to fulfill SF State Studies requirements.
- Complementary Studies is satisfied by taking the required minimum of 12 units in disciplines other than CAD.

**CAD major (Concentration in Early Childhood): 36 units**

CAD 210, CAD 215 and CAD 260 have been met in transfer.

- Major Core (12 units): CAD 410, CAD 450, CAD 500GW, and CAD 625. Includes GWAR.
- Concentration (24 units): Includes Culminating Experience.
- Minimum grade of C or better required for all courses in the major.

**University electives: 9 or More Units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g. both in UD GE and the major.

**Major Concentration: Child Development in Context – C. Supporting Children’s Learning**

Bachelor of Arts in Child and Adolescent Development: Concentration in School Age Child and Family

Application Filing Period

Because of high student demand, Child and Adolescent Development (CAD) was declared an impacted major in Fall 2011. Therefore, CAD admits only upper division students (minimum 60 units completed) to the major in fall and spring semesters. We encourage students who are interested in the CAD major to apply even though it is impacted. Transfer students who apply to the major must be accepted first by the University and second, by the CAD Department. The university’s application form and due dates may be found here: https://www.sfsu.edu/~admisrec/reg/reg.html

Current SF State students who wish to change their major to CAD for the fall semester should submit an application to the CAD department during the October 1 through November 30 application filing period. Students who wish to be considered for spring admission should apply between August 1 – 31. The department does not accept late applications for either fall or spring admissions. Again, if you are interested in the CAD major, we encourage you to apply even though it is impacted.

Please note: The following lower division courses are prerequisites for the upper division CAD courses in the Core Curriculum that are required for all CAD majors. They must be completed before students can take upper division CAD courses in the Core Curriculum. Failure to take these lower division prerequisite courses will delay progress in the major.

- CAD 210 with a grade of C or better
- CAD 260 with a grade of C or better
- ENG 214 with a grade of C- or better
- Minimum of 60 units completed (junior standing)

Community college course equivalents are accepted if grade requirements are met and the courses were formally articulated at the time the courses were taken.

Course policies for the major

- Courses in the major must be completed with a letter grade of C or better. CR/NC grading is not accepted except for the internship courses: CAD 601 and CAD 611.
- Courses taken in the core may not be counted in a concentration or vice versa.

Concentration in School Age Child and Family

See general information for all Bachelor of Arts in Child and Adolescent Development majors above.

The School Age Child and Family concentration has been developed for students who wish to work primarily with school age children and their families in settings such as elementary schools, social service agencies, and after school programs. This concentration is recommended as preparation for students who wish to become elementary school teachers, and who, therefore, plan to enroll in a Multiple Subjects Teaching Credential Program after graduation.

TH A 452 Theatre in Education 3
Capstone Experience
CAD 600 Child and Adolescent Development Internship Seminar 2
CAD 601 Child and Adolescent Development Internship 2

1 Must be taken concurrently.

Complementary Studies
To fulfill the University’s Complementary Studies requirement, all students completing a B.A. Degree must take 12 units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing the Child and Adolescent Development degree. However, students may need to take additional units to reach the minimum of 120 units for graduation.

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.
American Ethnic and Racial Minorities (AERM) LD or UD 3
Environmental Sustainability (ES) LD or UD 3
Global Perspectives (GP) LD or UD 3
Social Justice (SJ) LD or UD 3

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 421)

Transfer Student Roadmaps (2 Year)
For students with a Child and Adolescent Development Associate Degree for Transfer. This roadmap opens in a new tab. (p. 424)
For students with an Early Childhood Education Associate Degree for Transfer. This roadmap opens in a new tab. (p. 426)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Child and Adolescent Development or Early Childhood Education

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.
Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

• How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
• Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
• How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

• Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring
semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

</tbody>
</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. Complementary Studies
   To fulfill the University's Complementary Studies requirement, all students completing a B.A. Degree must take 12 units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing the Child and Adolescent Development degree. However, students may need to take additional units to reach the minimum of 120 units for graduation.
5. **Science Courses**
   BIOL 310 Biology for Today's World (3 units)
   BIOL 313 Principles of Ecology (3 units)
   BIOL 317 Ecology of California (3 units)
   BIOL 318 Our Endangered Planet (3 units)
   ED ED 655 Hands on Undergraduate Science Education Experience (3 units)
6. **Social Science Courses**
   AIS 410 Perspectives of Native California Indians (3 units)
   GEOG 101 Our Physical Environment (3 units)
   GEOG 102 The Human Environment (3 units)
   GEOG 107 World Regions and Interrelations (3 units)
   GEOG 552 Geography of California (3 units)
   HIST 450 History of California (3 units)
   LTNS 315 Latina/os in California (3 units)
Art Courses
DANC 340 Creative Process in Dance for Children (3 units)
EDUC 450 Art and Learning (3 units)
MUS 601 Music for Children (3 units)
TH A 451 Storytelling and Folk Literature (3 units)
TH A 452 Theatre in Education (3 units)
### Bachelor of Arts in Child and Adolescent Development: Concentration in School Age Child and Family – CAD Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Child and Adolescent Development. Three units in the major (CAD 210) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. **Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information** ([http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students](http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students)).

| Total Units | 60 |

1. AA S 512, CWL 440, and TH A 451 satisfy UD-C  
2. C D 655, GEOG 552, and HIST 450 satisfy UD-D  
3. CAD 210, CAD 260, CAD 410 and ENG 214 (or equivalents) are prerequisites for CAD 500GW  
4. BIOL 310 and BIOL 318 satisfy UD-B

**To Do at SF State:**

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

**University-Wide Requirements: 9–18 units**

- ENG 214 or equivalent A4 course (0–3 units): This course is a major prerequisite. Students are not admitted to the major unless this requirement has been completed. Completion in 60 units is possible, but not in four semesters if ENG 214 requirement is not satisfied before transfer.  
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer  
- Upper division GE, areas B, C and D (0–9 units): Look for courses required in the major that also satisfy UD GE. See notes.  
- Students entering this major with the AA-T in Child and Adolescent Development are not required to fulfill SF State Studies requirements.  
- Complementary Studies is satisfied by taking the required minimum of 12 units in disciplines other than CAD.

**CAD major (Concentration in School Age Child and Family): 43–44 units**

CAD 210 met in transfer.

- Major Core (15 units): Includes GWAR  
- Concentration (28–29 units): Includes Capstone  
- Minimum grade of C or better required for all courses in the major.

**University Electives: 1 or More units**

Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State - some courses may meet more than one requirement, e.g. both in UD GE and the major.

