Examination of Latino juvenile justice, the myths and realities, and the over incarceration of Latino youth: its sources, costs, and consequences; and impact on individuals, families, and communities. Latino experiences with schooling, police, gangs, drugs, "juvie," and caseworkers are covered. [CSL may be available]
(This course is offered as LTNS 485 and C J 485. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Social Justice

C J 501 Criminal Law (Units: 3)
Prerequisites: Upper division standing; C J 300, GWAR course; or consent of instructor.

Substantive criminal law: legal adjudication within the criminal justice system, the criteria according to which guilt is established. Types of crime: homicide, rape, theft, business crimes. Disposition of convicted offenders. [CSL may be available]

C J 502 Criminal Procedure (Units: 3)
Prerequisites: Upper division standing; C J 300, GWAR course; or consent of instructor.

The salient norms of criminal adjudication as they have developed in case law reflecting 4th, 5th, and 6th Amendment issues incorporated via the 14th Amendment. Reasonableness, probable cause, privacy, penumbral rights, assistance of counsel, federalism.

C J 505 International Criminal Law (Units: 4)
Prerequisites: Upper division standing; C J 300, a GWAR course; or consent of instructor.

Comparative legal systems and the U.S. system of criminal law. Classwork, 3 units; fieldwork, 1 unit.
(This course is offered as C J 505 and I R 332. Students may not repeat the course under an alternate prefix.)

C J 510 Analysis of the Felon in Society (Units: 3)
Prerequisites: Restricted to upper division Sociology and Criminal Justice majors; completion of GE Areas A and B4 requirements; or consent of instructor

Examination of the process of Re-entry (post-incarceration) from the perspective of individuals who have lived it. Classwork, 1 unit; activities, 2 units.
(This course is offered as SOC 510 and C J 510. Students may not repeat the course under an alternate prefix.)

C J 515 Extremism as Crime (Units: 3)
Prerequisites: Upper division standing; C J 300, GWAR course; or consent of instructor.

Domestic extremism in the U.S. (militia, hate crimes, terrorism).

C J 520 Construction of Crime and Justice (Units: 3)
Prerequisites: Upper division standing; C J 300, GWAR course; or consent of instructor.

Critical analysis of the images and realities, mythological construction of crime and the criminal justice system in the U.S.

C J 525 Global Restorative Justice and Corrections (Units: 3)
Prerequisites: C J 300, C J 323GW.

Restorative justice practices as alternatives to incarceration, focusing on international practices.

C J 530 Geographies of Social Control and Urban Diversity (Units: 3)
Prerequisites: Upper division standing; C J 300; or consent of instructor.

Geographical distribution of crime, law and justice systems. Informal and formal mechanisms of social control in urban space.

C J 550 School Violence and Discipline (Units: 3)
Prerequisites: Upper division standing; C J 300, C J 330GW or C J 323GW; or consent of instructor.

Examination of the perceptions and realities of contemporary public school violence; the range of school disciplinary efforts for their effects and consequences.

C J 570 Urban Violence (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Examination of the role violence plays in the lives of ghetto subjects; conceptual problems and the socio-political and historical contexts of contemporary manifestations of violence; the world socioeconomic system in shaping the contours of violence in the American Ghetto.

C J 600 Youth Gangs in Community Context (Units: 3)
Prerequisites: Upper division standing; C J 300, C J 330GW or C J 323GW; or consent of instructor.

Examination of youth gangs in America within their social, economic and political contexts from their earliest development to the present day; theories of gang formation and stories of the gang experience.

1489
C J 605 Criminalization of Gender and Sexuality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the criminalization of gender and sexuality utilizing feminist and queer perspectives on criminality; understanding of how laws, policing practices, courtrooms, and institutions regulate gender and sexuality; and examination of effects on labor market opportunities, life chances, and gendered ideas of protection and punishment.

C J 680 Field Course in Criminal Justice (Units: 4)
Prerequisites: Upper division standing; C J 300, GWAR course; or consent of instructor.
Data gathering, organization, and presentation of research to students engaged in field studies in any criminal justice system setting. [CSL may be available]

C J 685 Projects In Teaching Criminal Justice (Units: 1-4)
Prerequisite: C J 300.
Offers undergraduates experience in tutoring other undergraduates in preparing for written examinations in Criminal Justice courses. Tutors assist in organizing legal briefs and analyses in C J 300 and in essay examination preparation in other C J courses. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

C J 699 Independent Study (Units: 1-4)
Prerequisites: C J 300, C J 323GW or C J 330GW; consent of instructor, major adviser, and department chair.
Supervised study of a particular criminal justice issue selected by the student. May be repeated for a total of 4 units. [CSL may be available]
Critical Social Thought (CST)

CST 300 Introduction to Critical Social Thought (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

The tradition and development of critical social thought in interaction with social-economic, political conditions from Kant, Hegel, and Marx in the 19th century to 20th century Marxism, phenomenology, and feminism. (This course is offered as CST 300 and PLSI 386. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Social Justice

CST 320 Racism: Cross-Cultural Analysis (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Cultural history of racism as related to colonialism and imperialism. Racism as on-going intellectual, political movement. Anti-racism and educational-anthropological methods to defeat racism. (This course is offered as ANTH 320 and CST 320. Students may not repeat the course under an alternate prefix.)

CST 585 Globalization and World Cultures (Units: 3)
Prerequisite: ANTH 120 or consent of instructor.

Effects of globalization and multinational corporations on cultures. Examination of contemporary globalization from a combined political-economic and cultural anthropological perspective. (This course is offered as ANTH 585 and CST 585. Students may not repeat the course under an alternate prefix.)

CST 590 Anthropology of Women (Units: 3)
Prerequisite: ENG 114 or equivalent.

Ethnographic, physical, anthropological, and pre-historical materials on women. Theories on origins of the family, social structuring of sexuality, and changing sex and gender in modern societies. (This course is offered as ANTH 590, CST 590, and WGS 595. Students may not repeat the course under an alternate prefix.)
Dance (DANC)

DANC 160 African Haitian Dance I (Unit: 1)
Beginning skills in African-Haitian dance.

DANC 163 Ballet I (Unit: 1)
Ballet I is a beginning classical ballet technique class. May be repeated for a total of 4 units.

DANC 170 Integrated Dance Technique I (Units: 2)
A beginning technique class addressing basic dance skills in modern and jazz dance. May be repeated for a total of 4 units.

DANC 173 Modern Dance I (Unit: 1)
Beginning skills in modern dance.

DANC 176 Modern Jazz Dance I (Unit: 1)
Beginning skills in modern jazz dance.

DANC 207 Dance in Cultural Context (Unit: 1)
Movement vocabulary, performance practice and cultural context of a vernacular dance form. Topic to be specified in Class Schedule. May be repeated for a total of 4 units when topics vary. Activity, 1 unit.

DANC 232 Dance Composition: Choreography I (Units: 3)
Prerequisites: Sophomore standing or above, two technique classes.

Choreography and creative process in dance: improvisation, exploration, form, and content in the formation of solo works. Classwork, 1 unit; activity, 2 units.

DANC 236 Folklore of Dance: African-Haitian (Units: 2)

DANC 263 Ballet II (Units: 2)
Prerequisites: Restricted to Dance majors and minors; DANC 170; or consent of instructor.

An intermediate technique course in classical ballet. May be repeated for a total of 8 units. Priority enrollment for dance majors.

DANC 275 Modern Dance II (Units: 2)
Prerequisites: Restricted to dance majors and minors; DANC 173 or consent of instructor.

A low intermediate class in modern dance technique. May be repeated for a total of 8 units.

DANC 276 Modern Jazz Dance II (Units: 2)
Prerequisites: DANC 176 or consent of instructor; priority enrollment for Dance majors.

An intermediate technique course in modern jazz dance. May be repeated for a total of 8 units.

DANC 300GW Dance Organizational Strategies and Field Topics - GWAR (Units: 3)
Prerequisite: ENG 214 or equivalent with a grade of C- or better.

Survey of dance service organizations and professional field topics: grant writing, copyright liabilities, dance documentation, resumes, publicity strategies, fiscal survivorship. [ABC/NC grading only] [CSE may be available]

Course Attributes:
- Graduation Writing Assessment

DANC 304 Issues in Dance Medicine I (Units: 3)
Prerequisite: BIOL 100.

The musculoskeletal system: elements of physiology and nutrition as they apply to dance training. Classwork, 2 units; activity, 1 unit.

DANC 310 Dance Conditioning/Pilates (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Physical conditioning through dance and pilates techniques including strength, flexibility, weight control, nutrition, cardiovascular issues. Alignment, centering, and development of precision in movement. Classwork, 2 units; activity, 1 unit.

DANC 311 Alignment/Pilates Mat (Unit: 1)
Prerequisites: Restricted to dance majors or minors; a college dance class.

An activity course in pilates mat work including core stabilization, mind body centering, and related methods. May be repeated for a total of 8 units.

DANC 312 Alignment Study/Pilates Mat 2-3 (Unit: 1)
Prerequisites: Restricted to dance majors and minors; DANC 311, DANC 304, DANC 310; or consent of instructor.

Movement lab for intermediate/advanced experience in theory and practice of Pilates mat and small equipment; core stabilization, alignment; Pilates principles in relation to dance practice. May be repeated for a total of 4 units.

DANC 316 Dunham Dance Technique (Units: 2)
Prerequisites: DANC 160 and any ballet, jazz, or modern dance class.

Intermediate level dance technique developed by the Katherine Dunham School of Dance covering barre exercises and movement progressions based in African Haitian and modern dance. May be repeated for a total of 8 units.

DANC 340 Creative Process in Dance for Children (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Creative dance for children and adolescents; relationship between the physical and mental processes of learning. May be repeated for a total of 6 units. [CSE may be available]

DANC 350 Dance Aesthetics: Cultural/Historical Perspectives (Units: 3)
Prerequisite: Upper division standing.

Cultural and historical exploration of dance for the viewer, including dance theatre and folk forms and their place in arts and culture.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

DANC 363 Ballet III (Units: 2)
Prerequisites: Restricted to dance majors or minors; DANC 263 or equivalent; or consent of instructor.

Ballet III is an intermediate-advanced classical ballet technique class. May be repeated for a total of 8 units.

DANC 374 Modern Dance III (Units: 2)
Prerequisites: Restricted to dance majors and minors; DANC 275; or consent of instructor.

Modern Dance II is an intermediate/advanced technique class. May be repeated for a total of 8 units.
DANC 376 Modern Jazz Dance III (Units: 2)
Prerequisite: DANC 276 or consent of instructor. Priority enrollment given to dance majors.
Modern Jazz Dance III is an intermediate/advanced jazz technique class. May be repeated for a total of 8 units.

DANC 399 University Dance Theatre (Units: 2)
Prerequisites: Audition; completion of level II or III dance technique classes; concurrent enrollment in two dance technique classes.
Year-long repertory class in which students build and perform faculty and guest artist choreography. May be repeated for a total of 12 units. [CSL may be available]

DANC 400 Workshop in Contemporary Dance (Unit: 1)
Prerequisite: A lower division technique class or consent of instructor.
Study of new forms: cultural/contemporary fusion, contact improvisation, voice and movement. May be repeated for a total of four units.

DANC 402 Workshop in Jazz/Musical Theatre Dance (Unit: 1)
Prerequisites: Any lower division technique class or consent of instructor. Priority enrollment to dance, theatre, and music majors.
Study of forms relating to jazz and music theatre. May be repeated for a total of 4 units.

DANC 404 Production Techniques in Folk and Ethnic Dance (Unit: 1)
Prerequisite: DANC 207 or consent of instructor.
Production techniques in staging ethnic dance for performance. Program materials, props and sets, make-up, sound, staging, and public relations are applied in an ethnic dance production/concert.

DANC 416 Advanced Contemporary Dance Repertory and Skills (Unit: 1)
Prerequisite: DANC 363 or MUS 376 or consent of instructor.
Repertory works and performance techniques for selected advanced dancers; projection, concentration, style. May be repeated once.

DANC 430 Historical Survey of Dance in the Western World (Units: 3)
Prerequisite: Any DANC course or consent of instructor.
Development of dance as a performing art in the western world, and its relationship to social/cultural changes.

Course Attributes:
- UD-C: Arts and/or Humanities

DANC 434 Dance Composition: Choreography II (Units: 3)
Prerequisites: DANC 232; and consent of instructor.
Experience in literal and non-literary choreography including chace, narrative, and historical forms. Work on duets, trios, and larger group studies culminating in a workshop presentation. Classwork, 1 unit; activity, 2 units.

DANC 461 Advanced Choreography and Production (Units: 3)
Prerequisites: DANC 232, DANC 434.
Choreography for the stage in conjunction with production planning and management of New Moves production. Includes publicity, budgeting, rehearsal management, and criticism. May be repeated for a total of 6 units. [CSL may be available]

DANC 463 Performance in Dance Production (Unit: 1)
Prerequisites: Intermediate level of dance experience; audition; and concurrent enrollment in dance technique class.
Performance experience in choreography for dance production to train dancers for the field. Students are admitted to course by audition during the first week of the semester. May be repeated for a total of 4 units.

DANC 474 Modern Dance IV (Units: 2)
Prerequisite: DANC 374 or consent of instructor.
An advanced modern dance class. May be repeated for a total of 8 units.

DANC 490 Dance Theatre Workshop (Units: 1-3)
Prerequisites: Restricted to Dance and Theatre Arts majors and minors; TH A 130, DANC 170, audition.
Creative laboratory for exploration of expressive continuum of dancing, singing and speaking in contemporary multi-disciplinary performance. Activity. May be repeated for a total of 9 units. (Plus-minus letter grade only)
(This course is offered as DANC 490 and TH A 490. Students may not repeat the course under an alternate prefix.)

DANC 545 Traditional Kulintang Music and Dance of the Southern Philippines (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Music and dance of Southern Philippines, emphasis on Kulintang tradition of Mindanao and Sulu Archipelago. Lectures and hands-on workshops on dance movement and music of Kulintang culture. May be repeated for a total of 6 units. (This course is offered as ETHS 545, DANC 545, and MUS 545. Students may not repeat the course under an alternate prefix.)

DANC 560 Supervised Experience in Dance Education (Units: 1-3)
Prerequisites: Restricted to dance majors or minors; completion of dance core and level II technique.
Observation/discussion of curriculum for dance programs in public schools and private settings, pre-school to 12th grade. May be repeated for a total of 6 units. [CSL may be available]

DANC 657 Ethnology of Dance (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Function of dance in pre-literate, pre-technological societies in the context of anthropological literature.
(This course is offered as DANC 657 and ANTH 657. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

DANC 685 Projects in the Teaching of Dance (Units: 1-3)
Prerequisites: Restricted to upper division dance majors or minors; or consent of instructor.
The teaching practicum provides students with an opportunity to serve as an instructional aide, participate in the teaching of a regular instructionally-related Dance class, and learn about educational dance through fieldwork. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.) (CR/NC only)
DANC 699 Independent Study (Units: 1-3)
Prerequisite: Consent of supervising faculty member.

An intensive study of a particular problem under the direction of a faculty member in the department. May be repeated for a total of 9 units. [CSL may be available]
Decision Sciences (DS)

DS 110 Calculus with Business Applications (Units: 3)
Prerequisite: Satisfactory completion of ELM requirement.
Basic quantitative reasoning and employment of fundamental mathematical principles to solve business problems. Elements of calculus, mathematics of finance, and decision-making.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• B4: Math/QR

DS 199 Decision Sciences Make-Up (Unit: 1)
Prerequisite: Consent of instructor.
Additional study to make-up for partial equivalents in Decision Sciences courses. May be repeated for a total of 2 units.

DS 212 Business Statistics I (Units: 3)
Prerequisites: DS 110 or MATH 110 or MATH 226 with grades of C- or better.
Statistical methods essential in solving business problems including probability distributions, estimation and tests of hypotheses, and regression analysis.

DS 312 Data Analysis with Computer Applications (Units: 3)
Prerequisite: DS 212.
Interpretation and presentation of data with business applications, using statistical software packages. Multiple regression, sampling techniques, design and analysis of surveys, analysis of variance, experimental design, and contingency tables. (Plus-minus letter grade only)

DS 408 Computer Simulation (Units: 3)
Prerequisites: DS 212, ISYS 263. ISYS 263 may be satisfied either by successfully passing the ISYS 263 course or waiver exam in basic computer proficiency and information systems.
Development of computer-based simulation modeling skills, focusing on managerial cases. Experience with professional simulation software. Model formulation, execution, and interpretation of results. Classroom, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

DS 411 Decision Modeling for Business (Units: 3)
Prerequisites: DS 110, DS 212, ISYS 263, with grades of C- or better.
Basic concepts of spreadsheet modeling and risk analysis with applications to practical business decision making. Topics include cost and demand modeling, risk analysis, revenue (yield) management, and implementation of decision models using spreadsheets. (This class cannot be taken after DS 601 and is not applicable towards a DS major or minor.)

DS 412 Operations Management (Units: 3)
Prerequisites: Upper division standing; DS 110 or MATH 110, DS 212, ISYS 263 with grades of C- or better.
Management of manufacturing and service operations. Use of computer-based models. Use of computer-based models. Forecasting, capacity planning, linear programming, inventory management, quality management, and project management.

DS 467 Decision Science Internship (Units: 1-3)
Prerequisites: Two of the following: DS 312, DS 408, DS 601, DS 604, DS 624; and completed application form; consent of instructor.
Provides the opportunity to participate in a semester of field experience. Major report required. May not be used as part of DS concentration. (CR/NC grading only)

DS 601 Applied Management Science (Units: 3)
Prerequisites: DS 110, DS 212, ISYS 263. The ISYS 263 prerequisite may be satisfied either by successfully passing the ISYS 263 course or waiver exam in basic computer proficiency and information systems.
Decision making in business emphasizing computer applications. Development of spreadsheet modeling skills and use of professional software. (Plus-minus letter grade only)

DS 604 Applied Business Forecasting (Units: 3)
Prerequisites: DS 212, DS 412, ISYS 263. The ISYS 263 prerequisite may be satisfied either by successfully passing the ISYS 263 course or waiver exam in basic computer proficiency and information systems.
Business forecasting methodology and applications: quantitative and qualitative approaches to short, medium, and long-range forecasting. Practical aspects of forecasting within the business environment. Interrelationships with business planning. (Plus-minus letter grade only)

DS 612 Data Mining with Business Applications (Units: 3)
Prerequisite: DS 312 or DS 604.
Concepts of modeling and understanding of complex datasets based on advanced statistical methods. Discussion of various supervised and unsupervised learning techniques. Instruction in the use of statistical software such as R, SAS, Stata, etc. (Plus-minus letter grade only)

DS 624 Quality Management (Units: 3)
Prerequisites: DS 212, ISYS 263. ISYS 263 may be satisfied by passing the waiver exam in basic computer proficiency and information systems.
Concepts, methods, and current practices ensuring product and service quality. Applications in manufacturing and service industries: quality as a system, customer-driven quality, continuous process improvement, implementation approaches, and ethical issues. (Plus-minus letter grade only)

DS 655 Sustainable Supply Chain Management (Units: 3)
Prerequisite: DS 412.
Design and management of supply chains, cost-effectiveness, environmental and social responsibility. Includes global facility and network design, aggregate planning, transportation, inventory management. (Plus-minus letter grade only)

DS 660GW Communications for Business Analytics - GWAR (Units: 3)
Prerequisites: Restricted to Decision Sciences majors and minors; ENG 214 with a grade of C- or better, DS 412, and at least two DS electives, one of which may be taken concurrently.
Capstone course in Decision Sciences. Communication standards, supply chain management, quality, ethics, and sustainability. Focus on quantitative analysis and communication. Use of computer-based models. (ABC/NC grading only)
Course Attributes:
• Graduation Writing Assessment
DS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.

Intensive problem analysis under the direction of a decision sciences faculty member. Open to upper division students who have demonstrated the ability to do independent work.

DS 767 Decision Sciences Internship (Units: 1-3)
Prerequisites: One 800-level DS course, completed application form, consent of instructor.

Provides the opportunity to participate in a semester of field experience. Major report required. May not be used on ATC. (CR/NC grading only)

DS 812 Data Mining and Advanced Statistical Methods for Business Analysts (Units: 3)
Prerequisites: Graduate standing; DS 853.

Focus on concepts of modeling and understanding of complex datasets based on advanced statistical methods with various supervised and unsupervised learning techniques. Including an overview of relevant algorithms while emphasizing business applications of these tools and use of statistical software commonly used in practice, such as R, Python, SAS, Stata, etc. (Plus-minus letter grade)

DS 816 Seminar in Business Forecasting (Units: 3)
Prerequisite: BUS 786 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Theory and practice of short, medium, and long range forecasting within business environments. Quantitative and qualitative forecasting methods. Mathematical methods covered include time series models, decomposition models, linear and multiple regression models, and may include ARIMA and data mining. (Plus-minus letter grade only)

DS 851 Computer Simulation and Decision Making (Units: 3)
Prerequisite: BUS 786 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Design and use of computer simulation models in business decision-making. Application to selected problems in various areas of business. (Plus-minus letter grade only)

DS 852 Managerial Decision Making (Units: 3)
Prerequisite: BUS 786. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Model building for business decision making through data driven analysis. Creation of spreadsheet models to identify choices, formalize trade-offs, specify constraints, perform sensitivity analyses, and analyze the impact of uncertainty. Effective spreadsheet design and use. (Plus-minus letter grade only)

DS 853 Applied Multivariate Analysis (Units: 3)
Prerequisite: BUS 776 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Methods of multivariate data analysis applied to business problems. Mathematical methods covered include simple and multiple regression models, logistic regression models, and time series analysis. Theory and practice within business environments. Project using real data. (Plus-minus letter grade only)

DS 854 Total Quality Systems (Units: 3)
Prerequisite: BUS 786 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Concepts, methods, and current practices used to ensure product and service quality; quality as a system, customer-driven quality, continuous process improvement, quality and productivity, implementation approaches, applications, and ethical issues. (Plus-minus letter grade only)

DS 855 Supply Chain Management (Units: 3)
Prerequisite: BUS 786 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Supply chain design, planning, and operation. Concepts of competitive strategy and sustainability; aggregate planning and management of the marketing/operations interface; inventory management and procurement strategy; design of supply chain networks; the role of information technology. (Plus-minus letter grade only)

DS 856 Seminar in Project Management (Units: 3)
Prerequisite: BUS 786 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

The full range of issues faced by project managers. The project life cycle; technical, human, and organizational issues; planning, scheduling, and controlling the timing, resources, and costs of a project; software usage; case studies. (Plus-minus letter grade only)

DS 862 Machine Learning for Business Analysts (Units: 3)
Prerequisites: Graduate standing; DS 812.

Focus on advanced machine learning methods, including supervised and unsupervised learning techniques used to extract valuable information from quantitative and text data. Includes an overview of relevant algorithms while emphasizing business applications of the tools with a focus on commonly-used statistical software, e.g., R and Python, and how to apply the techniques learned in class. (Plus-minus letter grade)

DS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.

Intensive study of a particular problem under the direction of a business analysis faculty member. Open only to graduate students of demonstrated ability to do independent work. (Plus-minus letter grade only)
Design (DES)

DES 210 Industrial Science (Units: 3)
Nature, properties, and processing of common industrial materials used in the design and production of today’s manufactured products: metallics, plastics, wood, paper, fibers and textiles, ceramics, coatings, and composite materials. (Plus-minus letter grade only)

DES 220 Introduction to Drawing for Designers (Units: 3)
Prerequisite: Restricted to lower division Pre-Industrial Arts (Design & Industry)-BA majors or consent of instructor.
Introduction to drawing for design professions: graphic design, industrial design, digital media, and marketing. Learning to draw as learning to see and understand two- and three-dimensional objects, to give form to design ideas and to communicate these ideas to others. (Plus-minus letter grade only)

DES 222 Introduction to 2D Digital Design (Units: 3)
Prerequisite: Restricted to lower division Pre-Industrial Arts (Design & Industry)-BA majors or consent of instructor.
Digital software and design processes for creating and editing digital images, illustration, documents for print and digital applications. Topics include design vocabulary, conceptualization methods, and text formatting. Students will develop and apply their knowledge through analysis, critique, projects and exercises. (Plus-minus letter grade only)

DES 226 Modern Letterpress Printing: Traditional and Digital Techniques (Units: 3)
Integration of centuries-old methods of letterpress into contemporary design processes. Direct, hands-on work with digital and letterpress proofing press to explore typographic principles, technical methods, lettering, vector illustration, photographic images, and more. Work is project-driven, featuring demos, critique, field trips. May be repeated for a total of 6 units. (Plus-minus letter grade only)

Course Attributes:
- CL: Arts

DES 227 Rethinking Digital Visual Media: History, Technology, and Content (Units: 3)
Digital visual media (computer animation, interactive multimedia, Internet, virtual worlds) viewed through the lenses of history, cultural impact, technology, and production techniques.

DES 256 Design and Society: Contemporary Design Issues and Applications (Units: 3)
Introduction to contemporary design issues, applications, and professions; exploration of design's wide ranging social impacts from visual communication to product design, transportation to city planning, green design to design for social good. (Plus-minus letter grade only)

Course Attributes:
- CL: Arts

DES 300 Design Process (Units: 3)
Prerequisites: Upper division standing; restricted to DES majors; DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.
Creativity and the design process. Individual and group creative problem solving related to graphic communications and product design/development for industry. Laboratory. (Plus-minus letter grade only)

DES 305 Lab Safety Basics (Unit: 1)
Prerequisite: Restricted to DES majors and graduate students in product design/development area.
Introduction to basic power and hand tools in the product design labs to ensure safe operation of tools for the duration of the student's program of study; proper dress, techniques, and protective equipment. May be repeated for a total of 2 units. (CR/NC grading only)

DES 310 Product Design 1 (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 323, DES 356, DES 370, DES 305, DES 320, and DES 321 with grade of C or better; or consent of instructor.
Industrial manufacturing processes related to the development of three dimensional objects for product and interior designers and manufacturing personnel. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 320 Drafting and Sketching for Design (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.
Mechanical and freehand drawing, the reproduction of drawings, and interpretation of graphic projections. Perspective drawing and the common elements of technical illustration. Signs and symbols of design and drafting. Laboratory. Extra fee required.

DES 321 Technical Drawing 1: Introduction to CAD (Units: 3)
Prerequisites: Upper division standing or consent of instructor; DES 323, DES 356, and DES 370 with a grade of C or better; restricted to DES majors.
Fundamentals of two-dimensional geometric image generation techniques to familiarize the student with computer-aided drafting (CAD). Microcomputer CAD hardware and software. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 322 Computer Graphic Imaging (Units: 3)
Prerequisites: Upper division standing; restricted to DES majors; DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.
Comprehensive studies in computer imaging process and production: digital image generation, image conversion processing, image assembly, and image production and reproduction. Selected computer graphic applications and software packages. Extra fee required.

DES 332 Visual Design Literacy (Units: 3)
Prerequisites: Upper division standing; restricted to DES majors; ENG 214 or equivalent with a grade of C or better; or consent of instructor.
Fundamental visual design principles, vocabulary, and applications in design. Topics relevant to 2D and 3D design techniques for both tangible and virtual results. (Plus-minus letter grade only)
DES 324GW Research and Writing for Design - GWAR (Units: 3)
Prerequisites: Restricted to DES majors; ENG 214 or equivalent with a grade of C or better, DES 323, DES 356, and DES 370 with a grade of C or better.

Critical examination of works across the industry sub-disciplines of product design, visual communication and new media. Authoring design concepts and shaping visual presentations. (ABC/NC grading only) [CIS may be available]

Course Attributes:

• Graduation Writing Assessment

DES 325 Graphic Design 1: Introduction (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 322, DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.

Design principles and problem solving for visual communication. Basic digital production tools and techniques for creating print and screen media. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 327 Digital Media 1 (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 322, DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.

Introduction to digital media design focusing on Web design. Conceptual approaches to structuring information and interaction, basic graphic design considerations germane to networked media, and basic production skills. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 330 Industrial Design Outreach (iDo) (Units: 3)
Prerequisites: Upper division standing; restricted to DES major; DES 323, DES 356, and DES 370; or consent of instructor.

Development and delivery of industrial design educational experiences to underserved high school students; providing hands-on interdisciplinary design projects to help foster curiosity, creativity, and build self-confidence. May be repeated for a total of 6 units. (Plus-minus letter grade only) [CIS may be available]

DES 332 Electricity and Electronics (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.

DES 340 Design and Materials (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 323, DES 356, DES 370, and DES 305 with grades of C or better; or consent of instructor.

Properties of industrial materials related to design and manufacture of contemporary products; design process of material properties and traditional technologies relative to the form and function of design objects. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

DES 342 Metals Manufacturing (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 321, DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.

Contemporary metals design and manufacturing processes. Evolution of metal forming practices from traditional to computer-based automated processes. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 344 Plastics for Design (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 323, DES 356, and DES 370 with a grade of C or better; or consent of instructor.

History and development of the plastics industry; basic materials, processes, technology, and application for design. Laboratory. Extra fee required.

DES 356 A History of Design and Technology (Units: 3)
Prerequisites: Upper division standing; restricted to DES majors; ENG 214 or equivalent with a grade of C or better; or consent of instructor.

History of modern design and attendant technology issues. Antecedents of modern design in product design, visual communications, and allied sectors in design. (Plus-minus letter grade only.)

DES 360 Model Development Laboratory (Units: 3)
Prerequisites: Restricted to DES majors; DES 300 or equivalent, DES 323, DES 356, DES 370, and DES 305 with a grade of C or better; or consent of instructor.

Rudiments of model building for the industrial designer. Production of various levels of models including presentation-grade models. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 370 Introduction to Design and Industry (Unit: 1)
Prerequisites: Upper division standing; restricted to DES majors; ENG 214 or equivalent with a grade of C or better; or consent of instructor.

Orientation to major program and concentrations, resources, and extracurricular opportunities. Issues and trends in design, technology, and industry. Selecting a faculty adviser and developing a program of major study. Vocational outlooks and opportunities for graduate study. (CR/NC grading only)

DES 405 How to Develop, Patent, and Market an Idea (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Presentations by experts from the field concerning consumer trends, procedures, pitfalls, advantages, and disadvantages involved in developing, patenting, and marketing new ideas or products.

DES 410 Product Design 2 (Units: 3)
Prerequisites: Restricted to DES majors; DES 300, DES 305, DES 310, DES 321, DES 420; or consent of instructor.

Introduction to the product design and development process: people, process and product. User/market research, product development documentation, concept visual, models and applications. Extra fee required. (Plus-minus letter grade only)

DES 420 Rapid Visualization (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 370 with a grade of C or better.

Illustration of product and graphic design ideas. Three-dimensional sketching and rendering techniques. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)
DES 421 Technical Drawing 2: 3-D Solid Modeling (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 321 or equivalent; or consent of instructor.

Industry standard computer-aided drafting. Use of digital computer to develop working drawings in architectural and industrial design. Practice with industrial input and output device. Laboratory. Extra fee required. (Plus-minus letter grading only)

DES 425 Graphic Design 2: Typography (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 322 and DES 325 with grades of C or better; or consent of instructor.

Typographic design and its use in the problem solving process of layout design. Classic design exercises and experimentation in contemporary applications of type and letterforms as design elements. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 427 Digital Media 2 (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 327 with a grade of C or better; or consent of instructor.

Rich media design strategies and authoring techniques featuring graphical interaction, motion graphics, sound and video content for Web and mobile platforms. Laboratory. (Plus-minus letter grade only)

DES 430 Industrial Controls (Units: 3)
Prerequisites: Restricted to DES majors; DES 332; or consent of instructor.

DC/AC concepts associated with motors, generators, transformers, control devices, and electrical distribution systems as they pertain to industry applications. (Plus-minus letter grade only)

DES 460 Rapid Prototyping and Manufacturing Systems (Units: 3)
Prerequisites: Restricted to DES majors; DES 300, DES 305, DES 310, and DES 321, or equivalent; or consent of instructor.

Design applications for Rapid Prototyping and Computer Integrated Manufacturing (CIM) systems; Manufacturing Resource Planning (MRP), integration methodologies and flexible manufacturing systems. Classwork, 2 units; lab 1 unit. Extra fee required. (Plus-minus letter grade only)

DES 470 Portfolio Development (Unit: 1)
Prerequisite: Restricted to upper division DES majors or consent of instructor.

Development, types, containers of visual materials for showing the products of a student in a handy format, ready for presentation upon completion of school. May be repeated for a total of 2 units. (Plus-minus letter grade only)

DES 475 Topics in Design and Industry (Units: 3)
Prerequisite: Restricted to upper division DES majors or consent of instructor.

Directly supervised special topic design study taking various forms including teaching assistantship, group project, etc. Topic to be specified in Class Schedule. May be repeated when topics vary.

DES 505 Senior Design Project (Units: 3)
Prerequisites: Restricted to senior DES majors; all DES core requirements.

Culminating DES problem-solving experience. Initiating an industrial research and development project; conducting all phases of the design development, from initial research, testing and prototyping, along with feasibility analysis and presentation. (Plus-minus letter grade only) [CSL may be available]

DES 510 Product Design 3 (Units: 3)
Prerequisites: Restricted to upper division, graduate, or second BA standing in DES; DES 300, DES 310, DES 321, DES 410, DES 420; and/or consent of instructor.

Integration of design skills established in introductory courses and designing for human needs. (Plus-minus letter grade only)

DES 521 Technical Drawing 3: Advanced Modeling and Rendering (Units: 3)
Prerequisites: Restricted to DES major; DES 321 and DES 421; or consent of instructor.

Advanced techniques in solid and surface modeling and rendering, using computer aided design software and rendering programs to create accurate and visually compelling 3-D models; rapid prototyping component. (Plus-minus letter grading only)

DES 523 Information Design I: Data Visualization (Units: 3)
Prerequisites: Restricted to upper division DES majors or minors; DES 323, DES 356, DES 370, and DES 300, DES 322, DES 325, DES 327; or consent of instructor.

Introduction to the field of information design focusing on data visualization problems for digital media, print, and environmental communication. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 524 Information Design 2: Exhibit Design (Units: 3)
Prerequisites: Restricted to upper division DES majors or minors; DES 300, DES 305, DES 322, DES 323, DES 356, DES 370, and DES 310 or DES 325 or DES 327 with a grade of C or better; or consent of instructor.

Development of multimedia materials for presentations and exhibits. Methods of communicating diverse subject matter through various media, three dimensional devices, and representative models. Laboratory.

DES 525 Graphic Design 3: Advanced (Units: 3)
Prerequisites: Restricted to DES majors; DES 425 with a grade of C or better; or consent of instructor.

Application of design principles in the solution of complex design projects. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 527 Digital Media 3 (Units: 3)
Prerequisites: Restricted to DES majors; DES 327 and DES 427 with grades of C or better; or consent of instructor

Focused experimentation and production in topics such as motion graphics, digital composting, and interaction design. Laboratory. (Plus-minus letter grade only)
DES 532 Applied Digital Electronics (Units: 3)
Prerequisites: Restricted to DES majors or minors; DES 332 or consent of instructor

Study of basic Transistor-Transistor-Logic (TTL) gates, combinational logic systems, counters, registers, encoders, decoders, Analog/Digital (A/D), D/A, and the tools/techniques used for analysis and application of digital circuits. Laboratory. Extra fee required. (Plus-minus letter grade only)

DES 560 Prototyping Smart Devices (Units: 3)
Prerequisites: Restricted to upper division DES majors or minors; PHYS 101, DES 310, DES 321, DES 360.

Computer programming and electronic hardware design as applicable to product design practice. Use of microcontrollers, sensors, digital I/O devices and various programming environments. Techniques of prototyping interactive electronic "smart" products for demonstration and evaluation. Extra fee required. (Plus-minus letter grade only)

DES 570 Professional Practices for Designers (Units: 3)
Prerequisite: Restricted to upper division DES majors or minors or consent of instructor.

Professional standards and practices of design. Investigation of design and related roles in industry, employment opportunities, professional associations, workplace ethics, interview skills, development of an online portfolio and supporting documentation. (Plus-minus letter grade only)

DES 575 Workshop (Units: 3)
Prerequisites: Restricted to upper division DES majors or minors; completion of DES 323, DES 356, and DES 370.

Supervised study/activities taking various forms including teaching assistantship, independent study, group project, etc. Topic to be specified in Class Schedule. May be repeated when topics vary. Laboratory. Extra fee may be required. [CSL may be available]

DES 576 Practical Experience: Internship (Units: 3)
Prerequisites: Restricted to upper division DES majors; completion of DES 323, DES 356, and DES 370.

In-service experience in a special field. Directed experience in teaching and/or industry. May be repeated for a total of 9 units. (CR/NC grading only) [CSL may be available]

DES 627 Advanced Projects in Visual Communication Design (Units: 3)
Prerequisite: Restricted to upper division DES majors or consent of instructor.

Development of student-driven project in advanced areas of digital and/or print media. Topics may include programming in design, physical computing, mobile media, corporate identity, information design. Extra fee required. May be repeated for a total of 6 units. (Plus-minus letter grade only) [CSL may be available]

DES 628 Design Gallery: Exhibitions and Communications (Units: 3)
Prerequisites: Restricted to upper division DES majors; DES 322, DES 356 with a grade of C or better; or consent of instructor.

Theory and production of exhibitions, symposia, and publications for the Design Gallery, including planning, preparation, annotation, and critique. May be repeated for a total of 6 units. (Plus-minus letter grade only)

DES 700 Seminar in Design Research (Units: 3)
Prerequisite: Graduate Essay Test must be taken within 6 months of starting graduate program.

Seminar in research methodology and introduction to the graduate program. Must be completed in first semester of enrollment. (Plus-minus letter grade only)

DES 701 Seminar: Trends and Issues (Units: 3)
Prerequisite: Graduate standing in Consumer and Family Studies or Design and Industry.

Trends and issues in discipline-specific fields affecting individuals, families, and communities. Review of research; and application of findings to problems. (This course is offered as CFS 700 and DES 701. Students may not repeat the course under an alternate prefix.)

DES 724 Graduate Research Methods and Scholarly Writing for Creative Disciplines (Units: 3)
Prerequisite: DES 700 with a passing grade or consent of instructor.

Overview and practicum of graduate level research methods and scholarly writing forms, such as literature review, methods, abstracts, chapter outlines, in preparation for graduate creative work and thesis projects. Specific methods, techniques, and strategies for students in creative disciplines. (Plus-minus AB/NC)

DES 750 Seminar in Industrial Design Education (Units: 3)
Prerequisite: DES 700 or consent of instructor.

Principles and practices for teaching industrial design curriculum including planning of curriculum, design of content, and creation of learning tools with consideration for experiential learning methods. (Plus-minus letter grade only)

DES 755 Seminar in Design Management (Units: 3)
Prerequisite: DES 700 or consent of instructor.

Students create a production using their project management skills throughout the experience. (Plus-minus letter grade only)

DES 800 Seminar in Design Topics (Units: 3)
Prerequisite: DES 700 or equivalent.

Design theory and practice. Special techniques in individual and group approaches to problem solving. (Plus-minus letter grade only)

DES 805 Seminar in Design Methodology (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Research driven design projects using advanced methodologies related to user centered design, market/consumer research, human factors, product development, etc. Topic to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus letter grade only)

DES 852 Directed Experience in Design and Industry (Units: 3)
Prerequisite: Consent of graduate major adviser, supervising faculty member, and department chair.

Specified activities related to studies in industrial and technology education, design, or industrial technology. May be repeated for a total of 6 units. [CSL may be available]
DES 894 Creative Work Project (Units: 3)
Prerequisites: Consent of instructor and departmental graduate committee; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

DES 898 Master's Thesis (Units: 3)
Prerequisites: Consent of instructor and major adviser and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

DES 899 Independent Study (Units: 3)
Prerequisite: Enrollment by petition approved by the supervising instructor, the major adviser, and the department chair.

Special study of a particular problem in industry or industrial education conducted under the direction of a faculty member. May be repeated. [CSL may be available]
Dietetics and Food Management (DFM)

**DFM 253 Nutrition in Health and Disease (Units: 3)**
Prerequisite: One semester of chemistry, physiology, or consent of instructor. For students in health professions.

Nutrient needs for maintaining positive nutritional status. Diets to fit specific health needs. Primary nutritional care. Use of self-paced learning materials and computer assisted instruction.

**DFM 350 Advanced Nutrition I (Units: 3)**
Prerequisites: Restricted to Dietetics major; BIOL 212, BIOL 213, CHEM 349, MATH 124 with grades of C- or better.

Research in human nutrient requirements and metabolic interrelationships of proteins, carbohydrates, and lipids found in foods. (Plus-minus letter grade only)

**DFM 350GW Foodservice Systems Management - GWAR (Units: 3)**
Prerequisites: Restricted to upper division Dietetics or Family and Consumer Sciences major; ENG 214 or equivalent, DFM 253 or CFS 355, with grades of C- or better.

Organization and management of foodservice systems. Areas within foodservice systems: production and service management, sanitation and safety, cost control, and human resources. Daily business operation procedures. (ABC/NC grading only)

**Course Attributes:**
- Graduation Writing Assessment

**DFM 357 Experimental Food Study (Units: 3)**
Prerequisites: Restricted to graduating senior or a Second Bacc in Dietetics; CHEM 130, CFS 352, MATH 124, with grades of C- or better.

Food components and their interactions. Chemical and physical principles applied to foods. Recipe testing and formulation. Developments of experimental attitudes and techniques applicable to food science. Classwork, 2 units; laboratory, 1 unit. Extra fee required.

**DFM 450 Advanced Nutrition II (Units: 3)**
Prerequisites: Restricted to graduating senior or a Second Bacc in Dietetics; BIOL 212, BIOL 213, CHEM 349, DFM 350, MATH 124, with grades of C- or better.

Research in human nutrient requirements and metabolic interrelationships of vitamins, minerals, water and non-nutritive substances found in foods.

**DFM 451 Community Nutrition and Assessment (Units: 3)**
Prerequisites: Restricted to graduating senior or a Second Bacc in Dietetics; DFM 350 with a grade of C- or better.

**DFM 458 Management of Quantity Food Purchasing and Production (Units: 3)**
Prerequisites: Restricted to Dietetics or Family and Consumer Sciences major; CFS 352 with a grade of C- or better.

Implementation of purchasing, specifications, and procedures related to quantity food production, management, menu planning, standardized recipes, merchandising, cost, and quality control. Classwork, 2 units; laboratory, 1 unit.

**DFM 484 Medical Nutrition Therapy I (Units: 3)**
Prerequisites: Restricted to graduating senior or a Second Bacc in Dietetics; DFM 253, CHEM 349, BIOL 212, BIOL 213, with grades of C- or better.

**DFM 485 Medical Nutrition Therapy II (Units: 3)**
Prerequisites: Restricted to graduating senior or a Second Bacc in Dietetics; BIOL 212, BIOL 213, CHEM 349, DFM 253, DFM 484, DFM 450 (may be taken concurrently), with grades of C- or better.

**DFM 655 Nutrition Education and Communication (Units: 3)**
Prerequisites: Restricted to graduating senior or a Second Bacc in Dietetics; DFM 353GW.

Objectives, methods, resources, and evaluation techniques for educational programs in commercial/community settings in dietetics. Knowledge, attitudes, and skills as a dietetic educator. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

**DFM 751 Seminar in Nutritional Assessment Across the Lifespan (Units: 3)**
Prerequisite: Baccalaureate degree and admission to the dietetics certificate program.

Nutritional assessment of patients and clients in the community. Assessment of children, adults and the older adult. (Plus-minus letter grade, RP)

**DFM 755 Seminar in Human Nutrition and Metabolism (Units: 3)**
Prerequisite: Baccalaureate degree and admission to the dietetics certificate program.

Nutrition and the metabolism of nutrients in varying stages of wellness. Recent research related to energy nutrients, vitamins, minerals, and non-nutritive substances. (Plus-minus letter grade only.)

**DFM 758 Seminar in Foodservice and Nutrition Program Management (Units: 3)**
Prerequisite: Admission to the dietetics certificate program.

Management of quantity foodservice operations and nutrition programs in the community. Financial management, management principles, operations, marketing, menu development, program development and evaluation, and quality improvement. (Plus-minus letter grade, RP)
DFM 785 Seminar in Medical Nutrition Therapy (Units: 3)
Prerequisites: Baccalaureate degree and admission to the dietetics certificate program.
Medical nutrition therapy for patients and clients in acute care settings. Practical aspects of nutritional assessment and care planning. (Plus-minus letter grade, RP)

DFM 881 Internship in Dietetics (Units: 6)
Prerequisites: Baccalaureate degree and admission to the dietetics certificate program.
Field experience in dietetics in private/public for-profit or non-profit organizations which enable acquisition of knowledge and performance competencies required by The American Dietetic Association. May be repeated for a total of 12 units. (CR/NC grading only)
Early Start English (ESE)

ESE 99 Introduction to College Reading and Writing (Unit: 1)
Introduction to reading/writing practices common to the University.
Meets the CSU requirement for Early Start in English. Offered both online and on-campus. Units and grades earned do not count towards graduation requirements. (CR/NC/RP grading only)
Course Attributes:

• Pre-Collegiate

ESE 99SB Introduction to College Reading and Writing (Units: 3)
Introduction to reading/writing practices common to the University.
Meets the CSU requirement for Early Start in English. Units and grades earned do not count towards graduation requirements. (CR/NC/RP grading only)
Course Attributes:

• Pre-Collegiate
Early Start Math (ESM)

ESM 40 Early Start Program in Mathematics (Unit: 1)
Prerequisite: First-time freshman with an ELM score below 50.

Self-paced online Early Start math course. Prepares students for key topics in ELM as well as elementary and intermediate algebra. Does not count toward the baccalaureate degree. (CR/NC/RP grading only) (Note: This course does NOT allow students to "move-up" unless they retake the ELM test. Students who are interested in "moving-up" should enroll in ESM 60 (Algebra I) or ESM 70 (Algebra II) at SF State, or their equivalents at other CSU campuses, whenever possible; neither ESM 60 nor ESM 70 is online.)

Course Attributes:

• Pre-Collegiate

ESM 60 Entry Level Math I (Units: 3)
Prerequisite: First-time freshman requiring Early Start with ELM score of 40 or below.

Equivalent to first-year high school algebra. Fundamental operations on numbers, polynomials, and rational expressions; factoring, linear equations, and inequalities. Units and grades earned do not count toward graduation requirements.

Course Attributes:

• Pre-Collegiate

ESM 70 Entry Level Math II (Units: 3)
Prerequisite: First-time freshman requiring Early Start with ELM score of 42-48.

Equivalent to second-year high school algebra. Exponents, radicals, logarithms, systems of linear equations, complex numbers, quadratic equations. Units and grades earned do not count towards graduation requirements.

Course Attributes:

• Pre-Collegiate
Earth Sciences (ERTH)

ERTH 110 Our Dynamic Earth (Units: 3)
Prerequisite: Not open to students who have completed ERTH 112 [formerly GEOL 104].
Investigating the geologic processes that are continually shaping our planet, emphasizing the connections between humans and nature and the process of scientific discovery. Designed for non-science majors. [Formerly GEOL 100]
Course Attributes:
• B1: Physical Science
• Environmental Sustainability

ERTH 111 Our Dynamic Earth Lab (Unit: 1)
Prerequisite: ERTH 110 [formerly GEOL 100] (may be taken concurrently), not open to students who have completed ERTH 112 [formerly GEOL 104].
Investigating the geologic processes that are continually shaping our planet, emphasizing the connections between humans and nature and the process of scientific discovery. Hands-on activities to explore Earth processes. Extra fee required. [Formerly GEOL 101]
Course Attributes:
• B3: Lab Science

ERTH 112 Our Dynamic Earth Lecture and Lab (Units: 4)
Prerequisite: Not open to students who have completed ERTH 110 [formerly GEOL 100] and/or ERTH 111 [formerly GEOL 101].
Investigating the geologic processes that are continually shaping our planet, emphasizing the connections between humans and nature and the process of scientific discovery. Designed for non-science majors. Classwork, 3 units; laboratory and fieldwork, 1 unit. Extra fee required. [Formerly GEOL 104]
Course Attributes:
• B1: Physical Science
• B3: Lab Science
• Environmental Sustainability

ERTH 115 History of Life (Units: 3)
Origin and early development of life; evolution of life through geologic time; extinction and replacement of organisms. [Formerly GEOL 105]
Course Attributes:
• B2: Life Science
• Environmental Sustainability

ERTH 160 Our Dynamic Weather (Units: 3)
Prerequisite: Not open to students who have completed ERTH 162 [formerly METR 104].
The nature of weather, including winds, storms, clouds, and precipitation. How and why weather changes, emphasizing the process of scientific discovery. Weather map interpretation and weather forecasting. Designed for non-science majors. [Formerly METR 100]
Course Attributes:
• B1: Physical Science
• Global Perspectives

ERTH 161 Our Dynamic Weather Lab (Unit: 1)
Prerequisite: ERTH 160 [formerly METR 100] (may be taken concurrently), not open to students who have completed ERTH 162 [formerly METR 104].
Weather observations and instruments, weather map and satellite image analysis and interpretation, and weather forecasting, emphasizing the process of scientific discovery. Extra fee required. [Formerly METR 101]

ERTH 162 Our Dynamic Weather Lecture and Lab (Units: 3)
Prerequisite: Not open to students who have completed ERTH 160 [formerly METR 100] and/or ERTH 161 [formerly METR 101].
The nature of weather, including winds, storms, clouds, and precipitation. How and why weather changes, emphasizing the process of scientific discovery. Weather map interpretation and weather forecasting. Designed for non-science major. Classwork, 2 units; laboratory, 1 unit. Extra fee required. [Formerly METR 104]
Course Attributes:
• B1: Physical Science
• B3: Lab Science

ERTH 170 Our Dynamic Ocean (Units: 3)
Prerequisite: Not open to students who have completed ERTH 172 [formerly OCN 104].
Investigating components and operating principles of the ocean system, including ocean basin features, currents, nutrient cycling, and climatic influences, emphasizing the process of scientific discovery. Designed for non-science majors. Classwork, 3 units. [Formerly OCN 100]
Course Attributes:
• B1: Physical Science
• Environmental Sustainability

ERTH 171 Our Dynamic Ocean Lab (Unit: 1)
Prerequisite: ERTH 170 [formerly OCN 100] (may be taken concurrently); not open to students who have completed ERTH 172 [formerly OCN 104].
Investigating ocean processes that play a dominant role in regulating our climate and environment. Emphasizes nature human connections and the process of scientific discovery through hands-on activities. Extra fee required. [Formerly OCN 101]
Course Attributes:
• B3: Lab Science

ERTH 172 Our Dynamic Ocean Lecture and Lab (Units: 4)
Prerequisite: Not open to students who have completed ERTH 170 [formerly OCN 100] and/or ERTH 171 [formerly OCN 101].
Investigating components and operating principles of the ocean system, including ocean basin features, currents, nutrient cycling, and climatic influences, emphasizing the process of scientific discovery. Designed for non-science majors. Classwork, 3 units; laboratory and fieldwork, 1 unit. Extra fee required. [Formerly OCN 104]
Course Attributes:
• B1: Physical Science
• B3: Lab Science
• Environmental Sustainability
ERTH 205 Techniques in Earth Sciences (Units: 2)
Prerequisite: An introductory course in one of the earth sciences (geology, meteorology, oceanography) or ERTH 400 [formerly GEOL 401].
Introduction to field and laboratory techniques in the earth sciences, including scientific writing and library research. Laboratory and fieldwork, 2 units. (Plus-Minus letter grading only)

ERTH 210 Physical Geology (Units: 4)
Composition, structure, and evolution of the earth; earth materials; tectonic and hydrologic systems; landform development; relation of geologic systems to the human environment. Classwork, 3 units; laboratory and fieldwork, 1 unit. Extra fee required. Plus-minus letter grade only. [Formerly GEOL 110]
Course Attributes:
- B1: Physical Science
- B3: Lab Science
- Environmental Sustainability

ERTH 230 Environmental Geology (Units: 3)
Human interaction with the geologic environment. Social and political implications, resource and energy exploitation, land use planning, waste disposal, and human modification of nature. Classwork, 2 units; laboratory and fieldwork, 1 unit. Designed for non-science majors. [Formerly GEOL 270]
Course Attributes:
- B1: Physical Science
- B3: Lab Science
- Environmental Sustainability

ERTH 260 Physical Processes in the Atmosphere (Units: 4)
Prerequisites: MATH 199 or equivalent or satisfactory score on calculus pretest.
Observed behaviors of the atmosphere and the processes and principles that explain and predict them. Algebra-based problem solving. Classwork, 3 units; laboratory, 1 unit. Extra fee required. [Formerly METR 201]
Course Attributes:
- B1: Physical Science
- B3: Lab Science
- Environmental Sustainability
- Global Perspectives

ERTH 270 Physical Processes in the Ocean (Units: 3)
Prerequisite: MATH 199 or equivalent.
Observed behaviors of the ocean and the underlying processes and principles that explain and predict them. Algebra-based problem solving. Classwork, 2 units; laboratory, 1 unit.

ERTH 310 The Violent Earth (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
The catastrophic geological agents that modify the environment. Significance of processes such as earthquakes and volcanic eruptions in the development of our planet. Concept of time in evaluating the magnitude of these violent events. Designed for non-science majors. [Formerly GEOL 302]
Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability

ERTH 320 Geology of California (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Geology of California, with emphasis on the San Francisco Bay Area. Local field trips and extended excursions to areas of geologic interest. Classwork, 2 units; laboratory and fieldwork, 1 unit. Extra fee required. Designed for non-science majors. [Formerly GEOL 356]

ERTH 325 Geology of the National Parks (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Applying geologic principles to natural environments of North America, focusing on geologic history and landscape evolution of the National Parks. Uniqueness of natural regions and questions of preservation. Classwork, 2 units; laboratory and fieldwork, 1 unit. Designed for non-science majors. (Plus-minus letter grade only) [Formerly GEOL 350]
Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability

ERTH 330 California Water (Units: 3)
Prerequisite: Upper division standing or consent of instructor, designed for non-science majors.
Human interaction with the hydrologic environment; science and politics of water issues facing California; hydrologic cycle, floods, droughts, groundwater, contamination; water needs of cities, farms, ecosystems; effects of climate change on water resources. (Plus-minus letter grade only) [Formerly GEOL 370]
Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability

ERTH 335 Global Warming (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Scientific understanding of global warming. Greenhouse gases, records of past climate change, warming of the recent past, human impact on climate, projections of future climate and the impact on society. Critical evaluation of popular media coverage of climate change. [Formerly GEOL 375]
Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability
- Global Perspectives
ERTH 360 California Weather Events (Units: 3)  
Prerequisite: Upper division standing or consent of instructor.  
Investigation of the basic meteorology of normal and abnormal weather events in California. [Formerly METR 356]  
Course Attributes:  
• UD-B: Physical Life Science  
• Environmental Sustainability  
• Global Perspectives  

ERTH 365 Extreme Weather in a Warming World (Units: 3)  
Prerequisite: Upper division standing or consent of instructor.  
Atmosphere and ocean as agents of catastrophic change. Fluctuations in atmospheric and oceanic circulations and their environmental impacts. Implications of human modification of the ocean-atmosphere system. Weather variability as evidenced by recent floods, droughts, and severe weather. Designed for non-science majors. [Formerly METR 302]  
Course Attributes:  
• UD-B: Physical Life Science  
• Environmental Sustainability  
• Global Perspectives  

ERTH 400 Earth Systems I (Units: 3)  
Prerequisites: At least 9 units of coursework in geoscience, earth sciences, chemistry, or physics.  
Exploring the components of Earth’s systems: atmosphere, hydrosphere, lithosphere, biosphere, and anthroposphere, with focus on the physical and biogeochemical processes through which the components interact. Classwork, 2 units; laboratory, 1 unit. [Formerly GEOL 401]  

ERTH 410 Volcanology (Units: 3)  
Prerequisite: ERTH 210 [formerly GEOL 110] or consent of instructor.  
Volcanic processes, landforms, structures, and rocks; origin and differentiation of magma and relation to place boundaries; case studies of volcanic events on earth and other planets; applications to archaeology and other disciplines. Classwork, 2 units; laboratory and fieldwork, 1 unit. Extra fee required. [Formerly GEOL 410]  

ERTH 420 Mineralogy and Petrology I (Units: 4)  
Prerequisites: ERTH 210 [formerly GEOL 110], CHEM 115, or consent of instructor.  
Minerals: physical properties, crystal chemistry, reactions and stability, and identification of common types, including optical mineralogy. Classwork, 2 units; laboratory and fieldwork, 2 units. [Formerly GEOL 420]  

ERTH 425 Geomorphology (Units: 4)  
Prerequisites for ERTH 825: Graduate or senior standing; and all of the prerequisites listed for ERTH 425.  
Prerequisites for ERTH 425: ERTH 210 [formerly GEOL 110], ERTH 505 [formerly GEOL 125] or MATH 226, PHYS 111 and PHYS 112 or PHYS 220 and PHYS 222, or consent of instructor.  
Landscapes, their geologic evolution, and the processes which create and modify them. Classwork, 3 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 450/GEOL 750]  
(ERTH 825/ERTH 425 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

ERTH 430 Fluid Dynamics in Earth Systems (Units: 3)  
Prerequisites: MATH 227 and PHYS 111 or (recommended) PHYS 220, or consent of instructor.  
Introduction to the basic principles of fluid dynamics as applied to the ocean and atmosphere; and related fields in earth sciences, such as surface water flow and groundwater dynamics. Classwork, 2 units; laboratory, 1 unit. [Formerly OCN 320/METR 320]  

ERTH 434 Coastal Processes (Units: 3)  
Prerequisites for ERTH 834: Graduate or senior standing and all of the prerequisites listed for ERTH 434.  
Prerequisites for ERTH 434: MATH 226, PHYS 111 or PHYS 220, or consent of instructor.  
Dynamics of the nearshore ocean and interactions with the coast and beaches. Topics include tides, coastal waves and currents, sediment transport and beaches, inner shelf processes, and estuarine dynamics. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly OCN 410/OCN 710]  
(ERTH 834/ERTH 434 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

ERTH 436 Atmosphere-Ocean Interactions (Units: 3)  
Prerequisite: ERTH 260 [formerly METR 201] and ERTH 465 [formerly METR 403] or ERTH 470 [formerly OCN 420] or ERTH 430 [formerly OCN/METR 320].  
Atmospheric behavior in the marine environment. Fluxes of energy, momentum, and material between the atmosphere and sea surface. Atmospheric/ocean feedbacks. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly METR/OCN 450]  

ERTH 442 Surface Water Hydrology (Units: 4)  
Prerequisites: MATH 226 and ERTH 210 or ERTH 505 are recommended; or consent of instructor.  
Introduction to surface water hydrology; exploration of hydrologic processes; how precipitation and snowmelt become streamflow, evapotranspiration, and groundwater; watershed hydrology, streamflow processes, and water quality. (Plus-minus letter grade only) [Formerly GEOL 473]  
(This course is offered as ERTH 442 or GEOG 342. May not be repeated under alternate prefix.)  

ERTH 444 Hydrogeology (Units: 4)  
Prerequisites for ERTH 744: Graduate or senior standing; ERTH 210 [formerly GEOL 110], ERTH 505 [formerly GEOL 125] or MATH 226, PHYS 111/PHYS 112 or PHYS 220/PHYS 222 or upper division engineering course; or consent of instructor.  
Prerequisites for ERTH 444: ERTH 210 [formerly GEOL 110], ERTH 505 [formerly GEOL 125] or MATH 226, PHYS 111/PHYS 112 or PHYS 220/PHYS 222, or consent of instructor.  
Physical and geologic factors controlling the occurrence and dynamics of groundwater. Chemical parameters and distribution. Aquifer testing and analysis. Classwork, 3 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 475/GEOL 775]  
(ERTH 744/ERTH 444 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
ERTH 446 Quaternary Geology and Soils (Units: 3)
Prerequisites for ERTH 846: Graduate standing; ERTH 210 [formerly GEOL 110]; or consent of instructor.
Prerequisites for ERTH 446: Senior standing; ERTH 210 [formerly GEOL 110]; or consent of instructor.

Pleistocene and Holocene environments, and their geomorphic and stratigraphic record. Emphasis on landform evolution, soil genesis, soil genesis, climatic history, sea level changes, neotectonics, and environmental impact. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 454/GEOL 754]

(ERTH 846/ERTH 446 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 450 Remote Sensing of the Atmosphere and Ocean (Units: 3)
Prerequisites: MATH 227, ERTH 260 [formerly METR 201] or ERTH 270 [formerly OCN 200] or ERTH 460 [formerly METR 410], PHYS 230 recommended, senior or graduate student for graduate level (850).

Physical principles and applications of satellite and radar remote sensing of the atmosphere and ocean. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only) [Formerly METR 415/METR 715.]

(ERTH 850/ERTH 450 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 454 Engineering Geology (Units: 3)
Prerequisite: ERTH 210 [formerly GEOL 110] or an upper division engineering course or consent of instructor.

Mechanical properties of earth materials and application of geologic principles to engineering problems. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 474]

ERTH 456 Use of Computers in the Earth Sciences (Units: 2)
Prerequisite: A college course in one of the earth sciences (geology, meteorology, oceanography) or ERTH 400 [formerly GEOL 401].

Use of computers to access, display, and analyze earth science data. [Formerly METR/OCN 460]

ERTH 460 Atmospheric Thermodynamics and Cloud Physics (Units: 4)
Prerequisites: ERTH 160 [formerly METR 100] or ERTH 250 [formerly METR 201], ERTH 456 [formerly METR 460/OCN 460] (may be taken concurrently), PHYS 220.

Composition, structure, and thermodynamics of the atmosphere; cloud and precipitation formation processes. Classwork, 3 units; laboratory, 1 unit. Extra fee required. [Formerly METR 410]

ERTH 461 Weather Chart Analysis and Discussion (Unit: 1)
Prerequisite for ERTH 861: Graduate standing or consent of instructor.
Prerequisite for ERTH 461: ERTH 260 [formerly METR 201] (may be taken concurrently).

Weather chart analysis techniques; weather briefing and discussion. Laboratory. [Formerly METR 301/METR 801]

(ERTH 861/ERTH 461 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 465 Weather Analysis and Forecasting I (Units: 4)
Prerequisites: ERTH 260 [formerly METR 201], ERTH 461 [formerly METR 301], MATH 227, PHYS 111 or (recommended) PHYS 220.

Weather analysis and forecasting as an application of the principles of atmospheric physics and dynamics. Weather satellite analysis techniques. Operational forecasting. Classwork, 2 units; laboratory, 2 units. (Plus/Minus Letter grade only) [Formerly METR 439GW]

ERTH 470 Physical Oceanography (Units: 4)
Prerequisites for ERTH 870: Graduate or senior standing and all of the prerequisites listed for ERTH 470.
Prerequisites for ERTH 470: ERTH 170 [formerly OCN 100] or ERTH 172 [formerly OCN 104] or ERTH 270 [formerly OCN 200], PHYS 220; or consent of instructor.

The dynamic character of the ocean environment with emphasis on the properties of sea water, surface heat transfer, Coriolis force, surface and deep ocean circulation, deep and shallow wave phenomena, and underwater sound and optics. Designed for both the physical scientist and marine biologist. Classwork, 3 units; laboratory, 1 unit. [Formerly OCN 420/OCN 720]

(ERTH 870/ERTH 470 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 490 Public Weather Forecasting (Units: 1-3)
Prerequisites: ERTH 160 [formerly METR 100] or ERTH 162 [formerly METR 104] or ERTH 260 [formerly METR 201], and declared Earth Sciences major or participant in the Broadcast Meteorology Certificate program.

Weather forecasting tailored for public use. Forecasting and nowcasting in the media. Weather briefing duties of intern forecaster. May be repeated for a total of 3 units. [Formerly METR 698]

ERTH 500 Earth Systems II (Units: 3)
Prerequisite: ERTH 400.

Exploration of how physical and biochemical processes in Earth's systems led to the origin and evolution of the continents, oceans, atmosphere, and life through geologic time. Classwork, 2 units; laboratory and fieldwork, 1 unit.

ERTH 505 Quantitative Methods in Earth Sciences (Units: 3)
Prerequisites: ERTH 400, MATH 199, or sufficient score on calculus pretest.
Quantitative reasoning and techniques, including statistics, applied to problems in earth science. Classwork, 2 units; laboratory and fieldwork, 1 unit. Weekend field trip required. (Plus-minus letter grade only) [Formerly GEOL 125]

ERTH 510 Structural Geology (Units: 4)
Prerequisites: ERTH 500, ERTH 420 [formerly GEOL 420], and any one of the following: MATH 199, satisfactory score on online precalculus test, ERTH 505 [formerly GEOL 125].

Mechanical aspects of rock deformation. Description, classification, and genesis of folds, faults, and other structures of the earth's crust. Evolution of regional structures. Classwork, 2 units; laboratory and fieldwork, 2 units. [Formerly GEOL 430]

ERTH 515 Sedimentology and Stratigraphy (Units: 4)
Prerequisites: ERTH 205, ERTH 420 [formerly GEOL 420], ERTH 500.
Sedimentary particles and processes, depositional environments, principles of stratigraphic correlation, and basin analysis. Classwork, 2 units; laboratory and fieldwork, 2 units. (Plus/minus letter grade only) [Formerly GEOL 460GW]
ERTH 520 Mineralogy and Petrology II (Units: 4)
Prerequisite for ERTH 820: Graduate standing or consent of instructor.
Prerequisite for ERTH 520: ERTH 420 [formerly GEOL 420] or consent of instructor.
Advanced mineralogy and igneous and metamorphic petrology with a focus on physical and chemical processes in the earth. Classwork, 2 units; laboratory and fieldwork, 2 units. Extra fee required. [Formerly GEOL 426/GEOL 726]
(ERTH 820/ERTH 520 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 522 Geochemistry (Units: 4)
Prerequisites: ERTH 420 [formerly GEOL 420], MATH 226 or ERTH 505 [formerly GEOL 125], or consent of instructor.
Chemistry of the earth including cosmochemistry, crystal chemistry, thermodynamics, aqueous geochemistry, stable and radiogenic isotope geochemistry, major and trace element geochemistry, and analytical techniques. Classwork, 3 units; laboratory, 1 unit. [Formerly GEOL 480/GEOL 780]
(ERTH 822/ERTH 522 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 524 Marine Geology (Units: 3)
Prerequisite: ERTH 110 [formerly GEOL 100] or ERTH 210 [formerly GEOL 110] or ERTH 112 [formerly GEOL 104], or consent of instructor.
Intended for majors only. Origin, age, and geological history of the ocean basins; source and distribution of marine deposits; geological evidence concerning continental drift, sea floor spreading, and plate tectonics; current research in marine geology. [Formerly GEOL 467]

ERTH 526 Ore Deposits (Units: 4)
Prerequisite for ERTH 826: Graduate standing; ERTH 420 [formerly GEOL 420]; or consent of instructor.
Prerequisite for ERTH 526: ERTH 420 [formerly GEOL 420] or consent of instructor.
The origin of ore deposits emphasizing the mineralogic, petrologic, and plate tectonic environments of major deposits from around the world; chemical and physical controls on ore transport and deposition; techniques of mineral exploration and mining. Classwork, 3 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 485/GEOL 785]
(ERTH 826/ERTH 526 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 535 Planetary Climate Change (Units: 4)
Prerequisites: At least 9 units of physical sciences coursework.
Interdisciplinary investigation of physical processes, principles, and tools contributing to our understanding of climate and climate change. Classwork, 3 units; laboratory, 1 unit. [Formerly GEOL/METR/OCN 405]

ERTH 544 Groundwater Contamination (Units: 3)
Prerequisites for ERTH 844: Graduate or senior standing; ERTH 744 [formerly GEOL 775].
Prerequisites for ERTH 544: ERTH 444 [formerly GEOL 475] or consent of instructor; CHEM 115 recommended.
Application of hydrogeologic principles to solution of groundwater contamination problems. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 476/GEOL 776]
(ERTH 844/ERTH 544 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 556 Computer Programming with Applications in the Earth Sciences (Units: 3)
Prerequisites: An introductory course in one of the earth sciences (geology, meteorology, oceanography) or ERTH 400 [formerly GEOL 401], ERTH 456 [formerly METR/OCN 460] recommended.
Principles of computer programming, illustrated with applications in the earth sciences. [Formerly METR/OCN 465]

ERTH 558 Consulting Meteorology and Oceanography (Units: 2)
Prerequisites: Senior or graduate standing in meteorology, oceanography, geology, or geography, consent of instructor.
Forensic meteorology and climatology, climatological and meteorological site assessments, site specific operational forecasting, AMS program for professional certification as consulting meteorologist, the meteorologist as expert witness, depositions and court testimony. [Formerly METR 590/METR 790]
(ERTH 858/ERTH 558 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 560 Atmospheric Dynamics I (Units: 4)
Prerequisites: PHYS 220, MATH 228, ERTH 460 [formerly METR 410], or consent of instructor. MATH 245, ERTH 556 [formerly METR 465] recommended.
Basic dynamical equations governing atmospheric motions, particularly on large scales. Classwork, 3 units; laboratory, 1 unit. Extra fee required. [Formerly METR 420]

ERTH 565 Weather Analysis and Forecasting II (Units: 3)
Prerequisites for ERTH 865: Graduate standing and all of the prerequisites listed for ERTH 565.
Prerequisites for ERTH 565: ERTH 430 [formerly OCN 320/METR 320], ERTH 465 [formerly METR 430GW], or consent of instructor.
Quasi-geostrophic theory in the understanding of mid-latitude synoptic systems. Evolution and motion of mid/upper tropospheric waves. Fronts and jet streaks. Mesoscale and severe weather meteorology. Classwork, 2 units; laboratory, 1 unit. [Formerly METR 500/METR 800]
(ERTH 865/ERTH 565 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 600GW Earth's Climate History - GWAR (Units: 3)
Prerequisites: ENG 214 with a grade of C- or better, CHEM 115, ERTH 500 (may be taken concurrently).
Examination of Earth's climate history over the last 50 million years; analysis of different mechanisms of climate forcing including tectonic changes, greenhouse gas forcing on long and short time scales, orbital forcing, and internal climate feedback. Classwork, 2 units; laboratory, 1 unit. (ABC/NC grading only) [Formerly GEOL 458GW]
Course Attributes:

- Graduation Writing Assessment
ERTH 610 Neotectonics (Units: 3)
Prerequisites for ERTH 810: Graduate or senior standing; ERTH 510 (formerly GEOL 430); or consent of instructor.
Prerequisites for ERTH 610: Senior standing; ERTH 510 (formerly GEOL 430); or consent of instructor.

Principles of earthquake geology, plate tectonics, fault mechanics, basic seismology, geodesy, tectonic geomorphology, seismic hazard analysis, and case studies of large historical earthquakes. Classwork, 2 units; laboratory and fieldwork, 1 unit. (Plus-minus letter grade only) [Formerly GEOL 470/GEOL 770]
(ERTH 810/ERTH 610 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 620 Field Methods in Geology (Units: 2)
Prerequisites: ERTH 210 (formerly GEOL 110), ERTH 510 (formerly GEOL 420), ERTH 515 (formerly GEOL 460GW), satisfactory standing in the major, or consent of instructor.

Field methods: plotting features on topographic maps and aerial photographs, use of field instruments, mapping, and preparation of geologic reports. Laboratory and fieldwork. [Formerly GEOL 695]

ERTH 642 Watershed Assessment and Restoration (Units: 4)
Prerequisites: GEOG 101 or ERTH 210, GEOG 603, MATH 199 or sufficient score on calculus pretest.

Assessing and restoring watersheds and streams. Hydrologic and watershed processes; variables influencing runoff and erosion; hillslope and stream restoration techniques. Classwork, 3 units; fieldwork and GIS laboratory, 1 unit. [CSL may be available]
(This course is offered as GEOG 642 and ERTH 642. Students may not repeat the course under an alternate prefix.)

ERTH 643 Biogeomorphology of Sierra Nevada Streams and Meadows (Units: 2)
Prerequisite: GEOG 101 or ERTH 110.

Understanding the complex interactions of hydrologic and biogeomorphic systems on streams and meadows in the northern Sierra Nevada, and learning field methods for assessing stream function as they respond to long-term impacts related to glacial history and short-term human impacts of timber harvest, road construction, and grazing. Laboratory. (This course is offered as GEOG 643 and ERTH 643. Students may not repeat the course under an alternate prefix.)

ERTH 652 Geoscience Partners in K-12 Education (Units: 4)
Prerequisite: Completion of at least one upper division course in your major field of study.

Introduction to geoscience K-12 teaching and learning; examine understanding of geoscience, discuss science education literature, and analyze science lessons and student learning. Classwork, 2 units; fieldwork, 2 units. [Formerly GEOL/OCN/METR 652]

ERTH 660 Atmospheric Dynamics II (Units: 2)
Prerequisites: ERTH 560 (formerly METR 420), MATH 245, PHYS 240 recommended.

Development of the vorticity equation and the quasi-geostrophic approximation to the full dynamical equations governing atmospheric behavior. Classwork, 1 unit; laboratory, 1 unit. [Formerly METR 520]

ERTH 668 Analysis and Prediction of Severe Storms (Units: 3)
Prerequisites: Senior or graduate standing in meteorology, ERTH 465 (formerly METR 430GW), ERTH 660 (formerly METR 520); consent of instructor.

Large and local-scale controls on severe storms. Morphology of severe thunderstorms. Thunderstorm spectrum. Tornado storms. Severe storms forecasting and analysis techniques. [Formerly METR 535/METR 835]
(ERTH 868/ERTH 668 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 690 Earth Sciences Capstone Presentation (Unit: 1)
Prerequisite: Restricted to Earth Sciences seniors (BS/BA), ERTH 695 or ERTH 698 (may be taken concurrently).

Principles and best practices of presenting scientific information orally and by poster. Practice presenting senior project or senior thesis research. Presentation of senior project at a poster session or oral thesis defense open to the public. (Plus-minus letter grade only)

ERTH 693 Cooperative Education Program (Units: 6-12)
Prerequisites: ENG 114, COMM 150, consent of instructor. Intended for Earth Sciences majors.

Objectives are career development, occupational experience, and educational subsidy. Units do not count toward the degree. (CR/NC grading only) [Formerly GEOL 693]

ERTH 694 Cooperative Education in Earth Sciences (Units: 1-3)
Prerequisite: Intended for Earth Sciences majors.

Objectives are career development, occupational experience, and educational subsidy. Units do not count toward degree. [Formerly GEOL 694]

ERTH 695 Senior Project (Units: 1-3)
Prerequisites: Senior standing in Earth Sciences, 3.0 GPA in major course work, and consent of Earth Sciences faculty adviser.

Directed, original research on an Earth Sciences-related problem. [Formerly GEOL 697, METR 697, and OCN 697]

ERTH 697 Undergraduate Research (Units: 2)
Prerequisites: Senior standing, consent of instructor.

Research activities, including literature review, project design, data collection, and analysis. [Formerly GEOL 697]

ERTH 698 Senior Thesis (Units: 2)
Prerequisite: ERTH 697 (formerly GEOL 697) (may be taken concurrently).

Undergraduate research, to include a written report and oral presentation approved by the thesis committee. [Formerly GEOL 698]

ERTH 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor.

Independent study in the laboratory, field, or library under the direction of a faculty member. The student must present a written report of the work accomplished to the faculty. [Formerly GEOL/METR/OCN 699]

ERTH 700 Graduate Seminar in Geosciences (Units: 2)
Prerequisite: Graduate standing.

Introduction to the graduate program; discussion of interdisciplinary geoscience topics; format to include speakers and assigned readings. [Formerly GEOL/METR/OCN 700]
ERTH 701 Research Methods in Geosciences (Units: 3)
Prerequisite: ERTH 700 [formerly GEOL/METR/OCN 700] or consent of instructor.

Application of research methods: problem formulation, literature searches, proposal writing, scientific report writing, and oral presentation. Preparation of proposal for master's thesis. [Formerly GEOL/METR/OCN 701]

ERTH 702 Quantitative Methods in Geosciences (Units: 3)
Prerequisites: Courses in basic statistics, calculus, and computer applications, or consent of instructor.

Quantitative methods and computer techniques necessary for geoscience problem-solving. Classwork, 2 units; laboratory and fieldwork, 1 unit. (Plus-minus letter grade only) [Formerly GEOL/METR/OCN 702]

ERTH 730 Paleoclimate (Units: 2)
Prerequisite: Graduate standing or consent of instructor.

Reading and discussion of primary cutting edge literature on climate science. (Plus-minus letter grading only) [Formerly GEOL 794]

ERTH 735 Science of Anthropogenic Climate Change (Units: 3)
Prerequisite: ERTH 535 [formerly GEOL/METR/OCN 405] or GEOG 313 or consent of instructor.

Examination of the current scientific understanding of anthropogenic climate change. IPCC Report observations of climate change, paleoclimate, climate feedbacks, climate models, and climate projections. [Formerly GEOL 756]

ERTH 741 Electron Microscopy (Units: 4)
Prerequisite: Graduate or senior standing, or consent of instructor.

Preparation of biological and inorganic materials for scanning and transmission electron microscopy, x-ray microanalysis, EBSD, CL, operation of the electron microscope(s), and data interpretation. Classwork, 1 unit; laboratory, 3 units. Extra fee required. (This course is offered as BIOL 741, CHEM 741, and ERTH 741. Students may not repeat the course under an alternate prefix.)

ERTH 744 Hydrogeology (Units: 4)
Prerequisites for ERTH 744: Graduate or senior standing; ERTH 210 [formerly GEOL 110], ERTH 505 [formerly GEOL 125] or MATH 226, PHYS 111/PHYS 112 or PHYS 220/PHYS 222 or upper division engineering course; or consent of instructor.

Prerequisites for ERTH 444: ERTH 210 [formerly GEOL 110], ERTH 505 [formerly GEOL 125] or MATH 226, PHYS 111/PHYS 112 or PHYS 220/PHYS 222, or consent of instructor.

Physical and geologic factors controlling the occurrence and dynamics of groundwater. Chemical parameters and distribution. Aquifer testing and analysis. Classwork, 3 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 475/GEOL 775]

(ERTH 744/ERTH 444 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 750 Our Dynamic Classroom (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.

Teaching and Learning Community. Exploration of innovative pedagogical techniques and integrating laboratory and lecture components for introductory geosciences courses. (Plus-minus letter grade only) [Formerly GEOL/METR/OCN 792]

ERTH 765 Synoptic Meteorology of Mid-latitude Oceans (Units: 3)
Prerequisites: Graduate standing or consent of instructor.

Synoptic scale analysis and discussion of the extratropical systems of the mid-latitude oceans. Organized convective systems in the eastern Pacific and adjacent coastal margins. California weather patterns. [Formerly METR 825]

ERTH 790 Advanced Public Weather Forecasting (Units: 1-3)
Prerequisite: ERTH 490 [formerly METR 698] and/or consent of instructor.

Direction of a forecast office. Students assume lead forecaster responsibilities in administration of the SF State Public Weather Forecast Center. [Formerly METR 798]

ERTH 795 Selected Topics in the Geosciences (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Topic to be specified in Class Schedule. May be repeated for a maximum of 12 units when topics vary. (Plus-minus letter grade only) [Formerly GEOL 795]

ERTH 810 Neotectonics (Units: 3)
Prerequisites for ERTH 810: Graduate or senior standing; ERTH 510 [formerly GEOL 430]; or consent of instructor.

Prerequisites for ERTH 610: Senior standing; ERTH 510 [formerly GEOL 430]; or consent of instructor.

Principles of earthquake geology: plate tectonics, fault mechanics, basic seismology, geodesy, tectonic geomorphology, seismic hazard analysis, and case studies of large historical earthquakes. Classwork, 2 units; laboratory and fieldwork, 1 unit. (Plus-minus letter grade only) [Formerly GEOL 470/GEOL 770]

(ERTH 810/ERTH 610 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 820 Mineralogy and Petrology II (Units: 4)
Prerequisite for ERTH 820: Graduate standing or consent of instructor.

Prerequisite for ERTH 520: ERTH 420 [formerly GEOL 420] or consent of instructor.

Advanced mineralogy and igneous and metamorphic petrology with a focus on physical and chemical processes in the earth. Classwork, 2 units; laboratory and fieldwork, 2 units. Extra fee required. [Formerly GEOL 426/GEOL 726]

(ERTH 820/ERTH 520 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 822 Geochemistry (Units: 4)
Prerequisites: ERTH 420 [formerly GEOL 420], MATH 226 or ERTH 505 [formerly GEOL 125], or consent of instructor.

Chemistry of the earth including cosmochemistry, crystal chemistry, thermodynamics, aqueous geochemistry, stable and radiogenic isotope geochemistry, major and trace element geochemistry, and analytical techniques. Classwork, 3 units; laboratory, 1 unit. [Formerly GEOL 480/GEOL 780]

(ERTH 822/ERTH 522 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
ERTH 825 Geomorphology (Units: 4)
Prerequisites for ERTH 825: Graduate or senior standing; and all of the prerequisites listed for ERTH 425.
Prerequisites for ERTH 425: ERTH 210 [formerly GEOL 110], ERTH 505 [formerly GEOL 125] or MATH 226, PHYS 111 and PHYS 112 or PHYS 220 and PHYS 222, or consent of instructor.
Landscapes, their geologic evolution, and the processes which create and modify them. Classwork, 3 units; laboratory and fieldwork, 1 unit.
[Formerly GEOL 450/GEOL 750]
(ERTH 825/ERTH 425 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 826 Ore Deposits (Units: 4)
Prerequisite for ERTH 826: Graduate standing; ERTH 420 [formerly GEOL 420]; or consent of instructor.
Prerequisite for ERTH 526: ERTH 420 [formerly GEOL 420] or consent of instructor.
The origin of ore deposits emphasizing the mineralogic, petrologic, and plate tectonic environments of major deposits from around the world; chemical and physical controls on ore transport and deposition; techniques of mineral exploration and mining. Classwork, 3 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 485/GEOL 785]
(ERTH 826/ERTH 526 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 834 Coastal Processes (Units: 3)
Prerequisites for ERTH 834: Graduate or senior standing and all of the prerequisites listed for ERTH 434.
Prerequisites for ERTH 434: MATH 226, PHYS 111 or PHYS 220, or consent of instructor.
Dynamics of the nearshore ocean and interactions with the coast and beaches. Topics include tides, coastal waves and currents, sediment transport and beaches, inner shelf processes, and estuarine dynamics. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly OCN 410/OCN 710]
(ERTH 834/ERTH 434 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 844 Groundwater Contamination (Units: 3)
Prerequisites for ERTH 844: Graduate or senior standing; ERTH 744 [formerly GEOL 775].
Prerequisites for ERTH 544: ERTH 444 [formerly GEOL 475] or consent of instructor; CHEM 115 recommended.
Application of hydrogeologic principles to solution of groundwater contamination problems. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 476/GEOL 776]
(ERTH 844/ERTH 544 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 846 Quaternary Geology and Soils (Units: 3)
Prerequisites for ERTH 846: Graduate standing; ERTH 210 [formerly GEOL 110]; or consent of instructor.
Prerequisites for ERTH 446: Senior standing; ERTH 210 [formerly GEOL 110]; or consent of instructor.
Pleistocene and Holocene environments, and their geomorphic and stratigraphic record. Emphasis on landform evolution, soil genesis, soil genesis, climatic history, sea level changes, neotectonics, and environmental impact. Classwork, 2 units; laboratory and fieldwork, 1 unit. [Formerly GEOL 454/GEOL 754]
(ERTH 846/ERTH 446 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 850 Remote Sensing of the Atmosphere and Ocean (Units: 3)
Prerequisites: MATH 227, ERTH 260 [formerly METR 201] or ERTH 270 [formerly OCN 200] or ERTH 460 [formerly METR 410], PHYS 230 recommended, senior or graduate student for graduate level (850).
Physical principles and applications of satellite and radar remote sensing of the atmosphere and ocean. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only) [Formerly METR 415/METR 715].
(ERTH 850/ERTH 450 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 858 Consulting Meteorology and Oceanography (Units: 2)
Prerequisites: Senior or graduate standing in meteorology, oceanography, geology, or geography, consent of instructor.
Forensic meteorology and climatology, climatological and meteorological site assessments, site specific operational forecasting, AMS program for professional certification as consulting meteorologist, the meteorologist as expert witness, depositions and court testimony. [Formerly METR 590/METR 790]
(ERTH 858/ERTH 558 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 861 Weather Chart Analysis and Discussion (Unit: 1)
Prerequisite for ERTH 861: Graduate standing or consent of instructor.
Prerequisite for ERTH 461: ERTH 260 [formerly METR 201] (may be taken concurrently).
Weather chart analysis techniques; weather briefing and discussion. Laboratory. [Formerly METR 301/METR 801]
(ERTH 861/ERTH 461 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ERTH 865 Weather Analysis and Forecasting II (Units: 3)
Prerequisites for ERTH 865: Graduate standing and all of the prerequisites listed for ERTH 565.
Prerequisites for ERTH 565: ERTH 430 [formerly OCN 320/METR 320], ERTH 465 [formerly METR 430GW], or consent of instructor.
Quasi-geostrophic theory in the understanding of mid-latitude synoptic systems. Evolution and motion of mid/upper tropospheric waves. Fronts and jet streaks. Mesoscale and severe weather meteorology. Classwork, 2 units; laboratory, 1 unit. [Formerly METR 500/METR 800]
(ERTH 865/ERTH 565 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
**ERTH 868 Analysis and Prediction of Severe Storms (Units: 3)**
Prerequisites: Senior or graduate standing in meteorology; ERTH 465 [formerly METR 430GW], ERTH 660 [formerly METR 520]; consent of instructor.
Large and local-scale controls on severe storms. Morphology of severe thunderstorms. Thunderstorm spectrum. Tornadic storms. Severe storms forecasting and analysis techniques. [Formerly METR 535/METR 835] (ERTH 868/ERTH 668 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

**ERTH 870 Physical Oceanography (Units: 4)**
Prerequisites for ERTH 870: Graduate or senior standing and all of the prerequisites listed for ERTH 470.
Prerequisites for ERTH 470: ERTH 170 [formerly OCN 100] or ERTH 172 [formerly OCN 104] or ERTH 270 [formerly OCN 200], PHYS 220; or consent of instructor.
The dynamic character of the ocean environment with emphasis on the properties of sea water, surface heat transfer, Coriolis force, surface and deep ocean circulation, deep and shallow wave phenomena, and underwater sound and optics. Designed for both the physical scientist and marine biologist. Classwork, 3 units; laboratory, 1 unit. [Formerly OCN 420/OCN 720]
(ERTH 870/ERTH 470 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

**ERTH 896 Directed Reading in the Geosciences (Units: 3)**
Prerequisite: Graduate status or consent of adviser.
Supervised literature research in a specific area chosen on the basis of individual student need. Readings, tutorial discussion, and research report or creative projects. May be repeated for a total of 6 units. [Formerly GEOL 896]

**ERTH 897 Research Project (Units: 1-3)**
Prerequisites: Graduate standing, ERTH 700 [formerly GEOL 700/METR 700/OCN 700], ERTH 701 [formerly GEOL 701/METR 701/OCN 701].
Thesis research incorporates all aspects of investigative studies from data collection to data analysis. May be repeated for a total of 6 units. [Formerly GEOL 897]

**ERTH 898 Master's Thesis (Units: 3)**
Prerequisites: Graduate standing, ERTH 700 [formerly GEOL 700/METR 700/OCN 700], ERTH 701 [formerly GEOL 701/METR 701/OCN 701], ERTH 702 [formerly GEOL 702/METR 702/OCN 702], consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Advancement to Candidacy (ATC) and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. [Formerly GEOL/METR/OCN 898]

**ERTH 899 Independent Study (Units: 1-3)**
Prerequisites: Graduate status and consent of adviser.
Independent study in the laboratory or field under the direction of a faculty member. Student must present a detailed written report of the work accomplished to the department. May be repeated for a total of 3 units. [Formerly GEOL 899]
Economics (ECON)

ECON 101 Introduction to Microeconomic Analysis (Units: 3)
Basic analysis of prices and markets; consumer behavior; behavior of the firm; factor markets.
Course Attributes:
  • D1: Social Sciences

ECON 102 Introduction to Macroeconomic Analysis (Units: 3)
Basic economic methodology, analysis, and policy; economic institutions, organizations, and industrial structure; the monetary system; measurement, determination, and stability of national income; monetary, fiscal, and balance of payments problems and policies. [Formerly ECON 100]
Course Attributes:
  • D1: Social Sciences

ECON 301 Intermediate Microeconomic Theory (Units: 3)
Prerequisites: ECON 101, ECON 102, MATH 226 or equivalent.
Behavior of firms and households in the market economy; production of the firm; determination of costs and prices; income distribution; examination of alternative market structures.

ECON 302 Intermediate Macroeconomic Theory (Units: 3)
Prerequisites: ECON 101, ECON 102, MATH 226 or equivalent.
Determinants of important aggregate economic variables: levels of real and nominal output; rates of unemployment, inflation, and economic growth. Causes of changes in these variables and consequences of alternative macroeconomic policies.

ECON 305 Economic Analysis for Non-Majors (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Macro- and microeconomic theories and their applications to pricing for the firm and problems related to unemployment, inflation, and economic growth. Not open to students who have completed ECON 102 and ECON 101.

ECON 306 Economics and the Environment (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
How economic systems impact the natural environment and how the natural environment underlies the economy. Includes neoclassical and ecological economics perspectives. (This course is offered as ENVS 306 and ECON 306. Students may not repeat the course under an alternate prefix.)

ECON 311 Statistical Methods and Interpretation (Units: 3)
Prerequisite: MATH 226 or equivalent.
Statistical methods essential in solving economic and business problems; descriptive statistics, probability theory, estimation, inferences, hypothesis testing, and statistical software applications. Classwork, 2 units; laboratory, 1 unit.

ECON 312 Introduction to Econometrics (Units: 3)
Prerequisites: ECON 301, ECON 311, MATH 226 or equivalent.
Applied regression and correlation analysis of variance, time series analysis, and forecasting, index numbers, experimental design and sampling methods, and computer applications using major economic data sources; interpretation of results. Classwork, 2 units; laboratory, 1 unit.

ECON 400 Economic and Social History of the United States (Units: 3)
Prerequisite: ECON 102 or ECON 305.
Economic and social development of the United States.

ECON 450 Health Economics (Units: 3)
Prerequisites: ECON 101, ECON 102.
Economic analysis of the US health care system. Supply, demand, and price of health care; cost, access, and quality; regulation; health care reform and comparative health systems.

ECON 474 History of Labor in the United States (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Development of the workforce and organized labor in the U.S. Social and economic characteristics of work and the workforce; characteristics of labor organizations at different times. (This course is offered as HIST 474, ECON 474, and LABR 474. Students may not repeat the course under an alternate prefix.)

ECON 500 Money and Banking (Units: 3)
Prerequisite: ECON 302 or equivalent.
The roles of the Federal Reserve System, private commercial banks, and the public in the determination of the money supply. Analysis of the level and structure of interest rates. Methods, objectives, and actual consequences of monetary policy; international monetary problems.

ECON 501 Money and Capital Markets (Units: 3)
Prerequisites: ECON 302, ECON 500 or equivalent.
Savings and investments; financial intermediaries; the flow of funds; the structure of interest rates; debts, real assets, and the level of economic activity.

ECON 505 Public Economics (Units: 3)
Prerequisites for ECON 805: Graduate standing; ECON 301; or consent of instructor.
Prerequisites for ECON 505: ECON 101, ECON 102 or equivalents, ECON 301.
Economic analysis of the public sector and its impact on the allocation of resources and distribution of income. Emphasis on the economics of government spending, taxation, and debt management. (ECON 805/ECON 505 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 510 Labor Economics (Units: 3)
Prerequisite: ECON 101 or consent of instructor.
Analysis of the operation of the labor market. Theories of wages, unemployment, unions and income distribution. (This course is offered as ECON 510 and LABR 510. Students may not repeat the course under an alternate prefix.)

ECON 511 Collective Bargaining (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Collective bargaining, legislation; case studies in labor law. (This course is offered as ECON 511 and LABR 511. Students may not repeat the course under an alternate prefix.)
ECON 512 Economics of Poverty and Discrimination (Units: 3)  
Prerequisites: ECON 301, ECON 311.  
Application of economic theory to problems of poverty and discrimination. Examines the current structure of income distribution, poverty and empirical evidence on discrimination, and surveys current policy.

ECON 515 Economics of Crime and Justice (Units: 3)  
Prerequisite: Upper division standing or consent of instructor.  
Economic theory of choice and rationality applied to the analysis of crime. Examines social policy to minimize losses due to crime and the costs of crime control. Economics of crime generation, law enforcement, prosecution, corrections, and punishment.

ECON 516 Law and Economics (Units: 3)  
Prerequisites: ECON 101, ECON 102 or ECON 305.  

ECON 520 Industrial Organization (Units: 3)  
Prerequisites for ECON 820: Graduate standing; ECON 301; or consent of instructor.  
Prerequisite for ECON 520: ECON 301.  
Determinants/linkages between market structure, firm conduct, and industrial performance; market power, nonlinear pricing, product differentiation, quality and advertising; oligopoly and strategic behavior; firm organization, ownership and control; entry and exit mergers and antitrust.  
(ECON 820/ECON 520 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 535 Urban Economics (Units: 3)  
Prerequisite: Upper division standing or consent of instructor.  
Analysis of the economic forces which determine a city’s income, employment, land use pattern, industrial structure, and public sector. Particular attention to housing, central city-suburban relationships, transportation, local labor market, local public finance, and neighborhood economic development.  
(This course is offered as ECON 535 and USP 535. Students may not repeat the course under an alternate prefix.)

ECON 540 Economics of Gender (Units: 3)  
Prerequisite: ECON 301.  
Economic models to explain household decision-making regarding labor force participation, marriage, fertility, work sharing and resource allocation; discussion of current empirical evidence and policies to alleviate gender bias. Special focus on women and children in developing countries. [Formerly ECON 340]

Course Attributes:  
• Am. Ethnic & Racial Minorities  
• Global Perspectives  
• Social Justice

ECON 550 Environmental Economics (Units: 3)  
Prerequisites for ECON 850: Graduate standing; ECON 301; or consent of instructor.  
Prerequisite for ECON 550: ECON 301 or consent of instructor.  
Economic causes and consequences of environmental problems; role of regulatory instruments in mitigating environmental problems; application of economic tools and non-market valuation techniques to analyze local and international environmental policies.  
(ECON 850/ECON 550 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 560 Economics of Growth (Units: 3)  
Prerequisites: Upper division standing; ECON 301, ECON 302; or consent of instructor.  
Examines basic growth models and applies these models to growth in the US, Europe, and the World.

ECON 601 Applied Microeconomics (Units: 3)  
Prerequisites for ECON 801: ECON 301, ECON 302, ECON 731, ECON 701.  
Prerequisites for ECON 601: ECON 301, ECON 302, ECON 311.  
In-depth coverage of selected topics in applied microeconomics. Review of empirical and experimental findings. Techniques of applied research.  
(ECON 801/ECON 601 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 605 Seminar: History of Economic Thought (Units: 3)  
Prerequisites: ECON 301, ECON 302.  
Development of economic thought. Reports and discussions based on the works of classical, neoclassical, and contemporary economics.

ECON 611 International Trade Theory and Policy (Units: 3)  
Prerequisites for ECON 811: Graduate standing; ECON 301, ECON 302; or consent of instructor.  
Prerequisites for ECON 611: Upper division standing; ECON 301; or consent of instructor.  
Basic models of trade; Ricardian model, Heckscher-Ohlin model, and newer theories as well as policy applications, tariff and non-tariff barriers, the WTO and regional integration such as NAFTA and the EU.  
(ECON 811/ECON 611 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 612 International Finance and Macroeconomics (Units: 3)  
Prerequisites for ECON 812: Graduate standing; ECON 301, ECON 302.  
Prerequisites for ECON 612: Upper division standing; ECON 302; or consent of instructor.  
Theory and institutions involved in exchange rates and exchange rate regimes, open economy macroeconomics, debt crises, and international institutions such as the IMF and EMU.  
(ECON 812/ECON 612 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

Course Attributes:  
• Global Perspectives

ECON 616 Experimental Economics and Game Theory (Units: 3)  
Prerequisites: Upper division standing; ECON 301, MATH 226; or consent of instructor.  
Introduction to the part of the economic theory that explores strategic interactions among economic agents. Game theory is used in the analysis of a number of socio-economic situations.
ECON 620 Economic Development (Units: 3)
Prerequisites: ECON 101, ECON 102, or equivalents.

Comprehensive study of the economic problems, both domestic and international, facing less developed countries. Analysis of the roles of domestic, private, and public sectors as well as international institutions such as the World Bank, the United Nations, and multinational corporations.

ECON 635 Economics of Globalization (Units: 3)
Prerequisites: ECON 101, ECON 102, or consent of instructor.

Economic debate surrounding process of globalization. Economic causes/consequences of market integration: domestic labor markets, international trade and multinationalization production, integration of financial markets. (This course is offered as ECON 635 and IR 635. Students may not repeat the course under an alternate prefix.)

ECON 640 Health Economics Analysis and Research (Units: 3)
Prerequisites for ECON 840: Graduate standing; ECON 701, ECON 312; or equivalent.
Prerequisites for ECON 640: Upper division standing; ECON 301, ECON 311.

Introduction to health economics; why health care is different from other goods; analysis of the US health care market; health in development and health evaluation. (Plus-minus ABC/NC grading only) [CSL may be available]
(ECON 840/ECON 640 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 675 Natural Resource Economics (Units: 3)
Prerequisite: ECON 301 or consent of instructor.

Introduction to the economics of natural resources. Models of optimal depletion of nonrenewable resources and optimal use of renewable resources. Model application to energy, forests, fisheries, water, and climate change. Focus on computation solutions using Excel and Mathematica.

ECON 6900W Senior Seminar: Economic Inquiry and Analysis - GWAR (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C- or better, ECON 301, ECON 302, ECON 312.

Economic analytical methods applied to important economic issues confronting society. Application of theory and methods learned during previous courses. Assessment of ability to employ economic reasoning in discussion, written exercises and reports, and in-class presentations. (ABC/NC grading only)
Course Attributes:

- Graduation Writing Assessment

ECON 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, major adviser, and department chair.

Supervised study of a particular problem selected by the student.

ECON 701 Seminar: Microeconomic Theory (Units: 3)
Prerequisites: ECON 301, ECON 302, ECON 715 (may be taken concurrently).

Behavior of firms and households; determination of prices and resource allocation in a decentralized economy.

ECON 702 Seminar: Macroeconomic Theory (Units: 3)
Prerequisites: Graduate standing, ECON 701, ECON 715, ECON 731, or consent of instructor.

National income and employment determination: income distribution; wages, prices and economic growth; government policy.

ECON 715 Mathematical Economics (Units: 3)
Prerequisites: MATH 226 or equivalent; ECON 301, ECON 302 or equivalent.

Economics presented mathematically. Use of matrix algebra, calculus, difference equations, and differential equations in economic analysis. Classwork, 2 units; laboratory, 1 unit. [Formerly ECON 615]

ECON 731 Econometric Theory (Units: 3)
Prerequisites: ECON 101, ECON 102, ECON 312, or equivalents.

Theories of estimation; illustrations of econometric research. Forecasting with econometric models. Computer applications. Classwork, 2 units; laboratory, 1 unit. [Formerly ECON 630]

ECON 801 Applied Microeconomics (Units: 3)
Prerequisites for ECON 801: ECON 301, ECON 302, ECON 731, ECON 701.
Prerequisites for ECON 601: ECON 301, ECON 302, ECON 311.

In-depth coverage of selected topics in applied microeconomics. Review of empirical and experimental findings. Techniques of applied research. (ECON 801/ECON 601 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 805 Public Economics (Units: 3)
Prerequisites for ECON 805: Graduate standing; ECON 301; or consent of instructor.
Prerequisites for ECON 505: ECON 101, ECON 102 or equivalents, ECON 301.

Economic analysis of the public sector and its impact on the allocation of resources and distribution of income. Emphasis on the economics of government spending, taxation, and debt management. (ECON 805/ECON 505 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 811 International Trade Theory and Policy (Units: 3)
Prerequisites for ECON 811: Graduate standing; ECON 301, ECON 302; or consent of instructor.
Prerequisites for ECON 611: Upper division standing; ECON 301; or consent of instructor.

Basic models of trade; Ricardian model, Heckscher-Ohlin model, and newer theories as well as policy applications, tariff and non-tariff barriers, the WTO and regional integration such as NAFTA and the EU. (ECON 811/ECON 611 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
ECON 812 International Finance and Macroeconomics (Units: 3)
Prerequisites for ECON 812: Graduate standing; ECON 301, ECON 302.
Prerequisites for ECON 612: Upper division standing; ECON 302; or consent of instructor.

Theory and institutions involved in exchange rates and exchange rate regimes, open economy macroeconomics, debt crises, and international institutions such as the IMF and EMU. (ECON 812/ECON 612 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
Course Attributes:
- Global Perspectives

ECON 820 Industrial Organization (Units: 3)
Prerequisites for ECON 820: Graduate standing; ECON 301; or consent of instructor.
Prerequisite for ECON 520: ECON 301.

Determinants/linkages between market structure, firm conduct, and industrial performance; market power, nonlinear pricing, product differentiation, quality and advertising; oligopoly and strategic behavior; firm organization, ownership and control; entry and exit mergers and antitrust.
(ECON 820/ECON 520 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 825 Applied Time Series Econometrics (Units: 3)
Prerequisites: ECON 715, ECON 731, or equivalents.

Focus on applications of time series econometric modeling with a particular emphasis in the areas of macroeconomic forecasting, financial modeling, and economic issues that require longitudinal analysis. [Formerly ECON 725.]

ECON 830 Advanced Econometric Methods and Applications (Units: 3)
Prerequisite: ECON 731 or consent of instructor.

Advanced theories and applications of cross-sectional and panel data models of Econometrics. [Formerly ECON 730.]

ECON 840 Health Economics Analysis and Research (Units: 3)
Prerequisites for ECON 840: Graduate standing; ECON 701, ECON 312; or equivalent.
Prerequisites for ECON 640: Upper division standing; ECON 301, ECON 311.

Introduction to health economics; why health care is different from other goods; analysis of the US health care market; health in development and health evaluation. (Plus-minus ABC/NC grading only) [CSL may be available]
(ECON 840/ECON 640 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 850 Environmental Economics (Units: 3)
Prerequisites for ECON 850: Graduate standing; ECON 301; or consent of instructor.
Prerequisite for ECON 550: ECON 301 or consent of instructor.

Economic causes and consequences of environmental problems; role of regulatory instruments in mitigating environmental problems; application of economic tools and non-market valuation techniques to analyze local and international environmental policies.
(ECON 850/ECON 550 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ECON 851 Topics in Applied Economics (Units: 3)
Prerequisites: Graduate standing; ECON 701, ECON 830, or consent of instructor.

Topic to be specified in Class Schedule. May be repeated for a total of 6 units as topics vary. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter/NC grading only)

ECON 890 Graduate Seminar in Applied Economics (Units: 3)
Prerequisites: Graduate standing, ECON 701, ECON 702, or consent of instructor. Must be taken concurrently with ECON 825.

Prepares students for the culminating experience as Masters’ students. Students create and develop an applied research topic in conjunction with the Economics faculty.

ECON 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered ECON 898 (or in some cases, course numbered ECON 890 - see program’s graduate advisor for further information). (CR/NC, RP)

ECON 898 Master’s Thesis (Units: 6)
Prerequisites: Consent of chair of candidate’s committee for the Master of Arts; consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

An investigation of a topic or problem in economics. The student develops the project, organizes and completes the written study, and defends the findings with the committee. Advancement to Candidacy (ATC) and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

ECON 899 Independent Study (Units: 1-3)
Open to graduate students who have demonstrated ability to do independent work. Enrollment by petition to department.
**Education (EDUC)**

**EDUC 200 Introduction to Teaching and Education (Units: 3)**
Introduction to the field of education and to the profession of teaching. (This course is offered as S ED 200 and EDUC 200. Students may not repeat the course under an alternate prefix.)

**Course Attributes:**
- D1: Social Sciences

**EDUC 250 Teaching and Learning Beyond the Classroom (Units: 3)**
Analysis and exploration of how children learn from the local, natural, and built environment. Examining the practice of teaching social studies and science through the use of local historical and educational sites. (Plus-minus letter grade only) (This course is offered as EDUC 250 and E ED 250. Students may not repeat the course under an alternate prefix.)

**Course Attributes:**
- D1: Social Sciences

**EDUC 300 Education and Society (Units: 3)**
Prerequisite: Upper division standing or consent of instructor.
Introduction to education and the role that education and schools play in society. (This course is offered as S ED 300 and EDUC 300. Students may not repeat the course under an alternate prefix.)

**Course Attributes:**
- UD-D: Social Sciences
- Social Justice

**EDUC 333 Dynamic Educators for the 21st Century (Units: 3)**
Prerequisite: Upper division standing or consent of instructor.
Developing a philosophy through critical literacies stances (a way of being, not activities) toward teaching and learning based on social justice and equity. Focus on teaching and learning as multi-dimensional interactive processes. Investigate, articulate theories and practices to develop student inquiry through integrated curriculum research-based projects for grades Kindergarten-8th grade. (This course is offered as EDUC 333 and E ED 333. Students may not repeat the course under an alternate prefix.)

**EDUC 450 Art and Learning (Units: 3)**
Prerequisite: Upper division standing.
Principles and practices of curriculum planning and instruction for teaching art to K-5 children. Discussions of theory and practice coincide with hands-on art making and curriculum development. Classwork, 1 unit; activity, 2 units. Extra fee required. [Formerly ART 450]
(This course is offered as EDUC 450 and E ED 450. Students may not repeat the course under an alternate prefix.)

**Course Attributes:**
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
- Social Justice

**EDUC 499 Culminating Experience Continuous Enrollment (Unit: 0)**

**EDUC 501 Behavior is Language: Strategies for Managing Disruptive Behavior (Units: 3)**
[Online Course] This course provides a developmental framework for understanding what students are trying to tell you through the "language" of their behavior in schools. The course teaches behavioral techniques and intervention strategies that remediate disruptive behaviors, reduce power struggles while increasing classroom control and reduce your workloads and burnout. This program helps you, as well as students, find creative, effective solutions to behavioral problems. After studying behavioral theory and intervention strategies, you will be presented with various classroom scenarios in which you will be able to practice and hone your skills for interpreting behavior, determining appropriate interventions and effectively debriefing your students. (This course is offered as EDUC 501 and COUN 501. Students may not repeat the course under an alternate prefix.)

**EDUC 502 Advanced Classroom Management in Schools (Units: 2)**
Intended for school educators, counselors, psychologists serving children with behavior problems in class. Cognitive and cognitive-behavioral concept/strategies interventions. Emphasis on students managing/changing their own behavior. (This course is offered as EDUC 502 and COUN 502. Students may not repeat the course under an alternate prefix.)

**EDUC 503 Understanding Aggression in Schools (Units: 3)**
[Online Course] This course is about violence in America, about aggression in our schools, classrooms, streets, homes and elsewhere. The course speaks of the hatred, the fights, the anger, the crimes committed and the victims in our schools and society. This course covers the history of aggression in America and the many forms of aggression, both criminal and otherwise; its costs and motivation; its perpetrators and targets, its likely and unlikely locations; its impact on our schools, the children; and most especially its promising solutions. Topics of interest include violence and the challenge of raising and working with children: aggression in our classrooms; American youth gangs and their influence; past and future sports violence; “hot spot” locations of frequent violence; and the aggression-promoting role of alcohol, temperature, driving, television and other features of modern life. The course will also answer questions such as: Is aggression always bad? How do aggressive thoughts lead to aggressive actions? Is aggression, at least for some people, an addiction? How are the acts of aggression dealt with in other countries, and are there any lessons for America? The goal of this course is to help educators and adults understand a little better how aggression affects our lives and the lives of our children. Hopefully, with greater understanding and more skilled efforts at prevention aggression and violence in American schools will be reduced.

**EDUC 504 Talented and Gifted: Working with High Achievers (Units: 2)**
[Online Course] This course is designed to help teachers achieve a better understanding of the talented and gifted student, methods used in identification, and strategies in instructing these students in an inclusive classroom. The course provides information on the history of the exceptional student in relation to education, current law, and accepted methods for referral, assessment and identification of these students. The major program models and methods of differentiating instruction to meet the rate and level of learning of those students identified will be presented. The course gives you an understanding of ways to meet the affective needs of the gifted and talented student in the regular classroom. Resources for teachers and parents who would like more information about the talented and gifted is provided.
EDUC 505 Learning Disabilities in Schools (Units: 3)
[Online Course] This course provides an introduction to the field of learning disabilities for special education teachers, general classroom teachers, integration teachers and related professionals especially those working in the areas of language, psychology and counseling. The course covers diverse theoretical approaches, lay the foundations for sensitive and appropriate assessment and evaluation of students, provide directions for program planning and implementation, indicate the importance of and the need for a close, positive partnership with parents (or alternative caregivers) and consider ways for ensuring that the home-school axis is effective and meaningful. It will also consider some major trends and unresolved issues in the field of Learning Disabilities.

EDUC 506 Attention Deficit Disorder in Schools (Units: 2)
[Online Course] This course is designed to help teachers achieve a better understanding of Attention Deficit Disorder (ADD) and intervention strategies to facilitate positive student change. The course provides information on the history of the disorder, accepted methods to assess and identify students with the disorder, and various treatment methods that are currently being used to treat the disorder. You will also learn about the referral process when you feel a student needs services beyond what you are capable of or comfortable providing in your classroom environment. Lists of ADD resources for both teachers and parents will be provided.

EDUC 507 Autism & Asperger Disorders in Schools (Units: 2)
[Online Course] This course is designed to help teachers achieve a better understanding of Autism and Asperger’s Disorder, of intervention strategies to enhance communication and learning, and of methods for teaching more conventional behaviors. The course provides information on the characteristics of the disorder, learning styles associated with the disorder, communication weaknesses, and various intervention strategies that have proven to be successful when working with students with Autism Spectrum Disorders. The course helps teachers comprehend why individuals with Autism Spectrum Disorders act the way they do, and what you can do to enhance more appropriate behavior. Resources for educators, related service personnel, and parents who would like more help or information will be included.

EDUC 508 Inclusion: Special Needs in General Classrooms (Units: 2)
[Online Course] This course is designed to help special and general educators gain a better understanding of inclusion, one of the current educational reform movements that advocates for educating students with disabilities in the general classroom. Key concepts related to including students with disabilities in inclusive classrooms, federal legislation and court cases that have contributed to the inclusion movement will be covered. You will learn the federal definition of students who are entitled to special education services, and the legal procedures educators and school systems need to use in identifying and providing required special education services. Also provided are procedures to use in determining whether students with special needs can be educated in the regular classroom and the characteristics of effective inclusion programs.

EDUC 509 Violence in Schools: Identification, Prevention, and Intervention (Units: 2)
[Online Course] This course is designed to give teachers a better understanding of school violence and increase their interventions strategies. A foundational understanding of violence and the motivational purposes behind aggression will be presented. The correlation with and impact of the media, community and family upon violence will be investigated. The course teaches identification and intervention approaches for working with out-of-control behaviors. This course will help you to increase your understanding of violence, the motivations behind the use of violence and specific strategies to minimize the occurrence of violence in a school and community. Information on available national resources for both parents and teachers will be provided.

EDUC 511 Traumatized Child: The Effects of Stress, Trauma, and Violence on Student Learning (Units: 2)
[Online Course] This course is designed to help teachers identify the signs of stress, trauma and/or violence in their students. Specific factors that exist in families and communities where stress and violence are common will be discussed. A focus of this course is to help teachers understand the special learning needs of the student who is experiencing stress, trauma or violence in his/her life and how to meet his/her needs in the regular classroom. Working with parents and community agencies is also emphasized.

EDUC 512 Child Abuse: Working with Abused and Neglected Children (Units: 2)
[Online Course] Teachers will learn how to recognize the signs of physical abuse, emotional abuse, sexual abuse, physical neglect and emotional neglect in students. Specific factors that exist in families who abuse or neglect their children will be discussed. A major emphasis in this course is on helping teachers understand the special needs of the abused or neglected child, and how to meet those needs in the regular classroom. Working with parents and community agencies is also emphasized.

EDUC 513 Drugs and Alcohol in Schools: Understanding Substance Use and Abuse (Units: 2)
[Online Course] This course provides the framework for understanding what students experience through substance usage or the impact of the substance usage around them. A basic historical perspective of substance use along with descriptions of biological, psychological, and social factors that comprise the disease of addiction will be covered.

EDUC 514 Teaching Diversity in the Classroom (Units: 2)
[Online Course] This course will provide teachers with the tools to effectively facilitate a diverse classroom. Teachers will understand and identify differences in approaches to learning and performance, including different learning styles and ways in which students demonstrate learning. An emphasis in this course will be on understanding how students’ learning is influenced by individual experiences, talents, disabilities, gender, language, culture, family and community values. Teachers will be challenged to apply knowledge of the richness of contributions from our diverse society to their teaching field.
EDUC 515 Harrassment, Bullying, and Cyber-Intimidation in Schools (Units: 2)
[Online Course] Harassment, Bullying & Cyber-Intimidation in Schools will discuss definitions and the personal, social, and legal ramifications associated with sexual harassment, bullying, and cyber-intimidation. The course will address what we know about these troubling areas. We will then explore preventative strategies as well as how school staff can address these issues when they occur. A clear understanding of what constitutes harassment and the harmful effects of harassment on people and institutions is essential to providing a safe and inclusive school environment for all. This computer-based instruction course is a self-supporting program that provides instruction, structured practice, and evaluation all on your home or business computer. Information on installation and technical support can be found, and will be covered in detail, in the User Guide section of your computer software.

EDUC 629 Bilingual Education in the U.S.: A History of Struggle, Resistance, and Achievement (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination, exploration and analysis of the history of bilingual education and its impact on educational opportunities for culturally and linguistically diverse students in the U.S. (Plus-minus letter grade only.) (This course is offered as EDUC 639 and E ED 639. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences

EDUC 660 Preparing for the Teaching Profession (Unit: 1)
Prerequisite: Upper division standing or consent of instructor.
Review of teaching careers in California, including supply and demand, introduction to the California Standards for the Teaching Profession (CSTP), credentialing process and types of credentials in the state, and the process for applying to a credential program at SFSU. CR/NC grading only.

EDUC 681 Teaching Language and Literature with Elementary and Middle School Students (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to children's literature from picture books to chapter books. Topics include history of children's literature, use of children's literature in the preschool to grade 8 classroom, multicultural and multilingual children's literature, and author and genre study. (Plus-minus letter grade only) (This course is offered as EDUC 681 and E ED 681. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities

EDUC 703 School/Community Partnership For Change (Units: 3)
Goals and processes of school/community partnerships designed to meet the contemporary needs of children, youth, and families. Interprofessional approach to role of school/community members as change agents. Priority enrollment given to graduate students in education, public administration, counseling, nursing, social work.

EDUC 750 Curriculum and Instruction in Art (Units: 3)
Prerequisite: Admission to the Single Subject Credential Program in Art.
Principles and practices of curriculum planning and instruction in the visual arts. Objectives, issues, problems; and teaching techniques. Extra fee required. [Formerly ART 650]

EDUC 755 Curriculum and Instruction II (Units: 3)
Prerequisite: EDUC 750 (formerly ART 650), restricted to single subject teaching credential program.
Continuation of EDUC 750. Provides a forum for examining issues and ideas related to contemporary classroom practice in the teaching of visual art. [Formerly ART 655]

EDUC 805 Sexuality Education and Policy (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies or consent of instructor.
Historical and philosophical underpinnings of sexuality education in the U.S.; major pedagogical theories and practices at elementary, secondary, and post-secondary levels. Education and social policy considerations. (This course is offered as SXS 805 and EDUC 805. Students may not repeat the course under an alternate prefix.)

EDUC 883 Collaborative Planning for Instruction: Lesson Study (Units: 1-3)
This course, using the Japanese Lesson Study Model will help students (classroom teachers) focus on the learning goals for students, and themselves, in achieving the goals derived from data analysis. Planning instructional activities hypothesized to achieve the learning goals for students, collecting data on student learning and the effectiveness of the teaching strategies, and interpreting the data to revise the hypotheses and improve practice.

EDUC 884 Differentiate Instruction (Units: 2)
Differentiated Instruction focuses on teaching and learning that gives students multiple options for taking in information and making sense of ideas. A variety of instructional approaches adapted to individual and diverse students in the secondary education classroom will be presented. Protocols for analyzing student work and other data will be presented, discussed and practiced. Participants in the class will complete required readings, obtain information from relevant websites, view videotapes, complete action research in their own classrooms, collaborate with colleagues regarding successes/problems, and present modified lesson plans to the entire group in written form.

EDUC 998 Doctoral Dissertation in Educational Leadership (Units: 3-9)
Prerequisite: Consent of instructor.
Independent student research leading to the completion of the doctoral dissertation. Open only to students in the joint doctoral program in educational leadership. May be repeated for a total of 15 units.
Educational Administration (EDAD)

EDAD 713 Administrative Processes (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Leadership of faculty groups, problem analysis, problem solution, decision-making, communication in school settings.

Course Attributes:
- Teacher Credential Program Crs

EDAD 714 Practicum: Site Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Competencies needed by a school site administrator. Principles and techniques of planning, organizing, managing, problem-solving, community relations, program and personnel evaluation, accounting, and budgeting at a school site.

Course Attributes:
- Teacher Credential Program Crs

EDAD 723 School Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Various organizational and managerial roles of school administrators; the examination of a wide range of responsibilities. Case analysis of problems.

Course Attributes:
- Teacher Credential Program Crs

EDAD 733 Curricular Leadership for Multicultural Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Dynamics by which curricular and instructional practices are implemented in diverse settings; reviews contemporary curricular and instructional issues; assesses practical dimensions a leader needs to monitor/enhance performance of students and teachers in multicultural environments.

Course Attributes:
- Teacher Credential Program Crs

EDAD 743 Educational Planning, Technology, and Evaluation (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Nature of planning and evaluation for instructional program development in diverse educational settings. Program, staff, and administration roles in evaluation processes; applications of new technologies to instructional program planning, implementation, and evaluation.

Course Attributes:
- Teacher Credential Program Crs

EDAD 753 Human Resource Administration in Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Approaches to recruiting personnel to meet the changing needs of educational systems. Strategic planning for human resource development, recruitment, induction, evaluation, professional development, and incentive systems. Compliance with state and federal employment laws.

Course Attributes:
- Teacher Credential Program Crs

EDAD 763 Law and Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Judicial entanglements in education: how public educational agencies respond procedurally to legal problems; current legal issues in terms of key constitutional principles, legal requirements, and what case law requires or disallows in educational policy and practice. Rights and responsibilities: equal educational opportunity.

Course Attributes:
- Teacher Credential Program Crs

EDAD 774 Change Processes and Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Alternative models of change, how and why change is necessary as an organizational process: underlying conflicts and tasks of leaders in restructuring alternative teaching and learning environments. Initiatives and models used to examine change issues in school settings.

Course Attributes:
- Teacher Credential Program Crs

EDAD 784 Special Education Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Current issues related to planning, management, supervision, and evaluation of special education programs. Role of special education personnel, key problem areas, working with disparate groups to achieve effective programs for children with disabilities. Review of regulations, procedures, and legal issues as they impact the special education administrator’s role.

Course Attributes:
- Teacher Credential Program Crs

EDAD 822 Practicum: Leadership in Supervision and Curriculum Development (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Principles and techniques for developing curriculum and improving teachers in service. Administrative organization, group processes, and communication skills in supervision work. Application and demonstration of supervisory skills and competencies.

EDAD 823 Practicum: Evaluation, Research, and Planning (Units: 3)
Prerequisite: EDAD 743.
Organization of evaluation programs, staffing, interpreting data to public and budgetary considerations. Application and testing in classroom and field assignment situations.
EDAD 824 Practicum: Personnel Management (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Planning, conflict resolution, and selected personnel procedures.
Application and testing the field under the supervision of specialists.

EDAD 850 Professional Development Practicum (Units: 2)
Prerequisite: Admission to Professional Administrative Services Credential program.
Examination of educational leadership; personal values, knowledge base, skills, experiences, and attitudes. Professional development goals, objectives, and strategy for continued professional development.

EDAD 860 Educational Administrative Competence Practicum (Units: 2)
Prerequisite: Completion of planned program study.
Appraisal of students’ professional development and administrative competence by assessing achievement of goals and objectives defined in the induction plan developed in EDAD 850. (CR/NC grading only)

EDAD 891 Internship - Educational Administration I (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Internship for exploration and analysis of the functional aspects of school administration. The internship is the culminating experience for the Preliminary Administrative Services Credential and master’s degree in educational administration and concludes with a comprehensive oral examination.

EDAD 892 Internship - Educational Administration II (Units: 3)
Prerequisites: EDAD 714 or EDAD 891, consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Internship for exploration and analysis of the functional aspects of school administration. The internship is the culminating experience for the Preliminary Administrative Services Credential and master’s degree in educational administration and concludes with a comprehensive oral examination.

Course Attributes:

- Teacher Credential Program Crs

EDAD 899 Independent Study (Units: 1-3)
Prerequisite: Graduate standing or consent of instructor.
An intensive study of a particular problem under the direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open only to regularly enrolled students.
Educational Leadership (EDDL)

EDDL 910 Transformational Leadership and Coalition Building (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Reviews research about educational leadership, emphasizing transformational leadership, creating and implementing a vision; develop skills in identifying, interacting with, and mobilizing key constituents, emphasizing board relations; includes introduction to important leaders in the field.

EDDL 911 Organizational Behavior, Change, and Systemic Reform (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Presents key constructs from organizational theory that are critical to understanding, analyzing, and implementing organizational and systemic reform; discusses key measures of accountability used in California; provides case studies of district and college systemic reform efforts.

EDDL 912 Advanced Educational Leadership Seminar (Units: 3)
Addresses key educational challenges embedded in high-level educational leadership positions through close interaction with regional educational leaders. Participants develop and present dissertation prospectuses to panels of local educational leaders.

EDDL 920 Literacy and English Language Learners (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Reviews recent research on best practices for developing the academic skills of English language learners, K-adult; includes curriculum and instruction issues at the administrative level, supervision of instruction and teacher evaluation, and approaches for implementing best practices.

EDDL 921 Theories of Learning and Student Development in Math and Science (Units: 3)
Prerequisite: Admission to Ed.D. program.
Students analyze theories and promising practices for improving academic and life opportunity outcomes in science, technology, engineering, and mathematics.

EDDL 930 Qualitative Analysis of Race, Class, and Gender in Society and Education (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Prepares research on issues of race, class, gender and disability in education in historical and contemporary contexts; emphasizes evidence-based, qualitative data analysis; introduces qualitative analysis of data, assumptions, designs, collection, analysis, and research ethics.

EDDL 931 Quantitative Analysis of Structural Inequality in Education (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Prepares research on structural inequality in education from contemporary and historical perspectives; emphasizes evidence-based, quantitative analysis of data on equity and achievement gaps in education; addresses quantitative methods, descriptive analysis, measurement, and research ethics.

EDDL 932 Transformational Strategies to Address Inequality in Education and Society (Units: 3)
Prerequisite: Enrollment in Ed.D. Educational Leadership Program.
Research on historical and contemporary responses to inequality in education; includes multicultural education, culture of poverty, single race/sex schools; new trends and strategies affecting equity in education, including immigrants, sexual identity, age, gender, organizations, and special needs learners.

EDDL 940 Policy, Law and the Political Economy of Education (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Public policy processes and legislation related to education; public financing structures; schooling and school law, including fairness and justice, as well as common problems encountered in districts; special needs learner issues (i.e. older adult learners and students with disabilities).

EDDL 941 Accountability and Performance of Educational Organizations (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Addresses strategic planning processes, development of performance and institutional effectiveness measures, including California education accountability structures and introduction to program evaluation, incorporating quantitative and qualitative data.

EDDL 942 Integrated Planning and Budget (Units: 3)
Prerequisite: Enrollment in Ed.D. in Educational Leadership.
Budgeting and financial management in public education; budget as manifestation of mission, goals, application of equity at district level, quantitative budget analysis skills, data presentation, financial management systems, focus on information technology, special needs learner impacts.

EDDL 944 Human Resource Management in Education (Units: 3)
Prerequisite: Enrollment in the Ed. D. program in Educational Leadership.
Overview of human resources management issues in public education organizations, including legal contexts, labor relations, faculty professional development, student services, assessment and evaluation, supervision of instruction and employees and teacher evaluation.

EDDL 945 Communication Techniques & Strategies in Educational Leadership (Units: 3)
Prerequisite: Enrollment in Ed.D. program in Educational Leadership.
Review research in communication styles and techniques with emphasis on cross-cultural communication; training in public communication techniques and analysis and improvement of communication styles; use of technology, communication with public media, and date presentation.

EDDL 952 Field-Based Residency in Educational Leadership (Units: 3)
Prerequisite: Enrollment in the Ed.D. in Educational Leadership program.
Focus on collecting data for dissertation; includes mentorship and leadership seminars with current school leaders. Individual conference and independent study; examine district-level teaching, learning, assessment, management, and policy issues.
EDDL 961 American Education Leadership (Units: 3)
Prerequisite: Admission to Ed.D. program.
To be completed during the first fall semester of the Ed.D. program.
Introduction to doctoral-level reading, writing, research skills, and
research problems in the field of educational leadership. (Plus-minus
letter grade only)

EDDL 962 Analyzing Critical Issues in Education (Units: 3)
Prerequisite: EDDL 961.
To be completed during the first spring semester of the Ed.D. program.
Continuation of the development of doctoral-level reading, writing,
research skills, and research problems in the field of educational
leadership. (Plus-minus letter grade only)

EDDL 963 Seminar: Linking Theory with Practice (Units: 3)
Prerequisite: Admission to Ed.D. program.
To be completed during the first summer session of the Ed.D. program.
Guides student development of a research problem and literature review
appropriate for dissertation study. (Plus-minus letter grade only)

EDDL 964 Research Seminar: Analyzing Critical Issues in Teaching and
Learning (Units: 3)
Prerequisite: Enrollment in Ed.D. Program in Educational Leadership.
Introduction to mixed methods research; critique examples of published
research and investigate qualitative and quantitative problem statements
and methodologies. (To be completed in the fourth semester.)

EDDL 965 Dissertation Research Design (Units: 3)
Development of a research design suitable for the dissertation; to be
completed during the fifth semester.

EDDL 966 Dissertation Data Collection (Units: 3)
Prerequisite: EDDL 965.
Challenges in data collection for the dissertation; collection and analysis
processes. (Plus-minus letter grade only)

EDDL 997 Dissertation Seminar: Early Stage Writing and Data Analysis
(Units: 3)
Prerequisite: Classified standing in Ed.D. in Educational Leadership;
Advancement to candidacy; open to students who are in the third year of
their doctoral program or equivalent.
Support and guidance to allow students to make substantial progress
on the first half of their dissertation writing, data collection, and early
analysis via conferencing, written feedback, and collaborative research &
writing groups. May be repeated for a total of 6 units. (CR/NC only)

EDDL 998 Dissertation (Units: 3)
Prerequisite: Advancement to candidacy.
Independent student research leading to the completion of the doctoral
dissertation; includes dissertation support seminar for sharing and
critique of preliminary research findings. May be repeated for a total of 6
units.

EDDL 999 Independent Study (Units: 1-6)
Prerequisite: Classified standing in Ed.D. in Educational Leadership;
enrollment by petition.
Intensive study of a particular problem. Study is planned, developed, and
completed under the direction of program faculty. Open only to doctoral
students who have demonstrated ability to do independent work. May be
repeated. (CR/NC grading only)
Elementary Education (E ED)

E ED 250 Teaching and Learning Beyond the Classroom (Units: 3)
Analysis and exploration of how children learn from the local, natural, and built environment. Examining the practice of teaching social studies and science through the use of local historical and educational sites. (Plus-minus letter grade only)
(This course is offered as EDUC 250 and E ED 250. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• D1: Social Sciences

E ED 306 Collaborations and Partnership with Families in ECE (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Theory and practical models for understanding and working with diverse children and families in and out of school settings. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

E ED 333 Dynamic Educators for the 21st Century (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Developing a philosophy through critical literacies stances (a way of being, not activities) toward teaching and learning based on social justice and equity. Focus on teaching and learning as multi-dimensional interactive processes. Investigate, articulate theories and practices to develop students’ inquiry through integrated curriculum research-based projects for grades Kindergarten-8th grade.
(This course is offered as EDUC 333 and E ED 333. Students may not repeat the course under an alternate prefix.)

E ED 450 Art and Learning (Units: 3)
Prerequisite: Upper division standing.
Principles and practices of curriculum planning and instruction for teaching art to K-5 children. Discussions of theory and practice coincide with hands-on art making and curriculum development. Classwork, 1 unit; activity, 2 units. Extra fee required. [Formerly ART 450]
(This course is offered as EDUC 450 and E ED 450. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Social Justice

E ED 600 Advanced Issues in Child Development and Learning (Units: 3)
Prerequisite: Upper division standing.
Child development from infancy to school age. Social, emotional, cognitive, and physical development related to practical implications for programs. Developmental learning sequences in relation to curriculum and teaching styles. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

E ED 602 Advanced Curriculum Study in ECE (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Advanced integrated curricular development for young children in culturally and linguistically responsive early childhood setting. Introducing diverse early childhood curriculum and discussing DAP teaching and learning materials. Theory, practice, and policy related to creating and implementing integrated curriculum for high-quality ECE programs. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

E ED 603 Promoting Young Children’s Social and Emotional Development (Units: 3)
Prerequisite: PSY 330.
Theories and educational programs focusing on children's social and emotional development in culturally responsive early childhood settings. Attachment relationships, prosocial behavior, self-esteem, identity formation, friendships, guidance, and classroom management. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses. (Plus-minus letter grade only)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

E ED 604 Advanced Issues in Collaboration with Families and Communities in ECE (Units: 3)
Prerequisite: Upper division standing.
Understanding and overcoming obstacles to effective communication between educators and parents through conferences, home visits, participation on boards and committees, and problem-solving experiences. The rationale for parent involvement. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

E ED 605 Supervised Student Teaching in Observation and Evaluation in ECE (Units: 3)
Prerequisite: E ED 600 or E ED 610 (may be taken concurrently).
Supervised field experience in an infant, preschool, or school-age daycare program. Techniques of observation and other evaluations will be practiced and used to develop individualized learning experiences. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.
E ED 607 Leadership and Administration in ECE (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Ingredients necessary for a functioning staff in child development programs. Dynamics of an interdisciplinary early childhood team: administrators, teachers, parents, and support personnel. Development of roles and communication skills. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

E ED 608 Supervised Fieldwork: Preschool Curriculum Development (Units: 3)
Prerequisites: E ED 602 and E ED 610 (may be taken concurrently).
Field experience in an infant, toddler, preschool setting. Implementation of integrated curriculum. There is a requirement of 9 hours per week of classroom observation/participation in an approved licensed children facility.

E ED 610 Classroom Assessment and Evaluation for Young Children (Units: 3)
Prerequisites: CFS 320, PSY 330, and consent of instructor.
Observation and assessment of children's behavior and development in diverse early childhood settings and communities. Informal observational techniques, role of assessment in curriculum planning. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses. (Plus-minus letter grade only)

E ED 611 Advanced Issues in Infant-Toddler Education and Care (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Thorough and practical examination of developmental theory from 0-3 years. Practical applications to planning group programs in a variety of settings. Role of relationships as seen in many contexts. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

E ED 613 Integrated Arts Curricula in ECE (Units: 3)
Prerequisite: Upper division standing.
Exposure to modes for creative self-expression available to young children. Theories of creativity applied to developing teaching techniques. Visual arts, music and movement, and how to set up and teach in a learning center for creative arts. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

Course Attributes:
- UD-C: Arts and/or Humanities
- Social Justice

E ED 614 Science, Math, and Technology Curricular in ECE (Units: 3)
Prerequisite: Upper division standing.
Development of problem solving abilities related to mathematics and science for preschool-age children. Materials and techniques for teaching using an inquiry approach while incorporating everyday experiences. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

Course Attributes:
- E1: Lifelong Learning Develop
- Environmental Sustainability
- Social Justice

E ED 615 Environmental Education in ECE (Units: 3)
Prerequisite: Upper division standing.
Helping teachers of young children to explore their sense of wonder and connection with the out-of-doors. Finding nature in the city and expanding outdoor experiences. Field trips to study sites throughout the Bay area. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

Course Attributes:
- UD-D: Social Sciences
- Environmental Sustainability

E ED 616 Language and Literacy in Multilingual ECE Settings (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Children's language learning in culturally and linguistically diverse early childhood settings. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

E ED 619 Children's Play: Theory and Practice (Units: 3)
Prerequisite: Upper division standing.
The role of play in the development of young children. The educator’s role in providing an environment which is physically safe, intellectually challenging, and emotionally nurturing, where young children have maximum opportunity to learn through play. Designing environments and programs that recognize the importance of play. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.
E ED 639 Bilingual Education in the U.S.: A History of Struggle, Resistance, and Achievement (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination, exploration and analysis of the history of bilingual education and its impact on educational opportunities for culturally and linguistically diverse students in the U.S. (Plus-minus letter grade only.) (This course is offered as EDUC 639 and E ED 639. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences

E ED 640 Gear Up Tutors in Schools (Units: 3)
Prerequisite: Must be accepted in the GEAR UP program.
Explore and identify best educational practices to prepare middle school students in San Francisco for college level studies and to gain access to higher education. May be repeated for 18 units. (CR/NC grading only)

E ED 642 Integrating Content Knowledge & Teaching Practices toward a Multiple Subj Cred.: Elem. School (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Integrating content knowledge and teaching practices on issues related to teacher preparation; content integration, test analysis, focused practice; state adopted academic content standards in the teaching profession. May be repeated for a total of 6 units, but only three units may count toward the minor in elementary education.

E ED 645 Directed Experiences with Children (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
Individually guided observation and participation experiences with children in elementary school. Registration by recommendation of adviser and consent of instructor. May be repeated for a total of 5 units. [CSL may be available]

E ED 655 Hands on Undergraduate Science Education Experience (Units: 3)
Prerequisite: Upper division standing.
Application of knowledge of core science concepts to the teaching of elementary school children; design, implement, and analyze the effectiveness of inquiry-based science learning activities to explore how children learn science.

E ED 668 Multicultural Education and Social Justice for Young Children (Units: 3)
Prerequisite: Upper division standing.
Introduces approaches for integrating education about diversity in early childhood programs. Helping young children develop positive self concept and attitudes about gender, race, ethnicity, and disabilities. Critical thinking skills for challenging bias and thriving in multicultural society. There is a requirement of 30 hours of classroom observation/participation per semester when a student is enrolled in one or more undergraduate ECE courses.

E ED 681 Teaching Language and Literature with Elementary and Middle School Students (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to children’s literature from picture books to chapter books. Topics include history of children’s literature, use of children’s literature in the preschool to grade 8 classroom, multicultural and multilingual children’s literature, and author and genre study. (Plus-minus letter grade only) (This course is offered as EDUC 681 and E ED 681. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

E ED 687 Seminar: Field Experience (Units: 1-3)
Prerequisite: Enrollment limited to Multiple Subject Credential candidates.
Understanding school and classroom culture, roles of the teacher in contemporary urban school settings. Instruction, teaching, evaluation, professional responsibilities and opportunities, and community relationships. Application of theory to practice. May be repeated for a total of 6 units. (CR/NC grading only)

E ED 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
An intensive study of a particular problem under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open to regularly enrolled students only.

E ED 700 Social, Emotional, and Physical Development in Early Childhood Education Sociocultural Contexts (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Theory and research on children’s social, emotional, and physical development across sociocultural contexts. Relationship to children’s learning, implications for early childhood education, and the design of quality programs for young children (0-8 years). (Plus-minus letter grade only)

E ED 701 Social, Cultural, and Historical Foundations of Education (Units: 3)
Prerequisites: Upper division standing and consent of instructor. Intended for Multiple and Single Subject Credential candidates.
Examines, from a critical perspective, historical, social, and cultural foundations for theoretical frameworks and pedagogical practices for the classroom.
Course Attributes:
• Teacher Credential Program Crs

E ED 703 Family Literacy Studies of the Elementary Age Child (Units: 3)
Prerequisite: Admission to MA in Elementary Education Program.
Research and theory of cross-cultural family literacy practices. Patterns of parent engagement in elementary age students’ home and school literacy practices. (Plus-minus letter grade only)
E ED 704 Children’s Play Development in School and Community (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Role of young children’s play in cross-cultural educational and community settings. Innovative practices and curriculum for promoting positive and meaningful play experiences in and out of school. (Plus-minus letter grade only)

E ED 705 Exploring Child and Adolescent Literature (Units: 3)
Prerequisite: Preliminary teaching credential or candidate in the Multiple Subject Credential program.

Exposure to a wide-range of child and adolescent literature. Examination of teaching methods and literature for use in the TK, elementary and secondary classroom. Author study and bookmaking.

E ED 707 Cognitive Development in Early Childhood Education Sociocultural Contexts (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Theory and research on children’s (0-8 years) intellectual development, as framed by sociocultural contexts. Application to instruction, curriculum development, and design of environments for young children. (Plus-minus letter grade only)

E ED 708 First and Second Language Development in Early Childhood Education (Units: 3)
Prerequisite: Consent of instructor.

Theory and research on children’s (0-8 years) first and second language development in multicultural settings. Role of culture and socialization; practical applications for children’s oral and written language learning.

E ED 709 Early Childhood Education Curriculum in Pluralistic Society (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Analyze and interpret works of various scholars that have influenced ECE curricula; discuss who decides the context of knowledge, instructional methods, as well as the evaluation system in contemporary ECE practices. (Plus-minus letter grade only)

E ED 710 Children’s Early Literacy Development in Early Childhood Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Theory, practice, and policy on children’s (0-8 years) acquisition of written language in multicultural setting. Emphasis on role of culture and socialization, and practical applications of successful classroom and childcare instruction.

E ED 711 Chinese Heritage Language for the Bilingual Teacher Candidates (Units: 3)
Prerequisite: Admission to Multiple Subject Credential Program.

To continue the advancement of the Chinese proficiency for the MS Bilingual Teacher candidates in speaking, reading, writing, listening, and culture development. Focus on pedagogical strategies to teach bilingual Chinese and second language learners in elementary classroom settings; and address the vast linguistic and cultural diversity of Chinese in the USA. (Plus-minus AB/NC)

E ED 712 Teaching Reading and Language Arts, Chinese Bilingual (Units: 3)
Prerequisite: Enrolled in the Multiple Subject Credential Program, Bilingual Authorization Chinese.

Prepares elementary school teacher candidates with theories and research findings to teach reading and language arts in Chinese. Systematic and explicit instruction in teaching a comprehensive Chinese literacy includes oral language, reading strategies, vocabulary and writing development. (Plus-minus letter grade only)

E ED 713 Spanish Heritage Language for the Bilingual Teacher: I (Units: 3)
Prerequisite: Enrolled in the Multiple Subject Credential Program, Bilingual Authorization.

Development of Spanish proficiency for the bilingual teacher in listening, speaking, reading and writing, and using culturally responsive instruction. Pedagogical strategies, and preparation for becoming reflective practitioners. Addresses linguistic/cultural diversity of Latinos/as in the USA.

Course Attributes:
• Teacher Credential Program Crs

E ED 714 Spanish Heritage Language for the Bilingual Teacher: II (Units: 3)
Prerequisites: Enrolled in the Multiple Subject Credential Program, Bilingual Authorization (Spanish); E ED 713.

Demonstration of competency in applied linguistics, pedagogical theories and practices as these are designed, planned and implemented in Spanish bilingual classroom settings.

E ED 715 Families in Early Childhood Settings and Communities (Units: 3)
Prerequisite: E ED 717 or consent of instructor.

Research, policy, and practice related to young children and families in diverse early childhood settings and communities. Family structures, cultural perspectives, family-school relationships, family literacy, and outreach programs. (Plus-minus letter grade only)

E ED 717 Narrative Inquiry and Memoir in Early Childhood Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Focus on autobiographical accounts (memoir) and stories (narrative inquiry) for understanding teaching and learning. Practical applications to teaching and use of narrative inquiry for qualitative research.

E ED 720 Research and Practice in Language and Literacy Education (Units: 3)
Prerequisite: ISED 797.

Introduction to leading ideas in quantitative and qualitative methods in educational research that focus on language and literacy; identification of research questions, review of literature, research problems, research plans, design issues, data analysis, instrument construction, data analysis, and reporting. (Plus-minus letter grading only)
E ED 721 International Education in Early Childhood and Elementary Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Interdisciplinary course on research, policy, and practice relating to international education in early childhood and elementary school. Topics include international school structures, school demographics, philosophies of schooling, curriculum, immigration, gender, and student achievement. (Plus-minus letter grade only)

E ED 723 Inservice Leadership in Reading (Units: 3)
Prerequisite: Consent of adviser and course instructor.

Development of professional growth in reading; determining staff needs; designing programs of in-service education; problems of consultation and program development, aiding in development of curriculum and improvement of instruction. (Plus-minus letter grade only.)

E ED 725 Classroom Issues in Language, Literacy, and Culture (Units: 3)
Prerequisite: Consent of instructor.

Research and theory on language and literacy development in linguistically and culturally diverse communities and classrooms; first and second language acquisition; emergent literacy; implications of research for culturally responsive teaching and classroom organization. (Plus-minus letter grade only)

E ED 726 Engaging Young Writers in Classroom Settings, TK-12 (Units: 3)
Prerequisite: Preliminary teaching credential or candidate in the Multiple Subject Credential Program.

Introduction to theories and practices of teaching writing in elementary and secondary level classrooms. Writing research, methodology, student assessment, and literature connections.

E ED 737 Teaching Social Studies, Social Justice, and Literacy: Grades 3-6 (Units: 3)
Prerequisites: E ED 783, E ED 782, E ED 784, E ED 749. Must be taken concurrently with one or two of the following courses: E ED 777, E ED 747, E ED 757, E ED 748, E ED 758.

Frameworks and methods for implementing integrated curriculum in elementary school, focusing on social studies content and social justice perspective. Instruction in use of effective expository literacy strategies for students in grades 3-6. Field practicum required. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

E ED 738 Language and Literacy Development, TK-3 (Units: 3)
Prerequisite: Admission to Multiple Subject Credential Program.

Methods and materials in teaching reading/language arts to linguistically and culturally diverse students from preschool to grade 3. First and second language acquisition theories and their relationship to teaching literacy. (Plus-minus letter grade only)

E ED 746 Teaching Practicum Phase I (Units: 1-3)
Prerequisites: Acceptance to MSC program; must be taken concurrently with E ED 756, E ED 701, E ED 749, E ED 784 (or E ED 777).

Developmental field experience in a public elementary school under guidance of a resident teacher. Teaching is planned and practiced at the beginning level based on California State standards. May be repeated for a total of 4 units. (CR/NC grading only)
Course Attributes:
• Teacher Credential Program Crs

E ED 747 Teaching Practicum Phase II (Units: 1-3)
Prerequisites: E ED 746, E ED 756, E ED 701, E ED 749, E ED 784 (or E ED 777). Must be taken concurrently with E ED 757, E ED 782, E ED 777 (or E ED 784).

Developmental field experience in a public elementary school under the supervision of a resident teacher. Teaching planned and practiced at the developmental level, based on California State standards. May be repeated for a total of 3 units. (CR/NC grading only)
Course Attributes:
• Teacher Credential Program Crs

E ED 748 Teaching Practicum Phase III (Units: 1-7)

Final phase of student teaching conducted in a public elementary school under supervision of a resident teacher. Planned and practiced at the competency level. Assessment based on California state standards. May be repeated for a total of 12 units. (CR/NC grading only)
Course Attributes:
• Teacher Credential Program Crs

E ED 749 Second Language Acquisition in the Elementary School (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

First and second language acquisition theories and their relationship to second language learning; psychological, social, and linguistic aspects of second language acquisition of children; socio-political factors related to language issues. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

E ED 756 Teaching Practicum Seminar Phase I (Units: 1-3)
Prerequisites: Admission to multiple subject program; first semester enrollment. Must be taken concurrently with E ED 746, E ED 701, E ED 749, E ED 784 (or E ED 777).

Supports skill in planning, teaching, and assessing all students across elementary school curriculum. Instruction in classroom management. Addresses California K-12 content and English language standards. May be repeated for a total of 3 units. (CR/NC grading only)
Course Attributes:
• Teacher Credential Program Crs
E ED 757 Teaching Practicum Seminar Phase II (Units: 1-3)
Prerequisites: E ED 746, E ED 756, E ED 701, E ED 749, E ED 784 (or E ED 777). Must be taken concurrently with E ED 747, E ED 782, E ED 777 (or E ED 784).

Development of skills in planning, teaching, and assessing all students across the elementary school curriculum. Instruction in classroom management. Addresses California K-12 content and English language standards. May be repeated for a total of 3 units. (CR/NC grading only.)

Course Attributes:

• Teacher Credential Program Crs

E ED 758 Teaching Practicum Seminar Phase III (Units: 1-3)

Interdisciplinary project based learning in the elementary school. Topics include home school communication and role of school as social service agency and legal issues. Preparation for final standards based teaching performance assessment. May be repeated for a total of 3 units. (CR/NC grading only)

Course Attributes:

• Teacher Credential Program Crs

E ED 760 Seminar on Social Issues and Curriculum Development (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Social issues and their influence on school organization and curriculum development. Patterns of organization and curriculum in elementary schools. (Plus-minus letter grade only)

E ED 761 School Mathematics: Problem Solving (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Curriculum development in mathematics. Problem solving strategies as a unifying theme for content selection. (This course is offered as E ED 761 and S ED 761. Students may not repeat the course under an alternate prefix.)

E ED 763 Integrating Language, Literacy, and Technology in Elementary School Curriculum (Units: 3)
Prerequisite: Consent of Elementary Education adviser or instructor.

Prepare elementary school teachers to provide English language arts instruction that is enhanced by the thoughtful and effective integration of technology. (Plus-minus letter grading only)

E ED 764 Elementary School Social Studies (Units: 3)
Prerequisite: Consent of Elementary Education adviser or instructor.

Curriculum development in social studies methods, materials, and curriculum sequence. (Plus-minus letter grade only)

E ED 765 Elementary School Science (Units: 3)
Prerequisite: Consent of Elementary Education adviser or instructor.

Curriculum development in science methods, materials, and curriculum sequence. (Plus-minus letter grade only)

E ED 767 Elementary School Creative Arts (Units: 3)
Prerequisite: Consent of Elementary Education adviser or instructor.

Curriculum development in creative arts methods, materials, and curriculum sequence. (Plus-minus letter grade only)

E ED 769 Practitioner Research in Elementary Classrooms (Units: 3)
Prerequisite: Multiple subject credential or consent of instructor.

Examination of methods of practitioner research that allow teachers to address problems of practice as they arise in the classroom. Students become familiar with relevant research literature and engage in targeted practitioner research relevant to their current teaching placement.

E ED 770 Teaching Integrated Literacy and Assessment, TK-5 (Units: 3)
Prerequisite: Preliminary teaching credential or candidate in the Multiple Subject Credential Program.

On-going classroom instructional strategies highlighting integrated approach to content and literacy acquisition. Administration and interpretation of a variety of assessments to identify and design instructional intervention. (AB/NC grading only)

E ED 771 Literacy Clinic II: Multidisciplinary Assessment and Remediation of Language and Literacy Problems (Units: 3)
Prerequisite: E ED 770.

Theory and proficiency in the practice and adaptation of test administration skills and interactive instructional strategies. Students assess and tutor K-12 children with reading and language problems. (AB/NC grading only)

E ED 772 Literacy Education Clinic I (Units: 1-3)
Prerequisites: Candidate in Reading Specialist Credential Program; must be taken concurrently with E ED 770.

Teach one-to-one struggling readers or provide instruction to small groups of struggling readers in an elementary school setting. Candidates use intervention strategies to improve reading. (CR/NC only)

E ED 773 Literacy Education Clinic II (Units: 1-3)
Prerequisites: Reading Specialist Candidate; E ED 770; and concurrent enrollment in E ED 771.

Teach in a school setting using intervention reading strategies to assist and support struggling readers who are adolescents. (CR/NC only)

E ED 777 Curriculum and Instruction in Science (Units: 3)
Prerequisite: Admission to Multiple Subject Credential program.

Planning, developing, teaching, and evaluating learning experiences in science. Performance based objectives. Classroom, 1 unit; laboratory, 2 units. (Plus-minus letter grade only)

Course Attributes:

• Teacher Credential Program Crs

E ED 781 Curriculum, Instruction, and Assessment for Teacher Leaders (Units: 3)
Prerequisite: E ED 760.

Curriculum, instruction, and assessment for elementary teachers. Examination of the role of leaders in teaching and learning and high quality professional development. (AB/NC grading only)
E ED 782 Teaching Reading/Language Arts K-3 (Units: 3-4)
Prerequisites: Admission to Multiple Subjects Credential program; could be taken concurrently with E ED 701, E ED 749, E ED 783, E ED 784 or E ED 777.

Research-based teaching practices for early literacy development. Systematic and explicit instruction in teaching a comprehensive literacy curriculum in grades K-3 that includes oral language development. Basic reading skills, strategic reading behavior, language arts skills, vocabulary and writing development. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

E ED 783 Developmental Teaching and Learning in Diverse School Settings, K-8 (Units: 3)
Prerequisites: Acceptance to MSC program; could be taken concurrently with E ED 701, E ED 749, E ED 782, E ED 784 or E ED 777.

Theory and research based examination of cognitive, social-emotional, ethical, and physical development in sociocultural contexts including special populations. Impact of culture, family, community, and school. Guided experience in schools. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

E ED 784 Curriculum and Instruction in Mathematics (CLAD Emphasis) (Units: 3)
Prerequisite: Admission to Multiple Subjects Credential program.

Methods and materials for teaching mathematics to linguistically and culturally diverse elementary school students. Review of content of mathematics curriculum, classroom organization, assessment, and guided experiences in schools. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

E ED 785 Literacy Theories: Connections to Classroom Practices (Units: 3)
Prerequisite: Enrolled in Elementary Education MA Concentration in Language and Literacy.

Research on literacy theories that have influenced education in the US. Examination of critical literacy theories, research, and the connections to classroom practices in elementary schools.

E ED 786 Seminar in Developmental Teaching and Learning (Units: 3)
Prerequisites: Restricted to graduate students enrolled in Multiple Subjects Credential program; concurrent enrollment in E ED 746 or E ED 747.

Examination of cognitive, social-emotional, ethical, and physical development of children in sociocultural contexts; interrelated impacts of culture, family, community, and school on development; educational research and its applications to create positive and productive learning environments. (Plus-minus AB/NC)

E ED 787 Foundations in Social Studies Curriculum and Instruction (Units: 3)
Prerequisite: Admission to Multiple Subject Credential Program.

Curriculum and instruction in elementary classrooms. Development of a critical perspective assists candidates in forming an educational philosophy derived from a social justice and English Language Development (ELD) perspectives for culturally and linguistically diverse classrooms.

E ED 788 Curriculum and Instruction in Mathematics for Bilingual Teachers 2: Deepening Content and Pedagogy (Units: 3)
Prerequisites: Restricted to students in the Multiple Subject Credential Bilingual Program; E ED 784.

Necessary language to teach mathematics in Spanish and English, and pedagogical content knowledge for teaching algebra, geometry, and probability for K-8. Curriculum development, assessment techniques, and culturally responsive practices are emphasized. (Plus-minus letter grade only)

E ED 796 Analyzing Cases of Mathematical Teaching (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Cases of mathematics teaching practice are a catalyst for analytic discussion of assessment, mathematical representation, and student misconceptions. Teaching decisions are evaluated in the context of real classroom situations with regard to their impact on student learning, motivation, and beliefs. (Plus-minus letter grade only)
(This course is offered as E ED 796 and S ED 796. Students may not repeat the course under an alternate prefix.)

E ED 799 Pact Independent Plan (Units: 1-3)

E ED 801 Practitioner Inquiry for Administration of Early Childhood Curricula (Units: 3)
Prerequisites: E ED 700, E ED 707, E ED 708, or consent of instructor.

Application of practitioner research for developing and evaluating early childhood curricula. Reflective practice and collaborative action research methodologies for coordination and administration of curricula.

E ED 806 Leadership, Adult Supervision, and Family Advocacy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Comprehensive study and training in current research, theory, and implementation of administration and leadership goals, strategies, and programs for young children, families, and educators. Adult supervision, leadership, and advocacy in early childhood settings. (Plus-minus letter grade only)

E ED 807 Leadership Development in Mathematics Education (Units: 3)
Prerequisite: Consent of instructor.

Enhancement and development of mathematical ideas and instructional methodologies from a classroom perspective to a theoretical framework. Knowledge of curriculum development and leadership skills; dissemination to other teachers.
(This course is offered as E ED 807 and S ED 807. Students may not repeat the course under an alternate prefix.)

E ED 820 Seminar in Infant-Toddler Group Care Education Programs (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Seminar in infant-toddler development. Theory, research, and practice in diverse settings. Temporary issues in infant-toddler care, cross-cultural perspectives, and caregiver models. (Plus-minus letter grade only)
E ED 850 Seminar in Early Childhood Mathematics and Science Curriculum (Units: 3)
Prerequisites: E ED 700, E ED 707, E ED 708, or consent of instructor.
Planning, developing instructional materials, and evaluating learning experiences for children ages pre-kindergarten to eight in mathematics and the life and physical sciences. (Plus-minus letter grade only)

E ED 856 Assessing Mathematical Thinking (Units: 3)
Prerequisite: Consent of instructor.
Assessment strategies for classroom use; dimensions of students’ mathematical thinking and learning. Development of performance assessments includes open-ended tasks and portfolios. (This course is offered as E ED 856 and S ED 856. Students may not repeat the course under an alternate prefix.)

E ED 869 Enhancing Access for Bi-Literate Learner, TK-12 (Units: 3)
Prerequisite: Preliminary teaching credential or candidate in the Multiple Subject Credential program.
Introduction to theories on language development for bilingual and bi-literate learners from preschool to 12th grade. Examining how bi-cultural and bilingual students develop bi-literacy. Investigating research-based instructional strategies that provide curriculum access to students in classroom settings. (Plus-minus letter grade only)

E ED 878 Multicultural Educational Theory and Practice for the Young Child (Units: 3)
Prerequisite: Consent of instructor.
Relationships among ethnic identity, culture, and human development; multicultural curriculum design and pedagogical strategies that recognize ethnic displays of competence and utilize cognitive preferences developed in particular socialization practices. (Plus-minus letter grade only)

E ED 882 Literacy Instruction in K-12 Classrooms (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Methods, materials, and assessment for teaching diverse reading/language arts to linguistically and culturally diverse students in grades K-12; linguistic and print concepts; reading comprehension; developmental strategies; guided experiences in schools. Preliminary Level I primarily intended for Education Specialist Credential students.

E ED 890 Seminar on Field Studies in the Elementary Classroom (Units: 3)
Prerequisite: ISED 797.
Topics in early childhood and elementary education: classroom-based research methods and reflective practice; planning and implementation of research, including literature review, research design, data collection, analysis, and presentation of findings. (CR/NC grading only)

E ED 895 Field Study (Units: 3)
Prerequisite: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Alternative culminating study for the Master of Arts in Education conducted under direction of graduate major adviser. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)
Engineering (ENGR)

ENGR 100 Introduction to Engineering (Unit: 1)
Prerequisites: High school algebra and trigonometry.

Description of the major engineering fields and their subfields. Day to day activities of engineers. Engineering professionalism, ethics, communication skills, lifelong learning and career planning. Survival skills. Safety issues and School of Engineering policies. (Plus-minus letter grade only)

ENGR 101 Engineering Graphics (Unit: 1)
Prerequisite: Must be taken concurrently with ENGR 100.

ENGR 102 Statics (Units: 3)
Prerequisites: MATH 227, PHYS 220.

Vector treatment of force systems acting on particles and rigid bodies. Centroids and moments of inertia. Trusses, machines, fluid statics, shear and moment diagrams for beams, and friction. Applications to structural and mechanical problems. (Plus-minus letter grade only)

ENGR 103 Introduction to Computers (Unit: 1)
Prerequisite: MATH 226.

Introductory course on programming, using a high-level language. Use of algorithms. Program organization, formulation, and solution of engineering problems. Laboratory.

ENGR 120 Introduction to Computer Engineering (Units: 3)
Prerequisites: High school algebra and trigonometry.

Introduction to the profession, areas of study, university rules and regulations, curriculum requirements, time management and study skills, critical thinking, problem solving skills, ethics, introduction to computer and basic computer skills including graphics, spreadsheet, database, Internet, and web page design. Classwork, 2 units; activity, 1 unit. (ABC/NC grading only)

ENGR 121 Gateway to Computer Engineering (Unit: 1)
Prerequisite: High school algebra and trigonometry.

Hands-on introduction to embedded computer systems. Basic laboratory instrumentation, electronic circuit assembly, measurement, and testing. Introduction to hardware and software of robots. Laboratory. (Plus-minus letter grade only)

ENGR 200 Materials of Engineering (Units: 3)
Prerequisite: CHEM 115 or CHEM 180.

Application of basic principles of physics and chemistry to engineering materials; their structures and properties and the means by which these materials can be made of better service to all fields of engineering. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 201 Dynamics (Units: 3)
Prerequisite: ENGR 102.

Vector treatment of kinematics and kinetics of particles, systems of particles and rigid bodies. Methods of work, energy, impulse, and momentum. Vibrations and time response. Applications to one- and two-dimensional engineering problems. (Plus-minus letter grade only)

ENGR 203 Materials of Electrical and Electronic Engineering (Units: 3)
Prerequisite: CHEM 115 or CHEM 180.

Application of basic principles of physics and chemistry to electrical and electronic engineering materials. Conductors, insulators, and semiconductors; electrical conductors; mechanical properties of conductors; manufacturing conductors; electrochemistry; electrical insulators; plastics; magnetic materials; superconductors and optical fibers. (Plus-minus letter grade only)

ENGR 204 Engineering Mechanics (Units: 3)
Prerequisites: MATH 227, PHYS 220.

ENGR 205 Electric Circuits (Units: 3)
Prerequisites: PHYS 230 and MATH 245; MATH 245 may be taken concurrently.

Circuit analysis, modeling, equivalence, circuit theorems. PSpice simulation. Ideal transformers and operational amplifiers. Transient response of 1st-order circuits. AC response, phasor analysis, impedance, power. (Plus-minus letter grade only)

ENGR 206 Circuits and Instrumentation Laboratory (Unit: 1)
Prerequisite: ENGR 205 (may be taken concurrently).

Electrical measurements and laboratory instrumentation. Verification of circuit laws and theorems. Operational amplifier circuits. AC steady-state behavior and frequency response. Transient characteristics of first-order circuits. Introduction to PSpice. Extra fee required.

ENGR 212 Introduction to Unix and Linux for Engineers (Units: 2)
Prerequisite: Priority enrollment for computer engineering students. Other students may enroll on a space available basis by consent of instructor.

Introduction to software development and program development in the Unix/Linux environment. File system organization and management, editors, utilities, network environment, pattern and file searching, command line interface, scripting languages. Classwork, 1 unit; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 213 Introduction to C Programming for Engineers (Units: 3)
Prerequisite: MATH 226 with a grade of C- or better.

Introduction to C programming; defining and analyzing problems; design of algorithms; implementation, testing, debugging, maintenance and documentation of programs; coverage of basic algorithms, programming concepts and data types; C programming of microcontrollers. (Plus-minus letter grade only)

ENGR 220 Energy: Resources, Alternatives, and Conservation (Units: 3)
Prerequisite: High school level mathematics or consent of instructor.

Energy, natural and renewable resources. Conversion to usable forms of energy. Demand reduction. Effect on resource conservation and environment. Every day usage of energy (in automobiles, homes, and work place) is emphasized. [CSL may be available]
ENGR 235 Surveying (Units: 3)
Prerequisites: ENGR 100 and MATH 226.
Surveying: distance, elevation, and direction measurements; traverse analysis; contours; topography; areas calculations. Introduction to GPS and GIS. The US public lands system. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 290 Modular Elective (Unit: 1)
Prerequisite: Engineering students in sophomore year or later.
Topic to be specified in Class Schedule. May be repeated for a total of 3 units when topics vary. (Plus-minus letter grade only)

ENGR 300 Engineering Experimentation (Units: 3)
Prerequisites: ENGR 200 or ENGR 206, ENGR 205, ENG 214 with grade of C- or better.
This course is first in a series of courses (ENGR 300, ENGR 301 or ENGR 302, ENGR 696, and ENGR 697GW) that when completed with a C or better will culminate in the satisfaction of the University Written Eng Proficiency/GWAR if taken Fall 2009 or later. (Plus-minus ABC/NC grading only)

ENGR 301 Microelectronics Laboratory (Unit: 1)
Prerequisites: ENGR 300 and ENGR 353 (may be taken concurrently).
Measurement techniques, device characterization, experimental verification, and PSpice simulation. 2nd-order transient and frequency responses. Characterization of diodes, BJTs, and FETs. Diode circuits, transistor amplifiers, simple logic gates. Laboratory. Extra fee required.
This course is second in a series of courses (ENGR 300, ENGR 301 or ENGR 302, ENGR 696, and ENGR 697GW) that when completed with a C or better will culminate in the satisfaction of the University Written English Proficiency/GWAR if taken Fall 2009 or later. (Plus-minus ABC/NC grading only)

ENGR 302 Experimental Analysis (Unit: 1)
Prerequisites: ENGR 300, ENGR 304 (may be taken concurrently), and ENGR 309.
Experimental investigation and analysis of engineering systems: structural elements, fluid devices, and thermal systems. Use of computers for data acquisition. Laboratory. Extra fee required.
This course is second in a series of courses (ENGR 300, ENGR 301 or ENGR 302, ENGR 696, and ENGR 697GW) that when completed with a C or better will culminate in the satisfaction of the University Written Eng Proficiency/GWAR if taken Fall 2009 or later. (Plus-minus ABC/NC grading only)

ENGR 303 Engineering Thermodynamics (Units: 3)
Prerequisite: PHYS 240.
Application of thermodynamics to a variety of energy exchanging devices; properties of the pure substance, ideal gases, and mixtures; power and refrigeration cycles. (Plus-minus letter grade only)

ENGR 304 Mechanics of Fluids (Units: 3)
Prerequisites: ENGR 201 and PHYS 240.
Statics and dynamics of incompressible fluids, dimensional analysis, and similitude; fluid friction, laminar, and turbulent flow in pipes; forces on submerged structures; fluid measurements. (Plus-minus letter grade only)

ENGR 305 Linear Systems Analysis (Units: 3)
Prerequisites: MATH 245 and ENGR 205 with a grade of C- or better.

ENGR 306 Electromechanical Systems (Units: 3)
Prerequisite: ENGR 205 with a grade of C- or better.
Electromechanical energy conversion. Operating characteristics of transformers; DC and AC rotating machines: speed, torque, and profile control. Motion control system using stepper motors. System design, specifications, and simulation. (Plus-minus letter grade only)

ENGR 309 Mechanics of Solids (Units: 3)
Prerequisites: ENGR 102 and ENGR 200 (may be taken concurrently).

ENGR 315 Systems Analysis Lab (Unit: 1)
Prerequisite: ENGR 305 (may be taken concurrently).

ENGR 323 Structural Analysis (Units: 3)
Prerequisite: ENGR 309.
Structural engineering, including standards and codes. Determination of loads, discussion of load path. Analysis of statically determined structures. Forces within statically indeterminate structures. Structural analysis software. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 350 Introduction to Engineering Electromagnetics (Units: 3)
Prerequisites: MATH 245 and PHYS 240 with grades of C- or better.

ENGR 353 Microelectronics (Units: 3)
Prerequisites: ENGR 205 and ENGR 206 with grades of C- or better.
PN Diodes, BJTs, and MOSFETs. Semiconductor device basics, characteristics and models. Diode applications. Transistor biasing, basic amplifier configurations, and basic logic circuits. PSpice simulation. (Plus-minus letter grade only)
ENGR 356 Digital Design (Units: 3)
Prerequisite: ENGR 205 with a grade of C- or better.
Number systems. Design of combinational and sequential circuits. Logic simplification. Digital functional units such as adders, decoders, multiplexers, registers, and counters. State-machine design. Storage and programmable devices. Register transfer level.

ENGR 357 Digital Design Laboratory (Unit: 1)
Prerequisite: ENGR 356 (may be taken concurrently).
Circuit construction and troubleshoot techniques. EDA tools and simulation. Combinational and sequential circuits. Semiconductor memory. Extra fee required.

ENGR 364 Materials and Manufacturing Processes (Units: 3)
Prerequisites: ENGR 201 and ENGR 309.
Integration of stress analysis and failure theories with knowledge of materials and manufacturing processes in machine design. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 378 Digital Systems Design (Units: 3)
Prerequisite: ENGR 356 with a grade of C- or better.
CMOS digital circuits and their electrical properties. Logic circuit design with functional units. Algorithmic sequential machine design. Design with programmable logic devices. Hardware description and simulation language. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 410 Process Instrumentation and Control (Units: 3)
Prerequisites: ENGR 300 and ENGR 305.

ENGR 411 Instrumentation and Process Control Laboratory (Unit: 1)
Prerequisite: ENGR 410 (may be taken concurrently).
Instrumentation for measurement of flow, temperature, level and pressure. Experiments on level, flow, and temperature control. PI, PID, and programmable logic controllers.

ENGR 415 Mechatronics (Units: 3)
Prerequisite: ENGR 305.
Basics of a multidisciplinary field that combines electronics, mechanical design and simulation, and control systems. Simulation and design of systems with sensors, controllers and actuators. System elements including common sensors, actuators and various electronic controllers. (Plus-minus letter grade only)

ENGR 416 Mechatronics Lab (Unit: 1)
Prerequisite: ENGR 415 (may be taken concurrently).
Experiments connected with mechatronics concepts. Programming microcontrollers, PLCs, computer-based controllers and their selection for mechatronic systems. Sensor and actuator experiments. Mechatronics project.

ENGR 421 Structural Engineering Laboratory (Unit: 1)
Prerequisite: ENGR 323.
Hands-on experimentation to verify theories and concepts. Develop an understanding of why design specifications are written to avoid detrimental structural behaviors. Laboratory, 1 unit.

ENGR 425 Reinforced Concrete Structures (Units: 3)
Prerequisite: ENGR 323 (may be taken concurrently).
Design of reinforced concrete structural systems. Elements of systems including beams, slabs, columns, connections. Ultimate strength approach to safety and serviceability: bending, shear, and axial loads. (Plus-minus letter grade only)

ENGR 426 Steel Structures (Units: 3)
Prerequisite: ENGR 323 (may be taken concurrently).
Design of steel structures, members, and connections. Effects of loads causing flexure, shear and axial force, and their combinations on design choices. Steels and sections used in structural design. Use of design specifications. (Plus-minus letter grade only)

ENGR 427 Wood Structures (Units: 3)
Prerequisite: ENGR 323 (may be taken concurrently).
Design of wood structures. Design procedures and specifications of the wood structural members subjected to tension, compression, flexure, and combined bending with axial forces. Design building codes and seismic provisions of wood structures. (Plus-minus letter grade only)

ENGR 429 Construction Management (Units: 3)
Prerequisite: ENGR 235.
Construction engineering and management; professional practice and ethics; bidding and contracting; planning and scheduling, network diagrams, scheduling computations, resource management, computer applications; cost estimating; construction safety. (Plus-minus letter grade only)

ENGR 430 Soil Mechanics (Units: 3)
Prerequisite: ENGR 309.
Soil as an engineering material with emphasis on identification, physical and mechanical properties. Evaluation of water flow through soil, settlement, soil strength, earth pressure, pile pullout capacity, and basic slope stability. Laboratory-based term project. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 431 Foundation Engineering (Units: 3)
Prerequisite: ENGR 430.
Settlement of structures on deep and shallow foundations. Evaluation of undrained and drained soil strength. Analysis and design of gravity, cantilever and anchored walls. Ultimate capacity of deep and shallow foundations. (Plus-minus letter grade only)

ENGR 432 Finite Element Methods in Structural and Continuum Mechanics (Units: 3)
Prerequisite: ENGR 309.
Fundamental concepts of the finite element method for one- and two-dimensional elements. Applications in the areas of structural analysis, plane stress and plane strain, and two-dimensional groundwater flow. Computer implementation of finite element techniques. (Plus-minus letter grade only)

ENGR 433 Soil Mechanics Laboratory (Unit: 1)
Prerequisite: ENGR 430 (may be taken concurrently).
Standard commercial soil testing including basic soil properties, in situ density, compaction, permeability, consolidation, grain size, evaluation, and others. Reduction and interpretation of test results. (Plus-minus letter grade only)
ENGR 434 Principles of Environmental Engineering (Units: 3)
Prerequisites: CHEM 115 or CHEM 180; and ENGR 304 (may be taken concurrently).

Fundamentals of environmental engineering: water quality, water chemistry, water treatment, air quality, and solid waste management. (Plus-minus letter grade only)

ENGR 435 Environmental Engineering Design (Units: 3)
Prerequisite: CHEM 115 or CHEM 180.

Design concepts for environmental engineering systems relating to municipal and industrial wastewater treatment, disposal, and reuse. (Plus-minus letter grade only)

ENGR 436 Transportation Engineering (Units: 3)
Prerequisites: ENGR 235 and ENGR 430 (may be taken concurrently).

Principles, theories, and practice of transportation planning and design.

ENGR 437 Water and Energy Recovery from Liquid and Solid Waste (Units: 3)
Prerequisite: CHEM 115 or CHEM 180.

Definitions, liquid waste (wastewater, sludge), solid waste, physical processes, chemical processes, biological (aerobic, anaerobic) processes, chemical reaction kinetics, biological reaction kinetics, fundamentals of process design, conservation of mass, conservation of energy, oxidation-reduction reactions, energy content of organic matter natural processes. (Plus/Minus Letter grade only)

ENGR 439 Construction Engineering (Units: 3)
Prerequisites: ENGR 309 and ENGR 430 (may be taken concurrently).

Topics in construction engineering; construction methods and equipment, excavating, loading, hauling, and finishing; production of construction materials; compressed air and water systems; concrete form design; quality control. (Plus-minus letter grade only)

ENGR 440 Ethical Issues in Science and Technology (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.

Ethical dimensions of science and technology. Conceptual and theoretical frameworks from the humanities and the life sciences. (This course is offered as BIOL 440 and ENGR 440. Students may not repeat the course under an alternate prefix.)

ENGR 441 Fundamentals of Composite Materials (Units: 3)
Prerequisites: Major or minor; MATH 245 and ENGR 309.

ENGR 442 Operational Amplifier Systems Design (Units: 3)
Prerequisite: ENGR 305 with a grade of C- or better.

ENGR 445 Analog Integrated Circuit Design (Units: 4)
Prerequisites: ENGR 301 and ENGR 353 with grades of C- or better.

Integrated circuit technology, transistor characteristics and models. Analysis and design of monolithic op amps. Frequency response, negative feedback, stability, PSpice simulation. Classwork, 3 units; laboratory, 1 unit. Extra fee required. (Plus-minus letter grade only)

ENGR 446 Control Systems Laboratory (Unit: 1)
Prerequisite: ENGR 447 (may be taken concurrently).

Simulation and modeling of control systems using Matlab and Simulink. Control experiments using servomotors and industrial emulators. Control project. Laboratory.

ENGR 447 Control Systems (Units: 3)
Prerequisite: ENGR 305 with a grade of C- or better.

ENGR 448 Electrical Power Systems (Units: 3)
Prerequisite: ENGR 306 with a grade of C- or better.

Operating characteristics of transmission lines, transformers, and machines. Symmetrical component theory and sequence network method. Use commercial programs to conduct load flow study, short circuit analysis, and economic dispatch problems. State estimation, unit commitment, and system transient and stability issues. (Plus-minus letter grade only)

ENGR 449 Communication Systems (Units: 3)
Prerequisite: ENGR 305 with a grade of C- or better.

Review of linear systems. Amplitude (AM), frequency (FM), and phase (PM) modulation systems. Transmitter and receiver design. Frequency and time-domain multiplexing. Digital modulation techniques: line coding, pulse shaping, channel equalization techniques. Error correcting techniques.

ENGR 451 Digital Signal Processing (Units: 4)
Prerequisites: ENGR 305 and either ENGR 213, CSC 210 or ENGR 290 (Matlab), all with grades of C- or better.

ENGR 453 Digital Integrated Circuit Design (Units: 4)
Prerequisites: ENGR 301, ENGR 353, and ENGR 356 with grades of C- or better.

Integrated circuit technology, transistor characteristics and models. MOS and bipolar logic families, noise margins, speed, power, fanout, interfacing, PSpice simulation. Regenerative circuits and memories. Classwork, 3 units; laboratory, 1 unit. Extra fee required. (Plus-minus letter grade only)
ENGR 455 Power Electronics (Units: 4)
Prerequisites: ENGR 301, ENGR 306, and ENGR 353, all with grades of C- or better.

Power device characteristics. Circuit and component design and analysis concepts. Uncontrolled and phase controlled rectifier circuits. DC to DC converters. Switching DC power supply. Pulse width modulation. DC to AC inverter. Utility interface and harmonic issues. Classwork, 3 units; laboratory, 1 unit. Extra fee required.

ENGR 456 Computer Systems (Units: 3)
Prerequisites: ENGR 356 and either ENGR 213 or CSC 210, all with grades of C- or better.

Computer performance measurements. Instruction set architecture. Program sequencing. Basic processor organization, arithmetic logic unit, simple and pipelined datapaths. Hardwired and microprogrammed control. Memory system configuration, cache and virtual memory management. (Plus-minus letter grade only)

ENGR 458 Renewable Electrical Power Systems and Smart Grid (Units: 3)
Prerequisite: ENGR 306 with a grade of C or better.

Introduction to electric power industry; electric circuit and electric power; transmission lines; transformers; synchronous generators; photo-voltaic systems; wind power systems; smart grid. (Plus-minus letter grade only)

ENGR 461 Mechanical and Structural Vibrations (Units: 3)
Prerequisites: ENGR 201, ENGR 309, and MATH 245.

Dynamic excitation and response of mechanical and structural systems. Frequency and time domain; energy methods, Rayleigh’s principle, modal analysis. Vibration damping, resonance, isolation, absorption parametric excitation, and influence coefficients. (Plus-minus letter grade only)

ENGR 463 Thermal Power Systems (Units: 3)
Prerequisites: ENGR 302 and ENGR 467.

Application of thermodynamics, fluid mechanics, and heat transfer to design of energy systems. Economic and environmental aspects stressed as design criteria. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 464 Mechanical Design (Units: 3)
Prerequisite: ENGR 364.

Application of principles of mechanics, materials science, and stress analysis to design of components and machines. Mechanical behavior of materials. Synthesis and analysis of major machine design project. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 465 Principles of HVAC (Units: 3)
Prerequisites: ENGR 303 and ENGR 304.

Air requirements in buildings, heating and cooling load calculation methods and computer software, heating and cooling equipment, flow in pipes and ducts, and clean room technology. (Plus-minus letter grade only)

ENGR 466 Gas Dynamics and Boundary Layer Flow (Units: 3)
Prerequisites: ENGR 303 and ENGR 304.

Review of the fundamentals of fluid dynamics, formulation and application of compressible fluid flow, shock waves. Concept and formulation of laminar and turbulent boundary layers, external flows, flow around immersed bodies.

ENGR 467 Heat Transfer (Units: 3)
Prerequisites: ENGR 303 and ENGR 304.

Fundamental principles of heat transfer with applications to design. Conduction, transient and steady state; free and forced convection; radiation. Heat exchangers. (Plus-minus letter grade only)

ENGR 468 Applied Fluid Mechanics and Hydraulics (Units: 3)
Prerequisite: ENGR 304.

Fluid mechanics: incompressible flow to steady and transient flow problems in piping networks, turbo-machines, and open channels. (Plus-minus letter grade only)

ENGR 469 Alternative and Renewable Energy Systems (Units: 3)
Prerequisite: ENGR 303.

Theory and practical applications of renewable energy systems, including solar, hydro, and wind power. Biomass and biofuels. Environmental, social, and economic factors related to energy conversion processes. (Plus-minus letter grade only)

ENGR 470 Biomechanics (Units: 3)
Prerequisites: Mechanical and Civil Engineering major and minor; ENGR 300 and ENGR 309.

Understanding and characterizing the mechanical behavior of biological tissues and systems with emphasis on the fundamentals of biomechanics including force analysis, mechanics of deformable bodies, stress analysis, and viscoelasticity. (Plus-minus letter grade only)

ENGR 476 Computer Communications Networks (Units: 3)
Prerequisites: ENGR 356 and either ENGR 213 or CSC 210, all with grades of C- or better.

Technological precedence and alternatives in setting up a computer communication network. OSI, DSL, cable modems, PPP, Ethernet, TCP/IP, wireless LANs, Frame Relay, ATM, and SONET topics. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ENGR 478 Design with Microprocessors (Units: 4)
Prerequisites: ENGR 356 and either ENGR 213 or CSC 210, all with grades of C- or better.

ENGR 491 Real-time Digital Signal Processing (Units: 3)
Prerequisites: Restricted to upper division standing; ENGR 213 and ENGR 451.

Implementation of real-time digital signal processing algorithms on special-purpose hardware. Use of assembly and C languages to develop and test IIR and FIR filters, FFT, and waveform generation for modern DSP chips, Fast convolution. Sampling aliasing and jitter. Scaling for fixed point arithmetic. Special analysis, DSP applications, including sound synthesis and real-time audio signal processing. Lecture, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)
ENGR 610 Engineering Cost Analysis (Units: 3)
Prerequisites: ENGR 103 or ENGR 213 (may be taken concurrently) and MATH 227 (may be taken concurrently).

Quantifying alternative for decision making, time-value of money, project investment evaluation, comparison of alternatives, engineering practice applications, and introduction to value engineering. (Plus-minus letter grade only)

ENGR 620 Wheelchair Building (Units: 2)
Prerequisite: Upper division standing or consent of instructor. Gas brazing skills preferred; taught when needed.

This course is for both beginning and advanced designers and fabricators. Building a wheelchair from scratch; testing new designs; learning metal fabrication and small manufacture techniques. For more information, please go to http://www.whirlwindwheelchair.org.

ENGR 693 Cooperative Education Program (Units: 3-12)
Prerequisite: Upper division standing or consent of instructor.

Intended for engineering majors. Supervised employment in an academically relevant field of study. Units do not count toward the major. May be repeated for a total of 24 units. (CR/NC grading only)

ENGR 694 Cooperative Education in Engineering (Unit: 1)
Prerequisite: Consent of adviser.

Written and oral report of work performed with outside agency. Evaluation of work by engineering adviser and/or faculty committee. (CR/NC grading only)

ENGR 696 Engineering Design Project I (Unit: 1)
Prerequisites: Senior standing with 21 upper division units in engineering; ENGR 301 or ENGR 302.

Selection of design project, methods of research, time management, engineering professional practice and ethics. This course is 3rd in a series of courses (ENGR 300, ENGR 301 or ENGR 302, ENGR 696, and ENGR 697GW) that when completed with a C or better will culminate in the satisfaction of the University Written English Proficiency/GWAR if taken Fall 2009 or later. (Plus-minus ABC/NC grading only)

ENGR 697GW Engineering Design Project II-GWAR (Units: 2)
Prerequisite: ENGR 696.

Continue work on design project with maximum independence under supervision of a faculty adviser. Oral and written project reports required. May be repeated in the case of a double major. This is the final course in a series (ENGR 300, ENGR 301 or ENGR 302, ENGR 696, and ENGR 697GW) that when completed with a C or better will culminate in the satisfaction of the University Written English Proficiency/GWAR if taken Fall 2010 or later. (Plus-minus ABC/NC grading only)

Course Attributes:
- Graduation Writing Assessment

ENGR 699 Independent Study (Units: 1-3)
Prerequisite: Approval of division and instructor.

Special study in the laboratory, field, or library under the direction of a member of the division. The student must present a detailed written report of the work accomplished. May be repeated.

ENGR 800 Engineering Communications (Units: 3)
Prerequisite: Graduate status in engineering.

Types and modes of communications used by engineers in professional practice. Learning models for effective communications, both oral and written. (Plus-minus letter grade only)

ENGR 801 Engineering Management (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

History and evolution of engineering, ethics and professionalism, business aspects of contracts and specifications, litigation and arbitration, planning and scheduling, quality control, personnel management. (Plus-minus letter grade only)

ENGR 820 Energy Resources and Sustainability (Units: 3)
Prerequisites: Graduate standing or consent of instructor; ENGR 303.

Overview of conventional and renewable energy resources. Energy conversion processes, flow pathways, and end uses. Environmental impacts, sustainability, and economics of energy systems.

ENGR 823 Introduction to Seismology (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Fundamentals of seismic wave propagation using physical approaches, application of wave propagation theory in studying earth structure, thus earthquake evolution; seismometry fundamentals, applications to societal issues; foundation in theoretical seismology and earthquake engineering. (Plus-minus letter grade only)

ENGR 825 Bridge Engineering and Prestress Reinforced Concrete Structures (Units: 3)
Prerequisites: Graduate standing; ENGR 425.

Application of structural theory in the design of complete systems for bridges. Focus on prestressed concrete, bridge engineering and others innovative design subjects in structural engineering. (Plus-minus letter grade only)

ENGR 826 Seismic Hazard Analysis (Units: 3)
Prerequisites: Graduate standing; ENGR 425 or ENGR 426.

Review of fundamentals of seismic hazard analysis, strong ground motions, attenuation relations; probabilistic and deterministic methods; seismic code provisions and ground motions. Introduction of appropriate selection of acceleration records for dynamic analysis. (Plus-minus letter grade only)

ENGR 827 Structural Design for Fire Safety (Units: 3)
Prerequisites: Graduate or senior standing; ENGR 323, ENGR 425 or ENGR 426.

Standard fire time-temperature curve and its limitations, properties of concrete, steel and fire protection materials at elevated temperature environment; load capacity of structural components under fire; fire resistance design of steel, composite, concrete and timber structures. (Plus-minus letter grade only)

ENGR 828 Seismic Isolation and Energy Dissipation (Units: 3)
Prerequisites: Graduate standing in structural/earthquake engineering; ENGR 461 (or equivalent).

Concepts of base isolation and energy dissipation for seismic hazard mitigation.
ENGR 829 Advanced Topics in Structural Engineering (Units: 3)
Prerequisites: Graduate standing in Engineering or consent of instructor; ENGR 323 and ENGR 461.

ENGR 830 Finite Element Methods in Structural Continuum Mechanics (Units: 3)
Prerequisites: Graduate standing in engineering or consent of instructor; ENGR 309 and MATH 245.
Matrix methods of stress analysis; concepts of the finite element methods; bar elements; two-dimensional elasticity; plate bending; axisymmetrical problems; modeling; solution validation; dynamics using FEM; problems in nonlinear material and geometry.

ENGR 831 Advanced Concrete Structures (Units: 3)
Prerequisites: Graduate standing in engineering; ENGR 425.
Advanced design of reinforced concrete structural systems. Design of reinforced concrete frames considering seismic loads. (Plus-minus letter grade only)

ENGR 832 Advanced Topics in Seismic Design (Units: 3)
Prerequisites: Graduate standing in engineering or consent of instructor; ENGR 425, ENGR 426, and ENGR 461.

ENGR 833 Principles of Earthquake Engineering (Units: 3)
Prerequisites: Graduate standing in engineering; ENGR 461; or consent of instructor.
Earthquake ground motions; development of response spectra and effects of local site conditions on spectra. Dynamic response of single and multi-degree of freedom systems to earthquakes. Seismic damage to buildings. Earthquake resistive design. (Plus-minus letter grade only)

ENGR 835 Advanced Steel Structures (Units: 3)
Prerequisites: Graduate standing in engineering; ENGR 426.
Advanced design of steel structures, plate girders, and connections. Steel structural design considering effects of torsion and combined bending and axial load. Design of steel frames considering seismic loads. Steel design emphasizing Load and Resistance Factor Design. (Plus-minus letter grade only)

ENGR 836 Structural Design for Earthquakes (Units: 3)
Prerequisite: Graduate standing in engineering or ENGR 425, ENGR 426.
Earthquake resisting systems in buildings; seismic design criteria for structures; seismic upgrade and retrofit; computer applications in structural modeling and analysis for seismic forces.

ENGR 837 Geotechnical Earthquake Engineering (Units: 3)
Prerequisites: ENGR 430; ENGR 461 (may be taken concurrently).

ENGR 838 Smart Structures Technology (Units: 3)
Prerequisites: Graduate standing in structural/earthquake engineering or civil engineer seniors; ENGR 323 and ENGR 461; or consent of instructor.
Focus on smart structure technologies in the applications to structures including areas of structural control, structural health monitoring, and smart sensing. Topics include structural system identification, stability analysis, sensor data acquisition systems, and signal processing tailored specifically for structural engineering. (Plus-minus letter grade)

ENGR 844 Embedded Systems (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Trends and challenges of embedded systems. Introduction of design and use of single-purpose processors (hardware) and general-purpose processors (software). Discussion of memories and buses, advanced computation models, control systems, chip technologies, and modern design tools.

ENGR 846 Power Quality Issues: Problems and Solutions (Units: 3)
Prerequisites: ENGR 306 and ENGR 455.
Harmonics problems in power transmission and distribution systems. Causes of voltage and current harmonics; identification of problems; mitigation techniques to problems.

ENGR 848 Digital VLSI Design (Units: 3)
Prerequisite: ENGR 353.

ENGR 849 Advanced Analog IC Design (Units: 3)
Prerequisites: Graduate standing; ENGR 353, ENGR 442, and ENGR 445; or consent of instructor.
Fundamentals of analog integrated circuits design along with the nanometer CMOS technology; introduction of the mixed-signal IC design theories and practices; advanced analog IC blocks; practice of the analog design using state-of-art CAD tools. (Plus-minus letter grade only.)

ENGR 850 Digital Design Verification (Units: 3)
Prerequisites: Engineering majors; ENGR 378.
Concepts and methodologies established for verification of complex digital designs, based on the language of System Verilog that has evolved as a standard language for verification and testbench design. Verification methodologies include random stimulus generation with automatic self-checking features to detect design bugs, and with coverage features as a measure of level of confidence in verification.

ENGR 851 Advanced Microprocessor Architectures (Units: 3)
Prerequisite: ENGR 456.
Microprocessor architecture and register organization. Multiprogramming, process scheduling and synchronization, and multitasking. Memory management and privileged machine states. Examples of 32-bit machines. Reduced architectures: RISC approach, MIPS. (Plus-minus letter grade only)
ENGR 852 Advanced Digital Design (Units: 3)
Prerequisite: ENGR 356 or equivalent.
Design of fundamental and pulse mode circuits, design with
programmable logic devices, computer simulation of digital circuits,
reliable digital system design techniques, testing and design for
testability. (Plus-minus letter grade only)

ENGR 853 Advanced Topics in Computer Communication and Networks
(Units: 3)
Prerequisite: ENGR 476 with a grade of C or better.
Computer communication networks for broadband services; current
networking and communication technologies; new technologies and their
utilization in emerging broadband multimedia applications.

ENGR 854 Wireless Data Communication Standards (Units: 3)
Prerequisite: Background in communication systems or consent of
instructor.
Characteristics of wireless channels. Wireless local area networks,
Bluetooth, high-rate and low-rate wireless personal area networks, and
wireless broadband access. Medium-access control layers, security and
quality of service.

ENGR 855 Advanced Wireless Communication Technologies (Units: 3)
Prerequisites: Graduate standing; ENGR 449 and ENGR 451.
Software radio architecture. Analysis and design of software radios. RF/
IF conversion, ADC, and DAC. Radio resource management. Digital signal
processing for software radio applications. Software characterization.
Antenna diversity, smart antennas, programmable antennas, and
advanced antenna systems. Applications of software radios. Ultra-wide
band (UWB) communication systems.

ENGR 856 Nanoscale Circuits and Systems (Units: 3)
Prerequisites: ENGR 378, ENGR 453, and ENGR 890 or equivalent or
consent of instructor.
Advanced topics in VLSI device, circuit and system design including high-
performance and low-power design issues, challenges of technology
scaling, technologies and solutions at different levels of abstraction.
Requires class project. (Plus-minus letter grade only)

ENGR 863 Advanced Thermal-fluids (Units: 3)
Prerequisites: Graduate standing, ENGR 303, ENGR 304 or equivalents.
Development of thermodynamics and fluid mechanics concepts at the
graduate level. Topics include chemical reactions, chemical and phase
equilibrium, and compressible flow. Emphasis on use of software tools
for engineering analysis. (Plus-minus letter grade only)

ENGR 865 Energy-Efficient Buildings (Units: 3)
Prerequisites: Graduate standing or consent of instructor; ENGR 467.
Theory and implementation of energy-efficient building technologies.
Topics include energy-efficient systems for HVAC, lighting, and water
heating, building thermal management, and building energy simulation.
(Plus-minus letter grade only)

ENGR 866 Air Quality Engineering (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Review of air quality standards and environmental and human health
impacts of airborne pollutants. Analysis of pollutant formation
mechanisms, atmospheric fate and transport, and engineering strategies
for emissions measurement and control.

ENGR 867 Energy Auditing and Measurement and Verification (Units: 3)
Prerequisites: Engineering majors; ENGR 205 and ENGR 467.
Focus on detailed methods for energy audit and measurement and
verification of energy savings in commercial and industrial facilities;
details on utility rate schedules, benchmarking, and various energy
efficiency and conversation measures and methods.

ENGR 868 Advanced Control Systems (Units: 3)
Prerequisite: ENGR 447 or equivalent.
Advanced feedback control and simulation techniques. Sensor filtering
and estimation. State space control and modern control topics. Real time
control and implementation in embedded systems. (Plus-minus letter
grade only)

ENGR 869 Robotics (Units: 3)
Prerequisite: Graduate standing or senior undergraduate students who
had passed ENGR 201, ENGR 305, and ENGR 447 with a grade of B or
time.
Kinematics and kinetics of robotic manipulators including serial
manipulators, parallel manipulators and legged robots. (Plus-minus letter
grade only)

ENGR 871 Advanced Electrical Power Systems (Units: 3)
Prerequisites: Graduate standing in Engineering; MATH 245 or equivalent.
Theoretical and practical aspects of transients in electric power systems,
with a focus on the integration of renewable energy systems into
the existing electrical grid. Topics include switching transients and
commutation effects, surge phenomena and system protection, and
reactive power. (Plus-minus letter grade only)

ENGR 890 RF Devices and Transceiver Principles and Design (Units: 3)
Prerequisite: ENGR 350.
RF devices: filter, duplexer, combiner, divider, coupler; baseband/RF
devices: I/Q modulator and demodulator, mixer, ADC, DAC; receiver
design: noise figure, IMD products, dynamic range, synthesizer,
phase locked loop; transmitter design: amplifier classes, linearization
techniques. (Plus-minus letter grade only)

ENGR 895 Applied Research Project (Units: 3)
Prerequisites: Classified graduate standing with 12 units of graduate
work and passing score on GET, SCI 614; consent of instructor and
approval of Advancement to Candidacy (ATC) and Culminating
Experience (CE) forms by Graduate Studies. Comprehensive research-
based engineering study detailing the objectives, methods, and findings
of the research. Oral presentation is required. Advancement to Candidacy
and Proposal for Culminating Experience Requirement forms must be
approved by the Division of Graduate Studies before registration. (Plus-
minus letter grade, CR/NC, RP)

ENGR 897 Research (Units: 3)
Prerequisites: ENGR 800 and ENGR 801 and completion of nine units of
graduate work.
Independent investigation or significant design project under supervision
of an Engineering faculty member. Intended as the research investigation
leading to the master’s thesis. May be repeated for a total of 6 units.
(Plus-minus AB/NC, RP)
ENGR 898 Master's Thesis (Units: 3)
Prerequisite: Consent of instructor and approval of Advancement to Candidacy (ATC) for the Master of Science in Engineering and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement Forms must be approved by the Graduate Division prior to registration. (Plus-minus AB/NC, RP)

ENGR 899 Independent Study (Units: 1-3)
Prerequisite: Approval of department and consent of instructor.

Special study of a particular problem or subject under the direction of a member of the department. Open only to graduate students in engineering. Students must present a detailed written report of the work accomplished to the department faculty. May be repeated for a total of 6 units.
English (ENG)

ENG 104 First Year Composition Stretch I (Units: 3)
Prerequisite: Directed Self-Placement must be completed prior to enrollment.
Critical thinking skills in reading and writing. Emphasis on academic argumentation, working with and evaluating sources, conducting research and using rhetorical approaches. (ABC/NC grading, CR/NC allowed)
(Note: Successful completion of ENG 104 and ENG 105 will culminate in satisfying the Written English Composition I requirement (GE Area A2). The minimum grade for satisfying the requirement in Area A2 is a C-.)

ENG 105 First Year Composition Stretch II (Units: 3)
Prerequisite: ENG 104.
Second semester of a year-long course. Continue to develop and exercise critical thinking skills in reading and writing. Emphasis on academic argumentation, working with and evaluating sources, conducting research and using rhetorical approaches. (ABC/NC grading, CR/NC allowed)
(Note: Successful completion of ENG 104 and ENG 105 will culminate in satisfying the Written English Composition I requirement (GE Area A2). For this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• A2: Written English Comm I

ENG 112 Reading and Writing Techniques (Unit: 1)
Prerequisite: Consent of instructor.
Reading and/or writing skills: reading and study skills, comprehension, vocabulary, spelling, development of basic writing and composition abilities. May be repeated for a total of 6 units. (CR/NC grading only)

ENG 114 First Year Composition (Units: 3)
Prerequisites: Must complete Directed Self-Placement prior to enrollment or see Written English Requirements section of this Bulletin for other eligibility criteria.
Critical thinking skills in reading and writing. Emphasis on academic argumentation, working with and evaluating sources, conducting research and using a variety of rhetorical approaches. (ABC/NC grading, CR/NC allowed)
(Note: For this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• A2: Written English Comm I

ENG 122 The Evolution of Language in the Digital Age (Units: 3)
Examination of language patterns and linguistics structure of local and global online and digital communications.

ENG 201 Accelerated Academic English I- Multilingual (Units: 4)
Prerequisite: For multilingual first-year students who score 141 or below on EPT.
English skills and proficiency for university course work: reading comprehension, critical reading, critical thinking, composing skills for academic writing, grammar editing. Classwork, 3 units; laboratory, 1 unit. (ABC/NC grading, CR/NC allowed)

ENG 202 Accelerated Academic English II--Multilingual (Units: 4)
Prerequisite: ENG 201.
English reading, writing, and critical thinking. Classwork, 3 units; laboratory, 1 unit. (ABC/NC grading, CR/NC allowed)

ENG 204 Effective Literacy Skills for College--Multilingual (Units: 3)
Prerequisite: Must take CMSPT prior to enrolling.
Development of university-level reading, writing, and information literacy skills. May be repeated for a total of 6 units. (ABC/NC grading, CR/NC allowed)

ENG 208 Grammar for Writing--Multilingual (Units: 3)
Prerequisite: Must take CMSPT prior to enrolling.
Grammatical accuracy in written work. Structures typically reviewed and practiced include articles, verb forms and tenses, and sentence structure. May be repeated for a total of 6 units. (ABC/NC grading, CR/NC allowed)

ENG 209 First Year Composition--Multilingual (Units: 3)
Prerequisite: Qualifying score on CMSPT or recommendation from instructor of a previously-completed CMS course.
Practice in writing and critical reading; an introduction to expository/arguementative writing and the composing process. Fulfills first-year written English requirement. (ABC/NC grading, CR/NC allowed)
(Note: For this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• A2: Written English Comm I

ENG 210 Oral Communication - Multilingual (Units: 3)
Development of skills in listening, speech delivery, and preparation and presentation of informative and persuasive speeches. (ABC/NC grading, CR/NC allowed)
(Note: For this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• A1: Oral Communication

ENG 212 Advanced Grammar for Writing--Multilingual (Units: 3)
Prerequisite: Qualifying score on CMSPT or recommendation from an instructor of a previously-completed CMS course.
Grammatical accuracy and variety at the sentence and discourse levels. Readings, grammatical analysis, and compositions with emphasis on editing. May be repeated for a total of 6 units. (ABC/NC grading, CR/NC allowed)

ENG 214 Second Year Written Composition: English (Units: 3)
Prerequisite: ENG 114 or equivalent with grade of CR or C- or better.
Flexible reading and writing skills for academic inquiry and for engaging with social issues; varied composing and revising skills; critical analysis and self-reflection, with special attention to rhetorical variation; fine-tuning research. (Plus/minus ABC/NC, CR/NC allowed) [CSL may be available]
Course Attributes:
• A4: Written English Comm II
ENG 215 Second Year Composition: Multilingual (Units: 3)
Prerequisites: Qualifying score on CMSPT and ENG 114 or equivalent with a grade of CR or C- or better or ENG 209 with a grade of CR or C- or better.
Expository argumentative composition and critical reading of nonfiction: supporting arguments with outside sources, developing revising strategies and research skills. (Plus/minus ABC/NC, CR/NC allowed) [Formerly ENG 310]
Course Attributes:
• A4: Written English Comm II

ENG 230 Literature and Film (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
The intersections of literature and film and textual forms. Focus on literary adaptation, narrative kinds, and close reading of all texts.
Course Attributes:
• C3: Humanities: Literature

ENG 231 Shakespeare on Film (Units: 3)
Prerequisite: ENG 114 or consent of instructor.
Examination of selected Shakespearean plays as well as significant film and video adaptations. Extensive work with Shakespeare's language in both comedies and tragedies. Detailed analysis of cinematic conventions and innovations in the best of Shakespeare on film.
Course Attributes:
• C3: Humanities: Literature

ENG 240 Heroes and Antiheroes in Literature (Units: 3)
Prerequisites: ENG 114 or consent of instructor.
Examination of archetypes of heroes and antiheroes in English language literature. Detailed analysis of identity, power, hierarchy, and privilege in complex literature, primarily from the 16th-20th centuries.
Course Attributes:
• C3: Humanities: Literature

ENG 241 The Good Life: Literature and the Pursuit of Happiness (Units: 3)
Prerequisite: ENG 114 or consent of instructor.
Focus on enduring concern in literature: the definition of a life of meaning and happiness--The Good Life. Examination of how texts from ancient civilizations through the present both mirror and shape morality, materialism, pleasure, and purpose in English tradition.
Course Attributes:
• C3: Humanities: Literature

ENG 250 The Study of Literature (Units: 3)
Prerequisite: ENG 114 or consent of instructor.
Methods and principles for close reading literature in major genres, especially fiction, drama, and poetry. Examination and analysis of a wide variety of literary styles in works from a diverse range of both major and lesser-known writers.
Course Attributes:
• C3: Humanities: Literature

ENG 251 The Lyric Poem in English (Units: 3)
Prerequisite: ENG 114 or consent of instructor.
Examination of a wide range of forms, styles, themes, and modes available in short lyric poetry. Detailed analysis of both form and content in the work of a variety of major and lesser-known poets.
Course Attributes:
• C3: Humanities: Literature

ENG 252 The Novel in English (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Major English and American novelists and variations in the genre between Defoe and the present.
Course Attributes:
• C3: Humanities: Literature

ENG 253 Drama in English (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
The nature of dramatic literature in the English language. The changing conditions of form and subject matter in the development of dramatic literature from earliest examples to the modern.
Course Attributes:
• C3: Humanities: Literature

ENG 254 Masterworks of Literature in English (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Critical appreciation of literary masterworks in English by representative authors selected from the vast array of literature in the English language.
Course Attributes:
• C3: Humanities: Literature

ENG 255 Contemporary Literature (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Selected poetry, fiction, and drama of the late 19th century to the present.
Course Attributes:
• C3: Humanities: Literature

ENG 258 American Literature (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Selected masterpieces of American literature.
Course Attributes:
• C3: Humanities: Literature

ENG 259 Introduction to Shakespeare (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
For potential English majors unacquainted with Shakespeare's work and non-majors not yet conscious of themselves as heirs of Shakespeare's language and culture, and beneficiaries of his dramatic gifts.
Course Attributes:
• C3: Humanities: Literature
ENG 260 Introduction to Science Fiction (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Surveys the development of science fiction narratives in English through exploring four classic conventions of the genre: encounters with aliens, the possibilities of machine intelligence, utopias/dystopias, and post-apocalyptic scenarios.
Course Attributes:
  • C3: Humanities: Literature

ENG 261 The Vampire Tradition (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
The vampire in literature and film as a rich, complex icon that exaggerates culture anxieties about otherness, morality, and identity, and reveals changing social attitude about race, class, gender, and sexuality.
Course Attributes:
  • C3: Humanities: Literature

ENG 265 Introduction to Global Literature in English (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Examination of literature written in English that does not fall into conventional boundaries of American and British literature. Topics covered may include migration, globalization, cultural exchange, and legacies of American and British imperialism.

ENG 270 Reading Videogames (Units: 3)
Prerequisite: ENG 114 or consent of instructor.
Examination of video games as texts whose meaning is produced through the complex interplay of narrative, rules, and cultural context. Focus on reading and writing about video games using critical perspectives and methods of literary analysis.
Course Attributes:
  • C3: Humanities: Literature

ENG 280 Popular Drama and Social Critique (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Examination of the drama performed in the street from the middle ages to present with a focus on performances in Britain and the U.S.
Course Attributes:
  • C3: Humanities: Literature
     • Social Justice

ENG 380 British and American Travellers to Greece (Units: 3)
Prerequisite: ENG 214 or equivalent.
Survey of the genre of travel writing to Greece in British and American letters from the Romantic to the postmodern periods. Authors include Byron, Wilde, Woolf, and Miller. (This course is offered as MGS 380 and ENG 380. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  • UD-C: Arts and/or Humanities
     • Global Perspectives

ENG 398 Greek American Literature (Units: 3)
Prerequisite: ENG 114 or equivalent.
A survey of the major Greek American authors and poets of the 20th century. (This course is offered as MGS 397 and ENG 398. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  • UD-C: Arts and/or Humanities
     • Global Perspectives
     • Social Justice

ENG 401 Introduction to Writing Studies (Units: 3)
Prerequisite: Satisfaction of Lower Division Written English Communication I (A2) and Written English Communication II (A4).
Examination of writing as both a practice and an object of study through historical, theoretical, and critical lenses. Key concepts include writing processes, genre, audience, rhetoric, discourse communities, academic literacy, language diversity, writing with technologies and new media.
Course Attributes:
  • UD-C: Arts and/or Humanities

ENG 410 Elements of Writing-Multilingual (Units: 3)
Prerequisites: Qualifying score on CMSPT and completion of ENG 214 or equivalent or ENG 215.
Review and practice of critical reading, writing, and thinking skills necessary for academic and professional writing including source-based essays, library and internet research, and the interpretation of literature. (ABC/NC grading, CR/NC allowed)

ENG 411 Literature and Composition - Multilingual (Units: 3)
Prerequisites: Qualifying score on the SFSU CMSPT and completion of ENG 214 or equivalent or ENG 215.
Advanced composition based on critical reading of literature. (ABC/NC grading, CR/NC allowed)

ENG 414 Elements of Writing (Units: 3)
Prerequisite: ENG 214 or equivalent with a grade of CR or C- or higher. Undergraduate students must have taken JEPET before enrolling in this course.
Extensive upper division practice in composing well-developed prose and arguments. Emphasis on strategic use of writing processes, rhetorical awareness of audience and purpose, critical reading of complex texts, advanced research strategies, and strong use of evidence. Satisfies the university, not major, GWAR requirement only, if a student is unable to take a GWAR course in the major. (ABC/NC grading; CR/NC allowed)

ENG 415 Grammar and Editing - Multilingual (Units: 3)
Prerequisite: ENG 214 or equivalent.
Development and practice in revising, editing, and citation strategies for multilingual students in any major. Individualized editing plans focusing on grammatical accuracy, stylistic appropriateness, sentence complexity, and features relevant to major courses with an emphasis on writing.
ENG 417 Academic Literacy and the Urban Adolescent (Units: 3)
Prerequisites: Restricted to English majors; ENG 214 or equivalent.
Service Learning, focusing on the acquisition of academic literacy by
urban teens; requires 25 hours volunteering in middle or high school
classrooms. Partly satisfies Early Field Experience requirement for Single
Subject Credential Program. [CSL may be available]
Course Attributes:
• Social Justice

ENG 418 Grammar for Writers (Units: 3)
Prerequisite: ENG 114 or equivalent
Focus on students’ proofreading, editing, and revising their writing for
academic courses. Analyze samples of writing in their disciplines to
define and develop effective sentences and paragraphs. Open to all
majors.
Course Attributes:
• UD-C: Arts and/or Humanities

ENG 419 Advanced Composition for Teachers (Units: 3)
Prerequisites: English majors; ENG 214 or equivalent.
The composing process: purpose, audience, types of discourse, rhetorical
strategies, syntactic structures, response groups. Partly satisfies Early
Field Experience requirement for Single Subject Credential. Service
Learning requires 20 hours tutoring in secondary Language Arts classes.
[CSL may be available]
ENG 420 Introduction to the Study of Language (Units: 3)
Prerequisite: ENG 114 or equivalent.
Linguistic investigation of sounds, words, sentences, conversations.
Relationships between language, culture, dialects, mind, animal
communication examined. Recommended as first language structure
course.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

ENG 421 SYNTAX (Units: 3)
Prerequisites: Upper division standing or ENG 420; priority to English
majors, minors, and MA TESOL and Linguistics students.
Introduction to contemporary syntactic theory and fundamentals of
linguistic data analysis.

ENG 422 History of the English Language (Units: 3)
Prerequisite: Upper division standing or ENG 420.
The background, sources, and development of English; examinations of
writing of historical periods of the language.

ENG 423 Language Analysis for Language Teachers (Units: 3)
Prerequisite: Upper division standing or ENG 420.
Introduction to English language structures and common English learner
errors. Analysis of form, meaning and use in spoken and written texts,
including academic genres. Focus on understanding cross-linguistic
influences and strategies for responding to learner challenges in
grammar and pronunciation.

ENG 424 Phonology and Morphology (Units: 3)
Prerequisites: Upper division standing or ENG 420; priority to English
majors, minors, MA Linguistics, and TESOL students.
Theories and techniques of phonological and morphological analysis
using data from English and other languages.

ENG 425 Language in Context (Units: 3)
Prerequisites: Upper division standing or ENG 420; priority to English
majors, minors, MA Linguistics, and TESOL students.
Introduction to language variation relating to age, ethnicity, gender,
region, class, occupation; language and culture; multilingualism. [CSL
may be available]

ENG 426 Second Language Acquisition (Units: 3)
Prerequisites: Upper division standing; concurrent enrollment in a foreign
language required.
Survey of research and issues in second language acquisition. Required
for entrance into M.A. TESOL program. Recommended for ESL/EFL and
foreign language teachers and credential candidates.

ENG 429 Stylistics (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Analysis of syntax, diction, and other devices that contribute to what we
call literary "style" in a variety of 19th and 20th century works of fiction
and non-fiction.

ENG 432 Seminar in Immigrant Literacies and Community-Based Projects
(Units: 3)
Prerequisites for ENG 832: ENG 425, ENG426, or consent of instructor.
Prerequisites for ENG 432: GWAR course, ENG 425, ENG 426; or consent
of instructor.
Exploration of language and literacies in everyday contexts in which
immigrants participate (e.g., health, work).
(ENG 832/ENG 432 is a paired course offering. Students who complete
the course at one level may not repeat the course at the other level.)

ENG 433 Introduction to Phonetics (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Practical skills in phonetic analysis, scientifically describe sound systems
of the world’s languages.

ENG 451 Jewish Literature of the Americas (Units: 3)
Prerequisite: ENG 214 or equivalent.
Explores literature of the Americas through the lens of Jewish identity
and tradition. Texts in translation from Latin America, Canada, and the US
reveal how Jewish writers have rethought modernity’s intersection with
Jewish traditions.
(This course is offered as JS 451, CWL 451, and ENG 451. Students may
not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
ENG 452 Forster, Durrell, and Cavafy (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of English novelists and travel writers E. M. Forster and Lawrence Durrell and of their connection to Alexandrian poet C. P. Cavafy. Discussion includes their collective interest in Alexandria as an alternative literary and ideological topos. (This course is offered as MGS 452, CWL 452, and ENG 452. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

ENG 460 Literature in English I: Beginnings through the 17th Century (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Introduction to the history and aesthetics of influential Old English, Middle English, sixteenth- and seventeenth-century texts written in England and America.

ENG 461 Literature in English II: 18th and 19th Centuries (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Introduction to the history and aesthetics of influential eighteenth- and nineteenth-century texts written in England and America.

ENG 462 Literature in English III: The Twentieth Century (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Survey of key texts, debates, and literary historical landmarks in the study of twentieth-century literature in English.

ENG 465 Post-Apocalyptic Science Fiction (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Examination of how post-apocalyptic narratives in mid to late 20th century science fiction reflect cultural anxieties, explore ethical dilemmas, and propose a variety of dystopian and utopian solutions to the threat of rapid social, political, and environmental change.

Course Attributes:
- UD-C: Arts and/or Humanities
- Environmental Sustainability

ENG 475 Fundamentals of Literary Analysis (Units: 3)
Prerequisite: ENG 214 or equivalent.
Training in close reading and the conventions of literary analysis. Investigates multiple genres and teaches students to interpret works through literary elements. Particularly suitable for prospective teachers and Liberal Studies majors.

ENG 480GW Junior Seminar - GWAR (Units: 3)
Prerequisites: Restricted to English major and minor; ENG 214 or equivalent with a grade of C or better. (English major must complete ENG 480GW before the end of the junior year.)
Practical criticism; techniques in the art of reading literature and writing about it in a series of short papers. Majors must complete this course before the end of the junior year. (ABC/NC grading only)

Course Attributes:
- Graduation Writing Assessment

ENG 495 Digital Humanities and Literacies (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to topics, issues, practices, and tools to develop a critical engagement with digital culture, with special focus on reading, writing, and understanding literature in the digital age.

ENG 501 Age of Chaucer (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Fourteenth century English literature. Major writers of the period.

Course Attributes:
- UD-C: Arts and/or Humanities

ENG 503 Studies in Medieval Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Rotating course on a specific topic, theme, genre, work, or issue in Medieval literature. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 510 The Age of Wit (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Swift, Pope, Addison, and the circle of London wits and satirists of the early 18th century; the radical change in literary forms and ideas and their relationship to changes in society.

Course Attributes:
- UD-C: Arts and/or Humanities

ENG 512 18th Century British Women Writers (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to fiction, poetry, drama, and writing by a variety of authors from a key period in British women's writing. Exploration of the literary, political, and economic context of this creative flowering, as well as the forces that hampered it.

ENG 514 Age of the Romantics (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Poetry and prose of Blake, Coleridge, Byron, Wordsworth, Shelley, and Keats.

ENG 516 Age of the Victorians (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Introduction to major British poets and fiction writers of the Victorian period (1837-1900). Students will read works from the period in the context of contemporary historical movements and be introduced to the prominent critical approaches to Victorian literature.

ENG 521 Studies in 20th Century English Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Rotating course on a specific topic, theme, genre, work, or issue in 20th c. English literature. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 522 Irish Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Major writers who emerged in Ireland at the turn of the 20th century. Lady Gregory, Yeats, Synge, and Joyce. The Irish literary revival in the context of social, political, and literary history.
ENG 524 Contemporary American Short Story (Units: 3)
Prerequisites: ENG 214 or equivalent or consent of instructor.
Survey of American short story writers since 1945, with selections by such authors as Shirley Jackson, Grace Paley, Flannery O'Connor, Saul Bellow, James Baldwin, John Cheever, Ann Beattie, Tobias Wolff, Raymond Carver, Sandra Cisneros, Sherman Alexie, et al.

ENG 525 Studies in American Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Rotating course on a specific topic, theme, genre, work, or issue in American literature. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 526 Age of the American Renaissance: 1830-1860 (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Achievement of a national literature in the works of such writers as Ralph Waldo Emerson, Henry David Thoreau, Walt Whitman, Nathaniel Hawthorne, Herman Melville, and Frederick Douglass, with reading of earlier authors.

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Social Justice

ENG 527 American Literature: 1860-1914 (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Major American writing from romanticism to realism and naturalism: Walt Whitman, Emily Dickinson, Mark Twain, Henry James, Stephen Crane, Kate Chopin, Henry Adams, Edwin Arlington Robinson, Edith Wharton, and Theodore Dreiser.

ENG 528 American Literature: 1914-1960 (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

ENG 533 Holocaust and Literature (Units: 3)
Prerequisite: ENG 214.
Fiction and non-fiction Holocaust literature by Saul Bellow, T. Borowski, Etty Hillesum, I.B. Singer, and Elie Wiesel.
(This course is offered as JS 437, ENG 533, and CWL 437. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice

ENG 535 Literature and Ecology (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Course Attributes:
- UD-C: Arts and/or Humanities
- Environmental Sustainability

ENG 546 20th Century American Jewish Women Writers (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration through novels, short fiction, and memoir the connections American women forge and the tensions they experience via encounters with self, family, Judaism, American society, and world history. (This course is offered as JS 546, ENG 546, and WGS 546. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives

ENG 550 The Rise of the Novel (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Emergence of the English novel in the work of such writers as Defoe, Richardson, Fielding, Sterne, Smollett; the relationship of the new genre to changes in social and philosophical experience.

ENG 552 Modern British Novel (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Developments in the novel from George Meredith to the present: Conrad, Hardy, Forster, Lawrence, Joyce, Woolf, Waugh, and Amis.

ENG 553 Classic American Novel (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Major novelists from Brown and Cooper through Twain, Howells, James, Wharton, Stephen Crane, and Dreiser—including Chopin, Davis, local colorists, Johnson, and Douglas.

ENG 554 Modern American Novel (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Major novelists from Dreiser through Fitzgerald, Hemingway, and Faulkner to the present.

ENG 555 The Short Story (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Short story as a distinctive literary phenomenon. Historical consideration; critical analysis of representative modern stories.

ENG 558 Early Twentieth Century Poetry in the United States (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Development of modernism during the first half of the 20th century; the tension between the poets’ experimentalism and their relation to tradition.

ENG 559 Middle and Late Twentieth Century Poetry in the United States (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Development of poetry during the second half of the 20th century; poets’ reactions against and development of modernist themes and techniques.
ENG 565 The Short Story: Global Literature in English (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

The short story as a distinctive literary phenomenon of global literature in English, examined in relation to cultural perspectives and literary-historical traditions.

Course Attributes:
- Global Perspectives

ENG 570 Medieval and Renaissance Drama (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Development of dramatic literature in England from the emergence of the mystery and morality plays through the reign of Elizabeth.

ENG 571 Shakespeare's Rivals (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Close study of the drama of Shakespeare's contemporaries and immediate successors. Class will combine modes of literary analysis with theatrically-informed approaches.

Course Attributes:
- E1: Lifelong Learning Develop

ENG 573 American Drama (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

American drama from the beginnings to the present time.

ENG 574 Modern British Drama (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Representative realistic and non-realistic English drama from Shaw to the present time.

ENG 580 Individual Authors (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Rotating course on a specific author, or group of authors, in British, American, or Global literatures of any period. Topic to be specified in the Class Schedule. May be repeated for credit when topics vary.

ENG 581 Jane Austen (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Lecture/discussion course on the complete works of Jane Austen.

Course Attributes:
- UD-C: Arts and/or Humanities

ENG 583 Shakespeare: Representative Plays (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Shakespeare and his age; his development as a dramatist and his literary, intellectual, and social milieu. Reading of representative comedies, histories, and tragedies as well as some non-dramatic poetry.

Course Attributes:
- E1: Lifelong Learning Develop

ENG 584 Shakespeare: Selected Plays (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Study of a few plays in relation to the textual problems, dramatic technique, and problems of interpretation. Analysis of language, imagery, and structure.

ENG 589 Milton (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

In-depth study of Milton's prose and poetry; examination of technique, language, imagery, and interpretation.

ENG 600 Theory of Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Analysis of literature as symbolic action; the recurring motives and concepts which figure in formal appeals; the relationship between literature and rhetoric; the tactics and grounds of persuasion in literature.

ENG 601 Literature and Psychology (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Selected fiction and drama which reflect the artist's perception of human motivation and behavior. Application of theories of personality to the writer's art.

Course Attributes:
- UD-C: Arts and/or Humanities

ENG 602 Literature and Society (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Selected novels and drama which primarily reflect the social scene. Cultural changes as they affect the writer, his delineation of character and his perspective on society.

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

ENG 606 History of Criticism from the Eighteenth Century to the Present (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

A survey class of major trends in the history of literary criticism from the 18th century to the present.

ENG 611 Modern Criticism (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Examination of critical approaches including the formalist and the psychoanalytic. Application of one or more critical methods to works of imaginative literature.

ENG 612 Serial Narrative (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Serial narrative from its eighteenth-century roots to today, considering the novel, cinema, and television.

ENG 614 Women in Literature: Authors and Characters (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Rotating course on a specific topic, theme, or issue focused on literature and/or criticism by women writers of any period. Topic to be specified in Class Schedule. May be repeated when topics vary.
ENG 615 Imagery, Metaphor, and Symbol (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Relationship between symbolic process and organic form in literature. Symbolism as meta-language. Controlled patterning, tonal modulation, shadow structure, and mythic resonance.

Course Attributes:

- UD-C: Arts and/or Humanities

ENG 620 Introduction to Computational Linguistics (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Introduction to linguistic analysis of digital texts. Students learn to write programs in Python and to process raw texts (tokenization), discover statistical patterns in linguistic data (frequency distribution), perform part-of-speech tagging, text segmentation, and classification.

ENG 630 Selected Studies (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Rotating course on a specific topic, theme, genre, or issue in literature from a variety of national traditions and/or historical periods. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 631 Post-Colonial Literature in English (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Contemporary literature in English by writers from former Third World colonies.

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

ENG 632 The Literature of Exile and Migration (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Investigation of literary texts that narrate experience of exile, migration, and immigration, and consideration of theoretical contexts about diaspora, exile, and transnational movement.

ENG 633 Gay Love in Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Themes of gay love in fiction, poetry, and biography, beginning with Ancient Greece and extending to the present. (This course is offered as ENG 633 and SXS 633. Students may not repeat the course under an alternate prefix.)

ENG 636 Greek and Roman Myth and Modern Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Contemporary writers of fiction, poetry, and drama who use subjects and themes from classical Greek and Roman mythology.

ENG 637 Experimental Novel: 1950-1980 (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Survey of experimental novels from North and South America merging between 1950-1980, and changing how we view extended narratives. (This course is offered as ENG 637 and EThS 637. Students may not repeat the course under an alternate prefix.)

ENG 638 Global Cities (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Study of Anglophone literature from the twentieth century to the present from cities around the world. Examination of the concept of "the city" with emphasis on cross-cultural issues of globalization, gentrification, and migration.

ENG 653 TESOL: Pedagogical Grammar (Units: 3)
Prerequisites: Restricted to upper division English major, minor, MA Linguistics and TESOL student; ENG 421.

English grammar for prospective or practicing teachers of English to speakers of other languages.

ENG 655 Literature and the Adolescent Reader (Units: 3)
Prerequisite: ENG 114 or equivalent.

Analysis and evaluation of literature about and for adolescents. Teaching approach based on reader response theory. Required for students completing the Single Subject Waiver in English.

Course Attributes:

- Am. Ethnic & Racial Minorities

ENG 658 South African Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Investigation of the rich traditions of literature in English from South Africa since 1948. Multiple genres with various historical, theoretical and aesthetic contexts.

ENG 670 Writing for Graduate Studies in the Liberal and Creative Arts (Units: 3)
Prerequisites: Graduate standing, or application in progress, or consent of instructor. Registration priority will be given to students enrolled in graduate programs in the College of Liberal and Creative Arts.

Development of writing skills for graduate work in the Liberal and Creative Arts, focusing on the kinds of writing needed in these disciplines. May not be used for master's degree ATC requirements.

ENG 680 Applied Computational Linguistics (Units: 3)
Prerequisite: ENG 620 or consent of instructor.

Writing python programs for the analysis of sentence structure (context-free grammars, dependency grammars), extracting meaning from texts, and to apply various machine learning methods to data mining.

ENG 688 Assessment in English Language Arts (Unit: 1)
Prerequisites: Senior standing and interview with English Single Subject Credential adviser.

Creation of an English Education e-Portfolio to demonstrate mastery of subject matter competency in English.

ENG 690 Senior Seminar (Units: 3)
Prerequisites: ENG 480GW with a grade of C or better, priority to English literature and English education majors in their senior year, or consent of instructor.

Rotating course on a specific topic, theme, literary form, historical period, or theoretical tradition in British, American, or Global literatures. Topic to be specified in Class Schedule. Intensive study of a literary topic culminating in a research paper. May be repeated when topics vary.
ENG 698 Work-Study in Language and Literature (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
Supervised community, university, or departmental service which relates to the English major or individual English courses, includes tutoring and teaching, evaluation of curricula, service on departmental committees. May be repeated.

ENG 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
Individual supervision of intensive, independent work, largely of a research nature, culminating in a paper. Completion of appropriate graduate introductory course and/or permission of the graduate major adviser is prerequisite to enrollment in other graduate courses in English.

ENG 700 Introduction to Composition Theory (Units: 3)
Prerequisite: Admission to MA Composition Program or to Composition or Post-Secondary Reading Certificate Program.
Issues of composition theory, research, and classroom practice. (Plus-minus letter grade only)

ENG 701 Theoretical Backgrounds in Community College and College Reading Instruction (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Review of research on the physiological, psychological, and linguistic processes involved in developing literacy skills on the community college and college levels; examination of the relationships between reading and writing competencies, and reading and reasoning strategies.

ENG 704 Pedagogical Grammar for Composition (Units: 3)
Prerequisite: Admission to MA Composition Program or to Composition or Post-Secondary Reading Certificate Program.
Theory and practice of responding to linguistic, stylistic, and rhetorical issues in student writing. (Plus-minus letter grade only)

ENG 706 Seminar in Sociolinguistics of Composition (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
The sociolinguistics of written communication: differences between oral and written speech; effects of differences on learning writing; functions of writing in context; writer/reader interactions; nature and function of discourse communities.

ENG 707 Current Issues in Composition (Units: 3)
Prerequisite: Graduate standing or consent of instructor,
Composition for teachers, high school or college. Theory, research, and innovative practices in teaching writing. Invention, shaping, crafting, revising, evaluating, skills building, sequencing assignments.

ENG 708 Teaching Writing in a Digital Age (Units: 3)
Prerequisite: Admission to MA Composition Program or to Composition or Post-Secondary Reading Certificate Program, or consent of instructor.
Introduction to the uses of digital technology for teaching and learning in college composition courses for graduate students in the Composition MA and certificate programs. Focus is on the impact of emerging technologies on both writing and instruction.

ENG 709 Seminar in Teaching Integrated Reading and Writing (Units: 3)
Prerequisite: Admission to MA Composition Program or to Composition or Post-Secondary Reading Certificate Program.
Exploration of the integration of reading and writing from both a theoretical and pedagogical perspective.

ENG 710 Course Design in Composition and Post-Secondary Reading (Units: 3)
Prerequisites: Admission to MA Composition Program or to Composition or Post-Secondary Reading Certificate Program; ENG 704 or ENG 709 with a grade of B or better.
Theory and practice of designing post-secondary and composition courses.

ENG 713 Seminar in Curriculum and Instruction in English I (Units: 3)
Prerequisite: Completion of subject matter certification in English or consent of instructor.
Theory, curriculum design, instruction and assessment methods for teaching English language, literature, and oral and written performance, grades 6-12.

ENG 714 Curriculum and Instruction II: English (Units: 3)
Prerequisites: ENG 713, Subject Matter Competency certification in English, concurrent enrollment in student teaching.
Applied theory, curriculum design, instruction, and assessment methods for teaching English language, literature, oral and written performance; grades 6-12. (AB/NC grading only)

ENG 715 Pedagogy and Practice of Postsecondary Reading (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Theory-into-practice course in which students develop lesson plans for teaching basic literacy skills. Requires 2 hours of tutoring per week in the English Tutoring Center of IRW students.

ENG 717 Projects in the Teaching of Literature (Units: 3)
Prerequisite: Graduate standing or consent of instructor,
Literary theory and its practical application in the college classroom. Practice in applying various critical approaches to literary texts and in designing plans for teaching the various genres.

ENG 718 Supervision of Teaching Experience (Units: 3)
Prerequisite: Teaching assignment in college-level composition course.
Supervision and training in curriculum, teaching techniques, grading procedures, etc.

ENG 719 Seminar: Contemporary Semantic Theory (Units: 3)
Prerequisites: Graduate standing or consent of instructor; ENG 421.
Introduces tools used to investigate semantic structure (the interpretation of linguistic expressions); develops logical representations for English sentences; investigates entailments and presuppositions at word level (lexical semantics) and discourse level (pragmatics).

ENG 721 Advanced Pedagogical Grammar for TESOL (Units: 3)
Prerequisite: ENG 421 or equivalent.
Advanced study in grammar teaching for ESL and EFL contexts. Includes a review of grammatical structures and functions, and common language learner errors. Focus on pedagogical theory applied to error analysis, deductive and inductive teaching approaches, pedagogical tasks, and corrective feedback.

ENG 723 Seminar in the Structure of English (Units: 3)
Prerequisite: ENG 421 or consent of instructor.
Advanced study in the semantic and discourse-pragmatic structure of English from the perspective of cognitive linguistics. Research projects required.
ENG 724 Special Topics in Teaching English to Speakers of Other Languages (Units: 3)
Prerequisite: ENG 730 or consent of instructor.
Introduction to theory, research and pedagogical innovations in key areas of Teaching English to Speakers of Other Languages, including applications to materials design, lesson planning, and assessment. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 725 Seminar in Discourse Analysis (Units: 3)
Prerequisites: ENG 421, ENG 424, ENG 425; priority to MA Linguistics and TESOL students.
Theories and methods of discourse analysis. Students analyze texts and conversations using the various methods and submit a final project analyzing original data in the framework of their choice.

ENG 726 Practicum in Teaching English to Speakers of Other Languages (Units: 3)
Prerequisite: ENG 730 (may be taken concurrently).
Through assignment as an apprentice and tutor, TESOL students gain experience with methods, materials, and procedures for teaching non-native speakers of English.

ENG 727 Linguistic Field Methods (Units: 3)
Prerequisites: ENG 421, ENG 424, ENG 425; priority to MA Linguistic and TESOL student.
Introduction to basic documentary linguistics and linguistic fieldwork through the elicitation and analysis of data from an unfamiliar language; discussion of research ethics and project logistics.

ENG 728 Topics in Sociolinguistics (Units: 3)
Prerequisites: ENG 421, ENG 424, ENG 425; priority to MA Linguistic and TESOL students.
Exploration of current topics in sociolinguistics; focus on working with linguistic data to develop methodological and analytic skills necessary to conduct research. Topics to be specified in Class Schedule. May be repeated when topics vary.

ENG 729 Seminar in Psycholinguistics (Units: 3)
Prerequisite: ENG 730 or consent of instructor.
First language studies and issues in second language acquisition: theory, methodology, educational implications, age differences, affective and social factors, error, contrastive, and discourse analysis.

ENG 730 Introduction to Graduate Study of TESOL (Units: 3)
Prerequisites: MA TESOL student; completion of Level One Writing Proficiency requirement; ENG 425, ENG 426, or equivalents.
Contemporary theories, approaches, theories, and practical procedures in teaching English as a second or foreign language. Principles and current practices in curriculum development, lesson design, skill development, classroom management, and assessment.

ENG 731 Seminar: TESOL Listening and Speaking Skills (Units: 3)
Prerequisites: ENG 421, ENG 424, ENG 730.
Theories, research, objectives, problems, and techniques in the teaching of English to speakers of other languages; listening and speaking skills; systematic study of materials and methods of instruction; preparation of teaching materials.

ENG 732 Seminar: TESOL Reading and Writing Skills (Units: 3)
Prerequisite: ENG 730.
The teaching of reading and writing skills to adult non-native speakers of English. Theory and research in ESL/EFL reading and composition, curriculum and lesson planning, teaching techniques and activities, materials selection and development, responding to student work, and assessment.

ENG 733 Seminar: Student Teaching for TESOL (Units: 3)
Prerequisites: ENG 731, ENG 732.
Teaching experience with a faculty supervisor who meets with the student teachers both individually and in groups, observes them, and reads and responds to four written papers. (CR/NC grading only)

ENG 734 TESOL Curriculum and Assessment (Units: 3)
Prerequisites: ENG 730, ENG 731, ENG 732, or consent of instructor.
MA TESOL students develop an original curriculum and assessment procedure for a specific learning context. Assigned readings cover theoretical and practical issues in syllabus design, materials development, and language assessment.

ENG 735 Community Based Curriculum Development (Units: 3)
Prerequisite: ESL or literacy teaching experience.
On-line course aimed at adult and family educators who teach English language and literacy to non-native speakers. Participants develop materials for classrooms where learners master language while reflecting on their lives.

ENG 736 Seminar in Teaching ESL in the Community (Units: 3)
Prerequisite: ENG 730 or consent of instructor.
Current objectives, problems, and techniques teaching ESL to adult immigrants in the community. Study of needs assessment, curricula, materials, and various methodologies to teach adults.

ENG 737 Introduction to Corpus Linguistics (Units: 3)
Prerequisite: ENG 421.
Introduction to corpus linguistics and its application to issues such as language description, language variation, and language teaching; corpus-based research methods.

ENG 738 Pragmatics and Oral Skills (Units: 3)
Prerequisites: ENG 425, ENG 730.
Pragmatics research and methods for teaching social interaction skills for TESOL; application of materials appropriate to specific cultural and educational contexts.

ENG 739 Advanced Field Methods (Units: 3)
Prerequisites: ENG 421, ENG 424, ENG 725, proficiency in Spanish, consent of instructor.
A hands-on field seminar in documentary linguistics that is taught as a 3-week summer abroad program in Oaxaca, Mexico.

ENG 741 Seminar: Literary Theory and Research Methods (Units: 3)
Prerequisite: Classified graduate status in English literature master’s degree program or consent of instructor.
Practice in the theory, criticism, and research methods of literary study, leading to a major research project.
ENG 742 Seminar: Studies in Criticism (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of specific topic, critic or group of critics, and/or tradition in literary criticism. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 743 Seminar: Studies in Principles of Literary Form (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of principles of one or more literary forms. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 744 Seminar: Literature and Psychology (Units: 3)
Prerequisite: ENG 741 (may be taken currently) or consent of instructor.
Contributions of depth psychology to the understanding of selected works of literature.

ENG 746 Seminar: Opera and Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Literary aspects of the creation, composition, production, and interpretation of opera. Literary texts that inspire operas will be interpreted critically along with the operas they inspired. Opera librettos will be examined as literature interactively with opera's musical, dramatic, and performative elements. (This course is offered as ENG 746 and CWL 746. Students may not repeat the course under an alternate prefix.)

ENG 747 Feminist Criticisms (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Diverse feminist theoretical and critical approaches in social contexts; canons; female aesthetics; social, linguistic, and psychoanalytic approaches. (This course is offered as WGS 747 and ENG 747. Students may not repeat the course under an alternate prefix.)

ENG 748 Rhetoric, Politics, and Ethics of Deconstruction (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
An exploration of the rhetoric, politics, and the ethics of deconstruction in selected works by Derrida, De Man, Lacoue-Labarthe, Nancy, and Blanchot.

ENG 750 Seminar in Medieval English Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in medieval English literature. Topics to be specified in Class Schedule. May be repeated as topics vary.

ENG 751 Seminar: Studies in 16th Century English Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in 16th c. English literature. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 752 Seminar: Studies in 17th Century English Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in 17th c. English literature. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 753 Seminar: Studies in 18th Century English Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in English literature of the long 18th c. (1660-1800). Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 754 Seminar: The Romantic Movement (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Ideas, themes, or literary problems in the works of such late eighteenth and early nineteenth century authors as Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats.

ENG 755 Seminar: Studies in Victorian Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in English literature of the Victorian period. Topic to be specified in Class Schedule. May be repeated as topics vary.

ENG 756 Seminar: 20th Century English Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in 20th c. English literature. Topic to be specified in Class Schedule. May be repeated as topics vary.

ENG 757 Shakespeare History Plays (Units: 3)
Prerequisite: ENG 741 or consent of instructor.
In-depth study of selected Shakespeare history plays, pairing close-reading of the plays with extensive reading of primary and secondary sources on the histories of English sovereignty, political controversies, property, and the development of "history.”

ENG 758 Seminar: Southern African Literature in English (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Study of Southern African literature in English from 1950 to the present with accompanying historical and theoretical texts. Writers from South Africa, Zimbabwe, and Botswana include Mphalele, Gordimer, Coetzee, Head, Ndebele, Marechera. Emphasis on "postcolonial” issues and dismantling of apartheid.

ENG 760 Seminar: Studies in American Literature, 1600-1899 (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in American literature written between 1600-1899. Topic to be specified in Class Schedule. May be repeated as topics vary.

ENG 762 Seminar: Twentieth Century American Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.
Examination of topics in 20th-c. American literature. Topics to be specified in Class Schedule. May be repeated when topics vary.
ENG 763 Contemporary American Short Fiction (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Advanced study of the major fiction writers, post-World War II era to the present. The contemporary short story in the United States.

ENG 770 Seminar: the Novel (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

A major literary problem in the genre.

ENG 772 Seminar: Drama (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Investigation of post-World War II British and American dramaturgy.

ENG 776 Studies in Caribbean Literature in English (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Examination of primarily Anglophone Caribbean literature from the nineteenth century to the present day. Genres covered range from the slave narrative and the novel to epic and performance poetry.

ENG 780 Seminar: Individual Authors (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Examination of literary works written by an individual author or group of authors. Author to be specified in Class Schedule. May be repeated when author varies.

ENG 782 Seminar: Chaucer (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Selected works: examination of sources, textual problems, rhetorical techniques, language, and the cultural background.

ENG 785 Seminar: Shakespeare (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Representative plays: examination of textual problems, dramatic technique, language, imagery and interpretation.

ENG 789 Milton (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

In-depth study of Milton's prose and poetry; examination of technique, language, imagery and interpretation.

ENG 790 Seminar: Selected Studies (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Examination of topics in British, American, or Global literatures, and/or literary theory. Topic to be specified in Class Schedule. May be repeated when topics vary.

ENG 800 Rhetoric for Composition Teachers (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Introduction to the history of rhetoric and rhetorical theory as it pertains to college writing instruction. Focus on relationships among rhetoric, writing, and writing instruction.

ENG 802 Internship Teaching English (Units: 3)
Prerequisites: Senior or graduate standing in English, consent of instructor, and interview.

Teaching internship offering intensive training, classroom experience, and community service for students considering teaching in community colleges or community outreach programs such as prison education. May be repeated once for credit.

ENG 803 Teaching Practicum: Literature (Units: 3)
Prerequisites: By application only; contact English Department or see English Department website for details.

Pedagogical issues in the teaching of literature by assisting professors in conducting large lecture courses. May be repeated for a total of 6 units.

ENG 804 Teaching Practicum: Linguistics (Units: 3)
Prerequisites: By application only; contact English Department or see English Department website for details.

Pedagogical issues in teaching linguistics through assisting professors in conducting large linguistic courses. Teaching workshops include pedagogical techniques, syllabus construction, responding to student questions, and fostering student participation.

ENG 820 The Constructed Body in Literature (Units: 3)
Prerequisite: ENG 741 (may be taken concurrently) or consent of instructor.

Advanced seminar in how British and American cultures have represented the construction of bodies.

ENG 832 Seminar in Immigrant Literacies and Community-Based Projects (Units: 3)
Prerequisites for ENG 832: ENG 425, ENG426, or consent of instructor.
Prerequisites for ENG 432: GWAR course, ENG 425, ENG 426; or consent of instructor.

Exploration of language and literacies in everyday contexts in which immigrants participate (e.g., health, work). (ENG 832/ENG 432 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ENG 889 Integrated Studies in Linguistics (Units: 3)
Prerequisite: Graduate standing.

Integration of theoretical and practical material acquired in the Linguistic M.A. program, providing students support and guidance for culminating research projects, and direction in professional development, including preparing for conferences/publication, and applying to Ph.D. programs. (CR/NC grading only)

ENG 890 Seminar in Composition Research (Units: 3)
Prerequisites: Admission to MA Composition Program or to Composition or Post-Secondary Reading Certificate Program, ENG 700 with a grade of B or better.

Research methods in composition.

ENG 891 Integrative Seminar in Teaching English to Speakers of Other Languages (Units: 3)
Prerequisite: Final semester in M.A. program.

Major issues in teaching English to speakers of other languages. For Master of Arts candidates in English with Concentration in Teaching English to Speakers of Other Languages. (CR/NC grading only)
ENG 895 Field Study or Applied Research Project (Units: 3)
Prerequisites: Consent of instructor, adviser, department chair, and committee, approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Field study or research project incorporating application of knowledge and techniques acquired in the student’s program of study. (CR/NC grading only)

ENG 896 Directed Readings in Preparation for the CE Examination (Units: 3)
Prerequisites: Approved ATC and Culminating Experience Proposal, English major, not open to students selecting the thesis option (ENG 898).

Directed reading developed in consultation with the student’s examination committee in English. (CR/NC/RP grading option)

ENG 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered 892, 893, 894, 895, 898, or 998, (or in some cases, courses numbered 890 - see program’s graduate advisor for further information). (CR/NC, RP)

ENG 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor; recommendation of major adviser; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

ENG 899 Independent Study (Units: 1-3)
Prerequisites: Consent of graduate coordinator and supervising faculty member. Enrollment by petition and limited to graduate students in the program.

Individual research into an issue emphasizing language and/or literature. May be repeated for a total of 6 units.
Environmental Studies (ENVS)

ENVS 224 Research Methods for Environmental Studies (Units: 4)
Prerequisite: Restricted to Environmental Studies majors or consent of instructor.

Introduction to quantitative and qualitative research methods in environmental studies. Scientific method, field methods in natural and social sciences, and data analysis including descriptive statistics, and hypothesis testing. Lecture, 3 units; Laboratory, 1 unit.

ENVS 300 Environmental Studies (Units: 3)
Prerequisite: Upper division standing or consent of instructor; priority enrollment for Environmental Studies majors.

Introduction to environmental studies; an examination of the history of the environmental movement, exploration of strategies to effect constructive change, analysis of environmental fields, and the need for their integration.

Course Attributes:

- Environmental Sustainability

ENVS 306 Economics and the Environment (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

How economic systems impact the natural environment and how the natural environment underlies the economy. Includes neoclassical and ecological economics perspectives.
(This course is offered as ENVS 306 and ECON 306. Students may not repeat the course under an alternate prefix.)

ENVS 331 Global Environmental Crisis (Units: 4)
Prerequisites: Upper division standing; ENG 214.

Describes the impact of a growing world economy and population on biological and physical earth systems, and the potential consequences of environmental destruction for human well-being. Explores the historical and economic reasons for the political divide between developed and less-developed countries with respect to environmental issues and negotiations.
(This course is offered as IR 331 and ENVS 331. Students may not repeat the course under an alternate prefix.)

Course Attributes:

- Environmental Sustainability
- Global Perspectives
- Social Justice

ENVS 450GW Environmental Law and Policy - GWAR (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C- or better, ENVS 300; or consent of instructor.

Introduction and overview of environmental policies and the legal system at the national and international level through directed readings, class discussion, and research in the field of environmental law and policy.
(ABC/NC grading only.)

Course Attributes:

- Graduation Writing Assessment

ENVS 460 Energy Justice and Sustainability (Units: 3)
Prerequisite: Upper division standing or consent of instructor

Interdisciplinary social scientific exploration of energy focusing on environmental justice, sustainability, and political economic perspectives. Topics include environmental impacts of energy systems and resources, social movements for sustainable energy transitions, and intersections of energy systems with inequalities in race, class, and gender.

ENVS 470 Climate Politics and Policy (Units: 3)
Prerequisite: ENVS 300 or consent of instructor.

Domestic and international politics surrounding both climate change and the requirements of climate policy in the context of a global society dedicated to economic growth and characterized by sharp divisions between rich and poor.

Course Attributes:

- Environmental Sustainability
- Global Perspectives

ENVS 530 Environmental Leadership and Organizing (Units: 3)
Prerequisite: ENVS 300 or consent of instructor.

Theoretical and applied study of leadership and organizing for the environment and environmental justice. Multidisciplinary exploration of social change and democratic action. Topics include gender and race sensitive leadership, alternative approaches for civic engagement, organizing strategy and tactics, advocacy ethics and current challenges facing the environmental movement.

ENVS 570 Applied Local Sustainability (Units: 3)
Prerequisite: ENVS 300 or consent of instructor.

Examination of current sustainability issues and efforts at San Francisco State University, local cities and other institutions across the country. Includes hands-on sustainability research on campus.

Course Attributes:

- Environmental Sustainability

ENVS 600 Environmental Problems and Solutions (Units: 3)
Prerequisite: ENG 214 or equivalent.

Ecological approach to nature and the landscape. Human populations, natural resources, and environmental quality in California with particular reference to the San Francisco Bay Area.
(This course is offered as GEOG 600 and ENVS 600. Students may not repeat the course under an alternate prefix.)

Course Attributes:

- UD-D: Social Sciences
- Environmental Sustainability
- Global Perspectives
ENVS 640 Recreational Use of National Parks and Protected Areas (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Introduction to concepts of conservation and preservation of national parks and other ecosystem units, and managing visitor use. Emphasis on history, management principles, and current issues. National parks will be the primary focus, selected international protected areas will be included. [CSL may be available]
(This course is offered as RPT 640 and ENVS 640. Students may not repeat the course under an alternate prefix.)

ENVS 657 Natural Resource Management: Biotic Resources (Units: 4)
Prerequisites: GEOG 181, GEOG 205 or ENVS 224, or consent of instructor.

Basic theories and methodologies of managing forest, wildlife and rangeland resources. Agencies, laws, and policies that govern natural resource management. Emphasis on the urban-wildland interface. Lecture, 3 units; laboratory, 1 unit.
(This course is offered as GEOG 657 and ENVS 657. Students may not repeat the course under an alternate prefix.)

ENVS 680 Environmental Studies Internship (Units: 1-3)
Prerequisites: Upper division standing; ENVS 300; consent of instructor.

Fieldwork in approved public, private, non-profit, environmental organizations, government and non-government agency or local corporation under supervision of organization and faculty coordinator. May be repeated for credit on advisement. [CSL may be available]

ENVS 690 Senior Seminar in Environmental Studies (Units: 3)
Prerequisites: Restricted to Environmental Studies majors with senior standing, completion of core courses.

Integration and application of major concentration in Environmental Studies. Trends in Environmental Studies. Group projects working with the community to assist in problem solving or activism; job evaluation. (Plus-minus letter grade only.)

ENVS 699 Independent Study (Units: 1-3)
Prerequisites: Upper division standing, consent of instructor, major adviser, and department chair.

Supervised study of a particular issue selected by the student. May be repeated for a total of 6 units.
**Ethnic Studies (ETHS)**

**ETHS 100 Introduction to Ethnic Studies (Units: 3)**
History, objectives, and philosophy of Ethnic Studies. Student’s personal, educational, and career development in a pluralistic society and in an institute of higher education. [CSL may be available]
(This course is offered as ETHS 100 and RRS 100. Students may not repeat the course under an alternate prefix.)

**Course Attributes:**
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**ETHS 101 First Year Experience in Ethnic Studies (Units: 3)**
Foundations of intellectual, academic, and career preparation for majors and minors in the College of Ethnic Studies.

**ETHS 102 Basic Achievement Techniques (Units: 3)**
Examination and application of basic skills development among diverse students. Use of appropriate strategies and methods to support the intellectual and spiritual advancement of the student. Concurrent enrollment in another specified course may be required. May be repeated for a total of 6 units. (ABC/NC grading; CR/NC allowed)

**ETHS 110 Critical Thinking and the Ethnic Studies Experience (Units: 3)**
Basic skills involved in understanding, criticizing, and constructing arguments by using materials reflective of experiences of ethnic/racial groups in the U.S.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

**Course Attributes:**
- A3: Critical Thinking
- Am. Ethnic & Racial Minorities

**ETHS 300GW Writing in Ethnic Studies - GWAR (Units: 3)**
Prerequisites: Asian American Studies, American Indian Studies, Africana Studies, or Latina/Latino Studies major; ENG 214, APRS 214, LTNS 214, AA S 214, or equivalents, with grades of C- or better.

Foundations of writing in the disciplines of Ethnic Studies: Africana Studies, American Indian Studies, Asian American Studies, and Latina/ Latino Studies. Draws on the behavioral and social sciences, the humanities, and the creative arts to prepare students for advanced work in Ethnic Studies, and for careers requiring breadth and depth of knowledge. (ABC/NC grading only)

**Course Attributes:**
- Graduation Writing Assessment

**ETHS 400 Islam and Fiction in English (Units: 3)**
Prerequisite: Upper division standing or consent of instructor.

Introduction to various representations of Islam in modern fiction, both in the Islamic world and beyond, focusing on the literary cultural influences portrayed in texts that address Islam and Muslims whether centrally or peripherally.
(This course is offered as ARAB 400 and ETHS 400. Students may not repeat the course under an alternate prefix.)

**ETHS 473 Unfree Labor in Early America (Units: 3)**
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
An examination and comparison of various forms of unfree labor in early America from the colonial period to the Civil War, tracing change over time and investigating the relationship among economic systems, ideology, and social relations.
(This course is offered as HIST 473, ETHS 473, and LABR 473. Students may not repeat the course under an alternate prefix.)

**ETHS 499 Culminating Experience Continuous Enrollment (Unit: 0)**

**ETHS 510 History of Arabic Literature I: Classical Arabic Literature (Units: 3)**
Prerequisite: Four semesters of lower division Arabic or equivalent or consent of instructor.

Introduction to major themes and ideas in classical Arabic literature, focusing on major poetry and prose works from the pre-Islamic and early Caliphate eras.
(This course is offered as ARAB 510 and ETHS 510. Students may not repeat the course under an alternate prefix.)

**ETHS 511 History of Arabic Literature II: Modern Arabic Literature (Units: 3)**
Prerequisite: Four semesters of lower division Arabic or equivalent or consent of instructor.

Introduction to major themes and ideas in modern and contemporary Arabic literature from various countries (e.g., Morocco, Algeria, Egypt, Syria, Sudan), focusing on major works from the late 19th century to the present.
(This course is offered as ARAB 511 and ETHS 511. Students may not repeat the course under an alternate prefix.)

**ETHS 545 Traditional Kulintang Music and Dance of the Southern Philippines (Units: 3)**
Prerequisite: Upper division standing or consent of instructor.

Music and dance of Southern Philippines, emphasis on Kulintang tradition of Mindanao and Sulu Archipelago. Lectures and hands-on workshops on dance movement and music of Kulintang culture. May be repeated for a total of 6 units.
(This course is offered as ETHS 545, DANC 545, and MUS 545. Students may not repeat the course under an alternate prefix.)

**ETHS 590 Ethnic Studies Travel Study (Units: 1-3)**
Prerequisite: Upper division standing or consent of instructor.

Sponsored group travel study to a designated location.

**ETHS 637 Experimental Novel: 1950-1980 (Units: 3)**
Prerequisite: ENG 214 or equivalent or consent of instructor.

Survey of experimental novels from North and South America merging between 1950-1980, and changing how we view extended narratives.
(This course is offered as ENG 637 and ETHS 637. Students may not repeat the course under an alternate prefix.)

**ETHS 675 Variable Topics in Ethnic Studies (Units: 3)**
Prerequisite: Upper division standing or consent of instructor.

Examination of variable issues and topics in ethnic studies. Topic to be specified in Class Schedule. May be repeated for a total of 9 units.
ETHS 685 Projects in the Teaching of Ethnic Studies (Units: 1-4)
Prerequisites: Upper division standing and consent of instructor.
Academic service learning practicum/internship experience as an undergraduate instructional aide. Participation in the teaching of a regular instructionally-related class. Limited to undergraduate students only. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

ETHS 697 Field Research or Internship in Ethnic Studies (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
Development of research methodology of Third World societies in the U.S. Gathering materials through non-written sources such as artifacts, oral evidence, participation-observation. May be repeated for a total of 6 units with departmental approval. [CSL may be available]

ETHS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of adviser, instructor, and program coordinator.
Supervised individual study of a particular inter-ethnic problem in ethnic studies. May be repeated for a total of 6 units.

ETHS 700 Race and Resistance in Historical Perspective (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Relational history of people of color in the U.S., their experience in the development of society, and the contested role of race in their collective experiences. A comparative examination of organized and unorganized forms of resistance to emerge within and/or across communities to achieve racial justice and self-determination.

ETHS 710 Theories and Issues in Ethnic Studies (Units: 3)
Prerequisite: Consent of instructor.
Concepts and theories in ethnic studies. Identifies, analyzes, and critically reviews the American history and experience of people of color.

ETHS 720 Research Methods in Ethnic Studies (Units: 3)
Prerequisites: Basic course in statistics and consent of instructor.
Research methods pertaining to African Americans, Asian Americans, La Raza, and American Indians in third world critical perspective: research proposal, data collection analysis, interpretation, statistical summarization. Examples from the third world experience.

ETHS 750 Ethnic Studies Community Practicum (Units: 3)
Prerequisite: Consent of instructor.
Philosophies, strategies, and methods in community studies. Evaluation of alternatives in terms of issues facing third world communities. Internship in a community-based agency or organization. Classwork, 2 units; fieldwork, 1 unit.

ETHS 820 Advanced Research Seminar in Ethnic Studies (Units: 3)
Prerequisite: ETHS 720 or consent of instructor.
Seminar on advanced research in ethnic studies. Key elements in developing a research or creative work project.

ETHS 885 Graduate Projects in the Teaching of Ethnic Studies (Units: 3)
Prerequisites: Restricted to graduate students in Ethnic Studies and consent of instructor.
Academic service learning practicum/internship experience as an undergraduate instructional aide. Participation in the teaching of a regular instructionally related class.

ETHS 895 Field Study (Units: 3)
Prerequisites: Consent of instructor and graduate major advisor; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

ETHS 896 Directed Reading in Ethnic Studies (Units: 3)
Prerequisite: Consent of adviser.
Intensive directed reading in ethnic studies under the supervision of a faculty member.

ETHS 898 Master's Thesis (Units: 3)
Prerequisites: Advancement to Candidacy (ATC) and approval of graduate major adviser.
ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

ETHS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of graduate coordinator and supervising faculty member.
Individual research into an issue in ethnic studies. Enrollment by petition and limited to graduate students in the program.
Finance (FIN)

FIN 303 Accounting for Financial Analysis (Units: 3)
Prerequisites: Restricted to upper division Finance majors and minors; FIN 350 with a grade of C- or better.

Theory and practice of accounting for assets, liabilities, owners’ equity, income and the construction and analysis of financial statements. [Formerly ACCT 303]

FIN 309 Financial Data Analysis (Units: 3)
Prerequisites: FIN 350 with a grade of C- or better; ISYS 263.

Techniques and applications of analysis using accounting-based and market-based financial data. Statistical and financial modeling software systems.

FIN 350 Business Finance (Units: 3)
Prerequisites: Restricted to upper division Business majors and minors; ACCT 101, ECON 101, ECON 102, DS 212, with grades of C- or better.

Sources, methods, and instruments used by firms in obtaining and utilizing funds, in domestic and international markets, for short- and long-term operations, designed to maximize shareholders’ wealth.

FIN 351 Financial Management (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Conceptual and analytical aspects of financial decision-making. Risk-return analysis, capital budgeting, capital structure, valuation, and cost of capital.

FIN 353 Financial Institutions (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Financial institutions in our contemporary financial system; their role in financial markets and in financing business investment, their regulation, investment policies, management problems, and current developments.

FIN 355 Investments (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Sources of investor information. Classes of investments, movement of security prices; analysis and interpretation of financial statements. The role of Wall Street; adapting investment policy to investor needs and purposes.

FIN 357 Financial Statement and Data Analysis (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Techniques for the analysis and applications of financial statements and financial data for financial management and security market analysis, uses of spreadsheet and/or statistical models for financial analysis. (Plus-minus letter grade only)

FIN 365 Real Estate Principles (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Economic, financial, and legal principles of real estate; real property contracts and interest; analysis of housing markets; evaluation of governmental policies and social changes; considerations in owning, leasing, managing various types of realty.

FIN 370 Fundamentals of Real Estate (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Fundamentals of commercial real estate ownership and management. Focus on strategies for creating value in an income-producing property, the concept of investment real estate equity, and leverage strategies to increase portfolio value.

FIN 371 Commercial Real Estate Financial Management (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

The financial relationship between owner and tenant/user. Exploration of the dynamics of two viewpoints: the real estate professional’s objectives and constraints, and the owner/investor who markets to and negotiates with a tenant.

FIN 372 Commercial Leasing and Development (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Application of acquired classroom knowledge to a real-world commercial leasing case addressing the financial challenges of a redevelopment case that has evaded a financial resolution for nearly 20 years. Focus on components of the proposal such as the entitlement process, leasing, financial management, investor financing, and sustainable business issues.

FIN 435 Politics of Global Finance and Crisis (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

The development and role of late 20th and early 21st century financial technologies in modern market crises. Research and critical analysis of 21st century finance capitalism. Political and financial interactions, including limits and possibilities for controlling financial behavior. (This course is offered as PLSI 435, I R 435, and FIN 435. May not be repeated under alternate prefix.)

FIN 536 International Finance (Units: 3)
Prerequisites: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

International financial environment and corporate financial management. Topics include balance of payment, foreign exchange markets, international parity conditions, foreign exchange risk management and international financial markets. (Plus-minus letter grade only)

FIN 653 Seminar in Bank Management (Units: 3)
Prerequisites: Restricted to upper division Finance Major; FIN 353 with a grade of C- or better, ECON 500 recommended.

Analysis of decisions in liquidity, forecasting fund flows, portfolio adjustments, capital structure, profitability, and regulatory constraints applicable to bank management.

FIN 655 Alternative Investment (Units: 3)
Prerequisite: Restricted to upper division Finance majors; FIN 355 with a grade of C- or better.

A theoretical and practical look into the world of managing alternative investments and behavioral finance. Topics include hedge funds, market rationality and irrationality, fixed income, risk and rewards of various investment styles, etc. (Plus-minus letter only)
FIN 656 Student Managed Investment Fund (Units: 3)
Prerequisite: FIN 355 with a grade of C- or better; restricted to upper division finance majors.

Theoretical and practical design of investment strategies, analysis and selection of investment vehicles, analysis of portfolio risk and return, and portfolio performance metrics. (Plus-minus letter grade only)

FIN 658 Financial Risk Management (Units: 3)
Prerequisite: Restricted to upper division Finance majors, FIN 350 with a grade of C- or better.

Analysis and management of corporate and institutional financial risk exposure using financial derivatives. Risk exposures include, market risk, credit risk, liquidity risk, and operational risk. (Plus-minus letter grade only)

FIN 659 Special Topics in Finance (Units: 3)
Prerequisite: Restricted to upper division Finance majors; FIN 350 with a grade of C- or better.

Critical and emerging issues in finance. Topics may include derivative assets; pricing and application; financial and economic crisis mergers and acquisitions; start-up financing; private equity; venture capital, and other relevant topics as they arise.

FIN 699 Independent Study (Units: 1-3)
Prerequisites: Senior standing; FIN 350, two additional required courses for the concentration with a minimum grade of B or better; or consent of instructor.

Intensive problem analysis under the direction of a finance faculty member. Open only to upper division students who have demonstrated ability to do independent work. May be repeated for a total of 12 units. (CR/NC grading only)

FIN 819 Financial Analysis and Management (Units: 3)
Prerequisites: BUS 785 with a grade of B- or better. Restricted to graduate business student, graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Analysis of recent innovations in financial theory applied to domestic and international aspects of working capital management, security valuation, capital budgeting, cost of capital, capital structure, dividend policy, mergers and acquisitions. (Plus-minus letter grade only)

FIN 820 Seminar in Financial Risk Management (Units: 3)
Prerequisites: FIN 819 with a grade of B- or better, FIN 825, FIN 828 recommended. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Analysis of the use of financial derivatives to hedge or diversity market risk, interest rate risk, credit risk, liquidity risk, operational risk, currency risk, and legal risk. (Plus-minus letter grade only)

FIN 825 Seminar in Investments (Units: 3)
Prerequisites: FIN 819 with a grade of B- or better. Restricted to graduate business student, graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Theoretical literature on domestic and international aspects of investment analysis, valuation, and management. Micro and macro aspects of investments, including models for investment decision-making and security valuation. (Plus-minus letter grade only)

FIN 828 Seminar: Financial Markets and Institutions (Units: 3)
Prerequisites: FIN 819 with a grade of B- or better. Restricted to graduate business student, graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Domestic and international aspects of financial institutions, their markets, securities, and business and regulatory environment. Presented from the viewpoint of managers responsible for asset and liability management of financial institutions. (Plus-minus letter grade only)

FIN 836 Seminar in International Finance (Units: 3)
Prerequisites: FIN 819 with a grade of B- or better. Restricted to graduate business student, graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

International financial environment and corporate financial management. Topics include balance payment, foreign exchange markets, international parity conditions, foreign exchange risk management and international financial markets. (Plus-minus letter grade only)
French (FR)

FR 101 First Semester French (Units: 4)
Understanding, speaking, reading, and writing the French language; basic elements of French and Francophone culture. Acquisition of communicative skills in situational-cultural contexts.
Course Attributes:
- C2: Humanities
- Global Perspectives
- Social Justice

FR 102 Second Semester French (Units: 4)
Prerequisite: FR 101 or equivalent.
Continuation of FR 101. Students will continue to engage in basic communication activities and develop the four skills, listening, speaking, reading, and writing, through the study and practice of grammatical and phonetic structures, and through a variety of exercises based on authentic cultural materials representing the Francophone world.
Course Attributes:
- C2: Humanities
- Global Perspectives
- Social Justice

FR 215 Intermediate French I (Units: 3)
Prerequisite: FR 102 or equivalent, or appropriate placement test score.
Attainment of Intermediate High Level in the four skills in French through increasingly complex tasks based on authentic French and Francophone cultural materials.
Course Attributes:
- C2: Humanities
- Global Perspectives
- Social Justice

FR 216 Intermediate French II (Units: 3)
Prerequisite: FR 215 or equivalent.
Attainment of Advanced Low Level in the four skills in French through increasingly complex tasks based on authentic French and Francophone cultural materials.
Course Attributes:
- C2: Humanities
- Global Perspectives
- Social Justice

FR 301 French Phonetics (Units: 3)
Prerequisites: FR 215 and FR 216 or equivalent.
Course Attributes:
- Global Perspectives

FR 304 Advanced Grammar (Units: 3)
Prerequisites: Upper division standing; FR 215 and FR 216 or equivalent.
Intensive review of the French grammar to acquire an advanced level of the language in which structural errors and forms are minimal. Grammar points will be reviewed at the advanced level and in context via literature, paintings, music, etc. Course is offered on-line only.

FR 305 French Composition (Units: 3)
Prerequisites: FR 215 and FR 216 or equivalent.
Practice in expository writing. Form, development, and organization of various types of essays, including the study of style.
Course Attributes:
- Global Perspectives

FR 306 Advanced Conversation (Units: 3)
Prerequisites: FR 215 and FR 216 or equivalent; may be taken concurrently with FR 305.
Oral presentation and group discussions based on literary and cultural topics.
Course Attributes:
- Global Perspectives

FR 350 French for the Business World (Units: 3)
Prerequisites: FR 215 and FR 216, or the demonstrated competence equivalent to the course prerequisites.
Focus on specialized economic and commercial vocabulary, diverse aspects of Francophone professional life, practical materials (e.g., cover letter and CV), and preparation for professional activities (e.g., public speaking and interview).

FR 400GW French Culture - GWAR (Units: 3)
Prerequisites: ENG 214 with a grade of C- or better, FR 305, or equivalent.
Introduction to French culture from the Middle Ages to the early 20th century. Sixty percent of written work will be done in English. (ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment
- Global Perspectives

FR 410 Contemporary French Civilization (Units: 3)
Prerequisite: FR 305 or equivalent.
The culture and civilization of France from 1939 to present.
Course Attributes:
- Global Perspectives

FR 450 Translating Themes: English/French (Units: 3)
Prerequisite: FR 305 or equivalent.
Translations from a selection of representative texts written in modern English. Four kinds of English texts are examined for translation into French: literature, literary criticism, journalism, and business language. Emphasis on the specific stylistic problems encountered when translating such different genres. [CSL may be available]
Course Attributes:
- Global Perspectives
FR 500 Introduction to Literary Texts (Units: 3)
Prerequisites: FR 301, FR 305, and FR 306, or equivalents, FR 400GW, or equivalent, or concurrent enrollment highly recommended.

Oral and written analysis of selected texts in French, representative of the different periods of French and Francophone literature.

Course Attributes:

• Global Perspectives

FR 501 Contes et Poemes (Units: 3)
Prerequisites: FR 305 or equivalent; FR 301 and FR 306 recommended.

A study of the "conte," or tale, in both its verse and prose forms, as expressed in French and Francophone literature from the Middle Ages to the present.

Course Attributes:

• Global Perspectives

FR 525 17th and 18th Century French Theater (Units: 3)
Prerequisite: FR 500 or equivalent.

Introduction to principal dramatic texts and conventions of seventeenth and eighteenth century France. (FR 825/FR 525 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

FR 555 Art et Poesie: 1860-1940 (Units: 3)
Prerequisite for FR 855: Admission to French M.A. program or consent of instructor.

Prerequisite for FR 555: FR 500 or equivalent or consent of instructor.

French and Francophone poetry between 1860 and 1940 and its relation with the arts, especially music and painting. (FR 855/FR 555 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

FR 565 Paris: Capitale du 19e siècle (Units: 3)
Prerequisite for FR 865: Admission to French M.A. program or consent of instructor.

Prerequisite for FR 565: FR 500 or FR 501 or equivalent.

Investigation of the significance of the French metropolis's rise to preeminence following the French Revolution. Examination of nineteenth-century literary and visual representations of Paris alongside histories of the city; exploration of how culture intersects with the urban environment. (FR 865/FR 565 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

FR 699 Independent Study (Units: 1-3)
Prerequisites Consent of department chair and instructor.

Written project in linguistics, literature or culture. Material adapted to individual needs and interests. Open only to students who have demonstrated ability to do independent work. May be repeated.

FR 800 Seminar in French and Francophone Language and Culture (Units: 3)
Prerequisite: Admission to French M.A. program or consent of instructor.

Rotating course covering the French and Francophone language and culture of a particular theme, period, genre or movement. Topic to be specified in Class Schedule. May be repeated when topics vary.