**Major Concentration: Social Science**

Bachelor of Arts in Child and Adolescent Development: Concentration in Youth Work and Out of School Time

Application Filing Period

Because of high student demand, Child and Adolescent Development (CAD) was declared an impacted major in Fall 2011. Therefore, CAD admits only upper division students (minimum 60 units completed) to the major in fall and spring semesters. We encourage students who are interested in the CAD major to apply even though it is impacted. Transfer students who apply to the major must be accepted first by the University and second, by the CAD Department. The university’s application form and due dates may be found here: https://www.sfsu.edu/~admisrec/reg/reg.html

Current SF State students who wish to change their major to CAD for the fall semester should submit an application to the CAD department during the October 1 through November 30 application filing period. Students who wish to be considered for spring admission should apply between August 1 – 31. The department does not accept late applications for either fall or spring admissions. Again, if you are interested in the CAD major, we encourage you to apply even though it is impacted.

Please note: The following lower division courses are prerequisites for the upper division CAD courses in the Core Curriculum that are required for all CAD majors. They must be completed before students can take upper division CAD courses in the Core Curriculum. Failure to take these lower division prerequisite courses will delay progress in the major.

- CAD 210 with a grade of C or better
- CAD 260 with a grade of C or better
- ENG 214 with a grade of C or better
- Minimum of 60 units completed (junior standing)

Community college course equivalents are accepted if grade requirements are met and the courses were formally articulated at the time the courses were taken.

Course policies for the major

- Courses in the major must be completed with a letter grade of C or better. CR/NC grading is not accepted except for the internship courses: CAD 601 and CAD 611.
- Courses taken in the core may not be counted in a concentration or vice versa.

Concentration in Youth Work and Out of School Time

See general information for all Bachelor of Arts in Child and Adolescent Development candidates above.

The Youth Work and Out of School Time concentration prepares students to work primarily with school age children and adolescents in out of school time programs. Such programs include afterschool programs, juvenile justice, recreation, residential treatment, social services, mental health, and public health.

Child and Adolescent Development Major (B.A.): Concentration in Youth Work and Out of School Time — Minimum 44 Units

Core Requirements — 18 units

Culminating Experience

- CAD 630 Youth Work and Out of School Time Internship Seminar | 1
- CAD 631 Youth Work and Out of School Time Internship | 3

1 Both courses are required and must be taken concurrently.
Complementary Studies
To fulfill the University’s Complementary Studies requirement, all students completing a B.A. Degree must take 12 units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing the Child and Adolescent Development degree. However, students may need to take additional units to reach the minimum of 120 units for graduation.

SF State Studies

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM)  
LD or UD  3

Environmental Sustainability (ES)  
LD or UD  3

Global Perspectives (GP)  
LD or UD  3

Social Justice (SJ)  
LD or UD  3

Note: LD = Lower Division; UD = Upper Division.

First-Time Student Roadmap (4 Year)
This roadmap opens in a new tab. (p. 432)

Transfer Student Roadmaps (2 Year)
For students with an AA-T Child and Adolescent Development. This roadmap opens in a new tab. (p. 434)

For students with an AA-T Early Childhood Education. This roadmap opens in a new tab. (p. 436)

This degree program is an approved pathway (“similar” major) for students earning the ADT in Child and Adolescent Development or Early Childhood Education

California legislation SB 1440 (2009) mandated the creation of the Associate Degree for Transfer (ADT) to be awarded by the California Community Colleges. Two types of ADTs are awarded: Associate in Arts for Transfer (AA-T) and Associate in Science for Transfer (AS-T). Note: no specific degree is required for admission as an upper-division student. However, the ADT includes specific guarantees related to admission and graduation, and is designed to clarify the transfer process and strengthen lower-division preparation for the major.

An ADT totals 60 units and includes completion of all lower-division General Education requirements and at least 18 units in a specific major. Students pursuing an ADT are guaranteed admission to the CSU if minimum eligibility requirements are met, though not necessarily to the CSU campus of primary choice.

Upon verification that the ADT has been awarded prior to matriculation at SF State, students are guaranteed B.A. or B.S. completion in 60 units if pursuing a “similar” major after transfer. Determinations about “similar” majors at SF State are made by faculty in the discipline.

Degree completion in 60 units cannot be guaranteed when a student simultaneously pursues an additional major, a minor, certificate, or credential.

A sample advising roadmap for students who have earned an ADT and continue in a “similar” major at SF State is available on the Roadmaps tab and displays:

- How many lower-division units required for the major have been completed upon entry based on award of a specific ADT;
- Which lower-division requirements are considered complete upon entry based on award of a specific ADT;
- How to complete the remaining 60 units for the degree in four semesters.

Students who have earned an ADT should seek advising in the major department during the first semester of attendance.
General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical "freshman comp" course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Transferring from institutions other than CCCs or CSUs

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.
### Bachelor of Arts in Child and Adolescent Development: Concentration in Youth Work and Out of School Time Roadmap

120 Total Units Required  
Minimum Number of Units in the Major: 44

</tbody>
</table>

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.
4. Complementary Studies
   To fulfill the University’s Complementary Studies requirement, all students completing a B.A. Degree must take 12 units from courses outside of the primary prefix of their major and not cross-listed with the primary prefix for the major. This requirement is automatically fulfilled when completing the Child and Adolescent Development degree. However, students may need to take additional units to reach the minimum of 120 units for graduation.
5. Youth and Context
   AFRS 678 Urban Issues of Black Children and Youth (3 units)
   C J 475 Intervention Policies in Juvenile Justice (3 units)
   C J 485/LTNS 485 Latina/o Youth, Crime, and Justice (3 units)
   RRS 480 Youth Culture, Race and Resistance (3 units)
   SOC 452/C J 470 Juvenile Justice (4 units)
6. Special Topics
   RPT 210 Arts and Crafts for Leisure (3 units)
   RPT 380 Developmental Play Processes (3 units)
   RPT 440 Urban Recreation and Parks (3 units)
Bachelor of Arts in Child and Adolescent Development: Concentration in Youth Work and Out of School Time – Child and Adolescent Development Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2017–2018 with an AA-T in Child and Adolescent Development. Three units in the major (CAD 210) and all lower division GE requirements have been satisfied. Check with a major advisor about the most appropriate course sequence. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

1. Required to complete 90 clock hours for transfer.
2. Required to complete 60 clock hours for transfer.
To Do at SF State:

Enough total units to reach 120 minimum for graduation; 40 units minimum at the upper division level; to include the following:

University-Wide Requirements: 9–18 units

- ENG 214 or equivalent A4 course (0–3 units): This course is a major prerequisite. Students are not admitted to the major unless this requirement has been completed. Completion in 60 units is possible, but not in four semesters if ENG 214 requirement is not satisfied before transfer.
- American Institutions (0–6 units): US History, US Government, California State and Local Government requirements if not taken before transfer.
- Upper division GE, areas B, C and D (9 units): Look for courses required in the major that also satisfy UD GE. See notes.
- Students entering this major with the AA-T in Child and Adolescent Development are not required to fulfill SF State Studies requirements.
- Complementary Studies is satisfied by taking the required minimum of 12 units in disciplines other than CAD.

CAD Major (Concentration in Youth Work & Out of School Time): 41–42 units

[CAD 210 met in transfer]

- Major Core (15 units): Includes GWAR.
- Concentration (26-27 units): Includes Culminating Experience.
- Minimum grade of C or better required for all courses in the major.

University Electives: 3 or More units

 Depends on course choices made at the community college, how transferred units are applied to the requirements above, and course choices at SF State. Some courses may meet more than one requirement, e.g., both in UD GE and the major.

Major Concentration: Youth and Context

Bachelor of Arts in Child and Adolescent Development: Concentration in Youth Work and Out of School Time – ECE Associate Degree for Transfer Roadmap

This is a sample pathway for students who transfer to San Francisco State University in 2016–2017 with an AS-T in Early Childhood Education (ECE) with 60 units in transfer. Six units in the major (CAD 210, CAD 260) and all lower division GE requirements have been satisfied. Degree completion guaranteed in 60 units; see the Associate Degree for Transfer (ADT) section for more information (http://bulletin.sfsu.edu/undergraduate-admissions/transfer-students).

CONSUMER AND FAMILY STUDIES/DIETETICS

College of Health and Social Sciences
Dean: Alvin Alvarez

Department of Family, Interior, Nutrition & Apparel (FINA)
Burk Hall, Room 329
(415) 338–1219
Website: cfsd.sfsu.edu (http://cfsd.sfsu.edu/Family%20and%20Consumer%20Sciences)
Chair: Connie Ulasewicz
Graduate Coordinator: Connie Ulasewicz

Mission Statement
The mission of the Department of Family, Interior, Nutrition & Apparel (FINA) is to provide experiential programs focused on empowering individuals and strengthening families, communities, and the institutions which serve them, with a commitment to social justice and a goal of improving the quality of life within a dynamic and diverse global environment.

Program Scope
FINA, formerly the Department of Child & Family Studies/Dietetics, offers 4 undergraduate degrees and one graduate degree:

- Bachelor of Science in Interior Design (http://cfsd.sfsu.edu/InteriorDesign)
- Bachelor of Science in Dietetics (http://cfsd.sfsu.edu/Dietetics)
- Bachelor of Science in Apparel Design & Merchandising (http://cfsd.sfsu.edu/Apparel%20Design%20and%20Merchandising)
- Bachelor of Family & Consumer Sciences (http://cfsd.sfsu.edu/Family%20and%20Consumer%20Sciences)
- Masters of Art in Family & Consumer Sciences (http://cfsd.sfsu.edu/MA%20Family%20and%20Consumer%20Sciences)

Students earning a Bachelor of Arts in Family and Consumer Sciences, or the Bachelor of Science in Dietetics, Apparel Design and Merchandising, or Interior Design, with a 3.0 grade point average, may qualify for admission to the Master of Arts in Family and Consumer Sciences.

Advising
The department faculty offers much advising to assist students with their program and graduation needs as well as understanding the relevancy of the courses they take and their career outlook.

Career Outlook
The diversity of career options for students within our programs is great as each program offers particular paths to employment.

Child & Family Studies – Business, Consumer, & Family Resource Specialist; Youth Development Coordinator; Family Life or Early Childhood Educator; Child & Family Advocate and Policy Analyst

Interior Design – Residential and Commercial Interior Design

Dietetics – Food Specialist; Clinical Dietician; Food Service Systems Management; Nutrition Education in Hospitals, Industry or Government Agencies

Apparel Design & Merchandising – Apparel designer, Fashion Merchandiser; Visual Merchandiser; Brand Manager; Textile Specialist; Product Development

Professor
Ulasewicz

Associate Professors
Johnson-Carroll, Vouchilas

Assistant Professors
George, Taylor

Majors
- Bachelor of Arts in Family and Consumer Sciences (p. 438)
- Bachelor of Science in Apparel Design and Merchandising (p. 446)
- Bachelor of Science in Dietetics (p. 453)
- Bachelor of Science in Interior Design (p. 458)

Masters
- Master of Arts in Family and Consumer Sciences (p. 464)

Certificate
- Certificate in Dietetics (p. 463)

Bachelor of Arts in Family and Consumer Sciences
The Bachelor or Arts in Family & Consumer Sciences enables a student to specialize in one of two emphases:

1. Child & Family Studies
2. Nutrition/Foodservice System Management

The common core of the program is devoted to students acquiring an understanding of family transitions, diversity, and resource management; sensitivities to the needs and value systems of individuals, families, and groups which vary by age, socioeconomic status, and ethnic identity; and the role expectations of professional family life and community educators. Students pursuing this major, depending upon their areas of specialization, may complete field experiences in business, education, government, or private social service agencies. These field experiences serve as integrating experiences for students prior to their entry into professional roles.

Mandatory Advising
FCS majors must see an advisor to prepare a Graduation Plan which outlines their individual course sequence. Some major classes may require the plan be presented on the first day of classes. See department office (Burk Hall 329) for information to include in the advising folder. Students who wish for credits earned at another institution to be
accepted in lieu of courses offered for the major at SF State must obtain acceptance from the major advisor and the department chair.

Writing Competence
Good writing skills are necessary for success in the major. Second year written composition (ENG 214 or equivalent) with a grade of C- or better is required to take CFS 312GW, the beginning of the sequence of upper division CFS courses, which fulfills the GWAR requirement.

Degree Requirements
A prescribed sequence of courses must be adhered to as some classes are offered only in the fall or spring semesters. All major courses must be passed with a letter grade of C- or better. CR/NC is not allowed.