FR 810 Seminar in French Literary Movements, Periods, or Genres (Units: 3)
Prerequisite: Admission to French M.A. program or consent of instructor.

Rotating course covering the French and Francophone literature of a particular theme, period, genre or movement. Topic to be specified in Class Schedule. May be repeated when topics vary.

FR 812 Le Merveilleux (Units: 3)
Prerequisite: B.A. in French or consent of instructor.

Discovery of the Other and unknown lands through literary works, maps, and paintings from the Middle Ages to 17th century. How medieval and early modern France imagines remote worlds and their exotic inhabitants.

FR 814 Theatre et Spectacles du Moyen Age au 17e (Units: 3)
Prerequisite: Graduate standing in French or consent of instructor.

Examination of the literary, historical, cultural, and theatrical evolution of the stages and performances from Middle Ages to 17th century. Emphasis on analysis of plays, farces, ballets, and operas with particular focus on their innovations, literary, and cultural impacts.

FR 825 17th and 18th Century French Theater (Units: 3)
Prerequisite: FR 500 or equivalent.

Introduction to principal dramatic texts and conventions of seventeenth and eighteenth century France. (FR 825/FR 525 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

FR 835 Les Philosophes (Units: 3)
Prerequisite: BA in French or consent of instructor.

Examination of the French Enlightenment through philosophical topics and cultural context in 18th century France via philosophers such as Voltaire, Rousseau, Montesquieu, Diderot, etc.

FR 855 Art et Poesie: 1860-1940 (Units: 3)
Prerequisite for FR 855: Admission to French M.A. program or consent of instructor.

Prerequisite for FR 555: FR 500 or equivalent or consent of instructor.

French and Francophone poetry between 1860 and 1940 and its relation with the arts, especially music and painting. (FR 855/FR 555 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

FR 865 Paris: Capitale du 19e siècle (Units: 3)
Prerequisite for FR 865: Admission to French M.A. program or consent of instructor.

Prerequisite for FR 565: FR 500 or FR 501 or equivalent.

Investigation of the significance of the French metropolis's rise to preeminence following the French Revolution. Examination of nineteenth-century literary and visual representations of Paris alongside histories of the city; exploration of how culture intersects with the urban environment. (FR 865/FR 565 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
FR 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of
Advancement to Candidacy (ATC) and Culminating Experience (CE) forms
by Graduate Studies. ATC and Proposal for Culminating Experience
Requirement forms must be approved by the Graduate Division before
registration.

Enrollment in 896EXAM required for students whose culminating
experience consists of an examination only. Not for students enrolled in a
culminating experience course numbered FR 898. (CR/NC, RP)

FR 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement
to Candidacy (ATC) for the Master of Arts in French and Culminating
Experience (CE) forms by Graduate Studies.

Thesis must be written in French. Advancement to Candidacy (ATC)
and Proposal for Culminating Experience Requirement forms must be
approved by the Graduate Division before registration. (CR/NC grading
only)

FR 899 Independent Study (Units: 1-3)
Prerequisite: Consent of graduate major adviser and supervising faculty
member. Enrollment by petition.

Study is planned, developed, and completed under the direction of a
member of the department faculty. Open only to graduate students who
have demonstrated ability to do independent work.
Geography and Environment (GEOG)

GEOG 101 Our Physical Environment (Units: 3)
Environmental processes; elements of weather and climate; shapes of landforms; formation, distribution of soils and natural vegetation; physiography of oceans. Synergistic relations between the physical and human environments.
Course Attributes:
• B1: Physical Science
• Environmental Sustainability

GEOG 102 The Human Environment (Units: 3)
Nature of cultural geography; interpretation of the cultural elements of the geographic landscape and study of our changing relationship with the environment.
Course Attributes:
• D1: Social Sciences
• Environmental Sustainability
• Global Perspectives

GEOG 107 World Regions and Interrelations (Units: 3)
World culture regions: economic development, paths of cultural evolution, bases for political organization and resource appraisals; persistence of cultural differentiation in face of increasing interdependence, cultural transfer, and common threats to humanity.
Course Attributes:
• D1: Social Sciences
• Global Perspectives

GEOG 111 Our Physical Environment Lab (Unit: 1)
Prerequisite: Concurrent enrollment in GEOG 101.
Laboratory related to GEOG 101. Our Physical Environment. Topics include skills in mapping, graphing, field techniques and data analysis in introductory physical geography.

GEOG 160 Introduction to Environmental Science (Units: 4)
Introduction to ecological and environmental systems, and processes and problems at global, state, and local levels; examination of ecosystems, natural resources and earth processes and their interactions with the human environment. Classwork, 3 units; laboratory, 1 unit.
Course Attributes:
• B2: Life Science
• B3: Lab Science
• Environmental Sustainability
• Global Perspectives

GEOG 203 Geographical Measurement (Units: 3)
Prerequisite: A score of 50 or above on the Entry Level Mathematics (ELM) examination, or an approved exemption.

Extraction and analysis of qualitative and quantitative information about our environment. Applications of numerical and statistical techniques through the use of maps, geographic information systems, remote sensing, surveying, and GPS. Lecture, 2 units; laboratory, 1 unit.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• B4: Math/QR

GEOG 205 Geographic Techniques (Units: 3)
Prerequisites: Restricted to sophomore standing and above; GEOG 101 or equivalent; and Area B4: Lower Division Mathematics/Quantitative Reasoning.

Geographical analysis; methodology, tools, and techniques used in geographical research, including data acquisition, classification, descriptive statistics; map reading; introduction to geographic information science and remote sensing. [Formerly GEOG 103]

GEOG 301 Bay Area Environments (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Introduction to the complex nature of human and environment interaction in the SF Bay Area. Exploration of environmental issues, geologic processes, water, weather, climate and ecosystems, anthropogenic changes across the region, and the future of the Bay Area.
(This course is taught in a hybrid modality [online and in-person].
(This course is offered as A U 301 and GEOG 301. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-B: Physical Life Science
• Partial Online Course
• Environmental Sustainability

GEOG 312 Geography of Landforms (Units: 4)
Prerequisites: GEOG 101 and GEOG 205; or consent of instructor.

Development of earth's surface landforms through processes involving weathering, hill slopes and flowing water, wind and ice. Structural and climatic control of landforms. Geographic analysis of landform systems. Classwork, 3 units; laboratory, 1 unit. Extra fee required.

GEOG 313 Earth's Climate System (Units: 4)
Prerequisites: GEOG 101 and GEOG 205; or consent of instructor.

Physical characteristics and processes of Earth's climate system; atmospheric composition, radiation, energy and water budgets and circulations, interaction with biological, oceanic and cryospheric systems and global climate change. Computer-based analysis using climate measurements and models. Classwork, 3 units; fieldwork, 1 unit.

GEOG 314 Bioclimatology (Units: 4)
Prerequisites: GEOG 101 and GEOG 205; or consent of instructor.

Interactions between climate and the biosphere including ecosystem-atmosphere exchanges of energy, water and carbon, agricultural and urban climatology, wind transport and energy and measurement techniques. Classwork, 3 units; fieldwork, 1 unit.
GEOG 316 Biogeography (Units: 4)
Prerequisites: GEOG 101, GEOG 205; or consent of instructor.
Distribution, ranges, and limits of plants and animals and the
biogeographical effects of human occupancy. Ecological and historical
themes, the changing patterns of biota in space and time under changing
environmental and human conditions. Classwork, 3 units; fieldwork, 1
unit.

GEOG 317 Geography of Soils (Units: 4)
Prerequisites: GEOG 101, GEOG 205, ERTH 110, CHEM 180 or CHEM 115;
or consent of instructor.
Properties of soils and factors of formation: parent material, climate,
organisms, topography, and time. Distribution of taxonomic suborders.
Soils as a natural resource. Classwork, 3 units; laboratory and field work,
1 unit. Extra fee required.

GEOG 342 Surface Water Hydrology (Units: 4)
Prerequisites: MATH 226 and ERTH 210 or ERTH 505 are recommended;
or consent of instructor.
Introduction to surface water hydrology; exploration of hydrologic
processes; how precipitation and snowmelt become streamflow,
evapotranspiration, and groundwater; watershed hydrology, streamflow
processes, and water quality. (Plus-minus letter grade only) [Formerly
GEOL 473]
(This course is offered as ERTH 442 or GEOG 342. May not be repeated
under alternate prefix.)

GEOG 402 Human Response to Natural Hazards (Units: 3)
Prerequisite: ENG 214 or equivalent.
Human-environmental interactions that result in major and/or
frequent disasters to human lives and properties; overview of physical
mechanisms of natural hazards; coping strategies of societies; mitigation
of natural hazards in the context of sustainable development and
environmental conservation.

GEOG 421 Future Environments (Units: 3)
Prerequisite: ENG 214 or equivalent.
Geography of the future. Programs from an economic point of view and
economic development from an ecological point of view, including the
potential productivity of various regions. Future environments of North
America.

Course Attributes:
- UD-D: Social Sciences
- Environmental Sustainability
- Global Perspectives
- Social Justice

GEOG 422 Environmental Perception (Units: 3)
Prerequisite: GEOG 102 or consent of instructor.
Facets of human behavior associated with perceptions of the natural and
spatial environment, including mapping, residential preference, hazard
perception, environmental attitudes and impacts. Classwork, 2 units;
laboratory, 1 unit.

GEOG 423 Geographic Perspectives on Gender, Environment, and
Development (Units: 3)
Prerequisites: Upper division standing; ENG 214; or consent of instructor.
Explores geographic frameworks linking gender and environment and
examines how they have influenced the practice of development. Case
studies from US, Latin America, Africa and Asia. Topics include global
restructuring, gender-population-environment.
(This course is offered as GEOG 423 and WGS 423. Students may not
repeat the course under an alternate prefix.)

GEOG 425 Economic Geography (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Location and geographic distribution of the world’s major types of
production and associated systems of distribution and consumption;
interpretation of economic activities in relation to various features of the
environment.

GEOG 427 Agriculture and Food Supply (Units: 4)
Prerequisites: Upper division standing; GEOG 101; or consent of
instructor.
Investigation of the location and distribution of world agricultural
production and the environmental forces influencing agricultural
organization and food supply. Problems in U.S. and California agriculture
are analyzed. Classwork, 3 units; fieldwork, 1 unit.

Course Attributes:
- Environmental Sustainability
- Global Perspectives

GEOG 428 International Political Economy of Food and Hunger (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Exploration of why hunger persists in a world of abundance; food aid,
farm policy, and global food trade; whether production can match
population growth without environmental harm; crop genetic engineering,
international policies and movements for sustainability, and food
sovereignty/security.
(This course is offered as I R 428 and GEOG 428. Students may not repeat
the course under an alternate prefix.)

GEOG 430 Transforming Food and Agriculture Systems: Local to Global
(Units: 4)
Prerequisites: GEOG 101 and GEOG 102, or GEOG 427, or GEOG 428/
I R 428; or consent of instructor.
Exploration of movements for sustainable and urban agriculture,
local and regional food systems, food justice and food sovereignty;
consideration of ecological, economic, and political aspects of building
alternative food systems locally, nationally, and internationally. Field trips
and community service required. Classwork, 3 units; laboratory, 1 unit.

Course Attributes:
- Environmental Sustainability
- Global Perspectives
- Social Justice
GEOG 432 Urban Geography (Units: 4)
Prerequisite: ENG 214 or equivalent.
Geographic characteristics of cities in relation to evolution, morphology, and function. The internal and external relationships of diversified urban areas. Classwork, 3 units; fieldwork, 1 unit. (This course is offered as GEOG 432 and USP 432. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- Environmental Sustainability
- Global Perspectives

GEOG 433 Urban Transportation (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Interrelationship between urban transportation systems and internal spatial pattern of urban areas. Impact of the automobile and mass transit modes on urban morphology. Regional transportation planning methodology. Classwork, 3 units; fieldwork, 1 unit. (This course is offered as GEOG 433 and USP 433. Students may not repeat the course under an alternate prefix.)

GEOG 434 Geographies of Health and Health Care (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Geographies of health; the role place plays in determining the quality of health status, and in shaping access to and use of health care. (This course is offered as GEOG 434 and H ED 434. Students may not repeat the course under an alternate prefix.)

GEOG 435 Geography of Global Transportation (Units: 4)
Prerequisite: ENG 214 or equivalent.
Global transportation policies involving rail transit, bicycles, freight movement, airport ground access and automobile travel. Case studies in the Bay Area, North America, Europe, China, and Africa. Classwork, 3 units; fieldwork, 1 unit.

GEOG 437 Bicycle Geographies (Units: 4)
Prerequisite: Restricted to students with upper division standing.
Use of the campus and San Francisco as a living laboratory to engage in bicycle planning; key concepts and theories of bicycle transportation; examination of bicycling trends, bicycle system design, and social, cultural and political dimensions to cycling locally and globally. Note: Bicycling required; reasonable accommodations for students with disabilities may be arranged in advance with Disability Programs and Resource Center (DPRC). Classwork, 3 units; activity, 1 unit. (Plus-minus letter grade only)

GEOG 445 Geopolitics and Globalization (Units: 3)
Prerequisites: Upper division standing; ENG 214.
Physical and cultural geographic factors in and between political-territorial units. Effects of resource distribution, political motivations and ideologies on establishing territorial sovereignty. (This course is offered as GEOG 445 and IR 445. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences

GEOG 454 San Francisco on Foot (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Selected geographic themes—accessibility, spatial, interaction, differential land use, and the relationships between technology, values, and environmental utility—as expressed in the neighborhoods of San Francisco. Classwork, 2 units; fieldwork, 2 units. May be repeated for a total of 8 units.

GEOG 455 Geography of Ethnic Communities (Units: 3)
Prerequisite: ENG 214 or equivalent.
The spatial structure and organization of ethnic communities as illustrated by reference to San Francisco and other American cities.
Course Attributes:
- Am. Ethnic & Racial Minorities
- Social Justice

GEOG 500GW Physical and Human Dimensions of Climate Change - GWAR (Units: 3)
Prerequisites: GEOG 101 and GEOG 102; ENG 214 or equivalent with a grade of C- or better.
An interdisciplinary investigation of climate change including the causes, environmental and societal impacts as well as mitigation and adaptation strategies. The class bridges traditional human and physical branches of geography and examines a variety of associated writing conventions. (Plus-minus ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment

GEOG 550 Geography of the United States and Canada (Units: 3)
Prerequisite: ENG 214 or equivalent.
Anglo-America's physiography, climates, vegetation, soils, natural resources; the effect on development of industry, commerce, and population distribution.

GEOG 552 Geography of California (Units: 3)
Prerequisite: ENG 214 or equivalent.
Location and description of California's natural resources; influence of land surface, climate, natural vegetation, soils, and minerals upon economic development, routes of commerce, and population distribution. Current water problems.
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Environmental Sustainability
- Social Justice

GEOG 575 Emerging China (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
GEOG 600 Environmental Problems and Solutions (Units: 3)  
Prerequisite: ENG 214 or equivalent.  
Ecological approach to nature and the landscape. Human populations, natural resources, and environmental quality in California with particular reference to the San Francisco Bay Area.  
(This course is offered as GEOG 600 and ENVS 600. Students may not repeat the course under an alternate prefix.)  
Course Attributes:  
• UD-D: Social Sciences  
• Environmental Sustainability  
• Global Perspectives  

GEOG 601 Field Methods in Human Geography (Units: 3)  
Prerequisite: GEOG 205.  
Application of field methods in human geography. Research methodologies and design including interviewing, surveying, ethnographic methods, and archival research. Classwork, 2 units; laboratory, 1 unit.  
(GEOG 701/GEOG 601 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

GEOG 602 Field Methods in Physical Geography (Units: 4)  
Prerequisite: GEOG 205.  
Application of field methods to physical geography. Research methods and experimental design for field-based data collection including: geomorphic surveying, biometric sampling and atmospheric measurement and monitoring. Classwork, 2 units; fieldwork, 2 units.  
(GEOG 702/GEOG 602 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

GEOG 603 Introduction to Geographic Information Systems (Units: 3)  
Prerequisite: GEOG 205 or ENVS 224, or equivalent.  
Applications of computers in geographic problem-solving. Investigates the nature of geographic information sources—maps, earth images, and spatial databases—and the application of spatial analysis, mapping, charting, and image display tools. Classwork, 2 units; laboratory, 1 unit.  

GEOG 606 Cartography (Units: 4)  
Prerequisite: GEOG 205 or equivalent.  
Techniques of planning and constructing maps; assembly of source materials and compilation; symbol designing, lettering and layout; drafting and reproduction. Manual and automated techniques. Problems of cartographic generalization and symbolization. Classwork, 2 units; laboratory, 2 units. Extra fee required.  

GEOG 610 Remote Sensing of the Environment I (Units: 4)  
Prerequisite: GEOG 205.  
Introduction to remote sensing and digital image processing. Image acquisition, physical background, image interpretation. Display and enhancement of digital images, radiometric and geometric corrections. Classwork, 2 units; laboratory, 2 units. Extra fee required.  

GEOG 611 Remote Sensing of the Environment II (Units: 4)  
Prerequisite for GEOG 711: Graduate standing; GEOG 610; or consent of instructor.  
Prerequisite for GEOG 611: GEOG 610; or consent of instructor.  
Advanced remote sensing and digital image processing. Selected topics including object-oriented image processing with Definiens Professional. Classwork, 2 units; laboratory, 2 units.  
(GEOG 711/GEOG 611 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

GEOG 620 Geographical Information Systems (Units: 4)  
Prerequisites for GEOG 720: Graduate standing; GEOG 603 or equivalent.  
Prerequisite for GEOG 620: GEOG 603 or equivalent.  
Theory and applications of Geographic Information Systems for automating, analyzing, and producing maps from geographic data. Classwork, 2 units; laboratory, 2 units. Extra fee required.  
(GEOG 720/GEOG 620 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

GEOG 621 Geographic Information Systems for Environmental Analysis (Units: 4)  
Prerequisites: GEOG 205, GEOG 603 or equivalent, MATH 199 or sufficient score on calculus pretest.  

GIS applied to environmental analysis. Raster surface analysis, spatial analysis of discrete and continuous surfaces, spatial statistics and the generation of statistical surfaces from environmental samples and contour data. Classwork, 2 units; laboratory, 2 units.  
(GEOG 721/GEOG 621 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)  

GEOG 625 Programming for Geographic Information Science (Units: 4)  
Prerequisites: GEOG 620 or GEOG 621; MATH 199 or sufficient score on calculus pretest.  
Programming methods for developing new tools for automating existing methods for desktop (Python) and web (Javascript) GIScience environments. Essentials of object-oriented programming methods applied to GIS and remote sensing. Classwork, 2 units; laboratory, 2 units.  

GEOG 629 Coastal and Marine Applications of GIS (Units: 3)  
Prerequisite: GEOG 603 or consent of instructor.  
GIS for partial analysis to support coastal and marine research. Benthic habitat mapping, mapping and visualization for coastal/marine applications, spatial analysis of marine animal movements, habitat modeling and mapping of marine protected areas. Classwork, 2 units; laboratory, 1 unit. Extra fee required.  

GEOG 642 Watershed Assessment and Restoration (Units: 4)  
Prerequisites: GEOG 101 or ERTH 210, GEOG 603, MATH 199 or sufficient score on calculus pretest.  
Assessing and restoring watersheds and streams. Hydrologic and watershed processes; variables influencing runoff and erosion; hillslope and stream restoration techniques. Classwork, 3 units; fieldwork and GIS laboratory, 1 unit. [CSL may be available]  
(This course is offered as GEOG 642 and ERTH 642. Students may not repeat the course under an alternate prefix.)
GEOG 643 Biogeomorphology of Sierra Nevada Streams and Meadows (Units: 2)
Prerequisite: GEOG 101 or ERTH 110.
Understanding the complex interactions of hydrologic and biogeomorphic systems on streams and meadows in the northern Sierra Nevada, and learning field methods for assessing stream function as they respond to long-term impacts related to glacial history and short-term human impacts of timber extraction, road construction, and grazing. Laboratory. (This course is offered as GEOG 643 and ERTH 643. Students may not repeat the course under an alternate prefix.)

GEOG 644 Water Quality (Units: 3)
Prerequisites: GEOG 101, GEOG 205, CHEM 180, BIOL 230 or BIOL 240.
Examination of physical and social properties of water quality including pollution testing and mitigation, state and federal regulations, public policy and environmental justice.

GEOG 646 The Geography of Marine Resources (Units: 4)
Prerequisite: GEOG 101 or consent of instructor.
Character and spatial arrangements of resources of the ocean; analysis of marine biomass, minerals, and energy; examination of maritime policy and economic aspects of the marine environment. Classwork, 3 units; laboratory, 1 unit.

GEOG 647 Geography of Water Resources (Units: 4)
Prerequisite: GEOG 101 or consent of instructor.
Distribution and development of atmospheric, surface, and groundwater resources; interrelationships between water and human activities in California and the West. Divergent solutions to water-related issues and controversies. Classwork, 3 units; laboratory, 1 unit. Extra fee required.

GEOG 648 Management of National Parks and Protected Areas (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Conservation and preservation of large ecosystem units: national parks, nature and wildlife reserves and equivalent natural areas. History, management, and problems of these tracts of land. Classwork, 3 units; laboratory, 1 unit.

GEOG 651 San Francisco Bay Area Environmental Issues (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Mission and work of environmental management organizations. Managing our air, water, soil, wildlife, and aesthetic resources. Land use and transportation concepts. Field projects. Classwork, 3 units; laboratory, 1 unit. (This course is offered as GEOG 651 and USP 651. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability

GEOG 652 Environmental Impact Analysis (Units: 4)
Prerequisite: GEOG 205 or ENVS 224 or consent of instructor.
Cultural and physical environmental interrelationships. Evaluating impact proposals. Reconciling resource potentials with human needs, problems of social development impact, and environmental quality protection. (This course is offered as GEOG 652 and USP 652. Students may not repeat the course under an alternate prefix.)

GEOG 657 Natural Resource Management: Biotic Resources (Units: 4)
Prerequisites: GEOG 101, GEOG 205 or ENVS 224, or consent of instructor.
Basic theories and methodologies of managing forest, wildlife and rangeland resources. Agencies, laws, and policies that govern natural resource management. Emphasis on the urban-wildland interface. Lecture, 3 units; laboratory, 1 unit. (This course is offered as GEOG 657 and ENVS 657. Students may not repeat the course under an alternate prefix.)

GEOG 658 Land-Use Planning (Units: 4)
Prerequisite: ENG 214 or equivalent.
The institutions, practice, and methodology of land-use planning. Relationship of planning to socio-economic objectives within the context of market and political forces. The planning process, locational analysis, zoning, and negotiated development. Classwork, 3 units; laboratory, 1 unit. (This course is offered as GEOG 658 and USP 658. Students may not repeat the course under an alternate prefix.)

GEOG 666 Geography of Garbage: Recycling and Waste Reduction (Units: 3)
Prerequisites: Junior standing; ENG 214 or equivalent.
Geographical analysis of waste. Alternative solutions focusing on the San Francisco Bay Area: development and implementation of resource management programs.

Course Attributes:
- Environmental Sustainability

GEOG 667 Environmental Justice: Race, Poverty, and the Environment (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Examination of environmental justice concepts, research and policies; understanding how toxins and other environmental assaults differentially affect communities and groups in USA and abroad; focus on research, ethnic, class dynamics; environmental justice movements, public policy and planning. (This course is offered as USP 515 and GEOG 667. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- Environmental Sustainability
- Global Perspectives
- Social Justice

GEOG 668 Politics, Law, and the Urban Environment (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Law and the legal system as mechanisms for regulating urban development and protecting the environment; intervention in development and land use; environmental decay, conservation of open space, other related resources. Lecture, 3 units; activity, 1 unit. (This course is offered as USP 513, GEOG 668, and PLSI 513. Students may not repeat the course under an alternate prefix.)
GEOG 685 Projects in Teaching Geography (Units: 1-3)
Prerequisites: Upper division standing; a grade of B or better in course for training; consent of Instructor.
Training in the teaching of geography. Responsibilities include working with supervising faculty to review and prepare course materials, tutor students, conduct small discussion groups and give brief lectures/demonstrations. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

GEOG 688 Geographic Internship (Units: 2-6)
Prerequisites: Minimum of fifteen (15) units in geography and consent of instructor.
Practical geographic assignments with sponsoring agencies. May be repeated when different internships are undertaken to a maximum of 6 units.

GEOG 690 Senior Seminar in Geography and Environmental Science (Units: 3)
Prerequisites: Senior standing in BA Geography or BS Environmental Science; completion of core requirements, GEOG 101, GEOG 102 or GEOG 107, GEOG 205, GEOG 500GW.
Research project formulation and development, writing strategies and conventions in academic and professional contexts, career preparation in Geography. (Formerly GEOG 690GW)

GEOG 691 Geography and Environment Capstone (Units: 2)
Prerequisites: Senior standing; GEOG 205 and a GWAR course in geography.
Panel discussions with geographers and other environmental professionals working in the Bay Area. Workshops on career preparation and project development. Laboratory.

GEOG 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, major adviser, and department chair.
Supervised study of a particular problem selected by the student in consultation with the adviser. May be repeated for a total of 3 units.

GEOG 701 Field Methods in Human Geography (Units: 3)
Prerequisite: GEOG 205.
Application of field methods in human geography. Research methodologies and design including interviewing, surveying, ethnographic methods, and archival research. Classwork, 2 units; laboratory, 1 unit.
(GEOG 701/GEOG 601 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GEOG 702 Field Methods in Physical Geography (Units: 4)
Prerequisite: GEOG 205.
Application of field methods to physical geography. Research methods and experimental design for field-based data collection including: geomorphic surveying, biometric sampling and atmospheric measurement and monitoring. Classwork, 2 units; fieldwork, 2 units.
(GEOG 702/GEOG 602 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GEOG 705 Geographical Analysis (Units: 3)
Prerequisites: Classified status in geography; GEOG 205 or equivalent.
Methods of statistical analysis and review of their use in geographic literature; univariate and multivariate analysis, graphical presentation; statistical software. Classwork, 2 units; laboratory, 1 unit.

GEOG 711 Remote Sensing of the Environment II (Units: 4)
Prerequisite for GEOG 711: Graduate standing; GEOG 610; or consent of instructor.
Prerequisite for GEOG 611: GEOG 610; or consent of instructor.
Advanced remote sensing and digital image processing. Selected topics including object-oriented image processing with Definiens Professional. Classwork, 2 units; laboratory, 2 units. (GEOG 711/GEOG 611 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GEOG 720 Geographical Information Systems (Units: 4)
Prerequisites for GEOG 720: Graduate standing; GEOG 603 or equivalent. Prerequisite for GEOG 620: GEOG 603 or equivalent.
Theory and applications of Geographic Information Systems for automating, analyzing, and producing maps from geographic data. Classwork, 2 units; laboratory, 2 units. Extra fee required. (GEOG 720/GEOG 620 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GEOG 721 Geographic Information Systems for Environmental Analysis (Units: 4)
Prerequisites: GEOG 205, GEOG 603 or equivalent, MATH 199 or sufficient score on calculus pretest.
GIS applied to environmental analysis. Raster surface analysis, spatial analysis of discrete and continuous surfaces, spatial statistics and the generation of statistical surfaces from environmental samples and contour data. Classwork, 2 units; laboratory, 2 units. (GEOG 721/GEOG 621 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GEOG 735 Seminar in Global Environmental Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
International/global policy making process and responses to critical environmental problems confronting the world as well as underlying causes such as population explosion and energy consumption. Policy choices, negotiating strategies, and outcomes.
(This course is offered as I R 735 and GEOG 735. Students may not repeat the course under an alternate prefix.)

GEOG 751 Environmental Management (Units: 3)
Prerequisites: Classified standing in geography; GEOG 600 or consent of instructor.
Management and planning concepts and their application to problems in resource development and environmental protection. History of environmental management and policy; national and international problems in environmental management. (Plus-minus letter grade only)

GEOG 776 Environmental Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Covers scope and theories of US and CA environmental policy.
(This course is offered as P A 776 and GEOG 776. Students may not repeat the course under an alternate prefix.)
GEOG 785 College Teaching of Geography (Units: 1-3)
Prerequisites: Graduate standing; a grade of B or better in the course of training; consent of instructor.
Training in the teaching of geography. Work with supervising faculty to review and prepare course materials, tutor students, conduct small discussion groups and give brief lectures/demonstrations. May be repeated for 3 units total of degree credit.

GEOG 789 GIScience Internship (Units: 3)
Prerequisites: Classified standing in MS GIScience program and consent of instructor.
Professional work experience: students will work 135 hours with sponsoring agencies or organizations under the supervision of a faculty member and an on-site work supervisor. (Plus-minus letter grade only)

GEOG 801 Scope and Method in Geography (Units: 3)
Prerequisite: Classified graduate standing in geography.
Nature of geography and its historical development with emphasis on geographic literature. Alternative geographic approaches to themes central to the discipline. (Plus-minus letter grade only)

GEOG 810 Seminar in Physical Geography (Units: 3)
Prerequisites: Classified standing in geography; GEOG 801, appropriate upper division course work.
Field to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus letter grade only)

GEOG 815 Seminar in GIScience (Units: 3)
Prerequisites: Classified graduate standing in geography or GIScience; upper division coursework in GIScience; or consent of instructor.
Theoretical development of GIScience with emphasis on exploring and discussing research literature in geographic information systems, remote sensing, and spatial analysis. Extra fee required. (Plus-minus letter grade only)

GEOG 820 Human and Social Geography (Units: 3)
Prerequisites: Classified standing in geography; GEOG 801, appropriate upper division course work; or consent of instructor.
Investigation of the development of this subfield in human geography with special emphasis on theoretical frameworks, research paradigms and applications to contemporary life. (Plus-minus letter grade only)

GEOG 832 Seminar in Urban Geography (Units: 3)
Prerequisites: Classified standing in geography; GEOG 432; or consent of instructor.
Seminar in geographic theory, methods of analysis, and research techniques relating to urban areas. (Plus-minus letter grade only)

GEOG 857 Issues in Marine and Estuarine Conservation (Units: 3)
Prerequisites: Restricted to graduate students in geography; GEOG 801 or BIOL 708; or consent of instructor.
Exploration of issues of marine, wetland and coastal conservation due to human exploitation of resources. Discussions include critical evaluations of landmark and current research; topics of relevance to individual student research. (Plus-minus letter grade only)

GEOG 858 Seminar in Environmental and Land Use Planning (Units: 3)
Prerequisites: Classified standing in geography; appropriate upper division course work.
Nature and status of environmental planning, including contemporary themes and research trends. Application of geographic concepts, methods, and research techniques.

GEOG 895 Research Project (Units: 3)
Prerequisites: Classified standing in geography; consent of instructor and chair of student's committee; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

GEOG 896 Directed Reading in Geography (Units: 3)
Prerequisites: Classified standing in geography and consent of adviser. Intensive supervised research to achieve better understanding of a specific topic, concept, or area chosen on the basis of individual student need. Readings, tutorial discussion, and research report or creative projects required.

GEOG 897 Research Project Formulation (Units: 2)
Prerequisites: Classified status in geography and filing of ATC form.
Development of Master's thesis: formulation of research question, literature review and methodology, leading to a written and oral proposal; focus on colloquia, thesis defenses, workshops on grants, publication writing, and research methods. (CR/NC grading only)

GEOG 898 Master's Thesis (Units: 3)
Prerequisites: Classified status in geography; consent of instructor and chairperson of candidate's committee; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

GEOG 899 Independent Study (Units: 1-3)
Prerequisites: Classified status in geography; and consent of graduate major adviser, supervising faculty member, and department chair.
Study is planned, developed, and completed under the direction of a member of the departmental faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition. May be repeated for a total of 3 units.
German (GER)

GER 101 First Semester German (Units: 4)
Listening, speaking, reading, and writing German. Intended for true beginners.
Course Attributes:
  • C2: Humanities
  • Global Perspectives

GER 102 Second Semester German (Units: 4)
Continuation of first semester German.
Course Attributes:
  • Global Perspectives

GER 206 Intermediate German Conversation (Units: 3)
Prerequisites: GER 101 and GER 102 or equivalents.
Intensive listening and speaking practice. Group discussions based on texts and videos. Skits and other presentations.
Course Attributes:
  • C2: Humanities
  • Global Perspectives

GER 207 Intermediate German (Units: 3)
Prerequisite: GER 102 or equivalent.
Listening, speaking, reading, and writing at the intermediate level. Group projects based on contemporary issues.
Course Attributes:
  • C2: Humanities
  • Global Perspectives

GER 301 German in Review (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents.
Review of structure and speech patterns. Compositions, oral presentations, and group discussions based on short stories, newspaper articles, contemporary films, and other cultural topics.

GER 302 Grammar in Context (Units: 3)
Prerequisite: GER 207 or equivalent demonstrated proficiency.
[Online Course] Study, review, and communicative practice of grammar structures in the context of real-world language tasks or projects.

GER 305 Advanced Grammar and Composition (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents.
Study and practice of grammar structures. Systematic writing practice.
Course Attributes:
  • Global Perspectives

GER 325 Applied German Linguistics: Phonetics and Phonology (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents.
Application of modern descriptive linguistics to the analysis of the phonetic and phonemic systems. Comparative approach German/English. Laboratory practice.

GER 330 German Language and Society (Units: 3)
Prerequisites: GER 206 and GER 207 or consent of instructor.
Exploration of a wide spectrum of linguistic issues and approaches, illustrated through the analysis of the forms, functions and uses of contemporary German.

GER 335 German Through Cinema (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents or consent of instructor.
Canonical works of German cinema to increase students’ language competence in receptive and productive skills. Development of ideas in writing activities to focus also on vocabulary, grammar, and style.

GER 341 Intensive Language Practice and Analysis (Units: 3)
Prerequisite: GER 305 or equivalent.
Systematic and intensive study of written and oral expression. Designed for advanced students of German. May be repeated for a total of 9 units.

GER 350GW Translation Workshop - GWAR (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C- or better, GER 206 and GER 207 or equivalents.
Translating written and spoken texts, using German or English as source languages. (ABC/NC grading only)
Course Attributes:
  • Graduation Writing Assessment
  • Global Perspectives

GER 401 German Culture and Civilization I (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents.
Highlights of German culture and civilization from the beginning to 1918.

GER 502 Contemporary Germany (Units: 3)
Prerequisites for GER 802: Admission to German M.A. program; GER 301 or equivalent; or consent of instructor.
Prerequisite for GER 502: GER 301 or equivalent or consent of instructor.
Germany today: its achievement, challenges, problems, potential dangers, and important developments, trends, issues, figures that have shaped the nation.
(GER 802/GER 502 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 510 German Literature I (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents.
Literary development from the Middle Ages through the Age of Goethe.

GER 511 German Literature II (Units: 3)
Prerequisites: GER 206 and GER 207 or equivalents.
Literary development from early 19th century to the present.

GER 530 Die Deutsche Romantik (Units: 3)
Prerequisites: GER 510 and GER 511 or equivalent.
Themes, symbols, and structures in German romantic writers and their position within the larger context of their times and modern thought. A voyage into the self and out into the cosmos.
GER 532 The German Idealist Tradition (Units: 3)
Prerequisite for GER 832: Graduate standing in German or consent of instructor.
Prerequisite for GER 532: Upper division standing or consent of instructor.

Introduction to the rich intellectual history of the literary movement Strum und Drang (literally, "Storm and Stress") (1770-1784 that mark the beginning of literary and philosophical idealism in Germany culminating in Weimar Classicism (1786-1832).
(GER 832/GER 532 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 535 The German Novella of the 19th and 20th Centuries (Units: 3)
Prerequisites: GER 510 and GER 511 or equivalents.

Explore exemplary works of the novella genre from the 19th to the 20th century German literature. Analyze how art responds to the changing political situation in Germany and how various literary movements react to each other aesthetically and politically.
(GER 835/GER 535 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 556 19th and 20th Century German Plays (Units: 3)
Prerequisites: GER 510 and GER 511 or equivalents.

Major works of representative playwrights of the 19th and 20th centuries.
(GER 856/GER 556 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 600 Mobility, Travel, and Identity in German-Speaking Cultures (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Exploration of questions of mobility, travel, and identity in contemporary German, Austrian, and Swiss literature and culture in relation to the historical, socio-political, and cultural context. Taught in English. All texts available in English translation.

GER 613 Weimar Literature in English (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Introduction to Weimar Republic and its representation in exemplary works of literature in English translation. [Taught in English]
(GER 813/GER 613 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 616 Postwar German Literature in English: The Past as Present (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

A study of common themes in postwar German literature to the present. Authors included are Grass, Mann, Koeppen, and Maron. [Taught in English]
(GER 816/GER 616 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 617 The Holocaust and Postwar Germany Taught in English (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Holocaust in Postwar Germany as seen in exemplary works of literature, historical documents and Nuremburg trials. [Taught in English]

GER 699 Independent Study (Units: 1-3)
Prerequisite: Consent of department chair and instructor.
Written projects requiring critical analysis and interpretation of linguistic or literary problems. Material adapted to individual needs and interests. May be repeated.

GER 741 The Holocaust and Postwar Germany Taught in English (Units: 3)
Prerequisite: Graduate standing in German, History, or Jewish Studies, or consent of instructor.
The Holocaust in Postwar Germany as seen in exemplary works of literature, historical documents and Nuremburg trials. (Plus-minus letter grade only) [Taught in English]
(This course is offered as GER 741, HIST 741, and JS 741. Students may not repeat the course under an alternate prefix.)

GER 745 History of German Language (Units: 3)
Prerequisite: GER 330 or MLL 325, or equivalent.

Focusing on the history of German language in the context of its Germanic relatives (including English, Gothic, Icelandic), introduction to the study of historical linguistics, and discussion of universal language issues.

GER 786 Great Theorists: Walter Benjamin (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Walter Benjamin, one of the premier thinkers of the 20th century, and a major influence on figures such as Hannah Arendt, Jacques Derrida, Michel Foucault and others. To thoroughly examine Benjamin is to make inquiries into the basis of thought for the previous century as well as our own.
(This course is offered as PLS 786, GER 786, and HUM 725. Students may not repeat the course under an alternate prefix.)

GER 802 Contemporary Germany (Units: 3)
Prerequisites for GER 802: Admission to German M.A. program; GER 301 or equivalent; or consent of instructor.
Prerequisite for GER 802: GER 301 or equivalent or consent of instructor.

Germany today: its achievement, challenges, problems, potential dangers, and important developments, trends, issues, figures that have shaped the nation.
(GER 802/GER 502 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 813 Weimar Literature in English (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Introduction to Weimar Republic and its representation in exemplary works of literature in English translation. [Taught in English]
(GER 813/GER 613 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 814 Crisis and Quest in English (Units: 3)
Prerequisite: Admission to German M.A. program or consent of instructor.
Works by Kafka, Rilke, Musil, and Heidegger which reflect deep changes, social dilemmas, and new ethics in the 20th century. [Taught in English]
GER 816 Postwar German Literature in English: The Past as Present (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

A study of common themes in postwar German literature to the present. Authors included are Grass, Mann, Koeppen, and Maron. [Taught in English]
(GER 816/GER 616 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 830 Die Deutsche Romantik (Units: 3)
Prerequisites: Admission to German M.A. program; GER 301; or consent of instructor.

Themes, symbols, and structures in German romantic writers and their position within the larger context of their times and modern thought. A voyage into the self and out into the cosmos.

GER 831 Seminar in Literary Movements or Periods (Units: 3)
Prerequisite: Admission to German program or consent of instructor.

German literary movements or literary periods. Topic to be specified in Class Schedule. May be repeated when movements or periods vary.

GER 832 The German Idealist Tradition (Units: 3)
Prerequisite for GER 832: Graduate standing in German or consent of instructor.
Prerequisite for GER 532: Upper division standing or consent of instructor.

Introduction to the rich intellectual history of the literary movement Strum und Drang (literally, “Storm and Stress”) (1770-1784 that mark the beginning of literary and philosophical idealism in Germany culminating in Weimar Classicism (1786-1832).
(GER 832/GER 532 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 835 The German Novella of the 19th and 20th Centuries (Units: 3)
Prerequisites: GER 510 and GER 511 or equivalents.

Explore exemplary works of the novella genre from the 19th to the 20th century German literature. Analyze how art responds to the changing political situation in Germany and how various literary movements react to each other aesthetically and politically.
(GER 835/GER 535 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 856 19th and 20th Century German Plays (Units: 3)
Prerequisites: GER 510 and GER 511 or equivalents.

Major works of representative playwrights of the 19th and 20th centuries.
(GER 856/GER 556 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GER 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered 892, 893, 894, 895, 898, or 998, (or in some cases, courses numbered 890 - see program's graduate advisor for further information). (CR/NC, RP)
Gerontology (GRN)

GRN 500 Gerontology: An Interdisciplinary Perspective (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Concepts and issues in gerontology; processes, problems, and challenges of aging as related to other disciplines, integrating and emphasizing research findings.
Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences

GRN 510 Death and Dying in Contemporary Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Attitudes, beliefs, practices, grief responses, and bioethical issues of dying and death which confront the individual and society. Ways to cope and help oneself and others to enhance life and maturity. (This course is offered as NURS 500 and GRN 510. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences

GRN 520 Profession of Gerontology (Units: 3)
Prerequisite: Upper division standing.

Academic exploration of gerontology; insights into where students might fit into the field; understanding traditional/non-traditional career paths; knowledge and skills sets required of service professionals for the aged.

GRN 575 Applying Gerontology for our Aging Parents (Units: 3)
Prerequisite: GRN 500 or consent of instructor.

Issues of aging faced by families, communities, and our graying society.

GRN 699 Independent Study (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Pursuit of a topic of special gerontological interest while under the supervision of a faculty advisor/instructor.

GRN 705 Aging in a Multidimensional Context (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examination of theories and research on aging: interpersonal and structural dimensions of aging; scope, concepts, and approaches in the field.

GRN 710 Aging Processes: Health and Human Services (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examination of the biomedical and physiological processes and theories of aging. Implications on health and human services for the elderly of diverse backgrounds, cultures, and ethnicities.

GRN 715 Age and Social Policy Analysis (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Exploration of the variety of public and private agencies and businesses, including entitlement programs designed to serve an aging population. Examine a variety of models and frameworks for policy analysis, with attention to global aging issues.

GRN 725 Aging and Diversity (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Multicultural aging issues; psychological aspects of aging for ethnic/racial groups within the U.S. Cultural competence, cohort variations, health differentials, life expectancy/longevity, theoretical perspectives, and methodological implications.

GRN 735 Ethical and Legal Issues in Aging and Social Services (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Ethical dilemmas and legal issues as they pertain to the professional practice of gerontology and the delivery of social services to the elderly.

GRN 740 Nursing Home Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Comprehensive multidimensional study of regulations (finance, human resources, leadership, environmental, resident care, quality of life) for nursing home administrators. Emphasis on OBRA (federal regulations) and Title 22 (state regulations) in preparation for Nursing Home Administrator licensure examination. (Plus-minus letter grade only)

GRN 745 Assisted Living Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Extensive and thorough examination of regulations (business and financial, environmental, human resources, organizational, resident care management) for assisted living and residential care administrators. Emphasis on Title 22 (state regulations) in preparation for RCFE Administrator certification examination. (Plus-minus letter grade only)

GRN 750 Home Care Management (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Design and delivery of home care services to the elderly in the community. Role of home health care professionals and their impact on services. Identification of techniques for providing home care services.

GRN 760 Research Methods in Gerontology (Units: 3)
Prerequisites: Introductory statistics and consent of instructor.

Quantitative and qualitative research designs and methods, data gathering techniques, measurement and data analysis and interpretation. Applications of research methods to studies in aging, including descriptive and comparative research, program evaluations, and needs assessments.

GRN 765 Aging and Continuum of Care (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Overview of continuum of care; emphasis on human diversity, quality of care, and quality of life. Concepts, functions, issues, and skills associated with home and community-based services, adult day care, assisted living, nursing facilities, and hospice care.

GRN 820 Age and Social Relations (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Aging in a social context. Diversity and heterogeneity in later life social interactions. Interweaving of growth and decline in the context of multiple social relations.
GRN 838 Gerontology Seminar (Units: 3)
Prerequisite: Enrollment in gerontology program or consent of instructor.

Group process in support of gerontology internship, learning contract and qualitative methods; fieldwork experience and techniques; ethics and problem-solving. May be repeated for a total of 6 units. (Plus-minus letter grade; CR/NC allowed, RP)

GRN 839 Gerontology Internship (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Field internship in cooperation with a private/public profit or non-profit organization enabling students to acquire competencies and experiences required for professional responsibilities. May be repeated for a total of 6 units.

GRN 890 Integrative Seminar (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Capstone to demonstrate knowledge and skills in problem-solving, decision-making, critical thinking, and cooperative and collaborative communications.

GRN 895 Field Study (Units: 3)
Prerequisites: Consent of gerontology adviser and instructor; approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Field study or applied research resulting in completed written work that as a minimum includes project’s significance, objectives, methodology, conclusions/recommendations. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

GRN 897 Gerontology Research (Units: 3)
Prerequisites: Classified graduate status and consent of graduate adviser. Independent/original research under faculty supervision.

Continuous enrollment required for all students yet to complete the master’s thesis or research project. May be repeated for a total of 9 units, but cannot be used more than 3 units for degree credit.

GRN 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and graduate major adviser; approval of Advancement to Candidacy (ATC) for the Master of Arts and Culminating Experience (CE) forms by Graduate Studies.

An intensive, systematic study of a significant topic or problem in gerontology. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

GRN 899 Independent Study (Units: 3)
Pursuit of a topic under the supervision of a faculty adviser/instructor. May be repeated for a total of 6 units.
Global Peace Studies (GPS)

GPS 315 Introduction to Global Peace Studies (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

The field of peace studies and the integrative questions which must be answered to achieve a coherent perspective on world peace. National and international issues, the environment, philosophy, literature, arts, media, and education.
(This course is offered as GPS 315, IR 315, and PHIL 315. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Environmental Sustainability
- Global Perspectives
- Social Justice

GPS 375 Peace Law and Human Rights in the U.S. (Units: 3)
Prerequisites: Sophomore or higher standing; one lower division composition course; or consent of instructor.

Law of peace from the local to the international level; international treaties, covenants, statutes of Congress, legislatures, and city councils, criminal indictments, court affidavits, judges opinions, jury instructions, and relevant articles.
(This course is offered as GPS 375 and PHIL 375. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
- Social Justice
Greek (GRE)
GRE 101 Elementary Ancient Greek (Units: 3)
Greek language and grammar with emphasis on the rapid readings of graded Attic prose. Exercises in the writing of Greek sentences. Groundwork for the great Greek masters of poetry and prose in the original language.
Course Attributes:
- C2: Humanities

GRE 202 Intermediate Ancient Greek (Units: 3)
Prerequisite: GRE 101 or equivalent.
Understanding, reading, and writing of ancient Greek at the intermediate level. Reading selections from a variety of ancient Greek prose and poetry.

GRE 301 Introduction to Greek Prose and Poetry (Units: 3)
Prerequisite: GRE 202 or consent of instructor.
Reading, translating, and literary analysis of passages from ancient Greek, alongside grammar and vocabulary review.

GRE 430 Greek Oratory I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of Greek speeches and rhetorical works, with a focus on Lysias and Demosthenes. Discussion of historical context. (GRE 730/GRE 430 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 431 Greek Oratory II (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of Greek speeches and rhetorical works, with a focus on Gorgias and Isocrates. Discussion of historical content. (GRE 731/GRE 431 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 435 Greek Historiography I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of Greek historical works, with a focus on Herodotus and Xenophon. Discussion of historical context. (GRE 735/GRE 435 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 436 Greek Historiography II (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of Greek historical works, with a focus on Thucydides and Polybius. Discussion of historical context. (GRE 736/GRE 436 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 440 Greek Epic I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of archaic epic, with a focus on Homer’s Iliad and Hesiod’s Works and Days. Discussion of formal features, such as meter and dialect, and social and performative context. (GRE 740/GRE 440 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 441 Greek Epic II (Units: 3)
Prerequisites for GRE 741: Graduate standing; reading knowledge of ancient Greek; or consent of instructor; Prerequisites for GRE 441: Upper division standing; reading knowledge of ancient Greek; or consent of instructor.
Translation and analysis of archaic epic, with a focus on Homer’s Odyssey and Hesiod’s Theogony. Discussion of formal elements and social and performative context. (GRE 741/GRE 441 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 445 Greek Drama I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of classical Greek drama, with a focus on Euripides and Aristophanes. Discussion of historical context. (GRE 745/GRE 445 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 446 Greek Drama II (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of classical Greek drama, with a focus on Aeschylus and Sophocles. Discussion of historical context. (GRE 746/GRE 446 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 450 Greek Philosophy I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of Greek philosophical texts, with a focus on the pre-Socratics, the Sophists, and/or the early and middle works of Plato. (GRE 750/GRE 450 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 451 Greek Philosophy II (Units: 3)
Prerequisites for GRE 751: Graduate standing; reading knowledge of ancient Greek; or consent of instructor. Prerequisites for GRE 451: Upper division standing; reading knowledge of ancient Greek; or consent of instructor.
Translation and analysis of Greek philosophical texts, with a focus on the later works of Plato and/or on Aristotle. (GRE 751/GRE 451 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 455 Greek Lyric Poetry I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.
Translation and analysis of archaic lyric poetry, with a focus on genres of laments and elegy. Discussion of formal features, such as meter and dialect, and social and performative context. (GRE 755/GRE 455 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 465 Hellenistic Poetry (Units: 3)
Prerequisite for GRE 765: Intermediate Greek or equivalent. Prerequisite for GRE 465: GRE 202 or equivalent.
Translation of works of Callimachus, Theocritus, Apollonius Rhodius. (GRE 765/GRE 465 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
GRE 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.

Projects requiring critical study and analysis of advanced material adapted to individual needs and interests. May be repeated.

GRE 730 Greek Oratory I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of Greek speeches and rhetorical works, with a focus on Lysias and Demosthenes. Discussion of historical context.
(GRE 730/GRE 430 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 731 Greek Oratory II (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of Greek speeches and rhetorical works, with a focus on Gorgias and Isocrates. Discussion of historical content.
(GRE 731/GRE 431 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 735 Greek Historiography I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of Greek historical works, with a focus on Herodotus and Xenophon. Discussion of historical context.
(GRE 735/GRE 435 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 736 Greek Historiography II (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of Greek historical works, with a focus on Thucydides and Polybius. Discussion of historical context.
(GRE 736/GRE 436 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 740 Greek Epic I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of archaic epic, with a focus on Homer’s Iliad and Hesiod’s Works and Days. Discussion of formal features, such as meter and dialect, and social and performative context.
(GRE 740/GRE 440 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 741 Greek Epic II (Units: 3)
Prerequisites for GRE 741: Graduate standing; reading knowledge of ancient Greek; or consent of instructor;
Prerequisites for GRE 441: Upper division standing; reading knowledge of ancient Greek; or consent of instructor

Translation and analysis of archaic epic, with a focus on Homer’s Odyssey and Hesiod’s Theogony. Discussion of formal elements and social and performative context.
(GRE 741/GRE 441 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 745 Greek Drama I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of classical Greek drama, with a focus on Euripides and Aristophanes. Discussion of historical context.
(GRE 745/GRE 445 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 746 Greek Drama II (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of classical Greek drama, with a focus on Aeschylus and Sophocles. Discussion of historical context.
(GRE 746/GRE 446 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 750 Greek Philosophy I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of Greek philosophical texts, with a focus on the pre-Socratics, the Sophists, and/or the early and middle works of Plato.
(GRE 750/GRE 450 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 751 Greek Philosophy II (Units: 3)
Prerequisites for GRE 751: Graduate standing; reading knowledge of ancient Greek; or consent of instructor.
Prerequisites for GRE 451: Upper division standing; reading knowledge of ancient Greek; or consent of instructor.

Translation and analysis of Greek philosophical texts, with a focus on the later works of Plato and/or on Aristotle.
(GRE 751/GRE 451 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 755 Greek Lyric Poetry I (Units: 3)
Prerequisite: Reading knowledge of ancient Greek.

Translation and analysis of archaic lyric poetry, with a focus on genres of Iambos and elegy. Discussion of formal features, such as meter and dialect, and social and performative context.
(GRE 755/GRE 455 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 765 Hellenistic Poetry (Units: 3)
Prerequisite for GRE 765: Intermediate Greek or equivalent.
Prerequisite for GRE 465: GRE 202 or equivalent.

Translation of works of Callimachus, Theocritus, Apollonius Rhodius.
(GRE 765/GRE 465 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

GRE 899 Independent Study (Units: 1-3)
Prerequisites: Advanced reading knowledge of Greek and consent of supervising faculty member.

Reading of an ancient Greek author or authors, under the supervision of a member of the Classics faculty. Enrollment by petition. May be repeated for a total of 6 units.
Health Education (H ED)

H ED 100 Public Health Biology (Units: 3)
Introduction to public health biology—the biological and molecular context of public health and its incorporation into public health practice. Exploration of principles of population biology, ecology, and molecular biology in relation to public health problems. (Plus-minus letter grade only.)
Course Attributes:
- Environmental Sustainability

H ED 120 Educational Justice, Health Equity, and Academic Success (Units: 3)
Focus on educational justice, public health, and social justice. General education skills—writing, oral communication, critical thinking, and quantitative reasoning—will be systematically reinforced. (Plus-minus letter grade only)
Course Attributes:
- E1: Lifelong Learning Develop
- C2: Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

H ED 200 Global Health (Units: 3)
Health around the world, including economic, political, and sociocultural factors that influence community health and health care. Linkages between health, human rights, the environment, and a colonial legacy.
Course Attributes:
- E1: Lifelong Learning Develop
- D1: Social Sciences
- Global Perspectives
- Social Justice

H ED 204 Health Values and Sexuality (Units: 3)
Critical thinking and communication across differences in values related to human sexuality and health.

H ED 210 Personal and Social Determinants of Health (Units: 3)
Personal and social determinants of health through examination of the role individuals play in their own health and wellbeing, along with the impact of social, structural factors that play a role both in individual and community health.
Course Attributes:
- E1: Lifelong Learning Develop
- D1: Social Sciences
- Social Justice

H ED 221 Health and Social Justice - Burning Issues, Taking Action (Units: 3)
Social and economic injustices as root causes of the uneven distribution of disease. Current health issues, the process for influencing policy, and the skills to effectively advocate for health and social justice.
Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

H ED 231 Health Justice in Social Policy (Units: 3)
Explore role of social and economic injustices. Focus on social policy as determinant of health justice. Analyze policy and advocate for change in communities. Explore importance of community in creating social change. (Plus-minus letter grade only)

H ED 241 Health and Social Movements in the United States in the 20th Century (Units: 3)
Examination of history during the 20th century with a special emphasis on health and social justice issues. Focus on the main historical periods and events, with a lens of the “people’s history narrative” that brings out voices historically silenced.
Course Attributes:
- U.S. History
- D2: Social Sciences: U.S. Hist
- Am. Ethnic & Racial Minorities
- Social Justice

H ED 280 Empowering Poor Families to Graduate Out of Poverty (Units: 3)
College success course (self-directed). Consciousness and critical thinking skills. Participation in fieldwork addressing social justice related to wealth/poverty-health-human relation constructs/leadership in areas of education and community health. May be repeated for a total of 6 units. [CSL may be available]
(This course is offered as H ED 280 and COUN 280. Students may not repeat the course under an alternate prefix.)

H ED 290 Promoting Positive Health (Units: 3)
Embodied learning to promote physical, mental, spiritual and community health through yoga, dance, drawing, writing, collage, poetry and photography. Multicultural experience, active creative participation and intellectual pursuit as tools to improve flexibility and understanding, and to unlearn and heal oppression.
(This course is offered as H ED 290 and HH 290. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- E1: Lifelong Learning Develop
- C1: Arts
- Global Perspectives

H ED 303 Health Disparities and Sexual and Gender Minority Communities: LGBTQI Health (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of health disparities in sexual and gender minority communities with a particular focus on the impact of stigma faced by LGBTQI individuals, families, and communities. Various aspects of health and well-being will be explored.
Course Attributes:
- UD-D: Social Sciences
H ED 305 Critical History of Public Health in the United States (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Major issues, events, and historical figures in public health in the United States from the colonial period to the present. Emphasis on socio-cultural and political aspects of infectious and chronic diseases, epidemics, health disparities, public health reforms and advances

Course Attributes:
- U.S. History
- Social Justice

H ED 310 Health in Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Major health issues/problems of individual and society; prevention and the validity of current health beliefs. Nutrition, mental health, sexuality, environmental health, communicable and chronic diseases, consumerism, stress, aging.

H ED 315 Drugs and Society (Units: 3)
Prerequisite: Upper division standing.

Physical, psychological, and sociological aspects of drug use and misuse in contemporary society, including examinations of the drug war, the prison industrial complex, community prevention and control.

Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

H ED 320 Contemporary Sexuality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Information about sexuality; its impact on interpersonal relationships. Anatomy and physiology; psycho-sexual development, sex roles, pregnancy, childbirth, parenting, contraception, sexually transmitted diseases, sexual behavior, myths, misconceptions. Sexual value systems and communication skills.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science
- Social Justice

H ED 400GW Community Assessment in Public Health - GWAR (Units: 3)
Prerequisites: Restricted to upper division Health Education majors; ENG 214 or equivalent with a grade of C or better, and completion of GE critical thinking requirement; must be taken concurrently with H ED 405 and H ED 425. (Exceptions to concurrency requirements by consent of advisor.)

Foundations of public health and health education including qualifications and professional preparation of the public health practitioner. Strong emphasis on professional and scholarly writing and analytical skills. (ABC/NC grading only)

Course Attributes:
- Graduation Writing Assessment

H ED 405 Introduction to Community/Public Health (Units: 3)
Prerequisite: Restricted to Health Education majors/minors; must be taken concurrently with H ED 400GW and H ED 425. (Exceptions to concurrency requirement by consent of advisor.)

Exploration of major concepts and trends in public health. Historical and philosophical topics, braches, core functions, models and theories of public health. Various forms of communities and the health education profession will be explored.

H ED 410 Organization and Function of Health Services (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Health care and delivery of services: identification and function of governmental, private, and voluntary organizations; programs in health protection and promotion at local, state, and national levels. Community activities required.

H ED 414 Women’s Health - Problems and Issues (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

H ED 415 Health Aspects of Aging (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences
- Social Justice

H ED 417 AIDS: Contemporary Health Crisis (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

H ED 420 Epidemiology (Units: 3)
Prerequisite: Restricted to Health Education majors and minors.

Disease patterns in the human population, how diseases are distributed, what factors are associated with them. Etiology, recognition, transmission, prevention, and control of health disorders and communicable and chronic diseases.
H ED 425 Introduction to Research and Statistics in Health (Units: 3)
Prerequisites: Restricted to upper division Health Education majors; MATH 124 or equivalent; must be taken concurrently with H ED 400GW and H ED 405. (Exceptions to concurrency requirements by consent of advisor.)
Quantitative methods for elementary statistical analysis in research and evaluation in the health field.

H ED 430 Community Health Education Theory (Units: 3)
Prerequisites: Restricted to Health Education majors; H ED 400GW with a grade of C or better.
Theoretical frameworks, concepts, and methods which form the basis for community health education; communication and group process; social, educational, behavioral and attitudinal change.

H ED 431 Program Planning, Implementation, and Evaluation (Units: 3)
Prerequisites: Restricted to Health Education majors; H ED 400GW, H ED 425, and H ED 430 with grades of C or better.
Senior course and professional preparation in health education program planning, implementation, and evaluation. (Plus-minus letter grade only)

H ED 434 Geographies of Health and Health Care (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Geographies of health; the role place plays in determining the quality of health status, and in shaping access to and use of health care. (This course is offered as GEDG 434 and H ED 434. Students may not repeat the course under an alternate prefix.)

H ED 450 Policy Issues in Health Education (Units: 3)
Prerequisite: Restricted to Health Education majors and minors.
Selected local, state, national, and international health policy issues. Methods of education and socio-political intervention.

H ED 455 Community Organizing and Community Building for Health (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Dialogue, action and reflection on community building, non-violence, cultural humility and social engagement. Skills in leadership development, empowerment, and experiential learning. Passion for social justice and human rights. Photovoice, media literacy/advocacy taught as tools for organizing. (Plus-minus letter grade only) [CSL may be available]

Course Attributes:
- E1: Lifelong Learning Develop
- UD:C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Environmental Sustainability
- Global Perspectives
- Social Justice

H ED 480 Fieldwork and Reflective Seminar (Units: 9)
Prerequisites: H ED 400GW, H ED 425, H ED 430, and H ED 431 with grades of C or better; restricted to Health Education majors.
Directed experiences in community health education through 20 hours per week of fieldwork in health departments, voluntary health agencies, and other community health services. (Health Education majors must receive a C or better.)

H ED 520 Structural Oppression and Social Foundations of Health (Units: 3)
Prerequisite: Restricted to upper division Health Education majors.
Health status of ethnic, gender, and sexual orientation communities in the U.S. Impact of personal and cultural beliefs, lifestyle/behavior patterns, racism, poverty, sexism, homophobia and health care on individual and group health. Effective health promotion strategies are explored.

Course Attributes:
- Social Justice

H ED 527 Documentary for Health and Social Justice I (Units: 6)
Prerequisites: ENG 214 or equivalent; consent of instructor.
Hands-on collaborative production of social justice and health documentary films. Preproduction research includes identifying issues and community participants. Screening, critiquing, and editing. May be repeated for a total of 12 units. (This course is offered as CINE 527 and H ED 527. Students may not repeat the course under an alternate prefix.)

H ED 528 Documentary for Health and Social Justice II (Units: 6)
Prerequisites: ENG 214 or equivalent, CINE 527 or H ED 527; consent of instructor.
Production of documentary films with a focus on issues related to social justice and health. Includes research to identify salient issues and community participants. Develops proficiency in various stages of documentary filmmaking (pre-production, production, post-production). Culminates in public screening of film projects. Lecture, 3 units; activity, 3 units. (This course is offered as CINE 528 and H ED 528. Students may not repeat the course under an alternate prefix.)

H ED 630 Elementary School Health (Units: 3)
Prerequisite: Senior standing or credential candidate.
Research related to personal, family, and community health for children and youth: alcohol, tobacco, drugs, and venereal disease. Health practices and procedures: philosophy, problems, emergency care, school lunch, safety, and environment. (CR/NC grading only)

H ED 635 Secondary School Health (Unit: 1)
Prerequisite: Senior standing or credential candidate.
School health programs; the teacher’s role and responsibilities toward the promotion and maintenance of the health of the secondary school student through health services, environment, and comprehensive health education. (CR/NC grading only)

H ED 640 Structural Inequities and Public Health (Units: 3)
Prerequisite: Upper division standing.
On-line course designed to broaden students understanding of wealth distribution, social status, and political power as determinants of health. Analysis of research demonstrating the relationships between health, education, and socio-economic status.

Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice
H ED 650 Training and Education Processes in Public Health (Units: 3)
Prerequisite: Upper division or graduate standing.
Phenomenal underpinnings, theoretical approaches, and practical applications of being a health educator, viz., providing trainings and educational interventions. Training and educational frameworks, assess learners' needs, objectives and evaluation.

H ED 665 Environmental Health (Units: 3)
Prerequisite: Restricted to upper division Health Education majors.
Environmental factors impacting health, including the consequences of natural and human-made hazards. Scientific models and socio-political frameworks that analyze these topics. Assessment of contemporary health issues.

H ED 660 Developing Healthy Youth in Schools and Communities (Units: 3)
Prerequisite: Upper division standing.
Child and adolescent health and well-being, school and community-based approaches to prevention and intervention, and frameworks such as youth development, youth assets/resiliency, and the ecological model of health.

H ED 664 Community-Based Participatory Research for Healthy Equity (Units: 2)
Prerequisite: Upper division standing or consent of instructor.
Community-Based Participatory Research (CBPR) advocates collaboration between researchers and research. Examination of CBPR theory and practice; presentation by community-academic partners; gain appreciation of CBPR strengths and challenges; hands-on skills.

H ED 665 Community Based Participatory Research in Public Health (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Theories, principles, and strategies of Community Based Participatory Research (CBPR). Case studies presented.

H ED 670 Principles of Peer Health Education (Units: 3)
Prerequisite: Prior consent of instructor.
Concepts of positive health promotion and prevention; training in helping, and behavior change skills. Students volunteer 3 hours weekly in Student Health Center plus class meetings.

H ED 671 Practice of Peer Health Education (Units: 3)
Prerequisite: H ED 670.
Experience providing health risk assessment, consulting with clients, staffing resource center, conducting workshops. Work 4 hours per week in Student Health Center plus supervision seminar. [CSL may be available]

H ED 685 Projects in the Teaching of Health Education (Units: 1-4)
Prerequisites: Advanced undergraduate standing in health education and approval of supervising instructor and department/program; grade of B or better in course in which student will be instructional aide.
Teaching experiences in the health education discipline through assigned instructional projects in a classroom and under the guidance of a member of the faculty. Training in pedagogical principles including supervised classroom teaching activities. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

H ED 698 Independent Study (Units: 1-3)
Prerequisites: Senior standing and consent of instructor.
Study of a particular problem under the direction of a member of the department. May be repeated for a total of 9 units.

H ED 785 Graduate Teaching Assistantship in Health Education (Units: 1-4)
Prerequisites: Graduate student in good academic standing; subject matter mastery in course for which student will serve as teaching assistant; consent of instructor.
Supervised teaching practicum experience with Health Education faculty member. Theoretical/practical aspects of college teaching; curricular design/delivery, group discussion/activities facilitation, meaningful student feedback/assessment practices. Course may be repeated without limit for transcript credit. MPH students may only apply 3 units maximum toward MPH degree requirements.

H ED 810 Public Health and Principles of Community Organizing (Units: 3)
Prerequisite: Restricted to graduate students in the MPH program.
Theoretical overview and practical application of community-based public health. Non-violent social action, community diagnosis, social networks, primary prevention, media advocacy/literacy. (Plus-minus letter grade only)

H ED 811 Community Health Education Skills ePortfolio (Unit: 1)
Prerequisite: H ED 830.
Development of a community health education electronic portfolio chronicling the products produced during the MPH program with the skills required for master-trained community health education professionals. (CR/NC or RP only)

H ED 815 Theories of Social Behavioral Change in Community Health Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Theories relevant to health education practice. Critical analysis of theories and their development, contextualization, and practice. Utilization of these theories in practical applications. (Plus-minus letter grade only)

H ED 820 Community Health Assessment (Units: 3)
Prerequisites: H ED 810, H ED 815, H ED 884 with grade of B- or higher; concurrent enrollment in H ED 821 required. 
Assessment process using applied research methods which empower communities to create programs that respond to their health challenges, concerns, and strengths. (Plus-minus letter grade only)

H ED 821 Public Health Profession Practice (Units: 3)
Prerequisites: H ED 810, H ED 815, and H ED 884, with grade of B- or higher; concurrent enrollment in H ED 820 required.
Application of public health professional skills. Building solid understanding how to develop and implement community assessments, including qualitative research methods. Skill-building in working teams, managing public health projects, delivering professional presentations, collaborating with community organizations. (Plus-minus letter grade only) [CSL may be available]
H ED 822 Advanced Public Health Profession Practice (Units: 3)
Prerequisites: H ED 820 and H ED 821.
Theory and practice in the implementation of a community health assessment. Students will continue to build a solid understanding of working in teams to implement a community health assessment. (Plus-minus letter grade only) [CSL may be available]

H ED 825 Epidemiology (Units: 3)
Prerequisites: H ED 820 and H ED 829 with grades of B or higher.
An introductory and comprehensive survey of epidemiological principles and methods. A history and overview of the field, including contemporary case studies, along with an examination of the methods used to study disease distributions in diverse human populations. (Plus-minus letter grade only)

H ED 828 Biostatistics Lab (Unit: 1)
Prerequisites: Restricted to graduate students in the MPH program; prior course in inferential statistics; must have concurrent enrollment in H ED 829
Review and apply bio-statistical concepts and procedures typically employed in public health research.

H ED 829 Biostatistics and Public Health (Units: 3)
Prerequisites: Restricted to graduate students in the MPH program; must have concurrent enrollment in H ED 828.
Introduction to basic statistical techniques, concepts, and tests commonly used in public health. Understanding of data types and data distribution. Critical understanding of the use of statistics in journal articles.

H ED 830 Health Education Planning, Management, and Administration for Community Change (Units: 3)
Prerequisites: Restricted to graduate students in the MPH program; H ED 822.
Skill acquisition in health education planning, management, and administration. Application of CHE theories, problem definition, program design, development of goals and objectives, logic models, timelines, securing fiscal resources, personnel, budgeting, organizational leadership, strategic planning, partner/stakeholder relationships. (Plus-minus letter grade only)

H ED 835 Public Health Policy (Units: 3)
Prerequisite: Restricted to graduate students in the MPH program.
Course is designed to help students better understand the political environment in which public health operates and how to work within it. Features discussions on media advocacy and on ethics as applied to public health and politics. (Plus-minus letter grade only)

H ED 840 Program Evaluation Design and Research (Units: 3)
Prerequisite: H ED 830.
Concepts and methods of program evaluation. Development of the skills necessary to assess published evaluation research and to apply technical evaluation skills in professional practice. (Plus-minus letter grade only)

H ED 845 Educational Processes, Training and Curricula in Public Health (Units: 3)
Prerequisite: Restricted to graduate students in the MPH program.
Examination of adult learning theories. Emphasis on comprehensive curricular design, delivery and evaluation of health education programs. Particular focus on differentials of power, critical pedagogy, the use of technology and relationship building.

H ED 855 Environmental Health (Unit: 1)
Prerequisite: MPH student or consent of instructor.

H ED 884 Seminar in Applied Community Health Education Research (Units: 2)
Prerequisites: Restricted to graduate students in the MPH program; concurrent enrollment in H ED 810 and H ED 815.
Overview of public health research design/methods and discipline writing conventions/styles to set context for the biostatistics, community needs assessment, epidemiology, and evaluation courses. Facilitates integration of theory and research. (Plus-minus letter grade only)

H ED 885 Advanced Seminar in Applied Community Health Education Research (Units: 3)
Prerequisite: H ED 822.
MPH culminating experience proposal development course. Topics include a review of research methods, design, instruments; special focus on survey design; conducting online searches; literature review preparation and process; practical writing and critical thinking exercises. (Plus-minus letter grade only)

H ED 890 Master of Public Health Culminating Experience Seminar (Units: 3)
Prerequisites: Graduate student in the Master of Public Health program; minimum 3.0 cumulative GPA; approved ATC and CE proposal forms; previous or concurrent completion of any remaining coursework required for MPH degree.
Examination of critical issues in the field of public health. Application and integration of MPH competencies into professional products appropriate for use in the field. Demonstration of MPH field-specific professional writing and oral presentation skills.

H ED 895 Applied Research Project in Community Health Education (Units: 3)
Prerequisites: 3.0 or higher cumulative GPA; consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies; H ED 825, H ED 830. Previous or concurrent completion of any remaining required MPH coursework.
Faculty-supervised completion of a culminating experience research paper and oral presentation. (Plus-minus letter or RP grading only)

H ED 899 Independent Study (Units: 1-3)
Prerequisite: Consent of health education graduate adviser.
Study is planned, developed, and completed under the direction of a member of the department. Open only to graduate students of demonstrated ability to do independent work. Enrollment by petition. May be repeated for a total of 12 units.
Health and Social Sciences (HSS)

HSS 100 Introduction to Health and Social Sciences (Unit: 1)
Success skills and learning strategies for freshmen. Review of academic preparedness, strengths and areas for development to create a plan leading to career opportunities. Personal and interpersonal behavior required for professional interactions.

HSS 110 Critical Thinking/Student Success in Health & Social Sciences Fields (Units: 3)
Developing critical thinking (understanding, criticizing, and constructing arguments) as a foundation for college success skills and learning strategies for first time freshmen interested in Health and Social Science fields. Review of academic preparedness, strengths and areas for development to create a plan leading to career opportunities. [Formerly HSS 101]
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:

• A3: Critical Thinking

HSS 499 Culminating Experience Continuous Enrollment (Unit: 0)

HSS 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
Supervised study of a particular health and social science issue selected by student. May be repeated for a total of 4 units. (Plus-minus letter grade only)

HSS 700 Graduate Writing in Health and Social Sciences (Units: 3)
Prerequisite: Must be a student in a college of Health and Social Science graduate program or consent of instructor.
Preparation for graduate-level writing by strengthening writing organization, integrating sources, critically analyzing publications, APA style, and developing skills for effective written communication. May not be used to meet ATC requirements. (CR/NC only)
Hebrew (HEBR)

HEBR 101 First Semester Modern Hebrew (Units: 3)
Understanding, speaking, reading, and writing the modern Hebrew language; elements of Israeli and Jewish culture. Acquisition of communicative skills in situation/cultural contexts. [Formerly JS 151/HEBR 151]
Course Attributes:

• C2: Humanities
• Global Perspectives

HEBR 102 Second Semester Modern Hebrew (Units: 3)
Prerequisite: HEBR 101 or equivalent or demonstrated equivalent proficiency.
Continuation of first semester modern Hebrew. [Formerly JS 152/HEBR 152]
Course Attributes:

• C2: Humanities
• Global Perspectives

HEBR 201 Third Semester Modern Hebrew (Units: 3)
Prerequisite: HEBR 102 or equivalent or demonstrated equivalent proficiency.
Continuation of modern Hebrew at the intermediate level.
Course Attributes:

• C2: Humanities
• Global Perspectives

HEBR 202 Fourth Semester Modern Hebrew (Units: 3)
Prerequisite: HEBR 201 or equivalent or demonstrated equivalent proficiency.
Continuation of modern Hebrew at the intermediate level.
Course Attributes:

• C2: Humanities
• Global Perspectives
History (HIST)

HIST 101 Critical Thinking in History (Units: 3)
Exploration of how to think historically and critically analyze the work of historians. Subject matter includes identifying, differentiating, constructing, and evaluating arguments, recognizing fallacies, and applying formal and informal reasoning to the study of the past. Topic to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus ABC/NC)
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
  • A3: Critical Thinking
  • Social Justice

HIST 110 History of Western Civilization I (Units: 3)
The growth of the political, economic, and cultural institutions of the Western World from the beginnings to the Renaissance.
Course Attributes:
  • C2: Humanities
  • Global Perspectives

HIST 111 History of Western Civilization II (Units: 3)
From the Renaissance to the present.
Course Attributes:
  • C2: Humanities
  • Global Perspectives

HIST 114 World History to 1500 (Units: 3)
The world’s civilizations from 4500 B.C.E. to 1500 C.E.
Course Attributes:
  • D1: Social Sciences
  • Global Perspectives

HIST 115 World History Since 1500 (Units: 3)
The world’s civilizations from 1500 C.E. to the present.
Course Attributes:
  • D1: Social Sciences
  • Global Perspectives

HIST 120 History of the U.S. through Reconstruction (Units: 3)
History of the U.S. from Colonial times to the end of Reconstruction and the beginnings of the Industrial Age. Political, constitutional, economic, and cultural aspects of American life as they developed both nationally and locally.
Course Attributes:
  • U.S. History
  • D2: Social Sciences: U.S. Hist

HIST 121 History of the U.S. since Reconstruction (Units: 3)
History of the U.S. from the end of Reconstruction to the present. Political, constitutional, economic, and cultural aspects of American life as they developed both nationally and locally.
Course Attributes:
  • U.S. History
  • D2: Social Sciences: U.S. Hist

HIST 130 Survey of U.S. History for Foreign Students (Units: 3)
Prerequisite: Not open to students who have had U.S. history in a U.S. high school.
The American people from colonial times to the present; the development of American political, social, and economic institutions.
Course Attributes:
  • U.S. History
  • D2: Social Sciences: U.S. Hist

HIST 278 History of Latinos in the U.S. (Units: 3)
Examination of the social-cultural, economic, and political foundations of Latino History from the Spanish colonial period to the present. (This course is offered as LTNS 278 and HIST 278. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  • U.S. History
  • D2: Social Sciences: U.S. Hist
  • Am. Ethnic & Racial Minorities
  • Social Justice

HIST 300GW Seminar in Historical Analysis - GWAR (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C or better; or consent of instructor.
The nature and sources of historical evidence and the tools and techniques of historical writing and interpretation; the philosophy of history. (ABC/NC grading only)
Course Attributes:
  • Graduation Writing Assessment

HIST 302 Doing Local History (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Learning the methodological skills of doing local history: the use of manuscript collections, family letters and diaries, oral history interviewing techniques, and finding little known historical collections.

HIST 303 Introduction to Oral History: Disability, Memory, and Experience (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Utilization of oral history to explore the multifaceted dimensions of ability and disability in the history of the San Francisco Bay region.

HIST 304 Teaching History with Comics (Units: 3)
Prerequisite: English 214.
Exploration of the study and teaching of the past using comic books and graphic novels produced by historians as memories and commemorations of events. Engages questions of culture, power, and empathy culminating in pedagogy-oriented projects. (Plus-minus ABC/NC, CR/NC)
HIST 313 Comparative History of Love and Sexuality (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Development of and changes in the attitudes and practices surrounding love and sexuality on selected western and non-western cultures from antiquity to the present.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

HIST 315 History of Science from the Scientific Revolution (Units: 3)
Prerequisite: ENG 214 or equivalent, or consent of instructor.
Examination of the development of modern science from the Scientific Revolution to the present and changes in the relationship between people and their environment during the transition from feudalism to capitalism and through industrialization to the modern environmental movement.
(This course is offered as HIST 315 and HUM 315. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Environmental Sustainability
• Global Perspectives

HIST 317 The Holocaust and Genocide (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Process and conditions which led to the harassment, expulsion, and extermination of the Jews during World War II; new information about the concentration camp system.
(This course is offered as HIST 317 and JS 317. Students may not repeat the course under an alternate prefix.)

HIST 320 Archaic and Classical Greece (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Political, institutional, and cultural history of Greece from the Bronze Age to the end of the Peloponnesian War.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

HIST 321 Hellenistic Greece (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Political, institutional, and cultural history of Greece from the end of the 5th century to 146 B.C.E.

HIST 322 The Roman Republic (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Political, institutional, and cultural history of Rome from the Etruscans to the outbreak of the Civil War of 49 B.C.E.

HIST 323 Imperial Rome (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Political, institutional, and cultural history of Rome from the outbreak of the Civil War of 49 B.C.E. to the council of Nicaea (325 C.E.).

HIST 324 Greek and Roman Coins in Historical Context (Units: 3)
Prerequisite: Upper division standing or consent of instructor
Exploration of the production, social function, and iconography of Greek and Roman coins and how they can help write the history of the ancient world. Study of actual ancient coins in the Lindgren Coin Collection, which includes almost 3000 silver and bronze coins.
(This course is offered as CLAR 324 and HIST 324. Students may not repeat the course under an alternate prefix.)

HIST 325 Late Antiquity (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Political, social, economic, and cultural history of the Mediterranean world from the 4th to the 8th centuries C.E. Roman Empire and its early Greek, German, and Arabic-speaking successor states.

HIST 326 The Byzantine Empire (Units: 3)
Prerequisite: ENG 214 or equivalent.
Political, social, economic, cultural history of Byzantine Empire from 7th to 15th centuries A.D.; relations of Byzantium with Germanic, Slavic, Arabic, and Turkic-speaking neighbors.
(This course is offered as MGS 510, CLAS 510, HIST 326. Students may not repeat the course under an alternate prefix.)

HIST 327 The Medieval Mediterranean (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Examination of the interaction of geography, economy, religion, state, and society in the Mediterranean from the 6th to 15th centuries and complex Christian, Muslim, and Jewish conceptualizations of culture.
Course Attributes:
• UD-C: Arts and/or Humanities
• Environmental Sustainability
• Global Perspectives

HIST 328 Early Christian Church to 313 (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Christian Church from its beginnings to the conversion of Constantine. Quest for the historical Jesus; Orthodoxy and Gnosticism; development of worship; the Apologists; the phenomenon of martyrdom.

HIST 329 Early Christian Church: 313-787 (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Christian Church from the conversion of Constantine to Iconoclasm. Establishment of the Imperial Church; monasticism; doctrinal controversies of the 4th and 5th centuries; worship; Rome, Africa, and the development of the papal primacy.
HIST 330 The Early Middle Ages (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Society and culture in early medieval Europe, up to the 12th century. (This course is offered as HIST 330 and HUM 403. Students may not repeat the course under an alternate prefix.)

HIST 331 The High Middle Ages (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Society and culture in medieval Europe from the 12th to the 14th century. (This course is offered as HUM 404 and HIST 331. Students may not repeat the course under an alternate prefix.)

HIST 334 The Renaissance (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Political and economic conditions during the 14th and 15th centuries; the rise and spread of humanism; intellectual, political, and cultural developments characteristic of the Renaissance era.

HIST 336 The Reformation (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Causes and progress of the Lutheran Reformation, variations within Protestantism, the Counter-Reformation; political and economic history of the 16th century.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

HIST 337 Knowing and Unknowing in Early Modern Europe (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Examines ideological changes in Early Modern Europe by focusing on the dichotomies of knowing and unknowing, reason and religious mysticism, science and faith.

HIST 338 Europe and the Wider World, 1348-1768 (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent

Examination of European history in a global light; impact of non-Europeans and marginalized inhabitants of Europe on political, social, economic, and intellectual developments in Europe.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
- Social Justice

HIST 342 French Revolution and Napoleon (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

The development of the Revolution in France and its colonies; rise and fall of Napoleon.

HIST 344 Nineteenth Century Europe (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Development of Western Europe from the time of the fall of Napoleon to World War I (1814-1914).

HIST 346 Recent European History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Western Europe since the eve of World War I; political and social problems originating in the conditions of the interwar period and World War II. (This course is offered as HIST 346 and IR 346. Students may not repeat the course under an alternate prefix.)

HIST 347 Women in Modern Europe (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Social, economic, political, and intellectual life of European women since 1500.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice

HIST 348 Modern European Intellectual and Cultural History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

European intellectual and cultural history from the Enlightenment to the present, and how this history has reacted to the changing European social and political landscape.

HIST 349 Topics in European History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Rotating course covering the history and historiography of a particular theme, event, or problem in European History. Topics to be specified in course schedule. May be repeated when topics vary.

HIST 350 Greece and the Balkans (Units: 3)
Prerequisite: ENG 214 or equivalent.

History of Greece and the Balkans from the Fall of Constantinople to the present. (This course is offered as MGS 350 and HIST 350. Students may not repeat the course under an alternate prefix.)

HIST 351 Venetians and Ottomans in the Eastern Mediterranean and Greece (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.

Examination of the Republic of Venice in conjunction with the Ottoman Empire in their interactions in the eastern Mediterranean. (This course is offered as HIST 351 and MGS 351. Students may not repeat the course under an alternate prefix.)
HIST 352 From Glory to Debt: Greece from the 19th to the 21st Centuries (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of political, social, and economic crises and transformations sustained by the Modern Greek State from 1830 to the present. (This course is offered as HIST 352 and MGS 352. Students may not repeat the course under an alternate prefix.)

HIST 385 The Russian Revolution (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Crisis and collapse of Imperial Russia, traditions of the Russian revolutionaries, and rise of the Soviet Union of Stalin.

HIST 386 Soviet Russia, the West, and the Cold War (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Relations between the Soviets and the West from 1945 to 1991; nuclear arms race and geopolitical conflicts.

HIST 387 The Era of Globalization, 1968-2008 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Survey of world history between 1968 and 2008, seen as a process of globalization in the world economy and polity. Focus on fall of Soviet Bloc, rise of Islam, and emergence of new power centers in Asia and Latin America.
Course Attributes:
  • Global Perspectives

HIST 389 European International History: 1848-1918 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
International relations of the European states: diplomatic history, including the range of cultural and intellectual contacts among them.

HIST 390 Era of the World Wars 1918 to 1945 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
International relations of the European states, diplomatic history: including the range of cultural and intellectual contacts among them.

HIST 400 History of Modern European Imperialism (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Theories and ideologies of imperialism, experiences of colonial rule, and interaction within and between empires.
Course Attributes:
  • UD-D: Social Sciences
  • Global Perspectives
  • Social Justice

HIST 405 Maritime History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Investigates the ocean as an important site of historical change from 1500-present. Considers political, economic, cultural and environmental factors.

HIST 418 Society and Politics in American History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Changing nature of political patterns from the American Revolution to the present. Parties, elections, and policy-making at national level; ideological, social, and economic bases of politics.
Course Attributes:
  • U.S. History
  • Am. Ethnic & Racial Minorities
  • Social Justice

HIST 420 American Colonial History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
English colonies in North America from the settlement of Jamestown to the preliminaries of the great war for Empire. Modification of European institutions and ideals in the New World.

HIST 421 Food Fights: The Politics of American Jewish Consumption, 1654-Present (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration of the politics of religion, food, and eating among Jews in the US from the late nineteenth century to the present. Focus on American Jewish foodways: cultural, social, historical, political, and economic practices of food production and consumption that have sustained and demarcated Jewish communities. (This course is offered as JS 421 and HIST 421. Students may not repeat the course under an alternate prefix.)

HIST 422 The American Revolution (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Causes of the American Revolution; the War for Independence, social and cultural change regarding gender, race, and class.

HIST 424 History of the United States: 1827-1877 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Internal development and expansion of the American people and the rise of sectional conflict, culminating in the Civil War and Reconstruction era.

HIST 426 History of the United States: 1877-1916 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
U.S. history from 1877 to 1916: impact of industrialization, urbanization, immigration on existing social and political systems.
HIST 427 History of the United States: 1916-1945 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
U.S. history from 1916 to 1945: politics of the New Era and New Deal; involvement in two world wars and its domestic impact; changing social, economic, and intellectual patterns.

HIST 428 History of the United States Since 1945 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
U.S. history since 1945: politics, foreign policy and changing social, economic, and intellectual patterns.

HIST 441 American Jews and Popular Culture (Units: 3)
Prerequisite: ENG 114 or equivalent.
Examination of presentation and participation of Jews in American popular culture of the 20th and 21st centuries. Focused on the representation of Jews and Judaism in film, television, and media. Representation of Jews and Judaism in literature, athletics, food, museums, and consumer culture also addressed. (This course is offered as JS 441, HIST 441 and HUM 441. Students may not repeat the course under an alternate prefix.)

HIST 448 The American West (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
The trans-Mississippi West in American history and thought: the century from 1846 to 1945.

HIST 449 American Jewish History (Units: 3)
Prerequisite: ENG 114 or equivalent.
American Jewish History from 1654 to the present. Traces social, political, religious and economic history of Jews in colonial America and the United States. Topics: influence of government, immigration, religion, anti-Semitism, regionalism, acculturation. (This course is offered as JS 449 and HIST 449. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• U.S. History
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Social Justice

HIST 450 History of California (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
California through the Spanish and early American periods to the present.
Course Attributes:
• Calif State & Local Govt
• UD-D: Social Sciences

HIST 451 Bay Area History and Society (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration of the Bay Area, specifically San Francisco, Oakland, Berkeley, and San Jose, from a sociohistorical and global perspective. Exploration of various dimensions of the bay area’s human and environmental composition and history, paying special attention to the built environment, immigration, globalization, race, and class. (This course is offered as A U 303 and HIST 451. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

HIST 455 The Philippines and the United States (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Examination of the relationship between the Philippines and the U.S. and Filipinas/os and Americans over the period from the Philippine Revolution against Spain in 1896 to the present.
Course Attributes:
• U.S. History
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

HIST 460 U.S. Foreign Relations to 1913 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Establishment and transformation of American foreign relations from the revolutionary period until the eve of World War I.

HIST 461 U.S. Foreign Relations: 1913 - Present (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
The role of the U.S. in the world from 1913 to the present. Topics include: creation of American empire, emergence of U.S. as a superpower, the Cold War, U.S. in the international community.

HIST 462 Making Whites: Race-making in America (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Evolution and implications of whiteness in America from colonial period to the present post-Civil Rights, multicultural era; includes the definition of whiteness and critical role of the racial construction of whiteness in the history of American racism and race relations. (This course is offered as RRS 670 and HIST 462. Students may not repeat the course under an alternate prefix.)
HIST 464 American Ethnic and Racial Relations to 1890 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

How ideas and practices of race and ethnicity developed and changed in colonial North America and the U.S., 1600s to the 1882 Chinese Exclusion Act.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

HIST 465 American Ethnic and Racial Relations II: 1890 - Present (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Effects of ethnic and race relations on American life from the closing of the frontier to the present: Russian Jews, American Irish, Mexican Americans, Japanese, and African-Americans.
Course Attributes:
• U.S. History
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

HIST 466 History of People of Color in the U.S. (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

History of the U.S. people of color, their experience in the development of American society, from the 1600s to present. Consequences of domination and racism in thwarting economic interests, and responses to limiting institutional arrangements.
(This course is offered as RRS 600 and HIST 466. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• U.S. History
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

HIST 467 Women in the U.S. to 1890 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

History of the changing social, economic, political, and intellectual life of women in the U.S., from the period of colonization to 1890.

HIST 468 Women in U.S.: 1890-Present (Units: 3)
Prerequisites: Upper division standing; ENG 214.

History of the changing social, economic, political, and intellectual life of women in the U.S., 1890 to the present.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

HIST 469 American Childhoods: Past and Present (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

American childhoods through time and across the cultures since the 17th century.

HIST 470 The U.S. Constitution to 1877 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

U.S. constitutional developments from the Magna Carta through Reconstruction. The Constitution as a living instrument, shaping and changing national trends.
Course Attributes:
• U.S. Govt CA State Local Govt
• U.S. History
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Social Justice

HIST 471 The U.S. Constitution since 1877 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

U.S. Constitutional history from the Reconstruction era to the present. The Constitution as a living instrument, shaping and changing national trends.
Course Attributes:
• U.S. Govt CA State Local Govt
• U.S. History
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Social Justice

HIST 472 The Courts, Politics and Social change in U.S. History, 1880-2000 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Examination of watershed moments in American history through court cases from the late 19th and 20th centuries. The cases include the Haymarket Anarchists trial, the Scopes trial, the Korematsu internment case, the Loving decision of 1967 and Roe v. Wade.

HIST 473 Unfree Labor in Early America (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

An examination and comparison of various forms of unfree labor in early America from the colonial period to the Civil War, tracing change over time and investigating the relationship among economic systems, ideology, and social relations.
(This course is offered as HIST 473, ETHS 473, and LABR 473. Students may not repeat the course under an alternate prefix.)
HIST 474 History of Labor in the United States (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Development of the workforce and organized labor in the U.S. Social and economic characteristics of work and the workforce; characteristics of labor organizations at different times. (This course is offered as HIST 474, ECON 474, and LABR 474. Students may not repeat the course under an alternate prefix.)

HIST 476 American Environmental History (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Americans' interactions with the physical environment from the European colonial period to the present.

HIST 477 American Mass Culture I: Revolution to Railroad (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

A social and cultural approach to United States history focused on mass culture. Examination of the construction of national ideals and the shaping of a common American identity from the American Revolution to the Civil War.

Course Attributes:
- U.S. History
- Am. Ethnic & Racial Minorities

HIST 478 American Mass Culture II: Gilded Age to Digital Age (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

A social and cultural approach to United States history focused on mass culture, including mass communication, technological innovation, and popular entertainment. Examination of construction of national ideals and shaping of a common American identity, from the Gilded Age to present.

Course Attributes:
- U.S. History
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

HIST 480 Thought and Culture in America to 1880 (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

American thought and culture from colonial times to the 1880's. Intellectual movements and influential texts. (This course is offered as HIST 480 and HUM 480. Students may not repeat the course under an alternate prefix.)

HIST 481 Thought and Culture in America: 1880 to the Present (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

American thought and culture from the 1880s to the present. Intellectual movements and influential texts. (This course is offered as HIST 481 and HUM 481. Students may not repeat the course under an alternate prefix.)

HIST 482 Religion in America (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

American religion, from colonial times to the present. Changing relations between religious thought and institutions. The range and variety of forms of religious expression in an increasingly urbanized, industrialized, and organized multicultural society.

HIST 484 Disability and Culture in American (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Examination of some of the major topics in U.S. history (industrialization, Civil War, eugenics, immigration, Great Depression, social policies, etc.) through the lens of "disability".

Course Attributes:
- U.S. History
- UD-C: Arts and/or Humanities
- Social Justice

HIST 489 Dynamics of the American City (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Historical development and contemporary condition of urban America, city planning, federal-city relations; dynamics of urban policy making; class, gender, race, and ethnicity in urban America. (This course is offered as USP 400 and HIST 489. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Social Justice

HIST 490 Topics in American History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Rotating course covering the history and historiography of a particular theme, event, or problem in U.S. History. Topics to be specified in class schedule. May be repeated when topics vary.

HIST 500 Colonial Latin America (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Hispanic America from preconquest times to independence. Indian, African, and Hispanic elements in the colonization process; the new colonial culture; political, economic, religious, racial, and sexual domination, and the legacy of colonialism.

HIST 501 Latin America: The National Period (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Latin America since independence (c. 1825). Histories of Latin American peoples: culture, race relations, women, political oppression and resistance, the economy, and development. (This course is offered as HIST 501, ANTH 501, and LTNS 501. Students may not repeat the course under an alternate prefix.)
HIST 520 Central America and the Caribbean (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Political, economic, and social development from the colonial era to the present. Contemporary Central America and the Caribbean, especially post-revolutionary Cuba.

HIST 524 History of Mexico (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Mexico from colonial times to the present. Development of major economic, social, and political institutions.

HIST 528 History of Brazil (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Brazil from colonial times to the present. Role of Brazil in Latin American history, shifting patterns of economic activity, evolution of political institutions, development of cultural patterns.

HIST 535 History of Women in Latin America (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
History of the changing roles of women in Latin America from the colonial period to the present.
(This course is offered as HIST 535, WGS 535, and LTNS 533. Students may not repeat the course under an alternate prefix.)

HIST 550 Social Change in Modern Latin America (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Processes of modernization operative in various Latin American societies. 20th century developments which typify the region as a whole.

HIST 569 Ancient Chinese Civilization (Units: 3)
Prerequisites: Upper division standing; ENG 214.
The social, cultural, and political history of China, the oldest continuous civilization on earth, from the Neolithic through the end of the Tang, reconstructing the lives of philosophers, courtiers, monks, and commoners.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

HIST 570 Imperial China (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
The historical development of the Chinese empire from the budding of Neo-Confucianism, through the Mongol conquest, to the autocratic state of the Ming, down to the Manchu takeover, around 900-1700.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

HIST 571 History of Modern China (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
The rise and fall of the Ch'ing empire, the establishment of the Republic, the Communist Revolution, and its aftermath.

HIST 572 Taiwan: History, Memory, and Imagination (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Exploration of Taiwan’s colonial legacies, ethnic tensions, democratization, as well as social, cultural, demographic, and economic developments through a historical study of films and fiction. [Formerly HIST 590 - topic course]

Course Attributes:
- UD-C: Arts and/or Humanities
- Environmental Sustainability
- Global Perspectives

HIST 575 History of Women in China and Japan (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Social, cultural, intellectual, political, and economic lives of women in China and Japan.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
- Social Justice

HIST 578 History of Japan (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
The early cultural borrowings from China; the crystallization of feudal society; and the evolution of modern Japan since the Meiji restoration in 1868.

HIST 582 Tales from Ancient India: Hinduism and Buddhism (Units: 3)
Prerequisite: ENG 214.
Study of ancient Indian (Hindu and Buddhist) culture, religion, and literature. Examination of epics, plays, devotional and love poetry from Sanskrit and other Indian languages. Examination of family, gender, and patriarchy; kingship and power; heroism, love, war; ethics and devotion. (This course is offered as HIST 582, HUM 582 and CLAS 582. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HIST 583 Hindus and Muslims (Units: 3)
Prerequisite: ENG 214 or the equivalent.
Examination of the history of Hinduism and Islam, two of the world’s great religious and political traditions. Special attention to cultural productions.
HIST 584 India and the British Empire (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

History of civilization of the Indian subcontinent to the present. Addresses political, economic, social, ethnic, and linguistic factors that shaped regional development.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice

HIST 585 India since Gandhi (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Introduction to themes in Indian history since the end of British colonial rule: the legacy of the British colonial empire, Gandhi and anticolonial nationalism, Nehru's vision of India, and contemporary Indian nationalism.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
- Social Justice

HIST 588 History of Southeast Asia (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Transnational history of Southeast Asia from the eleventh century to the present. Principle cultural and political areas include Burma/Myanmar, Thailand, Laos, Cambodia, Vietnam, Malaysia, Indonesia and the Philippines.

HIST 590 Topics in Asian History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Rotating course covering the history and historiography of a particular theme, event, or problem in Asian History. Topics to be specified in class schedule. May be repeated when topics vary.

HIST 600 Ancient Near East: Cities and Empires in Ancient Mesopotamia (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

History and culture of Ancient Mesopotamia from the Fourth Millennium B.C.E. through the creation and expansion of the Persian Empire in the First Millennium B.C.E.

HIST 603 History of the Ancient Near East: to Muhammad (Units: 3)
Prerequisites: Upper division standing, or consent of instructor; ENG 214 or equivalent.

Examination of the cultural developments, contributions, and influences of ancient Mesopotamia, Egypt, Persia, Crete, Anatolia, Greece, and Arabia from the dawn of civilization to the birth of Muhammad.

HIST 604 Islamic World I: 500 - 1500 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Islamic civilization, culture, and history from 500-1500.

HIST 605 Islamic World II: 1500 - present (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Islamic civilization, culture, and history from 1500 to the present.

HIST 606 History of Iran and Afghanistan 1500 - Present (Units: 3)
Prerequisites: Upper division standing, ENG 214 or equivalent, or consent of instructor.

History of Iran from the rise of the Safavid Empire to the present. Beginning with a historical background, the course moves on to examine the history of Iran in a period of colonialism, revolution, and the rise of Islam.

HIST 607 Imperialism and Nationalism in the Recent Near East (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Imperialism and colonialism in Near East (West Asia and Northern Africa) in 20th and 21st centuries, and reaction and reform within the region.

HIST 609 Approaches to the African Past (Units: 3)
Prerequisites: Upper division standing, ENG 214; or consent of instructor.

Explorations of different methodologies for studying the African past, including archaeology, anthropology, oral traditions, and history. (This course is offered as HIST 609 and ANTH 609. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

HIST 610 History of Africa (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

African cultures from the Iron Age to 1880 with emphasis on Africa south of the Sahara.

HIST 611 Modern Africa (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Rise and decline of European colonization and emergence of contemporary nationalist movements.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

HIST 612 Gender in African History (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Development of competencies around the theme of gender in the African past by working with a variety of texts and sources and the scholarship of leading researchers in this field.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
HIST 619 Topics in World History (Units: 3)
Prerequisite: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Rotating course covering the history and historiography of a transnational theme, event, or problem or in an area outside of Europe, Asia, or the United States. Topics to be specified in class schedule. May be repeated when topics vary.

HIST 620 Pirates and Piracy (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Examination of factors (political, social, cultural, and environmental) that give rise to piracy, and the various forms it takes across the world from ancient to modern times.

HIST 632 Jewish History I: Beginnings to 1650 (Units: 3)
Prerequisite: ENG 214 or equivalent.
Jewish history from the sixth century B.C.E. to the rise of European modernity. Politics, culture, and religion under empires of Persia, Hellenism, and Rome, and in medieval diasporas of Europe and lands of Islam.
(This course is offered as JS 632 and HIST 632. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HIST 633 Jewish History II: 1650 to Present (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Jewish history from 1650 to present. Central theme is the encounter of traditional ethnic and religious minority with modernity. Topics: emancipation, antisemitism, immigration, Zionism, Israel, America, Holocaust.
(This course is offered as JS 633 and HIST 633. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HIST 640 Proseminar: European History (Units: 3)
Prerequisites: Upper division standing, ENG 214 or equivalent, HIST 300GW, or consent of instructor.
Seminar-style culminating experience focused principally on topics in European History. Topic to be specified in Class Schedule. May be repeated when topics vary.

HIST 642 Proseminar: American History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent, HIST 300GW.
Seminar-style culminating experience focused principally on topics in US History. Topic to be specified in Class Schedule. May be repeated when topics vary.

HIST 644 Proseminar in World History (Units: 3)
Prerequisites: Upper division standing, ENG 214 or equivalent, HIST 300GW, or consent of instructor.
Seminar-style culminating experience focused principally on a transnational theme or regional topic. Topic to be specified in Class Schedule. May be repeated when topics vary.

HIST 660 Computer Methodology for Historians (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent, and HIST 300GW,
Use of computers for on-line research and communication via the Internet, library catalogs, and similar resources.

HIST 680 Archives or Historical Agency Internship (Units: 3-4)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent; major in history; and consent of department chair.
Internship with an archive or other historical agency. Development of knowledge, experience, and training in archival or historical agency work.

HIST 681 Community Service Learning in the Schools (Units: 3)
Prerequisite: Upper division standing.
Projects in history and social studies learning at the K-12 level. Meets state early field experience requirement for multiple and single subject credential program admissions. May be repeated for a total of 6 units. [CSL may be available]
(This course is offered as LS 681 and HIST 681. Students may not repeat the course under an alternate prefix.)

HIST 690 Editing and Publishing the History Journal (Units: 1-4)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent, and HIST 300GW.
Supervised experience in editing and production of an annual journal of research. Not applicable to major or minor fields in history. May be taken for a total of 4 units. (CR/NC grading only)

HIST 697 Honors Thesis (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent, and HIST 660 (may be taken concurrently),
Tutorial leading to an honors project or thesis based on study of a topic. Topic to be determined by student and faculty member.

HIST 698 Directed Reading in History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Directed reading in selected areas of history under the supervision of a faculty member.

HIST 699 Independent Study (Units: 1-4)
Prerequisites: Consent of instructor, major adviser, and department chair.
Supervised study of a particular problem selected by the student.

HIST 700 History as a Field of Knowledge (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Seminar in the problems in the historical inquiry and facilities designed to prepare master's candidates for research and teaching.
HIST 701 The Historiography of World History (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Seminar examining the varieties of world history writing since World War II. Emphasis on the new world history approaches since the 1970s. May be repeated for a total of 6 units with a different instructor. May not repeat with the same instructor. (Plus-minus letter grade only.)

HIST 702 Sexuality in Historical Perspective (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexuality Studies or History; or consent of instructor.
Traces the growing scholarship on the historical study of sexuality primarily in the U.S. Introduces students to a variety of historical studies on sexuality and assesses the validity and value of the work. (This course is offered as SXS 702 and HIST 702. Students may not repeat the course under an alternate prefix.)

HIST 705 Approaches to History (Units: 3)
Prerequisite: HIST 700 or consent of instructor.
Broad exposure to a single approach to history in a way that would build upon and serve as a companion to HIST 700. Course readings are global in scope and cover a broad wide swath of time. Topic to be specified in the Class Schedule. May be repeated when topics vary. (Plus-minus letter grade only)

HIST 710 Seminar in Ancient and Medieval History (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in Mediterranean or global history prior to c.800. Topic to be specified in Class Schedule. May be repeated as topics vary.

HIST 720 Seminar in Medieval History (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in European or global history c.800-1400. Topic to be specified in Class Schedule. May be repeated when topics vary.

HIST 730 Seminar in Early Modern European History (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in European history c.1400-1815. Topic to be specified in Class Schedule. May be repeated as topics vary.

HIST 740 Seminar in the History of Europe Since 1815 (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in European history since 1815. Topic to be specified in Class Schedule. May be repeated as topics vary.

HIST 741 The Holocaust and Postwar Germany Taught in English (Units: 3)
Prerequisite: Graduate standing in German, History, or Jewish Studies, or consent of instructor.
The Holocaust in Postwar Germany as seen in exemplary works of literature, historical documents and Nuremberg trials. (Plus-minus letter grade only) [Taught in English]  
(This course is offered as GER 741, HIST 741, and JS 741. Students may not repeat the course under an alternate prefix.)

HIST 780 Seminar in American History To 1877 (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in U.S. history before and including the period of Reconstruction. Topic to be specified in Class Schedule. May be repeated as topics vary.

HIST 785 College Teaching of History (Units: 1-3)
Prerequisites: HIST 700 and 12 additional history units with GPA of at least 3.35.
Training and teaching of history at the college level. Pedagogical workshop and classroom experience. May be repeated for a total of 4 units for degree credit. (CR/NC grading only)

HIST 790 Seminar in American History Since 1877 (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in U.S. history since the period of Reconstruction. Topic to be specified in Class Schedule. May be repeated when topics vary.

HIST 799 Directed Historiography (Unit: 1)
Prerequisites: Graduate standing in History; concurrent with an upper division history class.
Graduate students complete additional reading during enrollment in upper division history class. May be repeated for a total of 3 units.

HIST 805 Seminar in the History of Women (Units: 3)
Prerequisite: Graduate standing in history or consent of instructor.
Topics in the history of women and feminism to be specified in Class Schedule. May be repeated when topics vary.

HIST 830 Seminar in Latin American History (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in the history of Latin America and the Caribbean. Topic to be specified in Class Schedule. May be repeated as topics vary.

HIST 840 Readings in Southeast Asian History (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Major topics and readings in Southeast Asian history, including differences among the eleven modern nations within the region; the influence of foreign powers on Southeast Asian societies; the historical role of Southeast Asia in international economic, political, and cultural exchange.

HIST 850 Topics in World History Since 1500 (Units: 3)
Prerequisite: Graduate standing in History or consent of instructor.
Graduate seminar in a topic, theme, or problem in early modern and modern global history. Courses may be thematic and transnational, or may focus on a specific region. Topic to be specified in Class Schedule. May be repeated as topics vary. (Plus-minus letter grade only)

HIST 880 Archives or Historical Agency Internship (Units: 3-4)
Prerequisites: Graduate standing in History and consent of department chair.
Internship with an archive or other historical agency. Development of knowledge, experience, and training in archival or historical agency work.
HIST 890 Editing and Publishing the History Journal (Units: 1-4)
Prerequisites: Graduate standing in History; HIST 700; and consent of instructor.

Supervised experience in editing and production of an annual journal of research. Not applicable to major or minor fields in history. May be taken for a total of 4 units. (CR/NC grading only)

HIST 896 Directed Reading in History (Units: 3)
Prerequisites: Graduate standing in History; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Directed reading in one historical field, based upon a standard bibliography and consultation with departmental specialists in that field. Not open to M.A. candidates who choose to write a thesis.

HIST 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered 892, 893, 894, 895, 898, or 998, (or in some cases, courses numbered 890 - see program’s graduate advisor for further information). (CR/NC, RP)

HIST 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and candidate’s committee chair; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

HIST 899 Independent Study (Units: 1-4)
Prerequisite: Consent of the graduate major adviser, the supervising faculty member, and the department chair.

Study is planned, developed, and completed under the direction of a member of the departmental faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition.
Holistic Health (HH)

HH 200 Holistic Approach to Academic Success (Units: 3)
Concepts and skills for increased academic success, including mindfulness meditation for self-awareness, mental imagery for problem solving, and continuous improvement from an Eastern perspective. Lifelong learning, personal growth, and promoting a civil society are examined.

Course Attributes:
• E1: Lifelong Learning Develop
• D1: Social Sciences
• Environmental Sustainability

HH 205 Relaxation and Stress Reduction (Units: 3)
Research and theory in stress physiology and stress management, techniques of progressive relaxation, mental rehearsal, imagery training. Included are stress management strategies for coping with selected stress-related disorders with emphasis on relationship to physical activities.

Course Attributes:
• E1: Lifelong Learning Develop
• D1: Social Sciences

HH 210 The Dao of Well-Being in Chinese Tradition (Units: 3)
Exploration of holistic and aesthetic modes of well-being from Daoist philosophical perspectives. Topics include Daoist philosophy, classical poetry, basic principles of Chinese medicine, therapeutic cuisine, traditional music, and QiGong exercises.

Course Attributes:
• E1: Lifelong Learning Develop
• C2: Humanities
• Am. Ethnic & Racial Minorities

HH 290 Promoting Positive Health (Units: 3)
Embodied learning to promote physical, mental, spiritual and community health through yoga, dance, drawing, writing, collage, poetry and photography. Multicultural experience, active creative participation and intellectual pursuit as tools to improve flexibility and understanding, and to unlearn and heal oppression. (This course is offered as H ED 290 and HH 290. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• E1: Lifelong Learning Develop
• C1: Arts
• Global Perspectives

HH 380 Holistic Health: Western Perspectives (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Western development in holistic health. Overview of psychobiology of stress and self-regulatory methods such as: autogenic training, biofeedback, progressive relaxation, visualization, and behavioral techniques.

Course Attributes:
• E1: Lifelong Learning Develop
• UD-B: Physical Life Science
• Global Perspectives

HH 381 Holistic Health: Eastern Perspectives (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Eastern approaches to health and healing including acupuncture, yoga, meditation. Comparison, scientific evaluation, and synthesis of eastern and western models of human psychology and physiology.

Course Attributes:
• E1: Lifelong Learning Develop
• UD-D: Social Sciences
• Global Perspectives

HH 382 Holistic Health: Human Nature and Global Perspectives (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Explores relation between health and ways of life through understanding human nature and its potential. Health orientations of different traditions in the course of evolution and the life cycle including birth and death. Socio-psychological factors in the healing process.

Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Global Perspectives

HH 383 Chinese Perspectives in Holistic Health (Units: 3)
Prerequisite: Upper division standing.
Taoist philosophy of health and healing: yin-yang and five element theory, principles of qi, patterns of disharmony and health, lifestyles and environmental influences, Chinese healing modes and self practices.

Course Attributes:
• E1: Lifelong Learning Develop
• UD-D: Social Sciences

HH 420 Chinese Body-Mind Energetics (Units: 3)
Prerequisite: Either HH 380, HH 381, HH 382, HH 383, or consent of instructor.
Examination of the nature of qi energy meridians, methods of activating and balancing qi, and various related body-mind energetic practices including acupuncture, breath-work, and QiGong meditation.

Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Global Perspectives

HH 430 Foundation of Biofeedback and Self-Regulation (Units: 3)
Prerequisites: One college course in biology and HH 380 or HH 381 or HH 382 or consent of instructor.
History, theory, research, physiological basis, and application of biofeedback and other self-regulatory techniques. Covers electromyographic, thermal, respiration, electrodermal, heart rate and electroencephalographic feedback techniques and self-practice of autogenic training. Classwork, 2 units; laboratory, 1 unit.

Course Attributes:
• E1: Lifelong Learning Develop
• UD-B: Physical Life Science
HH 433 Autogenic Training and Embodied Living (Units: 3)
Prerequisite: HH 380 or HH 381 or HH 382 or consent of instructor.

Basic theory and technique of autogenic training, a self-generating therapeutic approach for clinical and non-clinical applications. Includes stress reduction concepts, self-practice, and individual and group training processes.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science

HH 450 Somatic Education and Holistic Health (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Survey of somatic traditions such as Feldenkrais, Alexander Technique, Aikido, Biogenetics, Hakomi, Reflexology, Rolfing, Trager and yoga therapy. History, philosophy, and sensory awareness methods of Somatics, from a self-care education approach.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences

HH 530 Herbal and Nutritional Principles in Chinese Healing (Units: 3)
Prerequisite: Either HH 380, HH 381, HH 382, HH 383, or consent of instructor.

Chinese perspectives on the role of herbs and nutrition in health and well-being, historical and philosophical aspects, use of herbs in Chinese medicine, preparation and processing, differences in individual needs.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science
- Global Perspectives

HH 535 Western Nutrition and Herbs (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

The role of herbal products, nutraceuticals, and dietary choices in prevention, disease treatment, and self-care from a holistic perspective.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science
- Global Perspectives

HH 540 Meditation and Imagery in Healing (Units: 3)
Prerequisite: HH 380 or HH 381 or HH 382 or HH 383.

Theory and methodology of various forms of imagery and meditation in promoting health and healing, neuropsychophysiological correlates, and multicultural approaches and practices.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences
- Global Perspectives

HH 545 Imagery and Healing in Tibetan Culture (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Mind-body healing in Tibetan medicine and culture. Theory and practical techniques, such as the use of art and symbolic imagery in meditation and everyday life, as useful approaches to health, emotional well being, and social harmony.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
- Global Perspectives

HH 560 Naturopathic Medicine and Personal Wellness (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Examination of the philosophy, principles and practice of naturopathic medicine. Prevention and treatment of disease with natural therapies are examined, including diet, botanical therapies, homeopathy, hydrotherapy, and mind-body approaches.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science

HH 650 Anthroposophical Health Studies (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Principles and practices of health from an anthroposophical medicine perspective. Applications derived from Waldorf education, biodynamic agriculture, and eurythmy, all rooted in western thinking and evidence-based medicine.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences
- Global Perspectives

HH 660 Art as Healing (Units: 3)
Prerequisite: HH 380 or HH 381 or HH 382 or HH 383, or consent of instructor.

Overview, physiology, and history of healing and art processes. Analysis and assessment of tools and techniques used in art for healing in medical and social settings. Students explore how artists work to heal individuals, communities, and ecosystems.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
HH 670 Alternative Health Practices (Units: 3)
Prerequisite: HH 380, HH 381, HH 382, or HH 383, or consent of instructor.
Overview of therapies and self-care practices in the holistic health field.
Emphasizes multidisciplinary, cross-cultural explorations of the frontiers of health and healing. Presentations by leading edge practitioners and thinkers; includes one in-depth exploration of a healing approach. May be repeated for a total of 9 units.
Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences
- Global Perspectives

HH 680 Holistic Health Internship Seminar (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of issues, problems, and guidelines of practicing holistic health effectively.
Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences

HH 690 Seminar: Psychophysiology of Healing (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Explores the psychophysiology of healing. Special emphasis upon the foundation, ramifications, and practice of therapeutic touch and healee-healer interaction. In-depth topical presentations of the healing process.
Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science

HH 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor and director.
Independent study under the direction of a faculty member. May be repeated provided that the area of study is different.
Hospitality & Tourism Management (HTM)

HTM 110 Introduction to Hospitality and Tourism Management (Units: 3)
Survey of trends and developments in the hospitality and tourism industry, including a total approach to lodging operations, global travel, tourism business and foodservice establishments.
Course Attributes:
• E1: Lifelong Learning Develop
• Environmental Sustainability
• Global Perspectives
• Social Justice

HTM 120 Legal Aspects of Hospitality and Tourism Management (Units: 3)
Prerequisite: HTM major; ENG 214 recommended.
Hospitality law: when a facility may refuse to serve/evict a person; legal liability to guests, children of guests, trespassers; and liability for customers’ property and autos.

HTM 300GW Hospitality Tourism Management Business Communication - GWAR (Units: 3)
Prerequisites: Upper division standing; HTM majors; ENG 214 or equivalent with a grade of C- or better.
Creating effective communication for hospitality businesses. Professional oral and written communication skills for managers interactions with guests, employees, and colleagues. Extra fee required. (Plus/minus A/B+/C/C/NC grading only; C-/CR not allowed)
Course Attributes:
• Graduation Writing Assessment

HTM 324 Historical and Contemporary Aspects of Food, Beverage, and Culture in America (Units: 3)
Prerequisite: ENG 214.
Historical and contemporary approaches to ethnic food and beverages that affect eating habits in the U.S. Social, economic, psychological, and other influences affecting food, beverages, and culture.
Course Attributes:
• UD:D: Social Sciences

HTM 339 Information Technology for International Hospitality and Tourism (Units: 3)
Prerequisite: ENG 214 or equivalent.
Information technology needs of international tourism businesses. Internet and information technology that influence multicultural hospitality and tourism worldwide businesses, customer marketing, and hospitality company goals. Emphasis on e-marketing, e-commerce, and online information distribution to commercial success. (This course is offered as HTM 339 and ISYS 339. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD:D: Social Sciences
• Global Perspectives

HTM 351 Asian Food, Culture, and Hospitality (Units: 3)
Prerequisite: ENG 214.
Asian cultures and food preferences as they relate to eating habits; the influences of social, economic, and religious factors; Asian foods as herbs and medicinal uses; etiquette and cultural aspects of dining preferences for pleasurable eating. (This course is offered as HTM 351 and CFS 351. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD:C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities

HTM 357 Food Systems in the Hospitality Environment (Units: 3)
Prerequisite: ENG 214 or equivalent.
The farm to table movement is used as a lens to explore sustainability, how food systems interact and develop and how that influences what we eat. Exploration of how food moves through the supply chain from purveyor to customer, and how the Bay area is a major influencer. Classroom, 1 unit; laboratory, 2 units. (Plus/minus letter grade only)
Course Attributes:
• Environmental Sustainability

HTM 364 Hospitality and Tourism Management Information Systems (Units: 3)
Prerequisites: HTM major; ISYS 263 or pass computer information systems proficiency test.
Discussion of technology topics that are impacting and shaping the hospitality industry today. Topics include the impact of WiFi, PCI Compliance and IT Privacy laws dealing with customer data.

HTM 400 Wine Appreciation (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
The history, geography, economics, health, and legal issues of wine. Wine and food pairing; wine and food in the business setting; creating a restaurant wine list; purchasing, proper storage and inventory of wine; and an introduction into the making of beer and distilled spirits. NOTE: Students under 21 years of age may not taste wine or other alcoholic beverages and may not attend the field trip to a winery. An alternative assignment for these students will be required, which will consist of an evaluation of the major wine growing regions of the world. Extra fee required.

HTM 421 Food, Wine, and Culture in California (Units: 3)
Prerequisite: ENG 214.
Cultural and historical heritage of the food and wine industries in California, ethnic preferences for food and wine as they relate to immigration patterns, and cultural aspects of dining preferences for pleasurable eating in California.
Course Attributes:
• UD:D: Social Sciences
HTM 424 Tourism Management (Units: 3)
Prerequisites: Upper division standing; HTM 110.

A comprehensive look at the business of the global travel and tourism industry by examining the various components of tourism such as economic, social, environmental and political, their functions, and their commercial significance in today's marketplace. May be repeated for a total of 6 units.

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Social Justice

HTM 425 The Business of International Tourism (Units: 3)
Prerequisite: ENG 214 or equivalent.

Multi-cultural and cross-cultural aspects of the business of international tourism outside the U.S.A. An exploration of international tourism challenges today and in the future, from managerial and travelers' perspectives. The growth of tourism and the way it may affect the future of the world economy.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

HTM 457 Restaurant Operations (Units: 3)
Prerequisites: Restricted to upper division HTM major or minor; HTM 357.

Immersive experience in restaurant operations including aspects of kitchen organization, service styles and inventory management. Food production, vendor relations, and customer service will be experienced with a focus on maximizing efficiency and profit while maintaining brand and concept integrity. Classwork, 2 units; activity, 1 unit. (Plus-minus letter grade only)

HTM 458 Hospitality Tourism Management Revenue and Cost Control (Units: 3)
Prerequisites: HTM major; ACCT 101.

Application of basic accounting techniques in the hospitality industry. Financial statement analysis; evaluation of investment decisions; review of financial statements in hotels, foodservices, and convention and event management establishments. (Plus-minus letter grade only)

HTM 515 Hospitality and Tourism Management Internship (Units: 3)
Prerequisites: Senior standing; HTM major; must have 350 hours of faculty approved hospitality industry experience and 50 hours of professional development.

Coordinated hospitality training combines practical experience with didactic academic analysis. Principles, theory and standard practices applied to operational situations. May be repeated for a total of 3 units.

HTM 531 Hospitality Services Management (Units: 3)
Prerequisites: Restricted to upper division HTM major; HTM 110; or consent of instructor.

Service management and marketing concepts in hospitality service organizations, e.g., hotels, restaurants. Development and execution plans in a service economy. Nature and characteristics of services that need to be managed and marketed due to their intangible core and more conscious aspects of service quality. (Plus-minus letter grade only; CR/NC not allowed)

HTM 557 Restaurant and Catering Management (Units: 3)
Prerequisites: HTM 110, HTM 357, and HTM 457.

Standards and theories dealing with restaurant and catering operations including marketing strategies; food purchasing, production and financial management; sanitation, safety and facility management in restaurants; menus and information system management; beverage and catering management. Required field experience accompanies lectures. (Plus-minus letter grade only)

HTM 560 Hospitality Human Resource Management (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Policies and practices in hospitality human resources management. Functions of the personnel department in planning, recruiting, selection, performance appraisal, information systems, and recent legal issues. (Plus-minus letter grade only)

HTM 561 Hotel Operation Management (Units: 3)
Prerequisites: Restricted to upper division HTM major; HTM 110 or consent of instructor.

Principles, practices, and operation of hotel facilities; operating strategies, reservation systems and operation, housekeeping, accounting, and income control. (Plus-minus letter grade only)

HTM 562 Advanced Studies in Global Hotel Operations Management (Units: 3)
Prerequisites: Restricted to seniors in HTM program; HTM 110, HTM 300GW, HTM 561.

Examination of complex issues facing the global hotel industry managers and leaders, contemporary operational issues and situations, problem solving methods, and development and implementation of strategic solutions.

Course Attributes:
- Global Perspectives

HTM 563 Hospitality and Tourism Management Planning & Development (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Issues inherent in the development and planning of hospitality facilities, specifically hotels and restaurants. Project development sequence, conceptual and space planning, architectural design criteria, construction management, and interpretation of architectural design and consultant drawings.

HTM 567 Hospitality and Tourism Internship (Units: 2-3)
Prerequisite: Upper division standing or consent of instructor.

Practical field experience in hotel/lodging, foodservice and tourism business. Individually designed for students to acquire working knowledge toward skills and/or occupation in the hospitality industry. May be repeated for a total of 6 units.
HTM 576 Meeting Planning and Convention/Event Management I (Units: 3)
Prerequisite: HTM 110 or consent of instructor.
Comprehensive examination of the business strategies for meetings, conferences, and conventions, and exhibition management including the roles of catering and banquet event management, environmental impacts, and people involved in the businesses that comprise this industry.
Course Attributes:
• Environmental Sustainability

HTM 577 Meeting Planning and Convention/Event Management II (Units: 3)
Prerequisites: Restricted to upper division HTM majors and minors; HTM 110 and HTM 576.
Comprehensive business strategies of event planning to the design and execution of meetings, conferences and catered events. Focus on every technique and tactic in the meeting manager’s skill set including design, project management, site selection and development, catering and banquet management, sales, budgeting, safety and security, environmental sustainability, and entertainment. Provides hands-on opportunities.

HTM 578 Hospitality and Tourism Management Sales and Marketing (Units: 3)
Prerequisite: HTM 110 or consent of instructor; enrollment priority given to HTM majors.
Basic elements and concepts of hotel sales and marketing. Problems and characteristics specific to the hotel industry. Sales and marketing process, marketing research, buyer behavior, product strategy, channels of distribution, promotional activity and pricing decisions.

HTM 590 Integrated Seminar in Hospitality and Tourism Management (Units: 3)
Prerequisites: Restricted to senior HTM majors; MKTG 431, HTM 531.
Integration of disciplines within hospitality and tourism management. Application of theoretical knowledge and trends. Development of conceptual, analytical, decision-making, and evaluative skills. (Plus-minus letter grade only)

HTM 595 Selected Topics in Hotel Administration (Units: 3)
Prerequisite: Upper division standing.
Major issues facing the hotel industry. Strategies to minimize or maximize the issues. (Plus-minus letter grade only)

HTM 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.
Intensive problem analysis under the direction of a faculty member. Open only to upper division students who have demonstrated ability to do independent work.

HTM 831 Services Operations Management (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Examination of managerial services and quality services delivery to consumers across industry sectors. Service strategy is analyzed with emphasis on customer expectations, process flow improvement, and managing capacity. (Plus-minus letter grade only)

HTM 850 Seminar in Emerging Issues in Hotel Operation Management (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Rapidly growing lodging industry, challenges facing contemporary managers, trends and research, and reading and writing professional papers. (Plus-minus letter grade only)

HTM 858 Principles of Yield and Revenue Management (Units: 3)
Prerequisites: BUS 776 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Introduction to the analytical processes and execution techniques used to increase revenue for operations, time-based inventory; theoretical levers that enable revenue management including demand forecasting and the analysis of operational flexibility. (Plus-minus letter grade only)

HTM 860 Strategic Human Resources Management (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Examination of concepts, framework, and skills essentials to leveraging the human capital in service business where employees are critical to operational success. Issues will be investigated from both a strategic and tactical level. (Plus-minus letter grade only)
Humanities (HUM)

HUM 130 The Humanities: Major Works (Units: 3)
Major works from several places and times, including the present, with the aim of perceiving their significance in human culture and creating meaningful individual relationships with them.
Course Attributes:

• C3: Humanities: Literature

HUM 205 Asian Art History (Units: 3)
Conceptual and technical relationship of visual form to values in the art of China, Korea, Japan, India, Tibet, and South-East Asia. (This course is offered as ART 205 and HUM 205. Students may not repeat the course under an alternate prefix.)
Course Attributes:

• C1: Arts
• Global Perspectives

HUM 220 Values and Culture (Units: 3)
Prerequisite: ENG 114 or equivalent.
Significant works of cultural expression with respect to their aesthetic dimensions, their historical contexts, and their illumination of human value patterns. At least one non-western work is studied.
Course Attributes:

• C2: Humanities
• Global Perspectives

HUM 225 Values in American Life (Units: 3)
Values that American thinkers, writers, artists, and designers have expressed within a developing culture; the diversities as well as the unities in the American experience and on the contributions of ethnic minorities to American society and its values.
Course Attributes:

• C2: Humanities
• Am. Ethnic & Racial Minorities

HUM 271 The Classic Chinese Novel in Contemporary Pop Culture (Units: 3)
Exploration of legacy of China’s four great classic novels in contemporary Chinese popular culture. Analysis of original works and their adaptation in TV shows and cinema, fiction, computer games and theme parks. (This course is offered as CHIN 271 and HUM 271. Students may not repeat the course under an alternate prefix.)
Course Attributes:

• C2: Humanities
• Global Perspectives
• Social Justice

HUM 300GW Junior Seminar Humanities Writing - GWAR (Units: 3)
Prerequisite: ENG 214 or equivalent with a grade of C or better.
Introduction to the practices of observation, comparison, and expression characteristic of interdisciplinary humanities as a field; development of skills in interpreting and writing essays on various expressive forms. (ABC/NC grading only)
Course Attributes:

• Graduation Writing Assessment

HUM 301 Form and Culture (Units: 3)
Prerequisite: ENG 114.
Interpretation of works and the relationship between form and content in a variety of expressive modes. Reading of selected visual, musical, and written works from various times and places.

HUM 302 Theories and Methods in the Humanities (Units: 3)
Prerequisite: ENG 114
Development and broadening of the student’s acumen in the arts per se and in the arts as means of cultural comparison, through the study and use of major critical methods.

HUM 303 History and Culture (Units: 3)
Prerequisite: ENG 114
Development of the capacity for historical thinking through analysis of expressive forms generated within particular cultures. Variety of cultures and range of verbal and non-verbal forms of expression.

HUM 315 History of Science from the Scientific Revolution (Units: 3)
Prerequisite: ENG 214 or equivalent, or consent of instructor.
Examination of the development of modern science from the Scientific Revolution to the present and changes in the relationship between people and their environment during the transition from feudalism to capitalism and through industrialization to the modern environmental movement. (This course is offered as HIST 315 and HUM 315. Students may not repeat the course under an alternate prefix.)
Course Attributes:

• UD-C: Arts and/or Humanities
• Environmental Sustainability
• Global Perspectives

HUM 320 Music, Ideas, and Culture (Units: 3)
Prerequisite: ENG 214.
Functions of music in diverse social and cultural traditions; relation to other arts and disciplines. Writings of philosophers, critics, musicologists and musicians about music. (This course is offered as HUM 320 and MUS 446. Students may not repeat the course under an alternate prefix.)
Course Attributes:

• UD-C: Arts and/or Humanities
HUM 321 Jazz and Blues in Film (Units: 3)
Prerequisite: Upper Division Standing
Survey of the history and impact of jazz and blues on the Hollywood film industry from the early “soundies” and “The Jazz Singer” to modern day blockbusters. Noted jazz composers such as Henry Mancini, Quincy Jones, and Olive Nelson will be included, as well as works by jazz-influenced composers of the 1970's film era, such as Marvin Gaye, Isaac Hayes, and Melba Liston. (This course is offered as MUS 507, HUM 321, and THA 507. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

HUM 325 Comics and Culture (Units: 3)
Prerequisite: Upper division standing or consent of instructor
Introduction to the scholarly study of comic books and graphic novels. Emphasis on formal analysis, historical antecedents and developments, cross-cultural comparison, and comparison of comics with other cultural forms. Focus on what it means to make comics, as well as analyze them, through in-class and homework activities.

HUM 345 Humanism and Mysticism (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Comparative study of humanistic and mystical thoughts; ways in which these two traditions have developed and affected human civilization.
Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 360 Styles of African Cultural Expression (Units: 3)
Prerequisite: ENG 114.
Variety of sub-Saharan African cultural styles before, during, and after White rule. Traditional and modern expression in many genres: genres created in Africa and Western genres transformed by Africans.

HUM 361 Cultural Expression in Islam (Units: 3)
Prerequisite: ENG 114 or equivalent.
Classic works of Islamic holy/ secular texts; art, architecture, novels, poetry, film. How great works characterize, symbolize, or are emblematic of specific intellectual environments, representing different times, places and diverse populations in Islamic civilization, including non Muslims.
Course Attributes:
- Global Perspectives

HUM 366 India’s Gandhi (Units: 3)
Prerequisite: ENG 114 or equivalent.
The complexity of Gandhi’s values and ideas; major Eastern and Western influences on him; the admixture in his philosophy, literature, and politics.

HUM 368 The Art(s) of Ritual: A Cross-Cultural Approach (Units: 3)
Prerequisite: ENG 114.
Exploration of how ritual performances produce, communicate, preserve and modify meanings and values across diverse cultures and contexts. Focus on private, communal, secular and sacred rituals.

HUM 372 Critical Political Theory (Units: 4)
Prerequisite: ENG 214.
Focus on the critical tradition in political theory that responds to and differentiates itself from classical and modern canonical texts. (This course is offered as POLS 372, HUM 372, and IR 372. Students may not repeat the course under an alternate prefix.)

HUM 375 Biography of a City (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration of the cultural life and history of a particular city. Focus on significant historical moments, urban spaces, and arts and culture of the city in question. Cities to be specified in Class Schedule. May be repeated as focal cities vary.
Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 376 San Francisco (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Investigation of San Francisco as a center of intellectual, social, and cultural life. Some sections offer field trips and tours.
Course Attributes:
- UD-C: Arts and/or Humanities
- Environmental Sustainability

HUM 377 Jerusalem (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.
The dynamics of Jerusalem’s intellectual, artistic, and social life with emphasis on the great works that symbolize the contribution of that city to human culture. (This course is offered as HUM 377 and JS 377. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 378 Athens (Units: 3)
Prerequisite: ENG 214.
Exploration of the city of Athens from the ancient to the modern periods, including contemporary times; focus on key moments in the city’s multi-layered history as well as enduring cultural values and global impact. (This course is offered as HUM 378 and MGS 378. Students may not repeat the course under an alternate prefix.)

HUM 380 Nature and Human Values (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of classic and contemporary writings and works of art that explore human beings’ place in the natural world.
Course Attributes:
- Environmental Sustainability
HUM 390 Images of Eroticism (Units: 3)
Prerequisite: ENG 114 or consent of instructor.
Ways in which human sexuality, both the socially acceptable varieties and those practices which different societies attempt to prohibit, are represented in the art and literature of cultures in different historical periods.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

HUM 401 Ancient Greek Literature (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to ancient Greek literature in its social and historical context. (This course is offered as CLAS 410 and HUM 401. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

HUM 402 Ancient Roman Literature (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to ancient Roman literature in its social and historical context. (This course is offered as CLAS 415 and HUM 402. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

HUM 403 The Early Middle Ages (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.
Society and culture in early medieval Europe, up to the 12th century. (This course is offered as HIST 330 and HUM 403. Students may not repeat the course under an alternate prefix.)