Family and Consumer Sciences (B.A.) — 45 Units

Core Courses (12 Units)
- CFS 312GW Families, Individuals, and Environments - GWAR 3
- CFS 325 Transitions in the Family Life Cycle 3
- CFS 430 Management Dynamics: Life Goals and Decisions 3
- CFS 600 Professional Development 3

Family Studies Emphasis (33 Units)
- CFS 320 Children and Families 3
- CFS 321 Adolescents and Families 3
- CFS 322 Early Childhood Education Curriculum (Birth to Five) 3
- CFS 323 Infants/Toddlers and Families 3
- CFS 420 Assessment and Observation with Children 3
- CFS 423 Administration of Programs for Young Children 3
- CFS 424 Supervised Experiences with Young Children 3
- CFS 426 Family Crises: Drug Dependency and Eating Disorders 3
- CFS 428 Children and Families with Violence, Abuse, and Neglect 3

Electives: Any CFS/D Department course or another course upon approval of advisor 6

1 Courses needed for the California Child Development Master Teacher & Site Supervisor Permits.

Nutrition/Foodservice Systems Management Emphasis (33 Units)
- CFS 352 Principles of Food Preparation 3
- CFS 355 Nutrition for Wellness 3
- CFS 453 Nutrition in the Life Cycle 3
- CHEM 101 Survey of Chemistry 4
- CHEM 102 & CHEM 109 Survey of Chemistry Laboratory
  and Fundamentals of Food Chemistry: Natural Constituents and Additives 4
  & CHEM 110 and Fundamentals of Food Chemistry: Natural Constituents and Additives Laboratory 4
- DFM 353GW Foodservice Systems Management - GWAR 3
- DFM 458 Management of Quantity Food Purchasing and Production 3

MGMT 405 Introduction to Management and Organizational Behavior 3
MGMT 610 Human Resource Management 3
or HTM 560 Hospitality Human Resource Management 3
Electives: Any CFS/D Department courses or other courses upon approval of advisor 8

Complementary Studies
Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Students in the Bachelor of Arts in Family & Consumer Sciences major who wish to satisfy the Complementary Studies Requirement with a coherent group of courses complementary to the major must have the courses approved by an advisor in the major. Consult with a major advisor for assistance.

Nutrition/Foodservice Systems Management Emphasis
This roadmap opens in a new tab. (p. 444)

General Advising Information for Transfer Students

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission.

For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)

• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a "C" or better grade in each basic skills course.

Units: 15

Total Units: 120-122

[^1]: To avoid taking additional units, it is recommended that you meet [LLD and SF State Studies](#) requirements (AERM, GP, ES, SJ) within your GE or major.

[^2]: ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.

[^3]: Consider taking a class combined with a laboratory or a separate lab to fulfill B3 if not already satisfied.

[^4]: **Complementary Studies**

Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. *(Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)*

Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Students in the Bachelor of Arts in Family & Consumer Sciences major who wish to satisfy the Complementary Studies Requirement with a coherent group of courses complementary to the major must have the courses approved by an advisor in the major. Consult with a major advisor for assistance.

4. **Complementary Studies**

   Bachelor of Arts students must complete at least twelve units of complementary studies outside of the primary prefix for the major. (Note: Students may not use an alternate prefix that is cross-listed with the primary prefix for the major.)

   Students who complete two majors or a major and a minor automatically complete the complementary studies requirement. Students in the Bachelor of Arts in Family & Consumer Sciences major who wish to satisfy the Complementary Studies Requirement with a coherent group of courses complementary to the major must have the courses approved by an advisor in the major. Consult with a major advisor for assistance.
Bachelor of Science in Apparel Design and Merchandising

The Apparel Design and Merchandising program creates an educational and experiential foundation for diverse professional careers in the globally interdependent apparel industry. Students explore human behavior, social problems, and environmental concerns, interpreting influences and outcomes through apparel design and merchandising.

Two emphases are offered:

1. Apparel Design
2. Fashion Merchandising.

Students will understand and apply knowledge about the roles and functions of various industry sectors in which textiles and sewn products are developed, produced, marketed, sold, and consumed, including design, construction, sourcing, manufacturing, marketing, and merchandising processes. A common core of classes enables students to develop a consumer and socially conscious approach to the textile and apparel industry and a basic knowledge of the field including career opportunities, terminology, and professional practices as applied to the industry.

Application Filing Period

The Apparel Design and Merchandising program is impacted, which means there are more applications than capacity. Transfer student applications for admission to this major are accepted by the University’s Office of Undergraduate Admissions only during the application filing period of October 1 to November 30 (for admission the following fall). No late applications or applications for spring will be considered. Both new transfer and on-campus students wishing to change majors are required to submit an additional departmental application. See the departmental website http://rcsd.sfsu.edu for supplemental program application and exact deadline in January.

Mandatory Advising

The program offers all ADM majors the ability to work with an advisor to prepare a Graduation Plan, an outline of course sequence. Students who wish credits earned at another institution to be accepted in lieu of courses offered for the major at SF State must obtain acceptance from their advisor and the department chair.

Writing Competence

Good writing skills are necessary for success in the major. Second-year written composition (ENG 214 or equivalent) with a grade of C– or better is required to take ADM 360GW, the beginning of the sequence of upper division ADM courses, which fulfills the GWAR requirement.

The major includes 15 units of prerequisite work and 43 units of advanced courses. Within the 43 units, all students take 22 units of core courses and 21 units in one emphasis: apparel design or fashion merchandising. A prescribed sequence of courses must be adhered to as some courses are offered only in the fall or spring semesters. Students should consult course descriptions in this Bulletin for prerequisites. All major courses must be passed with a letter grade of D or better. CR/NC is not allowed.

Apparel Design and Merchandising (B.S.) – 58 units
ADM Prerequisites (15 units)
Select a college level drawing or fashion illustration class 3
ECON 101 Introduction to Microeconomic Analysis 3
ECON 102 Introduction to Macroeconomic Analysis 3
ID 240 Color and Design 3
PSY 200 General Psychology 3

Core Requirements (22 units)
(must be passed with a C– or better; CR/NC is not allowed)
ADM 260 Textiles 3
ADM 265 Introduction to the Fashion Industry 3
ADM 360GW Fashion, Clothing, and Society - GWAR 3
ADM 365 Textile Laboratory 1
ADM 560 Textiles and Apparel in the World Marketplace 3
ADM 561 Culture and Historical Costume 3
ADM 665 Product Development for Apparel 3
CFS 600 Professional Development 3

Emphasis Chosen from Emphases Listed Below (21 units)

Apparel Design Emphasis
ADM 261 Apparel Construction 3
ADM 361 Apparel Design I: Flat Pattern 3
ADM 362 Apparel Design II: Draping 3
ADM 661 Advanced Apparel Design Problems 3
Select nine units from the electives below 9

Fashion Merchandising Emphasis
ADM 369 Fashion Merchandising and Buying 3
ADM 466 Computer Applications in Clothing and Textile Industry 3
ADM 566 Fashion and the Consumer 3
ADM 569 Visual Merchandising and Promotion 3
Select nine units from the electives below, must include three units of MKTG prefixed courses 9

Sample Listing of Electives for Both Emphases
ACCT 100 Introduction to Financial Accounting 3
ACCT 101 Introduction to Managerial Accounting 3
ADM 262 Fashion Illustration (cannot be counted as elective if used as prerequisite) 3
ADM/ID 300 Designers of the 20th/21st Centuries 3
ADM/ID 366 Forecasting Apparel and Interior Design Trends 3
ART 222 Introduction to Textile Art 3
ART 422 Weaving 1 - Beginning 3
ART 424 Surface Design Studio 3
CFS 543 Sustainability in the Textile, Housing, and Food Industries 3
CFS 657 New York Fashion Study Tour 3
CFS 685 Projects in Teaching of Consumer and Family Studies/Dietetics 3

Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

Transferring from institutions other than CCCs or CSUs
Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

• Complete 60 or more transferable semester units or 90 or more quarter units
• Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
• Be in good standing at the last college or university attended
• Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:  
  a. One course in oral communication (same as CSU GE area A1)  
  b. One course in written composition (same as CSU GE area A2)  
  c. One course in critical thinking (same as CSU GE area A3)  
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
• The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

---

1. To avoid taking additional units, it is recommended that you meet **LLD** and **SF State Studies** requirements (AERM, GP, ES, SJ) within your GE.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. MATH 60 and/or MATH 70 are required prerequisites to MATH 110 unless you score 50 or higher on ELM or have an ELM exemption.
4. **Major Electives**
   - ACCT 100 Introduction to Financial Accounting (3 units)
   - ACCT 101 Introduction to Managerial Accounting (3 units)
   - ADM 262 Fashion Illustration (3 units)
   - ADM 300 Designers of the 20th/21st Centuries (3 units)
   - ADM 366 Forecasting Apparel and Interior Design Trends (3 units)
   - ART 222 Introduction to Textile Art (3 units)
   - ART 422 Weaving I - Beginning (3 units)
   - ART 424 Surface Design Studio (3 units)
   - CFS 543 Sustainability in the Textile, Housing, and Food Industries (3 units)
   - CFS 657 New York Fashion Study Tour (3 units)
   - CFS 685 Projects in Teaching of Consumer and Family Studies/Dietetics (3 units)
   - IBUS 330 International Business and Multicultural Relations (3 units)
   - IBUS 430 Import-Export Management and Small Business Operations (3 units)
   - ISYS 263 Introduction to Information Systems (3 units)
   - MGMT 405 Introduction to Management and Organizational Behavior (3 units)
   - MKTG 431 Principles of Marketing (3 units)
   - MKTG 433 Personal Selling (3 units)
   - MKTG 436 Retail Management (3 units)
   - MKTG 469 Digital Marketing (3 units)
5. CFS 600 serves as major’s capstone experience.

Total Units  120

---

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GP, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. MATH 60 and/or MATH 70 are required prerequisites to MATH 110 unless you score 50 or higher on ELM or have an ELM exemption.
4. Major Electives – Sample List (9 units total)
   - ACCT 100 Introduction to Financial Accounting (3 units)
   - ACCT 101 Introduction to Managerial Accounting (3 units)
   - ADM 262 Fashion Illustration (3 units)
   - ADM 300/ID 300 Designers of the 20th/21st Centuries (3 units)
   - ADM 366/ID 366 Forecasting Apparel and Interior Design Trends (3 units)
   - ART 222 Introduction to Textile Art (3 units)
   - ART 422 Weaving I - Beginning (3 units)
   - ART 424 Surface Design Studio (3 units)
   - CFS 543 Sustainability in the Textile, Housing, and Food Industries (3 units)
   - CFS 657 New York Fashion Study Tour (3 units)
   - CFS 685 Projects in Teaching of Consumer and Family Studies/Dietetics (3 units)
   - IBUS 330 International Business and Multicultural Relations (3 units)
   - IBUS 430 Import-Export Management and Small Business Operations (3 units)
   - ISYS 263 Introduction to Information Systems (3 units)
   - MGMT 354 Starting a Small Business (3 units)
   - MGMT 405 Introduction to Management and Organizational Behavior (3 units)
   - MKTG 431 Principles of Marketing (3 units)
   - MKTG 433 Personal Selling (3 units)
   - MKTG 436 Retail Management (3 units)
   - MKTG 469 Digital Marketing (3 units)
   - Select any ADM course in the alternate emphasis
   - CFS 600 serves as major’s capstone experience.
Bachelor of Science in Dietetics

The Bachelor of Science in Dietetics is an accredited Didactic Program in Dietetics (DPD) and meets the Eligibility Requirements and Accreditation Standards of the Accreditation Council for Education in Nutrition Education of the Academy of Nutrition and Dietetics. The program prepares students for careers in clinical dietetics, foodservice systems management, and nutrition education in hospitals, industry, or government agencies. Most positions require an R.D. (Registered Dietitian). See Certificate in Dietetics section of this bulletin.

Application Filing Period

The dietetics program is impacted, which means there are more applications than capacity. Transfer student applications for admission to this major are accepted by the University’s Office of Undergraduate Admissions only during the application filing period of October 1 to November 30 (for admission the following fall). No late applications or applications for spring will be considered. Both new transfer and on-campus students wishing to change majors are required to submit an additional departmental application to the Department of Family Interior Nutrition & Apparel (FINA). See departmental website cfds.sfsu.edu (http://cfds.sfsu.edu) for supplemental program application and specific deadline in January.

Mandatory Advising

Dietetics majors should consult the designated DPD director/advisor for planning and evaluation of courses transferred from other institutions and to prepare a Graduation Plan outlining course sequence. Some major classes will require that this plan be presented on the first day of classes. A prescribed sequence of courses must be adhered to as some classes are offered only in the fall or spring semesters and senior-level courses are restricted to graduating seniors. See department office (Burk Hall 329) for information to include in the advising folder. Students should consult the course description in the current Bulletin for prerequisites and corequisites.

Writing Competence:

Good writing skills are necessary for success in the major. Second-year written composition (ENG 214 or equivalent) with a grade of C– or better is required to take DFM 353GW which fulfills the GWAR requirement.