HUM 404 The High Middle Ages (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Society and culture in medieval Europe from the 12th to the 14th century. (This course is offered as HUM 404 and HIST 331. Students may not repeat the course under an alternate prefix.)

HUM 405 Art, Literature, and Power in the Renaissance (Units: 3)
Prerequisite: ART 201 or ART 202 or equivalent.
European renaissance and baroque art and literature, related to power structures affecting all aspects of culture and society. (This course is offered as ART 405 and HUM 405. Students may not repeat the course under an alternate prefix.)

HUM 407 Romanticism and Impressionism (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
A variety of European and American expressive forms (literature, visual arts, music, philosophy) and their contexts from the Napoleonic Era to the beginning of World War I.

HUM 410 The Modern Revolution (Units: 3)
Prerequisite: ENG 114 or equivalent.
Society, literature, thought, and art, and their interrelationships in late 19th and early 20th century Western culture; impact on cultural life of science, social crisis, and end of Western cultural isolation. (Not open to students who have completed PHIL 304.)

HUM 415 Contemporary Culture (Units: 3)
Prerequisite: ENG 114 or equivalent.
Issues and achievements in art, thought, and society during the 20th century; literature, fine arts, philosophy, and history.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

HUM 423 Going Medieval: Comparative Medieval European Literature (Units: 3)
Prerequisite: CWL 214 or ENG 214 or equivalent.
A survey of the major genres of Medieval European vernacular writing in translation, including epic, romance, tale collections, and lyric poetry. (This course is offered as CWL 423 and HUM 423. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

HUM 424 Multicultural Middle Ages (Units: 3)
Prerequisite: CWL 214 or ENG 214 or equivalent.
A survey of medieval European representations of the Islamic world, as reflected in the major genres of epic, romance, tale collections, travel writing, and lyric poetry. (This course is offered as CWL 424 and HUM 424. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

HUM 425 Thought and Image: Humanities (Units: 3)
Prerequisite: ENG 114 or equivalent.
Works in the humanities and creative arts studied in terms of the unique ways the meanings, values, and forms reflect their cultures of origin. Works from at least two global cultures will be included.

HUM 432 Nietzsche and Postmodernism (Units: 3)
Prerequisite: ENG 214.
Examines the most radical implications of Nietzsche's critique of western humanism. Close reading of major writings by Nietzsche and selected "postmodern" readings of Nietzsche. (This course is offered as HUM 432 and PHIL 432. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
HUM 434 Arendt and Heidegger (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.

Hannah Arendt, a student of Heidegger, is renowned in her own right as philosopher and political theorist. In a comparative study explore the relationship of their ideas, and question the extent to which she was disciple or critic. (This course is offered as HUM 434, JS 414, and PHIL 434. Students may not repeat the course under an alternate prefix.)

HUM 441 American Jews and Popular Culture (Units: 3)
Prerequisite: ENG 114 or equivalent.

Examination of presentation and participation of Jews in American popular culture of the 20th and 21st centuries. Focused on the representation of Jews and Judaism in film, television, and media. Representation of Jews and Judaism in literature, athletics, food, museums, and consumer culture also addressed. (This course is offered as JS 441, HIST 441 and HUM 441. Students may not repeat the course under an alternate prefix.)

HUM 450 California Culture (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Dynamics of California society and culture in recent times; world oasis, flawed paradise, lifestyle crucible, and creative milieu; function in American culture and Pacific relations. (This course is offered as HUM 450 and AMST 410. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 455 Humanities of the Americas (Units: 3)
Prerequisite: ENG 114 or equivalent.

Humanities of American cultures emphasizing Latin America and the Caribbean. Cultural/historical framework for study of ancient, colonial, and modern humanistic expressions in architecture, folk arts, poetry, painting, murals, cinema, music.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 470 American Autobiography (Units: 3)
Prerequisite: ENG 114 or equivalent.

Reading and critical analysis of selected American autobiographies from the colonial period to the late 20th century.

HUM 480 Thought and Culture in America to 1880 (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

American thought and culture from colonial times to the 1880’s. Intellectual movements and influential texts. (This course is offered as HIST 480 and HUM 480. Students may not repeat the course under an alternate prefix.)

HUM 481 Thought and Culture in America: 1880 to the Present (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

American thought and culture from the 1880s to the present. Intellectual movements and influential texts. (This course is offered as HIST 481 and HUM 481. Students may not repeat the course under an alternate prefix.)

HUM 485 The Arts and American Culture (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Figures in visual, literary, and performing arts who have reflected American culture through mastery of their arts; relationships between arts in periods of American cultural development. (This course is offered as HUM 485 and AMST 310. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

HUM 490 American Images: Photography and Literature (Units: 3)
Prerequisite: ENG 114.

Selected American photographers and the relationship of their photographs to contemporary literary texts.

Course Attributes:
- UD-C: Arts and/or Humanities

HUM 496 Islam and the Poetics of Space (Units: 3)
Prerequisite: ENG 114 or equivalent.

The built environment of Islam through critical reading of art, film, literature. How places take on meaning through use and perception, sensitive to time, place, ethnicity, gender, class, and ideology.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 501 Judaism, Christianity, and Islam (Units: 3)
Prerequisite: ENG 114 or equivalent.

Beliefs, practices, social organization, and history of the three monotheistic religious traditions; importance of these traditions for European and Middle Eastern civilizations. (This course is offered as JS 501, PHIL 501, and HUM 501. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 507 Art of China (Units: 3)
Prerequisite: ART 205 or equivalent.

Historical development of painting, sculpture, and other arts in China from earliest times to the 19th century within the larger context of Chinese culture. (This course is offered as ART 507 and HUM 507. Students may not repeat the course under an alternate prefix.)
HUM 510 Comparative Form and Culture (Units: 3)
Prerequisite: ENG 114 or equivalent.
Parallel forms of thought, feeling, and cultural expression in particular
cultural areas interacting with each other, through consideration of
architectural, musical, literary, pictorial, and critical works.

HUM 520 North and South American Cultural Expression (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Values, ideas, and creative styles of North and South American cultures
through comparisons of literary artistic and architectural creations from
each culture.
(This course is offered as HUM 520 and LTNS 520. Students may not
repeat the course under an alternate prefix.)

HUM 526 Culture of Japan before 1850 (Units: 3)
Prerequisite: ENG 114 or equivalent.
Japanese literature, art, architecture, religion, aesthetic theory, and other
forms of thought and image prior to 1850, studied in the context of the
world view of the Japanese.

Course Attributes:

- Global Perspectives

HUM 527 Japan and Modernity (Units: 3)
Prerequisite: ENG 114 or equivalent.
Japanese literature, art, architecture, religion, aesthetic theory, and other
forms of thought and image since 1850 studied in the context of the
world view of the Japanese.

Course Attributes:

- Global Perspectives

HUM 530 Chinese Civilization (Units: 3)
Prerequisite: ENG 214 or equivalent.
Formation and development of Chinese civilization; intellectual
movements examined in their historical context; ideas expressed in
literary, visual, and performance arts.

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 531 Images of Modern China (Units: 3)
Prerequisite: ENG 114 or equivalent.
An introduction to modern Chinese culture through close reading of
literature, historical documents, visual arts and film. All works read in
translation.

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 532 From Ghost Stories to Short Stories: Japanese Fiction in
Comparative Contexts (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of formal transformations in Japanese prose fiction through
comparison with other literary traditions; focus on questions of tradition,
influence, genre, and translations.
(This course is offered as CWL 432 and HUM 532. Students may not
repeat the course under an alternate prefix.)

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 535 Classical South Asian Cultural Forms (Units: 3)
Prerequisite: ENG 114 or equivalent.
Literature, philosophy, religion, art, architecture and music of Ancient and
Medieval South Asia.

HUM 536 Modern South Asian Cultural Forms (Units: 3)
Prerequisite: ENG 114 or equivalent.
Literature, philosophy, religion, art, architecture, theater, music, film and
media of Modern South Asia.

HUM 550 The Art of Autobiography (Units: 3)
Prerequisite: ENG 114 or equivalent.
Explores efforts to understand and give form to the self in religious and
secular writings, self-portraits, film, with focus on culturally distinct forms
of self-expression and on the construction of the self in narrative and
image.

HUM 582 Tales from Ancient India: Hinduism and Buddhism (Units: 3)
Prerequisite: ENG 214.
Study of ancient Indian (Hindu and Buddhist) culture, religion, and
literature. Examination of epics, plays, devotional and love poetry from
Sanskrit and other Indian languages. Examination of family, gender, and
patrarchy; kingship and power; heroism, love, war; ethics and devotion.
(This course is offered as HIST 582, HUM 582 and CLAS 582. Students
may not repeat the course under an alternate prefix.)

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

HUM 690 Senior Seminar in the Humanities (Units: 3)
Prerequisite: Senior standing.
Integration of students’ interdisciplinary education through preparation
and revision of a substantial piece of work. An aspect of human
experience explored in culturally diverse works.

HUM 699 Independent Study (Units: 1-4)
Prerequisites: Previous humanities courses providing evidence of the
student’s ability, and consent of instructor.
Independent inquiry into a specific problem formulated by the student
and approved by a member of the department who will judge the
student’s findings.
HUM 700 Introduction to Integrative Study (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Examination of the origins, traditions, and current practices of integrative humanities.

HUM 701 Fine Arts in the Humanities (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Character and province of the fine arts; ways artistic principles and experience form relationships with other disciplines and experience.

HUM 702 Literature in the Humanities (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Character and province of literature; ways literary principles and experiences form relationships with other disciplines and experience.

HUM 703 History in the Humanities (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Character and province of history; the ways historical principles and experience form relationships with other disciplines and experience.

HUM 704 Philosophy in the Humanities (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Character and province of philosophy; ways philosophical principles and experience form relationships with other disciplines and experience.

HUM 710 Seminar in European Forms and Culture (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Relations of art and thought to society in European culture. Nature of the relationship among the arts, thought, and society at selected historical moments.

HUM 711 Seminar in American Forms and Culture (Units: 3)
Prerequisite: Consent of graduate major adviser or American Studies adviser or instructor.
Relations of art and thought to society in American culture. Nature of the relationship among the arts, thought, and society at selected historical moments.

HUM 712 Seminar in African Forms and Culture (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Relations of arts and thought to society in Africa. Nature of the relationship among the arts, thought, and society at selected historical moments.

HUM 713 Seminar in Asian Forms and Culture (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Relations of art and thought to society in Asia. Nature of the relationship among the arts, thought, and society at selected historical moments.

HUM 720 Humanistic Themes (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Interdisciplinary approaches to the analysis of major themes in Humanistic works and the study of the modalities of the thematic approach to cultural analysis.

HUM 721 Culture and Style (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
Analysis and interpretation of historic cultures and the evolution of distinctive styles of expression within particular cultural settings.

HUM 723 Contemporary Humanistic Scholarship (Units: 3)
Prerequisite: Consent of graduate major adviser or instructor.
A 20th century scholar whose work has been significant in several disciplines: his/her developments; the problems of knowledge, method, and culture which he/she examined; the intellectual tensions which influenced him/her; the result of his/her work.

HUM 725 Great Theorists: Walter Benjamin (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Walter Benjamin, one of the premier thinkers of the 20th century, and a major influence on figures such as Hannah Arendt, Jacques Derrida, Michel Foucault and others. To thoroughly examine Benjamin is to make inquiries into the basis of thought for the previous century as well as our own. (This course is offered as PLSI 786, GER 786, and HUM 725. Students may not repeat the course under an alternate prefix.)

HUM 896 Directed Study of Humanistic Works (Units: 3)
Prerequisites: Advancement to candidacy for the master's degree and acceptance for culminating experience by graduate faculty member.
Concentrated tutorial study of primary major humanistic works selected for the comprehensive examination. Course credit contingent upon satisfactory completion of comprehensive examination.

HUM 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.
Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered 892, 893, 894, 895, 896, or 998, or in some cases, courses numbered 890 - see program's graduate advisor for further information). (CR/NC, RP)

HUM 898 Master's Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

HUM 899 Independent Study (Units: 1-3)
Prerequisites: Consent of graduate major adviser and supervising faculty member.
Individual study for selected master's degree candidates, pursued under special arrangements with a member of the department faculty.
Information Systems (ISYS)

ISYS 198 Information Systems Spreadsheet Make-Up (Unit: 1)
Prerequisite: Consent of instructor.
Additional study to make up the spreadsheet component of otherwise equivalent courses in order to receive full credit. (CR/NC grading only)

ISYS 263 Introduction to Information Systems (Units: 3)
Prerequisite: GE quantitative reasoning course or DS 212.
Application of information systems (IS) in a business environment. Topics include information technology (IT), networks and internetworks, types of information systems and their development, problem solving using end-user tools, and social impact of IT. Classwork, 2 units; laboratory, 1 unit.

ISYS 338 Information Technology in a Global Society (Units: 3)
Prerequisite: ENG 214 or equivalent.
Study of increasingly interconnected technology and sharing of information in the 21st century. The important role technology plays in the U.S. and the world. Exploration of the information age in several social contexts. (This course is offered as ISYS 338 and CSC 338. Students may not repeat the course under an alternate prefix.)

ISYS 339 Information Technology for International Hospitality and Tourism (Units: 3)
Prerequisite: ENG 214 or equivalent.
Information technology needs of international tourism businesses. Internet and information technology that influence multicultural hospitality and tourism worldwide businesses, customer marketing, and hospitality company goals. Emphasis on e-marketing, e-commerce, and online information distribution to commercial success. (This course is offered as HMT 339 and ISYS 339. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

ISYS 350 Building Business Applications (Units: 3)
Prerequisite: ISYS 263 with a grade of C- or better.
Development of a multi-tier e-business application using high level tools. Design and implement a business rule tier, presentation tier, and data access tier in order to rapidly deliver innovative and extensible business solutions. Mini-projects culminate into a complete solution for an e-business application.

ISYS 363 Information Systems for Management (Units: 3)
Prerequisites: ISYS 263 and ACCT 100 with grades of C- or better.
Information systems for management decision-making. Information system development from the end-user’s perspective. Applications software used to develop solutions to business problems. Classwork, 2 units; laboratory, 1 unit.

ISYS 463 Information Systems Analysis and Design (Units: 3)
Prerequisites: ISYS 350 and ISYS 363 with grades of C- or better.
Analysis and design of computer-based information systems. Classwork, 2 units; laboratory, 1 unit.

ISYS 464 Managing Enterprise Data (Units: 3)
Prerequisites: ISYS 363 and ISYS 350 with grades of C- or better.
Principles and use of database management systems in business. Database design and implementation. Database definition, manipulation and control using SQL. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ISYS 471 E-Commerce Systems (Units: 3)
Prerequisite: ISYS 363 with a grade of C- or better.
Electronic commerce systems including E-commerce models, the technologies behind E-commerce, and planning and implementing E-commerce systems. Classwork 2 units; laboratory 1 unit.

ISYS 475 Building Web Applications with Open Source Software (Units: 3)
Prerequisites: ISYS 363 and ISYS 350 with grades of C- or better.
Concepts, techniques, and tools to develop Internet-oriented business application systems with emphasis on the web. Classwork, 2 units; laboratory, 1 unit.

ISYS 512 Business Application Design and Development with .NET (Units: 3)
Prerequisites: ISYS 350 and ISYS 363 with grades of C- or better.
Theory and practice of distributed business application design and development. Architecture and components of a business application system, how to design and develop a business application, and how to develop the web-based components of a business application. (Plus-minus letter grade only)

ISYS 556 Building Mobile Business Applications (Units: 3)
Prerequisites: Upper division standing; ISYS 350 or one semester of programming with a grade of C- or better.
Design and develop applications for mobile devices including tablet computers and smartphones. Building successful business applications for mobile devices that interfaces with backend system. Lecture, 2 units; laboratory, 1 unit. [Formerly ISYS 573 - topic Building Mobile Business Applications]

ISYS 557 Managing Open Source (Units: 3)
Prerequisites: Restricted to seniors only; ISYS 363.
Detailed study of the management of open source software and related processes: open source management issues, integration of open and proprietary software, licensing, copyright and intellectual property rights. Also examines open source business models in the enterprise. [Formerly ISYS 573 - topic Managing Open Source]

ISYS 565 Managing Enterprise Networks (Units: 3)
Prerequisite: ISYS 363 with a grade of C- or better.
Hardware and software for communications and their application to the distributed data processing environment. Terminal-to-host communication, local and wide area networks, transaction processing monitors. Classwork, 2 units; laboratory, 1 unit.

ISYS 567 Information Systems Internship (Units: 3)
Prerequisites: ISYS 363; completed an application form; a minimum GPA of 3.0 in ISYS courses; consent of instructor.
Provides Information Systems majors the opportunity to participate in a field experience in their chosen concentration. Major report required.
ISYS 568 Multimedia Business Applications Development (Units: 3)
Prerequisite: ISYS 363 with a grade of C- or better.
Methodology and tools for the development of multimedia business applications. Classroom, 2 units; laboratory, 1 unit.

ISYS 569 Information Systems for Business Process Management (Units: 3)
Prerequisite: ISYS 363 with a grade of C- or better.
Design of information systems that closely aligned with business processes; business modeling languages and techniques; real world applications. (Plus-minus letter grade only)

ISYS 575 Information Security Management (Units: 3)
Prerequisite: ISYS 363 with a grade of C- or better.
Information security from a management perspective. Identification of organization’s information assets, threats to these assets, information security strategy to protect assets. Classroom, 2 units; laboratory, 1 unit.

ISYS 650 Business Intelligence (Units: 3)
Prerequisite: ISYS 363.
Analysis and design of business intelligence systems that are aligned with business processes. Identification and use of business data, (re)design of information and knowledge systems, business modeling methodology. Classroom, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

ISYS 663 Information Technology Project Management (Units: 3)
Prerequisite: ISYS 350 or ISYS 363 with a grade of C- or better.
Managing information technology projects including both technical and behavioral aspects, Managing IT project scope, cost, time, quality, risk, human resources, communications, procurement, and outsourced IT projects. Senior IT management role.

ISYS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.
Intensive problem analysis under the direction of a business computer information systems faculty member. Open only to upper division students who have demonstrated ability to do independent work.

ISYS 814 Information Systems for Strategic Advantage (Units: 3)
Prerequisites: BUS 782. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
In depth treatment of three topics: derivation of an Information Systems (IS) strategy, specification of information system requirements, and design and implementation of an information-based solution. (Plus-minus letter grade only)

ISYS 850 Seminar in Business Intelligence (Units: 3)
Prerequisites: BUS 782. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Tools and techniques for extracting business intelligence from data to support strategic decision making. Applications of business intelligence and analytics methodologies in different functional areas. Managerial implications. (Plus-minus letter grade only)

ISYS 856 Enterprise Mobile Applications (Units: 3)
Prerequisites: BUS 782. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Focus on enterprise mobile technologies in the workplace that enable new business models to connect customers and enterprises; Design Thinking methodology to facilitate the creative design of enterprise mobile strategy and solutions; employment of Enterprise Resource Planning (ERP) mobile development platform to help prototype and develop innovative mobile solutions. (Plus-minus letter grade only)

ISYS 869 Business Process Management (Units: 3)
Prerequisites: BUS 782. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Design of business processes and their implementation through change management. Modeling and analysis of business processes. (Re)design and implementation of systems that enable them. Business modeling languages and techniques. (Plus-minus letter grade only)

ISYS 871 Electronic Commerce (Units: 3)
Prerequisites: BUS 782. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

ISYS 882 Managing the Digital Enterprise (Units: 3)
Prerequisites: ISYS 814 or equivalent. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Principles and practice of managing information technology and digital enabled processes of an enterprise. Strategic, tactical, and operational planning for integration of IT throughout an enterprise.

ISYS 895 Research Project in Information Systems (Units: 3)
Prerequisites: ISYS 814 and 3 800-level required courses in student’s emphasis. Open only to computer information systems and electronic commerce MSBA candidates; consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Research methodology and supervised research culminating in oral and written presentations. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by Graduate Studies before registration. (Plus-minus letter grade; no CR/NC allowed; RP)

ISYS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.
Intensive study of a particular problem under the direction of an Information Systems faculty member. Open only to graduate students of demonstrated ability to do independent work. (Plus-minus letter grade only)
Instructional Technologies (ITEC)

ITEC 299 How to Learn with Your iPod (Units: 3)
How to identify your learning preferences and styles, create learning strategies to improve and augment learning, and use a variety of learning aids and devices to support learning. E-learning aids to include Podcasts, web searches, electronic note-taking, cell phones, blog and wikis, intelligent tutors, etc.
Course Attributes:
- E1: Lifelong Learning Develop

ITEC 315 Learning 21st Century Skills with Emerging Instructional Technologies (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Acquiring essentials of learning 21st century skills such as problem solving, critical thinking, creativity, and collaboration using cutting edge digital technologies within the framework of contemporary learning theory/instructional design principles. Interaction with and examination of an array of software applications to develop 21st century skills.
Course Attributes:
- Social Justice

ITEC 333 Digital Pioneers: Creating Innovative Digital Entrepreneurs (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Learning and practice in advanced digital literacy; production and critical evaluation of digital products; create and evaluate personal product. Students advance from naive digital creators to apprentice-level experts, manage and produce effective and innovative digital products, and learn critical evaluation techniques to validate product, sources, and online presence. (Plus-minus letter grade only)
Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

ITEC 487 Children and Television (Units: 3)
Prerequisite: Upper division standing.
How children use and are affected by mass media, particularly television. Theory and research describing children and television. Role of television in children's development. (This course is offered as BECA 487 and ITEC 487. Students may not repeat the course under an alternate prefix.)

ITEC 601 Computer Fundamentals for Teachers (Unit: 1)
Prerequisite: Senior standing.
Basic computer skills as they apply to teaching. Development of competencies in operation and care of computer-related hardware, basic trouble-shooting techniques, appropriate uses of computer-based technology in teaching and learning, and evaluation of educational software. Students will demonstrate basic skills in writing, presentation, e-mail, and database software as applied to instruction.

ITEC 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor. Open to regularly enrolled students only.
An intensive study of a particular problem under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair.

ITEC 700 Strategic Approaches for Instructional Technologies (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Utilize current recognized strategic approaches and procedures to design and develop your professional collateral or brand, your instructional technologies area(s) of expertise, and your workplace, introduction to your new or updated career. Self-directed projects guide you to your results.

ITEC 711 Instructional Computing in Elementary and Middle Schools (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Practice with computers in laboratory classroom; instructional applications of software. Integration of computing in teaching and in determining appropriate uses of technology. Equivalent to ITEC 712. Cannot be applied to degree in instructional technologies. Meets multiple subject credential state requirements.

ITEC 712 Instructional Computing in Secondary Schools (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Practice with computers in laboratory classroom; software applications in the secondary school classroom. Integrating computing in teaching and determining appropriate use of technology. Equivalent to ITEC 711. Cannot be applied to degree in instructional technologies. Meets single subject credential state requirements.

ITEC 715 Foundations of Instructional Multimedia (Units: 3)
Prerequisite: ITEC 740 or equivalent.
Plan, design, and develop computer-based multimedia using current theories and practices. Includes graphic screen design, navigation, user interface design, and audio and video files. Components are combined using authoring software into a working interactive project.

ITEC 720 Fieldwork in Educational Technology (Units: 3-5)
Prerequisites: At least 12 units in Instructional Technology including ITEC 801, and consent of instructor.
Students work in educational and business settings to select, design, create, and/or evaluate instructional materials and procedures.

ITEC 740 Computer Design of Instructional Graphics I (Units: 3)
Prerequisite: Demonstration of computer literacy.
Theories of visual communication and graphic design as the foundation for development of instructional computer graphics using industry standard graphic software applications. Image manipulation and typography skills support projects for computer presentations multimedia, Web and print.

ITEC 745 Instructional Web Authoring I (Units: 3)
Prerequisite: ITEC 715 or ITEC 740.
ITEC 770 Instructional Videography I (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Introduction to the design and production of instructional videos. Develop and produce video projects. Acquire technical competence in visualizing, scripting, aesthetics, shooting, editing, and field testing. May be repeated once for credit with instructor's permission.

ITEC 800 Theoretical Foundations of Instructional Technologies (Units: 3)
Prerequisite: Graduate standing or consent of instructor. Cannot be taken concurrently with ITEC 700.

Conceptual orientations to the theoretical structures that form the foundation of instructional systems message design: learning theories, instructional psychology, and instructional systems theory.

ITEC 801 Instructional Systems Design (Units: 3)
Prerequisite: ITEC 800.

Acquisition of competency in the design and development of instruction under the principles of cognitivism and instructional systems and its most crucial design aspects: needs and task analysis, learning strategies sequencing and formative evaluation. Should be taken after completion of ITEC 800.

ITEC 805 Contemporary Developments in Instructional Technologies (Units: 3)
Prerequisites: ITEC 800 and ITEC 801.

Topic to be specified in Class Schedule. New theoretical and technological developments as they affect the field. May be repeated when topics vary.

ITEC 815 Integration of Instructional Computing (Units: 3)
Prerequisite: ITEC 715 or equivalent.

Integration of computing into instruction and utilization of a variety of hardware, systems, and peripherals in classrooms. Development of integration projects, including desktop publishing and video, the web, and multimedia.

ITEC 816 Computer Resource Specialist (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Design, develop, and present professional development workshops and technology training. Use best practices and current resources to establish teams for technology planning and develop effective leadership skills, change management plan and grant proposals for your school or non-profit organization.

ITEC 818 Digital Game Play Design for Learning (Units: 3)
Prerequisite: Graduate standing.

Examination of game design theories, learning theories, and instructional design models. Survey of game design fundamentals and game play elements. Developing a game prototype by application theories and models. Introduction to and hands on practice with a game design engine.

ITEC 819 Mobile Application Design and Development (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Understanding the process of analytical reasoning and problem solving ability in designing a mobile application. Developing an understanding of computational thinking. Designing android mobile application for addressing the needs for assistive technology, integrating GIS capabilities, and students' assessment.

ITEC 823 Instructional Multimedia Tools: Flash I (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Multimedia skills through experience with hardware and software tools for the production of instructional multimedia. Development of competence at storyboarding, authoring, graphics, digital sound, animation, movie editing in the context of applying interactive principles which promote learning.

ITEC 825 Formative Evaluation and Usability Testing (Units: 3)
Prerequisites: ITEC 800 and ITEC 801.

Formative evaluation as an integral part of the professional practice of implementing instructional design projects. Identification and correction of problems in the usability of instructional media.

ITEC 830 Design of Learning Environments with Emerging Technologies (Units: 3)
Prerequisites: ITEC 800, ITEC 801 or consent of instructor.

Provide instructional designers with knowledge in learning theories and skills in designing personal learning environment (PLE) with emerging technologies. Exploration of new learning paradigms for 21st Century learners, educational value of emerging technologies, and interface design.

ITEC 833 Instructional Products Design Studio (Units: 3)
Prerequisites: ITEC 800 and ITEC 801.

New digital technologies and equipment in a studio environment; focus on conceptualization, design, and development of an instructional prototype; creating an appealing and effective product for today's classroom or corporate training room.

ITEC 835 Instructional Multimedia Tools: FLASH II (Units: 3)
Prerequisite: ITEC 823.

Advanced design and development techniques for Flash. Project-based learning and use of advanced authoring techniques in Flash.

ITEC 840 Computer Design of Instructional Graphics II (Units: 3)
Prerequisite: Demonstration of computer literacy.

Instruction in the creation of computer-generated graphics, typography, and principles of graphic design for instructions. Focus on how to influence learner perceptions while creating a variety of instructional graphics using industry-standard Adobe software.

ITEC 842 Cognition, Mind, and Learning for Educators (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Recent developments in cognition, learning, and instruction for educators; perspectives of behaviorism, developmentalism, socio-historical constructivism, cognitive science, metacognition, situated cognition, learning transfer, transformational learning, multiple intelligences, and cultural influences on cognition.

ITEC 845 Instructional Internet Authoring II (Units: 3)
Prerequisite: ITEC 745.

Design and development of Internet sites with platform neutral programs. Creation, maintenance, and updating of Web and Internet sites: server configuration and maintenance, shocked movies, and streaming video and audio.
ITEC 850 Design and Management of Training Projects (Units: 3)
Prerequisites: ITEC 800 and ITEC 801.
Project design and management in the context of instructional systems
design, as applied to developing and implementing major training
projects in corporate settings: program development, supervision, group
processes, staff and client relations.

ITEC 852 Instructional Technologies in Organizations (Units: 3)
Prerequisites: ITEC 800 and ITEC 801.
Performance technology as a means of improving employee performance
(TQM, reengineering, and the “learning organization”) and the use of
training technologies in the context of organizational development:
presentations by managers of training departments.

ITEC 854 Design of Print Instructional Materials (Units: 3)
Prerequisite: ITEC 801.
Design and production of instructional print materials for training and
educational purposes, using a variety of applications: word processing,
page layout, and slide presentation.

ITEC 860 Distance Education (Units: 3)
Prerequisite: ITEC 801.
Understanding of distance education development and delivery.
Exploration of the complexities of designing instruction in various
distance contexts (corporate training, education, etc.) and application of
these concepts in a real context through online facilitation and a major
design project.

ITEC 865 E-Learning Design and Development (Units: 3)
Prerequisite: ITEC 801.
Understanding instructional design and development processes in the
production of e-learning for education, business, and community settings.
Application of current e-learning design concepts in a major design and
development project using creating simulation, game-based, or goal-
based-scenario instructional approaches using emerging technologies.

ITEC 894 Creative Work (Units: 3)
Prerequisites: Consent of instructor and graduate major adviser; approval
of Advancement to Candidacy (ATC) and Culminating Experience (CE)
forms by Graduate Studies. ATC and Proposal for Culminating Experience
Requirement forms must be approved by Graduate Studies before
enrollment.

Students design, develop, and produce an instructional product or work.
A CD-ROM which contains the instructional product and the design
documents must be provided. (CR/NC grading only)

ITEC 895 Field Study (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to
Candidacy (ATC) and Culminating Experience (CE) forms by Graduate
Studies. Students design, produce, and field test an instructional unit,
using the instructional systems approach. The design process must be
documented in a narrative case study. ATC and Proposal for Culminating
Experience Requirement forms must be approved by Graduate Studies
before registration. Enrollment arranged through College of Education
Graduate Office. (CR/NC grading only)

ITEC 899 Independent Study In Instructional Technologies (Units: 1-3)
Prerequisites: ITEC 800 and ITEC 801. Enrollment by petition approved by
the instructor, adviser, and department chair.

Development of an instructional unit or field internship under direction of
a member of the department.
Interdisciplinary Studies Education (ISED)

ISED 100 General Studies Colloquium (Units: 3)
Awareness and knowledge of the university community—its resources, services, structure. Personal and career counseling.

ISED 150 Orientation to Education (Units: 3)
Teaching as a career; professional opportunities, qualifications and demands. Classroom visitation and field trips through educational institutions. Designed to help students assess their interest in teaching as a vocation. Does not meet professional education requirements. (ABC/NC grading; CR/NC allowed)

ISED 160 Data Analysis in Education (Units: 3)
Prerequisite: Satisfactory completion of ELM requirement.
Graphical representation of statistical data, descriptive and inferential statistics including measures of central tendency and variability; standard scores, correlation and regression, probabilistic reasoning, random sampling, and selected parametric and non-parametric tests of statistical significance.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:

   • B4: Math/QR

ISED 201 The EOP Student and the University (Units: 3)
Assist students in clarifying academic goals and objectives; provide students with skills and understandings to facilitate academic choices; improve progress towards student goals with most effective use of student time and resources. [CSL may be available]

ISED 204 Critical Thinking and the Cultural and Social Factors in Education (Units: 3)
Basic skills involved in reasoning to analyze, criticize, advocate ideas and to construct arguments by using materials reflective of current issues and debates related to education (cultural and social factors), enhance the ability to distinguish matters of fact from issues of judgement or opinion. (ABC/NC grading; CR/NC allowed)

ISED 585 Cross-cultural Education (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
The "multicultural classroom" and of a culturally pluralistic model as an alternative to the present traditional multicultural model.

ISED 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
An intensive study of a particular problem in education under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open to regularly enrolled students only. [CSL may be available]

ISED 706 Principles and Methods of Adult and Vocational Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Changing character and functions of adult and vocational education; objectives, methods, resources, and evaluation; social influences on adult life and work; implications of research on adult learning and work; field observations and curriculum development. Required for the Designated Subjects Credential.

ISED 707 Planning and Funding Education and Community Programs (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Implementation and implications of planning models used in establishing educational programs in public and private agencies, community organizations, and business and industry; assessment of needs; identification of target populations and funding sources; development of written plan for funding.

ISED 715 Equal Opportunity in Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
History of "diversity" policies in education focusing on period between court-ordered desegregation of the 1950s to elimination of affirmative action at major public universities in California and Texas in the 1990s. (Plus-minus letter grade only)

ISED 716 Literacy and Cross-cultural Issues in Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Literacy issues that impact education and their effects on student learning and teaching practices. Using language as a metaphor to introduce students to historical, sociological, and political effects on literacy and education in the U.S.

ISED 717 Social Foundation for Multicultural Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Sociological and philosophical foundations of education; social structure of issues related to race, class, and gender; relating these issues to effects on education and historical view of multicultural education in the U.S.

ISED 735 Seminar on the Adult Learner (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Adult learning processes; multicultural learning styles in adults; motivation and the adult life cycle; ethical implications of research on adult learning; special needs of adult students.

ISED 736 Leadership and Policy for Community and Non-Formal Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Philosophy and theory of critical thinking and participatory leadership for groups of learners both in formal and non-formal, community-based educational organizations.

ISED 738 Critical and Postmodern Pedagogies (Units: 3)
Prerequisite: Background in social foundations of education.
Debates in education with respect to critical, participatory, and postmodern pedagogies; development and application of these philosophies to groups of learners; adult process and facilitation skills.

ISED 739 Education and Community Development: Equity and Diversity (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Effect of race, class, and gender on educational equity and diversity in formal and non-formal educational settings; investigates linkages between educational programming and community development and empowerment. [CSL may be available]
ISED 740 Education & Globalization: Issues in Comparative and International Education (Units: 3)
Prerequisite: ISED 747 or equivalent.
Comparative and international education. Regional/local differences in educational approaches; effect of globalization on transnational issues; education at all levels, human rights and peace education; policies and planning in international context.

ISED 745 Practicum in a Multicultural Educational Setting (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Clinical experience in a multicultural urban educational setting; development of instructional materials using pedagogically-sound principles; demonstration of effective teaching strategies and content.

ISED 747 Culture, Language, and Society in Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Research on interactions of culture, education, and society; the notion of culture; identifying interactions of culture and language in K-12 and adult education programs.

ISED 748 Culture, Cognition, and Power Issues in Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Implications of culture for cognitive processes and power issues in education. Cross-cultural cognition, race, class, and gender in all educational settings.

ISED 749 Second Language Acquisition in the Elementary School (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
First and second language acquisition theories and their relationship to second language learning; psychological, social, and linguistic aspects of second language acquisition of children; socio-political factors related to language issues.

ISED 781 Educational Praxis: Curriculum Development and Pedagogies (Units: 3)
Prerequisite: Graduate standing.
Overview of instructional processes in K-16 classrooms in various settings; curriculum development, cognitive style, learner diversity, and pedagogy.

ISED 782 Practicum in Adult Learning (Units: 3)
Prerequisites: Graduate standing or consent of instructor; must be taken concurrently with ISED 781.
Clinical experiences in adult education, work-force education, older adult, special needs, or other adult learning contexts; demonstration of use of teaching strategies and content.

ISED 783 Introduction to Technologies for Adult Learning (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Use technologies: microcomputers, on-line services, distance learning, and audio-visual equipment; impact of technologies on adult learning. Fulfills computer competency requirement for Designated Subjects Credential.

ISED 797 Seminar in Educational Research (Units: 3)
Prerequisite: Consent of graduate advisor.
Identification and analysis of research problems; methodology; techniques including sufficient familiarity with descriptive statistics to interpret writing; application of findings to field problems.
Course Attributes:
- Teacher Credential Program Crs

ISED 802 Seminar in Human Development, Curriculum, Learning, and Instruction (Units: 3)
Prerequisites: Admission to graduate program in Education; completion or concurrent enrollment in ISED 747.
Overview of human developmental needs, abilities, and experiences, Kadult, with respect to curriculum, learning and instruction. Focus on effects of growth and early experience through adulthood upon the development of human intellectual, emotional, and social development.

ISED 891 Seminar in Selected Studies (Units: 3)
Prerequisite: Consent of instructor.
Topic to be specified in Class Schedule. May be repeated as topics vary.

ISED 895 Field Study (Units: 3)
Prerequisites: ISED 797, completion of 24 units of MA coursework; consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC; RP)

ISED 898 Master's Thesis (Units: 3)
Prerequisites: ISED 797; completion of 24 units of MA coursework; consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.
Oral examination at conclusion of course for M.A. (CR/NC grading only)

ISED 899 Independent Study (Units: 1-3)
Prerequisite: Enrollment by petition approved by the instructor, adviser, and department chair. Open only to regularly enrolled students.
An intensive study of a particular problem under direction of a member of the department.
Interior Design (ID)

ID 240 Color and Design (Units: 3)
Color and design theories: visual elements and principles of design, their properties and relationships; developing sensitivity to, and judgment of, design.
Course Attributes:
- C1: Arts

ID 242 Interior Design Graphic Communication I (Units: 3)
Prerequisite: ID 240 (may be taken concurrently).
Vocabulary, tools, and graphic techniques for interior designers communication utilizing both manual and computer-aided methods. Classwork, 2 units; laboratory, 1 unit.

ID 244 Heritage of Housing and Interior Design (Units: 3)
Prerequisite: Must be an Interior Design or FCS major to enroll in this course.
Residential architecture and furnishings from ancient Egypt to 19th century England.

ID 245 Contemporary Design in Housing and Interiors (Units: 3)
Contemporary housing, interiors, and furnishings; designers and design philosophies that have influenced concepts in the 20th and 21st centuries.
Course Attributes:
- C1: Arts

ID 300 Designers of the 20th/21st Centuries (Units: 3)
Prerequisite: Upper division standing.
The impact that outstanding contemporary apparel and interior designers have on each other and the markets of both industries. Examination of common styles, media use, and characteristics of each designer as well as their typical market. (This course is offered as ADM 300 and ID 300. Students may not repeat the course under an alternate prefix.)

ID 340GW Human Dimensions in Housing and Interiors - GWAR (Units: 3)
Prerequisites: Upper division standing and ENG 214 or equivalent with a grade of C- or better; must be a Family and Consumer Sciences or Interior Design major to enroll in this course.
Relationships between people and various characteristics of their habitats. Social, cultural, psychological, and ecological factors which determine how individuals behave in different housing environments. Implications for design solutions. (ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment

ID 343 Housing for People with Special Needs (Units: 3)
Prerequisite: ID 242 or consent of instructor; must be an Interior Design major to enroll in this course.
Housing needs generated by special conditions and circumstances: the elderly, handicapped, or other occupant types. Implications for the functional and aesthetic design of neighborhoods, interior spaces, and furnishings. Classwork, 2 units; laboratory, 1 unit.

ID 345 Interior Design Graphic Communication II (Units: 3)
Prerequisites: ID 242; must be an Interior Design major to enroll in this course.
Perspective, rendering and three dimensional modeling for interior design communication utilizing both manual and computer aided methods. Extra fee required.

ID 366 Forecasting Apparel and Interior Design Trends (Units: 3)
Prerequisite: College level drawing class or consent of instructor.
Forces in society that influence apparel and interior design trends; data used to develop trend reports, color reports, retail reports, culminating in a professional forecasting presentation of colors, silhouettes, fabrications, and lifestyles. (This course is offered as ADM 366 and ID 366. Students may not repeat the course under an alternate prefix.)

ID 440 The Housing Structure and Its Component Parts (Units: 3)
Prerequisites: ID 242; must be an Interior Design major to enroll in this course.
Construction processes, component parts, and systems of environmental control used in housing environments. Translation of three-dimensional space, structural components, and systems in two-dimensional media. Classwork, 2 units, laboratory, 1 unit.

ID 445 Business Practices for Interior Design (Units: 3)
Prerequisite: ID 345; must be an Interior Design major to enroll in this course.
Business practices for interior design: contracts, bookkeeping, and client relations.

ID 540 The Materials of Interior Design (Units: 3)
Prerequisites: ID 445; must be an Interior Design major to enroll in this course.
Materials and techniques used in designing interiors. Design and quality of materials and construction used in design products. Interrelationships among components of interiors.

ID 640 Interior Design Solutions - Residential (Units: 3)
Prerequisite: ID 540 or concurrent; must be an Interior Design major to enroll in this course.
Functional and aesthetic design of environments based on human needs and standards. Application of principles of design and color to residential spaces. Classwork, 2 units; laboratory, 1 unit.

ID 641 Interior Design Solutions - Commercial (Units: 3)
Prerequisite: ID 540; must be an Interior Design graduating senior to enroll in this course.
Functional and aesthetic design of environments based on human needs and standards. Application of principles of design and color to commercial spaces. Classwork, 2 units; laboratory, 1 unit.

ID 645 Advanced Interior Design Solutions (Units: 3)
Prerequisite: ID 640; must be an Interior Design graduating senior to enroll in this course.
Designing interiors for specific clients. Methods and techniques for interpreting design solutions to clients and others. Techniques of costing design solutions.
International Business (IBUS)

IBUS 130 Globalization and Business in the 21st Century (Units: 3)
Introduction to concepts related to globalization; the impact of globalization on ethical, ecological, political, legal, social, economic and technological aspects of the 21st century; examination of perspectives and tools for psychological, social and professional readiness in the global world.
Course Attributes:
• D1: Social Sciences
• Global Perspectives

IBUS 330 International Business and Multicultural Relations (Units: 3)
Prerequisite: Upper division standing.
International business: social, political, cultural and economic environments and their effects on functional management. Trade, global strategy, foreign direct investment, economic integration, foreign exchange, and the multinational enterprise.
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

IBUS 331 Cross-cultural Creativity in Business (Units: 3)
Prerequisite: ENG 214 or equivalent.
Cross-cultural creativity arising from multiple information processing perspectives in business environments and international competition. May not be counted as an elective course in the International Business concentration.

IBUS 430 Import-Export Management and Small Business Operations (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better, or consent of instructor.
Practical aspects of export and import management in small and medium-size businesses; export and import procedures, foreign sales, documentations, legal considerations, logistics and financial practices.

IBUS 440 Advanced Import-Export Management (Units: 3)
Prerequisites: Upper division standing; majors/minors; IBUS 430.
Import-export process from product/service development to marketing overseas. (Plus-minus letter grade only)

IBUS 517 Legal Environment of World Business (Units: 3)
Prerequisite: IBUS 330.
Status of persons and property within a foreign country. International transactions with or by governments or instrumentalities. Legal systems: overlapping or conflicting interests, problems of nationalization, annulment of contracts, or concessions in foreign countries.

IBUS 531 Cross-Cultural Innovation and Creativity in Business and Management (Units: 3)
Prerequisites: Upper division standing; IBUS 330 with a grade of C- or better; or consent of instructor.
Examination of the innovative, creative products, services and managements process in a cross-cultural environment. Exploration of macro and micro environment factors that influence innovation and creativity within. (Plus-minus letter grade only)

IBUS 566 Careers in International Business (Units: 3)
Prerequisites: IBUS 330 with a grade of C-minus or better, and two additional International Business courses; or consent of instructor.
Designed for students interested in working with and in the international business environment. Career decision making and career management skills. (Plus-minus letter grade only)

IBUS 567 Internship in International Business (Units: 1-3)
Prerequisites: IBUS 330 and a minimum 3.0 SF State GPA.
Analysis of experience with an international business or government. Weekly individual conferences with instructor. May be repeated for a total of 6 units.

IBUS 576 Global Entrepreneurship (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.
Introduction to the context that enables entrepreneurs to be successful in developed, emerging and developing economies. Focus on local context and contents of these economies, along with mainstream conceptions with emergent settings. (Plus-minus letter grade only)
Course Attributes:
• E1: Lifelong Learning Develop

IBUS 590 International Environmental Analysis (Units: 3)
Prerequisites: ENG 214, IBUS 330 with a grade of C- or better; or consent of instructor.
Factors affecting the conduct of contemporary business transactions in a number of specific global environments. (Plus-minus letter grade only)

IBUS 591 Doing Business in Latin America (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.
Business in Latin America. Demographics, psychographics, cultural and social values, business and managerial methods and systems. (Plus-minus letter grade only)

IBUS 592 Doing Business in Greater China (Units: 3)
Prerequisites: ENG 214 or equivalent, IBUS 330 with a grade of C- or better, or consent of instructor.
Business in Greater China: demographics, cultural and social values (philosophies, language, etc.), business and managerial methods and systems.

IBUS 593 Doing Business in Europe (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.
Business, economic, political, and social conditions affecting commercial conduct in Europe. Opportunities and challenges for investment and trade.

IBUS 594 Doing Business in Asia-Pacific Countries (Units: 3)
Prerequisites: IBUS 330 with a grade of C- or better or consent of instructor.
In-depth study of current issues in Asia-Pacific economic, cultural, political, social, and institutional environments and their impacts on national competitiveness within the region.
IBUS 596 Doing Business in Japan (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.

Issues in Japanese culture, management, organization, and employment relations. Organizational behavior and international business strategies of Japanese firms. Development of a strong base of knowledge for research, consulting, or business. (Plus-minus letter grade only)

IBUS 598 Doing Business in Emerging Markets (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.

Insight into or guidelines for ways of interacting and doing business with the wide range of cultures, institutions, businesses, and regions that are associated with emerging markets. (Plus-minus letter grade only)

IBUS 618 International Human Resource Management (Units: 3)
Prerequisites: IBUS 330 with a grade of C- or better, MGMT 405 and MGMT 610; or consent of instructor.

International aspects of human resources. Legal requirements, cultural issues, and the management practices and systems critical for success. Students may not take the course a second time under an alternate prefix. (Plus-minus letter grade only)
(This course is offered as MGMT 618 and IBUS 618. Students may not repeat the course under an alternate prefix.)

IBUS 620 Research in International Business and the Global Market (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.

Strengthening skills in analyzing international markets and conducting a business plan. International business entry strategy, international environment analysis, international business risks, and more. (Plus-minus letter grade only)

IBUS 628 Global Human Resource Management (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.

Examination of the nature of developing and managing human resources at the global level; exploration of the challenges in the global environment and strategies used to effectively develop and manage a global workforce in culturally and geographically diverse environments. (Plus-minus letter grade only)

IBUS 638 Global Leadership and Cultural Competencies (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better or consent of instructor.

Examination of different aspects in developing global leadership skills and cultural competencies in the volatile, competitive environments from an individual, collective and organizational collaborator’s perspective. Focus on the mindset, concepts and tools, cultural and contextual intelligence, and self awareness.

IBUS 659 Introduction to International Business Negotiation (Units: 3)
Prerequisites: IBUS 330 and MGMT 405 with a grade of C- or better or consent of instructor.

Intercultural negotiating skills become more essential as business becomes more global and participative. Exercises involving various protagonists, organizational contexts, and situations. (Plus-minus letter grade only)
(This course is offered as IBUS 659 and MGMT 659. Students may not repeat the course under an alternate prefix.)

IBUS 676 Social Entrepreneurship in a Global Context (Units: 3)
Prerequisite: IBUS 330 with a grade of C- or better.

Examination of social entrepreneurship in a global context. Focus on new business models, micro-financing, and community-based entrepreneurship. (Plus-minus letter grade only)

Course Attributes:

- Social Justice

IBUS 681 Seminar in Comparative Management (Units: 3)
Prerequisites: ENG 214, IBUS 330 with a grade of C- or better, or consent of instructor.

Analysis of managerial performance in different cultures. Examines the international dimensions of organizational behavior in different countries and the varying socioeconomic, political, and legal variables that interact with culture to affect local and international management.

IBUS 690 Global Strategic Management (Units: 3)
Prerequisites: ENG 214, IBUS 330 with a grade of C- or better, MGMT 405 and FIN 350 or consent of instructor; FIN 536 recommended.

A case study approach to business strategy, tactics, and decision-making in multinational enterprise. Interactive effects of governmental and business policies.

IBUS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.

Intensive problem analysis under the direction of an international business faculty member. Open only to upper division students who have demonstrated ability to do independent work. May be repeated for a total of 6 units. [CSL may be available]

IBUS 815 Seminar in International Business (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Themes of culture and environments; the multinational enterprise and forms of international structure and strategy; rationalization of value chains, locational decisions and FDI; foreign exchange; global and regional economic integration. (Plus-minus letter grade only)

IBUS 829 Global Human Resources Management (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

The theory and applied aspects of human resources management in a global context. Topics cover critical areas and the emerging issues and leverages them for business practices. Focus on strategic HRM for sustained operational excellence. (Plus minus letter grade only)
IBUS 838 Global Leadership in the Modern World (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Examination of the impacts of globalization on society; the value of intellectual capital; and management in cross-cultural, interdisciplinary, and pluralistic environments. (Plus-minus letter grade only)

IBUS 841 Creativity for Managers: A Global Perspective (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Recognize, analyze, and support the value-adding determinants of creative behavior in global context; techniques for enacting and fostering productive creativity. (Plus-minus letter grade only)

IBUS 857 Seminar on Business in Greater China (Units: 3)
Prerequisites: BUS 788. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Analysis of opportunities, challenges, and approaches required for effective trade, investment, and business operations in The People's Republic of China, Taiwan, and Hong Kong. Cultural, institutional, legal, and economic environment. Business and government systems. (Plus-minus letter grade only)

IBUS 859 International Business Negotiating (Units: 3)
Prerequisites: 6 units in SF State graduate program. Restricted to graduate business students and students in the Ethics & Compliance Certificate program. Graduate students in other majors may enroll on a space-available basis with the consent of the Faculty Director of Graduate Programs.

Development of intercultural negotiating skills through cases involving protagonists, organizational contexts, and situations. (Plus-minus letter grade only)
(This course is offered as BUS 859 and IBUS 859. Students may not repeat the course under an alternate prefix.)

IBUS 867 Graduate Internship in International Business (Units: 1-3)
Prerequisite: Minimum 3.3 GPA. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Analysis of experience with an international business or government. Weekly individual conferences with instructor. (Plus-minus letter grade only)

IBUS 868 Strategies in Emerging and Developing Economies (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Examination of the strategies and basic institutions underlying emerging markets in developing economies. Focus on strategies, business models, micro-financing, and community-based initiatives. (Plus-minus letter grade only)

IBUS 876 Entrepreneurship in a Global Context (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Theory and practice of entrepreneurship in a global context; awareness of business opportunities in different institutional environments; strategic skills and a global and ethical mindset that meet the requirements of entrepreneurial ventures in a global economy. (Plus-minus letter grade only)

IBUS 881 Seminar in Comparative Management (Units: 3)
Prerequisites: IBUS 815 or consent of instructor. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Analysis of managerial performance in different cultures. Examines the international dimensions of organizational behavior in different countries and the varying socioeconomic, political, and legal variables that interact with culture to affect local and international management. (Plus-minus letter grade only)

IBUS 889 International Business Strategy (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

International strategy and structure; analysis of the multinational enterprise, tools and techniques of global industry analysis. (Plus-minus letter grade only)

IBUS 895 Research Project in International Business (Units: 3)
Prerequisites: Two International Business 800-level courses; two additional 800-level courses; consent of the Business Graduate Studies office and instructor; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Open to International Business M.S.B.A. candidates only. (CR/NC grading only)

IBUS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.

Intensive study of a particular problem under the direction of an international business faculty member. Open only to graduate students of demonstrated ability to do independent work. (Plus-minus letter grade only) [CSL may be available]
International Relations (IR)

IR 104 Introduction to World Affairs (Units: 3)
Description and analysis of forces and events on-going in the world. Contemporary problems; development, nationalism, revolution, war and peace, and imperialism as they relate to overall patterns in international affairs.
Course Attributes:
• D1: Social Sciences
• Environmental Sustainability
• Global Perspectives
• Social Justice

IR 204 Introduction to International Relations (Units: 3)
Prerequisite: Restricted to IR majors.
Introduction to the contemporary international system: the historical context of its formation, the major actors of the current state system and how they mutually interact and face major issues. (Plus-minus letter grade only)

IR 305 Hi-Tech and Foreign Policy (Units: 4)
Prerequisite: I R 104.
Impact of new telecommunications technologies on the transmission of images, international politics and foreign policy.

IR 306 U.S.-Central American Relations (Units: 4)
Prerequisites: Upper division standing and ENG 214.
Examination of the background and current crisis in Central America with a special focus on the political, social, and economic relations of the countries of Central America to the United States.
Course Attributes:
• Global Perspectives

IR 308 Fundamentals of International Relations Theories, Issues, and Perspectives (Units: 4)
Prerequisites: Upper division standing; I R 104 and ENG 214.
Field of international relations: international political, economic, and cultural systems and regimes in world affairs. Theories, processes, problems, and prospects in the international arena. (ABC/NC grading only; CR grade not allowed)

IR 309GW International Relations Analysis and Application - GWAR (Units: 4)
Prerequisites: Upper division standing; IR majors; ENG 214 or equivalent with a grade of C or better and I R 308.
Analysis of international relations issues from a theoretically sophisticated perspective. Important contemporary, emerging, and enduring issues are debated. Designed for majors and minors. Extra fee required. (ABC/NC grading only)
Course Attributes:
• Graduation Writing Assessment

IR 310 U.S. Foreign Policy (Units: 4)
Prerequisites: Upper division standing and ENG 214.
The foreign policy process in American government. Analysis of the institutions in American society which determine our foreign policy.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives

IR 312 Introduction to International Political Economy (Units: 4)
Prerequisites: Upper division standing; I R 104, I R 308, and ENG 214 or equivalent.
Familiarizes various theories of international political economy (IPE) and examines how they explain past and present international relations. In the process, students become familiar with the actors, institutions, and issues important to IPE.

IR 314 Post Modernism in International Relations (Units: 4)
Prerequisites: Upper division standing; I R 104, I R 308, or consent of instructor.
Investigation of the role of post-modernism in understanding national and global politics, and relations between nations; examination of the discipline’s core beliefs about rational actors who make cost-benefit decisions; and introduction to the role of social constructs such as culture, identity, and narratives, and how they influence policy decisions.

IR 315 Introduction to Global Peace Studies (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
The field of peace studies and the integrative questions which must be answered to achieve a coherent perspective on world peace. National and international issues, the environment, philosophy, literature, arts, media, and education.
(This course is offered as GPS 315, I R 315, and PHIL 315. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Environmental Sustainability
• Global Perspectives
• Social Justice

IR 321 Development and Foreign Policy--Africa (Units: 4)
Prerequisites: Upper division standing; ENG 214.
A comparison of the foreign policies of various African nation-states; in particular, a consideration of those policies as expressions of national frameworks, ideological perspectives, etc.
(This course is offered as I R 321 and PLSI 321. Students may not repeat the course under an alternate prefix.)
I R 322 Latin American Policy Analysis (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of the international relations and foreign policy-making systems of Latin American nations and an analysis of selected foreign policy problems facing Latin American decision-makers with oral and written reports. (This course is offered as I R 322 and PLSI 322. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

I R 323 The Persian Gulf in International Relations (Units: 4)
Prerequisites: Upper division standing and ENG 214.
Recent history of the Persian Gulf/Arabian Peninsula region: Bahrain, Iran, Iraq, Kuwait, Qatar, the United Arab Emirates, and Saudi Arabia; security issues, economic development, modernization and political reforms, Islamic revolution, trade and globalization. (Plus-minus letter grade only.)

I R 324 Middle East and North Africa in International Relations (Units: 4)
Prerequisites: Upper division standing and ENG 214.
Exploration of contemporary political and socioeconomic development in the Middle East region. Historical review of the demise of the Ottoman Empire, the anti-colonial revolt, the emergence of Israel, secular nationalism, and the rise of Islamism. (Plus-minus letter grade only.)

Course Attributes:
- UD-D: Social Sciences
- Environmental Sustainability
- Global Perspectives

I R 325 Chinese Foreign Policy (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of China’s international relations and the actors involved in constructing it. Analysis of the factors influencing China’s participation in international affairs. Assessment of the international realm’s effect on Chinese foreign policy. (This course is offered as I R 325 and PLSI 325. Students may not repeat the course under an alternate prefix.)

I R 326 South and Southeast Asia Foreign Relations (Units: 4)
Prerequisites: Upper division standing; ENG 214.
The foreign policy interaction of states in the South and Southeast Asian regions. Historical origins and development of states in these regions, as well as the evolution of their foreign policies, are examined in the context of SAARC and ASEAN. (Plus-minus letter grade only.)

Course Attributes:
- Global Perspectives

I R 327 Europe: Forming a More Perfect Union (Units: 4)
Prerequisite: ENG 214 or equivalent.
Comparative foreign policies of the European Union and its key member states. Effort to forge a common foreign policy; the Union’s external relations with the U.S. and Russia.

I R 328 Domestic and Foreign Policy: Post-Communist Regions (Units: 4)
Prerequisites: Upper division standing; ENG 214.
Development and subsequent dynamics of what used to be called the Soviet Bloc. Analysis of current relations in light of events in the post-World War II period. (This course is offered as I R 328 and PLSI 328. Students may not repeat the course under an alternate prefix.)

I R 329 U.S.-Japan Politics (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
In the postwar period, U.S.-Japan relations have moved from the periphery of international politics to the center, yet our understanding of this development has lagged behind. The origins of the trade deficit, competition, and related economic and security questions. (This course is offered as I R 329 and PLSI 329. Students may not repeat the course under an alternate prefix.)

I R 330 World Law (Units: 4)
Prerequisites: Upper division standing and ENG 214.
The natural and positive schools of law; the role of law in the world community; the substantive areas of international laws on recognition, nationality, territory, jurisdiction, and conflict resolution; forces influencing the future role and development of world law.

I R 331 Global Environmental Crisis (Units: 4)
Prerequisites: Upper division standing; ENG 214.
Describes the impact of a growing world economy and population on biological and physical earth systems, and the potential consequences of environmental destruction for human well-being. Explores the historical and economic reasons for the political divide between developed and less-developed countries with respect to environmental issues and negotiations. (This course is offered as I R 331 and ENVS 331. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- Environmental Sustainability
- Global Perspectives
- Social Justice

I R 332 International Criminal Law (Units: 4)
Prerequisites: Upper division standing; C J 300, a GWAR course; or consent of instructor.
Comparative legal systems and the U.S. system of criminal law. Classwork, 3 units; fieldwork, 1 unit. (This course is offered as C J 505 and I R 332. Students may not repeat the course under an alternate prefix.)

I R 334 International Organizations: New World Order (Units: 4)
Prerequisites: Upper division standing and ENG 214.
Analysis of the nature, role, history, and future of international organizations in the social, economic, and political development of world community. Examination of present patterns and problems of international political behavior as seen through and influenced by international organizations.
I R 335 Muslim Societies in Transnational Perspective (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Introduction to the complexity and diversity of the Muslim world with identification of transnational trends and linkages that characterize contemporary Muslim societies. Organized around seminal issues and themes, does not require prior knowledge of Islam.

Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives

I R 336 Politics of Globalization (Units: 4)
Prerequisites: Upper division standing and I R 104.

Analysis of nature of globalization and its impact. Examination of causes of globalization and its effect on the state, policy autonomy, national security, the developing world, and culture.

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

I R 337 Introduction to the European Union (Units: 4)
Prerequisite: Upper division standing or consent of instructor

Introduction to the European Union, its rationale, foundations, operations, and current challenges. Exploration of the roles of the European Union’s governing institutions, how they interact with different levels of governance among Member States, and main policies of the European Union.

I R 341 Comparative Criminal Justice (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Ways in which institutions of criminal justice in one society compare with those in other societies. Attention is given to U.S., British, European, Asian, and African systems. Classwork, 3 units; fieldwork, 1 unit.

(This course is offered as C J 340 and I R 341. Students may not repeat the course under an alternate prefix.)

I R 342 Strategy and War (Units: 4)
Prerequisites: Upper division standing; ENG 214.

War as an instrument of national policy. Causes of war and classical and modern strategies for winning it from Clausewitz to Herman Kahn. Strategic theory, games, deterrence, guerrilla warfare, counter-insurgency, weapons technology, and the political consequences of preparedness.

(This course is offered as I R 342 and PLSI 342. Students may not repeat the course under an alternate prefix.)

I R 346 Recent European History (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214 or equivalent.

Western Europe since the eve of World War I; political and social problems originating in the conditions of the interwar period and World War II.

(This course is offered as HIST 346 and I R 346. Students may not repeat the course under an alternate prefix.)

I R 360 Intelligence and Intelligence Agencies (Units: 4)
Prerequisites: Upper division standing and ENG 214.

The role of modern intelligence agencies such as the CIA and the KGB as information sources for foreign policy making. Analysis of intelligence successes and failures and proposals for improving the intelligence process.

I R 361 Terrorism and Covert Political Warfare (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Terrorism and covert political warfare as international instruments especially since World War II. The use of terror and covert political warfare and the responses to their use.

(This course is offered as C J 461 and I R 361. Students may not repeat the course under an alternate prefix.)

I R 362 Domestic & Transnational Sources of US Foreign Policy (Units: 4)
Prerequisites: ENG 214 or equivalent, I R 310 or PLSI 200, or consent of instructor.

The role of domestic and transnational actors in making US foreign policy. Examination of American culture, media, interest groups, social movements, corporations, and lobbies on policy outcomes. Transnational influences on US foreign policy. Impact of international events on Americans.

(This course is offered as I R 362 and PLSI 362. Students may not repeat the course under an alternate prefix.)

I R 372 Critical Political Theory (Units: 4)
Prerequisite: ENG 214.

Focus on the critical tradition in political theory that responds to and differentiates itself from classical and modern canonical texts.

(This course is offered as PLSI 372, HUM 372, and I R 372. Students may not repeat the course under an alternate prefix.)

I R 404 Politics of China (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Contemporary government and politics of the People’s Republic of China with modest concern for the way the past has shaped the present. Main focus is on political institutions and political processes.

(This course is offered as PLSI 404 and I R 404. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

I R 407 Politics of Russia (Units: 4)
Prerequisite: Upper division standing.

Contemporary government and politics of Russia, the way the past has shaped the present. Political institutions, political processes, and ideologies.

(This course is offered as PLSI 407 and I R 407. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
I R 409 Russia and World Order (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Introduction to theories of world order and Russia's role in it. Review of historical and contemporary foundations for understanding world order. Discussion of Russia's role in various regional and global settings. (Plus-minus letter grade only)
(This course is offered as I R 409 and PLSI 409. Students may not repeat the course under an alternate prefix.)

I R 411 East Asian Politics (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Government and politics of East Asia (China, Japan, South Korea, and Taiwan). Systematic comparison of nations utilizing common themes: political development, political institutions, political economy, political change.
(This course is offered as PLSI 411 and I R 411. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

I R 412 South Asian Politics (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.

Political development in the South Asian states; political institutions and processes; parties and election; leadership; current policies and problems.
(This course is offered as PLSI 412 and I R 412. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- Global Perspectives

I R 413 Media Chinese (Units: 3)
Prerequisite: CHIN 401 or consent of instructor.

Mandarin as it is used in various genres on radio/television and in news reports and articles, editorials, interviews, and advertisements.
(This course is offered as CHIN 411, I R 413, and JOUR 411. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- Global Perspectives

I R 416 Ethnicity and Nationalism (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.

Issues and problems raised by the phenomena of ethnicity and nationalism, ethnic conflict, and efforts at conflict resolution in a comparative context.
(This course is offered as PLSI 416 and I R 416. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

I R 417 Gender, Equality, and Politics: A Comparative Perspective (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Examination of gendered nature of political representation, employment, and welfare state policy in post-industrialized nations. Emphasis on different political and social arrangements that European governments and social movements have developed to accommodate the growing demand for gender equality.
(This course is offered as PLSI 417 and I R 417. Students may not repeat the course under an alternate prefix.)

I R 428 International Political Economy of Food and Hunger (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Exploration of why hunger persists in a world of abundance; food aid, farm policy, and global food trade; whether production can match population growth without environmental harm; crop genetic engineering, international policies and movements for sustainability, and food sovereignty/security.
(This course is offered as I R 428 and GEOG 428. Students may not repeat the course under an alternate prefix.)

I R 430 Israeli Democracy: Politics, Institutions, and Society (Units: 3)
Prerequisite: ENG 214 or equivalent.

Knowledge of Israel's political system, its origins, its formal structure, the way it functions, and its main attributes in comparison to other democratic political systems. Ideology, state and religion, and civil liberties.
(This course is offered as JS 430, I R 430, and PLSI 430. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

I R 432 Model United Nations (Units: 4)
Prerequisites: Upper division standing and ENG 214.

Major social, economic, and political issues before the United Nations; their meaning for a selected member state. Participation in annual Model United Nations Conference under faculty supervision. May be repeated for a total of 8 units.

I R 433 Model Arab League (Units: 4)
Prerequisites: Upper division standing; ENG 214, and MEIS 300 or I R 324 or PLSI 410; or consent of instructor.

Seminar focusing on select countries in the Arab world, which students represent at delegates at regional Model Arab League (MAL) conferences. Preparation of case study papers, policy briefs and MAL resolutions for various councils at the MAL. Training in parliamentary procedure and public speaking. May be repeated for a total of 8 units.
(This course is offered as I R 433 and MEIS 433. Students may not repeat the course under an alternate prefix.)

I R 435 Politics of Global Finance and Crisis (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

The development and role of late 20th and early 21st century financial technologies in modern market crises. Research and critical analysis of 21st century finance capitalism. Political and financial interactions, including limits and possibilities for controlling financial behavior.
(This course is offered as PLSI 435, I R 435, and FIN 435. May not be repeated under alternate prefix.)
I R 445 Geopolitics and Globalization (Units: 3)
Prerequisites: Upper division standing; ENG 214.
Physical and cultural geographic factors in and between political-territorial units. Effects of resource distribution, political motivations and ideologies on establishing territorial sovereignty. (This course is offered as GEOG 445 and I R 445. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences

I R 446 The Multinational Corporation in World Affairs (Units: 4)
Prerequisites: Upper division standing and ENG 214 or equivalent.
Examination of nature of multinational corporations (MNCs) and sources of their internationalization. Review of major schools of thought about MNCs power (obsolescing bargain, dependence, and bargaining model) vis-a-vis host and home governments, and international regimes.

I R 450 International Labor (Units: 3)
Prerequisites: Upper division standing; LABR 250 or consent of instructor.
Analysis of labor’s role in the developed economies, East and West, and in developing areas. Theoretical perspectives on international labor. Migration and population as they relate to labor. Impact of trade treaties on labor markets. (This course is offered as LABR 550 and I R 450. Students may not repeat the course under an alternate prefix.)

I R 452 International Media Politics (Units: 4)
Prerequisites: Upper division standing and ENG 214 or equivalent.
Examination of how communication among states and non-state entities shapes international relations, from the perspective of various theoretical and epistemological approaches. (This course is offered as I R 452 and JOUR 452. Students may not repeat the course under an alternate prefix.)

I R 460 Rising Powers (Units: 4)
Prerequisites: Upper division standing; I R 104 or I R 204; or consent of instructor;
Exploration of the rise of Brazil, Russia, India, China, and others; capacities for domestic power accumulation, national identities, military capabilities, Western and non-Western responses, and emerging global order.

I R 520 Globalization and Development (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Explores origins of poverty in Africa, Latin America, Asia; successes and failures of development policies and aid, technology, industrialization, trade trends and controversies, inequality, impacts of globalization, international agencies, NGOs, social movements for justice and sustainability. (Plus-minus letter grade only.)

I R 530 The Arab-Israeli Conflict (Units: 3)
Prerequisite: ENG 114 or equivalent.
Examination of causes of the Arab-Israeli conflict; beginnings in the late nineteenth century, Jewish-Palestinian confrontation during the British Mandate (1917-1948); Arab-Israeli wars since 1948; Israeli-Palestinian confrontation since 1948; attempts to end the confrontation since 1967. (This course is offered as JS 560 and I R 530. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences

I R 540 The Rich and the Poor Nations (Units: 4)
Prerequisites: Upper division standing and ENG 214.
Institutional framework and processes of international development, finance, trade, and foreign aid. Exercise of influence and cultural dominance by developed over less developed nations through diffusion, transferal, and exchange.

I R 544 Women in the World (Units: 4)
Prerequisites: Upper division standing and ENG 214.
Analysis of women’s roles in political, social, and economic development of selected nations and in international relations; effect of global movement for women’s rights. Case studies of female leaders and their impact on world affairs. (This course is offered as I R 544 and PLSI 544. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives
• Social Justice

I R 550 Proseminar in Foreign Policy Analysis (Units: 6)
Prerequisites: All 300-level IR core courses, including I R 309GW, or consent of instructor.
Analysis of political, economic, and socio-cultural influences on the decision-making behavior of individuals, groups, and nation-states in world affairs; data collection, interpretation, and prescription.

I R 601 Lectures on Contemporary Global Issues (Unit: 1)
Prerequisite: Upper division standing.
Survey of a major global event as it unfolds; analysis of news coverage and supplemental readings; and application of regional and theoretical knowledge from core IR classes. May be repeated for a total of 2 units.

I R 604 Analysis of Global Issues (Units: 4)
Prerequisite: Upper division standing.
Analysis of major global events as they unfold; analysis of news coverage, supplemental readings; and application of regional and theoretical knowledge from core IR classes. May be repeated for a total of 8 units.
I R 632 Regional Economic Communities (Units: 4)
Prerequisites: Upper division standing; ENG 214 and I R 104; or consent of instructor.

Political economy of economic integration in the South (African Economic Community, MERCOSUR, Andean Community, Caribbean ASEAN) in light of the European Union, and the fundamental tension between economics and politics.

I R 635 Economics of Globalization (Units: 3)
Prerequisites: ECON 101, ECON 102, or consent of instructor.

(This course is offered as ECON 635 and I R 635. Students may not repeat the course under an alternate prefix.)

I R 640 Field Study in International Relations (Units: 1-5)
Prerequisites: Upper division standing and ENG 214 or equivalent.

Practical and academic experience in a non-classroom setting, requiring the utilization of research and communication skills in a topic relevant to the study of international relations. May be repeated for a total of 10 units.

I R 685 Projects in the Teaching of I R (Units: 1-4)
Prerequisites: I R major with successful completion of I R 104 and I R 308 (minimum 3.0 in instructionally related course); consent of instructor.

Reading and discussion in the teaching of international relations. Responsibilities include working with supervising faculty member in preparing course materials, tutoring students, and conducting small discussion sections. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

I R 699 Independent Study (Units: 1-4)
Prerequisite: Consent of major adviser, supervising faculty member, and department chair. Enrollment by petition.

Study is planned, developed, and completed under the direction of a member of the departmental faculty. Open only to students who have demonstrated ability to do independent work.

I R 708 College Teaching of IR (Units: 3)
Prerequisites: Graduate standing in IR; completion of instructionally related course with B or better; consent of instructor.

Reading and discussion in teaching of international relations. Responsibilities include working with supervising faculty member in preparing course materials, tutoring students, and conducting small discussion sections. May be repeated for a total of 6 units.

I R 720 Theory and Approaches in International Relations (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Seminar in the theories and approaches to the study of international relations. Required of all graduate students in first semester of graduate study. (AB/NC grading only.)

I R 725 The Analysis of Foreign Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Foreign policy analysis, research, and oral and written briefing techniques. Required of all International Relations master's degree candidates. (AB/NC grading only.)

I R 726 Intelligence and Foreign Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Intelligence is a key component in the formulation of foreign policy. Review of what constitutes national intelligence; examine the tension between policymakers and intelligence analysts through the use of case studies and readings. (AB/NC grading only.)

I R 728 International Political Economy (Units: 3)
Prerequisites: Graduate standing; I R 720, or consent of instructor.

International political economy: in-depth consideration of alternative theories—globalization vs. nation-states, World Trade Organization and regional trading blocs, transnationals, International Monetary Fund and global finance, investment and inequality, environment, trade and development, future scenarios. (Plus-minus letter grade only.)

I R 731 Politics of Multinational Corporations (Units: 3)
Prerequisites: Graduate standing; I R 720 and I R 728, or consent of instructor.

Interdisciplinary examination of one of the most salient actors in the international political economy, the multinational corporations (MNC). The power of MNCs, the effect of MNCs on host countries, and the governance of MNCs. (Plus-minus letter grade only)

I R 734 International Migration (Units: 3)
Prerequisite: Graduate standing.

Analysis of global migration trends and their impact, including international migration theory, law and migration policies of sending and receiving states; gender, generational and transnational dimensions of migration. (Plus-minus letter grade only.)

I R 735 Seminar in Global Environmental Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

International/global policy making process and responses to critical environmental problems confronting the world as well as underlying causes such as population explosion and energy consumption. Policy choices, negotiating strategies, and outcomes.
(This course is offered as I R 735 and GEOG 735. Students may not repeat the course under an alternate prefix.)

I R 736 International Development and Globalization (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Colonial legacies, economic strategies, contemporary challenges in the former Third World; contrasting theories of development and globalization; feminist and ecological critiques; roles of the World Bank, IMF, and WTO, transnational corporations, new global forums and social movements "from below". (Plus-minus letter grade only)

I R 737 Seminar in Regional Economic Communities (Units: 3)
Prerequisite: I R 720.

Political economy of economic integration of the African Economic Community, MERCOSUR, Andean Community, Caribbean ASEAN in light of the European Union, and the fundamental tension between economics and politics.
I R 738 Contemporary International Legal Issues (Units: 3)
Prerequisites: Graduate standing in International Relations or upper
division standing in International Relations with consent of instructor.

Introduces fundamentals of international public law: sources, subjects,
sovereignty, jurisdiction, immunity, and responsibility of states. Provides
thorough analysis of recent substantial and institutional development in
the fields of the environment, trade, use of force, and universal crimes.
(Intended for majors only.)

I R 739 International Security (Units: 3)
Prerequisite: Consent of instructor.

The major theories, problems, and case studies of international security
in the past cold war; concentrating on the security interests of the leading
states; such as, the U.S., Russia, China, Japan, and Europe as they face
today’s challenges.

I R 741 Africa (Units: 3)
Prerequisites: Graduate standing and I R 720.

Examines African development as a context and concern for
contemporary foreign policy of selected African nation-states. Students
are required to do individual research and contribute to the general
discussion.

I R 742 Seminar on American Foreign Policy (Units: 3)
Prerequisites: Graduate standing and I R 720.

Reading and research seminar dealing with varying approaches to U.S.
diplomacy and culminating in a research paper on American policy
toward some major problem, nation, or area.

I R 743 Seminar in Chinese Foreign Policy (Units: 3)
Prerequisites: Graduate standing; I R 720 and I R 725, or consent of
instructor.

Configuration, causes, and consequences of Chinese foreign policy. Key
actors and events, and the diverse instruments that China has used or
is using to achieve its foreign policy objectives. (Plus-minus letter grade
only.)

I R 744 Current European Politics (Units: 3)
Prerequisites: Graduate standing and I R 720.

Investigation of European nation states and the development of
supranational institutions, processes and politics in the European Union.
Individual research and seminar discussion.

I R 745 Latin America (Units: 3)
Prerequisites: Graduate standing; I R 720; or consent of instructor.

The leitmotif of contemporary Latin American relations—the struggle for
development. Within the context of specific case studies, examines how
domestic and international forces affect national development efforts.
(Plus-minus letter grade only.)

I R 746 The Middle East (Units: 3)
Prerequisites: Graduate standing; I R 323, I R 324, and I R 720, or consent
of instructor.

Contemporary international relations among Arab countries, including
Maghreb states, and between region and outside countries and blocs.
Case studies of continuing penetration of area by imperialism, competing
changing faces, and different characters of such forces.

I R 747 Russia and the West (Units: 3)
Prerequisites: Graduate standing; I R 720, or consent of instructor.

Russia’s relations with the West in historical, economic, political and
military settings. (Plus-minus letter grade only)

I R 749 Asia and the World System (Units: 3)
Prerequisite: I R 720.

Principal Asia-Pacific states: economic, political, and military issues in
the region. Readings on China, Japan, Taiwan, the Koreas, S.E. Asia, India,
with Europe, the U.S., and Russia as factors.

I R 750 Methods and Thesis Selection in International Relations (Units: 3)
Prerequisites: Graduate standing; I R 720, or consent of instructor.

Seminar designed to introduce international relations graduate students
to the range of methods of analysis in the field and to require students
to select their thesis topics. Required of all students in their second
semester of study. (AB/NC grading only)

I R 751 Alternative Research Methods in International Relations (Units: 4)
Prerequisite: I R 720.

Examines a variety of research methods that will enable students to
test hypotheses. Students will learn how to acquire and organize data
in various formats to contribute to scholarship. The course will include
quantitative methods.

I R 892 Sponsored Graduate Internship in International Relations (Units:
3)
Prerequisites: Graduate standing; I R 720; consent of instructor;
and approval of Advancement to Candidacy (ATC) and Cumulating
Experience (CE) forms by Graduate Studies.

On- or off-campus internship. Requires approved proposal, daily log, and
major paper connecting experience to international relations theory. (CR/
NC/RP grading only)

I R 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to
Candidacy (ATC) and Cumulating Experience (CE) forms by Graduate
Studies.

Student conducts, under committee supervision, research and writing of
thesis from topic within field of international relations. Defense of thesis
by committee examination is required. Advancement to Candidacy (ATC)
and Proposal for Cumulating Experience Requirement forms must be
approved by the Graduate Division before registration. (CR/NC grading
only.)

I R 899 Independent Study (Units: 1-3)
Prerequisite: Consent of graduate major adviser, supervising faculty
member, and department chair. Enrollment by petition.

Study is planned, developed, and completed under the direction of a
member of the departmental faculty. Open only to graduate students who
have demonstrated ability to do independent work.
Italian (ITAL)

ITAL 100 First Semester Italian for Speakers of English and Spanish (Units: 4)
Designed especially for those who already speak Spanish and English, though it is open to all students. Understanding, speaking, and writing the Italian language. Basic elements of Italian culture. Acquisition of communicative skills in situational and cultural contexts. [Formerly ITAL 101 - First Semester Italian for Speakers of English and Spanish]
Course Attributes:
• C2: Humanities
• Global Perspectives

ITAL 101 First Semester Italian (Units: 4)
Understanding, speaking, reading, and writing Italian and Italian culture; language as a communicative medium and carrier of culture.
Course Attributes:
• C2: Humanities
• Global Perspectives

ITAL 102 Second Semester Italian (Units: 4)
Prerequisite: ITAL 101 or equivalent.
Continuation of ITAL 101.
Course Attributes:
• C2: Humanities
• Global Perspectives

ITAL 103 Third Semester Italian (Units: 3)
Prerequisite: ITAL 102 or equivalent.
Reinforcement of language structure; literary styles and techniques in Italian.
Course Attributes:
• C2: Humanities
• Global Perspectives

ITAL 104 Fourth Semester Italian (Units: 3)
Prerequisite: ITAL 103 or equivalent.
Selected reading material in Italian literature.
Course Attributes:
• C2: Humanities
• Global Perspectives

ITAL 206 Italian Conversation (Units: 3)
Prerequisite: ITAL 102 or equivalent. May be taken concurrently with ITAL 103 or ITAL 104.
Development of listening and speaking skills through vocabulary exercises, conversation, and oral reports based on aspects of contemporary Italian culture.
Course Attributes:
• C2: Humanities
• Global Perspectives
• Social Justice

ITAL 305 Advanced Grammar and Composition (Units: 3)
Prerequisite: ITAL 104 or equivalent.
Analysis of grammatical constructions. Exercises in style.
ITAL 350 Advanced Oral and Reading Practice (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Expansion of ability to read and interpret selected plays, poems, and prose writings. May be repeated once when material changes.
ITAL 401 Italian Culture and Civilization (Units: 3)
Prerequisite: ITAL 104 or equivalent.
Background for literature.
ITAL 510 Italian Literature: Early Period (Units: 3)
Prerequisite: ITAL 104 or equivalent.
Literature from its origins to the middle of the 16th century. Representative works and movements.
ITAL 511 Italian Literature: Late Period (Units: 3)
Prerequisite: ITAL 104 or equivalent.
Literature from the middle of the 16th century to the present. Representative works and movements.
ITAL 525 Literature of the Risorgimento (Units: 3)
Prerequisites: ITAL 510 and ITAL 511 or equivalents.
Analysis of texts from representative figures such as Parini, Alfieri, Foscolo, Leopardi, Manzoni, etc.
ITAL 530 Renaissance Prose/Poetry (Units: 3)
Prerequisites: ITAL 510 and ITAL 511.
Analysis of selected readings from representative prose writers and poets of the Italian Renaissance (Machiavelli, Guicciardini, Castiglione, Poliziano, Ariosto, for example). Focus on dominating ideas, trends. Attention also given to social, political, and artistic background.
ITAL 550 The Italian Theater (Units: 3)
Prerequisites for ITAL 850: Admission to Italian program; ITAL 510 and ITAL 511; or consent of instructor.
Prerequisites for ITAL 550: ITAL 510 and ITAL 511 or equivalents.
Plays selected from playwrights from Renaissance to today, studied and interpreted as salient points of history of theatre. (ITAL 850/ITAL 550 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
ITAL 560 The Italian Novel (Units: 3)
Prerequisites: ITAL 510 and ITAL 511 or equivalents.
Trends as seen through the works of Manzoni, Nievo, Verga, D'Annunzio, Svevo, and writers of the present period.
Course Attributes:
• Global Perspectives

ITAL 570 Italian Women Writers - 13th to 20th Centuries (Units: 3)
Prerequisites: ITAL 510 and ITAL 511 or equivalents or consent of instructor.
Selections of prose and poetry by Italian women writers from the 13th to the 20th century: from Comunreta Donzella to the 1926 Nobel prize winner, Grazia Deledda, and the major novelists of the modern period. (ITAL 870/ITAL 570 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
ITAL 580 Great Figures in Italian Literature (Units: 3)
Prerequisites: ITAL 510 and ITAL 511 or equivalents.

Rotating course focused on the works and ideas of one or more authors who gave significant shape to Italian thought during their times. Topic to be specified in Class Schedule. May be repeated when different authors are studied.
Course Attributes:
• Global Perspectives

ITAL 581 Divina Commedia (Units: 3)
Prerequisite for ITAL 881: Admission to graduate program or consent of instructor.
Prerequisites for ITAL 581: ITAL 510 and ITAL 511 or equivalents.

Analysis of selected cantos integrated with relevant information on medieval literature, poetics, scholasticism, classical tradition, and socio-political structure of Dante's world.
(ITAL 881/ITAL 581 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ITAL 600 Italian Literature on Film in English (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Analysis of four literary texts representative of differing aspects of Italian culture from the 1990's to the present and the filmic versions of them.

ITAL 600GW Italian Literature on Film in English - GWAR (Units: 3)
Prerequisites: Italian major; ENG 214 or equivalent with a grade of C- or better.

Comparative analyses of cinematic and literary narrative texts, both of which focus on seminal moments in Italian historical and cultural development from peasant society in the 19th century to urban criminal organization in the early 21st century. [Taught in English.] (ABC/NC grading only)
(ITAL 800/ITAL 600GW is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
Course Attributes:
• Graduation Writing Assessment
• Global Perspectives

ITAL 699 Independent Study (Units: 1-3)
Prerequisite: ITAL 104 or equivalent.

Intensive concentration upon special topics in Italian. Written projects requiring critical analysis, and interpretation of linguistic or literary problems. Material adapted to individual needs and interests. May be repeated.

ITAL 800 Italian Literature on Film in English - GWAR (Units: 3)
Prerequisites: Italian major; ENG 214 or equivalent with a grade of C- or better.

Comparative analyses of cinematic and literary narrative texts, both of which focus on seminal moments in Italian historical and cultural development from peasant society in the 19th century to urban criminal organization in the early 21st century. [Taught in English.] (ABC/NC grading only)
(ITAL 800/ITAL 600GW is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ITAL 830 Seminar: Italian Literature of the 19th Century (Units: 3)
Prerequisite: Admission to Italian program or consent of instructor.

Romanticism, Risorgimento, and Verismo, particularly as they affect literary problems of the 20th century and the search for a national language.

ITAL 850 The Italian Theater (Units: 3)
Prerequisites for ITAL 850: Admission to Italian program; ITAL 510 and ITAL 511; or consent of instructor.
Prerequisites for ITAL 550: ITAL 510 and ITAL 511 or equivalents.

Plays selected from playwrights from Renaissance to today, studied and interpreted as salient points of history of theatre.
(ITAL 850/ITAL 550 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ITAL 870 Italian Women Writers - 13th to 20th Centuries (Units: 3)
Prerequisites: ITAL 510 and ITAL 511 or equivalents or consent of instructor.

Selections of prose and poetry by Italian women writers from the 13th to the 20th century: from Compitha Donzella to the 1926 Nobel prize winner, Grazia Deledda, and the major novelists of the modern period.
(ITAL 870/ITAL 570 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

ITAL 880 Seminar: Individual Authors (Units: 3)
Prerequisite: Admission to Italian program or consent of instructor.

Rotating mostly monographic graduate seminars focused on the works and times of authors that defined significant periods of Italian culture. Author or authors to be specified in Class Schedule. May be repeated when different authors are studied.

ITAL 881 Divina Commedia (Units: 3)
Prerequisite for ITAL 881: Admission to graduate program or consent of instructor.
Prerequisites for ITAL 581: ITAL 510 and ITAL 511 or equivalents.

Analysis of selected cantos integrated with relevant information on medieval literature, poetics, scholasticism, classical tradition, and socio-political structure of Dante's world.
(ITAL 881/ITAL 581 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
ITAL 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered 892, 893, 894, 895, 898, or 998, (or in some cases, courses numbered 890 - see program’s graduate advisor for further information). (CR/NC, RP)

ITAL 899 Independent Study (Units: 1-3)
Prerequisites: Consent of graduate major adviser and supervising faculty member; admission to Italian program or consent of instructor.

Study is planned, developed, and completed under the direction of a member of the department faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition.
Japanese (JAPN)

JAPN 101 First Semester Japanese (Units: 4)
Understanding, speaking, reading, and writing modern Japanese.
Course Attributes:
  - C2: Humanities
  - Global Perspectives

JAPN 102 Second Semester Japanese (Units: 4)
Prerequisite: JAPN 101 or equivalent.
Continuation of JAPN 101. Understanding, speaking, reading, and writing modern Japanese.
Course Attributes:
  - C2: Humanities
  - Global Perspectives

JAPN 103 Third Semester Japanese (Units: 4)
Prerequisite: JAPN 102 or equivalent.
Continuation of JAPN 102. Intermediate level modern Japanese.
Course Attributes:
  - C2: Humanities
  - Global Perspectives

JAPN 200 Art of Japanese Writing and Calligraphy (Units: 3)

JAPN 250 Individualized Study of Kanji: Level 1 and Level 2 (Units: 3)
Prerequisite: JAPN 101 or equivalent. Open to all students.
Individualized study of Kanji. Learn 1000 Educational Kanji characters. Level 1 is required for Japanese minors. Level 2 is required for Japanese B.A. majors. May be repeated for a total of 12 units.

JAPN 301 Japanese Conversation (Units: 3)
Prerequisites: JAPN 103 and JAPN 250 or equivalents.
Developing aural-oral skills for conversations at different social levels and situations.

JAPN 302 Japanese Reading and Grammar (Units: 3)
Prerequisites: JAPN 103 and JAPN 250 or equivalents.
Reading modern Japanese. Structural analysis and vocabulary development.

JAPN 305 Advanced Conversation and Composition I (Units: 3)
Prerequisites: JAPN 301 and JAPN 302 or equivalents.

JAPN 306 Advanced Conversation and Composition II (Units: 3)
Prerequisites: JAPN 301 and JAPN 302 or equivalents.

JAPN 309 Advanced Readings in Japanese (Units: 3)
Prerequisites: JAPN 301 and JAPN 302 or equivalents.
Reading modern literary, journalistic, and expository writings.
Course Attributes:
  - Global Perspectives

JAPN 325 Practical Linguistics in Japanese (Units: 3)
Prerequisites: JAPN 301 and JAPN 302 or equivalents.
Application of Japanese sound and structural patterns to practical usage.

JAPN 330 Proverbs and Idiomatic Expressions in Japanese (Units: 3)
Prerequisites: JAPN 301 and JAPN 302 or equivalents.
The most commonly used proverbs and idiomatic expressions in Japanese.

JAPN 331 A Study of Katakana Words in Japanese (Units: 3)
Prerequisites: JAPN 301 and JAPN 302, or consent of instructor.
The study of Japanese katakana words, which include loanwords from Western languages and pseudo-English Japanese words. An examination of how their pronunciation, meaning and/or grammatical structure is altered in a new linguistic and cultural environment. (Fully online course)

JAPN 350 Introduction to Translation (Units: 3)
Prerequisites: JAPN 250, JAPN 301, and JAPN 302, or equivalents.
Basic techniques, strategies, and issues in the field of non-literary translation using Japanese and English as source languages. Practical exercises include text analysis and development of translation skills.

JAPN 390 Business Japanese (Units: 3)
Prerequisites: JAPN 301 and JAPN 302 or equivalents.
Japanese business communication skills. Readings in economics, politics, and social issues.

JAPN 395 Advanced Business Japanese: Business Writing (Units: 3)
Prerequisites: JAPN 250, JAPN 301, and JAPN 302 or equivalents.

JAPN 401 Topics in Japanese Culture (Units: 3)
Prerequisites: JAPN 301, JAPN 302, and JAPN 305, JAPN 306; or JAPN 309.
Acquisition of advanced reading, speaking, writing, and listening skills through the analysis of Japanese culture, history, people's thought, and behavior. Topic to be specified in Class Schedule. May be repeated when different topics are studied.

JAPN 510 Modern Japanese Literature (Units: 3)
Prerequisites: JAPN 250 (knowledge of 1000 Educational Kanji or at least a C- on new Level 2), JAPN 301, JAPN 302, JAPN 305 or JAPN 306, JAPN 309, or equivalents.
Literary movements and major works of 20th century Japan.
Course Attributes:
  - Global Perspectives
JAPN 590 Topics in Japanese Literature (Units: 3)
Prerequisites: JAPN 250 (Level 3 of Kanji, with a grade of C- or better), JAPN 301, JAPN 302, JAPN 305 or JAPN 306, and JAPN 309, or equivalents.

Exploration of specific genres or topics of literature including Japanese Women Writers and Contemporary Japanese Literature. Topic to be specified in Class Schedule. May be repeated when topics vary.

JAPN 690 Introduction to Consecutive Interpretation (Units: 3)
Prerequisites: Near native fluency in English or Japanese and advanced level knowledge of the other.

Acquisition of skills in consecutive interpretation between Japanese and English in international business, manufacturing, and tourism.

JAPN 699 Independent Study (Units: 1-3)
Prerequisite: Consent of department chair and instructor.

Written projects requiring critical analysis and interpretation of linguistic or literary problems. Material adopted to individual needs and interests. May be repeated.

JAPN 710 Japanese Language Workshops (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Workshops designed to enhance Japanese language skills for professional applications and research purposes. Topics include Translation, Consecutive Interpretation, and Media Language. Topic to be specified in Class Schedule. May be repeated when topics vary.

JAPN 750 Seminar in Japanese Linguistics (Units: 3)
Prerequisite: JAPN 325 or equivalent.

Phonological, morphological, and semantic features of Japanese: current research and problems.

JAPN 760 Seminar in Pedagogical Japanese Linguistics (Units: 3)
Prerequisite: JAPN 325 or equivalent.

Problem areas of phonological, grammatical, and discourse structures of Japanese from a learning/teaching point of view.

JAPN 765 Second Language Acquisition (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Second language acquisition and learning; emphasis on learning Japanese as a second language.

JAPN 770 Seminar in Teaching Japanese (Units: 3)
Prerequisite: JAPN 750 or JAPN 760 or equivalent.

Analysis of available text materials and audio-visual aids for teaching Japanese. Instructional methods, techniques, and material for effective teaching.

JAPN 775 Seminar: Materials Development for Teaching Japanese (Units: 3)
Prerequisites: JAPN 325; JAPN 770 highly recommended.

Application of linguistic and pedagogical theories and principles to the development of materials for Japanese classes.

JAPN 780 Practicum in Teaching Japanese (Units: 3)
Prerequisites: JAPN 750, JAPN 760, and JAPN 770 or consent of instructor.

Application of linguistic and pedagogical knowledge to actual teaching of Japanese. (CR/NC grading only)

JAPN 800 Seminar in Analysis of Japanese Cultural Studies (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Recent trend of cultural studies of Japan: focus, method, and purpose of each work and their possible interrelations.

JAPN 860 Seminar: Topics in Japanese Literature (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

In-depth analytical study of Japanese literary texts of great importance, including The Tale of Genji, Noh plays, Hyakunin Isshu poems, and modern novels. Topic to be specified in Class Schedule. May be repeated when topics vary.

JAPN 890 Integrative Seminar: Japanese Language and Culture (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examination of Japanese language to study how it may reflect Japanese people's way of thinking, their relationship with one another and with nature, and their attitude about the place and role of individuals in society.

JAPN 895 Applied Research Project (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience forms must be approved by the Graduate Division before registration. (CR/NC grading only)

JAPN 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered JAPN 895 or JAPN 898 (or in some cases, JAPN 890 - see program's graduate advisor for further information). (CR/NC, RP)

JAPN 897 Research (Units: 1-3)
Prerequisite: JAPN 895 or JAPN 898 with SP grade.

Required of all students who have not completed the master's thesis or research project. May be repeated but units may not be counted toward the degree program. (CR/NC grading only)

JAPN 898 Master's Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience forms must be approved by the Graduate Division before registration. (CR/NC grading only)

JAPN 899 Independent Study (Units: 1-3)
Prerequisites: Consent of graduate major adviser and the supervising faculty member.

Study is planned, developed, and completed under the direction of a member of the faculty. Open only to advanced graduate students who have demonstrated ability to do independent work. Enrollment by petition.
Jewish Studies (JS)

JS 280 Introduction to Jewish Studies (Units: 3)
Prerequisite: ENG 114 or equivalent.

Foundational beliefs, stories, and practices of the Jewish religious tradition; various transformations the tradition has undergone throughout history and into the modern period.
Course Attributes:
• C2: Humanities

JS 301 Judaism, An Introduction (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Explores religious and cultural practices of Judaism in United States by surveying religious practices of Orthodox, Conservative, Reform, and Reconstructionist Jewish congregations. Relates these practices to Jewish experience and history.
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

JS 317 The Holocaust and Genocide (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Process and conditions which led to the harassment, expulsion, and extermination of the Jews during World War II; new information about the concentration camp system.
(This course is offered as HIST 317 and JS 317. Students may not repeat the course under an alternate prefix.)

JS 350 Jewish Social Responsibility (Units: 3)
Prerequisite: ENG 214 or equivalent.

A 2,000 year history of a people commanded to repair the world. From Biblical sources defining the nature of poverty to contemporary philosophical debates on issues as varied as social inequality and care for the environment. [CSL may be available]
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

JS 377 Jerusalem (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.

The dynamics of Jerusalem’s intellectual, artistic, and social life with emphasis on the great works that symbolize the contribution of that city to human culture.
(This course is offered as HUM 377 and JS 377. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

JS 378 Beyond the Bagel (Units: 3)
Prerequisite: ENG 214 or equivalent.

Explores “food” in Jewish culture from Bible to current Jewish communities, including Israeli fusion food, and Jewish-American cuisine. By analyzing “authenticity and purity” in Jewish kitchens, students learn literature, folklore of Jewish cooking.

JS 405 Film and the Holocaust (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

The use of film to promote, document, and dramatize the Holocaust. Filmmakers who have sought to give expression to its human scale. Significant works which have helped define the issues. (This course is offered as CINE 305 and JS 405. Students may not repeat the course under an alternate prefix.)

JS 408 Israeli Cinema (Units: 3)
Prerequisite: ENG 214 or equivalent.

Survey of Israeli cinema with critical readings. (This course is offered as JS 408 and CINE 408. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

JS 410 Kabbalah and Mysticism in the Jewish Tradition (Units: 3)
Prerequisite: ENG 114 or equivalent.

The spiritual life and various ways in which Jews have sought spiritual resources from Jewish tradition. Topics include: Kabbalah, Jewish renewal, feminist spirituality, grieving the Holocaust. (This course is offered as JS 410 and PHIL 514. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

JS 414 Arendt and Heidegger (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.

Hannah Arendt, a student of Heidegger, is renowned in her own right as philosopher and political theorist. In a comparative study explore the relationship of their ideas, and question the extent to which she was disciple or critic. (This course is offered as HUM 434, JS 414, and PHIL 434. Students may not repeat the course under an alternate prefix.)

JS 415 The Hebrew Bible (Units: 3)
Prerequisite: ENG 214 or equivalent.

The Hebrew Bible in English translation from historical, literary, and religious points of view; culture and religion of ancient Israel and the ancient Near East. (This course is offered as JS 415 and PHIL 415. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
JS 421 Food Fights: The Politics of American Jewish Consumption, 1654-Present (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration of the politics of religion, food, and eating among Jews in the US from the late nineteenth century to the present. Focus on American Jewish foodways: cultural, social, historical, political, and economic practices of food production and consumption that have sustained and demarcated Jewish communities. (This course is offered as JS 421 and HIST 421. Students may not repeat the course under an alternate prefix.)

JS 425 Judaism: Religion and Text (Units: 3)
Prerequisite: ENG 214 or equivalent.
The manner and process of external/internal influences that move Jewish thought; the matters with which the rabbis and particular Jewish philosophers have concerned themselves. (This course is offered as JS 425 and PHIL 552. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities

JS 430 Israeli Democracy: Politics, Institutions, and Society (Units: 3)
Prerequisite: ENG 214 or equivalent.
Knowledge of Israel's political system, its origins, its formal structure, the way it functions, and its main attributes in comparison to other democratic political systems. Ideology, state and religion, and civil liberties. (This course is offered as JS 430, IR 430, and PLSI 430. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

JS 437 Holocaust and Literature (Units: 3)
Prerequisite: ENG 214.
Fiction and non-fiction Holocaust literature by Saul Bellow, T. Borowski, Etty Hillesum, I.B. Singer, and Elie Wiesel. (This course is offered as JS 437, ENG 533, and CWL 437. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice

JS 441 American Jews and Popular Culture (Units: 3)
Prerequisite: ENG 114 or equivalent.
Examination of presentation and participation of Jews in American popular culture of the 20th and 21st centuries. Focused on the representation of Jews and Judaism in film, television, and media. Representation of Jews and Judaism in literature, athletics, food, museums, and consumer culture also addressed. (This course is offered as JS 441, HIST 441 and HUM 441. Students may not repeat the course under an alternate prefix.)

JS 449 American Jewish History (Units: 3)
Prerequisite: ENG 114 or equivalent.
American Jewish History from 1654 to the present. Traces social, political, religious and economic history of Jews in colonial America and the United States. Topics: influence of government, immigration, religion, anti-Semitism, regionalism, acculturation. (This course is offered as JS 449 and HIST 449. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- U.S. History
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Social Justice

JS 451 Jewish Literature of the Americas (Units: 3)
Prerequisite: ENG 214 or equivalent.
Explores literature of the Americas through the lens of Jewish identity and tradition. Texts in translation from Latin America, Canada, and the US reveal how Jewish writers have rethought modernity's intersection with Jewish traditions. (This course is offered as JS 451, CWL 451, and ENG 451. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives

JS 480 European Jewish Writers (Units: 3)
Prerequisite: ENG 214 or CWL 214 or equivalent.
Survey of the works of modern Jewish writers throughout Europe between the nineteenth- and twentieth-centuries; influence of the Jewish Enlightenment on modern Jewish literature. (This course is offered as JS 480 and CWL 480. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice

JS 485 Modern Israeli Literature (Units: 3)
Prerequisite: ENG 214 or equivalent.
Survey of the works of modern Israeli writers of fiction, poetry, and drama; conceptual underpinnings of modern Israeli aesthetic projects in literature; how Israel's multilingual heritage marks the modern writer.

JS 497 Topics in Israel Studies (Units: 3)
Prerequisite: ENG 214 or equivalent.
In-depth exploration of one or more specific topics in Israel Studies with disciplinary approaches that may span the humanities, social sciences, and arts. Topics to be specified in the Class Schedule. May be repeated for a total of 9 units as topics vary. (Formerly JS 477)
JS 501 Judaism, Christianity, and Islam (Units: 3)
Prerequisite: ENG 114 or equivalent.
Beliefs, practices, social organization, and history of the three
monothestic religious traditions; importance of these traditions for
European and Middle Eastern civilizations. (This course is offered as JS 501, PHIL 501, and HUM 501. Students may
not repeat the course under an alternate prefix.)
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Global Perspectives

JS 530 Yiddish Literature, History, and Society (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of Yiddish literature, history, culture, and society in Europe,
America, and Israel through Yiddish fiction, poetry, and theater, as well as
journalism, political writing, philosophy, and religion.

JS 540 Anti-Semitism (Units: 3)
Prerequisite: ENG 214 or equivalent.
Survey of the historical, political, cultural, and religious contexts and
manifestations of anti-Semitism. Examines its different forms and
trajectories and evaluates its effects on both Jews and non-Jews and
Jewish and non-Jewish societies.
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Global Perspectives
  • Social Justice

JS 546 20th Century American Jewish Women Writers (Units: 3)
Prerequisite: ENG 546 and WGS 546. Students may
not repeat the course under an alternate prefix.
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Global Perspectives

JS 560 The Arab-Israeli Conflict (Units: 3)
Prerequisite: ENG 114 or equivalent.
Examination of causes of the Arab-Israeli conflict; beginnings in the late
nineteenth century; Jewish-Palestinian confrontation during the British
Mandate (1917-1948); Arab-Israeli wars since 1948; Israeli-Palestinian
confrontation since 1948; attempts to end the confrontation since 1967.
(This course is offered as JS 560 and IR 530. Students may not repeat
the course under an alternate prefix.)
Course Attributes:
  • UD-D: Social Sciences
  • Global Perspectives

JS 600 Internship (Units: 3)
Prerequisites for JS 800: Admission to certificate program and consultation with program director.
Prerequisite for JS 600: Consultation with program director.
Supervised work in the setting of a Jewish communal organization or an
institution serving Jewish clients. [CSL may be available]
(JS 800/JS 600 is a paired course offering. May be repeated for a total of
6 units at one level. Students who have completed the course at one level
may not take or repeat the course at another level.)
JS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of supervising faculty member. Enrollment is by petition. Open only to graduate students who have demonstrated the ability to do independent work.

Study is planned, developed, and completed under the direction of a member of the program faculty. May be repeated for a total of 6 units.
Journalism (JOUR)

JOUR 205 Social Impact of Journalism (Units: 3)
History, organization, social role and function of journalism.
Course Attributes:
- C2: Humanities

JOUR 221 Newswriting (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C or better; typing skills 25 wpm.
Development of news judgment and clear writing skills. Grade of C or better required to continue to JOUR 300GW. (Plus-minus letter grade only)

JOUR 222 Newswriting Lab (Unit: 1)
Prerequisite: ENG 214 or equivalent with a grade of C or better.
Associate Press style writing, English grammar, and punctuation. (Plus-minus letter grade only)

JOUR 226 Digital News Gathering (Units: 3)
Prerequisites: Restricted to journalism major or minor; JOUR 205 or equivalent and JOUR 221 or equivalent, each with a grade of C or better.
Development of multimedia skills, online research and analysis, and other components of multimedia storytelling. (Plus-minus letter grade only)

JOUR 235 Photojournalism I (Units: 3)
Photojournalistic style and content. Taking pictures of people, telling stories, conveying information. Must have interchangeable lens digital camera. Extra fee required. (Plus-minus letter grade only)
Course Attributes:
- C1: Arts

JOUR 300GW Reporting - GWAR (Units: 3)
Prerequisites: Restricted to Journalism major or minor; ENG 214 with a grade of C- or better or equivalent, JOUR 205, and JOUR 221, each with a grade of C or better.
Advanced concepts of news gathering, interviewing, and writing. Cover San Francisco and Oakland neighborhoods. Need a C grade or better to continue to advanced courses. (ABC/NC grading only)
Center for Advanced Writing and Reporting.
Course Attributes:
- Graduation Writing Assessment

JOUR 307 News Media Law and Ethics (Units: 3)
Prerequisites: Upper division standing and Journalism major or minor.
News media law and ethics using studies and practical application in journalism; access to public records, constitutional guarantees, ethical responsibilities in reporting, and publications of stories. (Plus-minus letter grade only)

JOUR 320 Investigative Reporting (Units: 3)
Prerequisites: Journalism major or minor; JOUR 300GW with a grade of C or better.
Problems and methodology of investigative journalism; techniques of documentation; from theory to practical application. A grade of C or better required to continue to JOUR 609. (Plus-minus letter grade only)

JOUR 321 Feature Writing (Units: 3)
Prerequisites: Journalism major or minor; JOUR 300GW with a grade of C or better; or consent of instructor;
Theory and practice of writing newspaper and magazine stories. Definition of a feature; topics, interviewing techniques, deadline writing; freelancing. A grade of C or better required to enroll in JOUR 609. (Plus-minus letter grade only)

JOUR 328 Anthropology and Photography (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the documentary, social, political, and aesthetic roles of photography (and the archive and photo-essay) in anthropology as a mode of representation and control, but also of resistance. (This course is offered as ANTH 328 and JOUR 328. Students may not repeat the course under an alternate prefix.)

JOUR 330 Editing (Units: 3)
Prerequisites: Restricted to journalism major or minor; JOUR 205, JOUR 221 and JOUR 222, each with a grade of C or better.
Theory and practice of editing; fundamental copy editing, rewrite and layout techniques, headline writing, restructuring, and trimming; story ideas and assignments; page design concepts. (Plus-minus letter grade only)

JOUR 335 Photojournalism II (Units: 3)
Prerequisites: Restricted to journalism major or minor; JOUR 235 with a grade of C or better.
Components of photojournalism; portrait, sports, feature, news, and picture story to create portfolio. Must have interchangeable lens digital camera. Extra fee required. (Plus-minus letter grade only)

JOUR 336 Visual Storytelling (Units: 3)
Prerequisites: JOUR 205 and JOUR 221 (or equivalent) with grades of C or better.
How visual imagery shapes perception of news; power of photography, graphics and design to communicate journalistically in print and on-line. When images convey more than words; when images mislead. (Plus-minus letter grade only)

JOUR 395 Online Journalism (Units: 3)
Prerequisites: Restricted to journalism major or minor; JOUR 226 and JOUR 300GW with grades of C or better.
Multimedia production for journalists; creation of electronic outlet of text, sound, archived video, and graphics for news. Extra fee required. (Plus-minus letter grade only)

JOUR 400 Multimedia Journalism (Units: 3)
Prerequisites: Restricted to Journalism majors and minors; JOUR 226 and JOUR 300GW each with a grade of C or better;
Employ multiple visual platforms and storytelling structures to produce online journalism. Extra fee required. (Plus-minus letter grade only)
[Formerly JOUR 635]

JOUR 409 Directed Study in Journalism (Units: 1-3)
Prerequisite: Consent of instructor or department.
Individual projects: research, investigations, depth reporting, writing, graphics, surveys, audience studies, and internships. May be repeated for a total of 6 units with consent of department.
JOUR 410 Building Chinese Media Literacy (Units: 3)
Prerequisite: CHIN 401 or consent of instructor.

Vocabulary, structures, styles, and topics of contemporary Chinese media. Newspapers, radio and television broadcasts, websites, blogs, and social media of Greater China. Intensive focus on reading and listening, augmented by writing and presentation assignments. (This course is offered as CHIN 410 and JOUR 410, and is taught in Chinese. Students may not repeat the course under an alternate prefix.)

JOUR 411 Media Chinese (Units: 3)
Prerequisite: CHIN 401 or consent of instructor.

Mandarin as it is used in various genres on radio/television and in news reports and articles, editorials, interviews, and advertisements. (This course is offered as CHIN 411, IR 413, and JOUR 411. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- Global Perspectives

JOUR 426 Data Journalism (Units: 3)
Prerequisites: Restricted to journalism majors and minors; JOUR 226, JOUR 300GW, and JOUR 395, each with a grade of C or better.

Exploration and application of techniques of data analysis, processing and visualization to build interactive journalism elements and projects. (Plus-minus grading only)

JOUR 435 Photojournalism III (Units: 3)
Prerequisites: JOUR 221, JOUR 300GW, and JOUR 335 with grades of C or better; or consent of instructor.

Picture story concepts and development. Photojournalism legal and ethical issues. Must own camera and media file. Lab fee required. (Plus-minus letter grade only)

JOUR 450 Publication Design and Graphics (Units: 3)
Prerequisite: JOUR 221 with a grade of C or better or consent of instructor.

Editorial design and production for newspapers and magazines; design as support for message. Vocabulary, concepts, and skills of editorial designer and photo editor with migration to internet and web. Extra fee required. (Plus-minus letter grade only)

JOUR 452 International Media Politics (Units: 4)
Prerequisites: Upper division standing and ENG 214 or equivalent.

Examination of how communication among states and non-state entities shapes international relations, from the perspective of various theoretical and epistemological approaches. (This course is offered as IR 452 and JOUR 452. Students may not repeat the course under an alternate prefix.)

JOUR 495 Profiles (Units: 3)
Prerequisites: Upper division standing; journalism major or minor; JOUR 226 and JOUR 300GW with grades of C or better.

Investigation and implementation of profile reporting and storytelling techniques, using a combination of multimedia tools of the students' choice: writing, photography, video and/or online interactivity to bring people's stories alive through keen observation, captivating dialogue, proper tone, effective structure and organization. Activity. (Plus-minus letter grade only)

JOUR 500 Contemporary Magazines (Units: 3)
Prerequisites: Upper division standing; journalism major or minor; or consent of instructor.

Development and role of contemporary magazine; rise of specialized periodicals. Magazine start-ups, dynamics of editorial strategy and planning; editing, design, and short article writing. (Plus-minus letter grade only)

JOUR 535 Photojournalism IV (Units: 3)
Prerequisite: JOUR 335 with a grade of C or better.

Advanced photojournalism color and lighting techniques, including operation of portable and studio strobes. Photo illustrations and food and fashion pictures. Must provide camera and film. Extra fee required. (Plus-minus letter grade only)

JOUR 536 Latina/o Journalism (Units: 3)
Prerequisite: LTNS 530.

Overview of U.S. Latina/o journalism from the mid-1800s to the present day, provides insight into the ways in which Latina/os have utilized journalism as a way to merge activism and community formation. [CSL may be available] (This course is offered as LTNS 536 and JOUR 536. Students may not repeat the course under an alternate prefix.)

JOUR 560 Public Journalism (Units: 3)
Prerequisites: Restricted to journalism majors and minors; JOUR 300GW with a grade of C or better.

Examination of failure of news media to provide accurate and substantive coverage of poor communities and communities of color. Students learn public journalism practices and techniques to engage communities to find solutions and to participate in the democratic process. (Plus-minus letter grade only)

JOUR 570 Opinion Writing (Units: 3)
Prerequisites: Restricted to journalism major or minor; JOUR 221 and JOUR 300GW with grade of C or better.

Principles and techniques of effective column and op-ed writing. Strategies for getting published. Emphasis on research and critical thinking. History and importance of editorial writing versus news coverage. (Plus-minus letter grade only)

JOUR 575 Community Media (Units: 3)
Prerequisites: JOUR 221 and JOUR 300GW each with a grade of C or better.

Students will gain experience producing stories for community news outlets, ethnic news outlets, hyperlocal sites, niched-oriented news in Bay Area. Explore the value, relevance and role of these alternative media publications.

JOUR 580 Environmental Journalism (Units: 3)
Prerequisites: Major in journalism or major in environmental studies with a concentration in humanities and the environment; JOUR 300GW or ENVS 450GW.

Examination and practice of environmental journalism through reading and analysis of selected examples along with research and reporting necessary for completion of short and long word, photo and multimedia stories. (Plus-minus letter grade only)
JOUR 582 Social Media Journalism (Units: 3)
Prerequisites: Restricted to journalism majors or minors; completion of JOUR 221 and JOUR 300GW with a grade of C or better.
Examination and practice of gathering, researching, promoting and distributing news through social media. (Plus-minus letter grade only)

JOUR 595 Magazine Writing (Units: 3)
Prerequisites: Journalism major or minor; JOUR 221 and JOUR 300GW with grades of C or better.
Principles and techniques of magazine writing, developing, researching, and writing factual articles. Markets and steps necessary to get published. Grade of C or better necessary to continue to JOUR 609. (Plus-minus letter grade only)

JOUR 605 Magazine Publication Lab (Units: 3)
Prerequisites: Restricted to upper division Journalism major or minor; JOUR 222, JOUR 300GW and JOUR 321 or JOUR 595 with grades of C or better.
Production of three to four editions of Xpress Magazine including updates of the Xpress Magazine website and all related social media networks. May be repeated for a total of 6 units. Extra fee required. (Plus-minus letter grade only)

JOUR 607 Publication Lab for Photojournalism Students (Units: 3)
Prerequisites: JOUR 221, JOUR 222, and JOUR 335.
Photography for the SF State Golden Gate Xpress print and on-line publication. (Plus-minus letter grade only)

JOUR 608 News Bureau Publication Lab (Units: 3)
Prerequisites: Journalism major or minor; JOUR 609 with a grade of C or better; or consent of instructor;
News bureau: planning, reporting, editing, and fact-checking; shooting photos for publication in San Francisco area newspapers. May be repeated for 6 units for degree credit. (Plus-minus letter grade only)

JOUR 609 Publication Laboratory (Units: 3)
Prerequisites: Restricted to upper division journalism major or minor; JOUR 222 and JOUR 300GW with grades of C or better, or JOUR 222 and JOUR 335 with grades of C or better.
Reporting, writing, photography, editing, producing print and on-line publication. Extra fee required. May be repeated for a total of 6 units for degree credit. (Plus-minus letter grade only)

JOUR 610 Cultural Diversity and News Media (Units: 3)
Prerequisites: Upper division standing and ENG 214 or equivalent.
Exploration of how the practice of news gathering influences social reality. Exploration of issues facing U.S. news media as they struggle to understand an increasingly diverse society. Historical overview of the problem and discussion on current obstacles facing journalists’ efforts to improve coverage and newsroom representation.

Course Attributes:
- Am. Ethnic & Racial Minorities
- Social Justice

JOUR 617 Journalism Internship (Units: 3)
Prerequisites: Restricted to journalism major or minor; JOUR 609 with a grade of C or better; approved internship proposal required prior to enrolling in the course.
Credit for approved internship with employers in the news, magazine or online industry. Reflection on experiences in class blog, resume package preparation and online portfolio of work. Option to second semester of JOUR 609. (CR/NC only)

JOUR 645 Journalism in China (Units: 3)
Prerequisites: Upper division standing; admission to the Chinese Flagship program or consent of instructor.

JOUR 650 Seminar: Contemporary News (Units: 3)
Prerequisites: Journalism major or minor; JOUR 226 and JOUR 300GW with grades of C or better.
Trends in contemporary news including reporting techniques, news delivery and journalistic storytelling. (Plus-minus letter grade only)

JOUR 667 Seminar: Topics in Journalism (Units: 3)
Prerequisites: Journalism major or minor; JOUR 300GW with a grade of C or better; or consent of department.
Class advances journalistic reporting and writing techniques to produce publishable newspaper, online and magazine articles in areas such as international, business, sports, literary journalism, culture and food. Fulfills the advanced writing elective requirement. Topic to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus letter grading only)

JOUR 670 Research Methods on Journalism (Units: 3)
Prerequisites: Upper division standing; completion of a GWAR course with a grade of C or better.
Critical inquiry and analysis of peer-reviewed research and the research process on journalism, providing students with added depth to understanding journalism’s impact and the processes and structures that dictate it. (Plus-minus letter grade only)

JOUR 675 News Entrepreneurship (Units: 3)
Prerequisite: JOUR 300GW with a grade of C or better.
Developing and applying new business models for journalism; using media trends and media innovations to capture new audiences for news and features. (Plus-minus letter grade only)

JOUR 680 Advanced Multimedia Journalism (Units: 3)
Prerequisites: Journalism major or minor; JOUR 226 and JOUR 395 with grades of C or better;
Exploration and application of techniques of interactivity and web-based and mobile application development toward team-driven long-form journalism and public information projects. (Plus-minus letter grade only)
JOUR 685 Projects in the Teaching of Journalism (Units: 1-3)
Prerequisite: Completion with a grade of C or better in a course in which student will be aide, and consent of instructor.

Students are paired with Journalism faculty in supervised practicum to assist in teaching and to complete directed projects. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

JOUR 695 Senior Seminar (Units: 3)
Prerequisites: Journalism major or minor; JOUR 609 with a grade of C or better.

Journalism publishing project applying skills and knowledge of the major.
(Plus-minus letter grade only)

JOUR 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.

Intensive study and investigation of a selected problem under the supervision of an instructor. (CR/NC only)
Kinesiology (KIN)

KIN 100 Aerobics: Low Impact (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors.
Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 103 Aerobics: Steps (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors.
Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 124 Fitness and Conditioning (Units: 2)
Prerequisite: Priority enrollment is given to Kinesiology majors.

KIN 127 Personalized Fitness Programs (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors.

KIN 136 Hatha Yoga (Unit: 1)
Physical activity course.

KIN 139 Jogging (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 142 Elementary Judo (Unit: 1)
Physical activity course.

KIN 145 Elementary Karate (Unit: 1)
Physical activity course.

KIN 148 Elementary Kung Fu (Unit: 1)
Physical activity course.

KIN 151 Tae Kwon Do (Unit: 1)
Study in the Korean martial art form of Tae Kwon Do. Focus upon learning the movement forms, the historical and cultural significance of this art form, and the modern evolution of Taekwondo.

KIN 158 Personal Defense (Units: 2)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 161 Shaolin Chuan: Tan-Tui (Unit: 1)
Physical activity course.

KIN 164 Elementary Soccer (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 171 Beginning Swimming: Non-Swimmers (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 172 Elementary Swimming (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 173 Aquatic Fitness (Unit: 1)
Prerequisite: Ability to execute basic strokes with comfort in deep water. Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 175 Elementary Tai-Chi Chuan (Unit: 1)
Physical activity course.

KIN 178 Elementary Tennis (Unit: 1)
Physical activity course.

KIN 189 Weight Training: Beginners Only (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 190 Weight Training (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 191 Individualized Weight Training (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis.

Weight training conducted in an open gym format. Students clock in and work out, under supervision, according to an approved program of 100 minutes per week distributed in at least two sessions. Assessment of strength in various muscle groups. Attend lectures on various approaches to strength training.

KIN 236 Intermediate/Advanced Hatha Yoga (Units: 2)
Prerequisite: KIN 136 or consent of instructor.

KIN 242 Intermediate/Advanced Judo (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis. Physical activity course.

KIN 250 Introduction to Kinesiology (Units: 3)
Prerequisites: Completion of GE Areas A and B4 requirements [formerly GE Segment I] with grades of C or better; priority given to undeclared with interest in KIN or declared KIN major. Introduction to and examination of kinesiology and its various subfields; exploration of career opportunities. Classwork, 2 units; laboratory, 1 unit.
KIN 251 Success in the Kinesiology Major (Units: 2)
Prerequisite: Kinesiology major.
A quality advising experience in a learning-centered environment that will prepare students to be active learners engaged in their educational and life goals while teaching them to become self-sufficient lifelong learners. (Plus-minus ABC/NC)

KIN 255 Health-related Fitness and Wellness (Units: 3)
Prerequisite: Completion of GE Areas A and B4 requirements [formerly GE Segment I] with grades of C or better; enrollment in activity class recommended.
Exploration of the roles of regular exercise, healthy eating habits, and stress management in the maintenance of health related fitness and wellness over the lifespan. Classwork, 2 units; laboratory, 1 unit.
Course Attributes:
- E1: Lifelong Learning Develop
- D1: Social Sciences
- Environmental Sustainability
- Global Perspectives
- Social Justice

KIN 257 Wellness, Fitness and the Global Perspective (Units: 3)
Introduction to human anatomy, physiology, the basic principles of exercise and wellness, and to the benefits and limitations of wellness practices around the world; blending physical movement and fitness training with academic skills including critical reading, research, and scholarly presentations. Classwork, 2 units; activity, 1 unit. (Plus-minus ABC/NC, CR/NC)
Course Attributes:
- E1: Lifelong Learning Develop
- Global Perspectives

KIN 272 Intermediate/Advanced Swimming (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis.
Physical activity course.

KIN 275 Intermediate/Advanced Tai-Chi Chuan (Units: 2)
Physical activity course.

KIN 294 CPR (Unit: 1)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis.
General instructions and specific procedures for providing cardiopulmonary resuscitation and basic life saving techniques. Certification in CPR for adults, children, and infants.

KIN 295 First Aid and Cardiopulmonary Resuscitation (CPR) (Units: 2)
Prerequisite: Priority enrollment is given to Kinesiology majors. Students in other majors may be admitted on a space available basis.
Instruction and specific procedures for providing immediate care to a person who has been injured or is experiencing a medical emergency. Certification in CPR of adults, children, and infants and Standard First Aid are provided.

KIN 298 Practicum in Kinesiology (Unit: 1)
Prerequisites: Consent of instructor and associate chair.
Individually directed experiences as leadership assistants in movement activities.

KIN 299 Practicum in Kinesiology (Unit: 1)
Prerequisites: Consent of instructor and associate chair.
Individually directed experiences as leadership assistants in movement activities.

KIN 305 Instructional Analysis: Track, Field, and Gymnastics Floor Activities (Units: 2)
Prerequisites: KIN 340 or consent of instructor. Sufficient experience to demonstrate basic proficiency in performing the fundamental skills of the activities in this course; otherwise, it is recommended that the student take the corresponding activity course(s) prior to enrolling in this class.
Analysis of fundamental skills and strategies in track and field and in gymnastics floor activities, for teaching and coaching beginning and intermediate learners. Progressions, feedback, structuring effective learning environments in various teaching situations, individual differences.

KIN 306 Instructional Analysis: Racquet Sports (Units: 2)
Prerequisites: KIN 340 or consent of instructor. Sufficient experience to demonstrate basic proficiency in performing the fundamental skills of the activities in this course; otherwise, it is recommended that the student take the corresponding activity course(s) prior to enrolling in this class.
Analysis of fundamental skills and strategies in badminton and tennis for teaching and coaching beginning and intermediate learners. Skill progressions, feedback, structuring effective learning environments, individual differences. Classwork, 1 unit; laboratory, 1 unit.

KIN 307 Instructional Analysis: Basketball and Volleyball (Units: 2)
Prerequisites: KIN 340 or consent of instructor. Sufficient experience to demonstrate basic proficiency in performing the fundamental skills of the activities in this course; otherwise, it is recommended that the student take the corresponding activity course(s) prior to enrolling in this class.
Analysis of fundamental skills and strategies in basketball and volleyball for teaching and coaching beginning and intermediate learners. Skill progressions, feedback, structuring effective learning environments, individual differences. Classwork, 1 unit; laboratory, 1 unit.

KIN 308 Instructional Analysis: Fitness Activities (Units: 2)
Prerequisites: KIN 255 (may be taken concurrently); successful completion of fitness assessment; or consent of instructor.
Analysis of fundamental skills and strategies in teaching a variety of fitness activities. Classwork, 1 unit; laboratory, 1 unit.

KIN 309 Instructional Analysis: Soccer and Softball (Units: 2)
Prerequisites: KIN 340 or consent of instructor. Sufficient experience to demonstrate basic proficiency in performing the fundamental skills of the activities in this course; otherwise, it is recommended that the student take the corresponding activity course(s) prior to enrolling in this class.
Analysis of fundamental skills and strategies in soccer and softball for teaching and coaching beginning and intermediate learners. Skill progressions, feedback, structuring effective learning environments, addressing individual differences. Classwork, 1 unit; laboratory, 1 unit.
KIN 322 Sport in America (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly GE Segment I].

Interpretation of contemporary issues in sport from the perspective of American society. Professional sport, women in sport, and youth sport using a multimedia approach that includes film, print media, literature and historical texts.

KIN 325 Computer Applications in Kinesiology (Units: 3)
Prerequisites: Upper division standing or consent of instructor; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4. Enrollment priority to kinesiology majors.

Information management for kinesiology applications using computerized word processing, spreadsheets, graphics, outlining, and databases. Classwork, 2 units; laboratory, 1 unit.

KIN 331 Peak Performance (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4.

Examination and understanding of the stress process, assessments of stress and the application of psychological intervention strategies to help bring about optimum performance in human movement as well as other endeavors. Practical application for maximizing human potential.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences
- Global Perspectives
- Social Justice

KIN 340 Orientation to Teaching Physical Education (Units: 3)
Prerequisites: Upper division standing or consent of instructor; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.

Professionalism in school-based physical education. Contemporary view of physical education, guided observation in K-12 schools, self-assessment, and plan for professional development as a prospective teacher. Physical education as a career choice. (Plus-minus letter grade only.)

KIN 355 Science, Sport, and Fitness (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly Segment I].

Physiological and mechanical principles of sport and fitness. Evaluation of myths and truths about sport science, nutrition, injury prevention, physiology of exercise, sport, and individualizing training programs.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science

KIN 384GW Research Methods in Kinesiology - GWAR (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C- or better; KIN 250 and MATH 124 or equivalent all with grades of C or better. Restricted to declared Kinesiology major.

Understanding and applying research methods and statistics relevant for studying kinesiology. Topics include sampling, validity, reliability, experimental design, qualitative approaches, and statistical analyses. Development of students’ critical thinking and writing abilities specific to the discipline of kinesiology (Plus-minus ABC/NC)

Course Attributes:
- Graduation Writing Assessment

KIN 401 Elementary School Physical Education, K-5 (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly Segment I]. Physical education majors must take concurrently with KIN 402.

Movement, fitness, and skill programs for children. Objectives, organization, and conduct of successful physical education programs. Classwork, 2 units; laboratory, 1 unit.

KIN 402 Practicum in Physical Education, N-5 (Unit: 1)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly Segment I]. Physical education majors must take concurrently with KIN 401.

Directed experiences as teaching assistants of physical education in preschool and elementary school programs.

KIN 437 Physical Dimensions of Aging (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250, BIOL 220 or BIOL 328, and BIOL 212, all with grades of C- or better; and GE completion of Area A and GE Area B4.

Study of the physical aspects of aging from a developmental perspective in the adult years; the role of exercise/activity in the maintenance of functionality; hypotheses of physical decline, implications of age-related physical changes for daily living and activity patterns.

(KIN 737/KIN 437 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

KIN 457 Culture, Gender, and Movement (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.

Transmission of culture, values, and gender roles through a variety of movement forms. Interpretation of the cultural dimension of movement.

Course Attributes:
- Global Perspectives

KIN 480 Anatomical Kinesiology (Units: 4)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250, BIOL 220 or BIOL 328, all with grades of C or better; and GE completion of Area A and GE Area B4.

Structure and function of the musculoskeletal system in movement; relation to external forces; principles of aggregate muscle function. Application to exercise, skill, activities of daily living. Classwork, 3 units; laboratory, 1 unit. (Plus-minus letter grade only.)
KIN 482 Exercise Physiology (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; completion of KIN 250, BIOL 212 and BIOL 213, or equivalent, all with grades of C or better. Must be taken concurrently with KIN 483.

Examination of the acute physiological responses to exercise and the adaptations that occur with systematic exercise training.

KIN 483 Exercise Physiology Laboratory (Unit: 1)
Prerequisites: Upper division standing or consent of instructor; completion of KIN 250, BIOL 212 and BIOL 213, or equivalent, all with grades of C or better; must be taken concurrently with KIN 482.

Effects of various types of exercise on the body's physiological systems. Laboratory. (Plus-minus letter grade only)

KIN 485 Biomechanics (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; completion of GWAR requirements; completion of GE Area A and B4 requirements; PHYS 101/PHYS 102 or PHYS 111/PHYS 112, BIOL 220 or BIOL 328, KIN 250, KIN 480, all with grades of C or better.

Mechanical principles applied to analyzing human movement. Interaction of mover and physical environment, efficiency in tasks of daily living, work settings, sport, and exercise. (Plus-minus letter grade only)

KIN 486 Motor Learning (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4. Concurrent enrollment in an activity course is recommended.

Acquisition and development of motor skill with application to teaching and therapeutic intervention. Coordination, perception, task analysis, learning, and the facilitation of skill acquisition.

KIN 487 Motor Development (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.

Developmental perspective on the physical, psychological, and social factors which contribute to the acquisition of motor control and movement performance from the prenatal stage through old age.

KIN 488 Assessment in Physical Education (Units: 3)
Prerequisite: Completion of quantitative reasoning requirement with a grade of C or better or consent of instructor.

Testing and measuring performance; history of test construction and use; selected statistical methods; test administration and evaluation. Classwork, 2 units; laboratory, 1 unit.

KIN 489 History and Philosophy of Sport and Physical Activity (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.

History and philosophy of physical activity from ancient times to the early 20th century. Evolution of attitudes towards exercise and physical fitness.

KIN 490 Introduction to Sport and Fitness Program Management (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.

Introduction to the academic and professional field of sport and fitness administration and management by grounding students in the history, socio-cultural context, and structure of community and private fitness clubs and university, elite amateur, and professional sports organizations.

KIN 502 Sport and Social Issues (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly Segment I].

Influences of media, politics, economy, social attitudes on sport institutions from childhood practices to professional athletics. Race, gender, and social class perspectives.

KIN 504 Sport and Exercise Psychology (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.

Psychological factors influencing performance of physical activity in sport, exercise, educational, and rehabilitative settings, including social implications, theoretical perspectives, and application of research findings in the areas of sport and exercise psychology. (Plus-minus letter grade only)

KIN 510 Sport, Movement, and Screen Culture (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly GE Segment I].

Examination of how the cultural, political, psychological, and historical dimensions of sport and other forms of movement are portrayed in feature films and documentaries. Presentations of identify, power, performance, social justice, and the body are also analyzed.

KIN 536 Movement for Individuals with Mild Disabilities (Units: 4)
Prerequisites: Upper division standing or consent of instructor; KIN 250 with a grade of C or better and six units of upper division Kinesiology courses; and GE completion of Area A and GE Area B4.

Mild and moderate disabling conditions throughout the lifespan as they relate to the development and efficiency of movement. Implications for design and conduct of movement programs, inclusion and evaluation of individual needs. Classwork, 3 units; laboratory, 1 unit.

KIN 537 Movement for Individuals with Severe Disabilities (Units: 3)
Prerequisites: Upper division standing or consent of instructor; KIN 250 with a grade of C or better and six units of upper division Kinesiology courses; and GE completion of Area A and GE Area B4.

Severe and profound disabling conditions throughout the lifespan as they relate to the development and efficiency of movement. Implications for design and conduct of movement programs, inclusion, and evaluation of individual needs.

KIN 538 Therapeutic Exercise (Units: 3)
Prerequisites: Restricted to upper division standing; KIN 250 with a grade of C or better; KIN 482/KIN 483 or KIN 355, KIN 480; and GE completion of Area A and GE Area B4.

Fitness programming, conditioning, and stress reduction for individuals who are disabled. Factors that influence exercise and the disabled include positioning, use of assistive devices, specifically designed equipment, wheelchairs, and utilization of personal aids.

KIN 539 Motor Assessment of Individuals with Disabilities (Units: 3)
Prerequisites: Restricted to upper division standing; KIN 250 with a grade of C or better; KIN 536, KIN 537 recommended; and GE completion of Area A and GE Area B4.

Evaluation and diagnosis of motor ability problems for individuals with disabilities. Evaluation methods and the development of individual education plans.
KIN 555 Exercise Testing and Prescription (Units: 3)
Prerequisites: Upper division standing; KIN 189 or equivalent, KIN 480, KIN 482, KIN 483; or consent of instructor.
Principles and practices of prescribing exercise to healthy individuals, and individuals with conditions such as cardiac problems, asthma, diabetes, pregnancy, and physical disabilities. Assists in preparation for ACSM certification. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only.)

KIN 570 Directed Coaching Experience (Unit: 1)
Prerequisites: Upper division standing or consent of instructor; completion of the GE Area A4 requirement and two additional courses in GE Areas A and B4 [formerly GE Segment I]; completion of six units in the coaching sequence.
Assistant coaching experience, recreation leagues, youth, interscholastic or intercollegiate athletics. Site must be approved in advance. (CR/NC grading only)

KIN 580 Instructional Strategies for Middle and High School Physical Education, Grades 6-12 (Units: 3)
Prerequisites: Restricted to upper division standing; KIN 250 with a grade of C or better; KIN 486 or KIN 487, and ENG 214; and GE completion of Area A and GE Area B4. Must be taken concurrently with KIN 581.
Strategies and teaching styles to establish the environment for learning motor skills. Long- and short-term planning, class management and communication techniques, evaluation procedures, and basic legal considerations.

KIN 581 Practicum in Middle and High School Physical Education (Unit: 1)
Prerequisites: Restricted to upper division standing; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4. Enrollment in teaching credential program. Must be taken concurrently with KIN 580.
Directed experiences in teaching and coaching youth and adolescents in activities common to middle and high school physical education programs. (Plus-minus letter grade only)

KIN 620 Advanced Practicum in Kinesiology (Units: 2)
Prerequisites: Restricted to upper division standing or consent of instructor and associate chair; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4.
Individually directed experiences as student trainers, varsity sport managers, or special leadership assistants in kinesiology. [SCL may be available]

KIN 621 Advanced Practicum in Kinesiology (Units: 2)
Prerequisites: Restricted to upper division standing or consent of instructor and associate chair; KIN 250 with a grade of C or better; and GE completion of Area A and GE Area B4
Individually directed experiences as student trainers, varsity sport managers, or special leadership assistants in kinesiology.

KIN 630 Internship in Adapted Physical Education (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GWAR requirement; KIN 250 with a grade of C or better; and two additional courses of the GE Segment I requirements; KIN 536, KIN 537, KIN 538. Recommended: KIN 538 (may be taken concurrently).
Directed experiences with exceptional individuals participating in PE programs in schools or other agencies; supervised development of individual plans. Includes weekly seminars.

KIN 636 Neuromotor Control Processes (Units: 3)
Prerequisites: Upper division standing or consent of instructor; completion of GE Area A and B4 requirements; completion of GWAR requirement; KIN 486 with a grade of C or better.
Neuromuscular processes underlying coordination and control of movement in the context of skill. (Plus-minus letter grade only)

KIN 680 Quantitative Analysis of Human Movement (Units: 3)
Prerequisites: Upper division standing or consent of instructor; KIN 485 with a grade of C or better.
Quantitative analytic tools and techniques applied to movement. Identification and measurement of bio-mechanical correlates as means of understanding coordination and movement strategies in the context of development, learning, performance, and rehabilitation. (Plus-minus letter grade only)

KIN 681 Muscle Mechanics (Units: 3)
Prerequisites for KIN 781: Graduate standing; KIN 480 and KIN 482 or equivalent; or consent of instructor.
Prerequisites for KIN 681: Restricted to upper division standing; KIN 480, KIN 482/KIN 483, and KIN 485.
Basic and applied physiological properties of skeletal muscles, tendons and ligaments, in the context of the physiological adaptations from disease, injury, and training. (Plus-minus letter grade only)
(KIN 781/KIN 681 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

KIN 683 Applied Exercise Physiology (Units: 3)
Prerequisites: Upper division standing or consent of instructor; BIOL 220 or BIOL 328, BIOL 212, BIOL 213, KIN 384GW, KIN 482, and KIN 483 with grades of C or better; and GE completion of Area A and GE Area B4.
Application of basic exercise physiology principles to the enhancement of energy capacity, work tolerance under environmental stress, metabolic basis for weight and body composition control, and aging/health-related aspects of exercise. Classwork, 2 units; laboratory, 1 unit.

KIN 685 Projects in the Teaching of Kinesiology (Units: 1-3)
Prerequisites: Upper division standing in kinesiology; approval of associate chair and supervising instructor; and a grade of B or better in a course in which student will be an instructional aide.
Teaching experiences in kinesiology through assigned instructional projects in a classroom or laboratory, and under the guidance of a faculty member. Training in pedagogical principles, including supervised classroom teaching activities. Units may not be applied towards fulfilling major requirements. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

KIN 690 Internship in Fitness/Wellness (Units: 3)
Prerequisites: Upper division standing or consent of instructor; KIN 384GW, KIN 482, KIN 483, and KIN 490; and GE completion of Area A and GE Area B4. Prior completion of KIN 555 is strongly recommended. Attendance at MANDATORY meeting at the end of the semester PRIOR to enrollment is required. Dates and times will be posted in the gymnasium.
Work as a trainee with professionals in the field of fitness/wellness, and extend learning experiences beyond those acquired on campus.
KIN 696 Kinesiology Community-Based Internship (Units: 3)
Prerequisites: Upper division standing or consent of instructor; KIN 384GW, KIN 482, KIN 483, KIN 485, KIN 486, and KIN 504. Enrollment preference given to graduating seniors.

Kinesiology community-based internship with youth in underserved communities coupled with a theory-practice project. (Plus-minus letter grade only) [CSL may be available]

KIN 697 Integrative Research Seminar (Units: 2)
Prerequisites: Upper division standing; or consent of instructor; ENG 214, KIN 384GW, KIN 482, KIN 483, KIN 485, KIN 486; and GE completion of Area A and GE Area B4. Must be taken concurrently with KIN 698. Enrollment preference given to graduating seniors.

Critical analysis and research design to explore a topic in exercise and movement science from multidisciplinary perspective. (Plus-minus letter grade only)

KIN 698 Senior Research Project (Unit: 1)
Prerequisites: Upper division standing or consent of instructor; KIN 384GW, KIN 482, KIN 483, KIN 485, and KIN 486; and GE completion of Area A and GE Area B4. Must be taken concurrently with KIN 697. Enrollment preference given to graduating seniors.

Conduct an appropriate research study in the student's area of concentration.

KIN 699 Independent Study (Units: 1-3)
Prerequisites: Upper division standing; overall GPA of 3.0 or above; consent of associate chair and supervising instructor.

Intensive study of a particular problem under the direction of an instructor of the department. May be repeated for a total of 6 units. [CSL may be available]

KIN 710 Research in Kinesiology (Units: 3)
Prerequisites: Graduate standing; undergraduate degree in kinesiology; a computer and a statistics course; or consent of instructor.

Descriptive, quasi-experimental, experimental, and qualitative research in kinesiology. (Plus-minus letter grade only)

KIN 715 Research Designs and Analysis (Units: 3)
Prerequisite: KIN 710 or consent of instructor.

Designs and statistics in descriptive, experimental, quasi-experimental, and qualitative research. (Plus-minus letter grade only)

KIN 730 Advanced Biomechanics (Units: 3)
Prerequisites: Graduate standing; undergraduate course in biomechanics or kinesiology; or consent of instructor.

Techniques for qualitative and quantitative analysis of movement as a mean of understanding movement processes.

KIN 733 Motor Learning (Units: 3)
Prerequisites: Graduate standing; KIN 486 or equivalent, or consent of instructor.

Factors influencing the development and acquisition of motor skill from a multidisciplinary perspective. Current theory and research in motor skill is discussed with implications for practice. (Plus-minus letter grade only)

KIN 734 Physical Activity Programs for Underserved Youth (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

A survey of the theory and practice of physical activity-based programs for underserved youth that emphasize life skills and active learning. Understanding the theoretical dynamics of physical activity on youth development and its potential for practical application. (Plus-minus letter grade only)

KIN 736 Advanced Neuromotor Control (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Advanced neuromotor control will cover the current theories and underlying neurophysiology of motor control and learning. (Plus-minus letter grade only)

KIN 737 Physical Dimensions of Aging (Units: 3)
Prerequisites: Restricted to upper division Kinesiology majors; KIN 250, BIOL 220 or BIOL 328, and BIOL 212, all with grades of C or better; and GE completion of Area A and GE Area B4.

Study of the physical aspects of aging from a developmental perspective in the adult years; the role of exercise/activity in the maintenance of functionality; hypotheses of physical decline, implications of age-related physical changes for daily living and activity patterns. (KIN 737/KIN 437 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

KIN 740 Advanced Exercise Metabolism (Units: 3)
Prerequisites: Graduate standing; KIN 482 or equivalent, or consent of instructor.

Historical and contemporary evaluation of energy metabolism, nutrition, and neuromuscular functions.

KIN 742 Exercise and Cardiovascular Dynamics (Units: 3)
Prerequisites: Graduate standing; KIN 482 or equivalent; or consent of instructor.

Understanding the regulation of the cardiovascular system as it relates to regulatory mechanisms for acute and chronic exercise. (Plus-minus letter grade only)

KIN 746 Clinical Exercise Physiology (Units: 3)
Prerequisites: Graduate Standing; KIN 482 or equivalent; or consent of instructor.

Examination of acute and chronic responses to exercise in patients with various cardiac, pulmonary, metabolic, and musculoskeletal diseases. Emphasis is placed on physical activity epidemiology, the pathophysiology of the disease process, assessment of disease severity, and current literature examining the effectiveness of physical activity/exercise training as a treatment strategy. (Plus-minus letter grade only)

KIN 750 Curriculum and Instruction I: Physical Education (Units: 3)
Prerequisite: Admission to credential program or consent of instructor.

Principles and practices for teaching physical education, including planning of content and instruction with consideration of student learning and state standards. (Plus-minus letter grade only)

Course Attributes:

- Teacher Credential Program Crs
KIN 751 Curriculum and Instruction II: Physical Education (Units: 3)
Prerequisites: KIN 750; must be taken concurrently with S ED 660 or S ED 751.

Principles and practices for teaching physical education to all learners, with additional emphases on assessment, reflective practice, and technology. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

KIN 755 Exercise Electrocardiography, Testing, and Prescription (Units: 3)
Prerequisites: Graduate standing; KIN 482 or equivalent; or consent of instructor.

In-depth theoretical background for exercise, electrocardiography, testing, and prescription for individuals and groups in clinical, corporate, community and occupational settings. (Plus-minus letter grade only)

KIN 763 Motivation and Performance (Units: 3)
Prerequisite: Graduate standing; KIN 504 or equivalent; or consent of instructor.

Psychological perspectives of human performance and research findings in the areas of sport and exercise psychology; awareness of literature focused on the psychological dimension. (Not open to students who have completed KIN 663.) (Plus-minus letter grade only)

KIN 766 Sociocultural Bases of Physical Activity (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Sociocultural factors underlying participation in physical activity, sport, and exercise. Implications for the practitioner.

KIN 781 Muscle Mechanics (Units: 3)
Prerequisites for KIN 781: Graduate standing; KIN 480 and KIN 482 or equivalent; or consent of instructor.
Prerequisites for KIN 681: Restricted to upper division standing; KIN 480, KIN 482/KIN 483, and KIN 485.

Basic and applied physiological properties of skeletal muscles, tendons and ligaments, in the context of the physiological adaptations from disuse, injury, and training. (Plus-minus letter grade only)
(KIN 781/KIN 681 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

KIN 795 Seminar in Kinesiology (Units: 3)
Prerequisites: Completion of 15 advancement to candidacy (ATC) units; and completion of KIN 710 and KIN 715.

Interdisciplinary seminar on relevant kinesiology issues, areas of interest, problems, and future directions. Involves extensive analysis of recent and significant research. (Plus-minus letter grade only)

KIN 895 Master's Project in Kinesiology (Units: 3)
Prerequisite: Completion of core and concentration requirements; consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Development of a research question on a topic approved by faculty with literature review, methodology and statistical analysis. Includes proposal and oral presentation. Advancement to Candidacy and Proposal for Culminating Experience Requirement must be approved by Graduate Studies before registration. (CR/NC grading only)

KIN 896 Directed Reading in Kinesiology (Units: 3)
Prerequisites: Completion of 21 units on the ATC; consent of adviser and instructor.

Integrating information in movement and exercise science or a significant issue. May be repeated once for a total of 6 units.

KIN 897 Independent Research in Kinesiology (Units: 3)
Prerequisites: KIN 710, KIN 715 or equivalent; twelve graduate units completed in M.A. program; and consent of graduate adviser.

Independent, original research investigation supervised by a graduate adviser. For students who selected the thesis culminating experience. (CR/NC grading only)

KIN 898 Master's Thesis (Units: 3)
Prerequisites: Classified graduate status for the Master of Arts; KIN 897; and consent of graduate major adviser and instructor; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

KIN 899 Independent Study (Units: 1-3)
Prerequisites: Graduate standing with demonstrated ability to do independent work and consent of adviser and supervising instructor.

Independent study or research is planned, developed, and completed under the direction of a faculty member. May be repeated for a total of six units. (CR/NC grading only)
Labor Studies (LABR)

LABR 250 Introduction to the Study of Labor (Units: 3)
The study of labor in the United States. The nature of work, the
development and characteristics of the workforce, the history and
present nature of labor organizations, and patterns of labor-management
relationships.
Course Attributes:
• D1: Social Sciences
• Global Perspectives

LABR 251 Know Your Work Rights (Units: 3)
Hands-on approach to understanding basic statutory protections
covering California workers, including wage and hour; workplace
safety, health, and sanitation; workers’ compensation; discrimination;
union activity; pregnancy and parental leave; discipline and discharge;
unemployment and disability insurance; social security, health, and
pension benefits.
Course Attributes:
• D1: Social Sciences
• Social Justice

LABR 300 Researching Labor Issues (Units: 3)
Prerequisite: LABR 250.
Methods of research and analysis used in understanding labor issues.
Case studies and contemporary issues selected from such areas as
collective bargaining, arbitration and mediation, legislation, regulative
and administrative law, employment discrimination and union governance.

LABR 343 Women and Work (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Position and roles of women in the productive activities of society:
paid and unpaid. Patterns of household and workplace employment,
discrimination in pay and working conditions, relevant laws, explanations
for the evolution of patterns.
(This course is offered as LABR 343 and ANTH 343. Students may not
repeat the course under an alternate prefix.)

LABR 394 Political Theories of Work, Labor and Free Time (Units: 4)
Prerequisite: Upper division standing
Examination of the tension between the desire to work and to be free
from work looking at texts from liberalism, Marxism, feminism and critical
theory. Questions to explore include the following: Has this tension
always existed and how might it be overcome? Where and when did
people begin to prioritize paid work over all else? What constitutes "work"
and who decides? Is work different than labor?
(This course is offered as PLSI 394 and LABR 394. Students may not
repeat the course under an alternate prefix.)

LABR 473 Unfree Labor in Early America (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent
of instructor.
An examination and comparison of various forms of unfree labor in
early America from the colonial period to the Civil War, tracing change
time and investigating the relationship among economic systems,
ideology, and social relations.
(This course is offered as HIST 473, ETHS 473, and LABR 473. Students
may not repeat the course under an alternate prefix.)

LABR 474 History of Labor in the United States (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent
of instructor.
Development of the workforce and organized labor in the U.S. Social and
economic characteristics of work and the workforce; characteristics of
labors organizations at different times.
(This course is offered as HIST 474, ECON 474, and LABR 474. Students
may not repeat the course under an alternate prefix.)

LABR 500 Labor and Government (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Exploration of labor-government relations at local, state, and national
levels. Consideration of labor’s political action in relation to legislative,
executive, and judicial branches of government and in the electoral
process; examination of government’s responses as they protect or
restrict labor’s interest.
(This course is offered as LABR 500 and PLSI 500. Students may not
repeat the course under an alternate prefix.)

LABR 510 Labor Economics (Units: 3)
Prerequisite: ECON 101 or consent of instructor.
Analysis of the operation of the labor market. Theories of wages,
unemployment, unions and income distribution.
(This course is offered as ECON 510 and LABR 510. Students may not
repeat the course under an alternate prefix.)

LABR 511 Collective Bargaining (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Collective bargaining, legislation; case studies in labor law.
(This course is offered as ECON 511 and LABR 511. Students may not
repeat the course under an alternate prefix.)

LABR 525 Diversity in the Workplace (Units: 3)
Prerequisite: Upper division standing.
An overview of workplace diversity and strategies to utilize it positively.
Theoretical debates and issues related to race, ethnic origin, gender,
sexual orientation, class, age, and disability. Ways in which individuals
and organizations can maximize benefits through respecting and working
with diversity.
(This course is offered as LABR 525 and ANTH 525. Students may not
repeat the course under an alternate prefix.)

LABR 550 International Labor (Units: 3)
Prerequisites: Upper division standing; LABR 250 or consent of instructor.
Analysis of labor's role in the developed economies, East and West, and
in developing areas. Theoretical perspectives on international labor.
Migration and population as they relate to labor. Impact of trade treaties
on labor markets.
(This course is offered as LABR 550 and IR 450. Students may not repeat
the course under an alternate prefix.)

LABR 552 Comparative Employment Relations (Units: 3)
Prerequisite: Upper division standing.
Introduction to the concept of the employment relationship, the main
"models" and their key actors; diversity at work to international labor
rights and how they are approached and practiced in different countries.
(This course is offered as LABR 552 and SOC 552. Students may not
repeat the course under an alternate prefix.)
LABR 553 Labor Standards and Corporate Social Responsibility (Units: 3)
Prerequisite: Upper division standing.
Introduction to an overview of recent academic debates on Corporate Social Responsibility, International Labor Standards and "decent work." Codes of conduct, monitoring, and certification/labeling/ transparency. (This course is offered as LABR 553 and SOC 553. Students may not repeat the course under an alternate prefix.)

LABR 554 Themes in Comparative Employment Relations (Units: 3)
Prerequisite: Upper division standing.
Introduction to the main "models" that have been used in comparative analysis of national systems of employment relations; the Anglo-Saxon, Japanese, and European social models; discussion of the appropriateness of these models in understanding transforming economies. (This course is offered as LABR 554 and SOC 554. Students may not repeat the course under an alternate prefix.)

LABR 555 Labor Rights in the Global Economy (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Key themes concerning labor rights in the global economy; focus on core labor rights identified by the UN: freedom of association, freedom from child labor; freedom from coerced labor, and freedom from discrimination. (This course is offered as LABR 555 and SOC 555. Students may not repeat the course under an alternate prefix.)

LABR 570 Urban Health Policy (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Political economy of urban health system. Critical review of urban health policy; analysis of alternatives. Politics of health care reform. Particular needs of women and communities of color. (This course is offered as USP 570, LABR 570, and PLSI 570. Students may not repeat the course under an alternate prefix.)

LABR 650 Labor Law: An Introduction and Overview (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
An overview of the history and development of the National Labor Relations Act, public sector and farm labor law, Taft-Hartley, Landrum Griffin Act, and benefit legislation.

LABR 695 Union Internship (Units: 1-3)
Prerequisite: LABR 250 or consent of instructor.
Internship with Bay Area labor organization. May involve organizing, research, or participation in special projects. May be repeated for a total of 6 units. (CR/NC grading only)

LABR 699 Independent Study (Units: 1-3)
Prerequisites: Consent of instructor, major adviser, and department chair.
Supervised study of a particular problem selected by the student.
Latin (LATN)

LATN 101 Elementary Latin (Units: 3)
Latin language and grammar with emphasis on reading classical prose. Groundwork for master works of Latin poetry and prose.
Course Attributes:
- C2: Humanities
- Global Perspectives

LATN 202 Intermediate Latin (Units: 3)
Prerequisite: LATN 101 or equivalent.
Understanding, reading, writing at the intermediate level. Reading selections from prose and poetry.

LATN 301 Introduction to Latin Prose and Poetry (Units: 3)
Prerequisite: Successful completion of LATN 202 or consent of instructor.
Reading, translation and literary analysis of Latin passages, alongside grammar and vocabulary review.

LATN 430 Roman Satire (Units: 3)
Prerequisite for LATN 730: Intermediate Latin or equivalent.
Prerequisite for LATN 430: LATN 202 or equivalent.
Translation and analysis from the satires of Horace, Juvenal, Persius, and Petronius; Satiricon and epigrams of Martial; Roman satire and critical approaches.
(LATN 730/LATN 430 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 436 Roman Novel (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman novels. Discussion of historical context.
(LATN 736/LATN 436 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 440 Roman Philosophy (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman philosophical works. Discussion of historical context.
(LATN 740/LATN 440 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 441 Roman Oratory and Rhetoric (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman speeches and works of rhetorical theory. Discussion of historical context.
(LATN 741/LATN 441 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 445 Latin Epic I (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Latin epic poetry, with a focus on Vergil’s Aeneid 7-12 and/or Ovid’s Metamorphoses. Discussion of poetic models and historical context.
(LATN 745/LATN 445 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 446 Latin Epic II (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Latin epic poetry with a focus on Vergil’s Aeneid 1-6. Discussion of poetic models and historical context.
(LATN 746/LATN 446 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 450 Roman Drama (Units: 3)
Prerequisite for LATN 750: Intermediate Latin or equivalent.
Prerequisite for LATN 450: LATN 202 or equivalent.
Translation and analysis from the works of Plautus, Terence, Seneca; performance of ancient comedy, tragedy.
(LATN 750/LATN 450 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 455 Latin Elegy and Lyric I (Units: 3)
Prerequisites for LATN 755: Graduate standing; reading knowledge of Latin.
Prerequisites for LATN 455: Upper division standing and a GPA of at least 3.0; or consent of instructor.
Translation and analysis of Latin lyric and elegiac poetry, with a focus on Catullus, Propertius, Tibullus, and Horace. Discussion of historical context.
(LATN 755/LATN 455 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 456 Latin Lyric and Elegy II (Units: 3)
Prerequisites for LATN 756: Graduate standing; reading knowledge of Latin; or consent of instructor.
Prerequisites for LATN 456: Upper division standing or consent of instructor; reading knowledge of Latin.
Translation and analysis of Latin lyric and elegiac poetry, with a focus on Ovid, Martial, and Statius. Discussion of historical context.
(LATN 756/LATN 456 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 460 Roman Historiography I (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman historiographical texts, with a focus on authors from the republican period and early principate. Discussion of literary models and historical context.
(LATN 760/LATN 460 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 461 Roman Historiography II (Units: 3)
Prerequisites for LATN 761: Graduate standing or consent of instructor; reading knowledge of Latin.
Prerequisites for LATN 461: Upper division standing or consent of instructor; reading knowledge of Latin.
Translation and analysis of Roman historiographical texts, with a focus on authors from the imperial period. Discussion of literary models and historical context.
(LATN 761/LATN 461 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
Projects requiring critical study and analysis of advanced material adapted to individual needs and interests. May be repeated.
LATN 730 Roman Satire (Units: 3)
Prerequisite for LATN 730: Intermediate Latin or equivalent.
Prerequisite for LATN 430: LATN 202 or equivalent.
Translation and analysis from the satires of Horace, Juvenal, Persius, and Petronius; Satiricon and epigrams of Martial; Roman satire and critical approaches.
(LATN 730/LATN 430 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 735 Roman Epistemology (Units: 3)
Prerequisite: Reading knowledge of Latin.
Advanced approaches to translation and analysis of Roman letters. Discussion of historical context.

LATN 736 Roman Novel (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman novels. Discussion of historical context.
(LATN 736/LATN 436 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 740 Roman Philosophy (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman philosophical works. Discussion of historical context.
(LATN 740/LATN 440 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 741 Roman Oratory and Rhetoric (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman speeches and works of rhetorical theory. Discussion of historical context.
(LATN 741/LATN 441 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 745 Latin Epic I (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Latin epic poetry, with a focus on Vergil's Eclogues, Georgics, and/or Aeneid 1-6. Discussion of poetic models and historical context.
(LATN 745/LATN 445 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 746 Latin Epic II (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Latin epic poetry with a focus on Vergil's Aeneid 7-12 and/or Ovid's Metamorphoses. Discussion of poetic models and historical context.
(LATN 746/LATN 446 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 750 Roman Drama (Units: 3)
Prerequisite for LATN 750: Intermediate Latin or equivalent.
Prerequisite for LATN 450: LATN 202 or equivalent.
Translation and analysis from the works of Plautus, Terence, Seneca; performance of ancient comedy, tragedy.
(LATN 750/LATN 450 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 755 Latin Elegy and Lyric I (Units: 3)
Prerequisites for LATN 755: Graduate standing; reading knowledge of Latin.
Prerequisites for LATN 455: Upper division standing and a GPA of at least 3.0, or consent of instructor.
Translation and analysis of Latin lyric and elegiac poetry, with a focus on Catullus, Propertius, Tibullus, and Horace. Discussion of historical context.
(LATN 755/LATN 455 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 756 Latin Lyric and Elegy II (Units: 3)
Prerequisites for LATN 756: Graduate standing; reading knowledge of Latin; or consent of instructor.
Prerequisites for LATN 456: Upper division standing or consent of instructor; reading knowledge of Latin.
Translation and analysis of Latin lyric and elegiac poetry, with a focus on Ovid, Martial, and Statius. Discussion of historical context.
(LATN 756/LATN 456 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 760 Roman Historiography I (Units: 3)
Prerequisite: Reading knowledge of Latin.
Translation and analysis of Roman historiographical texts, with a focus on authors from the republican period and early principate. Discussion of literary models and historical context.
(LATN 760/LATN 460 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 761 Roman Historiography II (Units: 3)
Prerequisites for LATN 761: Graduate standing or consent of instructor; reading knowledge of Latin.
Prerequisites for LATN 461: Upper division standing or consent of instructor; reading knowledge of Latin.
Translation and analysis of Roman historiographical texts, with a focus on authors from the imperial period. Discussion of literary models and historical context.
(LATN 761/LATN 461 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

LATN 899 Independent Study (Units: 1-3)
Prerequisites: Advanced reading knowledge of Latin and consent of supervising faculty member.
Advanced reading of an ancient Latin author or authors, under the supervision of a member of the Classics faculty. Enrollment by petition. May be repeated for a total of 6 units.
Latina/o Studies (LTNS)

LTNS 110 Critical Thinking in Latina/o Studies (Units: 3)
Developing basic skills involved in understanding, criticizing, and constructing arguments by using materials reflective of experience of Raza and the Third World culture in the U.S. (Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
- A3: Critical Thinking
- Am. Ethnic & Racial Minorities
- Social Justice

LTNS 205 Cyber Raza: Culture and Community On-line (Units: 3)
The emerging interrelationship of culture, community, and the Internet with critical analysis of key information age issues. Internet research skills, a basic understanding of on-line technology, web development skills, and critical understanding of the role of technology for Raza. [CSL may be available]

LTNS 210 Latina/Latino Health Care Perspectives (Units: 3)
Diseases and health conditions that are prevalent in underserved populations; socio-economic, political, racial, cultural, and environmental factors that influence conditions in Raza communities in the U.S. [CSL may be available]

Course Attributes:
- Am. Ethnic & Racial Minorities
- Environmental Sustainability
- Global Perspectives
- Social Justice

LTNS 211 Latina/o Families Narrative (Units: 3)
The psychological structure of the family; psychodynamics of family relationships in light of particular subcultural influences characteristic of La Raza ethnic background. Sex-role delineations.

Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

LTNS 215 Introduction to Latina/o Studies (Units: 3)
Philosophy, methodology, and structure of Raza studies. Relations between the Raza community and American institutions of higher education. [CSL may be available]

LTNS 222 Latina/o Art History (Units: 3)
Conceptual and technical aspects of the visual arts movements in Latin America from 1900-present and its developmental relationship to values, cultural identity, and artistic expression of Raza communities in the U.S. [CSL may be available] [Formerly LTNS 320]

Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives

LTNS 225 Survey of Latina/o Visual Images (Units: 3)
Survey of Latina/o images in television, film, advertising, magazines, murals, and online media. Analysis of how visual culture reproduces ideology and/or challenges power structures.

Course Attributes:
- Am. Ethnic & Racial Minorities
- Social Justice

LTNS 230 Introduction to Latina/o Literature (Units: 3)
Background in Chicano/Latino literature. Readings from all the major Latino groups; emphasis on culture, politics, and gender as seen through fiction.

Course Attributes:
- E1: Lifelong Learning Develop
- C3: Humanities: Literature
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

LTNS 265 Topics in Latina/o History (Units: 3)
Introduction to the history of Latinos/as in the U.S. Analysis of the social, political, and economic conditions that give rise to multiple migrations. [CSL may be available]

Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

LTNS 270 Latina/o Arts and Humanities (Units: 3)
Latin American and southwestern cultural experience. Various ethnic groups in Latin America and their contributions to the values, culture, oral history, and traditions of La Raza in the U.S.

LTNS 276 Latina/o, U.S. Government, and Constitutional Ideals (Units: 3)
Basic governmental/political institutions and underlying socio-political ideals. Raza impact on legal-constitutional America and countervailing impact of political-legal structures imposed on Raza. [CSL may be available]

Course Attributes:
- U.S. Govt CA State Local Govt
- D3: Social Sciences: US CA Gov
- Am. Ethnic & Racial Minorities

LTNS 278 History of Latinos in the U.S. (Units: 3)
Examination of the social-cultural, economic, and political foundations of Latino history from the Spanish colonial period to the present. (This course is offered as LTNS 278 and HIST 278. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- U.S. History
- D2: Social Sciences: U.S. Hist
- Am. Ethnic & Racial Minorities
- Social Justice

LTNS 280 Transculturation and Latina/o Communities (Units: 3)
Socio-psychological impact of the acculturation/assimilation process on the Latino in the U.S.
LTNS 286 Policy Making and Latinos (Units: 3)
Prerequisite: Satisfactory completion of U.S. Government requirement (LTNS 276 or equivalent), or consent of instructor.
Analysis of the policy making process, the goals of policy, and the ways to influence policy. Examination of Latino political muscle, the barriers to representation, and critical issues confronting the Latino population in the United States. [Formerly LTNS 525]

LTNS 305 Latina/o Studies Creative Writing Workshop (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Instruction and practice in all forms of writing with an emphasis on bilingual creations. Taught bilingually (Spanish/English).
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Am. Ethnic & Racial Minorities
  • Global Perspectives

LTNS 315 Latina/os in California (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Overview of the Latina/o experience in California from the Mexican-American War to contemporary times. [CSL may be available]
Course Attributes:
  • Am. Ethnic & Racial Minorities
  • Social Justice

LTNS 355 Black-Indians in the Americas (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examines factors impacting on multiracial identity formation among Native communities throughout the Americas with a specific focus on Black-Indians; explores concepts and theories regarding blood quantum, sovereignty, and land rights, and the social, legal, and political understanding of mixed-race Native Americans. (This course is offered as AIS 350, AFRS 350, and LTNS 355. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  • UD-D: Social Sciences
  • Am. Ethnic & Racial Minorities

LTNS 380 Afro/Latina/o Diasporas (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the history and experiences of Afro/Latina/o diasporic communities in the U.S. and history of African peoples in Latin America and the Caribbean.
Course Attributes:
  • UD-D: Social Sciences
  • Am. Ethnic & Racial Minorities
  • Global Perspectives

LTNS 409 Latina/o Cinema (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of Latino history using Latino themed and produced film. The power of stereotypes, global dissemination of film and examples of the ways in which Latin American and U.S. Latina/o filmmakers respond to stereotypes by creating cinematic counter-discourses. (This course is offered as LTNS 409 and CINE 409. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Am. Ethnic & Racial Minorities
  • Global Perspectives
  • Social Justice

LTNS 410 Seminar on Gender and Latinas/os (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Political, social, economic, and cultural influences affecting the Raza woman in the U.S. and Latin America. [CSL may be available]

LTNS 415 Economic Progress of Latinos in the U.S. (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Critical analysis of the changing political and economic condition of the Mexican-American people. Historical changes in land tenure, barrioization, racialization of labor impact of current political economy on an increasingly diverse Raza community. [CSL may be available]

LTNS 425 Popular and Traditional Music of the Latina(o) Diaspora (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Music and culture pertained to Latino communities in the U.S. and Latin American music genres that have influence in the U.S.; diverse musical styles and cultures and how they shape music. [CSL may be available]
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Am. Ethnic & Racial Minorities
  • Global Perspectives

LTNS 430 Race, Crime, and Justice (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Ethnic studies methods and cross-cultural perspectives examine the rise of institutions of law enforcement, juvenile and criminal justice, case studies, life histories, community service learning internships. [CSL may be available] (This course is offered as LTNS 430 and C J 435. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  • UD-D: Social Sciences
  • Social Justice

LTNS 435 Oral History Methods: Theory and Practice (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Latin American and Southwestern U.S. popular culture. Ethnic groups in Latin America and their contributions to the oral history and traditions of Raza in the U.S. [CSL may be available]
LTNS 440 Caribbean Cultures and Spirituality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Cultural and religious traditions of Caribbean peoples. Historical analysis of indigenous, European, and African influences in Caribbean cultural expressions from Cuba to Brazil. Contemporary cultures, inter-ethnic relations, spirituality, religious systems, and artistic expressions.

LTNS 445 Gendered Borders: Latinas and Globalization (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Gender and globalization: moving society toward borderless economies with barricaded borders. Latinas struggle for fair wages, self-determination, and healthy families. Women living in U.S. and Latin America adjusting to transnational reality. (This course is offered as LTNS 445 and WGS 445. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

LTNS 450 Indigenismo: Indigenous Cultures of the Americas (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Culture and traditions of indigenous peoples of Latin America. Contemporary society, traditional medical systems, healing methodologies, religion, sorcery, magic, etc. and its relationship to La Raza in the U.S.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Environmental Sustainability
• Global Perspectives

LTNS 455 Resistance Literature of the Americas (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
History of the literature of Resistance. Theories of deconstruction, post-modernism, and gender. Creative applications used to resist colonialism, imperialism, patriarchy, sexual taboos, and literary canons. Difference between Resistance literature and propaganda.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

LTNS 460 Central Americans of the U.S.: History and Heritage (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Developmental relationship between U.S. communities of Central American origin and historical, socio-economic, and cultural factors of contemporary Central America; nationalistic movements, migrations to U.S., economic dependence, social change, art, and society.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

LTNS 465 Mexican-Americans: History and Heritage (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the history of Mexican-Americans (Chicanos) in the U.S.

LTNS 467 Caribbean in the U.S.: History and Heritage (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the history of the Spanish Caribbeans in the U.S.
Course Attributes:
• Global Perspectives
• Social Justice

LTNS 470 Latina/o Immigration to the U.S. (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Theoretical, historical, socioeconomic, legal, and political issues of Latin American immigration patterns to the U.S. Socioeconomic and political impact of documented and undocumented immigration to Raza communities and mainstream U.S. society. [CSL may be available]
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

LTNS 475 Aztec Philosophy (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Philosophical foundations of the Aztec world view; relationship between the deities and humans; view of the relationship between body, mind, and spirit.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
LTNS 485 Latina/o Youth, Crime, and Justice (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of Latino juvenile justice, the myths and realities, and the
overincarceration of Latino youth: its sources, costs, and consequences;
and impact on individuals, families, and communities. Latino experiences
with schooling, police, gangs, drugs, "juvie," and caseworkers are covered.
[CSL may be available]
(This course is offered as LTNS 485 and C J 485. Students may not repeat
the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Social Justice

LTNS 487 Mexican Migrations: A Social History (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the historical and contemporary social and legal effects
of immigration flows and deportations by focusing on the development
of the U.S.-Mexico border, U.S. immigration policies, gendered migrations,
and U.S. definitions of belonging as well as exclusion in relation to
Mexican immigration communities.
(This course is offered as SOC 487 and LTNS 487. Students may not
repeat the course under an alternate prefix.)

LTNS 490 Latina/o Teatro Workshop (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Works by Raza playwrights. Raza theater, its development and how it
relates to the cultural aspects of Raza people. May be repeated for a total
of 6 units.

LTNS 500 Latina/o Community Mental Health (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Mental health services throughout the Bay Area: determine whether these
services are relevant to the Raza community. How the Raza student
views him/herself and relationships with others in and outside the
culture.

LTNS 501 Latin America: The National Period (Units: 3)
Prerequisites: Upper division standing or consent of instructor; ENG 214
or equivalent.
Latin America since independence (c. 1825). Histories of Latin American
peoples: culture, race relations, women, political oppression and
resistance, the economy, and development.
(This course is offered as HIST 501, ANTH 501, and LTNS 501. Students
may not repeat the course under an alternate prefix.)

LTNS 505 Gender, Sexuality, and Latino Communities (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to the social organization of gender and sexuality in Latino
communities; exploration of ways gender and sexuality are given specific
cultural meaning among the pan-Latino population.
(This course is offered as LTNS 505 and WGS 505. Students may not
repeat the course under an alternate prefix.)

LTNS 520 North and South American Cultural Expression (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Values, ideas, and creative styles of North and South American cultures
through comparisons of literary artistic and architectural creations from
each culture.
(This course is offered as HUM 520 and LTNS 520. Students may not
repeat the course under an alternate prefix.)

LTNS 530 Latina/os and the Media (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of mass media representation of and marketing to Latinas/
os. Development of media literacy skills to think critically about Latina/
/o racialization in U.S. media. Analysis of Latina/o oriented media that
purports to offer an alternative to mass media.
Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Social Justice

LTNS 533 History of Women in Latin America (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent
of instructor.
History of the changing roles of women in Latin America from the colonial
period to the present.
(This course is offered as HIST 535, WGS 535, and LTNS 533. Students
may not repeat the course under an alternate prefix.)

LTNS 536 Latina/o Journalism (Units: 3)
Prerequisite: LTNS 530.
Overview of U.S. Latina/o journalism from the mid-1800s to the present
day, provides insight into the ways in which Latina/os have utilized
journalism as a way to merge activism and community formation. [CSL
may be available]
(This course is offered as LTNS 536 and JOUR 536. Students may not
repeat the course under an alternate prefix.)

LTNS 560 Contemporary Latina/o Literature (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Literature produced by the people of Raza both in the U.S. and in Latin
America during this century. Writings produced since 1950; ways in which
the writers of Raza are expressing and furthering the movement of their
people.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice
LTNS 580 Educational Equity (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Is education the great equalizer? Educational equity and policy issues, including institutional racism, school finance, recruitment/retention of under-represented students, language. [CSL may be available]
(This course is offered as LTNS 580, SOC 580, and RRS 580. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

LTNS 640 Sociology of the Latino Experience (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
A comprehensive introduction to sociological perspectives on the Latino/Latina experience in the United States. Historical and structural in approach.
(This course is offered as LTNS 640 and SOC 640. Students may not repeat the course under an alternate prefix.)

LTNS 660 Latina/o Politics (Units: 3)
Prerequisite: LTNS 276 or consent of instructor.
Introduction to Latino politics focusing on equity, labor, immigrant rights, and voter-based movement. Review theory, history, legislation, multiple agency, and collective action while covering central issues of politics and power for the growing Raza population of California and the U.S. [CSL may be available]
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

LTNS 670 Mexican Politics and Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Peoples, politics, and cultures of Mexico; implications of rapid change in Mexico for California and the U.S. [CSL may be available]
(This course is offered as LTNS 670 and PLSI 408. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

LTNS 679 Central American Literature: Roots to the Present (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Central American literature, from earliest indigenous manuscripts, such as the Popol Vuh, to contemporary writers like Sergio Ramirez and Claribel Alegría. Writers and poets from 1960 to the present.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

LTNS 680 Latina/o Community Organizing (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Raza and community organizing; mobilization and action toward the resolution of community problems; elements and techniques of organizing; development of leadership and community resources; acquisition and direction of power; analysis of the existing organizations and their definitions of community priorities and goals. [CSL may be available]

LTNS 685 Projects in the Teaching of Latina/o Studies (Units: 1-4)
Prerequisites: Upper division standing and consent of instructor.
A cademic service learning practicum/internship experience as an undergraduate instructional aide. Participation in the teaching of a regular instructionally-related class. Limited to undergraduate students only. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

LTNS 690 Community Fieldwork in Latina/o Studies (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Assignment to off-campus community organizations in consultation with a faculty adviser. Development of knowledge, experience, and training in community organizations. To accompany or follow LTNS 680. May be repeated for a total of 6 units. [CSL may be available]

LTNS 692 Cuba: Health, Education, and Culture (Units: 3)
Prerequisites: Written application, interview, level of participation.
Offered during the fall semester and culminates in a January study tour of Cuba. Combines community service learning with an international experience. [CSL may be available]

LTNS 693 Cuba: Community Service Learning (Units: 3)
Prerequisite: LTNS 692 (may be taken concurrently) or consent of instructor.
Study of contemporary U.S.-Cuba issues through readings, discussions, films, speakers, and community service learning. Focus on organizing the itinerary for the Cuba travel study and service learning with community agencies. [CSL may be available]

LTNS 694 Community Service Learning (Units: 1-3)
Prerequisites: Upper division standing or consent of instructor; must be taken concurrently with any LTNS course supporting community service learning.
Community service learning activity course. May be repeated for a total of 6 units. [CSL may be available]

LTNS 699 Independent Study (Units: 1-3)
Prerequisites: Approval of department and consent of instructor.
An intensive study of a particular problem in Latina/o studies under the direction of a member of the department. LTNS 699 is repeatable for a maximum of 6 units.

LTNS 707 Seminar in Latina/o Studies (Units: 3)
Prerequisite: Consent of instructor.
Introduction to the scholarly literature in Latina/Latino Studies. While interdisciplinary and multidisciplinary in scope, it is largely anchored in the social sciences and history.
Liberal & Creative Arts (LCA)

LCA 101 First Year Experience in Creative Arts (Units: 3)
Exploration of the creative arts’ role in culture. Focus on integration of creative thinking modalities with critical thinking skills to enhance artistic scope, study efficiency, and academic performance. Introduction to campus resources for learning and for personal growth. (Plus-minus ABC/NC grading only) [Formerly CA 101]

LCA 380 Arts and Social Change (Units: 3)
Prerequisite: ENG 114 or equivalent.

Arts expression in media, performance, and visual arts as voices of cultural diversity, enhancement, and change. [Formerly CA 380]

LCA 499 Culminating Experience Continuous Enrollment (Unit: 0)
[Formerly CA 499]

LCA 514 Preparation for Graduate Writing (Units: 3)
Prerequisites: Graduate standing and must be recommended by student’s graduate program or consent of instructor.

Designed for students who need to improve their writing proficiency in preparation for graduate-level work. May not be used to meet master’s degree ATC requirements. (CR/NC grading only) [Formerly CA 514]

LCA 576 Entertainment Industry Media Internship Program (Units: 1-3)
Prerequisite: Introductory media course or consent of instructor. CSU students enrolled in the CSU Entertainment Industry Initiative Media Internship Program (EI/MIP).

Internship experience in professional entertainment industry organization designed to serve students who do not have an internship program available in their home department. May be repeated for 9 units. (This course is delivered online only.) [Formerly CA 576]

LCA 725 Academic Advising in the Liberal and Creative Arts (Units: 3)
Prerequisite: Graduate standing or senior with consent of instructor.

Academic advising in the liberal and creative arts with attention to theories, current trends, and best practices. Advising internship in the LCA Student Achievement & Resource Center.
Liberal Studies (LS)

LS 300GW Perspectives on Liberal Studies - GWAR (Units: 3)
Prerequisite: ENG 214 or equivalent with a grade of C- or better. Enrollment priority for Liberal Studies majors.

Basic preparation for interdisciplinary study. Draws on language arts, mathematics, science, social sciences, humanities, and creative arts to prepare students for advanced work in Liberal Studies and for careers requiring breadth and depth of knowledge. (ABC/NC grading only) [CSL may be available]

Course Attributes:
- Graduation Writing Assessment

LS 304 Making Comics (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Introduction to the hands-on making of comics. Focus on in-class exercises and small projects in making comics alongside analysis of comics. Promotes understanding of how to communicate in comics and discover working methods that best work for them.

LS 309 Physical Sciences for Elementary School Teachers (Units: 3)
Prerequisite: Completion of the Physical Sciences GE requirement.

Designed for prospective elementary/middle school (K-8) teachers. Understanding through inquiry the structure and property of matter and principles of motion and energy. Classwork, 2 units; laboratory, 1 unit.

LS 310 Physics for Future Elementary School Teachers (Units: 3)
Prerequisite: Completion of lower-division physical science GE or consent of instructor.

Designed for prospective elementary/middle school (K-8) teachers. Understanding through inquiry-based instruction the principles of motion and energy in compliance with Next Generation Science Standards and Common Core.

LS 400 Social Sciences Core I (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

An interdisciplinary approach to the scientific study of human social behavior. Exploration of the similarities and differences between the social science disciplines of anthropology, psychology, and sociology with respect to their subject matter, concepts, models, and research approaches. [Formerly SS 300]

LS 401 Social Sciences Core II (Units: 3)
Prerequisite: Upper division standing.

An interdisciplinary social science approach to the disciplines of history, geography, economics and political science with regard to their subject matter, concepts, models, and research approaches. Considers the prospects and problems of interdisciplinary vs. disciplinary social analysis. [Formerly SS 301]

Course Attributes:
- UD-D: Social Sciences
- Environmental Sustainability
- Global Perspectives

LS 403 Performance and Pedagogy of the Oppressed for Educators (Units: 3)
Prerequisite: CWL 214 or ENG 214 or equivalent.

Examination of theories of Augusto Boal and Paulo Freire and their application for educators and community activists. (This course is offered as LS 403 and COMM 557. Students may not repeat the course under an alternate prefix.)

LS 426 Thought and Image: Creative Arts (Units: 3)
Prerequisite: ENG 114 or equivalent.

Works in the creative arts and humanities studied in terms of the unique ways the meanings, values, and forms reflect their cultures of origin. Works from at least two global cultures will be included. [Formerly CA 426]

LS 430 Future of the Forests (Units: 3)
Prerequisites: ENG 214 or equivalent; one course in college-level biology.

Ecological and social dimensions of Western-Hemisphere forests; forest ecology and science; socio-political relations of industries to forest decline and with minority forest dwellers and laborers; sustainability and the future role of forests.

Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability
- Global Perspectives

LS 460 Childhood, Nature, and Society (Units: 3)
Prerequisites: Upper division standing and ENG 214 or equivalent.

Exploration of the relationship between childhood and nature in pre- through-post industrial societies using theory, research and methods from the social sciences. [CSL may be available] [Formerly S S 460]

LS 681 Community Service Learning in the Schools (Units: 3)
Prerequisite: Upper division standing.

Projects in history and social studies learning at the K-12 level. Meets state early field experience requirement for multiple and single subject credential program admissions. May be repeated for a total of 6 units. [CSL may be available]

(This course is offered as LS 681 and HIST 681. Students may not repeat the course under an alternate prefix.)

LS 690 Liberal Studies Senior Seminar (Units: 3)
Prerequisites: Senior standing; LS 300GW.

Interdisciplinary theory, research, and practice. Examination of key questions and complex problems from multiple perspectives through preparation of a substantial piece of work.

LS 699 Independent Study (Units: 1-3)
Prerequisites: Upper liberal studies major; and consent of instructor;

Independent inquiry into a specific interdisciplinary issue or problem formulated by the student and approved and supervised by a member of the Liberal Studies faculty.
Management (MGMT)

MGMT 354 Starting a Small Business (Units: 3)
Prerequisite: ENG 214 or equivalent; open to business and non-business major.

The process of starting and managing a successful small business. Students participate in a team project which takes them through an actual startup. (Plus-minus letter grade only)

MGMT 405 Introduction to Management and Organizational Behavior (Units: 3)
Prerequisite: Restricted to upper division standing in Business, Family and Consumer Studies, Apparel Design and Merchandising, Design and Industry, Gerontology, Hospitality Tourism Management, and Recreation, Parks, and Tourism majors.

Management and organizational behavior within domestic and international organizations. Functions of planning, organizing, directing, and controlling; managerial process of decision-making and communication; individual motivation and group dynamics within the organizational setting.

MGMT 407 Economics for Managers (Units: 3)
Prerequisites: Upper division standing; grades of C- or better in DS 110/ MATH 110, ECON 101, and ECON 102.

Macroeconomic and microeconomic environments within which business organizations operate. Applications of economic theory to business operations and management decisions on a local, national and multinational basis.

MGMT 430 Introduction to Entrepreneurship I (Units: 3)
Prerequisite: Entrepreneurship major or minor or consent of instructor.

The entrepreneurial process and the different kinds of entrepreneurial outcomes. Opportunity identification through analysis of industry niches. (Plus-minus letter grade only)

MGMT 431 Introduction to Entrepreneurship II (Units: 3)
Prerequisite: MGMT 430 with a grade of C- or better.

Skills needed in order to turn an opportunity into reality by gaining access to resources rather than ownership. Effective networking, outsourcing and strategic alliances. (Plus-minus letter grade only)

MGMT 432 Entrepreneurial Approach to Resources (Units: 3)
Prerequisite: MGMT 431 with a grade of C- or better.

Types of entrepreneurial entry strategies; factors influencing the selection of an appropriate strategy and the translation of that strategy into effective tactics. (Plus-minus letter grade only)

MGMT 433 Building the Entrepreneurial Venture (Units: 3)
Prerequisites: MGMT 432 with a grade of C- or better; concurrent enrollment in MGMT 437.

How entrepreneurs and owners of small businesses can keep their businesses alive and vital as they grow sales and expand to new markets. (Plus-minus letter grade only)

MGMT 435 International Entrepreneurship (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Introduction to entrepreneurship in international contexts and its role in economic development. Will help students understand how entrepreneurs in different cultures and economic systems create, find and use resources to build growth oriented ventures. (Plus-minus letter grade only)

MGMT 437 Entrepreneurial Internship (Units: 3)
Prerequisite: Upper division status; open to business and non-business majors.

Examination of how entrepreneurial principles play out in real world. [CSL may be available]

MGMT 535 Selected Topics in Entrepreneurship (Units: 3)
Prerequisites: Upper division standing or consent of instructor; MGMT 405.

Topic to be specified in Class Schedule. May be repeated for a total of 6 units as topics vary. (Plus-minus letter grade only)

MGMT 567 Internship in Management (Units: 3)
Prerequisites: MGMT 405 with a grade of C- or better; consent of instructor; department chair, and business internship.

Experience in a business field. Individual conferences with instructor. Major report required. May be repeated for a total of 6 units. [CSL may be available]

MGMT 605 Seminar in Developing Management Skills (Units: 3)
Prerequisites: Restricted to Management majors; MGMT 405 with a grade of C or better.

Foundational course focusing on critical thinking and personal skills development in the essential areas of self-awareness/self-management, interpersonal skills, teamwork and organizational management. (Plus-minus letter grade only)

MGMT 610 Human Resource Management (Units: 3)
Prerequisite: MGMT 405 with a grade of C- or better.

Policies and practices in human resource management. Department functions including law, planning, recruitment, selection, performance appraisal, information systems, and current issues. (Plus-minus letter grade only)

MGMT 614 Fundamentals of Recruiting (Units: 3)
Prerequisite: MGMT 610 with a grade of C- or better.

Effective employee staffing. Job search and choice, interviewing, assessment centers, mentorships, ethical/legal staffing considerations. (Plus-minus letter grade only)

MGMT 618 International Human Resource Management (Units: 3)
Prerequisites: IBUS 330 with a grade of C- or better, MGMT 405 and MGMT 610; or consent of instructor.

International aspects of human resources. Legal requirements, cultural issues, and the management practices and systems critical for success. Students may not take the course a second time under an alternate prefix. (Plus-minus letter grade only)

(This course is offered as MGMT 618 and IBUS 618. Students may not repeat the course under an alternate prefix.)
MGMT 630 Managing Entrepreneurial Organizations (Units: 3)
Prerequisites: Restricted to upper division majors and minors in the College of Business; MGMT 405 with a grade of C- or better;
The essential tools and know-how needed to build a strong financial and management foundation for a successful business start-up. [Formerly a topic under MGMT 655]

MGMT 640 Managing Diversity in the Workplace (Units: 3)
Prerequisite: MGMT 405. Enrollment priority for management majors.
In-depth exploration of how gender, ethnicity, sexual orientation, age, physical ability and size impact employee experiences and management’s challenges and opportunities for developing the talents of diverse workers. (Plus-minus letter grade only)

MGMT 648 Seminar in Leadership and Influence Skills (Units: 3)
Prerequisites: Restricted to Management majors; MGMT 405 with a grade of C or better;
Focus on developing the necessary skills to effectively lead and influence others; systematic approach to understanding and applying leadership practices and influence techniques within organizations. (Plus-minus letter grade only)

MGMT 650 Creativity and Innovation (Units: 3)
Prerequisites: Restricted to Management majors; MGMT 405 with a grade of C or better;
Building innovative skills by breaking out of limiting patterns; integrating intuitive, rational, associative, sensory, motivational, and emotional intelligences; managing innovation through negotiating, collaborating, creating future scenarios. (Plus-minus letter grade only)

MGMT 655 Seminar in Emerging Issues in Management (Units: 3)
Prerequisites: Upper division standing; restricted to Management majors and minors; MGMT 405 with a grade of C- or better.
Topic to be specified in Class Schedule. May be repeated as topics vary. (Plus-minus letter grade only)

MGMT 656 Seminar in Managing Teams (Units: 3)
Prerequisite: MGMT 405 with a grade of C or better; enrollment priority for management majors.
Design, facilitate, and manage teams. Focus on skills related to team effectiveness. (Plus-minus letter grade only)

MGMT 659 Introduction to International Business Negotiation (Units: 3)
Prerequisites: IBUS 330 and MGMT 405 with a grade of C- or better or consent of instructor.
Intercultural negotiating skills become more essential as business becomes more global and participative. Exercises involving various protagonists, organizational contexts, and situations. (Plus-minus letter grade only)
(This course is offered as IBUS 659 and MGMT 659. Students may not repeat the course under an alternate prefix.)

MGMT 660 Perspectives on Mergers and Acquisitions (Units: 3)
Prerequisite: MGMT 605 with a grade of C or better or consent of instructor.
Human, cultural and organizational aspects of mergers and acquisitions and the role managers or supervisors may play during these events. (Plus-minus letter grade) [Formerly a topic under MGMT 655]

MGMT 670 Seminar in Organization Design and Change (Units: 3)
Prerequisites: Restricted to Management majors; MGMT 605 and MGMT 648 with grades of C- or better, and one elective (from elective list); or MGMT 605 and two electives from elective list. (Electives: MGMT 567, MGMT 610, MGMT 630, MGMT 650, MGMT 655, MGMT 656, MGMT 659, or MGMT 660).
Culminating experience for management majors building on knowledge and skills from previous management courses. Emphasizes applied organization theory, strategies and techniques that organizations can use to assess and respond to global competitive demands, and the process of implementing organizational change. (Plus-minus letter grade only)

MGMT 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.
Intensive problem analysis under the direction of a management faculty member. Open only to upper division students who have demonstrated ability to do independent work. [CSL may be available]

MGMT 831 Overview of the Entrepreneurial Process (Units: 3)
Prerequisites: BUS 782, BUS 784, and BUS 788; restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
The entrepreneurial approach to business decision-making. Stages in the process. Types of entrepreneurial outcomes, including new venture creation. (Plus-minus letter grade only)

MGMT 842 Seminar in Organization Design and Change (Units: 3)
Prerequisite: BUS 788; restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Complex organizations: analyzing interrelationships among structure, strategy, systems, people, and management style. Concepts, practices, and problems related to organization effectiveness impacted by changing domestic and international environments. (Plus-minus letter grade only)

MGMT 848 Seminar in Leadership (Units: 3)
Prerequisites: BUS 788 or equivalent; restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Analysis of leadership patterns and opportunities in increasingly complex organizational environments. (Plus-minus letter grade only)

MGMT 850 Ethics and Compliance in Business (Units: 3)
Prerequisite: Restricted to graduate business students or students in the Ethics and Compliance Certificate program; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Focus on integrity, understanding and applying managerial ethical decision-making; understanding regulatory compliance as it relates to organizational functions; developing ethics training, and evaluating stakeholder impacts. Use of decision-making application models through case studies and interactive exercises. (Plus-minus letter grade only)
[Formerly MGMT 855, topic "Ethics Decision Making"]

MGMT 855 Seminar in Emerging Issues in Management (Units: 3)
Prerequisites: BUS 788 or consent of instructor; restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Topic to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus letter grade only)
MGMT 856 Managing the Sustainable Business (Units: 3)
Prerequisite: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Skills and perspectives required to manage and operate a sustainable business. Focus on the tools necessary to perform each business function (such as marketing, manufacturing, distribution, purchasing, HR, R&D, information systems, finance, accounting) taking environmental and social implications into account. (Plus-minus letter grade only)

MGMT 857 Leadership in Action (Units: 3)
Prerequisites: four 800-level business courses; restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

The boardroom—overview from the top executive’s perspective. Conducted by corporate CEO. Students function as a board of directors. Managerial functions and operations. "Bottom-line" concept. (Plus-minus letter grade only)

MGMT 858 Innovation for Sustainability (Units: 3)
Prerequisites: BUS 784; restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Focus on business innovation to meet society’s emerging needs. Practical knowledge and experience in understanding needs not met effectively by current business practices and in developing innovative business strategies to address them. (Plus-minus letter grade only)

MGMT 863 Seminar in Social Entrepreneurship (Units: 3)
Prerequisite for CFS 863: Graduate standing.
Prerequisite for MGMT 863: Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Exploration of how entrepreneurial individuals and companies find innovative methods to leverage scarce resources in the pursuit of social values. Special focus on socially responsible business practices used in the apparel industry. (AB/NC grading only) [CSL may be available] (This course is offered as CFS 863 and MGMT 863. Students may not repeat the course under an alternate prefix.)

MGMT 899 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.

Intensive study of a particular problem under the direction of a management faculty member. Open only to graduate students of demonstrated ability to do independent work. (Plus-minus letter grade only) [CSL may be available]
Marine Science (MSCI)

MSCI 303 Marine Ecology (Units: 4)
Prerequisites: Ecology, statistics (or concurrent registration in MSCI 304), or consent of instructor.
Interrelationships between marine and estuarine organisms and their environment; quantitative data collection and analysis. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 304 Quantitative Marine Science (Units: 4)
Prerequisite: College mathematics.
Mathematical methods for the analysis of biological, chemical, and physical data from the marine environment; experimental design, parametric and non-parametric statistics. Classwork, 3 units; laboratory, 1 unit. (Plus-minus letter grade only)

MSCI 305 Marine Science Diving (Units: 3)
Prerequisite: Certified SCUBA diver, or equivalency as determined by instructor.
Skin and scuba diving; five ocean dives include underwater sampling and survey techniques. Successful completion gives NAUI and MLML certification. (No credit toward major.) Classwork, 1 unit; laboratory and fieldwork, 2 units. (Plus-minus letter grade only)

MSCI 312 Marine Birds and Mammals (Units: 4)
Prerequisites: Upper division college vertebrate zoology; MSCI 303 or BIOL 585 recommended.
Systematics, morphology, ecology, and biology of marine birds and mammals. Classwork, 2 units; laboratory and fieldwork, 2 units. (Plus-minus letter grade only)

MSCI 313 Marine Ichthyology (Units: 4)
Prerequisites: College-level zoology or equivalent; MSCI 303 or BIOL 585 recommended.
The taxonomy, morphology, function, and ecology of marine fishes. Classwork, 2 units; laboratory and fieldwork, 2 units. (Plus-minus letter grade only) (Not open to students who have completed BIOL 571.)

MSCI 324 Marine Invertebrate Zoology I (Units: 4)
Prerequisites: College zoology or consent of instructor; MSCI 303 recommended.
Structure, systematics, evolution, and life histories of the major and minor marine phyla. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 331 Marine Botany (Units: 4)
Prerequisite: MSCI 303 recommended.
Plants of the sea, marshes, and dunes; morphology, taxonomy, and natural history of seaweeds and vascular plants. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 335 Physiological Ecology of Marine Algae (Units: 4)
Prerequisites: MSCI 344, MSCI 331, MSCI 303, or consent of instructor.
Physiological basis for understanding the adaptation of marine algae to their environment. Classwork, 2 units; laboratory, 2 units.

MSCI 341 Geological Oceanography (Units: 4)
Prerequisite: MSCI 342 or MSCI 343 (may be taken concurrently).
The structure, physiography, and composition of the sea bottom and shoreline. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 342 Physical Oceanography (Units: 4)
Prerequisites: College algebra; college physics recommended.
Nature and causes of various oceanic motions including currents, waves, tides, and mixing, and the physical properties of seawater. Limited use of calculus. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 343 Chemical Oceanography (Units: 4)
Prerequisite: One year of college chemistry.
Chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers, and shipboard sampling techniques. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 344 Biological Oceanography (Units: 4)
Prerequisites: General biology, general chemistry.
Complexity of organismal-environmental interaction of the plankton, the transfer of organic matter between trophic levels and nutrient cycles. Sampling, shipboard techniques, identification of the plankton, and analytical techniques. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor.
Faculty-directed study of selected research problems in the marine sciences. Open to undergraduate students having adequate subject matter preparation for the selected problem. May be repeated for credit.

MSCI 701 Library Research Methods in Marine Science (Unit: 1)
Prerequisites: Graduate status and consent of instructor.
The nature of scientific information. Framework for evaluating and interweaving the history of science with a variety of information sources and bibliographic tools. (Plus-minus letter grade only)

MSCI 706 Molecular Biological Techniques (Units: 4)
Prerequisites: Graduate status, college genetics or molecular biology or consent of instructor.
A laboratory-based overview of concepts and techniques for the isolation, characterization, and analysis of DNA and RNA. Covers standard methods (amplification, cloning, and sequencing), as well as selected specialized techniques (analysis of gene expression), emphasizing application in marine sciences. Classwork, 1 unit; laboratory, 3 units. (Plus-minus letter grade only)

MSCI 708 Scientific Methods (Units: 4)
Prerequisites: Graduate status and consent of instructor.
Information and skills for graduate students beginning their research careers, such as the philosophy of science, scientific writing, design of experiments and sampling programs, and using library and other resources. Classwork, 3 units; laboratory, 1 unit. (Plus-minus letter grade only)
MSCI 709 Foundations in Global Change in Urbanized Coasts and Estuaries (Units: 6)
Prerequisites: Admission to the Interdisciplinary MS RIP TIDES Graduate Training Program; concurrent enrollment in BIOL 708.
Developing interdisciplinary working knowledge at intersection of global change (climate change, ocean acidification, invasive species, disease, land use), coastal oceanography (physical, biological, chemical, geological), marine/estuarine biology (biodiversity, population, ecosystem, physiology), and societal issues (general public, managers, policymakers). (Plus-minus letter grade only)

MSCI 711 Ecology of Marine Birds and Mammals (Units: 4)
Prerequisites: MSCI 303, MSCI 304, and MSCI 312.
Ecology of marine birds and mammals using experimental and sampling methodology. Distribution, abundance, trophic ecology, and behaviors of birds and mammals in Elkhorn Slough. Aerial and boat surveys to determine distribution and abundance. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 717 Writing and Professional Skills Workshop I: Introduction and Methods, Data Analysis and Graphics (Unit: 1)
Prerequisite: Admission to the Interdisciplinary MS RIP TIDES Graduate Training Program.
Weekly discussion of scientific writing statistical analysis, and professional skills with a focus on thesis writing, submit proposals for research funding and fellowships, learn the statistical tests needed for their research projects, and have a clear understanding of how to apply to Ph.D. programs. (Plus-minus letter grade only)

MSCI 718 Writing and Professional Skills Workshop II: Completion of the thesis manuscript (Unit: 1)
Prerequisite: Admission to the Interdisciplinary MS RIP TIDES Graduate Training Program.
Weekly discussion of scientific writing, data analysis/scientific graphics, and professional skills geared towards job and Ph.D. program opportunities following completion of MS degree. Includes completing an entire draft of MS Thesis and learn to submit it for publication. Students gain skills in interviewing for Ph.D. programs and employment opportunities. (Plus-minus letter grade only)

MSCI 721 Advanced Topics in Marine Invertebrates: Marine Invertebrates (Units: 4)
Prerequisites: MSCI 324 and consent of instructor.
Advanced considerations of the ecology, physiology and phylogeny of the various invertebrate phyla emphasizing current literature and research. Classwork, 2 units; laboratory, 2 units. May be repeated once for credit.

MSCI 731 Biology of Seaweeds (Units: 4)
Prerequisite: MSCI 331 or consent of instructor.
Lecture-discussions on marine macroalgal biology with extensive reading of original literature. Ecologically oriented individual research projects involving laboratory culture and field experimentation. Classwork, two units; laboratory, two units. (Plus-minus letter grade only)

MSCI 733 Advanced Topics in Marine Ecology: Marine Ecology (Units: 4)
Prerequisite: Graduate standing.
Study of various topics in marine ecology. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 734 Advanced Biological Oceanography (Units: 4)
Prerequisite: MSCI 344 or consent of instructor.
Experimental techniques in biological oceanography problems in plankton ecology. Individual research project required. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 746 Geology of the Monterey Bay Region (Units: 4)
Prerequisite: Graduate status or consent of instructor.
Geology, tectonics, and active naturally occurring processes in the Monterey Bay region and in the Monterey Bay National Marine Sanctuary. The geologic and tectonic history of central California, plate tectonic processes, representative stratigraphy and geomorphology of the Monterey Bay region. Classwork, 1 unit; laboratory, 3 units. (Plus-minus letter grade only)

MSCI 748 Marine Benthic Habitat Mapping Techniques (Units: 4)
Prerequisite: Graduate status or consent of instructor.
The collection and interpretation of geophysical data used to characterize marine benthic habitats. Basic geophysical principals are reviewed. Application of techniques to identify and characterize marine benthic habitats, including echosounders, multibeam bathymetry and backscatter, sidescan sonar, seismic profiling, and GIS. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 761 Ocean Circulation and Mixing (Units: 4)
Prerequisites: MSCI 342; college physics strongly recommended.
Mathematical description of the distribution of various properties in the oceans relating to physical and biochemical processes. Distribution of variables, geostrophic method. Classwork, 3 units; laboratory, 1 unit. (Plus-minus letter grade only)

MSCI 763 Applications of Computers in Oceanography (Units: 4)
Prerequisites: College mathematics and consent of instructor.
Discussion and technical programming with MATLAB for computation and visualization with applications in marine science. Use of existing program libraries for data I/O and analysis. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 771 Population Biology (Units: 3)
Prerequisites: MSCI 303 or BIOL 585 and MSCI 304 or statistics or consent of instructor.
Interactions among marine organisms which result in the alteration of population structures. Techniques for assessment and management of animal populations. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

MSCI 772 Subtidal Ecology (Units: 4)
Prerequisites: MLML diver certification and marine ecology; knowledge of marine algae, invertebrates, and statistics recommended.
The ecology of near shore, rocky, subtidal populations and communities with emphasis on kelp forests. Field work with SCUBA including group projects on underwater research techniques and community analysis. (Plus-minus letter grade only)
MSCI 773 Marine Environmental Studies of the Gulf of California (Units: 4)
Prerequisite: Graduate standing or consent of instructor.

An analysis of Gulf of California marine environments. Lectures, readings, intensive fieldwork, and writing a scientific paper based on original research. Topics vary. Taught with Mexican faculty and students from La Paz, Mexico. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 774 Advanced Topics in Oceanography: Oceanography (Units: 4)
Prerequisite: Graduate standing or consent of instructor.

Selected topics in oceanography. Topics and emphases vary with term and instructor. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

MSCI 781 Coastal Dynamics (Units: 4)
Prerequisite: Graduate standing and MSCI 341 or MSCI 342.

Oceanographic dynamics of coastal environments, emphasis on eastern boundary current systems influenced by coastal upwelling. Focus on how physical and geological oceanography interact with each other, and how both affect coastal ecosystem dynamics.

MSCI 788 Professional Internship in Marine and Estuarine Sciences (Units: 3)
Prerequisite: Admission to the Interdisciplinary MS RIP TIDES Graduate Training Program.

Professional internship with a partner organization one day per week. Partners are from wide range of organizations where scientific information is used, not generated. Students will relate what they learn to classmates during weekly group meetings and group discussions with internship mentors to address student career planning questions. (Plus-minus letter grade only)

MSCI 885 Seminar in Marine Biology (Units: 2)
Prerequisite: Graduate standing or consent of instructor.

Topic to be specified in Class Schedule. May be repeated once. (Plus-minus letter grade only)

MSCI 897 Research (Units: 1-4)
Prerequisites: Filing of petition, "Course by Individual Study," and consent of adviser, instructor, and department chair.

Independent investigations for the student with adequate preparation. May be repeated.

MSCI 898 Master's Thesis (Units: 4)
Prerequisite: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)
Marketing (MKTG)

MKTG 431 Principles of Marketing (Units: 3)
Prerequisite: Upper division standing.
Introduction to marketing principles and functions designed to satisfy an organization's target markets by offering an appropriate marketing mix consisting of product, price, place and promotion in domestic and international settings.

MKTG 432 Public Relations (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Communication, attitudes, opinion, ethical conduct, and responsible social performance as foundations of effective public relations. Relevant current events and public relations programs. Models for analysis and practice. Philosophical, historical, and environmental influences.

MKTG 433 Personal Selling (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Psychological factors underlying prospect behavior from initial recognition of need to final purchase of products and services.

MKTG 434 Advertising Theory and Practice (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Economic aspects of advertising; selection of media, testing effectiveness; organization for carrying out advertising activities, principles, and procedures.

MKTG 436 Retail Management (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Organization of a single-unit and multi-unit retail institution. Operational problems: location, layout, merchandise handling, customer service, protection, and expense control.

MKTG 440 Advertising Creativity and Production (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 434 and MKTG 632 with grades of C or better;
Creation and production of advertising for different clients. Strategy and creative development, with production for a variety of media. Classwork, 2 units; laboratory, 1 unit. [CSL may be available]

MKTG 441 Business to Business Marketing (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Transaction channels through which goods and services are sold and purchased. Roles of marketing channel members and intermediaries.

MKTG 443 Sales Promotion and Publicity (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Introduction to the theories and practice of sales promotion and publicity. Consumer behavior, foundations of sales promotions, manufacturer and retailer sales promotion planning; types of trade and consumer sales promotions. (Plus-minus letter grade only)

MKTG 469 Digital Marketing (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Overview of digital technologies and networks and their applications for marketing to consumers and businesses. Study of best practices on the use of web, social media and mobile marketing by businesses, government and non-profit organizations. Exploration, analysis and assessment of the effectiveness of digital marketing campaigns.

MKTG 567 Internship in Marketing (Units: 3)
Prerequisites: Restricted to marketing majors; MKTG 431; consent of instructor, department chair, and appropriate employment.
Experience in a business field. Principles, theory, and practice applied to real situations. Major report required. May be repeated for a total of 6 units.

MKTG 632 Marketing Research (Units: 3)
Prerequisites: Restricted to marketing majors; DS 212; MKTG 431; ISYS 263 or pass computer information systems proficiency test. Other students may add on a space available basis.
Research design and methodology. Analyze, evaluate, and utilize marketing research findings. Use of case method and computer applications to make marketing decisions.

MKTG 633 Consumer Behavior (Units: 3)
Prerequisites: Restricted to marketing majors; MKTG 431; open to other majors on a space-available basis.
Behavioral models explore consumer needs and motivation incorporating psychological theory applied to personality traits, learning, perception, symbolism and communications, social influences and understanding consumer behavior.

MKTG 637 Sales Management (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Role of sales managers in line and staff planning. Selection, organization, supervision, compensation, and motivation of the sales force. Coordination of sales with other marketing functions. Measuring the sales manager's contribution to profitable operations.

MKTG 644 Services Marketing (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Recognizing the importance of services in the global economy, this course provides theory, frameworks and tools for addressing the unique challenge of marketing in industries such as banks, healthcare, transportation and entertainment.

MKTG 647 Organizational Reputation Management and Communication (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Assessment and management of reputational risks stemming from behavior of senior executives or employees, failures in safety, accidents, rumors, etc. Focus on the communication strategies and tactics to rebuild trust and restore organizational regulation.

MKTG 649 Marketing Management (Units: 3)
Prerequisites: Restricted to marketing majors; MKTG 431, MKTG 632, and MKTG 633; other students may add on a space available basis.
Planning, organizing, integrating, and measuring the total marketing plan. Problems of managing the marketing function. Managerial supervision and control of marketing.

MKTG 660 Marketing Analytics (Units: 3)
Prerequisites: Restricted to marketing major; MKTG 632 with a grade of C-.
Examination of techniques to manipulate, visualize, and analyze secondary data to address a variety of marketing issues in areas such as segmentation, customer relationship management, advertising, and digital marketing through hands-on experience using case studies and real-world marketing data.
MKTG 675 Brand Management (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Examination of the theories, concepts, principles and strategies necessary to manage brands in the marketplace.

MKTG 680 International Marketing Management (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Environmental factors affecting world marketing management; consumer and industrial products market patterns; establishing channels of distribution; management of marketing functions including communication, pricing, product policy; promotion, financing, and logistics.

MKTG 688 New Product Management Seminar (Units: 3)
Prerequisites: Restricted to marketing majors and minors; MKTG 431.
Product and innovation management for creating, developing, and commercializing new products and innovations. Emphasizes the importance of creativity, innovativeness, and entrepreneurship as the sources of new products and new venture businesses. (Plus-minus letter grade only)

MKTG 689 New Product Marketing and Launch (Units: 3)
Prerequisites: Restricted to Marketing majors; MKTG 431, MKTG 688; or consent of instructor.
Students use consumer insights to refine existing product concepts, develop branding elements, forecast sales, determine the Net Present Value, and develop a Marketing Plan. The Marketing Plan will involve pricing, promotion (advertising, sales, public relations, and social media), and retailing components. (Plus-minus letter grade only)

MKTG 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.
Intensive problem analysis under the direction of a marketing faculty member. Open only to upper division students who have demonstrated ability to do independent work. [CSL may be available]

MKTG 820 Digital Marketing (Units: 3)
Prerequisites: Graduate standing; BUS 787.
The use of digital marketing tools and techniques such as websites, online advertising, search engine marketing, social media, mobile marketing, content marketing, and email marketing to acquire, convert, retain, and grow customers. The marketing approach in the course is data-driven. (Plus-minus AB/NC)

MKTG 860 Strategic Marketing (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Survey of marketing strategy focusing on the development of marketing plans for product markets, including analyses of external, competitive, customer and internal environments, target market selection, statement of differentiation and positioning, product, pricing, communication and promotion. (Plus-minus letter grade)

MKTG 861 Consumer Behavior Seminar (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Psychology and social sciences’ contribution to understanding and predicting consumer behavior. Theories of motivation, clinical and statistical approaches to analysis of motivation, systems and models in predicting consumer response, and applications in advertising and personal selling. (Plus-minus letter grade only)

MKTG 862 Seminar in Advertising (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Influence and communication forces of advertising in light of changing economic, social and governmental conditions; quantitative aspects of advertising problems. (Plus-minus letter grade)

MKTG 864 Seminar in Marketing Research (Units: 3)
Prerequisites: BUS 782 and BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Review basic research process and design; introduction to advanced topics in marketing research including multivariate analysis techniques. Emphasis on application; extensive use of computer spreadsheet and statistical packages. (Plus-minus letter grade only)

MKTG 867 Public Relations (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Management function that enables organizations to communicate with internal and external audiences to build and maintain mutually beneficial relations; ethical and legal issues in public and media relations. (Plus-minus letter grade only)

MKTG 875 Brand Management (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
Concepts, principles, theories and strategies used to manage brands in a competitive environment. (Plus-minus letter grade only)

MKTG 880 Seminar in International Marketing Management (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.
International market entry and expansion, organizing for world marketing management, financial and legal factors affecting world marketing management, world marketing strategy, and long-range planning and policy formulation. (Plus-minus letter grade only)
MKTG 885 Marketing of High-Technology Products and Services (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

High-tech products and services are characterized by high levels of market, technology and competitor uncertainty. For such turbulent environments, this course will synthesize decision frameworks and strategies that reflect best-practices in the area of high-technology marketing. (Plus-minus letter grade only)

MKTG 888 Product Development and Management (Units: 3)
Prerequisite: BUS 787. Restricted to graduate business student; graduate students in other majors with the consent of the Faculty Director of Graduate Programs.

Identifies innovative marketing strategies, familiarizes student with product development and management processes for creating new products and bringing them to the market. Professional marketing plans for new or existing products. (Plus-minus letter grade only)

MKTG 899 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor, adviser, and department chair.

Intensive study of a particular problem under the direction of a marketing faculty member. Open only to graduate students of demonstrated ability to do independent work. (Plus-minus letter grade only) [CSL may be available]
Mathematics (MATH)

MATH 50 Preparatory Mathematics for Pathways Courses (Units: 4)
Prerequisite: ELM scores below 50; restricted to students who have committed to take pathway course such as STAT way.

Treatment of selected key topics from two remedial mathematics courses MATH 60/ESM 60 and MATH 70/ESM 70. Some selections are tailored to the needs of the subsequent pathway course, while other selections are meant to round out the students’ quantitative literacy. (A/A-/B+/B-/C+/C/NC grading only)

Course Attributes:
• Pre-Collegiate

MATH 60 Entry Level Math I (Units: 3)
Equivalent to first year high school algebra. Fundamental operations on numbers, polynomials, and rational expressions; factoring, linear equations, and inequalities. Units and grades earned do not count towards graduation requirements. (A/A-/B+/B-/C+/C/NC grading only)

Course Attributes:
• Pre-Collegiate

MATH 70 Entry Level Math II (Units: 3)
Prerequisite: MATH 60/ESM 60 with a grade of C or better or a score of 42 or above on ELM.
Equivalent to second year high school algebra. Exponents, radicals, logarithms, systems of linear equations, complex numbers, quadratic equations. Units and grades earned do not count towards graduation requirements. (A/A-/B+/B-/C+/C/NC grading only)

Course Attributes:
• Pre-Collegiate

MATH 110 Business Calculus (Units: 3)
Prerequisite: ELM exempt status, or MATH 70/ESM 70 with grade of C or better.

Functions, derivatives, and integrals. Applications of differentiation and integration, including optimization and moving averages. Problems involving business, finance, and economics. Elements of basic calculus.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
• B4: Math/QR

MATH 124 Elementary Statistics (Units: 3)
Prerequisite: Satisfactory completion of ELM requirement.

Data analysis, probability, and statistical inference. For students in any field where statistics is a means of communication and a tool for decision making.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
• B4: Math/QR

MATH 165 Concepts of the Number System (Units: 3)
Prerequisites: Satisfactory completion of ELM requirement.

Designed for prospective multiple subjects credential candidates. Understanding operations with whole numbers, fractions, and decimals. Problem solving strategies, numeration systems, and elementary number theory.

MATH 199 Pre-Calculus (Units: 4)
Prerequisite: Satisfactory completion of ELM requirement.

Functions, graphing techniques, exponentials and logarithms, trigonometry. [Formerly MATH 109]
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
• B4: Math/QR

MATH 226 Calculus I (Units: 4)
Prerequisites: Satisfactory completion of ELM requirement; acceptable score on the department's Calculus readiness test (instructions will be provided after enrollment); and one of the following: MATH 199 or equivalent with a grade of C or better; passing a high school math analysis or pre-calculus class with a grade of B or better.

(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
• B4: Math/QR

MATH 227 Calculus II (Units: 4)
Prerequisite: MATH 226 with a grade of C or better.

Techniques of integration, analytic geometry, polar coordinates, vectors, improper integrals. Sequences and series.

MATH 228 Calculus III (Units: 4)
Prerequisite: MATH 227 with a grade of C or better.

Three-dimensional analytic geometry, partial differentiation, multiple integrals, vector calculus. Classwork, 3 units; laboratory, 1 unit.

MATH 245 Elementary Differential Equations and Linear Algebra (Units: 3)
Prerequisite: MATH 228 with a grade of C or better.

First and second order linear differential equations, Laplace transform methods, Fourier series, matrix algebra.

MATH 265 Advanced Number Systems (Units: 3)
Prerequisite: MATH 165 with a grade of C or better.

Designed for prospective multiple subject credential candidates, continues work done in MATH 165 with decimals and percents. Introduces operations with negative numbers. Additional topics include problem solving and elementary number theory.
MATH 300GW History of Mathematics - GWAR (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C- or better;
MATH 227 or equivalent with a grade of C or better.
Survey of the history of mathematics, focusing on topics of interest
to secondary mathematics teachers. Emphasis on telling the story of
mathematics through researching and writing an expository paper. (ABC/
NC grading only)
Course Attributes:
• Graduation Writing Assessment

MATH 301GW Exploration and Proof - GWAR (Units: 3)
Prerequisites: MATH 227 and ENG 214 with grades of C or better.
Informal exploration and proofs in mathematics; basic concepts of
advanced mathematics courses. Exploratory thinking, elementary logic,
sets, mathematical induction, the integers, relations, and functions. (ABC/
NC grading only)
Course Attributes:
• Graduation Writing Assessment

MATH 310 Elementary Number Theory (Units: 3)
Prerequisites: MATH 227 and MATH 301GW with grades of C or better.
Divisibility, congruences, power residues, quadratic reciprocity,
diophantine equations. Number theoretic functions, continued fractions
and rational approximation, partitions.

MATH 314 Math Circle Seminar (Units: 3)
Prerequisite: MATH 226 or equivalent with a grade of C or better.
Opportunity to relate mathematics being learned to the teaching and
learning of mathematics and problem-solving skills at the middle and
high school levels through participation in math circles. [CSL may be available]

MATH 324 Probability and Statistics with Computing (Units: 3)
Prerequisites: MATH 227 with a grade of C or better; computer experience
that meets the approval of the instructor; basic concepts of probability
and statistics.
Data analysis, probability distributions, confidence intervals, and
hypothesis testing. Students use computer software to do statistical
analyses.

MATH 325 Linear Algebra (Units: 3)
Prerequisites: MATH 227 with a grade of C or better; CSC 230 or
MATH 301GW recommended.
Vector spaces, linear transformations, elements of matrix algebra
including determinants and eigenvalues.

MATH 335 Modern Algebra (Units: 3)
Prerequisites: MATH 301GW with a grade of C or better or consent of
instructor; MATH 325 with a grade of C or better.
Introduction to groups, rings, integral domains, fields, and ordering.

MATH 338 Introduction to SAS (Units: 3)
Prerequisites: MATH 124 (or equivalent) and one of the following:
CSC 210, CSC 309, or consent of instructor, with grades of C or better.
Using SAS software for data management, presentation of data using
tables and graphs, calculation of basic statistics such as mean,
standard error, percentiles. Analysis of data using t-test, Chi-square test,
regression, and analysis of variance.

MATH 350 Geometry (Units: 3)
Prerequisites: MATH 228 and MATH 301GW with grades of C or better.
Introduction to the origin and foundations of geometry: Euclidean, non-
Euclidean geometries, more recent approaches. Quick survey of high
school geometry. Classification and representation of motions and
similarities. Projections, homogeneous coordinates.

MATH 370 Real Analysis I (Units: 3)
Prerequisites: MATH 228 and MATH 301GW with grades of C or better.
Critical development of analysis: Bolzano-Weierstrass and Heine-Borel
theorems; limits, continuity, differentiability, integrability.

MATH 375 Field Study for Secondary Teachers (Units: 3)
Prerequisites: MATH 301GW with a grade of C or better, or consent of
instructor.
Completion of tuberculosis test and fingerprinting for work in the public
schools. Opportunity for students to relate the mathematics they are
learning to the teaching and learning of mathematics at the middle and
high school levels; at the same time, fulfill the 45-hour field experience
requirement for prospective teachers.

MATH 376 Ordinary Differential Equations I (Units: 3)
Prerequisites: MATH 228 and MATH 325 with grades of C or better.
First-order differential equations, second-order linear equations with
constant coefficients, graphical and numerical methods, systems
of differential equations and phase-plane analysis, existence and
uniqueness theorems.

MATH 380 Introduction to Functions of a Complex Variable (Units: 3)
Prerequisite: MATH 228 with a grade of C or better.
Analytic functions of a complex variable. Cauchy’s theorem, power series,
laurant series, singularities, residue theorem with applications to definite
integrals. Conformal mappings.

MATH 400 Numerical Analysis (Units: 3)
Prerequisites: MATH 228, MATH 325, and CSC 210, all with grades of C or
better.
Numerical solution of algebra and calculus problems. Interpolation
and approximations; direct and iterative methods for solutions of
linear equations. Gaussian elimination. Numerical differentiation and
integration; solution of ordinary differential equations.

MATH 414 Analyzing DNA Topology with Math/Computational Methods
(Units: 3)
Prerequisite for MATH 714: Graduate standing or consent of instructor.
Prerequisite for MATH 414: MATH 228 (or equivalent) with a grade of C or
better.
Students from mathematics, computer science and biology will be
introduced to mathematical and computational techniques used to
analyze DNA structure. Strong interaction between math and biology is
emphasized. (MATH 714/MATH 414 is a paired course offering. Students who
complete the course at one level may not repeat the course at the other
level.)
MATH 420 Combinatorics (Units: 3)
Prerequisites: MATH 301GW and one of the following: MATH 310, MATH 325, CSC 230; with grades of C or better.

An introduction to fundamental combinatorial objects, their uses in other fields of mathematics and its applications, and their analysis. Does an object with certain prescribed properties exist? How many of them are there? What structure do they have?
(MATH 720/MATH 420 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 424 Introduction to Linear Models (Units: 3)
Prerequisites: MATH 227 and MATH 325 with grades of C or better.

Theory and applications of Linear Models, Multiple Regression, Analysis of Variance for Fixed and Random Effects; Nested and Crossed Treatments; and Experimental Design.
(MATH 724/MATH 424 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 430 Mathematics of Optimization (Units: 3)
Prerequisite: MATH 325 with a grade of C or better.

Modeling and solution of optimization problems as linear, semidefinite, nonlinear, or integer programming problems. Analysis and interpretations of solutions to these problems.

MATH 435 Modern Algebra II (Units: 3)
Prerequisite: MATH 335 with a grade of C or better.

Group actions, conjugacy classes, Sylow’s Theorem. Rings, modules, vector spaces, and finitely generated modules over PIDs. Field extensions and finite fields.
(MATH 735/MATH 435 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 440 Probability and Statistics I (Units: 3)
Prerequisites: MATH 228 with a grade of C or better (may be taken concurrently); MATH 124 or equivalent recommended.

Probability spaces, elementary combinatorics, random variables, independence, expected values, moment generating functions, selected probability distributions, limit theorems and applications. [Formerly MATH 340]

MATH 441 Probability and Statistics II (Units: 3)
Prerequisite: MATH 440 [formerly MATH 340] with a grade of C or better.

Sampling distributions, estimation of parameters, hypothesis testing, goodness-of-fit tests, linear regression, and selected non-parametric methods.
(MATH 741/MATH 441 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 442 Probability Models (Units: 3)
Prerequisite: MATH 440 [formerly MATH 340] with a grade of C or better.

Advanced topics in probability theory: discrete and continuous time Markov chains, Poisson process, queuing systems, and applications.

MATH 447 Design and Analysis of Experiments (Units: 3)
Prerequisites: MATH 325 and MATH 440 [formerly MATH 340] with a grade of C or better.

Learn how to plan, design and conduct experiments, and analyze the resulting data.

MATH 448 Introduction to Statistical Learning and Data Mining (Units: 3)
Prerequisite: MATH 440 [formerly MATH 340] with grade of C or better or consent of instructor.

Modern techniques in the statistical analysis of data, including regression, classification, regularization methods, model selection, non-parametric methods, dimensionality reduction and clustering; employ statistical software to analyze real data using advanced methods from statistics, machine learning, data mining, and pattern recognition.

MATH 449 Categorical Data Analysis (Units: 3)
Prerequisite: MATH 440 [formerly MATH 340] with grade of C or better or consent of instructor.

Descriptive and inferential methods for contingency tables; generalized linear models for discrete data; logistic regression for binary responses; multi-category logistic models for nominal and ordinal responses; loglinear models; inference for matched-pairs and correlated clustered data.

MATH 450 Topology (Units: 3)
Prerequisite: MATH 370 with a grade of C or better.

Rigorous development of the theory of metric spaces and topological spaces. Concepts covered include open, closed sets, interior, closure, boundary of sets; connects sets, compact sets, continuous functions defined on metric and topological spaces.

MATH 451 Introduction to Differential Geometry (Units: 3)
Prerequisites: MATH 228 and MATH 325 with grades of C or better, and either MATH 370 or MATH 450. These requirements may be waived upon the consent of instructor.

Study of intrinsic surface along with a topological invariant known as the Euler characteristic. Aim is to prove that the Euler characteristic of a compact orientated surface is numerically equal to the total index of any vector field with isolated zeroes (Poincare-Hopf Index theorem), the total Gaussian curvature (Gauss-Bonnet-Chern theorem), and the algebraic total of the number of non-degenerate critical points (Morse theorem).

MATH 460 Mathematical Modeling (Units: 3)
Prerequisites: MATH 325 and either MATH 245 or MATH 376, with grades of C or better.

Deterministic and stochastic techniques used in mathematical modeling, illustrated and developed through problems originating in industry and applied research.

MATH 470 Real Analysis II - Several Variables (Units: 3)
Prerequisite: MATH 370 with a grade of C or better, or consent of instructor.

Sequences and series of functions, uniform convergence, real-analytic functions, metric spaces, open and closed sets, compact and connected sets, continuous functions.
(MATH 770/MATH 470 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
MATH 471 Introduction to Fourier and Wavelet Analysis (Units: 3)
Prerequisite for MATH 771: Graduate standing; MATH 370 with a grade of C or better; or consent of instructor.
Prerequisite for MATH 471: MATH 370 with a grade of C or better.
Sequences and series of functions, modes of convergence, Fourier series and integrals, wavelet analysis. (MATH 771/MATH 471 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 475 Capstone Course for Secondary Teachers of Mathematics (Units: 3)
Prerequisites: MATH 335 with a grade of C or better and one of the following: concurrent enrollment in MATH 370 or consent of instructor.
Builds on student's work in upper division mathematics to deepen understanding of the math taught in secondary school. Active exploration of topics in algebra, analysis, geometry and statistics.

MATH 477 Partial Differential Equations (Units: 3)
Prerequisite: MATH 376 with a grade of C or better.
Study of partial differential equations in rectangular and polar coordinates. Initial and boundary value problems for the heat equation and wave equation. Study of Fourier series, Bessel series, harmonic functions and Fourier transforms. (MATH 777/MATH 477 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 491 Game Theory (Units: 3)
Prerequisite: MATH 227 with a grade of C or better.
Normal, extensive and network forms. Strategy, bets reply and Nash equilibrium. Equilibrium path, information and beliefs, sequential rationality and perfect equilibria. Applications to learning, signaling, screening and deterrence. [Formerly a topic under MATH 490]

MATH 492 Group Representations (Units: 3)
Prerequisite: MATH 335 with a grade of C or better.
Basics of the representation theory of finite groups such as irreducible decompositions, Maschke's theorem, and characters. Presented using symmetric group; focus on combinatorics that arise: young tableau, Knuth-Robinson-Schensted correspondence, and hook formula. [Formerly a topic under MATH 490]

MATH 493 Introduction to Actuarial Mathematics (Units: 3)
Prerequisites: MATH 228 and either MATH 324 or MATH 440 [formerly MATH 340], with grades of C or better.
Measurement of interest, including accumulation and present value factors, annuities certain, survival distributions and life tables, life insurance and annuity functions, net premium reserves. [Formerly a topic under MATH 490]

MATH 494 Non-Parametric Statistics (Units: 3)
Prerequisite: Any introductory statistics course with grade of C or better, or consent of instructor.
Point and interval estimates, univariate hypotheses tests, multiple comparison measures. Applications to a wide variety of fields. [Formerly a topic under MATH 490]

MATH 495 Introduction to Wavelets and Frames with Applications (Units: 3)
Prerequisites: MATH 325 or MATH 370 with grades of C or better, or consent of instructor.
Fundamentals of wavelets, time frequency analysis, and frames, as well as applications in engineering and physics. [Formerly a topic under MATH 490]

MATH 565 Concepts of Geometry, Measurement, and Probability (Units: 3)
Prerequisite: MATH 165 with a grade of C or better.
Designed for prospective multiple subjects credential candidates. Spatial relationships and inductive reasoning in geometry, measurement emphasizing the metric system, and elementary statistics and probability.

MATH 575 Mathematics in the Middle School Classroom (Units: 3)
Prerequisite: MATH 565 with a grade of C or better, or consent of instructor.
Designed for current or prospective middle school teachers of mathematics. Topics in algebra, number theory, and geometry. (Plus-minus letter grade only)

MATH 576 Math in Middle Schools II (Units: 3)
Prerequisite: MATH 575 with a grade of C or better.
Continues to prepare students with content knowledge needed to teach algebra in middle school. Begins work in probability and statistics.

MATH 577 Math in Middle School III (Units: 3)
Prerequisite: MATH 576 with a grade of C or better.
Continues the work begun in MATH 575 and MATH 576 to prepare students with content knowledge needed to teach algebra, geometry, and probability and statistics in middle school.

MATH 578 Mathematics in the High School (Units: 3)
Prerequisites: MATH 577 or MATH 227 with a grade of C or better, or consent of instructor.
Designed for current or prospective high school teachers to focus on high school mathematics from an advanced perspective. Content from functions, calculus, and statistics.

MATH 690 Capstone Research for Mathematics Majors (Units: 3)
Prerequisites: Grades of C or better in MATH 325, MATH 335, and MATH 370; grades of C or better in a subset of the following MATH courses: MATH 310, MATH 324 or MATH 440 [formerly MATH 340], MATH 376, MATH 380, MATH 400, MATH 420, or MATH 491, MATH 492, MATH 493, MATH 494, MATH 495; or consent of instructor.
The specifics in that subset depend on the chosen research problem. Research problem, chosen by the instructor, to explore the interrelationships among the cornerstones in a typical undergraduate math major's course. These cornerstones are algebra, analysis, and probability and statistics. (Plus-minus letter grade only)

MATH 696 Applied Mathematics Project I (Unit: 1)
Prerequisite: MATH 460 with a grade of C or better. May be replaced by consent of instructor.
Preparation under faculty guidance of feasibility study and outline of a project in applied mathematics.
MATH 697 Applied Mathematics Project II (Units: 2)
Prerequisite: Successful completion of MATH 696 in a previous semester. May not be taken concurrently with MATH 696.
Completion of applied mathematics project. Presentation of oral and written report.

MATH 699 Independent Study (Units: 1-3)
Prerequisite: Approval of department and consent of instructor.
Special study of a particular problem under the direction of a member of the department. The student must present a written report of the work accomplished to the staff of the department. May be repeated.

MATH 700 Graduate Teaching Workshop (Units: 3)
Prerequisite: GTA status.
Discussion and analysis of teaching techniques, peer evaluation, peer classroom observations, guided groups and self analysis of videotapes; group project developing and studying common lesson materials.

MATH 710 Analysis I (Units: 3)
Prerequisite: MATH 470 with a grade of C or better, or consent of instructor.
Outer measure, Lebesgue measure and integration; convergence theorems; bounded variation, absolute continuity, and Lebesgue’s theory of differentiation.

MATH 711 Introductory Functional Analysis (Units: 3)
Prerequisites: MATH 470 and MATH 725 with grades of B- or better, or consent of instructor.
Metric spaces, Baire category; Banach and Hilbert spaces, bounded linear operators, dual spaces; the Hahn-Banach, closed graph, and open mapping theorems with applications; functional analysis topics.

MATH 714 Analyzing DNA Topology with Math/Computational Methods (Units: 3)
Prerequisite for MATH 714: Graduate standing or consent of instructor.
Prerequisite for MATH 414: MATH 228 (or equivalent) with a grade of C or better.
Students from mathematics, computer science and biology will be introduced to mathematical and computational techniques used to analyze DNA structure. Strong interaction between math and biology is emphasized.
(MATH 714/MATH 414 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 720 Combinatorics (Units: 3)
Prerequisites: MATH 301GW and one of the following: MATH 310, MATH 325, CSC 230; with grades of C or better.
An introduction to fundamental combinatorial objects, their uses in other fields of mathematics and its applications, and their analysis. Does an object with certain prescribed properties exist? How many of them are there? What structure do they have?
(MATH 720/MATH 420 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 724 Introduction to Linear Models (Units: 3)
Prerequisites: MATH 227 and MATH 325 with grades of C or better.
Theory and applications of Linear Models, Multiple Regression, Analysis of Variance for Fixed and Random Effects; Nested and Crossed Treatments; and Experimental Design.
(MATH 724/MATH 424 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 725 Advanced Linear Algebra (Units: 3)
Prerequisite: MATH 335 with a grade of C or better.
Vector spaces and linear maps on them. Inner product spaces and the finite-dimensional spectral theorem. Eigenvalues, the singular-value decomposition, the characteristic polynomial, and canonical forms.

MATH 728 Mathematical Projects and Partnerships (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Discussion and analysis of teaching techniques, peer classroom observations; guided group and self analysis of group projects developing and studying innovative mathematical projects for middle and high school students. (Concurrent involvement in middle/high school projects required.)

MATH 729 Communicating Mathematics (Units: 3)
Prerequisite: Formal commitment to write an MA thesis or expository paper.
Practice of written and oral communication of advanced and research mathematics: prepare research article or monograph, design research poster, prepare and present short and long research talks, write grant proposal.

MATH 730 Theory of Functions of a Complex Variable (Units: 3)
Prerequisites: MATH 470 with a grade of C or better, and consent of instructor.
Elementary topology of the Euclidean plane, analytic functions, power series, conformal mapping, Cauchy integral formula, residue theorems, power series, Laurent series, analytic continuation, normal families and Riemann mapping theorem.

MATH 735 Modern Algebra II (Units: 3)
Prerequisite: MATH 335 with a grade of C or better.
Group actions, conjugacy classes, Sylow’s Theorem. Rings, modules, vector spaces, and finitely generated modules over PIDs. Field extensions and finite fields.
(MATH 735/MATH 435 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 741 Probability and Statistics II (Units: 3)
Prerequisite: MATH 440 (formerly MATH 340) with a grade of C or better.
Sampling distributions, estimation of parameters, hypothesis testing, goodness-of-fit tests, linear regression, and selected non-parametric methods.
(MATH 741/MATH 441 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
MATH 748 Theory and Applications of Statistical and Machine Learning (Units: 3)
Prerequisites: MATH 448 and MATH 441, each with a grade of C or better; or consent of instructor.
Study of the fundamental concepts of statistical and machine learning theory.

MATH 770 Real Analysis II - Several Variables (Units: 3)
Prerequisite: MATH 370 with a grade of C or better, or consent of instructor.
Sequences and series of functions, uniform convergence, real-analytic functions, metric spaces, open and closed sets, compact and connected sets, continuous functions.
(MATH 770/MATH 470 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 771 Introduction to Fourier and Wavelet Analysis (Units: 3)
Prerequisite for MATH 771: Graduate standing; MATH 370 with a grade of C or better, or consent of instructor.
Prerequisite for MATH 471: MATH 370 with a grade of C or better.
Sequences and series of functions, modes of convergence, Fourier series and integrals, wavelet analysis.
(MATH 771/MATH 471 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 777 Partial Differential Equations (Units: 3)
Prerequisite: MATH 376 with a grade of C or better.
Study of partial differential equations in rectangular and polar coordinates. Initial and boundary value problems for the heat equation and wave equation. Study of Fourier series, Bessel series, harmonic functions and Fourier transforms.
(MATH 777/MATH 477 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

MATH 814 Seminar on Modern Math Methods in Molecular Biology (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Seminar on research in computational biology. Introduction to tools from pure and applied mathematics. Approaches to problems through common computational techniques. Topics to include DNA structure and effects of internal and external agents. Intended for students from a variety of disciplines such as math, computer science, biology and biochemistry.

MATH 850 Algebra (Units: 3)
Prerequisite: MATH 435/MATH 735 with a grade of C or better, or consent of instructor.
Rings and modules; further material is selected from such topics as Wedderburn theory, Noetherian ring theory, field theory, and general algebraic systems.

MATH 870 Computational Discrete Geometry (Units: 3)
Prerequisites: CSC 210, CSC 230, MATH 325, or consent of instructor.
Comprehensive overview of basic topics in computational discrete geometry: generating functions, complexity theory, convex hull, nearest-neighbor problems, efficient algorithms, etc.
(This course is offered as MATH 870 and CSC 870. Students may not repeat the course under an alternate prefix.)

MATH 881 Selected Topics in Combinatorics (Units: 3)
Prerequisites: Graduate standing; MATH 301GW and MATH 335; or consent of instructor.
Review of fundamental combinatorial objects, addressing questions of existence, structure, and enumeration, then treating a well-established area of combinatorics in detail. May be repeated once, as topics vary.
[Formerly a topic under MATH 890]

MATH 882 Advanced Number Theory (Units: 3)
Prerequisites: MATH 310, MATH 335, MATH 370, or consent of instructor.
Topics in computational, analytic, and algebraic number theory, including recognition of primes, modern methods of factorization, partitions, modular forms, elliptic curves, class numbers and quadratic fields. May be repeated once, as topics vary. [Formerly a topic under MATH 890]

MATH 883 Polytopes and Varieties (Units: 3)
Prerequisites: Either MATH 435 with a grade of C or better and consent of instructor, or MATH 735 or MATH 850 with a grade of C or better.
Central concepts in polytope theory and simplicial complexes, elements of affine and projective algebraic geometry, commutative algebra of special ideals and related effective methods, applications to one of the following: discrete geometry, toric varieties, algebraic statistics, polytope theory, optimization. May be repeated once, as topics vary. [Formerly a topic under MATH 890]

MATH 884 Algebraic Geometry (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of current topics in the field of algebraic geometry. May be repeated once, as topics vary. [Formerly a topic under MATH 890]

MATH 885 Advanced Frame Theory and Its Applications (Units: 3)
Prerequisites: MATH 471 or MATH 470, and MATH 725 or MATH 770, or consent of instructor.
Frames in Hilbert spaces, finite frame theory, frames vs. Riesz bases, particular frames structures including frames of translates, Gabor frames, wavelet frames, frame multi-resolution, compressed sensing and sampling theory, and applications. [Formerly a topic under MATH 890]

MATH 886 Discrete Geometry (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Theory of polytopes. Counting lattice points in polytopes. Unimodular triangulations and unimodular coverings. May be repeated once, as topics vary. [Formerly a topic under MATH 890]

MATH 887 Advanced Analysis on Manifolds (Units: 3)
Prerequisite: MATH 710 or consent of the instructor; math major.
Differentiable maps, inverse and implicit function theorems; n-dimensional Riemann integral, change of variables in multiple integrals, manifolds, differential forms, n-dimensional version of Stokes theorem, and abstract differentiable manifolds. May be repeated once, as topics vary. [Formerly MATH 890-topic course]
MATH 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered MATH 898 (or in some cases, MATH 890 - see program's graduate advisor for further information). (CR/NC, RP)

MATH 898 Master's Thesis (Units: 3)
Prerequisites: Consent of instructor and graduate adviser; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

MATH 899 Independent Study (Units: 1-3)
Prerequisite: Approval of the department and consent of the instructor.

Special study of a particular problem under the direction of a member of the department. The student must present a written report of the work accomplished to the staff of the department. May be repeated.
Middle East & Islamic Studies (MEIS)

MEIS 260 Turkish Cultures and Identities (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of the instructor.
Exploration of major developments in the history of Turkic communities around the globe from the rise of the Ottoman Empire to the present. Topics include religion, politics, literature, arts, traditions and customs.
Course Attributes:
  
  • C2: Humanities
  • Global Perspectives

MEIS 290 Introduction to Turkish Literature in Translation (Units: 3)
Study of Turkish poetry, short stories, and novels in English translation.
Course Attributes:
  
  • C3: Humanities: Literature
  • Global Perspectives

MEIS 300 Foundations in Middle East and Islamic Studies (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introductory, interdisciplinary course on the cultures, politics, and histories of the Middle East, North Africa, and other Muslim societies.
Course Attributes:
  
  • E1: Lifelong Learning Develop
  • UD-D: Social Sciences
  • Global Perspectives

MEIS 301 Islam: Interpretation and Practice (Units: 3)
Prerequisite: Upper division standing.
Introduction into the origin, spread, and early writings of Islam, and an overview of the diversity of contemporary Islamic practice around the globe.

MEIS 402 Arab Cinema (Units: 3)
Prerequisites: Upper division standing; CINE major or minor, or Middle East and Islamic Studies minor; or consent of instructor.
Arab history, themes, motifs, aesthetics and cultural traditions. (This course is offered as CINE 402 and MEIS 402. Students may not repeat the course under an alternate prefix.)

MEIS 431 Constructing Kurdistan (Units: 4)
Prerequisites: Upper division standing; PLSI 250 or PLSI 410 or HIST 605 or I R 323 or I R 324 or MEIS 300; or consent of instructor.
Examines Kurdish nation- and state-building efforts in Iraq and Turkey in the 20th and early centuries. Includes introduction to theories on nationalism, state formation, social movements, and ethnic conflict. (This course is offered as PLSI 431 and MEIS 431. Students may not repeat the course under an alternate prefix.)
Course Attributes:
  
  • Global Perspectives

MEIS 433 Model Arab League (Units: 4)
Prerequisites: Upper division standing; ENG 214, and MEIS 300 or I R 324 or PLSI 410; or consent of instructor.
Seminar focusing on select countries in the Arab world, which students represent at delegates at regional Model Arab League (MAL) conferences. Preparation of case study papers, policy briefs and MAL resolutions for various councils at the MAL. Training in parliamentary procedure and public speaking. May be repeated for a total of 8 units. (This course is offered as I R 433 and MEIS 433. Students may not repeat the course under an alternate prefix.)

MEIS 685 Projects in Teaching MEIS (Units: 1-3)
Prerequisite: A current matriculated student in good standing, who has already completed the regular instructionally related class, or its equivalent, with a grade of B or better, for which the student will function as an aide.
Students work as teaching assistants to instructors and receive training in teaching Middle East and Islamic Studies. Responsibilities include working with supervising faculty, assisting in preparing course material, tutoring students, and conducting small group discussions in class. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) number 685 regardless of discipline.)

MEIS 699 Independent Study (Units: 1-3)
Prerequisites: Minimum overall GPA 3.0 and consent of the supervising faculty member and the MEIS director.
Study is planned, developed and completed under the direction of a member of the MEIS advisor.
Modern Greek Studies (MGS)

MGS 150 Modern Greek I (Units: 4)
Modern (demotic) Greek for beginners emphasizing oral expression, listening comprehension, reading and writing. Grammar introduced in context of readings.
Course Attributes:
• C2: Humanities
• Global Perspectives

MGS 151 Modern Greek II (Units: 4)
Prerequisite: MGS 150 or equivalent.
Continuation of first semester Modern Greek.
Course Attributes:
• Global Perspectives

MGS 152 Modern Greek Conversation (Units: 3)
Prerequisite: MGS 150 or consent of instructor.
Emphasizing aural-oral skills, provides practical contexts for conversational modern Greek derived from instructional videos, DVDs, and on-line tutorials. May be repeated for a maximum of 6 units toward degree credit.
Course Attributes:
• Global Perspectives

MGS 316 Contemporary Culture of Greece (Units: 3)
Prerequisite: ENG 214 or equivalent.
The culture of contemporary Greece within the framework of the social sciences, particularly anthropology and folklore. (This course is offered as MGS 316 and ANTH 316. Students may not repeat the course under an alternate prefix.)

MGS 350 Greece and the Balkans (Units: 3)
Prerequisite: ENG 214 or equivalent.
History of Greece and the Balkans from the Fall of Constantinople to the present. (This course is offered as MGS 350 and HIST 350. Students may not repeat the course under an alternate prefix.)

MGS 351 Venetians and Ottomans in the Eastern Mediterranean and Greece (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of the Republic of Venice in conjunction with the Ottoman Empire in their interactions in the eastern Mediterranean. (This course is offered as HIST 351 and MGS 351. Students may not repeat the course under an alternate prefix.)

MGS 352 From Glory to Debt: Greece from the 19th to the 21st Centuries (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of political, social, and economic crises and transformations sustained by the Modern Greek State from 1830 to the present. (This course is offered as HIST 352 and MGS 352. Students may not repeat the course under an alternate prefix.)

MGS 365 Modern Greek III (Units: 4)
Prerequisite: MGS 151 or equivalent.
Continuation of second semester Modern Greek. Accelerated emphasis on conversation, grammar and composition.

MGS 378 Athens (Units: 3)
Prerequisite: ENG 214.
Exploration of the city of Athens from the ancient to the modern periods, including contemporary times; focus on key moments in the city's multi-layered history as well as enduring cultural values and global impact. (This course is offered as HUM 378 and MGS 378. Students may not repeat the course under an alternate prefix.)

MGS 380 British and American Travellers to Greece (Units: 3)
Prerequisite: ENG 214 or equivalent.
Survey of the genre of travel writing to Greece in British and American letters from the Romantic to the postmodern periods. Authors include Byron, Wilde, Woolf, and Miller. (This course is offered as MGS 380 and ENG 380. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

MGS 397 Greek American Literature (Units: 3)
Prerequisite: ENG 114 or equivalent.
A survey of the major Greek American authors and poets of the 20th century. (This course is offered as MGS 397 and ENG 398. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

MGS 452 Forster, Durrell, and Cavafy (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of English novelists and travel writers E. M. Forster and Lawrence Durrell and of their connection to Alexandrian poet C. P. Cavafy. Discussion includes their collective interest in Alexandria as an alternative literary and ideological topos. (This course is offered as MGS 452, CWL 452, and ENG 452. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

MGS 465 Modern Greek Poetry in Comparative Perspective (Units: 3)
Prerequisite: ENG 214 or equivalent.
Survey of Greece's prominent modern poets in comparison with major Anglo-American and European poets. Poets to be studied can include Cavafy, Seferis, Elytis, Mastoraki, Yeats, Eliot, Pound, and Rich. (This course is offered as MGS 465, CWL 465, and C W 465. Students may not repeat the course under an alternate prefix.)
MGS 470 Modern Greek IV (Units: 4)
Prerequisite: MGS 365 or equivalent.
Continuation of third semester Modern Greek. Conversation, grammar and composition writing. Reading and translating of representative literary and other texts.

MGS 497 Modern Greek Literature (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to Greece’s major modernist and postmodernist writers. Exploration of experimental writing techniques using 20th Century literature.
(This course is offered as MGS 497 and CW 497. Students may not repeat the course under an alternate prefix.)

MGS 510 The Byzantine Empire (Units: 3)
Prerequisite: ENG 214 or equivalent.
Political, social, economic, cultural history of Byzantine Empire from 7th to 15th centuries A.D.; relations of Byzantium with Germanic, Slavic, Arabic, and Turkic-speaking neighbors.
(This course is offered as MGS 510, CLAS 510, HIST 326. Students may not repeat the course under an alternate prefix.)

MGS 555 Introduction to Modern Greek Literary Texts (Units: 3)
Prerequisite: MGS 470 or equivalent.
Reading and translation of selected texts in modern Greek literature.
Modern Greek grammar for upper division students.

MGS 699 Independent Study (Units: 1-4)
Prerequisite: Upper division standing or consent of instructor.
Supervised intensive, individual undergraduate work, largely of a research nature, in Modern Greek Studies, e.g., language, literature, folklore and/or culture. Culminates in a paper.
Modern Languages and Literatures (MLL)

MLL 325 Linguistics for Foreign Languages (Units: 3)
Prerequisite: Upper division student of foreign languages or consent of instructor.

Introduction to modern linguistic theories and methods for application to specific foreign languages. Background for foreign language study. [Formerly F L 325]

MLL 400 Introduction to Interpreting (Units: 3)
Prerequisite: Passing score on SF State Bilingual Entrance Exam, (or the federal written exam) and admission to the program.

Introduction to English/Spanish skills required to pass the state interpreter examinations in the field of legal/court interpretation and the medical evaluation system of workers’ compensation. Focus on interpreting theory, the fundamentals of simultaneous, consecutive and sight interpretation, and vocabulary development. [Formerly F L 400]

MLL 400GW Reading and Analysis of Cultural Texts-GWAR (Units: 3)
Prerequisites: ENG 214 with a grade of C- or better; admission to Foreign Language major or consent of instructor.

Introduction to representative cultural texts associated with the languages taught in the Department of Foreign Languages and Literatures. All written work will be done in English. (ABC/NC grading only) [Formerly F L 400GW]

Course Attributes:
- Graduation Writing Assessment

MLL 401 Sight Translation (Units: 3)
Prerequisite: MLL 400 [formerly F L 400].

Understanding legal and other written documents commonly used in civil and criminal courts and translating these documents orally in the target language in a public situation. Focus on legal vocabulary development in both Spanish and English using legal documents from a variety of Spanish-speaking countries; literary, current events, tone, proper register, delivery and accuracy. [Formerly F L 401]

MLL 403 Consecutive Interpretation I (Units: 3)
Prerequisite: MLL 400 [formerly F L 400].

Practice in the consecutive mode of Spanish/English interpretation in legal proceedings such as arraignments, pretrial hearings, depositions, trials and administrative hearings. Develop memory, acquire relevant courtroom terminology, develop familiarity with idiomatic expressions and slang used by Spanish-speaking witnesses and defendants, and discuss ethical issues and courtroom protocol. Use of courtroom scripts and tapes. [Formerly F L 403]

MLL 405 Consecutive Interpretation II (Units: 3)
Prerequisite: MLL 403 [formerly F L 403].

Advanced practice in the consecutive mode of interpretation in legal proceedings including pretrial hearings, preliminary examinations, motions and trials in state and federal courts, depositions, medical/psychiatric examinations and administrative hearings. Emphasis on extended recall, communicating nuances, maintaining register and equanimity in more demanding situations. In-class practice sessions are designed to improve memory, learn note-taking when appropriate and acquire relevant terminology. [Formerly F L 405]

MLL 407 Simultaneous Interpretation I (Units: 3)
Prerequisite: MLL 400 [formerly F L 400].

Development of simultaneous interpretation skills from English to Spanish as practiced in legal proceedings. Students practice with tape-recorded legal texts at a slow to medium rate of speech; develop skills in shadowing and simultaneous interpretation of legal texts (English to Spanish), increasing from 100 to 140 words per minute. Emphasis on continued acquisition of general legal vocabulary and ways to cope with unknown terms, memory lapses and loss of concentration. [Formerly F L 407]

MLL 409 Simultaneous Interpretation II (Units: 3)
Prerequisite: MLL 407 [formerly F L 407].

Practice in simultaneous interpretation skills from English into Spanish in more complex legal proceedings than in FL 407. Students practice with tape-recorded legal texts at a moderate to fast rate of speech (140 words per minute and faster). Material used contains testimony of expert witnesses, legal motions, jury instructions, and other more complex material, and requires acquisition of specialized terminology such as forensic pathology. [Formerly F L 409]

MLL 599 Internship in Foreign Languages (Units: 1-4)
Prerequisites: Minimum of 12 upper division units in a foreign language or equivalent foreign language proficiency and consent of instructor.

Supervised internship in a setting in which a foreign language is used, integrated with relevant academic research. (CR/NC grading only) [Formerly F L 599]

MLL 700 Introduction to Academic Writing and Research Methodology (Units: 3)
Prerequisite: Admission to a foreign language M.A. or literary studies program or consent of instructor.

Introduction to graduate-level academic writing and research. Taught in English. [Formerly F L 700]

MLL 701 Seminar in Academic Writing and Research Methodology (Units: 3)
Prerequisite: Graduate standing in an Foreign Language program or consent of instructor.

Seminar in research methods and academic writing for graduate students in Foreign Languages and Literatures. [Formerly F L 701]

MLL 720 Transcultural Encounters: Topics in Literary Theory for East Asian Studies (Units: 3)
Prerequisite: Graduate standing.

Introduction to variety of critical and theoretical concepts that have shaped production and reception of Chinese and Japanese literary and cultural texts in the twentieth and twenty-first centuries. Course varies between national and transnational perspective and employs comparative approach. [Formerly F L 720]

MLL 721 Topics in East Asian Linguistics (Units: 3)
Prerequisites: Graduate standing; MLL 325; or consent of instructor.

Examination of current issues in Chinese and Japanese linguistics and research methodology, including syllable structure, sound change, tonal evolution, standardization, linguistic purism, and diglossia, among others. [Formerly F L 721]
MLL 750 Curriculum and Instruction I: Foreign Languages (Units: 3)
Prerequisite: Admission to the Single Subject Credential program or consent of instructor.

Principles and theory of teaching foreign languages at the secondary school level, including planning of content and instruction with consideration of student learning and state and national standards. [Formerly F L 750]

MLL 751 Curriculum and Instruction II: Foreign Languages (Units: 3)
Prerequisite: Satisfactory completion of MLL 750 or consent of instructor.

Must be taken concurrently with S ED 660, Student Teaching. Principles and practical experience in the teaching of foreign languages at the secondary school level, including selection and use of instructional technology, evaluation techniques, assessment, and reflective practice. [Formerly F L 751]

MLL 761 Sino-Japanese Encounters 19th/20th Centuries: Imagining the Other Through Literature, Film, and Art (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Exploration of how China and Japan have been represented and imagined by their respective other through literature, art, and cinema, from the late 19th century to the present. Focus on well-known writers, intellectuals, and filmmakers whose work was influenced by an encounter with the culture other. Study of key topics that have resulted from or accompanied these encounters such as modernism, colonialism, imperialism, communism, post-colonialism and nostalgia. [Formerly F L 761]

MLL 780 Topics in Romance and German Literature (Units: 3)
Prerequisite: Graduate standing in the Romance and German Languages and Literatures program or consent of instructor.

Graduate seminar covering literary topics European literature. Topics to be specified in Class Schedule. May be repeated when topics vary. [Formerly F L 780]

MLL 799 Internship in Foreign Languages (Units: 1-4)
Prerequisites: Graduate standing in a foreign language or equivalent foreign language proficiency and consent of instructor.

Supervised internship in a setting in which a foreign language is used, integrated with relevant graduate-level academic research. (CR/NC grading only) [Formerly F L 799]

MLL 803 Technology in Foreign Language Education (Units: 3)
Prerequisite: Graduate standing.

Introduction to principles and practices concerning the use of technology in foreign language education. Focus on the connection between Second Language Acquisition theories and the implementation of current Internet and multimedia technologies. [Formerly F L 803]

MLL 808 Second Language Acquisition (Units: 3)
Prerequisite: Graduate standing.

Survey of L2 acquisition research and methodologies. Examination of major hypotheses about complex variables underlying second L2 and perspectives that form L2 acquisition theories. Selected cases illustrating the relation of L2 acquisition studies to L2 pedagogy. [Formerly F L 808]
Museum Studies (M S)

M S 201 Introduction to the History and Development of Museums (Units: 3)
Introduction to basic theory and organization of museums including the history of museum development, the role of museums in society, museums as places of preservation and education, and the relationship between museums and the communities they serve. (Plus-minus letter grade only)

M S 202 Introduction to Museum Exhibits (Units: 3)
Examination of basics of museum exhibits, including key elements of how exhibits are planned and developed, their purpose, how they are connected to public programming, and the role of visitors. Contains an exhibit viewing component. (Plus-minus letter grade only)

Course Attributes:
- C1: Arts

M S 310 Introduction to Museum Education Methods and Community Engagement (Units: 3)
Prerequisites: Upper division standing; M S 201 and M S 202, with a grade of C or better.

Introduction to the important role museums play in society, including preservation and education. Main content themes include: the history of the paradigm shift from collecting institutions to public, educational institutions; public programs serving diverse audiences; object-based learning; museum-school services; community outreach; visitor studies; and assessment. (Plus-minus letter grade only)

M S 605 San Francisco Bay Area Museums: Behind the Scenes (Units: 3)
Prerequisites: ENG 214 and consent of instructor.

Study of San Francisco Bay Area museums: their history, organization, collections stewardship, exhibits, public programs, and mission. Includes structured "behind-the-scenes" tours of local museums.

M S 680 Cultural Heritage Preservation (Units: 3)
Prerequisite: ENG 214 or equivalent.

Archaeological and architectural conservation: history of U.S. legislation and implementation, international organizations, major national and international projects, philosophy of preservation strategies, conservation ethic.

M S 681 Museum Studies Lab (Units: 3)
Prerequisites: Upper division standing; declared minor in Museum Studies; M S 201 and M S 202, with grades of C or better.

Lab course with lecture and practicum activities in selected museum functions in SF State’s Global Museum, using the museum’s interdisciplinary teaching and research collections. (Plus-minus letter grade only)

M S 682 Capstone Practicum (Units: 3)
Prerequisites: Upper division standing; declared minor in Museum Studies; M S 681 with a grade of C or better.

Practicum at a pre-approved, off-campus museum site, in museum collections management and registration, exhibition design, interpretation, gallery preparation and installation, education and public programming, and gallery management or administration, under the supervision of a professional museum employee and SF State instructor.

M S 700 History and Organization of Museums (Units: 3)
Prerequisite: Classified graduate standing and/or consent of instructor.

Major museology facets, including analysis of diverse museums, career options, ethics, laws, funding, and literature. Museum operation and community-museum relationships through on-site observations, interviews, and research.

M S 701 Museum Theory and Practice (Units: 2)
Prerequisites: Upper division undergraduate or classified graduate standing; completion of M S 700; or consent of instructor.

Exploration of recent theory in museum studies, focusing on the theoretical approaches supplying insight into developing useful strategies in museum practice. Analysis of the museum’s function, management, and place in society, including research on practice, history, and outlook.

M S 702 Writing for the Museum Profession (Units: 3)
Prerequisite: Graduate standing in Museum Studies or consent of instructor.

Examination of three major areas of writing for the museum profession: communication with visitors; technical writing for interpretation, outreach, programming, and documentation; and writing in an academic context. (Plus-minus letter grade only)

M S 707 Perspectives on Museums: A Professional Forum (Unit: 1)
Prerequisites: Upper division undergraduate or classified graduate standing; museum studies major or consent of instructor.

Guest speakers from the museum community to provide graduate students with perspectives and discussion on current practices and trends in the museum work place.

M S 708 Museums: Global Operations (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.

Examination of museum efforts to incorporate global perspectives into their activities. Topics include analyses of international partnerships and globally-focused museum activities, the challenges of such work, and basic resources on international museum efforts.

M S 710 Museum Education and School Outreach (Units: 3)
Prerequisite: Classified graduate standing and consent of instructor.

Overview and evaluation of educational services in museums, including the planning and implementation of educational programs and establishing a liaison with public schools. Designed for graduate students, museum professionals, and public school teachers. (Plus-minus letter grade only) [CSL may be available]

M S 715 Interpretation in Museums and Heritage Organizations (Units: 3)
Prerequisites: Classified graduate standing and consent of instructor.

Analysis of the methods and styles of interpretation of museum collections and heritage facilities (e.g., historic sites, historic houses, landmarks, open-air facilities). Development and improvement of interpretive programs.

M S 720 Museum Curatorship and Collecting (Units: 3)
Prerequisite: Classified graduate standing.

Analysis of the duties of museum curators, including academic research, collections documentation, collections development, donor cultivation, ethical collection practices, exhibition concept development, and the curator’s position within the institution and community. May be repeated for a total of 6 units. (Plus-minus letter grade only)
M S 730 Museum Exhibition Planning and Design (Units: 3)
Prerequisite: Classified graduate standing.
Theory and practical experience in the development and installation of exhibitions in museums and related exhibition spaces in libraries or similar institutions, including collaborations between such entities. May be repeated for a total of 6 units. (Plus-minus letter grade only)

M S 740 Museum Conservation and Restoration (Unit: 1)
Prerequisite: Classified graduate standing in M S.
Theory and practice in museum conservation and restoration, using the Sutro Egyptian and permanent collections. Analysis of museum artifacts.

M S 760 Preservation of Natural History and Cultural Collections (Units: 3)
Prerequisite: Classified graduate standing or senior with consent of instructor.
Analysis of major types of natural history specimens, their properties, potential hazards facing them, and appropriate conservation techniques.

M S 790 Archives Management and Preservation (Units: 3)
Prerequisite: Classified graduate standing or senior with consent of instructor.
History, principles, methodologies, and practical administration of non-electronic archives (original documents, maps, photographic materials, manuscripts, diaries, albums, government records); practical, hands-on experience with preservation methods. (Plus-minus letter grade only)

M S 791 Integrated Pest Management in Heritage Facilities (Unit: 1)
Prerequisite: Museum Studies major or consent of instructor.
Development of plans to prevent pest infestations in museums and related heritage facilities. Overview of current methods of chemical and non-chemical methods of control, legacy of past chemical practices in museums, and OSHA regulations for employee safety.

M S 792 Museum Security Systems (Unit: 1)
Prerequisite: Museum Studies major or current museum employee.
Analysis and implementation of institutional procedures and new technology for theft prevention and mitigation in museums.

M S 793 Museum Facilities Management (Unit: 1)
Prerequisite: Museum Studies major or consent of instructor.
Analysis of building and grounds issues; risk management; emergency/disaster preparedness; fire suppression technology; HVAC systems; new construction materials.

M S 794 Museum Collections Management and Registration (Units: 3)
Prerequisite: Classified graduate standing in museum studies.
Tasks performed by museum registrars: documentation of collections, loan procedures, collections storage, museum security, disaster preparedness, traveling exhibitions and customs, insurance, and development of collections management policies.

M S 795 NAGPRA for Museum Registrars and Curators (Units: 2)
Prerequisite: Classified graduate standing and consent of instructor.
For museum registrars and curators, analysis of legal compliance and practical implementation of the Native American Graves Protection and Repatriation Act. (Plus-minus letter grade only)

M S 800 Museum Management, Law, and Ethics (Units: 3)
Prerequisite: Classified graduate standing.
Legal issues of concern to museum professionals and artists; laws governing acquisition of art objects, authentication, taxes, liability, censorship, artists’ rights, copyright, museum organization, and labor relations. (Plus-minus letter grade only)

M S 810 Museums in the Digital Age (Units: 3)
Prerequisite: Classified graduate standing or consent of instructor.
Use and role of digital media and information technology in museums. Development of practical and theoretical skill set for the management of digital assets for exhibit development, education, public relations and marketing, collections preservation, and digitally-mediated outreach.

M S 811 Digital Preservation for Museums and Cultural Heritage Institutions (Units: 3)
Prerequisite: Classified graduate standing or consent of instructor.
Survey and applied practicum of digital technologies used in museums and cultural heritage institutions. Exploration of the relationship between computation and the humanities; and issues facing cultural institutions in the 21st century, such as open source programs, the organization and preservation of existing collections, and real-world examples in the field of digital cultural management. (Plus-minus letter grade only)

M S 823 Curation and Cinema (Units: 3)
Prerequisite: Restricted to students in M.A. or M.F.A. Cinema program or Museum Studies M.A. program.
Examination of curatorial practice and the role of curators in contemporary culture; the relation between moving images and contemporary art practices; projection, display and exhibition of time-based media in and beyond film events and art institutions. (Plus-minus letter grade only)
(This course is offered as CINE 823 and M S 823. Students may not repeat the course under an alternate prefix.)

M S 830 Museum Governance (Units: 3)
Prerequisite: Classified graduate standing or consent of instructor.
Analysis of governance in museums, including: trusteeship, board issues, roles of director and senior management, governance conflicts, mission statements, use of advisory committees and support groups, collections issues, planning, and recent controversies. (Plus-minus letter grade only)

M S 840 Museums and Cultural Property (Units: 3)
Prerequisite: Classified graduate standing or consent of instructor.
Examination of legal and ethical issues concerning cultural property in museums: museum acquisition policies; international art/antiquities trade; auction houses; WWII-era looting; repatriation; ownership dispute resolution; relationships with descendant communities. (Plus-minus letter grade only)

M S 845 Art Law (Units: 2)
Prerequisite: Museum Studies major or consent of instructor.
Artists’ expressive, economic, and moral rights; intellectual property issues; title and theft; art merchants and authenticity; museum acquisitions; IRS regulations pertaining to museums contracts and documentation in museums.
M S 850 Museum Volunteer Management and Membership (Units: 3)
Prerequisite: Classified graduate standing or consent of instructor.
Development and management of volunteer and membership programs for museums and heritage organizations. Volunteer recruitment/retention, sound practices for producing and managing membership programs, and training and daily volunteer operations in the museum and heritage environment.

M S 860 Fundraising in Museums (Units: 3)
Prerequisite: Classified graduate standing or consent of instructor.
Examination of fundraising in museums, budget building, budget cycle, legal and tax issues of fundraising, as well as specific fundraising methods (gifts, planned giving, bequests, endowments, e-commerce, grants, contracts). (Plus-minus letter grade only)

M S 865 Museums beyond ADA: Universal Access & Museopathy (Units: 3)
Prerequisite: Classified graduate standing and consent of instructor.
Strategies for successful incorporation of universal access and universal design principles to museum operations. Latest research on new uses for museum collections to improve health and social engagement (museopathy), for visitors and confined populations with Alzheimer’s, autism, cancer, sensory loss.

M S 870 Museum Audiences, Visitors, and Communities (Units: 3)
Prerequisite: Classified graduate standing and consent of instructor.
Analysis of museum visitors (visitor studies) and non-visitors (audience research) in the context of museum communities. Methodology and applications of visitor/audience research to improve museum operations and exhibitions.

M S 875 Public Relations and Marketing for Museums (Units: 3)
Prerequisite: Classified graduate standing and consent of instructor.
Development of and best practices in strategic marketing, earned income operations, and public relations for museums and heritage organizations.

M S 880 Museum Internship (Units: 3)
Prerequisites: M S 700 and classified graduate standing in Museum Studies.
Practicum in collections management, exhibition design, fundraising management, publishing, curation, educational programming, conservation under the supervision of a professional museum employee and SF State instructor. May be repeated for a total of 6 units.

M S 885 Professional Conferences and Workshops (Units: 1-3)
Prerequisite: Consent of instructor.
Attendance, participation, and evaluation at professional conferences, workshops, or short courses offered by museums, professional associations, or other recognized institutions. Prior approval by Museum Studies Program is mandatory. May be repeated for a total of 3 units. (CR/NC grading only)

M S 888 Project Management for Museums (Units: 1-2)
Prerequisites: MS Majors only; Prior enrollment in M S 720, M S 850; or instructor consent.
Under faculty guidance, development, logistics, budgeting, and time management for museum exhibits, catalogue publishing, conferences/sessions for museum professionals, or special events for schools/general public. May be repeated for a total of 3 units for the degree credit.