Students will receive a Verification Statement, signed by the DPD Director, on completion of the degree and submission of an official transcript indicating that the degree has been awarded. The Verification Statement is then submitted as part of the dietetic internship application process or to qualify to sit for the Dietetic Technician, Registered (D.T.R.) examination.

Note: To become a Registered Dietitian (R.D.) one must

1. complete the B.S. in Dietetics,
2. complete a Dietetic Internship, and
3. pass the R.D. exam.

To become a Dietetic Technician, Registered (D.T.R.) one must

1. complete the B.S. in Dietetics,
2. complete the D.T.R. eligibility application, and
3. pass the D.T.R. exam.

All courses must be passed with a C– or better. CR/NC is not allowed.

General Education Requirements Met in the Dietetics Major

The requirements below are deemed “met in the major” upon completion of the courses listed (even though the courses and their prerequisites are
not approved for GE). This is true whether or not the student completes the major.

- Area B1 (Physical Science) is satisfied upon completion of CHEM 130.
- Area B2 (Life Science) is satisfied upon completion of both BIOL 210 and BIOL 220.
- Area B3 (Laboratory Science) is satisfied upon completion of both CHEM 115 and BIOL 211.

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

| American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
| Environmental Sustainability (ES)           | LD or UD | 3 |

**Global Perspectives (GP)**

- LD or UD 3

**Social Justice (SJ)**

- LD or UD 3

Note: LD = Lower Division; UD = Upper Division.

**First Time Student Roadmap (4 Year)**

This roadmap opens in a new tab. (p. 456)

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.
2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer, doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

- Which courses at a CCC satisfy any lower division major requirements for this major, including 2nd-semester composition;

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP.

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus
on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State’s lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State’s lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit [http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL](http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL).

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.

**All students must meet the transfer eligibility requirements outlined below for admission.**

**For more information, visit the Undergraduate Admissions section.**

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  - One course in oral communication (same as CSU GE area A1)
  - One course in written composition (same as CSU GE area A2)
  - One course in critical thinking (same as CSU GE area A3)
  - One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.
## Bachelor of Science in Dietetics Roadmap

1. To avoid taking additional units, it is recommended that you meet LLD and SF State Studies requirements (AERM, GR, ES, SJ) within your GE or major.
2. ENG 114 can only be taken if you complete Directed Self-Placement (DSP) and select ENG 114; if you choose ENG 104/ENG 105 through DSP you will satisfy A2 upon successful completion of ENG 105 in the second semester; multilingual students may be advised into alternative English courses.
3. **Major Electives**
   - ACCT 100 Introduction to Financial Accounting (3 units)
   - BIOL 326 Disease! (3 units)
   - CFS 356 Foods and World Culture (3 units)
   - CFS 426 Family Crises: Drug Dependency and Eating Disorders (3 units)
   - CFS 543 Sustainability in the Textile, Housing, and Food Industries (3 units)
   - GEOG 427 Agriculture and Food Supply (4 units)
   - H ED 210 Personal and Social Determinants of Health (3 units)
   - H ED 410 Organization and Function of Health Services (3 units)
   - H ED 420 Epidemiology (3 units)
   - HTM 557 Restaurant and Catering Management (3 units)
   - KIN 355 Science, Sport, and Fitness (3 units)
   - NURS 500 Death and Dying in Contemporary Society (3 units)
Bachelor of Science in Interior Design

The Interior Design curriculum prepares students for a career in interior design and closely related industries. The program is structured using a holistic approach that integrates multiple facets of the industry and which serves to develop broad student skill and professional development. As San Francisco State University is located in close proximity to a dynamic design center and to many local showrooms, the program is able to foster experiential learning experiences through utilization of these resources in addition to our own setting.

Program content includes design elements and principles, design history, materials and systems, contemporary design philosophies and sustainability, materials and systems, advanced design applications, computer design software applications, and portfolio development. Course work incorporates both theory and hands-on approaches to the study of interior design. The program focuses on both residential and commercial design and is structured such that the curriculum builds rigor within upper division courses and culminates in student knowledge and technical skill sets that are essential within the field of interior design. Students earning a Bachelor of Science degree in Interior Design are eligible to sit for the IDEX California Exam immediately upon graduation.

Application Filing Period

Transfer student applications for admission to this major are accepted by the University's Office of Undergraduate Admissions only during the application filing period of October 1 to November 30 (for admission the following fall). No late applications or applications for spring will be considered.

Mandatory Advising

Interior Design majors must see an advisor to prepare a Graduation Plan which outlines course sequence. Some major classes will require that this plan be presented on the first day of classes. See department office (Burk Hall 329) for information to include in the advising folder. Students who wish credits earned at another institution to be accepted in lieu of courses offered for the major at SF State must obtain acceptance from their advisor and the department chair.

Writing Competence

Good writing skills are necessary for success in the major. Second-year written composition (ENG 214 or equivalent) with a grade of C– or better is required to take ID 340GW, the beginning of the sequence of upper division ID courses, which fulfills the Graduate Writing Assessment Requirement (GWAR).

The major includes six units of prerequisite work and 48 units of additional major courses. A prescribed sequence of courses must be adhered to as some classes are offered only in the fall or spring semesters. Students should check Bulletin descriptions for prerequisites to individual courses.

All major courses (core and elective) must be passed with a letter grade of C– or better. CR/NC is not allowed.

**SF State Studies**

Courses certified as meeting the SF State Studies requirements may be upper or lower division in General Education (GE), in a major or minor, or an elective.

American Ethnic and Racial Minorities (AERM) | LD or UD | 3 |
Environmental Sustainability (ES) | LD or UD | 3 |
Global Perspectives (GP) | LD or UD | 3 |
Social Justice (SJ) | LD or UD | 3 |

Note: LD = Lower Division; UD = Upper Division.

**General Advising Information for Transfer Students**

1. Before transfer, complete as many lower division requirements or electives for this major as possible.

2. The following courses are not required for admission, but are required for graduation. Students are strongly encouraged to complete these units before transfer; doing so will provide more flexibility in course selection after transfer.
   - a course in U.S. History
   - a course in U.S. & California Government
   - a 2nd-semester course in written English composition

For information about satisfying the requirements described in (1) and (2) above at a California Community College (CCC), please visit http://www.assist.org. Check any geographically accessible CCCs; sometimes options include more than one college. Use ASSIST to determine:

Remedial courses are not transferable and do not apply to the minimum 60 units/90 quarters required for admission.

Additional units for courses that are repeated do not apply to the minimum 60 units required for upper division transfer (for example, if course was not passed on the first attempt, or was taken to earn a better grade).

Before leaving the last California community college of attendance, obtain a summary of completion of lower division General Education units (IGETC or CSU GE Breadth). This is often referred to as a GE certification worksheet. SF State does not require delivery of this certification to Admissions, but students should retain this document for verifying degree progress after transfer.

Credit for Advanced Placement, International Baccalaureate, or College-Level Examination Program courses: AP/IB/CLEP credit is not automatically transferred from the previous institution. Units are transferred only when an official score report is delivered to SF State. Credit is based on the academic year during which exams were taken. Refer to the University Bulletin in effect during the year of AP/IB/CLEP examination(s) for details regarding the award of credit for AP/IB/CLEP

Students pursuing majors in science, technology, engineering and mathematics (STEM) disciplines often defer 6-9 units of lower division general education in areas C and D until after transfer in order to focus on preparation courses for the major. (This advice does not apply to students pursuing associate degree completion before transfer.)

**Transferring from institutions other than CCCs or CSUs**

Review SF State's lower division General Education requirements. Note that, as described below, the four basic skills courses required for admission meet A1, A2, A3, and B4 in the SF State GE pattern. Courses that fulfill the remaining areas of SF State's lower division GE pattern are available at most two-year and four-year colleges and universities.

Of the four required basic skills courses, a course in critical thinking (GE A3) may not be widely offered outside the CCC and CSU systems. Students should attempt to identify and take an appropriate course no later than the term of application to the CSU. To review more information about the A3 requirement, please visit http://bulletin.sfsu.edu/undergraduate-education/general-education/lower-division/#AAEL.

Identify and complete a 2nd-semester written English composition course before transfer. This is usually the next course after the typical “freshman comp” course, with a focus on writing, reading and critical analytical skills for academic purposes, and developing skills in composing, revising, and the use of rhetorical strategies.

Waiting until after transfer to take a single course at SF State that meets both US and CA/local government requirements may be an appropriate option, particularly if transferring from outside of California.
All students must meet the transfer eligibility requirements outlined below for admission. For more information, visit the Undergraduate Admissions section.

- Complete 60 or more transferable semester units or 90 or more quarter units
- Earn a college grade point average of 2.00 or better in all transferable courses. Non-local area residents may be held to a higher GPA standard.
- Be in good standing at the last college or university attended
- Complete 30 semester units (45 quarter units) of general education, including four basic skills courses:
  a. One course in oral communication (same as CSU GE area A1)
  b. One course in written composition (same as CSU GE area A2)
  c. One course in critical thinking (same as CSU GE area A3)
  d. One course in mathematics or quantitative reasoning, with intermediate algebra as a prerequisite (same as CSU GE area B4)
- The four basic skills courses and a minimum of 60 transferable semester units (90 quarter units) must be completed by the spring semester prior to fall admission, or by the fall semester prior to spring admission. Earn a “C” or better grade in each basic skills course.

Certificate in Dietetics

The Dietetic Internship Program at SF State is part of the Graduate Certificate in Dietetics. Only students who have completed or are near completion of a Didactic Program in Dietetics (DPD) are eligible to apply for this internship and certificate program. A DPD is typically an undergraduate degree in dietetics, although there are other tracks. For more information about DPD and Dietetic Internship programs, go to the Academy of Nutrition and Dietetics (A.N.D.) website at: http://www.eatrightpro.org/resources/career/become-an-rdn-or-dtr

The program provides the knowledge and practice requirements necessary to be eligible to take the Registered Dietitian (R.D.) examination. Interns will be placed in rotations in hospitals, long-term care/skilled nursing facilities, community nutrition, and other health organizations in the Greater San Francisco Bay Area for practical experiences. In addition to the internship portion of the program, interns will be required to take graduate level academic courses in nutrition that will cover the lifespan. The Dietetic Internship Program at SF State is a full-time, 11 month program, from mid-July through early June.

Before being considered for acceptance, the student must first be eligible in accordance with requirements set forth by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (A.N.D.), as well as university requirements as outlined in the Certificate Program section at SF State Graduate and Post-Baccalaureate Application Procedures (p. 117). This same section also includes University program guidelines and procedures to be followed in filing for the award of the certificate when it is completed.

Admission to Program

• Completion of a baccalaureate degree and completion of an approved Didactic Program in Dietetics (DPD) are required prior to admission into the program.
• Refer to the Department of Family Interior Nutrition & Apparel (FINA) website for information about application procedures: http://cfsd.sfsu.edu/content/graduate-degreesprograms.
• Applicants must participate in the Academy of Nutrition and Dietetics (A.N.D.) computer matching process and the Dietetic Internship Centralized Application Process (DICAS). Applicants must meet the posted deadlines and pay the required fees for both of these in order to apply to our program.
• A separate application fee must also be submitted online.
• A committee composed of dietetics faculty and other members will review the applications based on established criteria.
• Applicants will be notified by D&D Digital if they were matched to our program and if matched, must accept the match within the published time frame to be guaranteed their spot. Any classes that still must be completed for the baccalaureate degree or completion of the DPD must be completed with a minimum of a "C" grade prior to the program starting.
• Matched applicants must then apply to the University via CSUMentor. They will enroll as matriculated post-baccalaureate students in the unclassified status through the College of Extended Learning (CEL).
• Admission to the certificate program does not guarantee admittance into the M.A. program.

Criteria for Selection

• Applicants must meet all deadlines for submitting applications to D&D Digital, DICAS as well as to the program. Late and incomplete applications will not be considered.
• All DPD courses are to be completed with a grade of C- or better. A minimum overall GPA of 2.7 and a DPD GPA of 3.0 is required. DPD GPA, as well as overall GPA and Science GPA, will be evaluated. Admitted applicants generally have much higher GPAs than the minimum requirement.
• Work and/or volunteer experience, personal statement, letters of recommendation, and resume will be evaluated. Only applicants being considered for admission will receive a request for a phone interview.
• Preference may be given to SF State DPD graduates whose qualifications are competitive with other applicants.
• Admission to the program is competitive and a strong DPD GPA and work/volunteer experience in the field of dietetics are important criteria when applications are being reviewed.

SF State is committed to policies of equal opportunity and nondiscrimination on the basis of race, national origin, gender or age.

Program Description

Each cohort class consists of 14 interns. Interns are required to take six units of academic dietetic internship preparation coursework in the summer, which will start in July. From mid-August to early June, interns will take classes on campus one day a week, and be in internship supervised practice rotations four days a week. No part-time enrollment is allowed.