M S 894 Creative Work Project (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Original creative work project which must be developed with the approval of the Museum Studies program. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC; RP grading only)

M S 897 Directed Thesis Advising and Support (Units: 3)
Prerequisite: Graduate standing.
Directed advising and support for students writing theses or creative works. May be taken before enrollment in M S 894 or M S 898. Once students have taken M S 894 or M S 898 they must take M S 897 every Spring semester until they finish the degree. (CR/NC grading only)

M S 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor; approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies; and recommendation of major adviser. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)
Music (MUS)

MUS 120 Basic Music I (Units: 3)
Fundamentals of music applied through development of basic skills in music reading, writing, listening, and singing or playing selected instruments. Open to all students without prerequisite. Classwork, 2 units; activity, 1 unit. Topics to be specified in Class Schedule. May be repeated for a total of 9 units when topics vary. Extra fee may be required.
Course Attributes:

• C1: Arts

MUS 122 Basic Music I: Piano (Units: 3)
Open to all students without prerequisites. Development of basic skills in music fundamentals and piano. Classwork, 2 units; activity, 1 unit. Extra fee required. [Formerly a topic under MUS 120]
(This course is offered as MUS 122 and TH A 122. Students may not repeat the course under an alternate prefix.)
Course Attributes:

• C1: Arts

MUS 130 Rudiments of Music Theory (Units: 3)
Concurrent enrollment in a basic piano class recommended. Comprehensive review and drill of music fundamentals. Development of aural skills; written and analytical knowledge of simple harmony. (This course is offered as MUS 130 and TH A 131. Students may not repeat the course under an alternate prefix.)

MUS 150 Concert Music (Unit: 0)
Audience participation at designated on-campus concerts scheduled by the Department of Music. Required each semester of music majors.

MUS 201 Class Piano I (Unit: 1)
Prerequisites: Satisfactory performance audition; ability to read treble and bass clefs, music major or minor; priority given to Music majors, others by approval of department.
Instruction includes techniques, repertoire, and keyboard harmony. (Plus-minus letter grade only)

MUS 202 Class Piano II (Unit: 1)
Prerequisites: Satisfactory performance audition; MUS 201 or equivalent. MUS 202 is normally taken concurrently with MUS 232. Priority given to Music majors.
Laboratory. (Plus-minus letter grade only)

MUS 203 Class Piano III (Unit: 1)
Prerequisites: Satisfactory performance audition, MUS 202 or equivalent. MUS 203 is normally taken concurrently with MUS 233. Priority given to Music majors.
Laboratory. (Plus-minus letter grade only)

MUS 206 Beginning Jazz/Pop Piano (Unit: 1)
Introduction to jazz and popular piano performance: left and right-hand chord voicings, right hand improvisation, and rhythmic comping in a variety of stylistic idioms. May be repeated for a total of 3 units. (This course is offered as MUS 206 and TH A 206. Students may not repeat the course under an alternate prefix.)

MUS 211 Class Voice I (Unit: 1)
Prerequisites: Major/minor in music (priority); major in lyric theatre; others by approval of department; ability to read music.
Foundational techniques in singing, tone production, musicianship, and interpretation. Laboratory.

MUS 212 Class Voice II (Unit: 1)
Prerequisites: Major and minor in music (priority); major in lyric theatre; others by approval of department.
Continuation of MUS 211: foundational techniques in singing, tone production, musicianship, and interpretation. Laboratory. May be repeated for credit.

MUS 221 Fundamentals of Ear Training and Musicianship I (Units: 2)
Prerequisites: Satisfactory performance audition; knowledge of written scales, key signatures, rhythms, intervals, and triads; ability to sing scales.
Ear training and sight singing. Melodic, rhythmic, and harmonic dictation. Laboratory.
(This course is offered as MUS 221 and TH A 221. Students may not repeat the course under an alternate prefix.)

MUS 222 Fundamentals of Ear Training and Musicianship II (Units: 2)
Prerequisites: Satisfactory performance audition; MUS 221 or equivalent; concurrent enrollment advised in MUS 232; priority given to music majors.
Laboratory. (Plus-minus letter grade only)

MUS 223 Fundamentals of Ear Training and Musicianship III (Units: 2)
Prerequisites: Restricted to music majors and minors; satisfactory performance audition; MUS 222 or equivalent.
Laboratory. (Plus-minus letter grade only)

MUS 224 Ear Training and Musicianship IV (Unit: 1)
Prerequisite: MUS 223 or consent of instructor.
Sight-reading, keyboard harmony and figured bass, harmonic analysis, ear training, and harmonic and rhythmic dictation.

MUS 230 Music Growth and Development in Childhood (Units: 3)
Development of fundamentals and principles for selecting, evaluating, performing, and demonstrating music materials for children; the place of music in the child’s education. (Plus-minus letter grade only)

MUS 231 Contrapuntal Analysis and Synthesis (Units: 3)
Prerequisites: Restricted to Music majors and minors; satisfactory performance audition; MUS 130 or examination; concurrent enrollment advised in MUS 221 and class piano; non-majors with consent of instructor.
Contrapuntal form and procedures through written exercises, analysis, and composition in two to four parts based upon examples from the literature. (Plus-minus letter grade only)

MUS 232 Diatonic Analysis and Synthesis (Units: 3)
Prerequisites: Satisfactory performance audition; MUS 231; concurrent enrollment advised in MUS 222 and Class Piano; non-majors with consent of instructor.
Common practice harmonic and formal procedures through written exercises, analysis, and composition: triads, inversions, cadences, seventh chords, binary, ternary, and rondo forms based upon the literature. (Plus-minus letter grade only)
MUS 233 Chromatic Analysis and Synthesis (Units: 3)
Prerequisites: Restricted to Music majors and minors; satisfactory performance audition; MUS 231 and MUS 232; concurrent enrollment advised in MUS 223 and class piano; non-majors with consent of instructor.

Procedures found in chromatic music through written exercises, analysis, and composition, including secondary dominants, modulation, altered chords, theme-and-variations, and sonata forms based upon the literature. (Plus-minus letter grade only)

MUS 234 Modern Musicianship: Theory, Application and Ear Training I (Units: 3)
Examination of music notation, terminology, rhythm, scales and modes, key signatures and the circle of fifths, intervals, transposition, chords and chord progressions, figured bass, lead sheet notation, Roman numeral analysis and basic structures integrating active performance of all concepts.
(This course is offered as MUS 234 and TH A 234. Students may not repeat the course under an alternate prefix.)

MUS 235 Modern Musicianship: Theory, Application and Ear Training II (Units: 3)
Prerequisite: MUS 234.
Continuation of MUS 234. Examination of nondiatonic scales, advanced chords, chord inversions and voicings, chord substitutions, nonharmonic tones, lead sheet notation, Roman numeral analysis, and basic structures. Focus on the integration of written notation and active performance.
(This course is offered as MUS 235 and TH A 235. Students may not repeat the course under an alternate prefix.)

MUS 270 Improvisation (Units: 2)
Prerequisites: MUS 203 or MUS 206, MUS 233 with grades of C or better.
Emphasis on integrating fundamentals across styles and interdisciplinary practices. May be repeated upon advisement.

MUS 301 Class Piano IV (Unit: 1)
Prerequisites: MUS 203 or equivalent; priority given to music majors.
Intermediate class piano for voice, composition, instrumental, and music history majors. Laboratory. (Plus-minus letter grade only)

MUS 302 Class Piano V (Unit: 1)
Prerequisites: MUS 301 or equivalent; priority given to music majors.
Intermediate class piano. May be repeated for credit. Laboratory. (Plus-minus letter grade only)

MUS 303 Keyboard Major (Unit: 1)
Prerequisites: Restricted to Music majors; audition; concurrent enrollment in MUS 360.
Advanced individual projects in performance and literature for piano, harpsichord, organ, and fortepiano. May be repeated for a total of 8 units. (Plus-minus letter grade only)

MUS 307 The Singing Actor: Exploring Music through the Craft of Acting (Unit: 1)
Prerequisites: Upper division standing and by audition.
Exploration of song through the craft of acting, with a focus given to storytelling through the intersection of poetic structure and device and musical composition. (Plus-minus letter grade only)
(This course is offered as MUS 307 and TH A 307. Students may not repeat under alternate prefix.)

MUS 309 Singing for Self Expression I (Unit: 1)
Prerequisite: Upper division standing or consent of instructor.
Basic elements of vocal technique. Analysis of individual problems and corrective vocalises. Breath control, tone production, placement, phonetics in group and individual practice and performance; special needs of self-presentation.

MUS 313 Voice Major (Unit: 1)
Prerequisites: Music and Drama majors; audition; and/or concurrent enrollment in MUS 150, MUS 394, a vocal or choral ensemble as assigned; approval of department. B.A. students must have completed lower division preparation.

Vocal study for the music degree. May be repeated for a total of 8 units for music performance majors; for other majors, may be repeated for a total of 2 units. (Plus-minus letter grade only)
(This course is offered as MUS 313 and TH A 318. Students may not repeat the course under an alternate prefix.)

MUS 335 Rehearsal and Performance Technique (Unit: 1)
Prerequisite: By audition.
In depth exploration of character psychology, social political context and musical theatrical detail necessary for a successful opera production. Principally devoted to staging and advancement of student stagecraft. May be repeated for a total of 4 units. (CR/NC grading only)

MUS 351 Class Orchestral and Band Instruments I (Unit: 1)
Prerequisites: Music majors and minors; ability to read music; others by consent of department.
Fundamentals in embouchure, fingering, articulation, breath control, and hand position. Topics to be specified in Class Schedule. May be repeated with varying content.

MUS 353 Instrumental Major (Unit: 1)
Prerequisites: Restricted to music major; consent of department; and concurrent enrollment in MUS 150 and MUS 371, MUS 372, or MUS 377 (for guitarists) as assigned.

Applied Instruction on instrument or voice. Topics to be specified in Class Schedule. May be repeated for a total of 8 units as topics vary.

MUS 360 Major Repertoire (Unit: 1)
Prerequisites: Restricted to music major; audition; and consent of department.

In-depth survey of repertoire for one instrument or voice. Topics to be specified in Class Schedule. One topic may be repeated 8 times

MUS 371 Orchestra (Unit: 1)
Prerequisite: Audition.
Major orchestral ensemble for qualified musicians. May be repeated for a total of 8 units.

MUS 372 Wind Ensemble (Unit: 1)
Prerequisite: Audition.
Major performance ensemble for woodwind, brass, and percussion players. Rehearsal and performance of a broad range of wind and percussion repertoire. Open to all students by audition. May be repeated for a total of 8 units.
MUS 373 Chamber Singers (Unit: 1)
Prerequisite: Audition.
Sacred and secular music for vocal chamber ensemble. Open to all students by audition. May be repeated for a total of 8 units.

MUS 375 Women's Chorus (Unit: 1)
Prerequisite: Audition.
Preparation and performance of repertoire for treble voices. May be repeated for a total of 8 units.

MUS 376 Opera Workshop (Unit: 1)
Prerequisite: Audition.
Preparation and performance of opera scenes or opera production. May be repeated for a total of 8 units.

MUS 377 Instrumental Ensembles (Unit: 1)
Prerequisite: Audition.
Preparation and performance of literature for specific woodwind, brass, percussion, or string ensembles. Ensemble to be specified in Class Schedule. May be repeated for a total of 8 units.

MUS 378 Chamber Music (Unit: 1)
Prerequisite: Audition.
Preparation and performance of chamber music literature by advanced students in small ensembles. May be repeated for a total of 8 units.

MUS 379 University Chorus (Unit: 1)
Prerequisite: Audition.
Sacred and secular music for large chorus, including masterworks with orchestra. Sight-reading instruction as needed for 2 units of credit. Open to all students by audition. May be repeated for a total of 8 units.

MUS 381 Men's Chorus (Unit: 1)
Prerequisite: Placement audition.
Preparation and performance of repertoire for tenor, baritone and bass voices. May be repeated for a total of 8 units.

MUS 382 Keyboard Harmony (Unit: 1)
Prerequisites: MUS 232 and MUS 303 or equivalent.
Intensive one-semester accelerated course in applied figured-bass realization, open-score reading, and transposition for piano majors. Laboratory.

MUS 383 Piano Accompaniment (Unit: 1)
Prerequisite: Audition.
Development of accompaniment skills through preparation and performance of selected vocal and instrumental literature. May be repeated once.

MUS 384 Piano Ensemble (Unit: 1)
Prerequisite: Audition.
Preparation and performance of selected works for two pianos and one piano/four hands. May be repeated.

MUS 385 Applied Accompanying (Unit: 1)
Prerequisite: MUS 383 or consent of instructor.
Practical experience in applied piano accompaniment to be attained by assignment, based on experience and level of ability, to individual studio lessons in the vocal and instrumental area or to various ensembles in music. May be repeated for a total of 8 units.

MUS 386 World Music Ensembles (Unit: 1)
Prerequisite: Audition performance on an instrument or voice.
Two to eight piece interactive performance groups drawing musical traditions: Africa, Middle East, India, Asia, Europe, Americas. Intercultural practice is encouraged. Topics to be specified in Class Schedule. May be repeated for 12 units for degree credit as topics vary.

MUS 387 Collegium Musicum: Schola Civilis (Unit: 1)
Prerequisite: Audition or consent of instructor.
Practical study of Gregorian Chant: practice in singing a varied selection of chant repertoire; perform chant in the context of a Latin Mass; development of historically informed performance style of Gregorian Chant; acquire knowledge of theoretical background to chant. May be repeated for a total of 6 units.

MUS 388 Jazz Combos (Unit: 1)
Prerequisite: Audition.
Two- to eight-piece interactive performance groups in a variety of styles, including Blues-R&B, Swing, Bop and Straight-ahead, model-free, Rock Fusion, Gospel, Afro-Cuban, Creative World, and Vocal. Topics to be specified in Class Schedule. May be repeated for a total of 12 units.

MUS 390 Jazz Band (Unit: 1)
Prerequisites: Audition; MUS 430 and MUS 440 or consent of instructor.
Eighteen to twenty piece group consisting of saxophone, trumpet, trombone, and rhythm sections; arrangement realization and improvisation in all styles. May be repeated for a total of 8 units.

MUS 391 Piano Sightreading (Unit: 1)
Prerequisite: Piano major or audition.
Broad and systematic approach to the skills needed to sightread at a reasonable speed. May be repeated for a total of 2 units.

MUS 392 Piano Performance Practicum (Unit: 1)
Prerequisite: Piano performance major or audition.
Performance in the classroom setting. Technical problems and performance practice of standard concert repertoire. May be repeated for a total of 8 units.

MUS 394 Vocal Performance Practicum (Unit: 0)
Prerequisites: Vocal performance major; must be taken concurrently with MUS 313, MUS 360, MUS 776 and/or MUS 780.
Performance in the classroom setting. Technical problems and performance practice of standard vocal repertoire. May be repeated 8 times.

MUS 396 Chamber Music Forum (Unit: 1)
Prerequisite: Concurrent enrollment in chamber music or consent of instructor.
Performance in the classroom setting. Technical problems and performance practice of chamber music repertoire. May be repeated for a total of 8 units.

MUS 398 Vocal/Jazz Modern Music (Unit: 1)
Prerequisite: Audition.
Two- to eight-piece interactive groups in a variety of styles. May be repeated for a total of 12 units. [Formerly a topic under MUS 398] (This course is offered as MUS 398 and TH A 398. Students may not repeat the course under an alternate prefix.)
MUS 399 Jazz/Modern Music Combo (Unit: 1)
Prerequisite: Audition.
Two- to eight-piece instrumental groups that perform in a variety of styles. These can include, but are not limited to, Blues-R&B, Swing, Bop and Straight-ahead, Rock Fusion, and various Latin Jazz styles. May be repeated for a total of 12 units. [Formerly a topic under MUS 388] (This course is offered as MUS 399 and TH A 399. Students may not repeat the course under an alternate prefix.)

MUS 400 Music Performance (Units: 3)
Prerequisite: Audition or consent of instructor is required to enroll in this course.
Music performance practice as it relates to a variety of genres, styles, settings, historical periods and instrumentations. Online coursework, 2 units: analysis of performance practices and settings; 1 unit: performance-related activities. May be repeated for a total of 6 units.
Course Attributes:
- UD-C: Arts and/or Humanities

MUS 405 Tonal Counterpoint (Units: 3)
Prerequisite: MUS 233.
Contrapuntal practices of the 18th century through written exercises in two- and three-parts based on analysis of examples from the literature. (Plus-minus letter grade only)

MUS 415 Orchestration (Units: 3)
Prerequisite: MUS 233.
Characteristics of modern orchestral instruments and the orchestral styles and techniques of the 18th, 19th, and 20th centuries. Representative scores from the literature and assignments in scoring for various instrumental ensembles. (Plus-minus letter grade only)

MUS 416 Theory Seminar (Units: 3)
Prerequisite: MUS 420.
Advanced analysis of musical works from specific periods or genres. Topic to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus letter grade only)

MUS 420 20th Century Techniques (Units: 3)
Prerequisite: MUS 233.
Compositional procedures and musical structures of the 20th century through studies of the literature and composition. (Plus-minus letter grade only)

MUS 425 Composition Workshop (Unit: 1)
Prerequisites: MUS 420 (may be taken concurrently) and consent of instructor.
Free compositional work under supervision of instructor. Preparation of works for performance at a student recital. Analytical presentations of original works. May be repeated for a total of 5 units; only 1 unit counts in the major.

MUS 430 Improvisation (Units: 2)
Prerequisites: MUS 203 or MUS 206 and MUS 233 with a grade of C or better.
Emphasis on integrating improvisation techniques with music fundamentals across styles and practices. Classwork, 1 unit; activity, 1 unit. May be repeated for a total of 4 units.

MUS 431 Jazz Improvisation I (Units: 2)
Prerequisite: MUS 270 with a grade of C or better.
Study and application of jazz improvisation concepts utilizing extended harmonic approaches, quartalism, linear chromaticism, and advanced cross-rhythm sensibility. Structures used are primarily the blues and standard tunes. May be repeated for a total of 4 units.

MUS 432 Jazz Improvisation II (Units: 2)
Prerequisite: MUS 431.
Review and application of jazz improvisation concepts utilizing extended harmonic approaches, quartalism, linear chromaticism, and advanced cross-rhythm sensibility. Structures used are modern jazz standards. May be repeated for a total of 4 units.

MUS 433 Introduction to Music Technology (Units: 2)
Prerequisites: Familiarity with computers; ability to read music in two clefs; and consent of instructor. Enrollment priority given to music majors.
Basic MIDI protocol; synthesizer programming, sequencing, digital editing, and notation.

MUS 436 Introduction to the Electronic Music Studio (Units: 2)
Prerequisite: MUS 504 or equivalent preparation.
Operation of digital electronic music equipment, including use of computers in controlling electronic musical instruments.

MUS 438 Fundamentals of Computer Music (Units: 2)
Prerequisites: MUS 436 and MUS 504 or equivalent preparation.
Theories and issues in software-based digital audio signal analysis, processing, and synthesis. Software synthesis and control techniques in creating original musical compositions.

MUS 440 Jazz Harmony (Units: 3)
Prerequisites: MUS 203 or MUS 206 and MUS 233 with a grade of C or better.
Notation and realization of harmony in jazz music. Standard chord progressions and lead sheet symbols. (Plus-minus letter grade only)

MUS 441 Jazz Composition and Arranging (Units: 3)
Prerequisite: MUS 440.
Major jazz compositional practices, including review and application of form, harmonic and linear progression as developed through jazz masterworks of the 20th century. Composers' scores and transcribed improvisations, as well as student works. (Plus-minus letter grade only)

MUS 445 Creative Concepts in Music (Units: 2)
Prerequisite: MUS 430 or consent of instructor.
The role of musical creativity in cognitive, cultural, political and socio-historical terms, is examined in relation to the imaginative, original, eclectic, experimental, and innovative, as expressed by a number of select musical artists, their times, and masterworks.
MUS 446 Music, Ideas, and Culture (Units: 3)
Prerequisite: ENGL 214.
Functions of music in diverse social and cultural traditions; relation to other arts and disciplines. Writings of philosophers, critics, musicologists and musicians about music. (This course is offered as HUM 320 and MUS 446. Students may not repeat the course under an alternate prefix.)
**Course Attributes:**
- UD-C: Arts and/or Humanities

MUS 450 Projects in Theory and Composition (Units: 1)
Prerequisites: Junior standing; music major; MUS 420 and MUS 425; must be taken concurrently with MUS 460; or consent of instructor;
Supervised study of composition and theoretical problems and preparation of works for performance. May be repeated for a total of 4 units. (Plus-minus letter grade only)

MUS 460 Repertoire for Composers (Unit: 1)
Prerequisites: Junior standing; music major; MUS 420; must be taken concurrently with MUS 425 and MUS 450; or consent of instructor.
Literature associated with the study of MUS 450 as required for the Bachelor of Music. May be repeated for a total of 4 units. (Plus-minus letter grade only)

MUS 477 Music Business: Career Management in Music (Units: 3)
Prerequisite: Upper division standing.
An overview of the music business including songwriting, publishing, live performance, recording, merchandising, and licenses. Exploration of music industry career paths such as arts management, music products and merchandizing, public relations, music production and recording, publishing, and online music distribution.

MUS 501 Music, The Listener's Art (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Music literature in historical/cultural contexts. Skills and techniques of analytical listening and the reading of simple scores.

MUS 502 The Opera (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Synthesis of drama, music, scenery, costume, and dance in opera. Development of the genre in Italy, France, England, and Germany showing how it differed from one country to the next due to linguistic and theatrical traditions.

MUS 504 Survey of Electronic Music (Units: 3)
Prerequisite: Upper division standing.
Materials and methodology of electronic music as a contemporary art form. Literature of electronic music and related theoretical issues drawn from the fields of physics, acoustics, psychoacoustics, and digital audio, including the MIDI communication protocol.

MUS 505 Music of the World's Peoples (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Non-Western music and arts, studied within their socio-cultural context. Autochthonous folk, and classical music in societal context as art forms. Lecture, discussion, and guided listening, enhanced by selected audio-visual presentations and readings.
**Course Attributes:**
- UD-C: Arts and/or Humanities
- Global Perspectives

MUS 506 Survey of Jazz (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Jazz from early ragtime to the present. Musical-social-economic history of jazz and its interaction with classical and rock musics.
**Course Attributes:**
- U.S. History
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

MUS 507 Jazz and Blues in Film (Units: 3)
Prerequisite: Upper Division Standing
Survey of the history and impact of jazz and blues on the Hollywood film industry from the early "soundies" and "The Jazz Singer" to modern day blockbusters. Noted jazz composers such as Henry Mancini, Quincy Jones, and Olive Nelson will be included, as well as works by jazz-influenced composers of the 1970's film era, such as Marvin Gaye, Isaac Hayes, and Melba Liston. (This course is offered as MUS 507, HUM 321, and TH 507. Students may not repeat the course under an alternate prefix.)
**Course Attributes:**
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

MUS 508 Modern Music: American Iconoclasts (Units: 3)
Prerequisites: Upper division standing and satisfaction of Graduation Writing Assessment Requirement (GWAR).

MUS 509 Historical Performance: Keyboard Practices (Units: 3)
Prerequisites: MUS 303 and MUS 360, or consent of instructor.
Historical review of keyboard performance practices of the Venetian, Roman, and English schools of the mid-late Renaissance and early Baroque eras; period improvisation, continuo realization and accompaniment; works of mid-Baroque French masters and clavecin school of the late seventeenth and early eighteenth century; cembalo repertoire of the late Baroque and pre-Classical periods. Maybe repeated for a total of 6 units.

MUS 510 Keyboard Literature (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Music from 16th to 20th centuries viewed through a survey of piano, harpsichord, and organ literature. Required for majors in piano but open to other qualified students.
MUS 511 The Roots of Rock (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Popular music as a reflection of American culture; folk and ethnic roots, regionalism, commercialism; influence of technology, country, rhythm and blues, rock. Topics include general aspects of early rock development or focus on a particular early rock group or performer. Topic to be specified in Class Schedule. May be repeated for a total of 6 units as topics vary.

MUS 512 Rock Since the Mid-1960s (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

An examination of developments in Rock from the mid-1960s to the early 1980s: significant styles, social impact of styles, and the influence of electronic technology, with an emphasis on mid-60s to early 70s styles as being foundational. Lectures, readings, and recordings are used to familiarize students with the history and stylistic development of rock music.

MUS 520 Seminar in Music Literature (Units: 3)
Prerequisite: Satisfaction of Graduation Writing Assessment Requirement (GWAR).

Group study of music literature of specific periods, genres or styles. Topic to be specified in Class Schedule. May be repeated when topics vary.

MUS 530 Musics of the Middle East and India (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Musical cultures of Iran, Turkey, and the Arab world, including North Africa, Central Asia, and Indian sub-continent. Traditional instruments, concepts, and contexts of music making. Students may substitute this course for MUS 520 as preparation for MUS 598.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

MUS 531 Musics of North and Southeast Asia (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Musical cultures of Japan, Korea, China, Philippines, Vietnam, Cambodia, Thailand, Burma, Malaysia, Indonesia, as well as Australia and Pacific Oceania. Traditional instruments, concepts, and contexts of music making. Students may substitute this course for MUS 520 as preparation for MUS 598.

MUS 532 Music of Latin America (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Musical cultures of Central and South America, including Caribbean. Socio-historical events related to contexts of music-making, instruments, and various genres. Students may substitute this course for MUS 520 as preparation for MUS 598.

MUS 542GW Ethnomusicology - GWAR (Units: 3)
Prerequisites: Upper division standing; music majors only; ENG 214 or equivalent with a grade of C or better.

Research and extensive writing and revision skills developed and applied in ethnomusicology to the study of selected musical cultures. History, theory and methodology, fieldwork, transcription, and cross-cultural analysis. (ABC/NC grading only)

Course Attributes:
- Graduation Writing Assessment

MUS 545 Traditional Kulintang Music and Dance of the Southern Philippines (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Music and dance of Southern Philippines, emphasis on Kulintang tradition of Mindanao and Sulu Archipelago. Lectures and hands-on workshops on dance movement and music of Kulintang culture. May be repeated for a total of 6 units.
(This course is offered as ETHS 545, DANC 545, and MUS 545. Students may not repeat the course under an alternate prefix.)

MUS 550 Music from the Middle Ages to 1750 (Units: 3)
Prerequisites: MUS 233 and satisfaction of Graduation Writing Assessment Requirement (GWAR).

From Gregorian Chant through the death of Bach. Music of the Medieval, Renaissance, and Baroque eras involving stylistic and formal analysis. Examples from literature are related to performance practices of each period. Intended for music majors and minors. (Plus-minus letter grade only)

MUS 551 Classic and Romantic Music (Units: 3)
Prerequisites: MUS 233 and satisfaction of Graduation Writing Assessment Requirement (GWAR).

Classical and Romantic periods through the beginning of the 20th century. Historical performance techniques. (Plus-minus letter grade only)

MUS 552 20th Century Music (Units: 3)
Prerequisites: MUS 233, MUS 551, and satisfaction of Graduation Writing Assessment Requirement (GWAR).

Evolution of the major trends of musical thought from the late 19th century to the present. Stylistic and formal analysis of representative music literature. Intended for music majors and minors. (Plus-minus letter grade only)

MUS 558 Music of John Coltrane (Units: 3)
Prerequisite: MUS 506.

Life and music of saxophonist/composer John Coltrane within related socio-historical contexts of jazz in 20th century America. In-class listening/analysis. (ABC/NC grading only)

Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

MUS 559 Women in Jazz (Units: 3)
Prerequisite: MUS 506 or consent of instructor.

The role of women in the history of jazz. [Formerly a topic under MUS 558]
(This course is offered as MUS 559 and TH A 558. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- U.S. History
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
MUS 560 Lyric Diction I (Units: 2)
Prerequisite: Upper division standing or consent of instructor.
A systematic study of Italian, Latin, and Spanish signing pronunciation using the International Phonetic Alphabet. Intended for voice majors and music educators. (Plus-minus letter grade only)

MUS 561 Lyric Diction II (Units: 2)
Prerequisite: MUS 560 or consent of instructor.
A systematic study of German and French singing pronunciation using the International Phonetic Alphabet. Intended for voice majors and music educators. (Plus-minus letter grade only)

MUS 565 Vocal Literature (Units: 3)
Prerequisites: MUS 550, MUS 551, or MUS 552.
Vocal literature from the 16th century to the present. History, style, and performance practices. Required for majors in voice, but open to other qualified students. (Plus-minus letter grade only)

MUS 598 Senior Thesis (Units: 3)
Prerequisites: MUS 520 and satisfaction of Graduation Writing Assessment Requirement (GWAR).
Development and completion of the senior thesis and, as appropriate, public presentation of the results of that creative work. Bibliographical and stylistic techniques requisite to the organization and presentation of research projects.

MUS 600 Music Internship (Units: 3)
Prerequisites: Restricted to upper division music major and minor, or consent of instructor.
Practical field experience with employers in the music industry. May be repeated for a total of 12 units. (CR/NC only)

MUS 601 Music for Children (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Musical materials, concepts, and skills appropriate for use in elementary classrooms. Music fundamentals applied through development of basic skills on an instrument: guitar, recorder, or piano.

MUS 608 Early Field Experience in Music Education (Units: 2)
Prerequisite: Upper division standing.
Provides 45 hours of observation and participation in school music classes at elementary, middle, and high schools. Classwork, 1 unit; fieldwork, 1 unit. (Plus-minus letter grade only)

MUS 610 General Music (Units: 3)
Prerequisite: Upper division standing.
Materials and methods for teaching music in general music classes. (Plus-minus letter grade only)

MUS 612 The Voice (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Physiological and psychological mechanics of singing. Techniques of vocal instruction and comparative methods of developing vocal techniques and repertoire. Intended for music majors and minors. (Plus-minus letter grade only)

MUS 614 Piano Pedagogy (Units: 2)
Prerequisite: Piano major or audition.
Problems in teaching piano: elements of technique, theory and sight-reading, performance and analysis of teaching materials, class procedures and methods.

MUS 616 Woodwinds (Units: 2)
Prerequisite: Consent of department.
Individual and class instruction involving techniques and performance problems of flute, clarinet, oboe, bassoon, and saxophone. Laboratory.

MUS 618 Strings (Units: 2)
Prerequisite: Consent of department.
Individual and class instruction involving techniques and performance problems of violin, viola, violoncello, and string bass. Laboratory. Extra fee required.

MUS 620 Brass Instruments (Units: 2)
Prerequisite: Consent of department.
Individual and class instruction involving techniques and performance problems of horn, trumpet, trombone, baritone, and tuba. Laboratory.

MUS 640 Ensemble Conducting (Units: 2)
Prerequisite: MUS 232 or equivalent.
Fundamentals of conducting and score-reading; standard patterns, stick technique and conducting gestures used with choral and instrumental ensembles.

MUS 644 Advanced Instrumental Conducting and Literature (Units: 3)
Prerequisites: Upper division standing; MUS 415, MUS 640.
Elements of conducting with instrumental laboratory experience; director’s responsibility and rehearsal methods; selection of literature for wind, string, percussion ensembles in K-12 schools. (Plus-minus letter grade only)

MUS 645 Advanced Choral Conducting and Literature (Units: 3)
Prerequisites: Upper division standing and MUS 640.
Elements of conducting with choral laboratory experience; director’s responsibility and rehearsal methods; selection of literature for children’s voices, adolescent voices, men’s and women’s choirs. (Plus-minus letter grade only)

MUS 699 Independent Study in Music (Units: 1–3)
Prerequisites: Upper division standing, consent of the instructor, and approval of the student’s adviser.
Independent study, under supervision of a staff member selected by the student, of some aspect of the field not covered by regular courses. May be repeated with consent of instructor, the adviser, and the department chair. No more than 3 units can be taken during any one semester.

MUS 700 Introduction to Graduate Study (Units: 3)
Prerequisites: Graduate standing or consent of instructor; priority given to music majors.
Use and evaluation of major bibliographic materials, including primary and secondary sources; techniques of research through development of individual projects. (Plus-minus letter grade only)
MUS 701 Graduate Seminar in Music (Units: 3)
Prerequisite: Graduate standing.
Research seminar on topics in music history and theory. Topic to be specified in Class Schedule. May be repeated when topics vary.

MUS 710 Advanced Analysis (Units: 3)
Prerequisites: Graduate standing in Music; MUS 700 and completion of all theory remediation; must be taken within the first 2 semesters of study.
Seminar on analytical techniques and their application to in-depth study of major works from the literature of the 17th, 18th, 19th, and 20th centuries. (Plus-minus letter grade only)

MUS 716 Graduate Theory Seminar (Units: 3)
Prerequisites: Restricted to graduate level music students; MUS 710 or consent of instructor;
Seminar on analytical techniques and their application to in-depth study of major works written after 1950. May be repeated when topics vary. (Plus-minus letter grade only)

MUS 720 Directed Projects in Theory or Composition (Unit: 1)
Prerequisites: Graduate standing; must be taken concurrently with MUS 725; or consent of instructor.
Directed individual studies with faculty supervision in composition or theory. May be repeated for a total of 4 units.

MUS 724 Issues in Ethnomusicology (Units: 2)
Prerequisite: Graduate standing in Art or consent of instructor.
Historical issues in ethnomusicology examined through assigned readings in the field; interdisciplinary range of focus includes music and identity, theory and methodology, gender and cross-cultural studies. May be repeated for a total of 4 units. (Plus-minus letter only)

MUS 725 Practicum in Composition (Unit: 1)
Prerequisites: Graduate standing; must be taken concurrently with MUS 720 and MUS 730; or consent of instructor.
Directed individual studies with faculty supervision in advanced orchestration; 20th century styles and practices; problems in scoring and analysis. May be repeated for a total of 4 units.

MUS 730 Composition Workshop (Unit: 0)
Prerequisites: Graduate standing in music; must be taken concurrently with MUS 720 and MUS 725.
Analytical presentations of original works, analysis of new compositions, and participation in critical discussion of presentations. Required each semester of matriculating graduate music composition majors. (CR/NC grading only)

MUS 751 The Renaissance (Units: 3)
Prerequisite: MUS 550.
Historical and analytical study of the works of a single composer, style, or special repertoire from the Renaissance period. (Plus-minus letter grade only)

MUS 752 The Baroque (Units: 3)
Prerequisites: MUS 700, and either successful completion of the appropriate portion of the graduate classification exam in music history or MUS 550.
Graduate seminar focused on detailed historical and analytical study of the works of a single composer, style, or special repertoire from the baroque period. (Plus-minus letter grade only)

MUS 753 The Classical Era (Units: 3)
Prerequisites: MUS 700, and either successful completion of the appropriate portion of the graduate classification exam in music history or MUS 551.
Graduate seminar focused on detailed historical and analytical study of the works of a single composer, style, or special repertoire from the classical period. (Plus-minus letter grade only)

MUS 754 The Romantic Era (Units: 3)
Prerequisites: MUS 700, and either successful completion of the appropriate portion of the graduate classification exam in music history or MUS 551.
Graduate seminar focused on detailed historical and analytical study of the works of a single composer, style, or special repertoire from the romantic period. (Plus-minus letter grade only)

MUS 755 The Twentieth Century (Units: 3)
Prerequisites: MUS 700, and either successful completion of the appropriate portion of the graduate classification exam in music history or MUS 552.
Graduate seminar focused on detailed historical and analytical study of the works of a single composer, style, or special repertoire from the 20th and 21st centuries. (Plus-minus letter grade only)

MUS 760 Curriculum and Instruction I: Music (Units: 3)
Prerequisites: Graduate standing or subject matter waiver for music education; must be taken concurrently with S ED 660.
Principles and practices of curriculum planning and instruction in music for students in grades K-12. (Plus-minus letter grade only)

MUS 761 Curriculum and Instruction II: Music (Units: 3)
Prerequisites: Graduate standing or subject matter waiver for music education; must be taken concurrently with S ED 660.
Principles and practices of curriculum planning and instruction in music for students in grades K-12. (Plus-minus letter grade only)

MUS 776 Directed Projects in Performance (Units: 2)
Prerequisites: Music majors only; must be concurrently enrolled in a related performance course or participation in related ensembles as assigned by supervisor; consent of department and supervising faculty.
Graduate individual projects in performance and literature for piano, voice, orchestral and band instruments. Topics to be specified in Class Schedule. May be repeated for a total of 6 units.

MUS 778 Chamber Music Performance (Unit: 1)
Prerequisite: Audition.
Open to graduate performance majors. Preparation and performance of major works of chamber music literature. May be repeated for a total of 8 units.
MUS 780 Graduate Major Repertoire (Units: 2)
Prerequisite: Consent of department.
Study of solo music repertoire on a particular instrument or voice. Topics to be specified in Class Schedule. May be repeated when topics vary.

MUS 781 Choral Conducting (Units: 2)
Prerequisite: Consent of department.
Directed individual projects in choral conducting. Evaluation and selection of appropriate choral literature. Rehearsal techniques. May be repeated for a maximum of six units.

MUS 782 Instrumental Conducting (Units: 2)
Prerequisite: Consent of department.
Directed individual projects in instrumental conducting. Evaluation and selection of appropriate band and orchestral literature. Rehearsal techniques. May be repeated for a maximum of 8 units. (Plus-minus letter grade only)

MUS 821 Research in Music Education (Units: 3)
Prerequisite: Consent of graduate major advisor.
Seminar in past and current research in music education. Techniques and instruments appropriate for research. Problems in designing and implementing research projects. (Plus-minus letter grade only)

MUS 822 Designing Curricula in Music (Units: 3)
Prerequisite: MUS 821.
Developing music units, courses, or curricula based on strong rationale and educational objectives, with intended learning outcomes, sequence, and evaluation, analyzing current practices and curricular materials. (Plus-minus letter grade only)

MUS 852 Directed Fieldwork in Music (Units: 1-3)
Prerequisites: Music majors only; consent of graduate major adviser and supervising instructor.
Directed research, observation, or experience in a specific area of graduate concentration. May be repeated for a total of 6 units.

MUS 894 Creative Work Project (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Recital or creative project presented by the student under faculty supervision as a culmination of study for the Master of Music in Performance or Master of Arts in Music. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC; RP grading only)

MUS 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Research, creative project, or recital presented by the student under faculty supervision as a culmination of study for the Master of Music or Master of Arts in Music. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)
Nursing (NURS)

NURS 300 Bridge to Professional Nursing (Units: 3)
Prerequisite: Restricted to APO RN majors.

Professional behaviors, leadership, health care systems (micro, meso & macro), health promotion, illness prevention, teaching/learning theories, quality improvement, family theory and child abuse training, informatics, nursing theory, and decision making. (ABC/NC grading only; CR/NC allowed)

NURS 311 Human Development and Health Assessment Theory and Lab (Units: 5)
Prerequisites: Restricted to upper division Nursing majors; concurrent enrollment in NURS 312GW, NURS 314.

Examination of physical assessment techniques, appropriate use of commonly used screening tools, health information technologies, HIPAA, developmental considerations in assessment, interviewing techniques, screening, dosage calculations, and basic nursing interventions. Lecture, 3 units; laboratory, 2 units. Extra fee required.

NURS 312GW Research and Evidence-Based Practice in Nursing - GWAR (Units: 3)
Prerequisites: Restricted to Nursing majors; ENG 214 with a grade of C or better; concurrent enrollment in NURS 311, NURS 314.

Principles of evidenced-based practice, research methodology, and application of research and evidenced-based practice in a clinical setting. (ABC/NC grading only)

Course Attributes:
- Graduation Writing Assessment

NURS 314 Health Promotion in Nursing (Units: 3)
Prerequisites: Restricted to upper division Nursing major; concurrent enrollment in NURS 315 and all first-semester Nursing courses.

Examination of determinants of health, levels of prevention, health literacy, social marketing, behavior change theory, advocacy and disaster preparedness. [Formerly part of NURS 314]

NURS 315 Health Promotions in Nursing - Practicum (Units: 2)
Prerequisites: Restricted to upper division Nursing major; concurrent enrollment in NURS 311, NURS 312GW, NURS 314.

Health promotion activities and basic nursing interventions in community and primary care settings. Extra fee required. (CR/NC grading only) [Formerly part of NURS 314]

NURS 326 Reproductive Health Theory (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 1 nursing courses; concurrent enrollment in NURS 327, NURS 328, NURS 329, NURS 350

Examination of reproductive health issues, normal pregnancy, health disparities, health policy, genomics/genetics, health promotion, domestic violence, evidence-based practice, nursing care during pre-conception, prenatal, intrapartum and post partum. Application of theoretical knowledge and skills in a variety of care settings. [Formerly part of NURS 326]

NURS 327 Reproductive Health Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 1 nursing courses; concurrent enrollment in NURS 326, NURS 328, NURS 329, NURS 350.

Application of reproductive health theoretical knowledge and skills in a variety of care setting. (CR/NC grading only) [Formerly part of NURS 326]

NURS 328 Psychiatric Mental Health Nursing Theory (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 1 nursing courses; concurrent enrollment in NURS 326, NURS 327, NURS 329, NURS 350.

Examination of most common psychiatric causes of morbidity and mortality including pathophysiology, pharmacologic and nursing interventions. Survey of epidemiology, health policy, legal/ethical considerations, communication, evidence-based practice and informatics. [Formerly part of NURS 328]

NURS 329 Psychiatric Mental Health Nursing Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 1 nursing courses; concurrent enrollment in NURS 326, NURS 327, NURS 328, NURS 350.

Application of mental health theoretical knowledge and nursing interventions in a care setting. (CR/NC grading only) [Formerly part of NURS 328]

NURS 350 Nursing Interventions Practicum I (Units: 2)
Prerequisites: Restricted to Nursing majors; successful completion of semester 1 nursing courses; concurrent enrollment in NURS 326, NURS 328.

Examination of basic nursing interventions including standard precautions, aseptic technique, IV management venipuncture, catheter insertion and management, and advanced assessment. Exploration of patient safety concerns, documentation, informatics and use of the research evidence. Laboratory includes demonstration, practice, and return demonstration.

NURS 410 Nursing Care of Children Theory (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 2 nursing courses; concurrent enrollment in NURS 411, NURS 420, NURS 421, NURS 450.

Examination of pathophysiology, pharmacology, and nursing care of ill children. [Formerly part of NURS 410]

NURS 411 Nursing Care of Children Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 2 nursing courses; concurrent enrollment in NURS 410, NURS 420, NURS 421, NURS 450.

Application of pathophysiology, pharmacology, and nursing care of ill children. (CR/NC grading only) [Formerly part of NURS 410]

NURS 420 Nursing Care of Adults Theory (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 2 nursing courses; concurrent enrollment in NURS 410, NURS 411, NURS 421, NURS 450.

Examination of pathophysiology, pharmacology and nursing care of chronic and acute conditions in the adult patient. [Formerly part of NURS 420]
NURS 421 Nursing Care of Adults Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 2 nursing courses; concurrent enrollment in NURS 410, NURS 411, NURS 420, NURS 450.

Application of pathophysiology, pharmacology and nursing care of chronic and acute conditions in the adult patient. (CR/NC grading only) [Formerly part of NURS 420]

NURS 450 Nursing Interventions Lab II (Units: 2)
Prerequisites: Restricted to Nursing majors; successful completion of semester 2 nursing courses; concurrent enrollment in NURS 410, NURS 420.

Practical application of nursing interventions, assessment, patient-centered care, evidenced-based practice, standard precautions, informatics, and safety principles in a laboratory.

NURS 500 Death and Dying in Contemporary Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Attitudes, beliefs, practices, grief responses, and bioethical issues of dying and death which confront the individual and society. Ways to cope and help oneself and others to enhance life and maturity. (This course is offered as NURS 500 and GRN 510. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- E1: Lifelong Learning Develop
- UD-D: Social Sciences

NURS 520 Advanced Medical Surgical and Critical Care Nursing (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 3 nursing courses; concurrent enrollment in NURS 521 or NURS 523, NURS 522, NURS 530, NURS 531.

Examination of pathophysiology, pharmacology and nursing care of critically ill patients, evidence-based practice, quality improvement, safety, teamwork and collaboration, leadership, nursing roles, patient-centered care, informatics, and factors influencing health outcomes. [Former part of NURS 520]

NURS 521 Advanced Medical Surgical and Critical Care Nursing Capstone Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 3 nursing courses; concurrent enrollment in NURS 520, NURS 522, NURS 530, NURS 531.

Examination of pathophysiology, pharmacology and nursing care of critically ill patients, evidence-based practice, quality improvement, safety, teamwork and collaboration, leadership, nursing roles, patient-centered care, informatics and factors influencing health outcomes. Course will be taught using a cohort model. Not open to students who have completed NURS 523. [Formerly part of NURS 520]

NURS 522 Chronic Care and End of Life Care Theory (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 3 nursing courses; concurrent enrollment in NURS 520, NURS 530.

Examination of palliative care, symptom management, cultural, legal/ethical safety, hospice care/case management, nutrition, education/health promotion, elder abuse, evidence-based practice, safety, information technologies, nursing roles in palliative care/end of life care, communication strategies.

NURS 523 Advanced Medical Surgical and Critical Care Nursing Capstone Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 3 nursing courses; concurrent enrollment in NURS 520, NURS 522, NURS 530, NURS 531.

Examination of pathophysiology, pharmacology and nursing care of critically ill patients, evidence-based practice, quality improvement, safety, teamwork and collaboration, leadership, nursing roles, patient-centered care, informatics, and factors influencing health outcomes through the preceptorship model. Not open to students who have completed NURS 521. [Formerly part of NURS 520]

NURS 530 Community Health and Global Perspectives Theory (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 3 nursing courses; concurrent enrollment in NURS 520, NURS 521 or NURS 523, NURS 522, NURS 531.

Examination of occupational and environmental health, issues in global health, comparison of healthcare systems, healthcare economics, epidemiology, rural health, program planning and evaluation, leadership, and disaster preparedness. [Former part of NURS 530]

NURS 531 Community Health and Global Perspectives Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of semester 3 nursing courses; concurrent enrollment in NURS 520, NURS 521 or NURS 523, NURS 522, NURS 530.

Exploration of occupational and environmental health, global health issues that affect local communities, identification of community resources to promote optimal health, epidemiology, program planning and evaluation within an agency serving a local community. (CR/NC grading only) [Formerly part of NURS 530]

NURS 555 Capstone Practicum (Units: 3)
Prerequisites: Restricted to Nursing majors; successful completion of level 4 nursing; concurrent enrollment in level 5 nursing courses.

Promoting independence in the synthesis and practice of biophysical and psychosocial nursing care to specific client groups across the life span including leadership and management concepts. Focus on advanced biophysical and psychosocial aspects of care for the patient and family.

NURS 558 Professional Practice Concepts Theory (Units: 3)
Prerequisites: Restricted APO program only; registered nurse license; concurrent enrollment in NURS 559;

Opportunity to explore leadership and management concepts in nursing practice. Examination of organizational structure and aspects of leadership central to the clinical staff role.

NURS 559 Professional Practice Concepts Practicum (Units: 3)
Prerequisites: Restricted APO program only; registered nurse license; concurrent enrollment in NURS 558.

Practicum experience to gain competency in clinical patient management through the application of leadership and management principles; exploration of nurse manager roles and responsibilities in a clinical setting.

NURS 680 International Field Study in Nursing (Units: 3)
Prerequisite: Admission to the nursing program.

Field visits and community service related to nursing. Involves travel and volunteer work in hospitals, clinics, and other community centers in the destination country. Short-term study abroad.
NURS 693 RN-BSN Program Internship (Units: 3)
Prerequisite: Restricted to the APO program in Nursing.
Supervised employment in nursing. Career development, professional experience, and enhancing the education experience. May be repeated for a total of 12 units. (Plus-minus ABC/NC grading only)

NURS 699 Independent Study in Nursing (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.
An intensive study of a particular problem in nursing under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open to regularly enrolled students only. May be repeated for credit a total of 6 units.

NURS 702 Health Systems Management (Units: 3)
Prerequisites: Restricted to students in the M.S.N. program; NURS 706.
Assessment of healthcare organizations, identification of systems issues and organization-wide changes. Use of complexity science, systems thinking, business and financial models to analyze practice quality and cost. Use of QI models and tools.

NURS 703 Education, Informatics, and eTechnology in Advanced Nursing Practice (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Teaching and learning principles, health literacy and patient education strategies including adult learning principles. Use of information technologies in patient education. Analyze impact of information technologies/eTechnologies on patient education.

NURS 706 Health Care Policy and Nursing Leadership (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Concepts and theories of public policy-making and relevant political systems in the context of healthcare delivery in the U.S. Leadership theory and models including effective leadership strategies to deal with conflict and manage teams.

NURS 708 Diagnosis and Management in Primary Care (Units: 4)
Prerequisite: Restricted to students in the M.S.N. program and FNP emphasis.
Diagnosis and management of primary care health problems across the lifespan with an emphasis on evidence-based practice and health/illness theories from multiple disciplines. Interdisciplinary approach to primary care and health promotion.

NURS 711 Advanced Physical Assessment Across the Life Span (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Advanced physical assessment skill acquisition with interpretation and documentation of lab and examination findings across the life span. Use of critical thinking and evidence-based practice approach to health promotion/health maintenance across the life span. Lecture, 2 units; laboratory, 1 unit. Extra fee required.

NURS 715 Pharmacological Principles Across the Life Span (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Clinical application of pharmacology of drugs commonly used in the treatment of chronic disease and minor acute illness across the lifespan; integration of drug therapy.

NURS 716 Advanced Pathophysiology and Diagnostic Reasoning I (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Integration of advanced physiology and pathophysiology with clinical application to advanced practice nursing; diagnostic reasoning.

NURS 717 Advanced Pathophysiology and Diagnostic Reasoning II (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Integration of advanced pathophysiology with clinical management approaches across the lifespan. Advanced diagnostic reasoning.

NURS 720 Epidemiology and Biostatistics in Advanced Practice Nursing (Units: 3)
Prerequisites: Restricted to students in the M.S.N. program; course in inferential statistics.
Epidemiology and interrelationship with biostatistics. Understanding the complex factors involved in the distribution of health and disease in the population. Application of concepts in a variety of care settings and in specific patient populations.

NURS 721 Program Planning and Financial Management in Nursing Practice (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Use program planning models to conduct a needs/asset assessment and develop an evaluation plan. Utilize business planning and financial management principles to develop a business plan and conduct financial analysis of an organization or work unit. [CSL may be available]

NURS 732 Ethics in Advanced Nursing Practice (Units: 3)
Prerequisite: Restricted to students in the M.S.N. program.
Case and problem-based approach to ethics, ethical dilemmas and ethical decision making for advanced practice nurses. Exploration of ethical principles related to contemporary clinical issues using a patient-centered approach.

NURS 794 Research and Evidence-Based Practice in Nursing (Units: 3)
Prerequisites: Restricted to students in the M.S.N. program; consent of instructor.

NURS 801 Graduate Nursing Practicum I (Units: 4)
Prerequisites: Restricted to students in the M.S.N. program; consent of advisor.
Integration of concepts from nursing, business, social sciences, education and epidemiological in a healthcare setting to address disease prevention and management, health promotion and illness prevention for individuals, families and/or aggregates.

NURS 802 Graduate Nursing Practicum II (Units: 4)
Prerequisites: Restricted to students in the M.S.N. program; NURS 801; take the national licensing examination (NCLEX-RN).
Synthesis and application of concepts from nursing, social sciences, education, and epidemiology in a healthcare setting to address disease prevention and management, health promotion and illness prevention for individuals, families, and/or aggregates.
NURS 804 Professional Issues and Nurse Practitioner Skills (Units: 3)
Prerequisites: Restricted to Family Nurse Practitioner graduate students; NURS 810; concurrent enrollment in NURS 811 or NURS 812.

Examination of NP roles and skills including invasive diagnostic and treatment procedures, emergencies in primary care settings, standardized procedures, clinical protocols, furnishing license and legal issue. Extra fees required.

NURS 810 Family Nursing Practitioner Practicum I (Units: 4)
Prerequisites: Restricted to Family Nurse Practitioner graduate students; NURS 711.

Beginning clinical practicum in a primary care setting. Use of evidence-based approach to provide health promotion and illness management to individuals and families across the lifespan. Completion of 200 practicum hours.

NURS 811 Family Nursing Practitioner Practicum II (Units: 4)
Prerequisites: Restricted to Family Nurse Practitioner graduate students; NURS 810.

Continuation of clinical practicum in a primary care setting. Use of evidence-based approach to provide health promotion and illness management to individuals and families across the lifespan. Completion of 200 practicum hours.

NURS 812 Family Nursing Practitioner Practicum III (Units: 4)
Prerequisites: Restricted to Family Nurse Practitioner graduate students; NURS 811.

Refine clinical practice in a primary care setting. Use of evidence-based approach to provide health promotion and illness management to individuals and families across the lifespan. Completion of 200 practicum hours.

NURS 895 Applied Research in Nursing (Units: 3)
Prerequisites: Consent of advisor, department chair, committee, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Integration of advanced nursing concepts in a written document such as intervention plan, grant proposal, business plan, focused review of the literature, clinical protocol or analysis paper demonstrating achievement of advanced practice nurse competencies.

NURS 897 Research in Nursing (Units: 1-3)
Prerequisites: Advancement To Candidacy (ATC) on file and departmental approval.

Study, discussion, and evaluation of topics germane to nursing. May not be used to satisfy M.S.N. minimum requirement for ATC. May be repeated with departmental approval. (CR/NC grading only)

NURS 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of advisor, department chair, committee, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

NURS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of graduate major adviser and supervising faculty member.

An intensive examination, analysis, or synthesis of a problem under the direction of a member of the faculty. Open only to regularly enrolled students. May be repeated for a total of 6 units.
**Persian (PRSN)**

**PRSN 100 Summer Immersion Persian (Units: 3)**
Proficiency in the skills of listening, writing, reading, and speaking the Persian language. Exploration of the geography and culture of the Persian-speaking countries.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 101 First Semester Persian (Units: 5)**
First semester elementary modern Persian, designed to develop proficiency in the fundamental skills of listening, reading, speaking and writing Persian. Exploration of the geography, history, culture, and religion of the Persian-speaking world.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 102 Second Semester Persian (Units: 5)**
Prerequisite: PRSN 101 or equivalent.
Continuation of First-Semester Persian.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 103 Third Semester Persian (Units: 5)**
Prerequisites: PRSN 101, PRSN 102, or equivalents.
Third semester modern Persian, designed to further develop proficiency in the fundamental skills of reading and speaking. Continued exploration of the geography, history, culture, and religion of the Persian-speaking world.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 104 Fourth Semester Persian (Units: 5)**
Prerequisite: PRSN 103 or equivalent.
Fourth semester modern Persian, designed to further develop proficiency in the fundamental skills of reading, speaking and translating. Continued study of Persian language, literature and culture to achieve a deeper understanding.

**PRSN 206 Basic Persian Conversation (Units: 3)**
Prerequisite: PRSN 102 or equivalent.
Review basic grammar; develop proficiency in the skills of listening and speaking the Persian language.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 250 Intermediate Persian (Units: 3)**
Prerequisite: PRSN 206 or equivalent.
Continued development of grammar and conversation skills.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 260 Persian Culture and Civilization in English (Units: 3)**
Prerequisite: First-year composition or equivalent or consent of instructor.
Exploration of major themes in the development of Persian culture and civilization from antiquity to present including, but not limited to, religions, languages, ethnicities, arts, traditions, and customs. Taught in English.

**Course Attributes:**
- C2: Humanities
- Global Perspectives
- Social Justice

**PRSN 290 Introduction to Persian Literature in Translation (Units: 3)**
Prerequisite: ENG 114 or equivalent.
Examination of history, cultures, traditions, and religions as major themes in contemporary literature of Persian writers. Taught in English. [Formerly PRSN 510]

**Course Attributes:**
- C3: Humanities: Literature
- Global Perspectives
- Social Justice

**PRSN 350 Advanced Persian (Units: 3)**
Prerequisite: PRSN 250 or equivalent.
Development of advanced language skills; focus on recognizing forms of standard and vernacular speaking.

**PRSN 411 Persian Media in English (Units: 3)**
Prerequisite: ENG 214 or equivalent.
Development of Persian socio-political and cultural understanding through examination of current events as presented in the media in English language.

**Course Attributes:**
- UD-C: Arts and/or Humanities
- Global Perspectives
PRSN 450 Religious Traditions in Iran (Units: 3)
Prerequisite: ENG 214 or equivalent.
Investigation into religious traditions of Iran from the inception to the present-day. Taught in English. [Formerly PRSN 601]
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

PRSN 500 Introduction to Persian Literature (Units: 3)
Prerequisite: PRSN 350 or equivalent.
Development of poetry and prose in the Persian literature in different periods and genres. Taught in the Persian language.

PRSN 530 Topics in Persian Studies in English (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to Iranian languages, literatures, cultures, arts, history, cinema, and other Iranian, Afghani, and Persian related topics. Taught in English. May be repeated for a total of 9 units when topics vary. [Formerly PRSN 550, generic]

PRSN 550 Persian Culture Through Films in English (Units: 3)
Prerequisite: ENG 214 or equivalent.
Aspects of contemporary Iranian cultures, as presented in the Iranian film, are examined in critical context.
Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

PRSN 699 Independent Study (Units: 1-3)
Prerequisite: PRSN 350 or ENG 214 or equivalent.
Written projects, in English or Persian, requiring critical analysis and interpretation of cultural or literary issues. May be repeated for a maximum of 6 units.
Philosophy (PHIL)

PHIL 101 Introduction to Philosophy (Units: 3)
Reflection on basic aspects of human experience, thought, and activity inspired by the writings of philosophers.

Course Attributes:
- C3: Humanities: Literature

PHIL 105 Introduction to Philosophy and Religion (Units: 3)
The perennial quest for the sacred. Cosmological, psychological, and mystical teachings of the great Eastern and Western religious traditions.

Course Attributes:
- C2: Humanities

PHIL 110 Introduction to Critical Thinking I (Units: 3)
Skills involved in understanding, criticizing, and constructing arguments—and providing foundation for further work not only in philosophy but in other fields as well. (Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
- A3: Critical Thinking

PHIL 130 Political and Social Philosophy (Units: 3)
Liberal democratic theories of decision making and social policy: their place in the world today, their place in the history of social and political philosophy, and in radical and conservative political criticism.

Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

PHIL 150 Contemporary Moral/Political Issues (Units: 3)
Theories of the good life, of ethics, of rights, and of justice, through the examination of contemporary moral issues: capital punishment, affirmative action, abortion, racial and sexual equality, privacy, pornography, and environmental protection. (This course is offered as PHIL 150 and PLSI 150. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- C2: Humanities
- Social Justice

PHIL 160 Introduction to Philosophy of the Arts (Units: 3)
Art appreciation and criticism including the nature of beauty, artistic genius, and art as sign or symbol.

Course Attributes:
- C1: Arts

PHIL 205 Formal Logic I (Units: 3)
Contemporary treatment of structure of arguments by means of sentential logic and quantifiers; comparison of axiomatic, natural deductive, and tree-method approaches.

PHIL 210 Great Thinkers: East and West (Units: 3)
Enduring philosophical questions about human nature and the cosmos as seen through the eyes of mankind’s greatest and most influential thinkers, Eastern and Western.

Course Attributes:
- C2: Humanities
- Global Perspectives

PHIL 230 American Political Philosophy (Units: 3)
Philosophical foundations of the values and practices of our law and society, from the nation’s founders to philosophies of justice, equality, and rights today.

PHIL 301 Ancient Philosophy (Units: 3)
Prerequisites: PHIL 110, ENG 114, or equivalents.
Origins of Western philosophy in the Eastern Mediterranean region: from the presocratics to the Stoics, Epicureans, and Neo-Platonists, emphasizing Socrates, Plato, and Aristotle. Connections and contrasts between philosophy, natural science, myth, and religion.

Course Attributes:
- UD-C: Arts and/or Humanities

PHIL 302 Medieval Philosophy (Units: 3)
Prerequisites: PHIL 110, ENG 114, or equivalents.
Medieval philosophy to the Renaissance—Augustine, Boethius, Aquinas, and related authors. Individuals, universals, community, personality, freedom, and nature; theory of signs, symbols, analogical models; labor and intellectual work; private property, law, and the common good.

Course Attributes:
- UD-C: Arts and/or Humanities

PHIL 303 Modern Philosophy (Units: 3)
Prerequisites: PHIL 110, ENG 114, or equivalents.
Modern philosophy against the background of Protestantism, capitalism, the Enlightenment, and modern science to the end of the 19th century. Includes Descartes and continental Rationalism, British Empiricism, Kant; may include such topics as German and British idealism, positivism, and pragmatism.

Course Attributes:
- UD-C: Arts and/or Humanities

PHIL 315 Introduction to Global Peace Studies (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
The field of peace studies and the integrative questions which must be answered to achieve a coherent perspective on world peace. National and international issues, the environment, philosophy, literature, arts, media, and education. (This course is offered as GPS 315, I R 315, and PHIL 315. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
PHIL 320GW Philosophical Analysis - GWAR (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C- or better, PHIL 110 or equivalent.
Analytic, interpretive, and expressive written communication skills essential for philosophical study. (ABC/NC grading only)
Course Attributes:
• Graduation Writing Assessment

PHIL 321 Being and Knowing (Units: 3)
Prerequisite: ENG 214 or equivalent.
Introduction to some of the most important issues in metaphysics and epistemology through their treatment by classic and contemporary authors; e.g., mind and matter, thought, belief, perception, meaning, truth, knowledge, appearance, reality, freedom, and identity.

PHIL 330 Political Philosophy (Units: 3)
Prerequisites: Sophomore or higher standing; and one lower-division composition course; or consent of instructor.
The forms, purposes, and justification of political orders; theories of human nature, value, and history. Foundations of political philosophy in the thought of such writers as Plato, Hobbes, Mill, and Marx.
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

PHIL 335 Law and Society (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
Relation between law and society, developed through the analysis of court cases centered on topics (capital versus labor, the individual versus the state) in their historical setting. Legal research.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

PHIL 350 Philosophy of Science (Units: 3)
Prerequisite: ENG 214 or equivalent.
Philosophy of science with attention to contemporary formulations.
Course Attributes:
• UD-B: Physical Life Science

PHIL 351 Philosophy of Risk (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Philosophical issues about risk assessment and risk management, with attention to their scientific and ethical dimensions. Philosophical analyses of cases such as climate change, energy consumption, water related environmental risks in California, allocation of scarce medical resources, and genetic testing.
Course Attributes:
• UD-B: Physical Life Science
• Environmental Sustainability

PHIL 355 Politics and Ethics of the Consumer Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Politics and ethics of consumption-oriented society; nature of industrial society; its structures, values, and consumption practices.
(This course is offered as PLSI 355 and PHIL 355. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Environmental Sustainability
• Social Justice

PHIL 365 Science and Civilization (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
Role of science in modern civilization. Ethical aspects of science, scientific conceptions, and effects of science on the quality and direction of human existence.

PHIL 366 Philosophical Issues in Sexuality (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
Legal, moral, and conceptual issues concerning human sexuality. Rape, pornography, abortion, prostitution, homosexuality, marriage, promiscuity, perversion, sexual politics, sex and religion, and the language of sex.
(This course is offered as PHIL 369 and SXS 369. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

PHIL 375 Peace Law and Human Rights in the U.S. (Units: 3)
Prerequisites: Sophomore or higher standing; one lower division composition course; or consent of instructor.
Law of peace from the local to the international level; international treaties, covenants, statutes of Congress, legislatures, and city councils, criminal indictments, court affidavits, judges opinions, jury instructions, and relevant articles.
(This course is offered as GPS 375 and PHIL 375. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives
• Social Justice

PHIL 378 Philosophy of Criminal Law (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
Philosophical examination of concepts and principles that are central to our criminal law, including investigation of whether there is a role for moral rationales.
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice
PHIL 379 Philosophy of Constitutional Interpretation (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course, or consent of instructor.
Study and critique the most influential attempts to devise philosophical justification of or motivation for particular theories of constitutional interpretation.

PHIL 380 Philosophy of Law (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course, or consent of instructor.
Relationship of law and morality. Basis for legal accountability. Who should be accountable? For what? Why?
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

PHIL 383 Ethics in Medicine (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course, or consent of instructor.
Ethical issues in medicine and nursing: treating dying patients, right to health care, nurse/physician conflicts, health and basic values, freedom under new technology, and medical bureaucracy. Uses philosophical approaches to understand and to help resolve these problems. [CSL may be available]
Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Social Justice

PHIL 384 Philosophy of Research Ethics (Units: 3)
Prerequisite: ENG 114 or equivalent.
Principles, practice and philosophical foundations of research ethics, from the perspectives of researchers, subjects of research, and institutional research review board members. Includes focus on ethical research design.
Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

PHIL 392 Philosophy of Animals (Units: 3)
Prerequisite: ENG 114 or equivalent.
Examination of different methodologies and results from scientific studies of non-human animals. Analysis of one or more philosophical debates that address the differences and similarities between humans and animals. Critical analysis of the use of animals as experimental, physiological, psychological, or social models. Topic to be specified in Class Schedule. May be repeated for a total of 6 units.

PHIL 395 Ethical Issues: Science and Technology (Units: 3)
Prerequisite: ENG 114 or equivalent.
Ethical issues arising from or intrinsic to the process of scientific research and development or from the implementation or commercialization of new technologies.
Course Attributes:
• UD-B: Physical Life Science
• Social Justice

PHIL 410 Topics in the History of Philosophy (Units: 3)
Prerequisite: ENG 114 or equivalent.
Exploration and critique of one or more topics of historical significance in philosophy. Topics to be specified in the class schedule. May be repeated when topics vary.

PHIL 415 The Hebrew Bible (Units: 3)
Prerequisite: ENG 214 or equivalent.
The Hebrew Bible in English translation from historical, literary, and religious points of view; culture and religion of ancient Israel and the ancient Near East.
(This course is offered as JS 415 and PHIL 415. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

PHIL 425 Existentialism (Units: 3)
Prerequisite: ENG 114 or equivalent.
An examination of the principal philosophical aims and theories of the Existential movement.
Course Attributes:
• UD-C: Arts and/or Humanities

PHIL 430 Topics in Contemporary Philosophy (Units: 3)
Prerequisite: ENG 114 or equivalent.
Study of one or more philosophical topics that currently stimulate excitement and debate in the field. Topics to be specified in the class schedule. May be repeated when topics vary.

PHIL 432 Nietzsche and Postmodernism (Units: 3)
Prerequisite: ENG 214.
Examines the most radical implications of Nietzsche's critique of western humanism. Close reading of major writings by Nietzsche and selected "postmodern" readings of Nietzsche.
(This course is offered as HUM 432 and PHIL 432. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

PHIL 434 Arendt and Heidegger (Units: 3)
Prerequisite: ENG 114 or equivalent or consent of instructor.
Hannah Arendt, a student of Heidegger, is renowned in her own right as philosopher and political theorist. In a comparative study explore the relationship of their ideas, and question the extent to which she was disciple or critic.
(This course is offered as HUM 434, JS 414, and PHIL 434. Students may not repeat the course under an alternate prefix.)
PHIL 435 Human Rights in Global Perspective (Units: 3)
Prerequisite: ENG 114 or equivalent.

Law and philosophy of human rights; philosophical issues and controversies about rights, historical development, major problems in implementing rights, and the international human rights movement.

Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

PHIL 436 Islamic Political Philosophy (Units: 3)
Prerequisite: ENG 114 or equivalent.

There is a long and rich tradition of political philosophy in the Islamic cultures of the Middle East. A comprehensive introduction to Islamic political philosophy.

Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

PHIL 445 Sex and Morality (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

Ethical theory and its applications to sexual conduct, therapy, and research. Fundamentals of moral augmentation; complicated, morality-laden issues associated with sexuality. (This course is offered as PHIL 445 and SXS 469. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities

PHIL 450 Ethics (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

Major problems in ethical theory with attention to their contemporary formulations.

Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

PHIL 451 Feminist Moral Issues (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Moral or ethical issues of concern to the contemporary women's movement. These include abortion ("pro-choice" vs. "pro-life"), pornography and censorship, hetero- and homosexuality, marriage, motherhood, and affirmative action ("reverse discrimination").

Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

PHIL 452 Nature of Morality (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

Exploration of historically significant philosophical conceptions of the nature of morality.

PHIL 455 Sex and the Law (Units: 3)
Prerequisite: ENG 114 or equivalent.

Philosophical investigation of legal issues pertaining to sexuality. Legal enforcement of morals and of specific cases and statutes regarding marriage, sex discrimination, abortion, rape, homosexuality, pornography, pedophilia, and other sex related activities. (This course is offered as PHIL 455 and SXS 569. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

PHIL 460 Philosophy of Art (Units: 3)
Prerequisites: Sophomore or higher standing, one lower-division composition course; or consent of instructor.

Problems in aesthetics; contemporary formulations.

Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives

PHIL 464 Philosophy and Film (Units: 3)
Prerequisite: ENG 114 or equivalent.

Philosophical concepts as treated in films, and philosophical issues raised by the nature of film. Philosophical concepts in ethics, epistemology, metaphysics, and aesthetics.

Course Attributes:
• UD-C: Arts and/or Humanities
• Global Perspectives
• Social Justice

PHIL 470 Environmental Ethics (Units: 3)
Prerequisite: Completion of GE Areas A and B4 requirements [formerly GE Segment I].

Exploration of how different philosophers, religions, and cultures understand our relationships to the environment. Applying ethical paradigms to the analysis of environmental problems and proposals for solutions.

Course Attributes:
• UD-C: Arts and/or Humanities
• Environmental Sustainability
• Social Justice
PHIL 494 Philosophy and Personal Development (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

For many philosophers, East and West, philosophy's basic task is to change our orientation to the world and, thus, how we live our lives. This course is devoted to studying and exploring different philosophical methods of personal development and enrichment.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities

PHIL 500 Philosophy of Religion (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

The nature and function of fundamental religious concepts and claims.

Course Attributes:
- UD-C: Arts and/or Humanities

PHIL 501 Judaism, Christianity, and Islam (Units: 3)
Prerequisite: ENG 114 or equivalent.

Beliefs, practices, social organization, and history of the three monotheistic religious traditions; importance of these traditions for European and Middle Eastern civilizations.
(This course is offered as JS 501, PHIL 501, and HUM 501. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

PHIL 502 World Religions (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

Major religions of mankind, their history and teachings: Hinduism, Buddhism, Confucianism, Taoism, Christianity, Judaism, and Islam.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

PHIL 509 The Buddhist Tradition (Units: 3)
Prerequisite: ENG 114 or equivalent.

An introduction to the basic teachings of Buddhism and the major Buddhist traditions in Asia. Among the topics to be discussed are ignorance, paths to enlightenment, meditation, morality, faith, and wisdom.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

PHIL 511 Chinese Philosophy and Religion (Units: 3)
Prerequisites: Sophomore or higher standing; and one lower-division composition course; or consent of instructor.

Major philosophical and religious traditions of China. Topics include the I Ching, Confucianism, Taoism, and Chinese Buddhism.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

PHIL 514 Kabbalah and Mysticism in the Jewish Tradition (Units: 3)
Prerequisite: ENG 114 or equivalent.

The spiritual life and various ways in which Jews have sought spiritual resources from Jewish tradition. Topics include: Kabbalah, Jewish renewal, feminist spirituality, and the Holocaust.
(This course is offered as JS 410 and PHIL 514. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities

PHIL 516 Islamic Philosophy (Units: 3)
Prerequisite: ENG 114 or equivalent.

Examines three interrelated issues: the purpose of philosophy, the good life, and the limits of human reason. Also examined is Islamic philosophy's confrontation with the Islamic traditions of theology, jurisprudence, and mysticism.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

PHIL 517 Islamic Mysticism (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

An examination of the mystical teachings of Sufism. This is not a survey course but a concentrated effort to approach some of the central Sufi ideas about humanity, God, and the structure of reality.

Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives

PHIL 520 Philosophy and Mysticism (Units: 3)
Prerequisite: ENG 114 or equivalent.

Examination of how "higher" or "mystical" states of consciousness have informed philosophy historically, and exploration of the implications of these views for epistemology, metaphysics, ethics and personal well-being.

Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice
PHIL 525 The Nature of Religious Experience (Units: 3)
Prerequisite: ENG 114 or equivalent.
Nature of religious experience drawn from different religions and academic disciplines within the humanities and social sciences; investigation of the meaning of religious commitment in a secular world. (This course is offered as PHIL 525 and RELS 300. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities

PHIL 530 Selected Religious Thinkers (Units: 3)
Prerequisite: ENG 114 or equivalent.
Understanding and assessment of the views of one or more highly influential religious thinker(s). Thinker(s) to be specified in the class schedule. May be repeated when different thinkers are studied.

PHIL 540 Selected Issues in Religious Thought (Units: 3)
Prerequisite: ENG 114 or equivalent.
Study of one or more issues in religious thought that have been influential historically or currently stimulate debate. Issues to be specified in the class schedule. May be repeated when issues vary.

PHIL 552 Judaism: Religion and Text (Units: 3)
Prerequisite: ENG 114 or equivalent.
The manner and process of external/internal influences that move Jewish thought; the matters with which the rabbis and particular Jewish philosophers have concerned themselves. (This course is offered as JS 425 and PHIL 552. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities

PHIL 605 Metaphysics (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Metaphysical problems such as those of substance, cause, space, time, and God.

PHIL 610 Theory of Knowledge (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Theories of knowledge with attention to their contemporary formulations.

PHIL 611 Philosophy of Perception (Units: 3)
Prerequisite: ENG 114 or equivalent.
Philosophical problems in relation to perception with specific attention to contemporary formulations: role of sensations, nature of perceptual content, embodiment of perceptual experience.

PHIL 620 Philosophy of Mind (Units: 3)
Prerequisite: ENG 114 or equivalent.
Conceptions of the mental and of its relation to the physical, with attention to their contemporary formulations.

PHIL 621 Minds, Brains and Computers (Units: 3)
Prerequisite: ENG 114 or equivalent.
Contemporary theories of the mind as a brain process and as a computational process. Foundations and approaches in the cognitive neurosciences.

Course Attributes:
- UD-B: Physical Life Science

PHIL 630 Philosophy of Language (Units: 3)
Prerequisite: ENG 114 or equivalent.
Philosophical problems associated with language and symbolism with attention to their contemporary formulations.

PHIL 640 Actions and Practical Reasoning (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.
Practical reasoning is about how to act. What is the nature of actions, and how are they different from mere behavior? What is the nature of practical reasoning and how is it related to motivation?

PHIL 680 Field Project in Philosophy (Units: 1-3)
Prerequisites: Upper division standing or consent of instructor; may be taken with PHIL 699.
Supervised community or university service project related to the student's philosophical studies. Must be arranged through an undergraduate adviser and with an approved agency. (CR/NC grading only)

PHIL 681 Publishing Philosophy (Units: 1-3)
Prerequisite: Philosophy majors and minors or consent of instructor.
Supervised experience in various components of publishing philosophy journals and books; may focus on publishing journal articles/book chapters, editing volumes/special journal issues, book review editing, or publishing translations. May be repeated for a total of 6 units. (Credit/No Credit grading only)

PHIL 685 Projects in the Teaching of Philosophy (Units: 1-4)
Prerequisite: Completion of course in which the student will assist with a minimum grade of B.
Training in teaching philosophy is provided both by discussion of pedagogy with the instructor of a target course and by mentoring and other appropriate activities. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

PHIL 691 Reading Circle (Unit: 1)
Prerequisite: Satisfaction of the Graduation Writing Assessment Requirement (GWAR), 12 units of upper division philosophy courses, and consent of instructor.
Close reading of an important and difficult philosophical text, with attention to issues of interpretation.

PHIL 694 Philosophical Logic Workshop (Units: 3)
Prerequisite: PHIL 205 or consent of instructor.
Focus on puzzles and paradoxes raised in seminal philosophical papers in the twentieth century and their impact on analytic philosophy, with reference to the history of modern logic.
PHIL 695 Advanced Logic Workshop (Units: 3)
Prerequisite: Introduction to Symbolic Logic or consent of instructor.

Logic (theory and applications) beyond propositional/predicate calculus, such as sets and sequences, completeness, decidability and adequacy, incompleteness, many-valued logics, intentional logic, induction, conditionals, proof, contradiction, or validity.

PHIL 696 Directed Reading: Learning Outcomes (Unit: 1)
Prerequisite: Senior standing and consent of instructor.

Individualized course enables students, together with the faculty, to assess their learning outcomes. Students submit early and recent essays from previous classes and reflective essay on development of their own skills and knowledge. (CR/NC grading only)

PHIL 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor.

An advanced study of a selected philosophical problem under the direction of instructor. May be repeated.

PHIL 700 Seminar in Selected Problems (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Articulate, explore and assess proposed resolutions of one or more fundamental philosophical problem(s). Problem(s) to be specified in the class schedule. May be repeated when different problems are studied.

PHIL 702 Philosophy of Culture, Language and Society (Units: 3)
Prerequisite: Graduate standing in Philosophy or consent of instructor.

Philosophical examination of culture, language, and society, drawing on both continental and analytic traditions. Ontology and ideology as explored by, for example, Kant, Hegel, Adorno, Althusser, Austin, Butler, Foucault, Habermas, Horkheimer, Searle, and others.

PHIL 715 Seminar in Philosophical Writing (Units: 3)
Prerequisite: Admission to the graduate program in philosophy.

Advanced analytic, interpretive, and expressive skills essential to the writing, reading, and study of philosophy. Cannot be used to satisfy the “four-seminar” requirement.

PHIL 717 Projects in the Teaching of Philosophy (Units: 1-3)
Prerequisites: Two semester courses in the history of philosophy, a course in ethics, a course in symbolic logic, and an advanced course in epistemology or philosophy of science.

Individual projects under faculty supervision undertaken in conjunction with teaching assignments in undergraduate courses. Research and reports of research on the aims and methods of teaching philosophy to undergraduates. May be repeated for a total of 6 units.

PHIL 718 Teaching Philosophy (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.

Workshops and individual conferences prepare students to teach Philosophy in the Graduate Teaching Associate program. May be repeated. (May not be applied to the Philosophy M.A. degree.) (CR/NC only)

PHIL 720 Professional Development for Philosophers (Unit: 1)
Prerequisites: Restricted to Philosophy graduate students; approved ATC.

Survey of professional development strategies, including preparing applications to Ph.D. programs, standardized test preparation, professional engagement through conferences and publications, and applying philosophical skills to a variety of workplaces. (CR/NC only)

PHIL 725 Philosophical Foundations of Law (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

What is the nature of law? How is law different from mere coercion, and from morality? What place if any do moral considerations have in the workings of a legal system?

PHIL 760 Seminar in Philosophy of Art (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Problems and theories in contemporary philosophy of art, or aesthetics.

PHIL 770 Seminar in a Classical Author (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Understanding and assessment of the philosophical positions of one, or a pair of, highly influential philosopher(s). Philosopher(s) to be specified in the class schedule. May be repeated when different philosophers are studied.

PHIL 772 Seminar in a Classical School (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Exploration and critique of one or more influential method(s) or school(s) of philosophical thought. Method(s) or school(s) to be specified in the class schedule. May be repeated when different methods or schools are studied.

PHIL 781 Leading Philosophers in Philosophical Conversation (Unit: 1)
Prerequisites: Graduate standing or consent of instructor.

Focus on the current work of a leading philosopher who will visit class. Students engage in conversation with the philosopher, develop critiques of work, present their critiques to philosopher, who responds to each at length. Each offering will feature a different guest philosopher. May be repeated for a total of 3 units. (CR/NC only)

PHIL 795 Early Modern Philosophy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Analysis of two or more early modern philosophers, ranging from the canonical (e.g. Descartes, Leibniz, Locke, Hume) to the newly recovered (e.g. Astell, Reid). Attention to one or more particular themes: individualization, perception, science, faith, morality, women, and similar topics.

PHIL 796 Late Modern Philosophy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Analysis of two or more Late Modern philosophers. Readings from Early Modern philosophers and post-Kantians may also be included. Attention to one or more particular themes: mental representation, individuation, perception, science, and similar topics.

PHIL 805 Seminar in Metaphysics (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

How to do metaphysics. Approach or topic to be specified in the class schedule. May be repeated when different approaches to or topics in metaphysics are studied.

PHIL 810 Seminar in the Theory of Knowledge (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Problems in epistemology.
PHIL 811 Seminar in Philosophy of Perception (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Fundamental issues in the philosophy of perception, such as nature and cognitive function of perceptual content. Investigation of mutual relevance of philosophical debates on perception and studies in the cognitive sciences.

PHIL 820 Seminar in the Philosophy of Mind (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
In-depth study of important issues in the philosophy of mind, such as intentionality, mind/body relation, consciousness, thought, and perception.

PHIL 830 Seminar in Philosophy of Language (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Philosophical problems associated with language and symbolism, with in-depth study of recent advances in the field.

PHIL 850 Seminar in the Philosophy of Science (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Problems of philosophy of science.

PHIL 851 Feminist Ethics and Political Philosophy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Central themes, developments, and debates in feminist ethics and political philosophy and their critiques of the mainstream canon. Relationship between feminist philosophy and current issues.

PHIL 852 Twentieth Century Metaethics (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Comprehensive introduction to and exploration of the history of metaethics in the twentieth century. Foundation for understanding current cutting edge philosophical work on metaethics.

PHIL 856 Normative Ethics (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of recent attempts to improve consequentialist and Kantian ethics. Consideration of the so-called anti-theory stance in ethics, according to which systematic ethical theorizing is counter-productive and should be avoided.

PHIL 857 Philosophy of Action (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
What happens when a person acts? How is action different from mere behavior? Does the difference lie in the degree to which a person exercises control or autonomy over his behavior? How is autonomy related to normative reasoning?

PHIL 858 Contemporary Political Philosophy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Investigation of salient issues in contemporary political philosophy.

PHIL 881 Advanced Philosophy Publishing (Units: 1-3)
Prerequisite: Graduate standing in Philosophy or consent of instructor.
Supervised experience in various components of publishing philosophy journals and books; may focus on publishing journal articles/book chapters, editing volumes/special journal issues, book review editing, or publishing translations. May be repeated for a total of 6 units. (CR/NC only)

PHIL 890 Seminar In Current Issues in Philosophy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Study of one or more philosophical issue(s) that currently stimulate excitement and debate in the field. Issue(s) to be specified in the class schedule. May be repeated when different issues are studied.

PHIL 891 Graduate Reading Circle (Unit: 1)
Prerequisites: 6 units of graduate level Philosophy courses and consent of instructor.
Close reading of an important and difficult philosophical text, which pays attention to place of text in history of philosophy and to issues of interpretation. May be repeated for a total of 3 units. (CR/NC grading only)

PHIL 896 Directed Reading in Fundamental Philosophical Texts (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Directed reading in depth and detail of fundamental philosophical texts. Course culminates in a written examination after end of semester but before beginning of subsequent semester.

PHIL 898 Master's Thesis (Units: 3)
Prerequisites: Advancement to candidacy (ATC) for the Master of Arts in Philosophy. Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC only)

PHIL 899 Independent Study (Units: 1-3)
Prerequisite: Consent of the graduate major adviser and the supervising faculty member.
Study is planned, developed, and completed under the direction of a member of the faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition. May be repeated.
Physical Therapy (PT)

PT 700 Multisystem Pathokinesiology (Units: 4)
Prerequisites: Restricted to graduate Physical Therapy students; PT 201, PT 202, PATH 135.

An integrated approach to the pathological, anatomical, evaluation, treatment and management considerations related to patients with multi-systems dysfunctions, with a focus on physical therapy practice in the acute care environment. Long-term management, adaptive equipment/procedures, and preventative aspects of care are also discussed.  
Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade; no CR/NC allowed; RP)

PT 704 Education, Health Promotion, Wellness, and Prevention in Physical Therapy (Units: 2)
Prerequisite: Restricted to graduate Physical Therapy students.

Principles of communication, learning, and memory affecting physical therapists’ roles as an educator in individualized patient and caregiver instruction, staff development programs, community health, wellness, and prevention programs. (Plus-minus letter grade; no CR/NC allowed; RP)

PT 705 Administration and Organization in Physical Therapy (Units: 2)
Prerequisite: Restricted to graduate Physical Therapy students.

Specific administrative and planning skills required for physical therapy practice in various settings. Quality assurance, documentation, personnel and fiscal management, planning, contracting, health services administration, health care team, professional and medical-legal issues. (Plus-minus letter grade only)

PT 706 Structure, Function and Motion in Physical Therapy (Units: 2)
Prerequisite: Admission into the MS-DPT program.

Combine knowledge of human anatomy with basic structural and kinesiological principles to understand normal functional motion of the spine, trunk, and extremities in preparation for the analysis of abnormal human motion in the Neuromusculoskeletal Pathokinesiology PT course series. Classwork, 1 unit; laboratory, 1 unit. (Plus-minus letter grade only)

PT 710 Neurological Pathokinesiology I (Units: 4)
Prerequisite: Restricted to graduate Physical Therapy students.

Pathokinesiological and neuromotor principles applied to physical therapy assessment and intervention for neurological dysfunction; physical rehabilitation of adults with neurological impairments, limitations, and disability from trauma, tumors, vascular problems, infectious or degenerative diseases. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

PT 711 Neurological Pathokinesiology II (Units: 3)
Prerequisites: Restricted to graduate Physical Therapy students; PT 710.

Pathokinesiological and neuromotor principles applied to examination, evaluation, diagnosis, prognosis, plan of care and intervention of neurological dysfunction in pediatric patients. Includes dysfunction from trauma, congenital defects, and degenerative diseases. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

PT 720 Cardiopulmonary Pathokinesiology I (Units: 2)
Prerequisite: Restricted to graduate Physical Therapy students.

Assessment and treatment of kinesiological/physiological dysfunction of cardiac and pulmonary systems. Physical rehabilitation or training for cardiac and/or pulmonary limitations arising from trauma, disease, congenital defect, or lifestyle. Classwork, 1 unit; laboratory, 1 unit. (Plus-minus letter grade only)

PT 735 Psychosocial Issues in Rehabilitation Sciences, Part I (Units: 2)
Prerequisite: Restricted to graduate Physical Therapy students.

Exploration of one’s individual biases, values, and judgments of psychosocial factors that influence patient and physical therapist interactions; identifying key psychosocial issues and providing intervention and support services where appropriate. (Plus-minus letter grade only)

PT 736 Ecological and Organizational Issues in Rehabilitation (Units: 3)
Prerequisite: Restricted to graduate Physical Therapy students.

Cultural, environmental, and legislative issues affecting accessibility of physical therapy and related services. Sociocultural issues relative to quality of health as a right; influences of political and fiscal climates on trends in models of health care delivery. (Plus-minus letter grade only)

PT 737 Psychosocial Issues in Rehabilitation Science, Part II (Unit: 1)
Prerequisite: Restricted to graduate Physical Therapy students.

Exploration of one’s individual biases, values, and judgments of psychosocial factors that influence patient and physical therapist interactions; identifying key psychosocial issues and providing intervention and support services where appropriate. (Plus-minus letter grade only)

PT 741 Musculoskeletal Pathokinesiology I (Units: 4)
Prerequisites: Restricted to graduate Physical Therapy students; PT 200, PT 201, PT 706.

Surface anatomy, basic structure, biomechanical principles applied to the understanding of normal and abnormal human motion in the lower extremities and to the analysis of physical function. Examination, evaluation, treatment skills for musculoskeletal disorders. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

PT 742 Musculoskeletal Pathokinesiology II (Units: 4)
Prerequisites: Restricted to graduate Physical Therapy students; PT 741.

Surface anatomy, basic structure, biomechanical principles applied to the analysis of normal/abnormal human motion and physical function in the spine, pelvis, upper extremities. Examination, evaluation, and treatment skills for musculoskeletal disorders. Classwork, 2 units; laboratory, 2 units. (Plus-minus letter grade only)

PT 743 Musculoskeletal Pathokinesiology III (Units: 3)
Prerequisites: Restricted to graduate Physical Therapy students; PT 741, PT 742.

Assessment and therapeutic techniques in management of complex patients with musculoskeletal problems. Evaluation and application of research. Problem-solving. Patient presentation; evaluation of new techniques. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)
PT 801 Clinical Clerkship I (Units: 6)
Prerequisites: Restricted to graduate Physical Therapy students; successful completion of year 1 coursework with minimum GPA of 3.0; full-time 8 week clinical affiliation.
Students participate in patient care, attend clinic meetings and seminars, present an in-service, write personal clinical goals, and reflections. (CR/NC only, RP)

PT 802 Clinical Clerkship II (Units: 6)
Prerequisites: Restricted to graduate students in Physical Therapy; successful completion of year 2 coursework with minimum GPA of 3.0; full-time 8 week clinical affiliation.
Students participate in patient care, attend clinic meetings and seminars, present an in-service, submit case reports, and write personal clinical goals, and reflections. (CR/NC only, RP)

PT 803 Clinical Clerkship III (Units: 6)
Prerequisites: Restricted to graduate Physical Therapy students; successful completion of year 2 coursework with minimum GPA of 3.0.
Full-time 8 week clinical affiliation. Students participate in patient care, attend clinic meetings and seminars, present an in-service, submit case reports, and write personal clinical goals, and reflections. (CR/NC only, RP)

PT 890 Research Seminar in Physical Therapy (Units: 3)
Prerequisites: Restricted to graduate Physical Therapy students; PT 253.
Research designs, problem-solving, methodologies, and data analysis for specific topics in basic and clinical physical therapy research. Implementation of one facet of an on-going project, under guidance of the principal investigator. (CR/NC only)

PT 899 Independent Study (Units: 1-3)
Prerequisites: Restricted to graduate students in Physical Therapy; consent of major adviser and supervising faculty member.
Independent study or research planned, developed, and completed under the direction of a faculty member. Open only to graduate students who have demonstrated ability to do independent work. May be repeated for a total of 6 units.

PT 908 Professional Colloquium (Unit: 1)
Prerequisites: Admission to DPT program and PT 208 (UCSF).
Topics relative to evidence based PT practice: ethics, human subjects, research, authorship, scientific writing; and to professional issues: legislation, direct access to PT services, and reimbursement for services. (Plus-minus letter grade only)

PT 910 Evidence Based Practice (Units: 4)
Prerequisites: Restricted to graduate Physical Therapy students; successful completion of PT 209 or the equivalent; or consent of instructor.
Students will continue the evidence-based review they started in PT 209, performing a meta analysis to answer their own research question. Students will present their findings orally and in a publication-style manuscript for the DPT culminating experience. (Plus-minus letter grade only)

PT 920 Case Reports I (Unit: 1)
Prerequisite: Restricted to graduate Physical Therapy students.
Research and preparation of a case report on the diagnosis and treatment of a patient care problem relevant to physical therapy. (CR/NC grading only)

PT 921 Case Reports II (Units: 4)
Prerequisites: Restricted to graduate Physical Therapy students; PT 920.
Research, preparation, and presentation of a case report on the diagnosis and treatment of a patient care problem relevant to physical therapy. (Plus-minus letter grade; CR/NC not allowed; RP)

PT 930 Mentored Clinical Clerkship (Units: 6)
Prerequisites: Restricted to graduate Physical Therapy students; PT 801, PT 802, PT 803; minimum GPA of 3.0 in coursework to date.
In a clinical setting, students treat patients and work with experienced clinicians who provide mentoring and consultation for case reviews, physical therapy techniques and review of specialty areas; full-time 8 week clinical experience. May be repeated for a total of 12 units. (CR/NC only)

PT 960 Teaching Practicum (Units: 3)
Prerequisites: Acceptance into the Doctoral program in Physical Therapy; PT 704 or equivalent.
Develop necessary teaching skills for classroom, clinic, and laboratory. Students take this course at least twice and teach in the clinic at least one semester and in the classroom, one semester. May be repeated for a total of 12 units. (CR/NC only)

PT 990 Doctoral Colloquium (Unit: 1)
Prerequisites: Restricted to doctoral students in physical therapy and California licensure.
Forum for discussion on current research, application of research to practice. Students participate in all semesters in the doctoral program and are responsible for planning at least one session. Must be repeated for a total of 8 units.(CR/NC only)

PT 996 Directed Studies (Units: 3)
Prerequisite: Restricted to doctoral students in physical therapy.
Development of research skills in preparation for doctoral laboratory original research. Student will be in a laboratory setting with faculty, post-doctoral and pre-doctoral students. Consists of seminars, journal clubs, and laboratory assignments. May be repeated for a total of 9 units. (CR/NC only)

PT 997 Research (Units: 2)
Prerequisites: Restricted to doctoral Physical Therapy students; 9 units of PT 996 or UCSF equivalent; passing score on Oral Comp exam.
Collection of data on original research project under the direction of dissertation advisor and dissertation committee. Determination of objectives and evaluation criteria by advisor based on stage of the project. May be repeated for a total of 8 units. (CR/NC only)
Physics (PHYS)

PHYS 101 Conceptual Physics (Units: 3)
Prerequisites: High school algebra; score of 50 or above on entry level mathematics (ELM) examination, which must be taken prior to enrollment.

Basic concepts of force, motion, heat, sound, light, electricity, magnetism, and atoms. Suitable as preparation for PHYS 111 and PHYS 121.

Course Attributes:
- B1: Physical Science

PHYS 102 Conceptual Physics Laboratory (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 101.

Laboratory exercises in basic physics. Extra fee required.

Course Attributes:
- B3: Lab Science

PHYS 111 General Physics I (Units: 3)
Prerequisites: MATH 199 or equivalent; score of 50 or above on entry level mathematics (ELM) examination, which must be taken prior to enrollment; acceptable score on the physics readiness test, which must be taken before the start of the semester; concurrent enrollment in PHYS 112.

Mechanics, heat, and sound using algebra and trigonometry.

Course Attributes:
- B1: Physical Science

PHYS 112 General Physics I Laboratory (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 111.

Mechanics, heat, and sound. Extra fee required.

Course Attributes:
- B3: Lab Science

PHYS 121 General Physics II (Units: 3)
Prerequisites: PHYS 111; concurrent enrollment in PHYS 122.

Light, electricity, magnetism, atoms, and modern physics.

PHYS 122 General Physics II Laboratory (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 121.

Light, electricity, magnetism, atoms, and modern physics. Extra fee required.

PHYS 220 General Physics with Calculus I (Units: 3)
Prerequisites: High school physics or equivalent; satisfactory score on physics placement examination; MATH 226 with a grade of C or better; concurrent enrollment in PHYS 222, MATH 227.

Basic mechanics. Calculus is used in examples and problems. Optional tutorial discussion.

Course Attributes:
- B1: Physical Science

PHYS 222 General Physics with Calculus I Laboratory (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 220.

Experiments in mechanics. Extra fee required.

Course Attributes:
- B3: Lab Science

PHYS 230 General Physics with Calculus II (Units: 3)
Prerequisites: PHYS 220, MATH 227, with grades of C or better; concurrent enrollment in PHYS 232, MATH 228 recommended.

Introduction to electricity and magnetism. Calculus is used in examples and problems.

PHYS 232 General Physics with Calculus II Laboratory (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 230.

Experiments in electricity and magnetism. Extra fee required.

PHYS 240 General Physics with Calculus III (Units: 3)
Prerequisites: PHYS 220, MATH 227, with grades of C or better; concurrent enrollment in PHYS 242, MATH 228 recommended; recommended for Physics majors.

Wave motion, optics, and thermodynamics.

PHYS 242 General Physics with Calculus III Laboratory (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 240.

Experiments in wave motion, optics, and thermodynamics.

PHYS 320 Modern Physics I (Units: 3)
Prerequisites: PHYS 230, PHYS 240, MATH 228, with grades of C or better.

Introduction to special relativity, quantum phenomena, the Bohr model of the hydrogen atom, and the Schrödinger equation.

PHYS 321 Modern Physics Laboratory (Units: 2)
Prerequisite: Concurrent enrollment in PHYS 320.

Experiments on quantum physics and other phenomena of modern physics. Methods of data and error analysis. Classwork, 1 unit; laboratory, 1 unit.

PHYS 325 Modern Physics II (Units: 3)
Prerequisite: PHYS 320 with a grade of C- or better.

Physics of multi-electron atoms including L and S coupling schemes and optical spectra; elementary concepts of nuclear and elementary particle physics; use of four-vectors to analyze particle collisions and decays.

PHYS 330 Analytical Mechanics I (Units: 3)
Prerequisites: PHYS 230, MATH 245 or MATH 376, with grades of C- or better.

Vector analysis, fundamentals of statics, kinematics, and dynamics of rigid bodies and systems of particles.
PHYS 340GW The Big Bang - GWAR (Units: 3)
Prerequisites: ENG 214 or equivalent with a grade of C or better, PHY 320 or equivalent with a grade of C- or better.

Introduction to cosmology, from earlier human conceptions of the universe, through the hot big bang and inflation; early universe, nucleosynthesis, dark matter, dark energy, photon, and neutrino backgrounds, and observational tests of cosmology. (ABC/NC grading only)
(This course is offered as ASTR 340GW and PHYS 340GW. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- Graduation Writing Assessment

PHYS 360 Electricity and Magnetism I (Units: 3)
Prerequisites: PHYS 230, PHYS 330, PHYS 385, with grades of C- or better.

Electrostatics, including boundary-value problems, fields in polarizable media, magnetostatics.

PHYS 370 Thermodynamics and Statistical Mechanics (Units: 3)
Prerequisites: PHYS 240, PHYS 320, MATH 228, with grades of C or better.

Classical thermodynamics, kinetic theory, and elementary statistical mechanics. Applications may include quantum statistics, black-body radiation, paramagnetic spin systems, and low-temperature phenomena.

PHYS 385 Introduction to Theoretical Physics I (Units: 3)
Prerequisites: PHYS 240/PHYS 242 with grades of C- or better; concurrent enrollment in PHYS 330.

Principles of theoretical physics. Theoretical techniques applied throughout mechanics, electricity and magnetism, optics, relativity, quantum mechanics, etc. Applications of vector and tensor spaces, coordinate systems, and group theory.

PHYS 430 Quantum Mechanics I (Units: 3)
Prerequisites: PHYS 320, PHYS 360 (may be taken concurrently), PHYS 385, and MATH 245 or MATH 376, with grades of C- or better.

Postulates of quantum mechanics, one-dimensional problems, barriers and the WKB approximation, angular momentum, and hydrogen atom.

PHYS 431 Quantum Mechanics II (Units: 3)
Prerequisite: PHYS 430 with a grade of C- or better.

Problems in three dimensions, matrix mechanics, spin, application to atomic and molecular physics, perturbation theory, and scattering.

PHYS 440 Computational Physics (Units: 4)
Prerequisites: PHYS 320, PHYS 430 or PHYS 460, CSC 309 or CSC 210 (or equivalent by consent of instructor), with grades of C- or better.

Analysis and simulation of physical systems by computer. Differential equations, chaos theory, spin systems, Monte Carlo method, neural networks, and theory of computation. Classwork, 3 units; laboratory, 1 unit. (Plus-minus letter grade only)
(PHYS 740/PHYS 440 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

PHYS 450 Introduction to Solid State Physics (Units: 3)
Prerequisites: PHYS 320, MATH 245 or MATH 376, with grades of C- or better.

Crystal structure, x-ray diffraction, lattice vibrations, models of electrical conductivity; electron energy bands in crystals; electrons and holes in semiconductors.

PHYS 457 Introduction to Analog Electronics (Units: 4)
Prerequisites: PHYS 121 or PHYS 230, MATH 226, with grades of C- or better.

Linear network analysis techniques; phasors; diodes; bipolar junction transistors; field-effect transistors; operational amplifiers. Classwork, 3 units; laboratory, 1 unit.

PHYS 460 Electricity and Magnetism II (Units: 3)
Prerequisite: PHYS 360 with a grade of C- or better.

Maxwell’s equations; waves in free space and in dielectrics; reflection and refraction; radiation; special-relativistic transformation of the electromagnetic field.

PHYS 480 Introduction to Optics & Photonics (Units: 3)
Prerequisites: PHYS 230 and PHYS 240, PHYS 320 and PHYS 385 recommended, with grades of C- or better.

Ray optics, including optical fibers and instruments. Wave optics, including interference, diffraction, electromagnetic waves and polarization. Selected topics including beam optics, Fourier optics, photonic-crystal optics, laser basics, holography.

PHYS 490 Physics Project Laboratory (Units: 2)
Prerequisites: ENG 214 or equivalent with a grade of C or better, PHYS 321 with a grade of C- or better.

Experiments from the fields of atomic, nuclear, solid-state, and optical physics with emphasis on electronic instrumentation and computer-assisted data acquisition. Classwork, 1 unit; laboratory, 1 unit. (Effective Fall 2010, completion of PHYS 490 and PHYS 491GW with a grade of C or better culminates in the satisfaction of GWAR.) (ABC/NC grading only)

PHYS 491GW Advanced Laboratory II - GWAR (Unit: 1)
Prerequisite: PHYS 490 with a grade of C or better.

Advanced laboratory work in atomic, nuclear, solid state, and optical physics. Preparation of publication-quality reports and oral presentations on experiments. (Satisfies GWAR when taken Fall 2010 and thereafter, in sequence with PHYS 490 and completed with a grade of C or better.)

Course Attributes:
- Graduation Writing Assessment

PHYS 495 Introduction to Apparatus Fabrication (Unit: 1)
Prerequisites: Physics major; PHYS 490 with a grade of C- or better; consent of instructor.

Laboratory work with materials, machine tools (lathe, mill, etc.), and fabrication methods for the production of experimental research apparatus. Safety considerations.

PHYS 695 Culminating Experience in Physics (Unit: 1)
Prerequisite: Final semester of a Physics degree program.

Preparation of a portfolio of work completed in classes required for the degree. The final examination will be the ETS physics major field test.

PHYS 697 Senior Project (Units: 1-3)
Prerequisites: PHYS 490; consent of faculty adviser.

Participation in experimental or theoretical project under the direction of faculty member. Written report of specific observations and calculations required. May be repeated with consent of advisor.

1710
PHYS 699 Independent Study (Units: 1-3)
Prerequisite: Approval of department and consent of instructor.
Study in the laboratory or library under the direction of a member of the department. For students majoring or minoring in physics. Student must present a detailed written report of the work accomplished to the department. May be repeated for a total of 12 units.

PHYS 701 Classical Mechanics (Units: 3)
Prerequisites: Graduate standing; PHYS 460 (may be taken concurrently), PHYS 785 recommended.
Lagrangian and Hamiltonian mechanics; motion in arbitrary central force potentials; canonical transformation theory; Liouville's theorem; computer visualizations of phase space trajectories and topologies; collisionless Boltzmann equation applied to stellar dynamics; Jeans theorems, orbital anisotropy, and phase space distribution functions.

PHYS 704 Electricity and Magnetism I (Units: 3)
Prerequisites: PHYS 785, PHYS 460, PHYS 701 recommended.
Boundary-value problems in electrostatics, magnetostatics; Maxwell's equations and the causal structure of electrodynamics; plane waves and wave propagation.

PHYS 706 Quantum Mechanics (Units: 3)
Prerequisites: PHYS 701, PHYS 785.
Bound states, collision theory, matrix mechanics, symmetry and groups, perturbation theory.

PHYS 710 Advanced Laboratory Techniques (Units: 3)
Prerequisite: PHYS 490.
Techniques of electronic instrumentation, computerized data acquisition, digital signal processing, and data analysis designed to prepare the student for experimental research work in academic and industrial laboratories. Classwork, 2 units; laboratory, 1 unit.

PHYS 711 Semiconductor Devices and Technology (Units: 3)
Prerequisite: PHYS 450 with a grade of C or better.
Physical principles of semiconductor devices based upon mestructures. Introduction to integrated circuit fabrication technology structures.

PHYS 712 Physics of Plasmas (Units: 3)
Prerequisites: Graduate standing; PHYS 460; PHYS 701 or PHYS 785 recommended.
Fundamental properties of plasmas. Motion of charged particles in electromagnetic fields. Kinetic theory of plasmas, including the Boltzmann and Vlasov equations. Fluid theory of plasmas, including magnetohydrodynamics. Waves and instabilities. Applications to controlled thermonuclear fusion and space physics.

PHYS 714 Low-Temperature Physics (Units: 3)
Prerequisites: PHYS 360, PHYS 430, with grades of C or better.
Low temperature thermal and electrical behavior of materials; theories of superconductivity and superfluidity; superconducting devices including Josephson junctions, quantum interference devices and cryogenic phonon.

PHYS 715 Lasers and Quantum Optics (Units: 3)
Prerequisites: PHYS 430, PHYS 460.
Atom-field interaction, stimulated emission, dipole oscillations, the ammonia maser, semi-classical laser theory, coherent states, quantum laser theory, Fourier optics, and holographic interferometry.

PHYS 725 Special and General Relativity (Units: 3)
Prerequisites: Graduate standing; PHYS 701 (may be taken concurrently); PHYS 785 recommended.
Tensor formulation of special relativity with astrophysical applications. Riemannian geometry. The Einstein field equations applied to Mercury's orbit, black holes, gravitational lensing, cosmology, and interstellar travel. Computer visualizations of spacetimes and orbits.

PHYS 726 Quantum Field Theory (Units: 3)
Prerequisites: PHYS 430, PHYS 431, PHYS 706.
Relativistic wave equations; quantization of the scalar, Dirac, and Maxwell fields. The LSZ reduction formula for S-matrix elements. Path-Integral evaluation of time-ordered products. Tree-level Feynman diagrams in quantum electrodynamics, and an introduction to non-abelian gauge theory.

PHYS 730 Photonics and Nano Materials (Units: 2)
Prerequisites: Graduate standing or PHYS 230, PHYS 240, PHYS 320, PHYS 360.
Physical principles and cutting-edge research on photonics, nanomaterials, and soft condensed matter physics. (Plus-minus letter grade only)

PHYS 740 Computational Physics (Units: 4)
Prerequisites: PHYS 320, PHYS 430 or PHYS 460, CSC 309 or CSC 210 (or equivalent by consent of instructor), with grades of C- or better.
Analysis and simulation of physical systems by computer. Differential equations, chaos theory, spin systems, Monte Carlo method, neural networks, and theory of computation. Classwork, 3 units; laboratory, 1 unit. (Plus-minus letter grade only)

PHYS 775 Statistical Physics (Units: 3)
Prerequisites: PHYS 370, MATH 376, PHYS 385.
Statistical methods in physics: probability, phase space, distribution functions, partition functions. Maxwell-Boltzmann, Fermi-Dirac, and Bose-Einstein statistics. Phase transitions, Monte Carlo method, transport theory. (Plus-minus letter grade only)

PHYS 785 Theoretical Physics (Units: 3)
Prerequisites: PHYS 360, PHYS 460 (may be taken concurrently).
Advanced concepts and techniques in mathematics applied to problems in physics. Applications in mechanics, electricity and magnetism, and fluids. (Plus-minus letter grade only)

PHYS 832 Instructional Methods in Physics (Units: 2)
Prerequisite: Graduate standing or consent of instructor; must have concurrent GTA appointment.
Instructional methods for the teaching of physics laboratories: the introductory lecture, laboratory safety procedures, supervision of laboratory students, proper handling of equipment and demonstrations, best practices in maintaining lab logsbooks and writing lab reports. Maybe repeated for a total of 4 units. (CR/NC grading only)
PHYS 885 Projects in Teaching Physics/Astronomy (Units: 1-3)
Prerequisite: Graduate standing.
Learning experience and pedagogical strategies and principles of teaching and learning physics and/or astronomy. One unit is required of students in their first GTA position. May be repeated for a total of 6 units. (CR/NC only)

PHYS 890 Introduction to Physics Research (Units: 1-3)
Prerequisite: Graduate standing.
Introduction to methods of physics research. May be repeated for a total of 5 units. (CR/NC only)

PHYS 891 Physics Research Design (Units: 1-3)
Prerequisites: Passed Level 1 Written English Proficiency Requirement and have research project approved.
Elements of Physics/Astronomy research proposals: literature review, project significance, and feasibility, materials and methods, budget, data analysis and presentation, statistical significance, reference notation. May be repeated for a total of 4 units.

PHYS 896 Directed Reading in Physics (Units: 1-3)
Prerequisite: Graduate standing.
Readings/tutorials to achieve better understanding of specific topics based on individual student need. Focus on review and integration of core concepts in preparation for the comprehensive oral examination. (Does not count toward MS degree requirements.) (CR/NC only)

PHYS 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.
Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered PHYS 898 (or in some cases, course number PHYS 890 - see program’s graduate advisor for further information). (CR/NC, RP)

PHYS 897 Research (Units: 1-3)
Prerequisite: Completed undergraduate major in physics.
Independent and original laboratory investigation under supervision of a staff member. May be repeated.

PHYS 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

PHYS 899 Independent Study (Units: 1-3)
Prerequisite: Approval of department and consent of instructor.
Study in the laboratory or library under the direction of a member of the department. For graduate students in physics. The student must present a detailed written report of the work accomplished to the department. May be repeated.
Political Science (PLSI)

PLSI 100 Understanding Politics (Units: 3)
Concepts and principles of political thought, action, and institutions.
Course Attributes:
- D1: Social Sciences
- Social Justice

PLSI 103 The Politics of Protest and Resistance (Units: 3)
The history of protest, how power has been resisted, protested and altered, the resources such movements can draw on and limitations?

PLSI 105 Principles of Government and Politics (Units: 3)
The individual's role in government and politics as active agents rather than observers, citizens rather than subjects, and the means for engaging in broad political questions and one's own position. Exploration of the various political relationships that define and motivate individuals.
Course Attributes:
- D1: Social Sciences
- Social Justice

PLSI 106 Capitalism, Socialism, and Democracy: Introduction to Political Economy (Units: 3)
Political-economic approaches to the analysis of questions each society must solve: governance, production, allocation, distribution, freedom, and equity. The development of contemporary market vs. non-market organization, political direction of economic activity, and political-economic struggles.
Course Attributes:
- D1: Social Sciences
- Social Justice

PLSI 150 Contemporary Moral/Political Issues (Units: 3)
Theories of the good life, of ethics, of rights, and of justice, through the examination of contemporary moral issues: capital punishment, affirmative action, abortion, racial and sexual equality, privacy, pornography, and environmental protection.
(This course is offered as PHIL 150 and PLSI 150. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- C2: Humanities
- Social Justice

PLSI 200 American Politics (Units: 3)
Governmental institutions, politics, and issues in the U.S. and California in historical, social, and cultural perspective.
Course Attributes:
- U.S. Govt CA State Local Govt
- D3: Social Sciences: US CA Gov

PLSI 216 The 2016 Presidential Election: Issues and Analysis (Units: 2)
Public issues in the Presidential election race. Topics may include, but are not limited to: health care and insurance, the economy, international affairs and the wars in the Middle East, the environment and climate change, same-sex marriage, free trade, and education. Experts on political campaigns will discuss the polls, media, the campaign, campaign financing regarding the Presidential contest, and how the Presidential race will impact Congressional and State races. (CR/NC grading only)

PLSI 250 Comparative Politics (Units: 3)
Governmental institutions, political processes, socio-economic development and issues in countries around the world.

PLSI 275 Introduction to Political Theory (Units: 3)
Competing traditions of political theory: the foundation of political thought; the nature and scope of politics.

PLSI 276 Public Lecture Series in Politics (Units: 2)
Public lecture series on current issues within the behavioral and social sciences. Course is designed for the general community and student body. May be repeated when topics vary. (CR/NC grading only)

PLSI 300 Scientific Inquiry in Political Science (Units: 4)
Prerequisites: PLSI 200 or equivalent; a course in critical thinking recommended.
Introduction to empirical research in political science. Topics include the philosophy of science, research design, and inferential statistics. Classwork, 3 units; laboratory, 1 unit.

PLSI 319 Cases in Comparative Politics (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of country case studies to be used as a basis for understanding broader themes of comparative politics. [Formerly PLSI 253]
Course Attributes:
- Global Perspectives
- Social Justice

PLSI 320 Political Forum (Units: 2)
Prerequisite: PLSI 200 or equivalent, or consent of instructor.
Focus on one or more political issues that are current and illuminate important aspects of American politics. Topic to be specified in Class Schedule. May be repeated on advisement when topics vary.

PLSI 321 Development and Foreign Policy--Africa (Units: 4)
Prerequisites: Upper division standing; ENG 214.
A comparison of the foreign policies of various African nation-states; in particular, a consideration of those policies as expressions of national frameworks, ideological perspectives, etc.
(This course is offered as I R 321 and PLSI 321. Students may not repeat the course under an alternate prefix.)

PLSI 322 Latin American Policy Analysis (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of the international relations and foreign policy-making systems of Latin American nations and an analysis of selected foreign policy problems facing Latin American decision-makers with oral and written reports.
(This course is offered as I R 322 and PLSI 322. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD:D: Social Sciences
- Global Perspectives

PLSI 325 Chinese Foreign Policy (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Examination of China's international relations and the actors involved in constructing it. Analysis of the factors influencing China's participation in international affairs. Assessment of the international realm's effect on Chinese foreign policy.
(This course is offered as I R 325 and PLSI 325. Students may not repeat the course under an alternate prefix.)
PLSI 328 Domestic and Foreign Policy: Post-Communist Regions (Units: 4)
Prerequisites: Upper division standing; ENG 214.
Development and subsequent dynamics of what used to be called the Soviet Bloc. Analysis of current relations in light of events in the post-World War II period.
(This course is offered as I R 328 and PLSI 328. Students may not repeat the course under an alternate prefix.)

PLSI 329 U.S.-Japan Politics (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
In the postwar period, U.S.-Japan relations have moved from the periphery of international politics to the center, yet our understanding of this development has lagged behind. The origins of the trade deficit, competition, and related economic and security questions.
(This course is offered as I R 329 and PLSI 329. Students may not repeat the course under an alternate prefix.)

PLSI 342 Strategy and War (Units: 4)
Prerequisites: Upper division standing; ENG 214.
War as an instrument of national policy. Causes of war and classical and modern strategies for winning it from Clausewitz to Herman Kahn. Strategic theory, games, deterrence, guerrilla warfare, counter-insurgency, weapons technology, and the political consequences of preparedness.
(This course is offered as I R 342 and PLSI 342. Students may not repeat the course under an alternate prefix.)

PLSI 351GW Political Theory: The Classical Tradition - GWAR (Units: 4)
Prerequisites: Upper division Political Science majors; ENG 214 or equivalent with a grade of C- or better; or consent of instructor.
Nature of the state, power and authority, forms of government, law and justice, leadership and citizenship, as presented in the writings of Plato, Aristotle, Cicero, and Machiavelli. (ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment

PLSI 352 Political Theory: Reformation to Nineteenth Century (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Political obligation, sovereignty, liberty, equality, property, and revolution, as presented in the works of Hobbes, Locke, Rousseau, Burke, and Tocqueville.

PLSI 353 Political Theory: The Twentieth Century (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Changing nature of political theory since the mid-19th century; the impact of sociology, psychology, and existentialism on political speculation. Technology, totalitarianism, and the crisis of the modern political order. This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 353GW Political Theory of the Twentieth Century - GWAR (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C- or better.
Changing nature of political theory since the mid-19th century; the impact of sociology, psychology, and existentialism on political speculation. Technology, totalitarianism, and the crisis of the modern political order. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

Course Attributes:
- Graduation Writing Assessment

PLSI 354 Politics, the Environment, and Social Change (Units: 4)
Prerequisite: PLSI 200 or consent of instructor.
Political impact of environmental problems and the challenges they present for American and international policy-making, values, and institutions.
Course Attributes:
- UD-D: Social Sciences
- Environmental Sustainability
- Social Justice

PLSI 355 Politics and Ethics of the Consumer Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Politics and ethics of consumption-oriented society; nature of industrial society; its structures, values, and consumption practices.
(This course is offered as PLSI 355 and PHIL 355. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Environmental Sustainability
- Social Justice

PLSI 356 Political Theories of Neoliberalism (Units: 4)
Prerequisite: Upper division standing.
Analysis of the theoretical and practical dimensions of neoliberalism; focus on political ramifications of neoliberalism, how it operates and how it can be resisted.

PLSI 357GW Political Movements: Lessons from Freedom Summer - GWAR (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C- or better.
Examination of origins, strategies, theory and outcomes of the Civil Rights Movement in terms of their relevance to social and political social activism today. (ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment
PLSI 360 Development of American Political Thought (Units: 4)
Prerequisite: PLSI 200.
Political theories associated with movements in the development of the U.S. Persisting and recurring problems in political thought. This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 360GW Development of American Political Thought - GWAR (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C- or better.
Political theories associated with movements in the development of the U.S. Persisting and recurring problems in political thought. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:
- Graduation Writing Assessment

PLSI 362 Domestic & Transnational Sources of US Foreign Policy (Units: 4)
Prerequisites: ENG 214 or equivalent, I R 310 or PLSI 200, or consent of instructor.
The role of domestic and transnational actors in making US foreign policy. Examination of American culture, media, interest groups, social movements, corporations, and lobbying on policy outcomes. Transnational influences on US foreign policy. Impact of international events on Americans. (This course is offered as I R 362 and PLSI 362. Students may not repeat the course under an alternate prefix.)

PLSI 371 Marxist Political Theory (Units: 4)
Prerequisite: ENG 214.
Examination of the development of Marxist thought and its application; the writings of Karl Marx and its effect on Western and world thought since the 19th century in such diverse fields as political economy, sociology, philosophy, historiography, aesthetics, and numerous others.

PLSI 372 Critical Political Theory (Units: 4)
Prerequisite: ENG 214.
Focus on the critical tradition in political theory that responds to and differentiates itself from classical and modern canonical texts. (This course is offered as PLSI 372, HUM 372, and I R 372. Students may not repeat the course under an alternate prefix.)

PLSI 373 Essentials of California Politics (Unit: 1)
Prerequisite: Upper division standing or consent of instructor.
Basics of California state and local politics for students from out of state (including international students) who have satisfactorily completed a course that fulfills the US government requirement, but not the California State and local government requirement. [Formerly PLSI 273]
Course Attributes:
- Calif State & Local Govt

PLSI 381 Political Theories of Sexuality (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
The ways political theory has conceived of, engaged with, and deconstructed notions of gender and sexuality. Twentieth century thought destabilized the concept of gender even as it produced a new “identity” queerness.
Course Attributes:
- UD-D: Social Sciences
- Social Justice

PLSI 382 Politics and Literature (Units: 4)
Prerequisite: ENG 214 or equivalent.
Examination of political themes in classical drama and contemporary novels. Possible authors include Sophocles, Shakespeare, Coetzee, and Tabucchi.

PLSI 386 Introduction to Critical Social Thought (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
The tradition and development of critical social thought in interaction with social-economic, political conditions from Kant, Hegel, and Marx in the 19th century to 20th century Marxism, phenomenology, and feminism. (This course is offered as CST 300 and PLSI 386. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Social Justice

PLSI 387 Non Western Comparative Political Thought (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Comparative political thought as a site for interdisciplinarity across comparative studies, political theory, and philosophy. Central debates include the role of global citizenship, global culture, cross-cultural philosophical analysis, human and civil rights. This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
PLSI 387GW Non Western Comparative Political Thought - GWAR (Units: 4)
Prerequisites: Upper division Political Science major; ENG 214 or equivalent with a grade of C- or better.

Comparative political thought as a site for interdisciplinary across comparative studies, political theory, and philosophy. Central debates include the role of global citizenship, global culture, cross-cultural philosophical analysis, human and civil rights. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:

- Graduation Writing Assessment

PLSI 388 Politics and the Popular (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Examine the relationship between political theory on one hand, and experienced, common sense, and tradition, on the other. Do these forms need to be theorized into coherent ideology? What are the dangers of doing so?
Course Attributes:

- UD-D: Social Sciences
- Social Justice

PLSI 389 Latin American Revolutionary Societies (Units: 4)
Prerequisite: Upper division standing.

Revolution implies a dramatic break with the past, but revolutions actually develop slowly over time, calling upon shared histories that inspire and impede change. Examination of the extent to which Latin American revolutions lived up to the goals that they set down.

PLSI 392 Latin American Political Thought (Units: 4)
Prerequisite: Upper division standing.

Introduction to some of the most influential Latin American political thinkers including Bolivar, Marti, and Mariategui. Exploration of whether we can speak of Latin American political thought and what sort of silences doing so may entail.
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 392GW Latin American Political Thought - GWAR (Units: 4)
Prerequisites: Upper division standing; ENG 214 with grade of C- or better or equivalent.

Introduction to some of the most influential Latin American political thinkers including Bolivar, Marti, and Mariategui. Exploration of whether we can speak of Latin American political thought and what sort of silences doing so may entail. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:

- Graduation Writing Assessment

PLSI 393 Anarchist Political Theory (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Analysis of the basic theories and practices of anarchism from its classical to its contemporary forms. Focus on the relationship between theory and practice and the question of process and organization.
Course Attributes:

- UD-D: Social Sciences
- Social Justice

PLSI 394 Political Theories of Work, Labor and Free Time (Units: 4)
Prerequisite: Upper division standing

Examination of the tension between the desire to work and to be free from work looking at texts from liberalism, Marxism, feminism and critical theory. Questions to explore include the following: Has this tension always existed and how might it be overcome? Where and when did people begin to prioritize paid work over all else? What constitutes “work” and who decides? Is work different than labor? (This course is offered as PLSI 394 and LARB 394. Students may not repeat the course under an alternate prefix.)

PLSI 395 Political Theories of Pedagogy and Community Activism (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Exploration of the connection between radical pedagogy and activism from a political theory perspective.
Course Attributes:

- Social Justice

PLSI 401 The Political Economy of Sub-Saharan Africa (Units: 4)
Prerequisite: Upper division standing or the consent of instructor.

Examination of the politics surrounding issues of development, aid, and the effects of globalization on Sub-Saharan African countries. (Plus-minus ABC/NC, CR/NC)
PLSI 404 Politics of China (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Contemporary government and politics of the People's Republic of China with modest concern for the way the past has shaped the present. Main focus is on political institutions and political processes. (This course is offered as PLSI 404 and I R 404. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 405 The Politics of Fascism and Communism in 20th Century Europe (Units: 4)
Prerequisite: Upper division standing or consent of instructor

Examination of the social, political and economic conditions that led to the development of fascism and communism in Europe during the 20th century. Focus on how and whether these conditions reflect on our contemporary situation today. (Plus-minus ABC/NC, CR/NC)

PLSI 406 Radical Right Politics: The Rise of Far-Right Political Parties in Contemporary Europe (Units: 4)
Prerequisites: Upper division standing or consent of instructor.

Highlight the potential causes and implications of the rise in far-right political parties across Europe since 2008. (Plus-minus ABC/NC, CR/NC)

PLSI 407 Politics of Russia (Units: 4)
Prerequisite: Upper division standing.

Contemporary government and politics of Russia, the way the past has shaped the present. Political institutions, political processes, and ideologies. (This course is offered as PLSI 407 and I R 407. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 408 Mexican Politics and Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Peoples, politics, and cultures of Mexico; implications of rapid change in Mexico for California and the U.S. [CSL may be available] (This course is offered as LTNS 670 and PLSI 408. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

PLSI 409 Russia and World Order (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Introduction to theories of world order and Russia's role in it. Review of historical and contemporary foundations for understanding world order. Discussion of Russia’s role in various regional and global settings. (Plus-minus letter grade only) (This course is offered as I R 409 and PLSI 409. Students may not repeat the course under an alternate prefix.)

PLSI 410 Middle East Politics (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Government and politics of the Middle East and North Africa. Comparative political institutions, ideology, political culture, political economy, social movements, regional conflicts, and international relations.
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 411 East Asian Politics (Units: 4)
Prerequisite: Upper division standing or consent of instructor.

Government and politics of East Asia (China, Japan, South Korea, and Taiwan). Systematic comparison of nations utilizing common themes: political development, political institutions, political economy, political change. (This course is offered as PLSI 411 and I R 411. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 412 South Asian Politics (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.

Political development in the South Asian states; political institutions and processes; parties and election; leadership; current policies and problems. (This course is offered as PLSI 412 and I R 412. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• Global Perspectives

PLSI 415 Politics of India (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.

Contemporary government and politics in India, with attention to social and historical factors, political institutions, processes, and ideologies. Some focus on political economy and foreign policy issues. This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
PLSI 415GW Politics of India - GWAR (Units: 4)
Prerequisites: Upper division Political Science major; ENG 214 or equivalent with a grade of C- or better; or consent of instructor.
Contemporary government and politics in India, with attention to social and historical factors, political institutions, processes, and ideologies. Some focus on political economy and foreign policy issues. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:
• Graduation Writing Assessment

PLSI 416 Ethnicity and Nationalism (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Issues and problems raised by the phenomena of ethnicity and nationalism, ethnic conflict, and efforts at conflict resolution in a comparative context.
(This course is offered as PLSI 416 and I R 416. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 417 Gender, Equality, and Politics: A Comparative Perspective (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Examination of gendered nature of political representation, employment, and welfare state policy in post-industrialized nations. Emphasis on different political and social arrangements that European governments and social movements have developed to accommodate the growing demand for gender equality.
(This course is offered as PLSI 417 and I R 417. Students may not repeat the course under an alternate prefix.)

PLSI 418 Political Transitions in East & Southeast Asia (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Examination of political transition theories and divergent patterns of political transition in East and Southeast Asia. Exploration of controversial issues associated with political transition and the prospects for democracy in these regions.
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 418GW Political Transitions in East & Southeast Asia - GWAR (Units: 4)
Prerequisites: Upper division Political Science major; ENG 214 or equivalent with a grade of C- or better.
Examination of political transition theories and divergent patterns of political transition in East and Southeast Asia. Exploration of controversial issues associated with political transition and the prospects for democracy in these regions. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:
• Graduation Writing Assessment

PLSI 419 Comparative Political Economy (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Interplay between politics and economics and the interaction between states and markets. Comparison of major competing ideologies and modes of political economy in developed, developing, and communist/post-communist world with particular emphasis on Asian political economies.
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 420 State-Society Relations in the Middle East (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
State-society relations in the Middle East and North Africa in a comparative perspective. How different social groups interact with state to shape policies, influence political discourse, and pursue political goals. Sources of authoritarian rule and prospects for democratization.
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 420GW State-Society Relations in the Middle East - GWAR (Units: 4)
Prerequisite: ENG 214 or equivalent with a grade of C- or better.
State-society relations in the Middle East and North Africa in a comparative perspective. How different social groups interact with state to shape policies, influence political discourse, and pursue political goals. Sources of authoritarian rule and prospects for democratization. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:
• Graduation Writing Assessment
PLSI 424 Social Movements (Units: 4)
Prerequisite: ENG 214 or equivalent.
Examines social movements and political action in comparative perspective. An examination of origins, tactics, and outcomes of social movements. [CSL may be available]
(This course is offered as PLSI 424 and SOC 424. Students may not repeat the course under an alternate prefix.)

PLSI 425 Imagining Power in the Middle East (Units: 4)
Prerequisites: Upper division standing; PLSI 410, PLSI 420, or equivalents; or consent of instructor.
Through film, literature, autobiography, and other forms of documentation and imagination, examines differing conceptions of power in Middle East countries. Topics include political, military, ideological, economic power; colonialism, independence, equality, nation-building, uprising, and revolution.
Course Attributes:
• Global Perspectives

PLSI 430 Israeli Democracy: Politics, Institutions, and Society (Units: 3)
Prerequisite: ENG 214 or equivalent.
Knowledge of Israel's political system, its origins, its formal structure, the way it functions, and its main attributes in comparison to other democratic political systems. Ideology, state and religion, and civil liberties.
(This course is offered as JS 430, I R 430, and PLSI 430. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives

PLSI 431 Constructing Kurdistan (Units: 4)
Prerequisites: Upper division standing; PLSI 250 or PLSI 410 or HIST 605 or I R 323 or I R 324 or MEIS 300; or consent of instructor.
Examines Kurdish nation- and state-building efforts in Iraq and Turkey in the 20th and early centuries. Includes introduction to theories on nationalism, state formation, social movements, and ethnic conflict.
(This course is offered as PLSI 431 and MEIS 431. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• Global Perspectives

PLSI 435 Politics of Global Finance and Crisis (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
The development and role of late 20th and early 21st century financial technologies in modern market crises. Research and critical analysis of 21st century finance capitalism. Political and financial interactions, including limits and possibilities for controlling financial behavior.
(This course is offered as PLSI 435, I R 435, and FIN 435. May not be repeated under alternate prefix.)

PLSI 460 Topics in American Politics (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Exploration of a specific area of American politics ranging from political institutions such as Congress, the Presidency, and the Courts, to voting, political parties, the media and other critical aspects. May be historical or contemporary. Topic to be specified in Class Schedule. May be repeated when topics vary.

PLSI 461 Voting Behavior, Campaigns, and Elections (Units: 4)
Prerequisite: Upper division standing or consent of the instructor.
Examination of voter behavior, including the decision to vote, the choice of candidates, and partisan identification. Investigation of political science literature on campaign dynamics and strategy.

PLSI 462 Applied Public Opinion Research (Units: 4)
Prerequisite: ENG 214.
Public opinion research: data collection, survey construction, data management, data analysis, and data communication. [CSL may be available]

PLSI 463 The Politics of Immigration in the United States (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Examination of immigration policy and politics in the United States. Topics include causes of migration, development of federal, state and local policy, immigrant political participation and incorporation.
Course Attributes:
• Am. Ethnic & Racial Minorities
• Social Justice

PLSI 465 Reason, Passion, and Political Behavior (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Examination of the cognitive processes involved in the formation of political beliefs, and their link to political behavior. Emphasis on the connection of theoretical models with politics focusing on campaigns and voter choice.

PLSI 466 Black Lives Matter: Race and Social Movements (Units: 4)
Prerequisite: ENG 214 or equivalent.
Subordinate status of African/Americans and others in the U.S.; nexus between power, racism, and violence. Strategies for social change in terms of leadership, organization, and movements.
(This course is offered as PLSI 466 and AFRS 466 [formerly ETHS 466]. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

PLSI 467 Politics and Community Organizing (Units: 4)
Prerequisite: Upper division standing or consent of the instructor.
An overview of the role that community organizing has played throughout US history; and critical examination of the current state of community organizing today. [Formerly PLSI 390]
PLSI 473 California Politics and Government (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Policy-making and exercise of power within federal framework. State and local issues and institutions. [CSP may be available]
Course Attributes:
- Calif State & Local Govt
- Social Justice

PLSI 475 San Francisco Political Issues (Units: 4)
Prerequisite: Upper division standing.
Political mobilization and governance. Electoral processes. Economic, ethnic, and cultural conflicts. May be repeated with consent of the instructor. [CSP may be available]
(This course is offered as PLSI 475 and USP 485. Students may not repeat the course under an alternate prefix.)

PLSI 477 Congress and the Presidency (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Structure, roles, and functions of the legislative and executive branches of national government. Legislative-executive policy controversies. This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 477GW Congress and the Presidency - GWAR (Units: 4)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C- or better.
Structure, roles, and functions of the legislative and executive branches of national government. Legislative-executive policy controversies. (ABC/NC grading only)
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:
- Graduation Writing Assessment

PLSI 478 Judicial Process (Units: 4)
Prerequisites: ENG 214, PLSI 200, PLSI 275, or equivalents.
Leadership and power in Supreme Court decision-making. Principles and meaning of the U.S. Constitution governing the powers and relationships of the branches and levels of the American political system. [Formerly PLSI 551]
Course Attributes:
- Social Justice

PLSI 480 Introduction to Urban Policy and Analysis (Units: 4)
Prerequisite: Upper division standing.
Political and institutional settings for policy making. Concepts and techniques of policy, planning, and administration. (This course is offered as PLSI 480 and USP 480. Students may not repeat the course under an alternate prefix.)

PLSI 485 Political Sociology (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4; or consent of instructor.
Examination of the social dimensions of power, particularly those embedded in institutions of the state. Exploring relations between state and society, social movements, political organization and civic participation, political culture, voting behavior, and citizenship. (This course is offered as SOC 485 and PLSI 485. Students may not repeat the course under an alternate prefix.)

PLSI 492 Research Methods (Units: 4)
Prerequisite: Upper division standing.
Problem formulation; research design; data collection, organization, and analysis; introduction to computer generated analyses; report writing and presentation; applied research. Classwork, 3 units; laboratory, 1 unit. (This course is offered as USP 492 and PLSI 492. Students may not repeat the course under an alternate prefix.)