Supervised practice experiences are completed under the direction of a dietitian or foodservice manager, or other qualified professional in a facility or program serving children, adults, and/or older adults, or the general population in a healthcare or community, non-profit, or business setting. The internship is based on specific experiences, competencies, and required hours set forth by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics (A.N.D.). A total of 1,200 practice hours is required in the internship in order to meet these requirements. Summer R3, Fall, and Spring semester enrollment are required.

Rotations will generally include the following:

• 16–18 weeks in an acute care clinical hospital
• 5–8 weeks in a long-term care/skilled nursing facility, outpatient, or another clinical setting
• 5–6 weeks in a foodservice systems management rotation
• 3–7 weeks in a community nutrition or public health organization
• 3 weeks in an elective

The array of clinical, community, and foodservice rotations will allow the intern to have a variety of experiences in dietetics, with a concentration in medical nutrition therapy. Interns will typically be given two weeks off during December/January, and one week off for Spring Break. Since this is an intensive program, interns should not expect to hold outside jobs or have other significant time commitments while enrolled in the program.
Dietetics, Certificate – 24 units

Required Courses

- DFM 751 Seminar in Nutritional Assessment Across the Lifespan 3
- DFM 755 Seminar in Human Nutrition and Metabolism 3
- DFM 758 Seminar in Foodservice and Nutrition Program Management 3
- DFM 785 Seminar in Medical Nutrition Therapy 3
- DFM 881 Internship in Dietetics (6 units taken twice for a total of 12 units)

Master of Arts in Family and Consumer Sciences

The Master of Arts program in Family & Consumer Sciences uses a multidisciplinary approach to student inquiry within a chosen field. The program is designed to assist students in navigating through the process utilizing both theory and practice. It aims to inspire students to reach their full potential through identification of the most current and compelling issues within the Family & Consumer Science disciplines noted below and to structure a body of research that seeks to ameliorate the issues while addressing quality of life for individuals, families, and communities.

- Apparel Design & Merchandising
- Interior Design
- Dietetics
- Family and Consumer Sciences

Student understanding of trends and issues in these areas provide the roadmap for the development of a culminating experience which illustrates identification of issues and problem-solving methodologies. Students have the opportunity to structure their degree around their specific interests within the emphasis areas noted above and also with other programs across campus. The M.A. degree also prepares one for further graduate study.

Admission to Program

Applicants must hold a baccalaureate degree and a 3.0 GPA with a major in family and consumer sciences, or one of its specializations (apparel, child/family, interior design, nutrition/dietetics). Those without this degree must complete thirty units of prerequisites course work in consumer and family studies/dietetics approved by an advisor and the department chair.

Within these 30 units:

- 3 units must be from outside the student’s area of specialization
- 3 units must include CFS 312GW
- a maximum of 6 units may be counted for past professional experience in an area of specialization.

Written English Proficiency Requirement

Level One

The GRE (writing component) must be completed prior to application and scores are required to be submitted as part of the application. Admitted students with scores below 4.0 will be conditionally classified and must pass a writing intensive class within the first two semesters in the program to satisfy the university first level writing proficiency requirement.

Level Two

Level Two is demonstrated by completion of CFS 895 or CFS 898.

For the Culminating Experience (CE) and SF State Continuous Enrollment Policy students should view SF State Graduate Division policies at http://grad.sfsu.edu/. The Proposal for Culminating Experience, Human Subjects Protocol, and Advancement to Candidacy are due the semester prior to enrolling in CFS 895/CFS 898. Students have one semester grace period after enrolling in CFS 895/CFS 898 to complete their CE. If it is not completed during the semester following enrollment, they must then continually enroll in HSS 499 through the College of Extended Learning until CFS 895/CFS 898 is completed.

Seventy percent of a student’s Advancement to Candidacy (ATC) must be at the 700 level or above. Students must make continuous progress toward the completion of the degree. See Graduate Division website for details on policies, procedures and required forms at http://grad.sfsu.edu/.

Family and Consumer Sciences (M.A.) – Minimum 30 units

Program Requirements (9 units)

- COUN 794 Seminar in Research 3
- or ISED 797 Seminar in Educational Research
- CFS 700 Seminar: Trends and Issues 3
- CFS 710 Family and Consumer Sciences Research Applications 3

Graduate/Upper Division Courses (15 units)

Courses in family and consumer sciences selected upon approval of graduate major advisor

- CFS 728 Children and Families with Violence, Abuse, and Neglect 3
- CFS 743 Sustainability in the Textile, Housing, and Food Industries 3
- CFS 761 Advanced Apparel Design Problems 3
- CFS 769 Visual Merchandising and Promotion 3
- CFS 863 Seminar in Social Entrepreneurship 3
- CFS 881 Internship 3
- CFS 891 Directed Readings in Family and Consumer Sciences/Dietetics 3
- CFS 899 Independent Study 2-4
- DFM 751 Seminar in Nutritional Assessment Across the Lifespan 3
- DFM 755 Seminar in Human Nutrition and Metabolism 3
- DFM 758 Seminar in Foodservice and Nutrition Program Management 3
- DFM 785 Seminar in Medical Nutrition Therapy 3
- DFM 881 Internship in Dietetics (limit 6 units) 6
- CFS 898 Master’s Thesis 3
- or CFS 895 Field Study
Electives (6 units)
Selected upon approval of graduate major advisor.
COUNSELING

College of Health and Social Sciences
Dean: Alvin Alvarez

Department of Counseling
Burk Hall 524
Phone: (415) 338–2005
Fax: (415) 338–0594
Email: counsel@sfsu.edu
Website: counseling.sfsu.edu (http://counseling.sfsu.edu)
Chair: Graciela Orozco

Program Scope
Culturally competent, psychologically-minded, and emotionally grounded Professionally Licensed Counselors, Credentialed School Counselors, Clinical Rehabilitation and Mental Health Counselors, Career Counselors, College Counselors, and Gerontological Counselors are needed in the field of human services. The department’s six graduate programs, its undergraduate minor in counseling, and our partnerships with community agencies collaboratively prepare students who are well-grounded to help meet the growing demands in the field. Our department’s faculty and the curriculum we have designed aspire to achieve excellence in three core areas:

- Multicultural Competence,
- Community Partnerships, and
- Action Research.

Our faculty are locally, nationally, and internationally recognized in their scholarly contributions to multicultural competence in counseling, social justice, and health equity. They work to provide a solid learning environment for students with disabilities, students from diverse ethnic and sexual orientations, as well as students from a range of socioeconomic groups.