PLSI 493 Data Analysis (Units: 4)
Prerequisite: PLSI 492/USP 492 or equivalent.
Statistical analysis for politics, public policy, administration, and urban studies. Uses, interpretation, and limitations. (This course is offered as PLSI 493 and USP 493. Students may not repeat the course under an alternate prefix.)

PLSI 500 Labor and Government (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Exploration of labor-government relations at local, state, and national levels. Consideration of labor’s political action in relation to legislative, executive, and judicial branches of government and in the electoral process; examination of government’s responses as they protect or restrict labor’s interest. (This course is offered as LABR 500 and PLSI 500. Students may not repeat the course under an alternate prefix.)

PLSI 512 Urban Politics and Community Power (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Political dynamics in the contemporary metropolitan context; bases and distribution of power in urban and suburban areas. Intergovernmental relations and urban political power. (This course is offered as PLSI 512 and USP 512. Students may not repeat the course under an alternate prefix.)

PLSI 513 Politics, Law, and the Urban Environment (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Law and the legal system as mechanisms for regulating urban development and protecting the environment; intervention in development and land use; environmental decay, conservation of open space, other related resources. Lecture, 3 units; activity, 1 unit. (This course is offered as USP 513, GEOG 668, and PLSI 513. Students may not repeat the course under an alternate prefix.)
PLSI 544 Women in the World (Units: 4)  
Prerequisites: Upper division standing and ENG 214.
Analysis of women's roles in political, social, and economic development of selected nations and in international relations; effect of global movement for women's rights. Case studies of female leaders and their impact on world affairs.  
(This course is offered as I R 544 and PLSI 544. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
- Social Justice

PLSI 552 Individual Rights and the Constitution (Units: 4)  
Prerequisite: PLSI 478 or consent of instructor.
Principles and meaning of the U.S. Constitution controlling the relationships between the individual and government.
Course Attributes:
- Social Justice

PLSI 553 Legal Issues (Units: 4)  
Prerequisite: PLSI 478 or consent of instructor.
Judicial decision-making, influence on the formulation of public policy, political influence on the judiciary, individual rights, the impact of decisions, legal reform.

PLSI 554 Separation of Powers and Federalism (Units: 4)  
Prerequisite: PLSI 478 or consent of instructor.
Leading Supreme Court decisions establishing the powers and limits on power of the Federal Courts, Congress, the President, and the States under the U.S. Constitution.

PLSI 560 Urban Poverty and Policy (Units: 4)  
Prerequisite: ENG 214 or equivalent.
Nature and causes of urban poverty. Theories of poverty and their policy implications. Role of education, employment and family status, gender and race; metropolitan location; global economic restructuring; anti-poverty policies and proposals; development of policy alternatives. [CSL may be available]  
(This course is offered as USP 560 and PLSI 560. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Social Justice

PLSI 561 Jurisprudence (Units: 4)  
Prerequisite: PLSI 478 or consent of instructor.
Philosophy of law. Relationship between law, morality, social and political institutions. Various schools of jurisprudence.  
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.

PLSI 561GW Jurisprudence - GWAR (Units: 4)  
Prerequisites: Upper division Political Science majors; ENG 214 or equivalent with a grade of C- or better.
Philosophy of law. Relationship between law, morality, social and political institutions. Various schools of jurisprudence. (ABC/NC grading only)  
This course has a GWAR approved format (noted by a GW suffix that follows the course number) and a non-GWAR format (no suffix). Students who complete the course in one format may not repeat the course under the other format. Students who complete the non-GWAR formatted course will not receive GWAR credit.
Course Attributes:
- Graduation Writing Assessment

PLSI 570 Urban Health Policy (Units: 3)  
Prerequisites: Upper division standing; ENG 214 or equivalent.
(This course is offered as USP 570, LABR 570, and PLSI 570. Students may not repeat the course under an alternate prefix.)

PLSI 580 Housing Policy and Planning (Units: 3)  
Prerequisite: Upper division standing.
Social, economic, and technical aspects of urban housing; market analysis, housing production, tenant/landlord relations, finance, government regulation, subsidies.  
(This course is offered as USP 580 and PLSI 580. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

PLSI 600 Washington, D.C. Internship (Units: 9)  
Prerequisites: Upper division standing; concurrent enrollment in a course in the major area of study; or consent of instructor.
Offers extensive exposure to selective aspects of the federal decision-making process. The Washington Center offers 35 hrs./week placement with weekly seminars and assemblies.

PLSI 603 Public Service Internships (Units: 3)  
Prerequisites: Upper division standing; concurrent enrollment in PLSI 604; consent of instructor.
Fieldwork in approved public, private, non-profit, or political organization under supervision of organization staff and faculty coordinator. May be repeated on advisement. [CSL may be available]  
(This course is offered as PLSI 603 and USP 603. Students may not repeat the course under an alternate prefix.)

PLSI 604 Internship Seminar (Unit: 1)  
Prerequisites: Upper division standing; concurrent enrollment in PLSI 603.
Analysis of internship experiences. May be repeated on advisement. [CSL may be available]  
(This course is offered as PLSI 604 and USP 604. Students may not repeat the course under an alternate prefix.)
PLSI 605 Senior Seminar in Applied Research Methods (Units: 4)
Prerequisites: Restricted to senior Political Science majors; all core courses in Political Science and a GWAR in the major.

Culminating experience focusing on advanced applied research methods, including research design and data analysis. Using skills students obtained in empirical methods they will apply those to address a research question on American politics they choose and develop. Lecture, 1 unit; laboratory, 3 units.

PLSI 606 Senior Seminar in American Politics (Units: 3)
Prerequisites: Restricted to senior Political Science majors; all Political Science core courses, a GWAR in the major.

Focus on the specialization and particular interests of the Professor in question in the field of American politics. Topic to be specified in Class Schedule. May be repeated when topics vary.

PLSI 607 Seminar in Comparative Politics (Units: 3)
Prerequisites: Restricted to Political Science majors and minors; PLSI 250.

Focus on the specialization and particular interests of the Professor in question in the field of Comparative politics. Topics to be specified in the Class Schedule. May be repeated on advisement when topics vary.

PLSI 608 Seminar in Political Theory (Units: 3)
Prerequisites: Restricted to Political Science majors and minors; PLSI 275.

Focus on the specialization and particular interests of the Professor in question in the field of political theory. Topics to be specified in the Class Schedule. May be repeated for credit when topics vary.

PLSI 609 Seminar in Public Law: Legal Issues (Units: 3)
Prerequisites: Restricted to Political Science majors and minors; PLSI 478.

Critical review and synthesis of Public Law, focusing on legal issues. Topic to be specified in the Class Schedule. May be repeated when topics vary.

PLSI 610 Judicial and Legal Internship (Units: 3)
Prerequisites: Upper division standing; interview required; concurrent enrollment in PLSI 611; consent of instructor.

Fieldwork in approved legal and judicial organizations under supervision of judges, lawyers, legal organization staff, and faculty coordinator. May be repeated for a total of 6 units on advisement.

PLSI 611 Judicial and Legal Internship Seminar (Unit: 1)
Prerequisite: Require concurrent enrollment in PLSI 610.

Analysis of internship experiences. May be repeated for a total of 2 units on advisement.

PLSI 612 Senior Seminar Study Abroad: At Beijing University (Units: 3)
Prerequisites: Upper division standing and consent of instructor.

Opportunity to enhance academic learning with study at Beijing University.

PLSI 620 Pre-law Peer Advising (Units: 2-4)
Prerequisites: Upper division standing; GPA of 3.0 or better; consent of instructor.

Law school admission procedures and LSAT; opportunities for financial aid of law-related careers; courses and events relevant to legal issues and legal service opportunities. May be repeated for a total of 8 units.

PLSI 660 The Roles of Nonprofit Organizations in Urban Life (Units: 3)
Prerequisite: Restricted to senior Social Work majors.

Analysis of non-profit organizations in social services: the arts, housing, environmental and community advocacy. The role of the board, laws, consumers and donors, income, volunteers, and decision-making. (Plus-minus letter grade only)
(This course is offered as S W 660, PLSI 660, and USP 660. Students may not repeat the course under an alternate prefix.)

PLSI 685 Projects in the Teaching of Political Science (Units: 1-4)
Prerequisites: Senior standing; PLSI 100, PLSI 200.

Reading and discussion in the teaching of political science. Responsibilities include working with supervising faculty member in preparing course materials, tutoring students, and conducting small discussion sections. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

PLSI 699 Independent Study (Units: 1-4)
Prerequisite: Consent of instructor, major adviser, and department chair.

Supervised study of a particular problem selected by the student with the advice of the instructor. Enrollment by petition.

PLSI 700 Research Methods (Units: 3)
Prerequisite: Graduate Standing.

Introduction to methodologies that pertain to designing a research project in political science. (Plus-minus letter grade only)

PLSI 708 College Teaching of Political Science (Units: 3)
Prerequisite: Classified graduate standing.

Planning and teaching of college-level political science courses. Supervised experience to be evaluated through examination of contemporary literature and practice.

PLSI 740 Seminar in American Politics (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

American government and politics: political parties, interest groups, presidency, legislative assemblies, judiciary, electoral behavior, and political opinion.

PLSI 742 Public Opinion, Elections, and Media (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Seminar seeks to evaluate key elements of the transformation of American politics by focusing on recent developments in political science that model contemporary public opinion, electoral and media processes. (Plus-minus letter grade only)

PLSI 743 Racial Politics and American Democracy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

How immigration impacts the practice of racial and ethnic politics in the U.S. Focus on Asian Americans, Blacks, and Latinos.

PLSI 744 U.S. Supreme Court in the Making of Public Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Focus on the political and policy-making powers of the U.S. Supreme Court. Topics include political jurisprudence, constitutional and statutory interpretation, the selection process, the decisional process, appellate process, and the impact of Supreme Court decisions.
PLSI 745 Post Civil Rights Period in American Democracy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

The substantive theoretical and methodological problems associated with the study of racial politics in the literature of political science. A particular focus is that of analyzing Black politics in the post civil rights era.

PLSI 746 Urban Politics and Power (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Urban politics including competing theories of power, racial and ethnic politics in the urban context, and various issues that concern cities, such as globalization, gentrification, and governance.

PLSI 760 Seminar in Comparative Politics (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Modernization and political development, development theory, bases of political power, and role of the state.

PLSI 762 Asian Transitions from Communism (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Comparative study of the political economy of transitions from communism in Asia, communist and the post-communist states—China, North Korea, Vietnam, Laos, and Cambodia.

PLSI 763 Comparative Welfare States (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examination of empirical and theoretical materials on the origins, developments, achievements, recent changes, and problems of the welfare state in Western Europe and the U.S. with an emphasis on class, gender, race analysis. (AB/NC grading only)

PLSI 764 Democracies and Democratization (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Theoretical and empirical analyses of the relationship between state and society in selected third world nations.

PLSI 765 Social Movements of the Islamic World (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examines social movements in different Muslim countries and societies, with an emphasis on the Middle East. Topics include social movement theory and comparative case studies of 20th and 21st century religious and national movements.

PLSI 766 State-Society Relations in the Non-Western World (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

State-society relations in the Middle East, Asia, Africa, South America, and elsewhere. Development of the modern state; how states and societies interact; how social groups limit and empower states.

PLSI 767 Indian Politics Seminar (Units: 3)
Prerequisite: Graduate standing.

Contemporary government and politics in India. Analysis of political institutions and processes, patterns of political mobilization and change. (Plus-minus letter grade only)

PLSI 768 The Politics of Dissent in Comparative Perspective (Units: 3)
Prerequisite: Graduate standing in political science or consent of instructor.

Exploration of political dissent; study of theories and cases concerning everyday forms of resistance, collective action, protest, social movements, political violence, and revolution. Particular but not exclusive emphasis on cases in the Middle East and North Africa.

PLSI 769 China's Environmental Crisis (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Crisis state of the environment in the largest country, by population, and second largest economy in the world: China; focus on different Chinese environmental problems from the most recent literature available.

PLSI 780 Seminar in Political Theory (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Literature of political thought. (Plus-minus letter grade only)

PLSI 781 Practicum in Teaching in Political Science In Higher Education (Units: 3)
Prerequisite: Classified graduate standing or consent of the instructor.

Focus on pedagogical techniques to be used by teaching assistants in higher education, as well as for possible work teaching in higher education after receiving the M.A.

PLSI 782 Colonialism, Gender and Scientific Racism (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Intellectual history of scientific racism, colonial regimes, and gendered oppression. Impact of colonialism on contemporary identities and contemporary approaches to knowledge; in particular, the museum, the household, the body, mission schools, and new forms of work.

PLSI 783 Postmodern Political Theory (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Intensive introduction to postmodern political theory. Starting with Nietzsche, examines the role of contemporary philosophy in terms of critique of grand narratives, the deconstruction of the subject, history and politics itself. (AB/NC grading only)

PLSI 785 Seminar on Rawls (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Study of the work of John Rawls, arguably the most influential western political theorist of our time; focus on his major work, A THEORY OF JUSTICE, as well as his final work, JUSTICE AS FAIRNESS: A RESTATMENT. (Plus-minus letter grade only)

PLSI 786 Great Thinkers: Walter Benjamin (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Walter Benjamin, one of the premier thinkers of the 20th century, and a major influence on figures such as Hannah Arendt, Jacques Derrida, Michel Foucault and others. To thoroughly examine Benjamin is to make inquiries into the basis of thought for the previous century as well as our own. (This course is offered as PLSI 786, GER 786, and HUM 725. Students may not repeat the course under an alternate prefix.)
PLSI 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered PLSI 898. (CR/NC, RP)

PLSI 898 Master's Thesis (Units: 3)
Prerequisites: Advancement to candidacy (ATC) for the master’s degree and consent of candidate's committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

PLSI 899 Independent Study (Units: 1-4)
Prerequisite: Consent of graduate major adviser, supervising faculty member, and department chair.

Study is planned, developed, and completed under the direction of a member of the departmental faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition.
Psychology (PSY)

PSY 101 Psychology of Personal Development (Units: 3)
Basic concepts in psychology are used to foster the student's understanding of his/her own personal development and life endeavor.

PSY 111 The Logic and Psychology of Critical Thinking (Units: 3)
Designed to improve students' skills in understanding/criticizing arguments, theories, and their own reasoning process. The aim is to apply an analytic approach to the evaluation of oral-written communication, and to their own problem-solving activities.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• A3: Critical Thinking

PSY 171 Quantitative Reasoning in Psychology (Units: 3)
Prerequisites: Satisfactory completion of ELM requirement; fulfills GE quantitative reasoning requirement.

Psychological statistics and measurement essential to understanding statistical and quantitative arguments. Classwork, 2 units; laboratory, 1 unit.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
• B4: Math/QR

PSY 200 General Psychology (Units: 3)
Basic methods and concepts of psychology which have broad academic relevance and which can be applied to the study of psychology as well as other academic disciplines. Psychology majors must take for a letter grade and earn a C or better to continue in the major. [CSL may be available]
Course Attributes:
• E1: Lifelong Learning Develop
• D1: Social Sciences

PSY 300 Current Issues in Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
Selected issues and controversies of current scientific and professional importance. Advanced study of behavior as a personal, social, and biological phenomenon, and treatment of psychology as a science and as a healing art.

PSY 303 Psychology: The Major and the Profession (Unit: 1)
Prerequisites: Restricted to upper division Psychology majors; must be taken in the first semester of the major.
Overview of the psychology major and the field of psychology. (CR/NC grading only)

PSY 305GW Contemporary Issues in Psychology - GWAR (Units: 3)
Prerequisites: Restricted to Psychology majors; ENG 214 or equivalent with a grade of C- or better, PSY 371 with a grade of C or better; completion of 60 units.
Topic to be specified in Class Schedule. May be repeated when topics vary. No more than 3 units may be applied toward the psychology major or minor. (ABC/NC grading only)
Course Attributes:
• Graduation Writing Assessment

PSY 320 Sex and Relationships (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Explores the role of sexuality in traditional and emerging forms of intimate relationships.
(This course is offered as PSY 320 and SXS 320. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• E1: Lifelong Learning Develop
• UD-D: Social Sciences
• Global Perspectives

PSY 330 Child Development (Units: 3)
Prerequisites: Upper division standing; PSY 200 or equivalent. Intended for non-psychology majors.
The development of the child from conception to adolescence. (Credit not given for both PSY 330 and PSY 431.)
Course Attributes:
• UD-B: Physical Life Science
• Social Justice

PSY 371 Psychological Statistics (Units: 3)
Prerequisites: Restricted to upper division Psychology, Child and Adolescent Development, and Liberal Studies majors; PSY 171, PSY 200, or equivalents with grades of C or better.
Statistical theory and techniques appropriate to psychology and related fields; statistical inference and the testing of hypotheses. Psychology majors must take for a letter grade and earn C or better. Classwork, 2 units; laboratory, 1 unit.

PSY 400 Introduction to Research in Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology, Child and Adolescent Development, and Liberal Studies majors; PSY 200, PSY 371, or equivalents with grades of C or better.
Integrates psychological research methods with statistical techniques. Theoretical, empirical and interpretive issues are examined within the fundamental methods of inquiry: observation, measurement of individual differences, surveys, and experiments. Classwork, 2 units; lab, 1 unit.

PSY 430 Adolescent Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology and Child and Adolescent Development majors, PSY 200 or equivalent, PSY 330 or PSY 431; or consent of instructor.
The physical, intellectual, emotional, and social development during adolescence.
PSY 431 Developmental Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology and Child and Adolescent Development majors; PSY 200 or equivalent.

Fundamental principles of developmental psychology; origin and development of behavior. (Credit not given for both PSY 431 and PSY 330.)

PSY 432 Cognitive Development: Language, Thinking, and Perception (Units: 3)
Prerequisites: Restricted to Psychology and Child and Adolescent Development majors; PSY 431; or consent of instructor.

Cognitive development is studied from two dominant approaches--Piagetian and information processing. The textbooks used are collections of articles by leading theoreticians and researchers in the areas of perception, attention, mental representation (episodic and semantic), and problem-solving.

PSY 433 Social, Emotional, and Personality Development (Units: 3)
Prerequisites: Restricted to Psychology and Child and Adolescent Development majors; PSY 431; or consent of instructor. (May be taken before, after, or concurrently with PSY 432.)

Advanced course in developmental psychology covering theory and data in the areas of emotional, social, and personality development over the life span.

PSY 434 The Psychology of Aging (Units: 3)
Prerequisites: Restricted to upper division Psychology and Child and Adolescent Development majors; PSY 200 or equivalent, PSY 330 or PSY 431, PSY 371; or consent of instructor.

Biological, cognitive, social, and emotional changes during the later adult years. Recent research and theory are studied from the perspective of life-span developmental psychology with a focus on the latter half of the life span. [Formerly PSY 630]

PSY 435 Behavior Problems of Children (Units: 3)
Prerequisite: PSY 330 or equivalent or consent of instructor.

Children's behavior disorders, child guidance facilities, and clinical methods used in the study and treatment of children with problems.

Course Attributes:
- UD-D: Social Sciences

PSY 436 The Development of Feminaleness and Maleness (Units: 4)
Prerequisites: Upper division standing; PSY 371; or consent of instructor.

Integration of biological, psychological, social, and cultural knowledge toward an understanding of the development of maleness and femaleness. A critical look at theories of sex-typing and sex differences in behavior, with attention to sex-role stereotypes and social issues. (This course is offered as PSY 436 and SXS 436. Students may not repeat the course under an alternate prefix.)

PSY 440 Social Psychology (Units: 3)
Prerequisites: Upper division standing; PSY 200, or equivalent.

Survey of theories, research, and applications in major areas of social psychology, including communication and social influence processes in interaction, group dynamics, attitudes, stereotyping and prejudice, altruism and aggression, person perception and social cognition, sex roles and sex differences, crowds, and social movements.

PSY 441 The Psychology of the Family (Units: 3)
Prerequisites: Restricted to upper division Psychology majors and students enrolled in the Conflict Resolution Certificate Program; PSY 200, PSY 371, or equivalent.

The family as a psychological group; the husband-wife relationship with special attention to the dynamics of pairs; the impact of the family on personality and mental health.

PSY 442 Health Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.

A critical review of the relationships between psychological variables and both physical and mental health. Combination of lectures, tests, reading of original research, and conducting an actual study in the field. Students gain a knowledge of the relationships between health and psychology and become critical readers of literature relating the two.

PSY 443 The Science of Happiness (Units: 3)
Prerequisite: Restricted to upper division standing Psychology majors; PSY 200, PSY 371.

Conceptual, experiential, and applied introduction to positive psychology.

PSY 450 Variations in Human Sexuality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Variations in sexuality: sexual identity, relationships, behavior, and fantasy; identification of personal and social problems associated with varied sexual lifestyles. (This course is offered as SXS 400, PSY 450, and SOC 400. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Social Justice

PSY 451 Theories of Personality (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.

Survey of the major contemporary theories of personality. Theoretical positions are compared and critically examined along various significant dimensions, including their relationships to the total field of psychology. Methods of personality assessment as related in theory construction.

PSY 452 Abnormal Psychology: Minor Variants of Personality (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.

The nature and development of emotional disturbances which result in a person's failure to adapt adequately in this society; contemporary theories of personality development as well as a clinical description of the neuroses.

PSY 455 Cross-Cultural Perspectives in Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors and students enrolled in the Conflict Resolution Certificate Program; PSY 200 or equivalent.

Cross-cultural behavioral, developmental, cognitive, and social data and research of psychological phenomena as they are differentially affected by culture and subculture. Emphasis on the diversity of parent-child relationships, role of women and men, adult personality and beliefs, attitudes, and values.
PSY 456 Psychology of Human Sexual Behavior (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Psychological aspects of human sexual functioning particularly pertaining to gender identity, pairing, sexual orientation, sexual intercourse, self-stimulation, reproduction, contraception, and abortion. Related social issues such as alternative lifestyles, changing sex roles, and recreational sex. (This course is offered as PSY 456 and SXS 456. Students may not repeat the course under an alternate prefix.)

PSY 461 Introduction to Industrial/Organizational Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors and students enrolled in the Conflict Resolution Certificate Program; PSY 200, PSY 371, or equivalent.
Application of psychological principles and methods in understanding human behavior at work, and to approach and solve problems in business and industry. Addresses such issues as: employee selection, training, and evaluation; working conditions; motivation, leadership, and organizational theory.

PSY 462 Personnel Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
The application of psychological principles to personnel selection and related practices in organizations. Designed for the psychology major interested in developing proficiency in personnel techniques.

PSY 463 Human Factors (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
A survey of methods and research in the study of the interface between human operators and machines. Applications include equipment design for computers, aircraft, automobiles, household appliances, and similar systems.

PSY 465 The Psychology of Work-Life Stress (Units: 3)
Prerequisite: PSY 200 or equivalent.
General understanding of basic concepts, mechanisms, and issues related to stress; examines basic factors in context of business organizations. Topics include employees' cognitive appraisal of organizational stressors; physiological, psychological, and behavioral outcomes; and individual differences and long-term consequences.

PSY 466 Training and Development in Organizations (Units: 3)
Prerequisites: Restricted to upper division psychology majors; PSY 200, PSY 371, or equivalent.
Application of principles of psychology in the development, delivery, and evaluation of training and development programs in work organizations.

PSY 472 Introduction to Legal Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology and Criminal Justice majors; PSY 200 or C J 300; or consent of instructor.
Topics include laws and the ethics of therapy, alternative dispute resolution, mental health aspects of criminology, police psychology, the insanity defense, treatment of prisoners, the psychological forces toward crime and delinquency, expert mental health testimony, eyewitness testimony, and jury behavior.

PSY 474 Psychology of Social Justice (Units: 3)
Prerequisites: Restricted to upper division Psychology and Criminal Justice majors; PSY 200 or C J 300.
Psychological explanations for structural barriers to equality and social justice through an exploration of the mainstream psychological literatures of procedural, distributive, retributive and restorative justice.
Course Attributes:
- Social Justice

PSY 475 Psychology of Policing (Units: 3)
Prerequisites: Restricted to upper division Psychology and Criminal Justice majors; PSY 200 or C J 300.
Psychological study of organizational processes and management of police agencies. Topics include causes and effects of psychological factors affecting police, and implications of military and community-service models of police management on police selection, stress, training, organization development, technology.

PSY 491 Learning (Units: 3)
Prerequisites: Restricted to upper division psychology majors; PSY 200, PSY 371, or equivalent.
Methods, findings, and theory in animal and human learning and memory.

PSY 492 Perception (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
Methods, theory, and analysis of sensations and perceptions; the study of the psychological and biological approaches to perception.

PSY 493 Motivation (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
Theory and experimental evidence on the origins and direction of behavior. Learned and unlearned drives, anxiety, curiosity, and emotions.

PSY 494 Cognitive Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
An introduction to the dominant paradigm in cognitive psychology—the information processing approach to understanding the nature of human intelligence.

PSY 495 The Psychology of Human Memory (Units: 3)
Prerequisites: Restricted to upper division standing Psychology majors; PSY 200, PSY 371.
Examination of fundamental theories and research in the study of human memory and explore their real life applications.

PSY 498 Cognitive Neuroscience: Psychological Models (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.
Prospects and potential limitations of studying cognitive psychological processes from the integrated perspectives of cognitive psychology, neuropsychology, neural network modeling, and neuroscience.
PSY 521 Introduction to Clinical Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.

The methods of clinical psychology, including case study techniques, psychodiagnostic evaluation, remediation of psychological distress. The current scope of professional practices in clinical psychology.

PSY 525 Community Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors and students enrolled in the Conflict Resolution Certificate Program; PSY 200, PSY 371, or equivalent.

Introduction to methods practiced within the community psychology and community mental health fields. A range of methods is presented along with the range of underlying assumptions and philosophies of psychological fieldwork. [CSL may be available]

PSY 531 Psycholinguistics (Units: 3)
Prerequisites: Restricted to upper division psychology majors; PSY 200 or equivalent.

Comprehensive introduction to psycholinguistics. Theory and research are examined in three areas of human functioning—comprehension, production, acquisition. In addition, mental representations of meaning, the relation between language and thought, and bidialectism and bilingualism are studied.

PSY 547 Social Conflict and Conflict Resolution (Units: 3)
Prerequisites: Restricted to upper division Psychology majors and students enrolled in the Conflict Resolution Certificate Program; PSY 200, PSY 371, or equivalent.

Review of theory and research concerning conflict between individuals and groups. Principles of perception, expectation, subjective expected utility, payoff matrices, prominence, communication restriction, and expectations of personality.

PSY 558 Field Services Seminar (Units: 2)
Prerequisites: Restricted to upper division Psychology majors and graduating seniors; PSY 371; must be taken concurrently with PSY 559.

Issues in the professional application of psychological principles in community service. May be repeated for a total of 4 units. [CSL may be available]

PSY 559 Psychological Field Service (Units: 1-3)
Prerequisites: Restricted to upper division psychology majors and graduating seniors; PSY 371; must be taken concurrently with PSY 558.

Supervised field services in cooperating community psychological agencies. May be repeated for credit. No more than 6 units may be applied to the psychology major or minor. [CSL may be available]

PSY 571 Intermediate Psychological Statistics (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 371 or equivalent with a grade of C or better.

Statistical theory and techniques applicable to various experimental designs and other forms of psychological research. Classwork, 2 units; laboratory, 1 unit.

PSY 581 Physiological Psychology I (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 200, PSY 371, or equivalent.

Background and contemporary research relating behavior to biological processes. Data on neural and hormonal systems are summarized and used in examining such complex behaviors as learning, perception, and motivation.

PSY 582 Physiological Psychology II (Units: 3)
Prerequisites: Restricted to upper division Psychology majors or graduate students in psychology; PSY 371, PSY 581, or equivalent; or consent of instructor.

Selected issues and research dealing with the biological basis of behavior. Students read intensively on a mutually agreed upon topic and report their findings for discussion and development in class sessions.

PSY 601 Theoretical Backgrounds in Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; PSY 371; 15 units of upper division courses in psychology.

Historical backgrounds and development of basic concepts in psychology in a theoretical and systematic context; contemporary schools and systems in psychology outlined.

PSY 645 Group Processes (Units: 3)
Prerequisites: Restricted to upper division psychology majors and students enrolled in the Conflict Resolution Certificate Program; PSY 200, PSY 371, or equivalent.

Practicum involving observation of interaction within the class and in outside groups, aimed at the investigation of the psychology of groups.

PSY 668 The Psychology of Leadership (Units: 3)
Prerequisites: Restricted to upper division standing; PSY 200 or equivalent.

Examination of classic and contemporary theories of leadership in psychology and related fields; Topics include leadership styles, personality, self-analysis and perspectives of leadership across diverse individual and groups.

Course Attributes:
- Global Perspectives

PSY 680 Peer Advising in Psychology (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; 1 year in residence; 12 psychology units completed; and GPA of 3.0 or better.

Prepare and deliver academic advising to undergraduates in psychology: academic policies and procedures. Individual advising 3 hours weekly. May be repeated for a total of 6 units. Classwork, 2 units; fieldwork, 1 unit.

PSY 685 Projects in the Teaching of Psychology (Units: 1-4)
Prerequisite: A minimum grade of B in the course the student will be assisting in or consent of instructor.

Training and experience in the teaching of psychology through fieldwork and instruction. Students work as Instructional Aides to a psychology instructor and receive training in teaching and learning principles as well as participate in teaching-related activities. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)
PSY 690 Future Directions for Psychology Majors (Unit: 1)
Prerequisites: Restricted to senior Psychology majors only; 25 units of psychology; Must be taken in semester student applies for graduation.

Web-based self-assessment of interests and goals, creation of a resume, and exploration of career options for psychology majors. (CR/NC grading only)

PSY 693 Proseminar I (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; selection as an honors candidate; concurrent enrollment in PSY 697.

First of a two-semester seminar with the principal goal of developing a detailed senior project proposal. Work here may include examination of literature reviews, theoretical contributions, methodological studies, experiments, and field studies and practical applications.

PSY 694 Proseminar II (Units: 3)
Prerequisites: Restricted to upper division Psychology majors; completion of Fall semester work in PSY 693 and PSY 697.

Continuation of PSY 693. Intended to facilitate and to provide evaluation of progress toward completion of the senior project. Completed senior project culminates the semester.

PSY 697 Senior Project Preparation (Units: 3)
Prerequisite: Concurrent enrollment in PSY 693.

Student develops an original project, including background material and theoretical substrate, and prepares a methodology for a paper suitable for presentation in PSY 693.

PSY 698 Senior Project in Psychology (Units: 3)
Prerequisite: Concurrently enrollment in PSY 694.

Student carries out the senior project and prepares a written report for presentation.

PSY 699 Independent Study in Psychology (Units: 1-4)
Prerequisite: Upper division standing or consent of instructor.

An intensive study of a particular problem in psychology under direction of a member of the faculty. Intended for students who have completed available course work in the area of special problem. May be repeated for a total of 4 units when problems vary. [CSL may be available]

PSY 721 Clinical Methods: Assessment of Intelligence and Perceptual-Motor Functioning (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; concurrent enrollment in PSY 729 or consent of instructor.

Problems in the assessment of mental and emotional characteristics of individuals. Discussions, demonstrations, and application of individual assessment techniques including the standard individual tests of intelligence for children and adults as well as neuropsychological, educational achievement, and perceptual-motor tests.

PSY 722 Clinical Methods: Personality Appraisal and Projective Techniques (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 721; concurrent enrollment in PSY 729; or consent of instructor.

Problems in the assessment and diagnosis of individual personality and its disorders. Discussions, demonstrations, and applications of standard appraisal techniques including projective tests.

PSY 723 Clinical Methods: Psychological Assessment (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program, or consent of instructor.

Methods of assessment of mental functioning of individuals, including clinical interviewing, psychological diagnosis, report writing, and the administration and interpretation of cognitive/neuropsychological batteries, personality inventories, and projective tests. Assessment considerations for children, older adults, and cross-cultural populations.

PSY 724 Clinical Issues: Drugs, Brain, and Behavior (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.

Examination of basic mechanisms and advances in psychopharmacology, neurological interventions for psychological disorders, and treatment approaches for substance abuse disorders.

PSY 728 Conference to Accompany Psychology Practicum (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; concurrently enrollment in PSY 729.

Issues in the practice of clinical psychology including alcohol and substance use, general conceptual framework, models of intervention, professional ethics and law, roles and responsibilities of psychotherapists. May be repeated for a total of 6 units.

PSY 729 Psychology Practicum (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; concurrent enrollment first in PSY 721 and then with PSY 722.

Practicum in the methods and procedures of psychological assessment, diagnosis, and prognosis and techniques of psychological intervention with individuals, couples, and families. May be repeated for a total of 6 units.

PSY 730 Seminar in Current Issues in Developmental Psychology (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.

Problems and issues in developmental psychology: new directions in theory, method, and research.

PSY 735 Seminar in Developmental Psychology (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.

Topic to be specified in Class Schedule. Intensive study of selected topics in developmental psychology. May be repeated for credit if different area of emphasis is selected.

PSY 737 Laboratory in Observation of Children's Behavior (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor; must be taken concurrently with PSY 739.

Observations and experimental studies of human behavior. Classwork, 2 units; laboratory, 1 unit.

PSY 739 Technical Writing for Psychological Journals (Unit: 1)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; concurrent enrollment in PSY 737.

Practicum on preparing written reports on observations of human behavior within American Psychological Association format. Laboratory.
PSY 740 Seminar in Social Psychology (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.
Critical examination of current theories and research in social psychology, emphasizing social influence processes and personality variables which may affect behavior in diverse organizational and informal settings, and exploring applications of social psychology in the design and assessment of social change.

PSY 742 Seminar in Survey Research (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.
Principles and methods of survey research are studied and applied in supervised field experiences covering the entire survey process, from research design to sampling, data collection, and preparation of a report.

PSY 751 Seminar in Current Trends and Issues (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.
New developments drawn from current overviews and symposia. Implications for revision of theory, practice, and experimental procedures. Both ethical views and scientific and applied methods are critically examined.

PSY 753 Seminar in Therapeutic and Developmental Change I (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.
Convergence of developmental theory and psychotherapeutic process, focusing on clinical theories relevant across the lifespan from infancy through old age, and end-of-life. Considerations of culture, SES, and other factors shaping development.

PSY 754 Seminar in Therapeutic and Developmental Change II (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 753.
Modern versions of psychodynamic theories incorporating family concepts, ethnicity, and community issues including cultural factors in the dynamics of spousal or partner abuse.

PSY 760 Seminar in Organizational Psychology (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 761 or equivalent; or consent of instructor.
Selected psychological theory and research findings applied to the study of human behavior in organizational settings.

PSY 761 Industrial and Organizational Psychology (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.
Current problems and problem-solving approaches in selected areas of personnel practices concerning the use and development of human resources in industrial, professional, and other applied fields.

PSY 762 Seminar in Industrial Psychology (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 761 or equivalent; or consent of instructor.
Theory, research, and methods from I/O psychology pertaining to personnel selection and related decisions in organizations, including job analysis, performance measurement, validation, selection strategies, and test administration.

PSY 765 Industrial Training Program Development (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program, consent of instructor.
Examination of the theoretical, methodological, and practical approaches to the development, installation, and evaluation of training programs in the modern work setting. Considers learning theory and research, training theory and techniques, and methods of assessing and evaluating programs.

PSY 766 Psychological Foundations of Organizational Change (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 761 or equivalent; or consent of instructor.
Psychological theory and research on group and organizational change processes, with attention to problems and methods of organizational change and assessment of organizational intervention outcomes.

PSY 768 Seminar to Accompany Field Experience in Industrial/Organizational Psychology (Units: 3)
Prerequisites: Graduate standing or consent of instructor; concurrent enrollment in PSY 769.
Experiences in field assignments are explored for theoretical and research implications. Ethical, professional, and inter-professional implications are considered.

PSY 769 Field Experience in Industrial/Organizational Psychology (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 760, PSY 761, PSY 762; consent of instructor.
Supervised field assignments for advanced graduate students in a variety of business, professional, and industrial settings. May be repeated for credit for a total of 6 units.

PSY 770 Research Methods and Techniques (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.
Seminar in research designs applicable to the systematic analysis of varieties of human behavior.

PSY 771 Analysis of Variance and Experimental Design (Units: 4)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; intermediate statistics; or consent of instructor.
Major analysis of variance designs used in psychological research are presented. Topics include introduction to use of a major statistical package. Brief introduction to use of the General Linear Model is presented. Students in the master's program in psychological research should take this course at the first opportunity.
PSY 772 Applications of Multiple Regression to Psychological Research (Units: 4)
Prerequisite: PSY 771 or consent of instructor.

Experimental designs using multiple regression/correlation methods. Classwork, 3 units; laboratory, 1 unit.

PSY 777 Statistical Analysis of Multivariate Data Using Computers (Units: 4)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; two applied statistics courses or equivalent.

Theory and application of multivariate models, illustrative assigned problems, and laboratory in computer data processing. An integration of explanations of linear statistical models, existing computer programs which accomplish multivariate linear analyses, and analyses of data collected in student's own research (e.g., M.A. thesis). Classwork, three units; laboratory, one unit.

PSY 792 Proseminar in Foundations of Contemporary Psychological Research (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program.

Contemporary theory and research in such basic areas of psychology as learning and motivation, sensory process and perception, physiological, developmental, social and personality, and clinical and abnormal. Each seminar topic is directed by a faculty member specializing in that area and accompanied by comprehensive and systematic readings. Students in the master's program in psychological research should take this course at the first opportunity. Lectures and discussion on criteria for the design, execution, analysis, and report of psychological research on animal and human subjects. (CR/NC grading only)

PSY 798 Research Colloquium (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.

Presentations and discussions of current or contemplated research projects. (CR/NC grading only)

PSY 799 Supervised Selected Research (Units: 2-6)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 770.

Experimental research under the direction of a member of the faculty. May be repeated for a total of 9 units.

PSY 821 Clinical Methods: Diagnosis and Advanced Psychopathology (Units: 3)
Prerequisite: Classified graduate standing in clinical or school psychology master’s program or School Psychology Credential Program.

Examines various approaches to the evaluation and treatment of major mental disorders including substance abuse disorders and disorders of childhood and adolescence. (Plus-minus letter grade only.)

PSY 822 Clinical Methods: Marital and Family Systems Theory and Therapy (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 821.

Characteristic interpersonal interactions including those involving substance abuse or partner abuse and how those appear in the clinical interview are studied from different theoretical viewpoints including assessment and intervention procedures. Conditions which promote psychological change in couples and families including same-sex relationships are studied from an interpersonal, familial, and sociocultural perspective. (Plus-minus letter grade only)

PSY 828 Conference to Accompany Advanced Psychology Practicum (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; concurrent enrollment in PSY 829.

Therapeutic process and change with diverse mental disorders and populations. Explorations of principles of recovery oriented care, case management, and collaborative treatment. May be repeated for a total of 6 units.

PSY 829 Advanced Psychology Practicum (Units: 3-6)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 729; concurrent enrollment in PSY 828.

Supervised advanced psychology practicum in clinical psychological evaluation and intervention. May be repeated for a total of 12 units.

PSY 839 Field Experience in Developmental Psychology (Units: 1-3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program or consent of instructor.

Supervised field experience with children and adolescents. May be repeated for a total of 4 units.

PSY 855 Seminar in Professional School Psychology (Units: 3)
Prerequisite: Restricted to graduate students in Psychology or School Psychology Credential Program and consent of instructor.

Roles, skills, and competencies of professional school psychologists as they apply to educational, career, developmental, and mental health needs of children and opportunities for working with these needs within the interpersonal, legal, and professional structure of the school.

PSY 857 Behavior Management (Units: 3)
Prerequisite: Restricted to classified graduate students in Counseling and Psychology or School Psychology Credential Program.

Behavioral, cognitive-behavioral, and ecobehavioral theory and intervention applied to human behavior change. Primary focus on classroom behavior management. (Plus-minus letter grade only) (This course is offered as COUN 719 and PSY 857. Students may not repeat the course under an alternate prefix.)

PSY 858 Conference to Accompany Psychology Internship (Units: 3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; concurrent enrollment in PSY 859.

Seminar in problems in the professional practice of psychology. May be repeated for a total of 6 units.
PSY 859 Psychology Internship (Units: 6)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; PSY 829 or equivalent.

Internship in the application of psychological principles and procedures including psychological evaluation, treatment. May be repeated for a total of 12 units.

PSY 891 Seminar in Selected Problems (Units: 3)
Prerequisite: Graduate students in Psychology or School Psychology Credential Program.

Special areas of psychological research and theory. May be repeated for a total of 6 units if different area of emphasis is selected.

PSY 895 Research Project (Units: 3)
Prerequisites: Consent of candidate’s committee chair; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

PSY 896 Directed Reading (Units: 3-6)
Prerequisite: Restricted to graduate students in psychology or School Psychology Credential Program.

Special problems in psychology, chosen on the basis of individual interests and studied under the direction of a member of the faculty. May be repeated for a total of 9 units.

PSY 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered PSY 895 and PSY 898. (CR/NC, RP)

PSY 898 Master’s Thesis (Units: 3)
Prerequisites: Restricted to graduate students in psychology; consent of candidate’s committee chair; and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

The student formulates, conducts, and presents an intensive research thesis which must be defended before a committee drawn from the psychology faculty. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only.)

PSY 899 Independent Study (Units: 1-3)
Prerequisites: Restricted to graduate students in Psychology or School Psychology Credential Program; consent of graduate major adviser and supervising faculty member.

Study is planned, developed, and completed under the direction of a member of the faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition (form available in the Psychology Office).
Public Administration (P A)

P A 700 Foundations of Governance and Management (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Introduction to the discipline of public administration and concepts in public administration, nonprofit administration, and public policy. History and theory of the field. Emphasis on basics of professional writing and oral presentations. (Plus-minus letter grade only)

P A 705 Design and Consumption of Research (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Course 1: Applications of research design and data analysis to problems in policy and administration in the public and non-profit sectors. First of a two-part sequence of courses. (Plus-minus letter grade only)

P A 706 Applied Data Analysis (Units: 3)
Prerequisites: Restricted to graduate students in Public Administration; P A 705.
Applications of data analysis to problems in policy and administration in the public and non-profit sectors. The second of a two-part sequence of courses. (Plus-minus letter grade only)

P A 707 Qualitative Data Analysis (Unit: 1)
Prerequisite: P A 705 or consent of instructor.
Examination of techniques and approaches to the analysis of data that is qualitative in nature.

P A 708 Qualitative Interviewing (Unit: 1)
Prerequisite: P A 705 or consent of instructor.
Examination of methods and protocols involved in conducting and analyzing interviews with qualitative results.

P A 709 Practicum in Statistical Software Applications (Unit: 1)
Prerequisite: P A 706 or consent of instructor.
Examination of statistical software applications.

P A 715 Policy Process and Civic Engagement (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Process and politics of policy making and implementation. Impact of economic, social, historical, legal, political, and administrative conditions. Interaction of citizens in civic engagement process. (Plus-minus letter grade only)

P A 720 Organization Design and Change Management (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Structures, goals, and behavior in organizations; focus upon organizational change and development. (Plus-minus letter grade only)

P A 722 Performance Management and Planning (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Strategic planning and performance measurement for public service organizations. (Plus-minus letter grade only)

P A 724 Economic Perspectives (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Macro- and microeconomic perspectives in society. Focus on application of tools in public policy decision making processes and economic impacts on public and nonprofit sectors. (Plus-minus letter grade only)

P A 725 Managing Human Capital (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Concepts, functions, issues, and skills associated with personnel management and human capital in public and non-profit organizations. (Plus-minus letter grade only)

P A 727 Program and Service Delivery (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Contracting process from contracting agency and contractor perspectives, project management, alternative and traditional forms of service delivery. (Plus-minus letter grade only) [CSL may be available]

P A 730 Resource Allocation and Management (Units: 3)
Prerequisite: Restricted to graduate students in Public Administration.
Budgeting process across governmental and non-profit sectors, political processes of budgeting. Budgeting, resource allocation, and budget analysis methods and computer applications. (Plus-minus letter grade only)

P A 740 Public Service Management (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Application of administrative and management systems to public and non-profit sector organizations. Assessment of new trends in the public service field.

P A 741 Emerging Trends in the Public Service (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
New trends, movements, and developments in the public and nonprofit sectors.

P A 743 Collaborative Government (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Examination of collaboration and networking in public affairs.

P A 744 Nonprofits, Public Policy and Society (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Focus on the vital role of nonprofit organizations in today's society as well as on the public policies that affect and influence that role.

P A 745 Perspectives on Nonprofit Management (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Social policy roles, economic and political dimensions, and administrative issues for non-profit organizations. Regulation, governance, and organizational management issues. [CSL may be available]

P A 746 Application of Organizational Learning in Nonprofits (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of how nonprofit organizations can learn by using results of performance measurement and program evaluation to improve outcomes. [CSL may be available]

P A 747 Organizational Ethics: Doing Good, Being Good (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Examination of ethical behavior in nonprofit organizations; overview of ethical theories; discussion of ethical values relevant to nonprofit practitioners and nonprofit organizations; and review of a code of ethics for nonprofit organizations.

[Formerly P A 710]
P A 748 Negotiation and Compromise (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Focus upon methods and techniques of negotiation and compromise in conflicted situations.

P A 750 Financial Management in the Public Service (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Theoretical and practical aspects of financial management in both public and non-profit organizations.

P A 751 Pensions and Pension Administration (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Overview of major issues of state and local public retirement programs. Covers fundamental concepts and practices of pension management with special emphasis on pension benefit design, actuarial valuation and funding methods, financial reporting, and pension asset investment management.

P A 753 Decision Making in the Public Sector (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of decision making in different disciplines and their use in public policy making and agency decision making. Includes new research on ways individuals and organizations make policy decisions. Skill building on different techniques and tools for making public decisions.

P A 754 Comparative Perspectives in the Public Service (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of public and nonprofit administrative and managerial processes across countries around the world.

P A 755 Information and Knowledge in the Public Service (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Management and effective use of data, information, and knowledge in public and nonprofit sectors. Focus upon the organization, maintenance, use and successful transfer of knowledge to enable organizations to succeed in strategic goals.

P A 756 Data Mining and Visualization (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.
Examination of current data movements with trends in data mining and visualization.

P A 757 E-Government (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Overview and strategies for improving the development and effectiveness of public and nonprofit online services and information. Relevant policies and management issues.

P A 762 Leading Change Across Sectors (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Contemporary leadership theory and practice with attention to the unique concerns of public service; applications of leadership to initiating and managing change across sectors.

P A 763 Personal Leadership Development (Unit: 1)
Prerequisites: P A 720, P A 725, P A 762, or consent of instructor.
Focus on personal development of leadership potential and style.

P A 770 Policy Analysis (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Policy analysis and program evaluation used by legislatures and public sector agencies. Policy models, cost benefit evaluation techniques, evaluation research methods.

P A 775 Program Evaluation (Units: 3)
Prerequisites: P A 705, P A 706 or consent of instructor.
Evaluation design, measurement, impact analysis, project implementation and management, and the design and evaluation of requests for proposals and proposals themselves.

P A 776 Environmental Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Covers scope and theories of US and CA environmental policy. (This course is offered as P A 776 and GEOG 776. Students may not repeat the course under an alternate prefix.)

P A 777 Criminal Justice Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of the managerial processes, problems and policies particular to criminal justice agencies-policy, court and corrections.

P A 780 Urban Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Administrative environment, governmental system and structure, administrative innovations, and decision making in urban government in the U.S.

P A 781 Sustainable Development in Cities (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Theories and strategies of sustainable urban development and management.

P A 783 Urban Housing Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of urban housing policy in a comparative perspective across localities (e.g., cities, regions, states, countries). Analysis of trends in housing markets and evaluation of the outcome of alternative government policy choices.

P A 784 Intergovernmental Relations (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Focus on the relationships (competition, conflict, cooperation and stalemate) between various levels of government and other governmental/quasi-governmental institutions. Focus on political, administrative and managerial.

P A 791 Prevailing Issues in Public Administration (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Exploration of prevailing issues in public administration with an emphasis on emerging theories and concepts in the field and applied analytic techniques. Topics to be specified in the Class Schedule. May be repeated for a total of 12 units as topics vary.
P A 795 Applied Field Experience (Units: 1-3)
Prerequisite: Restricted to graduate students in Public Administration.

Applied, project-based agency experience. Student works with a public, nonprofit, or voluntary agency to gain specific, substantive research or other professional skills to complement the MPA curriculum. May be repeated and included in ATC for up to 3 units.

P A 803 Public Affairs Internship (Units: 3)
Prerequisites: Graduate students in Public Administration Program; P A 700; consent of instructor.

Professional work experience: students will work 300 hours in a public or nonprofit agency under the supervision of a faculty member and an on-site work supervisor. [CSL may be available]

P A 890 Capstone Course in Public Administration (Units: 3)
Prerequisites: Advancement to candidacy for M.P.A. degree; approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Case study analysis as the culminating experience option in fulfillment of the requirements for the master’s degree. (Plus/minus letter grade only)

P A 898 Master's Thesis (Units: 3)
Prerequisites: Advancement to candidacy (ATC) and consent of candidate's thesis committee, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

P A 899 Independent Study (Units: 1-3)
Prerequisite: Consent of graduate major adviser and supervising faculty member.

Study is planned, developed, and completed under the direction of a faculty member. Open to graduate students who have demonstrated ability to do independent work. Enrollment by petition. May be repeated for a total of 6 units.
Race and Resistance Studies (RRS)

**RRS 100 Introduction to Ethnic Studies (Units: 3)**
History, objectives, and philosophy of Ethnic Studies. Student's personal, educational, and career development in a pluralistic society and in an institute of higher education. [CSL may be available] (This course is offered as ETHS 100 and RRS 100. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**RRS 101 Introduction to Arab and Muslim Communities (Units: 3)**
Introduction to Arab and Muslim communities studies in U.S. and Americas and Asian and African ancestral homelands. Employing Arab, Muslim, Ethnic, Race and Resistance, Gender and Sexuality, American Middle East, Diasporas, Ethnicity Studies and Social Movement theory.

Course Attributes:
- C2: Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**RRS 103 Introduction to Pacific Studies (Units: 3)**
Examination of historic and contemporary issues related to Pacific Islander communities in the United States across the Pacific Islander diaspora. (This course is offered as RRS 103 and AIS 103. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- U.S. History
- D2: Social Sciences: U.S. Hist
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**RRS 110 Critical Thinking and the Ethnic Studies Experience (Units: 3)**
Basic skills involved in understanding, criticizing, and constructing arguments by using materials reflective of experiences of ethnic/racial groups in the U.S.
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
- A3: Critical Thinking
- Am. Ethnic & Racial Minorities

**RRS 201 SFU's Palestinian Cultural Mural and the Art of Resistance (Units: 3)**
Critical investigation of the roles public art plays in transnational social justice movements, historically and currently. Examination of the history and legacy of Palestine Cultural Mural at San Francisco State University.

Course Attributes:
- C2: Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**RRS 212 Edward Said (Units: 3)**
Prerequisite: RRS 101.

Course Attributes:
- C2: Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**RRS 224 Arab-American History, Community, and Activism (Units: 3)**
Introduction to Arab-American history, community, and organizational development in the United States.

Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

**RRS 230 Muslims in America: Communities and Institutions (Units: 3)**
Examination of the emergence of identifiable Muslim communities through the U.S. and focuses on migration patterns, the ethnic makeup of such communities, gender dynamics, political identity, and conversion to Islam.

Course Attributes:
- Am. Ethnic & Racial Minorities
- Social Justice

**RRS 240 All Power to the People: Comparative Freedom Movements of the "Sixties" (Units: 3)**
Introduction to the history and comparative survey of the African American, Chicana/o, Native American, and Asian American protest/liberation movements of the "Long Sixties" (1945-1975). [CSL may be available] [Formerly ETHS 240]

Course Attributes:
- U.S. History
- D2: Social Sciences: U.S. Hist
- Am. Ethnic & Racial Minorities
- Social Justice
RRS 250 Race, Ethnicity and Power in America (Units: 3)
Critical examination of political concepts, processes and constructions of power that center race and ethnicity within a comparative analysis of American ideals, institutions and laws. Includes a study of constitutional issues and state and local governmental processes. [Formerly ETHS 250]
Course Attributes:
- U.S. Govt CA State Local Govt
- D3: Social Sciences: US CA Gov
- Am. Ethnic & Racial Minorities
- Social Justice

RRS 255 Voices in Exile: Arab and Muslim American and Civil Liberties post-9/11/2001 (Units: 3)
Changes post 9/11/2001, focusing on how Arab and Muslim Americans are affected. The case of the LABI, Sami Al-Arian, and Rasmeh Odeh will be used as a case study to analyze how government actions have affected Arab and Muslim Americans’ civil liberties.
Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

RRS 260 Introduction to Arab and Arab American Feminisms (Units: 3)
Writings by Arab and Arab American feminists to explore assumptions on and about Arab and Arab American experiences in the United States from multiple geographical sites, spiritualities, occupations, sexualities, class backgrounds, and generations.
Course Attributes:
- Global Perspectives
- Social Justice

RRS 276 Race, Activism and Climate Justice (Units: 3)
Examination of the intersection of race, socio-economics, political ecology and climate change on a global scale; overview of the scientific evidence for anthropogenic causes and impacts; and exploration of environmental justice, political ecology, disparate impacts on different peoples and activism on global and local levels.
Course Attributes:
- B2: Life Science
- Am. Ethnic & Racial Minorities
- Environmental Sustainability
- Global Perspectives
- Social Justice

RRS 280 Race, Gender, and Science Fiction (Units: 3)
Science fiction as a way of examining intersections of race, gender, and sexuality. Includes histories such as slavery, removal, and colonization. Discussion of reproductive technologies. [Formerly ETHS 280]
Course Attributes:
- C3: Humanities: Literature
- Am. Ethnic & Racial Minorities

RRS 285 Race, Sports, and Society (Units: 3)
Examines connections between race, “politics” and high-profile professional sports in the United States and abroad. Multiple issues explored using interdisciplinary approach, including critical race theory and socio-historical and socioeconomic constructs. [Formerly ETHS 285]
Course Attributes:
- D1: Social Sciences
- Am. Ethnic & Racial Minorities

RRS 303 Health and Wellness among Pacific Islanders (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Exploration of issues of health and wellness among Pacific Islanders with an introduction to major health issues impacting Pacific Islanders at home in the Pacific to within the U.S. and various health disparities. Includes an examination of the diversity of community responses toward health and wellness.
Course Attributes:
- E1: Lifelong Learning Develop
- UD-B: Physical Life Science
- Social Justice

RRS 304 Decolonize Your Diet: Food Justice and Gendered Labor in Communities of Color (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Focus on food justice in communities of color addressing issues including sex/gender and food production, racism and attacks on traditional food systems, indigenous foodways, environmental racism, GMO contamination of heritage foods, urban food deserts, and impact of diseases and development on communities of color. (Plus-minus ABC/NC, CR/NC)

RRS 305 Arab American Art and Artists of the Diaspora (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the ethnic, religious, and artistic diversity of Arab American visual artists. Topics include politics, language, culture, identity, economics, and many other issues. (This course is offered as RRS 305 and ARAB 305. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives

RRS 310 Arab Revolutions and Social Movements (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the recent uprisings in the Arab world focusing both on the immediate events that sparked these revolutions as well as the historical, socio-economic, political and ideological factors that contributed to the political shifts in 2010-2011.
Course Attributes:
- UD-D: Social Sciences
- Global Perspectives
- Social Justice
RRS 312 Arab and Arab American Literary Expressions (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Exploration of Arab and Arab American women's experiences through interdisciplinary lens and utilization of multiple approaches to expand notions of literary expressions. (This course is offered as RRS 312 and ARAB 312. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

RRS 315 Arab-American Immigration, Society, Identity, and Culture
(Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration of important political, social, and cultural events, that have occurred in the Arab world and influenced Arab migration to the U.S.; how Arabs have evolved at different levels in America, eventually leading to the creation of an Arab-American identity.
Course Attributes:
- Am. Ethnic & Racial Minorities

RRS 330 Comparative Race and Ethnicity in the U.S.: Class, Gender, and Nation
(Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examines dynamics of race and racism by analyzing intersections of class, race, gender, and nationalism, including theoretical perspectives shaping the subfield of comparative race and ethnicity in sociology, theories of racial formation, constructivist theory, ethnic boundaries, assimilation, and ethnocentrism. [Formerly ETHS 330]
(This course is offered as RRS 330 and SOC 330. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

RRS 350 Race, Labor, and Class
(Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Exploration of historic and contemporary intersections between communities of color and struggles for economic justice. Labor (broadly defined) remains profoundly racialized. This racialized class struggle will constitute the center of gravity for this course. [Formerly ETHS 350]

RRS 360 Cultural Dialogues and Ethnic Literature
(Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Ethnic literature as a comparative dialogue between cultures, in relation to other forms of artistic expressions, and within the context of the humanities, cultural patterns, aesthetic experiences, and political activism. [Formerly ETHS 360]
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

RRS 370 Islamophobia: Roots, Development, and Contestation of Hatred
(Units: 3)
Prerequisite: ETHS 100 or RRS 100.
Examination of how limited conceptual frameworks color our understandings of history, race, gender, religion, and justice with regard to Muslims. [Formerly ETHS 370]
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

RRS 375 Queer Arabs in the U.S.
(Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the place of queer Arabs in the U.S. in the larger context of queer people of color organizing in the U.S. and will also understand queer Arabs in the U.S. in the context of the international gay movement.
Course Attributes:
- Social Justice

RRS 380 Coloring Queer: Imagining Communities
(Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Interdisciplinary examination of the experience of queers of color in the U.S. through anthropology, sociology, history, literature, and cultural studies. Specific focus on racism, homophobia, transphobia, and intersectionality. [Formerly ETHS 380]
(This course is offered as RRS 380 and SXS 380. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Social Justice

RRS 410 Grassroots Organizing for Change in Communities of Color
(Units: 3)
Prerequisite: Upper division standing or consent of instructor.
An advanced examination of grassroots social change movements in communities of color in the U.S.; how they are organized; how they succeed and even fail; by combining social change theory, history, and practical contemporary approaches to grassroots social justice work. [CSL may be available] [Formerly ETHS 410]
(This course is offered as RRS 410 and SOC 410. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice
RRS 420 Arab American Identity: Memory and Resistance (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of emergent Arab American identity from the historical context of post-colonial processes including nationalism, culture, and politics. Anti-orientalist analysis utilizing texts from different subject areas including history, poetry, psychoanalysis, post-colonial studies, critical theory, and cinema. [CSL may be available] [Formerly ETHS 420]
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

RRS 430 Arab Media Images in America: Impact on Arab Americans (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Historical and contemporary imaging of Arab people in their mainstream American media and its effects on Arab American communities and individuals. A look at stereotypes and negative Arab images in American film, television, literature, and journalism. [Formerly ETHS 430]
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

RRS 433 Pacific Islanders in Film: Re-Presenting Oceana Through an Indigenous Lens (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the work of contemporary Pacific Islander filmmakers who dispute and subvert the prevailing ethnographic and Hollywood imagery of Oceania. Exploration of the use of media as a decolonizing practice and as a counternarrative to the ongoing racialization and gendering of Oceania in mainstream and globalized media.

RRS 435 National Security and the Racialization of Arabs and Muslims in North America (Units: 3)
Prerequisites: Upper division standing; RRS 100 or ETHS 100.
Examination of how U.S. and Canadian National Security policies have racialized and targeted members of Arab and Muslim communities since September 11, 2001. [Formerly ETHS 435]
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

RRS 450 Contemporary Arabic and Arab American Literature (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Contemporary literature from Arab American and Arabic speaking communities and their diasporas. Exploration of the political and cultural context of the Arab region by using poetry and fiction as a foundation. [Formerly ETHS 450]
(This course is offered as RRS 450 and ARAB 450. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives

RRS 460 AIDS and People of Color in the U.S. (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
The political, psychological, social, and economic impact of AIDS/HIV infection on diverse cultural backgrounds. Prevention and educational strategies. (This course is offered as COUN 450, RRS 460, and SXS 460. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

RRS 480 Youth Culture, Race and Resistance (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Surveys how young people of color use popular culture to challenge social inequalities based on race, ethnicity, gender, sexuality, class and nationality. Students will gain theoretical tools to analyze youth culture and its relationship to social change. [Formerly ETHS 480]
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

RRS 490 Race, Performance and Social Justice (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Use of performance strategies to explore the challenges of gentrification and out-migration within Latina/o/Chicana/o and Black communities. Focus on "art for social change" techniques such as Everyday Life Performance, personal narratives, self-reflective performance, Living Newspaper, Theatre of the Oppressed, and Performance Art.

RRS 520 Race, Radicalism and Revolution (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Surveys diverse revolutionary movements and moments; theoretical and practical intersection of race with class, gender, sexuality and national/global oppression; role of culture and consciousness; relationship of "the revolution" to state, meaning of solidarity, leadership models and liberated visions of society/world. [Formerly ETHS 520]
RRS 566 Gender and Modernity in the Muslim and Arab Worlds (Units: 3)
Prerequisite: ENG 214 or equivalent.
Investigates implications of the project of modernity/modernization for
gender and sexuality in the Muslim and Arab worlds. By interrogating
dichotomies that oppose tradition to modernity, examines the
multifaceted ways in which gender identities are produced historically.
[Formerly ETHES 566]
(This course is offered as WGS 566 and RRS 566. Students may not
repeat the course under an alternate prefix.)
Course Attributes:
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

RRS 571 Women, Class, and Race (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Effects of class division and racism on the experiences, self-images,
and social identities of women in U.S. Nature and relationships of
the ideologies which underlie these divisions. [Formerly ETHES 571]
Course Attributes:
• UD-C: Arts &/or Humanities
• Am. Ethnic & Racial Minorities
• Environmental Sustainability
• Global Perspectives
• Social Justice

RRS 580 Educational Equity (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Is education the great equalizer? Educational equity and policy issues,
including institutional racism, school finance, recruitment/retention of
under-represented students, language. [CSL may be available]
(This course is offered as LTNS 580, SOC 580, and RRS 580. Students
may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

RRS 600 History of People of Color in the U.S. (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
History of the U.S. people of color, their experience in the development
of American society from the 1600s to present. Consequences of
domination and racism in thwarting economic interests, and responses to
limiting institutional arrangements.
(This course is offered as RRS 600 and HIST 466. Students may not
repeat the course under an alternate prefix.)
Course Attributes:
• U.S. History
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

RRS 620 Colonialism, Imperialism and Resistance (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of debates about postcolonial studies and the relevance
of such intellectual projects to the socio-cultural experiences in the
postcolonial world, such as the production of discourses, identification
patterns and collective action among the post-colonized.
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives
• Social Justice

RRS 625 Mixed Race Studies: A Comparative Focus (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to the field of mixed race studies from a comparative and
ethnic studies perspective. Exploration of various multiracial issues for
ethnic studies from the viewpoint of scholars and cultural expressionists
who are themselves of mixed-racial heritage. [Formerly ETHES 625]
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

RRS 630 Palestine: Ethnic Studies Perspective (Units: 3)
Prerequisite: Upper division standing.
Advanced seminar examines Palestinian diasporic experiences in an
historical and a comparative perspective. The rise, development, and
decline of a Palestinian resistance movement will be the center of
analysis. Seminar situated in post-colonial and diaspora/exile studies.
[CSL may be available] [Formerly ETHES 630]
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

RRS 655 Comparative Border Studies: Palestine and Mexico (Units: 3)
Prerequisite: ETHES 100 or consent of instructor.
Examination of debates and tensions in border studies utilizing case
studies from Palestine and Mexico; focus on the history and development
of the walls that U.S. and Israeli government are building and their impact
on displacing marginalized communities. [Formerly ETHES 655]
Course Attributes:
• Am. Ethnic & Racial Minorities
• Environmental Sustainability
• Global Perspectives
• Social Justice
RRS 657 South Asian Diaspora (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Uses transnational and comparative frameworks to examine South Asian immigration to various countries; how colonialism, nationalism, and the politics of race, gender, class, and sexuality shape diasporic identities and communities. [CSP may be available] [Formerly ETHS 657]
(This course is offered as RRS 657 and AA S 541. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

RRS 670 Making Whites: Race-making in America (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Evolution and implications of whiteness in America from colonial period to the present post-Civil Rights, multicultural era; includes the definition of whiteness and critical role of the racial construction of whiteness in the history of American racism and race relations.
(This course is offered as RRS 670 and HIST 462. Students may not repeat the course under an alternate prefix.)

RRS 690 Methods in Race and Resistance Studies (Units: 3)
Prerequisite: Upper division standing.

Introduction to research methods with a focus on critical ethnographic methodologies as a way of building coalitions among Latina/o/Chicana/o and Black communities facing gentrification and out-migration. Primary ethnographic strategies include fieldwork, observant participation, interviewing, and oral histories.

RRS 694 Community Service Learning: Praxis in Race and Resistance Studies (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.

A community service learning activity course designed to engage students in experiential learning by collaborating with community partners that are involved in struggles for social justice, community empowerment, and equity within and/or across communities of color. May be repeated for a total of 6 units. [CSP may be available]

RRS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of adviser, instructor, and program coordinator.

Supervised individual study of a particular inter-ethnic problem in ethnic studies. May be repeated for a total of 6 units.
Recreation, Parks, and Tourism (RPT)

RPT 110 Critical Thinking and the Leisure Experience (Units: 3)
Introduction to basic concepts and principles of critical thinking. Subject matter includes identifying, differentiating, constructing, and evaluating arguments; recognizing fallacies; and applying formal and informal reasoning to the leisure experience. [Formerly RPT 120]
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)
Course Attributes:
- E1: Lifelong Learning Develop
- A3: Critical Thinking

RPT 115 Activity Director Training (Units: 3)
Training designed to prepare participants for the role of activity director at health care facilities. [Formerly RPT 110]

RPT 152 Aquatic Sports (Units: 3)
Topic to be specified in Class Schedule. Development of skills and techniques in aquatic related sports and leisure activities. May be repeated for a total of 12 units. Extra fee may be required.

RPT 161 Lake and Sea Kayaking (Unit: 1)
Prerequisite: Must be able to swim 25 yards.
Understanding basic theory, strokes, safety practices and skills development in lake and sea kayaking. Topics include strokes, boat handling, hazards, capsize recovery, trip planning and wildlife observation. May be repeated for 3 units for degree credit. Extra course fee may be required. (CR/NC only) [Formerly a topic under RPT 160]

RPT 162 Small Boat Sailing (Unit: 1)
Basic sailing theory, safety practices and development of skills and techniques in small boat sailing; knots, rigging, boat handling, docking and capsize recovery. Students must take a basic swim test (wearing a life jacket) prior to the first class. May be repeated for 3 units. Extra course fee may be required. (CR/NC only) [Formerly a topic under RPT 160]

RPT 163 Beginning Rock Climbing (Unit: 1)
Introduction to rock climbing and belay in both indoor and outdoor settings. Topics include knot tying, rope handling, hazards, equipment use and care, climbing techniques, anchor building, leave-no-trace climbing. Extra course fee may be required. (CR/NC only) [Formerly a topic under RPT 160]

RPT 164 Introduction to Back Country Skiing (Unit: 1)
Prerequisite: Ability to continuously run one mile.
Introduction to cross country and telemark ski equipment, techniques, snow characteristics, hazards, trip planning for back country skiing away from ski areas. Includes ski trip and overnight stay in Yosemite National Park. Extra course fee may be required. (CR/NC only) [Formerly a topic under RPT 160]

RPT 165 Nature Sampler Field Study and Service (Unit: 1)
Immerse yourself and help nature, parks and natural areas; choose from variety of volunteer projects and dates, gain hands-on experience, learn from agency professionals. Reflect on your experiences. (CR/NC grading only) [CSL may be available] [Service hours maybe used to satisfy pre-internship or degree experience requirements; consult your department advisor.]

RPT 166 Inclusive Shared Outdoor Adventures (Unit: 1)
Introduction to inclusion principles, activities, adaptive equipment, techniques, trip planning. Collaboration of students with and without disabilities working together so all have positive shared cycling, kayaking, and sailing experiences. Specialized adaptive recreation equipment provided. Extra course fee may be required. (CR/NC only) [Formerly a topic under RPT 160]

RPT 167 Women's Backpacking (Unit: 1)
Personal adventure programming philosophy, leadership, and outdoor recreation skills for women, through readings, planning and participating in hiking and backpacking trips. Extra course fee may be required. (CR/NC only) [Formerly a topic under RPT 160]

RPT 168 Walking Tours of San Francisco (Unit: 1)
Introduction to the basics of walking tour guiding, including tour design, preparation, and presentation. Focus on design and delivery of urban walking tours in San Francisco on a topic chosen by the student. May be repeated for a total of 3 units. (CR/NC only)

RPT 169 Playing and Learning Outside the Classroom (Unit: 1)
Experience engineering, enjoyment, self-development, leadership/ facilitation, benefits and barriers, environments and materials, modification and adaptation, wellness components, and other related concepts will be explored and examined through playing and facilitating experiential activities. May be repeated for a total of 3 units.

RPT 200 Foundations of Recreation, Parks, and Tourism (Units: 3)
Recreation, parks, and tourism as a discipline and profession; introduction to concepts, philosophy, history, and science; nature and scope of careers in for-profit, nonprofit, and public sectors; examination of issues and trends, and their implications to leisure systems and processes.
Course Attributes:
- E1: Lifelong Learning Develop

RPT 205 Enlightened and Sustainable Travel (Units: 3)
Culturally sensitive, low impact travel and tourism by individuals that engages travellers, protects the global environment and benefits local communities. Assessment of the adverse/beneficial impacts of travel. Development of trip plan incorporating enlightened travel principles and sustainable tourism goals.
Course Attributes:
- E1: Lifelong Learning Develop
- D1: Social Sciences

RPT 210 Arts and Crafts for Leisure (Units: 3)
Arts and crafts skills for recreational and clinical/therapeutic purposes; the development of creativity and self-expression in community programs, resources for materials, leadership skills, and equipment use and maintenance are covered. Classwork, 2 units; laboratory, 1 unit. Extra fee required. [Formerly RPT 330]
Course Attributes:
- E1: Lifelong Learning Develop
- C1: Arts

RPT 220 Leisure Lifestyle Development (Units: 3)
Overview of leisure: with emphasis on how the optimal leisure experience can contribute to one's total well-being, acquiring leisure activity skills/ techniques, methods of evaluating and enriching one's personal leisure. Not open to recreation majors.
RPT 230 Growth Through Adventure (Units: 3)
Development of values and understanding of self through outdoor adventure activities. Influences of culture, history, fears, and myths on outdoor adventure activities. Introduction to selected outdoor skills. Survey of selected outdoor adventure activities in the Bay Area and Northern California. Extra fee required.
Course Attributes:
• C3: Humanities: Literature

RPT 240 Leisure and Society (Units: 3)
A critical behavioral and social analysis of recreation, parks, tourism, and related professions and disciplines. Introduction to theory, history, literature, and careers in the field. Examination of leisure trends and issues, and their implications to the leisure service delivery system.
Course Attributes:
• E1: Lifelong Learning Develop
• D1: Social Sciences

RPT 300 Leadership in Recreation, Parks, and Tourism (Units: 3)
Prerequisites: Upper division standing; RPT 200, or concurrent enrollment.
Leadership theory, self-assessment, intrapersonal and interpersonal communication, and group dynamics in recreation, parks, and tourism settings. Develop leadership competencies in cultural sensitivity, planning, safety/risk management, and problem-solving through experiential learning, influence of power and ethics on decision-making.

RPT 325 Information Technology in Recreation, Parks, and Tourism (Units: 3)
Prerequisite: RPT 200 or concurrent enrollment, or consent of instructor.
Knowledge and skill development in information technology and literacy; introduction to APA writing style, research, data collection, analysis, and reporting; and application of word processing, presentation, spreadsheet, and specialized software used in the recreation, parks, and tourism profession. [Formerly RPT 225]

RPT 340 Conference, Event Planning, and Management (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Organizing, planning, and managing conferences, conventions, and special events: site and faculty selection, scheduling, programming and theme development, exhibit management, registration, and overall meeting services.

RPT 350 Facilitating Wellness Through Leisure (Units: 3)
Prerequisite: Upper division standing.
Examination of concepts, processes, and applications related to leisure and wellness. Origin, development, and expression of leisure in individual behavior and its relationship to facilitating wellness. [Formerly RPT 650]

RPT 358 Advanced Sailing Theory and Practice (Units: 3)
Prerequisites: RPT 152 or equivalent and consent of instructor.
Advanced sailing techniques, competitive sailing, regattas, rule interpretations and supervised experiences including participation in IICCSA regattas. Guest lectures on rule interpretations, tactics, and navigations. May be repeated for a total of 12 units. Extra fee may be added.

RPT 360 Outdoor Recreation Leadership (Unit: 1)
Prerequisites: RPT 400 and consent of instructor.
Advanced students serve under individual faculty supervision in organizing and conducting outdoor recreation programs. Open only to majors and minors in recreation. May be repeated twice on advisement.

RPT 365 White Water Raft Guiding (Units: 3)
Prerequisites: Previous whitewater experience; ability to swim 100 yards and tread water for 5 minutes; CPR and First Aid.
Skills of white water raft guiding. River hydraulics, water reading, raft maneuvering, equipment care and maintenance, environmental ethics, safety and emergency procedures, trip planning and organization. Classwork, 1 unit; laboratory, 2 units. Extra fee required. (CR/NC grading only)

RPT 370 Principles of Nonprofit Administration (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Principles of nonprofit agency administration. Understanding of philosophical, historical, and social context; volunteer movement, funding, governance, organization, and management of nonprofit agencies; trends; professional development and employment opportunities.

RPT 380 Developmental Play Processes (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Concepts and issues related to play, recreation, and leisure; learning and human development throughout the lifespan; gender and cultural differences; materials and environments; benefits and barriers; engineering and facilitating experiences; and activity adaptation. Classwork, 2 units; laboratory, 1 unit.
Course Attributes:
• E1: Lifelong Learning Develop
• UD-D: Social Sciences

RPT 390 Leisure Travel and Tourism (Units: 3)
Prerequisites: Upper division standing; RPT 200 (may be taken concurrently).
Investigate scope and nature of the tourism industry including key system components; history; group travel planning, budgeting, and marketing techniques and processes used by tourism professionals; careers; current trends; and future challenges and opportunities.
Course Attributes:
• Global Perspectives

RPT 400 Programming in Recreation, Parks, and Tourism (Units: 3)
Prerequisites: Upper division standing; enrollment priority for Recreation, Parks, and Tourism majors.
Theory and process of program assessment, planning, implementation, and evaluation in public and private venues to enhance individual and community life quality. Needs and interests of people, settings, and leisure activities. Program marketing and community outreach.
RPT 410 Therapeutic and Inclusive Recreation (Units: 3)
Prerequisites: Upper division standing; RPT 200; or consent of instructor.
Universal access, design and inclusion in a diverse range of recreation, parks, and tourism settings. Disabling conditions and implications for leadership, activity adaptation, and programming. Enabling legislation, regulatory agents, and practices relevant to inclusivity and human rights. [CSL may be available]
Course Attributes:

- Social Justice

RPT 430 Ecology of Outdoor Recreation (Units: 3)
Prerequisite: Consent of instructor.
Parks and outdoor recreation. Conservation of resources, appreciation, use and misuse of the natural environment.

RPT 440 Urban Recreation and Parks (Units: 3)
Prerequisites: Upper division standing; RPT 200 (may be taken concurrently; or consent of instructor.
Urban recreation needs, issues, services; socio-political, ethnographic, and demographic influences on recreation, parks, and human service organizations for youth and other populations across the lifespan. Understanding philosophical, historical, and contemporary volunteerism, basic nonprofit governance, resource distribution, and managing municipal services.
Course Attributes:

- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

RPT 445 Recreation Therapy and the Expressive Arts (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Expressive arts and their use in a therapeutic recreation setting: art, music, movement and dance, poetry, and drama therapy.

RPT 460 Recreation Destination Resorts (Units: 3)
Prerequisite: RPT 390 or consent of instructor.
Leisure experiences provided by resorts, theme parks, campgrounds, hotels, and activity specific centers. Fundamentals of establishing, administrating, promoting, and working in recreation resorts.

RPT 470 Care Break: Alternative Spring Break Service (Units: 3)
Prerequisite: Upper division standing.
Introduction and application of concepts related to civic and community engagement, cultural competency, and sociocultural, environmental, and economic sustainability through a mandatory 40-hour spring break service learning experience. Travel outside California or the U.S. may be required. Extra fee required. [CSL may be available]

RPT 500 Organization and Administration of Recreation, Parks, and Tourism (Units: 3)
Prerequisites: Upper division standing; RPT 200, RPT 325 [formerly RPT 225]; concurrent enrollment in RPT 400; and RPT 600GW recommended.
Principles and practices in organizational structure, human resources administration, supervision, budgeting and financial management, and analysis of recreation, parks, and tourism organizations. Trends, technology applications, and case studies.

RPT 520 Parks and Outdoor Recreation Resources (Units: 3)
Prerequisites: Upper division standing; RPT 200 (maybe taken concurrently).
Park operations and regulatory compliance at municipal, county, state, and federal levels; resource acquisition and financing; facility planning, design, and maintenance; environmental issues; ethics; interrelationship between environment and visitor experience; and risk management.
Course Attributes:

- Environmental Sustainability

RPT 540 Start-Up and Sustainable Operations of Tourism, Event and Recreation Enterprises (Units: 3)
Prerequisite: RPT 390 or consent of instructor.
Start-up and administration of tourism, event, and commercial recreation enterprises; industry trends; consumer behavior with implications for entrepreneurs and managers; managing and marketing principles applied to industry; development of enterprise plan; assessment of financial feasibility.
(RPT 840/RPT 540 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RPT 560 Current Practices in Parks, Recreation, and Leisure Services (Units: 1-3)
Prerequisite: RPT 200 or consent of instructor.
Topic to be specified in Class Schedule. Focus on new or updated technology, procedures, or methods; e.g., systems analysis, leisure education, tourism, legal implications, specific professional practices in parks, recreation, and leisure services. May be repeated for a total of 9 units when topics vary.

RPT 570 Developing and Managing Resources in Nonprofit Agencies (Units: 3)
Prerequisite: RPT 370 or consent of instructor.
Framework for the administration of nonprofit agencies through volunteer recruitment, selection, and management. Principles of philanthropy and fundraising applied to management of nonprofit agencies. [CSL may be available]

RPT 600GW Professionalism in Recreation, Parks, and Tourism - GWAR (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent with a grade of C or better; concurrent enrollment in RPT 400, RPT 500; internship eligibility.
Seminar in professional/personal development; career planning; internship preparation; current issues, trends, policies, and professional practices. Demonstration of professional, nonverbal, and verbal communication competencies. (ABC/NC grading only) [Formerly RPT 660GW]
Course Attributes:

- Graduation Writing Assessment
RPT 605 Ecotourism Principles and Practices (Units: 3)
Prerequisite: Upper division standing.

Nature-based, low-impact tourism to preserve the environment and local communities. Assessment of adverse and beneficial tourism impacts on the global environment, indigenous cultures, and economy. Ecotourism market, providers, eco-resorts, community settings, and regulators. The balance between promoting versus limiting ecotourism.

Course Attributes:
• UD-D: Social Sciences
• Environmental Sustainability
• Global Perspectives
• Social Justice

RPT 640 Recreational Use of National Parks and Protected Areas (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Introduction to concepts of conservation and preservation of national parks and other ecosystem units, and managing visitor use. Emphasis on history, management principles, and current issues. National parks will be the primary focus, selected international protected areas will be included. [CSL may be available]
(This course is offered as RPT 640 and ENVS 640. Students may not repeat the course under an alternate prefix.)

RPT 670 Advanced Conference, Event Planning, and Management (Units: 3)
Prerequisite: RPT 340 or consent of instructor.

Application of advanced techniques for planning and managing conventions, trade shows, festivals, expositions, and other special events. Event strategic planning and marketing, ROI, and risk management.

RPT 680 Planning and Evaluating Recreation, Parks, and Tourism (Units: 3)
Prerequisites: Internship eligibility and consent of instructor.

Planning and evaluation concepts, principles, and applications to recreation, parks, and tourism; strategic planning models/processes; assessment of organization vision, mission, goals, programs, facilities, marketing, and financials; demographic, environment, and social analysis; needs-assessment techniques and data analysis. [CSL may be available]

RPT 690 Internship in Recreation, Parks, and Tourism (Units: 12)
Prerequisites: Restricted to upper division Recreation, Parks, and Tourism majors; concurrent enrollment in RPT 680; internship eligibility; and consent of instructor.

A 480-hour, full-time internship in a recreation, parks, or tourism agency supervised by qualified personnel. Application of concepts, principles, and best practices; directed field experience and training in organization and industry infrastructure including operations, facilities, marketing, finance, and programs/services; and demonstration of competencies needed in the profession. [CR/NC grading only]

RPT 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.

In-depth, individual, or group study projects in areas of personal/professional recreation and leisure interest under the guidance of a faculty member. Enrollment by petition. May be repeated for a total of 6 units. [CSL may be available]

RPT 700 Orientation and Professional Development in Recreation and Leisure Service (Units: 3)
Prerequisites: Graduate standing and consent of instructor.

Orientation to the recreation, parks, and tourism discipline; literature in the field; research writing; current issues and trends; comprehensive self-assessment professional skills and competencies.

RPT 720 Developing Collaborative Leaders in Leisure Services (Units: 3)
Prerequisites: Graduate standing and consent of instructor.

Examination and development of leadership behaviors and principles associated with creating and/or guiding a leisure service organization’s efforts to develop collaborative leaders. Emphasis on creating an organizational environment with a diverse workforce where shared leadership is valued and practiced.

RPT 730 Foundations of Leisure (Units: 3)
Prerequisites: Graduate standing and consent of instructor.

Interrelated concepts of time, work, and leisure and their impact on the leisure services profession and selected contemporary and future issues. Selected readings in cultural, historical, philosophical, behavioral, and social scientific literature related to the above.

RPT 740 Leisure and Aging (Units: 3)
Prerequisite: Graduate status or consent of instructor.

Trends, concepts, challenges of aging related to leisure. Focuses on issues of lifespan, retirement, changing roles, and lifestyle adjustment. Applications and implications for leisure service delivery in a variety of clinical, custodial/long-term care, and community organizational settings.

RPT 810 Research Methods in Recreation and Leisure Studies (Units: 3)
Prerequisites: RPT 700, RPT 730, or consent of instructor.

Introduction to general research approaches, design, and methodology, with emphasis on research design and methods used in recreation and leisure studies. Review of pertinent literature. Gain practical experience with graduate level resources at SF State.

RPT 840 Start-Up and Sustainable Operations of Tourism, Event and Recreation Enterprises (Units: 3)
Prerequisite: RPT 390 or consent of instructor.

Start-up and administration of tourism, event, and commercial recreation enterprises; industry trends; consumer behavior with implications for entrepreneurs and managers; managing and marketing principles applied to industry; development of enterprise plan; assessment of financial feasibility. (RPT 840/RPT 540 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RPT 850 Human Resources Development in Leisure Studies (Units: 3)
Prerequisites: Classified graduate standing and consent of instructor.

Seminar in supervision including volunteer management, situational leadership: coaching and counseling personnel, performance appraisal, and personnel management systems.
RPT 862 Management of Leisure Services (Units: 3)
Prerequisites: Graduate standing; RPT 500 or equivalent; consent of instructor.

Organization and management of services in public and private leisure service agencies. Legal issues, fiscal resources, management trends, political issues, community involvement, organizational effectiveness, and current problems and issues affecting leisure service agencies. (Plus-minus letter grade only)

RPT 870 Evaluation of Professional Growth and Leadership in Recreation and Leisure Services (Unit: 1)
Prerequisites: Graduate standing and consent of instructor.

Refinement of professional development plan developed in RPT 700. Mentor new graduate student, assist with conduct of self-assessment, leadership and professional skills inventory, and development of career goals plan.

RPT 880 Trends and Issues in Leisure Services (Units: 3)
Prerequisites: RPT 700, RPT 720, RPT 730, or consent of instructor.

Intensive study of selected problems in recreation. (Plus-minus letter grade only)

RPT 890 Internship (Units: 3)
Prerequisite: Consent of instructor.

Field experience in recreation in a medical, paramedical, or institutional setting under the supervision of specialists in recreation.

RPT 895 Applied Research Project (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

An in-depth examination of an issue/problem within recreation, parks, and/or tourism. Supervised by committee chair and culminates in an applied research project and professional paper. (CR/NR grading; RP allowed)

RPT 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Research on a topic within recreation, parks, and/or tourism resulting in a significant literature review, methodology, and data analysis. Supervised by committee chair and culminates in a thesis. (CR/NC grading only)

RPT 899 Independent Study (Units: 3)
Prerequisite: Consent of graduate coordinator and supervising faculty member.

Study is planned, developed, and completed under the direction of a member of the college. Open only to graduate students of demonstrated ability to do independent work. Enrollment by petition. May be repeated for a total of 6 units.
Religious Studies (RELS)

RELS 300 The Nature of Religious Experience (Units: 3)
Prerequisite: ENG 114 or equivalent.

Nature of religious experience drawn from different religions and academic disciplines within the humanities and social sciences; investigation of the meaning of religious commitment in a secular world. (This course is offered as PHIL 525 and RELS 300. Students may not repeat the course under an alternate prefix.)

Course Attributes:

• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities
• Global Perspectives

RELS 696 Directed Reading in Religious Studies (Units: 3)
Prerequisite: RELS 300.

Project to synthesize varying perspectives on religion and religious experiences.
Russian (RUSS)

RUSS 101 First Semester Russian (Units: 5)
Instruction in understanding, speaking, reading, and writing Russian. (Page reference for Department of Foreign Language statement can be found in the Index.)

RUSS 102 Second Semester Russian (Units: 5)
Prerequisite: RUSS 101 or consent of instructor.
Continuation of RUSS 101.

RUSS 103 Third Semester Russian (Units: 5)
Prerequisite: RUSS 102 or consent of instructor.
Understanding, speaking, reading, and writing Russian at the intermediate level; Russian culture.

RUSS 260 Russian Culture and Civilization in English (Units: 3)
Prerequisite: ENG 214 or consent of instructor.
Major themes in the development of Russian culture and civilization from the 9th Century to the present; architecture, literature, folklore, customs, music, dance, theatre and cinema. Taught in English. [Formerly RUSS 401]

RUSS 301 Reading and Grammar (Units: 3)
Prerequisite: RUSS 103 or consent of instructor.
Reading modern Russian. Development of vocabulary, syntax, and acquisition of idiomatic expressions.

RUSS 305 Advanced Grammar and Composition (Units: 3)
Prerequisite: RUSS 301 or consent of instructor.
Analysis of grammatical constructions. Exercises in composition.

RUSS 306 Advanced Conversation and Composition (Units: 3)
Prerequisite: RUSS 305 or consent of instructor.
An intensive reading-conversation course.

RUSS 307 Advanced Reading and Composition (Units: 3)
Prerequisite: RUSS 305 or consent of instructor.
Reading and composition designed to develop writing for advanced work.

RUSS 325 Practical Linguistics of Russian (Units: 3)
Prerequisite: RUSS 301 or consent of instructor.
Application of linguistics to the study of Russian sound patterns and structures.

RUSS 511 Russian Literature II in English (Units: 3)
Prerequisite: ENG 214 or consent of instructor.
Representative works and movements of the Golden Age in Russian literature from the beginning of the 19th Century to the beginning of the 20th Century. [Taught in English]

RUSS 610 Dostoevsky in English Translation (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Dostoevsky's seven important works. [Taught in English]
(RUSS 810/RUSS 610 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RUSS 613 The Russian Novel: Pushkin, Lermontov, Gogol in English (Units: 3)
Prerequisite for RUSS 813: Graduate standing or consent of instructor.
Prerequisite for RUSS 613: ENG 214 or equivalent or consent of instructor.
Analysis of late 18th and early 19th century Russian novels assessed from perspective of genre theory and Bakhtin's theory of novel. [Taught in English]
(RUSS 813/RUSS 613 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RUSS 615 The Russian Avant-Garde (Units: 3)
Prerequisites for RUSS 815: Graduate standing; ENG 214 or equivalent; or consent of instructor.
Prerequisite for RUSS 615: ENG 214 or equivalent; or consent of instructor.
Creativity in Russian literature, arts, cinema, society between 1905:1930 in context of Russian traditions and Western European parallels. Taught in English.
(RUSS 815/RUSS 615 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RUSS 621 Tolstoy in English Translation (Units: 3)
Prerequisite: ENG 214 or consent of instructor.
Tolstoy-master of fiction and non-fiction, radical thinker who challenged the status quo. Major fiction works/correspondence with Gandhi. Taught in English.

RUSS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of department chair and instructor.
Special topics in Russian. Written projects requiring critical analysis and interpretation of linguistic or literary problems. Material adapted to individual needs and interests. May be repeated.

RUSS 810 Dostoevsky in English Translation (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Dostoevsky's seven important works. [Taught in English]
(RUSS 810/RUSS 610 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RUSS 813 The Russian Novel: Pushkin, Lermontov, Gogol in English (Units: 3)
Prerequisite for RUSS 813: Graduate standing or consent of instructor.
Prerequisite for RUSS 613: ENG 214 or equivalent or consent of instructor.
Analysis of late 18th and early 19th century Russian novels assessed from perspective of genre theory and Bakhtin's theory of novel. [Taught in English]
(RUSS 813/RUSS 613 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
RUSS 815 The Russian Avant-Garde (Units: 3)
Prerequisites for RUSS 815: Graduate standing; ENG 214 or equivalent; or consent of instructor.
Prerequisite for RUSS 615: ENG 214 or equivalent; or consent of instructor.

Creativity in Russian literature, arts, cinema, society between 1905-1930 in context of Russian traditions and Western European parallels. Taught in English.
(RUSS 815/RUSS 615 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

RUSS 899 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor.
Study is planned, developed, and completed under the direction of a member of the department faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition.
Sanskrit (SNSK)

SNSK 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.

Study available for previous Sanskrit students who wish to undertake additional work in the language and literature in some specialized area of interest not offered in regularly scheduled classes. Work is planned and completed under direction of a faculty member.
Science (SCI)

SCI 110 Science Concepts - Human Biology (Unit: 1)
Prerequisite: Concurrent enrollment in MATH 50.

Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in MATH 50. May be repeated for a total of 2 units. (Plus-minus ABC/NC, CR/NC grading only)

Course Attributes:
- Pre-Collegiate

SCI 101 First Year Experience in Science and Engineering (Units: 3)
Prerequisite: Freshmen.

Goals of higher education, emphasis on content in programs in the College of Science and Engineering; structure of university and college; skills development related to academic success. (ABC/NC grading, CR/NC allowed)
(Note: In order for this course to satisfy General Education, students must earn a C- or CR or higher grade if taken fall 2014 or later.)

Course Attributes:
- E1: Lifelong Learning Develop
- A3: Critical Thinking
- Environmental Sustainability

SCI 102 Science Concepts: Statics (Unit: 1)
Prerequisites: MATH 227, PHYS 220; concurrent enrollment in ENGR 102.

Student-centered discussion and problem solving designed to promote understanding of key concepts of statics and enhance student success in ENGR 102. Limit of 4 units of science concepts courses allowed toward baccalaureate degree.

SCI 103 Science Concepts - Survey of Chemistry (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 101.

Student-centered discussion and problem-solving designed to promote understanding of key concepts and enhance student success in the concurrent chemistry course. Limit of 4 units of any combination of SCI 235 and Science Concepts courses. (Plus-minus ABC/NC grading, CR/NC allowed)

SCI 110 Science Concepts - Human Biology (Unit: 1)
Prerequisite: Concurrent enrollment in BIOL 100.

Student-centered discussion and problem-solving designed to promote understanding of key concepts and enhance student success in the concurrent biology course. Limit of 4 units of any combination of SCI 235 and Science Concepts courses. (Plus-minus ABC/NC grading, CR/NC allowed)

SCI 111 Science Concepts: Physics I (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 111.

Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in PHYS 111. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 115 Science Concepts - Chemistry I (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 115.

Student-centered discussion and problem-solving. Designed to promote understanding of key concepts and enhance student success in the concurrent chemistry course. Limit of 4 units of any combination of SCI 235 and Science Concepts courses. (ABC/NC grading; CR/NC allowed)

SCI 121 Science Concepts: Physics II (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 121.

Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in PHYS 121. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 124 Math Concepts - Elementary Statistics (Unit: 1)
Prerequisite: Concurrent enrollment in MATH 124.

Student-centered discussion and problem-solving. Designed to promote understanding of key concepts and enhance student success in MATH 124. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (Plus-minus ABC/NC, CR/NC grading option)

SCI 140 Essential Concepts of Physics and Chemistry (Units: 3)
Fundamental concepts of physics and chemistry, from motion, forces, and energy on to atomic structure, molecules, bonding, and chemical reactions. Basic organic and biochemistry. Classwork, 2 units; laboratory, 1 unit.

SCI 199 Mathematics Concepts: Pre-Calculus (Unit: 1)
Prerequisite: Concurrent enrollment in MATH 199.

Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in MATH 199. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 201 Science Concepts: Dynamics (Unit: 1)
Prerequisites: ENGR 102; concurrent enrollment in ENGR 201.

Student-centered discussion and problem solving designed to promote understanding of key concepts of dynamics and enhance student success in ENGR 102. Limit of 4 units of science concepts courses allowed toward baccalaureate degree.

SCI 205 Science Concepts: Electric Circuits (Unit: 1)
Prerequisites: PHYS 230; concurrent enrollment in ENGR 205.

Student-centered discussion and problem-solving section. Designed to promote understanding of key concepts of circuit analysis and enhance student success in ENGR 205. Limit of 4 units of any combination of science, math, and engineering concepts courses allowed toward the baccalaureate degree. (ABC/NC, CR/NC grading only)

SCI 210 Science Concepts - General Microbiology and Public Health (Unit: 1)
Prerequisite: Concurrent enrollment in BIOL 210.

Student-centered discussion and problem-solving designed to promote understanding of key concepts and enhance student success in the concurrent biology course. Limit of 4 units of any combination of SCI 235 and Science Concepts courses. (Plus-minus ABC/NC grading, CR/NC allowed)
SCI 211 Science Concepts: Computer Programming (Unit: 1)
Prerequisite: Concurrent enrollment in CSC 210.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in the concurrent computer science course. Limit of 4 units of any combination of SCI 235, Science, Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (Plus-minus ABC/NC, CR/NC allowed)

SCI 215 Science Concepts - Chemistry II (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 215.
Student-centered discussion and problem-solving. Designed to promote understanding of key concepts and enhance student success in the concurrent chemistry course. Limit of 4 units of any combination of SCI 235 and Science Concepts courses. (ABC/NC grading; CR/NC allowed)

SCI 220 Science Concepts: Physics with Calculus I (Unit: 1)
Prerequisite: Concurrent enrollment in PHYS 220.
Designed to promote understanding of key concepts and enhance student success in PHYS 220. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (Plus/Minus ABC/NC; CR/NC allowed)

SCI 226 Mathematics Concepts: Calculus I (Unit: 1)
Prerequisite: Concurrent enrollment in MATH 226.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in MATH 226. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 227 Math Concepts: Calculus II (Unit: 1)
Prerequisite: Concurrent enrollment in MATH 227.
Student centered discussion and problem solving section designed to promote understanding of key concepts and enhance student success in MATH 227. Limit of four units in any combination of SCI 235, Science Concepts, and SCI Math Concepts toward the baccalaureate degree. (Plus-minus ABC/NC; CR/NC allowed)

SCI 230 Science Concepts: Biology I (Unit: 1)
Prerequisite: Concurrent enrollment in BIOL 230.
Student-centered discussion and problem-solving. Designed to promote understanding of key concepts and enhance student success in the concurrent biology course. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses. (ABC/NC grading; CR/NC allowed)

SCI 231 Science Preparatory I - Foundations (Units: 2)
Enhance students’ knowledge in the foundational core of biology, chemistry, physics, and mathematics. Covers basic concepts, tools, and approaches.

SCI 232 Science Preparatory II - Study Skills (Units: 2)
Emphasis on increasing students’ study skills in the context of basic science coursework. Writing and communication skills addressed.

SCI 233 Science Preparatory III - Projects (Units: 2)
Builds upon the skills developed in SCI 231 and SCI 232. Develop and work on individual project with the instructors to put these skills in action. Explore a variety of careers in various science fields.

SCI 234 Science Concepts: Physics with Calculus II (Unit: 1)
Prerequisites: PHYS 220, MATH 227; concurrent enrollment in PHYS 230, PHYS 232.
Student-centered discussion and problem-solving. Designed to promote understanding of key concepts of electromagnetism and enhance student success in PHYS 230. Limit of 4 units of science concepts courses allowed toward baccalaureate degree. (ABC/NC, CR/NC grading only)

SCI 235 Science Concepts (Units: 2)
Prerequisite: Concurrent enrollment in BIOL 230 or BIOL 240, CHEM 115 or CHEM 215.
Preference given to students in Health Career Opportunity Program. Designed to enhance student success in introductory biology and chemistry courses by emphasizing problem solving and scientific writing skills. May be repeated once for a total of 4 units.

SCI 239 Introduction to Health Professions (Units: 2)
Introduction to the broad array of health professions, helping students make a more informed health career choice. Activities include talks from guest speakers representing various health professions, small group activities, and student projects. Intended for freshmen and sophomores.

SCI 240 Science Concepts: Biology II (Unit: 1)
Prerequisite: Concurrent enrollment in BIOL 240.
Student-centered discussion and problem-solving. Designed to promote understanding of key concepts and enhance student success in the concurrent biology course. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses. (ABC/NC grading; CR/NC allowed)

SCI 300 Science Concepts: Physical Chemistry I (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 300.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in CHEM 300 and CHEM 351. Limit of 4 units of any combination of SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 321 Science Concepts: Quantitative Analysis (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 321.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in CHEM 321. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 328 Science Concepts: Human Anatomy (Unit: 1)
Prerequisites: A college course in biology; concurrent enrollment in BIOL 328.
Student-centered discussion and problem-solving. Designed to promote understanding of key concepts and enhance student success in the concurrent biology course. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses. (ABC/NC grading only)
SCI 333 Science Concepts: Organic Chemistry I (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 233.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in CHEM 333. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 335 Science Concepts: Organic Chemistry II (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 335.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in CHEM 335. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 340 Science Concepts: Biochemistry I (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 340.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in CHEM 340. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 341 Science Concepts: Biochemistry II (Unit: 1)
Prerequisite: Concurrent enrollment in CHEM 341.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in CHEM 341. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 350 Science Concepts: Cell Biology (Unit: 1)
Prerequisite: Concurrent enrollment in BIOL 350.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in BIOL 350. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 355 Science Concepts: Genetics (Unit: 1)
Prerequisite: Concurrent enrollment in BIOL 355.
Student-centered discussion and problem solving section. Designed to promote understanding of key concepts and enhance student success in BIOL 355. Limit of 4 units of any combination of: SCI 235, Science Concepts, and Mathematics Concepts courses allowed toward the baccalaureate degree. (ABC/NC grading; CR/NC allowed)

SCI 499 Culminating Experience Continuous Enrollment (Unit: 0)

SCI 560GW Science Writing - GWAR (Units: 3)
Prerequisite: ENG 214 with a grade of C- or better.
Principles of research, writing, and editing of technical documents and articles for the public understanding of science. Students write publication-quality articles for possible inclusion in Interisci, the journal of the College of Science and Engineering. (Plus-minus ABC/NC grading only)
Course Attributes:

• Graduation Writing Assessment

SCI 610 Science Concepts - Principles of Human Physiology (Unit: 1)
Prerequisites: BIOL 328, CHEM 101; concurrent enrollment in BIOL 212; or consent of instructor.
Student-centered discussion and problem solving designed to promote understanding of key concepts and enhance student success in the concurrent biology course. Limit of 4 units of any combination of SCI 235 and Science Concepts courses. (Plus-minus ABC/NC grading; CR/NC allowed)

SCI 614 Graduate Writing Skills (Units: 3)
Prerequisite: Graduate standing. Enrollment priority given to College of Science and Engineering students.
Designed to increase the writing proficiency of graduate students. May not be used to meet MS ATC requirements. (CR/NC grading only)

SCI 652 SFU Science Partners K-12 Schools (Units: 4)
Prerequisites: One upper division course in your major field of study and instructor consent.
Introduction to science teaching and learning. Students engage in K-12 classroom teaching, examine their own understanding of science, discuss science education literature, and analyze science lessons and student learning. Classwork, 2 units; fieldwork, 2 units.

SCI 693 Cooperative Education Program (Units: 1-12)
Prerequisite: Consent of instructor.
Supervised employment in academically relevant fields of study. Objectives are career development, occupational experience, and educational subsidy. Contact the Cooperative Education Office for more information. May be repeated for a total of 24 units with consent of major adviser.

SCI 695 Health Professions Colloquium (Units: 2)
Prerequisites: BIOL 230/BIOL 240, CHEM 115/CHEM 215.
Preference given to students in Health Career Opportunity Program. Designed to prepare juniors and seniors for successful application to health professions schools. Application preparation, mock interviews, standard test preparation, oral presentations of journal articles. May be repeated for a total of 4 units.

SCI 750 Science Teaching for Scientists I (Units: 2)
Prerequisite: Graduate standing or consent of instructor.
Introduction to practical teaching strategies, science education theory and research, and scientific teaching to SF State graduate student scientists who are teaching science in a variety of contexts. May be repeated for a total of 4 units. (Plus-minus letter grade only)
(This course is offered as SCI 750 and BIOL 750). Students may not repeat the course under an alternate prefix.)

SCI 751 Fieldwork: Science Teaching for Scientists I (Units: 2)
Prerequisites: SCI 750 (may be taken concurrently); consent of instructor.
Fieldwork component that accompanies SCI 750 seminar. Fieldwork in a variety of settings from K-12 science classrooms, TA appointment in SFSU College of Science and Engineering course, or other science education setting. May be repeated for a total of 4 units for degree credit. (CR/NC grading only)
SCI 793 Cooperative Education Program (Units: 1-3)
Prerequisites: Graduate standing and consent of instructor.
Supervised employment in academically relevant fields of study.
Objectives are career development, occupational experience, and
educational subsidy. Contact the Cooperative Education Office for more
information. May be repeated for a total of 3 units.

SCI 850 Science Teaching for Scientists II (Units: 2)
Prerequisites: SCI 750; may be taken concurrently with SCI 851 (fieldwork
component); consent of instructor.
Explores issues in science and learning and the larger context of K-12
science education. May be repeated for a total of 4 units. (AB/NC grading
only)

SCI 851 Fieldwork: Science Teaching for Scientists II (Units: 2)
Prerequisites: SCI 750; concurrent enrollment in SCI 850; consent of
instructor.
Fieldwork component that accompanies SCI 850 seminar. Fieldwork can
be in a variety of settings from K-12 science classrooms, TA appointment
in course in SFSU College of Science and Engineering, or other science
education settings. May be repeated for a total of 4 units. (CR/NC grading
only)
Secondary Education (S ED)

S ED 200 Introduction to Teaching and Education (Units: 3)
Introduction to the field of education and to the profession of teaching. (This course is offered as S ED 200 and EDUC 200. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• D1: Social Sciences

S ED 300 Education and Society (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to education and the role that education and schools play in society. (This course is offered as S ED 300 and EDUC 300. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Social Justice

S ED 615 Constitutional Concepts for Future Teachers (Units: 2)
Prerequisite: Admission to Credential Program or consent of instructor.
Major concepts include separation/sharing of powers; popular sovereignty; limits on government. Meets U.S. constitutional requirement for basic teaching credential.

S ED 640 Supervised Observation/Participation in Public Schools (Units: 3)
Prerequisite: Concurrent enrollment in S ED 751.
A program of observation and participation in public schools under the guidance of a university supervisor, including regular meetings for the analysis of field experiences. (CR/NC grading only) [CSL may be available]
Course Attributes:
• Teacher Credential Program Crs

S ED 660 Student Teaching in Single Subject (Units: 9)
Prerequisite: Admission to Credential Program or consent of instructor.
Teaching experience in the public school under the guidance of a university supervisor with the cooperation of a supervising teacher. Open only to candidates formally approved by the Secondary Education Department. Requires a total of 18 units.
Course Attributes:
• Teacher Credential Program Crs

S ED 699 Independent Study (Units: 1-3)
Prerequisite: Admission to Credential Program or consent of instructor.
An intensive study of a particular problem in education under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open to regularly enrolled students only.

S ED 701 Teaching for Equity in Secondary Schools (Units: 3)
Prerequisite: Admission to Credential Program or consent of instructor.
Examination of historical purposes of education, the influences of identity on schooling experience, school-based factors that contribute to inequitable outcomes, and our agency as teachers to make changes for equity. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

S ED 710 Seminar in Secondary Education (Units: 2)
Prerequisite: Admission to Credential Program or consent of instructor.
Focus on skills and knowledge for successful secondary level substitute teacher such as classroom management skills, lesson-plan understanding, and knowledge of early adolescents. May be repeated for a total of 4 units. (Plus-minus letter grade only)

S ED 720 Literacy Across Content Areas (Units: 3)
Prerequisite: Admission to Credential program or consent of instructor.
Instructional strategies, grounded in theory and research, which help secondary school students use reading and writing to learn in all subject matter areas. Emphasis on supporting literacy development of culturally and linguistically diverse learners. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

S ED 751 Classroom Environment and Management (Units: 3)
Prerequisites: Admission to Credential program; concurrent enrollment in S ED 460.
Creating and maintaining positive and productive learning environments. Emphases on preparation for supporting student teaching and performance assessment. (Plus-minus letter grade only) [CSL may be available]
Course Attributes:
• Teacher Credential Program Crs

S ED 752 Professional Perspectives and Practices (Units: 3)
Prerequisites: Admission to Credential program; S ED 751; concurrent enrollment in S ED 660.
Integrating, reflecting, and building knowledge and skills for teaching all students are the major thrusts. Professional obligations and growth are also addressed. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

S ED 759 Curriculum and Instruction I (Units: 3)
Prerequisite: Admission to Credential program or consent of instructor.
Content area to be specified in Class Schedule. Principles and practices for teaching secondary subjects, including planning of content and instruction with consideration of student learning and state standards. May repeat when topics vary. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs
S ED 761 School Mathematics: Problem Solving (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Curriculum development in mathematics. Problem solving strategies as a unifying theme for content selection. (This course is offered as E ED 761 and S ED 761. Students may not repeat the course under an alternate prefix.)

S ED 769 Curriculum and Instruction II (Units: 3)
Prerequisites: S ED 759; concurrent enrollment in S ED 660.
Subject area to be specified in Class Schedule. Principles and practices for teaching secondary subjects to all learners, with additional emphases on assessment, reflective practice, and technology. May repeat when topics vary. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

S ED 770 Current Issues in Secondary Education (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Examination of a variety of current issues important to secondary education professionals. (Plus-minus AB/NC)

S ED 780 Advanced Curriculum Development (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Builds on curriculum development skills from credential program to next steps in creating innovative curriculum for secondary education programs.

S ED 790 Second Language Development (Units: 3)
Prerequisites: Admission to Credential Program; S ED 751; or consent of instructor.
Issues related to language, culture, and literacy development for second language learners. The role of first language competencies in the development of second language. Treatment of second language acquisition theories, instructional strategies, and pedagogical techniques. (Plus-minus letter grade only) [CSL may be available]

Course Attributes:
- Teacher Credential Program Crs

S ED 796 Analyzing Cases of Mathematical Teaching (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Cases of mathematics teaching practice are a catalyst for analytic discussion of assessment, mathematical representation, and student misconceptions. Teaching decisions are evaluated in the context of real classroom situations with regard to their impact on student learning, motivation, and beliefs. (Plus-minus letter grade only)
(This course is offered as E ED 796 and S ED 796. Students may not repeat the course under an alternate prefix.)

S ED 800 Adolescent Development (Units: 3)
Prerequisite: Admission to Credential Program or consent of instructor.
Covers learning theories, current social issues, and adolescent behaviors. Five areas of adolescent development (emotional, physical, moral, social, and cognitive) are examined as each pertains to middle and high school teaching and student learning. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

S ED 807 Leadership Development in Mathematics Education (Units: 3)
Prerequisite: Consent of instructor.
Enhancement and development of mathematical ideas and instructional methodologies from a classroom perspective to a theoretical framework. Knowledge of curriculum development and leadership skills; dissemination to other teachers. (This course is offered as E ED 807 and S ED 807. Students may not repeat the course under an alternate prefix.)

S ED 850 Culminating Experience Project Design (Units: 3)
Prerequisites: Graduate standing in secondary education and approval of first reader.
Prepare student to apply lessons learned to their culminating experience project: thesis, field study or curriculum innovation project (CIP). (Plus-minus letter grade only)

S ED 856 Assessing Mathematical Thinking (Units: 3)
Prerequisite: Consent of instructor.
Assessment strategies for classroom use; dimensions of students’ mathematical thinking and learning. Development of performance assessments includes open-ended tasks and portfolios. (This course is offered as E ED 856 and S ED 856. Students may not repeat the course under an alternate prefix.)

S ED 895 Field Study (Units: 3)
Prerequisites: Consent of graduate major advisor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC; RP grading only)

S ED 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of graduate major advisor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. Graduate Approved Program and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

S ED 899 Independent Study (Units: 1-3)
Prerequisite: Admission to Credential Program or consent of instructor.
An intensive study of a particular problem in education under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open only to regularly enrolled graduate students.
Sexuality Studies (SXS)

SXS 110 Sexuality in Society (Units: 3)
Introductory exploration of sexuality in its social context. Critical reflection on conventional and individualizing understandings of sexuality. Includes research articles, documentary films, and mainstream television and magazines. (This course is offered as SXS 110 and SOC 110. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• D1: Social Sciences
• Social Justice

SXS 300 Introduction to Human Sexuality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

The field of human sexuality studies.

SXS 301 Perspectives in Gay, Lesbian, Bisexual, and Transgender Studies (Units: 3)
Prerequisite: ENG 214.

Lesbian, gay, bisexual, and transgender studies as a field of knowledge. Cultural, social, political, and personal aspects of gay, lesbian, bisexual, and transsexual issues.

SXS 314 Gay, Lesbian, and Bisexual History (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

History of gays, lesbians, and bisexuals

SXS 320 Sex and Relationships (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Explores the role of sexuality in traditional and emerging forms of intimate relationships. (This course is offered as PSY 320 and SXS 320. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• E1: Lifelong Learning Develop
• UD-D: Social Sciences
• Global Perspectives

SXS 332 Understanding the Representation and Narration of Sexuality in Cinema (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.

Examination of the representation and narration of sexuality in cinema with an emphasis on Hollywood. Employs critical and cultural theory, including critical race, queer, and feminist theory, as means to uncover the social and political significance of sexuality in cinema. Explores ways in which cinema reflects and refracts ideologies associated with sexual identity and expression. (This course is offered as CINE 332 and SXS 332. Students may not repeat the course under an alternate prefix.)

SXS 350 Selected Issues in Human Sexuality (Unit: 1)
Prerequisite: Upper division standing or consent of instructor.

Topic to be specified in Class Schedule. Examination and analysis of selected topics in human sexuality. May be repeated when topics vary.

SXS 369 Philosophical Issues in Sexuality (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division composition course; or consent of instructor.

Legal, moral, and conceptual issues concerning human sexuality. Rape, pornography, abortion, prostitution, homosexuality, marriage, promiscuity, perversion, sexual politics, sex and religion, and the language of sex. (This course is offered as PHIL 369 and SXS 369. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Social Justice

SXS 380 Coloring Queer: Imagining Communities (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Interdisciplinary examination of the experience of queers of color in the U.S. through anthropology, sociology, history, literature, and cultural studies. Specific focus on racism, homophobia, transphobia, and intersectionality. [Formerly ETHS 380]

This course is offered as RRS 380 and SXS 380. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Social Justice

SXS 400 Variations in Human Sexuality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Variations in sexuality: sexual identity, relationships, behavior, and fantasy; identification of personal and social problems associated with varied sexual lifestyles. (This course is offered as SXS 400, PSY 450, and SOC 400. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Social Justice

SXS 402 Advanced Topics in Bisexual, Gay and Lesbian Studies (Units: 3)
Prerequisites: Upper division standing, SXS 301, or consent of instructor.

Social, cultural, economic, historical, and political patterns concerning the contemporary social lives and intimate relationships of bisexual, gay and lesbian people.

SXS 405 Queer Art History (Units: 3)
Prerequisites: ART 201 or ART 202 or equivalent, consent of instructor.

Case studies, primarily of Western art. Homophobia, censorship, reconstructing gay and lesbian history; major artists, visual codes, eroticism, lesbian feminism, families and communities, racial diversity, AIDS, other issues. (This course is offered as ART 403 and SXS 405. Students may not repeat the course under an alternate prefix.)

SXS 421 Homophobia and Coming Out (Units: 3)
Prerequisite: ENG 214 or equivalent.

Sources, forms, and history of homophobia; processes and consequences of coming out as related to gender, ethnicity, religion, age, socio-economic background, and physical ability.
SXS 436 The Development of Femaleness and Maleness (Units: 4)
Prerequisites: Upper division standing; PSY 371; or consent of instructor.
Integration of biological, psychological, social, and cultural knowledge
toward an understanding of the development of maleness and
femaleness. A critical look at theories of sex-typing and sex differences in
behavior, with attention to sex-role stereotypes and social issues.
(This course is offered as PSY 436 and SXS 436. Students may not repeat
the course under an alternate prefix.)

SXS 438 Culture and Sex in East Asia (Units: 3)
Prerequisites: Upper division standing, ANTH 120, or consent of
instructor.
Examines from the perspective of critical anthropology on the role of
culture in sex/gender power relations in East Asian societies.
(This course is offered as ANTH 415 and SXS 438. Students may not
repeat the course under an alternate prefix.)

SXS 440 Native Sexualities and Queer Discourse (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
A comparative, interdisciplinary, socio-historical analysis of Native
sexualities and gender constructions from indigenous centered
perspectives; examination of the complexity of Native sexualities, gender
formations, and queer indigenous identity movements.
(This course is offered as AIS 440, SXS 440, and WGS 440. Students may
not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

SXS 455 Sex, Power and Politics (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examines how the state and social institutions define gender roles,
regulate sexual practices, and police sex as a means of social control.
Issues include morality campaigns, AIDS/STD’s, pedophilia, pornography,
sodomy, abortion, etc.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

SXS 456 Psychology of Human Sexual Behavior (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Psychological aspects of human sexual functioning particularly
pertaining to gender identity, pairing, sexual orientation, sexual
intercourse, self-stimulation, reproduction, contraception, and abortion.
Related social issues such as alternative lifestyles, changing sex roles,
and recreational sex.
(This course is offered as PSY 456 and SXS 456. Students may not repeat
the course under an alternate prefix.)

SXS 460 AIDS and People of Color in the U.S. (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
The political, psychological, social, and economic impact of AIDS/HIV
infection on diverse cultural backgrounds. Prevention and educational
strategies.
(This course is offered as COUN 450, RRS 460, and SXS 460. Students
may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

SXS 469 Sex and Morality (Units: 3)
Prerequisites: Sophomore or higher standing; one lower-division
composition course; or consent of instructor.
Ethical theory and its applications to sexual conduct, therapy, and
research. Fundamentals of moral augmentation; complicated, morality-
laden issues associated with sexuality.
(This course is offered as PHIL 445 and SXS 469. Students may not
repeat the course under an alternate prefix.)
Course Attributes:
• E1: Lifelong Learning Develop
• UD-C: Arts and/or Humanities

SXS 470 Sex and the Net (Units: 3)
Prerequisite: SXS 300 or consent of instructor.
Social, psychological, and educational aspects of sexuality and the
Internet.

SXS 530 Gender and Sexuality in Ancient Greece and Rome (Units: 3)
Prerequisite: ENG 214 or equivalent.
Role of gender and sexuality in the ancient world. Areas of inquiry:
women’s bodies and social roles; homosexuality; and the socialization of
adolescents into adult gender/sex roles.
(This course is offered as CLAS 530 and SXS 530. Students may not
repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities

SXS 550 Field Service in Human Sexuality Studies (Units: 1-3)
Prerequisites: Nine units of SXS courses or consent of instructor.
Supervised field service performed in on-campus research, instructional,
or service units or off-campus agencies involved in human sexuality
medical, social, and psychological services. May be repeated.
SXS 551 Queer Literatures and Media (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Queer literature and media productions from a feminist and transnational perspective; intersectional analysis of gender, race, class, sexuality, and citizenship to examine fiction, film, cultural, and historical texts. (This course is offered as WGS 551 and SXS 551. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

SXS 567 Cross-Cultural Aspects of Sex and Gender (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Sex, sexuality, and gender; the control of sexuality, cultural components of gender role and gender identity, and symbolic aspects of sex and gender. (This course is offered as ANTH 569 and SXS 567. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Social Justice

SXS 569 Sex and the Law (Units: 3)
Prerequisite: ENG 114 or equivalent.

Philosophical investigation of legal issues pertaining to sexuality. Legal enforcement of morals and of specific cases and statutes regarding marriage, sex discrimination, abortion, rape, homosexuality, pornography, pedophilia, and other sex related activities. (This course is offered as PHIL 455 and SXS 569. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-C: Arts and/or Humanities
- Social Justice

SXS 601 Sexuality, Ethnicity, and Health (Units: 2-3)
Prerequisite: SXS 300 or consent of instructor.

Overview of the relationships between sexuality, ethnicity, and health. Ethnic and cultural differences that affect sexuality, behavior, risk and resiliency, and result in health disparities.

SXS 605 Sexual Violence (Units: 3)
Prerequisite for 705: Graduate standing or consent of instructor.
Prerequisite for 605: Upper division standing.

Covers a breadth of topics relating to sexual violence, concentrating on understanding the origins and consequences of various forms of sexual violence through the life course, and exploring how sex and sexuality can be used as tools to control individuals, groups of people, communities and states. (SXS 705/SXS 605 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

SXS 620 Sex, Inequality and Health (Units: 3)
Prerequisite for SXS 820: Graduate standing or consent of instructor.
Prerequisites for SXS 620: Consent of instructor and enrollment in summer institute.

Overview of major theories and findings in sexuality studies to help advanced undergraduate and graduate students integrate various disciplinary approaches to sexuality in one theoretical framework. (SXS 820/SXS 620 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

SXS 633 Gay Love in Literature (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.

Themes of gay love in fiction, poetry, and biography, beginning with Ancient Greece and extending to the present. (This course is offered as ENG 633 and SXS 633. Students may not repeat the course under an alternate prefix.)

SXS 635 Queer Masterpieces (Units: 3)
Prerequisite: ENG 214 or equivalent.

Gay, lesbian, bisexual, and transgender issues in the context of the Western tradition. Examination of how these issues shape and are in turn shaped by poets, novelists, and visual/performing artists.

SXS 651 Fieldwork in Gay/Lesbian/Bisexual Community Service (Units: 3)
Prerequisite: ENG 214.

Intern or supervised volunteer in religious, health, communications, political, recreation agencies in gay/lesbian/bisexual communities. May be repeated for a total of 6 units. (CR/NC grading only)

SXS 667 Lesbian, Gay, Bisexual, Transgender, and Queer Cultures and Society (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Sociological analysis of the character and development of lesbian, gay, bisexual, transgender, and queer communities and cultures in the context of broader social inequalities and social transformations. Special attention to the historical and social antecedents of the contemporary U.S. Focus on empirical and theoretical work within sociology. (This course is offered as SOC 467 and SXS 667. Students may not repeat the course under an alternate prefix.)

SXS 678 Disability and Sexuality (Units: 3)
Prerequisite: SXS 300 or consent of instructor.

Disability and sexuality through individual, societal, cultural, and political lenses.

SXS 680 Colloquium in Human Sexuality (Units: 3)
Prerequisite: Completion of the human sexuality minor core or consent of instructor.

Human sexuality from an interdisciplinary perspective presented by faculty, advanced students, and scholars outside the program. Forum for sharing ideas, exploring original concepts, and debating issues.
SXS 685 Projects in the Teaching of Human Sexuality Studies (Units: 1-4)
Prerequisites: Completion of relevant course or equivalent with a grade of B or better; consent of instructor.

Students serve as instructional aids in order to enrich their knowledge of the subject and the general processes of learning and teaching. Will help develop course materials, plan and review course structure and activities, and provide assistance to students in class projects and fieldwork. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

SXS 699 Independent Study (Units: 1-3)
Prerequisite: Consent of instructor and program director.

Supervised study of a particular issue selected by the student.

SXS 701 Sexual Cultures, Sexual Identities (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies or consent of instructor.

Concepts of "sexual culture" and "sexual identity" in history and across cultures. (This course is offered as SXS 701 and ANTH 701. Students may not repeat the course under an alternate prefix.)

SXS 702 Sexuality in Historical Perspective (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexuality Studies or History; or consent of instructor.

Traces the growing scholarship on the historical study of sexuality primarily in the U.S. Introduces students to a variety of historical studies on sexuality and assesses the validity and value of the work. (This course is offered as SXS 702 and HIST 702. Students may not repeat the course under an alternate prefix.)

SXS 703 Lesbian, Gay, Bisexual, Transgender Sexuality and Health (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Relationships between lesbian, gay, bisexual, and transgender (LGBT) sexuality and health: cultural differences that affect sexuality, behavior, risk, and resiliency, and contribute to health disparities.

SXS 704 Human Sexuality and Language (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Research on sexuality and language with emphasis on the role of language in the social construction of sexual meanings, sexual identities and sexual relationships in diverse cultures and linguistic communities. (Plus-minus letter grade only)

SXS 705 Sexual Violence (Units: 3)
Prerequisite for 705: Graduate standing or consent of instructor.
Prerequisite for 605: Upper division standing.

Covers a breadth of topics relating to sexual violence, concentrating on understanding the origins and consequences of various forms of sexual violence through the life course, and exploring how sex and sexuality can be used as tools to control individuals, groups of people, communities and states.

(SXS 705/SXS 605 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

SXS 723 Teaching Internship in Human Sexuality Studies (Units: 3)
Prerequisites: Graduate standing; completion of 15 units minimum; consent of instructor.

Individual projects under faculty supervision undertaken in conjunction with teaching assignments in undergraduate courses. Research and reports on the aims and methods of teaching human sexuality studies to undergraduates. May be repeated for a total of 6 units.

SXS 724 Research Internship in Human Sexuality Studies (Units: 3)
Prerequisites: Graduate standing and consent of instructor.

Study, discussion, and evaluation of principles of human sexuality research, theory, and method. May be repeated for a total of 6 units.

SXS 750 Seminar in Graduate Human Sexuality Studies (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Topic to be specified in Class Schedule. Examines trends, data, methodology, and current research in human sexuality studies. May be repeated when topics vary.

SXS 770 Sexuality and Public Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examination of the development of sexuality-related policy in the United States. The framework of historical debates and their impact on current policy will be discussed. Legal, ethical, political, fiscal, and other structural considerations will be addressed. The role of academic theory and research in the creation of public policy will be considered.

SXS 771 Research Seminar in Sexuality and Public Policy (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Focus on the historical, theoretical and institutional frameworks of sexuality policy in the United States. The concept of "sexual citizenship" will be examined; who possesses it, who does not, and who defines it, as well as examining the processes by which that definition is challenged and changed. Issues of scale (local, regional, national), ethics and strategies in policy-making will be discussed.

SXS 772 Sexuality, Visual Culture, and the Arts (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Examination of the cultural politics of representations of sexuality in visual culture and the arts, with emphasis on how such representations are produced in relationship to race, class, gender, and nation. (Plus-minus letter grade only)

(This course is offered as SXS 772 and WGS 772, and may not be repeated under the alternate prefix.)

SXS 794 Community Service Learning in Sexuality Studies (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Field experience in community-based organizations working with issues relating to sexuality. [CSL may be available]

SXS 799 Issues in Sexuality Studies (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Exploration of research topics for thesis projects; theoretical issues relating to research topics and empirical research. Provides a practical forum to discuss all research issues.
SXS 800 Sociocultural Foundations in Human Sexuality (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies or consent of instructor.
Current sociocultural knowledge concerning sexual cultures and sexual behavior. Theories of individual and cultural difference in sexuality. (AB/NC grading only)

SXS 801 Biological and Psychological Foundations of Human Sexuality (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies.
Current biological knowledge concerning sexual differentiation from conception through puberty, including sexual response and sexual identity. Psychological theories of sexual behavior and its development, courtship, sexual coercion, and variations in sexual behavior.

SXS 805 Sexuality Education and Policy (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies or consent of instructor.
Historical and philosophical underpinnings of sexuality education in the U.S.; major pedagogical theories and practices at elementary, secondary, and post-secondary levels. Education and social policy considerations. (This course is offered as SXS 805 and EDUC 805. Students may not repeat the course under an alternate prefix.)

SXS 806 Science, Technology, and Sexuality (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Overview of queer and feminist approaches to science, technology, and sexuality; development of critical scientific literacy; examination of how dominant representations of sex, gender, and sexuality shape scientific research; and approaches from feminist STS, medical sociology, and queer/trans theory.

SXS 810 Seminar in Sexual Identity and Communication (Units: 4)
Prerequisite: Graduate student in Communication Studies or Sexuality Studies or consent of instructor.
How sexual identities are created, shaped, produced, reproduced, maintained, changed, contested, and challenged through communication practices. Social, cultural, and historical contexts. Interpersonal and mass media contexts. (This course is offered as COMM 725 and SXS 810. Students may not repeat the course under an alternate prefix.)

SXS 820 Sex, Inequality and Health (Units: 3)
Prerequisite for SXS 820: Graduate standing or consent of instructor. Prerequisites for SXS 620: Consent of instructor and enrollment in summer institute.
Overview of major theories and findings in sexuality studies to help advanced undergraduate and graduate students integrate various disciplinary approaches to sexuality in one theoretical framework. (SXS 820/SXS 620 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

SXS 881 Research Methods in Human Sexuality Studies (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies or consent of instructor.
Interdisciplinary examination of multiple approaches to human sexuality research and social ethics.

SXS 882 Research Design in Human Sexuality Studies (Units: 3)
Prerequisites: Restricted to graduate students in Human Sexualities Studies; SXS 881; or consent of instructor.
Development, design, and implementation of the research project for completion of the master's thesis. (ABC/NC grading; RP allowed)

SXS 883 Applied Quantitative Methods in Sexuality Studies (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies.
Introduction to quantitative methods as they are applied to the social scientific study of sexuality.

SXS 884 Advanced Methods in Sexuality Studies (Units: 1-3)
Prerequisite: Graduate standing.
Practical and critical consideration of research methods and methodology in sexuality studies with a focus on specific strategies of data collection, interpretation, and analysis across disciplines and paradigms. May be repeated for a total of 3 units. (Plus/Minus Letter grade only)

SXS 890 Professional Development (Units: 3)
Prerequisite: Restricted to graduate students in Human Sexualities Studies or consent of instructor.
Apply the multidisciplinary perspective of human sexuality studies to ongoing projects, and discuss ethical concerns with regard to research in human sexuality and how current work can further professional careers. (AB/NC grading only)

SXS 894 Creative Work Project (Units: 3)
Prerequisites: Advancement to candidacy, approval of graduate advisor, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
An original creative work project. Projects must be described in a written document that summarizes the project's relation to other work in the area, its rationale, its significance, and its creative methodologies. Advancement to Candidacy (ATC) and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

SXS 895 Research Project in Human Sexuality Studies (Units: 3)
Prerequisites: SXS 800, SXS 801, SXS 881, consent of graduate advisor, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Research methodology and supervised research into topics and problems in human sexuality studies culminating in oral and written presentations. Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (ABC/NC grading; RP allowed)

SXS 896 Directed Reading (Units: 3)
Prerequisite: Consent of graduate adviser.
Intensive directed reading in human sexuality studies under the supervision of a faculty member. (Plus-minus letter grade, CR/NC, RP)

SXS 898 Master's Thesis (Units: 3)
Prerequisites: Consent of graduate major advisor, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)
SXS 899 Independent Study (Units: 1-4)
Prerequisite: Graduate standing or consent of instructor.

Study is planned, developed, and completed under the direction of a member of the program faculty. Open only to graduate students who have demonstrated the ability to do independent work. Enrollment by petition. May be repeated for a total of 12 units.
Social Work (S W)

S W 300 U.S. Social Welfare: Past, Present, and Future (Units: 3)
Prerequisites: Restricted to upper division Social Work majors; successful completion of introductory courses in human biology, economics, psychology, sociology; or consent of instructor.

Welfare institution viewed as societal responses to certain social needs. Social work profession and its involvement in the delivery of welfare services.

S W 301GW U.S. Social Welfare II: Problems, Policies, and Programs - GWAR (Units: 3)
Prerequisites: Restricted to upper division Social Work majors; ENG 214 with a grade of C- or better, S W 300; or consent of instructor.

Social problems in relation to policies and programs that determine available services. Input of government, voluntary associations, and consumer groups. (ABC/NC only)

Course Attributes:
- Graduation Writing Assessment

S W 302 Introduction to Social Service Organizations (Units: 3)
Prerequisites: Restricted to upper division Social Work majors; successful completion of introductory courses in human biology and economics.

Function, structure, and activities of social service organizations in a multi-racial, multi-ethnic urban environment. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

S W 350 Services to Children, Youth, and Their Families (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Policies, programs, and practices impacting services to children, youth, and their families. Public child welfare at state, national, and international levels.

S W 352 Gender, Sexism, and Social Welfare (Units: 3)
Prerequisite: Restricted to upper division social work majors.

Sex role stereotyping in the policies, practices, and organization of social welfare institutions; practice of social workers.

S W 400 Social Work Practice I (Units: 3)
Prerequisites: Restricted to upper division Social Work majors; concurrent enrollment in S W 300.

Seminar in the systems with which the practitioner must deal and the changing nature of the practitioner’s relationships with each of these systems.

S W 401 Social Work Practice II (Units: 3)
Prerequisites: Restricted to upper division Social Work majors; S W 400.

Forming, maintaining, and coordinating action systems; differential ways of influencing systems in various phases of the change process; terminating change efforts.

S W 402 Interviewing Skills in Social Work (Units: 3)
Prerequisites: S W 400; restricted to upper division social work majors.

Interviewing skills required of a social worker. Intake, informational, assessment, and interviews with families or groups.

S W 410 Human Development and the Social Services (Units: 3)
Prerequisite: Restricted to upper division social work majors.

Relation of human development and behavior from conception through old age to the functions of social service agencies in dealing with life crises.

S W 450 Introduction to Research in Social Work (Units: 3)
Prerequisites: Restricted to upper division Social Work majors; S W 301GW or S W 401; or consent of instructor.

The scientific method and its application to social work, the practitioner as consumer and contributor to social research. (CSL may be available)

S W 456 Urban Community Organizing and Citizen Action (Units: 3)
Prerequisites: Restricted to upper division Social Work and Urban Studies and Planning majors; S W 400, S W 401, S W 402; or consent of instructor.

History and current developments in community organization in the city. Principles and strategies of developing citizen action organizations. Role of community organizing and citizen participation in urban social programs.

(This course is offered as S W 456 and USP 456. Students may not repeat the course under an alternate prefix.)

S W 470 Social Differences and Social Work Practice (Units: 3)
Prerequisites: S W 300, S W 400.

Class, ethnicity, age, culture, religion, and disability, and their relationship to social work. Development of skills to work with populations different from oneself.

S W 502 Seminar on Field Experience I (Units: 2)
Prerequisites: Restricted to upper division Social Work majors; all junior year Social Work courses; concurrent enrollment in S W 503.

Analysis of field experiences utilizing social work theory and behavioral science concepts. (Plus-minus letter grade only)

S W 503 Field Experience in the Social Services I (Units: 2)
Prerequisites: Restricted to upper division Social Work majors; all junior year Social Work courses; concurrent enrollment in S W 502; consent of field director.

Field experience in a community social agency. May be repeated for a total of 6 units. (CR/NC only)

S W 504 Seminar on Field Experience II (Units: 2)
Prerequisites: Restricted to upper division Social Work majors; all junior year Social Work courses; S W 502, S W 503; concurrent enrollment in S W 505.

Analysis of field experiences utilizing behavioral concepts. (Plus-minus letter grade only)

S W 505 Field Experience in the Social Services II (Units: 2)
Prerequisites: Restricted to upper division Social Work majors; all junior year Social Work courses; S W 502, S W 503; concurrent enrollment in S W 504; and consent of field director.

Field experience in a community social agency. (CR/NC only)
S W 660 The Roles of Nonprofit Organizations in Urban Life (Units: 3)
Prerequisite: Restricted to senior Social Work majors.
Analysis of non-profit organizations in social services: the arts, housing, environmental and community advocacy. The role of the board, laws, consumers and donors, income, volunteers, and decision-making. (Plus-minus letter grade only)
(This course is offered as S W 660, PLSI 660, and USP 660. Students may not repeat the course under an alternate prefix.)

S W 699 Independent Study (Units: 1-3)
Prerequisite: Social Work major or consent of instructor.
Supervised study of a particular problem selected by the student in consultation with the advisor.

S W 700 History and Philosophy of Social Welfare (Units: 3)
Prerequisite: Restricted to graduate students in social work program.
History of social welfare policies and services in the U.S. Political, economic, social, legal, and cultural contexts of social policy analyzed in terms of future implications. Applications to and implications for diversity.

S W 701 Social Policy Analysis (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 700.
Models and frameworks to analyze social policy. New policy/program directions and action plans.

S W 710 Human Behavior and the Social Environment (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program.
Human development and social services through the life cycle. Current social services and unserved needs identified at each stage of life with emphasis on oppressed groups.

S W 720 Research Methods in Social Work (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 450 or equivalent; completion of first semester of graduate Social Work program.
Role of research in the development of social work theory and practice. Methods of data collection, processing, and analysis.

S W 721 Seminar: Evaluative Research in Social Work (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 720.
Design, execution, and analysis of evaluative research designs, methods, and strategies in social welfare.

S W 730 Social Work Practice Methods (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program.
Concepts and processes of urban generalist practice. Development of skills relevant to the needs and aspirations of oppressed individuals, groups, and communities.

S W 740 Fieldwork Instruction (Units: 2-3)
Prerequisites: Restricted to graduate students in social work program; concurrent enrollment in S W 741; consent of field director.
Introduction to fieldwork and the professional nature of social work practice. Orientation, referral, and placement of students into social service agencies. May be repeated for a total of 10 units. (CR/NC grading only)

S W 741 Graduate Fieldwork Seminar (Unit: 1)
Prerequisites: Restricted to graduate students in Social Work program; concurrent enrollment in S W 740.
Evaluative seminar to analyze field experiences. Conducted by faculty field liaison and with agency field supervisor input. May be repeated for a total of 4 units.

S W 760 Social Work and the Law (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program or consent of instructor.
Social change through the judicial, legislative, and executive processes. (Plus-minus letter grade only)

S W 770 Ethnic and Cultural Concept and Principles I (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program or consent of instructor.
Principles, concepts, theories, and frameworks that address human diversity and affect the local, national, and international contexts of practice, especially as they relate to populations that have been historically disenfranchised, oppressed, under-served/represented, and marginalized. (Plus-minus letter grade only)

S W 771 Ethnic and Cultural Concepts and Principles II (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 770.
Critical analysis and evaluation of diverse social work intervention methods at the micro, mezzo, and macro levels. Innovative and culturally relevant interventions, in local, national and international contexts, to address service needs of historically disenfranchised, oppressed, under-served/represented, and marginalized populations. (Plus-minus letter grade only)

S W 780 Global Poverty (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 770.
Examination of perspectives on causes of poverty and theoretical frameworks that inform anti-poverty programs; measures and indicators of poverty throughout the world. Application of a "poverty aware" approach to individual practice, and methods of using community organizing to design of anti-poverty programs. (Plus-minus letter grade only)

S W 800 Planning and Program Development (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 700; or consent of instructor.
Planning and program development of human service organizations. Needs assessing, analyzing, management planning and programming, marketing, fundraising, and grant writing. (Plus-minus letter grade only)

S W 801 Change Strategies and Professional Values (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 700.
Social work as a profession in relation to social change; effect changes have on present and future relationships. (Plus-minus letter grade only)
S W 810 Health, Illness, and Disordered Behavior (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 710.
Seminar examining health, illness, disability, stress reactions, and psychopathology with implications for social work practice. (Plus-minus letter grade only)

S W 811 Seminar: Organizations, Institutions, and Communities (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 710.
Organizational theories that relate to social service bureaucracies in public and private sectors. (Plus-minus letter grade only)

S W 820 Seminar: Advanced Research Methodology in Social Work (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 720.
Research applied to the design of projects: human subjects protocol and use of computers for research.

S W 830 Seminar: Social Casework (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 730.
Methods of helping individuals cope with personal and social problems.

S W 831 Seminar: Advanced Social Casework (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 830.
Use of relationships and the formulations of psycho-social diagnosis; adaptation of the process to traditional and non-traditional social casework. (Plus-minus letter grade only)

S W 832 Seminar: Social Group Work (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 730.
Small group behavior; social work interventions required for improving relationships within groups.

S W 835 Theories, Methods, and Strategies for Social Action and Change (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 730.
Theoretical, methodological, and strategic bases for social action and change at mezzo, macro, and international levels. Processes and how changes are initiated, adopted, legitimized, established, maintained, and institutionalized. Power, control, and resistance in context of social and economic justice. (Plus-minus letter grade only)

S W 836 Social Action and Change for Economic and Social Justice (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 835.
Select, plan, organize, implement, and evaluate social action and change approaches to achieve social and economic justice, especially for historically oppressed, underrepresented, and undeserved populations. Culturally appropriate, sensitive, and effective methods for organizing and implementing social action/change in international context. (Plus-minus letter grade only)

S W 840 Wellness, Recovery and Psychosocial Rehabilitation in Social Work and Mental Health (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 810 or mental health experience; and consent of instructor.
Examination of concepts and practices of wellness, recovery, psychosocial rehabilitation and system transformation in community mental health. Critical review of diagnostic and treatment issues, disability, healing, and services throughout the lifespan. (Plus-minus letter grade only)
(This course is offered as S W 840 and COUN 840. Students may not repeat the course under an alternate prefix.)

S W 842 Social Work with the Aged (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program.
Social work practice with older people and their families. Policy issues, program design, and the nature of practice in the field of aging. (Plus-minus letter grade only)

S W 843 Child Welfare Practice with Children and Families (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program.
Public child welfare systems. Assessment and intervention with children who have been or are at risk of being abused or neglected, and their families. (Plus-minus letter grade only)

S W 850 Human Services Administration I (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 730; or consent of instructor.
Features that shape social work: policy organization, management, coordination, interpretation, and financing; supervision as an administrative-teaching process and managerial function. (Plus-minus letter grade only)

S W 855 Social Work Education, Professionalism, and Practice (Unit: 1)
Prerequisite: Concurrent enrollment in first-year Social Work foundation courses.
Social work education and practice; profession's code of ethics and values shaping the profession, including social justice and equity. Tools for research and practice include APA guides and cognitive levels. (CR/NC grading only)

S W 862 Child Welfare Policy (Units: 3)
Prerequisite: Restricted to graduate students in Social Work program or consent of instructor.
Analysis of major issues in the provision of public and publicly funded child welfare services. Examination of preventive, supportive, and substitute programs for children/families; changing urban family roles, cultural-racial-class factors, effective development, and children's rights. (Plus-minus letter grade only)

S W 864 Human Services Administration II (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 880.
Management theory applied to public human service agencies. (Plus-minus letter grade only)
S W 865 Social Work Practice in School Settings (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 730; concurrently enrollment in S W 740, S W 741.
Focus is on school social work as part of an interdisciplinary approach to resolving school-related problems, and on social workers as facilitators and advocates in aiding students, families, schools, and communities to achieve educational goals.

S W 880 Computer Technology and Human Services (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; S W 850 (may be taken concurrently).
Computer technology applied to management of social service agencies. Concepts, skills, and tools that can be utilized to manage information systems in social service agencies. Classwork, 1 unit; laboratory, 1 unit. (Plus-minus letter grade only)

S W 890 Integrative Seminar (Units: 3)
Prerequisites: Restricted to graduate students in Social Work program; fourth or final semester of 2-year MSW program.
Must have submitted approved ATC. Application of the five core competencies (direct practice, policy, community organization, human behavior, and research) to practice systems. (CR/NR only)

S W 895 Research Projects in Social Work (Units: 3)
Prerequisites: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC, RP grading only)

S W 898 Master's Thesis (Units: 3)
Prerequisite: Consent of instructor and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC, RP grading only)

S W 899 Independent Study (Units: 1-3)
Prerequisite: Graduate student in Social Work program or consent of instructor.
An intensive study of a particular problem in social work under direction of a member of the social work faculty. Open only to students who have demonstrated ability to do independent work. Enrollment by petition.
Sociology (SOC)

SOC 105 Sociological Perspectives (Units: 3)
Major ideas, concepts, and methods in the study of society: social structure, social interaction, culture, social policy and social change.

Course Attributes:
• D1: Social Sciences

SOC 110 Sexuality in Society (Units: 3)
Introductory exploration of sexuality in its social context. Critical reflection on conventional and individualizing understandings of sexuality. Includes research articles, documentary films, and mainstream television and magazines.
(This course is offered as SXS 110 and SOC 110. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• D1: Social Sciences
• Social Justice

SOC 200 Changing Cities (Units: 3)
(This course is offered as USP 200 and SOC 200. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• D1: Social Sciences
• Social Justice

SOC 245 Social Problems (Units: 4)
Identification and analysis of contemporary social problems: the role of power and ideology in defining social problems, their causes and consequences, evaluation of proposed solutions, and methods of intervention.

Course Attributes:
• D1: Social Sciences
• Social Justice

SOC 272 Social Inequality: Poverty, Wealth, and Privilege (Units: 4)
Prerequisite: ENG 114.

Patterns of social stratification and inequality. Class, status, and power dimensions; cultural variations; patterns of class mobility and change.

SOC 275 Sociology by the Bay (Units: 2)
Speaker series introducing students to sociological research and related work being done in the San Francisco Bay Area or conducted by Bay Area sociologists. (CR/NC grading only)

SOC 293 The Measure of Society: Creating and Displaying Social Information (Units: 3)
Prerequisite: Completion of quantitative reasoning requirement.

Introduction to quantitative methods for measuring social qualities, and basic quantitative tools for analysis and display of data. Covers maps, charts, and tables commonly used in sociological research.

SOC 300GW Sociological Analysis - GWAR (Units: 4)
Prerequisites: Restricted to upper division Sociology majors; completion of two sociology courses with grades of C or better; completion of GE Areas A and B4 requirements [formerly GE Segment I] with a grade of C- or better.

Sociological analysis, writing, and research. (ABC/NC grading only)

Course Attributes:
• Graduation Writing Assessment

SOC 330 Comparative Race and Ethnicity in the U.S.: Class, Gender, and Nation (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Examines dynamics of race and racism by analyzing intersections of class, race, gender, and nationalism, including theoretical perspectives shaping the subfield of comparative race and ethnicity in sociology, theories of racial formation, constructivist theory, ethnic boundaries, assimilation, and ethnocentrism. [Formerly ETHS 330]
(This course is offered as RRS 330 and SOC 330. Students may not repeat the course under an alternate prefix.)

Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

SOC 362 The Social Construction of Deviance and Conformity (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Social processes of rulemaking, enforcing, and breaking; theoretical and methodological problems of conceptualizing and analyzing values, rules, power, social judgments, and punishment.

SOC 370 Classical Theories of Society (Units: 4)
Prerequisites: Upper division standing; SOC 300GW; completion of GE Areas A and B4 [formerly GE Segment I].

Fundamental assumptions underlying classical sociological theory. Surveys the works of scholars such as Marx, Durkheim, Weber and other classical thinkers.

SOC 371 Contemporary Theories of Society (Units: 4)
Prerequisites: Upper division standing; SOC 300GW; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Examination of the most salient works in contemporary sociological theory.

SOC 381 Questionnaire Design (Unit: 1)
Prerequisites: Restricted to upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; SOC 300GW, SOC 370 or SOC 371; or consent of instructor. Students are encouraged to enroll in SOC 392.

Introduction to questionnaire design. Topics include maximizing respondent comprehension; techniques for measuring past behaviors and events; effects of question wording; response formats, and question sequence on responses; asking for sensitive information; and matching design and analysis.
SOC 382 Python for Social Scientists (Unit: 1)
Prerequisites: Restricted to upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; SOC 392. Students are encouraged to enroll in SOC 393.

Introduction to Python programming language as a tool to gather social data in electronic form and deliver information to analysis programs (e.g., R, SPSS, QGIS).

SOC 383 R for Social Scientists (Unit: 1)
Prerequisites: Restricted to upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; SOC 392; or consent of instructor. Students are encouraged to enroll in SOC 393.

Introduction to the R statistical package as used in social science research. Illustration of R use in social science research for statistical analysis, data visualization, and spatial description and analysis.

SOC 392 Introduction to Research Methods (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; SOC 300GW, SOC 370 or SOC 371; or consent of instructor.

Nature of scientific research and research design; relationship of research to sociological theory. Classwork, 3 units; laboratory, 1 unit.

SOC 393 Quantitative Analysis of Social Data (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; SOC 392; or consent of instructor.

Techniques of measuring, tabulating, analyzing, and interpreting statistical data. Classwork, 3 units; laboratory, 1 unit.

SOC 394 Sociological Field Methods (Units: 4)
Prerequisites: Upper division standing or consent of instructor; completion of GE Areas A and B4 requirements [formerly GE Segment I]; SOC 392.

Theoretical and practical exploration of sociological methods for studying relationships between day-to-day experiences and broader social structures, ideologies, and inequalities. Field methods include interviewing, participant observation, and content analysis. Special focus on writing, analytical, and presentation skills.

SOC 400 Variations in Human Sexuality (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Variations in sexuality: sexual identity, relationships, behavior, and fantasy; identification of personal and social problems associated with varied sexual lifestyles.
(This course is offered as SXS 400, PSY 450, and SOC 400. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Social Justice

SOC 410 Grassroots Organizing for Change in Communities of Color (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

An advanced examination of grassroots social change movements in communities of color in the U.S.; how they are organized; how they succeed and even fail; by combining social change theory, history, and practical contemporary approaches to grassroots social justice work. [CSL may be available] [formerly ETHS 410]
(This course is offered as RRS 410 and SOC 410. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

SOC 420 Indigenous Media and Social Change (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Examination of contemporary visual culture, particularly commercial culture, for its impact on personal and collective identity. Technical aspects of creating and altering visual media. 
(This course is offered as SOC 420 and ANTH 420. Students may not repeat the course under an alternate prefix.)

SOC 424 Social Movements (Units: 4)
Prerequisite: ENG 214 or equivalent.

Examines social movements and political action in comparative perspective. An examination of origins, tactics, and outcomes of social movements. [CSL may be available]
(This course is offered as PLSI 424 and SOC 424. Students may not repeat the course under an alternate prefix.)

SOC 451 Criminological Theory (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Social, economic, and political context in which criminological theories (past and present) emerged and how they are reflected in legal practices. 
(This course is offered as SOC 451 and C J 452. Students may not repeat the course under an alternate prefix.)

SOC 452 Juvenile Justice (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Analysis of "delinquency," emergence and administration of juvenile law, and analysis of social organizations for youthful offenders. Classwork, 3 units; fieldwork, 1 unit. [CSL may be available]
(This course is offered as SOC 452 and C J 470. Students may not repeat the course under an alternate prefix.)

SOC 455 Punishment and Social Control (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Contemporary and historical methods of punishment and control are examined as reflections of broader trends in society.
SOC 457 Sociology of Law (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Examination of legal institutions, developing knowledge and understanding of the social nature of law, the operation of existing institutions and their relation to social conditions and process.

SOC 461 Ethnic Relations: International Comparisons (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Sociological factors related to ethnic identity, nationalism, and conflict in selected multi-ethnic societies worldwide. Ethnicity in politics, religion, family, education, and work.

SOC 464 Families and Society (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Family variations in the U.S. and the world: historical antecedents and social influences; changing structure of the family, problems, and emerging trends.
Course Attributes:
• UD-D: Social Sciences

SOC 467 Lesbian, Gay, Bisexual, Transgender, and Queer Cultures and Society (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Sociological analysis of the character and development of lesbian, gay, bisexual, transgender, and queer communities and cultures in the context of broader social inequalities and social transformations. Special attention to the historical and social antecedents of the contemporary U.S. Focus on empirical and theoretical work within sociology.
(This course is offered as SOC 467 and SXS 667. Students may not repeat the course under an alternate prefix.)

SOC 468 Social Aspects of Human Sexuality (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Sexuality as human social behavior. Social, cultural, and ethnic causes and consequences of ways of behaving sexually.

SOC 469 Gender and Society (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Sex roles in society. Origin, socialization, and demands of conformity. Restrictions and encouragements for breaking with conventional sex roles.
Course Attributes:
• UD-D: Social Sciences

SOC 471 Societal Change and Development (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Examination of complexities and concern inherent in the understanding of societal change and development. Most salient theories, problems, and solutions in the field. Emphasis on the relationship between societal and global change.

SOC 476 Medical Sociology (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Sociology of health and illness; organization of medical care; therapeutic interaction; medico-social problems; innovation in health care.

SOC 477 Environmental Sociology (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Changing organization of human societies and their relations with the natural environment; environmental consequences of modern cultural beliefs and lifestyles. Social consequences of environmental changes.
Course Attributes:
• UD-D: Social Sciences
• Environmental Sustainability
• Global Perspectives

SOC 480 City in a Global Society (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
(This course is offered as SOC 480 and USP 470. Students may not repeat the course under an alternate prefix.)

SOC 481 Sociology of Brazil (Units: 3)
Prerequisites: Upper division standing, ENG 214 or equivalent.
Broad view of the evolution of Brazilian society, analyses of specific issues that are vital for the understanding of contemporary Brazil, and insights about the relative nature of sociological phenomena through societal comparisons.

SOC 482 Global Immigration and Immigrants (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Social, cultural, and historical issues associated with international migration. Reasons why people migrate and how migration changes social institutions, local communities, whole countries, and the migrants themselves.

SOC 483 Global Sociology (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Global processes and their impact on different societies and individuals. Global theory; social problems such as poverty, hunger, racism, sexism, global warming, labor exploitation.
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives
SOC 484 Population and Social Dynamics (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4
requirements [formerly GE Segment I].
Population dynamics: social factors related to social and environmental
problems of population growth or decline. Human fertility and fertility
control, mortality, and migration. Population policy. Classwork, 3 units;
laboratory, 1 unit.
SOC 485 Political Sociology (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4;
or consent of instructor.
Examination of the social dimensions of power, particularly those
embedded in institutions of the state. Exploring relations between
state and society, social movements, political organization and civic
participation, political culture, voting behavior, and citizenship.
(This course is offered as SOC 485 and PLSI 485. Students may not
repeat the course under an alternate prefix.)
SOC 486 Sociology of Mental Health (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4
requirements [formerly GE Segment I].
Sociological approach to the study of mental health seeking to identify
the social conditions that affect psychological well-being, and to describe
the processes linking social conditions to psychological effects.
SOC 487 Mexican Migrations: A Social History (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the historical and contemporary social and legal effects
of immigration flows and deportations by focusing on the development
of the U.S.-Mexico border; U.S. immigration policies, gendered migrations,
and U.S. definitions of belonging as well as exclusion in relation to
Mexican immigration communities.
(This course is offered as SOC 487 and LTNS 487. Students may not
repeat the course under an alternate prefix.)
SOC 490 Sociology of Popular Culture (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration of sociological theories and methods for analyzing historical
and contemporary cultural expressions in popular music, art, film,
television, and advertising.
SOC 491 Ancestors or Data? Culture, Conflict, and NAGPRA (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Political struggles surrounding the creation and implementation of the
1990 Native American Graves Protection and Repatriation Act (NAGPRA).
Analysis of the law, impact of recent court decisions, and specific focus
on cultural conflicts related to the concept of knowledge.
(This course is offered as AIS 490, ANTH 490, and SOC 491. Students
may not repeat the course under an alternate prefix.)
SOC 492 Sociology of Art (Units: 3)
Prerequisites: Upper division standing; completion of GE Segment 1,
including ENG 214 or equivalent.
Sociological perspectives on the social production, distribution, and
consumption of art; art as an expression of collective identity; art as
signifier of the meanings human beings attribute to the social world; and
the relationship between art and social change.
SOC 494 Sociological Research III: Special Projects (Units: 2-4)
Prerequisites: Upper division standing; completion of GE Areas A and B4
requirements [formerly GE Segment I]; SOC 392, SOC 393 (may be taken
concurrently), or equivalents.
Supervised experience in carrying out well-defined research projects.
Enrollment by petition. May be repeated for a total of 6 units.
SOC 500 Senior Seminar (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4
requirements [formerly GE Segment I]; SOC 300GW, SOC 370 or SOC 371,
and SOC 392; or consent of instructor.
Topic to be specified in Class Schedule. May be repeated for a total of 6
units when topics vary. (Plus-minus letter grade only)
SOC 501 Internship: Applied Sociology (Units: 2)
Prerequisites: Senior standing; completion of GE Areas A and B4
requirements [formerly GE Segment I]; SOC 370 or SOC 371, SOC 392;
concurrently enrollment in SOC 502. Contact instructor the semester prior
to enrollment.
Fieldwork in approved public or private organization or agency.
Supervision by organization staff and faculty coordinator. (CR/NC grading
only) [CSL may be available]
SOC 502 Internship Seminar: Applied Sociology (Unit: 1)
Prerequisites: Senior standing; completion of GE Areas A and B4
requirements [formerly GE Segment I]; SOC 370 or SOC 371, SOC 392;
concurrently enrollment in SOC 501. Contact instructor for consent the
semester prior to enrollment.
Analysis of internship experience. (Plus-minus letter grade only) [CSL
may be available]
SOC 503 Research Internship Seminar (Unit: 1)
Prerequisites: Restricted to upper division Sociology majors and minors;
completion of GE Areas A and B4 requirements [formerly GE Segment
I]; SOC 300GW, SOC 370 or SOC 371, SOC 392; concurrent enrollment in
SOC 504; or consent of instructor.
Reflection on sociological research practice, membership in research
communities, dissemination of findings to relevant audiences and
constituencies, and methodological concerns. (Plus-minus letter grade
only)
SOC 504 Research Internship Experience (Units: 2)
Prerequisites: Restricted to upper division Sociology majors and minors;
completion of GE Areas A and B4 requirements [formerly GE Segment
I]; SOC 300GW, SOC 370 or SOC 371, SOC 392; concurrent enrollment in
SOC 503; or consent of instructor.
Sociological research experience, discussion of methods, membership
in research communities, and dissemination of findings to relevant
audiences and constituencies. (CR/NC grading only)
SOC 510 Analysis of the Felon in Society (Units: 3)
Prerequisites: Restricted to upper division Sociology and Criminal Justice
majors; completion of GE Areas A and B4 requirements; or consent of
instructor
Examination of the process of Re-entry (post-incarceration) from the
perspective of individuals who have lived it. Classwork, 1 unit; activities, 2
units.
(This course is offered as SOC 510 and CJ 510. Students may not repeat
the course under an alternate prefix.)
SOC 552 Comparative Employment Relations (Units: 3)
Prerequisite: Upper division standing.

Introduction to the concept of the employment relationship, the main "models" and their key actors; diversity at work to international labor rights and how they are approached and practiced in different countries. (This course is offered as LABR 552 and SOC 552. Students may not repeat the course under an alternate prefix.)

SOC 553 Labor Standards and Corporate Social Responsibility (Units: 3)
Prerequisite: Upper division standing.

Introduction to an overview of recent academic debates on Corporate Social Responsibility, International Labor Standards and "decent work." Codes of conduct, monitoring, and certification labeling/ transparency. (This course is offered as LABR 553 and SOC 553. Students may not repeat the course under an alternate prefix.)

SOC 554 Themes in Comparative Employment Relations (Units: 3)
Prerequisite: Upper division standing.

Introduction to the main "models" that have been used in comparative analysis of national systems of employment relations; the Anglo-Saxon, Japanese, and European social models; discussion of the appropriateness of these models in understanding transforming economies. (This course is offered as LABR 554 and SOC 554. Students may not repeat the course under an alternate prefix.)

SOC 555 Labor Rights in the Global Economy (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Key themes concerning labor rights in the global economy; focus on core labor rights identified by the UN: freedom of association, freedom from child labor; freedom from coerced labor, and freedom from discrimination. (This course is offered as LABR 555 and SOC 555. Students may not repeat the course under an alternate prefix.)

SOC 580 Educational Equity (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Is education the great equalizer? Educational equity and policy issues, including institutional racism, school finance, recruitment/retention of under-represented students, language. [CSL may be available] (This course is offered as LTNS 580, SOC 580, and RRS 580. Students may not repeat the course under an alternate prefix.)

Course Attributes:

• UD-D Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

SOC 640 Sociology of the Latino Experience (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

A comprehensive introduction to sociological perspectives on the Latino/Latina experience in the United States. Historical and structural in approach. (This course is offered as LTNS 640 and SOC 640. Students may not repeat the course under an alternate prefix.)

SOC 645 Sociology of Latin America (Units: 3)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].

Theoretical and empirical exploration of the social structures and processes of identities, inequalities, and struggles associated with class, race, ethnicity, nationality, gender, and sexuality in contemporary Latin American societies.

SOC 685 Projects in the Teaching of Sociology (Units: 1-4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; a minimum grade of B+ in course (or equivalent) student will be assisting in; a cumulative GPA of 3.0; consent of instructor.

Instructional aides have opportunity to increase knowledge of course topic and understanding of processes of teaching and learning. Aides provide assistance to students in class activities such as writing assignments, research projects, preparation for examinations, general study habits. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course[s] numbered 685 regardless of discipline.)

SOC 699 Independent Study (Units: 1-4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I]; consent of instructor, major adviser, and department chair.

Supervised study of a particular problem selected by the student. May be repeated for a total of 4 units.

SOC 899 Independent Study (Units: 1-3)
Prerequisite: Consent of the graduate major adviser, the supervising faculty member, and the department chair. Enrollment by petition.

Study is planned, developed, and completed under the direction of a member of the faculty.
Spanish (SPAN)

SPAN 101 First Semester Spanish (Units: 4)
Introduction to understanding, speaking, reading, and writing Spanish.
Course Attributes:
• C2: Humanities

SPAN 102 Second Semester Spanish (Units: 4)
Prerequisite: SPAN 101 or equivalent.
Understanding, speaking, reading, and writing Spanish; Spanish.
Course Attributes:
• C2: Humanities

SPAN 205 Intermediate Spanish I (Units: 3)
Prerequisites: SPAN 102; placement by advisor; or consent of instructor.
Intermediate course that reinforces and builds on four skills (listening, understanding, reading, and writing) learned in SPAN 101/SPAN 102.

SPAN 206 Intermediate Spanish II (Units: 3)
Prerequisites: SPAN 205; placement by advisor; or consent of instructor.
Continuation of SPAN 205 which reinforces and builds on four skills (listening, understanding, reading, and writing) learned in SPAN 101 and SPAN 102.

SPAN 215 Spanish for Heritage Speakers (Units: 3)
Prerequisites: Spanish heritage learner and consent of instructor.
Designed for heritage language learners. Emphasis on conversation, writing styles, and specific grammatical problems. Additional focus on short stories, essays, poems, plays, newspaper articles, films, all in Spanish.

SPAN 216 Accelerated Grammar, Conversation, and Reading (Units: 3)
Prerequisite: SPAN 102 or placement by advisor or instructor.
Second-year Spanish at an accelerated pace. This course is also appropriate for students, including heritage speakers, whose prior experience with the language places them at a high-intermediate level.

SPAN 301 Advanced Grammar and Composition (Units: 3)
Prerequisite: Four semesters of lower-division Spanish or equivalent.
Problematic aspects of Spanish grammar; practice in expository writing.

SPAN 305 Advanced Composition (Units: 3)
Prerequisite: SPAN 301 or consent of instructor.
Practice in expository writing; forms, development, and organization of the short essay including the study of style.

SPAN 306 Advanced Reading and Conversation (Units: 3)
Prerequisites: SPAN 216 or consent of instructor; concurrent enrollment in SPAN 305.
Oral presentations/group discussions based on readings from novels, plays, and poetry. Not designed for native-level speakers.

SPAN 326 Applied Spanish Linguistics: Morphology and Syntax (Units: 3)
Prerequisites: SPAN 216, SPAN 301 or equivalent.
Application of modern descriptive linguistics to the study of morphology and syntax.

SPAN 341 Introduction to the Reading of Literary Texts (Units: 3)
Prerequisite: SPAN 216 or consent of instructor.
Introduction to the reading and analysis of literary texts.

SPAN 350 Practical and Literary Translation (Units: 3)
Prerequisites: Native fluency in English and moderate competency in understanding, speaking, and reading Spanish.
Theoretical and practical aspects of translation. Exercises in translating Spanish to English. Conducted in both Spanish and English.

SPAN 401GW Culture and Civilization of Spain-GWAR (Units: 3)
Prerequisites: ENG 214 with a grade of C- or better; at least 2 years of college-level Spanish or equivalent.
Culture and civilization of Spain from the Middle Ages to the present. (ABC/NC grading only)
Course Attributes:
• Graduation Writing Assessment

SPAN 405 Culture and Civilization of Spanish America (Units: 3)
Prerequisites: SPAN 305, SPAN 306, or equivalents.
Background for Spanish American literature.

SPAN 492 Early Transatlantic Literature and Culture (Units: 3)
Prerequisites: Four semesters of lower-division Spanish or consent of instructor.
Renaissance and Baroque literature with emphasis on love, mysticism, and Neo-Platonism; review of recent literary theories. Readings and class discussion in Spanish and English.

SPAN 500 Introduction to Literary Criticism (Units: 3)
Prerequisites: Four semesters of lower-division Spanish or consent of instructor.
Techniques in literary interpretation using Spanish prose and poetry.

SPAN 521 Spanish Medieval, Renaissance, and Baroque Literature (Units: 3)
Prerequisite: SPAN 500 or equivalent or consent of instructor.
Exploration of one or more topics relevant to medieval and early modern Spanish literature. Topics to be specified in the class schedule. May be repeated when topics vary.

SPAN 523 19th Century Spanish Literature (Units: 3)
Prerequisite: SPAN 500 or equivalent.
Romanticism, realism, naturalism, and modernism in Spain.

SPAN 525 The Contemporary Spanish Novel (Units: 3)
Prerequisite: SPAN 500 or equivalent.
The contemporary Spanish novel through five of its most representative authors in a selection of novels covering the last decade.

SPAN 543 Spanish American Literature: Romanticism to Modernism
(Units: 3)
Prerequisite: SPAN 500 or equivalent.
A study of the most representative works of the leading Spanish American writers of the second part of the 20th century in poetry, essay, short story, and novel.
SPAN 545 20th Century Spanish American Literature (Units: 3)
Prerequisite: SPAN 500 or equivalent.
Exploration of one or more topics of 20th-century and contemporary Latin American literature. Topics to be specified in the class schedule. May be repeated when topics vary.

SPAN 562 Cervantes: The Quijote (Units: 3)
Prerequisite: SPAN 500 or equivalent.
Reading and analysis of Don Quijote.

SPAN 571 History and Development of the Spanish Language (Units: 3)
Prerequisite: SPAN 301.
Examination of the historical, social, political, cultural forces that shaped the development of the Spanish language from its Indo-European prehistory to its modern worldwide diffusion.

SPAN 580 Hispanic Women Writers (Units: 3)
Prerequisite: SPAN 500 or equivalent.
An exploration of Peninsular and Latin American literature, mainly written by women, that focuses on gender and femininity.

SPAN 595 Senior Survey in Spanish or Spanish American Literature (Units: 3)
Prerequisite: SPAN 500 or equivalent.
Advanced survey of Spanish or Latin American literature. Topics to be specified in the class schedule. May be repeated when topics vary.

SPAN 699 Independent Study (Units: 1-3)
Prerequisite: Consent of department chair and instructor.
Special topics in Spanish. Written projects requiring critical analysis and interpretation of linguistic or literary problems. May be repeated for a total of 9 units.

SPAN 821 Seminar in Spanish Literary Genres (Units: 3)
Prerequisite: Admission to Spanish M.A. program or consent of instructor.
Focus on a specific literary genre in Spanish or Latin American literature. Topics to be specified in Class Schedule. May be repeated when topics vary.

SPAN 831 Seminar in Literary Movements or Periods (Units: 3)
Prerequisite: Admission to Spanish M.A. program or consent of instructor.
Focus on a particular literary movement or period in Spanish or Latin American literature. Topics to be specified in Class Schedule. May be repeated when topics vary.

SPAN 850 Seminar-Spanish and Latin American Literature (Units: 3)
Prerequisite: Graduate standing in Master of Arts in Spanish program or consent of instructor.
Focus on a topic, theme, or problem specific to Spanish or Latin American literature. Topics covered may include, but are not limited to, questions of class, gender, race, national identity, etc. Topics to be specified in Class Schedule. May be repeated as topics vary.

SPAN 880 Seminar in Individual Authors or Works (Units: 3)
Prerequisite: Admission to Spanish program or consent of instructor.
Focus on topics having to do with individual authors and works in Spanish or Latin American literature. Topics to be specified in Class Schedule. May be repeated when topics vary.

SPAN 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.
Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. (CR/NC, RP)

SPAN 899 Independent Study (Units: 1-3)
Prerequisites: Admission to Spanish program or consent of instructor; consent of graduate major adviser and supervising faculty member.
Study is planned, developed, and completed under the direction of a member of the department faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment by petition.
Special Education (SPED)

SPED 310 Exploring Visual Impairments (Units: 3)
Prerequisite: Upper division standing.
Examines challenges posed in daily life for people with visual impairments and their families. Explores options to promote independent living and inclusion in the community for people of all ages and diverse backgrounds. (Plus-minus letter grade only)
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives
• Social Justice

SPED 330 Introduction to Disability (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Ways in which society defines, fosters, and understands disabilities. Children and adults with disabilities as a minority group, and relationships between ethnicity and societal definitions of disability. [CSL may be available]
Course Attributes:
• UD-D: Social Sciences

SPED 370 Young Children Disabled or At Risk and Their Families (Units: 3)
Prerequisite: Upper division standing.
Issues related to the development of infants and toddlers with disabilities: prenatal risk factors; family concerns; and a description of cognitive, social, motor, and language development differences.
Course Attributes:
• UD-D: Social Sciences

SPED 601 Observation and Participation in Special Education (Units: 1-3)
Prerequisite: Admission to special education credential program.
Supervised educational and clinical practice with children and youth with disabilities in schools, hospitals, or clinics as required by field of specialization. May be repeated as required by credential. (CR/NC grading only)

SPED 620 The Science of Early Intervention (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Overview of the science behind early intervention including early brain development, environmental risk factors, and effective early intervention supports that promote family resilience. (Plus-minus letter grade only)
Course Attributes:
• UD-B: Physical Life Science
• Environmental Sustainability
• Social Justice

SPED 630 Inclusive Education: Empowerment and Equity in Diverse Schools (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Focus on critical questions about diversity in education and exploration of inclusive answers in the United States and around the world. Analyze inequality in school systems and address frameworks such as Universal Design for Learning, capacity building, School-Wide Transformation, parent partnerships, and their application in educational contexts. (Plus-minus ABC/NC, CR/NC)

SPED 655 Basic Orientation and Mobility for Learners with Visual Impairments (Units: 3)
Prerequisite: Upper division standing.
Development of spatial and environmental concepts and sensorimotor skills in young learners with visual impairment. Application of orientation and mobility related concepts to travel in home, school, and community environments. (Plus-minus letter grade only) [Formerly SPED 755]
Course Attributes:
• Social Justice
• Teacher Credential Program Crs

SPED 662 Education of Deaf/Hard of Hearing Children (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Overview of program options for deaf and hard of hearing children: oralism, total communication, and bilingual/bicultural communication. Historical and current issues, trends, and legislation. Purposes and services of organizations, agencies, and educational programs. (Plus-minus letter grade only)

SPED 671 Positive Behavior Support for Young Children (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Positive behavior approach to addressing challenging behavior of young children at home and in group settings. Practical ideas for fostering social competence, promoting positive behavior, and preventing the occurrence of undesirable behaviors. (Plus-minus letter grade only)

SPED 672 Inclusive Learning Environments for Young Children (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Practical strategies for including young children with special needs in early childhood settings. Collaborating with professionals and families to provide culturally responsive and individualized learning opportunities. (Plus-minus letter grade only)

SPED 675 Working with Families of Young Children with Disabilities (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Strategies for partnering with families of young children birth to five who have disabilities. Perspectives on developmental and ecological systems. Culturally responsive practice in early childhood settings that include children with special needs. (Plus-minus letter grade only)
Course Attributes:
• Social Justice
SPED 688 American Sign Language I (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

American Sign Language (ASL): ASL as a language system; development of expressive/receptive skills and finger spelling. Vocabulary, grammatical principles, aspects of the deaf culture.

Course Attributes:
- UD-D: Social Sciences

SPED 689 American Sign Language II (Units: 3)
Prerequisite: SPED 688.

Additional vocabulary, grammatical information, and exposure to deaf culture; practice in both expressive and receptive skills.

SPED 691 Autism in the Contemporary World (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Examination of experiences and representations of and by people with autism in diverse social and cultural contexts. Exploration of autism through history, portrayals in popular culture, media, film, and literature, aesthetic experiences and expressive forms of imagination and creativity in play, creative arts, writing, and technology, neurodiversity, inclusion, and social justice, and cross-cultural and global perspectives. (Plus-minus letter grade only)

SPED 723 Workshop: Student Teaching Support Sessions for Moderate/Severe Disabilities or Visual Impairments (Units: 3)
Prerequisites: CAP on file; verification of eligibility by department; concurrent enrollment in SPED 730.

Workshop sessions to support student teachers in moderate/severe and visual impairment credential programs. Review planning, guiding, and evaluating experiences during student teaching experience. Includes development of preliminary induction plan. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

SPED 726 Workshop: Student Teaching Support Sessions for Mild/Moderate Disabilities or Orientation Mobility (Units: 3)
Prerequisites: CAP on file; verification of eligibility by department; concurrent enrollment in SPED 730.

Workshop sessions to support student teachers in Mild/Moderate Disabilities or Orientation and Mobility programs. Review planning, guiding, and evaluating experiences during student teaching experience. Includes development of preliminary induction plan. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

SPED 729 Student Teaching Workshop: Early Childhood Special Education (Unit: 1)
Prerequisite: Consent of program or instructor; must be taken concurrently with SPED 730 or SPED 731.

Reviews planning, guiding, and evaluating experiences of students eligible for early childhood special education services. Development of a preliminary induction plan. May be repeated for a total of 2 units. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

SPED 730 Student Teaching: Special Education (Units: 9)
Prerequisite: Completion of advanced curriculum or consent of adviser; must be taken concurrently with SPED 723, SPED 726, or SPED 729 in credential area.

Student teaching field experience in special education setting as required by credential. Units upon advisement. May be repeated for a total of 18 units if required by credential. (CR/NC grading only) (Students who receive a grade of NC twice will be subject to decertification from the credential.) [Formerly SPED 730]

Course Attributes:
- Teacher Credential Program Crs

SPED 731 Special Education Field Experience (Units: 3)
Prerequisite: Completion of advanced curriculum or consent of adviser; concurrent enrollment in SPED 723 or SPED 726 or SPED 729 in credential area.

Student teaching field experience in special education setting as required by credential. Units upon advisement. May be repeated for a total of 6 units if required by credential. (CR/NC grading only) (Students who receive a grade of NC twice will be subject to decertification from the credential.) [Formerly SPED 730]

Course Attributes:
- Teacher Credential Program Crs

SPED 735 Technology for Visually Impaired Students (Units: 2)
Prerequisite: SPED 754 or consent of instructor.

Specialized technology and computer integration for individuals with visual impairments. Use of devices: closed circuit television, word processors, large print displays, voice output, electronic note takers and adaptive materials such as talking calculators and tactile graphics. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

SPED 737 Infant Intervention (Units: 3)
Prerequisite: SPED 777.

Models for disabled infants and families, interagency coordination, program administration, and transdisciplinary team approach. Practicum experience with an atypical infant as part of seminar requirement. Part one of a two-part sequence curriculum series with SPED 738. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs

SPED 738 Preschool Intervention (Units: 3)
Prerequisites: SPED 777, SPED 737 (preferred for M.A. candidates).

Curriculum and instructional models for preschool, interagency coordination, program administration, and collaboration with families. Experience working with disabled preschoolers. (Plus-minus letter grade only)

Course Attributes:
- Teacher Credential Program Crs
SPED 740 Education Specialist Credential Induction Plan (Units: 3)
Prerequisite: Graduate standing; completion of Preliminary Level I Education Specialist Credential and employment in credential area.
Development, implementation, and evaluation of induction plan to clear education specialist credentials for candidates. Maybe repeated for a total of 6 units. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 743 Issues in Augmentative and Alternative Communication (Units: 3)
Prerequisite: Admission to program or consent of instructor.
Physical implications for speech/language development and disorders, aided/unaided communication strategies, assessment and intervention using interdisciplinary strategies for children and adults. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 745 Environmental Design for Students with Moderate/Severe Disabilities (Units: 3)
Prerequisites: Must be taken concurrently with SPED 773 and SPED 821 (minimum passing grade is B- or above).
Focus on inclusive and integrated service delivery, including historical and philosophical bases, advocacy roles, and collaborative teaming skills necessary to the development and delivery of curriculum. (Minimum passing grade is B- or above.) (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 746 Teaching Individuals with Physical and Other Health Impairments (Units: 3)
Prerequisite: SPED 747 or consent of instructor.
Advanced methods: disabilities assessment, instruction; organization and curriculum design; communication intervention literacy; assistive technology; and collaboration with parents, aides, and other professionals. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 747 Physical Disabilities and Sensory Impairments (Units: 3)
Prerequisite: Admission to MA program or education specialist credential.
Focus on medical information and its implications for instruction, as well as physical management of students with sensory and physical disabilities. Management of special equipment, feeding, positioning and emergency handling procedures. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 749 Medical, Educational, and Rehabilitative Implications of Visual Impairment (Units: 4)
Prerequisite: SPED 655 or SPED 758 or consent of instructor.
Anatomy, physiology and disorders of the eye, and the functional/educational implications of vision loss. Assessment of low vision, use of prescriptive and non-prescriptive low vision aids to optimize use of vision. Application to individualized program planning and implementation. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 750 Assessment for Learners with Visual Impairments (Units: 3)
Prerequisite: SPED 749 or consent of instructor.
Formal and informal assessment to determine the unique educational needs and appropriate learning media for individuals with visual impairments. Selection, adaptation, and preparation of instructional materials: print, Braille, and auditory. Evaluation of learning environments and alternative forms of service delivery. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 751 Instruction for Learners with Visual Impairments (Units: 3)
Prerequisite: SPED 749 or consent of instructor.
Selection, adaptation, and preparation of instructional materials and design of learning environments. Disability specific academic skills and accessing specialized resources. Adaptation of regular education curriculum for learners with visual impairments. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 752 Issues in Visual Impairment (Units: 3)
Prerequisite: SPED 749 or consent of instructor.
Psychosocial and vocational implications of visual impairment. Instructional methods and strategies for transition. Local, state, and national legislation. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs

SPED 753 Living Skills Assessment and Instruction for Learners with Visual Impairments (Units: 3)
Prerequisite: SPED 749 or consent of instructor.
Methods and instructional strategies for teaching specialized functional skills to individuals with visual impairments. Design and implement functional and age appropriate programs for learners of different cognitive abilities. (Plus-minus letter grade only)
Course Attributes:
  • Teacher Credential Program Crs
SPED 754 Basic Communication Skills for Learners with Visual Impairments (Units: 3)
Prerequisite: SPED 749 or consent of instructor.
Course Attributes:
• Teacher Credential Program Crs

SPED 756 Orientation and Mobility Seminar (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Issues and trends, philosophies, and professional ethics. Service delivery systems and resources for establishment, administration, and supervision of orientation and mobility programs. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 757 Visual Impairment: Special Populations (Units: 3)
Prerequisite: SPED 749 or consent of instructor.
Impact of visual impairment on growth and development of learners age 0-22 years. Transdisciplinary approach to serving learners who have multiple impairments. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 758 Advanced Communication Skills for Learners with Visual Impairments (Units: 3)
Prerequisite: SPED 754 or consent of instructor.
Advanced formats of Braille codes: literary, mathematical, computer, foreign language, and music. Use of slate and stylus. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 760 Methods in Orientation and Mobility I (Units: 3)
Prerequisite: Concurrent enrollment in SPED 792.
Use of the long cane. Orientation and mobility in indoor and simple residential outdoor environments. Application of concepts to travel in home, school, and community environments. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 761 Instructional Management and Special Populations (Units: 3)
Prerequisite: Admission to Guide Dog Mobility Program.

SPED 763 Transition Planning for Students with Disabilities (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Strategies to facilitate the transition from early childhood educational and related services, to services provided in K-12 schools, and to facilitate self-determined careers, post-secondary education, and community living for secondary-aged students with disabilities. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 770 Mild/Moderate Disabilities (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Mild/moderate disabilities: definition and diagnosis of learning disabilities, emotional/behavior disorders, and mental retardation. Historical factors and current issues pertaining to public policy and service delivery. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 772 Assessment, Curriculum, and Instruction (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Development of assessment, curriculum, and instructional practices to provide responsive instruction to meet diverse needs of individuals with mild, moderate, and severe disabilities. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 773 Methods of Assessment and Instruction for Students with Moderate/Severe Disabilities (Units: 3)
Prerequisites: Must be taken concurrently with SPED 745 and SPED 821 (minimum passing grade is B- or above).
Methods of assessment, curriculum, and instruction for students with moderate/severe disabilities, including ecological assessments, standards' based academic curricula, systematic instruction, and methods for evaluating student progress. (Minimum passing grade is B- or above.) (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs

SPED 774 Positive Behavior Support (Units: 3)
Prerequisite: Graduate standing or consent of instructor.
Understanding and interpreting behavior; ecological perspectives. Proactive strategies to prevent occurrence and escalation of problem behaviors, evaluation of behavior problems, and implementation of interventions in the least restrictive environment. (Plus-minus letter grade only)
Course Attributes:
• Teacher Credential Program Crs
SPED 775 Advanced Methods in Mild/Moderate Disabilities (Units: 3)
Prerequisites: SPED 770, SPED 772.

Procedures for assessing needs, selecting curriculum priorities, and designing responsive instructional and behavioral plans for meeting the needs of individuals with mild and moderate disabilities. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 777 Development and Learning of Young Children with Special Needs (Units: 3)
Prerequisite: Admission to Special Education specialist credential and master's degree.

Infant and young child development comparisons and among a typical and normal patterns. Implications for early intervention and educational programming. Practical experience with infant and young child. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 778 Advanced Literacy and Instruction (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Focus on current research on literacy and skills related to the development of student literacy. Assessment, curriculum development and instructional practices for teaching reading to students experiencing reading difficulties, especially those with mild to moderate disabilities. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 779 Family Systems and Services for Young Children with Disabilities (Units: 3)
Prerequisite: SPED 777.

Understanding and assessing family systems and caregiver-child interactions; developing intervention programs. Family situations that generate unique needs. Learn how to effectively communicate with families of disabled children and to link families with community support networks. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 780 Assessment and Program Evaluation in Early Childhood Special Education Setting (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Assessment of children from birth to five years; program evaluation design. Analysis of both formal and informal assessments, translation of child and family assessment into educational plans, and overall program evaluation designs. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 787 Advanced Assessment and Instruction for Students with Moderate/Severe Disabilities (Units: 3)
Prerequisites: SPED 745, SPED 773, and SPED 821; must be taken concurrently with SPED 789 and SPED 821 (minimum passing grade is B- or above).

Assessment, curriculum, and instructional design for students with moderate to severe disabilities with special emphasis on students who experience sensory and/or physical disabilities. (Minimum passing grade is B- or above.) (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 788 Law, Ethics, and Instructional Planning (Units: 3)
Prerequisite: Admission to Special Education or Communicative Disorders programs.

Legal foundations and requirements providing public education services to students with disabilities. Policy development, advocacy programs, IEPs, family support plans, technology and universal design, intervention and post-secondary transition. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 789 Advanced Environmental Design for Students with Moderate/Severe Disabilities (Units: 3)
Prerequisites: SPED 745, SPED 773, and SPED 821; must be taken concurrently with SPED 787 and SPED 821 (minimum passing grade is B- or above).

Development of augmentative and alternative communication (AAC) systems for students with moderate/severe disabilities and interventions to promote effective communicative interactions; and development and implementation of positive behavior intervention and support plans for students who present challenging behaviors. (Minimum passing grade is B- or above.) (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 791 Nature of Autism Spectrum Disorders (Units: 3)
Prerequisites: Admission to Special Education credential or MA program or consent of instructor.

Educating diverse learners with Autism Spectrum Disorders, historical and theoretical foundation, etiology, definitions, characteristics, developmental and learning profiles, assessment frameworks and procedures, current and emerging practices, individualized educational supports and service delivery models. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs

SPED 792 Methods in Orientation and Mobility II (Units: 3)
Prerequisite: Concurrent enrollment in SPED 760.

Age-related changes in orientation and mobility needs. Overview of assessment and individualized instructional methods. (Plus-minus letter grade only)
Course Attributes:

• Teacher Credential Program Crs
SPED 794 Communication, Socialization and Imagination: Autism (Units: 3)
Prerequisite: SPED 791 or consent of instructor.
Enhancing communication, socialization, play and imagination in diverse learners with autism spectrum disorders; functional communication, AAC, pragmatic language approaches; environmental supports; adult-directed, child-centered, peer-mediated practices; inclusion with typical peer/siblings in school, home, community settings. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 801 Development, Diversity, and English Language Learners: Special Education (Units: 3)
Prerequisite: Admission to Special Education or Communicative Disorders programs.
Foundation in typical and atypical development, the interaction between diverse cultures, races and disability within the context of changing state and national demographics, and implications of disability for English-Language Learners. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 821 Fieldwork in Moderate/Severe Disabilities (Units: 3)
Prerequisites: Concurrent enrollment in SPED 745, SPED 773, SPED 787, SPED 789.
Supervised fieldwork to promote and support the application of knowledge and skills gained in core methods courses. Sites with educational programs for students with moderate/severe disabilities. May be repeated for a total of 6 units. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 822 Methods in Orientation and Mobility III (Units: 3)
Prerequisites: SPED 760, SPED 792; concurrent enrollment in SPED 823.
Principles of orientation and mobility in simple to complex environments; theories and issues related to architectural design for safety and environmental analysis, traffic systems and transportation systems. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 823 Methods in Orientation and Mobility IV (Units: 3)
Prerequisites: SPED 760, SPED 792; concurrent enrollment in SPED 822.
Principles of mobility in simple to complex areas. Diverse mobility systems and functions, and indications for their use in varying travel environments and by learners of diverse ages and travel needs. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 825 Behavior and Instructional Supports: Autism (Units: 3)
Prerequisite: Admission to Special Education credential or MA program or consent of instructor.
Preparation in design and diverse learners with autism spectrum disorders; data-based assessment and intervention; environmental supports; structured teaching; differentiated instruction; ABA, cognitive, developmental, sensory-based approaches. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 831 Internship in Special Education (Units: 3)
Prerequisite: Graduate standing or consent of graduate adviser.
Practicum in clinics, rehabilitation centers, and schools under supervision of specialists in fields of special education or rehabilitation. May be repeated for a total of 6 units. (CR/NC only)

SPED 833 Educational Services for Learners with Deaf-Blindness (Units: 3)
Prerequisite: Graduate admission to Moderate-Severe Disabilities Program.
Unique needs of learners who are deaf-blind and the best practices for providing appropriate education services for this population of students. (Plus-minus letter grade only)

SPED 881 Advanced Research Seminar in Special Education (Units: 3)
Prerequisites: Advanced standing in master’s degree program; ISED 797. Research designs. Development of problems and hypotheses. Matching research questions to designs. Critique of research studies. Major assignments include written critique and a research proposal. (Plus-minus letter grade only)

SPED 885 Advanced Topics in Special Education (Units: 3)
Prerequisites: Completion of Level I education specialist credential; SPED 740; or consent of instructor.
Topic to be specified in Class Schedule. May be repeated when topics vary. (Plus-minus letter grade only)
Course Attributes:
- Teacher Credential Program Crs

SPED 894 Creative Work Project in Special Education (Units: 3)
Prerequisites: Consent of graduate major advisor, approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.
Design, development, and production of instructional product in degree emphasis. Work may include curriculum or training materials in educational or related setting for professionals, students, and families. A final product and written report required. ATC and Proposal for Culminating Experience Requirement forms must be approved by Graduate Studies before enrollment. (CR/NC, RP grading only)

SPED 895 Field Study: Special Education (Units: 3)
Prerequisites: Approval of the graduate major advisor, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC, RP only)
SPED 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered SPED 894, SPED 895, SPED 898, or SPED 998. (CR/NC, RP)

SPED 898 Master’s Thesis (Units: 3)
Prerequisites: Approval of graduate major advisor, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC only)

SPED 899 Independent Study (Units: 1-3)
An intensive study of a particular problem in education under direction of a member of the department. Enrollment by petition approved by the instructor, adviser, and department chair. Open only to regularly enrolled students.

SPED 902 Public Policy in Special Education (Unit: 1)
Prerequisite: Admission to joint doctoral program and consent of advisor.

Translating federal policy in special education into applications for roles of advocacy, teaching, research and leadership. (Plus-minus letter grade only)

SPED 903 Research Seminar in Special Education: Program Design and Analysis (Units: 3)
Prerequisite: Admission to doctoral program.

Making of inferences between independent and dependent variables in research with disabled persons. Analyze and design experimental research; internal and external validity. Exposure to different designs with purpose of selection of appropriate design to match specific research questions. (Plus-minus letter grade only)

SPED 905 University-level Teaching Internship (Units: 3)
Prerequisite: Admission to education joint doctoral program.

Mentoring support and guidance to doctoral students teaching at university level. Assignments begin at novice level as an observer, with advancement to planning, delivery of instruction including lectures, online activity, assessments, and evaluation. May be repeated for a total of 6 units. (CR/NC only)

SPED 906 University-level Research Internship (Units: 3)
Prerequisite: Admission to Special Education joint doctoral program.

Mentored support and guidance in conducting research. Novice to advanced skills in research design, data collection and analysis, interpretation, and dissemination of findings. Enrollment in two consecutive semesters; may be repeated for a total of 6 units. (CR/NC only)

SPED 907 Learning and Development: The Influence of Disabilities (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Development and learning theory applied to individuals with disabilities. Cognitive, language, and social-affective development throughout the lifespan. Interaction styles, learning styles, sequences, rate, modality, and continuity/discontinuity of development and learning. (Plus-minus letter grade only)

SPED 908 Directed Studies: Special Topics (Units: 3)
Prerequisite: Admission to joint doctoral program in special education.

Provides opportunity for student to explore a special topic or problem either as an individual or with a group with special interests. May be repeated for a total of 24 units. (CR/NC only)

SPED 909 Current Issues Special Education Policy and Practice (Units: 3)
Prerequisite: Admission to joint doctoral program.

Joint doctoral program core seminar on contemporary policy issues, practice and research in special education. (Plus-minus letter grade only)

SPED 910 Directed Study Special Topics (Units: 3)
Prerequisite: Admission to the Joint Doctoral Special Education program.

Professional research and service activities, experience expected for post-doctoral professionals. All activities completed under the direction and supervision of a joint doctoral faculty member. Students will select topics and activities that are appropriate to their career goals and areas of specialization upon advisement with their university mentors. Students will register for SPED 910 when engaged in Mentored Research Networks and for their Professional/Community Service Internship. May be repeated for a total of 12 units.

SPED 998 Doctoral Dissertation in Special Education (Units: 3)
Prerequisite: Advancement to candidacy.

Independent research leading to the completion of the doctoral dissertation. Open only to students in the joint doctoral program in special education. May be repeated for a total of 9 units. (CR/NC only)
Technical & Professional Writing (TPW)

TPW 200 Writing Practices in Professional Contexts (Units: 3)
Prerequisite: ENG 114 or equivalent with a grade of C or better.

Introduction to writing practices common in professional workplaces. Analysis of how they influence, and are influenced by, workplace activities and cultures. Topics may include ethics, collaboration, internationalization, common forms, information design, and media choices. (Plus-minus letter grade only)
Course Attributes:

• C2: Humanities

TPW 400GW Fundamentals of Technical and Professional Writing - GWAR (Units: 3)
Prerequisite: ENG 214 or equivalent with a grade of C or better.

Forms, methods, standards, and issues central to the work of career writers. Students produce technical instructions, reports, promotions, and correspondence. (ABC/NC grading only)
Course Attributes:

• Graduation Writing Assessment

TPW 470 Writing Professional Promotions (Units: 3)
Prerequisites: Technical and Professional Writing student; ENG 214 or equivalent with a grade of C or better; or consent of instructor.

Developing documents for corporate communications, marketing, public relations, and development purposes. High-tech and non-profit applications. (Plus-minus letter grade only)

TPW 480 Writing Technical Documentation (Units: 3)
Prerequisites: Technical and Professional Writing student; ENG 214 or equivalent with a grade of C or better; or consent of instructor.

Design and develop standard types of technical documentation such as project plans, process descriptions, procedures, tutorials, and usability tests. Topics include audience analysis, writing style, and best practices. (Plus-minus letter grade only)

TPW 490 Grantwriting (Units: 3)
Prerequisites: Technical and Professional Writing student; ENG 214 or equivalent with a grade of C or better; or consent of instructor.

Practice in grant proposal writing and research. Requests from private non-profit organizations to various funding agencies. (Plus-minus letter grade only) [CSL may be available]
Course Attributes:

• Social Justice

TPW 550 Professional Editing (Units: 3)
Prerequisites: Technical and Professional Writing student; ENG 214 or equivalent with a grade of C or better; or consent of instructor.

Expectations for professional editing in the workplace. Development of specialized projects; practice in relevant techniques; application of professional skills, standards, ethics, and methods. Review of grammar, punctuation, and usage. (Plus-minus letter grade only)

TPW 555 Visual Rhetoric and Document Design (Units: 3)
Prerequisite: ENG 214 or equivalent with a grade of C or better.

Principles of design and visual rhetoric; application of those principles in document design. Workshop teaches publication design software. Required laboratory. (Plus-minus letter grade only)

TPW 585 Technical Writing Online (Units: 3)
Prerequisite: TPW 400GW or TPW 480 with a grade of C or better.

Standards and methods for designing, writing, producing technical information presented in electronic formats, such as online help, support websites, interactive demos. Learn basics of a widely used software tool. (Plus-minus letter grade only)

TPW 600 Individual and Team Writing (Units: 3)
Prerequisites: TPW 400GW, TPW 550, TPW 555 with grades of C or better.

Developing professional skills for project management, research, group work, genre analysis, writing, editing production, and presentation. Individual projects explore current tools, trends, and technologies. Teams develop professional materials for local non-profits. (Plus-minus letter grade only) [CSL may be available]
Course Attributes:

• Social Justice

TPW 685 Projects in the Teaching of Technical and Professional Writing (Units: 1-4)
Prerequisites: Completion of course in which student will be aide with a grade of C or better. Requires consent of Technical and Professional Writing adviser; limited to one student per course.

Assist with computer laboratory teaching and complete related projects. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

TPW 695 Internship in Technical and Professional Writing (Units: 3)
Prerequisites: Five TPW core or skill elective courses with grades of C or better, including TPW 400GW, TPW 550, TPW 555.

Develop resume and portfolio. Practice job search and interviewing skills. Field experience: professional writing or editing, including structured supervision and evaluation by program faculty and placement sponsor. (Plus-minus letter grade only)

TPW 699 Independent Study (Units: 1-4)
Prerequisites: Five TPW core or skills elective courses with grades of C or better, including TPW 400GW, TPW 550, TPW 555; consent of instructor.

Special study in some aspect of technical and professional writing, performed under program faculty supervision. May be repeated for a total of 4 units.
Theatre Arts (TH A)

TH A 122 Basic Music I: Piano (Units: 3)
Open to all students without prerequisites. Development of basic skills in music fundamentals and piano. Classwork, 2 units; activity, 1 unit. Extra fee required. [Formerly a topic under MUS 120]
(This course is offered as MUS 122 and TH A 122. Students may not repeat the course under an alternate prefix.)

Course Attributes:
- C1: Arts

TH A 125 Movement I: Skills (Units: 3)
Developing the actor's free and responsive body. Exercises, improvisations, and the performance of movement studies used to develop physical awareness and range of movement. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 130 Acting Workshop I (Units: 3)
The craft of acting. Improvisations, theatre games, and exercises to develop flexibility, imagination, agility, and expressiveness. (Plus-minus letter grade only)

Course Attributes:
- C1: Arts

TH A 131 Rudiments of Music Theory (Units: 3)
Concurrent enrollment in a basic piano class recommended. Comprehensive review and drill of music fundamentals. Development of aural skills; written and analytical knowledge of simple harmony. (This course is offered as MUS 130 and TH A 131. Students may not repeat the course under an alternate prefix.)

TH A 200 Introduction to the Theatre (Units: 3)
Examination of various theatrical arts: acting, directing, designing, playwriting; from the audience's and artist's point of view. Relation between theatre history and issues of contemporary concern. Contains a live viewing component. [Formerly TH A 300]

Course Attributes:
- C1: Arts

TH A 205 Introduction to Technical Theatre and Design (Units: 2)
Theory, terminology, and techniques in the areas of stage scenery, properties, costuming, make-up, lighting, sound, construction, rigging safety, tools, materials, and equipment. (Plus-minus letter grade only)

TH A 206 Beginning Jazz/Pop Piano (Unit: 1)
Introduction to jazz and popular piano performance: left and right-hand chord voicings, right hand improvisation, and rhythmic comping in a variety of stylistic idioms. May be repeated for a total of 3 units. (This course is offered as MUS 206 and TH A 206. Students may not repeat the course under an alternate prefix.)

TH A 221 Fundamentals of Ear Training and Musicianship I (Units: 2)
Prerequisites: Satisfactory performance audition; knowledge of written scales, key signatures, rhythms, intervals, and triads; ability to sing scales.
Ear training and sight singing. Melodic, rhythmic, and harmonic dictation. Laboratory. (This course is offered as MUS 221 and TH A 221. Students may not repeat the course under an alternate prefix.)

TH A 223 Voice I: Skills (Units: 3)
Prerequisite: Theatre Arts major or minor.
The actor's free and responsive voice. Exercises and performance of simple texts used to develop the full range of voice and its coordination with body and emotion.

TH A 230 Acting Workshop II (Units: 3)
Prerequisite: TH A 130 or equivalent.
Actor training: beginning scene study and greater emotional expressiveness. May be repeated for a total of 6 units on advisement. (Plus-minus letter grade only)

TH A 234 Modern Musicianship: Theory, Application and Ear Training I (Units: 3)
Examination of music notation, terminology, rhythm, scales and modes, key signatures and the circle of fifths, intervals, transposition, chords and chord progressions, figured bass, lead sheet notation, Roman numeral analysis and basic structures integrating active performance of all concepts. (This course is offered as MUS 234 and TH A 234. Students may not repeat the course under an alternate prefix.)

TH A 235 Modern Musicianship: Theory, Application and Ear Training II (Units: 3)
Prerequisite: MUS 234.
Continuation of MUS 234. Examination of non-diatonic scales, advanced chords, chord inversions and voicings, chord substitutions, nonharmonic tones, lead sheet notation, Roman numeral analysis, and basic structures. Focus on the integration of written notation and active performance. (This course is offered as MUS 235 and TH A 235. Students may not repeat the course under an alternate prefix.)

TH A 304 Focus on Acting (Unit: 1)
Prerequisite: Upper division standing or consent of instructor.
Examination and practice of a specific area/influence of theatre and performance. Topic to be specified in Class Schedule. May be repeated for a total of 3 units when topics vary.

TH A 305 Design Graphics for Stage and Screen (Units: 3)
Prerequisite: TH A 205 or consent of instructor.
Design theory and graphics techniques used by set, lighting, and costume designers to express creative ideas. Drafting, sketching, watercolor, mechanical perspective, model-building, scenic painting.

TH A 307 The Singing Actor: Exploring Music through the Craft of Acting (Unit: 1)
Prerequisites: Upper division standing and by audition.
Exploration of song through the craft of acting, with a focus given to storytelling through the intersection of poetic structure and device and musical composition. (Plus-minus letter grade only)
(This course is offered as MUS 307 and TH A 307. Students may not repeat under alternate prefix.)

TH A 310 Scenery and Properties Laboratory and Crew (Units: 2)
Prerequisite: Must be taken concurrently with TH A 205; or consent of instructor.
Practical experiences in phases of technical work associated with university productions in the areas of scenery and properties. Classwork, 1 unit; laboratory, 1 unit. May be repeated for a total of 4 units.

1782
TH A 311 Summer Laboratory and Crew (Units: 2)
Prerequisite: TH A 205 (may be taken concurrently) or consent of instructor.
Practical experiences in phases of technical work associated with university productions in areas of scenery, properties, costumes, lighting, and sound. May be repeated for a total of 4 units.

TH A 312 Costuming and Makeup Laboratory and Crew (Units: 2)
Prerequisite: Concurrent enrollment in TH A 205 or consent of instructor.
Practical experiences in phases of technical work associated with university productions in the areas of costuming and makeup. Classwork, 1 unit; laboratory, 1 unit.

TH A 313 Lighting and Sound Laboratory and Crew (Units: 2)
Prerequisite: Concurrently enrollment in TH A 205 or consent of instructor.
Practical experiences in technical work associated with university productions in the areas of lighting and sound. Classwork, 1 unit; laboratory, 1 unit.

TH A 314 The Design and Craft of Stage Properties (Units: 3)
Prerequisite: TH A 310.
Exploration of properties research and design, construction, and repair, including design and construction drawings, advanced building techniques, storage and rental administration, special effects, production etiquette, and coordination between departments. Lecture, 1 unit; laboratory, 2 units.

TH A 315 Theatre Production: Technical Laboratory and Crew (Unit: 1)
Prerequisite: Consent of instructor.
Practical experience in phases of technical work associated with university productions in the areas of scenery, scenic painting, properties, lighting, sound, costuming, or makeup. May be repeated for a total of 6 units.

TH A 318 Voice Major (Unit: 1)
Prerequisites: Music and Drama majors; audition; and/or concurrent enrollment in MUS 150, MUS 394, a vocal or choral ensemble as assigned; approval of department. B.A. students must have completed lower division preparation.
Vocal study for the music degree. May be repeated for a total of 8 units for music performance majors; for other majors, may be repeated for a total of 2 units. (Plus-minus letter grade only)
(This course is offered as MUS 313 and TH A 318. Students may not repeat the course under an alternate prefix.)

TH A 323 Light Board Operation (Unit: 1)
Prerequisite: Upper division standing.
Exploration and training in modern theatrical light board control. May be repeated for a total of 3 units.

TH A 324 Light and Performance: Translating Real World Lighting Environments to the Stage, Dance, and Opera (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of the way light changes space; investigation of lighting requirements for dance, opera, and theatre; expansion of skills to communicate about light. Classwork, 2 units; laboratory, 1 unit.

TH A 325 Advanced Lighting Practicum (Unit: 1)
Prerequisite: TH A 313 or consent of instructor.
Advanced experiences in maintenance and repair of lighting equipment. May be repeated for a total 3 units.

TH A 330 Acting Workshop III (Units: 3)
Prerequisites: TH A 125, TH A 223, TH A 230, audition.
Creating roles through intensive scene study. Approaches to individual actor problems. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 332 Asian Acting for Western Actors (Units: 3)
Prerequisites: TH A 130 and audition or consent of instructor.
Principles of acting based on Asian models: physical training for "Western" actors. Models include: No, Kabuki, the Suzuki Method, and Beijing opera. May be repeated for a total of 6 units.

TH A 333 Lyric Theatre Workshop (Units: 3)
Prerequisite: TH A 230 (may be taken concurrently) or consent of instructor.
Fundamental techniques of lyric theatre. Integration of acting, singing, and movement as utilized in music theatre performance, and in preparation for TH A 433. (Plus-minus letter grade only)

TH A 334 Scene Study for Opera (Unit: 1)
Prerequisites: Audition or consent of instructor; concurrent enrollment in MUS 376.
Practicum in acting technique for opera through scene study of non-musical and musical scenes. Creation of roles through characterization, style, technique, research. May be repeated for a total of 3 units.

TH A 335 Rehearsal and Performance Technique (Unit: 1)
Prerequisite: Audition.
Work on a major production with rehearsal and performance as requirements. Laboratory. May be repeated as often as admitted by audition. May not be counted towards major or minor requirements in drama. (CR/NC grading only)

TH A 340 Principles of Directing (Units: 3)
Prerequisites: TH A 230, TH A 310, or equivalents.
The qualifications of the director; the choice of plays for production; tryouts and methods of casting; preparation of the play script; building the rehearsal schedule; fundamentals of composition, movement, stage business, and characterization. Directing laboratory. (Plus-minus letter grade only)

TH A 341 History of Directing (Units: 3)
Prerequisite: TH A 130.
Introduction to the principal schools of stage direction as practiced by directors past and present. Lecture/demonstrations covering nascent stages of Duke of Saxe-Meiningen and Antoine, and culminating with contemporary artists such as Mouchkine, Brook, Wilson.

TH A 398 Vocal/Jazz Modern Music (Unit: 1)
Prerequisite: Audition.
Two- to eight-piece interactive groups in a variety of styles. May be repeated for a total of 12 units. [Formerly a topic under MUS 388]
(This course is offered as MUS 398 and TH A 398. Students may not repeat the course under an alternate prefix.)
TH A 399 Jazz/Modern Music Combo (Unit: 1)
Prerequisite: Audition.

Two- to eight-piece instrumental groups that perform in a variety of styles. These can include, but are not limited to, Blues-R&B, Swing, Bop and Straight-ahead, Rock Fusion, and various Latin Jazz styles. May be repeated for a total of 12 units. [Formerly a topic under MUS 388] (This course is offered as MUS 399 and TH A 399. Students may not repeat the course under an alternate prefix.)

TH A 401 Theatre Backgrounds: 500 B.C. - 1642 (Units: 3)
Prerequisite: Completion of 29 units. Enrollment priority given to Theatre Arts majors.
The physical structure, representative plays, personalities, practices, and theatre traditions from the Greek period to 1642.

TH A 402 Theatre Backgrounds: 1642 - 1900 (Units: 3)
Prerequisite: Completion of 29 units.
Enrollment priority given to theatre arts majors. The physical structure, representative plays, personalities, practices, and theatre traditions from 1642 to 1900.

TH A 403 Theatre Backgrounds: 1900 - Present (Units: 3)
Prerequisite: Completion of 29 units.
Enrollment priority given to theatre arts majors. The physical structure, representative plays, personalities, practices, and theatre traditions from 1900 to the present.

TH A 404 Musical Theatre History and Literature (Units: 3)
Prerequisite: Lower division GE Area C: Arts and Humanities.

Examination of the historical, philosophical, and significant emergence of the musical theatre. Exploration of the context of the musical throughout history as a multicultural study of Musical Theatre, and of specific works of literature pertaining to the creation of librettos, books, and scores of musicals.

TH A 405GW Writing about Theatre - GWAR (Units: 3)
Prerequisites: Theatre Arts majors; ENG 214 or equivalent with a grade of C or better.

Instruction and practice in writing about theatre performance, theatre history, dramatic literature, design with literacy and precision. (ABC/NC grading only)

Course Attributes:

- Graduation Writing Assessment

TH A 406 The Art of Comedy (Units: 3)
Prerequisite: Upper division standing or consent of instructor.

Techniques and materials of the art of comedy. Consideration of what makes people laugh, from simple jokes to intricate stage farces. Discussions with working comedians, comic actors, and writers.

Course Attributes:

- UD-C: Arts and/or Humanities

TH A 407 Popular Theatre/Popular Entertainment (Units: 3)
Prerequisite: Sophomore standing or above.
Theatrical forms which have or once had a large appreciative public. These popular forms include: musical theatre, puppetry, melodrama, circus, farce, physical comedy, cabaret, Peking opera. Examined through lectures and discussion.

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

TH A 408 Asian Plays and Performance Styles: Japan (Units: 3)
Prerequisite: Upper division standing.
An examination of drama, performance, theatrical aesthetics, and conventions of production in Japan.

Course Attributes:

- UD-C: Arts and/or Humanities
- Global Perspectives

TH A 410 Scene Design for Stage and Screen (Units: 3)
Prerequisite: Upper division standing.
Stage and production design for various forms of theatre, television, and cinema. Developing floor plans; methods of pictorial representation, scale drawings, color perspective, models. Scene painting laboratory. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 411 Costume Design for Stage and Screen (Units: 3)
Prerequisites: TH A 205, TH A 305, TH A 504 or TH A 505, or consent of instructor.
Stage and film costume design. Character and script analysis. Theoretical design projects in various theatrical genres. Use of various media and styles of design presentation. Crew required. (Plus-minus letter grade only)

TH A 413 Stage Lighting Design I (Units: 3)
Prerequisites: TH A 205, TH A 305, TH A 313.
Stage lighting design process. How a design is created. In-depth coverage of stage lighting fixtures, graphics, color, and angle in light, and the point of view in design. Crew required. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 414 Technical Direction (Units: 3)
Prerequisite: TH A 310.
Theory and practice in managing the theatrical construction and installation process. Emphasis on working drawings (drafting) and paperwork. Classwork, 2 units; laboratory, 1 unit.

TH A 415 Area Study in Theatre Production (Units: 1-3)
Prerequisites: TH A 310, TH A 312, TH A 313, TH A 315, or equivalents.

Area and unit value to be specified in Class Schedule. May be repeated for a total of 9 units when topics vary.

TH A 425 Movement Styles II (Units: 3)
Prerequisite: Enrollment through audition or consent of instructor.
Movement training; styles, such as mime, commedia, use of masks to develop the actor’s versatility, control of movement and creative imagination. Laboratory. May be repeated for a total of 6 units. (Plus-minus letter grade only)
TH A 433 Musical Theatre Workshop (Units: 3)
Prerequisites: Audition; concurrent enrollment in MUS 211 and MUS 212.
Practice in acting, singing, and dancing through participation in scenes from musical plays. Laboratory. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 435 Theatrical Audition (Units: 3)
Prerequisite: TH A 230 or equivalent.
Preparation for audition situations. Development of skills in sight-reading; selection, and rehearsal of appropriate pieces. Investigation of opportunities in professional and semi-professional theatre. Laboratory. (Plus-minus letter grade only)

TH A 436 Theatre Workshop I (Unit: 1)
Prerequisites: TH A 130, TH A 230 or equivalent.
Topic to be specified in Class Schedule. May be repeated for a total of 3 units when topics vary. Experiences in the acting and/or directing of plays, cross-disciplinary productions, improvisations, theatre games, and other experimental media of theatrical expression. (Plus-minus letter grade only)

TH A 440 Acting/Directing Workshop (Units: 3)
Prerequisites: For actors: TH A 230 and audition. For directors: TH A 340 and consent of instructor.
Extensive participation in the performance of student-directed scenes from plays of various types and periods. Laboratory. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 450 Storytelling for Teaching STEM Subjects (Unit: 1)
Prerequisite: Upper division standing or consent of instructor.
Examination of storytelling for teaching STEM subjects in K-16 settings and importance of stimulating students with different learning styles. Discussion and practice of storytelling skills with STEM teaching: integrating storytelling into the curriculum; introductions; interactive, student-centered, and physical storytelling. May be repeated for a total of 2 units.

TH A 451 Storytelling and Folk Literature (Units: 3)
Prerequisite: Upper division standing.
Methods and techniques of storytelling using selections from folktales, myths, legends, fables, and special types of poetry. (Plus-minus letter grade only)
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Global Perspectives

TH A 452 Theatre in Education (Units: 3)
Prerequisite: Graduate standing or upper division standing or consent of instructor.
Methods of integrating theatre techniques into K-12 classroom curriculum. Selected applications from the following: improvisation, storytelling, and creative dramas. (TH A 752/TH A 452 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

TH A 454 The Business of Acting (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Examination of social/cultural contexts of actors in different cultures past to present. Analysis of process actors use to find acting or theatre related careers: Business skills, agents, resumes, headshots; audition research, digital technology to improve monologue performance for auditions.
Course Attributes:
  • UD-C: Arts and/or Humanities
  • Global Perspectives

TH A 460 Play Development Workshop (Units: 3)
Prerequisite: TH A 130 or TH A 200 or equivalent.
Workshop in which playwrights, directors, actors, and designers develop and refine new theatre pieces by producing them. Studio development of new plays from existing drafts through staged readings to showcase productions.

TH A 490 Dance Theatre Workshop (Units: 1-3)
Prerequisites: Restricted to Dance and Theatre Arts majors and minors; TH A 130, DANC 170; audition.
Creative laboratory for exploration of expressive continuum of dancing, singing and speaking in contemporary multi-disciplinary performance. Activity. May be repeated for a total of 9 units. (Plus-minus letter grade only)
(This course is offered as DANC 490 and TH A 490. Students may not repeat the course under an alternate prefix.)

TH A 501 Topics in Theatre Performance, Dramatic Literature, and History (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Exploration of theatre performance, dramatic literature and history of specific periods and artists. Consideration of innovative developments and theories in world theatre, special attention to prospects for new and future productions. Topic to be specified in Class Schedule. May be repeated for a total of 6 units.

TH A 504 Historical Styles for the Theater: Decor (Units: 3)
Prerequisite: TH A 205 or consent of instructor.
World history of decor, ornament, architecture, and theatrical design; periods with significant dramatic literature canons and/or influential cultural contributions. Visual research methods.

TH A 505 Historical Styles for the Theater: Clothing (Units: 3)
Prerequisite: TH A 205 or consent of instructor.
World history of clothing and costume, emphasizing periods with significant dramatic literature canons and/or influential cultural contributions. Visual research methods. (Plus-minus letter grade only)
TH A 507 Jazz and Blues in Film (Units: 3)
Prerequisite: Upper Division Standing
Survey of the history and impact of jazz and blues on the Hollywood film industry from the early "soun
dies" and "The Jazz Singer" to modern day blockbusters. Noted jazz composers such as Henry Mancini, Quincy Jones, and Olive Nelson will be included, as well as works by jazz-influenced composers of the 1970's film era, such as Marvin Gaye, Isaac Hayes, and Melba Liston.
(This course is offered as MUS 507, HUM 321, and TH A 507. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

TH A 510 Advanced Stagecraft (Units: 3)
Prerequisite: TH A 310 or equivalent.
Drafting stage carpentry and working with various construction materials; problems of stage rigging, stage machinery and special effects; organization and operation of the scene construction shop. May be repeated for a total of 6 units. Laboratory. (Plus-minus letter grade only)

TH A 512 Theatre Costume Design and Construction (Units: 3)
Prerequisite: TH A 312 or equivalent.
Pattern drafting, wardrobe plotting, choice of materials, techniques in adapting historical styles. Work on crews for productions. May be repeated for a total of 6 units. Laboratory. (Plus-minus letter grade only)

TH A 515 Leadership and Organization for Production (Units: 3)
Prerequisites: TH A 310, TH A 312, TH A 313, or equivalents.
Application of principles of stage management to theatre productions; projects in organization and supervision of crews or production companies. Work on productions required. May be repeated for a total of 6 units. Classwork, 2 units; laboratory, 1 unit. (Plus-minus letter grade only)

TH A 519 Theatre Management (Unit: 1)
Prerequisites: Upper division standing; TH A 310, TH A 312, TH A 313; concurrent enrollment in TH A 520.
Public relations, promotion and publicity, practical experience in box office and house management. May be repeated for a total of 2 units.

TH A 520 Theatre Management Laboratory (Units: 2)
Prerequisites: Upper division standing, TH A 519 (may be taken concurrently)
Laboratory for theatre management course. Four hours weekly required. May be repeated for a total of 4 units.

TH A 530 Acting: The Play (Units: 3)
Prerequisites: TH A 223, TH A 230, TH A 312, audition.
Performance techniques through detailed work on faculty-directed scripts; integration of theory and techniques of acting. Laboratory. May be repeated for a total of 9 units.

TH A 531 Styles of Acting (Units: 3)
Prerequisite: Audition.
Advanced topics in theatre performance such as navigating heightened text. Laboratory. Topic to be specified in Class Schedule. May be repeated when topics vary.

TH A 532 Asian Theatre Workshop (Units: 3)
Prerequisites: TH A 130 and audition or consent of instructor.
Analytical and creative study of Asian theatre; practice in acting and directing traditional Asian theatre pieces or Western plays with Asian techniques; development of new performance style based on Asian examples. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 533 Advanced Musical Theatre Workshop (Units: 3)
Prerequisites: TH A 433 and audition.
Advanced practice in performance techniques for musical plays, with participation in selected scenes. May be repeated for a total of 6 units. Laboratory. (Plus-minus letter grade only)

TH A 557 Acting for the Camera (Units: 3)
Prerequisites: TH A 230, TH A 330, audition.
The rehearsal, directing, and recording of dramatic performance for the media of television and video. Emphasis is on the collaboration between actor and director at every stage of the process. Actors must have performance experience.

TH A 558 Writing and Performing in Film and Theatre (Units: 3)
Prerequisites: Upper division Cinema majors and minors; TH A 230 or CINE 454 or CINE 456 or equivalent; or consent of instructor.
Workshop brings each student through practical hands-on exercises in writing, directing and working with actors. [Formerly CINE 555]
(This course is offered as CINE 654 and TH A 558. Students may not repeat the course under an alternate prefix.)

TH A 559 Women in Jazz (Units: 3)
Prerequisite: MUS 506 or consent of instructor.
The role of women in the history of jazz. [Formerly a topic under MUS 558]
(This course is offered as MUS 559 and TH A 559. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- U.S. History
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities

TH A 605 Writing and Performing Monologues (Units: 3)
Prerequisites: Restricted to Creative Writing, English Education, and Drama majors; TH A 130. For C W majors: C W 301, C W 311G or C W 512G or C W 513G.
Workshop in creation of contemporary performance monologues. Development of original pieces through writing, performance, and critique; study of artists in the field.
(This course is offered as TH A 605 and C W 605. Students may not repeat the course under an alternate prefix.)

TH A 609 Theatre Design and Computers (Units: 3)
Prerequisites: TH A 205, TH A 410 or TH A 413.
Exploration of the tools, programs, and applications involved with computer assisted design for lighting or scenery for the stage. May be repeated for a total of 6 units.
TH A 610 Practicum in Theatre (Units: 3)
Prerequisite: Consent of supervising staff.

Individual projects in costume, make-up, lighting, or scene design; properties, stagecraft; theatre administration or theatre architecture. May be repeated in a different area for a total of 12 units. (Plus-minus letter grade only)

TH A 611 Seminar in Costume Design and Technology (Units: 3)
Prerequisites: TH A 411 and TH A 504 or TH A 505.

The role of costume design and technology in modern theatre practices. Topic to be specified in Class Schedule. May be repeated for a total of 12 units when topics vary. (Plus-minus letter grade only)

TH A 613 Stage Lighting Design II (Units: 3)
Prerequisites: TH A 205, TH A 305, TH A 313, and TH A 413.

Lighting designs for opera, dance, and theatre. Students design productions for class and productions for the university. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 615 Seminar in Technical Theatre Arts (Units: 3)
Prerequisites: Senior standing; TH A 410, TH A 413, TH A 512, TH A 519, or equivalents related to seminar topic.

Variable topics, each exploring specific problems in theatrical Scenic Design and Technical Production. Topic to be specified in Class Schedule. May be repeated for a total of 9 units when topics vary.

TH A 657 Practicum in School and Community Drama (Units: 3)
Prerequisite: Consent of department.

Supervised fieldwork experience in conjunction with school and community performing arts program. May be repeated for a total of 6 units with consent of supervisor. (Plus-minus letter grade only)

TH A 660 Advanced Play Development Workshop (Units: 3)
Prerequisites: TH A 130 or TH A 340 or TH A 460, consent of instructor.

Development of original plays by students, through rehearsal and presentation of staged readings. New plays: the process and technique of mounting the staged reading for playwrights, directors, and dramaturgs.

TH A 661 Play Development Showcase (Units: 3)
Prerequisites: Upper division standing, consent of instructor.

Development and presentation of short plays and monologues by SF State students. Writers, actors, and directors collaborate in rehearsal, production, and performance. Admission by audition/submission and permission of instructor only. May be repeated for a total of 9 units.

TH A 671 Stage Management (Units: 3)
Prerequisites: Any two of the following: TH A 310, TH A 312, TH A 313, or equivalents.

Advanced theoretical and practical application of stage management techniques; examination of the resources and responsibilities of a successful stage manager at SF State and in the professional arena. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 685 Projects in the Teaching of Theatre Arts (Units: 1-3)
Prerequisites: Theatre Arts majors; TH A 130; completion of course in instructional subject matter; consent of instructor.

The teaching practicum provides students with an opportunity to serve as an instructional aide, participate in the teaching of a regular instructionally-related Theatre Arts class, and learn about educational theatre through fieldwork. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

TH A 690 Brown Bag Theatre Company (Units: 3)
Prerequisites: TH A 130, TH A 230, TH A 223, audition; concurrent enrollment in TH A 330.

Intensive study and studio presentation of 14 different texts during the semester. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 691 Advanced Multicultural Production Workshop (Units: 3)
Prerequisites: TH A 230, TH A 310, TH A 312, or equivalents; interview/audition.

Participation in a performing company which uses multicultural, multi-ethnic theatrical material. Experiences in all aspects of play production, with attention to demands of non-Western European repertory. May be repeated for a total of 6 units.

TH A 699 Independent Study (Units: 1-3)
Prerequisite: Upper division standing or consent of instructor.

Special projects/independent study of some aspect of the field, under supervision of a faculty member of the department. May be repeated.

TH A 700 Theatre Research and Writing Practicum (Units: 3)
Prerequisite: Graduate standing or consent of instructor.

Introduction to theatre research methods and the writing of essays about theatre. Students write and discuss papers that reflect advanced skills in composition, research, and criticism.

TH A 701 Seminar: Theatrical History and Historiography (Units: 3)
Prerequisite: TH A 401 or ENG 570 or ENG 571 or equivalent.

Selected topics from theatrical history. Special emphasis on the relation between the theatre and its cultural contexts, the uses of theatrical history in contemporary production, and on the techniques of production reconstruction. (Plus-minus letter grade only)

TH A 702 Shakespeare: Text and Performance Seminar (Units: 3)
Prerequisite: TH A 401 or ENG 570, or equivalent.

An exploration of representative Shakespearean texts and their expressions as performance.

TH A 703 Seminar: The American Stage (Units: 3)
Prerequisite: TH A 402 or ENG 574 or equivalent.

The American tradition in the theatre; major plays and productions from O'Neill to the present. (Plus-minus letter grade only)

TH A 704 Seminar: Contemporary Plays and Performance (Units: 3)
Prerequisite: TH A 402 or ENG 574 or equivalent.

Playwrights and production styles in the contemporary theatre. The "new naturalism," performance art, and post-modernism. (Plus-minus letter grade only)
TH A 705 Playcrafting and Dramaturgy (Units: 3)
Prerequisite: Undergraduate background as appropriate.

Close study of play development and dramaturgy, with special emphasis on the construction of performance scenarios and on the director-dramaturg collaboration.

TH A 707 Thesis Proposal (Unit: 1)
Prerequisite: Graduate standing or consent of instructor.

Completion of a thesis proposal or creative work project proposal with a faculty adviser. Must be completed satisfactorily prior to taking TH A 894 or TH A 898.

TH A 709 Seminar: Dramatic Literature and Criticism (Units: 3)
Prerequisite: A graduate course in theatre backgrounds and/or dramatic literature.

Contemporary approaches in dramatic criticism applied to selected works of dramatic literature. (Plus-minus letter grade only)

TH A 711 Collaborative Processes in Theatre (Units: 3)
Prerequisite: Classified M.F.A. standing in Theatre Arts or consent of instructor.

Graduate colloquium addressing the processes of theatrical collaboration. (Plus-minus letter grade only.)

TH A 712 Portfolio Development (Unit: 1)
Prerequisites: Upper division or graduate standing; TH A 750, TH A 610/TH A 810; and consent of instructor.

Supervised development of materials for design/technical theatre portfolios, workshops in presentation, interview techniques. Introduction to entertainment industry business practices.

TH A 732 Seminar: Topics in Asian Theatre (Units: 3)
Prerequisite: Classified graduate standing in Theatre Arts program or consent of instructor.

Close examination of theatrical theory and practice in selected Asian forms, including but not limited to Noh, Kabuki, and Beijing Opera. May be repeated for a total of 6 units.

TH A 740 Play Production Concepts (Units: 3)
Prerequisite: Classified M.F.A. standing in Theatre Arts or consent of instructor.

Methods and principles that encourage a conceptual approach toward play production. Formal techniques and thematic studies that provide the theatre practitioner with a coherent perspective for the interpretation of dramatic material. (Plus-minus letter grade only)

TH A 750 Design Studio (Units: 3)
Prerequisites: Classified graduate standing in Theatre Arts and consent of instructor.

Tutorial studio exploration of design problems in theatre arts/drama. May be repeated for a total of 9 units. (Plus-minus letter grade only)

TH A 752 Theatre in Education (Units: 3)
Prerequisite: Graduate standing or upper division standing or consent of instructor.

Methods of integrating theatre techniques into K-12 classroom curriculum. Selected applications from the following: improvisation, storytelling, and creative dramatics. (TH A 752/TH A 452 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

TH A 757 Internship in Theatre (Units: 3)
Prerequisites: Final year in M.F.A. in theatre arts and consent of department.

Assignment, under faculty supervision, to professional production with Bay Area theatre companies, performing arts agencies, or production organizations. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 810 Advanced Practicum in Theatre (Units: 3)
Prerequisites: Classified graduate standing in Theatre Arts and consent of instructor.

Development, solution, and presentation of design problems for professional theatre. (Plus-minus letter grade only)

TH A 852 Directed Experience in Drama Education (Units: 3)
Prerequisite: Consent of department.

Supervised observation and directed experience in the teaching of drama courses; analysis of teaching problems. May be repeated for a total of 6 units. (Plus-minus letter grade only)

TH A 894 Creative Work Project (Units: 3)
Prerequisites: Consent of graduate major advisor, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies.

Advancement to Candidacy and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration. (Plus-minus letter grade only)

TH A 896 Directed Readings for M.A. Drama Comprehensive Examination (Units: 3)
Prerequisites: Consent of instructor and completion of two core courses in M.A. Drama program.

Preparation for a culminating experience in drama through a series of advanced readings in dramatic literature and theory, theatre history, and performance studies that are completed by the taking of an examination. (CR/NC only)

TH A 896EXM Culminating Experience Examination (Units: 0-3)
Prerequisites: Consent of instructor, committee chair, and approval of Advancement to Candidacy (ATC) and Culminating Experience (CE) forms by Graduate Studies. ATC and Proposal for Culminating Experience Requirement forms must be approved by the Graduate Division before registration.

Enrollment in 896EXAM required for students whose culminating experience consists of an examination only. Not for students enrolled in a culminating experience course numbered TH A 894 and TH A 898. (CR/NC, RP)

TH A 897 Research for Thesis and Creative Work Projects in Drama (Units: 3)
Prerequisites: Consent of instructor and completion of two core graduate seminars in M.A. Drama program. Research and completion of a thesis or creative work project proposal with faculty guidance and instruction. Includes reading of dramatic literature, choosing and developing a topic in detailed written statement. (CR/NC only)
TH A 898 Master’s Thesis (Units: 3)
Prerequisites: Consent of graduate major advisor, and approval of
Advancement to Candidacy (ATC) and Culminating Experience (CE) forms
by Graduate Studies.

Advancement to Candidacy and Proposal for Culminating Experience
Requirement forms must be approved by the Graduate Division before
registration. (CR/NC grading only)

TH A 899 Independent Study (Units: 3)
Prerequisites: Classified graduate standing and consent of instructor.

Special project/independent study of some aspect of the field related to
the student’s final thesis or project. May be repeated for a total of 6 units.
(Plus/minus letter grade only)
Urban Studies and Planning (USP)

USP 200 Changing Cities (Units: 3)
Changing cities in a global world. Multi-disciplinary social science perspectives on city life. Social, cultural, and ethnic diversity. Metropolitan regions. Strategies for creating social justice and environmental sustainability. Experiencing the city. (This course is offered as USP 200 and SOC 200. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- D1: Social Sciences
- Social Justice

USP 400 Dynamics of the American City (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
Historical development and contemporary condition of urban America, city planning, federal-city relations; dynamics of urban policy making; class, gender, race, and ethnicity in urban America. (This course is offered as USP 400 and HI 489. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Social Justice

USP 401GW Seminar in Urban Studies and Planning - GWAR (Units: 3)
Prerequisites: Restricted to upper division Urban Studies and Planning majors and minors; ENG 214 or equivalent with a grade of C or better; or consent of instructor.
Lectures and discussion of seminal basic and contemporary writings on the most important topics in urban studies and planning. Intensive practice in written and oral communication skills. (ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment

USP 402 Introduction to Planning History and Theory (Units: 3)
Prerequisites: Upper division standing; any GWAR course.
A history of urban planning, primarily in the U.S. from its roots in the 19th century to its development as a contemporary civic endeavor. Examination of the relationship between planning theory and practice based on classic and current readings.

USP 432 Urban Geography (Units: 4)
Prerequisite: ENG 214 or equivalent.
Geographic characteristics of cities in relation to evolution, morphology, and function. The internal and external relationships of diversified urban areas. Classwork, 3 units; fieldwork, 1 unit. (This course is offered as GEG 432 and USP 432. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- Environmental Sustainability
- Global Perspectives

USP 433 Urban Transportation (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Interrelationship between urban transportation systems and internal spatial pattern of urban areas. Impact of the automobile and mass transit modes on urban morphology. Regional transportation planning methodology. Classwork, 3 units; fieldwork, 1 unit. (This course is offered as GEOG 433 and USP 433. Students may not repeat the course under an alternate prefix.)

USP 456 Urban Community Organizing and Citizen Action (Units: 3)
Prerequisites: Restricted to upper division Social Work and Urban Studies and Planning majors; S W 400, S W 401, S W 402; or consent of instructor.
History and current developments in community organization in the city. Principles and strategies of developing citizen action organizations. Role of community organizing and citizen participation in urban social programs. (This course is offered as S W 456 and USP 456. Students may not repeat the course under an alternate prefix.)

USP 470 City in a Global Society (Units: 4)
Prerequisites: Upper division standing; completion of GE Areas A and B4 requirements [formerly GE Segment I].
Urban life and settings in U.S. and internationally. Analysis of impact of the global context. Economic, ethnic, gender, cultural, political, and technological changes. (This course is offered as SOC 480 and USP 470. Students may not repeat the course under an alternate prefix.)

USP 480 Introduction to Urban Policy and Analysis (Units: 4)
Prerequisite: Upper division standing.
Political and institutional settings for policy making. Concepts and techniques of policy, planning, and administration. (This course is offered as PLSI 480 and USP 480. Students may not repeat the course under an alternate prefix.)

USP 485 San Francisco Political Issues (Units: 4)
Prerequisite: Upper division standing.
Political mobilization and governance. Electoral processes. Economic, ethnic, and cultural conflicts. May be repeated with consent of the instructor. [CSL may be available] (This course is offered as PLSI 475 and USP 485. Students may not repeat the course under an alternate prefix.)

USP 492 Research Methods (Units: 4)
Prerequisite: Upper division standing.
Problem formulation; research design; data collection, organization, and analysis; introduction to computer generated analyses; report writing and presentation; applied research. Classwork, 3 units; laboratory, 1 unit. (This course is offered as USP 492 and PLSI 492. Students may not repeat the course under an alternate prefix.)

USP 493 Data Analysis (Units: 4)
Prerequisite: PLSI 492/USP 492 or equivalent.
Statistical analysis for politics, public policy, administration, and urban studies. Uses, interpretation, and limitations. (This course is offered as PLSI 493 and USP 493. Students may not repeat the course under an alternate prefix.)
USP 512 Urban Politics and Community Power (Units: 4)  
Prerequisite: Upper division standing or consent of instructor.  
Political dynamics in the contemporary metropolitan context; bases and distribution of power in urban and suburban areas. Intergovernmental relations and urban political power.  
(This course is offered as PLSI 512 and USP 512. Students may not repeat the course under an alternate prefix.)

USP 513 Politics, Law, and the Urban Environment (Units: 4)  
Prerequisite: Upper division standing or consent of instructor.  
Law and the legal system as mechanisms for regulating urban development and protecting the environment; intervention in development and land use; environmental decay, conservation of open space, other related resources. Lecture, 3 units; activity, 1 unit.  
(This course is offered as USP 513, GEOG 668, and PLSI 513. Students may not repeat the course under an alternate prefix.)

USP 514 Sustainable Development in Cities (Units: 4)  
Prerequisite: Upper division standing or consent of instructor.  
Analysis of development and sustainable development theory and practice, the role international lending institutions, sustainable planning and management of urban infrastructures, and the role appropriate technologies. Case studies of sustainable development planning and policy in Africa, Latin America, Asia, Europe, Caribbean, and USA.  
Course Attributes:  
- Environmental Sustainability  
- Social Justice

USP 515 Environmental Justice: Race, Poverty, and the Environment (Units: 4)  
Prerequisite: Upper division standing or consent of instructor.  
Examination of environmental justice concepts, research and policies; understanding how toxins and other environmental assaults differentially affect communities and groups in USA and abroad; focus on research, ethnic, class dynamics; environmental justice movements, public policy and planning.  
(This course is offered as USP 515 and GEOG 667. Students may not repeat the course under an alternate prefix.)

Course Attributes:  
- Environmental Sustainability  
- Global Perspectives  
- Social Justice

USP 530 Alternative Urban Futures (Units: 3)  
Prerequisites: Upper division standing; ENG 214 or equivalent.  
Examines future of cities through analysis of current trends and policies; implications for quality of life and natural resources; planning and policy analysis for future of cities and urban populations; focus on problems and solutions.

USP 535 Urban Economics (Units: 3)  
Prerequisite: Upper division standing or consent of instructor.  
Analysis of the economic forces which determine a city’s income, employment, land use pattern, industrial structure, and public sector. Particular attention to housing, central city-suburban relationships, transportation, local labor market, local public finance, and neighborhood economic development.  
(This course is offered as ECON 535 and USP 535. Students may not repeat the course under an alternate prefix.)

USP 555 Urban Anthropology (Units: 3)  
Prerequisites: Upper division standing; one course in cultural anthropology or USP 400.  
Impact of urban environments upon human behavior cross-culturally. Ethnographic fieldwork techniques, the history and theoretical roots of urban anthropology, and case studies from around the world.  
(This course is offered as ANTH 555 and USP 555. Students may not repeat the course under an alternate prefix.)

USP 557 Ethnography of the Inner City (Units: 4)  
Prerequisite: ANTH 555.  
Participant-observation fieldwork techniques; research projects in inner city communities in the Bay Area. Classwork, 3 units; activity, 1 unit.  
(This course is offered as ANTH 557 and USP 557. Students may not repeat the course under an alternate prefix.)

USP 560 Urban Poverty and Policy (Units: 4)  
Prerequisite: ENG 214 or equivalent.  
Nature and causes of urban poverty. Theories of poverty and their policy implications. Role of education, employment and family status; gender and race; metropolitan location: global economic restructuring; anti-poverty policies and proposals; development of policy alternatives. [CSL may be available]  
(This course is offered as USP 560 and PLSI 560. Students may not repeat the course under an alternate prefix.)

Course Attributes:  
- UD-D: Social Sciences  
- Social Justice

USP 565 Social Policy and Family Systems (Units: 4)  
Prerequisite: Upper division standing.  
Background and analytical tools to understand impact of past, current and proposed public policies on families in the U.S.; role of the state; analysis of specific policy areas—i.e., healthcare, income and employment, poverty, taxation, medical rights, education, violence; legal rights of families.

USP 570 Urban Health Policy (Units: 3)  
Prerequisites: Upper division standing, ENG 214 or equivalent.  
(This course is offered as USP 570, LABR 570, and PLSI 570. Students may not repeat the course under an alternate prefix.)
USP 580 Housing Policy and Planning (Units: 3)
Prerequisite: Upper division standing.
Social, economic, and technical aspects of urban housing; market analysis, housing production, tenant/landlord relations, finance, government regulation, subsidies. (This course is offered as USP 580 and PLSI 580. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

USP 603 Public Service Internships (Units: 3)
Prerequisites: Upper division standing; concurrent enrollment in PLSI 604; consent of instructor.
Fieldwork in approved public, private, non-profit, or political organization under supervision of organization staff and faculty coordinator. May be repeated on advisement. [CSL may be available]
(This course is offered as PLSI 603 and USP 603. Students may not repeat the course under an alternate prefix.)

USP 604 Internship Seminar (Unit: 1)
Prerequisites: Upper division standing; concurrent enrollment in PLSI 603.
Analysis of internship experiences. May be repeated on advisement. [CSL may be available]
(This course is offered as PLSI 604 and USP 604. Students may not repeat the course under an alternate prefix.)

USP 651 San Francisco Bay Area Environmental Issues (Units: 4)
Prerequisite: Upper division standing or consent of instructor.
Mission and work of environmental management organizations. Managing our air, water, soil, wildlife, and aesthetic resources. Land use and transportation concepts. Field projects. Classwork, 3 units; laboratory, 1 unit.
(This course is offered as GEOG 651 and USP 651. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-B: Physical Life Science
- Environmental Sustainability

USP 652 Environmental Impact Analysis (Units: 4)
Prerequisite: GEOG 205 or ENVS 224 or consent of instructor.
Cultural and physical environmental interrelationships. Evaluating impact proposals. Reconciling resource potentials with human needs, problems of social development impact, and environmental quality protection. (This course is offered as GEOG 652 and USP 652. Students may not repeat the course under an alternate prefix.)

USP 658 Land-Use Planning (Units: 4)
Prerequisite: ENG 214 or equivalent.
The institutions, practice, and methodology of land-use planning. Relationship of planning to socio-economic objectives within the context of market and political forces. The planning process, locational analysis, zoning, and negotiated development. Classwork, 3 units; laboratory, 1 unit.
(This course is offered as GEOG 658 and USP 658. Students may not repeat the course under an alternate prefix.)

USP 660 The Roles of Nonprofit Organizations in Urban Life (Units: 3)
Prerequisite: Restricted to senior Social Work majors.
Analysis of non-profit organizations in social services: the arts, housing, environmental and community advocacy. The role of the board, laws, consumers and donors, income, volunteers, and decision-making. (Plus-minus letter grade only)
(This course is offered as S W 660, PLSI 660, and USP 660. Students may not repeat the course under an alternate prefix.)

USP 680 Senior Seminar (Units: 4)
Prerequisites: USP 401GW, USP 492, USP 493, USP 480 or USP 658, USP 603, USP 604; or consent of instructor.
Practicum in policy and planning. Projects for clients outside the university. Preparation for professional work or continued study upon graduation. Open to seniors in Urban Studies after completing sufficient USP core requirements. Classwork, 3 units; activity, 1 unit. [CSL may be available]

USP 681 Senior Thesis (Units: 4)
Prerequisites: Restricted to senior Urban Studies and Planning majors and minors; USP 401GW, USP 492, USP 493, USP 480 or USP 658, USP 604, or consent of instructor.
Directed guidance leading to the completion of a senior research project based on intensive individual study of a topic or problem related to urban studies, policy and/or planning. Data gathering, analysis and presentation (oral and written) of original research. (Plus-minus ABC/NC)

USP 685 Projects in the Teaching of Urban Studies (Units: 1-4)
Prerequisites: Consent of instructor and completion of course (or equivalent) in which student will be assisting.
Students serve as instructional aides in order to enrich their knowledge of the subject and the general processes of learning and teaching. Help develop course materials, plan and review course structure and activities, and provide assistance to students in class activities such as writing assignments, research projects, and fieldwork. (Students may earn a maximum of 4 units toward the baccalaureate degree for any course(s) numbered 685 regardless of discipline.)

USP 686 Field Work in Urban Studies (Units: 1-4)
Prerequisite: Upper division standing or consent of instructor.
Supervised field research including preparation of policy papers, developing databases on local issues, and applied policy work. Editorial and production work for annual Urban Studies publications: Urban Action and the Alumni Survey. May be repeated for a total of 8 units.

USP 699 Independent Study (Units: 1-4)
Prerequisite: Consent of instructor.
Supervised individual research project of special interest to develop research capability.
Women and Gender Studies (WGS)

WGS 150 Women and Gender in U.S. History and Society (Units: 3)
Historical development of institutions and ideals and the evolution of economic, political, and social processes in the U.S. since colonization; roles and status of women.
Course Attributes:
- U.S. History
- D2: Social Sciences: U.S. Hist
- Am. Ethnic & Racial Minorities
- Social Justice

WGS 160 Gender, Politics, and Citizenship (Units: 3)
U.S. political ideals, institutions, and processes; implications for gender-based contributions to public life.
Course Attributes:
- U.S. Govt CA State Local Govt
- D3: Social Sciences: US CA Gov
- Am. Ethnic & Racial Minorities

WGS 200 Introduction to Women and Gender Studies (Units: 3)
Introduction to origins, purpose, subject matter, and methods of women and gender studies and the feminist perspectives on a range of social issues affecting women.
Course Attributes:
- E1: Lifelong Learning Develop
- D1: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 220 Introduction to Feminist Disability Studies (Units: 3)
Prerequisites: Upper division standing; any GWAR course.
A history of urban planning, primarily in the U.S. from its roots in the 19th century to its development as a contemporary civic endeavor. Examination of the relationship between planning theory and practice based on classic and current readings.
Course Attributes:
- Social Justice

WGS 280 Introduction to Feminist Science Studies (Units: 3)
Prerequisite: ENG 114 or equivalent.
Introduction to the feminist analysis of science, technology, medicine, and the environment, building scientific and cultural literacy necessary to address issues at the intersection of scientific inquiry and social justice.
Course Attributes:
- Social Justice

WGS 300GW Gender, Race, and Nation - GWAR (Units: 3)
Prerequisites: Restricted to Women and Gender Studies majors and minors; WGS 200, ENG 214 or equivalent with a grade of C- or better.
Intersectional, transnational, transdisciplinary analysis of women and gender. Topics include U.S. women of color feminisms and contemporary social justice movements. (ABC/NC grading only)
Course Attributes:
- Graduation Writing Assessment

WGS 301 Women, Gender, and Community (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Discussion of community as a concept, as well as specific communities that address women's or gender issues. Topics may include imagined communities, scholarly communities, community activism, coalition politics, and other forms of feminist affinity and networking.

WGS 303 Women as Creative Agents (Units: 3)
Prerequisite: ENG 114.
Personal expression and self-definition through creative experience in various media: drawing, painting, photography, poetry, sculpture, and writing. Work of women artists, filmmakers, poets.
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Social Justice

WGS 304 Gender and Popular Culture (Units: 3)
Prerequisite: ENG 214.
The question of representation; that is, the formation of culture in relation to women and gender. How women and gender are constructed, narrated, and represented in both written and visual cultures.
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 305 Women and Gender Studies Lecture Series (Units: 3)
Prerequisite for WGS 805: WGS 700 or consent of instructor.
Prerequisite for WGS 305: ENG 214 or equivalent.
Lecture series provides a sampling of feminist perspectives on scholarship, research, and activism including presentations, film screenings, and academic lectures on current theories and topics in the field of women and gender studies.
(WGS 805/WGS 305 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 400 Research Methods in Women and Gender Studies (Units: 3)
Prerequisite: ENG 214 or equivalent.
Women and gender: feminist knowledge, review of methodological problems, and the understanding of the importance of power relations in the formation of knowledge.
WGS 420 Native Genders and Feminism (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to Native genders and feminist theories, methods, and activism as developed within the United States and Canada with an overview of the field(s) with a focus on k and emergent scholarship and political issues. (This course is offered as AIS 420 and WGS 420. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

WGS 423 Geographic Perspectives on Gender, Environment, and Development (Units: 3)
Prerequisites: Upper division standing; ENG 214; or consent of instructor.
Explores geographic frameworks linking gender and environment and examines how they have influenced the practice of development. Case studies from US, Latin America, Africa and Asia. Topics include global restructuring, gender-population-environment. (This course is offered as GEOG 423 and WGS 423. Students may not repeat the course under an alternate prefix.)

WGS 440 Native Sexualities and Queer Discourse (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
A comparative, interdisciplinary, socio-historical analysis of Native sexualities and gender constructions from indigenous centered perspectives; examination of the complexity of Native sexualities, gender formations, and queer indigenous identity movements. (This course is offered as AIS 440, SXS 440, and WGS 440. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 445 Gendered Borders: Latinas and Globalization (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Gender and globalization: moving society toward borderless economies with barricaded borders. Latinas struggle for fair wages, self-determination, and healthy families. Women living in U.S. and Latin America adjusting to transnational reality. (This course is offered as LTNS 445 and WGS 445. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 485 Women and Media (Units: 3)
Prerequisite: Upper division standing.
Analytic modes, including feminist, psychoanalytic, and economic criticism, to assess both how women are represented in mass media and the status of women employed in mass media. (This course is offered as BECA 485 and WGS 485. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Social Justice

WGS 505 Gender, Sexuality, and Latino Communities (Units: 3)
Prerequisite: Upper division standing or consent of instructor.
Introduction to the social organization of gender and sexuality in Latino communities; exploration of ways gender and sexuality are given specific cultural meaning among the pan-Latino population. (This course is offered as LTNS 505 and WGS 505. Students may not repeat the course under an alternate prefix.)

WGS 511 Women and Violence (Units: 3)
Prerequisite: ENG 214 or equivalent.
Psychological and physical violence visited upon vulnerable populations, particularly women. Topics include relations between gender, race, class, nation, and violence; research, theories and controversies within feminist anti-violence movements.

WGS 513 Gender, War, and Militarism (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of literature, history, media, and theory, to analyze the gendered political, cultural, and ideological stakes of war and militarism.
Course Attributes:
- UD-C: Arts and/or Humanities
- Global Perspectives
- Social Justice

WGS 514 Women and the Prison Industrial Complex (Units: 3)
Prerequisite: ENG 114 or equivalent.
Incarceration of women and children in prisons, jails, juvenile, and mental institutions. Treatment on the basis of race, class, and ethnicity; reforms or alternatives to incarceration.
Course Attributes:
- UD-C: Social Sciences
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice
WGS 515 Gender, Race, and Reproduction (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of the mutually constitutive ways gender norms and racial knowledge are shaped; focus on the study of the history and politics of reproduction. Various state policies, programs, and laws aimed at controlling reproduction examined.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives

WGS 516 Gender and Visual Culture (Units: 3)
Prerequisite: ENG 214 or equivalent.
Using an interdisciplinary/transnational perspective, this course will examine how gender is understood through visual registers and how visual culture depends upon ideas about gender. Key authors, concepts, and methodologies in the field of visual studies will be covered.

WGS 530 Women and Gender Studies and Social Theory (Units: 3)
Prerequisite: ENG 214 or equivalent.
Influence of social theory on feminist issues and literatures. Topic to be specified in Class Schedule. May be repeated for a total of 9 units when topics vary.

WGS 533 Women, Men, and Cultural Change (Units: 3)
Prerequisite: ENG 214 or equivalent.
Film, literature, small group discussion/dynamics used to help women and men become better co-workers, parents, political allies, friends, lovers. Re-educates women and men of different cultures to new understandings of their interpersonal/social relations.

WGS 534 Gender and the Law (Units: 3)
Prerequisite: ENG 114 or equivalent.
Study of feminist legal thought and analysis of the role law plays in maintaining or transforming gendered societies. Topics include family law, LGBT rights, and reproductive rights, affirmative action and equal protection laws, and law, culture, and international human rights.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Social Justice

WGS 535 History of Women in Latin America (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent; or consent of instructor.
History of the changing roles of women in Latin America from the colonial period to the present. (This course is offered as HIST 535, WGS 535, and LTNS 533. Students may not repeat the course under an alternate prefix.)

WGS 536 Gender, Globalization, and Women's Human Rights (Units: 3)
Prerequisite: ENG 214 or equivalent.
Critical examination of the historical and political rise of women's human rights as a national policy issue. Analyzes the assumptions of how gender and race inform ideas of women's human rights and globalization.
Course Attributes:
• UD-D: Social Sciences
• Global Perspectives
• Social Justice

WGS 541 Women Writers and Social Change (Units: 3)
Prerequisite: ENG 214 or equivalent.
Relationship between women’s literature and women’s participation, as activists and theorists, in movements for progressive social change.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice

WGS 542 Gender and Popular Music (Units: 3)
Prerequisite: ENG 214 or equivalent.
Focuses on how music can restate and resist notions of gender, race, sexuality and nationality. Music styles may include blues, jazz, folk, corridos, country, bhangra, disco, punk, rock, salsa, and hip-hop. Analyzes popular music in the U.S. and internationally.
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives

WGS 546 20th Century American Jewish Women Writers (Units: 3)
Prerequisite: ENG 214 or equivalent.
Exploration through novels, short fiction, and memoir the connections American women forge and the tensions they experience via encounters with self, family, Judaism, American society, and world history. (This course is offered as JS 546, ENG 546, and WGS 546. Students may not repeat the course under an alternate prefix.)
Course Attributes:
• UD-C: Arts and/or Humanities
• Am. Ethnic & Racial Minorities
• Global Perspectives

WGS 548 Literature by U.S. Women of Color (Units: 3)
Prerequisite: ENG 214 or equivalent.
Literature by African American, Latina, Asian American, and Native American women. Literary forms, styles, images, and themes in relation to racism, sexism, homophobia, ableism, and daily life in the U.S.
WGS 551 Queer Literatures and Media (Units: 3)
Prerequisite: ENG 214 or equivalent or consent of instructor.
Queer literature and media productions from a feminist and transnational perspective; intersectional analysis of gender, race, class, sexuality, and citizenship to examine fiction, film, cultural, and historical texts. (This course is offered as WGS 551 and SXS 551. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- E1: Lifelong Learning Develop
- UD-C: Arts and/or Humanities
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 552 Transgender Identities and Communities (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of transgender and transsexual identities in cultural and historical contexts using a transnational feminist approach. Presents a challenge to Western gender binaries and analyzes gender through nation, race, sexuality, and class.
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 554 Gender and Global Migration (Units: 3)
Prerequisite for WGS 754: WGS 700 or consent of instructor.
Prerequisites for WGS 554: ENG 214 or equivalent; WGS 200.
Study of gender, migration, and labor. Causes, conditions, and challenges of displacement.
(WGS 754/WGS 554 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 561 Women, Ethnicity, and Social Movements (Units: 3)
Prerequisite: ENG 214 or equivalent.
Themes include inter-raciality and multi-ethnicity in the history, culture, and contemporary lives of women of color, including African American, Native American, Asian American, and Latina women.
Course Attributes:
- Am. Ethnic & Racial Minorities
- Social Justice

WGS 562 History of African American Women (Units: 3)
Prerequisite: ENG 214 or equivalent.
Experiences of Black women under slavery; in their pioneering roles as industrial, domestic, and agricultural workers; and in their varied political, social, and educational roles from the 19th century to present.
Course Attributes:
- UD-D: Social Sciences
- Am. Ethnic & Racial Minorities
- Social Justice

WGS 563 Gender, Sexuality, and the Politics of Mobility (Units: 3)
Prerequisite: ENG 214 or equivalent.
How do gender and sexuality inform, enable or prevent people’s relationship to different forms of mobility (migration, embodiment, detention) in a transnational world? Is mobility always positive? Course texts may include film, cultural studies, political and social theory, and history.
Course Attributes:
- UD-D: Social Sciences
- Global Perspectives

WGS 564 Women Writers and the Politics of Decolonization (Units: 3)
Prerequisite for WGS 764: WGS 700 or consent of instructor.
Prerequisite for WGS 564: ENG 214 or equivalent.
Literature by women writers which addresses histories of colonialism and/or imperialism. Emphasis on intersections of gendered political, economic, and social transformations.
(WGS 764/WGS 564 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 565 Muslim Feminisms (Units: 3)
Prerequisite: ENG 214 or equivalent.
Examination of differences/similarities in women’s lives in Muslim/Arab world, including diaspora in Europe and North America; minorities in Arab Middle East. Analysis includes issues of gender as relates to nationalism, religion, and culture.
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives

WGS 566 Gender and Modernity in the Muslim and Arab Worlds (Units: 3)
Prerequisite: ENG 214 or equivalent.
Investigates implications of the project of modernity/modernization for gender and sexuality in the Muslim and Arab worlds. By interrogating dichotomies that oppose tradition to modernity, examines the multifaceted ways in which gender identities are produced historically. [Formerly ETHS 566]
(This course is offered as WGS 566 and RRS 566. Students may not repeat the course under an alternate prefix.)
Course Attributes:
- Am. Ethnic & Racial Minorities
- Global Perspectives
- Social Justice

WGS 570 Women, Gender, Policy, and Justice (Units: 3)
Prerequisite for WGS 770: WGS 700 or consent of instructor.
Prerequisite for WGS 570: ENG 214 or equivalent.
Examination of a specific issue in public policy, its role in the formation of gender inequities, and its impact on the position of women in the economy.
(WGS 770/WGS 570 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
WGS 571 Gender, Poverty, and Globalization (Units: 3)
Prerequisite for WGS 771: WGS 700 or consent of instructor.
Prerequisite for WGS 571: ENG 214 or equivalent.
Understanding of globalization and its relation to poverty, work with a community organization concerned with these issues. [CSL may be available]
(WGS 771/WGS 571 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
WGS 578 Women, Globalization, and Ecology (Units: 3)
Prerequisite for WGS 778: WGS 700 or consent of instructor.
Prerequisite for WGS 578: ENG 214 or equivalent.
Ecological issues concerning women and gender from a third world women's perspective: environmental racism and justice, ecology, health, development, and international human rights.
(WGS 778/WGS 578 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
WGS 580 Feminism and the Speculative: Another World is Possible (Units: 3)
Prerequisite: ENG 214 or equivalent.
Draws on critical theory, science fiction, film, art, political action and new media to investigate how imagining and inhabiting "other worlds" such as utopias, dystopias, alternate histories, imagined futures, can inform feminist thought, political activism, and cultural production.
WGS 593 Gender, Health, and the Environment (Units: 3)
Prerequisite: ENG 214 or equivalent.
Emergence of "western medicine" as primary paradigm, and the consequences of socio-political formations to women's health. Emergence of "holistic" treatments, "traditional" medicine from indigenous and pre-colonial perspectives, and oppositional health practices emerging from environmental movements.
Course Attributes:
• UD-D: Social Sciences
• Environmental Sustainability
• Global Perspectives
WGS 595 Anthropology of Women (Units: 3)
Prerequisite: ENG 114 or equivalent.
Ethnographic, physical, anthropological, and pre-historical materials on women. Theories on origins of the family, social structuring of sexuality, and changing sex and gender in modern societies.
(This course is offered as ANTH 590, CST 590, and WGS 595. Students may not repeat the course under an alternate prefix.)
WGS 601 Gender, Tourism, and Neoliberalism (Units: 3)
Prerequisite for WGS 801: Graduate standing or consent of instructor.
Prerequisites for WGS 601: ENG 214 or equivalent, WGS 200, or consent of instructor.
Analysis of how neoliberal service economies, particularly urban tourism, reconfigure and put to work race and gender meanings. Focus on the production of new modes of consumption including racialized tourist sites, cosmopolitan adventures, and gay weddings.
(WGS 801/WGS 601 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
WGS 602 Feminist Cultural Activism (Units: 3)
Prerequisite: ENG 214 or equivalent.
Relationship between cultural production and social change. Focus on cultural activism media through gender, sexuality, and other historical norms to assess feminist implications of their modes of resistance.
(Plus-minus ABC/NC [undergraduate] or plus-minus AB/NC [graduate])
[CSL may be available]
(WGS 802/WGS 602 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
WGS 611 Theories of Female Sexuality (Units: 3)
Prerequisite: ENG 214 or equivalent.
Relationship between female sexuality and its historical, social, and ideological contexts focusing on trends and issues in current feminist thought. Topics include critical race studies, lesbian/gay/bisexual/transgender studies, transnational feminism, reproductive and non-reproductive sexualities.
WGS 612 Queer Theory (Units: 3)
Prerequisites: Women and Gender Studies majors and minors; ENG 214 or equivalent, WGS 200; or consent of instructor.
Examination of the field of queer theory: theoretical approaches to the history of sexuality, politics of normativity, race/sex intersections, links between queer theory and disability studies, transnational contexts, and native/settler/colonial politics. [Formerly WGS 512.]
WGS 621 Feminist Theories (Units: 3)
Prerequisites: ENG 214 or equivalent, WGS 200, or consent of instructor.
Analysis of feminist theories and practices internationally and historically; examination of theories of gender, race, class, sexuality, identity, community, modernity, and nation. Study of methods, histories, and implications of feminist thought in various academic, cultural, and political contexts.
Course Attributes:
• UD-D: Social Sciences
• Am. Ethnic & Racial Minorities
• Global Perspectives
• Social Justice
WGS 681 Genetics, Biotechnology, and the Politics of Difference (Units: 3)
Prerequisites: Upper division standing; ENG 214 or equivalent.
Employs feminist science studies, critical race theory, and indigenous studies to analyze how the life sciences conceptualize, define, and study human differences. Considers how feminist insights into the social effects of genetics and biotechnology can influence scientific practice and discourse.
(This course is offered as WGS 681 and AIS 681. Students may not repeat the course under an alternate prefix.)
WGS 690 Senior Seminar (Units: 3)
Prerequisites: WGS 200, WGS 300GW, ENG 214 or equivalent.
Focuses on enabling students to evaluate their learning progress by creating a portfolio which includes writing a paper analyzing their work. Students collaborate to produce a publication. (Plus-minus letter grade only)
WGS 698 Work Study in Feminist Projects (Units: 1-6)
Prerequisite: Upper division standing or consent of instructor.
Supervised community or university service that relates to the women studies major, individual women studies courses, or the student’s own major. May be repeated for a total of 9 units. [CWL may be available]

WGS 699 Independent Study (Units: 1-6)
Prerequisite: ENG 114 or equivalent.
Special study in some aspect of feminism or women and gender studies, performed under department faculty supervision. Enrollment by petition. May be repeated for a total of 9 units.

WGS 700 Introduction to Graduate Study (Units: 3)
Prerequisite: MA Women and Gender Studies Student.
Origins and current status of women and gender studies as a field of knowledge. Relationships between gender and epistemology; feminist critiques and transformations of research methodologies. Identification of major works and issues in feminist scholarship.

WGS 710 Feminist Social Movements (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Social stratification and the state; political marginalization of women. Equalitarianism in the legacy of women’s participation in society. Colonial transformations and the politics/culture of resistance. Turning points in women’s activism. Impact of race/class inequities.

WGS 712 Queer Theories (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Examination of queer theory from a transnational feminist approach; production of sexuality within western epistemology; politics of sexual deviance and the racialization of sexual identities from socio-economic and cultural perspectives.

WGS 713 Intellectual Genealogies (Units: 3)
Prerequisite: WGS 700 (may be taken concurrently) or consent of instructor.
Specific issues, topics, or theoretical tendencies in current feminist discussion and debate; implications of theory for social practice.

WGS 720 Feminist Pedagogies (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Examines feminist critical education theories and praxis with a transnational lens. Topics may include history of the University and gender tactics of colonialism; intersectional analysis of disability studies; theory/praxis debates; pedagogies of the oppressed; and teaching transgression. (Plus-minus letter grade only)

WGS 747 Feminist Criticisms (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Diverse feminist theoretical and critical approaches in social contexts; canons; female aesthetics; social, linguistic, and psychoanalytic approaches. (This course is offered as WGS 747 and ENG 747. Students may not repeat the course under an alternate prefix.)

WGS 752 Feminism, Race, and the Politics of Difference (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Considers the “difference politics” that emerged out of the 1960s and 1970s Civil Rights and women’s movement activism. Explores how these politics frame understanding of difference and justice; intersectionality, pluralism, multiculturalism, and post-racialism.

WGS 754 Gender and Global Migration (Units: 3)
Prerequisite for WGS 754: WGS 700 or consent of instructor.
Prerequisites for WGS 554: ENG 214 or equivalent; WGS 200.
Study of gender, migration, and labor. Causes, conditions, and challenges of displacement. (WGS 754/WGS 554 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 760 Issues in Women’s Literature and Culture (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Women’s literature and its role and impact on culture. Topic to be specified in Class Schedule. May be repeated for a total of 9 units when topics vary.

WGS 762 Women, Labor, and Power (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Transnational examination of the role of work in women’s lives. Focus on historical, literary, and ethnographic narratives of survival strategies, protest, and labor organizing from nineteenth-century to present.

WGS 764 Women Writers and the Politics of Decolonization (Units: 3)
Prerequisite for WGS 764: WGS 700 or consent of instructor.
Prerequisite for WGS 564: ENG 214 or equivalent.
Literature by women writers which addresses histories of colonialism and/or imperialism. Emphasis on intersections of gendered political, economic, and social transformations. (WGS 764/WGS 564 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 766 Gender and Modernity in the Muslim and Arab Worlds (Units: 3)
Prerequisite: WGS 700 or consent of instructor.
Investigates implications of the project of modernity/modernization for gender and sexuality in the Muslim and Arab worlds. By interrogating dichotomies that oppose tradition to modernity, examines the multifaceted ways in which gender identities are produced historically.

WGS 770 Women, Gender, Policy, and Justice (Units: 3)
Prerequisite for WGS 770: WGS 700 or consent of instructor.
Prerequisite for WGS 570: ENG 214 or equivalent.
Examination of a specific issue in public policy, its role in the formation of gender inequities, and its impact on the position of women in the economy. (WGS 770/WGS 570 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 771 Gender, Poverty, and Globalization (Units: 3)
Prerequisite for WGS 771: WGS 700 or consent of instructor.
Prerequisite for WGS 571: ENG 214 or equivalent.
Understanding of globalization and its relation to poverty, work with a community organization concerned with these issues. [CWL may be available]
(WGS 771/WGS 571 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)
WGS 772 Sexuality, Visual Culture, and the Arts (Units: 3)  
Prerequisite: Graduate standing or consent of instructor.

Examination of the cultural politics of representations of sexuality in visual culture and the arts, with emphasis on how such representations are produced in relationship to race, class, gender, and nation. (Plus-minus letter grade only)  
(This course is offered as SXS 772 and WGS 772, and may not be repeated under the alternate prefix.)

WGS 778 Women, Globalization, and Ecology (Units: 3)  
Prerequisite for WGS 778: WGS 700 or consent of instructor.  
Prerequisite for WGS 578: ENG 214 or equivalent.

Ecological issues concerning women and gender from a third world women's perspective: environmental racism and justice, ecology, health, development, and international human rights. (WGS 778/WGS 578 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 798 Feminist Internship: Gender and the Nonprofit Industrial Complex (Units: 1-4)  
Prerequisite: WGS 700 (may be taken concurrently) or consent of instructor.

Supervised volunteer community service learning; course materials include analysis of gendered politics of volunteer labor, the nonprofit industrial complex, theory/practice binary, local/global contexts, feminist transnational analysis. May be repeated for a total of 4 units. [CSL may be available]

WGS 801 Gender, Tourism, and Neoliberalism (Units: 3)  
Prerequisite for WGS 801: Graduate standing or consent of instructor.  
Prerequisites for WGS 601: ENG 214 or equivalent, WGS 200, or consent of instructor.

Analysis of how neoliberal service economies, particularly urban tourism, reconfigure and put to work race and gender meanings. Focus on the production of new modes of consumption including racialized tourist sites, cosmopolitan adventures, and gay weddings. (WGS 801/WGS 601 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 802 Feminist Cultural Activism (Units: 3)  
Prerequisite: ENG 214 or equivalent.

Relationship between cultural production and social change. Focus on cultural activism media through gender, sexuality, and other historical norms to assess feminist implications of their modes of resistance. (Plus-minus ABC/NC [undergraduate] or plus-minus AB/NC [graduate])  
[CSL may be available]  
(WGS 802/WGS 602 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 805 Women and Gender Studies Lecture Series (Units: 3)  
Prerequisite for WGS 805: WGS 700 or consent of instructor.  
Prerequisite for WGS 305: ENG 214 or equivalent.

Lecture series provides a sampling of feminist perspectives on scholarship, research, and activism including presentations, film screenings, and academic lectures on current theories and topics in the field of women and gender studies. (WGS 805/WGS 305 is a paired course offering. Students who complete the course at one level may not repeat the course at the other level.)

WGS 820 Feminist Research Methods (Units: 3)  
Prerequisites: Graduate standing; WGS 700; or consent of instructor.

Social research and feminism. Analyze research studies, develop skills, and develop their master's projects. (Plus-minus letter grade only)

WGS 894 Creative Work Project (Units: 3)  
Prerequisites: WGS 700; approval of the graduate major advisor, approval of Advancement to Candidacy (ATC) and Fulminating Experience (CE) forms by Graduate Studies.

An original creative work. Projects must be described in a written document that summarizes the project's relation to other work in the area, its rationale, its significance, and its creative methodologies. ATC and Proposal for Fulminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC only)

WGS 895 Field Study Project (Units: 3)  
Prerequisites: WGS 700; approval of the graduate major advisor, and approval of Advancement to Candidacy (ATC) and Fulminating Experience (CE) forms by Graduate Studies.

A field study or applied research project resulting in a completed written work that includes the project's significance, objectives, methodology, and conclusions or recommendations. ATC and Proposal for Fulminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC grading only)

WGS 897 Advanced Feminist Graduate Literatures (Units: 3)  
Prerequisites: WGS 700; consent of Graduate Advisor.

Prepares students to write a feminist literature review on topics related to their Fulminating Experience projects. Reading of a variety of literature reviews and learning the conventions of writing literature reviews. (CR/NC only)

WGS 898 Master's Thesis (Units: 3)  
Prerequisites: WGS 700; approval of Advancement to Candidacy (ATC) and Fulminating Experience (CE) forms by Graduate Studies; consent of graduate major advisor.

Intensive study of a topic or issue within the field of women and gender studies, culminating in a written thesis showing independent thinking, appropriate methodology and organization, clarity of purpose, thorough documentation, and relevant conclusions. Advancement to Candidacy (ATC) and Proposal for Fulminating Experience Requirement forms must be approved by the Graduate Division before registration. (CR/NC only)

WGS 899 Independent Study (Units: 1-4)  
Prerequisite: Consent of graduate major advisor and supervising faculty member.

Study is planned, developed, and completed under the direction of a member of the department faculty. Open only to graduate students who have demonstrated ability to do independent work. Enrollment is by petition. May be repeated for a total of 6 units.
